Business Process Improvement (BPI) – Applications Now
Open for 2022

Sent On behalf of: Office of the Vice President, Finance and Administrative Services

Hello Everyone,

Applications are now open for the 2022 BPI cohort.

Business Process Improvement (BPI) is a structured approach to defining a process, analyzing a predetermined scope of work, and improving its performance.

The Business Process Improvement (BPI) training program aims to encourage a culture of continuous improvement on campus. Participants will learn BPI methodology over a three-month training program while practicing on actual CSUSM processes. This program is ideal for employees that are the "do-ers" in their respective areas, such as Administrative Coordinators, Analysts, and Entry-level Managers. Applications will be open May 2 through May 31. More information, including the application form, may be found [here](#).

If you have any questions regarding the BPI program, please contact Shannon Honour Shaw at shonour@csusm.edu.
