Sent On behalf of: Office of Human Resources

Hello Campus Partners,

As previously announced, CSUSM has transitioned to a new system for faculty, staff, and MPP recruiting. CHRS Recruiting, built in PageUp, is a CSU systemwide initiative to move all campuses to a single recruiting system. Additional information about CHRS Recruiting can be found on the [HR website](#).

In follow up to the PCBO meeting on June 29, Human Resources is excited to share the completion of the next phase of the CHRS Recruiting rollout. Effective immediately, all new personnel requisitions for staff and MPP positions will be initiated in CHRS Recruiting instead of via Adobe Sign.

Several resource items were discussed during the last PCBO meeting, which are now available on the HR/Talent Acquisition websites:

- [Talent Acquisition website](#) (including link to CHRS Recruiting login)
- [CHRS Recruiting Job Card training via CSU Learn](#)

- [Position Detail Report Guide](#)

We hope that these additional resources will be helpful to you. If you have any questions about the transition, please feel free to reach out – we are here to help!
