Teacher's dilemma

Based on the previous unit of study write a brief scenario of possible challenges the learners may have had when presented with this unit based on the formative and summative assessments.

Assessment Plan

EXAMPLE: Days can be flexible due to where it is placed in the unit plan. Indicate the day in the top row for your unit plan.

	DAY	DAY	DAY	DAY
Goals assessed: <i>Example: based on the content standards and learning goals</i>				
Type <i>Example: describe why you are using the following: Prior knowledge (pre assessment), Formative (progress monitoring), Summative (final product). What type of assessment will be given quiz multiple choice, exam from text, and other type of assessment.</i>				

<p>Purpose</p> <p><i>Example: reason for the assessment</i></p>				
<p>Implementation</p> <p><i>Example: how the assessment will be conducted and corrected</i></p>				
<p>Feedback strategies</p> <p><i>Example: how students will be informed of successes and challenges</i></p>				
<p>Informing instruction</p> <p><i>Example: determine what material will need review for identified students, the students who are near mastery and students who have learned the material and need extension.</i></p>				

Reflection of assessment:

<p>Identify one strength in the assessment plan and explain why it is a strength in relation to the learning goals.</p>	
<p>Identify one weakness in the assessment plan and explain why it is a weakness in relation to the learning goals in this unit.</p>	

Additional assessment:

Example: project what additional assessments might be needed to determine mastery of the content standards and learning goals.

Write an additional assessment:

Example: You might have found this assessment in supplementary resources or teacher made. Write the additional assessment you would use to check student understanding.

Additional assessment

Write your reasons why you feel this supplemental assessment would benefit student learning and improve your assessment plan by answering these reflective questions. *Example: Answer the reflective questions based on how you as the teacher might use these to improve the assessment plan.*

When in the plan would you use this assessment? <i>Example: What days would you use this supplemental assessment to give you further information on the progress of your students?</i>	
What goals would be assessed by this assessment? <i>Example: What additional information would you look for to ensure you have assessed the learning goals and content standards?</i>	
What type of assessment would it be? <i>Example: Formal or informal. Where did the assessment come from?</i>	
What would be the purpose of the assessment? <i>Example: Example: reason for the assessment and what knowledge and skills are acquired.</i>	
How would you implement the assessment? <i>Example: how the assessment will be conducted and corrected</i>	
What feedback strategies would you use? <i>Example: How would you inform students of their successes and challenges?</i>	

How would the results of the assessment inform instruction?

Example: determine what material will need review for identified students, the students who are near mastery and students who have learned the material and need extension.

Explain how the additional assessment you described improves your assessment plan.

Example: Address the teacher's dilemma and need for more information about what the students really know and understand. Determine what the possible misconceptions might be and the student progress toward achieving the learning goals.
