CSUSM Fraternity & Sorority Life Relationship Statement

This statement affirms the relationship between California State University San Marcos (CSUSM) and its recognized fraternity and sorority chapters and colonies. The University is committed to the development and support of Fraternity & Sorority Life, acknowledging that when organizations within this community function in accordance with their stated mission and values, the entire university community benefits from their leadership, involvement and service.

The University is committed to assisting each chapter to develop and pursue a positive and productive academic and social atmosphere, and to meet both University standards and the standards of its regional or inter/national organization. The University and the Fraternity & Sorority Community recognize the mutual rights and expectations which exist to ensure a positive relationship between chapters, their local alumni, regional or inter/national officers, and the University. This Relationship Statement, in conjunction with the CSUSM Fraternity/Sorority Handbook, outlines these expectations.

CSUSM has six pillars which are critical to an organization’s success and reflect the unique opportunities provided through membership in a fraternal organization:

- Leadership Development
- Intellectual Development
- Service to Others & Community Impact
- Diversity & Inclusion
- CSUSM Fraternity & Sorority Life Community Development & Lifelong Membership
- Organizational Standards & Chapter Operations

The University’s relationship with the community is leveraged through a Fraternity/Sorority advisor and Student Life & Leadership (SLL) team that provides, but is not limited to, the following support: chapter and council advisement, on-going leadership training opportunities, educational workshops, advisor meetings, academic reports and policy advisement related to use of the university name and expectations regarding chapter activities, recruitment, and best practices within the field of fraternity/sorority advisement. In addition, the University’s Co-Curricular Model seeks to elevate a student’s outside of the classroom involvement to increase their competency in five areas (Civic Engagement & Social Responsibility, Leadership & Interpersonal Development, Career & Professional Development, Critical Thinking & Ethical Reasoning, and Holistic Wellness). These competencies are woven through the Fraternity & Sorority Life advisement and programming so that the pillars and competencies align to optimize student development.

The six pillars of Fraternity & Sorority Life are outlined below; these rubrics were developed in collaboration with chapter advisors and fraternity/sorority leaders so that chapters will be able to incorporate their regional or inter/national expectations and awards/annual reporting processes for organizational efficiency. The pillars provide a guide for student officers to reflect and document the continuous improvement of the chapter over the course of the academic year, and to engage the university in an ongoing values alignment dialogue. The Fraternity/Sorority advisor will meet with chapter leaders, as requested by the chapter, throughout the year to discuss the chapter’s goals and progress under each pillar. SLL will provide feedback on the chapter’s progress to the chapter leadership, advisors, and regional or inter/national organization on an annual basis each summer. The information gathered through this process will inform university recognition procedures that are outlined in the CSUSM Fraternity/Sorority Handbook.

Every three years, chapters will prepare a “Chapter Showcase” for Student Life & Leadership and their chapter advisors that highlights achievements and progress toward internal chapter improvement goals over the three-year period. The Showcase can take the form of a written report or chapter presentation which will in turn be shared with the chapter’s regional or inter/national organization.
