Partners in Campus Business Operations Staples: Toner Auto-Sub Program

Sent on Behalf of: Procurement Operations

Please see the following message from the Chancellor's Office regarding the toner auto-sub program from Staples. This program takes effect immediately. If you are not interested in the auto-sub program, please purchase toner through IRG Store (available through [Campus Marketplace](#)) or contact Procurement for other options. We encourage purchasing through IRG Store as an alternative because it is a Disabled Veteran Business Enterprise (DVBE).

Chancellor's Office Message:

In an effort to continue with our sustainability goals, the Office Supplies Committee has reviewed and approved the toner auto-sub program from Staples. Staples did a deep dive comparing Tru Red with OEM toners. They were able to cross reference ALL of CSU's OEM toner to the Tru Red brand. By implementing the Auto-Sub program, CSU can save **\$198,000** annually on like for like toner and up to **\$230,000** if we purchase High Yield toner, where applicable.

Thank you for your cooperation in this sustainability effort.
