

YOUR EYES ARE LIKE CAMERAS

Our eyes work a lot like cameras. You use your eyes to see the world around you. Using a paper bag, you can create your own "camera" to view the world another way.

Scan the QR code below with a device's camera, and watch the video on how to make a paper bag into a paper camera.

Once you have created a paper camera, go outside and take "pictures" of what you see in the world.

A circular logo for CSUSM STEAM Ambassadors. It features the text "CSUSM" in a small font above "STEAM" in a large, bold, sans-serif font, with "AMBASSADORS" in a smaller font below it. The logo is set against a grey background that resembles a face.
