19. If this course has been offered as a topic, please enter topic abbreviation, number, and suffix:\*

20. How often will this course be offered once established? \* To be offered every semester

**PROGRAM DIRECTOR/CHAIR - COLLEGE CURRICULUM COMMITTEE SECTION:**

*(Mandatory information – all items in this section must be completed.)*

21. Does this course fulfill a requirement for any major (i.e., core course or elective for a major, majors in other departments, minors in other departments)? ☒ Yes ☐ No

If yes, please specify:

Required course in the Masters of Science in Chemistry.

22. Does this course impact other discipline(s)? (If there is any uncertainty as to whether a particular discipline is affected, check "yes" and obtain signature.) ☐ Yes ☒ No

If yes, obtain signature(s). Any objections should be stated in writing and attached to this form.

 7. President (or Designee) Date

Chemistry 698– Thesis Research  
**PROSPECTIVE COURSE OUTLINE**

**Course Description:** Post qualifier work on thesis research. *Pre-requisite: Advancement to candidacy. May be taken for 2-6 units per semester. May be repeated for credit up to 12 units.*

**Student Learning Outcomes:**

Students will:

- To formulate a scientific question whose answer would further understanding in a specific field of study and carry out strategies to answer the question.
- To take into consideration all relevant dimensions of the project and to identify and solve problems as they occur during the research
- To clearly present and discuss research conclusions as well as the knowledge and arguments that form the basis for these findings both orally and in writing

**Textbooks:** No textbook will be used.

**Course Activities:** Students will carry out original research under the close supervision of a thesis advisor and additional guidance from a thesis committee.

Contact Hours with Advisor (minimum): 1/week

Literature Reading and Analysis (minimum): 1 hr/week/unit

Laboratory/Field/Classroom work (minimum): 3 hr/week/unit

**Grading Scheme:** Grades of RP will be given for the semesters prior to the qualifier. Evaluation of the work for the entire sequence of Chem 698 courses will be evaluated by the research mentor and the thesis committee, and a grade will be assigned based on a combination to of the oral and written presentations of the work (50% mentor, 50% committee) and the effort in the laboratory or K-12 setting (100% mentor). Specific grading guidelines for all project and thesis work will be developed by the department.

The research mentor may petition for a revision to the grade with the department if he/she feels an unwarranted grade has been awarded.
