

ORIGINATOR'S SECTION:														
1. College: <input type="checkbox"/> CHABSS <input type="checkbox"/> CoBA <input checked="" type="checkbox"/> CoEHHS <input type="checkbox"/> CSM	Desired Term and Year of Implementation (e.g., Fall 2008): Fall 2016													
2. Course is to be considered for G.E.? (If yes, also fill out appropriate GE form*) <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No														
3. Course will be a variable-topics (generic) course? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No ("generic" is a placeholder for topics)														
4. Course abbreviation and Number:* HD 385														
5. Title: (Titles using jargon, slang, copyrighted names, trade names, or any non-essential punctuation may not be used.) Ecological Systems Perspectives on Human Development														
6. Abbreviated Title for PeopleSoft: (no more than 25 characters, including spaces) Ecological Systems HD														
7. Number of Units: 3														
8. Catalog Description: (Not to exceed 80 words; language should conform to catalog copy. Please consult the catalog for models of style and format; include all necessary information regarding consent for enrollment, pre- and/or corequisites, repeated enrollment, crosslisting, as detailed below. Such information does <u>not</u> count toward the 80-word limit.) Explores ecological and systems approaches focusing on the interactions of persons, processes, contexts and time to explain and optimize human development for diverse populations. Examines growth and development across the lifespan in the context of family, community, complex organizations, social-political institutions, culture and history. Identification of potential strategies to optimize well-being and development for diverse individuals, families, groups, or communities will be explored. Enrollment restricted to Human Development majors with Junior or Senior standing. Prerequisites: ANTH 200, HD 101, HD 102, HD 220, and HD 301. Also, HD 230 or HD 231.														
9. Why is this course being proposed? This course will enhance students' understanding and competence in applying theoretical perspectives of human development within multiple systems when working within counseling, health and human services settings. The course builds on the foundational knowledge of human development theories to dive deeper in one of the most influential, yet complex and multifaceted, paradigms of contemporary developmental science and practice. The course will contribute to the first and second Program Student Learning Outcomes for the B.A. in Human Development by enhancing HD students' ability to (PSLO 1) "Demonstrate understanding of developmental theories and how biological, psychological, social, historical and cultural dynamics influence developmental processes, and use theory as a framework to address real-world problems relating to lifespan development in applied settings such as counseling, healthcare, and education," and (PSLO 2) "Demonstrate understanding of how social categories such as gender, race, ethnicity, class, age, ability, sexuality, and religion—and the intersections of these identities—relate to diverse experiences across the lifespan."														
10. Mode of Instruction* For definitions of the Course Classification Numbers: http://www.csusm.edu/academic_programs/curriculumsschedu ling/catalogcurricula/DOCUMENTS/Curricular_Forms_Tab/Instructional%20Mode%20Conventions.pdf

HD 385: Ecological Systems Perspectives on Human Development

Course Number: --
Units: 3
Term: Fall 2016
Professor: Rafael Hernández, Ph.D.
Phone: (760) 750-8252
E-Mail: rhernandez@csusm.edu
Office: University Hall 300
Office Hours: Tuesday & Thursday 2:30pm-4:00pm and by appointment

Course Description

Catalog Course Description:

Explores ecological and systems approaches focusing on the interactions of persons, processes, contexts and time to explain and optimize human development for diverse populations. Examines growth and development across the lifespan in the context of family, community, complex organizations, social-political institutions, culture and history. Potential strategies to optimize well-being and development for diverse individuals, families, groups, or communities will be explored. *Enrollment restricted to Human Development majors with Junior or Senior standing. Prerequisites: ANTH 200, HD 101, HD 102, HD 220, and HD 301. Also, HD 230 or HD 231.*

Human Development Department Mission Statement

The mission of the Human Development Department is to promote a holistic and lifespan understanding of human development from multidisciplinary and interdisciplinary perspectives. We:

- Explore the complex interplay of body, mind, culture, and environment that shapes developmental processes and outcomes
- Emphasize the integration of complementary and interdependent disciplines
- Employ the use of multiple perspectives and theoretical frameworks
- Advance evidence-based practices
- Promote social responsibility, civic engagement, and service to the greater community

Course Learning Outcomes

The Human Development (HD) degree has 5 Programmatic Student Learning Outcomes (PSLOs). These are the broad skills that a Human Development graduate will have (see the HD website for more information). This course contributes to PSLO #1 by increasing the students' ability to "Demonstrate understanding of developmental theories and how biological, psychological, familial, social, historical and cultural dynamics influence developmental processes, and use theory as a framework to address real-world problems relating to lifespan development in applied settings such as counseling, healthcare, and education," and PSLO #2 by increasing students' ability to "Demonstrate understanding of how

social categories such as gender, race, ethnicity, class, age, ability, sexuality, and religion—and the intersections of these identities—relate to diverse experiences across the lifespan.”

Each HD course has 3 or more Course Student Learning Outcomes (CSLOs) which are the specific skills that the course will address. Each CSLO contributes an important step toward reaching the goals of the PSLOs. The CSLOs for this course are the following.

Upon successful completion of this course, students will be able to:

1. Demonstrate comprehension of the dynamic transactions that occur among biological, psychological, social, cultural, environmental, ecological, economic, and political systems across time.
2. Explain how environmental conditions (e.g., poverty, unsafe living conditions, inadequate nutrition, lack of health care, deteriorated schools, and other manifestations of oppression or social stratification) impact human development for diverse populations.
3. Reframe deficit-based perspectives of human development by employing strengths-based and empowerment models to promote resilience as well as agency and resistance to oppressive social and political circumstances.

Required Readings

Tudge, J. R. H., Mokra, I., Hatfield, B., & Karnik, R. B. (2009). Uses and misuses of Bronfenbrenner’s bioecological theory of human development. *Journal of Family Theory and Review*, 1(4), 198---210.

Bronfenbrenner, U. (1994). Ecological models of human development. In T. Husen & T. N. Postlethwaite (Eds.), *International Encyclopedia of Education* (2nd Ed., Vol. 3, pp. 1643--1647). Oxford, England: Pergamon Press.

Bronfenbrenner, U. (2005). The bioecological theory of human development. In U. Bronfenbrenner (Ed.), *Making human beings human: Bioecological perspectives on human development* (pp. 3---15). Thousand Oaks, CA: Sage. (Original work published 2001)

Bronfenbrenner, U., & Morris, P. A. (2006). The bioecological model of human development. In W. Damon (Series Ed.) & R. M. Lerner (Vol. Ed.), *Handbook of child psychology: Vol. 1. Theoretical models of human development* (6th ed., pp. 793---828). New York: John Wiley.

Sameroff, A. (2009). *The transactional model of development: How children and contexts shape each other*. American Psychological Association. (available in CSUSM library)

Course Requirements: Assignments & Grading

Assignment	Corresponding CSLOs	Percent of total grade
Writing Assignments	1, 2, 3	30
Class Participation	1, 2, 3	20
Case Study	1, 2, 3	50
TOTAL		100

Writing Assignments (30%)

Respond to writing prompts provided by the instructor that invite you to think critically about developmental issues and phenomena from ecological systems perspectives. A total of six writing assignments will be included in the course. Entries should each be about 250 words in length and follow APA format.

Class Participation (20%)

Students are expected to attend each class meeting and engage in class activities and discussion. The process and outcome of this class will depend on each of our contributions. It is expected that you will prepare for each class meeting by completing the assigned readings and reflecting upon the material read. Active participation during each class session will contribute to the learning process for all involved. Each class member is asked to be ready to fully participate in class activities and this will be reflected in your grade.

Case Study (68 points total; 50% of total grade)

Students may work individually or in groups of 2-4 students. Describe personal and cultural characteristics of a de-identified individual focusing on specific developmental processes or transitions from an ecological systems perspective. Demonstrate your comprehension of the dynamic transactions that occur among biological, psychological, social, cultural, environmental, ecological, economic, and political systems across time for this particular case (CSLO 1). Explain how environmental conditions (e.g., poverty, unsafe living conditions, inadequate nutrition, lack of health care, deteriorated schools, and other manifestations of oppression or social stratification) may have impacted this person's development citing relevant personal, social and cultural characteristics (CSLO 2). From a strengths-based approach, articulate personal and environmental factors that would promote resilience for this individual with regard to specific developmental problem or struggle (CSLO 3). Describe this person's social location in the context of social, political, or economic inequities and identify ways to increase agency and resistance to oppressive social and political circumstances (CSLO 3). Write a **paper** worth 28 points (approximately 1,000 words in length) adhering to APA format and prepare a **presentation** (no more than 15 minutes in length). The **presentation** is worth 40 points and must include a visual aid which may take the form of a poster, video clip, diagram, artwork, PowerPoint, or other medium that contributes to the effective and creative communication of your ideas. See the attached rubric.

All University Writing Assignment

All CSU undergraduate students must demonstrate competency in writing skills as a requirement for graduation. At Cal State San Marcos, undergraduate students complete the graduation writing assessment through the All-University Writing Requirement. This requirement mandates that every undergraduate course at the University must have a writing component which can be achieved in a variety of ways depending on the course. The writing requirement for individual undergraduate students in a 3-unit course is 2,500 words (approximately 10 double-spaced pages). This requirement will be met in this course with the Writing Assignments (6x250=1,500 words) and Case Study Paper (1,000 words).

Credit Hour Policy Statement

Per the University Credit Hour Policy, students are expected to spend a minimum of two hours outside of the classroom each week for each unit of credit engaged in learning. Because this course has a lecture mode of instruction, each unit of credit corresponds to an hour of class-time and two hours of student learning outside of class.

Students with Disabilities

Students with disabilities who require reasonable accommodations must be approved for services by providing appropriate and recent documentation to the Office of Disabled Student Services (DSS). This office is located in Craven Hall 4300, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909, and by email sent to dss@csusm.edu. Students authorized by DSS to receive reasonable accommodations should meet with me during my office hours in order to ensure confidentiality.

Academic Honesty Statement

Students will be expected to adhere to standards of academic honesty and integrity, as outlined in the Student Academic Honesty Policy. All assignments must be original work, clear and error-free. All ideas/material that are borrowed from other sources must have appropriate references to the original sources. Any quoted material should give credit to the source and be punctuated accordingly.

Academic Honesty and Integrity: Students are responsible for honest completion and representation of their work. Your course catalog details the ethical standards and penalties for infractions. There will be zero tolerance for infractions. If you believe there has been an infraction by someone in the class, please bring it to the instructor's attention. The instructor reserves the right to discipline any student for academic dishonesty, in accordance with the general rules and regulations of the university. Disciplinary action may include the lowering of grades and/or the assignment of a failing grade for an exam, assignment, or the class as a whole.
