Committee Member Guide to Reviewing Proposals
For members of UCC, GEC, BLP, CAPCs, Senate, etc.

1. Go to https://csusm.curriculog.com/
2. Read through the instructions on the “Welcome Page”
3. Click “Login” (top right) and enter Campus ID and Password

4. Click “My Tasks” (top left)

5. From your list of tasks, hover over a proposal and click on the bar or the title to view the proposal:
   *For other navigation options, please refer to the guide “10 Ways to Navigate and Search for Proposals” found on the Academic Programs web pages.
6. You can see what type of form you are viewing by looking under the proposal title. Either in the proposal itself:

[Computer Information Systems B.S. 2022-2023 P-2 Form - Changes to Existing Program]

a. Or from the search page:

[Computer Information Systems B.S. 2022-2023 P-2 Form - Changes to Existing Program]
[Last Activity: Sep 29, 2022 12:00 PM by Ricardo Pierro]

[CS - 110 - Foundations of Data Science]
[Last Activity: Aug 12, 2022 12:30 PM by Criselda Yee]

[CS - 586 - Mobile and IoT Security]
[Last Activity: Jun 16, 2022 11:09 AM by Rebecca Romine]

7. You can view any supporting documents by clicking on the “Files” icon within the proposal.

CAPC requested minor edits to the course description to bring it more in line with catalog language; proposer agreed and CAPC made the changes on proposer's behalf. Updated syllabus with revised course description and SLOs was provided (proposer worked with Melissa Simmitt on the SLO revisions).

Decision: Approved pending revision

UCC has reviewed your proposal. We had a few requests that we would like you to consider.

1. Box 12: Please add a comma after “cultural” in the catalog description. We use Oxford commas in the catalog, and it helps to emphasize that cultural issues are separate from technical issues.
2. Syllabus: Please provide a complete syllabus for the course. The template is missing many critical components of a syllabus.
3. As indicated in the catalog description, this course is used by CS majors as well. Please contact the chair of the Computer Science program as an affected program to receive an acknowledgement that they are aware of the change you are making. Load a copy of that email acknowledgement into the proposal. Finally, please indicate in Box 23e the names of the affected programs.

Please indicate how you addressed the points in the approval dialog box and approve the proposal (click on the check mark symbol above to bring up the approve dialog box). Once approved, it will return to UCC where we can complete our review.

Please remember that changes are not official until they are approved by the Senate and are implemented by Academic Programs, please refrain from advising students based on not-yet-approved changes to the catalog.

Thank you,

_Carrick Williams, UCC chair_
9. For C2 forms, use the mark-up option (similar to “Track Changes” in Word) to reveal the changes made and requested by the originator.
   a. On the “Discussion” tab, select “Show current with markup”:
