NEW INFORMATION:

CURRENT INFORMATION:	Course abbreviation and Number:
3. Title:	Title: <i>(Titles using jargon, slang, copyrighted names, trade names, or any non-essential punctuation may not be used.)</i>
4. Abbreviated Title for Banner <i>(no more than 25 characters):</i>	Abbreviated Title for PeopleSoft: <i>(no more than 25 characters, including spaces)</i>
5. Number of Units:	Number of Units:
6. Catalog Description: The role of the muscular, skeletal, and nervous system in the generation of human movement. Focus on muscle origins and insertions, myokinematics, osteokinematics, arthrokinematics, electromyography, and nervous system innervations. Special emphasis will be placed on movement screening, with the goal of identifying incorrect posture and movement patterns, as well as the possible reason for each. Students will be asked to demonstrate their knowledge of these ideas in a final project that describes the muscles involved in a particular movement and a training program to improve performance of that movement. <i>Enrollment restricted to KINE majors.</i> Corequisite(s): KINE 303 or KINE 403.	Catalog Description: <i>(Not to exceed 80 words; language should conform to catalog copy. Please consult the catalog for models of style and format; include all necessary information regarding consent for enrollment, pre- and/or corequisites, repeated enrollment, crosslisting, as detailed below. Such information does <u>not</u> count toward the 80-word limit.)</i> The role of the muscular, skeletal, and nervous system in the generation of human movement. Focus on muscle origins and insertions, myokinematics, osteokinematics, arthrokinematics, electromyography, and nervous system innervations. Special emphasis will be placed on movement screening, with the goal of identifying incorrect posture and movement patterns, as well as the possible reason for each. Students will be asked to demonstrate their knowledge of these ideas in a final project that describes the muscles involved in a particular movement and a training program to improve performance of that movement. <i>Three hours of lecture Three hours of laboratory.</i> Corequisite(s): KINE 303. Prerequisite(s): BIOL 104, BIOL 177, BIOL 178, KINE 202.

Discipline _____	Signature _____	Date _____	Support _____	Oppose _____						
18. Reason(s) for changing this course: This change will coordinate with the recent change in the impaction strategy of the Kinesiology department. The department's new impaction strategy focuses on students at the first year level (the pre-Kinesiology designation for 1 st and 2 nd year students is ending). Therefore, restricting enrollment to <u>Kinesiology majors</u> will no longer be sufficient to ensure that 1 st and 2 nd year students are unable to enroll in upper division courses. To date, the criteria for students to change from pre-Kinesiology to Kinesiology involved these same pre-requisites (BIOL 104, BIOL 177, BIOL 178, and KINE 202). Therefore, this change will have no impact on other disciplines or the requirements for Kinesiology majors to enroll in upper division courses. Re corequisite change: KINE 403 was replaced with KINE 303. KINE 403 has not been offered for several years and can safely be removed.
