18. Reason(s) for changing this course:

As part of its program review of the Psychological Science MA program, the Department considered the sequencing of the graduate level statistics and methods class. We decided to allow students to take PSYC 520 and PSYC 530 in the same semester. Consequently, we want to remove PSYC 520 as a prerequisite.

18. Reason(s) for changing this course:

When the course was originally designed we anticipated teaching it as a class. However, after our program review and the changes we made to our MA program, it became clear that this course should be made available to students as a supervisory course (thereby allowing the few students who want a field experience to take it), rather than as a traditional course format.
