18. Reason(s) for changing this course:
After consulting with our advisory board members, we receive overwhelming feedback that our department should offer this course to provide students more in-depth knowledge about how to manage an IT project. This would be a key skill MIS students should possess. After reviewing our current offerings and consulting with many IT managers, it was agreed among all MIS faculty that the previous pre-requisites are too restrict and not necessary. Our department cannot even guarantee offering MIS 425 every year. Therefore, we decided to align the pre-requisites with all the rest of MIS electives (pre-req MIS 302 or 304).
