Hi Michael,

Thank you for submitting the requested tables. We will attach these to the P form.

As for the reference to the 14/15 hire, the committee did not feel that an updated P form was needed for us to move ahead with approving the P form. With your email UCC will consider this particular matter settled. The item was for your information in case you saw it necessary to update the hire information for review that may take place beyond UCC.

Let me know if you have any questions.

Regards,

Jay

Hello Jay,

Thank you for the most encouraging response from the UCC, even if preliminary... We're proud of our little P form. :-)

To address your questions:

1. Really? Huh. Weird... The tables (one for each option) are attached. Thanks for the heads up.

2. Yes. That hire was successfully completed in 14/15, with a start date of Fall 2015. Having a chance to work with our new colleague and get to know her was one factor in our delayed response to the CAPC queries of May 2015. Please advise: Would you like us to go through the P-form to update/clarify that reference (along with any others)? Or was it more a matter of curiosity, that is now settled with this reply? (We're happy to do whatever the UCC deems best.)

Thanks again--

Subject: UCC review of PHIL P form

Hi Michael and Jessica,

I am writing on behalf of UCC with regards to our review of the P form for a new undergraduate major in Philosophy. UCC would like to thank you for submitting an exceptional P-form that was pleasure to review.

During our review UCC did notice these two minor details:

1. On page 12 of the P-form, under question 4b ("Plans for assessing program goals") the narrative indicates "Table II for New Programs". UCC was unable to locate this table.
2. On page 28 of the P-form under question 7a the narrative indicates the tenure track search with an anticipated hire of 2015. We assume that this hire is complete? The form may contains other instances of a reference to hire in 2015.

The committee does not consider these to be significant concerns, but for completeness would like it if you could clarify these two points. UCC will be reviewing the C-forms accompanying this proposal next week.

Please let me know if you have any questions.

Regards,

Jay
