18. Reason(s) for changing this course: Changing course number from 300 to 400 level will allow for graduate students to petition for credit. Many entering graduate students in ecology need to have Vertebrate Biology for their education; a 400 number will allow the graduate students to count the course for their degree. The course is already advanced enough for graduate students, and I was also not aware of 300/400/500 numbering system when I originally put C form in during my first semester. Course description will not change.
