215SPO	Nutrition and Exercise	20	10	2	O
A***	Add+vantage module	10	5	1 or 2	M

Semester 1 October-Jan; Semester 2 Jan-May

M= Mandatory for our own Level 2 student

O= Option module for our own level 2 students (cannot be taken together as run in the same timetable slot).

To study any of these level 2 modules applicants need to show pre-requisite study equivalent to the level 1 module on our course i.e. Exercise/Human Physiology, metabolism/exercise biochemistry, nutrition, anatomy and introductory biomechanics, sport and exercise physiology, basic statistics/data analysis and research design, principles of training and exercise prescription.

Applicants for Biological/Biomedical Science will be offered modules based upon their current programme of study.

Department of Nursing, Midwifery & Healthcare Practice

If you wish to study in a course within this department, please email erasmus&studyabroad.hls@coventry.ac.uk and they will be able to put you in touch with a colleague who will be able to discuss in detail what your requirements are, and whether we are able to offer you a suitable set of modules.
