I. PURPOSE

This policy describes the intent and procedures involved in range elevation for temporary faculty (part time or full time). Range elevation is an increase in salary subject to meeting the criteria defined below.1

II. ELIGIBILITY

Temporary faculty who are eligible for range elevation shall be limited to those who have served at least five calendar years, not necessarily consecutive, in their current range and are not eligible for additional Service Salary Increases in their current range. For temporary faculty who earn a higher degree, see footnote.2

III. CRITERIA

To be considered for range elevation under this policy, an applicant shall:

Provide evidence of sustained excellence in teaching (for those with teaching duties) and/or other professional duties.

In addition, consideration will be given to professional growth appropriate to work assignment and/or to significant contributions to program development.

Longevity alone is an insufficient basis for range elevation.

IV. APPLICATION

A temporary faculty member who wishes to be considered for range elevation shall provide the following materials:

A. Memorandum stating the applicant’s request
B. Current vitae
C. Personnel evaluations since last range elevation

Upon verification of the degree completion by the Office of Planning and Academic Resources, the appropriate salary adjustment will be made at the start of the next semester.
