Hi, Sharon -
I'm sorry not to have gotten back to you sooner; I was out of town and am just catching up on email. I'm happy to approve this change; thank you for checking in with us.

Best,

Jocelyn

---

Hi Jocelyn,
Did you have a chance to review this title change? I know you are probably swamped but I am hoping to get this to the curriculum committee ASAP.

Thanks for any help you can provide,

Sharon

---

Hi Jocelyn,
I hope this email finds you doing well. I am contacting you to let you know that we need to make a minor change in Psyc 210 Intro to Developmental Psychology so that the course aligns more closely with the same course taught at the community college. We want to change the title (that is it) so that it will be called Child Growth and Development (the course will still address development through adolescence). I have attached the C2 form and a syllabus from the Psyc 210 course.

If you are OK with the name change, please send me an email and I will attach it to the course form. I'm happy to talk with you if you have any questions.

Thanks very much,
sharon

Required Text: Berger, Developing Person through Childhood and Adolescence, 9th Ed., Worth Publishing

CATALOG DESCRIPTION:
From the University Catalog description of Psych 210:
“An introductory survey course that utilizes a chronological approach to examine human development from birth through adolescence. Includes a study of physical development and health; developmental issues of children with special needs; cognitive and moral development; social and personality development; and genetic, sociocultural, and other influences on development.”

COURSE STUDENT LEARNING OUTCOMES: Students successfully completing this course will:
- Describe stages of cognitive development (e.g., reasoning, symbol manipulation, and problem solving), including in children with special needs
- Define basic concepts in cognitive and moral development
- List milestones in language development
- Identify characteristics of play and their influence on social and cognitive development
- Explain different perspectives on intelligence (e.g., concepts of multiple intelligences) and their implications for identifying and describing individual differences in cognitive development
- Define concepts related to development of personality and temperament
- Describe the social development of children and adolescents, including children with special needs
- Discuss influences on the development of prosocial behavior and aggression
- Describe physical development at different ages
- Explain individual differences in physical development, including children with special needs
- Identify potential impacts on development including genetic, socioeconomic, and gender roles
- Identify sources of possible abuse and neglect and describe the impact on development
- Use developmental concepts and principles to explain children’s behavior
- Research a topic in developmental psychology using published findings and original observation.
- Write clearly and effectively
- Cite in APA style

The above objectives and goals are consistent with the Psychology Program Student Learning Outcomes (PSLO), two of which apply to Psyc 210:
- PSLO 3: Apply creative and critical thinking and employ skeptical inquiry to addressing issues and solving problems related to psychological phenomenon.
- PSLO 5: Thoughtfully consider and appraise alternative viewpoints, diverse sociocultural perspectives and ethical issues related to psychological topics.
CLASS PROCEDURES:

WORKLOAD AND ATTENDANCE

Students are expected to spend an average of 6-9 hours per week working on this course, in addition to class hours. Students are expected to attend all class sessions, to arrive on time and to stay for the entire class period. Cell phones and other devices must be turned off. There will be no taking attendance for this large class. Success will depend on your own motivation.

TESTS AND QUIZZES

Quizzes will be given frequently and will be taken via the Cougar Course site for this class. Chapter quizzes will cover material from the readings and lectures prior to the quiz. You will be able to drop your lowest quiz score. Special content quizzes and exercises will cover paraphrasing and other topics.

There will be two tests, a mid-term and a final. The tests will be multiple choice and non-cumulative. If you have a legitimate emergency and can provide written documentation, you may be allowed to take a makeup for Test 1. A missed final may result in receiving an Incomplete for the class.

COUGAR COURSES (Moodle)

We will be making extensive use of Cougar Courses in this class. You should check for announcements before each class. If a class must be cancelled, I will announce it using Cougar Courses.

PAPERS AND RELATED ACTIVITIES

To meet the university writing requirement, you will be assigned two five-page papers involving library research and original observational research with a total minimum page requirement of 10 pages. (You will get further information about these papers.). Papers will be submitted via Turnitin on Cougar Courses, only.

STATEMENT ON ACADEMIC HONESTY:

In addition to giving a failing grade for any paper or test containing elements of academic dishonesty, it is my policy to report ALL instances of academic dishonesty to the Dean of Students.

(From the University Catalog, pages 321 – 322):

The maintenance of academic integrity and quality education is the responsibility of each student within this University and the CSU system. Cheating and plagiarism in connection with an academic program at a campus is listed in Section 41301, Title 5, California Code of Regulations, as an offense for which a student may be expelled, suspended, put on probation, or given a less severe disciplinary sanction. Academic dishonesty is an especially serious offense. It diminishes the quality of scholarship and defrauds those who depend upon the integrity of the campus programs. Such dishonesty includes:

A. Cheating

Using any external assistance during an exam without the instructor's permission (e.g., conversation with others [including text messaging], books, notes, calculators)  
Allowing others to conduct research or prepare work for you without the instructor’s permission (this includes using the services of commercial term paper companies)

B. Fabrication

Fabrication is the falsification or invention of any information (including data) or citation for any class assignment or academic exercise.

C. Facilitating Academic Dishonesty

Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty (e.g., knowingly allowing someone to copy your paper, homework or exam; providing information about the contents of an exam to someone who will later take the exam).
D. Plagiarism

Plagiarism most commonly occurs when material is taken from a source without proper citation. Source material must be rewritten into the students’ own words and cited and referenced.

STATEMENT ON STUDENTS WITH DISABILITIES:

Students with disabilities who require reasonable accommodations must be approved for services by providing appropriate and recent documentation to the Office of Disabled Student Services (DSS). This office is located in Craven Hall 5205, phone (760) 750-4905, or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with me during my office hours in order to ensure confidentiality.

GRADING

Grades are based on points earned and will not be curved. Grade points are earned as follows:

- Test 1 100
- Test 2 (Final) 100
- Paper 1 100
- Paper 2 100
- Chapter Quizzes 50
- Special Quizzes & Exercises 50
- Total Points 500

These points will translate to letter grades as follows:
