Independent Auditor's Report

Board of Directors
University Auxiliary and Research
Services Corporation
San Marcos, CA

We have audited the accompanying statements of financial position of University Auxiliary and Research Services Corporation (the Organization) as of June 30, 2011 and 2010, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the 2011 and 2010 financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2011 and 2010, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic 2011 financial statements taken as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Nature of operations: University Auxiliary and Research Services Corporation (formerly named California State University San Marcos Foundation) (the Organization) is a nonprofit California corporation which is an auxiliary organization of The California State University (the University), organized and operated in accordance with the California Code of Regulations and the Education Code of the State of California. The Organization was organized in December 1989 to assist the University in various activities, including developing and administering research, and educational grants and contracts; accumulating and managing endowment, student loan and student scholarship funds; and administering various education-related functions, special programs and other activities.

The Organization's financial statements are included as a component unit of the University's annual general-purpose financial statements. This is required by accounting principles generally accepted in the United States applicable to governmental entities.

Affiliated organizations: The Organization is related to other auxiliaries of the University, including San Marcos University Corporation (the Corporation), Associated Students, Inc. (ASI) and California State University San Marcos Foundation (CSUSMF). These auxiliaries, although independent, and the University periodically provide various services to one another.

A summary of significant accounting policies is as follows:

Basis of accounting and reporting: The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted and permanently restricted.

- Unrestricted net assets represent expendable funds available for operations, which are not otherwise limited by donor restrictions.
- Temporarily restricted net assets consist of contributed funds subject to donor-imposed restrictions contingent upon specific performance of a future event or a specific passage of time before the Organization may spend the funds and accumulated endowment earnings in compliance with the Uniform Prudent Management of Institutional Funds Act (UPMIFA).
- Permanently restricted net assets are subject to irrevocable donor restrictions requiring that the assets be maintained in perpetuity usually for the purpose of generating investment earnings to fund current operations.

Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are released to unrestricted net assets and reported in the statements of activities as net assets released from restrictions. Contributions received with donor-imposed restrictions that are satisfied within the same reporting period are reported as unrestricted support in that period.

Notes to Financial Statements

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Cash and cash equivalents: The Organization maintains accounts at one financial institution with funds insured by the Federal Deposit Insurance Corporation (FDIC). The Organization's accounts at this institution may, at times, exceed FDIC-insured limits. On October 3, 2008, when the Troubled Asset Relief Program (TARP) became law, FDIC-insured limits on deposits increased from \$100,000 to \$250,000 and FDIC insurance coverage was expanded to provide unlimited insurance on accounts that do not pay interest, including most checking accounts. These changes to deposit insurance expire on December 31, 2013. At June 30, 2011, the Organization's cash balance at this institution exceeded FDIC-insured limits by \$4,432,948.

The Organization considers all highly liquid investments with original maturity dates of three months or less to be cash equivalents.

Sponsored programs receivable: The sponsored programs receivable arise in the normal course of sponsored research. It is the policy of management to review the outstanding receivable at year-end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectable amounts. No allowance was considered necessary at June 30, 2011 and 2010 because management believes all amounts are collectable.

Investments: The Organization had significant investments in equity securities and mutual funds at June 30, 2010. The investments in equity securities and mutual funds with readily determinable fair values, based on daily share prices and daily provided net asset values, were reported at fair value with gains and losses included in the statements of activities.

Investments in alternative investments as of June 30, 2010 represented shares in hedge funds that held, among other investments, bonds, bank loans, busted converts, mezzanine debt, distressed assets, equity and real estate. The Organization accounted for its investment in these hedge funds at fair value, using net asset value per share of the hedge funds. There were no investments at June 30, 2011 (See Note 11).

The investments of the Organization are exposed to interest rate and market risk. Economic conditions can impact these risks and resulting fair values can be either positively or adversely affected. If the level of risk increases in the near term, it is possible that the investment balances and the amounts reported in the financial statements could be materially affected by market fluctuations. Although the fair value of investments is subject to fluctuations on a year-to-year basis, management believes the investment policy is prudent for the long-term welfare of the Organization and its beneficiaries.

Pledges receivable: Pledges at June 30, 2010 that were expected to be collected within one year were recorded at their net realizable value. Pledges that were expected to be collected in future years were discounted to their estimated net present value. There were no pledges receivable at June 30, 2011 (See Note 11).

Inventory: Inventory consists primarily of education books and is valued at the lower of cost (first-in, first-out method) or fair value. Books returned to vendors resulting in credits on account are recorded as deposits on the statements of financial position.

University Auxiliary and Research Services Corporation

Notes to Financial Statements

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Property and equipment: Property and equipment are recorded at cost, if purchased, or at the fair value of the contribution, if donated. Certain equipment acquired through grants and contracts is subject to restrictions on its use and disposition subsequent to the conclusion of the related grants and contracts. A physical inventory list is maintained by the Organization of these assets as required by the grant funding agency. The funding source may have a reversionary interest in the property as well as the right to determine the use of any proceeds from sale of equipment purchased with their respective funds. Depreciation is computed using the straight-line method over the estimated useful lives of the property and equipment, generally three to 10 years. The estimated lives of leasehold improvements are the shorter of the useful life or the term of the lease.

Long-lived assets: The Organization evaluates the carrying value of long-lived assets for impairment whenever events or changes in circumstances indicate the carrying value of such assets may not be recoverable. The estimated future cash flows are based upon, among other things, assumptions about expected future operating performance and may differ from actual cash flows. Long-lived assets evaluated for impairment are grouped with other assets to the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. If the sum of the projected future undiscounted cash flows (excluding interest) is less than the carrying value of the assets, the assets will be written down to the estimated fair value in the period which the determination is made. Management has determined that no impairment of long-lived assets currently exists.

Use of estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. These estimates include assessing the lives and methods for recording depreciation of property and equipment, determining the fair value of investments, determining the allowance for doubtful accounts for receivables, and discounting of pledges receivable.

Revenue recognition: Revenue from federal grants and contracts and other sponsored programs is recognized as support in the fiscal year in which allowable expenditures have been made. Revenue from federal grants and contracts and other sponsored programs received prior to incurring the related expenses have been deferred. Revenues from registration fees received in advance of classes occurring have been deferred. Revenue from commercial operations is recognized upon sale of products.

Functional allocation of expenses: The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs benefited.

Income taxes: The Organization is a qualified nonprofit organization that is generally exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. This exemption is for all income taxes except for those assessed on unrelated business income, if any. In order to maintain that status, the Organization is precluded from making certain expenditures, principally in support of political parties. Management believes that no such expenditures have been made. The Organization is not a private foundation.

University Auxiliary and Research Services Corporation

Notes to Financial Statements

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

The Organization adopted accounting guidance relating to accounting for uncertainty in income taxes, which is primarily codified in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740. The Organization files a Form 990 (Return of Organization Exempt from Income Tax) annually. When these returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the tax position taken or the amount of the position that would ultimately be sustained. Examples of tax positions common to the Organization include such matters as the tax-exempt status of the entity and various positions relative to potential sources of unrelated business taxable income (UBI). UBI is reported on Form 990-T, as appropriate. The benefit of tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any.

Tax positions are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely to be realized on settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying statements of financial position along with any associated interest and penalties that would be payable to the taxing authorities upon examination. Upon the adoption and as of June 30, 2010, the Organization has addressed uncertainty in its income tax position under the guidance, and there are no unrecognized/derecognized tax benefits requiring an accrual.

Forms 990 and 990-T filed by the Organization are subject to examination by the Internal Revenue Service up to three years from the extended due date of each return. Management believes Forms 990 and 990-T have been filed appropriately. Forms 990 and 990-T filed by the Organization are no longer subject to examination for the fiscal years ended June 30, 2007 and prior.

Subsequent events: The Organization has evaluated subsequent events through September 21, 2011, the date the financial statements were available to be issued, and has determined that there were no subsequent events to recognize in these financial statements other than what has been disclosed in Note 12.

Reclassification: Certain items on the financial statements as of and for the year ended June 30, 2010 have been reclassified, with no effect on total net assets, to be consistent with the classifications adopted as of and for the year ended June 30, 2011.

Recent accounting guidance: In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This update requires new fair value measurement disclosures about transfers in and out of Levels 1 and 2, and activity in Level 3 fair value measurements (purchases, sales, issuances and settlements on a gross basis). The update also clarifies existing disclosures about the level of disaggregation and about inputs and valuation techniques. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years.

University Auxiliary and Research Services Corporation

Notes to Financial Statements

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

The Organization is in the process of assessing the effect that the implementation of the new guidance will have on its financial position and results of operations. The adoption of this standard is not expected to have a material impact on the Organization's financial position, results of operations or cash flows.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820)* to provide clarifications for ASC 820. The update also describes some instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This update results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with United States generally accepted accounting principles (GAAP) and International Financial Reporting Standards. The guidance provided in this ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Organization is in the process of assessing the effect that the implementation of the new guidance will have on its financial position and results of operations. The adoption of this standard is not expected to have a material impact on the Organization's financial position, results of operations or cash flows.

Note 2. Other Receivables

Other receivables consisted of the following at June 30:

	2011	2010
Student loan receivable	\$ -	\$ 696,532
Other	119,855	25,959
	<u>\$ 119,855</u>	<u>\$ 722,491</u>

The student loan receivable was transferred to CSUSMF on July 1, 2010 (See Note 11).

Note 3. Pledges Receivable

Pledges receivable consisted of the following at June 30:

	2011	2010
Amounts due:		
In one year or less	\$ -	\$ 446,061
Between one and five years	-	56,000
More than five years	-	2,562,015

Note 4. Restricted Cash Equivalents

Cash equivalents are restricted for the following purposes at June 30:

	2011	2010
Endowment, uninvested	\$ -	\$ 1,326,034
Student loans	-	390,313
	<u>\$ -</u>	<u>\$ 1,716,347</u>

The cash restrictions were transferred to CSUSMF on July 1, 2010 (See Note 11).

Note 5. Investments

Investments consisted of the following at June 30:

	2011	2010
Core fixed income institutional mutual funds	\$ -	\$ 3,006,495
Domestic equity securities	-	2,472,601
Domestic equity mutual funds	-	3,106,463
International equity mutual funds	-	2,365,403
Hedge funds	-	1,953,980
	<u>\$ -</u>	<u>\$ 12,904,942</u>

The investments were transferred to CSUSMF on July 1, 2010 (See Note 11).

As required by the Fair Value Measurements Topic of the FASB ASC, which establishes a three-tiered fair value hierarchy, the Organization prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets. Classifications included equity securities and mutual funds that have share prices and net asset values provided daily.
- Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly. Classifications included institutional mutual funds that have net asset values provided daily.
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions. Classifications included hedge funds that do not have daily pricing but for which fair value could be determined based on the most recent report of the net asset value of the fund.

University Auxiliary and Research Services Corporation

Notes to Financial Statements

Note 5. Investments (Continued)

Investments at fair value, as of June 30, 2010, according to the fair value hierarchy were as follows:

	Total	Level 1	Level 2	Level 3

	<u>\$ -</u>	<u>\$ 1,919,032</u>

The Organization transferred all of its restricted net assets to CSUSMF on July 1, 2010 (See Note 11)

Note 8. Endowments

The Organization's endowments consisted of 68 individual funds established for a variety of purposes at June 30, 2010. The endowments were all donor-restricted for the purpose of student scholarships, student loans and campus program activities.

The Board of the Organization has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulation to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner that is consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the Organization and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Organization
7. The investment policies of the Organization

Note 8. Endowments (Continued)

Funds with deficiencies: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are charged to unrestricted net assets totaling \$1,475,972 for the year ended June 30, 2010. These deficiencies resulted from unfavorable market fluctuations in 2009. Endowment funds that had deficiencies in the previous year and have gains in the current year record the gains as unrestricted until the deficiency is restored. \$1,679,317 of gains were recorded as unrestricted for the year ended June 30, 2010.

Return objectives and risk parameters: The Organization has adopted investment and spending policies for endowment assets that attempt to provide funding for programs supported by its endowment and increase the value of the original contributed capital by an amount not less than the annual increase in inflation. In order to meet this objective, the endowment asset portfolio is structured to achieve a compounded annual return, net of investment management expenses, of 5 percent plus the annual rate of inflation (the Target Return). The temporarily restricted endowment asset portfolio is structured to provide liquidity for short-term cash needs and safety of principal while seeking to enhance the portfolio's return. In achieving the Target Return, the Organization seeks to maintain a level of portfolio risk by allocating investments to core fixed income mutual funds, domestic equity securities, domestic and international equity mutual funds, hedge funds and cash instruments in a ratio similar to other peer university endowments of similar size as surveyed annually by National Association of College and University Business Officers.

Investment strategy: The investment strategy of the Organization is to develop a diversified portfolio of passive investments. For core fixed-income mutual funds and equity funds, the selection of such holdings is based on the merits of long-term ownership without the intent of short-term trading. To achieve the Target Return, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends), less expenses.

Spending policy: The Organization has a policy of appropriating for expenditure each year a percentage of the prior three-year average endowment balance by taking into account investment performance from the prior year. In establishing this policy, the Organization considered the long-term expected return on its endowment. Until recently, the annual spending rate on all endowments was set at 4 percent. Because of the prior year economic downturn, the rate for the year ending June 30, 2010 was set at 2 percent for scholarship endowments and 0 percent for campus program endowments. The rate is reviewed annually and may or may not change in future years depending on investment performance. Accordingly, over the long-term, the Organization expects the current spending policy to allow its endowment to grow at the average annual rate of inflation. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity as well as to provide additional real growth through new gifts and investment return.

Note 9. Commitments and Contingencies

Leases: The Organization has entered into various operating lease agreements with the University for office facilities with monthly rents totaling \$3,666 through June 30, 2013. The lease agreement for 435 E. Carmel Street may be terminated by either party upon a six-month written notice and has monthly rent of \$11,592 expiring on December 31, 2011. Total rent expense was approximately \$183,100 and \$181,000, for the years ended June 30, 2011 and 2010, respectively.

The minimum future rental payments are as follows:

<u>Years Ending June 30,</u>	<u>Amount</u>
2012	\$ 113,548
2013	43,996
	<u>\$ 157,544</u>

Sponsored programs: The Organization receives significant financial assistance from numerous federal, state and local governmental agencies in the form of grants and operating subsidies. Disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability to the Organization. However, in the opinion of management, any such disallowed claims would not have a material adverse impact on the overall financial position of the Organization at June 30, 2011.

Legal proceedings: The Organization is involved in legal proceedings arising in the normal course of business. Management believes the final outcome of these proceedings will not have a material adverse effect on the Organization's results of operations or financial position.

Note 10. Accrued Postretirement Benefit Cost

The Organization has a postretirement program which provides lifetime medical and dental coverage to retiring employees aged 65 with at least 10 years of service. Medical coverage will be provided through the CalPERS medical program. Dependents of eligible retirees will also receive lifetime medical coverage. Expenses under the program for the years ended June 30, 2011 and 2010 were \$253,457 and \$154,690, respectively.

The following tables include the postretirement healthcare benefits which are unfunded and the amounts recognized in the financial statements as of and for the years ended June 30:

	<u>2011</u>	<u>2010</u>
Benefit obligation, beginning of year	\$ 812,779	\$ 526,516

No benefits were paid during the years ended June 30, 2011 and 2010, and the Organization does not anticipate having to pay any premiums for the year ending June 30, 2012.

Weighted-average assumptions used to determine the benefit obligation included a discount rate of 6.00 percent and 5.50 percent and a health care cost trend rate of 7.30 percent and 7.60 percent for the years ended June 30, 2011 and 2010, respectively.

Note 11. Transactions With Affiliates

Reimbursed costs: The Organization reimburses the University for salaries and other program-related costs for personnel working on contracts, other programs and campus programs. The total amount paid to the University for these services was \$5,848,937 and \$7,692,688 for the years ended June 30, 2011 and 2010, respectively. Amounts due to the University at June 30, 2011 and 2010 were \$345,383 and \$635,308, respectively, and are included in accounts payable.

The University reimburses the Organization for services and programs. The total amount received by the Organization was \$570,696 and \$306,490 for the years ended June 30, 2011 and 2010, respectively. Amounts due from the University at June 30, 2011 and 2010 were \$32,292 and \$15,449, respectively, and are included in other receivables.

Lease: The Organization as a lessor has entered into an operating lease agreement to rent storage space to the University at 435 E. Carmel Street. The monthly rental income is \$12,506, expiring on December 31, 2012. Total rental income was \$145,680 for the years ended June 30, 2011 and 2010.

The future minimum rental receipts are as follows:

<u>Years Ending June 30,</u>	<u>Amount</u>
2012	\$ 150,070
2013	75,035
	<u>\$ 225,105</u>

Operating advance: In July 2004, the Organization entered into an agreement with San Marcos University Corporation to provide certain personnel and other operating services. The total amount charged to the Corporation for these services and costs was \$236,631 and \$216,672 for the year ended June 30, 2011 and 2010, respectively. No amounts were due at June 30, 2011 and 2010.

On July 1, 2010 the Organization entered into a payroll processing agreement with Associated Students Inc. Under this agreement, all ASI employees became employees of the Organization. During the year ended June 30, 2011 the Organization invoiced ASI for \$756,992 for payroll and benefits, administration fees and supplies. As of June 30, 2011, the Organization had a receivable due from ASI in the amount of \$56,160.

On July 1, 2010, the Organization transferred approximately \$21 million of net assets to the California State University San Marcos Foundation, the philanthropic nonprofit auxiliary of the University. The amount represented approximately 81 percent of the Organization's June 30, 2010 total net assets of approximately \$26 million.

CSUSMF was established in 2009 to focus on attracting gifts to the University. The Organization, in conformity with guidelines of the California Non-Profit Public Benefit Law and in accordance with its activities as described in its Articles of Incorporation, approved by resolution at its August 2009 meeting of the Board of Directors initiating the transfer of gift-funded assets to CSUSMF. The Organization provided sufficient and adequate notice to the California Attorney General and Registry of Charitable Trusts, and received notice from the Attorney General in March 2010 that there was no objection to the transfer.

On July 1, 2010, the fair value of net assets transferred to CSUSMF consisted of the following:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>

Note 11. Transactions With Affiliates (Continued)

The Organization has an operating agreement with CSUSMF to provide certain administrative services, including cash management processes, gift account administration, and accounting and financial reporting assistance. The Organization receives an administrative fee when CSUSMF funds are expended. The due to affiliate liability represents the status of that relationship as of June 30, 2011 in terms of balances held by the Organization that are being managed on behalf of the CSUSMF. The balance due to CSUSMF on June 30, 2011 was \$6,541,575.

Note 12. Subsequent Event

On July 1, 2011, San Marcos University Corporation transferred the assets and functions of the campus child care center, Center for Children and Families, to the Organization. The child care center assets consist of a building and related equipment totaling approximately \$6,528,599, net of accumulated depreciation.

The annual revenues and expenses are assumed by a third-party management company that assumes all financial operating risks of the center. There are negligible or no liabilities related to the child care center. The functions of each auxiliary support the University and are allowable under California Education Code Section 89900 et seq.

San Marcos University Corporation also approved a transfer of \$2,000,000 in cash reserves from the Corporation to the Organization as a contribution to the University president for use toward the advancement of the educational mission of the University.

On July 1, 2011, the Organization began utilizing an outside company to operate the campus bookstore. The Organization is currently finalizing a contract wherein the outside company will purchase the remaining bookstore inventory and credit memos due from vendors. The Organization will receive commissions based on bookstore revenues under the agreement.
