ILYASAH SHABAZZ

DAUGHTER OF MALCOLM X,
PROFESSOR AND AUTHOR

Sept. 20, 6 p.m., USU Ballroom

How do we ensure that the student activism witnessed during the pandemic and after the demise of George Floyd not only continues but also makes an impact around the world? Ilyasah Shabazz, the third daughter of the late Malcolm X and Dr. Betty Shabazz, believes you can look back at the historical legacy of her mother and father to find inspirational solutions.

In her keynote presentation, Shabazz –

an award-winning author, educator and producer – will share powerful stories of what she learned from her iconic activist parents and how you, too, can make the diverse world more equitable and inclusive for all. These are stories about courage, compassion, purpose and leadership – about how you can turn a movement into a reality for both today and generations to come. Shabazz will provide insight into the power of positivity and share her experiences growing up surrounded by love, determination and the legacy of her father. She will inspire teachers, parents, students and communities to be the best they can be, so they can give their best to others and to society.
