**Programs Offered:**

- Bachelor of Arts in Social Sciences
- Minor in Social Sciences

The Social Sciences Major is a multidisciplinary program which aims to provide students with a broad understanding and appreciation of the social sciences. By following a major in which a number of social sciences disciplines are studied, students will appreciate the varied approaches and methodologies of these fields, as well as the interrelatedness of the social sciences disciplines.

In the major, the student chooses a primary field and two secondary fields. The primary field is chosen from six disciplines: communication, economics, history, political science, psychology, and sociology. Secondary fields are chosen from these six disciplines and other fields in the social sciences.

Students interested in the Social Science Major are encouraged to discuss their education and career objectives with an appropriate Disciplinary Coordinator.

**Career Opportunities**

The Social Sciences Major is appropriate for students with career interests in human services and social work, education, counseling, business, and government.

**Student Learning Outcomes**

The Social Science major is a multidisciplinary program which aims to provide students with a broad understanding and appreciation of the social sciences.

Students who graduate with a Bachelor of Arts in Social Sciences will be able to demonstrate:

1. Advanced knowledge of the conceptual framework, substantive topics, and either methods or theories of one Social Science discipline;
2. Knowledge of the basic conceptual framework and of the breadth of substantive topics of a second Social Science discipline;
3. Knowledge of the basic conceptual framework and of the breadth of substantive topics of a third Social Science discipline, or knowledge of the contribution of multiple Social Science disciplines to a specified topical area of study (e.g., racism);
4. The ability to identify the interrelatedness of multiple social science disciplines and to determine when the approach of one social science discipline is preferable to that of another;
5. An appreciation of the value of multidisciplinary explorations and an ability to analyze problems integrating multiple social scientific perspectives; and
6. An understanding of the ways in which society and culture are affected by two or more of the following: gender, ethnicity, class, regional identities, and global identities.

**Special Conditions for the Bachelor of Arts and Minor in Social Sciences**
