**SUBJECT:** C-2 curriculum forms for Physics courses

The Department of Physics has submitted C-2 curriculum documents for all of their courses that currently state "Enrollment Requirement(s)." Enrollment requirements were used when the department first started for FTES purposes but is no longer necessary, given the number of students the department now serves as part of the lower-division science requirements. The "Enrollment Requirement(s)" are not enforced in PSoft and requires staff to run pre-requisite reports in RaDAR to manually remove these students from the course. "Enrollment Requirement(s)" have been changed to "Pre- or Co-requisite(s)," which is enforced by PeopleSoft. By revising this language, the Department of Physics now has the same restrictions in place as all the other departments in the college.
