6. Catalog Description: Explores the impact of the rapidly developing information technologies of the arts – film, video, literature, music, performance, and visual art. Examines the breakdown of disciplinary boundaries as the interactive multimedia technologies combine video, text, audio and graphic images. Also explores the social and ethical implications of the new technologies and their relationship to the arts. Students will study artists whose work has been shaped by information technologies and who are helping to define the electronic interfaces and virtual worlds of the future. Includes lectures, demonstrations, hands-on training, discussions, and research papers.			Number of Units:

18. Reason(s) for changing this course:

Our new major combines what has previously been two separate options in the Visual and Performing Arts BA degree program. In developing the new major in Art, Media and Design, we are moving to one prefix for all courses, which necessitates a revision in numbering as well. The catalog description has changed to better describe the content of the course. The content of the class changes from semester to semester, so students are exposed to new information.
