**Subject:** Re: UCC review of Minor in BA P-2 and Global Supply Chain Management P-2

Hi Robert,

I apologize for my delay. I have a few questions here:

Are you referring to ACCT 201 and BUS 204 as the 'pre-business' core for the minor, or something else? Yes.

Will we be getting the C2 form soon to make the change on all of the courses? I think Regina spoke to you about one form to cover all of them? **Please see attached. If you are okay with the structure let me know and I will sign and send it to Regina tomorrow.**

For the new Catalog language, what of the old language do you want to keep? You didn't cross out the section on Lower-Division Pre-Business Core so we were unclear what the full new language was to read.

**Lower-Division Pre-Business Core Requirements for the Bachelor of Science in Business Administration and the Minor in Business Administration**

I am going to put this on the agenda for Monday. It would be great if you can let me know about these additional items.

Thanks,  
Sue

**Subject:** Re: UCC review of Minor in BA P-2 and Global Supply Chain Management P-2

Hi Suzanne,

I just noticed that my response to question 3 might have not come across as I intended. What I meant to say in my response was that "They would not be disadvantaged". Please note that each option minor has selected a set of pre-business courses that are necessary for the upper division for that minor. A student who is graduating with a major in business must take ALL pre-business courses, but that is not necessary for option minors. Hope this is a better answer.

Best,  
Robert

Subject: UCC review of Minor in BA P-2 and Global Supply Chain Management P-2

Hi Robert,

I hope you are well. UCC reviewed the Minor in BA P-2, Global Supply Chain Management and OM 443 today and there were a few questions:

Minor in BA

1. In removing the pre-business core, a MATH course was removed. We reached out to Mathematics for sign-off. **Thanks, let me know if I can help.**
2. It also appears that many of the 20 units in the new Minor have 300 and 400-level courses which have pre-business core as a prerequisite. This will require C2 forms that change the restriction for enrollment in those courses, permitting students in the Minor to take them without the pre-business core. **I will take care of them. I am assuming this would also apply to the Option minor courses which comes as a P form as well, right?**
3. UCC questioned whether or not students would be at a disadvantage in these upper-division courses if they haven't completed the pre-business core? **They would.**
4. It seems some of the Catalog language will need to change and UCC would like to see the full revised catalog copy. **This applies to prerequisites mentioned in item 2, right?**

GSCM

1. UCC noted that the change in MKTG 448 from 4 units to 2 units was not reflected in this catalog copy. We will make that change for you. Can you just confirm your approval. **I approve.**

OM 443:

1. UCC recommends spelling out the acronyms in the catalog description. We can make those edits here from the syllabus. Can you just confirm your approval. **I approve.**
2. UCC also recommends that there be a clear indication of the writing requirement in the syllabus. **There is with the group project. I will spell it out.**
3. UCC would like to see updated SLOs that are consistent with the university's current position on them. Can you please provide a syllabus with updated SLOs. If you need assistance, please see Melissa Simnitt in Academic Programs. **I will ask Melissa for help and send you the updated syllabus.**

Much thanks,  
Sue
