

# Sustainable Products/ Swag

Check out these companies for sustainable swag:

www.ecopromotionsonline.com
www.recycledproducts.com
www.customearthpromos.com
http://www.ecoimprints.com

- When having an event, avoid using items that are not recyclable.  For example, styrofoam, which is not recyclable and negatively impacts our goal of reaching Zero Waste by 2025
- 
- Consider purchasing items that are made from recycled content.  This helps ensure the that we are not using "virgin" material.
- 
- Balloons, glitter and similar products impact our oceans and waterways and are not biodegradable or recyclable.
- 
- If you're distributing "swag" consider a sustainable option such as refillable pens, reusable coffee mugs, reusable straws or silverware. For more information on sustainable swag, options consider these website link.
- 
- Consider the following before purchasing:  Do you need it?  Is it a product that is useful?  Is it made from recycled material?  Can it be recycled or reused at the end of its life?
