Cal State San Marcos

OFFICE OF EXTENDED STUDIES
EXTENSION COURSE PROPOSAL FORM

In planning the components of our Extended Studies program at Cal State San Marcos, this office consults closely with the academic colleges and departments to determine the suitability of course content, teaching methods and instructor qualifications. To assist us in evaluating your proposed course for credit, please submit this completed form—along with Form X: New Course Non-degree Credit—to our office as soon as possible. Questions before you submit? Call (760)750-4020.

- **Course Title:**
  
  Healthcare Systems: Structure and Process  
  BUS 1500

- **Course Description:**
  
  This course provides a historical foundation for the study of the current health care system and alternative views of health. Course content includes examining the structure and process of the U.S. health care system and comparison to health care systems in other developed countries. Enablers, constraints, and incentives are identified and evaluated in terms of developing a health care system that is efficient and provides patient value.

- **Course Objectives:**
  
  At the end of this section students will be able to:
  
  o Describe the current approach in the U.S. to health and alternative perspectives  
  o Identify the participants in the health care system and their roles  
  o Describe the flow of information and care through the system  
  o Identify enablers that can facilitate the process  
  o Describe constraints and incentives that impact the structure and process  
  o Articulate their view of a health care system that can deliver efficiency and patient value

- **Evaluation:**
  
  Specific learning objectives and assignments will be used to assess competence, including projects and examinations.

- **Course Length:**
  
  Equivalent of 3 unit standard

- **Proposed Date(s):**
  
  Start in Fall 2011

- **Location:**
  
  On campus. Markstein Hall preferred. PC lab required.

- **Support Needs:** *(Please indicate any special services you will need, such as audio-visual equipment, photocopying, room set-up, etc.)*
  
  A smart classroom that is a PC lab.
The field of Health Information Technology (HIT) is relatively new; however, the national focus on healthcare reform, and the fact that the U.S. severely lags most OECD nations in application of IT in health systems, ensures a significant demand for those with appropriate training and education. As David Devone, founder and CEO of Healthcare Services Management, put it: "Hospitals, vendors, and consulting firms are fighting an uphill battle as they strive to add top talent to their ranks" because of a limited talent pool in a fast growing industry. The labor shortage in HIT can be attributable to a deficit of skilled workers and, currently, a shortage of appropriate programs. The proposed program anticipates these longer-term and structural changes in healthcare systems by providing a balance of technology and management skills; the goal is to produce graduates who can provide leadership in the evolution of HIT.

When completed, please return this form, along with an up-to-date resume (with teaching references) to: Trish Henlon, Office of Extended Studies, Cal State San Marcos, 333 S. Twin Oaks Valley Rd., San Marcos, CA 92096; FAX: (760)750-3138; E-mail: thenlon@csusm.edu

No problem, Regina. I will make the change.

Take care,

Lourdes

Hi Lourdes,

Sorry about that – I’m not sure how that slipped by all of us.

The CS number should be C2 for all of these.

Regina

Hi Lourdes,

I’m not sure what courses you mean – are these for the HIT certificate or something else?
