VALUES
California State University San Marcos is an academic community dedicated to the values of:

**Intellectual Engagement**
Learning, teaching, discovery, and application of knowledge

**Community**
Shared commitments to service, teamwork, and partnership

**Integrity**
Respect, honesty, trust, fairness, academic freedom, and responsibility

**Innovation**
Creativity, openness to change, flexibility, responsiveness, and future focus

**Inclusiveness**
Individual and cultural diversity, and multiple perspectives

MISSION
California State University San Marcos focuses on the student as an active participant in the learning process. Students work closely with a faculty of active scholars and artists, whose commitment to sustained excellence in teaching, research, and community partnership enhances student learning. The university offers rigorous undergraduate and graduate programs distinguished by exemplary teaching, innovative curricula, and the application of new technologies. Cal State San Marcos provides a range of services that respond to the needs of a student body with diverse backgrounds, expanding student access to an excellent and affordable education. As a public university, Cal State San Marcos grounds its mission in the public trust, alignment with regional needs, and sustained enrichment of the intellectual, civic, economic, and cultural life of our region and state.

VISION
In its second decade, California State University San Marcos will become a distinctive public university known for academic excellence, service to the community, and improving learning through creative uses of technology. In its teaching and student services, Cal State San Marcos will combine the academic strengths of a large university with the close personal interactions characteristic of smaller institutions. Our curriculum will build upon its strong foundation in the liberal arts and sciences to increase student achievement of the knowledge, skills, and competencies needed in a global society experiencing accelerated technological, social, and environmental change. Students also will select from a growing array of specialized programs responsive to state and regional needs. All members of the campus will work to provide an environment that supports the work of students and faculty. Cal State San Marcos will celebrate and capitalize on its diversity to form a learning community committed to this shared vision.

As the first of a new generation of CSU campuses, Cal State San Marcos still has a future to build — and we’re building a place for you in it. We’re a campus with the resources of a large university system, combined with the individualized attention of a small school. Because we’re young, our students benefit from access to the newest science labs, the best in multimedia computer technology, and the energy of some of the brightest and most enthusiastic faculty in the country.

Founded in 1989 as the 20th campus in the CSU system, Cal State San Marcos is located 15 miles east of the ocean, and 10 miles west of the world renowned San Diego Wild Animal Park. We have teaching/learning partnerships with the San Diego Zoological Society, the La Jolla Playhouse, the California Center for the Arts, Escondido, and the San Diego Museum of Art.

academic profile

We prepare you for a future beyond our classroom walls. Students can choose from 19 undergraduate programs, nine graduate programs, and 19 credential programs and two certificate programs for teachers. If we don’t offer the major you have in mind, let us help you design a program that prepares you for the career of your dreams. Our strong instruction in the liberal arts and the sciences has launched many San Marcos alums into careers in law, medicine and other graduate work.

We emphasize a rigorous writing requirement across the curriculum, as well as computer and second language competencies that give you an advantage with graduate school training and in the job market. We emphasize community-based, experiential learning opportunities that integrate textbook with “real world” knowledge.

Cal State San Marcos students enjoy small classes and personal attention from faculty who love to teach. The curriculum encourages students to become involved in community projects and to work in teams, experience sought by prospective employers.

- The resources of a large university system.
- The individualized attention of a small school.
- A new campus
- The latest technology
- A bright enthusiastic faculty
- 19 undergrad programs
- 9 graduate programs
- 19 credentials, 2 certificates
- Or, design your own major!
"Lots of other schools don't offer extra labs or undergraduate research. So when I leave here I'll have more experience than someone from a 'big name' school."

Amy Minnick
Senior, Biology (pre-med)

The College of Arts and Sciences at Cal State San Marcos is home to the fundamental academic disciplines in the liberal arts and sciences. The college faculty and staff are dedicated to excellence in teaching, research/creative efforts, and service. You will pursue your studies in a supportive learning atmosphere, primarily in small classes. You'll find rich opportunities for interaction, discovery, and cooperative learning. The college encourages student learning across traditional academic disciplinary boundaries and active exploration of new teaching and learning strategies. When you graduate, you'll be well prepared for a variety of careers or for graduate study leading to advanced academic and professional careers.

"Time and again, students come back after graduation and tell me 'thank you for teaching me how to write - it's made all the difference in my career!"*

Susie Lan Cassel
Associate Professor of Literature and Writing Studies
Students in the College of Business Administration will find classes both rigorous and relevant to the problems of the business world. The faculty is interested in, and responsive to, students. The curriculum is designed to develop a wide range of skills and abilities applicable to both the for-profit and non-profit sectors of the economy. You'll focus on problem identification and problem solving. You'll develop a set of critical thinking skills that will give you a distinctive advantage in the marketplace. You'll finish your program with the Senior Experience, a rigorous, integrative academic experience that requires teams of students to solve problems in an actual organizational context.

"Senior Experience," a program in the College of Business Administration, was nationally recognized in The Templeton Guide for encouraging character development. More than 200 students comprise 50 teams. Each team works on a real-world project at a local business or organization.

Cal State San Marcos produces almost as many teachers as do campuses more than six times our size. The College offers a credential program for middle-school teachers that is one of only three in California and only 30 in the U.S.

The College of Education prepares educators in programs that will require you to think and to engage yourself as a part of a powerful learning community. Course formats and teaching methods in the college reinforce collaboration and problem-solving, and faculty model a wide variety of effective teaching strategies. You're expected to be both a learner and a teacher. Field experiences are carefully planned to ensure that classroom learning is guided by the realities and challenges of current reform efforts in education.

"My computer at home is pretty bad. It's nice to come to school and use the new computers. In class, technology enhances the presentations. It kind of keeps you on your toes."

Erick Gordon
Sophomore, Liberal Studies
Share the excitement of our new and growing campus! By 2003, we will have three additions to campus facilities – our first on-campus residence halls, a new library, and a student union/field house.

The first student housing will offer apartment-style living to 460 students at very attractive prices. Units have between 1,000 and 1,100 square feet with two bathrooms, a living room, dining room and kitchen. You can choose between suites with four single-occupancy bedrooms or two double-occupancy bedrooms. Each resident will have a high-speed internet connection and each suite will have telephone and cable.

The beautiful and spacious new library will feature study rooms and more than 1,000 internet-ready individual study carrels. The library building will also contain a state-of-the-art media center and the Learning Assistance Program. Outside, there will be a convenience store and eating area.

Student life will be enhanced by the M.Gordon Clarke Field House/University Student Union. It will offer meeting and office space, as well as recreational and multipurpose facilities for the campus community.

We're committed to making sure you have the best experience as a student on our campus. Cal State San Marcos has a student-centered focus, not only in our academic offerings, but also in our student activities and services. We're a gathering place for more than 30 student clubs, two fraternities, two sororities, and an active student government. The Associated Students, Inc. operates a child care program, and child care scholarships are offered, based on need and availability. You'll also find a variety of concerts, exhibits, and lectures on and near the campus, as well as one of the biggest annual American Indian Pow Wow events in the region. The Student and Residential Life office is the hub for many extracurricular activities you can join — or they'll help you to establish a new club or activity.

We also offer an active intramural program that includes soccer, volleyball, and flag football.

- On-campus student housing expected to open in 2003.
- Spacious new library to be completed in 2003.
- Student union/field house expected to open in 2003.

---

student

life

- There's plenty to do!
  30 clubs and organizations
  cultural events, intramural sports
- Be a leader!
"This is a lot better school than where I went before. My coach really cares about the athletes as people. He works us hard, and knows how to motivate us to want to do our best."

Lanele Cox
Junior, Biology

Students are the focus at Cal State San Marcos. We emphasize the student in the phrase "student-athlete." We choose life-long sports carefully to complement the region and the talents here.

In an area known as the golf-manufacturing center of the world, boasting nearly 90 golf courses, what would be more natural than to begin our athletic program with a golf team? Under the direction of Coach Fred Hanover, PGA professional, both men and women teams compete in NAIA-level events and practice on local golf courses.

Our cross country and track teams run on the new Mangrum Track, an all-weather, eight-lane 400 meter track, modeled after the Olympic track facility in Atlanta. Coach Steve Scott is a three-time member of the U.S. Olympic Team, and holds the American records for both the indoor and outdoor mile. In only the third year of golf and the second year of cross-country and track, Cal State San Marcos achieved an enviable goal not met by programs with many more years of development. All six teams, men and women in each of the sports, earned the right to compete at the national level. Seven students were named "All Americans."
We're partners in your success. We provide a variety of tutoring and advising programs for your special needs. In addition, we provide academic support with our Accountancy/Statistics Lab, Computer Consulting Center, Mathematics Assistance Center, Writing Center, and the Faculty Mentoring Program. There's also a housing referral service and a Career and Assessment Center to help with your next career step.

- Mathematics and writing skills development
- Housing referrals
- Job placement services

"It's a campus just starting up so I have a chance to be a leader -- I can pave the way instead of following someone else's path."

Carlos Quichocho
Sophomore, pre-business

"I am able to leave my boys at the ASI Early Learning Center and feel they are safe, secure and loved. It is so much better than any other place I've seen!"

Michelle Walker
Senior, Sociology

"We're the only campus in the nation with a program like Senior Experience. It teaches real-life business situations before you go out into the real world, and that's experience employers look for."

Dean Manship
Senior, Business Administration
You'll find us affordable. Undergraduate fees at Cal State San Marcos are among the lowest in the nation. Visit our web site at www.csusm.edu to check the latest numbers. Books and supplies average $324 each semester. Living costs vary. Financial aid is available.

- We're affordable!
- The best value in a university education.

If money is an issue, we can help. Cal State San Marcos offers a variety of financial aid programs. If you have a financial need, we encourage you to apply for financial aid by filling out a Free Application for Federal Student Aid (FAFSA). For full consideration the FAFSA must be mailed between January 1 and March 2. FAFSA forms may be obtained from any high school counseling office or college financial aid office.

All applicants are encouraged to request a Cal State San Marcos General Scholarship Application from the Financial Aid and Scholarship Office in January. If you're interested, you must complete the application by March 2. More information is available from the Financial Aid and Scholarship Office.

- We can help!
- Federal, state and scholarship aid are available.
- Counselors guide you through the process.
The California State University has developed a comprehensive website that can answer a majority of questions for parents, students and high school counselors. This website also provides the resources for students to track their academic progress, obtain information on any one of the 23 CSU campuses, including Cal State San Marcos. Students may also apply using the CSUMentor Online Application. Visit CSUMentor at: www.CSUMentor.edu

Check out our website at: www.csusm.edu/admissions. If you have questions the website doesn’t answer, you can reach us:

Welcome to California State University San Marcos!

Our professors and staff have been gratified to learn how highly our students rate their learning experiences at Cal State San Marcos. As students complete their studies at our university, they tell us that our emphasis on writing, group projects, information literacy, and hands-on experiences have given them the skills and confidence they need for the workplace or further study. Our students do not sit passively in large lecture halls during classes. They repeatedly take part in debate, analysis, and critical thinking. These skills will allow them to contribute to a rapidly growing regional community.

Now in its second decade, Cal State San Marcos is a young and dynamic university that is growing to meet your learning needs. In addition to the many fine programs that our university currently offers, we are adding new academic specialties every year. I encourage you to visit our web site at www.csusm.edu to discover our ten year plan for growth.

You will be able to watch the campus double in size between 2002 and 2004. This growth will include two new buildings — an Arts and a Science 2 building — with an expected occupancy date of Fall 2002. In 2003, a new state-of-the-art Library and Information Center, the M. Gordon Clarke Field House/Student Union, and our first student residence halls will be completed.

I invite you to join the thousands of students, faculty, staff, and community members who are building an exciting new center for the Tri-County region of San Diego, Riverside, and Orange counties. Come build your future with us!

Alexander Gonzalez, Ph.D.
President
My mother grew up in a rural village in Vietnam and my father grew up in Pennsylvania where he experienced the Great Depression as a teenager. Because both my parents worked so hard with their hands, they wanted their children to work with our minds, and they encouraged us by paying us differentially as kids: for work we did with our hands, they paid us $1 per hour, and for work we did with our minds, they paid us $2 per hour. The lesson we learned — that working with our minds is a privilege and an opportunity — led us to college and, in my case, convinced me to stay. After I had the chance to experience the excitement of new ideas and the self-altering experience of exposure to different worlds, I realized that, for me, the good life would include sharing these pathways with others.

Once it was clear that I would be a teacher, it was perhaps no surprise that the discipline I entered into was ethnic studies. No one could have imagined that two people from such disparate worlds as my parents would meet and marry; no one could be surprised that the home they created together (along with my maternal grandmother) would be filled with diverse ideas concerning race, language, culture, gender, nationalism, and religion. Growing up within this mixed-heritage home, located on the border between the U.S. and Mexico, my developmental years were filled with discussions of difference and a learned appreciation for diversity — and I am profoundly grateful. Most important among the multiple perspectives that my three parents imparted, was the underlying message that none of their cultures or viewpoints was always right nor always better. In our household, filled with American, Chinese, and Vietnamese beliefs, it was axiomatic that no culture or set of beliefs is innately superior, and this has been instrumental in shaping my own assumptions about the world, my own assumptions in the classroom.

After spending ten years in college as a student and five years as a teacher, I remain convinced that devotion to the mind keeps one young and enthusiastic — my Dad is ninety years old this year and he still reads the daily paper, writes letters and articles long past midnight, and participates in intellectual conferences and exchanges. The man who paid me two dollars an hour to work with my mind still practices what he preaches. He is the source of my inspiration, and for this I thank him.

As the daughter of an immigrant, and a Chula Vista native, I am deeply humbled by this prestigious award. Thank you to the administrators, colleagues, and students who have honored me in such a meaningful way.
President's Award for Scholarship & Creative Activity, 2000-2001

It is an honor to have been selected as the recipient of the 2001 President's Award for Scholarship and Creative Activity, and to have the opportunity to offer words of encouragement to you, the future students of Cal State San Marcos. I would like to begin by thanking President Gonzalez and my faculty colleagues for this very prestigious award. Thank you also to the Ecke family for their generous support of the award and to the many, many, many people over the years who have contributed to my education and supported me in my research and teaching efforts: my parents; my wife Laurie and my daughters Tara and Aimee; my professors and mentors; my colleagues; and the numerous students with whom I've had the pleasure to work.

I was selected for this award in recognition of my research, performed with Cal State San Marcos students, on the psychopharmacology and neurobiology of opiates. My students and I have made discoveries that may be useful in the understanding and treatment of pain and addiction, and have shared these discoveries with the community in scientific presentations and publications. We are often asked why we engage in scholarly work at Cal State San Marcos. We do it for a number of reasons. High among these is the discovery process itself — we are driven by a desire to understand the world around us — but also by the desire to contribute to our disciplines, to the community at large, and make the world a better place in which to live. But the most important reason for many of us, is the opportunity to work closely with students, helping them to better understand scholarly endeavors, ranging from scientific research to artistic creation, and become the future scientists, artists, entrepreneurs, practitioners, and leaders of the country.

If I can offer a little advice as you begin your education here, it's to take advantage of the opportunity to engage in scholarly work with your professors. We have a wonderful faculty dedicated not only to classroom teaching, but also to discovery and creativity, and who are very eager to engage students in their work. Your professors are leaders in their fields, and are nationally and internationally recognized for their accomplishments. By working closely with your professors in the laboratory, the art studio, the library, or whatever realm is appropriate to your chosen field, you will enhance your education, and have the opportunity to contribute to a better understanding of the world.

Best of luck as you embark on this exciting journey!
President's Award for Innovation in Teaching, 2000-2001

I am very honored to be the 2001 recipient of the President's Award for Innovation in Teaching. This award has special significance for me because students must nominate candidates, and there are so many excellent and innovative instructors at Cal State San Marcos.

It is gratifying to be recognized for bringing problem-based learning to the biological sciences curriculum at Cal State San Marcos. First used in medical schools, problem-based learning engages students to learn by inquiry and parallels the scientific process of discovery. Working in groups, students progress through complex, real-world problems to understand important biological concepts, and to develop critical thinking and communication skills. This method of instruction is extremely demanding of students, and they frequently excel beyond their own expectations. I am continually impressed with their achievements and very proud of their hard-earned successes.

I wish to thank the many faculty and administrators at Cal State San Marcos for their strong commitment to innovative instruction. I also thank my students and colleagues for their insight, inspiration, and encouragement, and my family for their unwavering support.

The CSU Map ..................................... 21
HISTORY OF CAL STATE SAN MARCOS

As far back as 1968, business and civic leaders in North San Diego County were working to interest state legislators and educational leaders to develop a state university in their region. The efforts were unsuccessful until 1978, when then-Assemblyman William A. Craven obtained state funds to begin a satellite facility for San Diego State University. The North County satellite began offering classes out of a portable classroom in Vista in 1979, and grew steadily through the 1980s in rented office facilities in San Marcos.

Legislative, educational, and business leaders continued to plan for a permanent state university in the region. The site of an old chicken ranch was chosen for the future campus. In 1988, two decades after local citizens had begun the process, a new state university — CSU San Marcos — was approved through legislation (SB3360) and signed into law by then-Governor George Deukmejian. Initial academic planning and the first two years of classes took place at "Cal State Jerome's," as students nicknamed the shopping mall campus while the initial buildings were under construction.

Cal State San Marcos is now a fully accredited state university, recognized for quality in undergraduate and graduate academic offerings, and appreciated for its small campus atmosphere. Built with an eye towards the needs of the 21st Century, Cal State San Marcos gives its students the benefits of access to the newest science labs, cutting-edge multimedia computer technology, and the energy of some of the brightest and most enthusiastic faculty in the country. These faculty members enforce a rigorous writing requirement across the curriculum, as well as computer and second language competencies that give students an advantage with graduate school training or the job market. The emphasis at Cal State San Marcos is on community-based learning opportunities that integrate the classroom with the real world classroom.

The campus is rapidly growing to meet the future, as the Arts and Science 2 buildings are completed and the Library Information Center begins to take shape. The M. Gordon Clarke Field House and Student Union will begin construction shortly, along with the university's first student housing facilities.

But whether it's in the middle of a great building boom or occupying the humble space rented next to a furniture store, Cal State San Marcos has always been a place where students, as the founding faculty wrote, "realize their potentialities as enlightened individuals and productive members of a society in a world of change."
FOUNDING MISSION STATEMENT

California State University San Marcos offers excellence in undergraduate and graduate education to a diverse citizenry in an increasingly interdependent world.

As the 20th campus in The California State System, CSU San Marcos provides an academic environment in which students, taught by active scholars, researchers, and artists, can achieve a foundation in the liberal arts and sciences and acquire specific competencies appropriate to major disciplines or graduate/professional study.

The University upholds a high level of academic scholarship in research and teaching, and protects academic freedom necessary for such scholarly pursuits. Moreover, the University demands fairness and decency of all persons in the University community. CSU San Marcos promotes a collegial relationship between students and faculty that encourages students' excitement about the learning experience and process. This campus combines the academic strengths of a large university with the personal interaction characteristic of smaller institutions. The University provides an atmosphere in which students can experience a challenging education in a supportive environment, preparing them to live cooperatively and competitively in a world of cultural and ethnic diversity, economic and governmental differences, shared resources, ecological restraints, and technological change.

CSU San Marcos recognizes its special role in the North San Diego County area. In the spirit of partnership, the University initiates and offers programs to further intellectual, professional, and personal development within the diverse community in which it serves. The University serves as a resource for books, computer-generated information, and ideas. The University stimulates research and development in collaboration with public and private organizations and, in conjunction with regional industry, participates in the development of science-based technology. The University offers cultural enrichment in an intellectually stimulating environment and acts as a focus for community social activities, music, athletics, and performing and visual arts.

CSU San Marcos endorses an international perspective that addresses the global community in its distinctive social, political, and economic terms. This multicultural outlook is reflected in our curriculum, extracurricular activities, international exchanges, and special programs that focus on world issues and problems. Consistent with its global orientation, this comprehensive University exposes students to the study of languages, to world literature and the fine arts, and to issues and traditions of the United States and other countries. The University's definition of the liberal arts and sciences in these times includes basic skills in writing, critical and creative thinking, mathematics, fundamental computer competence, and an interdisciplinary approach.

In addition to the laboratory and classroom, the University provides a variety of educational experiences in an atmosphere that encourages students to examine moral and ethical issues central to their development as responsible men and women. Students investigate the historical past and its relationship to the present and future, and seek to understand human behavior, culture, values, and institutions. They explore the modern mathematical, biological and physical sciences, and technology; focus on international concerns of race, gender, and cultural diversity; and contribute to public services that enrich the local and international community. The University prepares students to take leadership roles in areas of work and society in the international community of the 21st Century.

The aim of CSU San Marcos is to instill in its students the enthusiasm and curiosity, the creativity and originality, the healthy skepticism, and the habit of continuing inquiry that are central to all truly educated men and women. The goal is to enable them to realize their potentialities as enlightened individuals and productive members of society in a world of change.
THE CALIFORNIA STATE UNIVERSITY

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and, in 1982, the system became the California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus — San José State University — was founded in 1857 and became the first institution of public higher education in California. The most recently opened campus — California State University, Monterey Bay — began admitting students in the fall of 1995. The 23rd campus, CSU Channel Islands will open in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop system-wide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as a broad liberal education. All the campuses require for graduation a basic program of "General Education Requirements," regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,600 bachelor's and master's degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper-division and graduation requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 2000 totaled 368,252 students, who were taught by more than 21,225 faculty. The system awards more than half of the bachelor's degrees and 30 percent of the master's degrees granted in California. Some 1.94 million persons have been graduated from CSU campuses since 1960.
### Campuses of the California State University

**California State University, Bakersfield**  
9001 Stockdale Highway  
Bakersfield, CA 93311-1099  
Dr. Tomás A. Arce, President  
(661) 891-2011

**California State University, Channel Islands**  
One University Drive  
Carson, CA 90747-0005  
Dr. James E. Lyons, Sr., President  
(805) 756-1100

**California State University, Chico**  
400 West First Street  
Chico, CA 95929-0150  
Dr. Michael A. Esteban, President  
(530) 824-6116

**California State University, Dominguez Hills**  
1000 East Victoria Street  
Carson, CA 90747-0005  
Dr. James E. Lyons, Sr., President  
(310) 241-3300

**California State University, Fresno**  
5241 North Maple Avenue  
Fresno, CA 93740  
Dr. John D. Willey, President  
(559) 278-4240

**California State University, Fullerton**  
800 N. State College Boulevard  
Fullerton, CA 92834-9460  
Dr. Milton A. Gordon, President  
(714) 278-2011

**California State University, Hayward**  
25800 Carlos Bee Boulevard  
Hayward, CA 94542  
Dr. Norma Rees, President  
(510) 885-3000

**Humboldt State University**  
Arcata, CA 95521-8299  
Dr. Allan W. McRae, President  
(707) 826-3011

**California State University, Long Beach**  
1250 Bellflower Boulevard  
Long Beach, CA 90840-0115  
Dr. Robert C. Maxson, President  
(562) 985-4111

**California State University, Los Angeles**  
5151 State University Drive  
Los Angeles, CA 90032  
Dr. James M. Rosser, President  
(323) 343-3000

**California Maritime Academy**  
200 Maritime Academy Drive  
Vallejo, CA 94590  
Dr. William B. Eisenhardt, President  
(707) 824-3000

**California State University, Monterey Bay**  
100 Campus Center  
Seaside, CA 93955-8001  
Dr. Peter P. Smith, President  
(831) 582-3330

**California State Polytechnic University, Pomona**  
3801 W. Temple Avenue  
Pomona, CA 91768  
Dr. Bob Suzuki, President  
(909) 869-7059

**California State University, Sacramento**  
6000 J Street  
Sacramento, CA 95819  
Dr. Donald R. Gerth, President  
(916) 278-6011

**California State University, San Bernardino**  
5500 University Parkway  
San Bernardino, CA 92407-2397  
Dr. Albert K. Karnig, President  
(909) 880-5000

**San Diego State University**  
1600 Holloway Avenue  
San Diego, CA 92113  
Dr. Robert A. Corrigan, President  
(619) 594-1111

**San Francisco State University**  
One University Avenue  
San Francisco, CA 94132  
Dr. Torrence A. Martin, President  
(415) 338-1111

**San Jose State University**  
1250 Stockton Boulevard  
San Jose, CA 95192-0001  
Dr. Robert J. Carchedi, President  
(408) 924-1111

- **March 27-April 3 (Sat-Sat)**: Spring break - campus closed March 31 (Cesar Chavez Day)
- **May 6 (Thur)**: Last day of classes
- **May 7-13 (Fri-Thur)**: Final examinations
- **May 15-16 (Sat-Sun)**: Commencement weekend
- **May 17-18 (Mon-Tues)**: Grades due from instructors; end of Spring semester

(Note: This calendar is not intended to be construed as an employee work calendar.)

*Some Fall and Spring semester classes meet in a half-semester term.*
ACADEMIC PROGRAMS

California State University San Marcos offers academic programs in the following three colleges: Arts and Sciences, Business Administration, and Education.

Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree programs, as well as minors, are offered in the College of Arts and Sciences and the College of Business Administration.

Teacher credentialing programs are offered in the College of Education, with teacher preparation programs available in the College of Arts and Sciences.

Graduate programs leading to either a Master of Arts (M.A.), Master of Business Administration (M.B.A.) or Master of Science (M.S.) are offered in all three colleges.

COLLEGE OF ARTS AND SCIENCES

Baccalaureate Degrees

Biological Sciences, B.S.
- Molecular Cell Biology and Biotechnology Concentration
- Ecology Concentration
- General Biology Concentration

Chemistry, B.S.
- Biochemistry Option
- Chemistry Option
- Science Education Option

Communication, B.A.

Computer Science, B.S.

Economics, B.A.

History, B.A.

Human Development, B.A.
- Adult and Gerontology Emphasis
- Children's Services Emphasis
- Counseling Services Emphasis
- Health Services Emphasis

Liberal Studies, B.A.
- Interdisciplinary Studies Option
- Liberal Studies Option
- Integrated Credential Program Option

Literature and Writing Studies, B.A.
- Literature Emphasis
- Single-Subject Preparation Program Option
- Writing Emphasis

Mathematics, B.S.

Political Science, B.A.
- General Concentration
- Global Concentration

Psychology, B.A.

Social Sciences, B.A.

Sociology, B.A.
- Standard Concentration
- Aging and Life Course Concentration
- Children, Youth and Families Concentration
- Health and Mental Health Concentration

Spanish, B.A.
- General Major in Spanish Track
- Literature Track
- Language and Culture Track
- Spanish for the Professions Track

Special Major, B.A.

Visual and Performing Arts, B.A.
- Arts and Education Track
- Arts and Technology Track
- Music Track
- Theatre Arts Track
- Visual Arts Track

Women's Studies, B.A.

Minors

Anthropology
Biological Sciences
Chemistry
Communication
Computer Science
Criminology and Criminal Justice
Economics
Ethnic Studies
Film Studies
French
History
Literature and Writing Studies
Mathematics
Philosophy
Physics
Political Science
Psychology
Social Sciences
Sociology
Spanish
Visual and Performing Arts
Women's Studies

Teacher Preparation Programs

Elementary (Multiple) Subject Matter Program
(see Human Development, Liberal Studies, and Visual and Performing Arts)

Secondary (Single) Subject Matter Programs
- English (see Literature and Writing Studies)
- Mathematics
- Social Science (see History and Social Sciences)
- Spanish

Graduate Degrees

Biological Sciences, M.S.
Computer Science, M.S.
Literature and Writing Studies, M.A.
Mathematics, M.S.
Psychology, M.A.
Sociological Practice, M.A.
Spanish, M.A.
COLLEGE OF BUSINESS ADMINISTRATION

Baccalaureate Degrees

Business Administration, B.S.
- Accountancy/Finance Option
- Global Business Management Option
- High Technology Management Option
- Service Sector Management Option

Minor

Business Administration

Graduate Degree

Business Administration, M.B.A.
- Business Management Option

COLLEGE OF EDUCATION

Teaching Credentials

- Multiple Subject/CLAD Emphasis (Cross-Cultural Language and Academic Development)
- Part-time Multiple Subject/CLAD Emphasis
- Integrated Bachelor of Arts and Multiple Subject/CLAD Emphasis
- Multiple Subject Internship/CLAD Emphasis
- Multiple Subject/Middle Level/CLAD Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/CLAD Emphasis
- Single Subject Credential Program/CLAD Emphasis (Secondary)
- Multiple Subject/BCLAD (Bilingual/Cross-Cultural Language and Academic Development): Spanish Emphasis
- Part-time Multiple Subject/BCLAD: Spanish Emphasis
- Integrated Bachelor of Arts and Multiple Subject/BCLAD Emphasis
- Multiple Subject Internship/BCLAD: Spanish Emphasis
- Multiple Subject/Middle Level/BCLAD: Spanish Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/BCLAD: Spanish Emphasis
- Single Subject/BCLAD: Spanish Emphasis
- Preliminary Administrative Services Credential
- Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Professional Level II Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Professional Administrative Services Credential
- Professional Administrative Services Credential, Tier II
- Reading/Language Arts Specialist Credential
- CLAD Certificate
- Reading Certificate

Graduate Degrees

Education, M.A.
- Bilingual, Language and Culture Option
- Education Administration Option
- Learning and Instruction Option
- Literacy Education Option
- Science, Mathematics and Educational Technology for Diverse Populations Option
- Special Education Option

CLAD = Cross-Cultural Language and Academic Development

BCLAD = Bilingual/Cross-Cultural Language and Academic Development

*Internships offered with San Diego and Riverside County School Districts.

Admissions

The Office of Admissions offers a full array of services from the time of first contact until students register for their first semester.

All pre-enrollment services are housed in the Enrollment Services Information Center. Admissions is responsible for processing admission applications and for the evaluation of high school or transfer credits, but also offers a wide variety of services to prospective students who have not yet applied. Outreach services to area high schools, community college transfer services, pre-admission advising, and campus tours are all available to students seeking information about the University. Questions about majors offered, support services available, or the future development of the campus can also be addressed. In addition to the professional staff, Peer Resources in Discussing Education (PRIDE) Ambassadors are a group of continuing Cal State San Marcos students who are available, by appointment, for these services.

Registration and Records

The Office of Registration and Records is responsible for registration, grade reporting, maintenance of the official academic record, name, address, and major changes, evaluation of transfer credits, transcripts, class rosters, enrollment verification, transcript evaluation, and graduation processing. Application for services related to the above may be obtained from the Enrollment Services Information Center in Craven Hall. The official name, address, and major changes for a student must be requested in the Enrollment Services Information Center. All official academic records for students are maintained in Registration and Records, including academic transcripts, academic status, degree information, grade changes, and petitions for exceptions to academic regulations.

Undergraduate Admission Requirements

Freshman Admission Requirements

Generally, applicants will qualify for regular admission as first-time freshmen if they:

1. are high school graduates,
2. have a qualifiable eligibility index (see Eligibility Index), and
3. have completed, with grades of C or better, each of the courses in the comprehensive pattern of college preparatory subject requirements (see "Subject Requirements").

Eligibility Index

The eligibility index is the combination of the student's high school grade point average and his/her score on either the ACT or the SAT. The student's grade point average is based on grades earned during the student's final three years of high school (excluding physical education and military science) and bonus points for approved honors courses. Beginning with admission for Fall 2004, the high school grade point average will be based solely on courses taken in the final three years of high school that satisfy the comprehensive pattern of college preparatory subject requirements.

Up to eight semesters of honor courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

Students can calculate the index by multiplying their grade point average by 800 and adding their total score on the SAT I. If students took the ACT, multiply their grade point average by 200 and add ten times the ACT composite score. California high school graduates (or legal residents of California for tuition purposes) need a minimum index of 2900 using the SAT I or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages.
Students who neither graduated from a California high school nor are residents of California for tuition purposes, need a minimum index of 750 (SAT I) or 842 (ACT). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

Students with grade point averages of 3.00 or above (3.61 for nonresidents) are not required to submit test scores. However, students are urged to take the SAT I or ACT because campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs.

Students will qualify for regular admission when the University verifies that students have graduated from high school, have a qualifying eligibility index, have completed the comprehensive pattern of college preparatory subjects, and, if applying to an impacted program, have met all supplementary criteria.

Provisional Admission
Cal State San Marcos may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the senior year of study to ensure that those so admitted complete their senior year of studies satisfactorily, including the required college preparatory subjects, and graduate from high school.

Below 2.00 does not qualify for regular admission

Subject Requirements
The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school. Within the 15 units completed, up to one unit (one year) in visual and performing arts or foreign language may be missing and offset by a college preparatory course(s) in other areas. The missing unit of visual and performing arts or foreign language must be completed either prior to, or by the end of the first year, of CSU enrollment. This provision is effective through the 2002-2003 academic year.

- English, 4 years.
- Mathematics, 3 years: algebra, geometry, and intermediate algebra.
- U.S. history or U.S. history and government, 1 year.
- Science, 1 year with laboratory: biology, chemistry, physics, or other acceptable laboratory science.
- Foreign language, 2 years in the same language (subject to waiver for applicants demonstrating equivalent competence).
- Visual and performing arts, 1 year: art, dance, drama/theater, or music.
- Electives, 3 years: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, and visual and performing arts.
Applicants seeking admission as first-time freshmen for the fall 2003 or later terms will have the same preparatory course requirements for admission to either the California State University or the University of California. The preparatory course admission requirements will be the completion of the following courses with a grade of C or better:

- English, 4 years.
- Mathematics, 3 years: algebra, geometry, and advanced algebra.
- Social science, 2 years, including one year of U.S. history.
- Laboratory science, 2 years, must include one year of life and one year physical science.
- Foreign language, 2 years.
- Visual or performing arts, 1 year.
- Electives chosen from one of the areas above, 1 year.

**Foreign Language Subject Requirement**
The Foreign Language Subject Requirement may be satisfied by applicants who demonstrate competence in a language, other than English, equivalent to or higher than expected of students who complete two years of foreign language study. Consult with your school counselor or any CSU campus' Admissions or School Relations Office for further information.

**Subject Requirement Substitution for Students with Disabilities**
Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant's academic advisor or guidance counselor in consultation with the Director of Disabled Student Services. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. Further information and substitution forms can be obtained from the Director of Disabled Student Services.

**Lower-Division Transfer Requirements**
Generally, applicants will qualify for admission as lower-division transfer students if they have a grade point average of at least 2.0 (C or better) in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. will meet the freshman admission requirements (grade point average and subject requirements) in effect for the term to which they are applying (see "Freshman Requirements" section); or
2. were eligible as a freshman at the time of high school graduation except for the subject requirements, have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Office of Admissions to inquire about alternative admission programs.

**Undergraduate Transfer Applicants**

**Transfer Requirements**
Students who have completed fewer than 56 transferable semester college units (fewer than 84 quarter units) are considered lower-division transfer students. Students who have completed 56 or more transferable semester college units (84 or more quarter units) are considered upper-division transfer students. Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses.
Making Up Missing College Preparatory Subject Requirements

Lower-division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a C or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations.
   Please consult with any CSU Admission Office for further information about alternative ways to satisfy the subject requirements.

Upper-Division Transfer Requirements

Generally, applicants will qualify for admission as upper-division transfer students if:

1. they have a grade point average of at least 2.0 (C or better) in all transferable units attempted; and
2. they are in good standing at the last college or university attended; and
3. they have completed at least 30 semester units of college coursework with a grade of C or better in each course, to be selected from courses in English, arts and humanities, social science, science and mathematics, at a level at least equivalent to courses that meet general education requirements. The 30 units must include all of the general education requirements in communication in the English language and critical thinking (at least 9 semester units) and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student, if he or she meets all of the following conditions:

1. possesses a high school diploma [or has established equivalence through either the tests of General Educational Development (GED) or the California High School Proficiency Examination],
2. has not been enrolled in college as a full-time student for more than one term during the past five years, and
3. if there has been any college attendance in the last five years, has earned a C average or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is likely to succeed, as a regularly admitted freshman or transfer student, and will include an assessment of basic skills in the English language and mathematical computation.

Other Applicants

An applicant not admitted under the provisions cited in this catalog should consider enrollment at another appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll in the University. Permission is granted only by special action of the University.

International (Foreign) Student Admission Requirements

The California State University must assess the academic preparation of international students. For this purpose, “foreign students” include those who hold U.S. visas as students or exchange visitors, or are in other non-immigrant classifications.

The CSU uses separate requirements and application filing dates for the admission of foreign students. Verification of the student’s English proficiency (see the section on TOEFL requirement for undergraduate and graduate applicants), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least four weeks before registration for the first term and, if not in English, must be accompanied by certified English translations. Complete information can be found in www.csusm.edu/UGA/intestud.htm.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those majors or programs with limited openings.

Insurance Requirement

Effective August 1, 1995, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and for continued enrollment in the CSU. Such insurance must be in amounts as specified by the U.S. Department of State and NAIFA: Association of International Educators. Information about required coverage and which insurance policies meet these criteria may be obtained from the Office of University Global Affairs.
Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of Registration and Records.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is automatically reported to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported automatically to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Admission to Teaching Credential Programs

Admission to the University as a student does not constitute admission to a teaching credential program, and vice-versa. Students must be admitted to both in order to enroll in classes. Students who intend to work toward the Multiple or Single Subject Credential must also apply for admission to the credential program. For details regarding the admission requirements, please refer to the College of Education section.

Postbaccalaureate students must file official transcripts with both the Office of Admissions and the College of Education if they plan to enter a credential program. Students must include transcripts from each college attended (including extension, correspondence, summer session, or evening courses).

Second Bachelor's Degree Admission Requirements

Students who have a previous bachelor’s degree from a regionally accredited institution of higher education may apply to receive a second bachelor's degree. Applicants must have a 2.5 grade point average in the last 60 units attempted for prior work, and must meet graduation requirements as specified in the Second Bachelor's Degree Requirements section.

Undergraduate Application Procedures

Prospective students, applying for part-time or full-time undergraduate programs of study, in day or evening classes, must file a complete undergraduate application. The $55 nonrefundable application fee should be in the form of a check or money order payable to "The California State University" or by credit card if submitting the online application, and may not be transferred or used to apply to another term. An alternate campus and major may be indicated on the application, but applicants should list as an alternate campus only a CSU campus that also offers the major. Generally, an alternate major will be considered at the first choice campus before an application is redirected to an alternate choice campus. To be considered by more than one campus during the open filing period, it is recommended that an applicant submit an application (including fees) to each campus.

Application Filing Periods

Filing Period Duration: Each campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category because of overall enrollment limits. Undergraduates are encouraged to apply during the initial filing period to facilitate the campus' early review and response. If applying after the initial filing period, the student should consult with the Office of Admissions for current information.

Application Acknowledgement

The acknowledgment letter will also include a request to submit any additional records necessary for the campus to evaluate the student’s qualifications. Students may be assured of admission if the evaluation of their qualifications indicates that they meet CSU admission requirements, and campus requirements for admission to an impacted program. An offer of admission is not transferable to another term or to another CSU campus.

Notification of Admission

Applicants who have received an application acknowledgment and have submitted all required admission materials will begin to receive notification of acceptance or denial of admission to the Fall 2002 semester beginning on January 1, and for the Spring 2003 semester beginning on November 15. If the processing schedule permits, some applicants may be notified in advance of these dates.

Cancellation of Admission

Admission will be cancelled automatically if a student who received a notice of admission for a given semester does not register for that semester. If the student wishes to undertake studies at the University at a later date, the student must file a new application, pay a new application fee, and meet the current admission requirements.

Materials supporting the application for admission, such as transcripts and entrance examination scores, are retained for one year only. Additional documentation will be required of studies done in the interim to complete the student’s application file.

Filing Official Transcripts

Applicants must file the following official transcripts with the Office of Admissions:

1. Freshmen — May submit preliminary high school transcripts prior to graduation but must also send final transcripts with graduation date listed.
2. Transfers — Request official transcripts be sent directly from all colleges or universities previously attended (even if no coursework was completed). Transcripts must be received in sealed envelopes from each institution attended. Applicants should keep personal copies of all transcripts and test scores to complete the admission application and for academic advising sessions. If transferring with fewer than 56 transferable semester (64 quarter) units of study, applicants must also submit their high school transcript. Applicants with 56 or more transferable semester units may be asked to submit high school transcripts if admittance cannot be determined on the basis of college or university transcripts.
3. Photocopy of the military separation form DD-214, evaluation of military training form DD-295, or SMART transcript, if applicant wants transfer credit for active military service.

A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to Cal State San Marcos by the institution attended. All records or transcripts received by the University become the property of the University and will not be released to a third party.

Use of Social Security Number

Applicants are required to include their correct Social Security Number (taxpayer identification number) in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The University uses the Social Security Number to identify students and their records including for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s Social Security Number and other information, such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

High School Students

Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair, and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given program and does not constitute the right to continued enrollment.

Hardship Petitions

Qualified applicants who would be faced with extreme hardship if they are not admitted should communicate in writing the details of their hardship to the Office of Admissions and request hardship admission consideration.

Test Requirements

Freshman and transfer applicants who have fewer than 56 semester or 84 quarter units of transferable college credit must submit scores, unless exempt (see “Eligibility Index” on page 28), from either the ACT or the SAT I of the College Board. If students are applying to an impacted program, on campus, and are required to submit test scores, they should take the test no later than October or November. Test scores are also used for advising and placement purposes. Registration forms and dates for the SAT I or ACT are available from school or college counselors or from a CSU campus testing office. Or students may write to or call:

The College Board (SAT I) Registration Unit, Box 6200 Princeton, New Jersey 08541-6200 (609) 771-7588 www.collegeboard.org

ACT Registration Unit P.O. Box 414 Iowa City, Iowa 52240 (319) 337-1270 www.act.org
TOEFL Requirement

All undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must present a score of 550 or above on the Test of English as a Foreign Language. Some majors may require a score higher than 550. Applicants taking the Computer Based Test of English as a Foreign Language must present a score of 213 or above. Some majors may require a higher score.

Systemwide Placement Test Requirements

The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms.

Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to Sandra Punch, Director, Career and Assessment Center, 333 S. Twin Oaks Rd., San Marcos, CA 92096-0001. Or students may call (760) 750-4900.

English Placement Test (EPT)

The EPT is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of 550 or above on the verbal section of the College Board SAT I Reasoning Test taken April 1995 or later.
- A score of 24 or above on the enhanced ACT English Test taken October 1989 or later.
- A score of 680 or above on the re-centered and adjusted College Board SAT II Writing Test taken May 1998 or later.
- A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Scholastic Advanced Placement program.
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement, provided such course was completed with a grade of C or better.

English and Mathematics Proficiency Requirements

All new undergraduate students must establish their college-level proficiency in English and mathematics within their first two semesters of enrollment. Those who are exempt from, or achieve passing scores on the ELM or EPT examinations, are considered proficient.

Those who are not exempt from and do not achieve a passing score on the EPT must earn a grade of "C," or better, in GEW 101, Principles of Written Communication, by the end of their second semester of enrollment at Cal State San Marcos.

Those who are not exempt from and do not achieve a passing score on the ELM test must establish their proficiency by earning a grade of "C," or better, in a designated remedial course in mathematics by the end of their second semester of enrollment at Cal State San Marcos.

Those who do not establish proficiency within their first two semesters will be subject to disenrollment and advised to strengthen their academic skills before returning to the University.

Entry Level Mathematics (ELM) Placement Examination

The ELM examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of 550 or above on the mathematics section of the College Board SAT I Reasoning Test or on the College Board SAT II Mathematics Tests Level I, IIC (Calculator), II, or IIC (Calculator).
- A score of 23 or above on the American College Testing Mathematics Test.
- A score of 3 or above on the College Board Advanced Placement Mathematics examination (AB or BC) or Statistics examination.
**Health Screening**

All new and readmitted students born after January 1, 1957, will be notified of the requirement to present proof of measles and rubella immunizations. All students 18 years of age or younger shall be required to present proof of immunization against Hepatitis B. Each incoming freshman who will be residing on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease and whether or not he or she has chosen to receive the vaccination. These are not admission requirements, but shall be required of students as conditions of enrollment in CSU. Proof of measles and rubella immunizations shall also be required for certain groups of enrolled students who have increased exposure to these diseases.

**Reservation**

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the University.

**Providing Proof**

When a student is providing proof of full immunization, the required documentation must be presented to Student Health Services (SHS). Student Health Services is responsible for the official verification of the documentation. All proof of immunization and immunity must be submitted to Student Health Services to be properly recorded for report to the Admissions Office. The required documentation may be presented to the clinic for clearance by:

- Bringing the documentation to the clinic for staff review.
- Having the documentation reviewed by an SHS staff member during orientation.
- Mailing the documentation to SHS for review.
- Faxing the documentation to SHS.

Provisions for exemptions in fulfilling this requirement are available based on medical considerations, religious or personal beliefs. For medical considerations, a written statement from a physician indicating the reason for the medical exemption must be provided along with the student signing the exemption form. For exemptions for religious or personal reasons, the student will sign the exemption form. Students electing to claim an exemption will be given the opportunity to meet with a medical provider to discuss the risks associated with not being fully immunized and will also be instructed as to the campus actions in the event of a measles outbreak on campus. Students with exemptions will be excused from all classes in the event of a campus outbreak of measles.

**Immunization Holds**

Enrollment Services has the task of placing registration holds on students’ records if documentation of full immunity has not been presented to Student Health Services. Holds are placed if proof has not been submitted approximately four weeks prior to the start of priority registration. If a hold is placed on registration, this hold will be lifted if proof of immunity is presented to the clinic, or by receiving the injection. Holds will be temporarily lifted, for one semester, for those students who have signed the waiver for exemptions. Students who sign the waiver for exemption, must sign the waiver each semester that they are enrolled. Questions can be directed to Student Health Services at (760) 750-4915.

**Veterans and Veterans’ Dependents**

Many veterans, dependents of deceased or disabled veterans, and reservists are eligible for Department of Veterans Affairs’ education benefits. Additionally, many dependents of deceased or disabled veterans are eligible for a complete waiver of application and registration fees through the California Department of Veterans Affairs.

The programs administered by the Department of Veterans Affairs are:

- **VEAP** For veterans who entered active duty between January 1, 1977, and June 30, 1985, and who contributed to the program while on active duty.
- **Montgomery G.I. Bill (Active Duty)**. For veterans who entered active duty beginning July 1, 1985, and who participated in the twelfth-month pay reduction while on active duty.
- **Montgomery G.I. Bill (Selected Reserve Program)**. For undergraduates and graduates enlisted in the reserves who have made a six-year commitment to the selected reserves.
- **Dependents**. For spouses or children of veterans who died on active duty, whose death was caused by a service-connected disability, or who are rated 100% permanently disabled by the Department of Veterans Affairs.

California Department of Veterans’ Affairs

**College Fee Waiver Program for Veterans’ Dependents (CALVET).**

Dependents of deceased or disabled veterans may have all mandatory tuition and fees waived at Cal State San Marcos. Not included are any campus-based, non-resident, or Extended Education course fees. Those wishing to apply for the College Fee Waiver Program may contact the County of San Diego Veterans Service Office, 734 W. Beech St., Suite 200, San Diego, CA 92101-2441, or the Veterans’ Representative in the Office of Registration and Records.

**Vocational Rehabilitation.** For veterans with a service-connected disability, or who are rated 100% permanently disabled by the Department of Veterans Affairs.

Students should be aware that the Veterans Administration will pay educational benefits only for those courses which are part of an approved degree or certificate program, and which have not been previously and successfully completed. Students are required to attend classes regularly and maintain satisfactory grades. For clarification of Veterans Administration policies on withdrawals, incompletes, course repeats, etc., please contact the veterans representative on campus.
Students wishing to apply for the programs administered by the Department of Veterans Affairs can apply for their benefits on campus. Veterans who enroll at Cal State San Marcos are encouraged to call or visit the veterans representative in the Office of Registration and Records for instructions prior to signing up for benefits. Dependents of deceased or disabled veterans who wish to apply for the fee waiver program may contact the County of San Diego Veterans Service Office, 7151 El Cajon Blvd., Suite C, San Diego, CA 92115-1819 or the veterans representative in the Office of Registration and Records.

**Determination of Residence for Nonresident Tuition Purposes**

The Office of Admissions determines the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, if necessary, other evidence furnished by the student, are used in making this determination. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions.

The law governing residence for tuition purposes at the California State University is California Education Code sections 66000-66064, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University's web site at www.calstate.edu. A copy of the statutes and regulations is available for inspection at the Office of Admissions.

Each campus's Admissions Office is responsible for determining the residence status of all new and returning students based on responses to the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residence for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least one full year prior to the residence determination date for the term in which enrollment is contemplated, has been both physically present in the state and has evidence of intent to remain in California indefinitely, may establish California residence for tuition purposes. Evidence demonstrating intent can vary from case to case and may include, but is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California registration and driver's license, maintaining active California bank accounts, filing California income tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Adult noncitizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. Unmarried minor noncitizens derive their residence in the same manner as unmarried minor citizens except that both parent and minor must have an immigration status consistent with establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68120 and Title 5 of the California Code of Regulations, sections 41900-41916, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and students who have attended high school in California and graduated or attained the equivalent. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor's office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence, which will be considered along with physical presence and intent in determining reclassification.

The residence determination dates for the four stages on CalStateTEACH are as follows:

<table>
<thead>
<tr>
<th>Stage</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>September 20</td>
</tr>
<tr>
<td>Spring</td>
<td>January 25</td>
</tr>
<tr>
<td>Summer</td>
<td>June 1</td>
</tr>
</tbody>
</table>

A campus residence classification appeal must be in writing and submitted to:

The California State University
Office of General Counsel
401 Golden Shore, 4th Floor
Long Beach, California 90802-4210
The appeal must be submitted within 120 days of notification of the final campus decision. The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents, or who no longer meet the criteria for an exception, must immediately notify the Admissions Office.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.

**Impacted Programs**

Office of Admissions
(760) 750-4848

The California State University designates programs as impacted when more applications are received in the initial filing period (October and November for fall terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at some campuses. Students must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce during the Fall filing period which programs are impacted and the supplementary criteria campuses will use. That announcement is published in the CSU Review and distributed to high school and college counselors, and available online at www.csu.edu/AR/csureview/. Information about the supplementary criteria also is sent to program applicants.

Students must file their application for admission to an impacted program during the initial filing period. If students wish to be considered in impacted programs at two or more campuses, students must file an application to each campus.

**Supplementary Admission Criteria**

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. If students are required to submit scores on either the SAT I or the ACT and are applying for fall admission, students should take the test as early as possible and no later than October of the preceding year, if applying for fall admission.

The supplementary admission criteria used by the individual campuses to screen applicants appear periodically in the CSU Review and are sent by the campuses to all applicants seeking admission to an impacted program.

Unlike unaccommodated applicants to locally impacted programs who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major, but may choose an alternate major either at the first choice campus or another campus.

**Evaluation of Academic Records**

**Transfer Credits**

Credit for work completed at regionally accredited institutions, other than coursework identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at Cal State San Marcos within limitations of residence requirements, community college transfer maximums, and in accordance with directives from Executive Orders and Title 5 of the California Code of Regulations.

**Undergraduate Tests and Examinations**

Cal State San Marcos grants up to a maximum of thirty (30) semester units of credit to those students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement, CSU English Equivalency Examinations, and some CLEP examinations. The total credit earned in external examinations (excluding Advanced Placement that may be applied to a baccalaureate shall not exceed 30 units. No credit for any examination will be forwarded to a student who has either 1) taken the examination previously within the past year; 2) earned equivalent credit through regular coursework credit by another examination, or other instructional processes, such as correspondence study or military training; or 3) earned credit previously in a course or by examination more advanced than the level represented by the examination in question.

**Credit for Advanced Placement**

Cal State San Marcos grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three (3) or better will be granted up to six (6) semester units of University credit with the following proviso: Acceptance of Advanced Placement units for purposes other than lower-division electives is determined by the appropriate academic or discipline division. For information on which Advanced Placement tests are accepted for credit at Cal State San Marcos, contact Admissions at (760) 750-4848.
Credit for College Level Examination Program (CLEP)
Credit is awarded for successful performance in certain examinations of the College Level Examination Program. Students may earn up to six (6) units per examination passed. Passing scores for the CLEP exams are established by the participating academic disciplines and the California university and college system. Credit for one examination in mathematics may be applied to the mathematics requirement of the General Education Program. Credit for additional examinations is allocated to lower-division electives; acceptance for major, minor, or prerequisite use is granted on the approval of the appropriate academic or discipline division.

Credit for International Baccalaureate Certificates or Diplomas
Cal State San Marcos normally grants six (6) units of credit for each International Baccalaureate Higher Level Subject Examination passed with a score of 4 or better. To receive credit, students must request that their International Baccalaureate transcript of grades be sent to CSU San Marcos’ Office of Admissions for evaluation and determination of appropriate credit to be awarded.

Credit by Challenge Examination
A student may elect to receive credit for a course by challenge examination for any course approved by the academic discipline as a course eligible for challenge. The following procedures are applicable:

- A student must be enrolled currently in the course elected for challenge, as well as one additional course.
- A course challenge form containing the approval of the student’s faculty advisor and the designated signature(s) within the course's college must be completed prior to the examination. (Note: It is assumed that some disciplines may use discipline/college-defined exams instead of having individual faculty members administer the exam. That is why the faculty member signature is not required, but may be added if the discipline/college requires it. The form, once the policy is approved, will be designed in consultation with Enrollment Services, and the colleges of Arts and Sciences, Business Administration, and Education, and will address any additional signatures required.)
- Examinations must be administered and graded prior to the last day to add courses in any given semester or term. Students are required to file course challenge forms prior to the end of the first week of classes to insure adequate time for the examination process. If the student does not successfully complete the exam, the student will be allowed to remain in the course or drop the course in accordance with normal withdrawal policies.
- The grading option for a challenge exam is at the discretion of the discipline. Disciplines may designate the grading method (letter grade, CR/NC) and may establish a minimum grade that must be obtained in order to receive course credit in accordance with University policy.
- Credit by examination may not be used to fulfill the residency requirement.
- The challenge examination must include a writing assessment that reflects the all-university writing requirement.
- There is a six-unit limit on credit by challenge examination within the major.
- A student may not elect to challenge a course for which a grade of "U," "F," "NC," or "AU" was received in a previous semester, for which academic renewal has been granted, or for which a prior challenge has been unsuccessful.
- As a matter of general policy, a student may not challenge a course for which a prerequisite is listed unless the prerequisite requirement has been met. Exceptions to this policy require special approval as designated by the college or discipline. A student may not challenge a course that is listed in the catalog as a prerequisite for a course in which academic credit has already been granted.
- Courses cannot be challenged to fulfill upper-division General Education requirements.

Credit for Noncollegiate Instruction
Cal State San Marcos grants undergraduate degree credit, appropriate to the baccalaureate degree, for successful completion of noncollegiate instruction, either military or civilian, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs. The Office of Admissions provides students with specific details about individual military credit after evaluation of the documents submitted for admission purposes.

Community College Credit
A maximum of seventy (70) semester units earned in a community college may be applied toward the degree, with the following limitations: (a) no upper-division credit may be allowed for courses taken in a community college; (b) no credit may be allowed for professional courses in education taken in a community college, other than introduction to education courses.

Extension Credit
The maximum amount of transferable extension and correspondence credit which may be applied toward the minimum requirements for the bachelor’s degree is twenty-four (24) semester units. Extension credit does not apply toward the 30 units of residence credit required for all undergraduate degrees.

Catalog Rights for Degree Requirements
If a student does not graduate within ten (10) years from the beginning of his/her catalog rights, the major advisor may review all upper-division major courses for applicability.

* Subject to change

Note: Fees for courses offered through Special Sessions are not included in units for matriculated courses. There are additional fees associated with Special Session courses. Refer to the Special Sessions bulletin for more information.

CAL STATE SAN MARCOS | 39
Student Health Insurance

A health insurance policy is available and recommended to students who have no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased semestrially or yearly. An open enrollment period is available the first 30 days of each semester. Forms to enroll for the student health insurance policy are available in the Associated Students Office and in Student Health Services.

All international students are required to have health insurance coverage. International students desiring additional information should contact the Office of Admissions.

Refund of Fees

Details regarding which fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to follow in seeking refunds may be obtained by consulting Section 42201 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, California Code of Regulations. In all cases, it is important to act quickly in applying for a refund.

All refunds are made by check and are mailed to the student’s address on file. Refunds are subject to a processing fee, and they are not processed until after the add/drop period of the term. All refund checks may take up to 10 working days to process. For the most current refund policy in effect, please refer to the Class Schedule. Information concerning any aspect of the refund of fees may be obtained from the Student Financial Services Office.

Students withdrawing completely from the University, or dropping from 6.1 or more units to 6.0 units or less by the scheduled adjustment deadline (posted in the Class Schedule), are eligible for a refund of monies paid but not owed to the University.

Refund requests made after the scheduled deadline will not be processed. To receive consideration of a refund after the scheduled deadline, a "Petition For Fee Waiver of University Regulations" form must be completed. The University Appeals Committee will make the final decision on the merits of the each petition in accordance with the California Administrative Code, Title 5, sections 41802 and 41913.

The Petition for Fee Waiver of University Regulations is available in the Cashier’s Office and on-line at www.csusm.edu/sfs.

Non-matriculated students, open university students, or any students enrolled in Extended Studies or Special Session who withdraw completely or make schedule adjustments, should refer to the Class Schedule or Special Session Brochure covering that term/program for refund policies and procedures.

Students who are receiving Federal Financial Aid, and who withdraw prior to the eleventh week of the semester, may be required to repay a portion of their financial aid disbursement.

Debts Owed to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381). For example, the institution may withhold permission from any person owing a debt to receive official transcripts of grades. If a student believes he or she does not owe all or part of an asserted unpaid obligation, the student should contact the University Cashier’s Office. The Cashier’s Office or another office on campus to which the Cashier’s Office may refer the student, will review the pertinent information, including information provided by the student, and will advise the student of its conclusions.
Procedure for the Establishment or Abolishment of a Student Body Fee

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). A student body center fee may be established only after a fee referendum is held which approves, by a two-thirds favorable vote, the establishment of the fee (Education Code, Section 89304). The student body fee was established at CSU San Marcos by student referendum on October 8, 1991. The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including but not limited to, Education Code, sections 90012, 90027, and 90068. Student body fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may also request the Chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus Fee Advisory Committee and the completion of a student referendum is delegated to the President.

Student Financial Aid

The Financial Aid and Scholarship Office administers several programs which are designed to assist students whose financial resources are insufficient to meet their educational costs, including fees, books, transportation, and living expenses. Financial assistance programs consist of gift aid (grants and scholarships), loans, and employment opportunities. The funds for these programs come from the State of California, the federal government, and private sources.

If a financial aid recipient withdraws or reduces units, all or a portion of financial aid which was received may need to be repaid. The amount of the required payment will be determined by the date the student officially withdraws. Because federal regulations require half-time enrollment for certain federal aid programs, any student who drops to less than half-time may lose all financial aid.

Details on refund requirements for students who completely withdraw within a semester are available on the Financial Aid and Scholarship web site.

Both federal and state financial aid and any outstanding debts to Cal State San Marcos must be repaid before any refund is given to the student.

Application Procedures

Students should complete a Free Application for Federal Student Aid (FAFSA) each year between January 1 and March 2 to be considered for aid for terms of enrollment from the next Fall semester to the following Spring term. A FAFSA may be completed online at www.fafsa.ed.gov. A paper FAFSA may be obtained from any California college financial aid office or high school counseling office. The FAFSA must be used to apply for California and federal financial aid, including loans.

In addition to filing the FAFSA by March 2, financial aid applicants should submit supporting documents to the Cal State San Marcos Financial Aid and Scholarship Office no later than May 1. Required supporting documents vary from student to student and will be requested by the Financial Aid and Scholarship Office following receipt of the FAFSA. Applicants who do not meet the priority filing dates will be awarded aid as funds are available.

All California residents who are applying for undergraduate programs, and who file a FAFSA by the Cal Grant deadline of March 2, are encouraged to apply for Cal Grants. Details are available through high school counseling offices or the Cal State San Marcos Financial Aid and Scholarship Office.

Students who are applying to the teacher credential program are now eligible to apply for a Cal Grant. Check with the Financial Aid and Scholarship Office for details.
Eligibility
Most financial aid is based on financial need, which is the difference between the full cost of attending Cal State San Marcos and an expected contribution from the student, the student’s spouse (if married), and parents (if the student is required to provide parental information on the FAFSA). The expected family contribution is determined by standards which are set by the federal government and the State of California.

Students must be U.S. citizens or "eligible non-citizens" in order to be considered for federal aid. Students holding "F" visas or other non-resident visas are not eligible for state or federal financial aid funds.

Federal and state financial regulations require the Financial Aid and Scholarship Office to ensure that financial aid recipients are making satisfactory progress toward their degree as well as remaining in good academic standing. The Cal State San Marcos Financial Aid Satisfactory Academic Progress Policy Statement is available from the Financial Aid and Scholarship Office.

For additional information, please write the Financial Aid and Scholarship Office, Cal State San Marcos, San Marcos, CA 92096-0001, for a financial aid brochure. Students may access all of their Cal State San Marcos financial aid records or obtain general information by calling the SMART system at (760) 750-4850, or accessing SMART WEB through the web site www.csusm.edu/financial_aid. Inquiries may also be made by e-mail or fax. The fax number is (760) 750-3047. The e-mail address is: finaid@csusm.edu

Scholarships

**Scholarship Office**
(760) 750-4855

The following scholarships are available to students attending Cal State San Marcos. Some scholarships do not require financial need. Cal State San Marcos has a general scholarship application which is available from the Financial Aid and Scholarship Office. Students who complete this application, which includes an essay, will automatically be considered for several of the scholarships. Students are also urged to regularly check the scholarship bulletin board in the Financial Aid and Scholarship Office.

Information on all scholarships that are listed below is available through the Cal State San Marcos Financial Aid and Scholarship Office and on the web page. A free scholarship search service, is available in the financial aid section of the Cal State San Marcos Web site. The site is free of charge and contains information on national scholarships.

Scholarships that are administered by Cal State San Marcos Financial Aid and Scholarship Office:

**ALAN PATTEE SCHOLARSHIP**

Pursuant to the Alan Pattee Scholarship Act, Education Code Section 68120, children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged mandatory systemwide fees or tuition of any kind at any California State University campus. Students who may qualify for these benefits should contact the Admissions/Registrar's office for an eligibility determination.

**ANNE KAY ENDOWED SCHOLARSHIP**

Established by a gift from Anne Kay, for financially needy U.S. citizens who are highly motivated to learn and achieve and who are new transfer students from community colleges, with at least a 3.0 transfer GPA.

**BREE TINNEY ENDOWED WOMEN'S STUDIES SCHOLARSHIP**

Established by friends and family of Bree Tinney in her memory, for a financially needy Cal State San Marcos student who is a Women's Studies major or minor.

**THE BURNHAM FOUNDATION SCHOLARSHIP**

Established by the Burnham Foundation, two $1,000 scholarships are awarded each year to Cal State San Marcos students who are interested in a career in business. The recipients are selected from applicants who have at least a 2.75 GPA, are enrolled in at least six (6) units, and demonstrate financial need. Preference is given to students who have strong communication skills, demonstrate academic ability, and are involved in community service and school activities.
CAL STATE SAN MARCOS AVID SCHOLARSHIP

Funded by an anonymous donor, a $1,000 scholarship to a former AVID student who has overcome past obstacles.

CAROLYN R. MAHONEY ENDOWED SCHOLARSHIP

Endowed in honor of Dr. Carolyn R. Mahoney, former Cal State San Marcos mathematics professor, to a full-time Cal State San Marcos mathematics major with a GPA of 3.0 or higher.

CSU GRADUATE EQUITY FELLOWSHIP

Awarded to Cal State San Marcos students who are in a Master's program, have a high financial need, are California residents, have a minimum Cal State San Marcos GPA of 3.0, and are from an under-represented group in the student's academic area.

DEREK L. RIPPY/CRYSTAL CATERING SCHOLARSHIP

Funded annually by Derek L. Rippy, owner of Crystal Catering, a $500 award to a College of Business student, with a 3.0 or greater GPA, entering the junior year. Preference is to Oceanside residents and Accounting majors.

DURKEE SCHOLARSHIP FOR DISABLED STUDENTS

Funded by John Durkee, a $1,000 award to a financially needy undergraduate student who has completed at least 24 units at Cal State San Marcos with a GPA of 3.0 or higher, and who has a verified disability.

ELLA J. THEDINGA MEMORIAL SCHOLARSHIP ENDOWMENT

Established by Ella J. Thedinga, priority is given to entering first-year Cal State San Marcos students with financial need and academic merit, and returning students who received one of these scholarships the prior year.

EMANUEL BRONNER ENDOWED SCHOLARSHIP

Established by a gift from Jim and Trudy Bronner, for Cal State San Marcos students who are studying abroad.

FENSTERMAKER FOUNDATION SCHOLARSHIP

Funded by an annual gift, awards up to $7,000 a year renewable, are made to Cal State San Marcos students who are majoring in biology, chemistry, or computer science. Selection is based on high academic achievement.

GRICE, LUND & TARKINGTON

Established by the Escondido firm of Grice, Lund & Tarkinngton, this scholarship is awarded to a Cal State San Marcos accountancy student for fees and books for up to $1,000 a semester. Students need not apply; all accountancy students will be considered for the scholarship.

HEARST/CSU TRUSTEES' AWARD FOR OUTSTANDING ACHIEVEMENT

Four non-renewable awards in the amount of $3,000 each are awarded annually to currently enrolled full-time students of The CSU. The selection is based on financial need and merit.

INSTITUTE OF MANAGEMENT ACCOUNTANTS SCHOLARSHIP

Funded by the IMA, this scholarship is for a junior or senior business major with a 3.0 GPA, who has a financial need, and an interest in the management accounting field.

JANE LYNCH ENDOWED SCHOLARSHIP

Funded by Ann Hunter-Welborn in honor of Jane Lynch, former Cal State San Marcos Executive Director of University Development. One $500 award is made available to a non-U.S. Citizen, who is in the U.S. progressing toward permanent residency, has overcome adversity and is financially needy.

KELLOGG ENDOWED SCHOLARSHIPS

Established by a gift from Jean and W. Keith Kellogg II, for financially needy and academically meritorious undergraduate Cal State San Marcos students with a minimum 3.35 GPA.

LAURA E. SETTLE SCHOLARSHIP

The California Retired Teachers Association sponsors the $2000 Laura E. Settle Scholarship. For a California resident who has average to high scholastic standing, a senior or in the teacher credential program, has financial need, and has a record of exemplary character and citizenship.

LEONARD AND JEAN EVERS MEMORIAL ENDOWED COMPUTER SCHOLARSHIP

Established by Leonard Evers, a retired businessman and former North County resident, 40 computers are made available to entering freshmen with high financial need and a minimum 3.0 high school GPA.
LOUIS V. MESSNER MEMORIAL SCHOLARSHIP IN ACCOUNTING

Established by the family of Louis V. Messner in his memory. Louis V. Messner served as a state employee for over 35 years. His last position was Vice Chancellor of Business Affairs for the California State University System. The scholarship will be awarded to a Cal State San Marcos student majoring in Accounting. The student must be a junior with financial need and have a GPA of 3.0 or above. Preference is given to a student involved in community service. The scholarship may be renewable.

MARKSTEIN BEVERAGE ENDOWED SCHOLARSHIP

Established by a gift from the Markstein Beverage Company, a San Marcos wholesale beverage distributor, for a financially needy student majoring in business administration, who has a 3.0 or higher GPA.

PRESIDENT'S CIRCLE SCHOLARSHIP

Funded by the President's Circle, a $1,000 scholarship to an outstanding student with a 3.5 or greater GPA and financial need.

ROBERT H. AND CATHERINE H. GOLDSMITH ENDOWED SCHOLARSHIP

Endowed by a gift from Robert H. and Catherine H. Goldsmith, a $1,000 award to a financially needy student with academic merit who has the potential to be a contributing professional likely to bring credit to Cal State San Marcos. Priority is given to a Cal State San Marcos MBA student who has completed undergraduate work in the Cal State San Marcos College of Business Administration.

SAN DIEGO KIWANIS SCHOLARSHIP

Funded by the San Diego Kiwania Club for Cal State San Marcos undergraduate students of outstanding character who have a 3.3 college GPA or higher and who have financial need.

WILLIAM A. CRAVEN ENDOWED SCHOLARSHIP

Endowed by the late Senator William A. Craven and his family, awards are to financially needy intercollegiate athletes. Senator Craven was instrumental in developing the California legislation that authorized the establishment of Cal State San Marcos.

Scholarships that are administered outside of the Cal State San Marcos Financial Aid and Scholarship Office:

AAUW, RANCHO BERNARDO BRANCH SCHOLARSHIP

Funded by an annual gift from the Rancho Bernardo Branch of American Association of University Women (AAUW), for a financially needy re-entry undergraduate woman student at the college junior level or above, with a GPA of 2.8 or higher.

AFRICAN AMERICAN SCHOLARSHIP

A $1000 scholarship to an African-American student with a GPA of 3.0 or higher and is financially needy as determined by the Financial Aid and Scholarship Office.

ALUMNI ASSOCIATION SCHOLARSHIP

Funded by Cal State San Marcos Alumni Association, two $250 awards to be given to a Cal State San Marcos Alumnus who is pursuing another Cal State San Marcos degree or certificate. Recipients are required to be enrolled in at least 6 units per semester.

ASI AMERICAN INDIAN SCHOLARSHIP IN HONOR OF LEE DIXON

Funded by numerous sources, including Associated Students, Inc., Cal State San Marcos employees and North San Diego County American Indians, for a tribally enrolled American Indian student who is financially needy. Preference will be given to an incoming freshman. One $1000 scholarship is available.
BECALAFS SCHOLARSHIP

Funded by the Cal State San Marcos Latino Association of Faculty and Staff (LAFS) and administered by the BECA Foundation, two $500 scholarships are awarded to deserving Cal State San Marcos Latino students.

BREE TINNEY ENDSWED WOMEN'S SCHOLARSHIP

Established by a gift from the Advanta Corporation Foundation, in memory of a former Cal State San Marcos student and employee, for a financially needy Cal State San Marcos female single parent, who has resumed studies after an extended break in her education, with at least a 3.0 transfer GPA.

CAROL COX ENDSWED RE-ENTRY SCHOLARSHIP

The Carol Cox Re-entry Scholarship has been established for the purpose of providing financial assistance to re-entry women attending Cal State San Marcos. Awards will be based on the applicant's financial need and academic achievement.

THE COPLEY SCHOLARSHIP

A gift from the James S. Copley Foundation, the Copley Scholarship is awarded annually to Cal State San Marcos women students who are single parents with financial need who have demonstrated academic achievement, and have a clearly defined sense of purpose.

INA MAE ATKINSON ENDSWED SCHOLARSHIP

This scholarship was established by Mrs. Marie Bradley to honor her grandmother. The recipient is selected from undergraduate re-entry women who are enrolled in at least six (6) semester units at Cal State San Marcos.

JEREMY MANCILLA MEMORIAL SCHOLARSHIP

Established by friends and family of Jeremy Mancilla in his memory, for a financially needy Latino(а) student from the San Marcos Unified School District.

LILLIAN C. SHERMAN SCHOLARSHIP FUND

Funded by a gift from Lillian C. Sherman for financially needy Native American Indian Students who are enrolled at least half-time at Cal State San Marcos. One $2,500 award is available.

NORTH COUNTY WOMEN IN NETWORKING SCHOLARSHIP

Funded by an annual gift from the North County Women in Networking, for financially needy women business majors.

STUDENT EMERGENCY LOAN

FINANCIAL AID ACCOUNTING OFFICE

(760) 750-4482

As a result of gifts from the Spicer Loan Fund, Bank of America, and the Cal State San Marcos Associated Students, Inc., a short-term emergency loan is available to enrolled students. Up to $500 may be borrowed by students who have unexpected short-term needs. A service charge of $2 is assessed. No interest is charged for loans which are repaid on time. All loans unpaid by the due date will be assessed a $40 late fee.
SERVICES AND RESOURCES

ACCESS
Academia and Community Collaborating and Empowering Student Success
The ACCESS vision is to promote higher educational opportunities that support the success of K-12 students, families and schools. ACCESS accomplishes this by providing services in the areas of parent education, community collaboration, student tutoring, and faculty involvement. The ACCESS departments include GEAR UP, Student Academic Services Outreach Program (SASOP), and Upward Bound. We are located in the San Marcos Ambulatory Care Center (SMACC) at the corner of Twin Oaks Valley Rd. and Craven Dr.

Student Academic Services Outreach Program
(760) 750-4870
The Student Academic Services Outreach Program (SASOP) seeks to prepare and increase the number of economically, educationally, physically, and environmentally disadvantaged students entering and graduating from post secondary education. Committed to providing academic outreach and retention services to students, parents, and the community, SASOP cultivates a responsive, supportive relationship by promoting the value of higher education. As educational advocates, SASOP empowers students by providing them with academic skills enrichment, facilitating the college entrance and admissions process, developing leadership skills and opportunities, and establishing collaborative partnerships with private and public sectors.

SASOP activities include short- and long-term efforts concentrating on K-12 students. Activities range from student leadership conferences, tutoring, pre-college advising, skills and self-esteem workshops, and school site visits. In addition, SASOP maintains a Student/Community Academic Center with IBM and Macintosh computers, open to students and the community from 8 a.m. to 5 p.m. Monday through Friday on a first-come, first-served basis. SASOP also works with community-based organizations in building positive and collaborative relationships. For more information about SASOP, phone or visit the office at SMACC, 120 Craven Drive, Suite 104.

Upward Bound
(760) 750-4014
The Upward Bound Program (a federally funded TRIO program) provides academic counseling and guidance services to 60 high school students in North County. Through an application and interview process, whereby eligibility requirements and a student's academic needs are assessed, participants are selected. With a strong commitment from the student, the program has three components (fall, spring, and summer) per year for four years. During the year, there are Saturday classes and activities, after-school tutoring, field trips, leadership opportunities and counseling sessions. All of this and more is included in a summer residential program that lasts one month. Upward Bound assists high-potential students as they pursue graduation from high school, admission to the campus of their choice, and graduation from college.

GEAR UP
(760) 750-4885
Gaining Early Awareness and Readiness for Undergraduate Programs
GEAR UP is a federally funded program. In cooperation with local schools, agencies and corporations, the GEAR UP program provides services, activities and opportunities for sixth- through tenth-grade students in North County. The program offers intensive educational components through in-class, after-school, Saturday, summer classes and workshops. Programs include college-going experiences, such as structured leadership development opportunities, community service activities, career internships and job shadowing programs, and cultural and educational field trips with an infusion of role models, community/campus professionals, and business executives. The program encourages the development of well-rounded youth, academic excellence, and provides the foundation needed to enter postsecondary education.

Arts and Lectures
(760) 750-4366
The Cal State San Marcos Arts and Lectures series is coordinated through the University Library. The series features a variety of concerts, lectures, and theatrical performances designed to enhance instruction and celebrate the University's Mission Statement with the communities it serves. The University Library serves as the campus art gallery by hosting several art exhibits each semester, featuring installation, mixed-media, and mainstream artists.

Athletics
Office of External Affairs
Athletics Office, CRA 1202
Telephone: (760) 750-7100
E-mail: athletics@csusm.edu
www.csusm.edu/athletics/
The Purpose
The objectives of the intercollegiate athletic programs at Cal State San Marcos include:

• Student emphasis. To emphasize the student component of student-athlete, seeking not only successful teams for the university but also 100% graduation rates of team members.
• Lifetime sports. To develop athletic programs in lifelong sports that students can take with them after graduation, providing benefits throughout a lifetime.
• Academic enrichment. To augment the academic programs of the university with experiential learning that takes place through sports, striving to develop confidence, discipline, perseverance, and teamwork in student-athletes.
• Student recruitment. To enhance the effectiveness of student recruitment, blending the appeal of quality athletic programs with the appeal of quality academic programs for the benefit and enrichment of the whole university community.
• Community linkages. To establish new linkages and strengthen existing linkages with all members of the surrounding communities.

The Teams

CROSS COUNTRY

In November 2000, both the men's and women's cross-country teams from Cal State San Marcos competed in the NAIA (National Association of Intercollegiate Athletics) national competition in Kenosha, Wisconsin. This was the cross-country program's second year of competition. They had competed in four invitational meets before reaching the regional and then national championships.

The women's team placed twelfth overall, out of 29 teams. Leading women's runner Cara Rumble, a junior, was named an NAIA All-American. The men's team finished twentieth overall, out of 28 teams. For the second year in a row, Marcus Chandler, a sophomore, was named an NAIA All-American.

TRACK AND FIELD

The track team at Cal State San Marcos sent 17 athletes to compete in the NAIA National Outdoor Track and Field Championships at the end of May 2001 at Simon Fraser University in Abbotsford, British Columbia. Four Cougar track athletes finished in the top six in their events, qualifying them for All-American status. These athletes were David Koz, who finished second in the marathon; James Adams, who finished fourth in the 1,500-meter race; Renee McDonald, who picked up two All-American honors for a fifth-place finish in the 10,000-meter race and a sixth-place finish in the 5,000-meter race; and Lanele Cox, who finished sixth in the 3,000-meter run.

Other highlights included a seventh-place finish in the 10,000-meter race and eighth in the 5,000-meter race by Cara Rumble; a tenth-place finish by Marcus Chandler in the 1,500-meter race; a tenth-place finish for pole-vaulter Sean Daley; a sixteenth-place showing for pole-vaulter Deray Lakotich; and a twenty-third-place finish for Erin Behrman in the women's marathon.

The Cougar track and field schedule included 11 meets between February and May prior to the national championships.

GOLF

In May 2001, the women's golf team competed in their second national finals in two years. They finished fifth during the seventh-annual NAIA Women's National Golf Tournament, held at the London Country Club in London, Kentucky. The course is 5,808 yards and 72 par. The Cal State San Marcos team competed against 22 other teams. Cougar golfer Effie Rengpian finished top of the team, with an eleventh-place showing. She was named an NAIA All-American, a first for the San Marcos women's team. Teammate Stephanie Segura, who tied for twenty-first place, received an All-American Honorable Mention.

For the second year in a row, the Cal State San Marcos men's golf team won the NAIA Western Regional tournament, qualifying them for national competition. They ended up concluding the 2000-2001 season with a ninth-place finish at the 50th Annual NAIA Men's Golf National Championships in Albuquerque, New Mexico, at the end of May 2001. The Cougars competed against 26 other collegiate teams at the Isleta Eagle Golf Course, a 7,437-yard, 72-par course. Rob Keller, the top Cal State San Marcos golfer, tied for eighth-place and was named an NAIA All-American.

During the 2000-2001 season, the Athletics program recognized 26 scholar athletes, who qualified by maintaining a grade point average of 3.0 or above.
Conveniences

ATM Services
A full range of ATM services are available to the campus community via the ATM machine located in the University Commons. The ATM offers 24-hour access to cash withdrawals, and is a member of the STAR and PLUS system ATM networks.

Food Services
(760) 750-4751 — The Dome
(760) 750-4755 — Cougar Corner

The on campus food services, located in the University Commons Building, include dining room facilities, catering services, a convenience store operation, and vending machines. The Dome and Cougar Corner are an auxiliary operation of the Cal State San Marcos Foundation, a non-profit corporation, with proceeds being used to further the educational aims of the University. The Dome is open Monday through Thursday, 7:00 a.m. to 6:00 p.m., and 7:00 a.m. to 1:30 p.m. on Friday. The Cougar Corner is open 6:30 a.m. to 8:00 p.m. Monday through Thursday, 6:30 a.m. to 3:00 p.m. Friday, and 10:00 a.m. to 2:00 p.m. on Saturday. Vending machines are located on both floors of the University Commons, and in Academic Hall and University Hall.

University Store
(760) 750-4730

Cal State San Marcos University Store provides a wide range of products and services, including textbooks for classes, special class orders, general interest books, calculators, office supplies, imprinted Cal State San Marcos clothing, computer hardware, software, and gift items. The University Store is an auxiliary operation of the Cal State San Marcos Foundation, a non-profit corporation, with proceeds being used to further the educational aims of the University. Services include:

- textbooks — over 1,000 titles are requested by the faculty each semester;
- students can access their personalized booklist inside the store; year-round buy back;
- academic, trade, and technical literature — 5,000 titles are available to support the academic programs, with 48-hour access to 45,000 titles;
- computer sales — a variety of computer hardware, software, and support titles are available at special educational discounts; Microsoft CD rentals for students; and
- classroom supplies, and University catalogs and class schedules.

Health, Counseling and Disability Services

The mission of this area is to assist students in obtaining their educational goals by providing services and accommodations which promote mental and physical well-being. The following three units work together in developing preventive educational programs and individual services for students. Services are designed to assist students in making informed choices and decisions about their well-being.

Counseling and Psychological Services (CAPS)
(760) 750-4910
SMACC 102
www.csusm.edu/caps/

CAPS provides services to help students cope with personal and academic difficulties. Short-term individual, couple, family, and group counseling is available to enrolled Cal State San Marcos students at no charge. Students come to CAPS for many reasons:

- To resolve personal problems that interfere with academic performance, such as anxiety, depression, loss, financial problems, relationship and family conflict.
- To develop more effective stress management, problem solving, decision-making, and communication skills.
- To build self-esteem and self-confidence.
- To clarify personal and professional values and goals.

Our goal is to provide a supportive setting in which these concerns can be addressed. All counseling services are confidential.
In addition to counseling, CAPS offers a variety of services and programs designed to enhance the college experience and promote health and well-being. These include:

- Workshops and ongoing discussions groups.
- Consultation to administrative and academic departments, student services and organizations.
- Referral and resource information.
- The Clinical Training Program, a pre-doctoral internship for students in clinical and counseling psychology graduate programs.
- The Peer Education and Support Program – a group of carefully selected, trained, and supervised students who conduct workshops, coordinate special events, develop educational materials, and co-facilitate discussion and support groups co-coordinated with Student Health Services.

For more information, or to schedule an appointment, call or drop by the CAPS office Monday, Thursday, Friday 8:00 a.m. to 5:00 p.m. and Tuesday, Wednesday 8:00 a.m. to 6:00 p.m.

Disabled Student Services
CRA 5205
(760) 750-4905 (TDD 750-4909)
www.csusm.edu/dss/

The Office of Disabled Student Services (DSS) determines reasonable accommodations for students with disabilities. All students with disabilities who request reasonable accommodations are required to provide appropriate and recent documentation to the Office of Disabled Student Services before support services can be approved.

Support services are available through DSS for those students who qualify, noting that the appropriate accommodations for each student will be approved based on the documented disability. Services available include:

- readers;
- notetakers;
- interpreters or captioners (for the hearing impaired);
- testing accommodations;
- access to specially adapted equipment;
- application assistance;
- supplemental academic advising;
- psychoeducational screening and assessment;
- disability-related counseling, and
- priority registration.

For further information on accommodations and appropriate forms, please contact the Office of Disabled Student Services.

Student Health Services
(760) 750-4915 (TDD 750-4924)
Fax 750-3181
www.csusm.edu/SHS

Student Health Services, staffed by health care professionals specializing in student health concerns, provides complete primary health care and health education services. Also available are pharmacy, laboratory, radiology, and immunization services. Routine preventive health screenings, such as PAP exams, are an integral part of our program. Health education services include nutritional counseling, cholesterol counseling, HIV counseling and testing and smoking cessation programs. All services are strictly confidential. For more information, please contact Student Health Services or visit us at SMACC, 120 Craven Road, Suite 100.

Peer Health Education
(760) 750-4917

Peer health education opportunities are available for students to give presentations on campus about HIV/AIDS prevention as well as a variety of other health-related issues. These students receive formal, direct training from the staff of Student Health Services as well as ongoing education and support. For information about these and other volunteer opportunities, contact Student Health Services.
Student Health Board
(760) 750-4917

A Student Health Board works closely with Student Health Services. It is a voluntary policy advisory board whose mission is to ensure high quality, confidential, and professional primary and preventive health care for Cal State San Marcos students. They are also involved with campus-wide health programs for students. Membership is by application to the ASI, and new students are welcome to apply at the beginning of each semester. For further information, contact the staff advisor.

Student Health Insurance

To supplement Student Health Services, students have the option of purchasing student health insurance through Supplemental, Associated Students. Student health insurance forms are available in Student Health Services and ASI Office. Students are encouraged to maintain some form of health insurance.

Instructional Computing Laboratories
(760) 750-4788

The University has both instructional computer facilities and open access computing labs. All computing labs are accessible to students, staff, and faculty whenever the University is in session, the buildings are open, and labs are not being used for instruction. Both Macintosh and PC computers are available in the labs with the latest software packages for word processing, spreadsheets, database, statistical packages, presentation software, graphics programs, multimedia software, educational packages, and access to the Internet. In addition, UNIX workstations are available for the special needs of the computer science, mathematics, and other technical majors. A wide assortment of software is available in each lab, depending on the hardware, and consistent with requirements for classes. Assisted access programs are also available in each lab. Most instructional labs, with a few exceptions, are open access to students when not being used for instructional purposes or for special events.

Information about the hours of operation each semester can be obtained at various locations in the second floor of Academic Hall. Use of the labs is restricted to students, faculty, staff, and alumni of Cal State San Marcos. Information about the labs can be obtained from the website www.csusm.edu/computer_labs/.

International Student Services
(760) 750-4090
Fax (760) 750-3284

International Student Services are provided by the Office of University Global Affairs, located in Craven Hall 5211. International student services include initial orientation, and advising on matters such as housing, registration, visa regulations, work authorization, taxes, health insurance requirements, health services, safety issues, and other campus services.

Upon admission to the University, international students will receive information as to the date and time of their orientation session. When they arrive in San Marcos, international students should report to the international student advisor and remain in regular contact with the office as long as they are students.

International students should notify the international student advisor of their address and telephone number, their plans to work on- and off-campus, and their intention to travel outside the United States, including return trips to their home country. Upon request, the Office of Global Affairs will serve as a contact point for international students in the event of personal or family emergencies.

Library and Information Services

University Library
(760) 750-4350

The University Library is the primary learning resource outside the classroom. The library is located on the third and fourth floors of Craven Hall. The entrance is in the courtyard on the third floor.

Patient’s Bill of Rights

All patients have the right:

- to be treated with respect, consideration, and dignity;
- to be given privacy during discussion, examination, and treatment;
- to have all communications and records pertaining to your health care treated as confidential;
- to be provided information concerning your diagnosis, treatment, and prognosis in language you understand;
- to approve or refuse the release of information regarding your health care;
- to receive reasonable continuity of care and know the names and titles of those participating in your health care,
- to refuse treatment at any time;
- to be informed of Student Health Services’ policies regarding your rights and responsibilities and availability of services; and
- to use Student Health Services channels to effectively express concerns and suggestions about the clinic.
Web Access
http://library.csusm.edu

The web site provides information on the library's services, hours, and people. You may make requests directly online for such things as interlibrary loan materials or reference appointments.

Hours
When classes are in session the library will be open: Monday through Thursday from 8:00 a.m. to 9:00 p.m.; Friday from 8:00 a.m. to 4:30 p.m.; and Saturday and Sunday from 1:00 p.m. to 5:00 p.m. Between semesters, the library is open from 8:00 a.m. to 4:30 p.m.

Library Card and Borrowing Policy
The student ID card issued by the University serves as a library card for checking out books and other materials. Cards must have a current semester sticker to be valid. Validation stickers are issued during registration. The loss or theft of a student ID, as well as any change in address, should be reported to the library circulation counter immediately.

Library users are responsible for the return of all materials charged out on their ID cards. All library materials are subject to recall after two weeks. Upon presentation of a current CSU ID card, faculty, staff, and students may borrow books directly from any of the California State University libraries, or through the Circuit. A consortium of Mira Costa, Palomar and Cal State San Marcos allows students, faculty, and staff to check out materials at these libraries as well.

Reserves
(760) 750-4364

Reserve materials, both print and electronic, are placed in the library by your instructor. They can be obtained at the circulation desk on the third floor of the library, and via the library web site.
http://eres.csusm.edu/

Resource Sharing
(760) 750-4335

The library's web site serves as a gateway to information far beyond its walls. You may access catalogs from libraries in other areas of the United States and throughout the world. Materials located at other libraries can be requested through interlibrary loan.

Annex
Due to lack of space some Library materials are located in a storage facility. Materials are accessible and shuttled from this facility daily, Monday through Friday. Ask at the Circulation counter for assistance.

San Diego Circuit
A consortium of four university libraries (SDSU, USD, UCSD and Cal State San Marcos) that shares books. The program is accessed through the library's catalog which is available on the Web. This is a self-serve program that operates using the library barcode number on your current campus ID card. Most books ordered before 10:00 a.m. can be picked up at the circulation desk after 4:00 p.m. the same day.

In addition to its extensive print collection, the library has a number of general and specialized indexes and abstracts that are available electronically. These provide citations (e.g., author, title, journal title) and, in some cases, article summaries for journal articles in particular subject areas such as psychology, history, biology, and literature. You will also find a number of databases that provide the full-text of journal and newspaper articles.

Research Assistance
(760) 750-4342

Reference assistance and instruction are two of the primary missions of the University Library. Reference services promotes student learning by providing awareness of and instruction in diverse information resources. Reference services in the University Library are available to you through several access points. These include: an information desk where staff assist you with directional and quick information questions; information assistants who provide help with the use of computerized resources and answer simple reference questions; and a Research Consultation Office where librarians will assist you with more complex questions and research. Individual research appointments may also be made through any of the above access points.

Obtaining the skills, knowledge and attitudes necessary to thrive in an information-rich environment is an important part of your education. The goal of the Information Literacy Program (ILP) is to assist students in developing information literacy skills, to ensure that all students become successful lifelong learners. The ILP provides course-integrated instruction in information literacy within the General Education courses. The program also offers library orientations and workshops; provides faculty and students with in-class instruction; provides outreach to Upward Bound, SASOP, EOP and other student groups on campus.

Collections
The Cal State San Marcos Library makes available to you over 200,000 books as well as thousands of journals in print or electronic formats. You will find research materials to support all areas of the Cal State San Marcos curriculum, from Accounting to Women's Studies, and everything in between. Whether you need resources for a term paper, background materials to support a thesis, or guidance on field research methods, the library collections are available to you.

The library catalog provides subject, title, and author access to books, journals, government documents, and media (including video) collections. The catalog also lists materials instructors have put on reserve for short-term loan to their classes.
Subject access to periodicals and newspapers is provided by indexes, abstracts, and full-text databases available over the Web and from the computers in the library. Some reference material, such as the Encyclopedia Britannica, is also available on the library web site.

**Media Library**

(760) 750-4370

The Media Library is located in Craven 4221 and provides access to the collection of non-print materials including video tapes, video disks, spoken and musical audio tapes, compact disks, and slides. A complete listing is available through the library catalog. Individual listening and viewing facilities are located in the Media Library. Some audiovisual equipment can be borrowed for use in class projects.

The University Library is a selective depository for United States and California State documents. Housed within the library is the specialized collection of the Barahona Center for the Study of Books in Spanish for Children and Adolescents (see page 87). In addition, the library houses a small collection of curriculum materials and the University Archives.

**Off Campus Access**

(760) 750-4342

Many of the library's resources are available to anyone on the Web. Other materials, such as full-text journals, are only available to Cal State San Marcos students and faculty. Any registered student can access library resources from their home computer. Off-campus access to restricted information is available by dialing into the campus server (a toll-free phone call anywhere in San Diego county) or by using the campus proxy server.

More detailed information about the University Library and its services is available at the library's information desk on the third floor of Craven Hall. Be sure to ask for a copy of The Student's Guide to the Cal State San Marcos Library for more detailed information about the library's collections, services and policies.

**Lifelong Learning and Development**

**Alumni Relations**

(760) 750-4405

The Office of Alumni Relations is dedicated to identifying and serving the needs of Cal State San Marcos alumni. Alumni Relations work to encourage a lifelong relationship with alumni through their continued connection with the University, by offering continuing education programs, job fairs, special events, alumni-based benefits, or electronic and print communications.

The Cal State San Marcos Alumni Association provides alumni with opportunities to enhance their cultural, personal, and professional development through their continued involvement with the University. For more information, or to join the Cal State San Marcos Alumni Association, please call (760) 750-4405 or check out the association’s web site at www.csusm.edu/alumni.

**Career and Assessment Center**

(760) 750-4900
tel: www.csusm.edu/CAC

The University maintains a centralized Career and Assessment Center as a part of the Division of Student Affairs. This office, located in CRA 4201, provides services and programs on career development and planning, job-related services in business, community organizations, government, and educational fields, as well as standardized testing services to all students and alumni.

**Career Services**

The Career and Assessment Center works in cooperation with academic departments to assist students in choosing educational paths, assessing life direction, and establishing career goals. Experienced staff members are available to provide general as well as specific career information which will assist students in obtaining career positions that best utilize their professional preparation, experience, and abilities, while providing personal satisfaction. Students are encouraged to utilize these services early in their college experience.

The Career and Assessment Center focuses on the following student-centered objectives:

- assist students in development of life direction and decision-making skills;
- provide "user friendly" computer guidance programs which explore interests, values, and skills in relation to career choices;
- conduct a wide range of workshops and seminars such as resume writing, effective interviewing, and professional etiquette, which will prepare the students for the transition from school to work;
- maintain a library of career information, including audio tapes, video presentations, labor-market information, annual reports from individual employers, graduate and international school programs, and brochures;
- provide job listing services which include career-related positions for Cal State San Marcos seniors and graduates, along with part-time and temporary positions to assist all students who must earn part of their college expenses;
- provide opportunities for students to "connect" and interview with prospective employers on-campus;
- provide graduate and professional school information and advising; and
- provide CSU Alumni career services for a small fee.

**DISCLOSURE OF CAREER INFORMATION**

The Career and Assessment Center may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all the campuses in the California State University system.
**Testing Services**

Testing Services provides the University with a wide range of services including: (1) national and state-wide tests offered on campus; (2) information and registration materials on tests; and, (3) interest and personality inventories in support of Cal State San Marcos career services.

The Career and Assessment Center provides information and registration materials on tests such as:

- ACT Assessment
- Allied Health Professions Admission Test (AHPAT)
- California Basic Educational Skills Test (CBEST)
- College Level Examination Program (CLEP)
- Dental Admission Test (DAT)
- English Placement Test (EPT)
- Entry Level Mathematics Exam (ELM)
- Graduate Management Admission Test (GMAT)
- Graduate Record Exam (GRE)
- Law School Admission Test (LSAT)
- Medical College Admission (MCAT)
- Miller Analogies Test (MAT)
- Optometry Admission Test (OAT)
- Pharmacy College Admission Test (PCAT)
- The PRAXIS Series for Teachers
- SAT I: Reasoning Test
- SAT II: Subject Tests
- Test of English as a Foreign Language (TOEFL)
- Veterinary College Admission Test (VCAT)

For a current schedule of tests offered at Cal State San Marcos, stop by the Career and Assessment Center, located in Craven Hall 4201.

**Parking**

(760) 750-7500 - FCB 107
www.csusm.edu/parking

All faculty, staff, and students who park their vehicles on campus are required to purchase a parking permit. The parking permit must be properly displayed at all times while on campus. Parking regulations are posted in parking lots and roadways; these areas will be closely monitored. The following reminders will assist users of Cal State San Marcos parking facilities:

- display a valid Cal State San Marcos permit before parking your vehicle;
- daily permits can be obtained in all general parking lots (B, C, N, O, and J);
- park only in lots where the permit is valid;
- do not park in disabled parking spaces, unless a current validated DMV plate/placard is displayed along with a Cal State San Marcos permit or $3.00 Daily Permit (Daily Permit machine is conveniently located in Disabled Parking area in Lot E and accepts ONLY quarters);
- park only in clearly marked parking spaces, not along fences, red curbs, reserved spaces, and/or undeveloped areas.

Other parking services include bike lockers, carpool information, North County Transit District bus information, and on-campus shuttle service. The parking booth (located in General Lot C) assists our University community and our public with directions, questions, and parking matters on campus.

Pre-printed information may be subject to change. Please call Parking Services at (760) 750-7500, Monday through Thursday, 8:00 a.m. to 6:00 p.m. and Friday, 8:00 a.m. to 5:00 p.m. to inquire about current parking information.

**Parking Refunds**

Parking refund forms are available in Parking Services, FCB 107. The office hours are Monday through Thursday 8:00 a.m. to 6:00 p.m. and Friday, 8:00 a.m. to 5:00 p.m. Refunds will not be processed until after the fifth week of instruction. Refunds must be filed by the refund deadline listed in the Class Schedule.

For more parking information, contact Parking Services, Monday through Thursday between the hours of 8:00 a.m. and 6:00 p.m. and Friday 8:00 a.m. to 5:00 p.m.
Public Safety

Emergency Procedures
(760) 750-4567

To ensure everyone’s safety in an emergency, please take the time to review the emergency evacuation plans posted throughout all University buildings. In the event of a fire, dial 750-3111 to report the fire, activate the emergency alarm, and evacuate the building immediately. When outside of the building, move upwind and away from the building. In any emergency, elevators are not to be used as part of an emergency evacuation route plan. Pre-plan your emergency evacuation by being familiar with at least two emergency evacuation routes from wherever you are in the University. You may also obtain information about emergency procedures by contacting University Police.

Injury and Illness Prevention Program
(760) 750-4510

Cal State San Marcos has an Injury and Illness Prevention Program (IIPP) intended to provide a carefully controlled, safe, and healthy work environment for all employees and students. The IIPP is based on the concept that safety is a grass-roots program. The IIPP policy assures that any student or employee may refuse to participate in any activity that the person, in good conscious, believes could cause harm to his/her well-being. Mandatory IIPP training is offered by Environmental Health and Safety for all employees of Cal State San Marcos. A schedule of training opportunities is published each semester. Please call 750-4510 for a listing of training events.

University Police Department
Emergency-call
(760) 750-3111

The University Police Department is located in the University Services Building at 441 La Moree Road. The main telephone number is (760) 750-4567. The University Police is a 24-hour full service police department. Its responsibilities include crime prevention, law enforcement, criminal investigation, traffic enforcement, and emergency disaster coordination. If you are a victim of a crime or witness suspicious activity, report the incident immediately to the University Police. You can remain anonymous, if you desire. The University Police Department maintains the confidentiality of contacts as required by State law. To report an emergency, call 750-3111 from any campus telephone.

Photo Identification Cards
(760) 750-4562

Student identification cards are issued by the University Police Department. The identification cards, which have the student’s photo imprinted on them, are required to check out library books, to receive health services, write checks on campus, gain access to secure areas, and for identification purposes if requested by a University representative acting in an official capacity. A computer based photo ID system is used to take individual photographs and print the cards. To obtain a Cal State San Marcos ID card, students must present proof of registration and payment of fees.

Photo IDs can be obtained during student orientation and registration at the Parking Services office in FCB 107B, Monday through Friday, 8:00 a.m. to 5:00 p.m. For additional information, call the University Police Department at (760) 750-4567.

The University Police Department provides the following campus community services:

• issuance of photo ID cards for Cal State San Marcos students, faculty, and staff;
• escort service from dusk to dawn;
• university lost and found service;
• crime prevention/awareness presentations; and
• Rape Aggression Defense (RAD) self-defense program for women.

Retention and Academic Assistance
Accountancy/Statistics Laboratory
(760) 750-4214

The Accountancy/Statistics Laboratory aids students in their study in these and related areas. The laboratory, which is supported by the College of Business Administration, provides individual and group tutoring and has resource materials. All Cal State San Marcos students are welcome to use this facility as a supplement to other study and learning activities.

Advising

Advising for a major or minor is done by individual advisors in the respective disciplines. Advisors are available to assist students in planning their academic program. In general, the student’s advisor will be a specialist in the area of the student’s major field of interest.

The Division of Student Affairs also provides specialized counseling in vocational and personal matters, student orientation programs and information, and general problem-solving.
**Lower-Division Advising**

(760) 750-4072

The Lower-Division Advising provides advising, assistance, and mentoring for freshmen and sophomore students in general, but particularly for those students who have not declared a major and have questions about the General Education requirements.

The Lower-Division Advising is located on the third floor of Craven Hall, and is entered through the Library courtyard.

**The ASPIRE Program**

(760) 750-4861

ASPIRE (Academic Support Program for Intellectual Rewards and Enhancement) is a federally funded TRIO program and learning center for 200 Cal State San Marcos students. Participants are selected through an application and interview process whereby eligibility and student academic needs are assessed. Applications are continually being sought and interviews are held as openings become available.

ASPIRE provides services that keep all student participants on track of academic and personal excellence that include:

- academic and personal counseling;
- specialized advising for skill-building and academic guidance;
- personal and group tutoring;
- test preparation for entrance exams;
- social gatherings;
- cultural enrichment programs;
- video and book resources; and
- resources for the learning-challenged

**Educational Achievement and Retention Services (E.A.R.S.)**

CRA 4107

Telephone: (760) 750-4861

Fax: (760) 750-3300

**MISSION**

To serve economically disadvantaged first-generation, and underrepresented college students with academic support services that lead to a university degree.

**VISION**

To develop educational equity theory through practice that influences areas that focus on student persistence, academic achievement and lifelong development.

The Educational Achievement and Retention Services Unit addresses comprehensive academic support needs of low-income, first-generation, and underrepresented college students. The federal TRIO program, Academic Support Program for Intellectual Rewards and Enhancement (ASPIRE), and state Educational Opportunity Program (EOP) are two departments within this unit. Founded on Educational Equity principles, ASPIRE and EOP focus on persistence and retention issues for low-income, first-generation, and/or underrepresented college students by:

- Ensuring University access and Educational Equity;
- Facilitating the transition to college;
- Providing academic advising an educational counseling;
- Providing academic support services

EARS also provides academic assistance in the areas of Supplemental Instruction, Tutoring, Study Groups, and Student Development Workshops. These services assist EOP and ASPIRE entering, first-year students to succeed in their general education courses and build connections with their Cal State San Marcos community. Services include assisting students in developing connections with Cal State San Marcos departments, the surrounding San Marcos community, and with each other. All EARS first-year students must participate in academic assistance during their first two semesters. In addition to serving the needs of first-year students, Academic Assistance also provides tutoring and small study groups to transfer students and upper-division students.

EARS Summer Bridge Program helps incoming first-year students make a successful transition into the Cal State San Marcos community. Summer Bridge is an intensive summer program that provides instruction in college success, writing, reading, math, computers, and library information systems. It also provides extra-curricular activities that promote community development and cultural awareness. This program is highly recommended for students wishing to get a head start on the university experience.

The Educational Achievement and Retention Services provide EOP and ASPIRE student access to computers and internet use. The Retention Center is also a quiet place for students to study, receive tutoring, see a peer mentor, or just relax.

The Educational Opportunity Program (EOP) is the University's first access and equity program. It exists to serve low-income, first-generation college students, particularly those who are underrepresented in the CSU. An array of support services are made available to EOP students to assist them in making the most of their educational opportunities. EOP grants are also available to those students who are eligible through financial aid.

The Admissions Component oversees the EOP admissions process, maintains student data and facilitates the EOP grant awarding process. The staff provides pre-admission assistance to prospective EOP students and their families, coordinates outreach and recruitment activities, processes EOP application materials, arranges for interviews with special admit candidates, recommends applicants for acceptance and notifies them of admissions decisions.
The program's Counseling Component provides academic and financial aid advising, career and personal counseling, assistance in applying to graduate school and mentoring services. The professional counseling staff meets with students twice or more per semester to assist them in selecting courses, exploring majors, arranging tutoring, resolving difficulties, and successfully navigating the university environment.

In order to be considered for admission into the EOP, students must submit an EOP application to the EOP office, as well as a separate University application to the Office of Admissions. Both applications must be completed before a student can be reviewed for admission to EOP. Applications are available from the EOP Office, the Office of Admissions, local community colleges, and high schools. Priority filing dates for the 2002-2003 academic year are March 31, 2001, for the Fall 2002 semester and October 1, 2002, for the Spring 2003 semester.

EOP is committed to its mission of promoting equity and excellence by supporting, developing, and empowering low-income students. For more information about EOP or an application, please call or visit the office in Craven 4107.

Faculty Mentoring Program
(760) 750-4017

MISSION
The Faculty Mentoring Program at Cal State San Marcos seeks to increase the retention rate of students who may be at risk of not reaching the goal of graduation. Retention research indicates that this population may include those who are first-generation in college and those with lower incomes.

HISTORY
The Faculty Mentoring Program was initiated in Academic Year 1991-1992. Each year, approximately 50 to 60 faculty members serve as mentors to 80 to 90 students. Yearly funding is received from the California State Lottery.

STRATEGY
A key approach to enhancing retention rates is to reduce the feelings of isolation and estrangement that many students experience. Participating faculty members volunteer to serve as mentors for students. Each mentor meets regularly with up to three assigned students during the year. This mentor-protégé relationship is the heart of the Faculty Mentoring Program.

THE PROGRAM
The Faculty Mentor:
• helps the student use his or her academic experiences more effectively to graduate and prepare for the world of work or professional studies;
• provides graduate studies guidance;
• becomes a trusted advisor;
• participates with the student in various social-cultural activities; and
• offers additional assistance to the student to select courses that will meet major and graduate requirements.

Protégé/Student Requirements:
• must be first-generation college and/or low income, as determined by financial need; and
• must be of junior or senior class level.

The Program Offers:
- Academic Preparation
  • research in post-baccalaureate opportunities
- Workshops
  • preparation and information for graduate and professional studies
  • provide information that identifies financial resources
  • provide books and software on GRE and CBEST exams
- Interaction with faculty and administrators on an informal and ongoing basis.

Faculty Mentoring Program activities include several social events during the year where faculty, students, and administrators get together informally for discussions and opportunities to become acquainted. Program participants also receive tickets to the California Center for the Arts in Escondido.

Language Learning Center
(760) 750-8058
www.csusm.edu/languages/LLCpage.html

The Language Learning Center is designed to support the learning and teaching of languages. Foreign language reference, audio tapes, videos, and software can be used either independently or in groups. Information about the Language-Other-Than-English Graduation Requirement, Language-Other-Than-English proficiency testing is also available, and BCLAD language testing. For more information, stop by University Hall 240 for a tour.

Learning Assistance Program
COMPUTER CONSULTING CENTER
(760) 750-4194

The Computer Consulting Center makes services available to students in the areas of tutoring, consultation, workshops and "on-call" troubleshooting. The center is devoted to helping people with most aspects of computer/software troubleshooting, and provides a forum for learning on computers.
Mathematics Learning Assistance Center (Math Lab)
(760) 750-4122

The Mathematics Learning Assistance Center provides academic support, tutoring, and assistance to undergraduate Cal State San Marcos students taking math courses, fulfilling General Education requirements in mathematics, or preparing for the CBEST or ELM exams.

Writing Center
(760) 750-4168

The aim of the Writing Center is to help students improve their literacy skills, stressing not only the rules of grammar and punctuation, but the ability to analyze and evaluate ideas and texts in fluent, lucid prose. The center is staffed by experienced student writers conversant with the latest trends in writing theory and pedagogy. The peer-tutors are familiar with the varied writing demands put on students by their instructors and by themselves. The center does not cater to remediation or "fix-it jobs"; rather, it assists all students interested in developing and improving their problem-solving strategies and analytic abilities.

Student Life
Associated Students, Inc.
(760) 750-4990
Fax: (760) 750-3149
ASI Early Learning Center
(760) 750-4990
Fax: (760) 750-3174
www.csusm.edu/asi

Mission Statement
The mission of Associated Students, Inc. is to provide an official voice to express student opinions, to foster awareness of student issues, to protect the rights and interest of the students, and to create programs that encourage a campus climate that meets the educational, social, and cultural well-being of the students.

ASI Motto
An organization of the students, by the students, and for the students.

Background
Associated Students, Inc. (ASI) is a non-profit, auxiliary organization that exists to provide services to students. This organization’s goal is to provide the finest collegiate experience and campus life possible for Cal State San Marcos students. ASI is governed by a student Board of Directors that is elected each spring and serves for one year beginning in June.

Services
Each student pays $50 per semester to Associated Students, Inc. Monies are allocated to provide a quality outside-the-classroom experience for Cal State San Marcos students. Therefore, ASI offers extracurricular activity programs that include: leadership opportunities, student development, childcare services (ELC), intramural sports, fitness classes, concerts, comedy shows, cultural awareness, lectures, films, discount tickets, student employment opportunities, a game room (Student Lounge), scholarships, student health insurance, as well as the Club Services One-Stop Shop Center.

The ASI Cal State San Marcos Early Learning Center enrolls children between the ages of two- and five-years old and creates an environment that stimulates a variety of learning experiences in all areas of cognitive, physical, social, and emotional development. These experiences enable children to build self-esteem, learn acceptable methods of cooperation, and become competent individuals within a preschool setting. The center is open to serve Cal State San Marcos student parents, faculty, staff, and community families at an affordable cost.

Grant subsidy is available to qualifying individuals and families.

Get Involved!
ASI offers many opportunities for students to gain awareness, learn the relationship of self to others (differences and commonalities), and learn the uniqueness of Cal State San Marcos' environment, its local community, and the global community. Students are encouraged to participate by serving on the ASI Board of Directors, ASI committees, University committees, and/or seek ASI employment. For more information on programs, leadership opportunities, and/or volunteer opportunities, stop by the office located in Commons 203 or call (760) 750-4990.

Student and Residential Life
(760) 750-4970
Craven Hall 4116
www.csusm.edu/SRL

The programs and services of Student and Residential Life (SRL) are provided for the purpose of assisting students in their co-curricular needs and interests on campus. The staff of SRL initiate, plan, implement, and evaluate student programs and services in collaboration with students, student groups, and other campus department faculty and staff. The staff serve as a resource for students, faculty, staff, and others on issues of student government, housing, residential life, leadership development, programming, campus activities, fraternities and sororities, clubs and organizations, summer and winter orientation programs, and for building campus community.
The Student and Residential Life staff provides a variety of direction, assistance, and support for programs, services and activities that shape campus community and enhance the educational experience of students, while working closely with students in the following areas:

- Student Leadership Development
- Orientation Programs (for newly admitted students and their families)
- Campus Posting (for bulletin boards)
- Campus Lost and Found Services
- Greek Affairs (Fraternities and Sororities) Advising
- Student Activities Resources/ Materials
- Student Development Resources, Training, and Advising
- Advising on Students Rights and Responsibilities Related to University Policies and Procedures
- Development, Registration, and Advising of Clubs and Organizations
- Collaboration with the Cal State San Marcos Associated Students, Inc.
- Special Events Programming
- Off-Campus Housing Referral Services
- Roommate Referral Program
- The Leadership Speakers Series
- The Student Profile (extracurricular transcript)

Students are encouraged to join any of the organizations listed below to develop leadership skills and enhance the quality of living and learning at Cal State San Marcos. For information about a particular club, how to join, or how to start a club, please visit the SRL, located in Craven 4116. Check out our web site www.csusm.edu/art/ for more information.

Telephone: (760) 750-4055 or 750-4057  
Fax: (760) 750-3550  
www.csusm.edu/service_learning

The Office of Community Service Learning (OCSL) facilitates the integration of academic learning with service to the community. Community service learning engages students in active learning experiences that enhance classroom instructional activities, while addressing social, economic, political, health, and environmental needs of people in the community. Students learn while doing and while reflecting on what they are doing.

The list of Cal State San Marcos courses that offer a service learning component is continuously updated and is available in the OCSL. In recent years, an estimated 1,000 students participated in service learning, providing over 15,000 hours of service for some 27,000 recipients.

The OCSL serves as the principal liaison between the community, the students, and the faculty, working to strengthen campus/community partnerships and linking service placements with the academic goals of instructors and students. The OCSL maintains and continually upgrades a database of over 250 placement sites and access to placement information is available to faculty and students.

The OCSL works with community agencies and schools to insure a safe service environment for both students and service recipients and maintains policies for risk management. The OCSL publishes the *Guide to Community Service Learning* which explains the responsibility of all parties involved in a service experience. In addition, OCSL acts as a resource center on service-learning pedagogy and active participatory research and sponsors recognition ceremonies for volunteers.

The OCSL is part of the University's Academic Programs unit in the Division of Academic Affairs. It operates with the guidance of advisory boards consisting of faculty, students, and community partners. For additional information on scholarship through service at Cal State San Marcos, visit the OCSL.

**Office of Extended Studies**

(760) 750-4020  
(800) 500-9377  
Fax (760) 750-3138  
www.csusm.edu/es

The purpose of Extended Studies is to develop and implement self-supporting educational and learning opportunities for individuals, business, and government agencies within the North County region. These activities may be for either academic credit or non-credit professional development, and are offered at times and locations convenient to participants. Courses are also available through our Distance Learning Program. Detailed information on course offerings, fees, times, dates, locations can be found at the Extended Studies website or in the course bulletins published by Extended Studies. Specific program areas include:

**Professional Development — Management and Computer Technology**

These programs are specifically targeted to individuals seeking to improve their skills, or, in the case of an organization, the skills of their employees. These programs often lead to a certificate of participation, but can provide academic credit under certain circumstances. Courses and programs are currently offered for professionals in education, computer technology, management, supervision, and human resource management.

Courses and programs are offered both in classroom format and through our Distance Learning Program.

**Extension Credit**

Extension credit courses and programs are aimed at those individuals wishing to complete a degree or take specialized courses but need academic credit for their work. It is of particular interest to those interested in the teaching and education professions. The maximum amount of transferable extension and correspondence credit applicable toward the minimum requirements for the bachelor’s degree is 24 semester units. Extension credit does not apply toward the 30 units of residence required for all undergraduate degrees.

**Open University**

Through Open University, non-matriculated students may enroll for extension credit in state-supported courses during the academic year on a space-available basis. The program allows individuals interested in specific university courses the opportunity to take the course without going through the regular admissions process.

**Special Sessions**

Special Sessions give Cal State San Marcos another means by which to offer approved course offerings to help matriculated students accelerate their progress toward completion of their degrees or allow non-matriculated students access to Cal State San Marcos offerings.

**Personal Enrichment**

Personal enrichment programs are offered in such areas such as career development, test preparation, health awareness, exercise and financial planning. These programs are generally offered in the evenings and weekends, and through our Distance Learning Program, and are non-credit. There are also additional specific programs geared toward the older adult population.

**Professional Development and Computer Technology**

The development and delivery of credit and non-credit conferences and programs are housed within Extended Studies. While some offerings are of general interests, others are targeted to specific audiences in business, industry, technology, education, various professions, government, and non-profit organizations. Courses are offered evenings and weekends to accommodate working professionals.
Program for Adult College Education (PACE)

**Director:**
Therese L. Baker, Ph.D.
(760) 750-4101
tbaker@csusm.edu

**Advisor:**
Laurie Lindeneau
(760) 750-8111
PACE@csusm.edu

PACE at Cal State San Marcos is an upper-division, transfer program for full-time working students and those who cannot take weekday courses. It is for students who have completed their lower-division requirements and seek a four-year degree. Through flexible scheduling (which features courses offered on Saturdays, early morning, evenings, and the Internet), students can complete the upper-division requirements for a B.A. in Liberal Studies, Social Sciences, History or Sociology in four to six semesters. Students, however, move through the program at their own pace, and there is no set minimum number of courses to take each semester.

Participants in the PACE Program can take classes at either the main campus in San Marcos or in South West Riverside County.

PACE students have the same fee requirements, opportunities for financial aid, and other student services available to all Cal State San Marcos students.

**Majors Offered**

PACE offers four different majors: Liberal Studies, History or Sociology. Additional majors may be available; please contact the PACE Advisor to find out which majors may have been added to the PACE Program.

Liberal Studies majors take courses from a broad range of subjects (including, writing, science, history, geography, linguistics, computer science, math, and the social sciences). Liberal Studies students also declare a "special field" from which they focus on four courses. Graduates in Liberal Studies can prepare for careers in elementary education, as the Liberal Studies major is approved as a multiple subjects preparation program.

Social Sciences majors select one primary field (either history or sociology will be available in PACE) and two secondary fields from the following five areas: economics, history, political science, and psychology, or sociology. Graduates in Social Sciences prepare for careers in counseling, consulting, social services, public administration, criminal justice and business. With the addition of some day classes, Social Sciences majors may also complete a single subject preparation program in social sciences.

Students should review the Sociology and History major requirements in the Catalog.

In addition, students in all majors need to complete all Cal State San Marcos graduation requirements.

**Entry to PACE**

To be admitted to PACE, students must first complete the regular application materials for Cal State San Marcos, and, in addition, the special PACE application. To receive the special PACE application form and other supplemental materials, contact the PACE Advisor by visiting the PACE website at www.csusm.edu/pace or e-mail the advisor at PACE@csusm.edu.

Reserve Officer Training Corps

Air Force ROTC
(619) 594-5545
www.rohan.sdsu.edu/dept/afrotc/HTML/index.html

Air Force Reserve Officer Training Corps (AFROTC) provides students in all majors an excellent management and leadership training program. AFROTC offers a two- and a four-year program designed to develop officers who have broad understanding and high growth potential. Cadets participate in dialogues, problem-solving, and other activities designed to develop leaders and managers. All coursework is done at San Diego State University with the exception of field trips and one field training encampment conducted at military bases.

Two- to four-year scholarships are available on a competitive basis, but it is not mandatory to have a scholarship to participate in Air Force ROTC. Scholarships may be applied toward tuition, various laboratory, textbook and incidental fees plus a monthly nontaxable $150 allowance during the school year.

As a freshman and sophomore, an AFROTC student takes one academic class and leadership laboratory once a week. In the freshman course, students receive an introduction to AFROTC and to the Air Force. In the sophomore course, students learn the history of the U.S. Air Force. The leadership laboratory includes physical activity.
Students must attend a four-week field training (officer boot camp) in the summer between the sophomore and junior year. (Those students who have not completed all lower-division AFROTC courses with a grade of "C" or better in each course must attend a 5-week encampment.) Field training sharpens students' leadership and followship abilities along with communication, organization, and time management skills.

The last two years of AFROTC lead to a commission in the Air Force. At the beginning of their junior year, students not already on contract must decide whether to leave the program or sign a contract to serve in the Air Force. Those signing contracts receive AFROTC scholarships (if they had not been already receiving them). Junior year academic requirements include a Leadership and Management course that meets for 2.5 hours per week and leadership laboratory. Senior year academic requirements include a Preparation for Active Duty course that meets for 2.5 hours per week and leadership laboratory.

In addition to academic classes and leadership laboratory, cadets receive officer training through a variety of other sources. Each semester cadets visit an Air Force base to learn about life as an officer. Cadets are given a tour of the base, briefings on different careers, and are housed on Visiting Officer Quarters. Other extra-curricular training event include shadowing officers at an Air Force Base for two weeks in the summertime (stateside and overseas, parachuting, and combat survival training).

Upon completion of the AFROTC program and all requirements for a bachelor's degree, cadets are commissioned as Second Lieutenants in the Air Force with a four-year service commitment (10 for pilots, 6 for navigators).

**Army ROTC**
Military science courses are taken at San Diego State University. For information about the agreement between Cal State San Marcos and San Diego State University, contact the Veterans' Affairs Representative at (760) 750-4806.

**Navy ROTC**
Naval science courses are taken at San Diego State University. For information about the agreement between Cal State San Marcos and San Diego State University, contact the Veterans' Affairs Representative at (760) 750-4808.

**Southwest Riverside County Site**
(760) 750-4039
(909) 676-9254
www.csusm.edu/swrc

The Southwest Riverside County site, located in the Temecula Valley, offers both regular and special session courses in the evenings and on weekends. Curriculum includes undergraduate courses in Liberal Studies and post-baccalaureate education courses.

**Regular Session**
Regular session courses are offered through the College of Arts and Sciences and the College of Education. Credit may be counted toward a bachelor's degree or teaching credential. Students interested in pursuing a teaching credential must be admitted to the College of Education as well as the Cal State San Marcos. Students who have completed a minimum of 56 lower-division transfer units and intend to complete a bachelor's degree at Cal State San Marcos are encouraged to apply for admission prior to registering for regular session courses at the Southwest Riverside County site.

**Special Session**
Special session courses are offered through Extended Studies for university credit. Credit may be counted toward the appropriate degree or certification.

**University Global Affairs**
(760) 750-4090
Fax (760) 750-3284
www.csusm.edu/UGA

The primary goal of the Office of University Global Affairs is to internationalize the Cal State San Marcos campus. To achieve this goal, Global Affairs works with faculty, students, and staff to encourage international exchanges, study abroad programs, and international student enrollment. The Office of University Global Affairs is responsible for all study abroad and international student advising.

All students considering study abroad as part of their educational experience should visit the Study Abroad Resource Center in Craven Hall 5211 and consult with the study abroad advisor. Students can choose from many study abroad options around the world ranging in duration from a few weeks to an entire academic year, which are open to qualified students in every field of study.

Students must complete the "Cal State San Marcos Credit Approval for Study Abroad" form, including signatures from their academic advisor, before embarking on any study abroad program to guarantee the acceptance of study abroad credit. These forms are available from the Office of University Global Affairs.

The Office of Global Affairs provides support services for international students (i.e., students on a nonimmigrant student visa such as F-1 or J-1). The international student services provided by the Office of University Global Affairs include advising on housing, registration, enrollment, visa regulations, health insurance requirements, health services, and other campus support services. All newly admitted international students should report to the international student advisor in Craven 5211 and should then attend the international student orientation session at the beginning of the semester in which they first enroll.
The American Language and Culture Institute (ALCI) offers intensive English Language Programs for international students who want to improve their English language proficiency. The Intensive Academic Preparation Program provides students with the language skills and study skills necessary to succeed in American colleges and universities. This program is offered on a year-round basis. The ALCI also offers short-term programs such as TEFL Intensive for International Teachers of English and American Culture and Communication. In all of the ALCI programs, students have the opportunity to gain an understanding of American culture while meeting people from many other countries.

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 16 countries, the International Programs also offers a wide selection of study locales and learning environments.

CSU Study Center (Florence)
Università degli Studi di Firenze
La Accademia di Belle Arti Firenze
International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper-division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California community college transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Additional information and application materials may be obtained on campus in the Office of University Global Affairs in Craven 5211, or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit the web site at www.gateway.calstate.edu/csuinet/.

CENTERS AND INSTITUTES

Barahona Center for the Study of Books in Spanish for Children and Adolescents

CRA 4206
Telephone: (760) 750-4070
Fax: (760) 750-4073
www.csusm.edu/campus_centers/csb/

Established in 1989, the Barahona Center for the Study of Books in Spanish for Children and Adolescents/Centro para el Estudio de Libros Infantiles y Juveniles en Español is an academic center that promotes literacy in English and Spanish. The Center endeavors to inform current and future educational decision-makers (e.g., university faculty and students, school administrators, curriculum specialists, teachers) about books centered around Latino people and culture and about books in Spanish and their value in the education of English-speaking and Spanish-speaking children and adolescents. The purposes of the center are:

• to serve as a resource center of books in Spanish and books in English about Hispanics/Latinos for children and adolescents;
• to assist librarians, teachers, parents, and other adults in the selection, acquisition, and use of books in Spanish for children and adolescents, and to provide information about the book publishing industry;
• to encourage/support research on books in Spanish for young readers;
• to assist in the development of programs to encourage Spanish-speaking children and adolescents to read for enjoyment, education, and/or information;
• to inform and guide educational and community institutions in providing authoritative and useful courses on books in Spanish for young readers; and
• to assist in improving the effectiveness of seminars, forums, and/or workshops on books in Spanish for children and adolescents.

Further information about the Barahona Center may be obtained by writing to Isabel Schon, Ph.D., Director, Cal State San Marcos, San Marcos, CA 92096-0001. Visit our web site at: www.csusm.edu/campus_centers/csb/

Centro Barahona para el Estudio de Libros Infantiles y Juveniles en Español

CRA 4206
Telephone: (760) 750-4070

Established in 1989, el Centro Barahona para el Estudio de Libros Infantiles y Juveniles es un centro académico de la California State University San Marcos, que promueve el aprendizaje de la lectura en inglés y en español. El Centro tiene como interés principal informar a los educadores, actuales y futuros, sobre los libros que tratan sobre los latinos y su cultura, así como los libros en español y su valor en la educación de los niños y adolescentes de habla inglesa y española.

• servir como un centro de investigación de libros infantiles y juveniles en español y de libros para niños y adolescentes sobre temas hispanos/latinoamericanos en inglés;
• guiar a bibliotecarios, maestros, padres y otros adultos en la selección, adquisición y empleo de libros infantiles y juveniles en español y proporcionar información sobre la industria editorial;
• promover la investigación sobre libros en español para lectores jóvenes;
• contribuir en el desarrollo de programas que promuevan la lectura creativa, educativa e informativa en el niño y adolescente hispano/latinoamericano;
• informar y guiar a instituciones educativas y de la comunidad proporcionando cursos útiles sobre libros en español para lectores jóvenes; y
• mejorar la eficiencia de seminarios, conferencias y/o talleres sobre libros para niños y adolescentes en español.

Center for Border and Regional Affairs

(760) 750-4142
cbra@csusm.edu

The Center for Border and Regional Affairs (CBRA) is a faculty-coordinated unit at Cal State San Marcos whose aim is to help this public university fulfill its mission of identifying and meeting the needs of the San Diego/Tijuana region, and of North County San Diego in particular, through the facilitation of community-based research, creative activity, teaching and service.

CBRA’s main goals are:

• to coordinate collaborative research, creative activities, teaching, and service at Cal State Marcos related to the San Diego/Tijuana region and the U.S.-Mexico border;
• to link the interests and expertise of the Cal State San Marcos community with funding and policy initiatives;
• to provide a vehicle for the Cal State San Marcos community to support sound regional policy; and
• to serve as a point for contact for collaboration between Cal State San Marcos and U.S. and Mexican institutions and agencies concerned with regional research, creative activity, teaching and service in the San Diego/Tijuana region.

For further information, please contact:

Aníbal Yáñez-Chávez
Director, Center for Border and Regional Affairs
Cal State San Marcos
333 S. Twin Oaks Valley Road
San Marcos, CA 92096-0001
(760) 750-4142
cbra@csusm.edu

Central State San Marcos
and economic position and faculty’s border and regional expertise, and articulation of the expertise of Cal State San Marcos personnel with local, state, national, and international RFP’s:

- organization of faculty and student workshops, roundtables, seminars and conferences on border and regional affairs, and to discuss complementary or collaborative work;
- dissemination of CBRA work through a web page, curriculum innovations, syllabi, conferences, and interdisciplinary and community workshops;
- connecting research and teaching with public policy and private initiatives in the local and regional community;
- development of a documentation center for border and regional materials, in collaboration with Library and Information Services;
- evaluation of public policy programs in the San Diego/Tijuana border region in the fields of health, education, the environment, housing, urban growth, immigration, and labor.

Faculty Center

CRA 1257
(760) 750-4019

The primary mission of the Faculty Center is to support faculty members in their multiple roles as teachers, researchers, scholars, artists, intellectuals, and as members of the University and wider community. Critical to such support is the enhancement of faculty vitality at any career stage and the promotion of collegiality.

The Faculty Center’s services, resources, and activities are available to all University faculty — full- and part-time. The Center seeks to promote effective teaching, successful scholarly and creative activity, professional fulfillment, and sound leadership. It offers a variety of activities to advance these four broad goals designed to serve the needs of our University’s diverse faculty and student body.

Faculty Resource Room

CRA 1257-A

The Faculty Resource Room is reserved for faculty working on collaborative projects. The room provides a work area for up to 12 faculty who are involved in instructional, curriculum, grants, research, or service projects. It is conveniently located next to a pedagogy and grants “library.”

Goals of the Faculty Center

Effective Teaching:

- to advance innovative, effective teaching and learning strategies throughout the University, further developing what is already quality teaching and extending the expertise on teaching and learning to the benefit of each student;
- to assist professors (instructors, teaching fellows) in their efforts to improve teaching by exploring the nature of the teaching/learning relationship;
- to provide workshops, seminars, one-to-one assistance, video feedback, and other activities that inspire reflection and action concerning teaching and learning that are based on the assumption that the teaching/learning relationship is complex and varies from situation to situation and from individual to individual;
- to serve as a teaching and learning resource center via the acquisition of materials aimed at furthering teaching/learning relationships;
- to enhance the teaching/learning relationship via outreach to faculty members using a variety of means including workshops, newsletters, announcements, and individual consultation; and
- to be a forum, sharing aspects of teaching/learning with colleagues.

Successful Research and Creative Activities:

- to promote individual and collaborative creative activities;
- to assist faculty in defining their research and creative activity goals and to encourage and help them seek funding to support these goals;
- to increase faculty writing productivity by providing workshops and courses on scholarly and professional writing aimed at achieving such goals as publication, presentation at scholarly or other professional meetings, and other media;
- to help faculty polish professional presentation skills;
- to facilitate faculty networking with scholars and artists who share similar research and creative activity goals and interests; and
- to help locate funding sources and assist the writing of successful proposals for grants, fellowships, and awards, including assistance in drafting budgets.

Successful and Effective Professional and Leadership Activities:

- to offer individually tailored support for faculty members to prepare personal professional development plans;
- to promote faculty leadership and to assist faculty in managing their service to the University and wider community;
- to provide workshops in leadership skills; and
- to help faculty succeed in the retention, tenure, and promotion process through workshops and individual consultation on topics such as setting professional goals, time management, understanding and improving student evaluations, and documenting and presenting contributions to teaching, research and creative activity, and service.

Enhance Collegiality:

- to create opportunities for faculty to meet and discover shared interest across disciplinary lines;
- to develop a center for faculty to meet, talk, read, and write;
- to build a sense of community among the faculty;
- to facilitate a better understanding regarding performance expectations; and
- to provide a friendly environment where faculty can come and share expertise and concerns with colleagues.
The National Latino Research Center (NLRC)

(760) 750-3500
www.csusm.edu/nlrc

The mission of the NLRC is to promote, at the national level, scientific research, training, and the exchange of information related to Latino populations in the United States.

The Center's organizational structure and activities are guided by the following major objectives, which also represent center departments:

Research:
- To promote the awareness, expansion and enhancement of culturally sensitive, culturally relevant and scientifically focused research on Latino populations.

Clearinghouse:
- To offer training, specialized workshops and to facilitate and organize conferences on substantive topics of critical importance to researchers, students, community organizations and government agencies involved with Latino populations.

Training:
- To serve as a repository for empirically based publications, databases and reports pertaining to substantive issues for Latino populations.

Services:
- Data collection, translation and our other services increase our understanding of this numerically significant population.
- The Center is building a library of outcomes from methodological studies conducted through our services to others.
- Providing services has a larger purpose. What we learn as we provide our services will be shared with others in the field through reports and publications.

Data Collection

The National Latino Research Center provides up-to-date data collection services regarding diverse Latino and non-Latino populations throughout the United States.

Translation

Spanish translation of data collection instruments and other research materials is critical for valid and reliable information. NLRC methods take into account diverse cultural backgrounds and literacy levels of Latino populations - be they of Mexican, Puerto Rican, Cuban or of "other" Latino group origin.

Needs Assessment

We conduct state-of-the-art needs assessments which consider the social and cultural context of targeted populations, especially diverse Latino populations throughout the United States.

Program Evaluation

NLRC specializes in theory-driven program evaluations focused on programs serving Latino populations and tailored to fit diverse client needs.

Surveys

Specialists conduct moderate to large studies using optional sampling strategies.

Technical Assistance and Data Analysis

Data analysis and interpretation of findings are two critical services the NLRC supplies. The NLRC can clarify research designs and offer options when results call for new approaches. Data analysis can range from simple descriptive analysis to multivariate analyses.

Webpage Creation for Conferences

The NLRC can create and maintain webpages for conferences and seminars. If you are interested in any of the Center's services, please contact us at the:

National Latino Research Center
Cal State San Marcos
San Marcos, CA 92096
Telephone: (760) 750-3500
Fax: (760) 750-3510

Social and Behavioral Research Institute

(760) 750-3288

Established in 1993, the Social and Behavioral Research Institute (SBRI) is a multi-disciplinary and multicultural instructional and research environment designed to provide students with state-of-the-art knowledge of the social scientific enterprise. The SBRI is organized as a resource for projects that respond to community-based questions and/or faculty sponsored initiatives. In the research lab, students have "hands-on/real-world" experiences in how research is conducted. Central to this process is the use of technology for the access and retrieval of information, data collection, and analysis.

The institute views issues of diversity within our communities as a fundamental element in obtaining quality data. Therefore, students learn to consider issues of culture and language as part of the puzzle that must be addressed within the research design.

Students involved with the SBRI:

- learn to use the Internet to gain access to information and data;
- learn to work with the institute's computer assisted telephone interviewing system to collect social scientific data with the latest methods of sampling and questionnaire design;
- are exposed to multidisciplinary quantitative and qualitative analysis techniques using the latest software to model social theory by using
  - video, voice, and digital qualitative data
  - statistical analysis techniques; and
- gain the knowledge and skills necessary to make a contribution to the quality of life of our rapidly changing environment and community.

General Education Requirement ................................81
ACADEMIC REGULATIONS

Students are held individually responsible for meeting the requirements outlined in this catalog. Cal State San Marcos will make every effort to adhere to these requirements for students subject to this catalog; particularly important is the "Graduation Requirements" section. All parts of the catalog are subject to change from year to year as University rules, policies, and curricula change. Failure to keep informed of such changes will not exempt students from whatever penalties they may incur.

Enrollment

All students who register at Cal State San Marcos for either the Fall or Spring semester must first be admitted to the University by the Office of Admissions.

Concurrent Enrollment

Cal State San Marcos provides opportunities for students to enroll concurrently at other colleges and universities. This privilege has some limitations, and students interested in concurrent enrollment should keep in mind that their study load in the proposed combined program may not exceed the maximum number of units authorized by the University for each term. Interested students should consult with their academic advisor before initiating concurrent enrollment procedures.

Enrollment Within the CSU System

Students enrolled at Cal State San Marcos may enroll concurrently at other CSU campuses. Such enrollment is at the discretion of authorities from both campuses. Applicants should satisfy the following requirements: (1) have completed at least one semester at Cal State San Marcos as a matriculated student and earned at least twelve (12) semester units, and (2) maintained a grade point average of 2.0 (C) in all work completed at the University, and be in good academic standing.

Enrollment Outside The CSU System

Students enrolled at Cal State San Marcos may enroll concurrently for additional courses at another institution outside The CSU system with advance approval from the student's advisor. However, the study load in the proposed combined program of study may not exceed the maximum number of units authorized at this University.

Further information regarding concurrent enrollment and deadlines may be obtained from the Office of Registration and Records.

Enrollment as a Visitor

Cal State San Marcos encourages its students to experience a wide variety of teaching and learning environments. As a part of this emphasis, the University provides opportunities for students to visit other campuses in the CSU system. While on visitor status, Cal State San Marcos students are fully enrolled at the host campus. Since programs and courses may vary within the system, students are required to review their proposed course of study with their academic advisor.

Declaring (or Changing) a Major

Work in a major field of study is designed to afford students the opportunity to engage in intensive study of a discipline. Students may declare a major at the time of admission, or students may enter the University with an "undeclared" major. Students entering the University as "undeclared" or those changing their majors must process a Change of Major Form through the Enrollment Services Information Center. Undeclared major students with bachelor degrees, who are completing credential requirements or preparing to enter credential programs, receive their advising in the College of Education. All other undeclared students receive advising in the College of Arts and Sciences.

Definition of Terms

Continuous Attendance

Continuous attendance/enrollment, as it refers to attendance by a student at any campus of The California State University, means enrollment in at least one course for at least one regular semester in each calendar year.

Out-One Term

An "out-one term" for a student is a regular semester (either spring or fall) of any calendar year in which s/he does not enroll in any course or withdraws from all courses by the end of the add/drop period, and which immediately follows a semester in which s/he was enrolled in at least one course beyond the add/drop period. A student maintains catalog rights during the out-one term.

Course Expectations

Course expectations and requirements will be communicated in the course syllabus, which will be made available to students no later than the first class meeting, and which will be placed on file in the program/department office and/or the Dean's office, by the fourth week of classes. Each syllabus will also contain a statement on the instructor's scheduled office hours.

Course Information

The course descriptions, found beginning on page 221 of this catalog, briefly describe the content or subject matter to be covered and provide additional information such as units of credit (number in parenthesis after the course title), level of instruction (see course numbering system), and prerequisites and/or corequisites (courses in which the student must enroll simultaneously).

Course Numbering System

The first digit in each course designation is intended to indicate the level of the course. In addition, the first digit also roughly indexes the student's year of study at the University.

Courses numbered 001 to 099 are non-baccalaureate developmental courses.
Courses numbered 100 to 299 are lower-division. Courses numbered 300 to 499 are upper-division.
Courses numbered 500 to 599 are graduate level, and may be taken by advanced upper-division, postbaccalaureate, or graduate students for undergraduate or graduate credit.

Courses numbered 600 to 699 are graduate level. These courses may be taken by undergraduate students only on an individual basis, and only with prior, case-by-case approval of the program director of the program offering the course (or his/her designee).

Students should consult relevant sections of this catalog, as well as college and program advising staff, in order to determine which courses are appropriate for their level of study, and which courses satisfy degree requirements for various programs of study.

**Grading System**

Grades are assigned in accordance with the following policies.

**Definitions of Letter Grades**

A (Excellent): Performance of the student has been at the highest level, showing sustained excellence in meeting all course objectives and exhibiting an unusual degree of intellectual initiative.

B (Good): Performance of the student has been at a high level, showing consistent and effective achievement in meeting course objectives.

C (Satisfactory): Performance of the student has been at an adequate level, meeting the basic objectives of the course.

D (Passing): Performance of the student has been less than adequate, meeting only the minimum course requirements.

F (Failing): Performance of the student has been such that minimum course requirements have not been met.

**Plus/Minus Grading**

The use of plus/minus grading is not required. It is used at the discretion of the individual instructor. The following decimal values of plus/minus grades are used in the calculation of grade point averages:

- A+ = 4.0
- A  = 3.7
- B+ = 3.3
- B  = 3.0
- C+ = 2.3
- C  = 2.0
- B- = 1.7
- D+ = 1.3
- D  = 1.0
- F  = 0

**Nontraditional Grading**

Courses are graded on an A through F basis, as described above, except those specifically designated as follows:

CR/NC (Credit/No Credit): Credit (CR) is awarded for grades equivalent to C or better. No credit (NC) is awarded for grades equivalent to C- or less. Grades of CR and NC are not included in the calculation of grade point averages.

Courses graded Credit/No Credit, whether taken at this or at another institution, may not be used to satisfy requirements for the major, except for specific courses designated by the discipline (refer to the course section of this catalog). General Education courses may not be taken at Cal State San Marcos with a Credit/No Credit option. A maximum of nine (9) semester units may be taken at CSUSM with a Credit/No Credit option and applied toward an undergraduate degree.

When a student does not complete a course, and does not officially withdraw from it, the following grading symbols may be assigned by the faculty:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>Incomplete Authorized</td>
</tr>
<tr>
<td>RP</td>
<td>Report in Progress</td>
</tr>
<tr>
<td>WU</td>
<td>Withdrawal Unauthorized</td>
</tr>
</tbody>
</table>

An incomplete must normally be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment (see definition under Definition of Terms section). Failure to complete the assigned work will result in an Incomplete being changed to an IC symbol, unless:

- the course was taken for Credit/No Credit (in which case the I is replaced by an NC), or
- the faculty member assigns a specific letter grade at the time the incomplete is assigned (in which case that letter grade replaces the I in the student's record at the end of the calendar year deadline), or
- the student graduates prior to the end of the calendar year deadline (in which case the I grade becomes permanent).

RP (Report in Progress): The RP symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Except for graduate degree theses and projects, work is to be completed within one calendar year immediately following the end of the term in which the RP was assigned. Failure to complete the coursework within the prescribed time period will result in the RP being changed to an F (or NC, if the class was taken for Credit/No Credit). In graduate thesis and project courses, the RP grade will not change to an F or NC until the student has exceeded the time-to-degree limit of the graduate program.

WU (Withdrawal Unauthorized): The symbol WU indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation this symbol is equivalent to an F.
The following administrative grading symbols are assigned by the Office of Registration and Records:

- AU (Audit): The AU symbol is used when a student audits a course. Enrollment as an auditor is subject to the permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes. A student who is enrolled for credit may not change to audit after the last day to add classes. An auditor is not permitted to take examinations in the course; therefore, there is no basis for evaluation or a formal grade.

- IC (Incomplete Charged): The IC symbol is used when a student who received an authorized incomplete fails to complete the required coursework within the allowed time limit. The IC replaces the I and is counted as a failing grade for grade point average and progress point computation. Note that the IC is not used if the course was taken for Credit/No or if the faculty member assigns a specific letter grade at the time the Incomplete is assigned (see Incomplete Authorized).

- RD (Report Delayed): The RD symbol is assigned when the instructor has not reported a grade. It is replaced when the instructor assigns the grade. An RD is not included in the calculation of grade point averages.

- W (Withdrawal): The W symbol indicates that the student was permitted to withdraw from the class after the add/drop deadline published in the Class Schedule with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade point average or progress points.

Before the 2002-2003 academic year, the following grading symbols were in use at Cal State San Marcos:

- SP (Satisfactory Progress): The SP symbol is used in connection with courses whose work extends beyond one academic term. It indicates that work is in progress and that has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Except for graduate degree theses and projects, work is to be completed within one calendar year immediately following the end of the term in which it was assigned. Failure to complete the additional work within the pre-scribed time period will result in the SP being changed to an F (or NC, if the course was taken for Credit/No Credit). In graduate thesis and project courses, the SP grade will not change to an F or NC until the student has exceeded the time-to-degree limit of the graduate program.

- U (Unauthorized Incomplete): The symbol U indicates that an enrolled student did not officially withdraw from the course and failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities, or both, were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average, this symbol is equivalent to an F.

**Grade Changes**

The University recognizes the prerogative of the faculty to set standards of performance and to apply them to individual students. The University will seek to correct injustices to students, but at the same time, believes that the instructor's judgment at the time the original grade is assigned is better than a later reconsideration of an individual case. Equity to all students is of fundamental concern. The following policies apply to changes of grades, except for changes of Incomplete Authorized and Unauthorized Incomplete symbols.

1. In general, all course grades are final when filed by the instructor in the end-of-term course grade report. Students may obtain their grades through the SMART system. These grades become a part of the official record.

2. A change of grade may occur only in cases of clerical error or where the instructor reevaluates the original course assignments of a student and discovers an error in the original evaluation. A clerical error is an error made by the instructor or an assistant in calculating or recording the grade. A change of grade shall not occur as a consequence of the acceptance of additional work or re-examination beyond the specified course requirements.

3. A request for a change of grade shall be initiated by the student affected and shall be directed to the instructor within sixty (60) calendar days of the first day of classes of the regular semester following the award of the grade. If the instructor determines that there is a valid basis for the change, a Change of Grade form shall be used to notify the Office of Registration and Records. Forms are not to be handled by the student. If the instructor determines that there is not a valid basis for the change, and denies the student's request, the instructor's decision is final. The student may file a grievance through the Student Grievance Committee in cases where the student believes a grade was issued on the basis of capricious or prejudicial treatment by the instructor.
Incomplete Grades for Graduating Students

If it is possible for a student to graduate with an "I" grade in a course because that course is not required for graduation, and if the student has sufficient credit units to graduate without the course, the "I" grade becomes permanent. No further action will be taken to alter the student's record for purposes of that degree.

Grade Point Average

The grade point average (GPA) is a measure of academic scholarship and performance. The grade point average is computed by multiplying the number of units earned by the quality-point value of the grade assigned. The total quality points are then divided by the number of units attempted, subject to application of the Repeat of Undergraduate Courses policy described in this catalog.

A student's overall GPA is based on the record of all baccalaureate-level and/or postbaccalaureate-level courses attempted by that student. A student's institutional (or Cal State San Marcos) GPA is based on the record of all baccalaureate-level and/or postbaccalaureate-level courses attempted by that student at Cal State San Marcos. Some degree programs may require students to achieve a minimum GPA in courses applied toward major requirements, or a minimum grade in each of these courses.

Maximum Number of Units

A student whose academic record justifies a study program in excess of nineteen (19) units may be allowed to enroll for extra units. Undergraduates who request to enroll for more than nineteen (19) units must obtain the approval of their academic advisor. If such requests are denied, appeals may be made to the appropriate college dean. In general, only students with superior academic records and a demonstrated need for such excess enrollment will be allowed to enroll beyond the nineteen (19) unit limit.

Student Classification

Students who have complied with all the admissions requirements and who have received an official notice of admission will be admitted to the University under one of the following classifications.

Freshman. A student who has earned a total of zero to twenty-nine (0 to 29) semester units inclusive.

Sophomore. A student who has earned a total of thirty to fifty-nine (30 to 59) semester units inclusive.

Junior. A student who has earned a total of sixty to eighty-nine (60 to 89) semester units inclusive.

Senior. A student who has earned a total of ninety (90) or more semester units.

Graduate/Postbaccalaureate. A student who has earned a bachelor's degree from a regionally accredited institution.

Repeat of Undergraduate Courses and GPA Adjustment Policy

When students repeat a course for the sake of improving upon an earlier unsatisfactory performance, they may, under certain circumstances, request to have their earlier grade ignored in the computation of their grade point average (GPA). The following policy, applying only to coursework completed at Cal State San Marcos, outlines the circumstances under which undergraduate students may request adjustment of the GPA.

1. If an undergraduate student has received a grade of C– (1.7) or less in a course, has repeated the course in a subsequent term, and has earned a better grade, then an Undergraduate Student GPA Adjustment Request Form may be submitted to the Enrollment Services Information Center. All requests should be submitted in consultation with the student's academic advisor. Any request confirmed as complying with this policy will be granted.

2. When a request is granted, one prior grade earned in the course is ignored for the purpose of calculating the GPA. However, all grades for a given course will be maintained as a part of the student record and will appear on the student's transcripts.

3. A maximum of five (5) different requests may be filed by a student over the course of the undergraduate career. Only one request may be filed for any single course.

4. Since CR/NC grades do not enter into the GPA calculation, it is not necessary to submit this form when repeating a course in which a grade of NC was earned. If a course previously taken for a grade is repeated CR/NC, the original grade(s) will continue to be calculated in the GPA.

5. Unless the student submits an Undergraduate Student GPA Adjustment Request Form to the Enrollment Services Information Center, all grades earned in repeated enrollments in the course will be used to calculate the student's GPA.

6. A request may not be filed until the student has completed the repeat, and may not be filed if the student received a grade of CR, NC, F, I, RD, SP or U the last time that the course was repeated.

7. If a student wishes to repeat a course for the sake of filing a request, and the course is not scheduled to be offered during the student's expected time to degree, then the program director (or designee) of the program offering the original course may approve substitution of a similar course to be repeated instead. If a course with variable topics is repeated, then with the pair of exceptions stated immediately below, the same topic (identified by specific course number and suffix) must be repeated in order to omit the earlier grade from the GPA calculation. If the topic has been converted to a new course, and is identified as such in the catalog description of the new course, then the new course may be taken to repeat the topic. If the same topic is not scheduled to be offered again within the term of the student's expected time to degree, the program director (or designee) of the program offering the course may approve substitution of a similar topic offered under the same course number. The substitute course (or topic) must be taken after completion of the original course.
**Student Course Load**

Since every undergraduate degree requires a minimum of 120 units, a student who intends to graduate after eight semesters of study will need to average at least fifteen (15) units every semester. For this reason, a normal course load in a semester is fifteen (15) units.

Undergraduates who are taking at least 90% of the normal load, that is, at least twelve (12) units in a regular fall or spring semester, are classified as full-time students. Students enrolled in nine (9) units or more in a summer term are classified as full-time. Undergraduates who are enrolled in fewer units are classified as part-time students.

Note that classification as a full-time or part-time student is different from the two levels of State University Fees: up to 6.0 units, and above 6.0 units (see page 39).

For questions about course load requirements related to student financial aid, contact the Financial Aid and Scholarship Office, (760) 750-4855. For questions about course load requirements related to Veterans Benefits, contact the veterans representative in the Office of Registration and Records, (760) 750-4808.

Undergraduate international students on non-immigrant visas must carry and complete a minimum of twelve (12) units per semester unless a reduced load is authorized by the University. Reduced unit loads may be granted for substantial academic or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

**Student Attendance and Administrative Withdrawal**

Students registered in a class must be present at the first class session to guarantee a place in the class. Administrative Withdrawal is a procedure that offers instructors the option of making enrollment in a course contingent upon the student's attendance at the first meeting. Students absent from the first meeting may be administratively dropped from the class at the instructor's request. In addition, instructors may stipulate that attendance at other specified class meetings on or before the add/drop deadline is required for students to remain enrolled in the class. (For example, in some science laboratory courses, student attendance at safety instruction sessions is mandated by state law.)

Students who are unable to attend the first class meeting, or class meetings where attendance is required for enrollment, must contact the instructor in advance to make sure the instructor is aware that the student wishes to remain enrolled in the course. Notification of the instructor may not be sufficient to ensure enrollment in the course; students may be administratively dropped from courses for failure to attend first class meetings or other mandatory meetings, even when the instructor is given prior notification.

Instructors are not required to drop students for absence; therefore, students should not assume that they will be dropped for absence, and should confirm their registration status before the add/drop deadline.

Where students have been administratively dropped from a class, and where the absence or inability to contact the instructor was caused by mitigating circumstances, students should appeal to the instructor in seeking to regain enrollment in a class. Students who have been administratively dropped from a class may be reinstated, upon consent of the instructor, by filing a Schedule Adjustment Form in the Enrollment Services Information Center.

**Dropping Courses**

Students who wish to drop classes may do so by following the procedures outlined in the table on page 76. Students who wish to drop all of their classes should also follow the procedures for University Withdrawal, below. These procedures are under revision as the catalog goes to press. Students should consult with advisors, the Office of Registration and Records, or the Class Schedule for current course withdrawal procedures.

Failure to follow formal withdrawal procedures will result in the assignment of a grade other than a "W" for the class. Before the first day of the semester students may drop classes either by using the SMART system or by submitting a completed Schedule Adjustment Form. No registration activity is permitted on the first day of the semester. After the first day of classes and until the Add/Drop deadline, as detailed below, students may drop classes either by using the SMART system or by submitting a completed Schedule Adjustment Form to the Enrollment Services Information Center; signature approval is not required, and no record of the course will appear on the student's transcript.

After the Add/Drop deadline, students must submit a Course Withdrawal Form to the Enrollment Services Information Center. Signature approval is required for withdrawing from classes, according to a series of deadlines staggered throughout the academic term, as detailed below. To gain approval, students must present sufficient reason(s) for withdrawing from the class. Given approval, the grade of "W" ("Withdrawal") appears for the class on the student's transcript. Grades of "W" are not included in the calculation of the student's GPA. Where such approval is not granted, students who withdraw from a class will receive a grade other than "W."

**Add/Drop and Withdrawal Policy**

**Adding Courses**

There will be no adding of classes on the first day of the academic term. Students who wish to add classes may do so, using a Schedule Adjustment Form, beginning the second day of the term until the published add/drop deadline. The Schedule Adjustment Form, with the instructor's signature (or that of the instructor's designee), must be submitted to the Enrollment Services Information Center (where blank forms are available). Beyond the add/drop deadline, students may add courses only with signature approval of the course instructor and the Dean of the College offering the course (or designee); a late fee will be assessed.

**Dropping Courses**

Students who wish to drop classes may do so by following the procedures outlined in the table on page 76. Students who wish to drop all of their classes should also follow the procedures for University Withdrawal, below. These procedures are under revision as the catalog goes to press. Students should consult with advisors, the Office of Registration and Records, or the Class Schedule for current course withdrawal procedures. Failure to follow formal withdrawal procedures will result in the assignment of a grade other than a "W" for the class. Before the first day of the semester students may drop classes either by using the SMART system or by submitting a completed Schedule Adjustment Form. No registration activity is permitted on the first day of the semester. After the first day of classes and until the Add/Drop deadline, as detailed below, students may drop classes either by using the SMART system or by submitting a completed Schedule Adjustment Form to the Enrollment Services Information Center; signature approval is not required, and no record of the course will appear on the student's transcript.

After the Add/Drop deadline, students must submit a Course Withdrawal Form to the Enrollment Services Information Center. Signature approval is required for withdrawing from classes, according to a series of deadlines staggered throughout the academic term, as detailed below. To gain approval, students must present sufficient reason(s) for withdrawing from the class. Given approval, the grade of "W" ("Withdrawal") appears for the class on the student's transcript. Grades of "W" are not included in the calculation of the student's GPA. Where such approval is not granted, students who withdraw from a class will receive a grade other than "W."
PROCEDURES FOR DROPPING OR WITHDRAWING FROM COURSES

These procedures are under revision as the catalog goes to press. Students should consult with advisors, the Office of Registration and Records, or the Class Schedule for current course withdrawal procedures.

Deadlines*

On or before the Add/Drop deadline: end of the second week of semester (end of approximately 10% of the academic term).

After the Add/Drop deadline, and on or before mid-term (end of the eighth week of the semester or approximately 50% of the academic term).

After mid-term, and on or before the last day of the twelfth week of the semester (end of approximately 75% of the academic term).

Beyond the last day of the twelfth week of the semester (beyond the end of approximately 75% of the academic term), until the deadline for instructor submission of grades.

Up to one year after the end of the term.

Requirements and Procedures

- Student may use the SMART system or submit a Schedule Adjustment Form to the Enrollment Services Information Center.
- No record of the course appears on student records.
- No signature approval required.

- Student must present serious and compelling reasons for dropping the course. Inadequate academic preparation for the course is no longer sufficient justification.
- Given approval, grade of "W" appears on student records.
- After obtaining signature approval, student must submit a completed Schedule Adjustment Form to the Enrollment Services Information Center.

- Dean of the College offering the course (or designee) must sign the Schedule Adjustment Form.
- Student must present serious reason(s) for dropping the course. Inadequate academic preparation for the course is no longer sufficient justification for the drop, unless compounded by other aggravating circumstances.
- Given approval, grade of "W" appears on student records.
- After obtaining signature approval, student must submit a completed Schedule Adjustment Form to the Enrollment Services Information Center.

- Course Instructor and Dean of the College offering the course (or designee) must sign the Schedule Adjustment Form.
- Student must demonstrate that the need to drop the course is due to circumstances beyond the student's control, as in cases of serious illness, accident, family emergency, etc., and that a grade of "I" (where acceptable to the instructor) is impractical, given these circumstances.
- Given approval, grade of "W" appears on student records.
- After obtaining signature approval, student must submit a completed Schedule Adjustment Form to the Enrollment Services Information Center.

- Student may petition for retroactive dropping of single courses by following the procedures outlined in the preceding section of this chart.
- Student may petition for retroactive dropping of all courses attempted during the term by submitting a written request to the Dean of Students.
- In this petition, the student must present serious and compelling reasons for the retroactive drop.
- The petition is reviewed by a committee consisting of the Dean of Students (or designee), the Dean of the College of the student's major (or designee; Arts and Sciences in the case of undeclared majors), and a faculty member from the Student Affairs Committee (SAC). (When this faculty member is unavailable, a replacement may be appointed on an ad hoc basis by the Dean of the College, from among the College faculty.)
- Given approval by the review committee, the Dean of Students will sign off on the petition; grades of "W" will appear on student records for all courses attempted during the term.

* Deadlines are strictly enforced. Students wishing to petition for an exception to a deadline based on circumstances beyond their control may do so in writing on a petition form available in the Office of Registration and Records.

Retroactive Course Drops

Up to one year after the end of the academic term, under extraordinary circumstances students may petition for retroactive withdrawal of any or all courses attempted during the academic term, as detailed below. Given approval, the grade of "W" will appear on the student's transcript for the course(s) addressed by the petition.

Withdrawing from the Institution

To minimize possible financial penalties, students who wish to withdraw all classes at any point in the academic term (without adding others for the same term) must also officially withdraw from the University. Students who find it necessary to withdraw from Cal State San Marcos after enrolling for any academic term are required to follow the official withdrawal procedures. Failure to follow formal withdrawal procedures may result in the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. During the academic term, permission to withdraw all classes must be sought according to the deadlines, requirements and procedures detailed below. Where such permission is not granted, students who withdraw from the University will receive grades other than "W" for all classes attempted during the term. Grades will be determined on the basis of coursework completed during the term. Information on withdrawal procedures is available from Office of Registration and Records at (760) 750-4814.

In addition, students must submit a completed University Withdrawal Form Enrollment Services Information Center. (Forms are available at the Enrollment Services Information Center and the Office of the Vice President for Student Affairs and Dean of Students.) To obtain approval for the University Withdrawal, students must obtain a series of clearances from various University offices, independent of permission to drop all classes.

Details of the University Withdrawal process are outlined on the University Withdrawal Form.
Application for Graduation
Graduation is not automatic upon the completion of requirements. Students who intend to graduate must take the initiative to apply. Upon completion of 90 units, the student is eligible to file an application for graduation in the Enrollment Services Information Center. The Class Schedule each semester specifies the filing date.

The degree is granted upon completion of all requirements by the graduation date. Candidates for graduation are eligible to register for terms subsequent to the graduation date only if an application for readmission as a post-baccalaureate or graduate student has been filed with the Office of Admissions. Students not completing the requirements must reapply for graduation. Graduation requirements will be determined by the continuous enrollment regulations defined in this catalog. After the degree is granted, no changes can be made to the undergraduate record.

Catalog Rights for Degree Requirements
If a student does not graduate within ten (10) years from the beginning of his/her catalog rights, the major advisor may review all upper-division major courses for applicability.

Election of Regulations
An undergraduate student remaining in continuous attendance in regular sessions at any California State University campus, at any California community college, or at any combination of California community colleges and campuses of The California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at Cal State San Marcos either:

A. at the time the student begins attendance at a California public community college or California State University campus, or
B. at the time the student begins attendance at Cal State San Marcos, or
C. at the time the student graduates from Cal State San Marcos.

The campus may require a student changing his or her major or any minor field of study to complete the major or minor requirements in effect at the time of the change.

For purposes of this section, "attendance" means attendance in at least one semester of a calendar year.

If a continuing student has attended a term and then does not enroll or attend any classes in the next term, the unenrolled term is designated as an "out one" term and the student retains catalog rights. After exhausting the "out-one" allowance, if a student does not enroll and attend a subsequent term, catalog rights are forfeited and the student must reapply for admission, unless the student is granted a leave-of-absence for a specific reason as defined in the section below. Absence due to an approved educational leave or for attendance at another accredited institution of higher learning shall not be considered an interruption in attendance if the absence does not exceed two years. (12 months for graduate students)

Educational Leave of Absence
An undergraduate student who has exhausted their "out-one term" in the prior semester and who needs to remain unenrolled for an additional semester may, under some circumstances and subject to certain restrictions, apply for an educational leave of absence. Undergraduate students should contact the Office of Registration and Records for eligibility conditions and limitations. Request for Undergraduate Educational Leave of Absence Forms may be obtained from the Enrollment Services Information Center during regular business hours.
Graduation with Honors

Undergraduate students who complete their first undergraduate degree requirements at Cal State San Marcos with exceptional scholastic averages will be eligible for bachelor's degrees with Latin Honors. The following criteria are required for graduation with honors:

- **Cum laude** 3.50 - 3.69
- **Magna cum laude** 3.70 - 3.89
- **Summa cum laude** 3.90 - 4.00

The University transcript includes two grade point averages. The overall GPA is based on all coursework attempted, including transferable courses from other institutions. The institutional GPA is based on Cal State San Marcos courses only. The grade point average used to determine graduation with honors is the lower of the two. Recognition at commencement is based on coursework completed before the semester of the commencement ceremony. If a student's record qualifies for graduation with honors based on grades earned during the semester of commencement, the honors designation will be included on the student's diploma and official University transcripts.

Final Examinations

Student achievement shall be evaluated in all courses. Students shall be fully informed of the manner of their evaluations as well as the requirements and major assignments within the first three weeks of each semester. One method of summative evaluation is a final examination. If a final is given, it must be held at the time scheduled by the University, unless it is a take-home exam, in which case it shall be due no earlier than the day and time scheduled for the final exam for the class. Once established, the scheduled day and time for a final exam may not be changed unless approved by the dean of the college. No make-up final examination will be given except for reason of illness or other verified emergency. An instructor may not shorten the academic semester by scheduling an in-class final exam in lieu of a final exam before the week scheduled for the final. The dean of each college shall be responsible for ensuring that this policy is followed.

Academic Probation and Disqualification

In order to determine a student's eligibility to remain enrolled at Cal State San Marcos, the University shall consider both quality of performance and progress toward successful completion of a student's course of study. Eligibility shall be determined essentially by grade points and grade point average.

Cal State San Marcos will apply the following guidelines:

- Undergraduate students shall be subject to probation if, in any academic term, they fail to maintain both a cumulative and Cal State San Marcos grade point average of at least 2.0 (a C average);
- Undergraduate students on probation shall be subject to disqualification if (1) as a lower-division student (less than 60 semester units completed) they fail 15 or more grade points below a 2.0 average in either all units attempted or all units attempted at this campus, (2) as a junior (60-89 semester units completed) they fail 9 or more grade points below a 2.0 average in either all units attempted or all units attempted at this campus, or (3) as a senior (90+ semester units completed) they fail 6 or more grade points below a 2.0 average in either all units attempted or all units attempted at this campus;
- Undergraduate students shall be subject to disqualification if at any time their cumulative grade point average falls below 1.0 (a grade of F) and it is unlikely, in light of their overall education record, that the grade-point deficiency will be removed in subsequent terms;
- Students who have unclassified post-baccalaureate status shall be subject to the same academic probation and disqualification as undergraduate students, with the exception of students enrolled in a Teaching Credential Program who must follow the conditions established for that program;
- Students enrolled in a graduate degree program in conditionally classified or classified standing shall be subject to academic probation if the student fails to maintain a cumulative grade point average of at least 3.0 (grade of B) in all units attempted subsequent to admission to the program;
- If none of the conditions above apply, undergraduate students shall receive an academic warning if, in a single term, their GPA falls below 1.5.

Students disqualified for academic deficiency may not enroll in any regular campus session without permission from the Executive Director of Enrollment Services and may be denied admission to other educational programs operated or sponsored by the University.

Academic Renewal Policy

According to California State University policy, a student whose graduation will be delayed by a grade point average deficiency may petition to have up to two semesters or three quarters of previous college study (at any collegiate-level institution) disregarded from all considerations associated with requirements for the baccalaureate degree. All coursework attempted during the term(s) approved for academic renewal will be disregarded in computing the student's cumulative GPA. In addition, any coursework successfully completed during term(s) approved for academic renewal will no longer count toward fulfillment of any degree requirements. Students may not selectively eliminate coursework. When such action is taken, the student's permanent academic record is annotated to show the adjusted grade point average, but all coursework will remain legible on transcripts.
Academic renewal is intended only to facilitate graduation from Cal State San Marcos. It does not apply to individuals who already possess a baccalaureate degree or who are able to meet graduation requirements in a timely manner without the approval of a petition for academic renewal.

To qualify for academic renewal, a student must meet all of the following conditions:

- At least five years must have elapsed since the term or terms to be disregarded.
- Since the most recent work to be disregarded, the student must have achieved the following academic record at Cal State San Marcos:
  - at least 15 semester units with a GPA of 3.00 or higher
  - or at least 30 semester units with a GPA of 2.50 or higher
  - or at least 45 semester units with a GPA of 2.00 or higher
- The student must present an academic record that clearly indicates the coursework to be disregarded is not representative of the student's current academic ability and achievement.
- The student must present evidence that if the petition is not approved the student will be required to enroll in additional coursework involving one or more additional terms to qualify for the degree.

Petitions for academic renewal may be obtained in the Office of Registration and Records. Final decisions on petitions are made by a review committee, consisting of two faculty representatives and the Executive Director of Enrollment Services.

**Administrative Academic Disqualification**

An undergraduate or graduate student may also be placed on probation or may be disqualified by the Executive Director of Enrollment Services for unsatisfactory scholastic progress, regardless of cumulative grade point average or progress points. Such actions shall be limited to unsatisfactory scholastic progress arising from repeated withdrawal, failure to progress toward an educational objective, and noncompliance with an academic requirement, and shall be consistent with guidelines issued by the Chancellor of The California State University.

**Academic Freedom**

Education depends upon the free expression and exchange of ideas in the search for truth. Academic freedom is the freedom to express any view, popular or unpopular, and to defend that point of view in open exchange. The University supports freedom of speech, inquiry, and expression for all members of its faculty, students, and staff in both curricular and co-curricular activities. All members of the Cal State San Marcos faculty shall have full academic freedom, and the University endorses the general principles of academic freedom outlined in the AAUP Statement (1940) of Principles of Academic Freedom and Tenure.

The principles of academic freedom require their application to both teaching and research. Research cannot fulfill its fundamental purpose of advancing knowledge unless it is done in an environment supportive of academic freedom. Academic freedom is essential to the classroom, as a protection of the rights of the teacher and of the student. All those engaged in research are entitled to full freedom in research and in the publication of results, legal requirements, and recognized standards of their profession.

Teachers are entitled to freedom in the classroom in presenting material related to the content of the course, but shall refrain from insisting that students or others accept any controversial point of view as authoritative.

Cal State San Marcos members have the right to speak and write as citizens in any forum, free from institutional censorship or discipline. However, they should apply the best standards of their profession and make every effort to indicate that they are speaking as individuals and not as representatives of the University. As members of the academic community, they should also remember that freedom of expression and thought equally carry with them certain duties and obligations. Academic freedom does not extend, for example, to any kind of abuse or infringement of the rights of others. Academic freedom focuses on the obligation to ask difficult and meaningful questions and to pursue the truths of those inquiries wherever the pursuit of truth leads. Academic freedom must not be trivialized nor equated with other freedoms of expression important and constitutionally guaranteed.
GRADUATION REQUIREMENTS

Cal State San Marcos will make every effort to preserve the following graduation requirements for students subject to this catalog.

Unit Requirement

The number of semester units necessary for a bachelor's degree is listed below. At least forty (40) units shall be in upper-division credit and no more than seventy (70) units may be transferred from a community college. Six (6) units of physical activity coursework and four (4) units of intercollegiate sports activity will be allowed towards a degree at Cal State San Marcos.

Bachelor of Arts Degree 120-124

Bachelor of Science Degree 120-132

Major or Minor Requirements

While individual programs have unique requirements, all majors must include twenty-four (24) units exclusive of units used to meet the General Education requirement. At least twelve (12) units in the major shall be upper-division courses; the maximum number of units shall be determined by the discipline. Please refer to the curricula section in this catalog for specific major or minor requirements.

Double Major Requirements

An undergraduate student may desire to complete the requirements for a second major before receiving a baccalaureate degree. The student shall declare the additional major with the appropriate discipline or program no later than the beginning of the student's final year of study and shall seek an advisor for the second major. When applying for graduation, the student must designate which is to be the primary degree major for purposes of graduation.

Students seeking double majors shall meet all degree requirements for each major. When approved by both disciplines, units may be double-counted above twenty-seven (27) mutually exclusive units (15 upper-division) in the bachelor of arts programs and thirty-six (36) mutually exclusive units (18 upper-division) in the bachelor of science programs.

Second Bachelor's Degree Requirements

In order to receive a second bachelor's degree, students who hold a bachelor's degree from Cal State San Marcos or another accredited institution of higher education must:

1. Meet in an advising session with the advisor of the major in which the student seeks a second degree. During the advising session, the advisor and the student will develop an academic plan that considers any limitations and any overlap in units in both the first and second degrees.

2. Complete the major requirements for the second degree. Units from the first degree may be counted, but a minimum of twenty-four (24) upper-division residence units in the major subsequent to earning the first bachelor's degree is required.

3. Complete a minimum of thirty (30) units in residence at Cal State San Marcos beyond the first bachelor's degree. Of the thirty (30) units, twenty-four (24) units must be upper-division in the major.

5. Complete the English Placement Test (EPT), Graduation Writing Assessment Requirement (SWAR), and the Entrance Level Mathematics (ELM) if not already successfully completed at Cal State San Marcos or other CSU campuses as part of the first bachelor's degree. If completed elsewhere, written verification is required.

6. Complete all other Cal State San Marcos graduation requirements in effect at the time of catalog selection.

Second bachelor's degree candidates are required to achieve a 2.0 grade point average each semester to maintain good academic standing.

Second bachelor's degree candidates who received their baccalaureate from Cal State San Marcos would have already met General Education requirements. Those with bachelor's degrees from other institutions must comply with all Cal State San Marcos upper-division General Education requirements.

Residence Requirements

A minimum of thirty (30) units must be completed in residence at Cal State San Marcos, of which twenty-four (24) units must be upper-division and twelve (12) of these must be in the major. Extension credit, including open university, credit by examination, and transfer credit, do not fulfill the residency requirement.

Grade Point Average Requirements

The following three grade point averages, each 2.0 (C average) or higher, are required for graduation:

A. A cumulative grade point average, which includes both transferred and Cal State San Marcos coursework;

B. A Cal State San Marcos grade point average;

C. A grade point average in the major, at Cal State San Marcos and in coursework accepted as transfer credit for the major from other institutions.

U.S. History, Constitution, and American Ideals Requirement (GV)

California law (Section 40404 of Title 5, Education, of the California Code of Regulations) establishes as a graduation requirement that students demonstrate competence in the fields of American history and government, the Constitution of the United States, and the processes of state and local government as established in California. This requirement is embedded in the General Education Area, Area D requirement (See page 85).
Graduation Writing Assessment and All-University Writing Requirements

All CSU students must demonstrate competency in writing skills as a requirement for graduation. At Cal State San Marcos, students complete the graduation writing assessment through the All-University Writing Requirement. This requirement mandates that every course at the University must have a writing component of at least 2,500 words (approximately 10 pages). The All-University Writing Requirement can be achieved in a variety of ways, depending on the course.

Language Other Than English Requirement

Before graduating, Cal State San Marcos students must demonstrate proficiency in a language other than English in any one of the following ways:

- having completed the equivalent of an intermediate-level course in a language other than English at the college level, with a C grade or better;
- successfully challenging the equivalent of an intermediate-level courses in a language other than English at the college level;
- having successfully received a score of 3 or better on the Advanced Placement Foreign Language Examination.
- having been required to take the TOEFL as a condition for admission into the University;
- demonstrating Stage 3 proficiency level according to the latest American Council on the Teaching of Foreign Languages (ACTFL) guidelines.

Certain courses used to meet this requirement may be used to partially satisfy three (3) units of the lower-division General Education requirement in the Arts and Humanities area.

CSUSM accepts American Sign Language (ASL) in fulfillment of this requirement, but does not accept computer languages.

Students are encouraged to contact the Language Proficiency Assessor at (760) 750-4197 regarding any questions about the requirement or to arrange for proficiency testing. A fee is required for proficiency testing. Please see page 41 for fee information.

Computer Competency Requirement (CCR)

An updated Computer Competency Requirement takes effect in the Fall 2002 semester. Students who have already satisfied the previous requirement are exempt from the new CCR, which applies to all other baccalaureate students, irrespective of major. The purpose of this requirement is to ensure that students become competent in the basics of computer use early in their studies. The "basics" comprise the following areas:

- essential computing concepts and skills,
- browsing the internet and e-mail,
- basic word processing skills,
- basic spreadsheet skills, and
- virus detection and computer ethics.

The Computer Competency Requirement must be fulfilled in the first or second semester of attendance as a matriculated student at Cal State San Marcos. After the second semester, registering for any further classes at Cal State San Marcos will be restricted until the Computer Competency Requirement is fulfilled.

Students are strongly encouraged to attempt to fulfill the Computer Competency Requirement by passing the CCR exam. There is no cost for taking the exam, and study materials are available for purchase at the bookstore. The CCR exam tests students' competencies in the five areas listed above. Students pass the CCR exam and fulfill the Computer Competency Requirement by achieving a passing score in each area. Students may take the CCR exam multiple times until all of the modules are passed. Students only need to retake the failed modules; once a module is passed, a student need not retake it. The CCR exam is offered over many weekends (Friday – Sunday) throughout the year. Seating is offered on a first-come, first-served basis with multiple testing times on exam days. The exam takes approximately two hours to complete. Exam schedules and meeting places will be posted in Academic Hall 202 and on the CCR web site www.csusm.edu/computer_labs/ccr.htm.

Transfer students may also satisfy the CCR by earning a C or better in an approved course taken at another institution prior to matriculation at Cal State San Marcos. A list of approved courses at other institutions can be found on the CCR web site www.csusm.edu/computer_labs/ccr.htm. In particular, the following courses at San Diego County colleges meet the requirement:

Mesa, San Diego City, Miramar Community College: G118 181
Palomar College: CIS 105, 120
MiraCosta Community College: CIS 100

An off-campus course taken more than two years before the student's first semester of attendance at Cal State San Marcos cannot be used to satisfy the CCR.

If a student doesn't pass the exam (either in part or in its entirety) and wants instruction on the modules, he/she may sign up for CS 100. Students who are certain that they cannot pass the CCR exam may register for CS 100 before attempting the CCR exam. This 1 unit, CR/NC course will provide instruction for each of the modules on the CCR exam. Students pass the course by passing the CCR exam.

Any questions regarding the CCR should be directed to the Computer Competency Requirement Coordinator at (760) 750-4788.

General Education Requirement

The General Education requirement is composed of fifty-one (51) units distributed in five areas of study. The required disciplinary and interdisciplinary courses reflect the values embodied in the University's Mission Statement. The program provides education and training in the basic skills, information, knowledge, and attitudes that citizens require to make wise, informed, just, critical and moral decisions throughout their lives.
The General Education Program emphasizes:

- Effective skills in written and oral communication
- Practice in critical thinking
- Close contact with faculty
- Information literacy
- Use of technology
- Active learning

The program is supported by comprehensive advising services and learning assistance services.

The nine (9) required units of upper-division General Education provide an opportunity for students to learn about areas of study outside their academic major. Upper-division General Education courses assume satisfaction of lower-division General Education Requirements and develop upper-division skills. Designed for non-majors, these courses make explicit the basic assumptions, principles and methods of the disciplinary or interdisciplinary area of study. These courses help students understand how disciplines, ideas, issues and knowledge are often interrelated, intersecting and interconnected. They also provide students with a classroom environment that fosters independent, active, engaged learning and a genuine curiosity about the subject matter. The nine units of upper-division General Education must be completed at Cal State San Marcos and may not be applied toward major requirements (except for Liberal Studies majors, who may include these units in their major program).

Area A: Basic Skills
Nine (9) units in basic skills distributed as follows.

A1 Oral Communication.

Students will gain an understanding of the psychological bases and the social significance of communication, with special emphasis on the roles of public communication in a free society. They will develop proficiency in composing and delivering extemporaneous public presentations on socially significant and intellectually challenging topics, and in critical and analytical listening. Students will understand and appreciate a range of public speaking styles and forms of eloquence representative of diverse cultural gender, and ethnic groups. Each student will develop a sense of the ethical responsibilities of the public speaker, will learn to respect the freedom of expression of all members of the community, and will develop a sense of her or his own voice — which means speaking with confidence in public forums in ways that reflect her or his unique perspective and identity.

- GEO 102 (3 units)

A2 Written Communication.

Each student will develop a writing style that is clear and correct, and will be able to give form and coherence to complex ideas and feelings. Students will gain an understanding of the writing process and the goals, dynamics, and genres of written communication, with special attention to the nature of writing at the university. They will understand and appreciate a range of writing styles and forms of eloquence. They will develop their rhetorical sophistication, their analytical and imaginative faculties, and college-level reading abilities.

- GEW 101 (3 units)

A3 Critical Thinking.

Students will learn logic and reasoning, understand sound argument, and appreciate the value of applying these skills. They will know how language is related to logic, how to analyze the validity of a statement or argument, and how valid arguments can be constructed. Students will develop the critical habits of being open-minded and impartial, suspending judgment or taking a stance when warranted, and questioning their own views. They will recognize that real world problems are complex and not solved with one simple answer. They will be able to transfer their critical thinking skills to new situations in other courses and in their everyday lives.

- Three (3) units. Select among:
  MATH 110
  PHIL 110
  PSYC 110

Area B: Mathematics and Natural Sciences

A minimum of twelve (12) units in mathematics and science, distributed as follows.

B1 Physical Science.

This requirement, together with the B2 requirement below, provides students with a coherent and broad-based coverage of the fundamental principles governing the natural world. Students will use experimentation, logical reasoning and mathematics to extend these principles to new situations and applications. They will learn the ways in which science influences and is influenced by societies in both the past and the present, and they will become empowered to communicate effectively to others about scientific principles and their application to real-world problems. Students must clear the ELM requirement prior to enrollment in these classes.

- One course (3-5 units). Select from among:
  CHEM 150*
  GES 100
  GES 101
  PHYS 201*
B2 Life Science.

This requirement, together with the B1 requirement above, provides students with a coherent and broad-based coverage of the fundamental principles governing the natural world. Students will use experimentation, logical reasoning and mathematics to extend these principles to new situations and applications. They will learn the ways in which science influences and is influenced by societies in both the past and the present, and they will become empowered to communicate effectively to others about scientific principles and their application to real-world problems.

- One course (3-4 units). Select from among:
  
  BIOL 211*
  GES 102

B4 Mathematics/Quantitative Reasoning.

Students will learn a variety of methods, such as the use of abstract symbols, numeric techniques, logical reasoning, and geometry. They will learn to use mathematical language and formal reasoning in a variety of diverse disciplines, using a broad range of examples.

Students will gain historical perspective on the role which the mathematical approach has played in the development of human knowledge and of our understanding of the world. Students must clear the ELM requirement prior to enrollment in these classes.

- One course (3-5 units). Select from among:
  
  CS 111**
  GEM 100
  MATH 115, 125, 132**, 160**, 162**, 212, 260**

BB Upper-Division Science and/or Mathematics.

Students will use reasoning skills characteristic of common scientific and mathematical practice to do one or more of the following: to solve problems, to interpret observations, to make predictions, to design experiments for the testing of hypotheses, or to prove theorems.

Through a balanced picture of past successes and current uncertainties in science or mathematics, they will come to understand the cumulative, historical nature of the development of science and mathematics. The specific scientific or mathematical content of these courses can be useful to students, not only as "examples" of scientific or mathematical methods, but as knowledge which can enhance their lives outside the classroom or their studies in other subjects.

- One course (3 units). Select from among:
  
  ASTR 342
  BIOL 305, 311, 316, 321, 323, 325, 327, 328, 336, 338, 339, 348, 362, 375
  CHEM 311, 312, 313, 314, 351
  CS 301
  ID 351
  MATH 303, 304, 306, 308, 330
  PSYC 361

  and other courses identified in the Class Schedule.

To count toward satisfaction of the BB requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program nor in the student's major.

Area C: Arts and Humanities

Twelve (12) units in the arts and humanities, distributed as follows.

C1/C2 Arts and Humanities Core

Students will be expected both to analyze and to create. Within these courses, they will develop habits of analytical rigor, and they will explore their own creativity in an active fashion. Students will appreciate the interrelationship of the intellect and the emotions, of mind and heart, and will explore the aesthetic, metaphysical and ethical linkages, as well as differences, among individuals and among cultures. By perceiving, understanding and valuing the ideas, works of arts, philosophies and approaches to spirituality that represent the broad spectrum of men and women across the ages and in diverse cultures, students will explore the meaning of community from a personal and a global perspective, grow towards an understanding of global justice, develop the foundation for making wise personal choices and for transforming one's world, and nurture personal freedom, expression and responsibility. They will integrate their knowledge and make connections across disciplines.

- Two courses (6 units). Take both:
  GEH 101 and 102

* Biology and chemistry majors must take BIOL 211; computer science and chemistry majors must take PHYS 201.

** Biological sciences, business administration, chemistry, computer science, mathematics, and students with appropriate background in mathematics are encouraged to select from these courses. Students should consult with their advisor to determine which courses are appropriate for their degree program.
C Third Arts and/or Humanities Course.

Through this requirement and the C1/C2 requirement (see above), students will develop a sense of the integrity of emotional and intellectual response. They will gain a better understanding of the interrelationship between the creative arts, the humanities, and the self.

- One course (3 units). Select any course from the following disciplines (with the exceptions noted below):
  - The Arts (DNCE, MUSC, TA, VPA, VSAR)
  - History (HIST)
  - Humanities (HUM)
  - The Languages (FLAN, FREN, GRMN, JAPN, SPAN)
  - Literature (LTWR)
  - Philosophy (PHIL)

  and any approved upper-division arts and/or humanities (CC) course.

[Exceptions: Independent study courses, internship courses, approved American history D6 courses, approved upper-division science and/or mathematics (BB) courses, and approved upper-division social sciences (DD) courses.]

Courses used to satisfy this category, if taken at the upper-division level, may not be double-counted in any other category of the GE program, but may be counted in the student's major.

CC Upper-Division Arts and/or Humanities

Students will examine aesthetic, metaphysical, or ethical manifestations of the human intellect and imagination in diverse historical and cultural contexts. They will cultivate the cognitive and affective aspects of their minds through critical analysis or creative activity. Through a balanced picture of past and present approaches to spirituality, the arts, philosophy, or intellectual thought, these courses will enhance study in other areas or the student's life outside of the classroom.

- One course (3 units). Select from among:
  - ANTH 325
  - DNCE 321, 323
  - FMST 300
  - HIST 308, 318, 323, 341, 343, 344, 348, 356, 364, 370, 388
  - HUM 300, 301
  - LTWR 320, 336, 337, 441
  - MUSC 320, 321, 324, 421, 422, 423, 424, 425, 426, 427
  - PHIL 310, 311, 312, 314, 315, 318, 330, 335, 340, 345, 350, 355
  - SPAN 421
  - TA 300, 320, 323, 324, 325, 326, 327, 410, 420, 421
  - VPA 311, 320
  - VSAR 320, 321, 322, 323, 324, 325, 326, 404, 405, 420, 422, 423
  - WMST 301, 323, 450

  and other courses identified in the Class Schedule.

To count toward satisfaction of the CC requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program nor in the student's major.

Area D: Social Sciences

Fifteen (15) units of social sciences distributed as follows:

- One course (3 units). Select from among:
  - ANTH 200
  - GESS 101
  - GESS 102
  - PSYC 140
  - SOC 205
  - WMST 101

D6 American History.

Through a comprehensive study of American history and the development of American Institutions and ideals, students will acquire knowledge and skills that will help them comprehend the workings of American democracy and the society in which they live.

- One course (3 units). Select from among:
  - HIST 130
  - HIST 131

D8 United States and California Government.

Students will engage in comprehensive study of American government including the historical development of American institutions and ideals, the Constitution of the United States and the operation of representative democratic government under that Constitution, and the processes of state and local government. The knowledge and skills they acquire will enable them to contribute to society as responsible and constructive citizens.

- PSCI 100* (3 units)

D7 Interdisciplinary Social Sciences.

Students will be able to identify the methods of inquiry for more than one social science discipline, summarize how the social science disciplines examined in these courses are inextricably interwoven, and explain the usefulness of an interdisciplinary approach for studying social phenomena and issues. They will be able to describe historical and contemporary perspectives of social issues and problems, and acknowledge both western and non-western contributions to current social issues and problems. Students will be able to demonstrate how and why race, class and gender are among the most important categories of social scientific analysis.

- One course (3 units). Select from among:
  - ANTH 200
  - GESS 101
  - GESS 102
  - PSYC 140
  - SOC 205
  - WMST 101
Students will be able to identify the prevailing principles and methods of social science in at least one discipline, and explain the usefulness of a disciplinary or interdisciplinary perspective and field of knowledge for social issues and problems. They will be able to describe historical and contemporary perspectives of social issues and problems, and acknowledge both western and non-western contributions to current social issues and problems. Students will be able to demonstrate how and why race, class and gender are among the most important categories of social scientific analysis.

- One course (3 units). Select from among:
  ANTH 200
  ECON 202
  GESS 101
  GESS 102
  HIST 130
  HIST 131
  PSYC 100
  PSYC 140
  SOC 101
  SOC 205
  WMST 101

Courses used to satisfy this requirement may not be double-counted in any other category of the GE program.

**DD Upper-Division Social Sciences**

Students will be able to analyze problems using social scientific reasoning, use acquired or refined skills to make informed decisions about the future of their community(ies), and/or understand the historical or social context of major political, intellectual, economic, scientific, technological, or cultural developments. They will explore how gender, ethnicity, class, regional identities, and global identities affect society and culture. The material in these courses makes explicit connections to other fields of inquiry and will enhance the lives of students outside the classroom and in their studies in other areas.

- One course (3 units). Select from among:
  ANTH 301, 310, 315, 370
  COMM 330, 333, 360, 435
  CS 303
  ECON 305, 306, 308, 311, 341, 442, 445
  FIN 300
  GEOG 301, 320, 325, 340, 450, 450S
  HIST 330, 335, 346, 352, 362, 371, 375, 389
  LBST 301, 307, 361, 362, 375
  LING 300, 303, 304, 371, 400
  SOC 300, 303, 309, 310, 311, 313, 315, 317, 323
  WMST 445

and other courses identified in the Class Schedule.

To count toward satisfaction of the DD requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program nor in the student's major.

**Area E: Lifelong Learning and Information Literacy**

Students will be equipped for lifelong understanding and development of themselves as integrated physiological and psychological entities, in courses taught within the context of the modern library.

- One course (3 units). Select from among:
  GEL 101, 200
  PSYC 104, 356
  SOC 203, 204, 303, 307, 309, 315, 317
  WMST 201

www.csusm.edu/graduate_studies

General Information
Graduate education is advanced study that goes substantially beyond the baccalaureate level in terms of specific content and academic rigor. Graduate study involves both greater independence and closer intellectual interaction with faculty mentors as the student develops focused knowledge and expertise in a subject area. The graduate student is expected to master advanced coursework as well as engage in independent study and research, scholarship, or creative activity. The faculty who teach in graduate programs at Cal State San Marcos possess the appropriate terminal degree and experience needed to provide the advanced mentoring involved in graduate research, scholarship, and creative activity. In addition to the core graduate curriculum in each program, students are required to complete an appropriate culminating experience (thesis, project, or comprehensive examination).

A master's degree from Cal State San Marcos prepares students for academic careers in higher education, including continued study at the doctoral level; or for advanced positions in business, industry, and the public sector.

Graduate Programs at Cal State San Marcos

**Biological Sciences, M.S.**
- Business Administration, M.B.A.
- Business Management Option

**Computer Science, M.S.**
- Billiteracy, Language and Culture Option
- Education Administration Option
- Learning and Instruction Option
- Literacy Education Option
- Science, Mathematics and Educational Technology for Diverse Populations Option
- Special Education Option

**Literature and Writing Studies, M.A.**

**Mathematics, M.S.**

**Psychology, M.A.**

**Sociological Practice, M.A.**

**Spanish, M.A.**

Admission Requirements for Graduate and Postbaccalaureate Students

**Admission to the University**

**General Requirements** — The minimum requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with University regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. In order to be admitted to Cal State San Marcos as either a Postbaccalaureate student or as a Graduate student, students must meet the following requirements:

1. have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
2. be in good academic standing at the last college or university attended;
3. have attained a grade point average of at least 2.5 (A = 4.0) in the last 60 semester (90 quarter) units attempted; and
4. satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as determined by each graduate program.

**TOEFL Graduate and Postbaccalaureate Requirement**

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English, must demonstrate competence in English. Those who do not possess a bachelor's degree from a post-secondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above.
Admission to the Department or Program

The applications of students meeting University requirements for admission and desiring admission to a master's program must also be reviewed in the appropriate department, to determine whether the student meets requirements for admission to its particular program. Some programs may require a separate application in addition to the university application. Students who meet both departmental/program and University requirements for a master's program will be admitted as either Graduate Conditionally Classified or Graduate Classified. Students seeking a teaching credential who meet both college and University requirements will be admitted as Classified Postbaccalaureate.

Graduate Classified — Students who meet all admission requirements to enroll in a graduate degree program may be accepted as Graduate Classified. Classified graduate students will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, as the campus may prescribe.

Graduate Conditionally Classified — Students who do not meet all requirements to enroll in a graduate degree program may, nevertheless, be accepted as Conditionally Classified. This classification will be granted if, in the opinion of appropriate campus authority, the student can remedy any deficiencies by additional preparation.

Postbaccalaureate Classified — To enroll in a credential program or certificate program, students must satisfy the additional professional, personal, scholastic, and other standards, including qualifying examinations, as the campus may prescribe.

Admission as an Unclassified Student

Postbaccalaureate Unclassified — To enroll in graduate courses for professional or personal growth, students must be admitted as a postbaccalaureate unclassified student. By meeting the general requirements, students are eligible for admission as a post-baccalaureate unclassified student. Some departments may restrict enrollment of unclassified students because of heavy enrollment pressure. Admission in this status does not constitute admission to or assurance of consideration for admission to, any graduate degree or credential program.

International Students

All applicants who wish to enter the United States on a student visa or who are in the U.S. on a nonimmigrant, student visa must file a completed "International Student Application" accompanied by a financial affidavit with the Office of Admissions. An electronic version of this form is available on the Web at www.csusm.edu/uga/requestsapp.htm. In addition, a department application form must be submitted directly to the graduate program. Official transcripts (with certified English translations) must be submitted both to the department and the Office of Admissions. For more information regarding International (Foreign) Student Admission Requirements, see page 30.

Special Regulations and Requirements for Graduate Students

Repeat of Graduate Courses and GPA Adjustment Policy

When students repeat a course for the sake of improving upon an earlier, unsatisfactory performance, they may, under certain circumstances, request to have the earlier grade ignored in the computation of their grade point average (GPA). The following policies, applying only to coursework completed at Cal State San Marcos, outline the circumstances under which undergraduate and graduate students may request adjustment of the GPA.

Graduate Student GPA Adjustment Policy

1. If a graduate student has received a grade of B- (2.7) or less (or NC) in a non-thesis course, then the course may be repeated once for purposes of satisfying requirements and/or having the GPA adjusted. Once the student has repeated the course in a subsequent term and earned a better grade, then a Graduate Student GPA Adjustment Request Form may be submitted to the Enrollment Services Information Center. All requests should be submitted in consultation with the graduate program advisor. Any request confirmed as complying with this policy will be granted.

2. When a request is granted, the prior grade earned in the course is ignored for the purpose of calculating the GPA. However, all grades for a given course will be maintained as a part of the student record and will appear on the student's transcripts.
3. A maximum of two (2) different courses may be repeated, and a maximum of two (2) requests may be filed within an approved graduate plan of study at Cal State San Marcos. Only one request may be filed for any single course.

4. Since CR/NC grades do not enter into the GPA calculation, it is not necessary to submit this form when repeating a course in which a grade of NC was earned, even when the course was repeated to satisfy degree requirements. If a course previously taken for a grade is repeated CR/NC, the original grade will continue to be calculated in the GPA.

5. Unless the student submits a Graduate Student GPA Adjustment Request Form to the Enrollment Services Information Center, both grades earned in any repeated course will be used to calculate the student’s GPA.

6. A request may not be filed until the student has completed the repeat, and may not be filed if the student received a grade of CR, NC, F, I RD, SP or U when the course was repeated.

7. The program director (or designee) of the graduate program offering the degree is authorized to approve substitute graduate-level courses that may be taken in lieu of a graduate-level course that the student wishes to repeat, when the original course is not scheduled to be offered again within the term of the student’s expected time to degree. The substitute course must be taken after completion of the original course.

Continuous Enrollment Requirement and Time-Limit To Degree
Conditionally Classified or Classified graduate students must be continuously enrolled unless an authorized Request for Graduate Student Leave of Absence has been filed with the Enrollment Services Information Center. No more than 12 months total can be excused through authorized leaves of absence. Students who do not maintain continuous enrollment are dropped from the graduate program and must reapply. Requirements for the Master’s degree are to be finished within five years after the beginning of course work as a Conditionally Classified or Classified graduate student at Cal State San Marcos. Authorized leaves of absence do not extend the time limit for completion of the degree.

Educational Leave of Absence
A graduate (conditionally classified or classified) or postbaccalaureate (classified only) student who has exhausted their “out-one term” (see page 71) in the prior semester and who needs to remain unenrolled for an additional semester may, under some circumstances and subject to certain restrictions, apply for an educational leave of absence. An authorized educational leave of absence preserves the election of curriculum rights regarding catalog requirements. Students should contact the Office of Registration and Records for eligibility conditions and limitations. Request for Graduate/Postbaccalaureate Educational Leave of Absence Forms may be obtained from the Enrollment Services Information Center during regular business hours. Leaves of absence may be authorized for conditionally classified or classified graduate students if they are in good academic standing (as defined by the program’s requirements), if they have completed at least six credit hours of CSUSM coursework toward the degree in the program.

Unauthorized leaves and failures to return from an authorized leave of absence will result in the student being dropped from the program.

A student on a leave of absence does not qualify for supervision from faculty nor for the use of university resources such as library, computer labs, parking, or student health services. Students submitting the completed thesis or final project must be regularly enrolled or enrolled for thesis or project extension credit through the Office of Extended Studies; the completed thesis or final project will not be accepted during the term of an authorized leave of absence.

The Culminating Experience
Every Master’s degree program is required to include a culminating experience. The form of this experience differs according to degree programs, but all Master’s students must satisfactorily complete either a thesis, a project or a comprehensive examination.

A finished Master’s thesis is a scholarly work that is the product of extensive research and related preparation. The University will make Master’s theses and the abstracts of Master’s projects publicly available to other students, faculty, and researchers in the University Library. As such, theses (and the abstract pages of projects) must adhere to uniform standards of format and construction to preserve the work and to prepare it for binding. Students should consult University guidelines on Master’s theses and Master’s project abstracts available at www.csusm.edu/graduate_studies/

Graduate Student Course Load
Graduate students who are enrolled in nine (9) units or more in a fall or spring semester are classified as full-time. Graduate students who hold a University assistantship requiring one-third time services or more are considered full-time when enrolled in six (6) units during an academic term.

Use of Undergraduate Courses in Master’s Degree Programs
Master’s students may not count any course at the 300-level or lower toward fulfillment of Master’s degree requirements, nor may courses which bear General Education credit be counted toward Master’s degree requirements.

Only with prior, case-by-case approval of the graduate program offering the degree may Master’s students, on an individual basis, count a 400-level, non-General Education course toward the Master’s degree requirements.

Under no circumstances may a Master’s student apply more than nine (9) units of 400-level coursework toward fulfillment of Master’s degree requirements.
MISSION STATEMENT

The College of Arts and Sciences is a scholarly community committed to providing comprehensive, high quality education for students in a rapidly changing world. We provide a supportive teaching and learning environment where diversity is fundamental to the achievement of excellence. Integral to the college instructional mission is the generation of new knowledge through research and creative activity. We value disciplinary and interdisciplinary instruction that employs new technologies and integrates ideas across intellectual boundaries. The College is committed to mutually beneficial partnerships with local and global communities.

ABOUT THE COLLEGE

The College of Arts and Sciences at Cal State San Marcos is home to the fundamental academic disciplines in the liberal arts and sciences.

Complementing its strong academic discipline offerings, the college also offers students a coordinated General Education Program designed to broaden basic knowledge and skills. In addition to undergraduate coursework, the college offers graduate studies in several disciplines.

The curriculum of the college is crafted to weave its commitment to diversity, interdisciplinary study, international perspectives, technology, and community partnerships into the fabric of all of its academic programs.

The college faculty and staff are dedicated to excellence in teaching, research/creative efforts, and service. Students can expect a supportive learning atmosphere to pursue their studies, primarily in small classes, which provides rich opportunities for interaction, discovery, and cooperative learning.

The college encourages student learning across traditional academic disciplinary boundaries and active exploration of new teaching and learning strategies.

Graduates of the college are well-prepared for a variety of careers, or for graduate study leading to advanced academic and professional degrees. Our courses teach students how to write, to analyze, and to think creatively and critically. The college offers students the opportunity to master new technologies for application to a range of challenges. In addition, students develop language skills and cultural sensitivity designed to prepare them for life in a globally interdependent society.

Academic Major Advising

Advising in the College of Arts and Sciences is provided by faculty who teach in each discipline. Each academic major may vary in how students are assigned to faculty advisors. Students should consult with the Program Director regarding their particular field of study. Liberal Studies students are advised by the Liberal Studies advisors, located in CRA 6202. The Assistant Dean of Student Relations is located in CRA 6206.

Graduation Advising

The College of Arts and Sciences provides a Graduation Advisor (CRA 6216, 6210) to help students understand the requirements and process for graduation. The advisor also works with undeclared major students, students considering a change of academic major, and students with other general questions.

Peer Advising

http://www.csusm.edu/A_SI/Academic_Advising

The College of Arts and Sciences provides trained peer advisors to provide students with information about academic advising and other University services. Peer advisors are located on the sixth floor of Craven Hall outside the advising offices and on the third floor in the Lower-Division Advising Center. Students are invited to utilize this resource.
PRE-PROFESSIONAL PREPARATION

Pre-professional Planning

Careers in Health

Cal State San Marcos offers prerequisite courses and advising for a variety of health careers including medicine, dentistry, chiropractic, pharmacy, veterinary medicine and other health professions. Students planning careers in the health professions should regularly consult with the Health Professions Advisor, CRA 6205, as well as faculty advisors. The Health Professions Advisor also has information for students interested in the mental health professions.

Regardless of their major, all pre-health students will need to complete a range of lower-division courses in biology, chemistry, mathematics, and physics. Pre-health students should consult with the Health Professions Advisor and faculty advisors about choice of major and academic planning. Also, it is highly recommended that pre-health students complete courses in the humanities and behavioral sciences (e.g., sociology, psychology, anthropology). Pre-health students are also encouraged to take Service-Learning courses and engage in a variety of volunteer/community service activities. Professional schools do vary with respect to the specific courses they expect applicants to have completed. It is the responsibility of the student to carefully check in advance the requirements and prerequisites of all professional schools they are considering and to take this into account when selecting courses.

The following is a menu of lower-division Cal State San Marcos science and mathematics courses recommended for pre-chiropractic, pre-dental, pre-medical, pre-optometry, pre-osteopathic, pre-pharmacy and pre-veterinary students. It may not be necessary to take all of the recommended courses listed below. Other courses not listed may also be required. Which courses you do complete will depend upon the health profession you have chosen and the prerequisites of the specific professional schools to which you will be submitting an application. Students planning careers in other health professions may also use this list as a guide for selecting science and mathematics courses.

Recommended Science and Mathematics Courses for Pre-health Students

- Biology (BIOL) 210, 211
- Chemistry (CHEM) 150, 201, 201L, 202, 202L, 250
- Mathematics* (MATH) 160
- Physics (PHYS) 101, 102 or PHYS 205, 206

*Students lacking the prerequisite for MATH 160 should consult an academic advisor as soon as possible to determine which prerequisite math courses they need to complete before enrolling in MATH 160. All students are required to complete the Entry Level Mathematics (ELM) requirement within one year of beginning coursework at Cal State San Marcos.

Pre-law Advising

Cal State San Marcos offers undergraduate courses related to law. Students interested in applying to law school should note that law schools do not require any particular majors or prerequisites. However, several departments at Cal State San Marcos offer undergraduate courses related to law. Students seeking advice on preparation for law schools should consult with their departmental advisor.

Teacher Preparation

Cal State San Marcos offers several state-approved Subject Matter Preparation Programs. Completion of a Subject Matter Preparation Program is one way to demonstrate the subject matter competency necessary for admission to a Teacher Credential Program. Single Subject Matter Preparation Programs for potential junior high school and high school teachers are available in English, Mathematics, Social Science and Spanish. Students seeking to become elementary or middle school teachers may complete the Multiple Subject Preparation Program with a Liberal Studies major, by completing special tracks in the Human Development major and the Visual and Performing Arts major, or through some other major by combining specific Multiple Subject requirements with major requirements.
MINOR IN ANTHROPOLOGY

Office: Craven Hall, Room 6125

Telephone: (760) 750-4124

Faculty: Bonnie Bade, Ph.D.

Program Offered:

• Minor in Anthropology

The Anthropology Minor at Cal State San Marcos provides students with opportunities to engage in interdisciplinary and integrated studies of human nature, society and culture. Employing the comparative, holistic, and evolutionary frameworks that are the hallmark of the anthropological perspective, the minor aims to provide students with theoretical and methodological perspectives that enable integrated understanding of human cultural achievements such as medicine, religion, mythology, migration, environmental adaptation, and technology. Rather than duplicating anthropology programs offered at other regional institutions that emphasize the four traditional subfields of anthropology—social/cultural anthropology, archeology, biological anthropology, and linguistic anthropology—the Anthropology Minor at Cal State San Marcos is unique in that it draws upon areas of specialization, such as medical anthropology, cultural ecology, Latin-American Studies, women's studies, art, ethnic studies, and border studies, that reflect the strengths of Cal State San Marcos scholars. Emphasis is placed on achieving an understanding of human behavior as influenced by the social, political, economic, and cultural contexts in which it occurs. A fundamental goal of the minor is to provide students with opportunities to engage in active, community-based ethnographic research that stimulates self-reflection and critical analysis of their own world view assumptions and cultural belief systems.

The minor prepares students for careers that require multicultural and culture-sensitive perspectives such as social services, health and medical services, education, and civil services, and provides a balanced foundation in anthropological concepts for students wishing to attend graduate school.

Completion of twenty-one (21) units of credit, eighteen (18) of which must be at the upper-division level. Twelve (12) units must be completed at Cal State San Marcos, three (3) of which must be at the 400 level. Each course counted toward the minor must be completed with a grade of C (2.0) or better.

Preparation

High school graduates or equivalent are encouraged to seek diverse and broad exposure to all natural and behavioral sciences, social sciences, humanities, and interdisciplinary courses.

Transfer Students

Transfer students may transfer a maximum of nine (9) units, three (3) of which may be at the lower-division level.

Programs Offered:
- Bachelor of Science in Biological Sciences, Concentrations in:
  - Molecular Cell Biology and Biotechnology
  - Ecology
  - General Biology
- Minor in Biological Sciences
- Master of Science in Biological Sciences

Biology is the study of living processes from the interaction of species with each other and their environment to the operant molecular mechanisms. The Cal State San Marcos Biological Sciences Department presents a broad program of courses that deal with life on the ecosystem, population, organismal, and molecular levels. One common principle that extends throughout our curriculum is that biological processes should ultimately be biochemically explainable and mathematically describable. Life is a complicated series of chemical reactions and interactions, and we seek to understand the relationship of organisms to each other, to their environment, and within themselves in biochemical terms. Biological Sciences majors may choose between: 1) a general concentration, 2) a molecular cell biology and biotechnology concentration, or 3) an ecology concentration. The general concentration provides wide exposure to the range of biological sciences while the cell/molecular and ecology concentrations offer majors the opportunity to focus their studies. With appropriate choice of biological sciences electives and General Education electives, graduates can meet the requirements of admission to graduate, medical, dental, optometry, veterinary, and other professional schools.

Modern biological science has progressed from the purely analytical to now include manipulative capability. Recombinant DNA techniques enable the investigator to generate specified changes in components of organisms for the purpose of better understanding some process, and in some cases to introduce new traits that will be of practical usefulness to society. The Cal State San Marcos program in biological sciences exposes students to cloning techniques, illustrates the techniques involved as part of the student's general education, and trains students for research positions.

Society is the beneficiary of modern technology and is also at its mercy. Products of the industrial process and of our use of natural resources can perturb the dynamic balance in the environment, and by leading to the extinction of species, reduce the diversity of living forms. The Cal State San Marcos Biological Sciences Department addresses fundamental problems in the ecological and environmental sciences.

The Biological Sciences Department has well-equipped, modern laboratories. The academic atmosphere is enriched by a close faculty/student interaction (reminiscent of the better, small liberal arts colleges), and by numerous field trips to research facilities and sites in the area. Students receive training that will enable them to gain rewarding employment in a number of areas, including teaching, research, the health sciences, biotechnology, ecology, and environmental science.

Preparation
First-time freshman applicants must complete, with a grade of C or better, a comprehensive pattern of college preparatory study totaling 15 units. For more details, see the section on Admission Policies.

Transfer students entering the program at the junior and senior levels will be expected to have completed the equivalent of lower-division requirements elsewhere during their first two years, including four semesters of chemistry, two semesters of physics, and two semesters of college-level calculus or one semester of calculus and one semester of statistics.

Pre-health professions students (pre-chiropractic, dental, medical, optometry, osteopathic, pharmacy, and veterinary) are recommended to take BIOL 210, 211, 351, 352, 353, two semesters of physics, and several chemistry courses (see the description for the Chemistry Program for additional information).

Special Conditions for the Bachelor of Science in Biological Sciences and the Minor in Biological Sciences

All courses taken for the major and the minor, including supporting courses, must be completed with a grade of C (2.0) or better. No more than a total of six (6) units of any combination of BIOL 489, BIOL 495 (3 units only), BIOL 496, BIOL 498, and BIOL 499 may be applied toward the major. A minimum of eighteen (18) units in biology must be completed at Cal State San Marcos.

MASTER OF SCIENCE
IN BIOLOGICAL SCIENCES

Graduate Advisor:
Brian J. Norris, Ph.D.

The graduate program in biological sciences leads to a research-based Master of Science degree. The program provides the opportunity for participants to receive advanced training in biological sciences and to pursue independent research investigations in specialized areas of interest. Laboratory and/or field research is an integral component of the program, which emphasizes a "hands-on" approach with close faculty mentoring. The research experience also enables students to hone investigative skills relating to experimental design, implementation, data analysis, and interpretation. Another important feature of the program is the Teaching Assistantship requirement, which is designed to give students the opportunity to discuss and implement pedagogical strategies employed in science education.

Graduates with an M.S. in Biological Sciences will be prepared to continue study at the Ph.D. level, to successfully pursue careers in private industry or government affiliated labs, and to teach at the elementary, secondary, or community college level.

The graduate program in biological sciences fosters the integration of many disciplines. The wide range of faculty expertise and research interests enables the department to offer a curriculum that spans fields of molecular genetics and development, aquatic biology, evolution, ecology, physiology, biotechnology, microbiology, immunology, and molecular cell biology. Students may develop a program of courses and research tailored to their individual needs within the areas of faculty expertise. In addition, students may choose a research supervisor outside of the Biological Sciences Program, allowing them to pursue interdisciplinary studies, special field research, or industrial projects. Seminar courses focus on the primary literature and are presented as a forum for open interchange and dissemination of scientific knowledge.

Available programs in this degree cover a wide spectrum of biology and include both laboratory and field study. The department has sophisticated research laboratories equipped with state-of-the-art instrumentation. Facilities include a vivarium, greenhouse, tissue culture laboratory, scanning electron microscope, environmental growth chambers, a 21 foot boat, numerous aquaria, and equipment for radioisotope and modern molecular biology work. Excellent computer facilities are also available. The close proximity of the campus to marine, chaparral, and desert environments provides many opportunities for field studies.

This degree requires a thesis based on original scientific research. A list of research areas with the names of faculty specializing in these areas can be obtained from the Program Director.

Admission Requirements and Application

The Program in Biological Sciences will consider applicants having the following qualifications:

1. The applicant must meet the general requirements for admission to graduate studies at Cal State San Marcos. These are described in this catalog under Graduate Admission Requirements.
2. The applicant must have earned a bachelor's degree in the biological or related sciences, with minimum coursework and grade point requirements equivalent to the Minor in Biological Sciences at Cal State San Marcos.
3. The applicant must have maintained an undergraduate grade point average in all completed science and math coursework of at least 2.75, or a grade point average of at least 3.0 in the last 35 semester units of science and math.
4. The Graduate Record Examination (GRE) Subject Test in Biology, or the Subject Test in Biochemistry, Cell, and Molecular Biology, if taken. If applicable, scores for the TOEFL/TWE must be included.
5. Two letters of recommendation from persons familiar with the applicant's academic performance and potential for independent research.

All applicants, regardless of citizenship, who do not possess a bachelor's degree from a post-secondary institution where English is the principal language must take the combined Test of English as a Foreign Language (TOEFL) and the Test of Written English (TWE) examination. A minimum score of 550 on the TOEFL and a minimum of 4.5 on the TWE are required.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Biological Sciences Department (see address below)

1. A completed Biological Sciences Application Form, available from the Biological Sciences Program office. In addition to other information, this form requires a statement of educational and career goals.
2. Official transcripts of all college level academic work, including that done at Cal State San Marcos.
3. Official score reports of the GRE Subject Test in Biology or the GRE Subject Test in Biochemistry, Cell, and Molecular Biology, if taken. If applicable, scores for the TOEFL/TWE must be included.
4. Two letters of recommendation from persons familiar with the applicant's academic performance and potential for independent research.

Application Materials sent directly to the Biological Sciences Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.
Application Deadlines:

- March 15th for admission in Fall semester

Review and Acceptance

The Graduate Studies Committee will review all files received by the deadline, and either accept the applicant as a classified or conditionally classified graduate student or deny admission. All accepted students who expect to enroll in the following fall semester must schedule an interview during the week before the beginning of the semester with the faculty member identified in the acceptance letter. This interview will focus on counseling and orienting the applicant with special attention to any academic deficiencies.

Admission as a Classified Graduate Student

The Graduate Studies Committee will admit as a classified graduate student any applicant who has:

1. met all Cal State San Marcos and Biological Sciences Program prerequisites;
2. submitted GRE Subject Test scores at or above the 50th percentile;
3. submitted all required documents; and
4. obtained agreement of a Biological Sciences faculty member to serve as the chair of the student's thesis committee.

Graduate students admitted to classified status should meet with their thesis committee chairs to set up a program of study (see next page).

Admission as a Conditionally Classified Graduate Student

Applicants who fail to meet the criteria above for classified admission to the Program in Biological Sciences and who fall into one of the following four categories may be considered by the Graduate Studies Committee for admission as conditionally classified graduate students. These would include:

1. Applicants with course and/or unit deficiencies. The Graduate Studies Committee will determine the deficiencies of each applicant relative to the courses required for the Cal State San Marcos minor in Biological Sciences. The Committee will indicate which course(s) the applicant must take to make up those deficiencies. These courses are taken in addition to the minimum 30 units required for the Master of Science degree and may be included in the student's program of study. The applicant must make up all such deficiencies before attaining classified status.
2. Applicants with GPA deficiencies. An applicant with an undergraduate GPA in science and mathematics between 2.5 and 2.75 and a GPA in the last 35 semester units of science and mathematics courses between 2.75 and 3.0 may be admitted as a Conditionally Classified Graduate Student. The applicant must first obtain sponsorship from a faculty member in the Program in Biological Sciences who must indicate, in writing, to the Graduate Studies Committee a willingness to serve as the chair of the applicant's thesis committee and the reasons why the Graduate Studies Committee should admit the applicant. In addition, an applicant receiving Conditional classification must complete, with a grade of B (3.0), or better, three approved courses totaling at least nine units acceptable to the Graduate Studies Committee. These approved courses may appear on the student's graduate program of study. If the conditionally classified student receives less than a B (3.0) in any of the three courses, he or she will be disqualified from the Master of Science program.
3. Applicants who meet all prerequisites but who do not yet have chairs for their thesis committee. Each student must obtain a thesis committee chair and set up a graduate program of study by the end of the second semester in residence following admission to the Master of Science program. Students without a thesis committee chair and program of study cannot be advanced to candidacy and will be dropped from the program.
4. Applicants who have not taken the GRE subject test in Biology or Biochemistry, Cell and Molecular Biology, or who have failed to score at or above the 50th percentile. Applicants may be admitted as conditionally classified students prior to establishing minimally acceptable GRE subject test scores. Minimally acceptable scores would normally be at or above the 50th percentile. Students will be reclassified when evidence of acceptable GRE subject test scores is presented to the Graduate Studies Committee. Students failing to present such evidence by the end of their second semester in residence will be dropped from the program. Only in unusual situations will students with GRE Subject Test scores below the 50th percentile be allowed to continue.

Degree Requirements

The Master of Science degree requires a minimum of 30 semester units of study at the advanced level (600-698 courses). At least 15 and preferably 21 of these units must be in courses organized for graduate students (courses numbered 600-698). A maximum of six (6) units of Directed Studies (BIOL 697) and six (6) units of Thesis (BIOL 698) may be included in the 30 units required for the degree.

All of the following requirements must be met within five years to earn the degree of Master of Science in Biological Sciences at Cal State San Marcos:

1. Advancement to candidacy. In order to be considered for advancement, graduate students must have obtained approval of their program of study, have developed a thesis proposal, and have presented the proposal to their thesis committee. On approval of their thesis proposal, classified graduate students will be advanced to candidacy for the Master of Science degree.
2. A completed program of study. This program is composed of at least 30 units of graduate-level work including seven required courses and research, all of which must have been approved by the student's thesis committee and must have been completed with a GPA of at least 3.0.
3. Completion of a written thesis based on original field or laboratory research. This thesis must be approved by the student's thesis committee and defended in an oral presentation to the faculty and students of the Biological Sciences Program.

4. Completion of at least one semester as a teaching assistant. Because effective communication is important to success at the Master's level, the Program in Biological Sciences requires that a graduate student serve as a Teaching Assistant. Candidates who can demonstrate that this requirement would pose an undue hardship may petition the Graduate Studies Committee to waive this requirement.

Program of Study

Each graduate student must establish a specific plan (program of study) that will lead to fulfillment of requirements for the Master of Science degree. It must be approved before the student advances to candidacy. This program must contain at least 30 units of courses at the graduate level, of which at least 15 units (and preferably 21 units) are in 600-level courses, and the remaining 9-15 units are in 500-level courses. Additional courses for the area of study may be required. The program of study should be developed in consultation with the chair of the student's thesis committee with a focus on gaining depth of knowledge in a particular subdiscipline of biological science. Required courses are: Research Methods I and II (BIOL 610 and BIOL 611), Internship in Biology Instruction (BIOL 665), two seminars chosen from BIOL 560-566, Directed Studies (BIOL 697), and Thesis (BIOL 698). This plan should include a minimum of five (5) units of Directed Studies (BIOL 697) and at least five (5) units of Thesis research (BIOL 698). The program of study may include additional courses needed to satisfy prerequisites for classified status. The formal program of study must be submitted for approval to the student's thesis committee before the end of the second semester after admission to the program.

A typical full-time student, enrolled in nine (9) units per semester (see Academic Regulations/Student Course Load), is expected to complete his or her program of study after four semesters in residence. Units earned not in residence at Cal State San Marcos may not exceed six (6) and they must be approved by the student's thesis committee. Part-time students must complete their program of study within ten semesters in residence.

Advancement to Candidacy

To be eligible for advancement to candidacy for the Master of Science degree, a graduate student must have attained classified status and have constituted a thesis committee. Each student must obtain the permission of a tenured or tenure-track Biological Sciences faculty member to serve as the chair of his or her thesis committee. The thesis committee chair and student recommend two additional members for the thesis committee. A student's research supervisor need not be a member of the Cal State San Marcos Biological Sciences faculty, but must be a member of the thesis committee. The Graduate Studies Committee must approve the composition of the student's committee. The thesis committee chair will assist the student in establishing a program of study and in developing a thesis research proposal. A formal written thesis proposal will be orally presented to the thesis committee no later than the beginning of the second year of full-time study, or after twelve (12) units of graduate coursework have been completed. The student will be advanced to candidacy after the official program of study has been approved by the thesis committee, the written thesis proposal has been presented, and the thesis committee has approved the proposal.

Continuation

Graduate students must maintain an overall GPA of 3.0 and earn at least a C (2.0) in each course, except those graded credit/no credit (see Academic Regulations/Definition of Terms). Students who are conditionally classified because of GPA deficiencies may not earn less than a B (3.0) in the courses on their approved list. Any student whose overall GPA falls below 3.0 for two semesters, or who receives more than three grades of C (2.0) or lower, will be dropped from the program. A full-time graduate student should be enrolled in at least nine (9) units per semester. Full-time students serving as teaching assistants or graduate assistants should be enrolled in at least six (6) units during the semester of service.

Each student must present a formal thesis proposal no later than the beginning of the second full year of study, or after twelve (12) units of graduate coursework. In addition, except in unusual circumstances, a completed thesis must be submitted and defended not later than eight semesters following advancement to candidacy, and not later than five years after entry into the program. The student must be registered in BIOL 698 or 699 when the completed thesis is granted final approval.

Financial Aid

Several sources of financial aid are available to graduate students. Students are responsible for identifying other sources of aid, and may wish to consult with the Office of Financial Aid and Scholarship.
CHEMISTRY

Steven C. Welch, Ph.D.

Instructional Support Technician:
Sally-Jo Divis

Programs Offered:
- Bachelor of Science in Chemistry
  Options in:
  - Biochemistry
  - Chemistry
  - Science Education
- Minor in Chemistry

Cal State San Marcos offers a program of courses leading to a Bachelor of Science in Chemistry with options in Biochemistry, Chemistry, and Science Education. Chemistry is the study of matter and its changes. This includes everything in the universe from a simple hydrogen atom to very large replicating molecules in life processes. Chemistry is involved with the development of medicines that control and cure diseases; food through specific and safe agricultural chemicals; consumer products such as cleaners, plastics, and clothing; new methods of energy production, transfer and storage; new materials for electronic components; and new methods for protection and cleanup of the environment. Chemistry majors are needed to help solve some of society's most difficult technological problems through research, development, and teaching.

As an integral part of this program, each student is required to do a senior research project, thesis, and thesis defense. Also, students will have the opportunity to take advanced elective courses in analytical, inorganic, organic, physical, or biochemistry. With appropriate choices of chemistry and general education electives, graduates can meet the requirements for admission to graduate, medical, dental, optometry, pharmacy, veterinary, and other professional schools.

The goal of the Chemistry and Biochemistry Department is to provide chemistry majors with the best education within the guidelines of the American Chemical Society. Each student will learn the basics of analytical, inorganic, organic, physical, and biochemistry, including the most recent technology in instrumentation. An atmosphere of small class size, close faculty/student interaction, and new facilities/equipment are some of the advantages of the Chemistry Program at Cal State San Marcos.

Up to five (5) units of chemistry credit can be applied toward a B.S. degree in Chemistry (Chemistry, Biochemistry or Science Education options) at Cal State San Marcos for students who have successfully completed high school chemistry with a laboratory and who have successfully completed the Advanced Placement Test in chemistry. It is recommended that students with a score of 4-5 on the AP Test in chemistry and who have completed high school chemistry with a laboratory consider auditing CHEM 150 during the fall semester in preparation for CHEM 201/201L. It is recommended that students with a score of 3-5 on the AP Test in chemistry and who have completed high school chemistry without a laboratory take CHEM 150 during the fall semester in preparation for CHEM 201/201L.

Preparation

All courses taken for the major must be completed with a grade of C (2.0) or better. Transfer students must complete a minimum of 24 hours counted toward the chemistry major at Cal State San Marcos.
**BACHELOR OF SCIENCE IN CHEMISTRY**

**Chemistry Option**

This option is for students wishing a broad training in the traditional areas of chemistry. This option is recommended for students wishing to enter a chemistry graduate program or seek a position in industrial chemistry.

Upper-division Science Elective Units (2 units)

Science major courses in the natural or mathematical sciences, chosen in consultation with the academic advisor, will be used to meet this requirement.
Science Education Option

This option is for students who wish to seek training in Chemistry as well as pursue a career as a high school science instructor.

Proficiency in Spanish is strongly encouraged for the Science Education option and can be included as part of the Humanities Requirement of the General Education Requirement.

Students following the Science Education Option are strongly encouraged to fulfill their upper-division General Education Humanities requirement with PHIL 340.

OPTION REQUIREMENTS

Upper-division Chemistry (19-20 units)

CHEM 300 2
CHEM 351 3
CHEM 351L 2
CHEM 352 3
CHEM 401 3
CHEM 404 and 404L or CHEM 416 4-5
CHEM 499 2

Science Electives (5 units)

Science major courses in the natural or mathematical sciences, chosen in consultation with the academic advisor, will be used to meet this requirement.

COMMUNICATION

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-8048

Department Chair:
Barry Saferstein, Ph.D.

Faculty:
Katherine Brown, Ph.D.
Liliana Castañedas Rossmann, Ph.D.
Michael Huspek, Ph.D.
Dramma Moon, Ph.D.
G.H. (Bud) Morris, Ph.D.
Barry Saferstein, Ph.D.

Program Offered:
- Bachelor of Arts in Communication
- Minor in Communication

The undergraduate degree in communication is designed to provide students with a comprehensive knowledge of the nature of communication, its varied forms and uses, and its multiple effects within and across societies and cultures. This involves introducing students to the significance of communication within their own lives, and showing its relevance to the complex relationships they enter into as interpersonal and organizational actors, as representatives of one or more cultures, as consumers of mass-mediated information, and as interested citizens who may desire to influence the changing course of human affairs.

The undergraduate degree in communication has two emphases. First, students are expected to acquire some sophistication in being able to identify and utilize a range of communication theories and methods with the aim of sharpening and clarifying our ways of thinking about communication issues and problems. Second, and closely related, students are encouraged to develop critical descriptive and analytical skills and, where appropriate, to prescribe means of improving communication practices within interpersonal, institutional, and larger societal settings. To this end, theory and method are valued as essential tools of thought to assist in (1) judging whether contemporary communication processes are meeting adequately the needs of institutions and the people involved within them, (2) locating and identifying problems that may be bound up in communicative relations and processes, and (3) devising solutions or strategies as means of effectively addressing those problems.

Career Opportunities

Communication is increasingly recognized as an extremely significant, multifaceted phenomenon that deserves our focused attention. There are at least three reasons for this need. First, the rapid development of complex technologies has increased the need for intense interactions among people from diverse cultures. This brings with it new challenges, as well as previously unimagined potentials with respect to what is to be gained from communicating across cultural boundaries, and as how we are best to go about doing it.

Second, as the world becomes more complex, the forms of communication needed to interact on numerous levels also become more complex. This is especially evident within contemporary institutions where gender, race, and social class differences must be negotiated on an ongoing basis through communication.

Third, with the emergence of the mass media and its increased presence and influence in our lives, it becomes essential that we learn how to analyze this complex institution in terms of its channels and messages. It is important to know the extent to which it offers reasonable access to diverse populations, its multiple effects upon cultures and the values that sustain them, and its potential as an instrument for effecting genuine societal change.

A communication degree increasingly offers interesting career possibilities in the areas of conflict mediation, community relations, advertising and marketing research, public relations, business management, international trade, foreign affairs, health and human services, philanthropy, teaching, and law. In addition, the fast-growing communication industry is very receptive to communication majors, as are private and public organizations and agencies which often hire communication majors as consultants and problem solvers.

Preparation

High school students should take four years of English, including composition. Social science and civics courses, including history and economics, are encouraged. A familiarity with computers is also desirable.

Transfer Students

Community college transfer students may transfer a maximum of six (6) lower-division units in Communication. Students must have earned a grade of C (2.0) or higher in the coursework to be counted for credit toward the major.

Requirements for the Major

To be counted toward the major, a communication course must be completed with a grade of C (2.0) or higher. A minimum of eighteen (18) units of upper-division credits must be earned at Cal State San Marcos.

No more than six (6) hours of independent study may be applied toward the major. Independent study may be applied to field distribution requirements at the discretion of the instructor under whose supervision the student is doing the study. Communication majors must complete nine (9) upper-division units selected from at least two of the social sciences.

Youwen Cuyang, Ph.D.
Shan-Imn Wu, Ph.D.
Rika Yoshii, Ph.D.

Programs Offered:
• Bachelor of Science in Computer Science
• Minor in Computer Science
• Master of Science in Computer Science

Computer Science is basically the study of problem solving on computers. We utilize the power of computers in the problem solving process while dealing with the constraints of computers. We offer the undergraduate and graduate student a rich mix of modern computer science courses. Common to these offerings are the power, beauty, and utility of computational thought.

Applications of Computer Science knowledge include almost every field from business to education, from humanities to social sciences, or from natural sciences to engineering. Therefore, the study of Computer Science contains many fields such as computer architecture, programming languages, computer networking, database systems, information management, artificial intelligence and numerical analysis.

Hundreds of job advertisements looking for Computer Science professionals appear in newspapers, professional magazines and newsletters. Due to the enormous demand, degree holders in Computer Science have multiple paths to reach their career goals. They can easily find jobs with excellent pay in many business and industries and their job titles include positions such as: programmers, system analyst/engineer/managers, software analyst/engineer/managers, database managers, network/telecommunications administrators, customer service representatives/managers, computer instructors, technical trainers, technical support, management information system managers, and sales representatives.

The Cal State San Marcos undergraduate study in Computer Science emphasizes both theoretical foundations and practical applications. Students will learn algorithms, data structures, software design, the concepts of programming languages, computer organization, and computer architecture. The program stresses analysis and design experiences with substantial laboratory work, including software development. The Computer Science major prepares students for careers in applications programming, systems analysis, and software engineering, as well as for entrance into graduate and professional schools.

Preparation
High school students are encouraged to take four (4) years of English, four years of mathematics including trigonometry, one year of biological science, and one year of physical science. Courses in calculus, physics, and computer programming are recommended. Experience in clear, concise, and careful writing is valuable for success in all courses.

Transfer Credits
A maximum of thirty-two (32) lower-division units including courses in Computer Science, mathematics, and physics may be applied toward the preparation for the major requirements. Of the thirty-two (32) units, twelve (12) units must appropriately match the description for CS 111, 211, and 231 (depending on the articulation agreement between Cal State San Marcos and other institutions; transfer students are also advised to consult with their articulation officer to determine if they need to take CS 112, 212, and 232); twelve (12) units must appropriately match the description for MATH 160*, 162, and 264; and eight (8) units must appropriately match the description for PHYS 201* and 202.

Special Requirements for the Bachelor of Science
Each course submitted toward the Computer Science major must be completed with a grade of C (2.0) or better. No more than a total of three (3) units of either CS 498 or CS 499 may be applied to the major. A minimum of fifteen (15) upper-division units counted toward the major must be completed at Cal State San Marcos.

MASTER OF SCIENCE IN COMPUTER SCIENCE

The mission of the graduate program in Computer Science at Cal State San Marcos is to provide graduate education of the highest caliber to qualified students from the local community and beyond, leading to the Master of Science degree. Its objective is to prepare students for a variety of positions in business, industry, and the public sector; for continued study at the doctoral level; or for academic careers at the two-year college level. We believe that excellent graduate education is best accomplished in an atmosphere in which graduate students are closely mentored by the faculty. The faculty in Computer Science is committed to the study of Computer Science as a scientific enterprise, and the Master of Science in Computer Science will encourage the development of critical thinking and quantitative reasoning skills. In keeping with the mission of the University, we offer a curriculum that includes opportunities for applied experiences to enhance the professional development of our students and to contribute to the community around us. In addition, our program seeks to recognize the global awareness of the computing world and to build links with higher education institutions in the world.

The Master of Science Program in Computer Science provides breadth in several areas and depth in a specialized area in the rapidly advancing theoretical and practical aspects of Computer Science. Common to these offerings are the intelligent challenges and analytical skills of computational problem-solving methodologies.

Preparation and Training Offered by the Program

The Master of Science degree is traditionally seen either as a preparatory or terminal degree. Our program is designed to accommodate students with different goals. The active research programs of our faculty, and our recognition of Computer Science as a scientific enterprise, shall provide graduate students with the intensive research training and course work in primary content areas that are central to preparation for more advanced graduate or professional work. Students who have in mind careers in business, industry, community college teaching and computing services, will benefit from our program's emphasis on critical thinking, research methods, and advanced course work. Individual career goals will be served by allowing choices in the content of the research work of thesis or project and by providing a curriculum that provides flexibility in content areas. Students with interests in many areas in Computer Science will find opportunities to pursue course work and thesis topics at Cal State San Marcos that are related to their interests.

The Master of Science degree in Computer Science emphasizes both theoretical foundations and practical applications. Many students undertake graduate work in Computer Science in order to pursue careers in computer networking and information communications, algorithms, parallel processing, artificial intelligence, neural networks, programming languages concepts, and multimedia applications. Graduates of the program will be prepared for a wide range of career opportunities, since the skills and attitudes fostered in the program are in demand in business, industry, government and academia. In particular, graduates will be well prepared for careers in applications programming, systems analysis, and software engineering.

The program also prepares students to compete for admission to doctoral programs in Computer Science. There are several universities near Cal State San Marcos, including UCSD, UC Riverside, and UC Irvine, which offer such Ph.D. programs.

Admission Requirements and Application

In general, students should have equivalent of the basic core knowledge in Computer Science. Experience in clear, concise, careful writing is valuable for success in all courses.

People with undergraduate degrees in non-computing fields may want to enroll in this program for career advancement. Those with undergraduate degrees in Computer Science can take more advanced courses to specialize in a particular area.

Admission to the program requires an undergraduate degree including the courses as required for the Bachelor's Degree in Computer Science at Cal State San Marcos, or their equivalents. Admission also requires a 3.0 grade point average in the upper-division Computer Science courses and at least a 2.5 GPA in the last 60 semester units (or last 90 quarter units) attempted. Students who have some deficiencies in the above admission requirements may be admitted with conditional graduate status. They may remove these academic deficiencies by either taking specific undergraduate courses for no credit toward the Master's degree, or passing appropriate proficiency examinations.

The general test of the Graduate Record Examination (GRE) is required of all applicants and the advanced test in Computer Science is encouraged.

All applicants who do not possess a bachelor's or graduate degree from a post-secondary institution in a country where English is a principal language must take the Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550.
An application consists of the following:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Computer Science Department (see address below)

- a completed application for the Master's program in Computer Science,
- one set of official transcripts from all colleges and universities attended and official indication of graduation (if not in English, certified English translations must be included),
- official transcripts of GRE, and TOEFL if applicable, and
- three letters of recommendation.

Application materials sent directly to the Computer Sciences Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:

Complete applications, including test scores and recommendation letters, should be received in the program office by:

- March 15th for Fall applicants.
- November 15th for Spring applicants.

However, applications will be accepted as long as space allows.

Graduation Requirements

The Master of Science degree in Computer Science requires a minimum of 30 units of graduate courses with at least an overall 3.0 grade point average. Students must do exactly one of the following: pass a comprehensive written exam, complete a Master's thesis, or complete a research project. At least nine (9) units must be numbered 600 or above. Only courses numbered 500 or higher can be counted towards the Master's degree requirement with the exceptions of CS 421, CS 433, and CS 441 which must be taken if these courses were not taken prior to admission to the program. No course or equivalent which was taken as a requirement for the completion of a Bachelor of Science in Computer Science or related fields can be used to satisfy these requirements. Not more than nine (9) units in approved extension and transfer courses may be used to satisfy the minimum units required for the degree; any such units must be approved by the Computer Science Department Chair or faculty advisor. Given the nature of rapid development in Computer Science, all requirements should be satisfied within five years of initial acceptance into the program or course work must be repeated.

Students are required to take the following graduate-level core courses:

- CS 537
- CS 542
- CS 551
- CS 571

Consent of instructor is needed to enroll in these core courses. Students are advised to complete the core courses before selecting their electives.

Continuation

A student must earn a 3.0 overall average in graduate coursework in order to graduate. No course in which a final grade below C (2.0) was earned can satisfy the degree requirement. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program.

Financial Aid

Several sources of financial aid are available to graduate students. Applicants who choose to apply for Graduate Assistantships offered by the University should so indicate on the appropriate space in the Master's Program in Computer Science application form. Students are responsible for identifying other sources of aid, and may wish to consult with the University's Office of Financial Aid and Scholarship.
Advancement to Candidacy

Upon the completion of at least nine (9) units toward the degree, but prior to the completion of 18 units toward the degree, the student should obtain the permission of a tenured or tenure-track Computer Science faculty member to act as the student's advisor and as chair of the student's academic committee. The student and the advisor should recommend to the Computer Science Department Chair the names of two other tenured or tenure-track Computer Science faculty to fill the advisory committee.

The plan of study should include courses remaining to be taken and the names of the three faculty composing the committee. A copy of the study plan shall be submitted to the Computer Science Department Chair. The student is advanced to candidacy for the Master of Science degree upon submission of the study plan and completion of 18 units toward the degree with at least a 3.0 grade point average. Changes in the study plan must be approved by the student's advisor and the Computer Science Department Chair.

No student may enroll for CS 698, CS 699, or take a comprehensive examination before being advanced to candidacy.

Thesis, Project, or Comprehensive Written Exam

Each student will be assigned an advisor at the time of acceptance to the program. It is expected that the student and her/his advisor will work together closely to identify elective courses and either choose possible research topics for the thesis or research project, or prepare for the comprehensive written examination.

A thesis is the written result of a systematic study of a significant Computer Science problem. It defines, develops, and executes an investigation into a chosen problem area. The motivation, approach, and results of the investigation are communicated in a clear and logical fashion; it is grammatically correct, logically organized and technically sound. The finished product should evidence originality, and critical and independent thinking through documentation. The thesis must be planned, organized, executed, and completed while the student is enrolled in the Master's program. Guidelines on the preparation and official submission of the thesis can be obtained from the Department Chair's office. The final copies of the thesis are to be delivered to the committee members at least two (2) weeks prior to the oral defense of the thesis which must be held at least two weeks prior to the end of a regular semester.

A project is the written result of a comprehensive implementation or analysis of a particular computer system or problem encountered in the literature. The composite elements of the project are the same as for a thesis, but the scope is more narrow. The project must be completed while the student is enrolled in the Master's program. Project submission forms can be obtained from the Department Chair's office. The final copies of the project are to be delivered to the committee members at least two (2) weeks before an oral presentation, which must be held at least two weeks prior to the end of a regular semester.

A comprehensive written examination is administered during the student's final semester. It is intended as a culminating experience for the Master's degree, and it is used to assess the student's ability to integrate his/her knowledge of Computer Science, to think critically and independently, and to demonstrate mastery of their coursework. The problems will reflect the coursework of the student, and the student's responses will be evaluated both on the basis of logical correctness and on that of written presentation. The examination will be offered, as needed, at most once each regular semester, at least two (2) weeks prior to the end of the semester. Students intending to take the exam during a given semester must notify the Department Chair before the end of the fourth week of that semester.

Graduation

A student planning to graduate at the end of a given regular semester must meet with the academic advisor by the end of the student's previous regular semester in order to evaluate those plans. All pertinent requirements described above concerning courses and the thesis, the project, or the comprehensive exam must be evaluated during this meeting.
MINOR IN CRIMINOLOGY
AND CRIMINAL JUSTICE

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-4117

Sociology Department Chair:
Richard T. Serpe, Ph.D.

Faculty:
Therese Baker, Ph.D.
Donald Barrett, Ph.D.
Kristin Bates, Ph.D.
Valerie J. Callanan, Ph.D.
Sharon Elise, Ph.D.
Darlene Piña, Ph.D.
Robert E.L. Roberts, Ph.D.
Garry Rolison, Ph.D.
Richard T. Serpe, Ph.D.
Linda Shaw, Ph.D.
Sheldon X. Zhang, Ph.D.

Program Offered:
• Minor in Criminology and Criminal Justice

The Criminology and Criminal Justice Minor is offered through the Sociology Department. All courses for this minor can be viewed within the Sociology course listings. Advising for this minor is handled by the Sociology Department. Each course counts towards the minor must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units in sociology must be completed at Cal State San Marcos.

The major purpose of the Criminology Minor is to provide an expanded and more focused concentration on the study of criminology and the criminal justice system regarding 1) the study of deviance and the incidence and explanations for delinquency and crime; 2) methods of prevention and control of delinquency and crime; 3) characteristics and practices of the criminal justice system. Moreover, students will select a set of courses that add on to parts of this core, such as the study of women and crime, and the comparative study of crime in different societies. Students will broadly analyze the origins, causes, and consequences of crime and the structure of the criminal justice system in order to gain greater mastery of this socially important and very timely topic.

Students wishing to combine the minor in Criminology and Criminal Justice with a bachelor's degree in Sociology should consult their advisor. See page 163 for bachelor's degree in Sociology.

Total Units 21
Economics has always been a highly respected field of study, but in the past three decades its reputation has soared. There are perhaps three major reasons for this change. First, many people have come to realize that economics plays an important role in their everyday lives. Recession, inflation, the exchange value of the dollar, the savings rate, interest rates, taxes, mergers, government expenditures, and economic growth all matter. These economic factors touch lives; they affect dreams. Second, economists have developed better tools and more refined methods of analysis: they have successfully extended their analytical apparatus and the economic way of thinking beyond the traditional confines of the science. Third, the one language that is becoming increasingly more universal is the language of economics. The American business person may not speak Japanese, and the Japanese business person may not speak English, but both of them know the language of supply and demand, profits, production, costs, international trade, and competition. Both of them know the language of economics.

Economics is the study of human behavior as it relates to the condition of scarcity: that is, the condition where resources are limited in relation to human wants. An important part of economics is the study of how individuals, groups, and societies deal with scarcity through markets or exchange-like institutions. Economic theory is sufficiently powerful to explain many varieties of exchange relationships. This is evident in the number of fields in which economic analysis is currently utilized, such as business, history, law, psychology, political science, and sociology.

Educational and Career Opportunities

The economics major provides the undergraduate student with a solid academic background for graduate study in a wide variety of areas. The most relevant areas include economics, business, and law. Career opportunities include positions in business, banking, journalism, government, law, and teaching. Economists are well-represented in occupations in both the private and public sectors. Students interested in knowing more about educational and career opportunities in economics are invited to speak with economics faculty members.

Preparation

High school students are encouraged to take four years of English, three to four years of mathematics, and an economics course (if available).

Transfer Students

Students may transfer a maximum of six (6) lower-division semester units in economics and a maximum of (6) upper-division semester units in economics, which may be applied toward the economics major or minor. Three (3) of the six (6) lower-division semester units must be in a course that clearly fits the course description in this catalog for ECON 201; three (3) must be in a course that clearly fits the course description for ECON 202. Upper-division semester units must be in courses that clearly fit the course description in this catalog for any upper-division level course and satisfy any conditions or prerequisites. However, all of the four required upper-division theory courses (ECON 301, 302, 303, and 441) must be completed at Cal State San Marcos. All transfer courses must at least be equal in scope, content, and level to the equivalent Cal State San Marcos course.
Special Requirements for the Bachelor of Arts and the Minor in Economics

Each course counted towards the major or the minor must be completed with a grade of C (2.0) or higher. No more than two (2) units of ECON 497 may be counted toward the major. Only one of the courses listed, ECON 305 and 306, may be counted toward the major or minor. Students who have already received credit for ECON 250, may then consult with the Economics Department Chair to gain permission to count ECON 250 as replacing either ECON 201 or ECON 202 (but not both courses) for purposes of satisfying the Preparation for the Major requirements, lower-division Minor requirements, and certain upper-division economics course prerequisites.

Program Offered:
- Minor in Ethnic Studies

The Ethnic Studies Minor at Cal State San Marcos offers students majoring in another discipline the opportunity to study critically and systematically the experiences of racial/ethnic groups that have been economically, educationally, politically, legally, and/or socially disadvantaged. It analyzes how these groups have been integrated or not into society(ies) and how race/ethnicity has shaped identity. Offering global and U.S. perspectives, the minor supports the founding Mission Statement of the University by helping to prepare students "to live cooperatively and competitively in a world of cultural and ethnic diversity."

Since the minor helps students better understand the multi-ethnic cultures of which many modern nations are comprised, it enhances courses of study leading to career fields in both public and private sectors, such as business, education, law, medicine, public health, corrections, social work, journalism, public relations, politics, psychology, international relations, and creative writing. It also helps to prepare students for graduate study in related fields.

Course Requirements
Completion of twenty-one (21) units of credit, eighteen (18) of which must be at the upper-division level. Students must take at least three (3) units in each of the five areas indicated below.

Special Requirements
Each course counted towards the minor must be completed with a grade of C (2.0) or higher. At least nine (9) units of study must be unique to the minor (i.e. may not be counted towards other major, minor, or general education requirements). Recommended Course of Study: In the minor, coursework is arranged in five (5) areas: Introduction to Comparative Ethnic Studies, Historical Approaches, Identity and Culture, Power and Social Justice, and Voices. The first two areas represent foundations, and these courses should be taken first. The next three areas are explorations, and these courses may be taken in any order.

Advising
Information and advising will be provided by the Coordinator for the Ethnic Studies Minor. Interested students should meet with the Coordinator as soon as possible to declare the minor and to develop an appropriate, personalized theme of study that complements a student's interests and career goals (e.g., African-American, Borderlands, Comparative Multicultural Studies). Petitions for lower-division course credit, and petitions to apply to the minor courses not listed on the next page, must be submitted to the Coordinator.
a. Introduction to Comparative Ethnic Studies is an introduction to the struggles of racial and ethnic groups, their relationships to each other, and to the organization of society. This course includes issues such as immigration, slavery, confinement, institutional inequality, and resistance. Interdisciplinary approaches and examination of critical race/ethnic theory provide a foundation for the minor.

Select one course:  
ID 340  
ID 371  
SOC 313

b. Historical Approaches is an intensive study of the history of groups and issues over time. It provides students with in-depth understanding of the dynamics of racial/ethnic struggles.

Select one course:  
HIST 334  HIST 346
HIST 335  HIST 347
HIST 337  HIST 350
HIST 338  HIST 374
HIST 343  HIST 375
HIST 345

c. Identity and Culture is a comparative examination of the process of formation of racial/ethnic groups and their practices. Analysis is approached through various mediums of culture, such as human geography, language and communication patterns, gender and belief systems.

Select one course:  
ANTH 301  COMM 330
ID 304  COMM 450
ID 305  COMM 455
LING 371  PSYC 341
LING 451

d. Power and Social Justice emphasizes conflicts involving race and ethnicity in the contemporary time period, such as inequality, social movements, voting rights, and gender roles.

Select one course:  
COMM 430  SOC 347
PSCI 305  SOC 419
SOC 311  TA 323
SOC 323

e. Voices examines texts produced by and about people from various racial/ethnic groups. It fosters analysis of the cultural and aesthetic values represented in these works.

Select one course:  
LTWR 410  MUSC 426
LTWR 420  MUSC 427
LTWR 450  TA 325
SPAN 350A  TA 326
SPAN 350B  TA 327
MUSC 421  TA 420
MUSC 422  TA 421
MUSC 423  VPA 320
MUSC 424  VSAR 323
MUSC 425  VSAR 325

Two (2) elective courses:  
selected from any of the five categories. A course may also be petitioned through the Coordinator for acceptance, providing at least half the course is devoted to studies of race/ethnicity.

Program Offered:

• Minor in Film Studies

The primary purpose of the Minor in Film Studies is to enhance student learning regarding 1) the production of film, 2) the global history of film, 3) the interpretation of film, 4) the uses of film, and 5) the art of filmmaking. The unique aspect of the minor is its combination production and interpretation format. Students who minor in Film Studies at Cal State San Marcos will better understand the art of filmmaking. They will do so not only by analyzing films with the help of theories, but also by having the collaborative experience of making at least one short film.

The secondary purposes of the minor in Film Studies are numerous. They loosely fit under three categories: educating an existing public, supporting the University Mission Statement, building long-term community linkages.

Requirements for a Minor in Film Studies

Completion of eighteen (18) units of credit, twelve (12) units of which must be at the upper-division level.

**Faculty:**
Veronica Anover, Ph.D.

**Foreign Language Proficiency Assessor:**
Kevin Igasaki, M.A.

**Program Offered:**
- French Minor

The French Minor provides a more intense development of skills and knowledge of the French language, and of French and Francophone cultures and literatures, giving the students an opportunity to follow a course of study that will be supplementary or complementary to their majors. The program seeks to contribute support to and articulate with other areas of study at the University. It aims to serve the needs of globalization while providing students with insights and understanding of the French and Francophone world at large.

The program is designed to develop advanced high communicative proficiency in all four language skills: listening, reading, speaking, and writing. Advanced grammar and composition courses will provide the level of proficiency mentioned above. The Business French course provides students with high language competency to negotiate meaning in a French business setting. At the same time, it offers students a better appreciation of the French business life and procedures.

Students choosing to pursue a French Minor will be introduced to the French and Francophone world and its cultural, economic, political and social issues of today through readings from the press, French TV news, movies and documentaries. The French Minor gives students a comprehensive understanding of the French and francophone culture, literature, and language developing at the same time a sense of awareness, understanding and analysis.

---

**French Minor Requirements**

To fulfill the French Minor, students must complete the following curriculum, at minimum (15) units. Students may apply up to six (6) units of transfer credit toward the minor. Students must earn a grade of a C or higher in each course for the minor.

Alyssa Sepinwall, Ph.D.  
Patricia S. Seleski, Ph.D.  
Jill Watts, Ph.D.  
Zhilei Xiao, Ph.D.

Programs Offered:
• Bachelor of Arts in History  
• Single Subject Preparation in Social Science, History Major Option
• Minor in History

History interprets the past for the present by exploring the institutions, ideas, cultures, and creations of men and women in the context of time and place. It is focused on change over time; both change of the subjects of study and of historians’ attempts to make sense of those subjects. History ranges over all of recorded human experience, naturally interfacing with the arts, sciences, social sciences, and other humanities.

The student of history will learn to evaluate evidence critically, to sift and organize evidence fairly and persuasively, to analyze the evidence for its patterns and meanings, and to integrate this into a broad context of human experience. Historical study provides perspective, helping individuals to place their own lives, values, and world events in context, and to recognize the processes of change that have brought them to the present.

History majors find careers in a great variety of fields. History is a traditional preparation for law, foreign service, teaching, public affairs, journalism, and work in museums or historical societies. History majors hold such diverse positions as presidents of banks, personnel officers, senators, network news anchors, purchasing agents, city managers, judges, small business owners, and public safety officers. In addition, there is a growing arena of careers directly related to history — museum directors, curators, historical consultants, archivists, historical site administrators, and historic preservation officers. Both government agencies and private corporations hire historians to research, analyze, and organize their records. Many of these latter careers require some graduate work in history.

Preparation for the Major
Completion of twelve (12) units of lower-division history study, which must include exposure to two world areas in sequence is required. Completion of a writing composition course is required. Completion of nine (9) units of work in related fields comprised of six (6) units of coursework in one of the following: literature, religion, political science, economics, sociology, fine arts or in a single interdisciplinary field is required. One course (3 units) in a second and distinct subject from those listed above. Competency in a foreign language, equivalent to three semesters (an intermediate level) of study at the university or college level, is also required.

Major Requirements
In addition to the lower-division courses completed as preparation, the major requires thirty-three (33) upper-division units including nine (9) units in a primary thematic field, six (6) units in a secondary thematic field, successful completion of HIST 301 and a 400-level history seminar course, and twelve units of electives in history. One upper-division course must have the majority of its content before 1800. Courses in the major must be taken from at least three different world areas that include: Africa, Asia, Europe, Latin America, Middle East, United States and Comparative/Transnational History.

One course must have considerable content on Women’s History/Gender. All majors must complete and submit a portfolio of their coursework including a written narrative for evaluation by the department during their final semester before graduation. Students must complete all courses for the major with a grade of C (2.0) or better, and may include no more than three (3) units of internship toward the major.

BACHELOR OF ARTS IN HISTORY

<table>

<tr>
<td>Major Requirements</td>
</tr>
</tbody>
</table>

Students must take a sufficient number of elective units to bring the total number of units to a minimum of 124

*Refer to explanation of units in the section that follows. These may simultaneously fulfill major preparation and General Education requirements.

** Three (3) lower-division General Education units in Area A (Basic Skills) are automatically satisfied by GEW 101.
Preparation for the Major

Lower-division (24)
Lower-division History courses including:
Two sequences in two different world areas

Related breadth courses including:
Two courses in Literature, Religion, Political Science, Economics, Philosophy, Sociology, Anthropology, the Arts or a single interdisciplinary field

One course in a second and distinct subject from those listed above

GEW 101 or equivalent*

*Strongly recommended to be taken at the beginning of the junior year. Prerequisite for 400-level seminar.

Total Units 24

Major Requirements 33

Upper-division (33 units)

HIST 301***

Upper-division History courses drawn from the five thematic areas which include: Politics and Institutions, Race and/or Ethnicity, Culture and Ideas, Gender, and Economics and Class (Students may create their own theme by petition and with the approval of the History program.)

Upper-division History courses are to be distributed as follows:

Primary theme to include:
300 level History courses 9
400 level History seminar course 3
Secondary theme distinct from the primary theme (courses may not be the same courses as used for the primary theme) 6
Upper-division History Electives 12

Total Units 33

Of the 33 units:

a. One course must have the majority of its content before 1800.
b. Courses must be taken from at least three areas that include: Africa, Asia, Europe, Latin America, Middle East, United States and Comparative/Transnational History.
c. Note: One course must have considerable content on Women’s History/Gender.

Note: requirements a,b,c may be fulfilled simultaneously with other upper-division History requirements.

Supplemental requirement:

Students must complete and submit a portfolio of their coursework including a written narrative.

SINGLE-SUBJECT PREPARATION IN SOCIAL SCIENCE, HISTORY MAJOR OPTION

Students interested in majoring in History and teaching at the secondary level may elect the Single-Subject option in Social Science. For certification of this option, students must maintain a 2.7 GPA both in overall work and in all courses used to complete the major and option.

Summary of Requirements

Lower-division Preparation (27)

Lower-division History Courses including:
United States History Survey 6
HIST 130*** and 131*** or equivalent

World History 6
HIST 201 and 202 or equivalent

Related breadth courses including:
United States Government 3
Choose one of the following:
PSCI 100***
PSCI 300
PSCI 415 or equivalent

Political Science Electives (may be taken at the lower-or upper-division level) 3

Economics including Macro/ Micro economics 6
Choose two among:
ECON 201
ECON 202
ECON 250
ECON 302
ECON 301
ECON 303 or equivalent

GEW 101 or equivalent** 3

Total Units 27

Supporting requirements:
Lower- or upper-division electives in Psychology and/or Sociology 6

**Strongly recommend before taking History courses numbered higher than 299.

***Also satisfies a lower-division General Education requirement.

#Excluding HIST 494, 495, 499

Note: Of the thirty units above:

a. One course must have the majority of its content before 1800

b. Courses must be taken from at least three world areas that include: Africa, Asia, Europe, Latin America, Middle East, United States and Comparative/Transnational History

c. Note: One course must have considerable content on Women's History/Gender (this requirement may be fulfilled simultaneously with other History requirements).

Supplemental requirement:

Students must complete and submit a portfolio of their coursework including a written narrative.

Total Units 30

MINOR IN HISTORY

A Minor in History shall consist of twenty-one (21) units of study in History. Twelve (12) units must be in upper-division courses. Students must include in their program courses in at least two world areas, and one six-unit sequence of course work, either at lower or upper-division. A six-unit (6-unit) sequence may consist of either two courses at the same level in which the content of the second continues chronologically the content of the first or a 300-level course and a 400-level seminar which builds on a theme covered in the 300-level course. Students must complete all courses for the minor with a grade of C (2.0) or better, and may include no more than three (3) units of internship toward the minor.

Primary Theme distributed as follows:

300 level History courses 9

400 level History seminar course# 3

Secondary Theme distributed as follows (courses may not be the same courses as used for the primary theme):

6

***Strongly recommended to be taken at the beginning of the junior year. Prerequisite for 400-level seminar.
HUMAN DEVELOPMENT

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-4117

Program Director:
Fernando I. Soriano, Ph.D.

Faculty:
Bonnie Bade, Ph.D.
Larry W. Cohen, Ph.D.
Brian J. Norris, Ph.D.
Cherie G. O'Boyle, Ph.D.
Darlene L. Pinia, Ph.D.
Robert E. Roberts, Ph.D.
Fernando Soriano, Ph.D.
Patricia E. Worden, Ph.D.

Programs Offered:
- Bachelor of Arts in Human Development Areas of emphasis:
  - Adult and Gerontology Services
  - Children's Services
  - Counseling Services
  - Health Services
- Multiple Subject Credential Waiver Option (under Children's Services Emphasis only)

The human development major is an interdisciplinary program that focuses on human growth and development throughout the lifespan, and on the familial, social, cultural, and political networks in which individuals develop. Course offerings are drawn primarily from psychology, sociology, and biology, with electives available from other programs offered by the college. The human development major is designed to prepare undergraduates to succeed in an increasingly diverse cultural, ethnic, economic, and political environment. Respect for those differences in the context of social services settings is an integral part of our program.

Admission and Degree Requirements
Each course counted toward the major must be completed with a grade of C (2.0) or higher. A minimum of eighteen (18) units counted toward the human development major must have been completed at Cal State San Marcos.

Advising
Students may consult advisors to work on selecting an appropriate choice of elective courses to complement their area of emphasis and career goals. Examples from which students might choose are listed below under upper-division free electives.

Career Opportunities
Students with a bachelor's degree in human development are qualified to work in a variety of settings related to providing services for others. These might include health care; child and adult daycare centers; community projects providing outreach to youth and adults; sales; service-related government agencies such as housing, law enforcement, and criminal justice; and assisting with community development, both in the United States and around the world. A bachelor's degree in human development may also prepare students for graduate studies in marriage, family, and child counseling; social work; teaching; public administration; business; or the law. Students interested in these career opportunities should consult with advisors in appropriate areas before planning their programs. Finally, the human development major will prepare students for master's and doctoral level training in fields such as sociology, anthropology, ethnic studies, clinical psychology, women's studies, and human development.

- SOC 321
- SOC 324

Total Units 18

Multiple-Subject Waiver Option (Under the Children's Services Emphasis only)

Students taking the Children's Services Emphasis may qualify for a subject area competency clearance in lieu of the national teacher's examination (Multiple-Subject Waiver) by taking an additional 22 units. Nine units of this work may also be used to fulfill upper-division General Education. The additional coursework will depend upon the specific pattern of lower-division General Education which has been completed. In general, the additional coursework will include the following:

Units

| Mathematics | 3 |
| Earth or Physical Science | 3 |
| EDUC 400 | 3 |
| LING 300* | 3 |
| Arts and/or Humanities** | 3 |
| GEOG 301 | 3 |
| PE 201 | 4 |

Students wishing more information about the Multiple Subject Waiver should see the Liberal Studies Advisor in the College of Arts and Sciences.

*An additional three (3) units in language development are also strongly recommended.

**An additional three (3) units in the Arts and/or Humanities are strongly recommended.
LIBERAL STUDIES

Office:
Craven Hall, Room 6140

Telephone:
(760) 750-4104

Department Chair:
Vivienne Bennett, Ph.D.

Faculty:
- African-American History: Marcia Sawyer, Ph.D.
- Anthropology: Bonnie Bade, Ph.D.
- Cultural Linguistics: Jocelyn Ahiers, Ph.D.
- Jule Gómez de Garcia, Ph.D.
- Geography: Anibal Yáñez-Chávez, Ph.D.
- Migration Studies: Jorge Riquelme (Ph.D. expected 8/02)
- Science and Society: Robert C. Yamashita, Ph.D.
- Latin American Studies: Vivienne Bennett, Ph.D.
- Urban and Regional Planning: Kimberley Knowles-Yáñez, Ph.D.

Programs Offered:
- Bachelor of Arts in Liberal Studies
  - Interdisciplinary Studies Option
  - Liberal Studies Option
  - Integrated Credential Program Option

The Liberal Studies major (all options) is a state-approved Multiple Subject Subject-Matter Preparation Program. Completion of a Multiple Subject Program (such as the Liberal Studies options 1 and 2), or a passing score on the MSAT, and completion of EDUC 350 and EDUC 364 are required for entrance into Cal State San Marcos's Multiple Subject Credential Program. For more information about credential programs, please contact the College of Education. In Option 3 students take their Liberal Studies Subject Matter Preparation courses with their credential courses.

The Liberal Studies Program offers three options: Option 1, Interdisciplinary Studies (ISO); Option 2, Liberal Studies (LSO); and Option 3, the College of Arts and Sciences/College of Education Integrated Bachelor of Arts and Multiple/CLAD Subject Credential Curriculum.

BACHELOR OF ARTS IN LIBERAL STUDIES

<table>
<thead>
<tr>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lower-Division</td>
</tr>
<tr>
<td>Upper-Division</td>
</tr>
</tbody>
</table>

Students must take a sufficient number of elective units to bring the total number of units to a minimum of 124.

Students must complete a minimum of 30 units in residence at Cal State San Marcos. A minimum of 40 major or elective upper-division units are required for graduation. The Liberal Studies major fulfills Cal State San Marcos General Education requirements for a baccalaureate degree.

All lower- and upper-division courses counted toward the major (Option 1, 2, and 3) must be completed with a grade of C (2.0) or higher. In addition, students in ISO (Option 1) must obtain a grade of B (3.0) or higher in each of the ten Area of Concentration courses. ISO (Option 1) students who receive less than a B (3.0) in an Area of Concentration course must repeat the course until receiving at least a B (3.0), or may substitute another course from the same Area of Concentration and obtain a B (3.0) or higher in that course.

Completion of a final portfolio with a passing grade is a graduation requirement of the Liberal Studies major, and is also required for the MSAT waiver. Students must meet with their special field advisor (Options 2 and 3), or their Liberal Studies advisor (Option 1), after filing for graduation, to arrange their portfolio assessment process. Students are expected to be familiar with all requirements at the time they sign up for the major.
Lower-Division Requirements
(61-62 Units)

All three options have the same lower-division requirements, which are divided into five areas and include General Education courses. Transfer students may fulfill some lower-division requirements with upper-division courses. All students must consult the approved course list or the Liberal Studies advisor.

# Students beginning their study at Cal State San Marcos must take GES 102. Transfer students may take either GES 102 or one of the upper-division Biological Sciences courses listed here.

* This course cannot have been used to satisfy the Earth Science requirement above.

** Students beginning their study at Cal State San Marcos must take GES 101. Transfer students may take either GES 101 or one of the upper-division Chemistry courses listed here.

** Automatically satisfied by GES 101 or GES 102.

*** See Liberal Studies advisors for lists of courses offered each semester that fulfill these requirements.

**** This course cannot be used to satisfy any other Liberal Studies requirement.
Upper-Division Requirements

Upper Division

See detailed descriptions below of Option 1 Interdisciplinary Studies

Option (ISO) 39

Option 2 Liberal Studies

Option (LSO) 39

Option 3 Integrated Credential Program 91*

Option 1: Interdisciplinary Studies (ISO)

A liberal arts major with interdisciplinary areas of concentration (Culture, Community, or Science and Society). This option builds upon different approaches and dynamic connections across the sciences, the social sciences, and the arts and humanities, and provides specific possibilities for interdisciplinary thematic integration. Examples of thematic integration might include the study of gender, race, or power; African American, Chicano, or Latin American Studies; Border Studies; and Science and Society.

The ISO also lays the basis for obtaining a teaching credential in California. Students take at least six courses from faculty in the Liberal Studies Program, plus courses throughout the College of Arts and Sciences.

The ISO has three areas of concentration: Culture, Community, and Science and Society.

* Includes all College of Education coursework leading a post-baccalaureate teaching credential (Multiple Subject Credential/CLAD).

Areas of Concentration

Culture. Focus is on how social reality and scientific inquiry shape culture, and vice versa. What is culture? What makes up culture? How is culture generated? Who produces culture? Culture is more than the arts; it is also the daily lived experience of ordinary people, including their customs, beliefs, morals, traditions and behaviors. Many of the courses in this area have to do with stimulating students to reflect upon aspects of North American culture that are taken as a given, providing analytical and critical tools to understand gender or race, for example. A number of courses provide a cultural context in the broadest sense, whether it is our understanding of biological evolution, how culture shapes politics, how economics creates a material basis for culture, or the role of mass communications in culture. There are also courses on the specific cultures of nations, world regions, or ethnic groups. The list of approved courses is updated annually. The list below is a sample of courses that may fit in this category. See the Liberal Studies advisors for the current pre-approved list:

ANTH 301, 305, 315, 325, 330
COMM 330, 435
FMST 300
HIST 308, 309, 323, 327, 332, 334, 337, 341, 343, 345, 348, 350, 355, 356, 364, 384
ID 304
LING 371, 451
LTWR 310, 320, 450
MUSC 323, 324, 421, 422, 423, 424, 425, 426, 427
PHIL 320, 350
PSCI 472
SOC 305, 315
TA 320, 323, 326, 327, 410
VPA 320
VSAR 322, 325, 326
WMST 450

Community. Focus is on how communities, groups and places are defined or constructed throughout the world, with special attention to the multicultural and multiethnic reality of the Americas. How do we define community? What are the dynamics of various communities? Who is "us," who is "them," who is "the other"?

How does the environment shape our communities, and what forces shape the environment? What is the role of science and the arts in defining or constructing communities? How do social movements grow within communities and transform social reality? Why do nations or social classes enter into conflict, wars and revolutions? How do the various scales of social reality – local, regional, national, or global communities – intersect with each other? The list of approved courses is updated annually. The list below is a sample of courses that may fit in this category. See the Liberal Studies advisors for the current pre-approved list:

ANTH 310, 315, 370
COMM 320, 360
ECON 445
GEOG 340, 450, 450S
ID 301, 305, 340, 371, 410
PSCI 305, 321, 391, 445
SOC 310, 311, 313, 345, 347, 353
TA 325
VSAR 320, 323
WMST 301, 445

Science and Society. Focus is on the complex, worldwide interactions between science, technology, culture and society. How can we understand science and technology as tools to liberate human labor, and as instruments of destruction or domination? What skills or knowledge are necessary for society to produce or to control science and technology? How is the dynamic, technological environment transforming science, society, and the arts? What does the technological development of rich countries have to do with the situation in poor countries? How have technology and science transformed money and power?
The list of approved courses is updated annually. The list below is a sample of courses that may fit in this category. See the Liberal Studies advisors for the current pre-approved list:

PSY 393
SOC 314, 316, 324, 419, 420, 424
VSAR 302, 404, 405, 422, 423
WMST 424

Note: The courses in the three areas of concentration are not solely or exclusively about Culture, Community, or Science and Society, or narrowly about the issues and questions outlined above; but they are connected to them, and will lead students to think critically about Culture, Community, or Science and Society within a larger conceptual framework. All Area of Concentration courses employ interdisciplinary approaches and methodologies. See the Liberal Studies advisors for the current Area of Concentration course lists.

**Guidelines for Course Distribution Among Areas of Concentration**

1. Students in the Interdisciplinary Studies Option (ISO) choose five courses (15 units) in their focus Area of Concentration, three courses (9 units) in a first supporting area, and two courses (6 units) in a second supporting area. (Note that courses may have prerequisites.) Area of Concentration course lists will be updated annually before the start of the fall semester. See the Liberal Studies advisors for the current list of courses for each Area of Concentration.

2. Three of the ten Area of Concentration courses must be taught by Liberal Studies faculty.

3. In fulfilling the above requirements, students must include at least one BB, one CC, and one DD course from the Area of Concentration lists in order to satisfy upper-division General Education requirements for a baccalaureate degree.

4. Students in the Interdisciplinary Studies Option must fulfill two additional general Liberal Studies requirements:
   a. 3 units of upper-division Multicultural/Ethnic Studies. See advisors for pre-approved list of courses that satisfy this requirement. May be double counted as an Area of Concentration course.
   b. 3 units of lower- or upper-division Global Awareness: one course that focuses on the study of Africa, Latin America, Asia or the Middle East. If the student has fulfilled this requirement with a lower-division course, that is sufficient. If not, this requirement may be fulfilled by taking an appropriate Area of Concentration course.

The Area of Concentration courses include several classes taught in Spanish. Students wishing a bilingual emphasis should consult the Liberal Studies Department Chair.

**Bilingual Track.** Plans are under way to offer a bilingual track, which will include LING 451, and one content course in Spanish in each of the three areas of concentration.

- Consult faculty advisor of your focus area regarding course selection.
- When selecting Area of Concentration courses, students are encouraged to include at least one BB, one CC, and one DD course in order to satisfy upper-division General Education requirements for a baccalaureate degree.
- Students must also include one course from the pre-approved list for American Ethnic and Multicultural Studies.
- Students are responsible for any prerequisites for courses in the areas of concentration. Plan ahead and check the catalog for details.
Option 2: Liberal Studies (LSO)

A liberal arts major with a disciplinary or interdisciplinary Special Field. This option builds on the General Education program and its global perspective to provide a flexible route to an undergraduate degree. It also lays the basis for obtaining a teaching credential in California. Students take at least two courses in the Liberal Studies Program, plus courses throughout the College of Arts and Sciences.

A special field is a collection of courses (at least 12 units) that fulfills the State of California requirement for depth of study within a multiple subject preparation program. Special Field coursework may be double counted toward a minor; an official declaration of a minor must be submitted to Registration and Records. In conjunction with the Special Field Coursework, graduating seniors prepare a final portfolio—see the Special Field Advisor (advisors are designated for each Special Field) for detailed portfolio guidelines. Portfolios are assessed on a Pass/No Pass basis. Completion of the portfolio with a Pass is a graduation requirement for the Liberal Studies Option of the Liberal Studies major, and is also required for the MSAT waiver.

The Liberal Studies Option Offers Special Fields in:

- American Sign Language
- Anthropology
- Arts and Education
- Arts and Technology
- Child Development
- Communication
- Computer Science
- Ethnic and Multicultural Studies
- Geography
- History
- Human Development
- Latin American Studies
- Life Science
- Literature and Writing Studies
- Mathematics
- Physical/Earth Science
- Political Science
- Psychology
- Sociology
- Visual and Performing Arts
Anthropology

Advisor:
Bonnie Bade, Ph.D.
Craven Hall 6125

Anthropology employs a comparative and holistic approach in the examination and analysis of human phenomena. Using the anthropological perspective, ideas and behavior are examined in relation to their ecological, economic, social, political, cultural, and ideological contexts. Cross-cultural comparison, the cornerstone of anthropology, provides insight to the diverse ways that people interact with their environments and each other. The anthropological perspective seeks to understand connections and interrelations between human ideas and behavior. Key to the anthropological approach is understanding how different aspects of culture, such as religion, medicine, kinship, economy, and governance, integrate to support social structure and functioning. Informed self-reflection and critical analysis of one's own world view assumptions and cultural belief system are fundamental objectives of the anthropological method.

Package I

ANTHROPOLOGY

Lower-division (3 units)

ANTH 200

Upper-division (12 units)

Choose three from the following courses:

ANTH 301  ANTH 330
ANTH 310  ANTH 370
ANTH 315  ANTH 498
ANTH 325

Choose one from the following courses:

SOC 314
SOC 316
SOC 320
SOC 333
SOC 341
SOC 345
SOC 347
SOC 429

ARTS AND EDUCATION

Advisor:
Merryl Goldberg, Ed.D.
Arts Hall, Third Floor

The Arts and Education special field is designed for students who wish to pursue a career in education. The primary emphasis of this special field is on developing a more thorough understanding of the arts of the world (music, theater, visual arts) and integrating the arts into the K-12 classroom. This special field is especially desirable for students planning to enter the credential program in the College of Education. Special field coursework may be double counted towards a minor in Visual and Performing Arts; an official declaration of minor must be submitted to Admissions and Records.

Upper-division (12 units)

Choose one of the following courses:

VPA 311
VPA 311

Choose two of the following courses:

MUSC 480  TA 480
VSAR 480  VPA 311

CAL STATE SAN MARCOS
ARTS AND TECHNOLOGY

Advisor:
Bill Bradbury, D.M.A.
Arts Hall, Third Floor

The Special Field in Arts and Technology will provide the student with valuable experience in computer-based music, video and visual arts. This special field is of practical value in many areas; successful students will have skills in computer graphics, multimedia, video production, digital audio recording, MIDI technology and/or web design. Special field coursework may be double counted towards a minor in Visual and Performing Arts; an official declaration of minor must be submitted to Admissions and Records.

CHILD DEVELOPMENT

Advisor:
Fernando I. Soriano, Ph.D.
Craven Hall 6108

Child development is the interdisciplinary study of growth and development during childhood and adolescence. This field uses perspectives from biology, psychology, and sociology to examine the complex interplay of body, mind, and environment in shaping developmental processes and outcomes for children and youth. The purpose of this approach is to promote a holistic understanding of child development by surveying the subject matter from several complementary and interdependent perspectives.

COMMUNICATION

Advisor:
Bud Morris, Ph.D.
Craven Hall 6208

Communication is the study of how messages are produced and received across a wide range of contexts. This involves thinking about the nature of communication, its varied forms and uses, and its multiple effects within and across societies and cultures. In studying communication, students learn how significantly communication influences their personal and professional lives in each of several roles, including those of organizational actor, consumer, cultural representative, and citizen.

Total Units: 14

*CS 301: Computer Mastery is not applicable to the special field if it is taken to fulfill the Cal State San Marcos Upper-Division Math/Science General Education (B8) requirement.

Note: Any one interested in this special field should at least pass CS 111 in his or her junior year.

Ethnic and Multicultural Studies
Advisor: Bob Yamashita
Craven Hall 6134

The Ethnic and Multicultural Studies Special Field is broadly defined to allow students to address the variety of ways in which ethnicity and multiculturalism affect our lives. A special field in Ethnic and Multicultural Studies is of practical value to all students because it enables them to understand the world where people have a variety of social and cultural differences. This understanding will enable them to value, negotiate and correctly interpret these differences and enhance their careers as future teachers or corporate managers.

The four upper-division courses required for this special field will be determined for individual students in one-on-one meetings with the designated faculty advisor. Course selection is intended to match the student’s needs. For example, the coursework might focus on African-American, Latino-American, Asian-American, or Native-American issues. Thematic issues such as the creation of racial hierarchies in Western cultures, the economic oppression of people of color in the Americas, politics and ethnic representation, and deculturalization, or schooling and deculturalization are also appropriate for coursework.

Note: Any one interested in this special field should at least pass CS 111 in his or her junior year.

Geography
Advisor: Anibal Yáñez-Chávez, Ph.D.
Craven Hall 6129

The Geography Special Field focuses on the study of dynamic relationships between people and the natural or built environments that support them. It includes spatial analysis and explanation of distinctive patterns, processes, and landscapes. It may also offer students the opportunity to use Geographic Information Systems.

Total Units: 12

Note: Alternative courses for either package may be approved by the Geography Special Field advisor.
History

History Department
Craven Hall, First Floor

History is the study and interpretation of the past, but historians are vitally concerned with the present and the future. The study of history links students across time to human experience throughout the entire world so that they can better understand both the world and their role in it at the present moment. The study of history teaches students to weigh evidence, to think critically and strategically, and to read empathetically and creatively. Because history is discipline links the humanities with the social sciences, history offers students a broad analytic framework through which to understand the world.

Latin American Studies

Advisor:
Vivienne Bennett, Ph.D.
Craven Hall 6121

Latin American Studies is the interdisciplinary study of the Latin American region, including its culture, history, economic, and political development. The Latin American Studies Special Field at Cal State San Marcos also includes the study of Latin America's impact on the United States through migration, culture, and economic integration. Latin American Studies is a useful special field for students who may teach or work in bilingual and/or bicultural programs.

**LIFE SCIENCE**

Advisor:
Thomas Wahlund, Ph.D.
Science 2 Hall, First Floor

Life science includes studies of macromolecules, cells, organisms, genetics, evolution, and ecosystems. Chemistry serves as the foundation for understanding the composition of living things and the processes that make life possible. Using our own species as an example, this special field provides a broad understanding of living systems, their components, needs, and histories. Because science inquires into the workings of the natural world, students should take advantage of opportunities to explore this world in the laboratory and field. The lower-division core in Liberal Studies requires three science courses with at least one lab experience. The Life Science Special Field requires at least four additional courses (12 or more units) beyond the lower-division core, at least 6 units of which must be taken at the upper-division level.

**Course Requirements of the Life Science Special Field**

The following courses are required in addition to the LDGE (Life science, physical science, and earth science) and LDGE BB requirements. Although either GES 102 or BIOL 211 may be taken to fulfill the LDGE life science requirement, BIOL 211 is recommended for students in the Life Science Special Field. The required chemistry course should be taken before BIOL 211.

Lower-division (5 units)

- **Units**
  - CHEM 150  5

Upper-division (9 units)

- **Units**
  - Choose three from the following courses:
    - BIOL 321
    - BIOL 327
    - BIOL 328

  - LTWR 402
  - LTWR 450
  - EDUC 400

Total Units 12

**MATHEMATICS**

Advisor:
David Chien Ph.D.
Science 2 Hall, Third Floor

The Mathematics Special Field builds on the mathematics required for the Liberal Studies lower-division core to provide depth in exposure to the power, beauty, and utility of mathematical thought. In studying mathematics, students develop the ability to explore, to conjecture, and to reason logically, as well as the ability to use effectively a variety of mathematical methods to solve problems. As a result, students are better prepared to teach according to the new standards called for at the elementary and middle school level, or to enter careers in government or private industry.
Twelve (12) units of Mathematics are required for the special field. These 12 units are in addition to the 6 units of Mathematics required for the Liberal Studies Lower-Division Core. (For the lower-division 6 units of Mathematics, MATH 210 and 212 are recommended for future teachers.)

**Package A**

**Lower-division (6 units)**

- MATH 160: 5 units
- MATH 162: 4 units
  (MATH 260 may be substituted for MATH 160 or 162)

**Upper-division (6 units)**

Choose two from the following courses:
- MATH 330
- MATH 350
- MATH 360
- MATH 362
- MATH 370

- MATH 374
- MATH 410
- MATH 440
- MATH 464
- MATH 470
- MATH 472
- MATH 474
- MATH 480

**Package B**

**Lower-division (3 units)**

- MATH 160: 5 units
  (MATH 260 may be substituted for MATH 160)

**Upper-division (9 units)**

Choose three from the following courses:
- MATH 330
- MATH 350
- MATH 360
- MATH 362
- MATH 370
- MATH 372
- MATH 374
- MATH 410
- MATH 440
- MATH 464
- MATH 470
- MATH 472
- MATH 474
- MATH 480

**Physical/Earth Science**

**Advisor:**
Paul Jasien, Ph.D.
Science 2 Hall, First Floor

Physical Science is the study of matter and energy at both the molecular and macroscopic levels. It encompasses the disciplines of Chemistry, Physics, and some aspects of the Geosciences. In studying Physical Science students will learn and apply various models to explain how the natural world works. Since science is a hands-on endeavor, students in this area are encouraged to gain laboratory experience.

This field is a good starting point for students seeking a supplementary authorization to teach middle school science in the State of California. The State requirements can be met while obtaining the Liberal Studies degree, by judiciously choosing lower- and upper-division electives to accompany their Special Field courses.

Lower-division (4-5 units)

Choose one of the following courses:
- CHEM 150: 5 units
- PHYS 201*: 4 units
- PHYS 205*: 4 units

Upper-division (9 units)

Required:
- ASTR 342: 3 units

Choose two from the following courses (One must be CHEM 311 or 314):
- CHEM 311
- CHEM 313
- CHEM 312
- CHEM 314
- PHYS 408

**Total Units:** 13-14

*Course has MATH 160 as prerequisite.

Cal State San Marcos requires a minimum of 40 upper-division units (courses numbered 300 and above) for the bachelor's degree. If a lower-division course is taken as part of the Special Field, additional upper-division electives may be required for graduation.

The above courses are in addition to the Lower-Division (Physical Science, Earth Science, Life Science) and Upper-Division General Education (BB) requirements.

Other lower- or upper-division courses in Chemistry, Physics, or Earth Science may be counted toward the Special Field. Consult your faculty advisor.
**POLITICAL SCIENCE**

Advisor:  
Vicki L. Golich, Ph.D.  
Craven Hall 6110

Political science is the study of government, individual, and institutional behavior in the public sector; relations among nation-states and non-state actors; and theories of politics and decision making. The program emphasizes empirical versus normative political science, written and oral communication, computer literacy, qualitative and quantitative research methods, as well as critical analysis of complex political relations in both domestic and global contexts. Political science addresses the fundamental issues confronting modern society—war, inequality, poverty and development, the environment—and seeks to evaluate the processes, policies, relationships, and theories that have been devised to deal with them.

**PSYCHOLOGY**

Advisor:  
Sharon Hamill, Ph.D.  
University Hall 304

Psychology is the scientific study of behavior in both humans and animals. The program emphasizes psychology as an empirical science with skills and competencies that include writing, research, critical analysis of complex problems, knowledge of human behavior and characteristics, increased self-understanding and insight into the behavior of others. Psychology covers a wide range of topics in behavior, from the inner workings of the brain and body to the ways social environments exert their influences. In an emerging global community, multicultural perspectives are seen as integral elements.

The Special Field in Psychology prepares students for careers in a variety of psychology-related settings including mental health agencies, hospitals, teaching institutions, business, industry, and public organizations.

**Units**

Transfer students with upper-division Psychology courses from other institutions may petition to include up to two (6 units) upper-division Psychology transfer courses for the Psychology Special Field. Students should initiate the petition process as early as possible in order to properly plan for course work and portfolio projects. Please meet with the designated Psychology Special Field Advisor.
Sociology
Advisors:
Linda Shaw, Ph.D.
Craven Hall 6113

Sociology is the study of human societies, the institutions, organizations, and groups that compose them, and of the way individuals and groups in society relate to one another. A sociological perspective is vital to an understanding of contemporary social issues such as inequality based in race, class, and gender as well as the areas of youth and aging, families, crime and juvenile delinquency, and health and mental health. A special field in sociology is highly relevant to careers in education, human services, social work, criminal justice, and health related professions.

Upper-division (12 units)

Choose one course from the following courses:

SOC 206*#  SOC 311
SOC 300  SOC 320

Choose three from a cross the following two special topic areas:

Children, Youth, and Families
SOC 203*#  SOC 301
SOC 322  SOC 303
SOC 323  SOC 315
SOC 417  SOC 317
SOC 486  SOC 319

Communities and Institutions in Contemporary Society

SOC 305  SOC 341
SOC 307  SOC 345
SOC 313  SOC 347
SOC 316  SOC 361
SOC 321  SOC 413
SOC 324  SOC 443
SOC 328  SOC 337

Total Units 12

Notes:
SOC 485D or 495 may be substituted for any one course from the special topic areas.

A maximum of one transfer course in Sociology, subject to advisor approval, may be applied to the Sociology Special Field.

*A minimum of 40 upper-division units (courses numbered 300 and above) are required for the bachelor's degree. If a lower-division course is taken as part of the Special Field, additional upper-division electives may be required for graduation.

#Only one 200-level course may be applied to the Sociology Special Field.

Visual and Performing Arts

Advisor:
Merryl Goldberg, Ed.D.
Arts Hall, Third Floor

The Visual and Performing Arts Special Field affords students the opportunity to pursue an interest in the arts (music, theater, video, visual arts) as part of a broader general education in Liberal Studies.

Courses may be selected from a single discipline (e.g., an emphasis in music) or a combination of disciplines (e.g., music/theater or computer art/video). Special field coursework may be double counted towards a minor in Visual and Performing Arts; an official declaration of minor must be submitted to Admissions and Records.

Upper-division (12 units)

Choose four courses in:

MUSIC, TA, VSAR, and/or
VPA (with approval of VPA Special Field Advisor)

Option 3: Integrated Credential Program Option (ICPO) – Bachelor of Arts in Liberal Studies and Multiple Subject Credential/CLAD (91 units)

The Integrated Credential Program Option provides students with a Bachelor of Arts Degree with a major in Liberal Studies from the College of Arts and Sciences and a Multiple Subject Credential/CLAD from the College of Education. The Integrated Credential Program Option consists of six themed semesters of upper-division and post-baccalaureate courses that are taken in both colleges.

Important Notes:

1. As part of the ICPO course work, students select a four-course Special Field as in the Liberal Studies Option of the Liberal Studies major.

2. In order to receive the Bachelor of Arts degree and the Multiple Subject Credential within three years of attaining upper-division status, students must complete all courses each semester as described in the curriculum below.

3. Students will be expected to take the 9-13 units of required core courses each semester as a cohort. The core courses are offered in blocks each semester, and students must take all courses in the block.

4. It is anticipated that in semesters 1-5, students will take one or more of the required non-core courses in addition to the required core courses. While the required non-core courses may be taken out of sequence (i.e. during additional semesters or during upper and summer terms), it is urged that whenever possible they be taken in the semester indicated.

5. Students who drop out of the Integrated Bachelor of Arts and Multiple Subject Credential Program may count up to 13 units of COE courses from this Program as electives towards their B.A./B.S.

6. All Liberal Studies majors must be sure to satisfy Upper-division General Education requirements in their selection of courses (one BB, one CC, and one DD course). Special Field courses may not be used to satisfy this requirement.

7. Students seeking a BCLAD (bilingual credential) will be required to register for EDML 553 and 554 at times to be determined in consultation with COE faculty advisors in bilingual education.
**COURSE SEQUENCE**

**Semester 1:**
*School and a Multicultural Society*

**CORE REQUIREMENTS**
- EDUC 350B* 
- EDUC 364B* 
- ID 340B 

**NON-CORE REQUIREMENTS**
- Computer Competency Requirement, or if not needed, another unmet requirement, or an elective 
- Any UDGE Area CC Course 

Total units in Semester 1: 15

**Semester 2:**
*Language, Culture and Learning*

**CORE REQUIREMENTS**
- EDMS 526B 
- EDMS 540B 
- LING 371B 

**NON-CORE REQUIREMENTS**
- Art course 
- VPA 380D 

Total units in Semester 2: 15

*Count as electives for the B.A. in Liberal Studies.*

**Semester 3:**
*Mathematics*

**CORE REQUIREMENTS**
- EDMS 527B 
- EDMS 543B 
- MATH 311 
- EDMS 560B 

**NON-CORE REQUIREMENTS**
- Special Field Course #1 

Total units in Semester 3: 14

**Semester 4:**
*Science*

**CORE REQUIREMENTS**
- EDMS 545 
- ID 381 
- LBST 361 

**NON-CORE REQUIREMENTS**
- Special Field Course #2 
- Special Field Course #3 

Total units in Semester 4: 15

**Semester 5:**
*Community*

**CORE REQUIREMENTS**
- EDMS 544B 
- One Community Course - A designated* Interdisciplinary Social Science course. 

**NON-CORE REQUIREMENTS**
- Special Field Course #4 
- GEOG 301 

Total units in Semester 5: 15

**Semester 6:**
*Professional Practice*

**CORE REQUIREMENTS**
- EDML 552B 
- EDMS 562B 
- LBST 575 or EDMS 575B 

**NON-CORE REQUIREMENTS**
- There are no required non-core courses for Semester 6 

Total units in Semester 6: 13
LITERATURE AND WRITING STUDIES

Office: Craven Hall, Sixth Floor

Telephone: (760) 750-4147

Department Chair: Susie Lan Cassel, Ph.D.

Faculty:
Oliver Berghof, Ph.D.
Duff Brenna, M.A.
Susie Lan Cassel, Ph.D.
Dawn M. Formo, Ph.D.
Judy Jordan, M.F.A.
Kenneth P. Mendoza, Ph.D.
Anel Rallin, Ph.D.
Heather Richardson-Hayton, Ph.D.
Martha Stoddard Holmes, Ph.D.
Yuan Yuan, Ph.D.

Programs Offered:
- Bachelor of Arts in Literature and Writing Studies
- Single Subject Preparation Program Option
- Minor in Literature and Writing Studies
- Master of Arts in Literature and Writing Studies

The Literature and Writing Studies Program replaces the former English major and provides three emphases: literature, writing, and a "waiver" option for students who wish to apply for a secondary teaching credential or who prefer a major that more equally balances literature and writing than the first two options. Students continuing in prior catalogs may pick up a list of old and new course equivalencies at the Department Chair's office or in the Department's Administrative Coordinator's office. In all major options, the LTWR 300A and 300B sequence is required and students are urged to enroll in LTWR 300A the semester they begin work on their major. Three- and four-hundred level courses may be taken with junior standing (or with consent of the instructor) and in any order; although higher-numbered courses may presume more background than those with lower numbers. Five-hundred level courses are graduate level that may also be taken by advanced undergraduates.

Literature Emphasis

In keeping with the multicultural and inter-disciplinary philosophy of Cal State San Marcos' Mission Statement, the literature major provides students with a global literary experience, which may be best described under the general rubric of "cultural studies." In its broadest sense, this term implies that literature and other cultural artifacts are studied as reflections and expressions of the cultures that value them. Studied in this context, literature is viewed not only in terms of its form and style, its relation to previous traditions and genres, its rhetoric and language, but in terms of its use in constructing social and cultural identities. Cultural studies may involve comparative approaches between "high" and "low" forms of expression; it may concern itself with new kinds of media (film, video, computers); it usually involves issues of social status, gender, ethnicity, and national demographics; it often examines relationships between various kinds of cultural documents (historical records, archives, newspapers, novels).

From a pedagogical point of view, cultural studies stresses cross-cultural contexts of a given literature, exploring not only the dominant literary tradition of a culture, but also the indigenous, marginalized or unrecognized literatures within that tradition. These "literatures" take multiple forms: oral tale, comic book, folk narrative, national epic, or avant garde poem.

The design of the literature emphasis reflects many recent movements in literary criticism and research. Our approach is not a method of teaching or scholarship so much as an attitude towards literariness such that writer, text, and audience are linked in a dynamic, on-going dialogue. Studying literature within cultural studies means going outside of the traditional canon, drawing upon research in related fields of history, sociology, visual arts, ethno-musicology, media theory and political science. At the same time, the major encourages greater concern for the material and formal nature of artifacts that, until recently, were thought to be transparent vehicles for self-evident ideas. To study a literary text implies that we address the "cultural text" as well.

Writing Emphasis

The writing emphasis provides directed experience in writing expository prose, fiction, poetry for various media or professional audiences, as well as intensive work in practical criticism. An integral feature of the program places emphasis on student interaction through peer-groups. Students who are developing themselves as writers will find courses regularly offered in various genres to develop their own style and breadth of experience in composing and criticism. Those interested in the teaching of writing will find the major a context both for writing extensively and for dealing critically with the act of written composition.

Special Conditions for the Bachelor of Arts in Literature and Writing Studies

1. Courses taken to satisfy General Education requirements may not be used to satisfy the requirements in the major.
2. Credit/No Credit grading may be counted toward the major only for LTWR 495 and 499.
3. Elective units in literature and writing studies may be used toward a minor in another discipline. Consult the appropriate program coordinator or faculty advisor for further information.
4. Course substitutions must be approved by petition to the Literature and Writing Studies Curriculum Committee.
5. All courses taken for the major must be completed with a grade of C (2.0) or better.
6. All five-hundred level courses have the prerequisite of either LTWR 300A or LTWR 300B.

CAL STATE SAN MARCOS
SINGLE-SUBJECT PREPARATION OPTION

The Single-Subject Preparation Option is designed for students who want to teach English in secondary schools in California. Students following this option obtain a Bachelor of Arts in Literature and Writing Studies and also complete a Single-Subject Preparation Program in English (formerly called a "waiver" program). Upon completion of the option, students may apply to a Single-Subject Credential Program (through a College of Education) where they complete a fifth year of professional training to be certified as a high school or junior high school teacher in English in California.

Students in this option must maintain a 2.7 GPA, and a portfolio of work is required.

The Single-Subject Preparation Program in English is also available to students who have already graduated from Cal State San Marcos or elsewhere. In such a case, a student should make an appointment with the advisor for a transcript evaluation.

Total Units: 39

**MINOR IN LITERATURE AND WRITING STUDIES**

Students in many vocational fields often find that special skills in reading or analysis as well as writing are useful in their future work. The minor is intended to develop those skills. The minor consists of fifteen (15) units of upper-division course work and three (3) units of lower, preparatory course work. Courses taken for Credit/No Credit grading may not apply to the minor. All courses taken for the minor must be completed with a grade of C (2.0) or better.

Lower-division (3 Units)

- LTWR 100

Upper-division (15 units)

- LTWR 300A
- LTWR 300B

Nine (9) units of approved electives in Literature and Writing Studies

Total Units: 18
MASTER OF ARTS IN LITERATURE AND WRITING STUDIES

The Cal State San Marcos Literature and Writing Studies Department offers graduate study leading to the Master of Arts degree. Our mission is to prepare students for study at the doctoral level, teaching at the elementary and community college level, and occupations in the private and the public sectors that require a high degree of literacy. Rather than offering an emphasis in literature or writing studies at the master’s level, our program aims to balance and integrate these activities. Since we read writing and write reading, we see no purpose in studying one without the other. To do so would deny the integrity of our discipline.

In the same spirit, we wish to merge the roles of teacher and student. Because most of our students are, or eventually will be, teachers, our intention is to provide a graduate teaching apprenticeship within the program that begins with classes, seminars, and close faculty mentoring, leading to internships, tutoring, and teaching assistantships. Qualified students may tutor students with writing problems or teach general education writing courses. Internships may also be arranged at community colleges or the California Center for the Arts. We view students in this program as our colleagues in the educational enterprise.

Admission Requirements and Application

Admission to the program requires a bachelor’s degree, preferably in English, literature and writing studies, comparative literature, rhetoric, linguistics, or a comparable program.

Applicants with these and any other bachelor’s degree must have taken at least five upper-division courses of 3-4 units each in literature or writing from an accredited university. Admission decisions will be influenced by the breadth, appropriateness and grades of undergraduate coursework. Applicants must have maintained a grade-point average of not less than 3.0 in the last 60 units of undergraduate study, and a 3.3 average in upper-division literature and writing courses.

All applicants must take the Graduate Record Examination (GRE). It is unlikely that students will be admitted with combined verbal and analytical scores of less than 1000, or a verbal score of less than 500.

All applicants, regardless of citizenship, whose preparatory education was principally in a language other than English, must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Literature and Writing Studies Department (see address below)

- A completed application form for admission to the Master's Program in Literature and Writing Studies sent to the department.
- One set of official transcripts from all colleges and universities attended, with indication of graduation.
- A 750-1000 word “statement of purpose.” This statement should address educational and career goals, relevant educational background and research experience.
- A writing sample. This should be an analytical essay of no less than five pages on a literary topic. The essay should not be written for the purpose of admission, but instead provide a sample of the applicant’s best undergraduate work.
- GRE (and TOEFL/TWE, if appropriate) score reports.
- Three letters of recommendation (except undergraduate Literature and Writing Studies majors at Cal State San Marcos, who should indicate on the application form with whom they have taken courses as undergraduates).

Application Materials (consisting of a Departmental Application Form, a California State University Admissions booklet and a leaflet describing the program) are available upon request from the Literature and Writing Studies Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:

- November 15th for admission in Spring Semester.
- March 15th for admission in Fall Semester.
- The application fee must be submitted to the Admissions Office by these deadlines.
- Applicants will be notified of their status of application by January 1 for Spring admission and by June 1 for Fall admission.

Application may be made for Fall or Spring admission, but class and seminar scheduling (as well as available spaces) favor Fall applicants.
Degree Requirements

The program requires 30 semester hours (10 courses, one of which is thesis work) of studies, at least 18 units must be at 600 level. No more than six (6) units may be taken at the 400 level. Required courses are LTWR 525, 600, and 601, which should be taken as early as possible. Please note that LTWR 525 requires the instructor’s consent. LTWR 602 is required of graduate students who teach in the GEW program. Enrollment in LTWR 602 requires the instructor’s consent and a passing score in all three sections of the “GEW Teaching” exam. A substantial thesis, approved and directed by the student’s thesis committee, is also required of all students. The grade-point average must be at least 3.0 to graduate.

The typical full-time student will complete the program in four semesters. Units earned not in residence at Cal State San Marcos are limited to six, and must be approved by the Graduate Studies Advisor(s). A maximum of nine units of courses graded credit/no credit (usually internships, independent study, and thesis work) will be accepted in the program.

Finally, students must satisfy a foreign language requirement. Each candidate, with the approval of the graduate advisor, may fulfil the foreign language requirement in one of several ways: (1) by passing the Modern Language Association Reading Examination, (2) by passing a local examination administered by the university’s foreign language assessment process, (3) by completing one three-unit upper-division foreign language literature course with readings in the original language with a grade of C (2.0) or better, (4) by passing an examination to be determined by the Literature and Writing graduate advisor if the chosen language is not one taught in a program at Cal State San Marcos, (5) by successfully completing LTWR 511.

Academic Continuation

To continue in the graduate program, students must maintain a minimum cumulative grade point average (GPA) of 3.0 (A=4). A student whose cumulative grade GPA falls below 3.0 at any time is placed on academic probation. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program. Each student must present a formal thesis proposal to the thesis committee no later than the beginning of the third semester of study for full time students, or after eighteen units have completed for part-time students. In addition, each student has to defend the completed thesis in front of his/her committee no later than four semesters following the approval of the thesis proposal. The overall time limit for the degree is three years for full-time students and five years for part-time students.

Student Portfolio

Each student has to assemble a portfolio of work completed while he or she is enrolled in the program. The portfolio consists of copies of all papers in their final form, which ought to be submitted to the Department's Administrative Coordinator as soon as they are submitted to the instructor for a grade. The Department's Administrative Coordinator will then file them in the student’s file. The student portfolio will be used for advising purposes and in evaluating the student’s thesis proposal.

Thesis Proposal

The thesis proposal consists of three parts: (1) the Literature and Writing Studies Program Thesis Committee Membership Form, (2) a thesis proposal (300-500 words), which includes proposed areas of research or topics of research, a bibliography, an outline of each chapter, a working plan of completion, and (3) the student portfolio. The thesis proposal has to make a case for the validity of the project. By the second week of either fall or spring semester, the student has to have filled out a Thesis Membership Form and filed it, accompanied by a thesis proposal, with the Department’s Graduate Studies Advisor, the members of the thesis committee, and the Department’s Administrative Coordinator. It is not necessary to circulate copies of the student portfolio, which will remain on file with the Administrative Coordinator.

Advancement to Candidacy

After completing fifteen units of study in the graduate program, the student may apply for advancement to candidacy. Students will be advanced to candidacy upon approval of their thesis proposal by the thesis committee. In some cases the student may be asked to discuss the proposal in the presence of all committee members.

Thesis Requirements

Research leading to the thesis will be the culminating experience for each student enrolled in the Master’s program. The thesis will be a substantial product of research carried out under the close supervision of a faculty advisor and two additional thesis committee members. The student must submit the final thesis to the thesis committee at least two weeks prior to the oral defense and orally defend the final thesis at least two weeks prior to the end of a regular semester. Thesis work has to be submitted to the Department’s Graduate Studies Advisor by May 1st for graduation in Spring Semester, or by December 1st for graduation in Fall Semester. In exceptional cases, thesis work can be completed in a 700-level thesis extension course.

M.A. Thesis Options

Students have three options:

- a thesis of 50-80 pages that represents a carefully developed argument
- in exceptional cases: three 30-page publishable papers
- a "creative writing thesis," consisting of a 2-5 page abstract and either a complete manuscript of fiction (minimum 150 pages), a play or screenplay (90-120 pages), or a collection of poems (minimum 60 pages).
The third option is open to students based on completed coursework in consultation with the creative writing faculty and the Department’s Graduate Studies Advisor. It involves at least six units of creative writing coursework at the 500-level and assembling a portfolio.

To get credit for work on their theses, students have to sign up for LTWR 690 (Graduate Research) while conducting research and writing drafts on their theses, and for LTWR 699 (Graduate Thesis) in the semester, at the end of which they expect to turn in the revised and completed theses. LTWR 690 can be repeated only once. The prerequisite for enrolling in LTWR 699 is the completion of 24 units in the graduate program, or the consent of the chair of the thesis committee.

**Graduate Teaching Assistantships**

Graduate Assistantships in the University Writing Center may be available to qualified students. Apply for internships and paid positions with the Writing Center Director. Teaching Assistantships will be determined on the basis GEW Teaching Exam, which is administered in April and November. Qualified students are those who have completed a successful internship in the Writing Center, who exhibit exemplary work in LTWR 525 and who successfully complete the GEW Teaching Exam. Students may also wish to consult the University’s Office of Financial Aid for alternative means of financial support.

Non-paid graduate teaching internships at Palomar College and MiraCosta College are also available through the Literature and Writing Department.

**Appeals**

A graduate student who is aggrieved about a course grade, candidacy decision, or degree requirement should first discuss the matter with the relevant faculty member or the Department Graduate Studies Advisor. If the matter cannot be resolved informally, then the student may file a formal grievance in accordance with Cal State San Marcos policy, first with the Department Graduate Studies Committee, then, if not resolved at this level, with the Chair of the Literature and Writing Studies Department, then with the Dean of Arts and Sciences.

**Failed Thesis Proposal**

The student will be put on probation if the student fails to come up with the thesis proposal by the fifth week of the semester prior to the expected semester of graduation, or if the student fails to get approval of his/her thesis proposal from his/her committee. Upon petition to the Department’s Graduate Studies Committee, the student may be given one more chance to develop an acceptable proposal three weeks prior to the end of the semester. The student will be dropped from the program if the student fails to get his/her thesis proposal approved by his/her committee the second time.

**Failure to Complete the Thesis**

The student will be dropped from the program if the student fails to complete his/her thesis four semesters after the approval of his/her thesis proposal. The student may petition the Department's Graduate Studies Committee for special consideration to extend the limit at one-year intervals. The petition must state the reason for the extension and a specific plan to complete all the requirements. The Department’s Graduate Studies Committee will act on the petition in writing.

**Failed Thesis Defense**

The student will be put on probation if the student fails the oral defense of the thesis prior to the time limit for the degree. The student will be dropped from the program if the student fails the oral defense of the thesis after having reached the time for the degree. The student may petition the Department’s Graduate Studies Committee for specific consideration to repeat the oral defense. The petition must give reasons why the defense ought to be repeated and a specific time line to prepare for an oral defense in the following semester. The Department’s Graduate Studies Committee will act on the petition in writing.
Opportunities for graduates in mathematics are as diverse as they are plentiful. Mathematicians are sought by universities, governmental agencies, and private industry and they contribute in direct and fundamental ways to human activity. Mathematics majors can pursue a career in the teaching of mathematics at the college, high school, or middle school levels. Medical schools, law schools, graduate schools, and employers in fields such as economics, accounting, management sciences, mathematics, natural sciences, social sciences, computer science, statistics, and communication seek graduates in mathematics. The degree program at Cal State San Marcos prepares its mathematics majors to meet any of these challenges.

Preparation
High school students are encouraged to take four years of English, four years of mathematics including trigonometry, one year of biological science, and one year of physical science. Courses in calculus, physics, and computer programming are recommended. Experience in clear, concise, careful writing is valuable for success in all courses.

Transfer Credits
A maximum of thirteen (13) lower-division units in mathematics may be applied toward the lower-division calculus requirement for the mathematics major. These units must be for courses which appropriately match the description of this catalog for MATH 160, 162, and 260.

A maximum of seventeen (17) lower-division units may be transferred towards the non-mathematics supporting courses for the major in mathematics. Up to eight (8) of these units may be for courses which appropriately match the description of this catalog for CS 111 and PHYS 201.

Up to nine (9) units may be for courses which appropriately match the description of this catalog for other courses listed in the non-mathematics supporting course requirement. The Office of Admissions should be consulted to ascertain the campus' articulation agreements with the local community colleges.

Special Requirements for the Bachelor of Science and Minor in Mathematics

Students may not use a mathematics course for the required three (3) units of upper-division General Education, area B (Mathematical or Natural Sciences).

Each course submitted toward either the mathematics major or minor must be completed with a grade of C (2.0) or better. No more than a total of three (3) units of either MATH 498 or MATH 499 may be applied. No more than three (3) units of MATH 496 may be applied. For the major, a minimum of fifteen (15) upper-division units in mathematics must have been completed at Cal State San Marcos. For the minor, a minimum of six (6) upper-division units in mathematics must have been completed at Cal State San Marcos.

SINGLE-SUBJECT PREPARATION PROGRAM IN MATHEMATICS

Students interested in teaching mathematics at the secondary level may wish to complete the Single-Subject Preparation Program (SSPP) in Mathematics. A prospective teacher qualifies for the Single Subject Teaching Credential in Mathematics by completing the SSPP and earning a Bachelor's degree. Students interested in the SSPP should consult either their mathematics advisor or the mathematics SSPP Coordinator as soon as possible to obtain detailed information on GPA requirements and the portfolio of work which must be compiled, as well as advice on how to best coordinate completion of the SSPP and the Bachelor of Science in Mathematics.

Coursework Requirements:

**Course Requirements:**

- MATH 160 5
- MATH 162 4
- MATH 260 4
- MATH 330 3
- MATH 350 3
- MATH 360 3
- MATH 374 3
- MATH 410 3
- MATH 440 4
- MATH 470 3

Choose one of the following courses:

- MATH 262 3
- MATH 362 3

Choose one of the following courses:

- MATH 372 3
- MATH 522 3

Choose one of the following courses:

- MATH 464/CS 464
- MATH 480

Choose one of the following courses:

- MATH 472
- MATH 474

Any mathematics course numbered 410 through 599 approved for the mathematics majors, and not already used to satisfy a requirement above

- EDUC 350 3

**Total Units**

53

**MINOR IN MATHEMATICS**

**Lower-division (9 units)**

- MATH 160 5
- MATH 162 4

**Upper-division (15 units)**

- MATH 350 or 370 3
- MATH 374^ 3

^MATH 260 (4 units) may be substituted for MATH 374 if MATH 260 is not used as an upper-division elective.

Nine (9) elective units chosen from the following courses:

- MATH 330
- MATH 362
- MATH 360
- MATH 372

Any mathematics course numbered 410 through 599.

^MATH 260 (4 units) may be substituted for an upper-division elective if MATH 260 is not substituted for MATH 374

**Total Units**

24-25
MASTER OF SCIENCE IN MATHEMATICS

The Master of Science Program in mathematics at Cal State San Marcos is designed to provide breadth of exposure in the mathematics and to enhance the intellectual attitudes and the analytic skills needed for comprehension, appreciation, creation, and application of mathematics. There is a deliberate, applicable emphasis in the courses in the program, and many courses are delivered in a computerized environment. The program will provide students opportunity for computer enhancement of many mathematical concepts, for learning connections between various areas of mathematics, for developing good mathematical communication skills, for developing independent learning skills, and for cooperative group problem solving.

Graduates will be prepared for a wide range of career opportunities, as the skills and attitudes fostered in the program are in demand in academe, business, government, and industry. In particular, graduates will be well-prepared to teach in secondary schools, community colleges, and some four-year colleges. They will be prepared to enter a doctoral program in mathematics or mathematics education. The computational and applicable orientation of the program will offer graduates significant training for careers as mathematical scientists in business, government, and industry. There will be opportunity, on a limited scale, for students to serve as student assistants for the undergraduate mathematics program or to assist faculty in their scholarly activity.

Admission Requirements and Application

Admission to the program requires an undergraduate major in mathematics or related field (such as computer science), which includes the equivalent of MATH 360 and MATH 470. Admission also requires a 2.5 grade point average in the last sixty (60) units attempted at the undergraduate level, and a 3.0 grade point average in the last thirty (30) units of the undergraduate major. Students who have deficiencies in admission requirements that can be removed by specified additional preparation may be admitted with conditionally classified graduate status, but the units earned to remove these deficiencies may not be used towards the Cal State San Marcos Master of Science.

All applicants, regardless of citizenship, who do not possess a Bachelor's Degree from a post-secondary institution or a country where English is the principal language, must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Mathematics Department (see address below)

- A request for entry to the M.S. program via letter, which also includes an expository description of the student's educational preparation and career aspirations;
- One set of official transcripts from all colleges and universities attended and official indication of graduation (if not in English, certified English translations must be included); and
- At least two letters of recommendation from individuals who can comment on the mathematical capabilities of the applicant.

Application Deadlines:

Applications, including verification of English proficiency, should be received in the department by:

- March 15th

However, applications will be accepted as long as space allows.
Degree Requirements

The Master of Science in Mathematics requires thirty-six (36) units of coursework with an overall of at least 3.0 grade point average. At least twenty-seven (27) of these units must be at the 500-level or above, and any 400-level courses must be approved by the department. No course, or equivalent, which is required for a Bachelor of Science in Mathematics at Cal State San Marcos can be used to satisfy these requirements. At least thirty (30) units towards the degree must be earned at Cal State San Marcos; any units not earned in residence at Cal State San Marcos must be approved by the department. All requirements must be satisfied within five years of initial acceptance into the program.

Two options are available:

- Thirty (30) units of non-thesis coursework, six (6) units of MATH 699, and a Masters Thesis, or
- Thirty-six (36) units of non-thesis coursework [at least fifteen (15) units of which comprise a concentration in some specialty within mathematics], a masters project, and a comprehensive examination.

Continuation

Students must earn a 3.0 overall average in graduate coursework in order to graduate. Student are limited to a total of three (3) C's in their graduate coursework. Any student earning four (4) or more C's will be dropped from the program.

Advancement to Candidacy

Upon the completion of at least nine (9) units towards the degree, but prior to the completion of eighteen (18) units towards the degree, the student should meet with the program advisor in order to develop a formal program of study for the degree. This formal program is an agreement between the student and the University on the specific plan to be followed in order to fulfill the requirements for the degree. If the student opts for the thesis, then it is the responsibility of the student to obtain the permission of a tenured or tenure-track mathematics faculty member to act as the student's thesis advisor and chair of the student's thesis committee. The student and thesis advisor should recommend to the program advisor the names of two other tenured or tenure-track mathematics faculty to fill out the thesis committee. The plan of study should include courses remaining to be taken, the names of three faculty composing the thesis committee (if opting for the thesis), and the general subject of the thesis or project.

The student is advanced to candidacy for the Master of Science degree upon completion of this plan and completion of eighteen (18) units towards the degree with at least a 3.0 grade point average. Changes in the study plan must be approved by the program advisor and the student's thesis advisor. No student may enroll for MATH 699, initiate a project, or sit for a comprehensive exam before being advanced to candidacy.

Thesis or Project Requirements

A thesis is the written result of a systematic study of a significant mathematical problem. It defines, develops, and executes an investigation into a chosen problem area. The motivation, approach, and results of the investigation are communicated in a clear and logical fashion; it is grammatically correct, logically organized, and mathematically sound. The finished product evidences originality, critical and independent thinking, and thorough documentation. The thesis must be planned, organized, executed, and completed while enrolled in the masters program. It must be a coherent, substantial document, appropriate for six (6) units of graduate coursework. Midway during the thesis work, the student shall make an oral presentation to his or her thesis committee on progress to date.

Guidelines for preparing and officially submitting the thesis can be obtained from the Department Chair’s Office. The final copies of the thesis are to be in the hands of the members of the thesis committee at least two weeks prior to a required oral, public defense of the thesis which must be held at least one week prior to the end of a regular semester.
A project is the written result of a comprehensive analysis of a particular mathematical problem encountered during the coursework of the student. The composite elements are as for a thesis, but the scope is more narrow; much like a term paper. The faculty member in the course in which the problem arose will act as the project advisor, and the project must be approved by the program advisor.

Examples of projects are expository reports on one or more existing papers in the literature on some topic, the design and implementation of a solution algorithm for a specific problem, or modest research efforts on a suitable topic. A project must be completed at least four weeks prior to the end of a regular semester. An oral presentation of the project to the faculty of the department is required. The presentation should summarize the analysis in a clear and concise manner.

Both the thesis and the project must demonstrate mathematical skills and general scholarship at a level expected of a professional mathematician. Mathematical skills can be demonstrated by the development of new mathematics, critical evaluation of existing mathematics, application of existing mathematics to non-mathematical contexts, or development of mathematical models. General scholarship refers to understanding, organizing, and communicating knowledge relevant to the undertaking in a conventionally acceptable format.

**Comprehensive Exam**

A comprehensive examination is a written examination administered during the final semester of the student. It is intended as a culminating experience for the masters degree, and it is used to assess the student's ability to integrate his or her knowledge of mathematics, to think critically and independently, and to demonstrate mastery of the coursework. The problems will reflect the coursework of the student, and the student's responses will be evaluated both on the basis of logical correctness as well as on written presentation. The examination will be offered as needed at most once each regular semester, at least four weeks prior to the end of the semester. Students intending to write the exam during a given semester must notify the program advisor before the end of the fourth week of that semester.

**Graduation**

A student planning to graduate at the end of a given regular semester must meet with the program advisor by the end of the student's previous regular semester in order to evaluate those plans. All pertinent requirements described above concerning courses, the thesis, the project, and the comprehensive exam must be evaluated during this meeting. Candidates for the degree who attain a grade point average (calculated on work at Cal State San Marcos only) of 3.75 or greater may, upon recommendation of the mathematics faculty, graduate with distinction.
MINOR IN PHILOSOPHY

Office:
Craven Hall, Sixth Floor

Telephone:

Program Director:
Michael McDuffie, Ph.D.

Faculty:
Manuel Arriaga, Ph.D.
Michael McDuffie, Ph.D.

Program Offered:

• Philosophy Minor

The Philosophy Minor provides a brief but comprehensive introduction to the study of philosophy. A sequence of courses in the history of philosophy serves as the core of the program. Students trace the emergence of Western philosophy from its origins in ancient Greece, examine the role of philosophy in shaping the modern world view, and study traditional Western and non-Western approaches to ethics. The aim of these courses is to offer an integrative approach to the study of philosophy. The basic areas of philosophy, such as ethics, metaphysics, and theory of knowledge, are presented as interconnected fields of inquiry, related to wider cultural and historical contexts. Elective courses may be chosen to extend and complete this survey of the history of philosophy, or to offer a more focused and specialized study of some area of philosophy. The minor begins with a course in logic or critical thinking, and also requires a course in theory applied to a discipline outside of philosophy, in order to demonstrate the force of philosophical thought in other academic fields.

As a complement to the student’s major field of study, the Philosophy Minor serves the following objectives:

• to introduce the student to the basic thematic areas of philosophic study (logic, metaphysics, epistemology, ethics, etc.);
• to introduce the student to a variety of philosophical traditions, Western and non-Western;
• to foster the student’s understanding of philosophical issues related specifically to the academic disciplines, including the student’s major field of study;
• to help the student achieve greater understanding of the relations between academic fields and the importance of interdisciplinary inquiry;
• to help the student appreciate the practical applications of philosophical investigation in matters of social and personal concern;
• and overall, to enrich and broaden the student’s intellectual life.

As core values, the Philosophy Minor emphasizes the importance of critical and creative thinking, clear and coherent use of language, openness to plural approaches to problems, and the importance of multiple cultural traditions within the field of philosophy.

Philosophy Minor Requirements

Note: Courses used to satisfy requirements of the minor may also be used to fulfill GE requirements. Students may apply up to nine units of transfer credit toward the minor. Students must earn a grade of C or better in each course for the minor.

**Program Director:**
Graham Oberem, Ph.D.

**Faculty:**
Charles De Leone, Ph.D.
Richard H. Karas, Ph.D.
Graham Oberem, Ph.D.

**Program Offered:**
- Minor in Applied Physics

The Minor in Applied Physics offers students majoring in another discipline the opportunity to gain a deeper understanding of digital electronic circuits, particularly as applied to the design and construction of computer hardware. In the high technology industry, it is important to understand the function of electronic sensors, and controllers, and how such devices are used in data capture, transmission and storage. At the lower-division, the Minor in Applied Physics builds a broad foundation of physical concepts that are needed to understand the operation of electronic circuits, semiconductor devices, and data transmission networks. At the upper-division, the program emphasizes digital electronic hardware design, with significant hands-on experience in building and testing computer-related circuits, while at the same time providing opportunity for specialization and deeper understanding of some aspects of physics. Students must earn a grade of C (2.0) or better in each class in the minor.

**Course Requirements**

Completion of twenty-three (23) units, eleven (11) of which must be at the upper-division.

**Recommended Course of Study:**

POLITICAL SCIENCE

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-4147

Department Chair:
Vicki L. Golich, Ph.D.

Faculty:
Staci Beavers, Ph.D.
M. Kent Bolton, Ph.D.
Vicki L. Golich, Ph.D.
Cynthia Chavez Metoyer, Ph.D.
Stephen Nichols, Ph.D.
Edward Thompson, III, Ph.D.
Peter R. Zwick, Ph.D.

Programs Offered:
- Bachelor of Arts in Political Science
  - General Concentration
  - Global Concentration
- Minor in Political Science

Political science is the study of government, individual, and institutional behavior in the public sector; relations among nation-states; and theories of politics. Political science addresses the fundamental issues confronting modern society — war, inequality, poverty, the environment — and seeks to evaluate the processes, policies, and theories that have been devised to deal with them.

Typically, the discipline of political science is subdivided into topical fields: U.S. government and politics, including the subfields of public law, public administration, and public policy; comparative politics, which deals with government and politics within nations other than the United States; international relations, which is the analysis of politics among nations, including foreign policy, war and peace, and political economy; and political theory, which encompasses political thought throughout the ages as well as contemporary approaches.

The Political Science Program at Cal State San Marcos offers courses in each of these areas and invites students to explore a broad spectrum of topics. Political science majors may choose between a general concentration, which provides wide exposure to the fields of political science, and a global concentration, which offers majors an opportunity to focus on foreign political systems and international relations. Majors and non-majors alike are encouraged to think critically, independently, and objectively about government and politics. The goal of the program is to produce informed, empowered citizens who will contribute to their national and global communities.

Career Opportunities

A political science major opens the door to a broad spectrum of career opportunities. Many political science majors eventually pursue careers in law, and a number of political science courses focus on legal issues and processes. A political science major is also excellent preparation for those contemplating careers in government service and public administration, either at the federal or state levels. Possibilities include working on the staff of an elected official or legislative body, working for a government agency, or serving as an elected public official. Political science is an excellent major for those planning careers in the foreign service agencies of the U.S. government, international political organizations, and international corporations. Teaching in the public schools, or at the college and university level after doing graduate work, is another popular career option for political science majors. Finally, many political science majors choose to pursue careers in business and industry.

Preparation

High school students should take four years of English, including composition, and social science and civics courses, including history and economics. A familiarity with computers is also desirable. Community college transfer students should take a basic course in U.S. political institutions, which will fulfill the state code requirements for U.S. History, Constitution and American Ideals. An introductory statistics or elementary political analysis course are also helpful. Other lower-division political science and social science courses are highly recommended.

A maximum of three (3) lower-division units in political science may be transferred for credit toward the major.

Advising

All students are assigned to, or may select, a discipline advisor when they declare a major in political science. This faculty advisor should be consulted for any determinations of transfer course equivalents, approved electives, and other requirements.

Requirements for the Major and Minor in Political Science

Each course counted toward a major or minor in political science must be completed with a grade of C (2.0) or higher. A minimum of eighteen (18) units counted toward the major and nine (9) units counted toward the minor must be earned in residence at Cal State San Marcos.

No more than six (6) units of independent study (PSCI 498) and/or internship (PSCI 495) may be applied toward the major. Independent study and internship may be applied to field distribution depending on the content of the course of study. No more than three (3) units of PSCI 498 or PSCI 495 may be counted toward the minor.
Majors in the Global Concentration must complete three (3) upper-division units outside political science in courses that deal with global issues. This course must be approved by an advisor. Political science majors are strongly encouraged to take PSCI 100 and 301 prior to taking upper-division political science courses.

Upper-division political science courses are grouped into four fields: U.S. Government and Politics, Comparative Politics, International Politics, and Political Theory. Courses designated as "General" Political Science courses can be utilized to fulfill field requirements, but students must consult with their advisors to determine how these courses can be used. In addition, LTWR 337 may be used as an elective for three (3) units of upper-division credit within the U.S. Government and Politics field.

Marie D. Thomas, Ph.D.
Keith A. Trujillo, Ph.D.
Patricia E. Worden, Ph.D.

Programs Offered:
- Bachelor of Arts in Psychology
- Minor in Psychology
- Master of Arts in Psychology

Psychology is the scientific study of behavior. In order to discover more about behavior, psychologists study both humans and animals. Psychology covers a wide range of topics, from the inner workings of our brains and bodies to the ways our social environment and culture influence us. This breadth is reflected in the psychology curriculum. Given that psychology is an empirical science, our program gives considerable emphasis to research design, data analysis, and interpretation.

The psychology undergraduate major is designed to provide each student with a comprehensive overview of the major fields of psychology and methods used in psychological research. The major also provides elective courses that allow the student to focus upon an area of special interest. These specialty areas might include social, developmental, cognitive, clinical, or biological psychology.

Students majoring in other disciplines such as the computer, health or clinical sciences, communication, business administration, or education will find that a minor or electives in psychology will provide them with knowledge of direct relevance to their chosen professions. Additionally, psychology has rich ties with other fields such as philosophy, history, literature, the arts, sociology, anthropology, linguistics, communication, and biology.

Career Opportunities

The psychology undergraduate major provides an excellent preparation for careers in a variety of psychology-related business and public organizations, social service agencies, and teaching institutions. Our undergraduate program provides the appropriate background for graduate training in experimental or clinical psychology. Coursework in psychology is also relevant to graduate training in counseling, teaching, medicine, law, business and management, and public administration.

Community College Transfer Students

A maximum of nine (9) lower-division semester (13.5 quarter) units of psychology courses may be applied toward the thirty-nine (39) semester units required for the psychology major. The nine (9) lower-division units must fit the course description requirements listed in this catalog for PSYC 100, 220, and 230, or their equivalent, as approved by the student's advisor.

Special Requirements for the Bachelor of Arts in Psychology and the Minor in Psychology

Each course counted toward the major or the minor must be completed with a grade of C (2.0) or higher. No more than a total of three (3) units of either PSYC 498 or PSYC 499 may be applied toward the major. No more than three (3) units of PSYC 495 may be applied toward the major. A minimum of eighteen (18) units counted toward the psychology major must have been completed at Cal State San Marcos. For the minor, nine (9) units must have been completed at Cal State San Marcos. Courses taken at other universities for which we do not have articulation agreements will not be counted toward the major at Cal State San Marcos without the written permission of the Psychology Program Director.

Preparation

High school students are encouraged to take four years of English and three years of mathematics (including algebra). Courses in biology and psychology and the other social and behavioral sciences are recommended. Knowledge of computers is helpful for many courses.

Twelve (12) units of 300/400/500 level psychology electives

---

**Breadth Requirements**

It is important that psychology majors have exposure to a range of courses that reflect the diversity of the field. To help assure sufficient breadth, psychology majors must take at least one course from each of the three clusters in the process of fulfilling the psychology requirement or choosing psychology electives:

- **Brain and Behavior**
  - PSYC 360
  - PSYC 362

- **Applied/Mental Health**
  - PSYC 334
  - PSYC 336
  - PSYC 340
  - PSYC 341
  - PSYC 346
  - PSYC 354
  - PSYC 418
  - PSYC 428
  - PSYC 432
  - PSYC 495

- **Social/Developmental Processes**
  - PSYC 330
  - PSYC 332
  - PSYC 350
  - PSYC 352
  - PSYC 422

*Also satisfies a lower-division General Education requirement.*
MASTER OF ARTS IN PSYCHOLOGY

The mission of the graduate program in psychology at Cal State San Marcos is to provide graduate education of the highest caliber to qualified students, leading to the Master of Arts degree. Our objective is to prepare students for continued study at the doctoral level, for a variety of positions in business, industry, and the public sector, or for academic careers at the two-year college level. It is our belief that excellent graduate education is best accomplished in an atmosphere in which graduate students are treated collegially, and are closely mentored by the faculty. We are committed to the study of psychology as a scientific enterprise, and our program encourages the development of skills that are consonant with the scientific spirit of inquiry in particular, and graduate-level study in general: critical thinking, articulate verbal expression, quantitative reasoning, and healthy skepticism.

In keeping with the mission of the University, we offer a curriculum that includes opportunities to enhance professional development of our students and to contribute to the community around us. In addition, our program seeks to recognize the value of multicultural perspectives and to be sensitive to diversity concerns.

Preparation and Training Offered by the Program

The Master of Arts degree is traditionally seen either as a preparatory or terminal degree. Our program is designed to accommodate students with different goals. The active research programs of our faculty, and our recognition of psychology as a scientific enterprise, will provide graduate students with the intensive research training and coursework in primary content areas that are central to preparation for more advanced graduate work. Likewise, students who have in mind careers in community college teaching, community service, or business and industry, will benefit from our program’s emphasis on critical thinking, research methods, and advanced coursework. Individual career goals will be served by allowing choice in the content of the thesis research and by providing a curriculum that provides options in content areas.

Many students undertake graduate work in psychology in order to pursue careers in clinical psychology or psychological counseling. Training specifically geared to those seeking license in marriage, family, and child counseling is not currently available within the program. However, the program will prepare students to better compete for admission to doctoral programs in clinical or counseling psychology. Students with interests in clinical or counseling psychology will find opportunities to pursue coursework and thesis topics at Cal State San Marcos that are related to their interests.

Admission Requirements and Application

Admission to the program requires a bachelor’s degree in psychology, or a bachelor’s degree plus at least one course in statistics and at least four upper-division courses of three to four (3-4) units each in psychology from an accredited university. Among the upper-division courses there must be one or more laboratory courses in psychology.

Applicants should have computing skills relevant to graduate coursework in psychology, including word processing and statistics software experience. Admission to the program will be influenced by the breadth and appropriateness of undergraduate coursework and research experience in psychology. In addition, applicants must have a grade point average of not less than 3.0 in the last sixty (60) units of undergraduate study, plus a 3.0 average in upper-division psychology courses.

The Graduate Record Examination (GRE) is required of all applicants. Both the general test and the advanced test in psychology are required. Although the minimum cut-off scores may vary from year to year, it is unlikely that students will be admitted with combined verbal and quantitative scores less than 1000. The advanced test score should be above the 50th percentile.

All applicants, regardless of citizenship, who do not possess a bachelor’s degree from a post-secondary institution where English is the principal language must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation
Application Deadlines:

- March 15th for priority admission in the Fall semester.
However, applications will be accepted for review as long as space is available in the program. There are no Spring admissions.

Degree Requirements

The program requires thirty-three (33) semester units (11 courses) of study, at least 27 of which are from the graduate level (500 or 600 series). Courses below the 400-level or those which bear General Education credit may not be counted toward the program. All students will do a substantial piece of empirical research leading to a thesis. The thesis will be planned and executed while the student is enrolled in the Master's program, and must be approved by the student's thesis committee. The grade point average must be at least 3.0 to graduate. The typical full-time student will complete coursework in four semesters. Units earned not in residence at Cal State San Marcos may not exceed six, and must be approved by the advisor. Graduate students may not elect credit/no credit for any course counted toward the degree that is also offered on a regular graded basis (PSYC 680 and 699 are graded only credit/no credit). Students must be continuously enrolled unless they apply for a leave of absence.

Course of Study

Students will proceed with the graduate coursework in the following sequence:

First Year, First Semester
PSYC 600
One Proseminar
PSYC 520 or PSYC 424

First Year, Second Semester
PSYC 530
One Proseminar
PSYC 690 or an elective

Second Year, First Semester
PSYC 680
PSYC 520 (If PSYC 520 was previously completed, PSYC 690 or an elective may be substituted.)
One Proseminar

Second Year, Second Semester
One Proseminar
PSYC 699

Continuation

Students must maintain a GPA of 3.0. A grade of C or better must be earned in all classes. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program. Each student must present a formal thesis proposal to the entire Psychology faculty, usually in the third semester of study. In addition, each student will orally defend the completed thesis to her/his committee no later than six (6) semesters following the thesis proposal presentation.

Financial Aid

Several sources of financial aid are available to graduate students. Applicants who choose to apply for graduate assistantships offered by the University should so indicate on the appropriate space in the Master's Program in Psychology application form. Students are responsible for identifying other sources of financial aid, and may wish to consult with the Office of Financial Aid and Scholarship.

Advancement to Candidacy

Students will be assigned an advisor at the time of acceptance to the program. It is expected that the student and her/his advisor will work together closely to identify elective courses and possible research topics for the thesis. Together the advisor and student will select and ask two additional members of the faculty to serve on the thesis committee. The thesis committee will assist the student in the development of a thesis proposal. The formal, written thesis proposal will be orally presented to the faculty. The student will be advanced to candidacy after the thesis proposal has been presented to the faculty and approved by the thesis committee. Students may not enroll in PSYC 699 until the proposal is approved.

Programs Offered:
- Bachelor of Arts in Social Sciences
- Single-Subject Preparation Program in the Social Sciences
- Minor in Social Sciences

The Social Sciences Major is a multidisciplinary program which aims to provide students with a broad understanding and appreciation of the social sciences. By following a major in which a number of social sciences disciplines are studied, students will appreciate the varied approaches and methodologies of these fields, as well as the interrelatedness of the social sciences disciplines.

The Social Sciences Major is appropriate for students with career interests in human services and social work, education, counseling, business, and government. Students may choose to fulfill the requirements of the major through a Multidisciplinary Track or through the Social Science Single-Subject Preparation Track.

The Multidisciplinary Track is for the student with an interest in investigating the perspectives offered by multiple social sciences. In the Multidisciplinary Track, the student chooses a primary field and two secondary fields. The primary field is chosen from six disciplines: communication, economics, history, political science, psychology, and sociology. Secondary fields are chosen from these six disciplines and from other specified social science courses. Students following the Multidisciplinary Track may also participate in the Program for Adult Education (PACE), a program that assists students who are working full-time.

The Social Science Single-Subject Preparation Track prepares qualified students for teaching the social sciences in secondary schools in California. The Social Science Single-Subject Preparation Track follows a pre-defined curriculum that prepares students for entry to a Single-Subject Credential track.

Students interested in the Social Science Major are encouraged to discuss their education and career objectives with a Social Science Coordinator.

Requirements for the Major

The Social Sciences Major requires forty-eight (48) units completed as follows:

- Twenty-one (21) units in one primary field | 21 |
- Twelve (12) units in each of two secondary fields (different from the primary field) | 24 |
- Three (3) units of elementary statistics | 3 |

Total Units: 48

Currently, there are six options for primary fields: communication, economics, history, political science, psychology, or sociology. There are seven options for secondary fields: communication, economics, history, political science, psychology, sociology, and individualized secondary field.

Specific course descriptions can be found within the course section of this catalog.

*Several lower-division courses in the different primary and secondary fields also fulfill General Education requirements.
**Preparation for the Major**

Introductory Statistics (3 units)
Choose from:
- PSYC 220 (must be taken if primary field is psychology)
- or
- SOC 201

(Other introductory statistics courses may be accepted upon approval of the Social Sciences Coordinator.)

**Primary Field Requirements**

Students must complete all the requirements for ONE Primary Field.

**Communication**

A primary field in Communication shall be distributed as follows:

<table>
<thead>
<tr>
<th>Lower-division (3 units)</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 100</td>
<td>3</td>
</tr>
</tbody>
</table>

Upper-division (18 units)
Two of the following courses:
- COMM 300
- COMM 330
- COMM 360

Twelve (12) units of upper-division communication electives

Total Units 21

**Economics**

A primary field in Economics shall be distributed as follows:

<table>
<thead>
<tr>
<th>Lower-division (6 units)</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 201</td>
<td>3</td>
</tr>
<tr>

Nine (9) units of upper-division Psychology electives

Total Units 21

**Sociology**

A primary field in Sociology shall be distributed as follows:

<table>
<thead>
<tr>
<th>Lower-division (3 units)</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 101*</td>
<td>3</td>
</tr>
</tbody>
</table>

Upper-division (18-19 units)
One of the following courses:
- SOC 320
- SOC 360

One of the following courses:
- SOC 311
- SOC 411

Twelve (12) units of upper-division Sociology electives

Total Units 21-22

*Also satisfies a lower-division General Education requirement.
Secondary Field Requirements

Students must complete the requirements for TWO Secondary Fields.

Communication
A secondary field in Communication shall be distributed as follows:

Lower-division (3 units)  
COMM 100  
Units 3
Upper-division (9 units)  
Three (3) upper-division Communication courses:  
Units 9
Total Units 12

Economics
A secondary field in Economics shall be distributed as follows:

Lower-division (6 units)  
ECON 201  
Units 3
ECON 202*  
Units 3
Upper-division (6 units)  
Economics courses:  
Units 6
Total Units 12

History
A secondary field in History shall be distributed as follows and must include three (3) units of study in history on women, gender, or U.S. ethnic (minority) studies within the twelve (12) units in this secondary field.

Lower-division (3 units)  
Units 3
One lower-division course  
Units 3
Upper-division (9 units)  
History courses from two world areas  
Units 9
Total Units 12

Political Science
A secondary field in Political Science shall be distributed as follows:

Lower-division (3 units)  
Units
One lower-division Political Science course:  
3
Upper-division (9 units)  
Three (3) political science courses in at least two fields  
Units 9
Total Units 12

Psychology
A secondary field in Psychology shall be distributed as follows:

Lower-division (3 units)  
Units 3
PSYC 100*  
3
Upper-division (9 units)  
Three (3) units chosen from:  
PSYC 330  
PSYC 360  
PSYC 332  
PSYC 362
Six (6) units of upper-division Psychology courses  
Units 6
Total Units 12

Sociology
A secondary field in Sociology shall be distributed as follows:

Lower-division (3 units)  
Units 3
SOC 101*  
3
Upper-division (9 units)  
Three (3) units chosen from:  
SOC 311  
SOC 411
Six (6) units of upper-division Sociology courses  
Units 9
Total Units 12

*Also satisfies a lower-division General Education requirement.

Individualized Secondary Field

The Individualized Secondary Field allows for a customized exploration of the theoretical and methodological approaches from several social science disciplines. Students may select courses from anthropology, communication, economics, geography, history, linguistics, political science, psychology, or sociology. Courses from other areas that are certified as meeting upper-division General Education social science (DD) requirements may also be selected, although courses selected for this secondary may not be counted toward both the major and General Education requirements.

The courses must be taken from at least three different disciplines. Courses selected for the Individualized secondary field may not be from the same disciplines as those used in the primary and other secondary field.

The courses taken in an Individualized secondary field must form a coherent unit. The courses must be approved in writing by the Social Science Coordinator before the start of the last semester in which one of these courses is taken.

Upper-division (12 units)  
Units 12

Courses from at least three different disciplines, approved by Social Sciences Program Director  
Units 12
Total Units 12
Single-Subject Preparation in the Social Sciences Track

Single-Subject Preparation in the Social Sciences Track

The Single-Subject Preparation in the Social Sciences Track is for students planning to teach Social Science in secondary schools in California. Successful completion of the track prepares the student for entry into a Single Subject Credential Program in the Social Sciences as described by the State of California. Upon successful completion, the student may be considered to have fulfilled the subject matter competency requirements for Social Science that are required by the State of California, and the student may be waived from taking two tests required for entry into a Single Subject Credential Program (the Praxis and the SSAT). Completion of the program leads to a Bachelor of Arts in Social Sciences with a Single-Subject Preparation in the Social Sciences.

Students enrolled in the Single-Subject Preparation Program are strongly encouraged to discuss their future plans during their first semester of enrollment with the Social Science Coordinator, advisors within the College of Education, and advisors in the Career and Assessment Center. Consideration of completing a supplementary authorization in an area such as mathematics, computer science, or biology is also strongly encouraged; advising on courses required for supplementary authorizations may be obtained from the College of Education's Student Service Center.

Because of the breadth requirements and extensive lower-division unit requirements, three (3) units of this major that are taken with an upper-division General Education designator of DD may also be used to fulfill the upper-division General Education requirement in Social Science.

Requirements

General Education 51
Social Science Preparation 60
Electives 9
Students must take a sufficient number of elective units to bring the total number of units to a minimum of 120

Requirements for the Single-Subject Preparation Program

The Social Sciences major with Preparation Program requires sixty (60) units completed as follows:

Forty-five (45) units in the Core Program 45
Twenty-seven (27) lower- or upper-division units Eighteen (18) upper-division units
Fifteen (15) upper-division units in the Breadth Program 15
Total Units 60

Courses are drawn from history, political science, economics, psychology, sociology, geography and women's studies.

All courses counted towards the Social Sciences Preparation must be completed with a grade of C (2.0) or higher. Completion of a final portfolio with a passing grade is also a graduation requirement of the Single Subject Preparation Program.

Lower- or Upper-division CORE Requirements (27 Units)

Required Core Courses

United States History (6 units)
HIST 130* 3
HIST 131* 3
World History (6 units)

Economics (6 units)
Option A:
ECON 201 3
ECON 202* 3
or
Option B:
ECON 250 3
and one of the following:
ECON 311 3
ECON 411 3
American Government and Politics (3 units)
Option A:
PSCI 100* 3
or
Option B:
PSCI 300 3
Sociology (3 units)
Select one course
SOC 101* SOC 321
SOC 300 SOC 323
SOC 311 SOC 413
SOC 317

*Also satisfies a lower-division General Education requirement.
### Upper-division CORE Requirements (18 Units)

- American History (3 units)
  - Select one course:
    - HIST 330
    - HIST 339
    - HIST 341
    - HIST 344
- European History (3 units)
  - Select one course:
    - HIST 305
    - HIST 307
    - HIST 310
    - HIST 311
    - HIST 313
    - HIST 314
    - HIST 315
- Non-Western History (3 units)
  - Select one course:
    - HIST 352
    - HIST 362
    - HIST 363
- Geography (3 units)
  - GEOG 301

### Upper-division Breadth Requirements (15 Units)

- World Government (3 units)
  - Select one course:
    - PSCI 331
    - PSCI 335
    - PSCI 337
    - PSCI 338
    - PSCI 350
- Race or Ethnicity in the U.S. (3 units)
  - Select one course:
    - HIST 334
    - HIST 335
    - HIST 337
    - HIST 338
    - PSCI 305
    - PSYC 341
- Gender (3 units)
  - Select one course:
    - ECON 341
    - HIST 316
    - HIST 327
    - HIST 332
    - HIST 384
    - PSCI 391
- Topics and Theories that Integrate the Social Sciences (3 units)
  - Select one course:
    - ECON 305
    - HIST 301
    - HIST 389
    - or PSCI 363
    - PSCI 370
    - PSCI 372
    - PSCI 373
- Ethics or Religion (3 units)
  - Select one course:
    - ECON 306
    - HIST 301
    - HIST 343
    - PSCI 392

### MINOR IN SOCIAL SCIENCES

The minor in social sciences can be completed by fulfilling the requirements for two secondary fields as defined in the Multidisciplinary track. Students may select from any secondary field, except the individualized secondary field. Students intending to minor in social sciences should consult with the Social Sciences Coordinator.

### Requirements

- First Secondary Field: 12 units
- Second Secondary Field: 12 units
- Total Units: 24 units
To study the broad subject of sociology, a student needs to acquire information (what we know), methodology (how we know), and theory (how we explain). A major in sociology will require students to develop background and strength in each of these domains. Students may choose to concentrate more fully in a particular content area of sociology, such as health, welfare and education; crime and deviance; socialization, aging, and the life course; social structure, mobility, inequality; or gender and ethnicity by selecting a set of courses which focus in related fields.

An undergraduate degree in sociology may lead to careers in advertising and market research, public-opinion polling, law enforcement and criminal justice, city planning, real estate, social work, community relations, and a variety of other occupations in the public and private sectors. In order to facilitate the understanding of how sociology can be applied in real social organizations, students are required to take an internship in an organization or agency serving the community or in a social-research setting. Students may want to continue the study of sociology at the graduate level for careers in human service, research, or teaching.

Students who wish to learn more about the Sociology Department are invited to speak with the sociology faculty.

**Preparation**

A maximum of nine (9) lower-division semester units of sociology courses may be applied to the sociology major. Six (6) of these nine (9) units must include one course in introductory sociology and a second in elementary statistics. Statistics courses offered by departments other than sociology will generally be accepted. Three (3) additional lower-division units taken in sociology and approved by the University may be used as an elective for the major.

**Requirements for Courses Leading to a Major in Sociology, Minor in Sociology**

Each course counted towards the major or of the minor must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units in sociology must be completed at Cal State San Marcos.

The Sociology Department also offers a minor in Criminology and Criminal Justice. Please see the separate catalog entry for this minor.

*Also satisfies a lower-division General Education requirement.

**See page 111 for Minor in Criminology and Criminal Justice

***Students taking SOC 495 or 496 need 9 units of major electives. Students who take SOC 497 need 6 units of major electives.
Concentrations

The Sociology major offers four different concentrations: (1) Aging and Life Course, (2) Children, Youth and Families, (3) Health and Mental Health, and (4) Standard. Concentrations require 12 units.

Six (6) units of 400-level courses must be taken in the concentration.

Requirements for Standard Concentration

Any four upper-division elective courses in sociology (including six units at the 400-level) to be selected by students in consultation with their academic advisor.

Requirements for Aging and Life Course Concentration

Upper-division (3 units)

- SOC 309
- Lower- or upper-division [including six units at the 400-level] (9 units)
  - Selected from:
    - SOC 204
    - SOC 427
    - SOC 429
    - SOC 487

Total Units: 12

Requirements for Children, Youth and Families Concentration

Lower-division (3 units)

- SOC 303

Requirements for Health and Mental Health Concentration

Upper-division (3 units)

- SOC 314 or SOC 316

Minor in Sociology

Lower-division (3 units)

- SOC 101: 3 units

Upper-division (18-19 units)

- One of the following:
  - SOC 320: 3-4 units
  - SOC 360*

- One of the following:
  - SOC 311
  - SOC 411

- Twelve (12) units of upper-division sociology electives [or nine (9) units if the prerequisite statistics course has been taken]

Total Units: 21-22

*If SOC 360 is selected, an elementary statistics course is a prerequisite and it will count as a course in the minor.
MAJOR OF ARTS IN
SOCIOLOGICAL PRACTICE

The mission of the Master of Arts in Sociological Practice at Cal State San Marcos is to provide a superior academic and professionally useful master's degree education to students with interests in working in the human services and criminal justice agencies in their communities, or to students who plan for teaching careers at the community college level, or to continue their study for a Ph.D. degree.

The MA in Sociological Practice includes theory and methods, field experience in human service, criminal justice environments, and applied research. The program prepares students for a range of careers in which professionals are required to provide needed services to clients, and to administer and evaluate programs in human services and criminal justice agencies.

In the 1990s, the most valuable master's level program in sociology that could be offered by an institution is one with an applied focus. In addition, a solid program in theory, research, and the study of various sectors of the society to which human services and criminal justice agencies serve needs, will offer students an intellectually rigorous and professionally valuable experience.

Applied work is sufficiently central to the discipline of sociology that we would also be able to accept a small number of students with intentions to continue on to a Ph.D. program in sociology who would be required to fulfill more extensive research and writing requirements by completing a master's thesis. The faculty have been selected to represent the major areas of the human services and criminal justice sectors — aging and gerontology, the sociology of health and mental health, criminology and juvenile delinquency, and family and community studies. They are engaged in and committed to teaching and research in these fields and to having students gain field experience in these areas. In addition, the program is uniquely prepared to offer courses in the study of differences in ethnicity, race, gender, and age and how these qualities may affect values and practices in the human services and criminal justice sectors. The focus of this program on sociological practice — applying sociologically informed policies to current social problems confronting the community with developing sensitivity to multicultural, gender, and age differences — places this program at the heart of the founding Mission Statement of Cal State San Marcos which states: "The goal is to enable students to realize their potentialities as enlightened individuals and productive members of society in a world of change."

Preparation and Training Offered by the Department

The Master of Arts degree in Sociological Practice has been designed primarily as a terminal degree for students seeking careers in the human services or criminal justice sectors. The emphases in the program are:

1. developing critical reasoning in the area of delivering human and criminal justice services;
2. practically applying social theory to the development and appraisal of social policies;
3. learning effective communication skills to become strong advocates for sociologically informed decision-making;
4. acquiring advanced research skills in applied and evaluation research, using both quantitative and qualitative methods; and
5. appreciating the varying perspectives and value differences of those from different gender, race, ethnic, class, and age groups.

These educational emphases will provide students with a very strong background, thus enabling them to contribute to community-based organizations and agencies in the human services and criminal justice sectors. In addition, a small number of students with strong academic records and ambitions to complete the Ph.D. degree will be admitted to the program. These students completing this program as preparation for entry to a Ph.D. program will complete a master's thesis.

Admission and Application Requirements

Successful applicants to this program will have an undergraduate major in sociology, or at least four upper-division courses of 3-4 units in sociology, including courses in both sociological theory and research methods and at least one undergraduate course in statistics. Applicants should have sufficient computing skills relevant to completing graduate work in sociology. Admission decisions will be affected by the appropriateness of the undergraduate training to the dimensions of this program as well as by the educational and career intentions of the applicants. Applicants must have an undergraduate academic record with a grade point average of at least 3.0 in the last 60 units of undergraduate study. In addition, an average of 3.0 is expected in upper-division sociology courses.

Although there may be variation in the minimal cut-off from year to year, it is expected that successful applicants would need a combined verbal and quantitative score of 1000 on the general test.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation
Application Materials sent directly to the Sociology Department (see address below)

- a completed application form;
- one set of official transcripts of the undergraduate record from all institutions to which the candidate attended, with indication of an undergraduate degree;
- a statement describing the applicant's (1) educational, research, and work experiences relevant to this program, and (2) educational and career aspirations and goals;
- one formal writing sample that met an academic requirement;
- GRE test scores (optional); and
- three letters of recommendation.

Application materials sent directly to the Sociology Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:
- March 15th for admission in the Fall Semester.

However, applications will be accepted for review as long as space is available in the program.

Degree Requirements

The program is based on 36 semester units (12 courses) of study, of which at least 33 are at the graduate level (500-600). Most students will complete a six-unit (2-course) field placement sequence with a research project. Students seeking continuing study at a Ph.D.-granting program will complete a master's thesis and will replace the six-unit field placement with a six-unit thesis research sequence. The thesis will be supervised by a committee and defended at a final oral examination. A full-time student taking three courses in each semester would be able to complete the degree in two years. The GPA in the graduate program must be at least 3.0 to graduate. Units earned not in residence at Cal State San Marcos may not exceed six, and must be approved by the student's advisor and the graduate program coordinator.

Students may take one 400-level course that is approved by the graduate program committee. Students may also take one 600-level independent study course that is approved by the graduate program committee.

Course of Study

Students in full-time attendance will proceed with the graduate coursework in the following manner:

First Year, First Semester
- SOC 501
- SOC 515
- SOC 610

First Year, Second Semester
- SOC 620
- SOC 630
- Seminar

Second Year, First Semester
- SOC 575
- SOC 670 or
- SOC 690
- Seminar

Second Year, Second Semester
- SOC 640
- SOC 675 or
- SOC 695
- Seminar

Seminar courses include graduate Sociology courses described as seminars. Three units at the 400-level may be substituted for a seminar, with approval by the graduate program committee. An independent study (600-level) course may also substitute for seminar(s), with approval by the graduate program committee.

Part-time students can select two courses per semester to complete the program in three years.

Continuation

Students must maintain a 3.0 GPA and a grade of at least C in all classes; if the GPA falls below 3.0 for two semesters, the student will be dropped from the program. Students must be continuously enrolled unless they apply for a leave of absence. Students who are not continuously enrolled, or who have a leave of absence of longer than two semesters, must petition the program for continuation. All requirements for the degree are to be finished within five years after the beginning of any coursework in the graduate program.

A project proposal is required to complete SOC 670 and the final project paper is required to complete SOC 675; the proposal and final paper must be approved by three sociology faculty members. SOC 675 is typically completed at the end of the second year for full-time students and must be completed by the end of the fifth year; students who have completed all coursework except SOC 675 will enroll in SOC 700 to maintain continuous enrollment. Students electing to do a thesis meet these requirements through a parallel sequence of SOC 690, SOC 695, and SOC 700.

Advancement to Candidacy

Students will have a graduate program advisor from among the faculty selected on the basis of their likely area of interest and concentration. Students will work closely with their advisors in the selection of courses and research topics. Students in the standard program will have as their research supervisors their graduate program advisor and the faculty member offering SOC 670. They will have been advanced to candidacy once they have developed a research plan in SOC 670. Students following the thesis option will have a three-member faculty committee which will include their graduate program advisor. This thesis committee will assist the student in the development of the thesis proposal and will serve as the committee for the oral examination once the thesis is completed. Students who will complete a thesis will have been advanced to candidacy once their thesis research proposal has been accepted by their faculty thesis committee, normally at the conclusion of SOC 690.
The multi-track characteristic of the Cal State San Marcos Spanish Major gives students flexibility and diversity while providing a strong core in all basic linguistic, analytic, and cultural skills. The program takes into account the unique nature of the Cal State San Marcos student body and the University's Mission Statement.

The program addresses the need for trained language specialists in a variety of fields. At the same time, it considers the location of Cal State San Marcos, in North San Diego County, an area characterized by a strong Spanish-speaking population. The bi-national interaction that stems from our proximity to the Mexican border establishes the need for a multidimensional major which incorporates practical and academic components. The University's commitment to interdisciplinary and multicultural issues guides the cultural and literary elements of the major. All of these principles are prevalent in the curriculum and the faculty, both of which are complemented by those of other programs.

Special Conditions for the Spanish Major
1. Appropriate courses taken for lower-division General Education credit may be counted toward the preparation of the major.
2. Credit/No Credit grading is not allowed in the upper-division courses required for the major, except in the case of students who pass course-specific challenge exams administered by the Program.
3. A grade of C- or better must be earned in all upper-division courses applied to the major.
4. In no case may more than two courses conducted in English be applied to the Spanish major.

Requirements for the Spanish Major
1. The major consists of 48 semester units, with 36 units of upper-division coursework.
2. The 12 units of lower-division, or any portion thereof, may be met by demonstrating equivalent proficiency. In such a case, the units in lower-division would be reduced proportionately.
3. Upper-division requirements are divided between a core and a track. The core requires 21 units and each of the four tracks is 15 units, for a total of 36 units.
**BACHELOR OF ARTS IN SPANISH**

**General Education**
- Preparation for the Major: 0-12 units
- Core Requirements: 21 units
- Track Requirements: 15 units

Students must take a sufficient number of elective units to bring the total number of units to a minimum of 124 units.

The following four tracks respond to our area's demands for different types of opportunities:

### Track One: General Major in Spanish

This represents a comprehensive language, literature, and culture track to provide the background for entrance into graduate programs in Spanish and for a single-subject teaching credential. *Students planning to pursue a single-subject teaching credential in Spanish should contact the Spanish advisor for Single Subject Program for information on additional courses or assessments which may be required for admission to the credential program. See more information at [www.csusm.edu/spanish/spanwaiver.htm](http://www.csusm.edu/spanish/spanwaiver.htm)*

#### Preparation for the Major

**Lower-division (12 units)**

- Students must take twelve (12) units of lower-division Spanish courses. A portion or all of these units may be met by demonstrating language proficiency; in such a case, the units required in lower-division would be proportionately reduced.

#### Core Requirements

**CORE** (21 units)

<table>

</tbody>
</table>

### Track Two: Literature

- This track places a strong emphasis on the history and analysis of the literatures of Spain, Latin America, and the Spanish-speaking United States, as well as on literary genre and theory. Designed for further study of literature in Spanish at the graduate level, or of literary theory or comparative literature.

#### Preparation for the Major

**Lower-division (12 units)**

- Students must take twelve (12) units of lower-division Spanish courses. A portion or all of these units may be met by demonstrating language proficiency; in such a case, the units required in lower-division would be proportionately reduced.

#### Core Requirements

**CORE** (21 units)

***To determine equivalent, please consult with Foreign Language Proficiency Assessor.***
MASTER OF ARTS IN SPANISH

The mission of the Master of Arts in Spanish is to provide qualified students with a structured yet flexible program of study in the literature, linguistics, culture, and civilization of the Spanish-speaking world, and in the art of foreign language teaching. This program is designed to prepare students for further study at the doctoral level; for careers in teaching at the elementary, secondary, or community college level; or for positions in business, social services, international relations, government agencies, and other organizations in need of trained language specialists. The Master of Arts in Spanish degree program allows students the choice of three areas of emphasis: Option A – Hispanic Literature and Linguistics, Option B – Hispanic Civilization and Language, and Option C – Foreign Language Teaching. Regardless of the option selected, the student’s academic experience will be characterized by classes of the highest quality, which encourage the development of critical thinking, an appreciation of multicultural perspectives, and articulate use of the Spanish language. All students will receive ongoing faculty mentoring. Opportunities for guided and independent research, community involvement, and study abroad in a Spanish-speaking country are central to the graduate student experience in this program.

Our campus’ close proximity to the Mexican border, together with the large Spanish-speaking population in North San Diego County, makes our area a “living language laboratory” in which students can engage in first-hand study of the many linguistic and cultural aspects of native Spanish speakers. Students who wish to pursue teaching careers will benefit from the Barahona Center for the Study of Books in Spanish for Children and Adolescents, a special collection in the Cal State San Marcos Library which houses over 40,000 books, periodicals, and other materials pertinent to teaching Spanish and Hispanic culture to young people. The University’s commitment to multicultural and global awareness, together with the presence of an international group of faculty in the Foreign Language Program, will contribute to the student’s process of learning, in this unique academic setting.

Admission and Application Requirements

Admission to the program requires a Bachelor’s degree from an accredited university. It is expected that students will have received a major in Spanish, or a degree in a closely-related field plus at least four (4) upper-division courses in Spanish.

A grade-point average of not less than 2.5, plus an average of not less than 3.0 in upper-division Spanish courses, is required for admission.

All applicants must take the Graduate Record Examination (the general test only). While the test scores will be viewed in combination with other factors pertinent to the applicant’s ability to succeed in a graduate program, it is unlikely that students will be admitted with combined verbal and quantitative scores of less than 1000. However, no specific cutoff will be used.

Graduates of universities where English is not the principal language must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the World Languages and Hispanic Literatures Department (see address below)

- One sets of official transcripts from all colleges and universities attended, with indication of graduation
- Two letters of recommendation
- A one to two (1-2) page statement of purpose, describing educational experience and career goals
- A writing sample of at least seven (7) pages. The writing must be in Spanish, and should deal with some aspect of Hispanic literature, culture, or linguistics.
- A video- or audio-taped speech sample, in which the applicant speaks in Spanish for at least five (5) minutes, on the topic of his/her choice; and
- GRE (and TOEFL/TWE, if applicable) score reports

Application materials sent directly to the World Languages and Hispanic Literatures Department Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:
- March 15th for Fall Semester admission
- November 15th for Spring Semester admission

Note: Only Fall applicants are considered for Teaching Assistantships.
Degree Requirements

The program requires thirty (30) semester units of study, at least twenty-four (24) of which must be at the graduate level (500 and 600 series). None of the thirty (30) units of coursework applied to the Master of Art's degree in Spanish may have been applied toward a previous academic degree. A grade-point average of not less than 3.0 must be maintained in all classes taken. Students must demonstrate intermediate-level knowledge of a language other than Spanish and English (by completing a 202-level language course with a final grade of C or better at Cal State San Marcos or an equivalent institution, or by passing a Proficiency Examination given by the Cal State San Marcos World Languages and Hispanic Literature Program), prior to graduation. Students must successfully pass the Comprehensive Master's Examinations in Spanish in order to graduate.

Students enrolled full-time will typically complete the program in four semesters and must take the Comprehensive Master's Examinations no later than the sixth semester following enrollment. Students enrolled on a part-time basis must take the Comprehensive Master's Examinations no later than the tenth semester following enrollment. Students who do not pass the Comprehensive Master's Examinations the first time may retake them a maximum of two additional times, no later than two years after the first attempt.

Students must complete the required 30 semester units in accordance with the specific requirements for the chosen Option.

Option A: Hispanic Literature and Linguistics

(30 Units)

This option is designed for students who wish to pursue in-depth study of Spanish, Latin American, and U.S. Latino literatures and Spanish linguistics, and will prepare students for further study at the Ph.D. level.

Requirements (30 Units)

<table>

</table>

Additional graduate coursework, to be selected based on student's specific areas of interest and academic plan, in consultation with faculty advisor. Courses may come from graduate offerings in Spanish, or from other disciplines.
Option C: Foreign Language Teaching

This option is designed for students who plan to teach Spanish at the elementary, secondary, or community college level. It provides students with a strong background in applied linguistics and pedagogical theory, as well as advanced level exposure to the literatures, cultures, and language of the Spanish-speaking world.

*In order to become well-prepared teachers, students are strongly advised to select courses representing all areas of the Spanish-speaking world (including the Spanish-speaking U.S., Latin America, and Spain).

Students will be expected to choose the Option which most clearly meets their career goals, and will receive faculty mentoring prior to their first semester of enrollment, to assist them in choosing the appropriate Option and in designing their individual course of study.

Study Abroad

In order to fully understand and appreciate the nuances of the Spanish language and Hispanic culture, all students are strongly encouraged to spend at least one summer or semester abroad, in a Spanish-speaking country. Students will be permitted to transfer up to nine (9) units of credit toward the Master of Arts in Spanish from approved study-abroad courses. Spanish faculty will work closely with each student to assist him/her in identifying an appropriate study-abroad program, and in structuring his/her course of study to accommodate this important experience.

Financial Aid

Teaching Assistantships may be available to qualified students who wish to teach introductory- and intermediate-level Spanish language courses at Cal State San Marcos. Other forms of financial support may also be available, and interested students should contact the University's Office of Financial Aid and Scholarship for further information.

Comprehensive Master's Exams

One semester before students propose to take their Comprehensive Master's Examinations, they must present to the graduate committee (made up of three faculty members) a reading list that must adequately represent both their readings for individual courses and readings undertaken independently to complement coursework. The reading list must be approved by the graduate committee, which has the right to prescribe authors and works not included in the list. The approved list then becomes the basis for the Master's Examinations, which consists of two three-hour examinations, and a follow-up oral defense. These examinations will be evaluated by a committee of three faculty members, and will be graded on a pass/no pass basis.
SPECIAL MAJOR

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-4105

Programs Offered:
- Bachelor of Arts in Special Major
  The Special Major allows highly motivated students the opportunity to develop an individualized program of study that cannot be realized within a single academic discipline or available major. The special major consists of a closely monitored program of study in two or more disciplines. The program is developed in consultation with a Faculty Guidance Committee specifically formed of members of respective academic areas in the student’s program and is supervised by a faculty advisor, who serves as chair of the committee. The program must be approved by the Dean of a College in coordination with the student’s Faculty Guidance Committee.

Requirements for the Major
1. The student must have completed the equivalent of one full-time semester of academic work at Cal State San Marcos and have a grade point average of 2.5 or higher in all work completed at this University.
2. At least thirty (30) semester units must remain to be completed to meet the minimum degree requirements for a Bachelor’s Degree.
3. The Special Major Program consists of forty (40) semester units. A minimum of twenty-four (24) units must be completed at the upper-division level [with nine to twelve (9-12) upper-division units in each area of study selected].
4. Courses taken for lower-division or upper-division General Education credit may not be counted toward the special major.
5. Up to six (6) units may be satisfied in field-based coursework such as independent study, internships, community work, and supervised work experience.
6. Each student must complete a capstone project.
7. The Faculty Guidance Committee and the Dean will review all proposals.

Restrictions in the Major
1. The Special Major cannot duplicate any existing majors offered at Cal State San Marcos.
2. The Special Major is not designed for students who have been unsuccessful in other programs, and it may not be used as a second major (double major) or a second bachelor’s degree.
3. The Special Major Program must be a coherent sequence of courses developed in consultation with the student’s Faculty Guidance Committee.

Application to the Major
Students interested in the Special Major must contact a faculty advisor in any of the University’s academic major areas or the Advising Coordinator in the College of Arts and Sciences. With the aid of the faculty advisor, students must select a Faculty Guidance Committee formed of two or more faculty members. The student’s individualized program plan is then developed in consultation with the Faculty Guidance Committee and is submitted to the appropriate college dean for approval. The Dean, in consultation with the student’s Faculty Guidance Committee, reviews and decides on the student’s program plan.

Programs Offered:
• Bachelor of Arts in Visual and Performing Arts  
  Arts and Technology Track  
  Music Track  
  Theatre Track  
  Visual Arts Track  
  Arts and Education Track  
• Minor in Visual and Performing Arts

The Visual and Performing ArtsDepartment at Cal State San Marcos provides an exciting multidisciplinary approach to the arts which embraces the cultural richness of southern California. A degree in Visual and Performing Arts consists of a sequence of courses that illuminates and emphasizes the benefits of our cross-cultural heritage, presented in the framework of a dynamic experiential, theoretical and technological environment. The curriculum encourages interdisciplinary work, collaboration, and student self-direction.

As each student’s educational goals and needs are different, the Visual and Performing Arts Department provides the opportunity for VPA majors to be directly involved in the design and pursuit of their education. A core of courses provides a broad theoretical and experiential introduction to the arts. Students specialize in one area by following a "Track" providing a series of appropriate courses. Courses in the track are selected in consultation with a VPA advisor.

ARTS AND TECHNOLOGY TRACK
Designed for students who wish to work with digital arts, multimedia, video, and/or web design. This interdisciplinary track emphasizes various digital media including music, video and the visual arts.

MUSIC TRACK
Provides course offerings in composition, music technology, performance and survey courses of diverse musical cultures. Music track students are encouraged to explore their own creativity and musical voice.

THEATRE TRACK
Provides courses in acting, theater production, and research to performance. Survey courses include European, Latin American and American Theatre, with a strong focus on African American and Latino Theatre.

VISUAL ARTS TRACK
Designed for students who work creatively and innovatively in drawing, painting, and sculpture, as well as with digital media. It allows the student great flexibility in choosing among the program’s offerings in both studio and critical/theoretical work.

ARTS AND EDUCATION TRACK
Designed to prepare students for entry into a K-6 credential program and includes a reduced number of arts courses and an increase in general education coursework. The Multiple Subject Achievement Test is waived for graduates of this track.

Career Opportunities
Career opportunities for a graduate of the Visual and Performing Arts Department are as diverse as the interests of VPA majors. Graduates pursue careers as actors, artists, composers, dancers, directors, filmmakers, and musicians. The Department provides an excellent preparation for careers in performance, multimedia design, video and/or music production, web design and support, art history, arts management and publishing. Many students go on to graduate school in the arts, or to complete a credential program in education and assume teaching positions in primary and secondary schools.

Capstone Project
An important component of the VPA degree is the Senior Capstone Project which represents a culmination of work done while in the program. Capstone Projects take many forms and are designed with the input of the student’s advisor. Possible Capstone Projects are: a multimedia CD-ROM, a full length video, an art exhibit, a collection of music compositions, a recital, directing, writing, or taking a lead role in a theater production. Students should begin planning for the capstone in the fall of the senior year. All students register for the Capstone Project in the spring semester of their senior year; public presentation of the work may be anytime during that semester.

About the Department
The faculty of the department are active creators and scholars from a range of disciplines and backgrounds. Their specialities include visual arts, acting, directing, music composition/performance, video, dance, graphics, installation work, interactive multimedia, art history and cultural studies.
Since its inception, the Visual and Performing Arts Department has been committed to several innovative educational objectives:

- **Global arts** — The VPA Department celebrates the arts of the world with the Indonesian Gamelan, African, Andean and jazz ensembles, Caribbean carnival performances, theater in Spanish, and many survey courses in global arts.
- **Commitment to the latest technology** — The VPA Department offers cutting edge courses in digital art and music, web design, video, and interactive multimedia.
- **Interdisciplinary approach** — The VPA Department includes tracks in music, theater, visual arts, arts and technology, and arts and education. Collaboration across disciplines is encouraged among our students and faculty to provide a more expansive arts education.
- **Building community through the arts** — The VPA Department builds community through outreach to schools, art research and exhibits, theatre, dance, music performances and video productions.
- **Support of teaching through the arts** — The SUAVE Program, a partnership between Cal State San Marcos, the VPA Department, several school districts, and the California Center for the Arts in Escondido, teaches primary and secondary school teachers to use the arts as part of an innovative new paradigm for teaching students in the 21st Century.

The Goals of the Visual and Performing Arts Department are:

- To help students develop a multi-disciplinary and global perspective in the arts.
- To provide a curriculum that teaches the skills of critical analysis using works of art from a broad range of cultures and styles.
- To assist students to become fluent in the theory and practice of new digital technologies.
- To provide the tools for students to create their own art as composers, visual artists or performers.
- To help students discover their own cultural histories and ethnic identities.

Special Conditions for the Visual and Performing Arts Degree

1. Credit/No Credit grading is not permitted in courses required for the major.
2. Students must receive a grade of C or better in all courses taken for the major.
3. At present a number of lower-division courses are offered, but some community college courses might be needed to complete the lower-division requirements.
4. All students enrolled in private or group music lessons are required to be enrolled concurrently in one of Cal State San Marcos' music ensembles.
5. All upper-division theater track students must enroll in a production course every semester of their residency (maximum of 4 semesters).
6. All VPA majors must complete a Capstone project in the final semester of residency (in consultation with an advisor).

**Preparation for the Major**

The junior-level student seeking admission to this program normally must have completed the required number of units of lower-division work in his/her selected track (see track outline below for details). Students entering with fewer than the required number of units should complete the deficiencies within the first year of instruction at Cal State San Marcos. Courses in the arts which satisfy an upper-division general education requirement may not be used for the major.

MINOR IN VISUAL AND PERFORMING ARTS

The Visual and Performing Arts Minor offers the student the opportunity to pursue studies in music, theatre, visual arts, dance, art history, or any combination of the above. An emphasis in Arts and Technology or Arts and Education is also possible. With the help of an advisor, students create a discipline-specific or multidisciplinary minor by choosing courses from two areas: Critical/Theoretical Courses and Studio Courses. All courses submitted for the minor must be completed with a grade of C or better. Independent Studies, research, or internships cannot be counted toward the minor.

- Women's Studies:
  - Linda Pershing, Ph.D.

**Programs Offered:**
- Bachelor of Arts in Women's Studies
- Minor in Women's Studies

Women's Studies uses an interdisciplinary approach to explore the question, "What does it mean to be a woman?" This exploration can include the legal status of women, the particular forms of artistic expression chosen by women, the experiences of women in the past, theories about women, and the roles of women in family and economics. It challenges students to explore their own values and those of others, to analyze the assumptions of culture, and to learn more about issues facing women in contemporary society.

Women's Studies has been a nationally recognized interdisciplinary area of study for more than 30 years. More than 400 colleges and universities offer degree-granting programs in Women's Studies; over twice that many offer programs.

Students with a Women's Studies background work in a great variety of fields including the law, journalism, the arts, social services, counselling, education, public policy, and business.

Students interested in graduate study in Women's Studies have an array of programs available around the country, including master's and Ph.D. programs, and certificates in Women's Studies earned in connection with another discipline.

VISION

California State University San Marcos' College of Business Administration utilizes its excellent teaching faculty, innovative pedagogy, and business community partnerships to develop future business and community leaders.

MISSION

The College of Business Administration at Cal State San Marcos uses interdisciplinary programs to provide quality business education that addresses issues of concern to current and future managers. Consistent with the needs of a rapidly growing and increasingly diverse regional population, the College's primary focus is undergraduate education.

The College of Business Administration also offers an MBA program designed for working professionals. An important component of the curriculum, at both the undergraduate and graduate level, is outreach to the regional business community through projects that provide an experiential laboratory for student learning.

The primary mission of the College is teaching with equal secondary emphases on scholarship and service. The portfolio of faculty research activities reflects the College's main emphasis on applied research that contributes to the understanding of modern business theory and practice. Basic research and research activities that enhance student instruction are equally weighted but emphasized less than applied research. In addition to teaching and research activities, service on university committees as well as professional and academic organizations, is necessary to support the continued academic development of this rapidly growing university.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

Program of Study

The Bachelor of Science in Business Administration Degree has four options — Accountancy/Finance, Global Business Management, High Technology Management, and Service Sector Management. After completion of the Lower-Division Pre-Business courses, students select one of the options and take the associated set of Foundations of Business and Core courses. Each option has numerous elective courses from which a student can tailor a program to satisfy individual career goals.

Students in the College of Business Administration (COBA) will find that their program of study is both rigorous and relevant to real-world business problems. The curriculum is designed to help students develop a wide range of skills and abilities applicable to both for-profit and non-profit sectors of the economy. The program’s focus on problem identification and problem-solving allows students to develop analytical and critical thinking skills that gives Cal State San Marcos business graduates a distinctive advantage in today’s job market.

Senior Experience is a two-semester, 8-unit course sequence. During the first semester 3-unit course, students form three-to-four member teams to prepare and formally present a project proposal. Students also examine topics such as problem identification, problem solving, critical thinking, consultation, project management and strategies for team effectiveness.

In the second semester 5-unit course, each team functions together as consultants to analyze the problem, develop recommendations, and then implement the best solution in the sponsoring organization. Senior experience is offered in a fall-spring sequence for students graduating in spring or summer and a summer-fall sequence for students graduating in fall.

For information regarding Senior Experience, please contact Alan Omens, Ph.D., Director, Senior Experience, (760) 750-4268. E-mail: aomens@csusm.edu

Throughout the curriculum the program emphasizes intellectual, ethical, and social issues likely to affect business in the 21st century. Global issues and the realities of demographic diversity in the workplace are an integral part of the coursework. In summary, the goal of the program is to help students apply their critical thinking skills to solve problems encountered in the business world in innovative ways using team-based approaches.

Program Requirements

The undergraduate program in Business Administration leads to a Bachelor of Science in Business Administration. Careful planning is the key to efficiently meeting program requirements. There are requirements for General Education, a number of University-wide graduation requirements, lower-division pre-business core, and upper-division requirements for the Business Administration major options.

Lower-division courses clearly equivalent in scope, content, and level will be accepted for transfer credit (if taken from a regionally accredited U.S. institution or from a foreign institution recognized by Cal State San Marcos and the COBA). Transfer credit will be granted for upper-division courses only in those cases where the course content and level are equivalent to Cal State San Marcos courses and where the courses were taken in a program accredited by AACSB International – The Association To Advance Collegiate Schools Of Business. Exceptions will be made on an individual basis only where a review of the proposed transfer credit course indicates a content and depth at least equal to the equivalent Cal State San Marcos course. A student requesting such a review will be required to provide supporting documentation, such as course syllabi and required texts.

All students applying for admission to the COBA are initially classified as Pre-Business status. Upon successful completion of the Pre-Business Core and the ELM and EPT requirements, a student may be admitted to the COBA as a major (business status). A student will confirm his/her business status by submitting a business status application to an advisor in the COBA. Completion of the Pre-Business Core (business status) is a prerequisite for all upper-division business courses. In addition to the Pre-Business Core, students should, to the extent possible, complete the lower-division General Education requirements (with the University required minimum GPA of 2.0) before enrolling in upper-division Business courses. A minimum grade of C (2.0) is required for each upper-division course in the COBA, including transfer credits.

A student majoring in Business Administration will need to be proficient in word processing, spreadsheet, and database applications. At Cal State San Marcos, the courses that meet the University’s computer competency requirement with the necessary COBA applications are CS 101 and CS 301.

Students outside the COBA may petition for permission to take Business courses. Permission forms require faculty signature and are available at the COBA Advising offices in Craven Hall.

The COBA requires that at least 50% of the upper-division major coursework required for each of its options be earned at Cal State San Marcos. Completion of the Senior Experience at Cal State San Marcos is required of all students.

Undergraduate Advising Offices

COBA Advising Web Site

www.csusm.edu/COBA
BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION

In order to receive a Bachelor of Science in Business Administration, a student must earn a minimum of 124 units.

Required Courses in the Undergraduate Curriculum

Lower-Division Pre-Business Core

Common to all options (13 units minimum)
ACCT 203* 4
ECON 250** 3
MATH 132 3
PSYC 100 or SOC 101 3
or
GESS 101 and GESS 102*** 6

- The Pre-Business Core and completion of the Cal State San Marcos ELM and EPT requirements are prerequisites for upper-division COBA courses.
- The minimum grade in every pre-business and business course is a C (2.0), with a minimum GPA of 2.5 in the Pre-Business Core. Courses may not be taken for Credit/No Credit.

Note: BUS 202, Introduction to Business Law, is strongly recommended for students choosing the Accountancy track under the Accountancy/Finance Option.

* At most community colleges you will need a two-course sequence of financial and managerial accounting to fulfill this requirement.

** At most community colleges you will need a two-course sequence of micro and macro economics to fulfill this requirement.

*** This two-course sequence is offered only at Cal State San Marcos.

See page 187 for the Accountancy/Finance Option requirements.

See page 188 for the Global Business Management Option requirements.

See page 189 for the High Technology Management Option requirements.

See page 190 for the Service Sector Management Option requirements.
ACCOUNTANCY/FINANCE OPTION

Accountancy Track (50 Units)

Accounting has often been called "the language of business." Through its accounting system, an organization records its transactions and communicates its performance. The accountancy curriculum at Cal State San Marcos is designed, in part, to prepare students for careers in public accounting, including qualification to sit for the CPA examination. It also has the flexibility and provides sufficient electives to prepare students for careers in managerial accounting or governmental accounting, not-for-profit accounting, and other business-related areas.

Finance Track (50 Units)

Finance is the study of the interaction of firms and financial markets. Financial managers attempt to identify and undertake projects that increase firm value and determine the best means by which to finance the projects they undertake. Investors, the source of financing for these projects, are free to choose from many types of securities issued by many different types of firms. The risk-return profiles of these individual securities, and the impact of portfolio design on the attainment of an optimal risk-return profile, are major topic areas of finance. Cal State San Marcos students who choose the finance track are able to specialize in the study of corporate finance, investment analysis, and international finance. Students are provided an education that permits them to enjoy careers as stockbrokers, financial analysts, investment advisers, and the like.

GLOBAL BUSINESS MANAGEMENT OPTION
(47-49 Units)

The option in Global Business Management is intended to provide students with a strong foundation in global business studies. Consistent with the mission and direction of this campus, this curriculum meets a growing need for individuals who understand and are skilled in the complex and readily changing global environment of business organizations.

The curriculum is designed to provide students with important knowledge about global business practice and provide an understanding and appreciation of culture, language, economics, politics, and history of countries other than the United States. A curriculum composed of College of Business Administration courses and College of Arts and Sciences courses make up this option.

Foundations of Business Courses (16 units)
BUS 302 2
BUS 304 4
FIN 302* 2
MGMT 302* 2
MKTG 302* 2
MIS 302* 2
POM 302* 2

Core Arts and Sciences Courses (9 units)
COMM 330 3
ECON 441 3
PSCI 460** 3

**PSCI 350 or consent of instructor required.

FOREIGN LANGUAGE
Students will be required to demonstrate proficiency at the advanced level in at least one foreign language. Proficiency exams are administered by the Berlitz Language Center. See COBA advisors for details.

Global Business Management Option Electives (12 units)
A minimum of 9 units must be taken from the following COBA courses in residence:

ACCT 423 2
FIN 341 4
FIN 441 2
GBM 351 1
GBM 481-485 1-4
GBM 498 1-4
HTM 404 4
HTM 423 2
HTM 440 2
SSM 342 4
SSM 448 4
SSM 461 4

Students may count up to three (3) units of elective credits from the following Arts and Sciences courses with prior approval from COBA:

HIST 319 3
HIST 326 3
HIST 362 3
HIST 365 3
HIST 386 3

Students participating in CSU-approved study abroad courses through Council on International Education Exchange (CIEE) may substitute electives taken overseas for those listed above. However, they must get prior approval from the College of Business Administration for any business electives taken overseas.

Capstone
GBM 444 4

Senior Experience
GBM 492 3
GBM 493 5
or
Global Management Experience (6 units)
GBM 497* 6

*Global Management experience projects must have prior approval from COBA. Students must submit project proposals and name of sponsoring international organization for approval.

COBA recommends that students in the Global Option choose their upper-division Social Science General Education course (DO) from the list below. These courses may be used to satisfy GE requirements, but may not also be applied to fulfilling the Global Business Management Option.

GEOG 301 3
GEOG 450 3
ID 306 3
PSYC 341 3
Success in business is associated with firms that strategically use and develop sophisticated operations and information technologies. High Technology Management (HTM) is dedicated to the advancement of organizations through the use of state-of-the-art technologies, strategies, systems, tools, and techniques. Students graduating with an Option in HTM are expected to have strong skills in some subset of information systems, operations management, and management science. Typical abilities of an HTM graduate should include: proficiency area such as systems analysis and design, database management, multi-media, information systems, e-commerce, telecommunications management, management science modeling, quality management, supply-chain management, and inventory management and control.

Knowledge gained in HTM coursework can be applied to industries such as biotechnology, computer hardware, software and peripherals, telecommunications, manufacturing, defense, and aerospace. However, nearly every organization, no matter how traditional or simple the product or service, can benefit from strategic, prudent use of technology.

 Foundations of Business Courses
(12 units)
BUS 302 2
BUS 304 4
FIN 302* 2
MGMT 302* 2
MKTG 302* 2

*Equivalent 4-unit courses can be substituted for these 2-unit courses, with 2 units applied toward HTM electives. However, only 4 excess units can be counted as HTM elective credit.

Core HTM Courses (8 units)
HTM 304 4
HTM 305 4

HTM Electives (16 units)
A minimum of 12 units must be selected from HTM electives (units outside of HTM may be substituted with prior approval from COBA. The remaining units can be taken from electives in ACCT, FIN, GBM, HTM, or SSM. No more than 4 units from the ACCT, FIN, or SSM core can be counted as elective credit. Students in this option cannot take ACCT 308 for credit.

### SERVICE SECTOR MANAGEMENT OPTION

(48 Units)

Service Sector Management prepares students for careers in management, consulting, sales, and sales management. Its emphasis on the core disciplines of marketing and management provides an extensive insight into what students, as managers, require for developing and cultivating relationships with employees and customers. Elective courses provide specialized information in areas including human resources, leadership, entrepreneurship, and marketing communication.

#### Foundations of Business Courses
(12 units)
- BUS 302 2
- BUS 304 4
- FIN 302* 2
- MIS 302* 2
- POM 302* 2

*Equivalent 4-unit courses can be substituted for these 2-unit courses, with 2 units applied toward SSM electives. However, only 4 excess units can be counted as SSM elective credit.

#### Core SSM Courses (8 units)
- SSM 304 4
- SSM 305 4

SSM Electives (16 units)

- SSM 322 2
- SSM 333 4
- SSM 342 4
- SSM 353 4
- SSM 415 4
- SSM 420 4
- SSM 441 4
- SSM 442 4
- SSM 445 2
- SSM 448 4
- SSM 452 4
- SSM 461 4
- SSM 461-485 1-4
- SSM 498 1-4

- Capstone
  - BUS 444 4

- Senior Experience
  - BUS 492 3
  - BUS 493 5

A minimum of 4 units must be selected from SSM electives. The remaining 12 units can be taken from electives in ACCT, FIN, GBM, HTM, or SSM. No more than 4 units from the ACCT, FIN, or HTM core can be counted as elective credit. Students in this option cannot take ACCT 308 for credit. A maximum of 4 units may be taken outside the College with prior approval from COBA.

### MINOR IN BUSINESS ADMINISTRATION

The minor is designed to be supportive of a variety of arts, humanities, and science majors. All students interested in the minor should meet with an advisor in the College of Business Administration. To graduate with a minor in Business Administration, students will be required to complete the requirements in effect at the time of declaration. The minimum grade in every pre-business and business course is a C, with a minimum overall GPA of 2.5 in the Pre-Business Core. The Pre-Business Core and completion of the ELM and EPT requirements are prerequisites for upper-division COBA courses. Pre-business and business courses may not be taken Credit/No Credit. Pre-business students must apply to the COBA to be eligible for upper-division business status. The COBA requires that at least 50% of the upper-division minor coursework be earned at Cal State San Marcos. The requirements are as follows:

#### Lower-Division Pre-Business Core
(13 units minimum)
- ACCT 203 4
- ECON 250 3
- MATH 132 3
- PSYC 100 or SOC 101 3
- or
- GESS 101 and GESS 102 6

#### Four 2-Unit Foundation of Business Courses (8 units) selected from:
- BUS 302 2
- FIN 302 2
- MGMT 302 2
- MIS 302 2
- MKTG 302 2
- POM 302 2

An approved 4-unit upper-division Business Course 4

Students must meet all prerequisites for the selected 4-unit course.

#### Minimum Total Units
25
### Upper-Division Suggested Course Sequence

**Effective Fall 2002**

MASTER OF BUSINESS ADMINISTRATION

Philosophy

The fundamental mission of the College of Business Administration is to educate the leaders of tomorrow's business and non-profit organizations by concentrating on the management skills needed in the complex, multicultural and technological environments of the future. The design philosophy for the graduate program is to integrate rigor with relevance and theory with practice.

The program has been influenced by the writings of premier educators, commissions, and managers, as well as by the talents of our faculty and by the needs of our constituencies. It is modern in structure and pedagogy as well as content. It recognizes the sea-changes such as diversity, a global economy, technology, the cooperative nature of decision making, and accelerating rates of change that are occurring in business, government and society, and in higher education.

The program emphasizes a commitment to values: ethics, respect for the individual and the environment, intellectual curiosity, commitment to lifelong learning, and self-direction. It makes use of information technologies in the delivery of the program and requires that students develop a significant level of proficiency in the application of technology. The curriculum stresses the importance of good communication skills for successful management; thus, written and oral presentations are a part of every course.

Description of the Program

The Master of Business Administration is designed for the employed student who has several years of work experience as a professional and is either preparing to enter management or has moderate management experience.

The program requires 39 units of coursework beyond a 12-unit pre-program "foundation." There are three types of courses: Foundation, Program, and Master's Project.

1. Foundation Courses [12 units] provide the background knowledge and skills essential to virtually all management activity. The foundation is organized as two courses. Typically, students who have completed an undergraduate program in business within the last seven years will be able to waive the foundation courses. Also see the requirements for the Minor in Business Administration.

2. Program Courses [33 units] contain more advanced material. Courses in the program are all variable (2-4) unit courses.

3. The Master's Project [6 units] involves the investigation of a government or business entity's operations to achieve a significant cost reduction, service enhancement, etc. Each project is proposed, researched and reported, and culminates in a written report that includes problem identification, evaluation of potential solutions, discussion of the selected implementation, and evaluation of the results.

Program Schedule

The program is designed for working professionals. Cohorts of 25-40 students take courses in a predetermined sequence. The full program, including the foundation and Master's Project, can be completed in 21 months. Students attend regular semesters (fall, spring, and summer). Three schedules are offered:

1) Tuesday p.m. and alternate Saturdays, or
2) Wednesday p.m. and alternate Saturdays, or
3) Tuesday/Thursday p.m.

Admission Requirements

The admissions policy assesses the applicant's competencies in five primary areas essential to success in the Master's program and to success as a manager:

- Problem recognition and analysis.
- Basic skills in computer applications and quantitative methods.
- Effective communication, both written and oral.
- Intellectual curiosity, managerial point of view, respect for the individual and for the value of diversity, self-awareness and self-direction, and concern for the consequences of one's actions.
- General academic proficiency in areas relevant to management.

In addition, we also evaluate the candidate's "commitment" to the program — the probability that the candidate has the time and resources essential to the successful completion of the degree.
The primary data for assessment includes the following required items:

- Transcripts of university-level coursework. GPA will be computed from the most recent 60 semester units of academic coursework taken at the graduate or upper-division level.
- The Graduate Management Aptitude Test (GMAT), taken within the last 5 years, or, under certain conditions, the Graduate Record Exam (GRE). Test scores may be waived for applicants who have successfully completed a minimum of 24 semester (36 quarter) units of graduate management coursework. Similarly, applicants who have completed a master's degree or other graduate degree (e.g., M.D., J.D., Ph.D.) from a U.S. university may also waive these tests. Nevertheless, applicants who have taken the GMAT or GRE should submit their score, and applicants eligible to waive these tests should still consider taking the GMAT to supplement the application. If the applicant has not taken one of these tests within the last five years, the GMAT must be taken.
- Two essays covering career achievements plus expected challenges and rewards from the MBA Program.
- Three completed Recommendation forms.
- An in-person interview or, in special cases, a telephone interview.
- A math assessment test.
- Computing Requirement. A notebook computer may be required to attend some MBA classes.

The admissions committee will also evaluate the applicant's skills in quantitative methods, communication, and computer applications. Where deficiencies are identified, the applicant may be required to complete additional courses or attend workshops. In addition, the assessment will also determine whether the 12-unit Foundation may be waived.

**Graduation Requirements**

Completion of the MBA degree requires:
1. an overall GPA of at least 3.0 (B average) in all coursework within the program.
2. a grade of C or better in each course.

**Foundation Courses (12 units)**

There are two 6-unit foundation courses. Typically, students who have completed an undergraduate program in business within the past seven years will be able to waive the foundation.

- BGA 501
- BGA 502

**Balkore Management Option**

(33 Units)

All program courses are variable, 2- to 4-unit courses.

MISSION STATEMENT

The mission of the College of Education community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism, and shared governance.

PROGRAMS OFFERED

The College of Education offers the following credential programs, which are approved by the California Commission on Teacher Credentialing.

- Multiple Subject/CLAD Emphasis (Cross-Cultural Language and Academic Development)
- Part-time Multiple Subject/CLAD Emphasis
- Integrated Bachelor of Arts and Multiple Subject/CLAD Emphasis
- Multiple Subject Internship/CLAD Emphasis
- Multiple Subject/Middle Level/CLAD Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/CLAD Emphasis
- Single Subject Credential Program/CLAD Emphasis (Secondary)
- Multiple Subject/BCLAD (Bilingual/Cross-Cultural Language and Academic Development): Spanish Emphasis
- Part-time Multiple Subject/BCLAD: Spanish Emphasis
- Integrated Bachelor of Arts and Multiple Subject/BCLAD Emphasis
- Multiple Subject Internship/BCLAD: Spanish Emphasis
- Multiple Subject/Middle Level/ BCLAD: Spanish Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/BCLAD: Spanish Emphasis
- Single Subject/BCLAD: Spanish Emphasis
- Preliminary Administrative Services Credential
- Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Professional Level II Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Professional Administrative Services Credential
- Professional Administrative Services Credential, Tier II
- Reading Specialist Credential
- CLAD Certificate
- Reading Certificate
- Master of Arts in Education, Options:
  - Bilingual, Language and Culture
  - Education Administration
  - Learning and Instruction
  - Literacy Education
  - Science, Mathematics and Educational Technology for Diverse Populations
  - Special Education

The College of Education also offers:

- Courses required for the Professional Clear Teaching Credential
- Prerequisite courses required for entry into credential programs
- Elective courses of interest to both area educators and undergraduate students who intend to enter the teaching profession

* Internships offered with San Diego and Riverside County School Districts.
GRADE REQUIREMENTS AND ACADEMIC PROBATION

For all students in the Multiple Subject/CLAD Emphasis, Integrated Bachelor of Arts and Multiple Subject CLAD Emphasis, Internship, Concurrent, BCLAD, Middle Level, and Single Subject programs, the following grade requirements must be met:

- **Grading.** Credit/No Credit (CR/NC) is given for student teaching/intern teaching. The minimum acceptable final grade for the courses in the professional education sequence is C+ (2.3), but a B (3.0) average must be maintained.

For all College of Education programs (teaching credential, specialist credential, and master's program) the following academic probation policy is in effect:

- **Academic Probation, Disqualification and Disenrollment.** A credential candidate will be placed on academic probation if, during any academic term:
  1. The cumulative GPA in all coursework in the professional education sequence (prerequisites, credential program, or clear credential courses) falls below 3.0; or
  2. The student has been assigned grades of No Credit, Incomplete, or a letter grade below C+ in any two or more professional courses;
  3. Further, a student will not be allowed to enter the advanced student teaching experience while on academic probation or while that student has a grade of "Incomplete" for beginning student teaching.

**Disqualification**

A student in a credential program may be disqualified if, during the probation period, the student fails to achieve a 3.0 GPA and a minimum letter grade of C+ in all professional coursework.

- **Other Considerations.** Postbaccalaureate students may repeat a course in which a grade of lower than C+ was received. Courses may be repeated only once.

**Policy on Length of Time to Complete Teacher Credential Program**

Due to the dynamic nature of changes in all academic disciplines, the College of Education requires students in full-time teacher credential programs to complete their coursework and student teaching within a three-year time limit, commencing from the beginning of coursework in that program. There is a four-year time limit for students in part-time teacher credential programs, commencing at the beginning of coursework in that program. At that point, students will be terminated from the program and will have to reapply to the program to be reinstated. Students can appeal to the Student Appeals Committee.

**Disenrollment**

A student may be disenrolled from a credential program if it is determined that the student will not likely achieve minimum academic requirements for the credential.

**Admission Requirements for the Multiple Subject Teaching Credential Programs**

The following are admission requirements to the Multiple Subject Teaching Credential Programs.

1. Application. Application to both the University and College of Education.
2. CBEST Examination. Students must take the California Basic Educational Skills Test (CBEST) prior to admission to a Teaching Credential Program. Students are urged to take this examination at the earliest possible time after deciding to pursue a teaching credential. CBEST must be passed before certification or intern teaching.
3. Subject Matter Preparation. The Liberal Studies major may be selected in preparation for the Multiple Subject Teaching Credential Program at Cal State San Marcos. Please refer to the Liberal Studies section. Students may also complete a state-approved subject matter program from other colleges or universities. Students who have not completed a state-approved subject matter program must take the Multiple Subjects Assessment for Teachers (MSAT) prior to admission to the Multiple Subject Credential Program. The examination includes Content Knowledge and Content Area Exercises. MSAT must be passed prior to student teaching or intern teaching. The MSAT examination results are valid for five years from the date of passing and must be valid upon final completion of the program.
4. **Prerequisite Courses in Education.** If taken at Cal State San Marcos, the course must be completed within seven (7) years prior to beginning the program. If an equivalent course at another college or university has been taken, it must have been completed within five (5) years prior to beginning the program.

- **EDUC 350** — This required course serves as an orientation to careers in elementary/middle/high school, and special education. During this course, students participate in forty-five (45) hours of supervised fieldwork assignments in classroom settings. Applicants must submit a field experience form with classroom teacher recommendation verifying the classroom field experience.

- **EDUC 364** — This course is required for all students as part of the CLAD Emphasis, and must be taken prior to enrollment in the credential program.

5. **U.S. Constitution.** Knowledge of the U.S. Constitution demonstrated by completion of a two-semester unit college-level course or college-level examination.

6. **CLAD Second Language Experience.** All candidates recommended for the CLAD emphasis must have six semester units of college second/foreign language instruction with a grade of C or better. Three years of high school second/foreign language may satisfy the requirement if the candidate received a grade of "B" average or better. The requirements must be satisfied in one language, not a combination of languages. An equivalent experience could be one that sensitizes the candidate to the challenges of second language learning acquisition such as Peace Corps training and service, or residence in a non-English speaking country. Candidates who are admitted without this requirement will receive their credential at the time of program completion and may complete the second language requirement up to one year after completion of the program. A second application and fee is necessary.

7. **Grade-Point Average.** A student must have a cumulative grade point average (GPA) of 2.67 to be accepted into any credential program offered at Cal State San Marcos. If you do not have the required GPA, conditional admission is available on a limited basis.

8. **Health Clearance.** Tuberculin clearance is required. The tuberculin clearance is valid for four (4) years and must be valid through student teaching. The tuberculin clearance may be completed at a private physician’s office, the County Health Department, or the Cal State San Marcos Student Health Center.

9. **Certificate of Clearance.** Students must possess or apply for a valid Certificate of Clearance as part of admission to the Teaching Credential Program. A copy of an emergency credential satisfies the clearance requirement.

10. **Two Sots of Official Transcripts.** One official set of transcripts from each of the colleges or universities attended must be mailed directly to the Cal State San Marcos Office of Admissions, and one official set of transcripts must be submitted to the College of Education Student Services Center with the program application.

11. **Two Letters of Recommendation.** Two letters of recommendation from faculty and/or others who are knowledgeable about the student’s personal qualities and potential must be submitted with the program application. This is in addition to the field experience form from the classroom teacher.

12. **Interview.** An interview will be conducted by a College of Education Admissions Committee.

13. **Bachelor's Degree.** A bachelor’s degree or all undergraduate academic subjects must be satisfied toward a bachelor’s degree before entering a teacher education program. Students may enter the credential program as an undergraduate and use the units in the credential program as electives to obtain a bachelor’s degree. A bachelor’s degree is a requirement for teacher certification. A student may petition for 12 units concurrent postbaccalaureate credit the first week of instruction during the last semester before graduation ONLY. Petitions are available in Registration and Records.

14. **Writing Samples.** Writing samples are required and are program-specific.

**Please Note:** The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject or Special Education Credential. RICA consists of passing one of two components, either a comprehensive examination or a performance assessment. The Assessment cannot be taken until completion of the Language Literacy course in the credential program.

The California Commission on Teacher Credentialing adopted a new technology standard requiring credential candidates to demonstrate their effective use of technology at a basic level prior to issuance of a preliminary credential. The new technology standard will apply to all students credentialed after July 1, 2002. At a minimum, it is advisable to complete EDUC 500 if you plan to complete the Cal State San Marcos credential program after July 1, 2002.
CREDENTIALS WITH CLAD EMPHASIS

Multiple Subject Credential Program/CLAD Emphasis (Elementary)

The Multiple Subject Credential Program/CLAD is designed to prepare teachers to work with students in grades K-12 with responsibility for all subject areas in a self-contained classroom. Teachers holding a Multiple Subject Credential are most often assigned to preschool and elementary school classrooms.

This program has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The California CLAD emphasis requirements are met through the infusion of content and experiences within the Multiple Subject Program, as well as additional coursework. Students successfully completing this program and the second language requirement receive the Multiple Subject Credential with the CLAD emphasis.

Full-Time CLAD Emphasis

A two-semester program, the Multiple Subject/CLAD Program provides coursework in learning and instruction, content area methodology correlated with field experiences and student teaching in conjunction with the CLAD content. The College of Education is specifically committed to providing students with opportunities to learn innovative teaching practices and put those methods to work with children.

Part-time CLAD Emphasis

The Part-time Multiple Subject Credential Program/CLAD is intended for those students who are unable to pursue a full-time program and/or are unable to attend courses during the day. The part-time program can be completed in two years. The curriculum is the same as the full-time program, except two courses are offered per semester and are taught in the evening. Fourth-semester students must be available during the day to complete full-time student teaching.

Program Total 33

Integrated Bachelor of Arts and Multiple Subject/CLAD Emphasis Credential Program

(For admission requirements to the Integrated Bachelor of Arts, see College of Education and College of Arts and Sciences advising staff.)

This program provides students with a Bachelor of Arts Degree with a major in Liberal Studies from the College of Arts and Sciences and a Multiple Subject Credential/CLAD from the College of Education. The Integrated Curriculum Option consists of six themed semesters of courses which are taken in both colleges.

The Integrated Bachelor of Arts and Multiple Subject/CLAD Emphasis Credential Program appears as Option 3 in the Liberal Studies major under the College of Arts and Sciences, see page 130. See the College of Education and College of Arts and Sciences advising staff for further information including admissions criteria and procedures, and semester by semester curriculum.
Multiple Subject Internship/CLAD Emphasis Credential Program

The Multiple Subject Internship Credential Program is a field-based, collaborative program with various San Diego and Riverside County school districts. It is designed to provide opportunity for teacher diversity to reflect the student population of San Diego and Riverside counties, and for those who hold a bachelor's degree, to make a career change to teaching. Its goal is to prepare effective, professional classroom teachers. The program requires completion of thirty-three (33) units. Candidates will be able to continue their current, full-time employment during the first portion of the Internship Program. Upon successful completion of required coursework, candidates will become full-time paid intern teachers with full responsibility for a classroom in a San Diego or Riverside County school district. Candidates will continue to take coursework during intern teaching.

Admission Requirements

All admission requirements are the same as for the Multiple Subject Teaching Credential with the following exceptions:

1. CBEST. CBEST examination must be passed before intern teaching.
2. Subject Matter Preparation Assessment for Teachers (MSAT). Intern candidates must pass the MSAT before beginning intern teaching or have completed a minimum of 4/5 of a state-approved subject matter preparation program (such as Liberal Studies at Cal State San Marcos).

4. Personal Interview. Intern candidates complete personal interviews conducted by a team with representatives from the college faculty, school district personnel from participating districts, the County Office of Education, and community representatives.

5. Bachelor's Degree. Bachelor's degree required before intern teaching.

6. Eighty (80) hour "shadowing" experience at school site.

 Please Note: The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject Credential. RICA consists of passing one of two components, either a comprehensive examination or a performance assessment. The Assessment cannot be taken until completion of the Language Literacy course in the credential program.

Course Sequence

The courses may differ slightly in sequence depending on school district.

Prerequisites: Applicants are encouraged to take the following courses in the Winter Session immediately preceding matriculation, and upon being notified of acceptance:

Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/CLAD Program

The Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/CLAD Program incorporates the disciplines of multiple subjects, special education, and multilingual education into an integrated curriculum designed to prepare teachers to work with the heterogeneous group of students in today's schools. The program enables candidates to earn three credentials:

1) the Multiple Subject Credential with CLAD Emphasis;
2) the Preliminary Level I Mild/Moderate Disabilities Education Specialist Credential, which authorizes service to students eligible in the disability categories of Specific Learning Disabilities, Mental Retardation, Serious Emotional Disturbance, and Other Health Impaired (i.e., Attention Deficit Disorder), and;
3) the Preliminary Level I Moderate/Severe Disabilities Education Specialist Credential, which authorizes service to students eligible in the categories of Multiple Disabilities, Autism, and Deaf-Blindness. Teachers holding a Multiple Subject Credential are most often assigned to preschool and elementary school classrooms.
This is a full-time, 14-month program in which candidates enroll in day and evening courses and student teach in a variety of general and special education settings. Special Education competencies are infused in the Multiple Subject curriculum, with emphasis on preparing educators for the diversity of students' special learning and language needs encountered in California schools. The California CLAD Emphasis requirements are met through the infusion of content and experiences within the program.

Admission Requirements
All admission requirements are the same as for the Multiple Subject Credential Program, with the following exceptions:

Prerequisites:

<table>

Please note the following:

1. The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject or Special Education Credential. RICA consists of passing one of two components, either a comprehensive examination or a performance assessment. The assessment cannot be taken until completion of the Language Literacy course in the credential program.

2. All students accepted in either the stand alone Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist Program Option or the Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple Subject/CLAD Program Option can enroll in 600-level EDMX courses.

3. Only candidates in the Concurrent Education Specialist with Multiple Subject Program Option can enroll in 500-level EDMX courses.

Internship Credential Specialist Program in Special Education: Mild/Moderate and Moderate/Severe Disabilities and Multiple Subject Credential Cal State San Marcos/San Diego City Schools Partnership

Level II Preparation is required for all initial Level I credential holders. Please refer to page 203.

The Preliminary Mild/Moderate Disabilities Education Specialist and Preliminary Moderate/Severe Disabilities Education Specialist credentials together encompass competencies to address the full range of student differences. The course offerings and sequence described in this program will enable credential candidates to receive two special education credentials and a multiple subject credential following two different tracks. Credential candidates take the track that leads to the Mild/Moderate and Moderate/Severe credentials. Those without certification take the track that leads first to the Mild/Moderate and Moderate/Severe credentials and in addition take courses to complete the Multiple Subject credential. All candidates complete the program having met all of the Cross-Cultural Language and Academic Development (CLAD) or Bilingual Cross-Cultural Language and Academic Development (BCLAD) competencies.

Course Sequence

The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject or Special Education Credential. RICA consists of passing one of two components, either a comprehensive examination or a performance assessment. The assessment cannot be taken until completion of the Language Literacy course in the credential program.

The California Commission on Teacher Credentialing adopted a new technology standard requiring credential candidates to demonstrate their effective use of technology at a basic level prior to issuance of a preliminary credential. The new technology standard will apply to all students credentialled after July 1, 2002. At a minimum, it is advisable to complete EDUC 500 if you plan to complete the Cal State San Marcos credential program after July 1, 2002.

Option Two  
Designed for those individuals without certification.

*Extension fees on a per unit basis may be required for Summer and Winter session enrollment.
Level II Preparation is required for all initial Level I credential holders. Please refer to page 223.

Multiple Subject Credential Program/CLAD Emphasis (Middle Level)

Middle level teacher education students enroll in a program designed to prepare them to teach students in grades five through nine. Upon completion of the program, second language requirement, and two subject matter competencies, students receive a Multiple Subject Credential, a Middle Level Emphasis and a CLAD Emphasis. In the two-semester curriculum, students take courses on teaching and learning in middle schools, content area methods, and bilingual/multicultural education. Coursework is taught by a team of instructors, with class sessions and assignments geared to the particular needs of middle school teachers and learners. The teaching team is assisted by educators from North County middle schools who share their expertise and experiences at the middle level.

North County middle schools serve as sites for field experiences. When possible, students work with teams of master teachers. Supervision of the students is a shared responsibility of a University faculty advisor (a teaching team member assigned to one school) and an on-site supervisor at the middle school (a full-time teacher at each school). The on-site supervisor meets regularly with the students and observes and evaluates the students when they teach. Periodically, the University faculty advisors meet with the supervisors and master teachers in order to coordinate activities in the University and the field.

Admission Requirements

All admission requirements are the same as for the Multiple Subject Credential Program, with the following exceptions:

Subject Matter Competency in Two Areas. Students must demonstrate subject matter competency in at least two different content areas; for example, science and mathematics (not biology and chemistry). Students may demonstrate subject matter competency by:

1. fulfilling the requirement for supplementary authorization by completion of a total of twenty (20) units or ten (10) upper-division units, or
2. or completing an approved subject matter program in a specific single subject field, or
3. passing the appropriate Praxis and SSAT subject area assessments**

**See chart in the College of Education’s Student Services Center.

Please note: The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA) for the initial issuance of a Multiple Subject Credential. RICA consists of passing one of two components, either a comprehensive examination or a performance assessment. The assessment cannot be taken until completion of the Language Literacy course in the credential program.

The California Commission on Teacher Credentialing adopted a new technology standard requiring credential candidates to demonstrate their effective use of technology at a basic level prior to issuance of a preliminary credential. The new technology standard will apply to all students credentialed after July 1, 2002. At a minimum, it is advisable to complete EDUC 500 if you plan to complete the Cal State San Marcos credential program after July 1, 2002.

**Single Subject Credential Program/CLAD Emphasis (Secondary)**

Single subject (high school) teacher education candidates enroll in a program designed to prepare them to teach students in grades nine through twelve. Upon completion of the program, candidates receive a Single Subject Credential with a CLAD Emphasis. In the two-semester curriculum, candidates take courses in teaching and learning in high schools, discipline and interdiscipline specific methods, and multilingual/multicultural education. Coursework is taught by a team of instructors, with class sessions and assignments geared to the particular needs of high school teachers and learners. The teaching team consists of faculty from both the Colleges of Education and Arts and Sciences assisted by educators from North County high schools who share expertise and experiences and model exemplary practices for high schools.

North County high schools serve as sites for field experiences. Supervision of the student teachers is a shared responsibility of a University faculty advisor and an on-site supervisor (a full-time teacher at the high school level). Two different opportunities constitute the field experience—one at the ninth/tenth grade level, and one at the eleventh/twelfth-grade level. Within these experiences, there will be opportunities to practice-teach a variety of subjects to diverse student populations with varying ability levels. In addition, student teachers will be encouraged to participate in school faculty activities outside of the classroom in order to gain both experience and expertise in the organization and decision making characteristic of the high school culture.

In order to better serve the needs of students from diverse language and cultural backgrounds often encountered in classrooms, the California CLAD requirements are met through the infusion of content and experience—not only through the specific courses, but also during the student teaching experience.

**Admission Requirements**

All admission requirements are the same as for the Multiple Subject Credential Program with the following exception of requirement #3:

**Subject Matter Preparation**

Students may satisfy Subject Matter Preparation in two ways:

1. Complete a California state-approved subject matter preparation program, or
2. Students who have not completed a state-approved subject matter preparation program must pass the appropriate Praxis II Specialty Area/Subject Assessment Constructed Response Examination and SSAT Multiple Choice

Please contact the College of Arts and Sciences Advising Coordinator for information regarding approved Cal State San Marcos subject matter preparation programs.

Cal State San Marcos will also accept students who have completed a state-approved subject matter preparation program from other colleges or universities. Examination* prior to admission to the Single Subject Credential Program.

It is strongly recommended that prospective students have a second area of strength in an additional subject area such as a supplementary authorization (teaching minor). Please contact the College of Education's Student Services Center for a list of subjects and an evaluation.

Students in the Single Subject Credential Program are exempt from taking the Reading Instruction Competence Assessment (RICA).

**Level II Preparation is required for all initial Level I credential holders. Please refer to page 203.**

CREDENTIALS WITH BCLAD: SPANISH EMPHASIS

An emphasis in BCLAD: Spanish is offered as an option in all Cal State San Marcos teacher education programs. The BCLAD Emphasis is a program offered in conjunction with the Multiple Subject, Middle Level, Intern, Concurrent, Single Subject Credential, and Integrated Curriculum Program Option (ICPO) - Bachelor of Arts in Liberal Studies and Multiple Subject Credential/CLAD designed to address the curricular and instructional needs of individuals wishing to provide primary language instruction to second language learners. This program is designed to provide credential candidates with primary and second language theory, curricula, instructional strategies and methodology, and is specially designed to instruct students in both their native language and in English language development across the content core curricula. The College of Education provides coursework and field experiences which qualify selected graduates for the BCLAD: Spanish Emphasis Credential in accordance with the competencies outlined by the Commission on Teacher Credentialing.

Admission Requirements
All admission requirements are the same as for the Multiple Subject, Integrated Bachelor of Arts and Multiple Subject Credential Program, Multiple Subject Internship, Single Subject, Middle Level, or Concurrent Credential Programs, with the following addition:

Second Language Assessment
BCLAD candidates must demonstrate the equivalent to a Foreign Service Institute level of at least three (3) in the language and culture of emphasis no more than three years prior to entering the credential program. The oral and written Spanish Language proficiency assessment requires passing scores of "Superior." Candidates are notified by mail after the application deadline to make arrangements for the language assessment. Candidates may take all four portions of Test 6 of the CLAD/BCLAD exam as an alternative.

PROFESSIONAL CLEAR CREDENTIAL

Course Requirements

Applicants may be granted a five year Professional Clear Multiple or Single Subject Credential if, in addition to completing program requirements for the Preliminary Credential, the applicant also satisfies:

FIFTH YEAR OF STUDY

Completion of a five year of study [thirty (30) units of upper-division or graduate work]. Applicants entering a professional teacher preparation program with a bachelor's degree may use the preparation program as appropriate for the fifth year.

HEALTH EDUCATION

Completion of a course in Health Education including information on alcohol, narcotics, drugs, tobacco, and nutrition (EDUC 571 or PE 201). The requirement includes training in infant, child, and adult cardiopulmonary resuscitation.

COMPUTER EDUCATION

Completion of a Computer Education course which includes general and specialized skills in the use of computers in the support of teaching and learning, integrated into the curriculum (EDUC 500).

SPECIAL EDUCATION

Completion of a requirement in the needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming) (EDUC 501).
CROSS-CULTURAL LANGUAGE AND ACADEMIC DEVELOPMENT (CLAD) CERTIFICATE

1. You must hold an appropriate prerequisite credential or permit. Examples include, but are not limited to:

2. You must complete the Second-Language Requirement* with one of the following options:

*Any option must be satisfied with respect to a single language rather than a combination of languages. There are changes in Title V Regulations anticipated for the Second Language Requirement.

A. Completion of six (6) semester units [or nine (9) quarter units] in coursework that emphasizes the learning of a language other than English with a grade of "C" or better in each course. This requirement must be satisfied with respect to a single language rather than a combination of languages.

B. Completion of three years of high school coursework in a language other than English. The coursework must be taken in grades 9 through 12 with at least a B average.

C. Completion of ninety (90) hours of language training with a grade of "C" or better in a language other than English offered under the auspices of the California Department of Education's Bilingual Teacher Training Program (BTTP). This training must be verified by a letter signed by an authorized representative of the BTTP program.

D. Successful completion of the training in a language other than English given by the Peace Corps to volunteers preparing to serve in a non-English-speaking country, verified by official Peace Corps documentation.

E. Residence in a non-English speaking country or countries for twelve (12) consecutive months at age 18 or older, verified by passports, work visas, letters from employers, etc.

F. Initial arrival at age 12 or older in the United States after having spent the years from birth to age 12 in a non-English speaking country or countries, verified by a birth certificate, passport, entry visas, etc.

Course Sequence

The following coursework in this sequence is required to obtain the CLAD Certificate if you currently do not hold a credential or certificate to give instructional services to limited-English proficient students:

*Courses must be taken in this exact order. You must earn a grade of "C" or higher in each course listed above to qualify for the CLAD Certificate.

READING CERTIFICATE

The College of Education offers a Reading Certificate Program. Refer to page 215.
ADVANCED CREDENTIALS

Preliminary Administrative Services Credential

The Preliminary Administrative Services Credential Program is designed to prepare new administrators for service to and within professional learning communities, and for the 21st Century. The primary focus of the program is the preparation of persons holding teaching and support service credentials for leadership roles as principals in multicultural K-12 schools. While the focus is on the principalship, persons holding this credential may also work in personnel, curriculum development, finance, and other administrative positions within school district offices.

This program has been specifically designed to prepare administrators for leadership roles which are responsive to the changing demographics and sociocultural dynamics of California's schools. The program is intended to prepare entry-level administrators for the transition to the Professional Administrative Credential as articulated by the Commission on Teacher Credentialing (CTC). The credential course sequence may also be applied toward the completion of the specialization in Education Administration for the Master's Degree in Education.

The credential program is designed as a half-time program, with evening courses, which responds to the needs of working professionals. Candidates have professional field experience and practice throughout the course of study which allows integration of teaching and administrative practice with academic preparation. The twenty-four (24) unit program allows completion of credential requirements in two academic years.

Admission and Pre-Professional Qualifications

The following are requirements for admission to the Preliminary Administrative Services Credential:

1. Baccalaureate Degree. Candidate must have a baccalaureate degree from an accredited post-secondary institution.
2. Valid Teaching or Services Credential. Candidate possesses a valid teaching or services credential as defined by California Commission on Teaching Credentialing.
3. Experience. Candidate must verify a minimum of three years of successful full-time classroom teaching or service in public or private school before being recommended for the Preliminary Administrative Services Credential.
4. CBEST. Candidate must have successfully passed the California Basic Educational Skills Test (CBEST).
5. Prerequisite/Corequisite Coursework. Candidate must successfully complete the following courses or approved equivalent:
   - EDUC 364
   - EDUC 500
   - EDUC 501
   Student must earn a grade of B- or better in each class.
6. Admission to the University. Candidates must satisfy all University admission requirements appropriate to the educational objective.
7. Letters of Recommendation. Candidates must have at least two letters of recommendation from educational, community, or business professionals (including at least one from a school administrator, preferably the most current employer) which indicate the candidate's qualifications, evidence of collaborative or cooperative abilities, capacity for problem-solving, oral and written communication skills and potential to succeed in a graduate educational administration credential program.
8. Admission Interview. Candidates will be individually interviewed by a College of Education admissions committee.
9. Statement of Purpose. Statement of Purpose to be submitted with application.

Program Total 24

Please note: Candidates for the Preliminary Administrative Services Credential must maintain a grade point average of 3.0 and not receive a grade of less than B- in any program course. Students completing the course sequence and meeting these criteria will be recommended to the California Commission on Teacher Credentialing for the Preliminary Administrative Services Credential.

Information for Administrative Services Credential Holders

The candidate will receive a Preliminary Administrative Services Certificate of Eligibility upon completion of the academic program and an institutional recommendation. This certificate will authorize the recipient to seek initial employment as an administrator. When an administrative position is obtained, an application will be filed and the Preliminary Administrative Services Credential will be issued and will remain valid for five years. The candidate will be required to complete the program for the Professional Administrative Services Credential (under Course Requirements for MA Option in Education Administration) and fulfill two years of administrative experience within that five-year period.
Professional Administrative Services Credential — Tier II

The Preliminary Administrative Services Credential Program is designed to prepare new administrators for service to and within professional learning communities, and for the 21st Century. The primary focus of the program is the preparation of persons holding a Preliminary Administrative Services Credential for leadership roles as principals in multicultural K-12 schools. While the focus is on the principalship, persons holding this credential may also work in personnel, curriculum development, finance, and other administrative positions within school district offices.

This state-mandated program has been specifically designed to prepare administrators for leadership roles which are responsive to the changing demographics and sociocultural dynamics of California’s schools. The program is intended to fulfill the requirements for the Professional Administrative Credential as articulated by the Commission on Teacher Credentialing (CTC).

The credential program is designed as a half-time program, with evening courses, which responds to the needs of working professionals. Candidates have professional field experience and practica, known as Induction and Assessment, throughout the course of study which allows integration of teaching and administrative practice with academic preparation. The twenty-four (24) unit program allows completion of credential requirements in two academic years.

Admission and Pre-Professional Qualifications

The following are requirements for admission to the Preliminary Administrative Services Credential:

1. Baccalaureate Degree. Candidate must have a baccalaureate degree from an accredited post-secondary institution.
2. Valid Teaching or Services Credential. Candidate possesses a valid teaching or services credential as defined by California Commission on Teaching Credentialing.
3. Experience. Candidate must verify current employment in a full-time administrative position.
4. Prerequisite: Preliminary Administrative Services Credential.
5. Admission to the University. Candidates must satisfy all University admission requirements appropriate to the educational objective.
6. Letters of Recommendation. Candidates must have at least two letters of recommendation from educational, community, or business professionals (including at least one from a school administrator, preferably the most current employer) which indicate the candidate’s qualifications, evidence of collaborative or cooperative abilities, capacity for problem-solving, oral and written communication skills and potential to succeed in a graduate educational administration credential program.
7. Admission Interview. Candidates will be individually interviewed by a College of Education admissions committee.
8. Educational Philosophy. Educational Philosophy to be submitted with application.

Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist Credential Program

Refer to page 201.

Professional Level II Mild/Moderate and Moderate/Severe Disabilities Education Specialist

Level II preparation is required of all initial (Level I) credential holders. This Professional Level II preparation is intended to be a support mechanism for the successful induction of newly credentialed special educators into the professional level. All candidates completing Preliminary Level I preparation must begin a Level II program within 120 calendar days after employment as a specialist and complete a Professional Clear Level II Education Specialist credential program within 5 years of the date of issuance of the Preliminary Level I Credential.

Reading Specialist Credential

The purpose of the Reading Specialist Credential is to prepare teachers to assume leadership positions in the areas of language arts — reading, writing, listening, speaking — and understand how they fit within the curriculum. Students will become knowledgeable of current reading and writing theory, research and pedagogy, literacy learning, children and adolescent literature, assessment, and curriculum development. All courses contain information regarding the issues of special populations, multilingual/ multicultural, and biliteracy strands, as well as projects that connect academic work to school contexts and address K-12 literacy issues.

In addition, research methodology and the utilization of technology as it relates to literacy instruction are infused throughout the courses. Applicants must hold a CTC-approved valid basic teaching credential (or equivalent); currently be teaching or have at least one year teaching experience (or equivalent); have a GPA of 3.2 in the last sixty (60) units of an undergraduate degree; submit two letters of recommendation from individuals familiar with the applicant's work in the field of education; and be interviewed by the literacy faculty.

Admission and Pre-Professional Qualifications

All the admission requirements are the same as the Preliminary Administrative Services Credential, with the following exceptions:

1. Teaching Experience. Candidates must have one year of teaching experience (or the equivalent).
2. Letters of Recommendation. Candidates must have at least two letters of recommendation from educational or community professionals which indicate the candidate's qualifications, evidence of collaborative or cooperative abilities, problem-solving skills, oral and written communication skills and potential to succeed in a graduate/specialist credential program.

In addition, students must fulfill the second language requirement with one of the options listed on page 209 of this catalog.

Technology

Master's candidates must demonstrate effective use of technology at an advanced level (Level II) as indicated by the California Commission on Teacher Credentialing. Standard 20.5. Students may take a course or obtain an approved waiver.

Schooling in a Multicultural Society

In a course on Schooling in a Multicultural Society, all master's candidates must imbue the principles and philosophy of teaching in a pluralistic society, the cornerstone of the College of Education. Depending on the option, the required course may have a general education focus (EDUC 602), an administrative focus (EDAD 602), or a literacy focus (EDUC 627).

Research Methods

In Research Methods in Education (EDUC 622), students are presented with research methods and preparation for their own investigative studies. This course is designed to make master's-level students both consumers of research as well as teacher/administrator researchers.

The Options

The options allow students to pursue their particular areas of interest according to their individual needs and goals. Students may choose from the following options:

- Biliteracy, Language and Culture
- Educational Administration
- Learning and Instruction
- Literacy Education
- Science, Mathematics and Educational Technology for Diverse Populations
- Special Education

In addition to the content specific to its particular area, each option:

1. contains a component tailored to that specialty area covering topics of research design and methodology, measurement, assessment, and program evaluation, as these topics pertain to that option;
2. addresses aspects of multiculturalism/bilingualism; and
3. uses technology relevant to that option.

The Thesis/Project

All students are required to complete their programs with a culminating experience in their respective fields. This expectation allows master's candidates to conduct their own research study and/or engage in a collaborative effort to enhance curricular and programmatic needs in relevant school settings. Students engage in the planning, preparation, and completion of the thesis or project under the direction of a faculty committee made up of the chair and at least one other faculty member. The program emphasizes collaborative master's projects. Students will be encouraged to work in small groups or pairs on master's projects which are applied in nature and, when possible, are field-based and may include experiences working with a particular population of learners. Collaboration among master's students and school districts is encouraged. Students begin the formal preparation of this culminating project.
following successful completion of an option and advancement to candidacy. Note: students must continually enroll in EDUC 700 until successful completion of thesis or project.

Admission Requirements

General requirements are listed below. Different or additional requirements for specific options are found in the description for that option.

Required:
1. Basic credential.
2. At least one (1) year full-time teaching experience or currently teaching for all options with the exception of the Education Administration which requires at least three (3) years full-time teaching experience.
3. Application for the Master of Arts in Education in the College of Education.
4. Interview with appropriate College of Education Admissions Committee or successful completion of one course with a recommendation from that course instructor.
5. GPA according to the University admission policy.
6. Two (2) letters of recommendation from individuals familiar with the candidate's work in the field of education.
7. Statement of Purpose describing the candidate’s interest in pursuing the degree.
8. Completion of the Graduate/Postbaccalaureate Application to the University.

All materials will be evaluated to assess an applicant’s qualifications for admission; however, no one indicator shall determine acceptance of an applicant.

Other Master of Arts in Education Requirements

The following information applies to all master’s students in the College of Education.

Required of all master’s students: planning, preparation, and completion of a thesis or project under the direction of a faculty committee. Collaboration among master’s students and school districts is encouraged. Prerequisite: Successful completion of an option and advancement to candidacy. Note: students must continually enroll in EDUC 700 until successful completion of thesis project.

Up to nine (9) units of graduate-level course work in education or a related field may be transferred into the program.

Grading

All coursework will earn a letter grade. A grade-point average of 3.0 must be maintained and any grade of less than B– will be subject to review.

Option in Biliteracy, Language and Culture

(30 units)

The Option in Biliteracy, Language and Culture within the Master of Arts in Education prepares teachers who already possess the CLAD/BCLAD certification (or the equivalent; e.g., ESL, ELD, primary language proficiency in another language, BOC, LDS) to take roles in leadership capacities in K-12 schools including the classroom, professional development, mentoring, administration, curriculum, and evaluation in terms of educating students in multilingual/multicultural contexts. The option emphasizes the development of multilingual/multicultural expertise through examination of the theoretical foundations of such education as a means of impacting the design and implementation of curriculum, instruction and programs that effectively meet the needs of students in such contexts. It stresses the notion of the reflective practitioner working in a collaborative environment to facilitate successful education for all students.

The option further emphasizes an integration of theory and practice, incorporating the notion of a student-centered curriculum for students in such diverse contexts.

Candidates may also qualify for the BCLAD Specialist Credential. For further information on this credential program, please see page 212.

Option in Education Administration

(30 units)

Candidates must have three or more years of professional experience. They must also complete the prerequisite/corequisite courses mentioned below.

The Option in Education Administration within the Master of Arts in Education prepares site and district administrators for positions of leadership in the elementary and secondary schools of the 21st Century. The option emphasizes the development of administrative expertise through a sound knowledge base, a student-centered pedagogy, the appropriate integration of theory and practice, capacity for research and critical analysis, collaborative practice, evaluation in school administration and management, and the development of professional and ethical models of leadership.

Candidates also qualify for the Preliminary Administrative Services Credential. For specific information on the Administrative Services Credential, please refer to page 210.

The Option in Literacy Education in the Master of Arts in Education is intended for individuals interested in classroom, school, and district leadership positions in the areas of reading, writing, and curriculum. It prepares teachers to assist other teachers and administrators in creating literacy programs that promote not only the learning of reading and writing, but also the learning of subject matter across the curriculum. Graduates of this program will be knowledgeable about current reading and writing theory, literacy research and pedagogy, literacy development and learning, children’s and adolescent literature (taught in Spanish as well as English), and curriculum development. A graduate of this area will also have the ability to assist in the development of assessment instruments and procedures at the school district level. The Literacy Program offers a Reading Certificate, a Reading/Language Arts Specialist Credential, and a Master’s degree.

Electives

400 level or graduate courses in the College of Education or College of Arts and Sciences in the areas of science, mathematics and educational technology, as approved by College of Education program adviser.

EDUC 698 (Thesis) 3

Option in Special Education

The Option in Special Education in the Master of Arts in Education prepares teachers in advanced leadership skills for the delivery of special education services. Candidates may earn Level I and/or Level II Education Specialist credentials in the areas of Mild/Moderate Disability and/or Moderate/Severe Disability. The Special Education Option is designed to provide an advanced career path in special education to two different categories of teachers. One Master's path is for teachers who already hold the Level I Mild/Moderate and/or Moderate/Severe Disability Education Specialist Credential(s) and who need to complete the Professional Level II coursework in order to retain their Education Specialist credential. This path also is appropriate for special educators who hold a Learning Handicapped or equivalent credential and who wish to obtain a Master's in Special Education. The second Master's path is for teachers who hold a CTC-approved valid basic teaching credential (or equivalent) and who are seeking both a Master's and the Level I Mild/Moderate and/or Moderate/Severe Disability Education Specialist Credential(s).

For this Master's degree option, evidence of CLAD certification or emphasis is required before an Education Specialist credential or Master's degree is awarded. Applicants who are CLAD certified must submit a copy of the CLAD certification with their college application. Applicants who do not possess CLAD certification prior to acceptance into the Master's program will be expected to earn it prior to program completion. In certain cases, some CLAD courses may be used as electives within the program of study.

Special Education Advanced Credential and Master's Options

Designed for teachers who have completed a basic credential program and have satisfied California subject matter competency (An emergency or substitute permit is not a basic credential.)
### OPTION #1 - Preliminary Level

**Mild/Moderate and/or Moderate/Severe and/or Master of Arts**

Prerequisite courses to be completed prior to program (not part of the sequence):

<table>

</tr>
</tbody>
</table>

**Master’s Thesis/Project**

Level II preparation is required of all initial (Level I) credential holders. This Professional Level II preparation is intended to be a support mechanism for the successful induction of newly credentialed special educators into the professional level. All candidates completing Preliminary Level I preparation must begin a Level II program within 120 calendar days after employment as a specialist and complete a Professional Clear Level II Education Specialist credential program within 5 years of the date of issuance of the Preliminary Level I Credential.

### OPTION #2 - Level II only or Level II and Master of Arts

**Required Courses for Level II:**

CLAD competency coursework if not holding a CLAD Certificate
Course Descriptions
# COURSE DESCRIPTIONS

Below is a list of all course subject abbreviations. Course descriptions begin on page 221.

Note that while the course subject abbreviations are arranged on this page by college, the course descriptions are alphabetically listed by the course subject abbreviation regardless of the college in which they are offered. For instance, the order of course subjects abbreviations beginning with the letter F is FIN (Finance), FLAN (Foreign Language), FMST (Film Studies), FREN (French).

**Numeric Values**
- 001 to 099 are non-baccalaureate developmental courses
- 100 to 299 are lower-division courses
- 300 to 499 are upper-division courses
- 500 to 699 are graduate level courses

*See page 71 for further information.*
How to decipher the information in this section.

**CHEMISTRY (CHEM)**

Subject area and the code for that subject.

**College of Arts and Sciences**

College in which the course is offered.

**CHEM 201L (2)**

Course subject (CHEM), number (201L), and the number of credit units earned in the course (2). An "L" suffix frequently indicates a laboratory course, and an "S" suffix frequently indicates a course offered in Spanish. Suffices are also used to indicate different courses in a sequence, or to indicate different offerings in a special topics course.

**Organic Chemistry Laboratory**

Course Title

The laboratory experiments are designed to illustrate the basic techniques of organic chemistry and to complement the lecture material covered in CHEM 201.

Course description. A brief outline of what will be covered in the course.

Six hours of laboratory.

Any special conditions applying to the course. For example, courses usually meet for one hour per week for each unit of credit, but CHEM 201L (a two-unit course) meets for six hours each week, not two.

Corequisites are courses that must be taken at the same time (or before) the course.

Prerequisite: CHEM 150 with a minimum grade of C (2.0).

Prerequisites are courses that must be completed (or conditions that must be satisfied) before a course can be taken.
ACCOUNTING (ACCT)

College of Business Administration

ACCT 203 (4)
Survey of Accounting Information
Introduction to the five primary accounting areas: financial, managerial, taxation, auditing, and accounting information systems. Each area is introduced in terms of its background, conceptual basis, and application in the business environment.

ACCT 305 (4)
Financial Accounting
In-depth discussions of accounting theory and practice. Examination of issues related to asset valuation and income determination based on generally accepted accounting principles. Prerequisite: All lower-division pre-business core.

ACCT 306 (4)
Cost Accounting
Review of the cost measurement process and its role in management and control. Includes cost-volume-profit relationships, budgeting, variance analysis, and cost systems for product, process, job and responsibility costing. Prerequisite: All lower-division pre-business core.

ACCT 307 (4)
Tax Accounting
Introduction to federal tax concepts with emphasis on individual taxpayers; includes an overview of the statutory construction and methods for accessing tax information. Prerequisite: All lower-division pre-business core.

ACCT 308 (4)
Accounting Information and Systems
Basic principles underlying the accounting process and concepts necessary for the preparation of financial statements, both manually and electronically. Includes the design, integrity, and effectiveness of accounting information systems emphasizing the integration of financial information, internal control, and computer technology in decision making and operational support. Students will be exposed to a variety of accounting software applications. Three hours of lecture and two hours of laboratory. May not be taken for credit by students who have received credit for ACCT 303, 315, 415 or 481A. Prerequisites: All lower-division pre-business core, and ACCT 305, and University computer competency requirement.

ACCT 405 (2)
Current Issues in Financial Accounting
Examination of new developments and proposed changes in financial accounting. The emerging issues in financial accounting under consideration by the Financial Accounting Standard Board are emphasized. Prerequisites: All lower-division pre-business core and ACCT 305.

ACCT 406 (2)
Cost Management, Measurement, and Control
In-depth study of the application of activity based cost accounting to the problems of management control in manufacturing, service, and government organizations. Prerequisites: All lower-division pre-business core, ACCT 306, or HTM 304 and HTM 305, or SSM 304 and SSM 305.

ACCT 407 (2)
Advanced Tax Accounting
Federal tax concepts as they apply to corporations, partnerships and fiduciaries; includes federal estate and gift taxation. Prerequisites: All lower-division pre-business core and ACCT 307.

ACCT 410 (4)
Auditing
A comprehensive examination of auditing theory, standards and procedures used by CPAs, with integration of Generally Accepted Auditing Standards. The ethical and legal environments of the independent auditor are also discussed. Should be taken last year of enrollment, preferably last semester. Prerequisites: All lower-division pre-business core and ACCT 305.

ACCT 420 (2)
Managerial Accounting in Government and Non-Profit Organizations
Managerial accounting in government and non-profit organizations will be the focus of this course. Subjects such as reinventing government, the national performance review, changes in government management accounting, and auditing's role in government management will be explored. May not be taken by students who have received credit for ACCT 417. Prerequisites: All lower-division pre-business core and ACCT 306.

ACCT 421 (2)
Financial Accounting in Government and Non-Profit Organizations
Focuses on financial accounting in government and non-profit organizations. Includes an introduction to cash-based accounting as well as principles of fund accounting, budgeting, accounting and analysis of financial statements. The general fund and special funds will be covered. May not be taken for credit by students who have received credit for ACCT 417. Prerequisites: All lower-division pre-business core and ACCT 306.

ACCT 422 (2)
Advanced Accounting
Covers business combinations, including consolidated financial statements, including wholly owned and partially owned subsidiaries. Covers the cost method as well as the equity method of accounting for investments in common stocks. Also included is the purchase and pooling methods of accounting. In addition, inter-company transfers are presented. Prerequisites: All lower-division pre-business core, ACCT 305 and ACCT 405 or consent of instructor. May not be taken for credit by students who have received credit for ACCT 418 or ACCT 490C.

ACCT 423 (2)
International Accounting
Examines and discusses, in-depth, the issues in international accounting that affect today's global business world. Subject matter includes accounting for changing prices, foreign currency translation and transactions, and specific reporting issues, (e.g., intangible assets, research and development, leases, pensions, post-retirement benefits). Managerial accounting issues covered are: strategic planning and control, budgeting product costing and foreign costing, foreign exchange risk management, transfer pricing, international taxation, international financial statement analysis, and auditing issues for global operations. The challenges and opportunities in developing countries (as well as eastern European countries), along with financial statement practices and trends also will be included. Prerequisites: All lower-division pre-business core. May not be taken for credit by students who have received credit for ACCT 418 or ACCT 490C.

ACCT 481 (1)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 482 (2)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.
ACCT 483 (3)
Selected Topics in Accountancy
A survey course of selected topics in accounting in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 484 (4)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 485 (4)
Selected Topics in Accountancy with Lab
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 498 (1-4)
Independent Study in Accountancy
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

ANTH 200 (3)
Cultural Anthropology
A general survey of cultural anthropology, which is one of the main branches of general Anthropology. Employs a global and holistic perspective to examine the economic, social, political, cultural, and ideological integration of society. The comparative, cross-cultural method distinctive to anthropology is used to explore the diverse ideas and behavior that characterize humanity and the human condition. Presents the fundamental questions that cultural anthropologists ask, the methods they use to answer these questions, and some of the uses of anthropological knowledge. Self-reflection and critical analysis of one's own world view assumptions and cultural belief system are fundamental objectives of the course.

ANTH 301 (3)
Culture and Medicine — Healers and Healing Practices
Every culture and society has had to deal with illness and thus has well-developed concepts about the healing process, healers, medical knowledge and healing practices. Offers a cross-cultural exploration of healers and healing approaches. Examines differences and similarities in the ways that people approach illness and healing by relying heavily on an abundance of examples from various cultures, including that of the United States. Examines illness causation and classification theories, diagnostic practices, therapeutic procedures, and the implications that underlie these concepts and practices, and their relationship to the social, cultural, and technological environments in which they are constructed.

AntH 310 (3)
World Prehistory
Provides an interdisciplinary overview of the major developments in the early human past. Drawing upon archaeological, biological, linguistic, and anthropological sources, this global coverage of human prehistory examines the development of cultures and societies of Africa, Europe, the Americas, Asia, and the Pacific. Explores the evolution of human thought, adaptive behavior, the hunter and gatherer Diaspora, and the development of agriculture and the origins of states. Through cross-cultural comparisons and archaeological theory, explores such subject matter as the origins of gender differences in the division of labor, the role of ideology in cultural adaptation, differential access to technologies, economic production, artistic expression, and mechanisms of cultural change.

ANTH 315 (3)
Human Origins
Offers an introduction to human origins from the perspective of biological anthropology. A premise of the course is that human form and human behavior have evolved together and neither can be fully understood or appreciated without a full understanding of the other. Subject matter to be covered includes the geological time frame, evolutionary theory, and the evolution of primates, hominids, and modern humans as evidenced by fossil remains, specific sites, genetic research, and artifacts.

ANTH 325 (3)
Pre-Columbian Mesoamerican Art and Society
Examines Pre-Columbian Mesoamerican art, cosmology, architecture, mythology, and literature as they reflect social structure, religion, social roles, ideology, economic and political organization, world view, and the family. Covers the preclassic, classic, and postclassic periods, focusing on several cultural areas including: the Olmec, Teotihuacan, Monte Alban and the Zapotec and Mixtec of Oaxaca, the Toltecs, the Maya, and the Aztec, or Mexico. Examines the calendar, writing, concepts of space and time, the ballgame, tribute, human sacrifice and bloodletting, sacred plants, and specific Mesoamerican deities. Also offered as VSAR 325. Students may not receive credit for both.

ANTH 330 (3)
Ritual and Religion
Ritual and religion have historically been powerful shapers of society. Every society that has existed has asked universal questions like the following: Where do we come from? Why are we here? What are we supposed to do? How are we supposed to act? What happens to us when we die? Provides a cross-cultural and comparative examination of the social, political, economic, cultural, and ideological constructs that people have generated in seeking to answer to these questions. Examines the role of religion as an integral component of world view and social institutions, anthropological theories and findings about comparative religion, and emphasizes the explanatory concepts of religion in its social, environmental, and economic contexts rather than focusing on the specific attributes of differing religions.

ANTH 370 (3)
Environment, Population, and Culture
Focuses on contemporary world problems from interdisciplinary and anthropological perspectives. Employing the cross-cultural, evolutionary, and multidisciplinary methods of anthropology and cultural ecology, examines the environmental crisis, rain forest destruction, resource management, consumption culture, world hunger, food systems, population pressures, poverty, energy distribution, the future of the global free market, and the role of ideology in environmental adaptation with the objective to foster crisis awareness and informed response. May not be taken for credit by students who have received credit for ID 370C.

ANTH 498A (1) 498B (2) 498C (3)
Directed Research in Anthropology
Involves original anthropological research to be directed by instructor. Advanced students in anthropology propose an ethnographic and anthropological research project, and collaborate with original research project to gain experience in field research, data analysis, and write up.
ANTH 499A (1-4) 499B (2) 499C (3)  
Directed Research in Medical Anthropology  
Involves original anthropological research in medicine or health care to be directed by instructor. Advanced students propose an ethnographic and anthropological research project, or collaborate with original research project to gain experience in field research, data analysis, and write up.

ASTRONOMY (ASTR)  

College of Arts and Sciences  

ASTR 101 (3)  
Introduction to Astronomy  
Provides an introduction to solar system and stellar astronomy. The historical development of astronomy is presented as well as modern theories, observations, and ideas concerning the nature and evolution of planets, stars, and galaxies. May not be taken for credit by students who have received credit for ASTR 342 or PHYS 342. Satisfies the Liberal Studies requirement for Earth Science.

ASTR 342 (3)  
Elements of Astronomy  
Provides a practical and historical introduction to astronomy. Includes an overview of solar system astronomy, stellar astronomy, galaxies, and cosmology. Historical and cultural aspects of the development of astronomy are emphasized. Laboratory work includes inquiry-oriented observations, modeling, and the use of computer simulations. Satisfies the Liberal Studies requirement for Earth Science. Two hours lecture, and one two-hour activity. May not be taken for credit by students who have received credit for PHYS 342.

BUSINESS ADMINISTRATION (BA)  

College of Business Administration  

BA courses open to MBA students only.

BA 620 (1-4)  
Information Systems  
Analyzes information systems and their role in organizations. Focuses on the management of information resources and surveys the various types of business information systems, including transaction processing systems, management information systems (MIS), decision support systems (DSS), executive support systems (ESS), and expert systems. Hardware, software, data storage, and telecommunication technologies are reviewed. Considers the issues of emerging technologies, social and ethical concerns, and security and control. Prerequisites: BGA 501 and 502 or equivalent.

BA 621 (1-4)  
Issues in Information Systems  
Continuation of BA 620. Further exploration of the strategic use of information systems and their relationship to corporate success. May not be taken for credit by students who have received credit for BA 690D.

BA 622 (2-4)  
Effective Leadership  
Focuses on aspects of leader-follower interaction including effective use of power, politics, and influence; understanding what motivates followers both individually and in teams; and managing diversity. Prerequisites: BGA 501 and BGA 502 or equivalent.

BA 623 (1-4)  
Seminar in Human Resource Issues  
Explores human resource topics such as performance appraisals, recruitment, selection, training, and EEO compliance. May not be taken for credit by students who have received credit for BA 690C.

BA 624 (2-4)  
Managerial Accounting and Productivity Measurement  
Emphasizes the use of accounting information to measure productivity. Presents and applies concepts and techniques of managerial accounting. Examines accounting measurement techniques used to provide relevant information for management decision making and operational control. Prerequisites: BGA 501 and 502 or equivalent.

BA 630 (2-4)  
Project Management and Proposal Development  
Emphasizes project management techniques for enhancing the successful execution of business plans. Encourages use of critical thinking and explores creative methods to solve management problems. Includes development of the Masters Project proposal. Prerequisites: BGA 501 and 502 or equivalent.

BA 640 (2-4)  
Market Analysis for New Opportunities  
All organizations must take their marching orders from the marketplace. This single, simple idea is so central to the self-concept of marketing that it is called "the marketing concept." Nowhere is the marketing concept more important than in pioneering new market opportunities. Course explores the marketing process, from marketing analysis, to market segmentation, to identifying market targets, to formulating and controlling marketing strategies. Prerequisites: BGA 501 and 502 or equivalent.

BA 643 (1-4)  
Corporate Finance  
Provides a grounding in the theory of corporate finance, with application to financial decisions. Includes topics such as time value of money, capital budgeting, the cost of capital, and leverage. May not be taken for credit by students who have received credit for BA 690B.

BA 644 (2-4)  
Financial Decision Making and Financial Markets  
Describes the theory and practice of corporate finance. Presents concepts and information on which sound financial decisions are based. Also examines the various financial markets and the investment vehicles traded in those markets. Prerequisites: BGA 501 and 502 or equivalent.

BA 662 (2-4)  
Operations Management  
Examines opportunities and obstacles of a global competitive environment. Focuses on the efficient and effective deployment of capital, material, information, technology, and human resources. Examines the relationship of operations to functional areas and topics such as capacity and inventory planning, technology, managing change, and quality management. Prerequisites: BGA 501 and 502 or equivalent.

BA 664 (2-4)  
Quality Management and Process Innovation  
Provides insight into the philosophies, theories, and tools for management of quality and change. Focuses on leading technologies for process improvement in manufacturing, service, and operations to continuously enhance an organization's competitiveness. May not be taken for credit by students who have received credit for BA 642. Prerequisites: BGA 501 and BGA 502 or equivalent.

BA 670 (2-4)  
Strategic Planning and Management  
Capstone course taught from a global strategic manager's perspective. Focuses on the diagnosis of problems and the implementation of solutions. Course must be taken in last session of courses and prior to Masters Project.

BA 680 (6)  
Master's Project  
Practical application of advanced management theories and methods to investigate a wide range of organizational issues. Subject matter may include development of a new venture or product or process, or improvement of an existing organization's operations with the intent of achieving a significant cost reduction, service enhancement, etc. Each project is proposed, researched and reported, culminating in a written report that includes problem identification, evaluation of potential solution, discussion of the selected implementation, and evaluation of the results. Graded Credit/No Credit. Prerequisites: Course must be taken following completion of all coursework.

BA 690 (1-4)  
Selected Topics in Business Management  
A course of selected topics in business management. May be repeated for credit as topics change for a total of six (6) units. Prerequisites: BGA 501 and 502 or equivalent.
BA 698 (1-4)
Independent Study
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

BUSINESS AND GOVERNMENT ADMINISTRATION (BGA)

College of Business Administration

BGA 501 (4-8)
Management Decision Making and Analysis
An interdisciplinary course emphasizing analytical approaches for problem formulation, solution, and implementation. Concepts, tools, and techniques of financial analysis, management accounting, statistics, production, operations, and selected computer applications are studied and applied in realistic organizational settings. BGA courses are open only to pre-MBA students who hold a baccalaureate degree in a field other than Business Administration.

BGA 502 (4-8)
Management of Complex Organizations
Presents in an interdisciplinary format the principles of organizational behavior, theory and development, leadership, ethics, environmental analysis, marketing, and economics, applied to complex organizations operating in the global marketplace. Focuses on integrated theory and practice for developing problem-solving competencies. BGA courses are open only to pre-MBA students who hold a baccalaureate degree in a field other than Business Administration.

BIOLOGICAL SCIENCES (Biol)

College of Arts and Sciences

BIOL 110 (3)
Critical Thinking in Biology
Explores logic and its relationship to language, the importance of assumptions in reasoning and argument, cultural or social variation in assumptions, the process of argumentation, and the role of hypothesis and deduction in modern scientific thinking. Through discussion and case studies, students will learn to effectively argue a point of view, judge the reliability and credibility of sources, recognize and avoid common logical or theoretical fallacies in arguments, and use hypothesis and deduction to solve biological puzzles.

BIOL 210 (4)
Introduction to Cellular and Molecular Biology
The first of a two-semester core sequence that provides the student with basic knowledge in biology, including specific experimental techniques and familiarity with the scientific method. Emphasizes cellular structure and physiology, molecular evolution, classical and molecular genetics, and biochemistry. May not be taken for credit by students who have received credit for BIOL 202. Three hours lecture and three hours laboratory. Corequisite or Prerequisite: CHEM 150.

BIOL 211 (4)
Introduction to Organismal and Population Biology
The second of a two-semester core sequence that provides the student with basic knowledge in biology, including specific experimental techniques and familiarity with the scientific method. Emphasizes physiology, development, diversity of life, evolution, and ecology. May not be taken for credit by students who have received credit for BIOL 201. Counts toward the fulfillment of the Lower-division General Education Requirement in Physical Universe and Its Life Forms. Three hours lecture and three hours laboratory. Prerequisite: BIOL 210.

BIOL 305 (3)
Biological Engineering and Society
Explores anticipated technological advances and products in pharmaceuticals, medicine and agribusiness; laboratory procedures including bio-safety restrictions to protect researchers and the environment; and the costs, benefits, and ethical implications for society of these rapidly changing new technologies. May not be taken for credit by students who have received credit for BIOL 303.

BIOL 311 (3)
The Biology of a Nuclear Age
Description of the physical nature of nuclear radiation and the cellular damage produced by radiation, followed by a survey of the damage caused by the two nuclear bomb experiences. Considers the current world dependence on nuclear energy, sources of environmental and industrial exposure, and the condition of equipment and safeguards. May not be taken for credit by students who have received credit for BIOL 391.

BIOL 316 (3)
The Biology of Cancer
Considers the chemistry, cell biology, and etiology of human cancer. Includes characteristics of tumor cells, malignant transformation of cells, tumor viruses, chemical and environmental carcinogens, effects of radiation, oncogenes, and the genetics of cancer. May not be taken for credit by students who have received credit for BIOL 420. Prerequisite: A college-level course in biology, or consent of instructor.

BIOL 321 (3)
Human Physiology
A survey of body systems, how they function, and how they can malfunction leading to disease. Includes respiration, nutrition, waste removal, reproduction (including birth), embryonic development, muscular movement, and exercises. May not be taken for credit by students who have received credit for BIOL 491.

BIOL 323 (3)
The Physiology of Nutrition and Disease
Study of the anatomy and physiology of human nutrition and functional relationships to disease. Includes metabolism, cellular metabolism, digestive physiology, nutrients, enzymes, vitamins, weight management, stress, diet, the role of exercise in nutrition, and the role of nutrition in development. Also covered will be symptoms and effects of disease associated with inadequate nutrition, nutritional contributions to diseases not associated with inadequate diet, and contributions of nutrition to health. Special attention will be given to health concerns of women and the differences in nutritional needs between genders. May not be taken for credit by students who have received credit for BIOL 493.

BIOL 325 (3)
The Physiology of Exercise and Health
Concepts in functional anatomy and physiology will be integrated with current concepts in health and medicine. Includes anatomy of musculature associated with physical exertion, physiology of the immune system, cardiovascular system, and nervous system pertaining to the physical movement of exercise. Emphasis on preventative health care, exercise and health of women, and gender differences in physiology and health. May not be taken for credit by students who have received credit for BIOL 494.

BIOL 327 (3)
Biology of Human Reproduction
Physiology and anatomy of human reproduction. Covers the form, function, and mechanisms of sexual development, puberty, sexual abnormalities, venereal diseases, menstrual cycle, sexual behavior and contraception, pregnancy, embryonic development, birth, lactation, and the sexuality of aging (including menopause). May not be taken for credit by students who have received credit for BIOL 347.

BIOL 328 (3)
Human Heredity
Review of genetics from a human perspective. Includes DNA structure and replication, chromosomes and cytogenetics; Mendelian inheritance; dominant and recessive alleles, the genetics of sex, mutations and mutations; inherited traits; pedigrees, genetic diseases including inborn errors of metabolism, and genetic therapy. May not be taken for credit by students who have received credit for BIOL 410.
BIOL 336 (3)  
Coastal Environments  
Considers the biological and physical processes that structure coastal environments and examines the application of marine science to the management of coastal resources. Investigates the impacts of the often conflicting uses of the coastal zone including fisheries, oil production and transportation, ocean dumping and coastal development. Coastal zone management tools and applications at local, state, federal, and international levels are discussed. Not open to Biology majors except by consent of advisor. Fieldtrips outside the classroom may be required.

BIOL 338 (3)  
Human Impact on the Environment  
Considers the major areas where human use of resources and consequent waste production (chemical, industrial, and biological) have had a negative impact on specific environments and on the species that inhabit them. An attempt will be made to identify areas of future adverse human impact and to evolve remedial solutions. May not be taken for credit by students who have received credit for BIOL 392.

BIOL 339 (3)  
Conservation Biology  
Study of the principles of ecology applied to plant and animal populations considered endangered, threatened, or at risk. Investigates the complex factors contributing to the dynamics, decline, extinction, and perhaps recovery of species. Develops a stewardship perspective rooted in biological principles and considers the associated cultural, historical, economic, and political issues. Local, regional, and global conservation strategies are discussed.

BIOL 348 (3)  
Brain and Mind  
Examines the relationship between the brain, and how the brain produces behavior. Intended for non-majors, this course will review basic neuroanatomy and physiology, and consider mind/brain relations in the context of psychoactive drugs, brain development, neurological disorders, sexual behavior, and cognitive abilities such as language, memory, thinking, and consciousness. Also offered as PSYC 361. Students may not receive credit for both. Prerequisite: PSYC 100.

BIOL 351 (5)  
Molecular Cell Biology  
An integrated view of contemporary molecular biology, biochemistry, and cell biology. The fundamental principles of molecular biology including DNA replication, mechanisms and regulation of transcription and translation, and nuclear acid and protein structure and function will be presented and interwoven with some of the more traditional topics in cell biology and biochemistry. Examines the molecular basis of membrane structure and transport, cytoplasmic structure, and energy metabolism, organelle structure and function, cell motility, and cell-cell interaction and signal transduction. Three hours of lecture, one hour seminar, three hours laboratory. May not be taken for credit by students who have received credit for BIOL 307. Prerequisites: BIOL 210 and 211.

BIOL 352 (4)  
Genetics  
Detailed study of classical transmission, molecular quantitative and population genetics. Included will be current observations and concepts of the nature, organization, function and regulation of the expression of genetic material. Subject matter covered includes mechanisms of genetic conveyance, recombination, mapping, mutation and repair, RNA and DNA viruses, karyotyping, human genetics, and genetics of organelles. Three hours lecture and three hours laboratory. May not be taken for credit by students who have received credit for BIOL 309. Prerequisites: BIOL 210 and 211.

BIOL 353 (4)  
Comparative Animal Physiology  
A comparative survey of physiological adaptations including gas transport, metabolism, temperature and dehydration tolerance, and locomotion. Three hours of lecture and three hours of laboratory. May not be taken for credit by students who have received credit for BIOL 345. Prerequisites: BIOL 210 and 211.

BIOL 354 (4)  
Principles of Ecology  
Discussion of major concepts in population, community, and evolutionary ecology including population growth and regulation, competition, predation, energetics, adaptations, and diversity. Weekend field trips may be required. Three hours of lecture and three hours of laboratory. May not be taken for credit by students who have received credit for BIOL 300. Prerequisites: BIOL 210 and 211.

BIOL 355 (4)  
Molecular Biotechnology  
In-depth treatment of the fundamental molecular techniques in use in the field of biotechnology. Designed to give hands-on experience as well as conceptual background in biotechnological methods. Subjects covered will include: nucleic acid isolations, vectors, cloning, library screening, hybridizations, PCR, sequencing, sequence analysis and bioinformatics, and transgenic organisms. Other subjects will vary to reflect current practice and developments in biotechnology. Three hours lecture and three hours laboratory. Prerequisites: BIOL 210 and CHEM 250, and consent of instructor.

BIOL 360 (4)  
Experimental Design and Statistical Analysis  
Design and analysis of biological surveys and experiments. Includes descriptive and inferential statistics; hypothesis testing using analysis of variance, correlation and regression, and frequency analysis; power analysis; and effective presentation of results. Three hours of lecture and three hours of laboratory. May not be taken for credit by students who have received credit for BIOL 315.

BIOL 362 (3)  
Evolution  
A consideration of evolution as the unifying concept in biology. Diversity and adaptation of form, function, and behavior of living organisms. Biological, geological, anthropological, and chemical evidence for and mechanisms of evolutionary change, including global pattern of distribution and specialization, mass extinctions, the evolution of race and sex, and the origin of species. May not be taken for credit by students who have received credit for BIOL 312. Prerequisites: BIOL 210 and 211.
BIOL 367 (4)  
Biology of Microorganisms  
Provides a comprehensive selection of subjects from the field of microbiology. Students will study prokaryotic structure and function; growth and control of microorganisms; ecology, physiology, and diversity of bacteria, basic microbial and viral genetics, microorganisms of medical and economic significance; and biotechnology and its human applications and societal implications. The laboratory component will employ research-oriented group activities, in addition to individual projects and assignments, and will engage students in the latest techniques utilized in the field of microbiology. Three hours of lecture and three hours of laboratory. Prerequisites: BIOL 210 and 211.

BIOL 368L (1)  
Developmental Biology Laboratory  
Provides hands-on experience in techniques currently in use in developmental biology research. Techniques included may vary from year to year as changes in the field warrant. Model organisms are used such as sponges, slime mold, sea urchin, C. elegans, chick, zebrafish, arabidopsis, and the fruit fly. Some techniques currently covered include cell-cell adhesion, in vitro fertilization, northern blotting, western blotting, and antibody-based histochemical staining. May not be taken for credit by students who have received credit for BIOL 324. Recommended: BIOL 368. Corequisite: BIOL 368L. Prerequisites: BIOL 210 and 211, and consent of instructor.

BIOL 370 (4)  
Plant Physiology and Biochemistry  
An examination of the physiological processes that contribute to plant growth, including consideration of the underlying biochemical and biophysical principles. Areas covered also include cell growth and differentiation and photo and hormonal control. May not be taken for credit by students who have received credit for BIOL 342. Three hours of lecture and three hours of laboratory. Recommended: BIOL 351. Prerequisites: BIOL 210 and 211.

BIOL 371 (3)  
Exercise Physiology and Bioenergetics  
Examines the functional responses and adaptations that accompany acute and chronic exercise, particularly involving cardiovascular, metabolic, respiratory, endocrine, and muscular systems. Subject matter will include energy for physical activity, systems for energy delivery and utilization; training and enhancement of energy capacities; skeletal muscle energy balance, and health related aspects of exercise. Discussion of the instrumentation and techniques fundamental to exercise physiology and biochemistry will also be covered. May not be taken for credit by students who have received credit for BIOL 398A and BIOL 397A. Prerequisite: BIOL 210 and 211.

BIOL 375 (3)  
Endocrinology  
A survey of hormone types with emphasis on vertebrate examples, their biochemical composition, and physiological interrelations. A considerable part of the course will consider the molecular mechanisms of action. May not be taken for credit by students who have received credit for BIOL 440. Normally offered Spring semester of odd numbered years. Prerequisites: BIOL 210, 211 and CHEM 201.

BIOL 376 (3)  
Neurobiology  
Introduction to invertebrate and vertebrate nervous systems, including anatomical organization. Focus on neuroanatomical and biochemical approaches to understanding neuronal development and functioning, synaptic transmission, the specificity of neuronal action and the complexity of nerve system functioning. May not be taken for credit by students who have received credit for BIOL 450. Normally offered Spring semester of odd numbered years. Prerequisites: BIOL 210, 211 and CHEM 201.

BIOL 377 (3)  
Immunology  
Study of the mammalian immune system at the molecular and cellular level. Mechanisms of immunology, such as generation of unique receptor specificities, transduction of signals through T and B cell receptors, programmed cell death and lymphocyte selection, regulation of responses by growth factors and cytokines, and cell-cell interactions, are explored. The course perspectives includes historical and technological aspects of modern immunobiology. May not be taken for credit by students who have received credit for BIOL 460. Prerequisites: BIOL 210.

BIOL 379 (4)  
Invertebrate Biology  
Introduction to the invertebrate phyla, with emphasis on structure, function, adaptations, life histories, evolution and the interdependence of form, physiology, and ecology. Laboratory study will emphasize marine invertebrates of the San Diego area; one Saturday field trip may be required. May not be taken for credit by students who have received credit for BIOL 340. Three hours of lecture and three hours of laboratory. Prerequisites: BIOL 210 and 211.

BIOL 380 (3)  
Comparative Animal Behavior  
Experimental and theoretical investigations in animal behavior, including humans. Interspecies comparisons of sensory, motor, neural, and endocrine structures and functioning. Influence of genetic, biochemical/hormonal, and neurological factors on animal behavior. May not be taken for credit by students who have received credit for BIOL 314. One or more field trips may be required. Corequisite: CHEM 201. Prerequisites: BIOL 210 and 211.

BIOL 380L (1)  
Comparative Animal Behavior Laboratory  
An advanced laboratory experience in collecting and analyzing behavioral data. Students will design and perform experiments that illustrate central topics of behavior. Subjects will change as the field develops, but may include reflexes, instinct vs. learning, and the genetic basis of learning. Three hours laboratory. One or more field trips required. Corequisite: BIOL 380. Prerequisites: BIOL 210 and 211.

BIOL 386 (3)  
Terrestrial Ecology  
A survey of terrestrial ecosystems and the biotic (living) and abiotic (non-living) factors that affect ecosystem structure and function. Emphasis will be on the important mass (C, H2O nutrient) and energy (production and consumption) fluxes that flow into, out of, and through terrestrial ecosystems, and the plant-animal interactions that regulate the rates and magnitudes of these mass and energy flows. Weekend field trips may be required. May not be taken for credit by students who have received credit for BIOL 301. Prerequisites: BIOL 210 and 211.

BIOL 386L (1)  
Terrestrial Ecology Laboratory  
Provides students with an introduction to laboratory and research techniques for quantifying the interactions between C, H2O and nutrient cycles of terrestrial ecosystems. Students will conduct observational and sampling studies of local ecosystems and manipulative experiments in the field, laboratory, and/or greenhouse. May not be taken for credit by students who have received credit for BIOL 307. Three hours laboratory. Prerequisites: BIOL 210 and 211.

BIOL 387 (4)  
Ecological Processes in Aquatic Systems  
Discusses the biological, physical, and chemical processes affecting marine and freshwater environments, and the interactions between these processes. Emphasis on productivity, nutrient dynamics, food webs, biogeochemical cycles and biogeography of pelagic systems. One Saturday field trip may be required. May not be taken for credit by students who have received credit for BIOL 302. Three hours of lecture and three hours of laboratory. Prerequisites: BIOL 210 and 211.
BIOL 368 (3)
Marine Communities
Examines the environmental characteristics, patterns of species distribution and abundance, and adaptations of organisms in marine benthic communities. Community structures and functional ecological interactions including predation, competition, and symbiosis will be investigated in specific communities such as the rocky intertidal zone, lagoons, coral reefs, hydrothermal vents, and shallow polar seas. Human impacts on specific marine communities will be explored. Field trips outside of class hours may be required. Prerequisites: BIOL 210 and 211.

BIOL 390 (3)
Terrestrial Plant Ecology
Survey of the factors that influence the distribution and abundance of land (terrestrial) plants. Focuses on plant population dynamics (e.g., dispersal, germination, and recruitment), plant-plant and plant-animal interactions, and the effect of abiotic factors (e.g., climate, water, and nutrients) on the structure and function of terrestrial plant communities. Weekend field trips may be required. Prerequisites: BIOL 210 and 211.

BIOL 390L (1)
Terrestrial Plant Ecology Laboratory
Provides students with an introduction to laboratory and research techniques in terrestrial plant ecology. Students will conduct experiments to investigate environmental controls on the physiology (including photosynthesis, respiration, and transpiration), growth, and resource allocation of land plants. Students will learn standard research techniques in plant ecology and utilize technology specifically designed to quantify plant function. Experiments will be conducted in the laboratory and greenhouse, and weekend field trips may be required. Three hours of laboratory. May not be taken for credit by students who have received credit for BIOL 397E. Prerequisites: BIOL 210 and 211.

BIOL 396 (1-3)
Topics in Biology
Seminar reviewing current literature in a subject area of importance in biology. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. May not be taken for credit by students who have received credit for BIOL 490. Prerequisites: BIOL 210 and 211.

BIOL 397 (1)
Topics in Biology Lab
Laboratory experience that explores phenomena and techniques in the biological sciences. May be repeated for credit as topics change for a total of three (3) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: BIOL 210 and 211.

BIOL 489 (2)
Introduction to Laboratory/Field Research
A research project in the laboratory or field, generated in collaboration with a faculty member. May be repeated once for credit, or the project may be continued for an additional semester as part of BIOL 499. Prerequisite: Consent of instructor.

BIOL 495 (3)
Internship in Biology
Career-related laboratory and/or field experience in private industry and public agencies. All participants utilize learning agreements. A final written report is required. Students will be supervised both on site and by the course instructor. Includes participation in a one hour seminar each week. The learning agreement form must be completed and signed prior to enrollment. May be repeated for a maximum of six (6) units, but only three (3) units can be applied toward the major. Prerequisites: Consent of instructor prior to registration.

BIOL 496A (1) 496B (2)
Supervised Laboratory Instruction
Experience for senior biology majors in the organization of and techniques for teaching a laboratory in biology. Includes individual supervision of directed teaching. A written report is required. May be repeated for a maximum of two (2) units (one hour conference and three hours lab per unit). Prerequisites: BIOL 210 and 211, and consent of instructor.

BIOL 498 (2)
Senior Library Thesis
In-depth reading and researching of the literature on current issues in biology. The student must consult with a biology faculty member to decide on the topic and then produce a (approximately) 30-page paper with supporting citations that summarizes the current state of knowledge on the topic. Prerequisite: Consent of instructor.

BIOL 499 (2)
Senior Laboratory Thesis
Research project in the laboratory or field, generated in collaboration with a biology faculty member. Prerequisites: At least one course related to the subject area completed with a B or better, BIOL 489 or equivalent experience, and consent of instructor.

BIOL 502 (3)
Population Genetics
Patterns of the distribution of genes in populations with emphasis on quantitative genetics, gene frequency, selection of the effects of mutation on populations. Genetic mechanisms in evolution are considered. May not be taken for credit by students who have received credit for BIOL 310. Prerequisite: BIOL 352.

BIOL 504 (3)
Virology
A comparative survey of bacterial, animal and plant virus variations, including retroviruses and prions. Emphasis is placed upon the variations in structure, nucleic acid composition, and replication patterns. The relationship of viruses to disease is given serious consideration. May not be taken for credit by students who have taken BIOL 308. Prerequisite or Corequisite: BIOL 352.

BIOL 520 (3)
Advanced Molecular Cell Biology
Treatment of contemporary areas of interest in cell biology, molecular genetics, and development. Subjects covered may include, but are not limited to, the cell cycle, signal transduction and cell-cell communication, the regulation of gene expression, determination and differentiation, and oncogenes. May not be taken for credit by students who have received credit for BIOL 428. Recommended: BIOL 368 and CHEM 304. Prerequisites: BIOL 351 and 352.

BIOL 530 (4)
Microbial Ecology
Advanced treatment of the interactions of microbial communities with their biotic and abiotic environments. The physiology and ecology of various groups of bacteria will be investigated in the laboratory utilizing enrichment culture techniques from environmental samples. Emphasis will be placed on experimental approaches and on the quantitative concepts presently employed in the field of microbial ecology. May not be taken for credit by students who have received credit for BIOL 485. Three hours of lecture and three hours of laboratory. Prerequisite: BIOL 351 or 367.

BIOL 535 (3)
Ecological Modeling
An introduction to the use and development of mathematical models for simulating dynamics of ecological systems. Modeling theory and techniques will be demonstrated to provide a background on how models are developed and used in ecology. Models developed for simulating the effects of abiotic and biotic controls on ecological processes include continuous and discrete-time population models, gap models, cellular automata, fisheries, and biogeochemical and biogeographical models. Prerequisites: BIOL 210, 211, and 354.

BIOL 536 (3)
Biogeochemical Cycles and Global Change
Biological, chemical, and physical processes controlling the transport and transformation of carbon, nitrogen, phosphorous, sulfur, and trace metals in natural ecosystems and at the global level. Global models of the major elemental and hydrologic cycles are discussed, with emphasis on the linkages between cycles and the effects of human perturbations. Prerequisite: BIOL 210, 211, and 354.
BIOL 537 (3)
Microbial Physiology
Current concepts and research involving the interactions of microorganisms with their environment, particularly those environments affecting human health. Demonstrates the interrelatedness of microbial ecology and medical microbiology. The course will: (1) present modern experimental techniques used in conducting these interdisciplinary studies; (2) emphasize unusual bacteria pathways and cell signaling mechanisms found across the Bacteria, Archaea and Eukarya, and (3) discuss the roles of microbial physiology in pathogenesis and the biotechnology industry. May not be taken for credit by students who have received credit for BIOL 637. Prerequisites: BIOL 351 or 367 or consent of instructor.

BIOL 540 (3)
Molecular Methods in Ecology and Evolution
Theory and practical application of modern molecular tools to identify and study ecologic- al and evolutionary relationships. Two hours lecture and three hours laboratory. Prerequisites: BIOL 351, 354, and 362.

BIOL 560 (2)
Seminar in Molecular Cell Biology
Readings from the original literature, discussions, and writing on selected current subjects in cell and molecular biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 561 (2)
Seminar in Genetics
Readings from the original literature, discussions, and writing on selected current subjects in genetics. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 562 (2)
Seminar in Development
Readings from the original literature, discussions, and writing on selected current subjects in developmental biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 563 (2)
Seminar in Physiology
Readings from the original literature, discussions, and writing on selected current subjects in physiology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 564 (2)
Seminar in Evolution
Readings from the original literature, discussions, and writing on selected current subjects in evolution. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 565 (2)
Seminar in Ecology
Readings from the original literature, discussions, and writing on selected current subjects in ecology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 566 (2)
Seminar in Aquatic Biology
Readings from the original literature, discussions, and writing on selected current subjects in aquatic biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 596 (1-3)
Advanced Topics in Biology
Advanced study of selected biological topics based on current problems or advances, and as demand warrants. Students should check the Class Schedule for listing of actual topics.

BIOL 597 (1)
Advanced Topics in Biology Lab
Laboratory in selected advanced topics in biology. Topics based on current problems or advances, and as demand warrants. Students should check the Class Schedule for listing of actual topics. Three hours laboratory.

BIOL 610 (3)
Research Methods I
Practical experience in the preparation of written and oral research proposals in the biological sciences. Students will actively take part in the peer review process commonly used to evaluate the scientific and technical merits of research proposals. Final product will be a formal written and oral, preferably the student's thesis proposal. Prerequisites: Graduate classification or consent of instructor.

BIOL 611 (3)
Research Methods II
Practical experience in the skills necessary for the publication and presentation of biological research, including writing, speaking, and preparing figures and tables. Final product will be a formal oral presentation and a scientific poster. Prerequisites: Graduate classification or consent of instructor.

BIOL 695 (2)
Internship in Biology Instruction
Supervised instruction in a laboratory course in the biological sciences. May be repeated, but no more than two (2) units may be applied toward the 30 units in the Master's degree.

BIOL 696 (1-3)
Graduate Topics in Biology
Lecture and discussion of selected topics with emphasis on current problems and advances in subdisciplines of biological science. Students should check the Class Schedule for listing of actual topics. Prerequisites: Graduate classification or consent of instructor.

BIOL 697 (1-3)
Advanced Methods in Biology
Graduate-level field or laboratory techniques in a specialized area of contemporary biology. Students should check the Class Schedule for listing of actual topics. Prerequisites: Graduate classification or consent of instructor.

BUS 202 (3)
Introduction to Business Law
Legal principles of business transactions. Coverage includes contracts, agency, partnerships, corporations, property, government agencies and regulations, and Uniform Commercial Code.

BUS 290 (2)
Selected Topics in Business
A survey course in a selected topic that supplements available business administration offerings. Student should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: Vary depending on topic.
BUS 291 (4)
Selected Topics in Business Administration
A survey course in a selected topic that supplements available business administration offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: Vary depending on topic.

BUS 295 (4)
Selected Topics in Business Administration with Lab
A survey course with lab in a selected topic that supplements available business administration offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: Vary depending on topic.

BUS 302 (2)
Foundations of Business Environments
Examines the complex environment in which business decisions are made. Uncontrollable factors affecting an organization's performance include the political, social, legal and regulatory, environmental, and technological issues. The competitive market structure and the impact of demographic diversity on organizations are an important part of an environmental analysis. Prerequisite: All lower-division pre-business core.

BUS 304 (4)
Business Statistics
Introduction to statistical concepts and methods relevant to business problems. Model building and analysis; case studies and intensive use of statistical software. Should be taken first semester of junior year. Prerequisites: All lower-division pre-business core and successful completion of University computer competency requirement.

BUS 444 (2)
Strategic Management in Global Environments
Applies functional area knowledge to strategic decision situations in global, political, social, legal, regulatory, and competitive environments. Open only to COBA students with senior status. Must be taken in the last year of enrollment. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, Option Core, or consent of instructor.

BUS 492 (3)
Problem Assessment and Critical Thinking
Review of problem identification, problem solving, critical thinking, consultation, project management, and strategies for team effectiveness. Students work in teams with local organizations on actual business problems/projects. Following formation of teams, members prepare and formally present their senior experience proposal. Open only to COBA students with senior status. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, and consent of instructor.

BUS 493 (5)
Problem Analysis and Implementation
Implementation of the project portion of the senior experience. Team members complete their project, and submit a final project report and present their results. Open only to COBA students with senior status. Prerequisites: BUS 492 and consent of instructor.

CHEMISTRY (CHEM)

CHEM 021 (1)
Supplemental Instruction in Introductory Organic Chemistry
Peer-facilitated learning sessions focused on development of skills needed to succeed in CHEM 201 and subsequent Chemistry courses. Participation in such supplemental instruction can raise student performance in traditionally difficult courses. Intended to provide a collaborative learning environment where students can work on problem solving, general study skills, and CHEM 201 course content. It is strongly recommended for all students enrolled in CHEM 201. Corequisite: CHEM 201.

CHEM 150 (5)
General Chemistry
Introduction to many of the basic qualitative models and principles in chemistry. The areas covered include: basic nuclear and atomic structure, the periodic table, covalent and ionic bonding, states of matter, intermolecular forces, energy changes, chemical equilibria, acid-base chemistry, stoichiometry, properties of gases, and chemical properties of the common elements. The laboratory experiments and projects are designed to complement lecture material and provide real-life applications of chemistry in society. Counts toward the fulfillment of the Lower-division General Education Requirement in Physical Sciences and Its Life Forms. Three hours of lecture, one hour of discussion, and three hours of laboratory per week. Recommended: High School Chemistry. Prerequisite: Completion of the Entry Level Mathematics (ELM) requirement.

CHEM 201(3)
Organic Chemistry
CHEM 202 (3)
Organic Chemistry
A two-semester sequence designed to introduce the student majoring in science to the properties of organic compounds. The areas covered are: bonding, structure, stereochemistry, nomenclature, chemical and physical properties of each functional group, acid/base phenomena, reaction mechanisms and kinetics, organic synthesis, and an introduction to spectroscopic structure determination. Prerequisites: CHEM 150 for CHEM 201, CHEM 201 and CHEM 202 for CHEM 202 with minimum grades of C (2.0) in each.
CHEM 311 (3)
Chemicals and the Environment
A survey on chemicals of natural and industrial origin found in the environment, with emphasis on the chemical reactions of these substances and the effect on the quality of life on planet Earth. The areas covered are: chemical structures, inorganic and organic chemicals of natural and synthetic origins and the reactions of these chemicals, the effects of these chemicals on the environment (e.g., atmospheric, soil, water ways, plants, and animals, especially human nutrition and health). Satisfies the Liberal Studies requirement for Earth Science. Intended for the non-chemistry major.

CHEM 312 (3)
Chemistry of Life
Structure, function, and properties of bionorganic/biochemical molecules important to life, health and nutrition. The areas covered are: atomic and molecular structure, chemical and physical properties of bio-organic functional groups, carbohydrates, fats, amino acids, proteins, enzymes, hormones, nucleic acids, digestion, nutrition. Also discusses the aesthetic, humanistic and practical aspects of science, where applicable, related to economic, health, historical (including contributions made by women and minorities), and/or political issues influenced by chemistry. Intended for the non-chemistry major.

CHEM 313 (3)
Energy and Society
Survey of the physical, chemical, and engineering principles involved in the production of energy from current and potential sources, with emphasis on the processes that influence worldwide energy policy. The areas covered may include: the chemistry of fossil fuel energy production, novel alternative energy sources (e.g., solar, biomass, and hydrogen), fuel cells, energy production in living organisms, and the use of nuclear processes (fusion and fission). Also discussed are the economic, environmental, political, and social issues surrounding energy production. Intended for the non-chemistry major.

CHEM 314 (3)
Chemistry of Earth
Survey of the history of the universe and Earth from a chemical perspective. Basic physical and chemical principles are used to explain the existence and structure of the Earth and the distribution of elements in and around the planet. Includes nucleosynthesis, the structure of matter, formation of the solar system, the structure of the Earth, minerals and their properties, the rock cycle, plate tectonics and how it affects the distribution of minerals and elements. Satisfies the Liberal Studies requirement for Earth Science. Intended for the non-chemistry major.

CHEM 351 (3)
Biochemistry
A one-semester introduction to Biochemistry designed for students majoring in science. The areas covered are: the structure and biosynthesis of carbohydrates, lipids, peptides, and nucleic acids as well as bio-molecular conformation and dynamics. May not be taken for credit by students who have received credit for CHEM 303. Prerequisites: CHEM 202 and CHEM 250 with a minimum grade of C (2.0).

CHEM 351L (2)
Biochemistry Laboratory
Designed to complement the lecture material and illustrate the basic techniques of biochemistry. Six hours of laboratory. Corequisite: CHEM 351.

CHEM 352 (3)
Biochemistry
Designed to introduce the student majoring in science to principle areas in biochemistry. Areas which may be covered but are not limited to include: enzyme kinetics and regulation; generation and storage of metabolic energy; basic crystallography and structure of proteins, molecular modeling, membrane structure and pharmaceutical biochemistry. May not be taken for credit by students who have received credit for CHEM 304. Prerequisites: CHEM 351 with a minimum grade of C (2.0) or consent of instructor.

CHEM 358A (1) 358B (2)
Special Problems in Chemistry - Library
Individual investigation that involves reading and researching the literature on an issue/topic in chemistry. The project must be performed in consultation with a faculty member in a related sub-discipline and a contract stating the proposed goals will be signed by both the student and the instructor. A written report or exam demonstrating an in-depth understanding of the issue/topic will be completed at the end of each semester of work. May be repeated for a total of four (4) units but may not be substituted for CHEM 498. Prerequisite: Consent of instructor.

CHEM 358A (1) 358B (2)
Special Problems in Chemistry - Laboratory
Individual investigation that involves a research project in the laboratory in collaboration with a faculty member in a related sub-discipline. A contract stating the proposed goals of the project will be signed by both the student and the instructor. A written report summarizing the research findings must be submitted to the instructor at the end of each semester of work. May be repeated for a total of four (4) units of credit, but may not be substituted for CHEM 499. Prerequisite: Consent of instructor.

CHEM 400 (3)
Physical Sciences for Elementary School Teachers
Designed to educate K-6 elementary school teachers in the basic principles of physical sciences. The areas covered are: the nature of matter, reactions and interactions of molecules, force and motion of particles, sources and transformations of energy, heat, electricity, magnetism, light, and sound. An elective course recommended for those students declaring a special field in science or any liberal studies majors intending to enroll in credential programs upon graduation; however, it does not fulfill the Physical Sciences requirement of the liberal studies major. Two hours of lecture and two hours of activities in a discovery/thematic approach to learning the basic principles of chemistry and physics.

CHEM 401 (3)
Physical Chemistry - Classical
Designed to introduce the student majoring in science to the basic principles of Chemical Thermodynamics and Kinetics. The areas covered include: Basic laws of thermodynamics, chemical and physical equilibria, electrochemistry, transport processes, and theories and experimental determination of chemical reaction rates. Prerequisites: CHEM 250, MATH 162, and PHYS 202.

CHEM 402 (3)
Physical Chemistry - Quantum
Designed to introduce the student majoring in science to the basic principles of Quantum Mechanics and Spectroscopy as applied to chemical problems. The areas covered include: quantum mechanics of model systems, electronic structure of atoms and molecules, and atomic and molecular spectroscopic principles. Prerequisites: CHEM 250, MATH 162 and PHYS 202.

CHEM 404 (3)
Inorganic Chemistry
Designed to introduce the student majoring in science to inorganic chemistry. The areas covered are: atomic structure, the periodic table theories of chemical bonding, structure, acid/base chemistry and non-aqueous solvents, coordination chemistry of the transition metals, spectroscopy of transition metal complexes, oxidation/reduction chemistry, mechanisms of inorganic reactions, and brief introductions to applications of inorganic chemistry such as biorganic chemistry or organometallic chemistry. Corequisite: CHEM 404L. Prerequisites: CHEM 250, 275, or consent of instructor.

CHEM 404L (1)
Inorganic Chemistry Laboratory
Designed to introduce the students majoring in science to laboratory techniques for the manipulation, synthesis, and characterization of inorganic compounds. Principles of structure and bonding, spectroscopy, magnetic characterization, thermodynamics and kinetics of inorganic compounds introduced in CHEM 404 are demonstrated in laboratory experiments. Three hours of laboratory per week. Corequisite: CHEM 404.
CHEM 405 (2) Advanced Laboratory
Designed to introduce the student to advanced techniques in measurement and synthesis. The laboratory experiments are designed to cover topics in the areas of chemical thermodynamics, molecular spectroscopy, chemical kinetics, electrochemistry, solid state chemistry, and coordination chemistry. Emphasizes the application of theoretical principles in the interpretation of the experimental results. Six hours of laboratory per week. May be repeated with consent of instructor. Recommended: CHEM 404. Prerequisites: CHEM 401.

CHEM 416 (5) Instrumental Methods of Analysis — Separations and Structure
Designed to introduce the student majoring in science to basic theory and practical application of instrumental methods of chemical separation and structure determination. The areas covered are: chromatography (GC, HPLC), spectrometry (atomic absorption, mass, infrared, ultraviolet, and proton-13 nuclear magnetic resonance). The laboratory experiments are designed to complement the lecture material and illustrate the basic techniques of chemical separation and structure determination. Three hours of lecture and six hours of laboratory. Prerequisites: CHEM 202, 250, 275, and MATH 160 with a minimum grade of C (2.0).

CHEM 490 (3) Selected Topics in Analytical Chemistry
A survey course of selected topics from the current chemical literature in analytical chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: CHEM 416 with a minimum grade of C (2.0).

CHEM 491 (3) Selected Topics in Biochemistry
A survey of selected topics from the current chemical literature in biochemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 303 and 304 with a minimum grade of C (2.0).

CHEM 492 (3) Selected Topics in Inorganic Chemistry
A survey of selected topics from the current chemical literature in inorganic chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 404 with a minimum grade of C (2.0).

CHEM 493 (3) Selected Topics in Organic Chemistry
A survey of selected topics from the current chemical literature in organic chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 202, and MATH 160 with a minimum grade of C (2.0).

CHEM 494 (3) Selected Topics in Physical Chemistry
A survey of selected topics from the current chemical literature in physical chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 401 and 402 with a minimum grade of C (2.0).

CHEM 497 (1) Chemistry in the Community
Designed to introduce the student majoring in science to learning through service. Students will participate in safe and exciting chemical demonstrations, K-12 tutoring in chemistry, and community events involving chemistry. Two hours of discussion, tutoring, or laboratory work per week. Prerequisites: Completion of three (3) units of upper-division chemistry courses, and consent of instructor prior to registration.

CHEM 499 (2) Senior Laboratory Thesis and Seminar
An in-depth reading and researching of the literature on current issues in chemistry. The student must consult with a faculty member in the discipline to decide on the subject and then produce a research paper (approximately 10-20 pages) with a list of literature citations in American Chemical Society style. The research paper (thesis) must summarize the current state of knowledge on the subject. The project will involve an average of two hours of consultation with the faculty supervisor and four (4) hours of library work each week. The student will defend the thesis in a seminar to the faculty and students of the Department of Chemistry. May be repeated for a total of four (4) units of credit. Prerequisite: Consent of instructor.

COMM 100 (3) Introduction to Communication
Introduction to fundamental concepts of communication with emphasis on the centrality of communication across a wide variety of contexts and its relevance in society. Focuses on the structures and processes of communication, including how messages are produced and received in interpersonal and intercultural relations, institutional life, and the world of mediated culture and politics.

COMM 200 (3) Principles of Argument and Persuasion
Study of and practice in the methods of critical thinking and argumentation. Involves using inductive and deductive reasoning to advance persuasive theses; recognizing and avoiding fallacies in reasoning; learning to advance propositions of value and of policy; understanding how various audiences respond to persuasive appeals.

COMM 300 (3) Communication Theory
Introduces students to some of the major philosophies of language and discourse which were developed in the 20th Century and their respective influences in the areas of social and political practice as well as cultural understanding. Among some of the schools of thought that may be covered in the course are ordinary language philosophy, speech act theory, phenomenology, pragmatism, philosophical hermeneutics, poststructuralism, and Frankfurt School critical theory (CTM).

COMM 310 (3) Group Interaction and Problem Solving Methods
Examines how groups work as they conduct inquiry, solve problems, and make decisions; procedures for organizing group interaction, processes of symbolic convergence, and influences over group success. Special emphasis is placed on reflective thinking, teamwork/collaboration, leadership, creativity, and intergroup conflict. Methods for facilitating small group discussion; use of group methods in instruction, and use of new media to augment group discussion practices are also addressed. (CCSC)
COMM 316 (3)  
Student Newspaper  
A workshop for students interested in practicing writing and reporting. Students will meet for one (1) hour of classroom lecture and participate in four (4) hours of journalism activities, including but not limited to, the school newspaper. May be repeated for a total of nine (9) units of credit. Also offered as LTRW 316. Students may not receive credit for both. Prerequisite: GEW 101. (MC)

COMM 320 (3)  
Conflict and Communication  
Conflicts are situations in which individuals and groups with differing assumptions about reality (both facts and values), clash with one another about right and wrong. Discusses the nature of communication in such situations, the strengths and weaknesses of the various types of discourse employed in dealing with them, and visions for transcending conflicts. Three general types of responses to conflict will be explored: rhetorical attempts to persuade (rhetorical eloquence), hostile resistance (lost eloquence), and transcendence (transcendent eloquence). Prerequisites: Junior or Senior status or consent of instructor. (CCSC)

COMM 330 (3)  
Intercultural Communication  
Introduces students to a number of conceptual and theoretical problematics that arise in the study of cultural and intercultural issues. Culture is treated as a meaning-based phenomenon which is both constraining and enabling. Special emphasis is placed on how the limits of one's own culture may be expanded and how the constraints of one's own culture may be transformed into potentially new faculties as a consequence of engaging in meaningful communicative interaction with others. (CCSC)

COMM 333 (3)  
Language and Social Interaction  
Addresses how language is used within social and institutional interaction, especially conversations and interviews. Special emphasis will be given to problematic situations and their resolution. Situations that are especially serious and challenging for their participants, such as giving explanations for inappropriate conduct, answering adversarial questions in interviews, maintaining neutrality in mediation sessions, and delivering bad news in health encounters, will be examined using recordings and transcripts. Approaches from communication, sociology, anthropology and linguistics are utilized. Fosters cultural awareness through a concentration on the interactions in which culture is constructed and the cultural institutions by which interaction is governed. (CCSC)

COMM 340 (3)  
Interviewing Principles and Practices  
Examines interviewing as a method for eliciting information, resolving problems, and building personal communications. Principles for effective interviewing in a variety of contexts are examined. Students learn about interviewing practices that will be useful in their everyday lives. Requires conduct of several interviews and self-appraisals of interview performance. Includes, but does not focus exclusively upon, job interviews. (CTM)

COMM 350 (3)  
Topics in Communication  
Explores topics in Communication. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units.

COMM 360 (3)  
Mass Media and Society  
Theories, research methods, and empirical research findings related to the production and effects of mass communication on individuals and society. Involves a survey of electronic and print media; an overview of the historical formation of various media channels; analyses of the impact of mass communication upon popular culture. (MC)

COMM 370 (3)  
World Wide Web as Mass Medium  
Examines the development of the World Wide Web and multimedia computing, as textual, graphic, video, and audio mass media. Students examine the personal, commercial, educational, and entertainment uses of the World Wide Web. They also examine the social and cultural contexts of the World Wide Web — particularly how the information it distributes reflects social, economic, and political power related to gender, race, social class, ethnicity, education, and other social groupings. Students will have the opportunity to develop their own web pages and to create audio and video segments for those pages. May not be taken for credit by students who have received credit for COMM 480C. (MC)

COMM 390 (3)  
Communication Research Designs, Methods, and Approaches  
Encourages students to utilize theory and method in treating a communication issue or problem in an applied setting. Emphasis is on implementation of a communication research project which encourages students to consider the appropriate uses of various methods — how some are more useful/fitting to some issues or problems than are others — and then to apply their selected method in a systematic way. Consideration is given to the respective merits of qualitative and quantitative research. Prerequisite: COMM 200 (CTM)

COMM 400 (3)  
Discourse Analysis  
The study of monologal or interactive oral texts in light of various approaches to the study of discourse: speech act theory; conversation analysis; ethnography of communication; ethnomethodology; culturally focused and communicative strategy approaches. Students are expected to acquire competency in analyzing texts within various social settings (e.g., courtroom; labor negotiation session; conflict mediation) and in developing effective interventionist strategies. (CTM)

COMM 420 (3)  
Topics in Communication Theory  
Topic varies according to instructor. Possible topics: hermeneutic principles of speaking and listening; the role of ethics in rhetorical practice; and discourse-based analysis of complex institutions such as hospitals, schools, prisons. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. (CTM)

COMM 425 (3)  
Communication and Mediation  
A look at the conceptualization of conflict and of mediation as an area of teaching, training and research in communication. Designed to guide students through a specific academic view of conflict and its relationship to communication as a point of departure. We will continue by studying dispute mediation as one way to approach conflict. Case studies as well as dispute mediation simulations will help in understanding the powers and limitations of the process. Demystifies conflict and dispute mediation and shows how to use "the tools" of dispute mediation ethically. Prerequisite: COMM 320, Junior or Senior status, or consent of instructor. (CCSC)

COMM 430 (3)  
Power, Discourse and Social Identity  
Examines the intersections among power, discourse, and identity. Students will be exposed to theories of power, discourse, and identity, and have the opportunity to identify the workings of these concepts in current U.S. discourses about social class, race, gender, and sexuality. Focuses on the politics of identity, the ways in which identity politics play out in public debate, and in the formation of current economic, political, and social realities. How we think about identity, what we think about identity, and what we think identity means will have serious implications for local and global policies and ways of life in the new millennium. Prerequisite: COMM 330 or consent of instructor. (CCSC)
COMM 435 (3)
Communication and Gender
Introduces students to a number of conceptual and theoretical problematics that have a bearing on the study of communication and its relationship to gender. Explores differences between males and females with respect to communication styles, the cultural motivations for these differences, how they are reproduced in ongoing socialization experiences, their social and political implications, and the strategies speakers deploy in the course of exploiting, bridging, negotiating, or overcoming such differences. (CCSC)

COMM 437 (3)
Interpersonal Communication
Introduction to the theory and research focused on interpersonal communication. Emphasis is on experientially acquired insights into the initiation and maintenance of interpersonal relationships across a wide range of socialization institutions (e.g., family, peer group, and workplace). (CCSC)

COMM 440 (3)
Organizational Communication
Examination of theoretical and research literatures on the interaction within organizations and its bearing on individuals and groups in society at large. Some of the themes stressed are: the function of organizations within complex technological, market and sociopolitical environments; the communicative challenges of organizing; social responsibility and responsiveness; conflict mediation between organizational groups and actors; corporate wrongdoing; issues management; corporate political activity; institutional ethics; and whistle blowing. (CCSC)

COMM 450 (3)
Topics in Intercultural Communication
Topics may vary according to instructor. Possible topics include fieldwork in intercultural communication; research on alternative cultures and the semiotic means by which they constitute and reconstitute themselves; and the study of ethnic variation within complex institutions and the challenges such variation poses for institutional communication. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. (CCSC)

COMM 465 (3)
Television and Culture
Students will analyze television programs in the context of communication and other social science research in order to examine representations of race, ethnicity, social class, gender, and sexual preference. Examines how television contributes resources of interpretation, discussion, and social activities that affect the ways people view society and social groups. Subjects will include: types of representation; how representations have changed over time; multiple interpretations of television representations; how viewers use them; the production practices and conventions that shape them; the relationship between representations and structured inequality. Prerequisites: COMM 330 or 360.

COMM 466 (3)
Communication and Popular Culture
Popular culture is so much a part of our daily lives that it is all but invisible. To a great extent, popular culture defines the texture of our lives. Popular images not only mediate and define reality, but they also implicitly assert a set of values. Introduces students to a number of concepts and challenges that arise in the study of U.S. popular culture. Drawing on a variety of theories and perspectives, students will critically examine the role of popular culture within the context of current social, political, and economic realities in the United States. Students will become more critical readers of images and messages designed for public consumption. (MC)

COMM 470 (3)
Political Communication
A survey of theories and research in the area of political communication which covers such issues as political image, symbolic constructions of political reality, agenda setting, political and campaign rhetoric. Special emphasis is placed upon how such issues and themes are related to the modern mass media. (MC)

COMM 480 (3)
Topics in Mass Media
Topics may vary according to instructor. Possible topics: the history of mass media in the United States; ethical issues in the area of mass media; the treatment of gender, race and ethnicity in the modern mass media; popular culture. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. (MC)

COMM 499A (1) 499B (2) 499C (3)
Independent Study
May be used by students who desire to do special individualized projects with an instructor. Number of units to be decided between the student and the instructor. May be repeated for a total of six (6) units. Prerequisite: Consent of Instructor. (MC)

COMPUTER SCIENCE (CS)

College of Arts and Sciences

CS 101 (3)
Critical Thinking with Computers
An introduction to the potential of microcomputers, societal, and historical perspectives; word processing, spreadsheets, database management systems, communications, operating systems, editors; mainframes, workstations, networking, inductive and deductive reasoning, logical inference, formal and informal fallacies, critical thinking and programming applicable to issues in every day life. Two hours of lecture and three hours of laboratory. Credit may not be counted towards the Computer Science major.

CS 111 (4)
Computer Science I
Emphasizes programming methodology and problem-solving. A block-structured, high-level language such as C will be used for the specification and implementation of algorithms. Includes principles and applications of software engineering, numerical computing, artificial intelligence, database and user interface. Three hours lecture and three hours laboratory. Prerequisites: MATH 115, 132 or equivalent.

CS 112 (1)
Introduction to Computing I
Includes principles and applications of software engineering, numerical computing, artificial intelligence, database, and user interface. Credit may not be counted in conjunction with CS 111. Prerequisite: Completion of an entry-level programming course.

CS 200 (1-3)
Selected Topics in Computing
Selected topics in computing and information technology. May be repeated for a total of twelve (12) units as topics change. Credit may not be counted toward the Computer Science major. Students should check the Class Schedule for listing of actual topics. Prerequisite: Consent of instructor.

CS 211 (4)
Computer Science II
A continuation of program design and development. Introduction to data structures: stacks, queues, linear lists, trees, and sets. Includes pointers recursion, and implementation and analysis of sorting and searching algorithms. Extensive programming is required. Includes introduction to parallel models and algorithms, problem state space, relational database, and numerical approximation methods. Three hours of lecture and three hours of laboratory. Prerequisite: CS 111 or equivalent.

CS 212 (1)
Introduction to Computing II
Includes introduction to parallel models and algorithms, problem state space, relational database and numerical approximation methods. Credit may not be counted in conjunction with CS 211. Prerequisite: Completion of an intermediate-level programming course.
CS 231 (4)  
Assembly Language and Digital Circuits  
The structure of computers, number and character representation, word and instruction formats, and flowcharting. Machines and assembly language programming, address modification, indexing, indirect addressing, subroutines, and mnemonics interpreting systems. Includes digital logic, analysis and synthesis of circuits, and circuits of commonly used computer components. Three hours lecture and three hours laboratory. Prerequisite: CS 111 or equivalent.

CS 232 (1)  
Introduction to Digital Circuits  
Includes digital logic, analysis and synthesis of circuits, and circuits of commonly used computer components. Credit may not be counted in conjunction with CS 231. Prerequisite: Completion of an assembly programming course.

CS 280 (2)  
Workshop on Computing System Environment  
Introduction to selective computing system environment (e.g., UNIX, Intermittent, X Windows, MS Windows) through the use of materials and work on several assignments. Students should check the Class Schedule for listing of actual topics. May be repeated for six (6) units as system environments change. Prerequisite: Consent of instructor.

CS 301 (2)  
Workshop on Programming  
Introduction to selective programming languages (e.g., C, C++, Ada, Smalltalk, LISP, Prolog, Pascal) through the use of materials and work on several programming assignments. Students should check the Class Schedule for listing of actual topics. May be repeated for six (6) units as languages change. Prerequisite: Consent of instructor.

CS 311 (3)  
Data Structures  
A thorough understanding of several advanced methods for implementing the abstract data types and the time used by each method. Includes abstract data types such as dictionary, priority queues, matrices, and relations, foundation of recursive algorithms, complexity analysis, complexity classes, sorting and searching, computability and undecidability, problem-solving strategies, heuristic search, modeling and components of database systems, and graphics software systems. Corequisite or Prerequisite: MATH 370 or equivalent. Prerequisite: CS 211 or equivalent.

CS 331 (3)  
Computer Architecture  
A study of the functional organization and sequential operation of digital computers. The major components of a computer will be discussed. Introduction to machine instruction architecture and design. The study of the internal operations during program execution. Several computer architectures will be studied. Corequisite or Prerequisite: MATH 370. Prerequisite: PHYS 301 or equivalent.

CS 351 (3)  
Programming Languages  
Important features and concerns of implementation design on programming languages in common use today will be studied and analyzed. Includes data and control structures, run-time storage management, context-free grammars, language translation systems, programming paradigms, distributed and parallel programming constructs. Corequisite or Prerequisite: CS 311 or equivalent.

CS 380 (1)  
Tutorial Methods on Computing  
Designed to develop the skill to present clear and correct computational arguments and programs when teaching or tutoring. Corequisite: Concurrent enrollment in an upper-division Computer Science major course or consent of discipline advisor. Prerequisite: Consent of instructor.

CS 421 (3)  
Theory of Computing  
Regular and context-free languages, and other formal languages, push down and finite-state automata, and other finite machines. Turing machine computability, halting problems. May not be taken for credit by students who have received credit for CS 551. Prerequisites: CS 311 or equivalent and MATH 370.

CS 433 (3)  
Operating Systems  
Operating system design and implementation, process coordination and scheduling, deadlocks, interface devices, memory and device management, networks and security, distributed and real-time systems. May not be taken for credit by students who have received credit for CS 533. Prerequisites: CS 311 and 331.
CS 498A (1) 499B (2) 499C (3)  
Individual Study in Computer Science  
Individually directed reading and study in Computer Science literature. May be repeated for a maximum of three (3) units. Prerequisites: Senior standing in Computer Science and consent of supervising instructor.

CS 499A (1) 499B (2) 499C (3)  
Independent Research in Computer Science  
Designed for students capable of independent and original research. May be repeated for a maximum of three (3) units. Prerequisites: Senior standing in Computer Science and consent of research supervising instructor.

CS 513 (3)  
Analysis of Algorithms  
Study of algorithms; efficient, optimal algorithms and analysis for best, worst, and average performance; computational complexity theory; algorithmic time and space bounds; levels of intractability; applications. May not be taken for credit by students who have received credit for CS 413. Prerequisites: CS 311 and MATH 370.

CS 514 (3)  
Algorithms for Parallel Processing  
Techniques for writing programs for multiprocessors. Includes data partitioning and functional partitioning for algorithms to be used on Single Instruction-Multiple Data Computers and on Multiple Instruction-Multiple Data Computers. May not be taken for credit by students who have received credit for CS 414. Prerequisites: CS 311.

CS 531 (3)  
Advanced Computer Architectures  
Comparative studies of computer system components: CPU, memory, and I/O devices; analytical modeling techniques to allow comparative evaluation of different computer architectures; multiprocessors, and array processors, vector processes multiprocessors, pipeline and super-pipeline processors, supercomputers, datalflow machines; parallelism, scalability, and programmability. Prerequisite: CS 331.

CS 535 (3)  
Introduction to Computer Graphics  
Display memory, geometric transformations, theory of domain transformations, windowing and clipping, mathematics of three-dimensional graphics involving rotation, scaling, transformation and perspective of 3-D images, hidden line algorithms, pattern recognition, and digital storage. May not be taken for credit by students who have received credit for CS 435. Prerequisites: CS 231 or equivalent, CS 311 and MATH 264 or 374.

CS 537 (3)  
Data Communication and Computer Networks  
Introduces TCP/IP network architecture with emphasis on upper-layer protocols and a detailed investigation into TCP and IP. It also covers local area networks, internetworking, and network programming. A core course in the Computer Science M.S. program. Prerequisites: CS 433 or consent of instructor.

CS 538 (3)  
Cryptography and Network Security  
Basic number theory, computational complexity, and network architecture, in-depth discussion on cryptography and its network applications; security threats, requirements, protocols, applications for secure networks, and legal and ethical issues. Prerequisite: CS 433.

CS 539 (3)  
Client/Server Computing  
State-of-the-practice on client/server computing, the key enabling technologies and their inter-relationships, development and implementation of client/server/applications, emerging technologies that may affect the future practice within the client/server environment. May not be taken for credit by students who have received credit for CS 497B and 497C. Prerequisite or corequisite: CS 441.

CS 542 (3)  
Design Patterns and Object-Oriented Analysis  
Studies object-oriented analysis and design and their roles in software development. Many documented patterns in program designs will be introduced and analyzed. Advanced topics in software engineering such as software metrics, software architecture and software reuse are also discussed. A core course in the Computer Science M.S. program. Prerequisites: CS 441 and consent of instructor.

CS 543 (3)  
Database Management Systems  
Study of the concepts and structures necessary to design and implement database management systems. File organization, index organization, security, data integrity and reliability, data description and query languages will be studied within hierarchical, network, and relational models. A commercially available relational database management system will be used. May not be taken for credit by students who have received credit for CS 443. Prerequisite: CS 441.

CS 546 (3)  
Digital Simulation  
Study of simulation languages and simulation techniques for solving many types of research problems from management, engineering and science. Simulation methodologies will be used for simulation of large system design of simulation experiments for optimizations, and applications. Prerequisites: CS 311 and MATH 440.

CS 551 (3)  
Advanced Programming Languages  
Formal syntax of programming languages such as Backus-Naur form and its variations, attribute grammars, two-level grammars, formal semantics of programming languages, including operational semantics, denotational semantics, and axiomatic semantics. A core course in the Computer Science M.S. program. Prerequisite: CS 351 and consent of instructor.

CS 553 (3)  
Compilers  
Study of lexical scanning, parsing methods, intermediate code generation, error detection, and recovery. Included will be the design and implementation of a simple compiler or components of an actual compiler. May not be taken for credit by students who have received credit for CS 453. Prerequisites: CS 351 and 521.

CS 555 (3)  
Logic Programming  
Declarative programming techniques: formal specification of the problem itself rather than of a solution algorithm. Survey of logic programming languages such as Prolog, applications, theoretical foundations propositional logic, predicate calculus, resolution, theorem proving, non-determinism, meta-programming. Prerequisites: CS 351 and MATH 370.

CS 571 (3)  
Artificial Intelligence  
A comprehensive study of basic concepts techniques and a number of detailed algorithms used by researchers and practitioners of artificial intelligence. Subjects covered include problem-solving, knowledge representation and reasoning, planning, uncertainty reasoning and decision-making, machine learning, and natural language processing. A core course in the Computer Science M.S. program. Prerequisite: Consent of instructor.

CS 573 (3)  
Artificial Neural Networks  
Theory, algorithms and applications of artificial neural networks, their applications including pattern and speech recognition, system identification, signal processing, time series prediction, financial analysis and trading. Prerequisite: CS 311.
CS 574 (3)  
Natural Language Processing  
Introduces principles of human language processing, approaches and techniques for computer-based natural language processing, and a range of applications of those approaches and techniques. Subjects to be studied are the following: Fundamentals of human language processing, spoken language processing: speech recognition and speech synthesis, written language processing: understanding and generation: stages of processing (syntactic analysis, semantics, pragmatics); statistical vs. symbolic techniques. Practical applications: information retrieval and extraction, natural language interfaces with databases; translation; text categorization; language and communication in multimedia. Prerequisites: CS 351 and MATH 370.

CS 575 (3)  
Machine Learning  
Machine learning algorithms and theory, decision-tree learning, neural networks, Bayesian approaches, genetic algorithms, reinforcement learning, computational learning theory. Prerequisite: CS 311.

CS 597 (3)  
Advanced Topics in Computer Science  
Advanced topics in computer science for graduate students or advanced undergraduate students. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: Consent of instructor.

CS 613 (3)  
Advanced Computational Complexity  
In-depth discussion of computational complexity theory including models of computation, polynomially bounded, NP-completeness, reducibility, and beyond NP-completeness, and intractable problems. NP-complete problems in various areas will be discussed. Prerequisites: CS 513 and 521.

CS 614 (3)  
Advanced Parallel Processing  
Advanced techniques for writing programs for multiprocessors, including writing programs using both the shared memory and message passing paradigms on a Multiple Instruction-Multiple-Data computer. Prerequisite: CS 514.

CS 633 (3)  
Advanced Operating Systems  
Current research and methodology in operating systems for operating system designers. Advanced study includes topics of synchronization, deadlock, virtual memory, security, distributed systems and control, and modeling and analysis. Prerequisite: CS 533.

CS 637 (3)  
Advanced Computer Networks  
Broadband integrated services digital networks, high-speed networks, radio and satellite networks, high-speed networks, multimedia communications, wireless communications, high-speed communications, network design, network architectures, traffic and admission control, routing and flow control, performance issues, traffic characteristics. Prerequisites: CS 533 and 537.

CS 643 (3)  
Advanced Database Management Systems  
Advanced data models such as object-oriented databases, distributed databases, deductive databases, and multimedia databases, relationships, dependencies, normalizations, query optimizations, implementations, languages, database machines, and other advanced topics. Prerequisites: CS 543.

CS 671 (3)  
Advanced Artificial Intelligence  
In-depth discussion on selected subdisciplines of Artificial Intelligence. Use of formal techniques and well-known systems for these subdisciplines. Discussion of current research and programming in LISP, Prolog or an expert system shell to develop or modify certain systems in these areas. Prerequisites: CS 571.

CS 690 (1)  
Graduate Seminar  
Presentation and discussion of advanced research topics and results in computer science. Prerequisites: Graduate standing in Computer Science and consent of Department Chair.

CS 696A (1) 696B (2) 696C (3)  
Graduate Individual Study in Computer Science  
Individually directed reading and study in Computer Science literature for graduate students, focusing on advanced topics. Prerequisite: Consent of instructor.

CS 697 (3)  
Graduate Topics in Computer Science  
Advanced topics of current interest in computer science for graduate students. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: Consent of instructor.

CS 698 (3)  
Master's Research Project  
Faculty-supervised investigation, to culminate in a written report for the master's degree. Prerequisite: An officially appointed advisory committee with a project advisor and advancement to candidacy.

CS 699A (1) 699B (2) 699C (3)  
Master's Thesis  
Preparation of a thesis for the master's degree. May be repeated for a total of six (6) units of credit. Graded Credit/No Credit. Prerequisites: An officially appointed thesis committee with a thesis advisor as the chair of the committee and advancement to candidacy.

CS 700A (1) 700B (2) 700C (3)  
Thesis Extension  
Registration is limited to students who have received a grade of Satisfactory Progress (SP) in CS 699 and who expect to use the facilities and resources of the University to work on or complete the thesis. Also, students must be registered in CS 700 when the completed thesis is granted final approval. Graded Credit/No Credit. May be repeated for a total of three (3) units, but credit will not be counted toward the Master of Science in Computer Science.

DANCE (DNCE)  

College of Arts and Sciences  

DNCE 101 (3)  
An introduction to dance as an educational, and creative discipline. Explores techniques of stretching, strengthening, and aligning the body along with improvisation and composition. Visiting guest artists, videos, and live performances from a range of cultural perspectives will contribute to the examination of dance as an experiential source of knowledge.

DNCE 320 (3)  
Global Modern Dance  
Lecture, modern dance techniques improvisation and choreography in the area of global modern dance. Emphasis will be placed on the aesthetics of performance. Comparisons and contrasts will be made with modern dance in other countries and or cultures. No background in dance is required. Students will spend four hours per week in modern dance techniques. May not be taken for credit by students who have received credit for DNCE 392B.

DNCE 321 (3)  
Cultures in Motion  
A variety of world dance forms will be examined in terms of their power to heal, celebrate, tell stories and resolve conflict through one-upmanship dance competitions. Students will explore ways in which dance is an expression of a culture's way of life, historical roots, religious beliefs, sex roles, politics, and values. The multicultural influences found in fusion dances will be traced. Students will gain an insight into individual cultural identity by examining the elements that shape the dance of that culture. No background in dance is required.

DNCE 323 (3)  
Women in Performance: Choreographies of Resistance  
Explores issues of power, representation, and access in relation to the female body in dance, performance art, body art and the staging of political empowerment. Examines crucial historical figures and moments when the body in a motion ruptures or destabilizes normalized expectations. Also offered as WMST 323. Students may not receive credit for both.
ECON 201 (3) Principles of Microeconomics
Introduction to the tools economists use to analyze a wide variety of issues and to gain an understanding of the economic way of thinking. Includes supply and demand, market exchanges, opportunity cost, production possibilities frontier, marginal analysis, consumer choice, firms and markets, externalities, public goods, and cost and production theory. Subject matter also may include issues commonly believed to be outside the economic domain. Illustrates the wide and diverse applicability of economic analysis.

ECON 250 (3) Introduction to Economics
Introduction to economic thinking. Subjects are chosen from ECON 201 and ECON 202. Not open to students who have obtained credit for, or are required to take, either ECON 201 or 202.

ECON 301 (3) Consumers and Exchange
Intermediate Microeconomic Theory. Examines the economic decisions made by individuals as consumers. Subject matter includes consumer behavior, demand theory, choice under uncertainty, game theory, welfare economics, general equilibrium analysis, public goods, and externalities. Prerequisites: ECON 201 and 202.

ECON 302 (3) Employment, Income, and Prices
Intermediate Macroeconomic Theory. Examines the overall performance of an economy. Includes inflation, unemployment, interest rates, government taxes and expenditures, money and financial institutions, budget and trade deficits, business cycles, and more. Special attention is paid to contending macroeconomic views (e.g., Keynesian, New Keynesian, New Classical, and Monetarist). Prerequisites: ECON 201 and 202.

ECON 303 (3) Production and Exchange
Intermediate Microeconomic Theory. Examines the economic decisions made by businesses firms. Subject matter includes production and cost theory, theory of the firm, production market structure and factor market analysis. Prerequisites: ECON 201 and 202.

ECON 305 (3) Economic Approach to Politics and Sociology
An economic approach to issues that usually are discussed in political science and sociology. The beginning of the course lays out a few basic economic concepts for the student, such as supply and demand, opportunity cost, market exchange, and costs and benefits. These concepts are then applied in individual, family, social, and political settings. Examination of the economics of the family, economics of voting, economics of bureaucracy, economics of learning, economics of dating, economics of crime, special-interest politics, and more.

ECON 306 (3) Economics, Philosophy, and Politics
Basic economic concepts for the student such as supply and demand, opportunity cost, market exchange, and costs and benefits. Unusual and current applications of these basic concepts are explored. Examines the philosophical basis for a just society and how social rules evolve. The works of a number of political philosophers are examined. Discusses issues that fall within the intersection of economics and politics. Includes political behavior, special-interest politics, and the effects of both on the competitive nature of the economy.

ECON 311 (3) Comparative Economic Systems: Historical, Theoretical, and Evolutionary Aspects
Presents two major and opposing views for making economic decisions, one emphasizing voluntary exchange, markets, and spontaneous orders; the other emphasizing government plans, legislated and designed outcomes. An examination of a few real-world economies are made (U.S., Japan, Russia, and others) and the particular economic issues of importance to each are discussed. Throughout the discussion, the mix of market and planning forces existing in each of the economies is analyzed. Prerequisites: ECON 201 and 202, or 250.

ECON 323 (3) Health Economics
Applies economic methods to study the health-related choices of individuals as well as the functioning of health care markets. The general objectives are to understand the U.S. health care system within economic, cultural, and political contexts. Focuses on the changing nature of health, health-care systems, and implications for public policy in health-care systems, and implications for public policy in health and medical care. May not be taken for credit by students who have received credit for ECON 481E. Prerequisite: ECON 201 or 250.

ECON 325 (3) Economics of the Environment and Natural Resources
Applies economic policy analysis to environmental and natural resource issues. Develops an understanding of the requirements of efficient markets, and the conditions under which markets fail. Subjects include the economics of externalities, optimal management of renewable and non-renewable natural resources, property rights, techniques for measuring the value of non-market environmental amenities, benefit/cost analysis, and the politics of environmental regulation and natural resources management. May not be taken for credit by students who have received credit for ECON 481H. Prerequisites: ECON 201 or ECON 250.

ECON 327 (3) Economics, the Arts, and Entertainment Industries
Examines how art and entertainment mediu­ms serve as a narrative to convey economic content. Focuses on the exchange between the rhetorical power of economics and the narrative power of the arts, such as film, songwriting, and musical genres. Considers how economic forces in these industries shape entertainment or art products. May not be taken for credit by students who have received credit for ECON 481G. Prerequisites: ECON 201 and 202, or ECON 250.

ECON 330 (3) Economics of Wall Street, Trading, and Financial Markets
Includes (a) an economic history of Wall Street, (b) an economic analysis of equity, bond, foreign exchange, and futures markets, and (c) an examination of the analytical tools and skills necessary to participate in these markets. Prerequisites: ECON 201 and 202.

ECON 331 (3) Money, Banking, and the Economy
Discussion of the Federal Reserve System, money supply, and money demand. Analysis of money's effects on the price level, interest rates, employment, output, and exchange rates is analyzed. Examines how money evolved out of a barter economy. Banking and financial institutions are examined, with emphasis on innovations in financial markets. Prerequisites: ECON 201 and 202.

ECON 341 (3) The Economics of Women and Men
Examines the economic role of women and men in two main areas — the workplace and the family. Includes the family as an economic unit, family formation and dissolution, allocation of time between family and work; and workplace issues including earnings and occupational differentials, discrimination, and changing roles in a changing economy. Prerequisites: ECON 201, 250, 305, 306, or 308.
ECON 408 (3)  
Great Economic Thinkers  
What are the major ideas and classic works in economics? Who are the economists who have had the greatest impact on shaping modern economics? What are the ideas that have revolutionized economics? Focuses on the detailed answers to these three questions. There is no textbook for this course. Instead, students will read the original writings of economists. May not be taken for credit by students who have received credit for ECON 321. Prerequisites: ECON 201 and 202.

ECON 411 (3)  
Public Choice  
Public Choice is the economic approach to political decision-making. The behavior of voters, politicians, bureaucrats, judges, and members of special interest groups are examined. Includes voting paradoxes, political competition, analysis of public goods, economic theory of constitutions, using government for private purposes, the theory of the state, and an economic theory of the courts. Prerequisite: ECON 201, or 250, or 305, or 306.

ECON 416 (3)  
Law and Economics  
Prepares the insights that economists have brought to the study of the law since 1960, particularly as they relate to the property rights-Coasian approach to the law. This approach is then consistently applied to legal issues found in the areas of contract law, torts law, family law, criminal law, and more. May not be taken for credit by students who have received credit for ECON 415. Prerequisite: ECON 201 and 202.

ECON 417 (3)  
Property, Transactions Costs and Information  
Protects the insights that economists have brought to the study of the law since 1960, particularly as they relate to the property rights-Coasian approach to the law. This approach is then consistently applied to legal issues found in the areas of contract law, torts law, family law, criminal law, and more. May not be taken for credit by students who have received credit for ECON 415. Prerequisite: ECON 201 and 202.

ECON 421 (3)  
The Public Economy  
The economic justification for government is usually based on the inability of markets to achieve certain economic and social objectives. This is often referred to as market failure. Issues connected with market failure include public goods provision, externalities, the income distribution, and more. Examines the ways in which government deals with market failure. Discusses government taxation, transfer payments, and expenditure policies and the effects of these policies on incentives and behavior. Prerequisites: ECON 201 and 202.

ECON 422 (3)  
Economics of Taxation  
Develops an economic framework to evaluate the effects of taxation on individual behavior and the distribution of income. Addresses subjects such as efficient and equitable taxation, distribution of tax burdens, personal income taxation, the corporate income tax, consumption taxes, the politics of taxation, and state lotteries. Provides students with the necessary skills to objectively evaluate tax policies. May not be taken for credit by students who received credit for ECON 481F. Prerequisites: ECON 201 and 202.

ECON 431 (3)  
Labor Economics  
Study of the labor market. Includes an analysis of labor demand, supply, and wage rates; the measurement, type, and causes of unemployment; the effect of labor unions on wage rates and resource allocation. Prerequisites: ECON 201 and 202.

ECON 444 (3)  
International Economics  
International trade, finance, and policy. Includes exchange rate regimes, balance of payments, tariffs and quotas, national income determination in an open economy, and emerging international economic arrangements. Prerequisites: ECON 201 and 202; ECON 250 may be substituted for students in the Global Business Management Option.

ECON 445 (3)  
Economics of Development  
Examines the processes of economic, social, and institutional change in the developing world. Presents alternative definitions, theories, and strategies of development. The strengths and weaknesses of different approaches to economic development are identified and compared in the context of case studies (e.g., China, Brazil, Chile, North Korea, South Korea, South Africa, and West Africa.). Prerequisites: ECON 201 and 202.

ECON 446 (3)  
Gender and Development  
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that "modernization" results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as PSCI 445 and WMST 445. Students may only receive credit for one of the courses. May not be taken for credit by students who received credit for ECON 481B.

ECON 451 (3)  
Business and Government  
Examination of the complex interactions between business firms and government. Specifically, the impact of numerous regulatory and deregulatory changes are examined in terms of their effects on business firms. Also, the impact that businesses have on influencing government policy is examined. Prerequisites: ECON 201 and 202.

ECON 455 (3)  
Public Policy Issues  
When markets fail to be competitive, or the market outcome is viewed as "inequitable," public policies are often justified to "improve" upon the market outcome. Applies economic methods to evaluate the justification for policy intervention and the policy-induced effects on economic behavior and distribution of welfare among individuals. Subject matter includes current policy issues such as poverty and income inequality, income redistribution programs, discrimination, immigration, crime and drug abuse, and health care. May not be taken for credit by students who have received credit for ECON 481D. Prerequisites: ECON 201 and 202.

ECON 471 (3)  
Econometrics  
Application of statistical methods used in economics. Includes linear regression analysis, multicollinearity, autocorrelation, heteroscedasticity, simultaneous equation estimation, hypothesis testing, and time series analysis. Prerequisites: ECON 201, 202, and BUS 304.

ECON 481 (3)  
Topics in Economics  
Emphasizes new areas and new theoretical developments in economics and current high-interest topics in any of the subdisciplines of economics. Students can apply up to six (6) units of different topics courses toward the major. Recommended: ECON 301, 302 and 303. Prerequisites: ECON 201 and 202.

ECON 484 (3)  
Independent Study  
Individual research and study under the direction of a faculty member in economics. The student must prepare and present a detailed study plan and justification statement to the faculty member by the first week of classes. Study plan must be approved by the second week of classes. May be repeated, but no more than (2) credit units may be counted toward the major. Prerequisites: Economics major, senior standing, and consent of instructor.

ECON 510 (2-4)  
Global Managerial Economics  
Provides the theory and tools that are necessary for managers to analyze and solve the problems they face in their enterprises in the most efficient manner. Particular emphasis is placed on applications of economic theory and policy within a global context. Prerequisites: BGA 501 and BGA 502.
EDAD 602 (3)
School Communities in a Pluralistic Society
Focuses on the pluralistic nature of society reflected in the contemporary school. Students will study, ethic, class, racial, linguistic and other cultural variation as a means of developing administrative and leadership practice responsive to and supportive of all students who represent national, state and regional diversity. Various formal and informal approaches to school-community relations will be studied, as will shared decision-making bodies and the role of business and industry advisory groups. Prerequisite: Consent of Program Coordinator.

EDAD 630 (2)
Elementary and Secondary School Organization and Management
The role of the site administrator in the administration and management of elementary, middle school/junior high, and high schools is studied, along with the organizational structure and function of the school itself. Students will investigate, analyze and evaluate the roles of state and federal governments in the context of the school and district governance process. Implications for leadership in the development and operation of comprehensive educational programs at the school site will be studied. Prerequisite: Consent of Program Coordinator.

EDAD 632 (3)
Innovation, Diversity and Evaluation in Curriculum Development
Students focus on the leadership role of site and district administrators in the development of curricular programs responsive to the diverse populations of the contemporary school. Through the examination, analysis and evaluation of existing curricular models, policies and procedures, students will learn how to develop transformative curricula. They will examine the role of evaluative measures as integral to curricular development, explore innovation and change in teaching and learning, and investigate appropriate methods for stimulating change in public education. Prerequisite: Consent of Program Coordinator.

EDAD 634A (2)
Educational Law
The first of a two-course sequence (with EDAD 634B), which provides students with an overview of the legal aspects of entry-level school administration and leadership. Students investigate historical legal frameworks, legal interpretations of key court decisions affecting education, the U.S. and California Court Systems, the California Education Code, and legal issues and problems faced by school administrators. Prerequisite: Consent of Program Coordinator.

EDAD 634B (1)
Educational Finance
The second of a two-course sequence articulating the financial and legal aspects of entry-level school administration and leadership. Students concentrate on basic principles and practice of school finance including budget generation and implementation at site and district levels. Critical financial issues are addressed as is the financial decision-making process. The relationship between law and finance will be discussed as major responsibilities of school administrators and educational leaders. Prerequisite: EDAD 634A and consent of Program Coordinator.

EDAD 636 (3)
Instructional Supervision and Personnel Administration
The role of the site administrator as an educational and instructional leader, supervisor, and personnel manager is the basis for this course. Students will investigate and analyze the impact of instructional leadership on classroom teaching and learning, the structure and function of schools, and the transformation of curricular programs toward those responsive to and inclusive of issues of diversity. Personnel recruitment, selection, placement, motivation, productivity, professional development, evaluation and dismissal are studied as elements of personnel management. Emphasis is placed on the personnel management process as a way of achieving excellence through diversity. Prerequisite: Consent of Program Coordinator.

EDAD 638 (4)
Leadership Applied to Educational Issues
A capstone course focusing on contemporary issues in public education, and their implications for educational leaders. The application of theories of leadership to the dynamics of change characterizing contemporary educational structures, are analyzed and evaluated. Students will synthesize previous courses and apply their learning to complex scenarios of, and current critical problems in, educational leadership. Students will develop, present and support a personal, productive leadership model as the basis for problem solving around critical issues. Prerequisite: Consent of Program Coordinator.

EDAD 640A (1)
Professional Field Studies and Practicum
Practicum (with EDAD 640B), for field experiences. Prerequisite: Consent of Program Coordinator.

EDAD 640B (1)
Professional Field Studies and Practicum
Provides the student with basic on-site experiences appropriate to an entry-level administrator. Students will work closely with an on-site administrator and University instructional supervisor in the development and implementation of a plan for field experiences including application of basic preliminary administrative services functions. Students will develop a paper, project or other product, collaboratively agreed upon with the supervisory team, which integrates learning from the field work and which will be used by the cooperating site. Course may be repeated for credit, but only two units may be applied to the program of study. Graded Credit/No Credit. Prerequisite: Consent of Program Coordinator.
EDAD 650 (3)
Critical Issues in Educational Finance, Law and Governance
Focuses on the technical content of school finance and law necessary for educational administration. Students learn about best practices in budgeting and allocation of financial resources within diverse settings, content and implementation of laws and policies pertinent to school site administration, and elements of short and long range planning to fulfill the mission of the district and school site. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 652 (3)
Leading Change and Creating Community in a Changing, Diverse Society
Emphasis is on the leadership responsibilities of school administrators in assuring that all students have an equal and equitable educational opportunity. Students reflect upon their personal and professional attitudes towards issues related to demographic diversity and various institutional barriers to student achievement. School climate, pedagogical practices, community dynamics, staff development and use of data are essential elements of this inquiry. May not be taken for credit by students who received credit for EDUC 696D. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 664 (3)
Advanced Human Resources and Professional Development
Focuses on effective personnel practices and policies, including: proactive planning for immediate and future staff; effective staffing systems; professional development for all staff for continuous improvement; evaluation for improved performance; employee-employer relationships and strategies for conflict management and resolution. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 668 (3)
Leadership, Change and Organizational Development
Focuses on leadership principles and practices while studying critical education issues and reform efforts. Principles of organizational development are studied to understand how to increase the capacity of schools and school systems in order to address the instructional needs of all students. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 670 (3)
Professional Credential Induction
Focuses on developing the beginning administrator's skills in six specific areas of expertise: organizational theory, planning and application; organizational and cultural environment; dynamics of strategic issues and management; ethical and reflective leadership; analysis and development of public policy; and management of information systems and human/fiscal resources. The course work is guided by the Professional Credential Individualized Induction Plan (PCIIIP), which is created and mutually agreed upon by the candidate, the university mentor and the school/district mentor. Graded Credit/No Credit. May not be taken for credit by students who received credit for EDAD 696C. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 672 (3)
Professional Credential Assessment
Focuses on monitoring progress and measuring success of the candidate in addressing the elements of the Professional Credential Individualized Induction Plan (PCIIIP) as related to organizational theory, planning and application; organizational and cultural environment; dynamics of strategic issues and management; ethical and reflective leadership; analysis and development of public policy; and management of information systems and human/fiscal resources. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 680 (1-5)
Action Research Project
Faculty-supervised research of educational topics. Graded Credit/No Credit. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDAD 682 (3)
Advanced Leadership Fieldwork
Extends the study and practitioner development of leadership concepts in specific areas within the areas of organizational theory, planning and application; organizational and cultural environment; dynamics of strategic issues and management; ethical and reflective leadership; analysis and development of public policy; and management of information systems and human/fiscal resources. Graded Credit/No Credit. Prerequisites: Completion of Preliminary Administrative Services Credential and Consent of Program Coordinator.

EDUCATION: BILINGUAL/CROSS-CULTURAL LANGUAGE AND ACADEMIC DEVELOPMENT (EDCS)

College of Education

EDCS 601 (3)
Developing Communities of Practice
Examines the nature of contemporary life outside the school setting in order to explore the relationships between students, parents, teachers, administrators and communities. Focuses on the notion of developing collaborative social climates within the framework of the school setting in order to examine the linkages between local communities and the schools. It further addresses the unique needs of linguistically diverse students and their parents as members of the learning and "real life" communities as a means of engaging community members in the culture of schooling. Students will study these home-school liaisons within the context of educational theory in order to develop successful, inclusive practice. Prerequisite: Consent of Program Coordinator.

EDCS 602 (3)
PRACTICUM IN DESIGNING AND IMPLEMENTING PROGRAMS FOR STUDENTS IN MULTILINGUAL/MULTICULTURAL CONTEXTS
Examines current models of effective/exemplary curriculum design, development, implementation, and evaluation in order to modify and apply those models to multilingual/multicultural settings. Focuses on evaluation, including the selection and development of assessment instruments and procedures, interpretation of evaluation data, and overall attention to reliability and validity of outcomes. Other areas of study include instructional delivery in terms of implementation with a focus on the theoretical foundations of instruction in multiple language/multicultural settings, including an examination of cultural bias in materials and practice as well as materials appropriate for working with students from culturally and linguistically diverse backgrounds. Stresses the relationship between program design, evaluation and student placement within such programs. Prerequisite: Consent of Program Coordinator.
EDCS 603 (3)
Assessment and Evaluation of Students in Multilingual/Multicultural Contexts
Investigates a variety of theories and approaches (formal, informal, individual/group, holistic and analytical) for identifying student learning needs, assessing the development of primary and second languages, and assessing achievement in content areas in the primary and second language. The following principles are the focus of this course: (1) the nature and purpose of primary- and second-language assessment measures; (2) the nature and purpose of assessment measures in content areas; (3) limitations of test instruments and procedures (e.g., issues and problems of test equivalence, culture, and linguistic bias); and (4) various approaches to assessment (e.g., performance-based assessment traditional measures, such as norm-referenced and standardized tests, authentic assessment and portfolio assessment). Prerequisite: Consent of Program Coordinator.

EDUCATION: EXCEPTIONAL LEARNERS (EDEX)

College of Education

EDEX 639 (3)
Using Data-Based Instruction to Improve the Learning Outcomes of Students Who are Difficult to Teach
Taught on the World Wide Web. Enables practicing general and special educators at all levels (pre-K through grade 12) to apply principles of data-based decision-making to implement "best practices" to improve the performance of students with learning disabilities; cognitive, emotional, and behavioral challenges; gifts and talents; multiple disabilities; and language differences. Fulfills the Data-Based Decision Making and Current and Emerging Research and Practice standards for the Professional Level II Education Specialist Credential. May not be taken for credit by students who have received credit for EDUC 596K. Prerequisite: Consent of instructor.

EDEX 651 (2)
Advanced Technology, Transition, and Inclusive Education
Focusses upon acquisition of skills for advanced application of augmentative communication, technologies supporting inclusion, practical applications in the classroom, development and implementation of technology laboratories and programs, grant writing, and professional presentations. Meets Professional Level II Education Specialist credential standards for supporting transition across the K-12 continuum and development of a specific area of emphasis in inclusive education, technology and augmentative communication, and reflective practice. Prerequisites: EDUC 500 or equivalent and consent of instructor.

EDEX 652 (2)
Crisis Prevention and Management
Practice in critical crisis management skills and pro-active, positive behavioral support intervention strategies for preventing, de-escalating, and appropriately responding to problematic and dangerous student behaviors. Examines the relationship of state and federal law, student characteristics, emotional states and medical conditions, family needs, transition planning, and various student support and behavior management strategies to positive behavioral change and maintenance. Meets Professional Level II Education Specialist credential standards for advanced behavioral, emotional, and environmental supports and developing a specific area of emphasis in serious emotional disturbance, and behavioral intervention. Prerequisite: Consent of instructor.

EDEX 660 (2)
Induction Plan Development
In this course, Professional Level II Mild/Moderate and Moderate/Severe Education Specialist candidates, in consultation with a local school district support provider and a University advisor, develop a Professional Credential Induction Plan. The plan is a written individualized program of coursework and professional development to be completed over no less than one year while employed full-time as a special educator or the equivalent. Graded Credit/No Credit. Prerequisite: Acceptance into the Professional Level II Education Specialist Program and consent of instructor.

EDUX 661 (2)
Portfolio Review and Site Visitation
Structures the assessment of Professional Level II Education Specialist candidates' completion of the professional credential Induction Plan. Through a portfolio review process and site visitation, candidates demonstrate performance of Level I1 Mild/Moderate and/or Moderate/Severe Education Specialist standards. Graded Credit/No Credit. Prerequisites: Successful completion of EDEX 660, and more than one year of full-time experience as a special educator, or the equivalent.

EDUCATION: MIDDLE LEVEL (EDMI)

College of Education
Prerequisite for all EDMI courses is admission to Middle Level/CLAD Teacher Credential Program.

EDMI 520 (4)
Teaching and Learning at the Middle Level I
Introduction to middle schooling, including the rationale for and history of middle schools, the particular needs of early adolescents, the needs of exceptional students, appropriate teaching strategies for diverse populations, and the foundation of learning theories in the middle grades. Includes supervised observation in multicultural, multilingual classrooms.

EDMI 527 (1)
Teaching and Learning at the Middle Level II
Further study of middle school curriculum and instruction, with emphasis on exploratory subjects, the teacher as advisor, and working with community agencies and parents, especially those from diverse class, cultural and ethnonlinguistic backgrounds.

EDMI 540 (6)
Language and Literacy Education, Middle Level Emphasis
The scope and sequence of language arts in the K-12 curriculum. Focuses on the place of reading, writing and literature in the middle level curriculum; methods and materials in teaching language and literacy to students from diverse class, cultural and/or ethnonlinguistic backgrounds; strategies in using reading and writing in the content areas; language acquisition theories; the structure of English; second language methods. Includes supervised observation in multicultural, multilingual classrooms.
EDMI 541 (2)
Content Area Methods I
The scope and sequence of social studies in the K-12 curriculum. Focuses on curriculum development, methods, materials, and assessment in middle level social studies; teaching social studies to students with exceptional needs as well as to those from diverse class, cultural and/or ethnohlinguistic backgrounds; and integration of language arts and social studies in block and/or interdisciplinary team settings. Methods of cross-cultural language and academic development will be integrated.

EDMI 543 (3)
Mathematics Education at the Middle Level
The scope and sequence of mathematics in the K-12 curriculum. Focuses on curriculum development, methods, materials and assessment in middle level mathematics; teaching mathematics to students with exceptional needs as well as those from diverse class, cultural and/or ethnohlinguistic backgrounds; and integration of mathematics with other academic subjects in block and/or interdisciplinary team settings. Methods of cross-cultural language and academic development will be integrated.

EDMI 545 (3)
Science Education in the Middle Level
The scope and sequence of Science in the K-12 curriculum. Focuses on curriculum development, methods, materials and assessment in middle level science; teaching science to students with exceptional needs as well as those from diverse class, cultural and/or ethnohlinguistic backgrounds; and integration of science with other academic subjects in block and/or interdisciplinary team settings. Methods of cross-cultural language and academic development will be integrated.

EDMI 561 (4)
Beginning Student Teaching at the Middle Level
Observation and teaching in selected middle schools in grades 6-8 under the supervision of classroom teacher(s), on-site supervisor, and faculty advisor, with weekly reflective teaching seminar. Graded Credit/No Credit.

EDMI 562 (8)
Advanced Student Teaching at the Middle Level
Observation in selected schools at elementary and high school levels. Teaching in a middle level school (grades 6-8) under the supervision of classroom teacher(s), on-site supervisor, and faculty advisor, with weekly reflective teaching seminar. Includes taking the role of teacher advisor. Graded Credit/No Credit. Prerequisite: EDMI 561.

EDM 563 (3)
Application of Mainstream and English Language Development (ELD) Curriculum Practicum in Second Language and Content Area Instruction
Various curricular and instructional programs designed for LMEP students (e.g., placement of LEP students in mainstream classes, heterogeneous language groups in single classroom settings) methods of language and content assessment, role and utilization of primary language in ELD content instruction, grouping configurations and application to the classroom. All aspects of second language program development will be covered, including needs analysis, curriculum planning and development. Examination and application of theoretical and methodological issues in designing programs for LMEP students in classroom settings through reflective, critical analyses of practice.

EDUCATION: MULTILINGUAL/MULTICULTURAL (EDML)

College of Education

EDML 550 (3)
First and Second Language Acquisition Theory and Methods
Language structure and use, language acquisition theories, the structure of English, the role of primary language literacy in second language acquisition, second language instruction in bilingual and multilingual settings and methods for teaching English as a Second Language (ESL) and content area instruction through English language development (ELD) techniques.

EDML 552 (3)
Theories and Methods of Bilingual/Multicultural Education
Sociolinguistics, sociocultural context, models of bilingual education, multilingual instructional techniques, and multicultural education, with consideration of the needs of exceptional learners.

EDML 552B (3)
Theories and Methods of Bilingual/Multicultural Education
Focuses on bilingual and multicultural education to include: sociolinguistics, sociocultural context, models of bilingual education, and multilingual instructional techniques, with consideration of the needs of exceptional learners. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDML 553 (2)
Pedagogy in the Primary Language
Bilingual Education in the United States, program entrance and exit criteria, primary language materials, assessment, and teaching reading and writing and the content areas in the primary language. This course will be taught in the language of emphasis. Includes foundations in the culture of emphasis (e.g., origins and characteristics, demographics, contributions, relationship to the dominant culture and other Spanish-speaking groups in the United States and California). Requires participation/observation in the public schools.

EDML 554 (1)
Pedagogy in the Primary Language — Part II
Continuation of topics covered in EDML 553 with a grade of C+ or better. Prerequisite: Pass EDML 553 with a grade of C+ or better.
EDMS 540B (4)
Language and Literacy Education
Focuses on the scope and sequence of language arts in the K-8 curriculum to include: the place of literacy in the elementary school curriculum; methods and materials in teaching language and literacy to students from diverse class, cultural, and ethnonymic linguistic backgrounds; strategies in using literacy across the curriculum; first and second language acquisition theories; and English as a second language methods. Prerequisites: Semesters 1 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 543 (3)
Mathematics Education in Elementary Schools
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in various elementary school curricula, and curriculum integration. Methods of cross-cultural language and academic development are integrated into the course. Requires participation/observation in the public schools.

EDMS 543B (3)
Mathematics Education in Elementary Schools
Focuses on how children develop mathematical understanding; children's mathematical thinking; curriculum development; methods, materials, planning, organization and assessment in various elementary school curricula; and curriculum integration. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-2 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 544 (3)
Social Studies Education in Elementary Schools
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in social studies. The integration of curricular areas is addressed. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-4 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 544B (3)
Social Studies Education in Elementary Schools
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in social studies. Emphasis is placed on using community-based resources and on the integration of curricular areas. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-4 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 545 (3)
Science Education in Elementary Schools
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in science. The integration of curricular areas is addressed. Methods of cross-cultural language and academic development will be integrated into the course. Requires participation/observation in the public schools.

EDMS 545B (3)
Science Education in Elementary Schools
Focuses on inquiry teaching to include: the Learning Cycle model, science process skills, science themes, scientific attitudes and habits of mind, and methods to involve all children in hands-on lessons. Emphasis is placed on instructional strategies, authentic assessments, exemplary science kits and curricula, and science processes. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-3 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 560B (3)
Field Experience I: Beginning Student Teaching in the Elementary School
Consists of observation and teaching in schools under the supervision of a classroom teacher and a student teaching supervisor. Graded Credit/No Credit. Prerequisites: Semesters 1-2 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 561 (5)
Field Experience I: Beginning Student Teaching in the Elementary School
Observation and teaching in selected schools under the supervision of classroom teacher and University supervisor, with a student teaching seminar. Graded Credit/No Credit.

EDMS 561B (3)
Field Experience II: Intermediate Student Teaching in the Elementary School
Consists of observation and teaching in schools under the supervision of a classroom teacher and a student teaching supervisor. Graded Credit/No Credit. Prerequisites: Semesters 1-4 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 561F (6)
Field Experience I: Beginning Student Teaching in the Elementary School
Observation and teaching in selected schools under the supervision of classroom teacher and University supervisor, with a student teaching seminar. Graded Credit/No Credit. Prerequisites: Admission to the Multiple Subject Internship Credential Program.

EDMS 562 (8)
Field Experience II: Advanced Student Teaching in the Elementary School
Teaching in an elementary classroom under direct supervision of a classroom teacher and University supervisor, with a concurrent student teaching seminar. Graded Credit/No Credit.

EDMS 562B (9)
Field Experience III: Advanced Student Teaching in the Elementary School
Consists of observation and teaching in schools under the supervision of a classroom teacher and student teaching supervisor. Graded Credit/No Credit. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 562F (7)
Field Experience II: Advanced Student Teaching in the Elementary School
Teaching in an elementary classroom under direct supervision of a classroom teacher and University supervisor, with a concurrent student teaching seminar. Graded Credit/No Credit. Prerequisites: Admission to the Multiple Subject Internship Credential Program.

EDMS 575B (1)
Integrated Program Capstone Seminar
Students demonstrate mastery of the integration of content and pedagogy. Accompanies the required nine (9) units of student teaching during the final semester of the Integrated Bachelor of Arts and Multiple Subject Credential Program. Provides an academic framework for guiding the integration of content and pedagogy that students will be implementing in their classrooms as student teachers. Also offered as LEST 575. Students may not receive credit for both. Graded Credit/No Credit. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.
EDUCATION: MULTIPLE SUBJECT/EXCEPTIONAL LEARNERS (EDMX)

College of Education
Prerequisite for all EDMX courses is Admission to the Multiple Subject/BCLAD with Special Education Specialist Credential: Learning Handicapped Teacher Credential Program.

EDMX 526 (4)
Learning and Instruction in Inclusive Classrooms
Introduction to psychology of learning and instruction; typical and atypical patterns of development; application of learning theories to educational practice; and the planning and delivery of meaningful lessons utilizing appropriate teaching strategies for accommodating the learning differences of students with disabilities, language, and other learning differences. Includes supervised observation in multicultural, multilingual classrooms and community settings.

EDMX 527 (3)
Creating Adaptive and Responsive Environments: Curriculum, Instruction, and Assessment
Focuses on methods for assessing, instructing, and modifying curriculum so that students with disabilities, language, and other learning differences may access the core curriculum in inclusive educational environments through the application of best practices. Students administer and interpret formal and informal assessments; and engage in the inclusive education program planning, implementation, and evaluation process. Requires participation/observation in the public schools.

EDMX 540 (3)
Language and Literacy Education in Inclusive Programs
Focuses on the scope and sequence of language arts in K-8 curriculum; the place of literacy in the school curriculum; methods and materials in teaching language and literacy to learners from diverse cultural, and ethno-linguistic backgrounds; strategies in using literacy across the curriculum; English as a Second Language methods, first and second language acquisition theories; and typical patterns of language development.

EDMX 543 (3)
Mathematics Education in Inclusive Classrooms
Focuses on the scope and sequence of mathematics in the K-12 curriculum, mathematical instructional methods, materials, and assessment. Additional emphasis is provided on assessing student mathematical thinking and developmentally appropriate instructional practices. Methods of cross-cultural language and academic development and strategies for accommodating learners with special educational needs in assessment and instruction are integrated into the course. Requires participation and observation in public school programs.

EDMX 547 (5)
Social Studies/Science Education in Integrated Programs
Focuses on curriculum development, methods, techniques, materials, planning, organization, and assessment in social studies and science. The integration of critical areas is addressed. Methods of cross-cultural language and academic development are integrated into the course. Adaptations in approaches to instruction and assessment for exceptional learners are followed in the course. Requires participation and observation in regular and special education settings.

EDMX 562 (7)
Multiple Subject Field Experience: Student Teaching in Inclusive Elementary Schools
Observation and teaching in supervised field experiences with different aged learners in general education classrooms under the direct supervision of a classroom teacher and University supervisor, with a concurrent reflective teaching seminar. Provides support to ensure the successful participation of learners with special learning characteristics in general education curricula and instruction. Graded Credit/No Credit.

EDMX 627 (3)
Creating Adaptive and Responsive Environments: Curriculum, Instruction, and Assessment
Focuses on methods for assessing, instructing, and modifying curriculum so that students with disabilities, language, and other learning differences may access the core curriculum in inclusive educational environments through the application of best practices. Students administer and interpret formal and informal assessments, and engage in the individual Education Program planning, implementation, and evaluation process. Requires participation/observation in the public schools.

EDMX 631 (3)
Foundations in Law, Ethics, and Procedures of Special Education
Introduction to state and federal special laws regarding special education; ethical issues in special education; concepts of assessment of learners and learning environments; non-biased, nondiscriminatory approaches to assessment; procedures and forms used in California schools to identify and support children and youth eligible for special education; and the Individual Education Program planning, implementation, and evaluation process. Requires participation and observation in public school programs.

EDMX 632 (3)
Technology and Communication for Special Populations
Terms, trends, history, and current information based on applications of technology and assistive and adaptive devices for working with students. Use of technologies for learners with mild, moderate, and severe disabilities for education programs in schools and agencies. Identification of interventions for effective learner communication and needed augmentative communication devices. Knowledge of system components and configuration of special and adaptive devices. Requires participation in laboratory work. Prerequisite: EDUC 500 or equivalent.

EDMX 633 (3)
Community Access through Supported Environments
Focuses on methods and strategies for facilitating learner access and growth in academic, social, personal, recreational, community, and functional life skills domains. Emphasizes in-classroom and community-based instruction and implementation of positive behavioral support plans and interventions that address students' behavioral, social, and motivational needs as well as transition planning. Requires participation/observation in the public schools.

EDMX 634 (4)
Working with Students with Severe Disabilities: Meeting Educational, Communication, Mobility, Sensory and Specialized Health Care Needs
Focuses on developing skills in working effectively for and with children with moderate and severe cognitive, communication, social-emotional, and physical/health challenges through practical, hands-on experiences. Emphasis is on interdisciplined learning in IEP development and delivery, and methods for procuring and managing resources to enable students with specialized health care, mobility, sensory, behavioral, and communication needs to participate in school and community experiences. Field experience requires instruction of students with moderate and severe disabilities.

EDMX 641 (3)
Language and Literacy Education in Adaptive and Responsive Environments
Focuses on a) methods, materials, and adaptations in approaches to language and literacy instruction with learners who have various special learning characteristics as well as learners from diverse class, cultural, and ethno-linguistic backgrounds; b) strategies for using literacy across the curriculum; and c) typical and atypical patterns of language development.
EDMX 664 (7)
Advanced Integrated Special/General Education Student Teaching
Observation and teaching in supervised field experiences with learners in K-12 special education and mainstreamed general education environments under the direct supervision of a mentor teacher and University supervisor, with a concurrent reflective teaching seminar. Responsibility for interdisciplinary assessment and teaching, IEP development and implementation, family support and communication, and providing support instruction to ensure the successful participation of learners with special learning characteristics in the core general education curriculum. May not be taken for credit by students who have received credit for EDMX 663B. Graded Credit/No Credit.

EDMX 664I (7)
Intern Integrated Special/General Education Student Teaching
Observation and teaching in supervised field experiences with learners in K-12 special education and mainstreamed general education environments under the direct supervision of a mentor teacher and University supervisor, with a concurrent reflective teaching seminar. Responsibility for instructional organization and management, support service coordination, interdisciplinary assessment and teaching, and providing support instruction to ensure successful participation of learners with special learning characteristics in the core general education curriculum. May not be taken for credit by students who have received credit for EDMX 663A. Graded Credit/No Credit.

EDSS 521A (3)
Teaching and Learning in Secondary Schools, Part I
The first of a two-course sequence to introduce the concepts and skills necessary in preparation for a Single Subject Credential. Through a series of observations, readings, discussions, and modeling by the instructors, students will come to a better understanding of the principles of learning for adolescents from diverse cultural and linguistic backgrounds and the resultant implications for the teaching of those adolescents. Includes developmental stages of cognitive/affective/moral development with a special emphasis on adolescents, the critical elements of planning for instruction, various models of teaching and their uses, multiple approaches to classroom management and discipline, multiple approaches to assessment (formal and informal), the essential elements of teaching for students emerging in their English proficiency, student motivation, inclusive instruction for students with special needs, and multiple ways in which technology can be used in the classroom.
Prerequisite: Enrollment in the Single Subject Program and consent of Program Coordinator.

EDSS 521B (2)
Teaching and Learning in Secondary Schools, Part II
The second of a two-course sequence that builds on the concepts and skills introduced in EDSS 520A. Through a series of observations, readings, discussions, and modeling by the instructors, students will come to a better understanding of the principles of learning for adolescents from diverse cultural and linguistic backgrounds and the resultant implications for the teaching of those adolescents. Includes the developmental stages of cognitive/affective/moral development with a special emphasis on adolescents, the critical elements of planning for instruction, various models of teaching and their uses, multiple approaches to classroom management and discipline, multiple approaches to assessment (formal and informal), the essential elements of teaching for students emerging in their English proficiency, student motivation, inclusive instruction for students with special needs, and multiple ways in which technology can be used in the classroom.
Prerequisite: Enrollment in the Single Subject Program and consent of Program Coordinator.

EDSS 530 (3)
Secondary Schooling in the 21st Century
Through a series of observations, readings, discussions, and modeling by the instructor, students will come to a better understanding of the concept of the newly evolving model of the secondary school in the 21st Century. Specifics will include how much of the following concepts applies to that model: professional perspectives, conduct and obligations; the nature of the school climate; and special needs and equity issues of students. An introduction to interdisciplinary learning in this structure and the interpersonal communication skills essential to it will be modeled and practiced.

EDSS 531 (1)
The Reflective Professional
Uses a seminar approach to train teachers in the art of reflective professionalism. Readings, discussion, and attendance at teacher sites based curriculum meetings will also add to the blend necessary to produce those skills of communication needed for productive educational change in multicultural settings.

EDSS 541 (5)
Disciplinary and Interdisciplinary Methods
Methodology course which combines training in both subject specific methods (approximately two credits) and interdisciplinary teaching methods (approximately one credit). Utilizes both pedagogical and practical experiences from multiple instructors selected from the colleges of Education, Arts and Sciences, and secondary schools to train students in a variety of appropriate strategies to utilize with secondary students.

EDSS 550 (4)
Language and Literacy in Multilingual Contexts
Literacy plays a critical role in a student's overall academic success at any level. In secondary schools, a steadily increasing amount of information is transmitted through the medium of written texts. Consequently, refined reading and writing skills are necessary in nearly all academic areas. For non-native or non-English speaking students attempting to grapple with complex subject matter, the need for a teacher with an understanding of literacy issues and processes becomes even more crucial. Designed to prepare secondary teachers to learn about language and to use language to learn subject matter. Includes language structure, first and second language development, content area reading and writing strategies/ processes (including strategies/processes for first and second language learners), using language arts across the curriculum, using language arts to learn content area subject matter, assessment of reading/writing strategies, empowering candidates via language learning strategies, developing lifelong readers and writers, and evaluating instructional materials (including software).
EDSS 555 (3)
Theories and Methods of Bilingual and Multicultural Education
Through a series of observations, readings, discussions, and modeling by the instructor, students will come to a better understanding of the theories and methods of teaching students for whom English is not a second language and for students who are emerging in their English language proficiency as well as the theories and methods of culturally responsive teaching (i.e., multicultural education). Includes theories and factors of first and second language development (including program models, sociolinguistics, English Language Development, and Specially Designed Academic Instruction in English), theories and methods of bilingual education (foundations and models), methods and strategies of instruction in the primary language, approaches to assessment of both content and language for English language learners, the manifestations of culture, and the characteristics of culturally/linguistically responsive pedagogy.

EDSS 560 (5)
Field Experiences in Secondary Schools — Beginning
Through a series of observations/structured participation, and by experiencing the complexities of teaching via teaching for a specific period, students will demonstrate emerging understanding and ability to plan and implement effective teaching strategies, especially focused on the 9th/10th-grade core. Graded Credit/No Credit.

EDSS 561 (7)
Field Experiences in Secondary Schools — Advanced
Through a series of observations/structured participation, and by experiencing the complexities of teaching via teaching all of a mentor teacher's classes for at least a four week period, students will demonstrate advanced understanding and ability to plan and implement effective teaching strategies, especially focused on the 11th/12th-grade discipline specific courses. Graded Credit/No Credit. Prerequisite: Consent of instructor.

EDUCATION: MATHEMATICS/SCIENCE/TECHNOLOGY (EDST)

College of Education

EDST 610 (3)
Current Issues and Research in Science Education
Selected studies of current issues and problems related to science instruction and curriculum development. Subjects include multicultural science education, science for students with disabilities, gender and ethnicity issues regarding science, the analysis of learning in the science classroom, technology to teach science, and a review of recent research in science education and science education reform efforts. Prerequisite: Enrollment in the Education Master’s Program and/or hold credential.

EDST 611 (3)
Advanced Methods in Science Teaching I: Life Science Emphasis
Has a multidimensional purpose: it includes an overview of the major subjects in the Life Sciences, as well as the examination and practice of a variety of instructional models which enhance learning of science concepts and processes. Rationales for the use of each model will be included. Emphasis will be placed on both science content and inquiry instruction. The practice and use of authentic assessments for effective science teaching will also be examined. Prerequisite: Enrollment in the Education Master’s Program and/or hold credential.

EDST 612 (3)
Advanced Methods in Science Teaching II: Physical Science Emphasis
Has a multidimensional purpose: it includes an overview of the major topics related to the Physical Sciences by integrating the disciplines of Physics, Chemistry, and Earth Science. Also includes the examination and practice of a variety of instructional models that enhance learning of science concepts and processes. Rationales for the use of each model will be included. Emphasises will be placed on both science content and inquiry instruction. Prerequisites: Enrollment in the Education Master’s Program and/or hold credential.

EDST 613 (3)
Topics in Science Education
Includes field studies and/or laboratory investigations designed to increase teachers' knowledge of various topics within the life, physical and earth sciences. Includes strategies for developing and implementing interdisciplinary lessons, programs and action projects in the school and community. Methods for teaching K-8 students about the natural world using effective educational methodology are emphasized. May be repeated for credit as topics change, but only three (3) units may be applied toward the Master's in Education. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 620 (3)
Current Issues and Research in Mathematics Education
Provides a general overview of mathematics education which will include discussions of the current trends both nationally as well as internationally, teaching for understanding, curricular issues, and developing instructional strategies for the success of all students. The information to be covered will be driven by current research in the field. Prerequisites: Enrollment in the Master’s in Education Program and/or hold credential.

EDST 621 (3)
Students' Thinking in Mathematics Education
Explores the implications of understanding K-8 students' mathematical thinking for instruction. The development of students' mathematical thinking in major content areas will be examined across grade levels. The information to be covered will be driven by current research in the field and students' own investigations. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 622 (3)
Instructional Practices in Mathematics Education
Helps students reflect on their own knowledge and beliefs about mathematics instruction while investigating current research on mathematics instruction, assessment, and curricular issues. Students will explore how to make use of this research to inform and improve mathematics instruction. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 623 (3)
Topics in Mathematics Education
Critically examines one or more selected investigations in mathematics education related to such topics as international studies, ethnomathematics, professional development, and/or other current topics. The latest research issues in mathematics education will be highlighted. May be repeated for credit as topics change, but only three (3) units may be applied toward the Master's in Education. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 630 (3)
Teacher Leadership: Current Issues and Research in Educational Technology
Assists educators in the application of technology related skills and knowledge to staff development at their schools. Students are encouraged to take this course with one or more partners and conduct all the activities in partnerships. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.
EDST 631 (3) Impact of Technology on Teaching and Learning
A critical analysis of how technology contributes to learning, teaching and educational reform. Includes topics such as the pedagogy of distance and distributed learning, portfolio assessment, community-based and project-based learning. Special emphasis is placed on how technology influences various communities of learners. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 632 (3) Using Emerging Technologies to Customize Learning
Helps educators develop skills to use emerging technologies and multi-media applications to customize learning and instruction. It includes the study of visual principles, pedagogical concepts, and instructional strategies as they pertain to the development of institutional delivery systems. Students work in teams to develop instructional projects for classroom implementation. Prerequisites: Enrollment in the Education Master's Program and/or hold credential.

EDST 633 (3) Topics in Educational Technology
Critically examines one or more selected issues in educational technology. Current topics such as distance and distributed learning, video conferencing, and technology initiatives will be highlighted. May be repeated for credit as topics change, but only three (3) units may be applied toward the Master's in Education. Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDUC 199 (1-3) Independent Study
Individual library study or research under the direction of a faculty member. Study plan must be approved by the fourth week of classes. Prerequisite: Consent of instructor.

EDUC 350 (3) Foundations of Teaching as a Profession
Required for all credential candidates. An orientation to careers in K-12 education. Participation in forty-five (45) hours of supervised fieldwork assignments in K-12 classroom settings.

EDUC 350B (3) Foundations of Teaching as a Profession
Focuses on teaching and schooling from multiple perspectives, with an emphasis on current thinking and practices in public education in the U.S. Subjects from the sociological, philosophical and historical foundations of education are addressed. Readings from the lives of teachers and interactions with local educators will assist students to understand the richness and the complexities of teaching as a career. Emphasizes the importance of education for all children in a diverse society. Intended for individuals interested in becoming teachers, to understand the nature of formal education in the United States, and to assess teaching as a career. Prerequisites: Admission to the Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDUC 364 (3) The Role of Cultural Diversity in Schooling
Required of all credential candidates. Principles of first and second language acquisition (e.g., historical and current theories, psychology, sociocultural, political, and pedagogical factors) and issues related to notions of culture, interaction, and communication in school and community contexts (e.g., the nature of culture, manifestations of, cultural contact and cultural diversity in the United States and in California) within a theoretical and applied context.

EDUC 364B (3) The Role of Cultural Diversity in Schooling
Focuses on principles of first and second language acquisition (e.g., historical and current theories, psychology, sociocultural, political, and pedagogical factors) and issues related to notions of culture, interaction, and communication in school and community contexts (e.g., the nature of culture, manifestations of, cultural contact and cultural diversity in the United States and in California) within a theoretical and applied context. Prerequisite: Admission to the Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDUC 390 (3) Social and Educational Aspects of Multicultural Students and Families
Designed to provide students with an early cultural immersion experience and to help students gain a better understanding of culturally diverse students and families (e.g., poor Anglo, Latino, Native American, African-American, Asian). Focuses on issues which help students better understand the social and educational aspects of culturally different groups. Requires forty-five (45) hours of participation in a multicultural agency (e.g., social agency or schools) reflecting the diversity of our service region.

EDUC 391 (1-3) Strategies for Empowering Multicultural Future Teachers
Development of individual skills needed to qualify for Teacher Education Program. Focuses on strengthening cultural competencies needed to fully qualify for the Teacher Education Program and will be individualized for each student based on their unique needs (e.g., skill development for the CBEST or PRAXIS; community building; networking; student retention or academic skill development). Participants in seminar will assist others in gaining necessary skills while also receiving the assistance they need. May not be taken by students who have received credit for EDUC 494A, 495A, 496A.

EDUC 400 (3) Children's Literature
Selecting, analyzing, and using modern and classic literature with young readers. Requires forty-five (45) hours of participation in a public school or related setting.

EDUC 406A (3) Effective Tutoring for K-6 Classrooms
Designed to assist America Reads/Tutoring students as they develop as effective tutors. Discussions and readings provide an awareness of how students learn and what instructional practices foster understanding. Students become familiar with current approaches to the teaching of reading and writing, especially in culturally and linguistically diverse classrooms. Discussion and practices of sound principles, ethics and responsibilities inherent in working with students in a public school setting. Issues involving curriculum, confidentiality, and conflict resolution are considered. Tutors assess, work collaboratively in groups, share problem-solving strategies, and successes. Readings and discussions support and enrich tutors' primary experiences in the classroom setting. It is expected that students will apply their learning directly while working at their sites.

EDUC 406B (1) Effective Tutoring for K-6 Classrooms
Designed to assist America Reads/Tutoring students as they develop as effective tutors. Discussions and readings provide an awareness of how students learn and what instructional practices foster understanding. Students become familiar with current approaches to the teaching of reading and writing, especially in culturally and linguistically diverse classrooms. Discussion and practices of sound principles, ethics and responsibilities inherent in working with students in a public school setting. Issues involving curriculum, confidentiality, and conflict resolution are considered. Tutors assess, work collaboratively in groups, share problem-solving strategies, and successes. Readings and discussions support and enrich tutors' primary experiences in the classroom setting. It is expected that students will apply their learning directly while working at their sites. This follow up course is designed to support experienced tutors as they continue to work with students in grades K-6 in local public schools. May be repeated for a total of six (6) units. Prerequisite: EDUC 406A.
EDUC 407A (3)
Effective Tutoring for 6-12 Classrooms
Provides instruction on professional strategies for students who are concurrently working as tutors in local middle and high schools with students (grades 6-12) one-on-one and in small groups. Examines the role of tutors in supporting student learning and defines what it means to learn and teach. Explores strategies for facilitating student learning across subject areas with a particular focus on reading, writing, and mathematics. Special attention is paid to the connection between coursework and application in the tutoring setting. It is expected that students will apply their learning directly while working as tutors at their sites.

EDUC 407B (1)
Effective Tutoring for 6-12 Classrooms
Provides instruction on professional strategies for CSUSM students who are concurrently working as tutors in local middle and high schools with students (grades 6-12) one-on-one and in small groups. Examines the role of tutors in supporting student learning and defines what it means to learn and teach. Explores strategies for facilitating student learning across subject areas with a particular focus on reading, writing, and mathematics. Special attention is paid to the connection between coursework and application in the tutoring setting. It is expected that students will apply their learning directly while working as tutors at their sites. This follow up course is designed to support experienced tutors as they continue to work with students in grades 6-12 in local public schools. May be repeated for a total of six (6) units. May not be taken for credit by students who have received credit for EDUC 496K. Prerequisite: EDUC 407A.

EDUC 494 (1)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 494, 495, and 496. Students should check the Class Schedule for listing of actual topics.

EDUC 465 (2)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 494, 495, and 496. Students should check the Class Schedule for listing of actual topics.

EDUC 496 (3)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 494, 495, and 496. Students should check the Class Schedule for listing of actual topics.

EDUC 500 (3)
Computer-Based Technologies in Education
Examines the use of a variety of computer-based technologies as a tool in developing problem-solving and critical thinking skills in the teaching/learning process. Prerequisite: Successful completion of the University computer competency requirement.

EDUC 501 (3)
Mainstream Instruction For Students With Special Learning Needs
Rationale, techniques, strategies for successfully teaching students with special learning characteristics needs in the general education classroom. Issues in learning diversity and mainstreaming as they relate to the classroom teacher's role in teaching all students.

EDUC 506 (1-3)
Bilingual Books and Books in English about Latinos
An introduction to bilingual books, a genre of literature where two languages (specifically English and Spanish are used in the same work), as well as to the principal works and figures of the literature in English about Latino children and adolescents in the United States and abroad. May be repeated for a total of six (6) units.

EDUC 509(1-3)
Books and Reading Strategies for English Language Learners
Focuses on reading, selecting and using appropriate literature to teach reading strategies for English language learners in grades K-8. Activities in the course will include: selecting appropriate literature for language proficiency, cultural learning style and reading ability, using literature to teach reading strategies such as reciprocal teaching, SQ3R and the directed reading thinking activity, and designing other activities for the English language learner using quality literature. May be repeated for a total of six (6) units.

EDUC 517 (1-6)
Current Issues: Books in Spanish for Young Readers
Introduction to and analysis of current practices and problems in selecting and using books in Spanish for children and adolescents. May be repeated. May not be taken for credit by students who have taken EDUC 496B.

EDUC 523 (3)
Literature for Spanish-Speaking Students
In addition to material from EDUC 521 and EDUC 522, subject matter includes analysis of illustrated books, traditional literature, fantasy, poetry, realism, historical fiction, bilingual books and non-fiction.

EDUC 525 (2)
Innovative Physical Education for K-6 Education
Physical education course widely used throughout California and the United States. A set of teaching guides for K-2 and 3-6 are used as part of the course that connect to the California Frameworks in Physical Education and include topics such as: basic body management, skill progressions, games, and dance activities for children. Other national programs in physical and health will dovetail with concepts in the course with the primary goals program development, program implementation and program evaluation. May not be taken for credit by students who have received credit for EDUC 594N and 594P. Prerequisite: Students must have a received Bachelor's Degree.

EDUC 571 (2)
Health Education for Teachers
Designed to raise teacher awareness and examine the current health issues confronting today's educators. Introduces educators to resource links within the community as well as within the public school system. Participants will reflect on how this information connects to their own practice within their own classrooms and schools. Subjects include chemical dependency, nutrition, fitness, HIV/AIDS, conflict resolution/mental health and maintaining a healthy school environment. Cardiopulmonary resuscitation (CPR) training for certification needed for the clear credential will also be provided. May not be taken for credit by students who have received credit for EDUC 595E.

EDUC 591 (1)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination from EDUC 591, 592, and 593. Students should check the Class Schedule for listing of actual topics.

EDUC 592 (2)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination from EDUC 591, 592, and 593. Students should check the Class Schedule for listing of actual topics.

EDUC 593 (3)
Topics in Education
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination from EDUC 591, 592, and 593. Students should check the Class Schedule for listing of actual topics.
EDUC 699 (1–3)
Independent Study
Individual literary study or research under direction of a faculty member. Study plan must be approved by the fourth week of classes. May be repeated, but no more than three (3) units of credit may be counted toward the major. Prerequisites: Completion of at least three (3) upper-division courses in Education and consent of instructor.

EDUC 602 (3)
Schooling in a Multicultural Society
An introduction to issues of schooling in a multicultural society. Includes an overview of multicultural education and address areas of study such as: culture and cognition, diversity and exceptionality, intercultural communication, cross-cultural competence, the psychology of personal prejudice, and curriculum and teaching in multicultural contexts.

EDUC 604 (3)
Cognitive Perspectives Applied to Education
Theory and application of cognitive aspects of learning and instruction. Areas of study include information processing, knowledge representation, scripts and schema theory, critical thinking and problem solving, expert novice differences, socio-cognitive learning, learning strategies, transfer, cognitive apprenticeship, anchored instruction and situated cognition, relationship of human learning to artificial intelligence.

EDUC 606 (3)
Foundations of Reading and Writing Instruction
An overview of theories and practices that affect reading and writing instruction and assessment for the English-speaking and LEP student.

EDUC 610 (3)
Reading and Writing Theory and Research
Examination of the reading and writing processes and their interrelationships; linguistic, cognitive, sociocultural, and developmental aspects of literacy; examination of current reading and writing research.

EDUC 612 (3)
Literacy Development of Speakers of English as a Second Language
Theoretical, empirical, pedagogical and sociocultural issues of initial literacy learning; parallels between oral and written language development; effects of culture and home environment; developmental patterns and strategies; issues of bilingualism.

EDUC 613 (3)
Reading and Writing Strategies for Monolingual and Bilingual Learners
Examination of the theory, research, and practice that affect reading and writing for monolingual and bilingual students. May not be taken for credit by students who have received credit for EDUC 619A. Prerequisites: EDUC 602, 610, and 612.

EDUC 614A (3)
Reading and Writing Assessment
Explores current strategies and techniques for evaluating reading and writing development in classroom settings; theoretical conceptual frameworks for evaluation; process and product procedures for evaluation; formal and informal assessment techniques. Prerequisites: EDUC 610 and 613.

EDUC 614B (3)
Reading Certificate Field Experience
It explores multiple assessments in a balanced comprehensive literacy program and the research basis for the provisions of effective assessment of literacy teaching and learning relevant to students from varied cultural and linguistic background. Students will be required to administer a battery of appropriate assessments, make recommendations, and communicate that information through professional reports. Prerequisite: EDUC 610 and 613.

EDUC 616 (3)
Advanced Literature for Young Readers
An in-depth and extensive survey of children's and adolescent literature, K-12. Examination of current issues, theory and research on literature and its use in the classroom as well as reader-response theory and research will be included.

EDUC 617 (3)
Literatura Infantil y Juvenil en Español (Literature in Spanish for Young Readers)
A survey course dealing with the utilization of literacy materials both contemporary and classic, in Spanish, for young readers from pre-school through high school (3-18 years of age). It is expected that students read literary selections in Spanish for young readers in this age range, although a certain extent of specialization within an age range is permitted. All lectures, exams as well as reading and writing assignments will be in Spanish. Prerequisite: SPAN 311, or equivalent, or consent of instructor.

EDUC 618 (3)
Teaching Writing in Diverse Settings
An advanced study of writing with emphasis on reading and discussing current theory and research, exploring writing as a writer and developing appropriate writing instruction and curriculum. Explores a wide range of subjects including current theory, research and practice in writing, writing development, teaching different written forms, writing and the second language learner, the relationship between reading and writing, the conventions of writing, including spelling and assessment of writing. Prerequisites: EDUC 606, 610, 614A, 614B, 613, and 616.

EDUC 619 (3)
Developments and Issues in Literacy
An exploration of developing issues in the field of literacy and its instruction. Prepares students for the master thesis/project.

EDUC 620 (3)
Curriculum Development and Implementation
Current models of curriculum design and implementation will be examined and applied to development of curriculum. Other areas of study will include: the role of leadership in curriculum development, issues and problems of curriculum change; peer-coaching strategies, multicultural/bilingual and special population influences; curriculum evaluation strategies, and the planning and delivery of workshops and training sessions. Prerequisite: Successful completion of all four core courses and advancement to specialization in Learning and Instruction or consent of instructor.

EDUC 621 (3)
Literacy Program Leadership
Examination and practical experience of the role and responsibility of the literacy specialist in the public schools and the community.

EDUC 622 (3)
Research Methods in Education
A core course designed to introduce educational practitioners to the fields of educational research and evaluation. Explores quantitative and qualitative methods of designing and conducting research and evaluation in the context of classroom settings. Further examines measurement, assessment, common statistical techniques and methods for critiquing research and program evaluation studies.

EDUC 623 (6)
Advanced Clinical Experience
Designed to provide candidates with advanced clinical experience in the area of severe reading difficulties. Focuses on the integration of program theory and content with a supportive environment that includes self-assessment, supervision from a university advisor and a field supervisor. Promotes reflection and decision-making that is aligned with being specialists in the area of literacy and language arts. Graded Credit/No Credit. Prerequisite: Admission to the Reading Specialist Credential Program.

EDUC 624 (3)
Cognitive Strategy Instruction and Strategic Learning
The instruction and application of cognitive strategies in classroom contexts. Areas of study include: strategies for learning, thinking, and problem-solving; metacognition and strategy monitoring; self-regulated learning; models of successful strategy instruction; multicultural/bilingual and special population aspects of strategy use; the role of attitudes, beliefs, and feelings. Current research, techniques, issues, and perspectives in strategy instruction are explored. Prerequisites: Successful completion of all four core courses and advancement to specialization in Learning and Instruction or consent of instructor.
EDUC 625 (3)
Learning in the Wilderness
Allows teachers or teacher candidates to explore methods to use the outdoors as an interdisciplinary teaching strategy. Students will have opportunities to visit regional wilderness sites and use this setting to study the history, anthropology, literature, natural history, and other disciplines that can be associated with the region. Using this modeling technique, students will develop their own curricula that integrates natural settings and incorporates interdisciplinary learning. May not be taken by students who have received credit for EDUC 496E or EDUC 496H.

EDUC 626 (3)
Social-Cognitive Learning
Theories and applications of learning in social contexts. Current research, issues, and perspectives in social-cognitive learning are explored in relation to such areas of study as: cognitive development, cooperative learning, situated cognition, collaborative learning, the role of peer interaction in learning, cognitive modeling, influences of peer diversity, scaffolded instruction, cognitive apprenticeship. Prerequisites: Successful completion of all four core courses and advancement to specialization in Learning and Instruction or consent of instructor.

EDUC 627 (3)
Literacy in a Multicultural Society
Addresses the literacy instructional needs of California's diverse student population to include students receiving special education, as well as students with handicapping conditions in light of multicultural classrooms. The implementation of multicultural education will explore the establishment of a democratic classroom along with the value of student work as expressed through their own voices in unique cultural contexts. The influence of culture and language will also be explored as critical factors that affect the literacy achievement of each student. Prerequisite: Admission to the Reading Specialist Credential Program.

EDUC 628 (3)
Developments in Learning and Instruction
An intensive study of a selected area of learning and instruction. Current research, applications, issues, and perspectives in the specific topic are explored. Students will plan a research study or a curricular project in the course topic. Special topics may include: affective education, motivation, creativity, cultural diversity. Prerequisites: Successful completion of all four core courses and advancement to specialization in Learning and Instruction or consent of instructor.

EDUC 641 (3)
Multiple Languages, Literacy and Learning
Explores the theoretical, empirical, pedagogical, and sociocultural issues inherent in classes where multiple languages and cultures exist. Examines the sociocultural context of such classrooms including the effects of culture and home background, community culture, school culture, as well as issues of bilingualism and multiple language instructional contexts, specifically as these contexts relate to literacy and learning. Explores the relationships between the school context and the implicit and explicit theoretical foundations that support instruction for those students, both first and second language learners, and the implications of such instruction. Prerequisite: Consent of Program Coordinator.

EDUC 643 (3)
Ethnography of Education
Examines the nature of ethnography as a standard tool of inquiry in describing, understanding, explaining the behavior of individuals from different societies and settings, and of people from the same society in different social contexts. Focuses on the social description of a particular group's culture. A focus on cultural anthropology and educational ethnography serves as a foundation for this course, in that the complexity of human behavior as well as its diversity can best be comprehended by exposure to other people's ways of knowing, doing, and behaving. An undergirding emphasis is to prepare the student to further understand the complexity of human practices by making familiar the activities of people from other societies or other groups, and thus, make "strange" (objective or unbiased) our own familiar practices when placed against the "eyes" of other people. Focuses on theoretical underpinnings, foundations, and the conduct of educational ethnography. Prerequisite: Consent of Program Coordinator.

EDUC 647 (3)
Critical Perspectives on the Design and Implementation of Curriculum in Multilingual/Multicultural Settings
Examines issues relevant to the design and implementation of curriculum and instruction for students in multilingual/multicultural settings. Examines current theory as it relates to the design, implementation, and evaluation of curriculum, given the specific linguistic and sociocultural contexts which exist in classrooms, schools, and communities. Explores the implementation of that curriculum as dynamic and in need of ongoing, critical evaluation and refinement, with a specific focus on principles of curriculum development in the context of effective instruction and the alignment of student needs, curricula, and instruction in diverse contexts. Prerequisite: Consent of Program Coordinator.

EDUC 649 (3)
Practicum/Topics and Issues in Professional Development in Multilingual/Multicultural Contexts
Intensive study of current research, theory, applications, issues and perspectives in the field of Multilingual/Multicultural Education as it applies to current practice in the field. Focuses on preparing both the Masters and with an option in Multilingual/Multicultural Education and the (BC/CLD) Specialist Credential candidate to develop, plan and implement professional development competencies in linguistically and culturally diverse settings and classroom settings. The competencies will be demonstrated both through in-class seminar discussions and preparation of a research/curriculum project along with a (6) field component — consisting of placement in a variety of settings including, but not limited to, school sites, district offices, county offices of education, and community agencies. Focus is on the research/curriculum project further serves to prepare the Masters students for the thesis/project. Prerequisite: Consent of Program Coordinator.

EDUC 694 (1)
Topics in Education
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.

EDUC 695 (2)
Topics in Education
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.

EDUC 696 (3)
Topics in Education
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.

EDUC 698 (3)
Master's Thesis/Project Seminar
Planning, preparation, and completion of a research or curricular project within a school setting under the guidance of a faculty committee. Collaboration among master students and school districts is encouraged. Note: Students must continually enroll in this course until successful completion of the thesis project. Prerequisite: Successful completion of the master's option coursework and advancement to candidacy. Graded Credit/No Credit.
EARTH SCIENCE (ES)

College of Arts and Sciences

ES 101 (3)
Introduction to Earth Science I
Introductory course which presents the basic theories of the formation and composition of the earth from a geologic perspective. Discusses the theory of the origin of the earth and the solar system, the role of plate tectonics in the formation of the current global landscape, and the distribution of rocks and minerals on our planet. Prerequisite: Completion of Entry-level Mathematics (ELM) requirement. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

ES 102 (3)
Introduction to Earth Science II
Introductory course which presents a number of the current ideas related to the functioning of the earth's global ecosystem and its place in the universe. Subject matter includes the development of weather systems and climatic cycles, the structure and function of the oceans and their interaction with other earth systems, or the evolution and structure of the universe. Prerequisite: Completion of Entry-level Mathematics (ELM) requirement. This course is not currently offered at CSU San Marcos. It is listed only for transfer credit and course equivalency purposes.

FINANCE (FIN)

College of Business Administration

FIN 300 (3)
Personal Financial Management
Deals with financial management for individuals. Includes home ownership and financing, tax planning, investment goals and strategies, personal budgeting, credit usage, retirement planning, and risk management through insurance. Effective use of software packages for analysis and decision making.

FIN 302 (2)
Foundations of Finance
Examines basic aspects of the financing and investment decisions made by financial managers. Subjects include financial mathematics, net present value, capital budgeting, valuation of financial securities, risk and return, cost of capital, capital structure, and dividend policy. May not be taken for credit by students who have received credit for FIN 304. Prerequisite: All lower-division pre-business core.

FIN 304 (4)
Introduction to Corporate Finance
Required first course for students selecting the finance track as their area of study. Examines the financing and investment decisions made by firms' financial managers. Subjects include financial mathematics, capital budgeting, valuation of financial securities, risk and return, cost of capital, capital structure, dividend policy, and financial analysis and planning. Prerequisite: All lower-division pre-business core.

FIN 321 (4)
Investment Analysis
Examines the investment characteristics of the many types of securities traded in today's financial markets. In-depth coverage of the micro-structure of equity markets is also provided. Specific subjects to be discussed include: yield-curve analysis, trading rules, government bond pricing, corporate bond pricing, stock valuation models, market microstructure, CAPM, APT, mutual fund investing, and an introduction to derivative products. May not be taken for credit by students who have received credit for FIN 431 and SSM 431. Prerequisite: All lower-division pre-business core.

FIN 331 (4)
Financial Markets and Institutions
Examines the markets in which the prices of financial assets are determined as well as the participants in these markets. Introduces students to the various types of financial assets that are traded in financial markets by market participants. Specific subjects to be discussed include: depository institutions, government debt markets, corporate debt markets, equity markets, mutual funds, investment banking firms, mortgage markets, swaps and derivative markets. May not be taken for credit by students who have received credit for SSM 451P and FIN 430. Prerequisites: All lower-division pre-business core and FIN 302 or 304.

FIN 341 (4)
Multinational Financial Management
Examines various aspects of financial planning and management for enterprises with overseas operations. Major subjects include: evaluation of direct foreign investment projects, financial structure and global cost capital, foreign currency exposure management, management of political risk, working capital management, export-import financing, and multinational tax planning. May not be taken for credit by students who have received credit for HTM 421 and FIN 421. Prerequisite: All lower-division pre-business core and FIN 302 or 304.

FIN 404 (2)
Advanced Corporate Finance
Concentrates on advanced subjects in corporate finance. Provides a rigorous examination of capital budgeting, capital structure, and dividend policy. Other subjects discussed include mergers and acquisitions, leasing, working capital management, long-term financing, and financial distress. Case studies may be included. Prerequisite: All lower-division pre-business core and FIN 302 or 304.

FIN 422 (2)
Advanced Investment Analysis
Covers the student's understanding of investment analysis by providing a detailed examination of many of the issues introduced in FIN 321. Emphasis is placed on the characteristics, pricing and uses of options and future contracts. Specific subjects to be discussed include the statistical underpinnings of modern portfolio theory, risk aversion, bond portfolio management, arbitrage, the Black-Scholes option pricing model, market-making in stock options, and mortgage derivative products. Prerequisite: All lower-division pre-business core.

FIN 481 (1)
Selected Topics in Finance
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule to list the actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 482 (2)
Selected Topics in Finance
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule to list the actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 483 (3)
Selected Topics in Finance
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule to list the actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 484 (4)
Selected Topics in Finance
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule to list the actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 485 (4)
Selected Topics in Finance with Lab
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule to list the actual topics. Three hours of lecture and two hours laboratory. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.
FIN 408 (1-4)  
Independent Study in Finance  
The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

FOREIGN LANGUAGE (FLAN)  
College of Arts and Sciences  
Note: The World Languages and Hispanic Literatures Department currently offers lower-division courses in Foreign Language on a regular basis, and will offer upper-division courses on a modified basis. Students are urged to consult the Class Schedule for offerings.

FLAN 101 (4)  
Beginning Study of a Foreign Language I  
Basic concepts of a language other than English not commonly taught at CSUSM. Designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures. May be repeated for credit as language changes.

FLAN 102 (4)  
Beginning Study of a Foreign Language II  
Continuation of FLAN 101. Further study of basic concepts of a language other than English not commonly taught at CSUSM. Designed to develop basic ability in pronunciation, reading, conversation, and grammatical structure. May be repeated for credit as language changes. Prerequisite: FLAN 101 (in the same language) or equivalent.

FLAN 201 (3)  
Intermediate Study of a Foreign Language I  
Further study of a language other than English, not commonly taught at CSUSM. Emphasis on development of the skills of reading, listening, comprehension, speaking, and writing. Conducted in the appropriate language other than English. May be repeated for credit as language changes. Prerequisite: FLAN 102 (in the same language) or equivalent. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

FLAN 202 (3)  
Intermediate Study of a Foreign Language II  
Continuation of FLAN 201. Further development of the four skills in a language other than English, not commonly taught at CSUSM. Emphasis on oral and written composition, communication, and review of grammatical structures. Conducted in the appropriate language other than English. May be repeated for credit as language changes. Prerequisite: FLAN 201 (in the same language) or equivalent. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

FLAN 216 (1-6)  
Intermediate Foreign Language for Special Purposes  
Intermediate level study of a foreign language, with special emphasis on vocabulary, conversational practice, and cultural background necessary for successful communication within a specialized context. Note: This course does not fulfill the graduation requirement for a Language Other Than English. Course may be repeated for credit as language and/or subject matter changes. Prerequisite: FLAN 102 or equivalent, in same language.

FLAN 316 (1-6)  
Advanced Foreign Language for Special Purposes  
Advanced-level study of a foreign language, with special emphasis on vocabulary, conversational practice, and cultural background necessary for successful communication within a specialized context. Course may be repeated for credit as language and/or subject matter changes. Prerequisite: FLAN 202 or equivalent, in same language. Course conducted in the specified foreign language.

FRENCH (FREN)  
College of Arts and Sciences  
FREN 101 (4)  
Beginning French I  
Fundamentals of French language and culture, designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures.

FREN 102 (4)  
Beginning French II  
Continuation of FREN 101. Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. Prerequisite: FREN 101 or equivalent.

FREN 201 (3)  
Intermediate French I  
Continuation of French language fundamentals. Emphasis on the development of the skills of reading, comprehension, speaking, and writing, and study of French culture. Conducted in French. Prerequisite: FREN 101 or equivalent.

FREN 202 (3)  
Intermediate French II  
Continuation of FREN 201. Further development of the four skills, with an emphasis on reading, composition, communication, culture, and review of grammatical structures. Conducted in French. Prerequisite: FREN 201 or equivalent.

FREN 311 (3)  
Advanced French  
Focuses on further development and refinement of the four primary skills in French (speaking, writing, reading, and listening comprehension), in addition to a study of cultural factors which affect communication. Conducted in French. Prerequisite: FREN 202 or equivalent.

FREN 312 (3)  
French Composition and Advanced Oral Practice  
Advanced-level practice of French through oral and written exercises. Conducted in French. Prerequisite: FREN 202 or equivalent.

FREN 314 (3)  
Advanced French for Business  
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and discourse strategies specific to the needs of the business professional. Conducted in French. Recommended FREN 311. Prerequisite: FREN 202 or equivalent.
GLOBAL BUSINESS MANAGEMENT (GBM)

College of Business Administration

GBM 444 (4) Strategic Management in Global Environments
Explores basic strategy concepts as they relate to international strategy. Issues of international, corporate and business level strategic management are emphasized, and strategies of international business organizations analyzed. Open only to College of Business Administration students with senior status. Must be taken in last year of enrollment. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, core Arts and Sciences courses, and consent of instructor.

GBM 492 (3) Problem Assessment and Critical Thinking
Review of problem identification, problem solving, critical thinking, consultation, project management, cross-cultural issues, and strategies for team effectiveness. Students work in teams with organizations operating in a global environment. The actual business problems/projects will have an international focus. Following formation of teams, members prepare and formally present their Senior Experience proposal. Open only to College of Business Administration students in the Global Business Management Option with senior status. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, core Arts and Sciences courses, and consent of instructor.

GBM 497 (6) Global Management Experience
Activities related to concurrent on-the-job experience with cooperating international businesses or not-for-profit organizations. The experience may be with an organization in a foreign location, with a maquiladora organization, or with the international/global division, department or operations of a domestically based organization. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, core Arts and Sciences courses, and consent of instructor.

GBM 498 (1 - 4) Independent Study in Global Business Management
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.
GENERAL EDUCATION – HUMANITIES (GEH)

College of Arts and Sciences

GEH 101 [3]
The Search for Self-Definition I
The first of a two-semester sequence consisting of an intellectual and experimental study of the process of the search for meaning, knowledge, and self-definition. Students will participate in and learn about searches for origins, spirituality, artistic expression, communication, national identity, ethnic roots, gender identity and new worlds. Incorporates activities and materials such as texts, films, music, lectures, multimedia presentations and applications, field trips, and guest speakers. Stresses critical thinking as well as cooperative and interactive learning by means of group activity and classroom technology.

GEH 102 [3]
The Search for Self-Definition II
The second of a two-semester sequence. Provides opportunities for students to examine and to experience the manner in which individuals and societies search for meaning, knowledge, and self-definition from the perspectives of history, literature, philosophy and the visual and performing arts. Incorporates activities and materials such as texts, films, music, lectures, multimedia presentations and applications, field trips, and guest speakers. Stresses critical thinking as well as cooperative and interactive learning by means of group activity and classroom technology. Prerequisites: GEH 101.

GENERAL EDUCATION – LIFE LONG LEARNING AND INFORMATION LITERACY (GEL)

College of Arts and Sciences

GEL 101 [3]
The Student, The University, The Community
Designed to equip students with the basic skills, concepts, and knowledge necessary to become a lifelong learner. Examination of current theory and research regarding the information age, health and wellness, career development, and psychological assessment. Practical application of the theory and research. Includes information literacy and technology skills, group and teamwork, and learning styles. Prerequisite: Freshman standing or consent of instructor.

GEL 200 [3]
The Student in an Information Society
Teaches the student how to become information-literate by exploring individual well-being in this information age. Using the library as a learning laboratory, the student will explore the various aspects of the Information Age as it is changing American and global societies. Familiarizes students with the technologies and systems that are shaping this age. By researching selected topics dealing with social, psychological and physiological well-being, students will come to understand how information is generated, acquired, preserved and transmitted; learning how to write a successful research paper while developing the skills required of lifelong learners.

GENERAL EDUCATION – MATHEMATICS (GEM)

College of Arts and Sciences

GEM 100 [3]
Mathematical Ideas
Basic mathematical concepts such as logic, number theory, number systems, algebra, geometry, functions, graphs, counting methods, probability, and statistics together with related cultural and historical perspectives. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

GENERAL EDUCATION – ORAL COMMUNICATION (GEO)

College of Arts and Sciences

GEO 102 [3]
Oral Communication
Introduction to the form and content of communication. Includes: the linguistic, psychological, and cultural bases of communication; various types of communication ranging from basic speech acts to forms of persuasion and conflict resolution; the social and political significance of communication; how communication operates within and across a wide range of social contexts. Students become actively acquainted with some of the potential proficiencies that may be brought into various social contexts. Requires active participation in classroom exercises, collaborating on a group research project which is presented orally to the class, and practicing public speaking.

GEOGRAPHY (GEOG)

College of Arts and Sciences

GEOG 301 [3]
World Regional Geography
Survey of major world regions and their major countries. Study of specific geopolitical circumstances and geographical concepts. Focuses on processes and issues such as development and under-development; population and migration; race, class, and gender; technolgy and economic growth; natural resources and the environment, and conflict and cooperation within a world regional framework.

GEOG 320 [3]
Patterns of San Diego County
Conducts an interdisciplinary exploration of the geographic, historic, political, and socio-economic factors that make up San Diego County. Geographic Information Systems (GIS) software and internet resources will be used to amplify this exploration. Students will gain an in-depth understanding of how San Diego County has been shaped and continues to function, as well as knowledge of how to use technological tools for a deeper understanding of the world around them. May not be taken for credit by students who have received credit for ID 370F.

GEOG 325 [3]
America's Urban Areas: A Multidisciplinary Exploration
An interdisciplinary examination of cities in the Americas. Political, sociological, economic, historic, and geographic factors of urban areas will be explored. An emphasis will be placed on the use of geographic information systems (GIS) software and internet resources in understanding the urban context. The objective is to provide students with a set of tools which will allow them to pursue a greater understanding of how urban areas are shaped and function.

GEOG 340 [3]
Regional Geography
Offers students the opportunity to examine population and migration factors, spatial configurations, alternative theories, and special issues regarding regional development. The specific region or subregion discussed is reflected in its subtitle. Each area will be analyzed in depth allowing a deeper understanding and discussion than is possible in a broader survey course.

A. Africa
B. Asia
C. Latin America
D. Europe
E. North America
F. China
G. United States
GENERAL EDUCATION – SCIENCE (GES)

College of Arts and Sciences

GES 100 (3)
The Physical Science Around Us
Introduces some of the basic concepts and ideas of physical science and demonstrates how they are applicable to everyday processes and devices in the world. Fundamental ideas to be introduced will include various subjects from the disciplines of chemistry and/or physics. Although the subjects discussed will require some mathematical knowledge, the scientific principles will be covered from a conceptual viewpoint. Intended for the non-science major. Prerequisite: Entry Level Mathematics (ELM) certification.

GES 101 (3)
Matter, Molecules, Life, and the Environment I [Physical Science]
The first semester of a two-semester course consisting of integrated modules covering the areas of matter/energy, molecules, living systems, and environment. These modules will cover major concepts in the physical and biological sciences, emphasizing their application to real-world problems. Concepts covered will include the interactions of matter and energy, laws of motion, atomic structure of matter, structure and properties of molecules, principles of genetics, structure and function of living organisms, evolution, and interactions of organisms with each other and their environment. Includes practical experience in the application of the scientific method through laboratory activities. Four hours per week of lecture/discussion/laboratory. A field trip outside of regular course hours may be required. Prerequisite: Entry Level Mathematics (ELM) certification.

GES 102 (3)
Matter, Molecules, Life, and the Environment II [Life Science]
The second of a two-semester course consisting of integrated modules covering the areas of matter/energy, molecules, living systems, and environment. These modules will cover major concepts in the physical and biological sciences, emphasizing their application to real-world problems. Concepts covered will include the interactions of matter and energy, laws of motion, atomic structure of matter, structure and properties of molecules, principles of genetics, structure and function of living organisms, evolution, and interactions of organisms with each other and their environment. Includes practical experience in the application of the scientific method through laboratory activities. Four hours per week of lecture/discussion/laboratory. A field trip outside of regular course hours may be required. Prerequisite: Entry Level Mathematics (ELM) certification.

GENERAL EDUCATION – SOCIAL SCIENCE (GESS)

College of Arts and Sciences

GESS 101 (3)
Order and Change: Multiple Perspectives I
The first of a two-semester sequence in which students explore the diverse ways of knowing that are subsumed under the broad classification of “social science.” Content reflects diverse experiences and viewpoints, including social class, culture, race and ethnicity, gender, age, region, nationality, and historical period. Students will develop analytical skills that promote a lifelong sensitivity to established and emergent interconnections between self, community, and society. Skills include use of multiple perspectives and approaches for investigating social issues; information technology, and critical thinking. May include field experience. Prerequisite: GESS 101 or GERM 101.

GESS 102 (3)
Order and Change: Multiple Perspectives II
The second of a two-semester sequence continues student’s exploration of social issues which have captured the imagination of social scientists and others involved in social inquiry. Subject matter includes topics such as social justice, human rights, inequality, oppression, conflict and cooperation, diasporas, and development. Students will apply and further develop the analytical skills introduced in the first semester by investigating their own social world. May include field experience. Prerequisite: GESS 101 or consent of instructor.

GENERAL EDUCATION – WRITING (GEW)

College of Arts and Sciences

GEW 101 (3)
Principles of Written Communication
An introduction to college-level writing focusing on clear and effective written communication. Writing assignments include those designed to give students practice and frequent evaluation in all essential components of the research and writing process including pre-writing, organizing, composing, revising, and editing. Students learn to explain, analyze, develop, and criticize ideas effectively.

GERMAN (GRMN)

College of Arts and Sciences

Note: The World Languages and Hispanic Literatures Department currently offers lower-division courses in German on a regular basis, and will offer upper-division courses on a modified basis. Students are urged to consult the Class Schedule for offerings.

GRMN 101 (4)
Beginning German I
Designed to develop basic ability in pronunciation, reading, writing, and listening comprehension in German. Assumes no prior knowledge of German.

GRMN 102 (4)
Beginning German II
Further study of the basic concepts of German. Designed to develop basic ability in pronunciation, reading, writing, and listening comprehension in German. Prerequisite: GRMN 101 or equivalent.

GRMN 201 (3)
Intermediate German I
Continuation of the development of communicative competence in German at the intermediate level. Includes structured practice of writing, speaking, reading, and listening comprehension in German. Conducted in German. Prerequisites: GRMN 101 and 102 or equivalent.

GRMN 202 (3)
Intermediate German II
Continuation of the development of communicative competence in German at the intermediate level. Emphasis on oral production, composition, reading and listening comprehension. Includes an introduction to German culture. Conducted in German. Prerequisites: GRMN 101, 102, and 201 or equivalent.
HUMAN DEVELOPMENT (HD)

College of Arts and Sciences

HD 300 (3)
Administration in Social Service Settings
Theory and research in the effective management and administration of social services. Subject matter includes financing and grantwriting, licensure, decision making and leadership, personnel management, public relations, and program evaluation. May not be taken for credit by students who have received credit for MGMT 302 and HD 302.

HD 301 (3)
Theories of Human Development
A survey of theories and research strategies in human development. Through drawing on foundational work in the fields of biology, psychology, and sociology, the course will focus on developing interdisciplinary frameworks for understanding human development from birth to death.

HD 361 (3)
Introduction to Interpersonal, Interviewing, and Interaction Skills
Provides basic training in the interpersonal skills integral to counseling-related careers.

HD 490 (3)
Human Development in Perspective
A socially relevant "real world" problem or situation in human development will be considered from the perspective of several disciplines. Capstone course designed to be taken during the final year of undergraduate study. Prerequisites: All lower-division requirements and nine (9) units of upper-division courses applied toward the major.

HD 496 (3)
Field Experience in Human Development
Supervised experience providing service in a developmental setting. Students will spend approximately six (6) hours a week in a child and/or adult day or residential care placement in observation, participation, and service, attend weekly class meetings, read related material and prepare written reports. May be repeated for a total of six (6) units, but no more than three (3) units of credit may be applied towards the major. Prerequisites: All lower-division requirements.

HD 497 (3)
Applied Research in Human Development
Reviews the importance of theory, research objectives and various quantitative and qualitative methods. Students will be expected to participate in the development and implementation of an applied research study that they either initiate or is part of an ongoing research study. Through the class students will be exposed to data collection, data coding, data analysis and manuscript preparation.

HD 499A (1) 499B (2) 499C (3)
Supervised Independent Study
Independent study deals with a special interest not covered in a regular course or with exploration in greater depth of a subject introduced in a regular course. Discussion in individual conferences. May be repeated for a total of six (6) units of credit. Prerequisite: Consent of instructor.

HISTORY (HIST)

College of Arts and Sciences

HIST 101 (3)
Critical Thinking in History
An introduction to critical analysis, structure of argument, analysis of evidence, and logic using historical sources.

HIST 130 (3)
U.S. History 1500-1865
A survey of the development and changing historical interpretation of the American institutions and society from the Colonial period to the end of the Civil War. Special attention to the interplay of European, American, Indian, and African cultures in this development. Themes include immigration, colonial formation, Indian-white contact, constitutional development, economics, religion, slavery, status of women, westward expansion, reform, and political parties. May not be taken for credit by students who have received credit for HIST 230.

HIST 131 (3)
U.S. History 1865-Present
A survey of the development and the changing historical interpretation of institutions and society in the United States from Reconstruction to the present. Special attention to the interplay between races and cultural diversity and conflict. Themes include immigration, constitutional development, politics, economics, religion, reform, the growth of the United States as a world power, status of women, westward expansion, and urbanization. May not be taken for credit by students who have received credit for HIST 231.

HIST 201 (3)
World Civilizations to 1500
Surveys the history of the world from the early river-valley civilizations to the year 1500. Emphasis upon Afro-Eurasia and the Americas. Subject matter includes politics, society, religion, and global interactions.

HIST 202 (3)
World Civilizations from 1500 to the Present
Surveys the history of the world from the commercial empires of the 16th Century to the present. Examines global convergences, colonialism, imperialism, and the modern world system.
HIST 300 (3)
Thematic Topics in History
Thematic topics in History. Topics may come from any world area or be comparative. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

HIST 301 (3)
Historical Methods and Writing
Explores the various approaches historians take to their study and a variety of styles of historical writing including analytical reviews, abstracts, and the research paper. May not be taken for credit by students who have received credit for HIST 395.

HIST 305 (3)
Early Industrial Britain, 1668-1850
Charts the early economic transformation of Britain and its role in shaping issues of politics and constitutional forms; surrounding the developing of class, gender, and social relationships; framing questions of empire and imperial policy; and cultural and intellectual expression. Uses Britain's industrialization as a case study to isolate structural components of that process within the particular situation found in Britain from 1688-1850.

HIST 307 (3)
The Politics of Irish Nationalism
Presents Irish History both as case study in European nationalist movements and as model for British colonial/imperial relations. Examines impact of nationalism and colonialism on state-building, economic development and cultural/intellectual life. Particular emphasis on relationship between nationalist movements, colonial policy, and political violence. May not be taken for credit by students who have received credit for HIST 3009.

HIST 308 (3)
National Cinema and National History in 20th Century Europe
Explores the history of how European national identities were created, defined and sustained in the 20th Century through the new medium of motion pictures. Examines the creation of national cinemas in several countries including Germany, France and the Soviet Union. Considers films and filmmakers as manufacturers of national identities and myths both in support of and in opposition to European states in the 20th Century as a way of understanding a nation's history.

HIST 310 (3)
Ancient Middle East and Greece
An overview of the ancient societies of the Middle East, Egypt, and Greece.

HIST 311 (3)
The Mediterranean in the Age of Rome
The political, social, and economic development of the Roman empire from the founding of Rome to the end of the Western Empire.

HIST 313 (3)
Church and Society in Medieval Europe
Explores the relationship of religion to other aspects of medieval society. Includes exploration of religious orders, class, the arts, witchcraft, church-state relations, and feudal structures.

HIST 316 (3)
Gender and Authority in Medieval and Early Modern Europe
An exploration of gender ideologies and practices in traditional European society. Examines the social meanings of sexuality and the ways they shifted over time. This survey begins with a political and social consideration of gender in the Greco-Roman world. It then studies images and roles for men and women in medieval and early modern Europe. Subjects considered include: sexual ideologies, labor and domestic roles, the regulation of sexual practices by church and state, and the use of gendered imagery in the construction of political authority. Meets major requirements in women's history.

HIST 317 (3)
Renaissance and Reformation of Europe
Europe in the era of the Renaissance and Reformation. Explores the rise of nation states in an era of profound religious change. Examines demographic and economic transformation as well as the beginnings of European expansion.

HIST 318 (3)
Society and Culture in Early Modern Europe
Changes in European thought, art, and society from the Renaissance to the Enlightenment. Treats the development of two European cultures — elite and popular — in response to religious change. Examines literacy and printing, scientific thinking, and developments in political theory.

HIST 323 (3)
Society and Culture in Modern Europe
Changes in European thought, art, and society from the rise of romanticism to post-modernism.

HIST 324 (3)
The Enlightenment and European Society
Examines the tumultuous and world-changing ideas of the Enlightenment of 18th Century Europe. Looks at challenges to traditional views of religion, knowledge, politics, gender and peoples on other continents.

HIST 325 (3)
Revolutionary Europe
Political, social, and cultural responses to revolutionary movements in Europe from 1789 to the present. Explores the role of class, gender, ideology, as well as political and economic structures in both "successful" and "failed" revolutions from the French Revolution through recent struggles in eastern Europe.

HIST 326 (3)
Towards a European Community
Political, economic, and social developments in contemporary western Europe since the end of World War II. Themes include European relations with the United States and issues of "Americanization"; political and economic integration and rivalry; terrorist, radical and youth movements since the 1960s; demographic trends and issues of immigration/multiculturalism.

HIST 327 (3)
Women in Modern Europe
The experience of women in Europe from the 17th Century to the present. Themes include changes in the definition of women's roles, legal and political status, education, with attention to the impact of industrialization, the cult of womanhood, war, state family and welfare policies on women's lives. Meets major requirements in women's history.

HIST 330 (3)
The Constitution and American Society
Origins and writing of the U.S. Constitution and the political and social issues that have arisen as the Supreme Court and others have interpreted, amended, and implemented the basic law of the United States.

HIST 331 (3)
Law, Women, Family, and American History
Explores the ways law has shaped women's lives and the family from the colonial period to the present. Themes include questions of inheritance, regulation of marriage and custody, regulation of sexuality, legal definitions and control of abuse, employment legislation, legal and civil rights. Special attention paid to the differential impacts of race and class. Meets major requirements in women's history.

HIST 332 (3)
Women in the United States
The changing roles and status of women from the colonial period to the present. Studies the ways women and society have continuously redefined work, family, law, education, and political activity. Meets major requirements in women's history.

HIST 334 (3)
Foundations of the African-American Experience
The experience of African-Americans in American society from the colonial period to 1865. Includes an investigation into African heritage, the middle passage, antebellum African-American culture, enslavement, the struggle against slavery, the position of free blacks, and emancipation.

HIST 335 (3)
The African American Struggle for Equality
A survey of the development of traditional and legal segregation, the challenges provided by civil rights movements and related themes such as black separatism and nationalism.
HIST 334 (3)
The American Frontier as Symbol and Myth
The frontier as a metaphor for the hopes and fears of Europeans and Euro-Americans from 1492 to the present, as seen in the works of writers, philosophers, political theorists, movie makers, historians, and others. May not be taken for credit by students who have received credit for HIST 300A.

HIST 345 (3)
The Immigrant Experience
Patterns of migration to and the experience of immigrants in areas now part of the United States. Themes include the role of the family, neighborhood, church, and work; patterns of assimilation and acculturation; formation of political and social institutions; and the impact of immigration on the country.

HIST 346 (3)
Development of the American Frontier
The development of population, social institutions, resources, transportation, and markets along the moving line dividing indigenous and non-Indian societies from the beginnings of European colonization in the present-day United States to the early 20th Century.

HIST 347 (3)
California History
Beginning with the diverse native cultures of the region, the course explores the impact of Spanish, Mexican, and U.S. control. Traces the origins of contemporary issues through the area's economic development, multi-ethnic immigration, and evolving political institutions, and provides a survey of the human response to a place called "California."

HIST 336 (3)
The U.S. Historical Experience: United States Colonial Experience
The development of cultural and political institutions of work, family, and society in the British colonies, including interactions between American Indians, Europeans, and Africans. May not be taken for credit by students who have received credit for HIST 333.

HIST 336B (3)
The U.S. Historical Experience: United States Early Republic
An intensive consideration of the crucial first 50 years of the United States, with particular attention to the development of key social institutions and the dramatic expansion of the national economy. Subjects include the consolidation of the two party system, the growth and limits of the federal government, the development of sectionalism, early industrialization, the elaboration of the Southern slave system, and the rise of gender-based, religiously inspired reform movements.

HIST 336C (3)
The U.S. Historical Experience: U.S. Civil War Era, 1845-1877
Focuses on the process of division, war, and reunion from 1845 to 1877. Examines the social and economic structures of the United States in the antebellum period and the evolution of the political crisis that led to the South's secession and to civil war. Treats the Union and Confederate home fronts during the war and analyzes major military strategies and battles. Devotes a high priority to the experience of African-Americans throughout this period. Finally, it looks at the successes and failures of the efforts to reunify and reconstruct the nation in the post-Civil War years. May not be taken for credit by students who have received credit for HIST 300A.

HIST 336D (3)
The U.S. Historical Experience: U.S. Progressive Era, 1884-1920
Focuses on the "Progressive Era" in American life. A time of enormous change and development and a period that saw numerous reforms at the local, state, and national levels. Examines the major forces changing American life, such as industrialization, finance capitalism, urban growth, burgeoning immigration, trade unionism, the urban poor, and the plight of laborers, women, and minorities. Looks at the perceived loss of traditional values and the sharp conflicts between urban and rural areas. Finally, analyzes the nation's rise to become an international, military, economic, and financial power. May not be taken for credit by students who have received credit for HIST 300B.

HIST 336E (3)
The U.S. Historical Experience: Prosperity, Depression, and War: The United States from 1920-1945
An exploration of society in the United States from 1920 to 1945. Between these years the United States moved from seemingly widespread prosperity through the Great Depression and into WWII. All of these phases induced profound changes in American society which will be monitored by examining how Americans from diverse backgrounds responded to the challenges of these eras. Covers such issues as the intolerance of the 1920s which included the "Red Scare" and a renewal of racism; the class divisions of the 1920s which became so apparent during the depression, and the impact that WWII not only had on America as a whole, but specifically on women and minorities. May not be taken for credit by students who have received credit for HIST 342.

HIST 336F (3)
The U.S. Historical Experience: The United States in the Cold War Era
A history of society and culture in the United States since World War II, with particular attention to the social movements of the period, as well as the impact of the Cold War. Focuses on the struggle of Americans from diverse backgrounds for inclusion and equality, with special attention to the links between the Civil Rights Movement, feminism, the Student Movement, the Antiwar Movement, and the Chicano Movement. Examines the backlash to multicultural inclusion in the 1980s. May not be taken for credit by students who have received credit for HIST 340.

HIST 337 (3)
American Indian Response to White Expansion
The historical experience of American Indians from the arrival of Europeans to the end of the 19th Century.

HIST 338 (3)
Modern U.S. Indian Policy
Development of U.S. Indian policy and responses of Indian people since the imposition of the western reservation system in the nineteenth Century. Considers allotment, reduction of the Indian land base, the Indian New Deal, termination, and demands for self-determination and sovereignty.

HIST 339 (3)
The American City
The development of urban areas in the United States and their influence on American thought, life, and economic development from the colonial period to the present.

HIST 341 (3)
Ideas in America
The development and change of social, political, religious, and economic ideas in American History from the colonial period to the present.

HIST 343 (3)
Religion in the United States
Religious traditions studied in the context of changes social, cultural, and political traditions of the United States from 1600 to the present.

HIST 344 (3)
The American Frontier as Symbol and Myth
The frontier as a metaphor for the hopes and fears of Europeans and Euro-Americans from 1492 to the present, as seen in the works of writers, philosophers, political theorists, movie makers, historians, and others. May not be taken for credit by students who have received credit for HIST 300A.

HIST 345 (3)
The Immigrant Experience
Patterns of migration to and the experience of immigrants in areas now part of the United States. Themes include the role of the family, neighborhood, church, and work; patterns of assimilation and acculturation; formation of political and social institutions; and the impact of immigration on the country.

HIST 346 (3)
Development of the American Frontier
The development of population, social institutions, resources, transportation, and markets along the moving line dividing indigenous and non-Indian societies from the beginnings of European colonization in the present-day United States to the early 20th Century.

HIST 347 (3)
California History
Beginning with the diverse native cultures of the region, the course explores the impact of Spanish, Mexican, and U.S. control. Traces the origins of contemporary issues through the area's economic development, multi-ethnic immigration, and evolving political institutions, and provides a survey of the human response to a place called "California."

HIST 348 (3)
United States Film History
Introduction to the history of film in the United States from its inception at the turn of the 20th Century to the present. Explores the many facets of U.S. film and looks at the manner in which the film industry developed during the course of the 20th Century. Looks at the evolution of film making and the manner in which film not only shaped but also reflected the historical moments in which it was born, with careful attention to the manner in which film reflects American society's tensions over race, class, and gender. May not be taken for credit by students who have received credit for HIST 300W.

HIST 349 (3)
Foreign Policy of the United States
Foreign policy of the United States from the American revolution to the present.
HIST 350 (3)
Chicana/o Experience in the Borderlands
Examine the historical experience of people of Mexican descent in the southwestern United States (1840s-1930s). Includes (1) labor and migration patterns in the "borderlands," and (2) the "Chicano Movement," and (3) "Chicana cultural identity." Uses a "gender" approach to reveal new perspectives on the events and the ways individual and groups have understood culture and society. Students will use historical methods to analyze a variety of historical documents and construct their interpretation. May not be taken for credit by students who have received credit for HIST 300X.

HIST 352 (3)
Mexico, Past and Present
Starting with the indigenous civilizations in the 16th Century, through the period of Spain's imperial rule, the 19th Century wars of independence, the Revolution of 1910, and up to the present day, students are introduced to one of the most important and fascinating nations in the region. The evolution of economic, political, and social systems are traced with an emphasis on themes of ideology, identity, and resistance. Students practice basic historical methods in the required assignments.

HIST 355 (3)
Women in Latin America
Focuses on women and gender in 19th- and 20th-Century Latin America. Students will explore the evolution of the historiography, recent research and first-hand testimonial sources. Connections between gender, race, and class will guide the discussion. May not be taken for credit by students who have received credit for HIST 300T.

HIST 356 (3)
Culture and Identity in Latin America
Exploring indigenous, European, and African elements, this course encompasses Latin American nations which trace their origins to the Spanish and Portuguese empires. The theme of identity guides the discussion of cultural expressions in the aural, literary, plastic, and visual genres. The goal of national cultural unity contrasts with alternative notions of diversity, and the nation-state is the terrain where this cultural debate takes place. The time period will be limited to the 19th and 20th centuries, allowing students to study contemporary cultural expressions as well as current historical analysis.

HIST 359 (3)
A History of Brazil
Starting with the arrival of the Portuguese in the early 16th Century through the long colonial period, independence, the Brazilian Empire, and, in the 20th Century, periods of alternating republican and military rule, this course introduces students to the fascinating experience of the other Latin America. Themes of race and economic modernization suffuse the political and cultural evolution of this nation. Syncretism in Brazilian culture and society emerges as a central theme.

HIST 360 (3)
Classical Asia
Introduces students to a selected body of classical texts from Asia, which include philosophical treatises, religious texts and literary masterpieces that have become the intellectual foundation of Asian civilization. Focuses on culture and ideas, and helps students understand the historical and intellectual roots of contemporary Asia.

HIST 362 (3)
China and the West
An exploration of the relations between China and Europe since the 16th Century. Special attention to internal change, religion, and economics as well as diplomacy and politics.

HIST 363 (3)
China in Revolution
China since the revolution of 1911. Themes include the rise of Chinese nationalism, civil war, the Japanese invasion, rise of communism, and the cultural revolution.

HIST 364 (3)
Image and Reality - Film and Modern Chinese History
Examines modern Chinese history by looking at a group of selected popular films produced in that country during the last 70 years. By analyzing the images and motifs of these selected films, students will discuss the recurring themes and concerns as expressed by the Chinese filmmakers and seek connection between these visual manifestations and the nation's modern history.

HIST 365 (3)
Tradition and Change in Japan
Japanese History from the mid 19th Century to the present with special attention to the interplay between traditional institutions and modernization, and on the expansion of Japan.

HIST 370 (3)
Early African History
Part I survey of African history discusses the culture expressed through the lives of the elite and the ordinary people, art and literature, and the ritual and belief systems of the African civilizations from the earliest times to 1800. Specific issues include the invention of agriculture, art and oral literature as historical records, centralization of state and urbanization and commerce, observance of religious and ritual ceremonies, and the impact of all these developments. May not be taken for credit by students who have received credit for HIST 270 and HIST 300Y.

HIST 371 (3)
Modern African History
Part II survey of African history examines the political, socio-economic, and cultural issues in Africa (particularly in Sub-Saharan Africa), from 1800 to the present. Issues considered include Africa's increasing economic and political transformation before European intrusion, colonial occupation and African resistance, African response to colonial overrule, and the coming of independence and Africa's challenges in world affairs. May not be taken for credit by students who have received credit for HIST 271 and 300Y.

HIST 374 (3)
Africa Under European Imperialism 1880-1975
Studies European imperialism in Africa and its political, economic, and socio-cultural impact. Emphasizes the various theories about imperialism, including Marxist, dependency and modernist theories, especially pertaining to the motives, policies, and legacies of the colonial imperialist activities.

HIST 375 (3)
African Nationalism and Independence
Explores the rise of African nationalism since the 1940s, and the course of Africa's regaining of independence. Pays specific attention to the leading personalities in the struggle for independence and their nationalist philosophies. The political, economic and cultural challenges of African nationalism today such as diversity and conflicts, and the poor state of the economy and education, will also be examined.

HIST 381 (3)
Comparative French Colonialism: From the Caribbean to Indochina
Compares French colonialism in a variety of contexts, such as Haiti, Algeria and Vietnam. Examines the perspective of the colonizers and the colonized, and will bring together works of colonial theory, history, literature, and film. Explores the economic, cultural, political, and social aspects of colonialism French-style, from the eighteenth century to the present.

HIST 382 (3)
Crosscultural Encounters: Travel and Contact in the Early Modern World
Examines encounters between people from different cultures in the early modern period (Approximately 1500-1800). Students will read travel and captivity narratives, along with scholarly analyses of travel and of intercultural contact. Focuses on how cultural differences were regarded and managed by different peoples and different states.

HIST 384 (3)
Women in the Middle East — Historical Perspectives
Explores the history of 19th and 20th Century women in the Middle East, their accomplishments and the barriers to their social, economic, and legal development as an influential force in the middle eastern society. Focuses on the foundation of existing problems, such as social oppression, the debate between Islamists and Secularists regarding the women's role in society, their roles in the modern workforce and traditional Islamic views regarding "family law." May not be taken for credit by students who have received credit for HIST 300F. Meets major requirements in women's history.
HIST 388 (3)
History of War in Modern Society
War has been one of the greatest agents of change in world history, and it has shaped irrevocably the world in which we live. This course explores the nature of modern war and the idea of war since the late 18th Century and focuses on the transition in the 20th Century to the realities of both "total" wars and "world" wars; considers the role of war in modern state-building, in social movements and institutions, and in intercultural and artistic expression. An important aspect involves a consideration of the intellectual, philosophical and cultural history of war, including the development of the ethics of war in an international context. This is not a course in military history.

HIST 389 (3)
Historical Transformation of Money and Power
Reviews the development of the global political economy (GPE) beginning in the 6th Century B.C. with a particular focus on the history of Western forms of industrialization and economic activity over the past two centuries. Explores how political, historical, economic, technological and cultural factors have contributed to the evolution of the GPE and how to use them to analyze the transformation of the ideas about and operation of the world political economy. Analysis will be at a system, rather than a state, level and will examine how the convergence of various factors have created an interdependent global political economy. Lectures, case studies, group activities and discussion formats will all be used throughout the course. Also offered as PSCI 365. Students may not receive credit for both. May not be taken for credit by students who have received credit for HIST 300N.

HIST 390 (3)
Science and Society
The History of science and its relationship to the society in which scientific theories and technology developed. Attention to the impact of science on society.

HIST 391 (1)
Foreign Language Practicum in History
Requires a student to do historical readings and research in a foreign language on a regular basis. Students must be concurrently enrolled in a three (3) unit History course where such foreign language study is appropriate. Readings may either be substitutions or additions to the standard reading list for that class, but shall constitute at least twenty percent (20%) of the total. May be repeated for a maximum of three (3) units. Credit may not be counted toward the thirty (30) unit upper-division major requirements. Prerequisite: Consent of instructor and completion of the CSUSM History major's language requirement.

HIST 392 (1)
Experiential Learning in History
Opportunity to provide needed community services through experiential learning. Requires a minimum of 35 hours on-site and a journal reflecting on activities. May not be counted toward the History major. Prerequisite: Consent of instructor.

HIST 398 (3)
Independent Study
Directed readings under the guidance of an instructor. Several short analytical papers required. Prerequisites: Consent of instructor and discipline advisor.

HIST 400 (3)
Seminar in European History
An intensive look at selected areas of European History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 403 (3)
Seminar in United States History
An intensive look at selected areas of United States History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 410 (3)
Seminar in Latin American History
An intensive look at selected areas of Latin American History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 420 (3)
Seminar in American History
An intensive look at selected areas of African History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 430 (3)
Seminar in World History
An intensive look at selected areas of World History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 440 (3)
Seminar in Asian History
An intensive look at selected areas of Asian History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 490A (1) HIST 490B (2) HIST 490C (3)
Internship
On-site work for a historical agency such as an archive or museum, or providing historical research for a business or public agency. Requires assigned readings in theory and historical background, and a sustained project. May be repeated for a total of three (3) units. Arranged upon request through the History discipline. Prerequisites: Fifteen (15) units of upper-division History work, and consent of supervising faculty and discipline advisor.

HIST 499 (3)
Independent Research
Development of an extended research paper using primary and secondary sources in consultation with a faculty advisor. Prerequisites: Fifteen (15) units of upper-division History work including HIST 301 and consent of instructor and discipline advisor.

HIST 505 (3)
The Philosophy and Practice of History
Readings in the nature of historical inquiry and methodological issues. Prerequisite: Consent of instructor.

HIST 588 (3)
Research Seminar in American History
Exploration of primary sources and extended research on a topic. May be repeated for up to nine (9) units. Prerequisite: Post-baccalaureate standing or consent of instructor.

HIST 589 (3)
Directed Readings in American History
Individual or small group exploration of the historical literature of a particular field through reading, discussion, and writing. May be repeated for up to nine (9) units. Prerequisite: Consent of instructor.

HIGH TECHNOLOGY
MANAGEMENT (HTM)
College of Business Administration

HTM 304 (4)
Management Information Systems
Introduction to subjects in management information systems. Includes computer hardware and software, databases, information systems development, and the role of information systems in the organization. Three hours of lecture and two hours of laboratory. First day attendance is required or student may be dropped from the course at the instructor's discretion. May not be taken for credit by students who have received credit for MIS 302. Prerequisites: All lower-division pre-business core and successful completion of University computer competency requirement.
HTM 305 (4)
Production and Operations Management
Intensive study of the elements associated with the design and operation of companies in manufacturing and service industries and the integration of these elements within the entire corporate strategy. Includes operations in global markets, designing and controlling the transformation process, and planning for operations. Focuses on the quantitative model building approach to problem-solving with extensive use of computer software. May not be taken for credit by students who have received credit for POM 302. Prerequisites: All lower-division pre-business core and BUS 304.

HTM 390 (4)
Current Issues in Management
Explores the current theoretical and applied research in the field of high technology management. Emphasis on computer-based applications. Prerequisites: All lower-division pre-business core and either HTM 395 or POM 302.

HTM 404 (4)
Total Quality Management
Introduces the philosophy of Total Quality Management (TQM). Includes review of the classic literature of quality, principles of quality control, continuous improvement, world class manufacturing, design of experiments, and Taguchi methods. Designed to provide a working knowledge of the TQM philosophy. Emphasis on applications of TQM in high-tech industries. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core and either HTM 305 or POM 302.

HTM 406 (4)
Decision Models: A Computer Integrated Approach
Covers scientific approaches to decision making. The subject matter will include structuring real life situations into mathematical models and discussing solution methods to solve such problems. Post-optimality analysis and comparison of different alternatives will also be included. The main emphasis will be on business applications although applications in government, natural and social sciences, and economics will also be discussed. Software packages will be used extensively. May not be taken for credit by students who have received credit for BUS 333 or HTM 405, as this is an expansion of those courses with an added lab component to enhance the usage of software packages. Three hours of lecture and two hours of lab. Prerequisites: All lower-division pre-business core, University Computer Competency Requirement, and BUS 304.

HTM 411 (4)
Database Management Systems
Introduction to data modeling, database design, and database administration. Coverage of the relational database model and construction of a database application using a relational database management system. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core and either HTM 304 or MIS 302 with consent of the instructor.

HTM 413 (2)
Management of High Tech Startups
Concepts and activities associated with the management of new ventures in high tech industries including cash management, employee recruiting and evaluation, market analysis and second generation strategies. Prerequisites: All lower-division pre-business core, all Foundations of Business courses and Option Core.

HTM 420 (4)
Service Operations
Focuses on applying concepts of operations management in the service sector. The objectives are to: (a) develop an understanding of the key differences between the service and manufacturing sector; (b) acquire the conceptual and empirical tools for improving performance in the service sector; and (c) foster a constructively critical posture as consumers of services. May not be taken for credit by students who have received credit for SS 450 or HTM 420. Students may not receive credit for both. Prerequisites: All lower-division pre-business core, and either POM 302 or HTM 305.

HTM 423 (2)
Riding the Information Superhighway
Study of the Information Superhighway with an emphasis on hands-on usage of the Internet, and the personal, business, technical, and social implications of the superhighway. May not be taken for credit by students who have received credit for HTM 223 or HTM 490A. Prerequisites: All lower-division pre-business core and completion of University computer competency requirement.

HTM 425 (4)
Systems Analysis and Design
Analysis, design, and implementation of computer-based information systems. Lifecycle and prototyping paradigms will be examined as well as classical structured methodologies and object-oriented methods. Emphasis will be placed on automated tools for system development. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core and either HTM 304 or MIS 302 with consent of instructor.

HTM 426 (4)
Telecommunications for Management
Managers in today's business climate are frequently responsible for their group's telecommunications technology. Introduces students to the telecommunications issues they are likely to encounter as managers. Emphasis will be placed on emerging technologies critical to the development of the information superhighway, including media alternatives, networking, and personal/commercial applications. May not be taken for credit by students who have received credit for HTM 491B. Prerequisites: All lower-division pre-business core and either HTM 304 or MIS 302.

HTM 427 (4)
Multimedia in Business
Modeling and developing business processes using multimedia technologies. Includes introduction of principles and techniques of multimedia technologies, concepts of re-engineering, and design of virtual business. Uses multimedia authoring tools, audio, video, and computer technologies. Students are required to develop a multimedia product. May not be taken for credit by students who have received credit for HTM 491D. Three hours of lecture and two hours of laboratory. Prerequisite: Either MIS 302 or HTM 304.

HTM 440 (2)
Global Operations Management
Survey of global operations management practices and the study of critical issues impacting the subject. Subject matter includes comparison and variation of operations practices, global logistics, global technology transfer, risk management and interface with other functions of the organization. May not be taken for credit by students who have received credit for HTM 490B. Prerequisites: All lower-division pre-business core and completion of the University computer competency requirement, either POM 302 or HTM 306 or consent of instructor.

HTM 481 (1)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 482 (2)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 483 (3)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.
HTM 484 (4)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 485 (4)
Selected Topics in High Technology Management with Lab
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 496 (1-4)
Independent Study in High Technology Management
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

HUMANITIES (HUM)

College of Arts and Sciences

HUM 101 (3)
Introduction to Humanities, I
An introductory survey of culture from a humanistic perspective, with particular emphasis on the Greco-Roman, Judeo-Christian, and West African cultures. Historically structured from earliest times to the Renaissance, the course presents highlights from history, science, philosophy, literature, drama, dance, art, architecture, and music. Appropriate readings and written analysis. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

HUM 102 (3)
Introduction to Humanities, II
An introductory survey of culture from the Renaissance to the present with particular emphasis on Europe, Africa, Asia, and the Americas. Historically structured, the course presents highlights from history, science, philosophy, literature, drama, dance, art, architecture, and music. Appropriate readings and written analysis. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

HUM 300 (3)
The Individual and Community
An exploration through the lens of the humanities of the relationship in European culture between the individual and various communities — social, political, religious, and cultural. An exploration of which the individual was a part. Class materials for analysis may integrate examples from literature, religion, philosophy, history, and the arts.

HUM 301 (3)
The Individual and the State
An exploration through the lens of the humanities of the relationship in European culture between the individual and the state from the Enlightenment to the present. Themes may include patronage of the arts, the relationship of romanticism to nationalism, theories of dissent and individualism, and fascism. Materials for analysis may integrate examples from literature, religion, philosophy, history, and the arts.

INTERDISCIPLINARY STUDIES (ID)

College of Arts and Sciences

ID 170 (3)
Introductory Special Topics in Interdisciplinary Perspectives in the Social Sciences
Explores an introductory interdisciplinary topic in the social sciences. May be repeated for credit as topics change. Students should check the Class Schedule for listing of actual topics.

ID 202 (1)
Pre-Health Service Learning
Designed for the lower-division student planning a career in one of the health professions (e.g., medicine, dentistry, chiropractic, optometry, pharmacy, veterinary medicine). Students will attend regular classroom meetings (one-hour per week) and spend a minimum of two hours per week at a Service-Learning placement. Students will carefully choose a Service-Learning placement that matches their career interests and will enhance the process of developing a career path. Reading, classroom discussion/activities, and written assignments will explore a variety of topics including 1) developing an academic plan, 2) developing alternative career paths and a life-long commitment to serving others, 3) the ethics and politics of health care, 4) an introduction to the professional school application process, and 5) developing writing and interviewing skills necessary for the application process.

ID 301 (3)
Latin America at the Millennium
Interdisciplinary overview of salient issues facing Latin America as we approach the end of the 20th Century. Issues are illustrated with case material from different countries. Draws from social science perspectives, as well as history and Latin American literature. May not be taken for credit by students who have received credit for ID 370D.

ID 304 (3)
African-American Experience I — Myths and Realities
The first in a two-semester sequence of an introduction to the interdisciplinary field of African-American Studies. Using materials and films from the field of archaeology, history, economics, anthropology, gender studies, and literature, students will examine the African-American experience in the Americas. Lectures, readings, films, and discussions will focus on African origins, the disrespect of African history, pre-Columbian contacts between African sailors and the peoples of the Western Hemisphere, and the Atlantic slave trade and systems of slavery in North America, selected Caribbean Islands, and Brazil.

ID 306 (3)
Dilemmas of Modern Mexico
Explores Mexico's economic and political development during the 20th Century. In-depth analysis of the economic and political crisis of the 1980s and responses to the crisis in the 1990s.

ID 340 (3)
Introduction to American Ethnic and Multicultural Studies
An introduction to the cultural and historical background of four groups in America: African Americans, Native Americans, Hispanics, and Asians. Emphasis is on race/ethnic relations and the distinguishing characteristics of these cultures as reflected in the academic disciplines of the creative and performing arts, the humanities, the social and behavioral sciences, and the general area of popular culture. Contributions to "cultural pluralism" are accentuated as well as the special issues of "identity" faced by these Americans.
ID 340B (3)  
Introduction to American Ethnic and Multicultural Studies  
An introduction to the cultural and historical background of four groups in America: African Americans, Native Americans, Hispanic Americans, and Asian Americans. Emphasis is on race/ethnic relations and the distinguishing characteristics of these cultures as reflected in the academic disciplines of the creative and performing arts, the humanities, the social and behavioral sciences, and the general area of popular culture. Contributions to "cultural pluralism" are accentuated, as well as the special issues of "identity" faced by these Americans. Corequisites: EDUC 350B and 364B. Prerequisite: Consent of instructor.

ID 350 (3)  
Topics in Interdisciplinary Perspectives in the Humanities, Social Sciences and/or Sciences  
Explores an interdisciplinary topic from the perspective of at least two disciplines across the boundaries of sciences, social sciences, and humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 360 (3)  
Topics in Interdisciplinary Perspectives in the Humanities  
Explores an interdisciplinary topic in the humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 370 (3)  
Topics in Interdisciplinary Perspectives in the Social Sciences  
Explores an interdisciplinary topic in the social sciences. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 371 (3)  
Ethnic Identity in America  
Explores ethnicity and ethnic identity in American society, focusing on the social factors that help explain its persistence in the face of social science predictions that ethnic distinctions, identity, and distinctiveness would disappear with an increasing urbanization and post-industrial economic order. Four major groups are explored: American Indians, Latinos, Blacks, and Asians (specific groups will be selected).

ID 380 (3)  
Topics in Interdisciplinary Perspectives in the Sciences  
Explores an interdisciplinary topic in the sciences. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 381 (3)  
Natural Science for Teachers  
Provides the prospective K-6 teacher with some background in the nature of scientific inquiry, data interpretation, and fundamental concepts in both physical and life sciences. Based on an inquiry-oriented approach to learning, the content will be equally divided between life and physical science. This course meets four (4) hours per week. Two hours of lecture and two hours of activity. Prerequisites: The Entry-Level Mathematics requirement, Lower-division General Education, and participation in science semester of the Integrated Credential Program.

ID 400 (3)  
Interdisciplinary Perspectives in Literacy  
Focuses on the multi-dimensional nature of literacy: linguistic (systems of language and their interaction in written discourse); cognitive (psychological strategies and processes used to make meaning through written discourse); sociocultural (ways individuals use literacy to mediate their interactions with their society, culture, and discipline); developmental (the manner in which the linguistic, cognitive, and sociocultural aspects of literacy are learned); and educational (issues related to the teaching of literacy in school settings). Also offered as LING 400. Students may not receive credit for both.

ID 410 (3)  
Militants and Activists: Movements for Social Change  
Interdisciplinary exploration of how ordinary citizens create social change by organizing and participating in collective action. When, why, and how do ordinary citizens become activists and militants? Why and how do social movements succeed or fail? Presents theories of collective action and social change, and explores case studies of social movements and other social protests through the lenses of multiple disciplines. Case studies may be drawn from any region in the world.

ID 450 (3)  
The U.S.-Mexico Border  
Focus on the economic, social, and cultural geography of integration between the United States and Mexico in the border region. Overview of the U.S.-Mexico border as a whole as well as examination of selected border cities, industry and agriculture, the environment, labor, immigration, politics, and other issues. Also offered as GEOG 450. Students may not receive credit for both. May not be taken for credit by students who have received credit for ID 450S.

ID 450S (3)  
La Frontera Mexico-Estados Unidos  
Focus on the economic, social, and cultural geography of integration between the United States and Mexico in the border region. Overview of the U.S.-Mexico border as a whole as well as examination of selected border cities, industry and agriculture, the environment, labor, immigration, politics, and other issues. Also offered as GEOG 450S. Students may not receive credit for both. Offered in Spanish. May be taken for credit in the Spanish major Language and Culture Track. May not be taken for credit for students who have received credit for ID 450.

ID 498A (1) 498B (2) 498C (3)  
Interdisciplinary Library Research in the Natural Sciences  
In-depth reading and researching of the literature on current interdisciplinary issues in the sciences. The student must develop an independent study project in consultation with a primary research advisor from biology, chemistry, physics, or psychology and a secondary research advisor from a second discipline. The student must write a research paper (approximately 10-20 pages) summarizing the current knowledge of the subject. The paper should include a list of literature citations in the accepted format for the primary field. An independent study contract must be completed and signed by both primary and secondary research advisors by the end of the second week of classes. Prerequisite: At least one course in the primary subject area with a grade of B or better and consent of both instructors.

ID 499A (1) 499B (2) 499C (3)  
Interdisciplinary Laboratory Research in the Natural Sciences  
An original research project involving interdisciplinary research in the sciences. The student must develop an independent research project in consultation with a primary research advisor from biology, chemistry, physics, or psychology and a secondary research advisor from a second discipline. The student must write research paper (approximately 10-12 pages) summarizing the current knowledge of the research problem, the goal of the research project, the experimental methods used, the results, and how the results forward the current state of knowledge in the field. The paper should include a list of literature citations in the accepted format for the primary field. An independent study contract must be completed and signed by both primary and secondary research advisors by the end of the second week of classes. Prerequisite: At least one laboratory course in the primary subject area with a B or better and consent of both instructors.
INTERNATIONAL PROGRAM (IP)

University-wide

IP 250 (1-12)
Projects in Study Abroad
Open to students enrolled in California State University International Programs and CSUSM Exchange Programs. Study undertaken in a university abroad under the auspices of the California State University. Prerequisite: Consent of Program Director.

IP 450 (1-12)
Projects in Study Abroad
Open to students enrolled in California State University International Programs and CSUSM Exchange Programs. Study undertaken in a university abroad under the auspices of the California State University. Prerequisite: Consent of Program Director.

IP 500 (1-12)
Projects in Study Abroad
Open to students enrolled in California State University International Programs and CSUSM Exchange Programs. Study undertaken in a university abroad under the auspices of the California State University. Prerequisite: Consent of Program Director.

JAPANESE (JAPN)

College of Arts and Sciences

Note: The World Languages and Hispanic Literatures Department currently offers lower-division courses in Japanese on a regular basis, and will offer upper-division courses on an individual basis. Students are urged to consult the Class Schedule for offerings.

JAPN 101A (4)
Beginning Japanese I (Traditional)
A traditionally taught class focusing on fundamentals of Japanese. Designed to develop basic ability in pronunciation, reading, conversation and grammatical structures. Assumes no prior knowledge of Japanese. May not be taken for credit by students who have received credit for JAPN 101B. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

JAPN 101B (4)
Beginning Japanese I (Multimedia)
Focuses on the fundamentals of Japanese. Designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures. Students will receive instruction both through lectures and through self-paced language laboratory activities utilizing multimedia. Assumes no prior knowledge of Japanese. May not be taken for credit by students who have received credit for JAPN 101A.

JAPN 102A (4)
Beginning Japanese II (Traditional)
A traditionally taught course which serves as the continuation of JAPN 101 (A or B). Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. Prerequisite: JAPN 101A or 101B, or equivalent. May not be taken by students who have received credit for JAPN 102B. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

JAPN 102B (4)
Beginning Japanese II (Multimedia)
Continuation of JAPN 101A or 101B. Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. Students will receive instruction both through lectures and through self-paced language laboratory activities using multimedia. May not be taken for credit by students who have received credit for JAPN 102A. Prerequisite: JAPN 101A or 101B, or equivalent.

JAPN 201 (4)
Intermediate Japanese I
Continuation of Japanese language fundamentals. Emphasis on the development of the skills of reading, comprehension, speaking, and writing and study of Japanese culture. Conducted in Japanese. Prerequisite: JAPN 102A or 102B or equivalent.

JAPN 202 (4)
Intermediate Japanese II
Continuation of JAPN 201. Further development of the four skills, with an emphasis on reading, composition, communication, culture, and review of grammatical structures. Conducted in Japanese. Prerequisite: JAPN 201 or equivalent. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

JAPN 301 (3)
Advanced Japanese I

JAPN 302 (3)
Advanced Japanese II
Further development of increased mastery of modern spoken and written Japanese. Emphasis on vocabulary building, comprehension, grammatical patterns, and idiomatic usage. Conducted in Japanese. Prerequisite: JAPN 301 or equivalent.

JAPN 400 (3)
The Structure of Japanese
Study of grammatical, phonetic and linguistic patterns and structures in modern Japanese, based on advanced proficiency. Conducted in Japanese. Prerequisite: JAPN 302 or equivalent.

JAPN 409 (1-3)
Selected Topics in Japanese
Selected topics related to advanced study of Japanese language, literature or culture. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: Consent of instructor and advanced proficiency equal to that attained in JAPN 400.

LIBERAL STUDIES (LBST)

College of Arts and Sciences

LBST 300 (3)
Perspectives in Liberal Studies
Exploration of specific topics in Liberal Studies from diverse interdisciplinary perspectives. Analysis of topics/issues is described in specific course titles. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

LBST 301 (3)
Connecting Disciplines and Crossing Borders
Examines the relation between and among branches of knowledge in the social sciences, humanities, and sciences. Students will understand how disciplines overlap at their margins. Designed to help students increase their awareness of contemporary issues and scientific discoveries, while increasing their ability to communicate clearly and think critically. Provides a rationale for an interdisciplinary understanding of knowledge and its practical applications across disciplines. Scholarly and everyday concepts will be understood as they are derived from social processes. The process of development and emergence of new scientific paradigms will be examined. May not be taken for credit by students who have received credit for LBST 300F.

LBST 307 (3)
Children and the Environment
Provides an interdisciplinary exploration of the environment and children. Students will engage in cross-disciplinary exploration of children's rights, the development of children, childhood and socioeconomic conditions in developed and developing countries, the particular environmental health issues facing children, planning and sustainability, and children's relation to wild and urban areas. Particularly useful for students who are parents, or who plan to be parents, and for those who wish to work as teachers, or with children in other professions. May not be taken for credit by students who have received credit for ID 370H.
SCIENCE

The Social Construction of Science

Explores the field of social construction of science, a true interdisciplinary area of investigation, historically built from existing perspectives in the social sciences (predominantly sociology, but also anthropology, social-linguistics, history, and philosophy). Introduces students to the basic theoretical concepts required for the analysis of science as a social phenomenon, its internal and external constructions, and its practice. The application of the basic tools and key concepts in the course will be accomplished through a focused exercise that explores one specific area of science such as the human genome project or distributed information systems. May not be taken for credit by students who have received credit for ID 370A.

The Social Construction of Science

Explores the field of social construction of science, an interdisciplinary area of investigation, built from existing perspectives in the social sciences (predominantly sociology, but also anthropology, social-linguistics, history, and philosophy). Introduces students to the basic theoretical concepts required for understanding the social situation of science and its contributions to the social world. Introduces students to the analysis of science as a social phenomenon, its internal and external constructions, and its practices. It will be in science that is reflected in the development of social policy. The application of the basic tools and key concepts in the course will be accomplished through a focused exercise that explores one specific area of science such as information technologies. Prerequisites: EDMS 545B and ID 381. Prerequisite: Consent of Department Chair.

Technology and Social Change

Explores the impact technology has on our everyday life. The goal is to understand the complex, hidden relationships between science, technology, and culture. Examines how perceived problems in the world are viewed by particular disciplines. Each perspective provides a particular characterization of the problem, which (a) shapes the kinds of solutions, and (b) directs the kinds of technology that can be used to solve the problem. The application of technology then alters how the problem is viewed and reinterpreted. May not be taken for credit by students who have received credit for ID 370B.

Urban Change and Ethnicity

Focuses on key immigrant-receiving metropolitan areas in the U.S. Discusses relationship between the restructuring of those urban economies and employment/settlement patterns of immigrants. Focuses on urbanization during two waves of immigration to America since the 1880s: 1) first wave dominated by Europeans from southern, eastern, and central Europe who arrived between 1890 and 1920, and 2) second wave dating from 1965, comprised largely of immigrants from the Western Hemisphere and Asia. A further concern is comparative urban studies: 1) how urban development was differentially shaped over time by the two waves of immigration, and 2) how the urban economies themselves shaped immigrant adaptation.

Internship for Liberal Studies

Faculty-sponsored academic internship in community service or education. Prerequisites: Consent of instructor. May be repeated for a maximum of nine (9) units.

Independent Study

Intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved and supervised by a faculty member in the Liberal Studies program. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

Independent Research

Designed for students with demonstrated capacity for independent research in collaboration with a faculty member in the Liberal Studies program. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

Integrated Program Capstone Seminar

Students demonstrate mastery of the integration of content and pedagogy. Accompanies the required nine (9) units of student teaching during the final semester of the Integrated Bachelor of Arts and Multiple Subject Credential Program. Provides an academic framework for guiding the integration of content and pedagogy that students will be implementing in their classrooms as student teachers. Also offered as EDMS 575. Students may not receive credit for both. Graded Credit/No Credit. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Department Chair.

LINGUISTICS (LING)

College of Arts and Sciences

English Linguistics for Non-native Speakers of English

A linguistic examination of the sounds, grammar, use, and acquisition of language for non-native speakers of English. Course content focuses on problem areas in the acquisition of English as a second language and is directed toward students understanding their own patterns of English usage. Prerequisite: Consent of instructor.

English Linguistics

An examination of the sound and grammar of English, its organization, and use; the production of English sounds and their systematic organization; word and sentence structure; the study of meaning in relation to context and social use; language acquisition; and the variation of English according to culture, region, social group, gender, and age.

Linguistic Analysis of American Sign Language

The linguistic study of American Sign Language in comparison to other manual languages. Subject matter includes the phonology, syntax, and morphology of ASL. The relationship between the social structure and the culture of the deaf community and the use of ASL will be examined. May not be taken for credit by students who have received credit for LING 350B. Prerequisite: ASL III with a grade of C or better, or LING 371 with a grade of C or better, or LING 300 with a grade of C or better.

Interdisciplinary Topics in Linguistics

Explores a topic from the point of view of linguistics and at least one other discipline. Students should check the Class Schedule for listing of actual topics. Recommended: LING 300. May be repeated for credit as topics change for a total of six (6) units.

Language Structures

The study of the sound, meaning, and syntax of a selected language other than English. The relationship between the social structure and culture of the speech community and the use of the language. May be repeated for credit as language changes. Prerequisite: LING 300.
LITERATURE AND WRITING STUDIES (LTWR)

College of Arts and Sciences

LTWR 050 (3)
Basic Writing Skills
Instruction and supervised practice in fundamental problems of writing. Intended primarily for students who receive an SP in GEW 101 and who need more elementary composition work. Note: LTWR 050 does not count toward any graduation requirement to be completed at CSUSM. It is counted in determining financial aid and VA benefits. This course is not applicable to the requirements of a baccalaureate degree. Concurrent enrollment in LTWR 051 may be required. All students enrolling in LTWR 050 must have taken the CSU English Placement Test.

LTWR 100 (3)
Introduction to Literature
An inquiry into the basic nature of literature. Questions raised in this course may include: What prompts the creation of imaginative literature? What purpose does literature serve in the cultural life of a community? What are its social philosophical, spiritual, and aesthetic values? Some consideration may be given to techniques and major critical theories, but the focus will be on critical reading for the nonspecialist. Specific works studied will be representative of several genres, cultures, and periods of literature.

LTWR 115 (3)
Critical Reading and Writing
Critical thinking through reading and written analysis of various genres of writing. Special attention to the use of metaphorical language, the function and meaning of symbols, the structure of arguments, the use of logic, and value of imaginative writing particularly in relationship to ethical and moral questions. Development of skills in research methods, documentation, biographical research, questions of authorship, problems of establishing accurate texts, bibliography, editing of texts, and the general profession of literary studies. Long and short research assignments, reports, written examinations will require analysis rooted in questions of race, class, and gender. Prerequisite: GEW 101 or equivalent.

LTWR 200 (3)
Research Methods in English
Introduction to research methods, documentation, biographical research, questions of authorship, problems of establishing accurate texts, historical bibliography, editing of texts, and the general profession of literary studies. Research assignments, reports, written examinations. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

LTWR 206A (3)
Introduction to World Literature I
An introduction to world literatures from antiquity to the 16th Century. Critical analyses of literary works from each of these areas of the globe. Studies of selected texts to include novels, poetry, or plays. Survey of the literature to examine various writers and their influence on the cultural/intellectual life of a particular country, together with their contributions to the advancement of literature and/or important literary movements. Students should take LTWR 206B following LTWR 206A.

LTWR 206B (3)
Introduction to World Literature II
An introduction to world literatures from the 17th Century to the present. Critical analyses of literary works from various areas of the globe. Studies of selected texts to include novels, poetry, or plays. Survey of the literature to examine various writers and their influence on the cultural/intellectual life of a particular country, together with their contributions to the advancement of literature and/or important literary movements. Students should take LTWR 206B following LTWR 206A.

LTWR 210 (3)
Introduction to Global Literature
Survey examining literatures from various parts and cultures of the globe, such as Europe, Asia, North and South America, Africa, and the like. Introduction to literary analysis of global texts.

LTWR 225 (3)
Introduction to Creative Writing
Beginner's workshop for students interested in writing fiction, poetry, and drama.

LTWR 300A (3)
History and Practice of Literary Commentary I
Survey of literary criticism from the Classical Period to New Criticism. Student writing will be based on critical practices: methods of reading; modes of interdisciplinary analysis and argumentation; debates on questions of theory, history, and textual scholarship. May not be taken for credit by students who received credit for LTWR 300. Students should take 300B following 300A.

LTWR 300B (3)
History and Practice of Literary Commentary II
Survey of current trends in critical theory: Feminism, Marxism, Poststructuralism, Psychoanalysis, and Cultural Studies. Student writing will be based on critical practices: methods of reading; modes of interdisciplinary analysis and argumentation; recent debates on questions of theory, history, and textual scholarship. May not be taken for credit by students who received credit for LTWR 300. It is recommended that students complete LTWR 300A before enrolling in LTWR 300B.
LTWR 301 (3)  
Topics in Writing  
Selected topics in the writing field. May be repeated for credit as topics change for a total of six (6) units.

LTWR 302 (3)  
Topics in Literature  
Selected topics in literature. May be repeated for credit as topics change for a total of six (6) units.

LTWR 305 (3)  
Forms of Written Discourse  
A review of current rhetorical and discourse theories. The course will also examine recent developments in text linguistics. Students will write several discourse types and explore differences among the types, with special attention to differences for the writing process and for the structure of the written discourse itself.

LTWR 308A (3)  
English Literature I  
Survey of literature and culture of England from the fall of Rome to 1660. May not be taken by students who have received credit for LTWR 410C.

LTWR 308B (3)  
English Literature II  
Survey of literature and culture of England from the Restoration to the present. May not be taken for credit by students who have received credit for LTWR 410D. It is recommended that students complete LTWR 308A before enrolling in LTWR 308B.

LTWR 309A (3)  
United States Literature I  
Survey of literature and culture of the United States from the Colonial Period to American Romanticism. May not be taken for credit by students who have received credit for LTWR 410A.

LTWR 309B (3)  
United States Literature II  
Survey of literature and culture of the United States from Realism to the present. May not be taken for credit by students who have received credit for LTWR 410B. It is recommended that students complete LTWR 309A before enrolling in LTWR 309B.

LTWR 310 (3)  
Folklore and Mythology  
Study of folk traditions and mythology as reflections and expressions of distinctive cultures as well as the general human condition. Subject matter may deal with issues such as mythic theory, the uses of myth in various literary genres, or the themes and forms of orally transmitted literature. Only six (6) units of credit may be applied toward the major.

LTWR 315 (3)  
Nonfiction Prose Workshops  
A workshop for students interested in practicing writing in the professions, reportage, critical or general nonfiction prose. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 316 (3)  
Student Newspaper  
A workshop for students interested in practicing writing and reportage. Students will meet for one (1) hour of classroom lecture and participate in four (4) hours of journalism activities, including but not limited to, the school newspaper. May be repeated for a total of nine (9) units of credit. Also offered as COMM 316. Students may not receive credit for both. Prerequisite: GEW 101.

LTWR 317 (3)  
Technical Writing  
A workshop for students interested in practicing writing in the professions.

LTWR 318 (3)  
Small Press Publishing  
Practical training in manuscript soliciting, editing, publishing, and distributing. Critical examination of various small presses. May not be taken for credit by students who received credit for LTWR 301A.

LTWR 320 (3)  
Sacred Texts  
Study of selected texts drawn from the world's religious traditions — Christian, Jewish, Buddhist, Hindu, Taoist, and Confucian. Emphasis will be on the intrinsic literary interest of these texts as well as their thematic impact on other genres. Only six (6) units of credit may be applied toward the major.

LTWR 325 (3)  
Creative Writing Workshop  
A workshop for students interested in writing fiction, poetry, drama, and the like. Only six (6) units of credit may be applied toward the major.

LTWR 330 (3)  
Poetry  
Studies various genres and/or forms of poetry such as modern American women's poetry, lyric poetry, epic poetry and more. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 331 (3)  
Fiction  
Studies various genres and/or forms of fiction such as short stories, novels, detective fiction and more. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 332 (3)  
Non-Fiction  
Studies various genres and/or forms of non-fiction such as biography, autobiography, essays, travel writing, and more. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 333 (3)  
Drama  
Studies various genres and/or forms of drama such as tragedy, comedy, theater of the absurd, and more. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 334 (3)  
Film  
Studies various genres, forms, and/or directors of film such as Westerns, women in film, Asian film, and the films of Woody Allen. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 336 (3)  
Film and Other Genres  
Studies various genres and/or forms of film in relationship to other arts or texts such as Japanese literature and film, E.M. Forster into film, Shakespeare into film, postmodern film and fiction, health issues in film and more. Only six (6) units of credit may be applied toward the major. May not be taken for credit by students who have received credit for LTWR 335.

LTWR 337 (3)  
American Film and politics  
A cross-disciplinary examination of the integral role of politics in both the making and messages of American film. Explores the impact of politics on American filmmaking through such issues as censorship, the Hollywood "blacklist," and the significance of independent filmmaking. Also studies the use of film to convey political messages and influence public opinion such matters as patriotism, pacifism, and racial/ethnic relations. Both mainstream and independent films will be addressed, and literature from the humanities and the social sciences will be incorporated. May not be taken for credit by students who have received credit for LTWR 336 and PSCI 419B. May be taken for credit as an elective course for the PSCI major (within the U.S. Government and Politics field) and the PSCI Minor.

LTWR 400 (3)  
Author Studies  
Critical analysis of the major works of one or two authors in any historical period or geographical location, with attention to biography, culture, and literary background. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 402 (3)  
Studies in Shakespeare  
Study of the writings of Shakespeare. Critical analysis of Shakespeare's major plays, which might include emphasis on Shakespeare and the Human Condition; Shakespeare's Comic Vision; the Tragic Vision of Shakespeare; the Historical Plays — or a combination of plays, poems and variant themes. Students should refer to the Class Schedule for specific course content.
LTWR 405 (3)  
History of Writing and Literacy  
A review of the history of the development of alphabets and writing systems. Survey of the rise of literacy since the fifteenth century and analysis of the continuing literacy problem in developed and developing countries.

LTWR 410 (3)  
Global Literature I  
Survey to examine the literature(s) from a particular culture or area of the globe. Analysis of ways in which literature reflects and expresses culture. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 420 (3)  
Global Literature II  
Survey to compare literatures from various parts of the globe. Analysis of ways in which literatures reflect and express similarities and differences among cultures. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 430 (3)  
Major Periods and Movements  
Approaches to literature or literary ideas by locating them within a specific historical context or a literary background. Students should refer to the Class Schedule for specific course content. Only six (6) units of credit may be applied toward the major.

LTWR 441(3)  
Literature and Other Arts and Disciplines  
Comparative study of literature and other arts or other academic disciplines such as anthropology, science, philosophy, or psychology. Only six (6) units of credit may be applied toward the major. May not be taken for credit by students who have received credit for LTWR 440.

LTWR 450 (3)  
Multicultural American Literature  
Comparison of various ethnic American discourses such as African American, Chinese American, Jewish American, Latino/a American, Japanese American, Native American, Italian American, and Vietnamese American. Includes analysis of a variety of different genres ranging from autobiography to novel to poetry, and examines texts through thematic and/or historical frameworks in order to view them as products of varying cultural and historical circumstances. Questions notions of "American identity" and the "American canon."

LTWR 460 (3)  
Theories, Methods, and Themes in Cultural Studies  
Readings in some of the major conceptual texts that have framed work in cultural studies, with particular emphasis on those drawn from critical theory, studies in colonialism, cultural anthropology, feminism, semiotics, gay/lesbian studies, and historicism. Examination of literature among other cultural artifacts in a variety of social contexts and from a number of theoretical and historical perspectives. May not be taken for credit by students who have received credit for LTWR 510. Prerequisite: LTWR 300A or 300B.

LTWR 465 (3)  
Theory and Practice of K-12 Writing Instruction  
Introduction to current theory and practice of teaching writing in K-12. Special attention to advanced critical reading and writing skills. May not be taken for credit by students who have received credit for LTWR 505.

LTWR 475 (3)  
The Writing Process  
A workshop in advanced expository writing as a creative process. Current research on creativity and the writing process will also be discussed. May not be taken for credit by students who have received credit for LTWR 515.

LTWR 485 (3)  
Collaborative Writing and Theory  
Critical examination of the theory and practice of writing texts with other peoples. May include special training in feminist collaborative theory, collaborative software, business applications, and the like. May not be taken for credit by students who have received credit for LTWR 535.

LTWR 490 (3)  
Senior Seminar  
Research and writing for a variety of special topics, including the works of single authors, genre studies, problems of literary history, relations between literature and the history of ideas, literary criticism, literature and society, and the like. Intended for students wishing to pursue graduate study. May not be taken for credit by students who have received credit for LTWR 500.

LTWR 499A (1) LTWR 499B (3) LTWR 499C (3) LTWR 499D (4) LTWR 499E (5) LTWR 499F (6)  
Internship  
Supervised experience teaching writing at the K-12 or college level or work experience in public agencies and private industries that provide opportunities to develop professional writing skills. Students working in CSUSM's Writing Center should enroll for credit. No more than three (3) units may be applied toward the major. May be repeated for a total of six (6) units of credit. All internships are graded Credit/No Credit except CSUSM's Writing Center. Prerequisite: Consent of instructor.

LTWR 499A (1) LTWR 499B (3) LTWR 499C (3) LTWR 499D (4) LTWR 499E (5) LTWR 499F (6)  
Supervised Independent Study  
Independent study deals with a special interest not covered in a regular course or with exploration in greater depth of a subject introduced in a regular course. Discussion in individual conferences. May be repeated for a total of six (6) units of credit. Graded Credit/No Credit. Prerequisite: Consent of instructor. Note: This course cannot be substituted for other courses in the major without petition approval by the Literature and Writing Studies Curriculum Committee.

LTWR 503  
Literary Period or Movement (3)  
Advanced, historically oriented study of a literary period such as the Renaissance, or a movement such as Post Modernism. Students must refer to the Class Schedule for specific course content. May be repeated for a total of six (6) units with new course content. May not be taken for credit by students who have received credit for LTWR 603. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 504  
Advanced Author Studies (3)  
Advanced critical study of a major author or authors such as Shakespeare, Dickinson, Proust, Morrison, Gordimer, or Murasaki. Special attention will be given to the cultural production of the text(s) as well as the historical reception of the author. Students must refer to the Class Schedule for specific course content. May be repeated for a total of six (6) units with new course content. May not be taken for credit by students who have received credit for LTWR 604. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 509 (3)  
Classical Rhetoric  
A close study of Classical Rhetoric. Examines the relationships between discourse and knowledge, communication and its effects, language and experience. Explores the possibilities for understanding the nature of persuasive discourse: purpose, audience, composition, argumentation, organization, and style. Selected major works on rhetoric, from antiquity to the 19th Century. Relationship between the rhetorical tradition and modern approaches to the teaching of writing and literature. May not be taken for credit by students who have received credit for LTWR 608. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.
LTWR 511 (3) Literature in Translation
Study of select literary texts and literary criticism written in languages other than English. Students will study texts in the original language and compare them to their English translation(s) with a focus on idiom, style, grammar and argumentative detail. Includes a survey of translation theory. Requires good (i.e., equivalent of third-year instruction) reading knowledge of a foreign language. Completion with a grade of B or better satisfies the Language Other than English Requirement for graduate students in Literature and Writing Studies. May be repeated for a maximum of six (6) units. May not be taken for credit by students who have received credit for LTWR 611. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 512 (3) Modern Rhetoric
A close study of 20th Century rhetoric: composition, theory, reading theory, psycho­linguistics, sociolinguistics, language philosophy, and literary theory. Relationship between rhetorical theory and modern approach to the study and pedagogy of writing and literature. May not be taken for credit by students who have received credit for LTWR 610. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 525 (3) Theory and Practice of College Writing Instruction
Wide reading in current theory and practice of teaching writing at the university level. Exploration of the implications for writing instruction of current discourse theory and linguistics (sentence-level and text-level). Review research on writing and instruction and examination of models of classroom and individual conferencing. Students will also tutor in the University Writing Center. Prerequisite: Consent of instructor. LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 545 (3) Advanced Creative Writing
For students who wish to increase their skills in the writing of fiction and poetry. The content of each semester will be determined by the instructor and may include short stories, poetry, novel, play or screenwriting. May be repeated for a total of six (6) units of credit with new course content. Prerequisite: LTWR 325 or equivalent experience in creative writing. LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 601 (3) Literary Study in a Multicultural World
Relationship of literature to gender, race, class, and nationality. Changing conceptions of literary canons. Exploration, through literary texts, of values in literature and the constituents of literary value.

LTWR 602 (3) Rhetorical Theory and Practice
Exploration of the chronological and disciplinary scope of rhetorical study. From classical times to the present. Includes works of relevance not only to composition studies, but also to literature, speech communication, philosophy, and the theoretical branches of other humanistic disciplines that have become increasingly interested in rhetorical processes. Focuses on the pedagogy of composition. May be repeated for a total of twelve (12) units of credit. Only six (6) units may be counted toward the master's degree. Students who teach in G EW 101 or LTWR 050 must register for LTWR 602 every time they teach. Prerequisites: Students must be accepted into the LTWR Master's program, have completed the "GEW Teaching Exam," and obtained consent of instructor.

LTWR 605 (3) Seminar in Thematic Studies
Study of a thematic motif over time or across cultures, for example alienation and exile, cultural taboo, colonial discourse, or the representation of criminality. May also address studies such as the nature of the hero and aspects of love or death. Students must refer to the Class Schedule for specific course content. May be repeated for a total of six (6) units with new course content.

LTWR 606 (3) Seminar in Genre Studies
An examination of one or more genres, for example satire, utopian fiction, autobiography, travel narrative, landscape poetry, the essay, film. Students must refer to the Class Schedule for specific course content. May be repeated for a total of six (6) units of credit with new course content.

LTWR 607 (3) Seminar in Comparative Studies
Comparison of theoretical and literary representations across cultures (e.g., East-West studies), across modes of discourse (e.g., oral/written), or across media (e.g., literature/art or literature/music). Students must refer to the Class Schedule for specific course content. May be repeated for a total of six (6) units with new course content.

LTWR 608 (3) Seminar in Critical and Theoretical Studies
Close study of one or several bodies of critical theory currently applied to literary studies: psychoanalytic, feminist, Marxist, new-historical, post-structuralist. Emphasis will be on terminology; methods of reading; modes of interdisciplinary analysis and interpretation; and recent debates on questions of theory, history, and culture.
MATH 051 (4) Entry Level Mathematics
Algebra: Operations with numbers, polynomials, rational expressions, powers and roots; solutions of equations and inequalities; graphs and functions. Geometry: perimeter and area; circles; volume; angles in the plane; special triangles; congruence and similarity; coordinate geometry; midpoint and distance formulas. Finite mathematics: data interpretation; counting principles; probability; statistics. Note: MATH 051 does not count toward any graduation requirement to be completed at CSUSB, but it is counted in determining financial aid and VA benefits. A grade of C or better fulfills the Entry Level Mathematics (ELM) requirement. Prerequisites: Highest ELM score between 480 and 540 inclusive, or a highest ELM score below 480 and completion of a college beginning algebra course with a minimum grade of C. Students that have not satisfied the ELM requirement may not enroll.

MATH 051S (3) Self-paced Entry Level Mathematics
Algebra: Operations with numbers, polynomials, rational expressions, powers and roots; solutions of equations and inequalities; graphs and functions. Geometry: perimeter and area circles; volume; angles in the plane; special triangles; congruence and similarity; coordinate geometry; midpoint and distance formulas. Finite mathematics: data interpretation, counting, probability, and statistics. Graded Credit/No credit. Note: MATH 051S does not count toward any graduation requirement to be completed at CSUSB, but it is counted in determining financial aid and VA benefits. A grade of credit fulfills the Entry Level Mathematics (ELM) requirement. Prerequisites: Highest ELM score between 460 and 540 inclusive, or a highest ELM score below 480 and completion of a college beginning algebra class with a minimum grade of C. Students that have not satisfied the ELM requirement or that have received a grade of No Credit in MATH 051S may not enroll.

MATH 110 (3) Critical Thinking
Critical thinking in decision-making. Formal and informal fallacies of language and thought; the often unreliable guide of common-sense reasoning; analysis and criticism of ideas; distinction between fact and judgment, belief and knowledge; inductive and deductive arguments, effective techniques of decision-making. Students will learn critical thinking skills to apply to common issues of everyday life.

MATH 115 (3) College Algebra
Equations and inequalities, functions, graphs, polynomials, exponential and logarithmic functions, conics, sequences and series, counting principles, binomial theorem, and systems of linear equations. Students preparing to take MATH 160 should take MATH 125 instead of this course. May not be taken for credit by students who have received credit for MATH 120. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 125 (4) Pre-Calculus
Designed for students preparing to take MATH 160. Equations and inequalities, functions, graphs, polynomial and rational functions, trigonometric functions, exponential and logarithmic functions, systems of linear equations, conics, sequences and series, and the binomial theorem. May not be taken for credit by students who have received credit for MATH 115. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 130 (3) Finite Mathematics for Business
Sets, permutations, combinations, probability, linear equations and inequalities, matrices, linear geometry, linear programming. Credit may not be counted toward the mathematics major. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

MATH 131 (2) Modeling with Algebra
A bridge course from Entry Level Mathematics to Survey of Calculus (MATH 132). Polynomial, exponential and logarithmic functions, and their use in modeling; general modeling considerations; linear models; applications to business and economics. Includes use of graphing calculators. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 132 (3) Survey of Calculus
Basic calculus concepts with applications to business, economics, and the social sciences. Differential calculus for algebraic, exponential and logarithmic functions; optimization, linearization, and other applications of derivatives; introduction to integral calculus. Includes use of graphing calculators. Prerequisite: MATH 115 or 131.

MATH 160 (5) Calculus with Applications, I
Differential and integral calculus of functions of one variable: analytic geometry, limits, continuity, derivatives, analysis of curves, integrals, applications; algebraic, trigonometric, logarithmic, and exponential functions, historical perspectives. Includes a laboratory experience using either computers or graphics calculators. Prerequisite: A strong background in high school mathematics (Algebra I and II, Geometry, and Trigonometry) or MATH 125 with a minimum grade of C.

MATH 162 (4) Calculus with Applications, II
A continuation of differential and integral calculus: inverse trigonometric and hyperbolic functions, integration methods, indeterminate forms, coordinate systems, planes and lines in space, sequences and series, applications, historical perspectives. Includes a laboratory experience using either computers or graphics calculators. Prerequisite: MATH 160 (or equivalent) with a grade of C or better.

MATH 210 (3) Mathematics for Elementary Teaching, I
Designed to reinforce mathematical concepts for those teaching in the elementary grades. Emphasis on numeric concepts: sets, logic, counting numbers, integers, rational numbers, real numbers, some number theory, measurement and estimation, appropriate use of technology; historical/cultural perspectives. Credit may not be counted toward the mathematics major. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 212 (3) Mathematics for Elementary Teaching, II
Designed to reinforce mathematical concepts for those teaching in the elementary grades. Emphasis on geometric concepts in two- and three-dimensional space; points, lines, planes, curves, triangles, convex figures, parallelism, congruence, similarity, symmetry, perimeter, area, volume; networks and graphs; some elementary probability and statistics; problem-solving strategies; appropriate use of technology; historical/cultural perspectives. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 with a grade of C or better, or consent of instructor.

MATH 240 (3) Introduction to Biostatistics
Introduction to statistics in the biological sciences. Descriptive statistics, probability, random variables, discrete and continuous distributions, confidence intervals, tests of hypothesis, description of biological data, genetics, population growth curve fitting. Combines theoretical ideas with hands-on experience using appropriate computer software packages. This course meets four hours per week. May not be taken by students who have received credit for BIOL 360. Prerequisite: MATH 115 or equivalent.
MATH 242 (3)  Probability Modeling and Statistical Inference
Random experiments, sample spaces, probability axioms, uniform models, counting arguments, random variables, expectation, variance, conditional probability, independence, standard random variables, expectation, use of limit theorems. Treatment of both discrete and continuous probability with the emphasis placed on discrete models. Simple linear regression. Applications to include topics such as random walks and random sample. Combines theoretical ideas with hands-on experience using appropriate computer software packages. This course meets for four hours per week. Credit may not be counted toward the mathematics major. Prerequisite: MATH 160.

MATH 260 (4)  Calculus with Applications, III
Differential and integral calculus of functions of several variables: three dimensional analytic geometry, vector calculus, partial derivatives, multiple integrals, line integrals, applications, historical perspectives. Includes a computer laboratory experience. Prerequisite: MATH 162 (or equivalent) with a grade of C or better.

MATH 262 (3)  Introduction to Differential Equations
Models involving first-order equations, higher-order linear equations, systems of equations, numerical methods and applications. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Prerequisite: MATH 162 with a grade of C or better. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

MATH 264 (3)  Introduction to Linear Algebra
Matrix algebra, systems of linear equations, vector spaces, independence, linear transformations, eigenvalues and eigenvectors, applications. Prerequisite: MATH 115. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

MATH 303 (3)  Themes for Society
Descriptive overviews of selected areas of mathematics which play a visible role in the modern world. Topics include management science and operations research, political science, statistics, computer science, biology, and some late 20th Century advancements in pure mathematics. Credit may not be counted toward the mathematics major. Prerequisite: Completion of the lower-division General Education requirement in Mathematics/Quantitative Reasoning.

MATH 304 (3)  Women and Mathematics
Examination of the social phenomena that have led to the small number of women in the mathematical profession. Exploration of the controversy concerning research on the comparative mathematical ability of boys and girls. Study of the lives, times, and works of women mathematicians. Prerequisite: Completion of the lower-division General Education requirement in Mathematics/Quantitative Reasoning.

MATH 306 (3)  Statistical Vignettes
Basic statistics and practical applications from the perspective of users in real situations. Includes language and terminology, distributions, sampling, tests of significance, computerization of standard techniques, issues on uses and abuses of statistics, statistics in the social sciences, statistics in the business world. May be repeated for credit as topics change for a total of six (6) units. Credit may not be counted toward the mathematics major. Prerequisite: MATH 115.

MATH 308 (3)  Non-Statistical Mathematics in the Social Sciences
Themes involving applications of mathematics in the social sciences such as: proportional representation, voting rules and aggregation of individual preferences, spatial models of election competition, power in weighted voting systems, power indices in politics, balance theory and social inequalities, measurement theory, game theory, static models of animal dominance, rumor and information networks. May not be taken for credit by students who have received credit for MATH 404. Prerequisite: MATH 115 or 131.

MATH 311 (3)  Mathematics for K-8 Teaching
Builds on MATH 210 and refines both procedural and conceptual understanding of mathematical subjects emphasized in elementary teaching, such as mathematical reasoning, number sense, statistics, data analysis, probability, measurement, geometry, algebra, functions, and applications in accordance with content-based standards for grades K-8. Requires occasional use of interactive mathematical software to reinforce concepts. Credit may not be counted toward the mathematics major. Prerequisites: MATH 210 or equivalent, and one of the following: MATH 115, 125, 212, or GEM 100. Admission to a Semester 3 cohort enrollment of the Integrated Credential Option of the Liberal Studies major.

MATH 330 (3)  Introduction to the History of Mathematics
Major currents in the evolution of mathematical thought from early civilization to modern times. Prerequisite: MATH 160.

MATH 350 (3)  Foundations for Theoretical Mathematics
A bridge course between computation-driven mathematics and theoretical mathematics. Designed to familiarize the students with the language and process of rigorous mathematical thought, speech, and writing through the introduction of typical and important examples from algebra, analysis, and combinatorics as well as a careful development of the natural, rational, real and complex numbers. In the process, this course will cover: elementary logic, methods of proof, mathematical induction, sets, relations, functions, binary operations, equivalence classes, modular arithmetic, groups, matrices, and limits. Prerequisite: MATH 160 with a minimum grade of C.

MATH 360 (3)  Foundations of Analysis
A classical treatment of the basic concepts of calculus of one variable: the real number system, limits, continuity, differentiability, the Riemann integral, sequences and series of numbers and functions. Prerequisite: MATH 350.

MATH 362 (3)  Differential Equations
Analysis and application of ordinary differential equations: linear and nonlinear equations, existence and uniqueness theorems, analytical methods, qualitative analysis of solutions, numerical methods. Combines theoretical ideas along with hands-on experience using appropriate computer software. This course meets for four hours per week. Prerequisite: A grade of C or better in MATH 162.

MATH 370 (3)  Discrete Mathematics
The terminology, concepts, and techniques of some areas of discrete mathematics applicable in computer science. Logic, proof techniques, recursion, set theory and counting, relations and functions, groups and codes, graphs. Prerequisite: MATH 160.

MATH 372 (3)  Introduction to Number Theory
Divisibility, Euclidean algorithm, unique factorization, congruences, and quadratic reciprocity. May also cover some of the following: included primitive roots and indices, continued fractions, sum of squares, introduction to Diophantine equations, prime numbers, pseudo-primes, the prime number theorem, and factorization and primality-testing algorithms. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 374 (3)  Linear Algebra
Systems of linear equations, vector spaces, independence, bases, dimension, orthogonality, least squares, determinants, eigenvalues and eigenvectors, positive definiteness, computation, linear programming. Combines theoretical ideas with hands-on experience using appropriate computer software packages. This course meets for four hours per week. Prerequisite: MATH 160.
MATH 380 (3)  
Theory of Interest  
The mathematics of the measurement of interest, present value, accumulated value, annuities, amortization, sinking funds, bonds and securities. Credit may not be counted towards the mathematics major. Prerequisite: MATH 160 (or equivalent) with a grade of C or better.

MATH 390 (1)  
Mathematics Colloquium  
Guest lecturers present seminars on mathematical topics, e.g., recent advances in mathematics research, interesting applications of mathematics, or fun and challenging math problems. Students must attend each seminar, prepare a journal summarizing the content of each presentation, and write a follow up paper on one of the topics that they found particularly interesting. May be repeated for credit a total of three (3) units. Graded Credit/No Credit. Prerequisite: MATH 162.

MATH 401 (3)  
Number Concepts for Teachers  
Designed to reinforce mathematical concepts for those teaching in middle school. Properties, relations, and extensions of the natural numbers, integers, rational, irrational, real, and complex numbers. Subjects include number sequences, patterns, functional relationships, some number theory, meaning of infinity, applications, historical/cultural perspectives. Will use appropriate technology and physical materials. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C or better or consent of instructor.

MATH 403 (3)  
Geometry for Teachers  
Designed to reinforce mathematical concepts for those teaching in middle school. Geometry and measurement. Properties and relationships of shape, size, and symmetry in two- and three-dimensional space: points, lines, planes, curves, triangles, convex figures, parallelism, congruence, similarity, symmetry, rotations, reflections, translations, perimeter, area, volume. Historical development of Euclidean and non-Euclidean geometries. Will use the appropriate technology and physical materials. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Credit may not be counted toward the mathematics major. May not be taken for credit by students who have received credit for EDUC 556. Prerequisite: MATH 210 and 212 with a grade of C or better or consent of instructor.

MATH 405 (3)  
Statistics and Probability for Teachers  
Designed to reinforce mathematical concepts for those teaching in middle school. Data collection, random experiments, data organization and interpretation, formulation of convincing arguments; inferences and informed decisions based on statistical methods; experimental probabilities; counting techniques; analysis of correct and incorrect uses of statistics. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C or better or consent of instructor.

MATH 407 (3)  
Problem Solving for Teachers  
Designed to reinforce mathematical concepts for those teaching in middle school. Problem strategies and approaches, in the context of problems from various fields in mathematics. Four step method; noticing patterns; reformulating the problem; decomposing and recombinig; examining related problems; logic, valid arguments, and proof techniques; induction. Historical/cultural perspectives. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C or better or consent of instructor.

MATH 409 (1-3)  
Topics in Mathematics for Teachers  
Designed to reinforce mathematical concepts for those teaching in elementary, middle, or high school. May be repeated for credit as topics change for a total of six (6) units. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C or better or consent of instructor.

MATH 410 (3)  
Modern Geometry  
Critical review of the foundations and basic structure of plane and solid Euclidean geometry, non-Euclidean geometries, incidence and affine geometries; convexity and applications. Prerequisite: MATH 350 or consent of instructor.

MATH 440 (4)  
Introduction to Mathematical Probability and Statistics  
Basic concepts of probability: axiomatic formulation, combinatorics, conditional probability, independence, standard discrete and continuous random variables, expectation, variance, joint distributions, limit theorems. Statistical inference: tests of significance, point estimation methods, confidence intervals, simple linear regression. Combines theoretical ideas with hands-on experience using appropriate computer software packages. This course meets for five hours per week. Prerequisite: MATH 260, or 162 and 242.

MATH 464 (3)  
Numerical Analysis and Computing  
Computer arithmetic, solution of a single algebraic equation, solution of systems of equations interpolating polynomials, numerical integration, numerical solution of ordinary differential equations, error analysis and computational effort of numerical algorithms. Combines theoretical ideas with hands-on laboratory experience. This course meets for four hours per week. Also offered as CS 464. Students may not receive credit for both. Prerequisites: CS 111 or equivalent and MATH 162.

MATH 470 (3)  
Introduction to Abstract Algebra  
An introduction to the theory of groups, rings, and fields, with abstract ideas reinforced by concrete and important examples, such as permutation groups, polynomial rings, and finite fields. The power of the axiomatic systems introduced will be illustrated via several applications to concrete and classical problems. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 472 (3)  
Introduction to Graph Theory  
Fundamental concepts of undirected and directed graphs, trees, connectivity and transversal, planarity, colorability, networks, matchings; emphasis on modern applications. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 474 (3)  
Introduction to Combinatorics  
Introduction of the basic tools of combinatorics and their applications. Permutations, combinations, occupancy problems, generating functions, recurrences, inclusion/exclusion, graph theory, pigeonhole principle, experimental design, coding theory. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 480 (3)  
Introduction to Optimization  
Modern study of linear programming with an emphasis on model formulation, solution, and interpretation of software output. Applications in work-scheduling, diet, capital budgeting, blending, production process, transportation, assignment, transshipment, and flow problems. Programming methods include the simplex method and its specialized variations, Big M Method, goal programming, and integer programming. Theoretical aspects include optimality conditions, sensitivity analysis, and duality. Requires using industry-standard software to strengthen the ideas and concepts. This course meets for four hours per week. Prerequisite: MATH 374 or consent of instructor.
MATH 490 (3)  
Senior Seminar  
Presentation and discussion of selected areas of mathematics in order to supplement available offerings. Sample areas include differential forms, complex variables, partial differential equations, a second course in analysis, abstract algebra, or discrete math. May be repeated twice as course content changes, with consent of the program, for a maximum of nine (9) units of credit from MATH 490 and 491. Prerequisites: Twelve (12) units of upper-division mathematics. Other prerequisites to be determined by instructor.

MATH 491 (3)  
Senior Seminar with Lab  
Presentation and discussion of selected areas of mathematics in order to supplement available offerings. Sample areas include mathematical modeling and a second course in numerical analysis, optimization or statistics. This course meets for four hours per week. May be repeated for a maximum of nine (9) units of credit for MATH 490 and 491. Prerequisites: Twelve (12) units of upper-division mathematics. Other prerequisites to be determined by instructor.

MATH 495 (1-3)  
Internship in Mathematics  
Faculty-sponsored academic internship in business, industrial, government, research firm, or university labs and centers. Prerequisite: Consent of instructor.

MATH 498A (1) 498B (2) 498C (3)  
Individual Study in Mathematics  
Individually directed reading and study in mathematical sciences literature. May be repeated for a maximum of three (3) units. Prerequisites: Twelve (12) units of upper-division Mathematics and consent of instructor.

MATH 499A (1) 499B (2) 499C (3)  
Independent Research in Mathematics (1-3)  
Designed for students capable of independent and original research. May be repeated for a maximum of three (3) units. Prerequisites: Twelve (12) units of upper-division mathematics and consent of instructor.

MATH 505 (3)  
Readings from Original Sources  
Mathematics studied through the reading, analysis and discussion of original papers. May be repeated once for credit with consent of instructor. Prerequisite: To be determined by instructor.

MATH 510 (3)  
Mathematical Communication  
Selected topics in advanced mathematics chosen to demonstrate appropriate use of technology and effective organization and presentation of mathematics in oral and written form. Includes three aspects of mathematical writing: writing expository mathematics, writing formal mathematics, and writing as a tool to learn; preparation of mathematical lectures; development software modules/notebooks. This course meets for four hours per week. Prerequisite: MATH 350 and at least nine (9) other units of upper-division mathematics, or consent of instructor.

MATH 520 (3)  
Algebra  
Review and continuation of the study of algebra begun in MATH 470. Covers some of the following: the theory of finite group theory including the Sylow Theorems, polynomial ring, unique factorization, number fields, and finite fields. The latter half of the course will cover field extensions and Galois Theory, including the classic theorems on the unsolvability of the general quintic and the impossibility of certain ruler and compass constructions, such as trisecting an angle. This course meets for four hours per week. Prerequisite: MATH 470 or consent of instructor.

MATH 521 (3)  
Computational and Applied Algebra  
Modern advances in computing and the theory of Gröbner bases and resultants have created a new branch of computational algebra with many applications. Additionally, other algebraic topics such as semigroups and finite fields play an important role in discrete math and applications to cryptography and coding theory. Covers some of the following: Gröbner bases, resultants, and applications to such fields as algebraic geometry, robotics, computer vision, and integer programming; semi-groups, finite fields, partially ordered sets, Boolean algebras, applications to finite-state machines, cryptography and coding theory. This course meets for four hours per week. Prerequisite: MATH 470 or consent of instructor.

MATH 522 (3)  
Number Theory  
Introduction to number theory from the algebraic and/or analytic point of view. Includes some of the following: congruences, finite fields and rings, and quadratic reciprocity; quadratic forms and Diophantine equations; elliptic curves; the Gaussian integers, the Eisenstein integers, and unique factorization in these rings; other quadratic and cyclotomic fields and ideal factorization; introduction to analytic number theory, primes in arithmetic progressions, and the prime number theorem. This course meets for four hours per week. Prerequisite: MATH 470 or consent of instructor.

MATH 523 (3)  
Cryptography and Computational Number Theory  
Algorithms for factorization and primality testing: pseudo-primes, quadratic sieve, Lucas Test, continued fractions, factorization using elliptic curves, public key cryptography systems such as RSA, which is widely used for secure transfer of data on the Internet. Additional background material (such as the rudiments of elliptic curves) will be introduced as needed. Combines theoretical ideas with computer lab experimentation and implementation. Some familiarity with a computer language is useful but not required. This course meets for four hours per week. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 528 (3)  
Advanced Linear Algebra  
Vector spaces; dual spaces; linear transformations, bilinear forms and their matrix representations; Jordan and other canonical forms; finite-dimensional spectral theory; connections to other branches of mathematics. This course meets for four hours per week. Prerequisite: MATH 374 or consent of instructor.

MATH 530 (3)  
Measure Theory  
Lebesgue measure, measurable functions, the Lebesgue integral, Fubini's Theorem, Lp-spaces, and differentiation. Prerequisite: MATH 360 or consent of instructor.

MATH 532 (3)  
Ordinary Differential Equations  
Theory and applications of ordinary differential equations. Existence and uniqueness of solutions, methods for solving equations, linear differential equations, singularities, qualitative analysis of solutions, systems of equations. This course meets for four hours per week. Prerequisites: MATH 360 and 374, or consent of instructor.

MATH 534 (3)  
Partial Differential Equations  
Theory and applications of partial differential equations. Cauchy problems, boundary problems, the Cauchy-Kovalevsky Theorem, Fourier Series, harmonic functions, elliptic equations, hyperbolic equations. Prerequisites: MATH 260, 360 and 374, or consent of instructor.

MATH 535 (3)  
Multivariable Advanced Calculus  
Analysis in several variables including multivariable derivatives and integrals, inverse function theorem, implicit function theorem, generalizations of the fundamental theorem of calculus (e.g., Stokes' Theorem). Some of these topics may be presented from the point of view of differential forms. Prerequisites: MATH 260, 350 and 374, or consent of instructor.
MATH 536 (3)  
Complex Analysis  
Study of functions of a complex variable, including analytic functions, contour integrals, Cauchy's Theorem, poles and residues, Liouville's Theorem, Laurent Series, the Residue Theorem, analytic continuation, conformal mappings. Prerequisite: MATH 360 or consent of instructor.

MATH 538 (3)  
Applicable Analysis  
Foundations of functional analysis; linear and metric spaces; different modes of convergence; Hilbert Space; applications. May include topics such as calculus of variations, fixed point theorems, and operator theory. This course meets for four hours per week. Prerequisites: MATH 360 and 374, or consent of instructor.

MATH 540 (3)  
Concrete Mathematics  
Blend of continuous and discrete topics including sums, recurrences, elementary number theory, binomial coefficients, generating functions, discrete probability, and asymptotic methods. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 542 (3)  
Algorithmic Graph Theory  
Introduction to graphs; algorithmic complexity; depth-first and breadth-first search; trees; paths and distance; network flows; matchings and factorizations; Eulerian and Hamiltonian Graphs; traveling salesman problem; planarity; vertex and edge coloring. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 544 (3)  
Applied Combinatorics  
Counting; Ramsey Theory; experimental designs; finite projective planes; combinatorial optimization; combinatorial set systems; matrices; axiomatic social choice; scheduling theory; location of facilities on networks. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 550 (3)  
Geometry  
Geometric ideas selected from the following fields: euclidean geometry, hyperbolic geometry, projective geometry, introductory algebraic geometry, and computational geometry. Combines theoretical ideas with hands-on laboratory experience. This course meets for four hours per week. Prerequisites: MATH 374 and 470, or consent of instructor.

MATH 552 (3)  
Introduction to Differential Topology and Geometry  
Introduction to curves, surfaces, and possibly higher dimensional manifolds from the point of view of differential topology and/or differential geometry. Includes some of the following: Curves (e.g., Frenet-Serret Theorem and its consequences, isoparametric inequality, four-vertex theorem, line integrals, Fenchel's Theorem), the topological classification of surfaces, vector fields, curvature on surfaces (leading up to some of the following: geodesics, minimal surfaces, Gauss's Theorema Egregium, and the Gauss-Bonnet Theorem), introduction to higher dimensional manifolds, differential forms and integration (possibly including Stokes' Theorem and global invariants such as the Euler Characteristic and De Rham Cohomology). Prerequisites: MATH 260, 360, and 374, or consent of instructor.

MATH 555 (3)  
General Topology  
Topological spaces, open and closed sets, metric spaces, continuity, compactness, connectedness. Other subjects may include separation axioms, fundamental groups, classification of surfaces, completion of metric spaces. This course meets for four hours per week. Prerequisites: MATH 360 or consent of instructor.

MATH 561 (3)  
Computational Linear Algebra  
Provides a thorough background in the formulation and analysis of algorithms for numerical linear algebra. Includes fundamentals of scientific computation, subspaces, rank-revealing matrix factorizations, numerical solutions of linear systems, linear least squares, regularization, perturbation theory, and iterative methods. Combines theoretical ideas with laboratory experience. Knowledge of computer language is required. This course meets for four hours per week. May not be taken for credit by students who have received credit for MATH 626. Prerequisites: MATH 374 or consent of instructor.

MATH 571 (3)  
Probability and Random Processes  
Framework for probability theory: probability spaces as measure spaces, random variables, expectation and conditional probability. Major results such as limit theorems for sums of random variables, zero-one laws, and ergodic theorems. Applications may include branching processes, Markov Chains, Markov Random Fields, martingales, percolation, Poisson Processes, queuing theory, random walks, and renewal processes. Combines theoretical ideas with hands-on laboratory experience using appropriate computer software packages. This course meets for four hours per week. Prerequisite: MATH 360 or 440 or consent of instructor.

MATH 620 (3)  
Seminar in Advanced Mathematics  
Advanced mathematics chosen from areas represented in the program faculty and intended to build on 500-level material. Covers the following: algebra and number theory, analysis, combinatorics and graph theory, computational mathematics, geometry, and probability. May be repeated for a maximum of twelve (12) units of credit for MATH 620 and 621. Prerequisite: Consent of instructor.

MATH 621 (3)  
Seminar in Advanced Mathematics with Lab  
Advanced mathematics chosen from areas represented in the program faculty and intended to build on 500-level material. Covers the following: algebra and number theory, analysis, combinatorics and graph theory, computational mathematics, geometry, and probability. May be repeated for a maximum of twelve (12) units of credit for MATH 620 and 621. This course meets for four hours per week. Prerequisite: Consent of instructor.

MATH 697 (1)  
Workshop in the Teaching of Mathematics  
Discussion of syllabus construction, lecture preparation, assignment and grading of homework, construction and grading of exams, and resolution of classroom problems. May be repeated, but credit will not be counted toward the Master of Science degree. Graded Credit/No Credit. Prerequisite: Graduate standing in mathematics.

MATH 699 (3)  
Thesis  
Preparation of a thesis for the master's degree. Graded Credit/No Credit. Students may enroll in one or one section per semester. Prerequisites: An officially appointed thesis committee and advancement to candidacy.

MANAGEMENT (MGMT)  

College of Business Administration  

MGMT 302 (2)  
Foundations of Management  
Important concepts and applications in management including motivation, leadership, group dynamics, organization design, decision-making, communication, and organization change. May not be taken for credit by students who have received credit for SSM 304. Prerequisite: All lower-division pre-business core.
MANAGEMENT
INFORMATION SYSTEMS (MIS)

College of Business Administration

MIS 302 (2)
Foundations of Management Information Systems
Survey of management information systems topics with an emphasis on service applications. Includes computer hardware and software, databases, information systems development, and the role of information systems in the organization. May not be taken for credit by students who have received credit for HTM 304. Prerequisite: All lower-division pre-business core, and completion of the University computer competency requirement.

MARKETING (MKTG)

College of Business Administration

MKTG 302 (2)
Foundations of Marketing
Marketing is the process of identifying and satisfying customers' needs for products, services and ideas, and simultaneously creating and delivering a standard of living to society. Examines the components of the marketing process, sources and uses of marketing intelligence, consumer behavior and international marketing. May not be taken for credit by students who have received credit for SSM 305. Prerequisite: All lower-division pre-business core.

MUSIC (MUSC)

College of Arts and Sciences

MUSC 293 (1)
Vocal and Instrumental Instruction
Private or small group music lessons. Prerequisites: Normally open only to Visual and Performing Arts Music Track students with less than one year of lower-division studio music study or who are placed at this level through audition. Students approved for MUSC 293 must be enrolled in appropriate ensembles at CSUSM and be enrolled in appropriate lower-division music courses. May be repeated for a maximum of eight (8) units. Prerequisite: Consent of instructor.

MUSC 302 (3)
Computers and Music
Introduction to computers and their use in a musical context. Includes an historical overview of the field and in-depth investigation of the use of computers and synthesizers in creating musical compositions (both printed and recorded). Students learn the basics of synthesis, MIDI (Musical Instrument Digital Interface), the language by which computers and synthesizers can "talk" to each other, sequencing, computer music notation, and random computer-generated compositional processes. Computer ethics and word processing will also be covered. Projects will be completed in Microsoft Word (word processing), Visio (sequencing), Finale (notation), and MIDI (random compositional processes). Two hours of lecture and two hours of laboratory.

MUSC 320 (3)
Critical Listening
Helps the student develop highly honed listening skills. Music from many cultures including Euro-American concert music, music from India, Japan, Africa, South America, Eastern Europe, and the United States form the core of the examples studied. No single historical period or national style dominates. The emphasis is placed on perception of musical elements that are common to all music of the world, the acoustical foundations of music, and aesthetics. Music is viewed within a social and cultural context. Attendance of concerts is a required part of the course.

MUSC 321 (3)
Survey of World Folk Songs
Study of selected folk songs from the Americas, Europe, Africa and Asia. Explores issues associated with the context of the songs, their social function, gender, status, and age differences of the performer/composer. Requires students to learn to sing songs in their original language, complete group research projects that focus on a single cultural group, learn the techniques of song analysis, and complete an ethnographic case study with a local folk musician.

MUSC 322 (3)
Music in Ritual and Religion
Cross-cultural studies of the music identified with worship. Examples drawn from Africa, Europe, United States, the Caribbean, South America, Islam, East Asia, and India.

MUSC 324 (3)
Survey of World Popular Music
An introduction both to the great diversity of the world's popular musics, and to some of the issues involved in the production of popular music worldwide. Musics addressed will cover a broad geographic area, including parts of Africa, the Americas, Europe, the Middle-East, and South, East, and Southeast Asia. Issues of religion, gender, politics, ethnic or regional identity, cultural property, appropriation, and mass-media will be examined as influential factors informing popular music practices across geographic and cultural boundaries.

MUSC 390 (2)
Andean Ensemble
A performance ensemble specializing in the music of Bolivia, Peru, Ecuador, and Chile. Students learn to play bamboo flutes, pre-Columbian instruments, and panpipes. Guitarists and vocalists are welcome. Music is sung in Spanish, Quechua, and Aymara. May be repeated for a total of eight (8) units.

MUSC 391 (2)
African Ensemble
Exploration of performance practice in traditional African music through organized performances of selected musical types and forms. Students will be introduced to various techniques as a basis for the integration of music, dance, and drama in traditional African societies. May be repeated for a total of eight (8) units.

MUSC 393 (2)
Advanced Vocal and Instrumental Instruction
Private or small group music lessons. Prerequisites: Normally open only to Visual and Performing Arts music track students with at least one year of lower-division studio music study. Students approved for MUSC 393 must be enrolled in appropriate ensembles at CSUSM and be enrolled in the core Visual and Performing Arts program. May be repeated for a maximum of eight (8) units. Prerequisite: Consent of instructor.

MUSC 394 (2)
Vocal Ensemble
A vocal ensemble specializing in many different musical styles. Performances will include works from jazz, traditional, popular, and classical repertories. Emphasis will be placed on correct vocal and performance techniques and improvement of musical skills. May be repeated for a total of eight (8) units.

MUSC 395 (2)
Javanese Gamelan Ensemble
Exploration of performance practice in traditional Javanese Gamelan music through organized performances of selected musical types and forms. Students will be introduced to various techniques as a basis for the integration of music, dance, and drama in traditional Indonesian societies. May be repeated for a maximum of eight (8) units.
MUSC 402 (3)  Advanced Composition With Computers
A study of the advanced techniques of digital music technology. Includes digital audio recording and editing, signal processing, alternative MIDI controllers, live performance with electronics, advanced synthesis, sampling, and sequencing techniques. Students will compose works in several styles with a final project to be presented in concert. Two hours of lecture and two hours of composition activity are required. May be repeated for a total of six (6) units. Prerequisite: MUSC 302 or consent of instructor.

MUSC 421 (3)  Survey of World Music I
Explores the music of Native Americans, Black music in America, West African music, European folk music, and music of India. Students will be required to complete an anthropological/ethnomusicological fieldwork study in one of the indigenous music styles in Southern California. The project will include interviews with native informants, field recordings, and other appropriate research.

MUSC 422 (3)  Andean Music and Culture
An introduction to Andean culture through music performance, listening, and research. Students will learn to play authentic Andean instruments from Peru, Chile, Ecuador, and Bolivia. Extensive reading and analytical listening are a part of this course. Offered in English or Spanish. When offered in Spanish it will appear as "Musica Andina y Cultura" in the Class Schedule and may be taken for credit in the Spanish major, only in the Language and Culture Track. May not be taken for credit by students who have received credit for MUSC 422S.

MUSC 423 (3)  African Music in Dispersion
Students will explore and trace the influences of African culture in the new world. Exploration of the dispersion of music, religion, social structure, and culture.

MUSC 424 (3)  African Music and Culture
A survey of traditional and modern cultures on the African continent. Special attention is given to the development of an understanding of African religious systems, social structures, and the arts as a manifestation of the African world view.

MUSC 425 (3)  Latin American Music and Society
An in-depth survey of the music and culture of Latin America as seen through the lens of history. The materials will be organized in the following historical periods: the Pre-Columbian Era, the Colonial Era, the Republican Era, and modern trends in Latin American music. Folkloric, concert, and popular music will be examined in relation to class strata in Latin America. Special emphasis will be placed on the music of Mexico, Brazil, the Andean region, and Cuba. May not be taken for credit by students who have received credit for MUSC 425S.

MUSC 426 (3)  Japanese Music and Culture
An introduction to Japan through the senses, with an emphasis on musical and visual arts. The fine arts are studied through historical and cultural perspective. Students will view films, videos, and photos of famous places in Japan, as well as important works of art. Numerous recordings of Japanese music, together with live music, will be provided for study in the class. Class sessions will be devoted to geography, history, language, literature, society, and religion, in themselves and in relation to music and the visual arts. The aim is to promote a deeper understanding among Americans for the distinctive values of Japanese culture.

MUSC 427 (3)  Music and Culture in the United States
A survey of the music and culture of the United States through study of the various social strata and ethnic groups which make up the fabric of American life. Music will be studied in the historical, social, and cultural context of the time in which it was created with special attention paid to historical periods such as the Civil War, the turn of the century, the Great Depression through World War II, the 1960s, and the present. Additional emphasis will be placed on the role of women in American musical culture and issues of class and race as they influence (and are influenced by) the development of musical styles.

MUSC 460 (3)  Music Activities for Children and Adults
Explores various modes of musical expression within a multicultural context. No background in music is required. An emphasis will be placed on performance, composition, and listening activities that can be applied to the K-12 classroom. Two hours of lecture and two hours of laboratory. This course satisfies the Liberal Studies requirement for work in the Fine Arts, and Humanities (Studio Arts).

MUSC 498A (1) 498B (2) 498C (3)  Independent Study
This course is intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved by the Visual and Performing Arts Independent Study Committee and supervised by a faculty member or academic advisor. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

MUSC 499A (1) 499B (2) 499C (3)  Independent Research
Designed for students with demonstrated capacity for independent research, field, creative and studio work, and analyses of data. May be repeated for a total of eight (8) units. Prerequisite: upper-division courses appropriate to area of proposed study and approved by the Visual and Performing Arts Independent Study Committee, and consent of instructor.

PHYSICAL EDUCATION (PE)

College of Arts and Sciences

PE 182 (3)  Topics in Physical Education
Introduction to studio experiences in Physical Education. Exploration of fundamental concepts and theories through basic studio processes and movement. Two hours of lecture and two hours of activities. May be repeated for credit as topics change for a total of six (6) units.

PE 200 (1)  Intercollegiate Athletics
Advanced practice in performance techniques in preparation for intercollegiate athletic competition. Only NAIA-eligible student-athletes may enroll in this course. A maximum of eight (8) units of intercollegiate athletics courses may be applied toward a baccalaureate degree. Graded Credit/No credit. Prerequisite: Consent of coach.

PE 201 (4)  Human Development and Physical Activity
A study of Human Development including: physical education, nutrition, substance abuse, sexuality, death and dying, and cultural identity issues with an emphasis on the physical, intellectual, social, psychological, cultural, and gender identification factors which contribute to the process of development in the life span. Lab includes selected movement activities that support this process for self and others.

276  CAL STATE SAN MARCOS
PHIL 210 (3)
Symbolic Logic
Use of symbolic notation to understand the structure of logical arguments. Translation of sentences from ordinary language into logical notation, construction of truth tables, and the use of formal deduction rules to prove the validity of arguments. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement or completion of the Critical Thinking General Education requirement.

PHIL 310 (3)
Western Philosophy: Ancient Greece and Rome
Surveys the development of Western philosophy in ancient Greece and Rome, from 700 BCE to 500 CE. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life. May not be taken for credit by students who have received credit for PHIL 182A. May be repeated for a total of nine (9) units.

PHIL 311 (3)
Western Philosophy: The Middle Ages and the Renaissance
Studies the development of Western philosophy in the Middle Ages and Renaissance. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, religion, and sciences, and the context of political, social, and economic life.

PHIL 312 (3)
Western Philosophy: The Early Modern Period
Surveys the development of Western philosophy in the early modern age, 1600-1800. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life.

PHIL 314 (3)
Western Philosophy: Late Modern and Post-Modern
Surveys the development of Western philosophy in the late modern age, 1800-2000. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life.

PHIL 315 (3)
Ethics: Theory and Application
An introduction to ethical theory and applied ethics. Surveys the major ethical theories developed in Western philosophy, and examines the ways in which theoretical approaches are applied to contemporary personal and social issues. Study of philosophy is complemented by discussion of intellectual history and exploration of a range of related disciplines such as bioethics, environmental ethics, business ethics, and public policy.

PHIL 316 (3)
Non-Western Philosophy: Theories of Value and Action
A survey of ethical traditions from non-Western cultures. Emphasis is on the religious and philosophical traditions of Asia, but African and Native American traditions are also discussed. Subjects include Hinduism and the Vedic traditions, Buddhism, Taoism, Confucianism, and others.

PHIL 320 (3)
Philosophy and Culture of Ancient Greece
Offers a survey of ancient Greek philosophy, anchored in a study of the ancient Greek cultural world. Readings of the Pre-Socratic philosophers, of Plato and Aristotle are related to an examination of Greek civilization in its broadest dimensions. Begins with a study of the historical, political and economic conditions of Greek life. Students read philosophical works, examine the epic poetry of Hesiod and Homer, the dramatic arts of tragedy and comedy, the ancient traditions of Greek mythology, and the values expressed through the visual arts of the Greeks. Emphasizes ethics, tracing linkages and similarities of sensibility between philosophical and non-philosophical expressions of the Greek view of human life. Serves well as a first course in philosophy, and as a more general survey of ancient Greek culture.

PHIL 330 (3)
Philosophy in Literature
Selected readings of literary and philosophical texts, attuned to the problem of human identity. Literary texts present concrete examples of individuals facing the task of forging an understanding of themselves; philosophical texts offer a variety of conceptual and terminological resources for the study of the processes of self-identification. Themes include: society, culture, and history; action and social interaction; public and private life; time and mortality; sexuality and gender; race and ethnicity; and modes of self-knowledge.

PHIL 335 (3)
Social and Political Philosophy
A survey of classical social and political thinkers of Western world. Intends to heighten critical awareness of the basic conceptual presuppositions of life in political society, the fundamental issues and problems that arise from political life, and the values underpinning democratic political traditions. Theses include: the basic nature of social existence, the purposes of government, the role of the state, and the dissemination of political power.
PHIL 340 (3)
Ethics and the Environment
A study of recent developments in the field of environmental ethics. Examines the moral and ethical status of the natural world. Environmental ethics is the attempt to think through issues such as: the proper place of human beings in nature, the extent of our moral and ethical obligations to the natural world, the ethical foundations of public environmental policy, the principles that govern environmental use and protection, and the legitimacy of various approaches to environmental advocacy. A survey of classical ethical theories will provide context for discussion of environmental ethics, and examination of current environmental issues (i.e., the Endangered Species Act, the debate over use of public lands) will serve as a "testing ground" for the practical application of environmental ethical theories.

PHIL 345 (3)
Bioethics and Medical Ethics
A survey of ethical issues in biological and medical research and practice. Offers and introductory survey of ethical and moral theory, and investigates the application of moral and ethical theory to issues such as animal and human research, the doctor-patient relationship, reproductive technologies, and biotechnology.

PHIL 350 (3)
The Aesthetics of Modernism
An introduction to aesthetic theory and the philosophy of art, organized around a study of the Modernist movement in 20th-Century culture. Modernist works of visual art, architecture, literature, music, theatre and dance will provide basic subject matter for discussion of classical issues in aesthetic philosophy. Subject matter includes: the rise of the Modernist sensibility as an overall approach to the arts, creative life, and the importance of artistic traditions; what is new and what is old in the Modernist approach to culture; the current significance of the Modernist movement, and the question of the distinction between 'Modern' and 'Post-Modern' styles. A survey of classical aesthetic theories will set the stage for extended examination of Modernist works and ideas.

PHIL 355 (3)
Philosophy or Religion
A philosophical investigation of the religious dimension of human experience. Explores the standard, classic texts in the philosophy of religion, discussing a range of viewpoints regarding the significance of religious experience. Subjects include phenomenology of religious experience, the intelligibility of religious belief and disbelief, and various approaches to the nature of divinity and its meaning for human life.

PHIL 390 (3)
Topics in Philosophy
Selected topics of study drawn from the sub-disciplines of philosophy. Topics will vary according to the instructor and semester offered. Students should check the Class Schedule for listing of actual topics. May be repeated for a total of six (6) units of credit as topics change.

PHIL 490 (1)
Exit Seminar for the Minor
The Exit Seminar allows students and faculty to reflect on the learning experience of the Philosophy Minor. Students construct a brief portfolio of essays written for coursework in the Minor, and complete a reflective essay discussing their overall experience of the Minor. Students are interviewed by faculty regarding their progress through the Minor, and share their experiences with one another in guided discussions of the Minor curriculum. To be taken in the final semester of coursework for the Minor. Graded Credit/No Credit. Prerequisite: Consent of Program Director.

PHIL 499 (3)
Supervised Independent Study
Addresses a special interest not covered in a regular course or provides an opportunity to explore in greater depth a subject introduced in a regular course. Discussion in individual conferences. May be repeated for a total of six (6) units of credit. Prerequisite: Consent of instructor.

PHYSICS (PHYS)

PHYS 101 (4)
Introduction to Physics I
An overview of the principles of mechanics, thermodynamics and waves. The areas covered include: observation and measurement, kinematics, dynamics, work and energy, impulse and momentum, equilibrium of rigid bodies, rotational motion, oscillations, and waves in mechanical media. Three hours of lecture and three hours of laboratory. Prerequisites: Two years of high school algebra or equivalent, trigonometry, and completion of the Entry-Level Mathematics (ELM) requirement.

PHYS 102 (4)
Introduction to Physics II
An overview of the principles of electricity and magnetism, light and optics, and modern physics. The areas covered include: electric charge, electric fields, electric potential, DC circuits, magnetism, magnetic fields, geometrical and physical optics, and atomic and nuclear physics. Three hours of lecture and three hours of laboratory. Prerequisite: PHYS 101.

PHYS 201 (4)
Physics of Mechanics and Sound
A broad coverage of the principles of mechanics and wave motion. The areas covered include: observation and measurement, kinematics, dynamics, work and energy, impulse and momentum, equilibrium of rigid bodies, rotational motion, oscillations, and waves in mechanical media. Required for students whose field of study is physics, chemistry or computer science. Counts toward the fulfillment of the lower-division General Education requirement in Physical Universe and Its Life Forms. Three hours of lecture and three hours of laboratory. Recommended: High school physics. Prerequisite: Completion of MATH 160 with a minimum grade of C.

PHYS 202 (4)
Physics of Electromagnetism and Optics
A broad coverage of classical electromagnetism and optics. The areas covered include: electric charge, electric fields, electric potential, capacitors and dielectrics, DC circuits, magnetic fields, magnetic properties of matter, AC circuits, Maxwell's equations, electromagnetic wave, the nature and propagation of light, geometrical optics, and wave optics. Three hours of lecture and three hours of laboratory. Prerequisites: PHYS 201 and MATH 162 with a minimum grade of C in each.

PHYS 203 (4)
Modern Physics
Intended for students whose major field of study is physics and an elective course for students whose major field of study is chemistry or computer science. Three hours of lecture and three hours of laboratory. Prerequisites: PHYS 202 and MATH 260 with a minimum grade of C.

PHYS 205 (4)
Physics for the Biological Sciences I
A broad coverage of the principles of mechanics, properties of matter and wave motion. The subjects covered include: Observation and measurement, kinematics, dynamics, energy, momentum, equilibrium, fluids and solids, thermodynamics, oscillations, and waves. Required for students whose field of study is biology. Three hours of lecture and three hours of laboratory. Recommended: High school physics or an introductory college level physics course. Prerequisite: Completion of MATH 160 with a minimum grade of C (2.0).

PHYS 206 (4)
Physics for the Biological Sciences II
A broad coverage of electromagnetism, optics, and nuclear physics. The areas covered include: Electrostatics, electric fields, magnetism, magnetic fields, electric circuits, geometrical optics, optical instruments, nuclear physics, radiation, and spectroscopy. Required for students whose field of study is biology. Three hours of lecture and three hours of laboratory. Prerequisites: Completion of PHYS 201 or PHYS 205 with a minimum grade of C (2.0).
PHYS 301 (4) Digital Electronics
Introduction to digital computer hardware design including: gates, flip-flops, registers, and memory to perform logical and arithmetic operations on numeric and other data represented in binary form. The laboratory uses digital logic integrated circuitry for experiments with combinational and sequential networks, and simple digital systems. Prerequisite: PHYS 202 and CS 231 or equivalent, or consent of instructor.

PHYS 302 (4) Computer Interfacing and Control
Introduction to the design and use of digital computer interfaces, including serial, parallel, USB, and synchronous and asynchronous interfaces. The laboratory provides hands-on experience in computer interfacing through integrated circuits, sensors, and microcontrollers. Three hours of lecture and three hours of laboratory. Prerequisites: Completion of PHYS 301 and CS 331 with a minimum grade of C (2.0).

PHYS 303 (3) Introduction to Digital Signal Processing
Introduction to signals and digital processing including: fundamentals of signals, signal processing, filter synthesis, discrete-time systems, discrete fourier transforms and FFT, Z-transforms, sampling quantization, and image processing. Prerequisites: MATH 162 and PHYS 202.

PHYS 321 (3) Electromagnetism
Introduction to the applications of Maxwell's Equations and the propagation of EM waves in relation to matter. Subjects to be covered include: dielectrics, conductors, plasmas, and waveguides, and selected topics in EM wave radiation, propagation, absorption, transmission, and diffraction. Prerequisites: PHYS 202, 203, and MATH 162 and 260.

PHYS 322 (3) Solid State Physics
Provides an introduction to solid state physics. Subjects to be covered include: crystal structure, thermal, electrical, and magnetic properties of solids, elementary band theory, semiconductors, and solid state devices. Prerequisites: PHYS 202, 203, and MATH 162 and 260.

PHYS 323 (3) Quantum Mechanics
Provides an introduction to the concepts and theories of nonrelativistic quantum mechanics. Subjects to be covered include early quantum theories, the Schrodinger Equation, operators, angular momentum, and applications to simple quantum mechanical systems. Recommended: MATH 262 or 362. Prerequisites: PHYS 202, 203, and MATH 162 and 260.

PHYS 407 (2) Investigations in Physical Science for Teachers
Designed to teach some of the basic principles in Physical Science. Content will vary but will include one or more of the following: properties of matter, heat and temperature, chemical energy, light and optics, electricity and magnetism, electric circuits, kinematics, dynamics, introductory astronomy, chemical bonding, or chemical reactions. Taught in a guided inquiry/discovery format and has a significant hands-on experimental component. May be repeated for credit for a total of six (6) units of credit with consent of instructor. One hour of lecture and two hours of activities. Also offered as CHEM 407. Students may not receive credit for both. Prerequisites: MATH 115 and completion of a lower-division physical science course.

PHYS 408 (3) Investigations in Physical Science for Teachers
Designed to teach some of the basic principles in Physical Science. Content will vary but will include one or more of the following: properties of matter, heat and temperature, chemical energy, light and optics, electricity and magnetism, electric circuits, kinematics, dynamics, introductory astronomy, chemical bonding, or chemical reactions. Taught in a guided inquiry/discovery format and has a significant hands-on experimental component. May be repeated for credit for a total of six (6) units of credit with consent of instructor. Two hours of lecture and two hours of activities. Also offered as CHEM 408. Students may not receive credit for both. Prerequisites: MATH 115 and completion of a lower-division physical science course.

PHYS 490 (3) Topics Seminar
Selected advanced topics in physics. Focuses on one or more current issues in the physics literature. A course description will be available before registration in the semester offered. May be repeated for credit as topics change. Students should check the Class Schedule for listing of actual topics. Prerequisites: At least nine (9) units of upper-division Physics.

PHYS 498A (1) 498B (2) 498C (3) Senior Library Thesis
Library or theoretical physics research project. The student must consult with a physics faculty member to decide on the topic and then produce a 10-20 page paper. The paper must summarize the current state of knowledge on the subject and include an appropriate bibliography. Prerequisite: Consent of instructor.

PHYS 499A (1) 499B (2) 499C (3) Senior Laboratory Thesis
Experimental or laboratory physics research project. The student must consult with a physics faculty member to decide on the research problem and then work collaboratively under the guidance of the faculty member in the laboratory. The student will produce a 10-20 page paper summarizing the research and the results obtained. An appropriate bibliography must be included. Prerequisite: Consent of instructor.

PRODUCTION OPERATIONS MANAGEMENT (POM)

College of Business Administration

POM 302 Foundations of Production and Operations Management (2)
Introduces the elements associated with the design and operation of a service organization and the integration of these elements within the overall corporate strategy. Contemporary issues covered include operations in global markets, designing and controlling the service process and planning for operations. May not be taken for credit by students who have received credit for PFM 305. Prerequisites: All lower-division prerequisite courses.

POLITICAL SCIENCE (PSCI)

College of Arts and Sciences

CP = Comparative Politics
GP = General Political Science
IP = International Politics
PT = Political Theory
USGP = U.S. Government and Politics

PSCI 100 (3) U.S. Government and Politics
The principles of the U.S. Constitution, and a survey of political institutions and processes that developed under it, including the legislature, the executive, the courts, state and local government, federalism, and civil liberties.

PSCI 300 (3) U.S. Political Institutions
The principles of the Constitution of the United States and the political institutions and policies of the U.S. government. May not be taken for credit by students who have received credit for PSCI 100. (USGP)
PSI 301 (3)
The Practice of Political Research
Introduction to methods of inquiry and analysis in political research. A variety of qualitative and quantitative approaches will be explored, including case studies, field research, archival studies, elite interviewing, surveys, and experimentation.

PSI 305 (3)
Race, Power, and Politics in the U.S.
Processes and policies that have and have not incorporated racial and ethnic groups into the U.S. political system. Focuses on African-Americans, Latinos, and Asians. (USGP)

PSI 320 (3)
Politics and Administration
Organization and administrative processes of public bureaucracies, the political role of agencies that make and implement public policies, theories and characteristics of bureaucracy. (USGP)

PSI 321 (3)
Making Public Policy
Analysis of the process of policy making in the United States from problem identification through policy formulation, adoption, implementation, and evaluation of impact. Analysis applied to such areas as welfare, environment, crime, taxation, and government spending. (USGP)

PSI 331 (3)
World Political Systems
Comparative analysis of political behavior and institutions in political systems of different types. May not be taken for credit by students who have received credit for PSI 330. (CP)

PSI 335 (3)
European Politics
Study of the political systems of selected European nations that represent the various forms of government in the region. (CP)

PSI 337 (3)
African Politics
Focus on the political systems of sub-Saharan Africa. Problems of political development in the region; relations among African states, and relations with non-African systems. (CP)

PSI 338 (3)
Topics in Latin American Politics:
Analysis of alternative theoretical approaches to the processes of political and economic development in Latin America, selected contemporary issues, and the similar and different experiences of various Latin American states. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. (CP)

PSI 341 (3)
Latin American Politics Through Film
Through a series of films, documentaries, readings, and group discussion, the course is designed to bring to life a startlingly diverse region that encompasses great wealth and desperate poverty, countries as tiny as Cuba and as enormous as Brazil, with democratic and authoritarian governments and a complex, multicultural heritage. Moreover, the course intends to provoke a re-examination of U.S. relations with its hemispheric neighbors by highlighting key issues and events of the 19th and 20th centuries, providing a new perspective that extends far beyond the limited images and crisis-driven headlines of the nightly news. May not be taken for credit by students who have received credit for PSI 449C. May be repeated for a total of six (6) units with consent of instructor.

PSI 348 (3)
Government and Politics of a Selected Nation-State
Detailed analysis of a particular political system. May be repeated for credit as topics change for a total of six (6) units. (CP)

PSI 350 (3)
Global Governance
Basic international political principles and practices, including characteristics of the international system, foreign policy making, security and defense, alliances, law and organization, and international conflict. (NP)

PSI 355 (3)
U.S. Foreign Policy
Formulation and execution of foreign policy in the United States, including an analysis of competing ideological concepts, the role of the President and Congress, and the influence of public opinion. (NP)

PSI 365 (3)
Foreign Policy of a Selected Nation-State
Detailed analysis of the foreign policy of a selected nation-state. May be repeated for credit as topics change for a total of six (6) units. (NP)

PSI 367 (3)
Americas in Vietnam - The Vietnam War
Examines the literature on the Vietnam War: what were its causes; how did America get involved; what were the U.S. decision-making processes involved. It does this in two fundamental ways. First, examines the history of Vietnam, its origins, its relations with its neighbors, etc. Second, examines literature concerning the causes of U.S. involvement; presumed "lessons" therefrom; and the actual decision-making processes. Prerequisite: PSI 350. May not be taken for credit by students who received credit for PSI 469A. (NP)

PSI 361 (3)
U.S.-Latin American Relations
Relations among Latin American states, U.S.-Canadian-Latin American relations, and Latin American role in global affairs. (NP)

PSI 362 (3)
International Relations in a Selected Region
Detailed analysis of international interactions within a selected international region. May be repeated for credit as topics change for a total of six (6) units. (NP)

PSI 363 (3)
Historical Transformation of Money and Power
Students will review the development of the Global Political Economy (GPE) beginning in the 6th Century B.C. with a particular focus on the history of Western forms of industrialization and economic activity over the past two centuries. They will explore how political, historical, economic, technological, and cultural factors shaped the evolution of the GPE and how to use them to analyze the transformation of the ideas about and operation of the world political economy. Analysis will be at a system, rather than a state level, and will examine how the convergence of various factors have created an interdependent global political economy. Lectures, case studies, group activities, and discussion formats will all be used throughout the course. Also offered as HIST 368. Students may not receive credit for both. May not be taken for credit by students who received credit for PSI 390C. (NP)

PSI 365 (3)
International Organization and Law
Historical development and contemporary structure of international organizations, such as the United Nations, NATO, and regional economic associations. Development of international law and settlement of international disputes. (NP)

PSI 370 (3)
Foundations of Political Thought
Analysis of basic concepts and principal political theorists from the Greeks to the present, including Plato, Aristotle, Machiavelli, Locke, and Marx. (PT)

PSI 371 (3)
Ancient and Medieval Political Theory
Detailed analysis of political thought from Plato to Aquinas. Major themes include citizenship, justice, equality, and democracy. (PT)

PSI 372 (3)
Democracy and the Modern States
Detailed analysis of political thought from Machiavelli to Burke. Major themes include popular government, the role of the state, civil-religious relations, and popular sovereignty. (PT)

PSI 373 (3)
Contemporary Political Ideologies
Detailed analysis of 19th and 20th Century political thought, including Marx, Freud, Weber, and Existentialists. Major themes include individual freedom, class conflict, elitism, and totalitarianism. (PT)
PSCI 390 (3)  
Topics in Political Science  
Selected topics in the field of Political Science. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics. (GP)

PSCI 391 (3)  
Sexual Politics  
Analysis of gender as a political category; gender differences as they affect political participation and behavior; gender issues in contemporary politics. Analysis is cross-national, but focus is on the United States. (GP)

PSCI 393 (3)  
Environmental Policy  
Analysis of the politics of environmental policy on a global scale. Comparisons of environmental policy and global environmental issues such as global warming, destruction of habitat, ocean and air pollution; national and international mechanisms for managing environmental problems. (GP)

PSCI 394 (3)  
Political Corruption and Ethics  
Ethical problems of those in politics and public service. Focuses on decision-making and public policy, including health care, education, energy, and national defense. Analysis of forms of political corruption and means for controlling corrupt behavior. (GP)

PSCI 399 (3)  
Quantitative Political Research and Analysis  
Students will study and conduct quantitative political research, with primary emphasis on survey and experimental methodologies. All stages of the research process — study design and implementation, data collection and analysis, and presentation of findings — will be studied and practiced. Prerequisite: PSCI 301. (GP)

PSCI 401 (3)  
Campaigns and Elections  
Analysis of factors influencing voting choices; campaign strategies and techniques; changes and trends in U.S. elections, and methods of predicting and interpreting election results. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 402 (3)  
Public Opinion and U.S. Politics  
Analysis of the major concepts, theories, methodological approaches, and substantive findings in the field of U.S. political opinion. Includes the formation of political attitudes and beliefs; political tolerance and racial attitudes; attitudes toward the political system and its leaders; foreign and domestic policy attitudes; the media and political opinion; and the effects of public opinion on policy. Prerequisite: PSCI 100. (USGP)

PSCI 405 (3)  
Clash of Interests: Groups in U.S. Politics  
Interest group organization, methods, funding, and influence in U.S. politics. Considers effect of interest groups, especially PACs, on democratic government. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 406 (3)  
Party Politics in the U.S.  
Role, organization, and behavior of political parties in the United States. Analysis of the functions of political parties in government, their relationship to interest groups, and their electoral role. Emphasis on the importance of the two-party system. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 410 (3)  
Congress and the Legislative Process  
The legislative process in U.S. Congress and state legislatures. Analysis of law making, representation, behavior of individual legislators. Considers relationships between legislatures and other branches of government. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 412 (3)  
Constitutional Law: Powers of Government  
Examination of the development of the constitutional system and the Supreme Court in the United States. Emphasis on the power of judicial review and interpretation of separation of powers, federalism, the police power, and the commerce clause through an analysis of leading Supreme Court decisions. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 413 (3)  
Constitutional Law: Individual Rights  
Study of fundamental rights protected by the U.S. Constitution. The role of the courts in interpreting freedoms under the Bill of Rights, due process, and equal protection of the laws. Prerequisite: PSCI 100 or HIST 330, or equivalent. (USGP)

PSCI 414 (3)  
Law and Politics in the U.S.  
Political role of the U.S., state and federal courts, judicial policy making, judicial decision-making processes, and political behavior of judges. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 415 (3)  
State Politics  
Policies and policy making at the state level, relations between federal and state governments. Emphasis on California government and politics. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 416 (3)  
Urban Politics  
The political process and policy making in urban areas of the United States. Evaluation of the policy choices facing urban governments including housing, environment, growth, and crime. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 417 (3)  
Power, Politics and the Presidency  
Analysis of the role and powers of the President and the institutions and functions of the federal executive branch. Focuses on issues such as leadership, staffing, executive-legislative relations, policy formation, and presidential popularity. Prerequisite: PSCI 100 or equivalent. May not be taken for credit by students who have received credit for PSCI 411. (USGP)

PSCI 419 (3)  
Topics in U.S. Politics  
Selected topics in U.S. politics. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: One upper-division U.S. government course or consent of instructor. Students should check the Class Schedule of listing of actual topics. (USGP)

PSCI 431 (3)  
Global Development  
Analysis of the process and problems of political development in the Third World. Influence of economic problems, international relations, and cultural factors. Prerequisite: PSCI 331 or equivalent. (CP)

PSCI 432 (3)  
Comparative Political Institutions  
Cross-national analysis of specific political institutions, such as executive or legislative bodies. Examples drawn from all types of political systems. Prerequisite: PSCI 331 or equivalent. (CP)

PSCI 434 (3)  
Comparative Public Policy  
Cross-national analysis of public policies, such as welfare, housing, and health care in different types of political systems. Prerequisite: PSCI 331 or equivalent. (CP)

PSCI 445 (3)  
Gender and Development  
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that "modernization" results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as ECON 445 and WMST 445. Students may only receive credit for one of the courses. May not be taken for credit by students who have received credit for ECON 481B or PSCI 449B. (CP)

PSCI 449 (3)  
Topics in Comparative Politics  
Selected topics in comparative politics. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics. Prerequisite: One upper-division comparative politics course or consent of instructor. (CP)
PSCI 450 (3)  
Theories of International Relations  
Classical and modern version of the "balance of power," bipolarity, multipolarity, international systems theory, deterrence and game theory, decision-making theory, and conflict resolution theory. Prerequisite: PSCI 350 or equivalent. (NP)

PSCI 455 (3)  
National Security Institutions and Policy  
Analysis of the national security institutions and the objectives of national security policy. Focuses on military structure and power, strategic doctrine, alliance management, and nonmilitary components of security. Prerequisite: PSCI 350 or equivalent. (NP)

PSCI 460 (3)  
Global Money and Power  
Theories of dependence and integration, politics of international finance; protectionism in trade; role of multinational corporations and cartels in the world economy; North-South relations. Prerequisite: PSCI 350 or equivalent. (NP)

PSCI 461 (3)  
International Conflict, War, and Peace  
Sources of international conflict and war. Analysis of different types and levels of conflict, such as guerrilla warfare, low-intensity conflict, and regional war. Means of conflict resolution and maintenance of peace. Prerequisite: PSCI 350 or equivalent. (NP)

PSCI 469 (3)  
Topics in International Relations  
Selected topics in international relations. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics. Prerequisite: One (1) upper-division international relations course or consent of instructor. (NP)

PSCI 470 (3)  
American Political Thought  
Analysis of the political ideas that have emerged in the United States, including the colonial period. Major themes include constitutionalism, republican government, civil liberties, and social justice in industrial society. (PT)

PSCI 472 (3)  
Feminist Political Thought  
Political theories and ideas concerning the role of women in political society. Different treatment of men and women in traditional political theories. Contemporary issues of feminism, power, and the role of women in politics. (PT)

PSCI 479 (3)  
Topics in Political Theory  
Selected topics in political theory. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics. Prerequisite: One (1) upper-division political theory course or consent of instructor. (PT)

PSCI 495A (1) 495B (2) 495C (3) 495D  
Independent Study  
Individual study or special project under the direction of a faculty member in political science. May be repeated for up to three (3) credit units. Prerequisite: Consent of instructor. (GP)

PSCI 499A (1) 499B (2) 499C (3)  
Independent Research  
Individual research under the direction of a faculty member in political science. May be repeated for up to three (3) credit units. Prerequisites: Political science major, senior status, and consent of instructor. (GP)

PSYCHOLOGY (PSYC)  

College of Arts and Sciences  

PSYC 100 (3)  
Introduction to Psychology  
Introduction to basic concepts, problems, and research methods in the science of psychology. Includes perception, cognitive processes, learning, motivation, measurement, development, personality, abnormal behavior, and biological and social bases of behavior, including cross-cultural issues. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 104 (3)  
Psychology for Living  
Psychological principles, theory, and research are discussed in the context of applied situations and self-improvement. Areas covered include stress and anger management, sexuality and relationship issues, drugs of abuse, choosing a career, improving study and test-taking skills, changing unwanted behaviors, parenting concerns, and selecting mental health services.

PSYC 110 (3)  
Critical Thinking in Psychology  
An introduction to critical thinking skills as they are applied in the science of psychology. Basic critical thinking skills covered include logical inferences and fallacies, distinguishing fact from opinion, scientific reasoning and interpreting research findings. Emphasis will be on using critical thinking skills to examine a number of contemporary issues involving human behavior, such as hypnosis, ESP, subliminal perception, persuasion and propaganda, drug legalization, AIDS prevention, and the effects of television. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 140 (3)  
The Individual in Society: Multiple Perspectives  
An interdisciplinary approach to the study of the impact of contemporary social issues on individuals in a societal context. Emphasizes the links between Psychology's perspective and other social science disciplines such as Sociology, History, and Communication. Social issues in both western and non-western societies will be addressed. Specific subjects will vary by semester, but may include the impact of the media on individuals, the interface between work and family life, school violence, discrimination, and sexual harassment.

PSYC 220 (3)  
Introductory Statistics in Psychology  
Basic statistical methods for analysis of data in psychology; descriptive and inferential statistics; hypothesis testing; parametric tests of significance. Introduction to linear regression and correlation; analysis of variance; non-parametric techniques. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 230 (3)  
Research Methods in Psychology  
The fundamentals of research methods in psychology. Focus will be on issues of reliability, validity, and ethical considerations in conducting research with humans and animals. Participation in designing and conducting experiments, data analysis and interpretation, and preparation of research reports. The requirements will include participation in low-risk psychological experiments or completion of additional short papers. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100 and 220.
PSYC 300 (3)  
Computer Applications in Psychology  
Introduction to computer systems, data input, use of software packages, computer ethics, and the role of computers in the study of human behavior. Introduction to various software applications including operating systems, word processing, statistical packages, and spreadsheets. Also covered are aspects of technical report writing in psychology and other common uses of computers in psychology. Two hours of lecture and two hours of activities. Prerequisite: PSYC 200.

PSYC 330 (3)  
Developmental Psychology  
Theories, methods and research on the development of perception, emotion, language, cognition, intelligence, personality and social behavior. Study of psychological and physical development. Prerequisite: PSYC 100.

PSYC 332 (3)  
Social Psychology  
Study of individuals and groups as they are affected by social interactions. Subjects include social influence (conformity, obedience), attitudes and attitude change, attraction, altruism, aggression, social perception and cognition, interpersonal influence, and group processes. Prerequisite: PSYC 100.

PSYC 334 (3)  
Psychology of Personality  
Theory and assessment techniques in personality research. Subject matter includes study of personality structure, development, personality dynamics, and determinants of personality. Prerequisite: PSYC 100.

PSYC 336 (3)  
Abnormal Psychology  
Causas, symptoms, prevention, and treatment of mental and emotional disorders; personality disorders, psychophysical disorders, anxiety disorders, psychoses, organic disorders, substance abuse disorders, and sexual disorders. Regular visits to local psychiatric facilities may be required. Prerequisite: PSYC 100.

PSYC 338 (3)  
Environmental Psychology  
Examines human behaviors associated with environmental problems, including global warming, ozone depletion, acid rain, destruction of the rainforests, and depletion of natural resources. Covers such subjects as the commons dilemma, rational choice, values, and incentives. Examines interventions designed to change human behavior such as conservation, public transportation, recycling, and environmental education. Prerequisite: PSYC 100.

PSYC 340 (3)  
Survey of Clinical Psychology  
Introduction to the field of clinical psychology with an emphasis on the application and evaluation of techniques of individual and group counseling and therapy. Includes methods, diagnosis, research, therapeutic techniques, educational and professional requirements, ethics. Prerequisites: PSYC 100 and 336.

PSYC 341 (3)  
Multicultural Perspectives in Psychology  
Theory and research in the study of psychosocial issues of racial, ethnic, and cultural groups, both in the U.S. and elsewhere. Subject matter includes examining the relationship of race, culture, and social class in psychological development and discussing the research implications for the multicultural study of psychology. Prerequisite: PSYC 100.

PSYC 342 (3)  
Group Dynamics  
Study of small group behavior and team effectiveness. Examines subjects such as group membership, systems theory, communication, group decision-making, group development and performance, and conflict management. Focuses on diverse perspectives in organizations and work groups. Cross-cultural work settings, and gender differences in leadership and group behavior. Theory and research about group dynamics will be applied to organizational, educational, and counseling settings.

PSYC 346 (3)  
Principles of Behavior Change  
An examination of theories and methods of behavioral change. Focuses on behavioral and cognitive-behavioral approaches to making positive changes in human behavior. Includes social learning theory and the application of learning principles to psychological and behavioral problems. Prerequisites: PSYC 100 and 336, or consent of instructor.

PSYC 348 (3)  
Adolescence  
Addresses the theories, methods, and research on the development of adolescence (ages 10-22). It emphasizes empirical research on physical, cognitive, and social development and considers the gender, ethnic and socioeconomic differences found in such development. Subjects include the timing of pubertal development, teen pregnancy, parent-adolescent relations, identity development, peer relations, the transition to adulthood, and adolescent psychopathology (suicide, depression, eating disorders). Prerequisite: PSYC 100.

PSYC 350 (3)  
Psychology of Women  
Theories and research in the study of the psychological characteristics of women in the social contexts of culture, class, and race, including sex and gender similarities and differences, the construction of gender roles, stereotypes, intimacy, work and achievement, motherhood, violence against women, mental and emotional adjustment, and aging. This is not an introductory course and is appropriate only for students who are familiar with basic women's studies issues. Prerequisite: PSYC 100.

PSYC 352 (3)  
Human Sexuality  
Examines physical, intrapsychic, and interpersonal aspects of sexuality; also anatomical, physiological, and emotional aspects, love and attraction, sexual dysfunction treatment, sexually transmitted diseases, sex and aging, legal aspects of sexual behavior, sexual exploitation, and eroticism in American culture. Presentations will be frank and explicit. Prerequisite: PSYC 100.

PSYC 354 (3)  
Educational Psychology: Psychological Perspectives  
An introduction to psychological research and theory on how instruction affects student learning. Learning, motivation, development, individual differences, psychological aspects of the classroom, and evaluation as related to the educative process. Credit may not be counted toward programs in the College of Education. Prerequisite: PSYC 100.

PSYC 356 (3)  
Psychology of Aging  
Theories and research in adult development and aging. Includes cognitive, social, psychological, and physical development; vocational and family changes, retirement, successful and unsuccessful adjustment patterns, issues of gender, social class, and racial/ethnic factors, and their impact on aging will be covered extensively. Prerequisite: PSYC 100.

PSYC 360 (3)  
Biopsychology  
Introduction to the biological bases of behavior, including material central to physiological psychology, comparative psychology, and sensory psychology. Issues to be addressed include but are not limited to neuroethology, behavioral endocrinology, evolutionary theory, sociobiology, and sensory systems. Prerequisite: PSYC 100 or BIOL 211.
PSYC 361 (3)  
Brain and Mind  
Examines the relationship between the brain, and how the brain produces behavior.  
Intended for non-majors, this course will review basic neuroanatomy and physiology and consider mind/brain relations in the context of psychoactive drugs, brain development, neurological disorders, sexual behavior, and cognitive abilities such as language, memory, thinking, and consciousness. Also offered as BIOL 348. Students may not receive credit for both. Prerequisite: PSYC 100.

PSYC 362 (3)  
Cognitive Processes  
Theoretical and research approaches to the study of thinking, problem-solving, language, concept learning, decision making and judgment, cognitive development, and cognitive structure. Prerequisites: PSYC 100, 220, and 230.

PSYC 363 (3)  
Drugs, Brain, Behavior and Society  
An introduction to the use of drugs in modern society. Emphasizes psychoactive drugs, including psychotherapeutic drugs and drugs of abuse. Explores the effects of drugs on the brain and behavior, psychological and biological factors responsible for their use and misuse, as well as social, cultural, historical and legal aspects of drug use. The content will range from general principles of drug action to focused information on specific classes of drugs.

PSYC 390 (3)  
Laboratory in Animal Learning  
Advanced research methods in animal learning and memory. Application of methodological principles to research in such areas as memory and motivation. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100, 220, 230, and 360.

PSYC 391 (3)  
Laboratory in Physiological Psychology  
Advanced research methods in physiological processes underlying brain function and behavior. Application of methodological principles to research in such areas as neuroanatomy and physiology. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100, 220, 230, and 360.

PSYC 392 (3)  
Laboratory in Sensation and Perception  
Advanced research methods in sensory and perceptual processes. Application of methodological principles to research in such areas as audition and vision. Two hours lecture and three hours laboratory. Prerequisites: PSYC 360 or 362.

PSYC 393 (3)  
Laboratory in Cognitive Psychology  
Advanced research methods in human cognitive processes. Application of methodological principles to research in such areas as memory and problem-solving. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100, 220, 230, and 362.

PSYC 394 (3)  
Laboratory in Comparative Animal Behavior  
Advanced research methods in animal behavior, including human behavior. Application of methodological principles to research in such areas as predator/prey interactions and mating behavior. Two hours lecture and three hours laboratory; one or more field trips required. Prerequisites: PSYC 100, 220, 230, and 360.

PSYC 395 (3)  
Laboratory in Developmental Psychology  
Advanced research methods in life-span developmental psychology. Application of methodological principles to research in such areas as cognitive and social development. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100, 220, 230, and 360.

PSYC 396 (3)  
Laboratory in Social Psychology  
Advanced research methods in social psychology. Application of methodological principles to research in such areas as group interaction and person perception. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100, 220, 230, and 332.

PSYC 402 (3)  
Psychological Testing  
Principles and practices of group and individual testing in aptitude, intelligence, interest, and personality. Theory, construction, evaluation, interpretation, uses, and limits of psychological tests. Reliability, validity, item analysis, norms, and test construction and selection. Ethical, sociocultural, and gender issues in testing. Two hours lecture and two hours of activities. Prerequisites: PSYC 100, 220, and 230.

PSYC 418 (3)  
Industrial/Organizational Psychology  
Current psychological principles and traditional theories in industry and work organizations. Selection, placement, training, and motivation of people in work situations. Environmental and human influences, system safety, and organizational development. Prerequisites: PSYC 100, 220, and 230.

PSYC 422 (3)  
Social Cognition  
Critically examines the theories, research, and practical applications centered around the basic issue of how people make sense of other people, themselves, and their social environment. Subject matter covered includes attribution theory, schemas and person perception, self-perception, prejudice and stereotyping, nonverbal communication, and social inference. Prerequisites: PSYC 100 and 332, or consent of instructor.

PSYC 424 (3)  
Advanced Psychological Statistics  
Advanced statistical methods for analysis of data in psychology. Sampling distributions, hypothesis testing, analysis of variance techniques. Applications to research design and evaluation of data in psychology. Two hours of lecture and two hours of activities. Prerequisites: PSYC 100, 220, and 300.

PSYC 428 (3)  
Community Psychology  
Study of theory, research, and the application of psychological principles in community settings. Examines community development issues such as mental health, service delivery, problem-solving, and program evaluation. May include a service-learning experience. Prerequisites: PSYC 100 and three (3) units of upper-division psychology courses.

PSYC 432 (3)  
Health Psychology  
Examines areas of health, illness, treatment, and delivery of treatment that may be elucidated by an understanding of psychological concepts and research. Explores the psychological perspective on these areas and considers how the psychological perspective might be enlarged and extended in the health care area. Prerequisites: PSYC 100, 220, 230, and three (3) units of upper-division psychology courses.

PSYC 440 (3)  
Topics in Psychology  
An intensive look at selected areas of psychology. Course description available before registration in the semester offered. May be repeated for credit as topics change, but only three (3) units may be counted toward the major. Students should check the Class Schedule for listing of actual topics. Prerequisites: PSYC 100, 220 and 230, or consent of the instructor.

PSYC 461 (3)  
Neuropsychopharmacology  
An examination of the ways that drugs affect the brain and behavior. Emphasis on psychoactive drugs, including antipsychotics, antidepressants, mood stabilizers, anxiolytics and drugs of abuse. Although social, cultural and political aspects of drug use will be briefly touched upon when appropriate, the primary focus of the course will be neurobiological and behavioral effects of the drugs. Prerequisite: PSYC 360 or consent of instructor.
PSYC 465 (3)  
*Human Neuropsychology*  
Principles and practice of human neuropsychology. Material will focus upon basic topics, theory and empirical research concerning human neuropsychology, brain-behavior relationships, and the clinical application of this knowledge base. Major emphasis will be placed upon these disorders of the central nervous system which affect cognitive and emotional processes. Prerequisites: PSYC 360 or 362, or consent of instructor.

PSYC 490 (3)  
*History of Psychology*  
Historical, philosophical, and scientific background of Psychology; major traditions and conceptual issues. This is the capstone course and should be taken by psychology majors in their final semester at CSUSM. Prerequisite: Completion of nine (9) units of upper-division psychology courses, including at least one upper-division laboratory class.

PSYC 495 (3)  
*Field Experience in Psychological Settings*  
Supervised field experience in on- and off-campus settings which provide psychological services, such as medical settings, mental health clinics, schools, and industry. Students will spend approximately six hours per week in a field placement for observation and participation, attend weekly class meetings, read related material, and prepare written reports. Application forms must be completed prior to enrollment. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Nine (9) units of upper-division psychology courses and consent of instructor. Special sections of this course may carry additional prerequisites.

PSYC 498A (1) 498B (2) 498C (3)  
498D (4)  
*Independent Study*  
Study plan must be approved by the fourth week of classes. Individual literary study (e.g., review of literature) under direction of a faculty member. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Completion of at least one (1) upper-division laboratory course in psychology and consent of instructor.

PSYC 499A (1) 499B (2) 499C (3)  
499D (4)  
*Independent Research (1-4)*  
Study plan must be approved by the fourth week of classes. Independent research investigation (e.g., empirical laboratory or field research) in collaboration with a faculty member. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Completion of at least one upper-division laboratory course in psychology and consent of instructor.

PSYC 520 (3)  
*Graduate Statistics*  
Introduction to theory and application of some of the more advanced parametric and nonparametric statistical techniques employed in psychological research. Topics will include but are not limited to multiple regression, analysis of covariance, factor analysis, causal modeling, and discriminant function analysis. Two hours of lecture and two hours of activities. Prerequisites: PSYC 424 or its equivalent and consent of instructor.

PSYC 530 (3)  
*Advanced Research Methods*  
Advanced study of research design, including experimental, quasi-experimental, and non-experimental designs, assessment of reliability and validity, and ethical use of human and animal subjects in research. Prerequisites: PSYC 424 or 520 and consent of instructor.

PSYC 550 (3)  
*Proseminar in Social/Personality Psychology*  
An exploration of research and theory in social and personality psychology. Advanced study of theories of personality and individual differences, social perception, group processes, attitudes, and the application of personality and social psychological theories across a variety of social, institutional, and cultural settings. A substantial portion of class time is devoted to the critical examination of current research articles and theoretical models in social/personality psychology. Students will make formal oral and written presentations of individual or group projects/assignments. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 552 (3)  
*Proseminar in Developmental Psychology*  
Advanced study of current research and theory in developmental psychology. Issues such as temperament, attachment, gender-identity, cognition, and emotion will be considered from a developmental perspective, as well as the influences of family relationships, social interactions, cultural values, education, and social policy on development. Class discussions and assignments will encourage critical and analytic thinking as well as active learning approaches. Students will make formal oral and written presentations of individual and/or group projects. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 554 (3)  
*Proseminar in Cognitive Psychology*  
Advanced study of human cognition. Focuses on theory and research in areas such as attention, categorization, memory, knowledge representation, learning and skill acquisition, psychology of language, thinking, reasoning, problem-solving, and judgment. Relevant issues in neuropsychology, cognitive development, and cognitive disorders will be included to complement the focus on normal adult performance. The role of culture in cognitive activity will be discussed. Discussions and assignments will center around a critical examination of current literature in these areas, including both integrative and interdisciplinary (cognitive science) perspectives. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 556 (3)  
*Proseminar in Comparative/Physiological Psychology*  
Advanced study of the biological bases of behavior. Students will explore current research and theory in neuroanatomy and physiology, endocrinology, evolutionary theory, and the adaptive significance of behavior. Where appropriate, issues of environmental change and its effects on health and species diversity will be addressed. Discussions and assignments will center around a critical examination of current research articles and theoretical models in comparative and physiological psychology. Students will make formal oral and written presentations of individual or group projects. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 558 (3)  
*Proseminar in Counseling/ Clinical Psychology*  
In-depth seminar designed to investigate and discuss current topics in counseling/clinical psychology, including assessment and intervention techniques, professional ethics, multicultural issues, and outcome research. Students will present formal written and oral presentations and lead class discussions of advanced issues relevant to counseling/clinical theory, research, or practice. Prerequisite: Enrollment in the graduate program or consent of instructor.
PSYC 600 (3)
Contemporary Issues in Psychology
Students will receive exposure to theoretical background, current research, and contemporary issues in counseling/clinical, cognitive, developmental, personality, and social/personality psychology. Presentations will be given by faculty, second year graduate students, and guest speakers in their fields of expertise. Professional issues including ethics in psychological research and practice, the dissemination of scholarly discourse, the status and coherence of the discipline, and its role in a multicultural, global society will also be explored. Prerequisite: Admission to the graduate program.

PSYC 680 (3)
Teaching of Psychology
An introduction to pedagogical theories, styles, and strategies as they apply to college teaching of psychology. Students will explore a range of options available to a college instructor in the presentation of course material, learning assessment tools, test construction, and grading. Different styles of learning, especially as they may apply to a diverse student body, will be explored. Students will have the opportunity to write and practice giving lectures, lead mock discussion groups, and construct mock exams. Students must enroll in PSYC 680 in the first semester of their second year of study. Graded Credit/No Credit. Prerequisites: Completion of fifteen (15) units in the graduate program and consent of instructor.

PSYC 681 (3)
Field Placement
Students will spend a minimum of ten hours per week working within a social service, mental health, educational or business/industry setting, with the goal of applying psychological knowledge to and learning about the delivery of services in that setting. Students will be supervised both on site, and by the course instructor. Students enrolled in the course will meet three hours per week as a group to discuss issues and readings relevant to their experiences. Graded Credit/No Credit. Prerequisites: Completion of nine (9) units in the graduate program and consent of instructor.

PSYC 690 (3)
Graduate Research
Faculty-supervised research. May be repeated, but no more than six (6) units of credit may be applied toward the Master's degree. Prerequisite: Admission to the graduate program and consent of instructor.

PSYC 699 (3)
Graduate Thesis
Preparation of the thesis. Graded Credit/No Credit. Prerequisite: Approval of thesis proposal, completion of twenty-seven (27) units in the graduate program, and consent of thesis advisor.

PSYC 700A (1) 700B (2) 700C (3)
Theory Extension
Registration in this course is limited to students who have received a grade of Satisfactory Progress (SP) in PSYC 699. Also, student must be registered in PSYC 700 when the completed thesis is granted final approval. May be repeated. Graded Credit/No Credit. Prerequisite: Prior registration in PSYC 699 with an assigned grade of Satisfactory Progress (SP).

SOCIOLOGY (SOC)
College of Arts and Sciences
SOC 101 (3)
Introduction to Sociology
Analysis and description of the structure and dynamics of human society. The application of scientific methods to the observation and analysis of social groups and processes. Students learn the language, tools, findings, and theories of the sociologist at work.

SOC 201 (3)
Introductory Statistics for the Social Sciences
Presentation and description of data, contingency table construction and interpretation, introduction to multivariate analysis, correlation and hypothesis testing.

SOC 202 (3)
Critical Thinking in Sociology
An introduction to critical thinking skills using the logic and reasoning of the social sciences and how these skills can be transferred to other fields. Emphasis on learning the criteria for analyzing and evaluating the validity of complex arguments. Includes causal reasoning, logical inferences and fallacies, distinction between knowledge and belief and ways in which different cultures reason from different assumptions with identifications and comparisons of these assumptions. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

SOC 203 (3)
The Child in Society
The social position of children in today's society: comparisons with the past and other cultures. Special focus on children's peer cultures, social problems confronting youth, institutions which socialize and control children.

SOC 204 (3)
Human Relationships Across the Life Course
A comparative analysis of a variety of human relationships across the life course, including processes of relationship development and change within areas of kinship, friendship, sexual intimacy, employment, and social organizations.

SOC 205 (3)
Exploring Social Problems
A critical examination of various social problems from global and multicultural perspectives, their causes and possible solutions (crime, unemployment, poverty, illiteracy, immigration, family disruptions, substance abuse, and environmental destruction). Discussions of race, ethnicity, class, and gender in relation to these problems in contemporary America and other countries.

SOC 300 (3)
American Society and Institutions
The development, structure, and organization of social institutions in American Society. Explores a central dilemma in sociology: why society needs social institutions and how social problems develop out of those same social institutions.

SOC 301 (3)
Social Psychology: Sociological Perspective
A sociological approach to the study of the influence of group life on behavior and personality. Themes may include attitude change, self-concept, identity, conformity, role theory, symbolic interaction. Credit may not be counted toward a Psychology major.

SOC 302 (3)
Power, Conflict and Change
Explores dynamics of power, conflict, and change and their influences on relational health in the ongoing process of human development; takes seriously the process of sustaining, or dismantling and reconstructing healthy relationships; challenges assumptions of dualistic opposition between the mind and the body; and, develops analytic and interactional tools for creating healthy human relations. May not be taken for credit by students who have received credit for SOC 395E.
SOC 303 (3)
Families and Intimate Relationships
A comparative analysis of the changing structure of families across various cultures and historical time periods. Interconnections between family life and broader economic and political forces are examined. Emphasis on mate selection, reproduction, child rearing, marital dissolution, remarriage, and the wide diversity of family forms in current U.S. society.

SOC 305 (3)
Sociology of Women
Cross-cultural analysis of women's roles. How various social institutions (the media, work, the family, education, religion) treat sex-role distinctions, and how the women's movement has confronted them.

SOC 306 (3)
Women and Crime
A critical analysis of women as offenders and victims of crime. How the social construction of gender impacts the processing of women in different stages of the criminal justice system.

SOC 307 (3)
Human Sexuality
Sexuality viewed as a normative and institutional pattern of human behavior. Analysis of research on contemporary attitudes and practices.

SOC 309 (3)
Aging and Society
Examines the social correlates of human aging, with a concentration on adulthood and old age. Presents multiple perspectives on the myriad interrelationships between aging and society, drawing on studies in biology, psychology, history, anthropology, political science, economics, and sociology. Particular attention will be given to comparisons on aging experiences across race/ethnic, sex, socioeconomic, cultural, and national lines. Students will utilize new information technologies to augment classroom activities and reading assignments. In addition, students may pursue a service-learning activity benefiting elder members of the local community.

SOC 310 (3)
Sociology of Mass Communication
Multidisciplinary examination of the complex interplay between mass communication and social life. Explores the diverse ways that flows of information shape and are shaped by various levels of social organization - encompassing individuals, families, communities, corporations, nations, and world systems. Students will critically engage all forms of mass media, ranging from traditional print, radio, and television media to the new information technologies.

SOC 311 (3)
Inequality
An interdisciplinary examination of inequality in opportunity, educational and occupational attainment, wealth and power, and its effects on individuals, groups, and societies. Will be analyzed by interdisciplinary readings from historical and contemporary sources and analyses of computerized data comparing social indicators by gender, race, and class. Diverse perspectives on the quest for equality of different social groups.

SOC 312 (3)
Film and Society
Addresses several aspects of the relation of film to modern society. These include how the major concepts of sociology (such as alienation, individualism vs. community, social class) are represented and reflected in film; in what ways the commercial film impacts modern society (for example, the structure of the cinema industry, its role in "mythmaking" as a component in the process of socialization); and how the documentary film serves as an informational and investigative medium. May not be taken for credit by students who have received credit for SOC 395B.

SOC 313 (3)
Race/Ethnic Relations
An examination of the origins and character of contemporary relations among ethnic and racial groups in the United States. Applications of sociological concepts and theories to contemporary issues such as affirmative action, immigration, and racial/ethnic stratification.

SOC 314 (3)
Health and Society
An analysis of health and sickness in American society, with comparison to other cultures. Overview of how behavior is defined as disease, rates of disease, responsibility for health, health care training, health care systems and access. May not be taken by students who have received credit for SOC 421.

SOC 315 (3)
Sex Roles
A consideration of the development of gender identity and gender socialization in a social context; how notions of femininity and masculinity are shaped within various social institutions - family, work, media, education - and how these social definitions change across the life course. Emphasis on how gender relations vary across communities - race and ethnicity, sexuality, age, socioeconomic class, and nationality.

SOC 316 (3)
Mental Health and Society
Focuses on a sociological understanding of the definition, recognition, treatment and causes of mental illness. Particular emphasis will be placed on the social factors associated with mental health and illness, especially those related to social class, race and ethnicity, and gender. Examines the processes through which the family, community, and mental health care institutions respond to problems in living and the historical interpersonal processes that shape these responses. May not be taken for credit by students who have received credit for SOC 422.

SOC 317 (3)
Youth and Society
The social position of youth in today's society: comparisons with the past and other cultures. Special focus on youth subcultures, social problems confronting youth, institutions which socialize and control youth.

SOC 318 (3)
Sociology of Sport
Assessment of the most central and controversial topics in the institution of sport. Subject matter addresses the intersection of sport with politics, gender, ethnicity, and education, both in North America and other countries. May not be taken by students who have received credit for SOC 395A.

SOC 319 (3)
Socialization and Personal Change
The effects of social institutions on the development of attitudes and behavior. Processes of childhood socialization, adult socialization, political socialization, and re-socialization will be examined with a consideration of how institutions (schools, jails, families) and social groups (peers) can shape roles and behavior.

SOC 320 (3)
Sociological Theory
Exploration of the nature of theory in sociology, and an analysis of selected social theorists. Prerequisites: SOC 101 or equivalent approved by the discipline.

SOC 321 (3)
Sociology of Deviance
Comparison of explanations of deviance. Analysis of deviant life styles and careers. Examination of societal efforts to control deviance.

SOC 322 (3)
Youth Gangs
A sociological examination of youth gangs. Factors related to formation and maintenance of youth deviant culture at different periods of time. Gang resistance to social control, variations by race, class, gender. Community and neighborhood influences.
SOC 323 (3)
Juvenile Delinquency
An examination through multicultural and interdisciplinary perspectives of the nature of juvenile delinquency and its causes. Choices in treatment, prevention, and control of delinquents in different historical and cultural contexts, and variations in policies affecting juvenile justice systems across nations.

SOC 324 (3)
Drugs and Alcohol in Society
Examines the role of legal and illegal drugs and alcohol in building and maintaining U.S. culture and subcultures. Investigates reasons for use, social justifications for use, criminalization and enforcement, treatment, and domestic and international implications.

SOC 325 (3)
Criminology
The nature and extent of crime in American society, theories of factors and influences that are related to criminal behavior, and the impact of crime on society.

SOC 327 (3)
Law Enforcement
Sociological analysis of law enforcement systems and the role of police. Problems affecting the control of crime, and the relation of police to the community.

SOC 328 (3)
Sociology of Violence
An in-depth examination of the most central issues pertaining to violence in American society. Interpersonal violence and institutional violence are the major focal points, with topic areas including domestic violence, rape, child abuse, terrorism, youth violence, police brutality, workplace violence, and violence in the mass media. Attention is devoted to both "cause" and "intervention" for each module under study. May not be taken for credit by students who received credit for SOC 395D.

SOC 329 (3)
Victims and Criminals
Sociological analysis of victim roles and relations between criminals and victims with special attention to differences in gender, race, and social class. Examinations of different perspectives on victimization and societal efforts to assist victims including crisis intervention, victim/witness services, compensation and restitution.

SOC 331 (3)
Social Welfare Policies and Services
The nature and development of the social welfare system and its policies in the United States. Examination of the delivery of human services through governmental and private agencies, social work and other human service careers, the role of volunteerism, and comparisons with social welfare systems in other countries.

SOC 333B (3) 333C (3)
Human Service Field Work
Course combines field work experience in community service organizations in San Marcos and other North County communities with a seminar examining social issues raised in these programs. Course will not fulfill internship requirements for the major. Prerequisite: Consent of instructor.

SOC 335 (3)
Sociology of Work and Occupations
The impact of work on individuals; the nature of different types of work, including professions and jobs in bureaucracies; the changing composition of the labor force.

SOC 337 (3)
Women and Organizations
An examination of women's changing roles in organizations including patterns of occupational mobility. Special consideration of tokenism, dual-careers, and changing organizational practices and policies related to women.

SOC 345 (3)
Hispanic and Hispanic-American Communities
Comparative analysis of selected Hispanic communities, with a special emphasis on Chicanos communities in California. Formation and change; new immigrants; adaptation and response.

SOC 347 (3)
African American Communities
Historical, demographic, and cultural examination of the social communities of African-Americans.

SOC 351 (3)
Sociology of Religion
Analysis of the interplay of society and religion; the clergy as an occupational group; the relationship of religious ideology to social change.

SOC 353 (3)
Social Change and Social Movements
Forms and processes of social change (modernization, industrialization, urbanization, revolution) in the United States and other countries. The relationship of social change to collective behavior. Development of social conflict, ideologies, and mass organizations; consequences of the success and failure of social movements.

SOC 360 (4)
Research Methods
The logic of procedures of social science methodology. Range of types of methods available for various types of social research. Problem formulation, design, data collection, and analysis of a research project. Prerequisite: SOC 201 or equivalent approved by the discipline.

SOC 395 (3)
Current Issues in Sociology
In-depth examination of selected topics and timely social issues. May be repeated for credit as topics change for a total of six (6) units.

SOC 396 (3)
Topics in Criminology and Criminal Justice
In-depth examination of selected and timely topics in the field of criminal justice and criminology. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics.

SOC 401 (3)
History of Social Theory
European and American foundations associated with the development of modern sociological theory, with emphases on theorists who have had a strong impact on modern sociology.

SOC 411 (3)
Social Stratification and Classes
Nature and systems of differentiation and ranking in societies, emphasis on changes in class structure in the United States; comparative analysis of life chances and social mobility in the United States and other societies.

SOC 413 (3)
Sociology of Education
The relationship of the educational system to the social structure in the United States and other societies. The school or university as a social organization. Class, ethnic, gender, and other social factors affecting educational opportunity and outcome. Roles of teachers, students, and administrators.

SOC 415 (3)
Divorce and Remarriage
Examines the interpersonal and social consequences of separation and divorce among intimate partners. The prevalence and causes of divorce, as well as the consequences of separation and divorce for couples, children, and extended family members will be explored. Models and evidence of successful responses to separation and divorce will also be considered. Remarriage and blended families will be examined with respect to the types of relationship challenges and successes that occur.
**SOC 417 (3)**  
Family Violence  
Examines the prevalence, causes, and consequences of the various types of violence that occur within family and intimate relationships. Historical trends and proposed solutions to ending such violence will be explored. The nature of specific forms of violence within families — children abuse, domestic violence, and elder abuse — will be considered with emphasis on both the interpersonal dynamics and broader sociopolitical forces involved.

**SOC 419 (3)**  
Inequalities and Health  
A sociological understanding of social class, race, and gender differences in health and health care utilization. Historical and international comparisons of the organization and access to health care contribute to an understanding of the social and personal consequences of inequalities in care delivery.

**SOC 420 (3)**  
Public Health and Disease Prevention  
Examines social and individual efforts to control disease and maintain health. Investigates public health efforts historically and cross-culturally, current U.S. public health efforts, public health as social control, self-responsibility and health, health economics and prevention, community-activism and alternative-medicine approaches to health.

**SOC 423 (3)**  
Sociology of Stress and Coping  
Nature of psycho-social stressors; individual and collective responses; stress and health; stress and work. Social support and other mediators of stress effects.

**SOC 424 (3)**  
Women and Health  
An exploration of women and health. Analysis of women's health maintenance and disease prevention; gender bias in medical treatment; medicalization of "natural" processes; women and the health system, medical-legal system, and bio-medical research. Subject matter may include, but is not limited to: eating disorders, contraception, sexually transmitted diseases, fertility from pregnancy to birth, stress and mental illness, menopause, breast cancer, alternative and traditional healing systems. Issues of social class, nationality, race, culture and sexual preference are emphasized throughout. Recommended but not required: previous coursework in the area of health and illness. Also offered as WMST 424. Students may not receive credit for both.

**SOC 425 (3)**  
Population Studies  
The measurement and study of major trends and differentials in fertility, mortality, population growth, and age-sex composition in the United States and other countries. Emphasis on social and cultural determinants and consequences.

**SOC 427 (3)**  
Social Gerontology  
Demographic trends, economic status, family relationships, physical and social needs of the elderly.

**SOC 429 (3)**  
Death and Dying  
Comparative analysis of the social, psychological, and organizational study of dying; ethical issues, cultural practices.

**SOC 431 (3)**  
Social Organizations  
Characteristics of large organizations; approaches used to study organizations; the nature of bureaucracies. Theoretical and empirical analyses of organizational processes.

**SOC 433 (3)**  
Urban Sociology  
Study of urban growth and its impact. Themes explored include metropolitan, suburban, and urban regional development and change; population density; diversity and migration; urban/suburban lifestyles; urban/suburban institutions and important societal trends. Local, national, and cross-national cases are examined.

**SOC 441 (3)**  
Political Sociology  
Social organization of political processes. Political socialization and political behavior; conflict and consensus; political institutions and institutionalization; power and power structures.

**SOC 442 (3)**  
Analysis of the Justice System and Criminal Law  
Sociological examination of the juvenile and adult justice systems in the United States within the context of race, gender and social inequality. Overview of the processes of the justice system from the commission of crimes and offenses through sentencing and appeal procedures, with special consideration of the role and applications of criminal law.

**SOC 443 (3)**  
Sociology of Law  
The origin and development of legal norms in various social settings; special attention to the difference between sociological and legal reasoning; law as an instrument of social change; law as a profession.

**SOC 444 (3)**  
Perspectives on Corrections and Penology  
Critical analysis and evaluation of different institutional and community-based punishment and correction models, examined both historically and in contemporary American society.

**SOC 445 (3)**  
White Collar Crime  
Critical examination of the history, causes, consequences and prevention of economic crime and the abuse of power in corporations, businesses, unions, and government. How society responds to this costly form of deviance.

**SOC 449 (3)**  
Comparative Analysis of Criminal Justice Systems  
Global examination of selected criminal justice systems comparing differences in the delivery of legal, correctional and political/cultural objectives across different nations.

**SOC 480 (3)**  
Seminar in Comparative Sociology  
A capstone course for majors, drawing upon theories and research in earlier courses. The specific topic of the comparative analysis will vary; comparative family systems, comparative study of race and ethnicity, comparative political systems, comparative educational systems. Prerequisites: SOC 201, 320, and 360.

**SOC 485 (3)**  
Seminar on Sociological Topics  
Selected topics for the basis of an in-depth consideration. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics.

**SOC 486 (3)**  
Topics in Children, Youth, and Families  
A seminar on selected topics for the basis of an in-depth concentration in children, youth, and families. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics.

**SOC 487 (3)**  
Topics in Aging and the Life Course  
A seminar on selected topics for the basis of an in-depth consideration in sociology of aging and the life course. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule of listing of actual topics.
SOC 48B (3)
Topics in Health and Mental Health
In-depth consideration of special topics in
health and mental health in a seminar format.
Topics will depend on student interests and
contemporary health and mental health
issues. May be repeated for credit as topics
change for a total of six (6) units. Students
should check the Class Schedule of listing of
actual topics.

SOC 495 (3)
Internship in Community Service
Selective placement of students in work-
study situations in organizations which pro-
vide service to the local community. Includes
participation in a coordinating seminar.
Prerequisite: Consent of instructor.

SOC 496 (3)
Internship in Research
Selective placement of students in work-
study situations in social research settings.
Includes participation in a coordinating semi-
nar. Prerequisites: SOC 201, or equivalent,
SOC 360, and consent of instructor.

SOC 498A (1) 498B (2) 498C (3)
Independent Study
Selected studies for the basis of an in-depth
consideration. Prerequisites: Senior standing
and consent of instructor.

SOC 499A (1) 499B (2) 499C (3)
Independent Research
Selected research for the basis of an ind-
depth consideration. Prerequisites: Senior
standing and consent of instructor.

SOC 501 (3)
Pro-Seminar in Sociological Practice
Introduces students to the range of
approaches to the field of sociological prac-
tice that include evaluation/needs assess-
ment research, clinical sociology, community
organizing, and program development in
social service agencies. Examines the con-
tributions of classic studies in these areas as
well as the theoretical, methodological, and
political challenges posed to traditional
approaches by feminist theory and methods,
critical race theory, and participatory action
research. Prerequisites: Enrollment in the
Master of Arts in Sociological Practice
Program and consent of instructor.

SOC 515 (3)
Social Research Process
Focuses on applied and evaluation social
research, that is research that is carried out
for others. Addresses actual problems of
conducting social research in diverse com-
nunities. Various factors in evaluation and
applied research are examined: key con-
cepts, uses, political dimensions, and exam-
les of program evaluations. Special consid-
eration is given to methods for tailoring
research strategies to different environments,
setting up diagnostic procedures, monitoring
programs, determining accountability and
designing impact assessments. Incorporates
practice in the methods of applied social
research: sampling, question wording, data
collection techniques of interviewing, mail
questionnaire design, telephone surveys,
focus groups, and group interviewing.
Sensitivity to the ethnic, gender, class, and
age characteristics of those to be studied
will be emphasized. Students will begin their
own applied research project. Prerequisites:
Enrollment in the Master of Arts in
Sociological Practice Program or consent of
instructor.

SOC 517 (3)
Seminar in Sociology of the Life Course I
Provides advanced training in the sociologi-
cal study of childhood, adolescence, and
young adulthood. Interconnections between
social processes and individual development
during the first three decades of life will be
addressed from a number of theoretical and
methodological perspectives. The impor-
tance of social contextual factors such as
intergenerational relationships, gender,
socioeconomic conditions, race/ethnicity,
and demographics for shaping one's early
life course will be explored in detail.
Prerequisite: Enrollment in the Master of Arts
in Sociological Practice Program or consent
of instructor.

SOC 519 (3)
Seminar in Sociology of the Life Course II
Focuses on the sociological study of adul-
tood and old age. Elucidates reciprocal links
between the aging self and society over the
life course. Considerable attention will be
paid to exploring historical and current
influences of political, legal, and economic
policies on individual lives. In addition, more
micro-level issues related to parenting adult
children, changes in health, work and retire-
ment, widowhood, and death/dying will be
explored. Prerequisite: Enrollment in the
Master of Arts in Sociological Practice
Program or consent of instructor.

SOC 521 (3)
Seminar in Health Institutions and Policies
Examines health care institutions and policies
in the United States and abroad, focusing on
the cultural and socio-economic environ-
ments that shape them. Focuses on the fol-
lowing issues: 1) historical and contempo-
rary developments of health care institu-
tions and policy; 2) impact of technological inno-
vation and governmental regulation on health
care institutions and policy; 3) the health care
labor force; 4) comparative analysis of the
place of health care institutions and policy in
social and cultural systems; and 5) varying
institutional and health policy needs among
diverse groups based on race, class, and
gender. Prerequisite: Enrollment in the
Master of Arts in Sociological Practice
Program or consent of instructor.

SOC 523 (3)
Seminar in Community Mental Health
Examines community-based mental health
treatment, focusing on historical and contem-
porary developments shaping the com-
munity mental health movement. Addresses
the following issues: 1) history of communi-
ty mental health; 2) community treatment and
deinstitutionalization; 3) models of commu-
nity mental health; 4) the role of psychiatrists
and other mental health professionals; 5)
case management and the role of informal
support networks; 6) crisis intervention and
the role of hospital and non-hospital alterna-
tives; 7) the role of prevention and chronic
mental illness as a lifestyle; and 8) patient
rights and the ethics of community mental
health. Prerequisite: Enrollment in the
Master of Arts in Sociological Practice
Program or consent of instructor.

SOC 525 (3)
Seminar in the Community and the Family
Families play a central role in the develop-
ment of individuals and communities, and
communities can play an equivalent role in
supporting families. Examines diverse com-
munities in terms of the resources/services
available in relation to the conditions and
needs of families. Addresses family struc-
ture, composition, and well-being in relation
to governmental policy and programs (e.g.,
AFDC, WIC, etc.), and the significance of
differences in race, ethnicity, and class on
family patterns and values. Prerequisite:
Enrollment in the Master of Arts in
Sociological Practice Program or consent
of instructor.
SOC 527 (3) Seminar in Social Welfare and Social Policies
Provides the student with an understanding of social welfare policies and processes. The underlying antecedents to the historical development of social welfare and social policies in the United States will be examined, and comparisons will be made to welfare systems in other countries. The development of social policies applied to families, children, and the aging will be analyzed with a special focus on the impact of social welfare and policies on diverse populations. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 529 (3) Seminar in Criminological Theories and Policies
Provides a systematic examination of classical and contemporary theories of crime and delinquency. The conceptual development, historical and cultural background, critical assessment of policies, and scientific efficacy of different theories will be studied. The prominence and success of criminal justice policies developed on the basis of different theories will be studied. The seminar will address policy recommendations.

SOC 575 (3) Qualitative Research Methods
Students will learn the theory and practice of approaches to qualitative research, emphasizing field research methods and qualitative interviewing. Subjects covered will include: Observing and conducting interviews, maintaining relations in the field, pursuing members' meanings, and the impact of gender, race and class in field research. Centers on processes relevant to writing and analyzing field notes and interview transcripts that will lead to a finished ethnography.

SOC 610 (3) Social Theory and Public Policy
Provides students with training in the practical application of social theory to understanding and acting on social problems. Coursework will emphasize methods for realizing an integration between theory and practice in the conduct of one's professional activities across a broad range of potential careers. Particular emphasis is placed on theoretically guided analyses of the creation, maintenance, and change of social policy. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 620 (3) Quantitative Research Methods
Focuses on strategies for data analysis, data preparation (coding, data entry), quantitative and qualitative research (univariate, bivariate, multivariate), the presentation of quantitative findings (charting of tables, graphs), and the writing of conclusions and recommendations from evaluations. Considers the social impact and ethics of evaluation research, pitfalls encountered in applying social research techniques in the real world, and ways to assess evaluation research. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 630 (3) Critical Perspectives in Human Services Delivery
Designed to assist students in understanding human service delivery from the diverse perspectives of race, gender, class, age, sexuality, and disability of those who receive services. Focuses on: 1) the historical development of social services in varying economic, political, social, and philosophical climates; 2) critical assessments of the theories and practices guiding social service delivery; and 3) the effectiveness of human services in meeting the needs of diverse groups. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 640 (3) Sociological Advocacy
Trains advanced students in methods for effectively communicating sociological theory and research to non-sociologists. The intent is to enable students to share their sociologically informed observations with various constituencies, including: 1) employers and co-workers, 2) local, national, and international communities, and 3) political and economic elites and their organizations. Students will be encouraged to be cognizant of the perspectives and sensibilities of those from different racial, ethnic, class, gender, age, sexual preference/orientation groups and those with different types of disabilities. Written and oral presentation strategies will be covered. Particular emphasis will be placed on promoting effective report and proposal writing as well as creating particularly useful graphics for presentations. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 650 (3) Seminar in Current Issues in Criminal Justice and Juvenile Justice
Reviews the American criminal justice system for adults and for juveniles. Trends in law enforcement practices in the juvenile justice system, the organization of the courts and the correctional system, and the interaction of these systems with individuals varying in gender, race, ethnicity, and social class will be examined. There will be a special emphasis on the measurement of system effectiveness. Factors related to crime such as drugs and youth gangs will also be emphasized. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 652 (3) Seminar in the Evaluation of Crime Prevention and Delinquency Programs
Provides an overview of current developments in the study of crime and delinquency, with an emphasis on evidence from the most recent evaluations of innovative preventive and corrective programs implemented in the United States and in other countries. Sensitivity to issues of race, ethnicity, gender, and social class in the evaluation of criminal justice programs will be addressed. Discussions will center on program designs, evaluation methods, and current efforts to redress problems in criminal justice. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 670 (3) Field Placement Preparation
In preparation for the field placement research project, develops an in-depth understanding of the work of social service agencies. Students will meet in class sessions to discuss their experiences and plan research activities. Prerequisites: SOC 501, 515, 610, 620, and 630.

SOC 675 (3) Field Placement
Continuation of the efforts initiated in SOC 670 and completion of a final project. Projects may include qualitative and quantitative evaluation studies, design of educational or training materials, and grant proposals. Preparation in writing. Prerequisites: SOC 501, 515, 620, 630, 670 and advancement to candidacy.

SOC 685 (3) Seminar in Topics
Seminars on topics supportive of the concentration areas in this program will be offered on an occasional basis. May be repeated for credit as topics change for a total of six (6) units.
SOC 690 (3)  
Thesis Research  
In preparation for the thesis, develops an in-depth understanding of the research project. Students will meet in class sessions to discuss their experiences and plan research activities. A proposal for a final thesis will be developed in this thesis course. Corequisites: SOC 670. Prerequisites: SOC 501, 515, 610, 620, and 630.

SOC 695 (3)  
Thesis Research  
Continuation of the efforts initiated in SOC 690 and completion of a thesis. Research may include qualitative or quantitative analysis. Corequisites: SOC 675. Prerequisites: SOC 501, 515, 610, 620, 630, 690 and advancement to candidacy.

SOC 699 (3)  
Independent Research  
Selected research experiences for the basis of in-depth consideration. Research projects supportive of student's primary concentration interests may be pursued. Prerequisites: SOC 515, 610, 620, 630, and consent of faculty advisor.

SOC 700A (1) 700B (2) 700C (3)  
Field Placement/Theesis Extension  
Registration in this course is required of students who have received a grade of Satisfactory Progress (SP) in SOC 675 or SOC 695. Graded Credit/No Credit. Prerequisite: Prior registration in SOC 675 or SOC 695 with an assigned grade of Satisfactory Progress (SP).

SPANISH (SPAN)  
College of Arts and Sciences  

SPAN 101 (4)  
Beginning Spanish I  
An introduction to the Spanish language and Spanish-speaking cultures, with emphasis on the development of communicative skills and grammatical structures. Language laboratory practice is a mandatory component of the course. Though no prior knowledge of Spanish is assumed, to promote language acquisition this course is conducted in Spanish.

SPAN 102 (4)  
Beginning Spanish II  
Continuation of SPAN 101. Further study of the Spanish language and Spanish-speaking cultures, with emphasis on the development of communicative skills and basic structure. Language laboratory practice is a mandatory component of the course. At time of enrollment in course basic knowledge of Spanish equivalent to that demonstrated upon successful completion of Spanish 101 is mandatory. Conducted in Spanish. Prerequisite: SPAN 101 or equivalent.

SPAN 150 (5)  
Accelerated Beginning Spanish  
A beginning-level Spanish course taught at an accelerated pace. Emphasis on the group discussion of communicative skills, basic structures, and cultural competence. Covers the equivalent of Spanish 101 and 102 in one semester. Attendance in a language laboratory is a mandatory component of this course. Intended for students who have had significant exposure to beginning Spanish but are not ready to begin intermediate Spanish at CSUSM. Recommended: At least two years of high school Spanish, or equivalent. Prerequisites: Requires consent of Foreign Language Proficiency Assessor to enroll.

SPAN 199 (1)  
Intensive Spanish Practice  
This non-traditional course requires that students live in an off-campus group setting, typically for a weekend period (Friday through Sunday). During this time, students are permitted to speak only Spanish. Structured activities include: workshops on grammar, literature, composition, accent use, group discussions, student participation in skits, and community excursions. Note: This course does not fulfill the graduation requirement for a Language Other than English. Students are required to attend a mandatory orientation session prior to the scheduled intensive weekend, and should contact the instructor for further details. Conducted in Spanish. Prerequisite: SPAN 102 or equivalent and consent of instructor.

SPAN 201 (3)  
Intermediate Spanish I  
Continuation of Spanish language fundamentals. Emphasis on the development of the skills of reading, listening comprehension, speaking, writing, and on culture. Language laboratory practice is a mandatory component of the course. At time of enrollment in course basic communicative skills (reading, writing, speaking, listening) in Spanish, equivalent to those demonstrated upon completion of Spanish 102, are mandatory. Conducted in Spanish. Prerequisite: SPAN 102 or equivalent.

SPAN 202 (3)  
Intermediate Spanish II  
Continuation of SPAN 201. Further development of the four skills, with an emphasis on reading, composition, and grammar review. Requires practice in a self-paced language laboratory. Conducted in Spanish. Prerequisite: SPAN 201 or equivalent.

SPAN 205 (3)  
Intermediate Oral Practice  
Designed to increase verbal communication skills in Spanish. Students will participate in group discussions, and in activities such as oral presentations, skits, and role-playing. Subject matter will include both practical, everyday situations, as well as academically related themes (to prepare students wishing to enter upper-division Spanish courses). Students will also be introduced to cultural factors affecting non-verbal communication in Spanish. Intended for non-native speakers of Spanish. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent.

SPAN 210 (3)  
Intermediate Reading and Composition  
Students will be guided through structured activities to increase their competence in reading and writing in Spanish. Readings will focus on topics from a variety of written sources (literature, print media, etc.). Students will be introduced to the process of writing in Spanish, and will complete compositions and written activities based on the readings studied. Intended for students who may need more work in these areas prior to attempting upper-division Spanish courses. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent.

SPAN 250 (3)  
Spanish for Spanish Speakers  
Designed for students who come from a Spanish-speaking background, yet who have completed little or no formal study of Spanish. Through intensive review of grammar, along with writing and speaking exercises aimed at strengthening proficiency in these areas, the course will emphasize the development and refinement of communication skills. Special attention will be focused on the problems particular to bilingual students, such as orthography, the use of "Spanish," and the idea of "standard Spanish" vs. regional variations. Conducted in Spanish.

SPAN 286 (1-6)  
Intermediate Spanish in a Study Abroad Setting  
Study of Spanish language and/or Hispanic culture, at an intermediate level. Course completed in a study abroad setting, where students complement their in-class lessons with real-life opportunities to use Spanish in practical, everyday situations. Conducted in Spanish. May fulfill the graduation requirement for a Language Other than English only with prior consent of Spanish faculty advisor. May be repeated for credit. Prerequisite: SPAN 102 or equivalent.
SPAN 311A (3) Advanced Spanish for Non-Native Spanish Speakers
Designed to assist non-native Spanish speakers in their continued development of Spanish language skills. Emphasis on grammar review, and specific areas of Spanish typically problematic for non-native speakers. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent.

SPAN 311B (3) Advanced Spanish for Native Spanish Speakers
Designed to assist native speakers of Spanish in their refinement of Spanish language skills. Emphasis on grammar review and specific areas of formal Spanish typically problematic for native speakers. Conducted in Spanish. Prerequisite: SPAN 202 or 250 or equivalent.

SPAN 312 (3) Theory and Practice of Oral and Written Composition
Grammar review and advanced writing and oral practice based on readings. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent.

SPAN 314A (3) Advanced Spanish for Teachers
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of professionals in the field of education. Conducted in Spanish. May not be taken for credit by students who have received credit for SPAN 316A. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 314B (3) Advanced Spanish for Business
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of the business professional. Conducted in Spanish. May not be taken for credit by students who have received credit for SPAN 316B. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 314C (3) Advanced Spanish for Medical Personnel
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of the medical professions. Conducted in Spanish. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 314D (3) Advanced Spanish for Social Services
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of the social service professional. Conducted in Spanish. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 314E (3) Advanced Spanish for Law Enforcement
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of the law enforcement professional. Conducted in Spanish. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 314F (3) Advanced Spanish for Specific Purposes
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and communication specific to the needs of a particular profession or industry. (i.e., tourism, agriculture, technology) May be repeated for a total of nine (9) units of credit. Conducted in Spanish. Recommended: SPAN 311. Prerequisite: SPAN 202 or equivalent.

SPAN 315 (3) Reading and Analysis of Hispanic Literary Texts
Introduction to the principles of literary analysis, based on readings and discussion of Hispanic literature. Literary genres include fiction, theatre, essay, and poetry from Spain and Spanish America. Conducted in Spanish. Prerequisite: SPAN 311A or 311B or equivalent.

SPAN 316 (3) Advanced Spanish for the Professional
Intensive oral and written practice focused on vocabulary, simulation and communication in specialized professions such as medical, law enforcement, pedagogical, and business. Conducted in Spanish. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: SPAN 202 or equivalent.

SPAN 317 (3) Spanish Sociolinguistics
A study of the ethnic and linguistic diversity that has shaped the Spanish language from its origins to its use today around the world. Lexical, semantic, phonological, morphological, and syntactic structures that define the different varieties of Spanish today are explored, as are issues of language use throughout the Spanish speaking world. Conducted in Spanish. Prerequisite: SPAN 311 and 312 or equivalent.

SPAN 320 (3) Techniques for Professional Translation and Interpretation in Spanish
Lexical, syntactical, stylistic, cultural, and practical applications in Spanish/English, English/Spanish translation. Conducted in Spanish. Prerequisites: Proficiency through SPAN 312 or equivalent as well as completion of a college-level English composition course.

SPAN 331 (3) Introduction to Spanish Linguistics
An introduction to the analysis of the sounds, structures, and grammatical patterns of contemporary Spanish from a modern linguistic perspective. Conducted in Spanish. Prerequisites: SPAN 311 and 312 or equivalent.

SPAN 350A (3) Spanish Civilization
Analysis of the character and personality of the Spanish people as revealed through literary and artistic works. Conducted in Spanish. Prerequisites: SPAN 311A or 311B or equivalent.

SPAN 350B (3) Spanish American Civilization
Analysis of the character and personality of the various regions and nations of Spanish America as revealed through literary and artistic works. Conducted in Spanish. Prerequisite: SPAN 311A or 311B or equivalent.

SPAN 366 (1-6) Advanced Spanish in a Study Abroad Setting
Study of Spanish language and/or Hispanic culture, at an advanced level. Course completed in a study abroad setting, where students complete their in-class lessons with real-life opportunities to use Spanish in a practical, everyday situations. Conducted in Spanish. May be repeated for credit. Prerequisites: SPAN 202 or equivalent and consent of instructor.

SPAN 370 (3) Hispanic Literatures in English Translation
Reading and discussion of major works of Hispanic literature read in English translation. Conducted in English. Note: This course does not fulfill the graduation requirement for a Language Other Than English. Does not count for Liberal Studies Special Field in Spanish.

SPAN 380 (3) Narrative to Film
Designed to explore similarities and differences between the narrative mode and film. Analyzes a series of novels that have been made into films. Includes theoretical aspects of writing and film. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 396A (1) 396B (2) Community Service Project
Supervised projects in community service that involve use of Spanish. May be repeated for credit. May not be counted toward the major or minor. Graded Credit/No Credit. Prerequisite: SPAN 202 or equivalent.
SPAN 399 (3)  
Internship/Field Work in Community and University Service  
Supervised projects in academically related tasks in community agencies or University-related academic service projects using the Spanish language. Projects may include working with schools or community agencies, developing group or individual projects, translating and interpreting, tutoring on campus, etc. May be repeated for a total of nine (9) units of credit. Conducted in Spanish. Prerequisites: SPAN 311A or 311B and 312.

SPAN 400A (3)  
Hispanic Prose Fiction  
Reading, discussion, and critical analysis of works of Spanish or Spanish-American prose fiction. Will cover novel and short story by authors such as Cervantes, Galdós, Pardo Bazán, Azuela, Borges, Fuentes, and García Márquez. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 400B (3)  
Hispanic Poetry  
Reading, discussion, and critical analysis of works of Spanish and Spanish American poetry. Will cover poetry works such as El Cid and such authors as Sor Juana Inés de la Cruz, Quevedo, Bécquer, Dario, Paz, Neruda, Parra, Machado, Castellanos and Garcia Lorca. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 400C  
Hispanic Theatre (3)  
Reading, discussion, and critical analysis of works of Spanish and Spanish American theatre. Will cover works by playwrights such as Lope de Vega, Tirso de Molina, Calderón, Zorrilla, Villalba, and Gámbaro. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 400D (3)  
Hispanic Essay  
Reading, discussion, and critical analysis of works of Spanish and Spanish-American essay. Will cover works by authors such as Gracián, Larra, Madariaga, Martí, Sarmiento, Rodó, Paz, and Poniatowska. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 410A-Z (3)  
Author Studies  
Critical analysis of the major works of an Hispanic author in any historical period or geographical location, with attention to biography, culture, and literary background. Conducted in Spanish. The content of each course is reflected by its title. May be repeated as author changes for a total of nine (9) units of credit. Prerequisite: SPAN 315 or equivalent.

A. Allende, Isabel  
B. Borges, Jorge Luis  
C. Calderón de la Barca, Pedro  
D. Castellanos, Rosario  
E. Cervantes y Saavedra, Miguel de  
F. Cortázar, Julio  
G. Cruz, Sor Juana Inés de la  
H. Dario, Rubén  
I. Esquivel, Laura  
J. Fuentes, Carlos  
K. García Lorca, Federico  
L. García Márquez, Gabriel  
M. Martín Gaite, Carmen  
N. Neruda, Pablo  
P. Paz, Octavio  
Q. Puig, Manuel  
R. Quevedo, Francisco de  
S. Rosas, Fernando de  
T. Ruiz, Juan  
U. Rulfo, Juan  
V. Vázquez, Luisa  
W. Vega, Lope de  
X. Yáñez, Agustín  
Y. Zayas and Sotomayor, María de  
Z. Others

SPAN 415 (3)  
Hispanic Women Authors  
Exposes students to the literary works of Hispanic women authors such as María de Zayas, Sor Juana Inés de la Cruz, Carmen Martín Gaite, Elena Poniatowska, Rosario Fernández, and others. Includes an introduction to feminist literary criticism. Conducted in Spanish. Prerequisite: SPAN 315 or equivalent.

SPAN 421 (3)  
Viva el Teatro — Spanish Theatre in Performance  
Offers an active interdisciplinary approach to the study of theater. Following the presentation of a historical and theoretical background, students will approach and analyze texts both as works of literature and as theater in performance. Issues of gender, class, community, and sexuality contained in the plays will be explored within an aesthetic context. The critical imagination of participants will analyze and appreciate different historical and cultural perspectives needed for bringing contemporary meaning to texts from other cultures and periods. This appreciation of perspectives will include considerations of social, cultural, political, religious, economic, and philosophical systems which pose the major problems that theatre art addresses and confronts individuals in any given age. Conducted in Spanish. Recommended: TA 301. Also offered as TA 421. Two hours of lecture and two hours of theatre activities. Students may not receive credit for both. Prerequisite: SPAN 311A or 311B or higher, or instructor's consent.

SPAN 422S (3)  
Literatura Chicano/a  
Designed to offer a window to the growing space produced by Chicano/a literature. Approaches texts focusing on the construction of identity and representation. Concentrates on contemporary Chicano/a literature beginning with the 1960's and extending to the present. Major contemporary works began being published during these decades. Conducted in Spanish. May not be taken for credit by students who have received credit for SPAN 422. Prerequisite: SPAN 315.

SPAN 450A (3)  
Seminar in Language  
Seminar in a specialized topic dealing with the Spanish language as it has developed, changed, and reached its present form in Spain and Latin America. Concentration on a specific element in the historical, phonetic or semantic evolution of Spanish. Conducted in Spanish. Prerequisites: SPAN 311A or 311B, and 312, 317 or 331.

SPAN 450B  
Seminar in Literature  
Seminar in a specialized topic in the literature of Spain or Latin America. Focuses on a single author, period, genre, or critical approach in Hispanic literature. Conducted in Spanish. Prerequisites: SPAN 400A, 400B, 400C, or 400D.

SPAN 450C (3)  
Seminar in Civilization  
Seminar in a specialized topic in the civilization of Spain or Latin America. Focuses on an area of the culture, history, politics, and arts of the Hispanic world with a specific regional or chronological emphasis. Conducted in Spanish. Prerequisite: SPAN 350A or SPAN 350B.

SPAN 466 (1-6)  
Advanced Seminar in Spanish in a Study Abroad Setting  
Seminar in Spanish language and/or Hispanic literature, linguistics, or culture, at an advanced level. Course completed in a study abroad setting, where students complete their in-class lessons with real-life opportunities to use Spanish in practical, everyday situations. Conducted in Spanish. May be repeated for credit. Prerequisites: SPAN 311 or equivalent and consent of instructor.

SPAN 510 (3)  
History of the Spanish Language  
Intensive diachronic study of the development of the Spanish language, from its origin in spoken Latin, to Old Spanish to Modern Spanish. Includes analysis of morphological changes. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.
SPAN 511 (3)  
Spanish Dialectology  
Phonological, morphological, and syntactic variations in Spanish as spoken in the Hispanic world, from synchronic and diachronic points of view. Includes the study of Spanish as spoken in various regions of the United States. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 512 (3)  
Spanish in the United States  
Sociolinguistic functions of the various social and stylistic varieties of Spanish in the U.S. in spoken and written forms. Study of morphological, phonological, lexical, and syntactical differences and similarities with the standard Latin American and peninsular Spanish. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 513 (3)  
Acquisition of Spanish as a First and Second Language  
Survey of theories of first- and second-language acquisition, with emphasis on the acquisition of Spanish. Includes a study of the various dimensions of bilingualism, with emphasis on Spanish-English bilingualism. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 514 (3)  
The Teaching of Spanish to Child and Adolescent Learners  
Study of theories of child and adolescent second-language acquisition. Survey of techniques and methods of teaching Spanish to child and adolescent learners. Emphasis on practical classroom applications consistent with theoretical research in this field. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 515 (3)  
The Teaching of Spanish to Adult Learners  
Study of theories of adult second-language acquisition. Survey of techniques and methods of teaching Spanish to adult learners. Emphasis on practical classroom applications consistent with theoretical research in this field. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 520 (3)  
Theory and Practice of Literary Criticism in Spanish  
Analysis and application of methods of current literary theory and criticism in relation to principal texts in Spanish and Spanish-American literature. Techniques of literary scholarship. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 521 (3)  
Pre-Columbian Spanish American Literature  
In-depth examination of pre-Hispanic texts such as the Popol Vuh, Nahautl poetry and other Aztec, Mayan, Quiché, Quechuan, and Incan religious, legal, and literary texts. Exploration of theories of oral literature. Study of cultural factors affecting literary manifestations in pre-Columbian societies. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 522 (3)  
Colonial Latin American Literature  
In-depth examination of Spanish-American texts produced during the colonial period (1520-1810) in Spanish America. Study of major genres including the chronicles of the conquistadores and major literary figures such as Sor Juana Inés de la Cruz and major movements such as the colonial Baroque. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 523 (3)  
19th and 20th Century Latin American Literature  
In-depth examination of texts produced in Spanish America from the independence period to the present. Study of major genres, literary figures and movements, with an emphasis on the development of national consciousness and the themes of nationality vs. universality. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 524 (3)  
Latin American Literature of the "Boom"  
In-depth examination of Spanish American authors such as Borges, Rulfo, Fuentes, Vargas Llosa, García Marquez, and Carpenter. Emphasis on the innovative structure and language brought to Hispanic literature by this movement. Study of cultural, social, political, and literary factors that contributed to the emergence of this movement. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 525 (3)  
Contemporary Latin American Literature  
In-depth examination of post-"boom" Spanish American authors to the turn of the century. Emphasis on the contributions of women authors. Study of representative works in all genres. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 526 (3)  
Chicano/Latino Literature in Spanish  
In-depth examination of U.S. authors who write in Spanish and/or who are of Hispanic descent. Discussions of issues such as otherness, decanonization, and ethnicity. Exploration of social, political, economic, and other factors that affect literary production and dissemination. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 531 (3)  
Medieval Spanish Literature  
Survey of Medieval Spanish literary manifestations, including analysis of both written and oral literature. Study of masterpieces such as the Poema del Mio Cid, El Libro de Buen Amor and La Celestina, as well as non-canonical literature of the Medieval period. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 532 (3)  
Golden Age Spanish Literature  
Study of literature in Spain during the Renaissance and Baroque (Golden Age) periods. Survey of canonical and non-canonical works of poetry, narrative, and theatre. Exploration of social and political factors affecting literary production during this time period. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 533 (3)  
18th and 19th Century Spanish Literature  
Study of the principal literary works representing the following literary movements/periods in Spain: Enlightenment, Romanticism, Realism, and Naturalism. Includes canonical and non-canonical works in all major genres. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 534 (3)  
20th Century Spanish Literature  
In-depth study of literary currents and representative works of poetry, narrative, theatre, and essay from the early 20th Century to modern day Spain. Emphasis on the Generations of 1898 and 1927, the effects of the Spanish Civil War on literary production, and the changes in literary production in post-Franco Spain. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 540 (3)  
Contemporary Mexican Society  
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in modern-day Mexico. Includes discussion of Mexican-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 541 (3)  
Contemporary Spanish Society  
Study of the social, political, economic, religious, and artistic factors that contribute to life in modern-day Spain. Includes discussion of Spanish-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.
SPAN 542 (3)  
Contemporary Central-American Society  
in-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Central America. Includes discussion of Central American-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 543 (3)  
Contemporary Caribbean Society  
in-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Caribbean nations. Includes discussion of Caribbean-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 544 (3)  
Contemporary Andean Society  
in-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Andean nations. Includes discussion of Andean-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 545 (3)  
Contemporary Southern Cone Society  
in-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Southern Cone (Cono Sur) nations. Includes discussion of Southern Cone-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 546 (3)  
Contemporary U.S. Latino Society  
in-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day United States for Latinos. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 551 (3)  
Cinema of the Spanish-Speaking World  
Study of Spanish, Spanish-American, or Latin cinema from historical and stylistic perspectives. Emphasis on the study of narration in film and fiction, and the formal links between the two media. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 552 (3)  
The Hispanic Image in U.S. Film, Television, and Advertising  
Exploration of the portrayal of the Hispanic individual and Hispanic groups in print and film media in the United States, by both Hispanic and non-Hispanic film-makers, writers, and companies. Discussion of theories of popular culture, as well as psychological, sociological, political, and economic factors contributing to these images. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 568 (1-6)  
Graduate-Level Spanish in a Study Abroad Setting  
Graduate-level work in Spanish language and/or Hispanic literature, linguistics, or culture, at a graduate level. Course completed in a study abroad setting, where students complement their in-class lessons with real-life opportunities to use Spanish in practical, everyday situations. Conducted in Spanish. May be repeated for credit. Prerequisites: Graduate standing or consent of Spanish graduate advisor.

SPAN 599 (3)  
Internship in Community Service  
Intensive study of a particular aspect of the local Hispanic community, through placement as an intern at a location where the needs of this community are served. Internships may include placement at sites devoted to education, health care, commerce, social services, and international relations. May be repeated for a total of six (6) units of credit. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 601 (3)  
Seminar in Hispanic Civilization  
Intensive study of a particular aspect of Spanish, Spanish-American, or U.S. Latino culture and civilization. Subject matter may emphasize historical, sociological, political, or economic issues related to the Spanish-speaking world. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 602 (3)  
Seminar in Applied Linguistics  
In-depth analysis of one or more methodologies of second language acquisition and instruction. Linguistic research and classroom applications of selected methodologies. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 603 (3)  
Seminar in Author Studies  
Critical study of a major author or authors of the Spanish-speaking world. Special attention to biography, culture, and literary background. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.
SPAN 696 (3)
Directed Individual Study or Research
Individual research or study of a particular aspect of the literature, linguistics, or civilization of the Spanish-speaking world. A written proposal for the study/research must be approved in advance by the student's faculty advisor and the Program Director. The number of units which a student can take depends on the nature of the student's academic goals and the consent of the faculty advisor and graduate committee. Only six (6) units of credit may be applied toward the Master's Degree in Spanish. Prerequisite: Graduate standing in Spanish and consent of instructor.

SPAN 698A (1) 698B (2) 698C (3) 698D (4) 698E (5) 698F (6-12)
Preparation for Graduate Examinations
Independent research and preparation for taking the Spanish Master's Degree comprehensive exams. Units earned in SPAN 698 may not be counted toward the 30-unit requirement for the Master's Degree in Spanish. Graded Credit/No Credit. Prerequisite: Graduate standing in Spanish and consent of instructor, faculty advisor, or Department Chair.

SERVICE SECTOR MANAGEMENT (SSM)

College of Business Administration

SSM 304 (4)
Services Management
Theoretical and applied behavioral aspects involved in the effective management of service sector organizations. Concepts include individual differences, motivation, communication, group dynamics, power, conflict, decision-making, and leadership. May not be taken for credit by students who have received credit for MGMT 302. Prerequisite: All lower-division pre-business core.

SSM 305 (4)
Services Marketing
The United States is the world's first service economy, and services remain the most rapidly growing sector of the U.S. economy. Examines the marketing of services, sources and uses of marketing intelligence, and the consumption experience in both the U.S. and global marketplace. May not be taken for credit by students who have received credit for MKTG 302. Prerequisite: All lower-division pre-business core.

SSM 322 (2)
Organization Theory and Design in the Service Sector
Analysis of the way organizations respond to conditions in their environment by changing their structural configurations and administrative processes. Focuses on how organizational effectiveness is measured in the service sector, how strategy influences structure, and how organization size and stage in the life cycle influence structural change. Prerequisites: All lower-division pre-business core and either MGMT 302 or SSM 304.

SSM 333 (4)
Marketing Communication
Marketing communication — including advertising, personal selling and other forms of promotion — is glue that binds organizations with their customers. Course examines the determinants of communication effectiveness and efficiency; the components of marketing communication; and the process of designing, implementing, controlling, and evaluating marketing communication strategies. Prerequisites: All lower-division pre-business core, BUS 302 and either MKTG 302 or SSM 305.

SSM 342 (4)
International Management in the Service Sector
Analysis of international management practices, problems and issues specific to service sector industries. Management strategies for the multinational organization operating in a global environment. Impact of national and cultural characteristics on international competitive performance. Prerequisites: All lower-division pre-business core, all Foundations of Business courses and either SSM 304 or MGMT 302.

SSM 352 (1)
Principles of Negotiation
The ability to negotiate effectively is an essential life skill. It can make the difference between success and failure in one's career as well as in one's personal life. This course will teach the fundamentals of effective negotiation. Through instruction and classroom exercises, students will learn the skills and techniques necessary to become effective negotiators. Subject matter will include: bargaining styles, goal setting, authoritative standards, use of leverage, and alternate forms of negotiating currency. May not be taken for credit by students who have received credit for SSM 481B. Prerequisites: All lower-division pre-business core.

SSM 353 (4)
Security Management Issues
Introduction to the profession of private and public sectors security management. Concepts and activities associated with management of organizational security issues in the international arena. Issues include planning, threat assessment, risk management, and computer security. Prerequisites: All lower-division pre-business core and BUS 302.

SSM 415 (4)
Human Resource Management
Effective management of employees in the service sector such as recruitment and interviewing, training and development, performance appraisal, compensation and benefits, employee relations, workforce demographics, and employment law. Prerequisites: All lower-division pre-business core and either MGMT 302 or SSM 304.

SSM 420 (4)
Service Operations
Focuses on applying concepts of operations management in the service sector. The objectives are to: (a) Develop an understanding of the key differences between the service and manufacturing sector; (b) Acquire the conceptual and empirical tools for improving performance in the service sector; and (c) Foster a constructively critical posture as consumers of services. May not be taken for credit by students who have received credit for SSM 491S. Also offered as HTM 420. Students may not receive credit for both. Prerequisites: All lower-division pre-business core, and either POM 302 or HTM 305.

SSM 441 (4)
Marketing and the Entrepreneur
Examines all aspects of entrepreneurship and intrapreneurship, from developing a viable concept, to advertising, promotion, and selling strategies which apply to both the individual and the given product or service. May not be taken for credit by students who have received credit for SSM 490B or SSM 491D. Prerequisites: All lower-division pre-business core, MGMT 302 or SSM 304 and either MKTG 302 or SSM 305.

SSM 442 (4)
Customer Analysis
Examines selected aspects of environmental, social, and psychological influences on consumer behavior. In-depth study of alternative methods for acquiring customer information using secondary and primary sources. Emphasizes techniques appropriate for performing customer analysis for different types of organizations. Students apply course material through a required customer analysis project. May not be taken for credit by students who have received credit for SSM 491J. Prerequisites: All lower-division pre-business core, BUS 302, BUS 304, and either MKTG 302 or SSM 305.

CAL STATE SAN MARCOS 297
SSM 445 (2)  
**Career Development**

Provides students with opportunities to learn about and practice strategies designed to enhance individual career success in the 21st Century organizations. Subject matter includes: Changing nature of careers, finding the right career(s), interviewing and recruiting strategies, skills development, mentoring and networking, and other career development strategies. The course will involve guest speakers, in-class discussions and group activities, personal assessment and analysis, and video illustrations. May not be taken for credit by students who have received credit for SSM 491E. Prerequisite: All lower-division pre-business core and either MGMT 302 or SSM 304.

SSM 448 (4)  
**Global and Cross Cultural Marketing**

Successful firms realize that exchange of goods and services occurs within a global context. The global context includes the domestic market and is not limited simply to "doing business overseas." Acquaints students with the challenges, constraints, and opportunities presented by the global environment. Emphasis will be placed on the types of marketing strategies that can be used to exploit opportunities and overcome challenges in the global marketplace. Focuses not simply on how to successfully enter markets overseas, but on how strategies in the domestic market can be integrated into a firm's overall global marketing strategy. May not be taken for credit by students who received credit for SSM 491E. Prerequisite: All lower-division pre-business core, BUS 302, and either MKTG 302 or SSM 305.

SSM 452 (4)  
**Leadership in Organizations**

In-depth analysis of the process of leadership in organizations with a focus on the development of personal leadership skills. Emphasis on students' ability to conceptualize, integrate, and apply diverse approaches to the leadership and motivation of people in organizations. Prerequisites: All lower-division pre-business core, and either MGMT 302 or SSM 304.

SSM 461 (4)  
**Management in Different Cultures**

Examination of the impact of culture on managerial decisions. Key management decisions in a number of industries and countries are examined to highlight the complexities of management in a global environment. May not be taken for credit by students who received credit for SSM 491G. Prerequisites: All lower-division pre-business core, and either MGMT 302 or SSM 304.

SSM 481 (1)  
**Selected Topics in Service Sector Management**

A survey course of selected topics in service sector management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

SSM 482 (2)  
**Selected Topics in Service Sector Management**

A survey course of selected topics in service sector management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

SSM 483 (3)  
**Selected Topics in Service Sector Management**

A survey course of selected topics in service sector management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

SSM 484 (4)  
**Selected Topics in Service Sector Management**

A survey course of selected topics in service sector management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

SSM 485 (4)  
**Selected Topics in Service Sector Management with Lab**

A survey course of selected topics in service sector management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

SSM 498 (1-4)  
**Independent Study in Service Sector Management**

Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. 
Prerequisite: Consent of instructor.

THEATRE ARTS (TA)

**College of Arts and Sciences**

There is a Theatre Arts Track in the Visual and Performing Arts major.

**TA 120 (3)**

**Introduction to Theatre**

An introduction to the language of theatre through a comparative study of various theatre styles and cultures. Emphasis will be placed on production design, acting, direction, how theatre is constructed and performed, and the social and cultural context in which it is created. Includes theatre from across the globe including that of Europe, Asia, Africa, and Americas. Through watching plays and analysis, students will learn the fundamentals of theatre and search for relationships between and commonalities among the cultures studied.

**TA 300 (3)**

**Storytelling in Society**

Designed to demonstrate how storytelling can be used to address social issues. The class will use real-life controversy — one relevant to this community — as a base. Students will do substantial research on a chosen topic/issue and then use that information to write and perform a play. Students will be encouraged to be creative; to experiment with non-traditional formats of stage production. Not all students will perform in the play. However, all students will be involved in mounting the production by way of design, dramaturgy, stage management or technical design. The final goal of the course is to have the play performed for the community. A post-play discussion will follow each performance. Two hours of lecture and two hours of laboratory.

**TA 301 (3)**

**Acting**

A studio class centered around the student's practice of basic acting techniques. Each student will be required to prepare a monologue and a scene to be performed in class. Basic approaches to theatrical movement and voice will be explored.

**TA 303 (3)**

**Materials and Structures of Theatre**

Advanced work in the analysis of dramatic works and the application of current and historical theories. A study of the elements, genre and structures using examples drawn from a broad historical and cultural spectrum to be taken concurrently with VPA 302. Prerequisites: Completion of twenty-one (21) units of lower-division theatre courses or consent of instructor.
TA 320 (3)
Modern World Theatre in Europe and Latin America
Through individual and group readings, students will study European and Latin American dramatic works. Focuses on the relationship between theatre in both form and content, and the society giving rise to a particular work. Works drawn from both the traditional and emerging canon will be examined in terms of acting style, content, imagery, and motive. Students will examine plays from other countries considering their perspectives, relevance and meaning to our own multicultural society in light of prevailing world conditions. Issues such as identity, gender, sexuality, race, class, community, and ethnicity will be analyzed through in-class discussions and library research.

TA 322 (3)
Power and Popular Culture
Through critical analysis of advertising, popular film, theatre, and television, this course offers an active interdisciplinary approach for exploring the way women, gays, ethnic minorities, and individuals of different classes are portrayed, allowed access, and share power within these mediums as both cultural expressions and fields of employment. The analysis of popular culture and the meaning it reflects in light of prevailing world conditions poses an awareness of the subsequent choices confronting individuals and communities in U.S. society. Issues of identity, gender, sexuality, race, class, community, and ethnicity will be considered not only for their cultural expression but as the mechanisms of larger world systems. Through individual and group readings, in-class discussions, and film screenings, this course will provide ample opportunities for the development of in-depth research projects.

TA 325 (3)
Latino/Chicano Theatre in the United States
Through individual and group readings of specific works of theatre, this course will examine the role of Latino/Chicano Theatre as a part of American Theatre and a distinct voice in World Theatre. Students will examine social, political, and aesthetic elements which have given rise to the development of Latino/Chicano theatre, including the struggle for justice, cultural and community integrity, biculturalism, bilingualism, identity, race, and cultural chauvinism. The perspectives and works of other Latino populations will be included as part of an examination of comparative and competing Latino world views within the United States. The course will include a performance aspect.

TA 326 (3)
African-American Theatre
Examines some of the major works by African-American playwrights. Significant attention will be given to etiology of the "Stage Negro," beginning with Uncle Tom's Cabin and blackface minstrelsy. Taught from an African-American perspective, where all aspects of the world are referenced in African-American culture.

TA 327 (3)
The Caribbean Carnival
The Caribbean islands of Trinidad is known world-wide for the Carnival Mas’, Brazil’s Carnival and Mardi Gras in New Orleans are examples of similar festivals held at the same time of the year. Looks at the Trinidadian Carnival Mas’ as a form of theatre. Students will study the history of Carnival, review the preparation and execution of the various components of this annual event. This course should be of particular value to those interested in the link between Caribbean performance traditions and the African Diaspora. Students will have the opportunity to investigate Carnival from a wide range of cultural perspectives: pan music (steel drums), costume design and construction, and various acting and dance styles.

TA 328 (3)
Stage to Film
Through play readings, viewing selected films of plays, and occasional attendance at performances, students will examine distinctions between media and issues pertaining to cultural production in the United States. Students will compare and contrast aesthetic, economic, social, and political issues involved in the translation and adaptation of stage plays to film.

TA 401 (3)
Play and Screenwriting I
Introduces students to techniques used in the process of writing for the stage and the screen (film and television). Readings and guest lectures will complement the writing process in which students will be engaged. Issue of responsibility of the writer to his/her community will be addressed in relationship to the play/screen scripts viewed and read for class. Methods of analysis of the text and development of critical thought on the social issues surrounding the work will be discussed. Much emphasis will be placed on the fact that writing for the stage, screen or radio has little to do with written text on a page. Students will examine scripts and follows them from page to stage by attending live performances and movies available locally. May be repeated once for credit with a different instructor.

TA 410 (3)
Contemporary American Theatre — Society's Taboos
Through individual and group readings, this course presents theatre written and performed as a document of society's concerns. Analysis of representative dramatic pieces from different cultures and/or ethnic groups in the United States. Considers relevant historical, cultural, and philosophical perspectives and the meaning each work offers within the context of our multicultural society. Explores the relationship between art and politics through issues including identity, gender, sexuality, race, class, community, and ethnicity. This exploration will include in-class discussions, library research, and attendance at theatre events.

TA 421 (3)
Viva el Teatro — Spanish Theatre in Performance
Offers an active interdisciplinary approach to the study of theatre. Following the presentation of a historical and theoretical background, students will approach and analyze texts both as works of literature and as theatre performances. Issues of gender, class, community, and sexuality contained in the plays will be explored within an aesthetic context. The critical imagination of participants will analyze and appreciate different historical and cultural perspectives needed for bringing contemporary meaning to texts from other cultures and periods. This appreciation of perspectives will include consideration of social, cultural, political, religious, economic, and philosophical systems which pose the major problems that theatre art addresses and confront individuals in any given age also. Offered as SPAN 421. Students may not receive credit for both. Recommended: TA 301. Two hours of lecture and two hours theatre activities. Prerequisites: SPAN 311 or higher or consent of instructor.

TA 480 (3)
Theatre Activities for Children and Adults
Explores various modes of expression in the theatre arts through active in-class learning based on independent and group work. Students will gather material through library research, then analyze and synthesize material into texts for performances in the classroom and in the community. The material used in class provides for the examination and comparison of different cultural perspectives as seen through dramatic texts and theatrical exercises. These different cultural perspectives include an awareness of the changing conditions in our world and the role of theatre/art work as a voice and tool of understanding within this context. Provides students with a platform for self-examination and challenges within an aesthetic and cultural environment geared towards the non-professional. An emphasis will be placed on theatre activities that can be applied to the K-12 classroom. May not be taken for credit by students who have received credit for TA 480S. This course satisfies the Liberal Studies requirement for work in the Fine Arts and Humanities (Studio Arts). Two hours lecture and two hours theatre activities.

TA 489 (3)
Theatre Production Workshop
Provides students with an engaging and practical experience essential for understanding and synthesizing theoretical and textual work in theatre arts. Students will participate in various aspects of play production, analysis, and research including acting, play development, library research, technical theatre, and audience development. Stage work will include rigorous interactions between participants, the professor and the text. Technical theatre work may include lighting, sound, scenic construction, and stage management. Experience is desirable. Two hours lecture and three hours rehearsal activity.
### TA 408A (1) 408B (2) 408C (3)
**Internship**

Designed to link the student directly with a selected and approved theatre or individual for the purpose of providing additional creative and/or studio skills as well as a practical understanding of the discipline. Graded Credit/No Credit. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

### TA 409A (1) 409B (2) 409C (3)
**Independent Study**

This course is intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved by the Visual and Performing Arts Independent Study Committee and supervised by a faculty member or academic advisor. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

### VPA 302 (3)
**The Process of Art I**

First of a two-semester sequence exploring the elements, forms, functions, and meaning of the visual and performing arts in their sociocultural context. Examines how artistic forms interact with each other and with other cultural elements to contribute to the shaping of a society's development. Case studies will utilize classical art traditions and traditional and folk art forms representing many different cultures from throughout the world. Students will be exposed to a comparative view of the various ways that cultures around the globe (including the United States) express the meaning and value of life. Prerequisites: Completion of twenty-one (21) lower-division units sequence in the arts and consent of instructor.

### VPA 303 (3)
**The Process of Art II**

Second of a two-semester sequence. Fociuses on various forms of artistic expression within the United States. Classic art forms as well as popular, traditional, folk, and mass-mediated forms will be studied. Issues of cultural dissemination, dispersion, diaspora, migration, exchange, appropriation, and hegemony will be discussed. Cultural diversity and the nature of multiple cultural perspectives will also be explored. Examines the fundamental forces that have led to the development of a recognition of multiculturalism in the United States today. Prerequisites: VPA 302 and consent of instructor.

### VPA 311 (3)
**Arts of World Cultures**

Explores contemporary world cultural practices ranging from indigenous expressions to new electronic forms in a global and multi-disciplinary context. Encompasses the arts from regional cultures throughout the world, including Africa, the Americas, Asia, and Europe examined through the multiple viewpoints of gender, race, class, and sexuality. Explores diverse cultural practices shaped by memories and aspirations as well as by personal, collective, and mythic histories. These cultural practices offer transformative paradigms for social engagement and creativity. The exploration of global art theories and practices will assist students in developing their analytical, perceptual, and creative skills. This exploration, in turn, will encourage students to expand the power, clarity, and range of their own voices and visions. May be repeated for credit as topics change for a total of six (6) units.

### VPA 320 (3)
**Culture of India through Dance, Music, and Film**

Designed to give an insight into the understanding of the culture of India through the appreciation of dance, music, and film. The subcontinent of India is diverse with different languages, customs and traditions, dress, and values which is reflected in the different art forms present therein. The uniqueness of the various performing arts is shown in the subtle yet clear distinctiveness found in the music and dance forms of the north, south, east, and west of India. The course is divided into several sections and will be taught with the help of videos, films, audio tapes, and also guest artists, who will perform lecture-demonstrations.

### VPA 380 (3)
**Topics in the Arts**

Selected topics in the visual and performing arts (dance, music, theatre, visual arts), for example, theories of the visual arts, urban aesthetics, African-American music, images of women in the arts, and others. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

### VPA 381 (3)
**Studio Work in the Arts**

Studio experience in the visual and performing arts. Exploration of basic concepts of dance, music, theatre, or the visual arts through various studio processes such as drawing, group instrumental lessons, dance movement, or acting. May be repeated for credit as topics change for a total of six (6) units.

### VPA 404 (3)
**Multidisciplinary Collaborative Projects**

Students will be guided through a series of structural, problem-solving exercises designed to equip them to complete collaborative projects in the arts. The projects will be idea- or theme-centered and require a high level of cooperation from the involved students. The primary disciplines included in the project will be music, the visual arts, and theatre; may also include film, video, and movement. Special emphasis will be placed on the notion of "inclusion" and therefore materials can be drawn from traditional classical cultures, pop materials, electronic sounds and or images, text, and folk art forms. Prerequisites: VPA 302, 303 and consent of instructor.
VPA 403 (3)  
Art in the Community  
Provides the student an opportunity to demonstrate his/her ability to integrate the principles, practices, and other experiences acquired in the program beyond individual coursework. Students will learn and apply field research techniques, theory, and appropriate methodologies as well as the operation of field equipment. Emphasis will be placed on the immediate communities of North County as an area of field activity. As a field research experience, the course is designed to enhance the student's understanding of the ethnography of our communities and the role of the arts in the lives of the people. It also will encourage individual and collective creativity in the synthesis of the arts. Prerequisites: VPA 302, 303, and 402 and consent of instructor.

VPA 495A 495B (2) 496C (3)  
Internship  
Special projects in the arts that focus on work experiences with arts organizations, schools, and other community institutions. May be repeated for a total of three (3) units. Prerequisite: Consent of instructor.

VPA 498A 498B (2) 498C (3)  
Special Projects in the Arts  
Special independent projects in the arts. May be in research or studio area. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

VISUAL ARTS (VSAR)  
College of Arts and Sciences  
There is a Visual Arts Track in the Visual and Performing Arts major.

VSAR 120 (3)  
Introduction to Visual Arts  
Introduction to the language of the visual arts through a comparative study of various artistic styles, cultures and ways of seeing. Emphasis on sculpture, painting, installation art, photography, architecture, film and multimedia, and their cultural contexts. Explores art from across the globe, including Europe, Asia, Africa and the Americas. Through various participatory visual and written exercises in class and visits to art sites, students will learn the fundamentals of the visual arts and how the arts relate to their lives.

VSAR 222 (3)  
Survey of World Cinema  
Introduces the student to a diverse selection of film, video and digital media from around the world. Covers such subjects as indigenous aesthetics, the political and social force of Third Cinema within revolutionary societies, changing ethnographic cinematic practice, and various approaches to narrative structures within particular cultures. Questions the ethical implications of a Hollywood-dominated film industry. Addresses how particular countries undertake production and distribution within their economies.

VSAR 293 (3)  
Studio Art Instruction  
Private or small group instruction in studio art. Prerequisites: Normally open only to Visual and Performing Arts Art Track students with less than one year of lower-division studio art study or who are placed at this level through a portfolio review. Students approved for VSAR 293 must be enrolled in appropriate lower-division art courses. May be repeated for a maximum of eight (8) units.

VSAR 301 (3)  
Materials and Structure of Art  
Advanced work in the analysis of the visual arts and the application of current and historical theories of art. A study of the elements, genre and structures using examples drawn from a broad historical and cultural spectrum to be taken concurrently with VPA 302. Prerequisite: Completion of twenty-one (21) units of lower-division art courses or consent of instructor.

VSAR 302 (3)  
The Computer and the Visual Arts  
Designed to allow the student to explore the computer as a tool for making art. Includes information about contemporary artists and their use of the computer in the creation of artists' books, wall pieces, sculptural and installation works, socially interactive networks, and other art forms. Students will create computer text and image in a number of individual and collaborative projects. Includes a segment on computer ethics, and utilizes word processing and two other applications pertinent to the arts. Two hours of lecture and two hours of laboratory.

VSAR 303 (3)  
Introduction to Video Arts  
Skills development in the use of video production and post-production equipment utilizing videotape and computer technologies. Includes all phases of videotape production from conception to finished product ready for broadcast. Includes the theory and practice of electronic time-based video production (concentrating on film-style single camera techniques), linear videotape editing, and non-linear computer based editing. Includes lectures, demonstrations, hands-on skills training, videotape and film screenings, discussions, research papers and field trips. Two hours of lecture and two hours laboratory. Prerequisite: Concurrently enrolled in VSAR 302 or MUSC 302, or completion of one of these courses, or consent of instructor.

VSAR 304 (3)  
Advanced Video Production  
Offers students the opportunity to continue to develop and hone skills in television, film-style, and experimental videotape production and post-production. Includes lectures, screening, critiques, and work in a laboratory setting for instruction in advanced video production techniques. Production of a variety of videotapes with an emphasis on public distribution. Development of practical and critical skills through the study and analysis of current issues surrounding the production, interpretation, and dissemination of video in relation to the visual arts. Two hours of lecture and two hours of laboratory. Prerequisite: VSAR 303 or consent of instructor.

VSAR 305 (3)  
Art and Digital Video for the Web  
Designed for those interested in experimenting with streaming media including video, audio and other moving images on the web within theoretical and practical contexts of animation. Covers basics of using digital video and audio applications, video and audio streaming and basic web design. Integrates reading and writing on various aspects of new media within the context of art and society, including self-publishing, network theory, gender and cyberspace, copyright issues, narrative, and interactivity. Recommended, but not required: COMM 370, VSAR 302, 303, 304, 405.

VSAR 306 (3)  
Video in the Community  
Explores video, art and activism. Students learn the latest in video production technology while using video within the community as a tool for social or political change, indigenous expression, cultural understanding, community organization, or advancement of social causes. Video projects relevant to communities will be identified, developed, and produced by the students in collaboration with members of that community and faculty. May also be counted for Service Learning credit. May be repeated for credit for a total of six (6) units.

VSAR 320 (3)  
Public Expression in the Arts  
Examines public art, government funding for the arts, the First Amendment, and censorship. Subject matter will be explored in both a historical and a social context through various case studies.

VSAR 322 (3)  
Women Artists in the 20th Century  
Examines issues crucial to women as visual artists. Subject matter includes: How women use art as a means of self-expression and as a strategy for examining cultural values; the relationship between artistic production and women's traditional acts of reproduction; society's perception of women as artists; and provocative debates introduced into feminist thinking and art by reconsiderations of the charged arena of sexual difference.
VSAR 323 (3)  
Chicano Art in the Border Region  
Survey of Chicano and Chicano-inspired art along the U.S.-Mexico border. Examines recent art forms and practices as represented in the work of individual artists, as well as cultural groups and organizations. Looks at the influences which have inspired the invention of Chicano art within a community context.

VSAR 325 (3)  
Pre-Columbian Mesoamerican Art and Society  
Examines Pre-Columbian Mesoamerican art as it reflects social, structural, religious, social roles, ideology, economic and political organization, world view, and the family. The course will cover the preclassical, classic, and postclassical periods, focusing on four main cultural areas: the Olmec, the Maya, the Zapoteco, Teotihuacan and Classic central Mexico, and the Aztec and Mixteca-Puebla style of highland Mexico. Also offered as ANTH 325. Students may not receive credit for both.

VSAR 326 (3)  
Feminist Art and Motherhood  
Examines the impact of feminist art and theory as they have developed during the late 20th Century. This interdisciplinary course focuses on the various ways feminist artists, writers, philosophers, and other cultural theorists are addressing the dilemmas of representing feminist motherhood and how these approaches are interpreted in contemporary visual culture. Previous historical limitations and mutual exclusivities for women as mothers will be analyzed in relation to new revisions of motherhood by women and men who have different ethnicities, classes and other varied life experiences.

VSAR 327 (3)  
Modern and Contemporary Art Movements  
Covers the modern and contemporary movements in visual, performance, time-based and audio art, including Russian Futurism, European Dada and Surrealism, International Fluxus, Experimental Cinema, and video and performance art globally. Seeks for understanding of these art movements within their social, political, historical, and cultural contexts. Emphasis is on the experimental, revolutionary and transformative effects of these movements. Students will attend performances, film and art events, as well as create works of art.

VSAR 393 (2)  
Advanced Studio Art Instruction  
Private or small group instruction in studio art. May be repeated for maximum of eight (8) units. Prerequisites: Open only to Visual and Performing Arts Art Track students with at least one year of lower-division studio art study, and consent of instructor.

VSAR 403 (3)  
Interactive Multimedia  
Studio-oriented discussions offering advanced skills development in the use of interactive multimedia production tools, utilizing audio, video, and computer technologies. Covers the theory and practice of integrated audio, video and computer media production, including all phases of multimedia production from conception to finished product. Course includes: lectures, demonstrations, hands-on skills training, multimedia presentations, discussions, research papers, and field trips. Two hours of lecture and two hours laboratory. Prerequisites: Completion of Computer Competency Requirement or enrollment in CS 301, or MUSC 302, or PSYC 300, or VSAR 302 or 303.

VSAR 404 (3)  
The Arts on the Information Superhighway  
Designed to allow the student to explore the Internet and to use the Internet as a resource — graphic, audio, video, and textual — for the production of art projects. Students will create on-line sites for their work which will be available to other university students, and they will be involved in curating virtual exhibitions. Explores the ethical and social implications of the information superhighway and examines the impact of the Internet on the arts. Includes lectures, demonstrations, hands-on training, discussions, and research papers. Two hours lecture and two hours laboratory. Prerequisites: VSAR 302 or consent of instructor.

VSAR 405 (3)  
Critical Theory of the Arts in Cyberspace  
Explores the impact of the rapidly developing information technologies of the arts — film, video, literature, music, performance, and visual art. Examines the breakdown of disciplinary boundaries as the interactive multimedia technologies combine video, text, audio, and graphic images. Also explores the social and ethical implications of the new technologies and their relationship to the arts. Students will study artists whose work has been shaped by information technologies and who are helping to define the electronic interfaces and virtual worlds of the future. Includes lectures, demonstrations, hands-on training, discussions, and research papers.

VSAR 422 (3)  
Art and Technology of the Moving Image  
Hands-on approach to survey the history of film making, video production, and the moving image. The parallel developments of projected imagery and animation from the 16th Century through contemporary practices utilizing computer technologies will be covered. Students will acquire practical and critical skills through studying and analyzing the development of theoretical discourses that frame past and current issues surrounding the production and interpretation of the moving image. Films and videotapes addressing diverse cultural, ethnic, and social concerns throughout the world will be screened, analyzed, compared, and contrasted. Includes lectures, screenings, and an introduction to production skills in the basic practices of film and video technologies.

VSAR 423 (3)  
Critical History of Photography  
Designed to allow students to critically examine the early modern development of photography and the medium's contemporary usages, cultural meanings and contested histories. Focuses on the intersections between the photograph as object, historical record, advertising image and cultural artifact through an examination of the representation of various peoples' cultural histories and identities. Also considers new artistic approaches to redefining the documentary tradition, especially in light of the relationships between photography and new media technologies. Course is based on discussions, lectures, on-site critical viewing, research papers and collaborative projects.

VSAR 430 (3)  
Art Activities for Children and Adults  
Explores various media in the visual arts. No background in the visual arts is required. Emphasis will be placed on arts activities that require few materials and that can be applied to the K-12 classroom. Satisfies the Liberal Studies requirement for work in the Fine Arts, and Humanities (Studio Arts). Two hours of lecture and two hours of laboratory. Prerequisites: VSAR 302 or consent of instructor.

VSAR 480 (3)  
Advanced Computer Art  
Presentation of projects that are characterized by the combination of traditionally discrete artistic disciplines in combination with computer-generated texts and images. Emphasis on manifestation of ideas through class discussion and critique of presented work. Two hours of lecture and two hours of laboratory. Prerequisites: VSAR 302 or consent of instructor.

VSAR 485A (1) 485B (2) 485S (3)  
Internship  
Intended to enable eligible students to work directly with selected and approved individual artist or group of artists in creative and/or studio environment. May be repeated for a total of six (6) units. Graded Credit/No Credit. Prerequisites: Consent of supervising faculty member or faculty advisor.

VSAR 486A (1) 486B (2) 486S (3)  
Independent Study  
Designed for students who have completed upper-division courses in this major area of study. Special topic(s) must be approved by the Visual and Performing Arts Independent Study Committee. May be repeated for a total of six (6) units. Prerequisites: Consent of faculty advisor.

VSAR 489A (1) 489B (2) 489S (3)  
Independent Research  
Designed for students with demonstrated capacity for independent research, field, creative and studio work. May be repeated for a total of six (6) units. Prerequisites: Consent of faculty committee and academic advisor.
**WOMEN'S STUDIES (WMST)**

**College of Arts and Sciences**

**WMST 101 (3)**
Introduction to Women's Studies
An introduction to the scholarship, both disciplinary and interdisciplinary, on women with an emphasis on critical thinking. Explores works by and about women, gender roles, and contemporary issues around the world, and analyzes arguments surrounding women's status.

**WMST 201 (3)**
Women: Contemporary Issues
Surveys contemporary issues in women's lives from the standpoint of diverse groups of women. Subject matter includes, but is not limited to, images of women, reproductive rights, sexuality, economic justice, political empowerment, family relations, and cultural practices. Subject matter is introduced in a variety of ways, including case studies, narratives, novels, film, and music. Students may do cross-cultural research on the Internet and Lexis/Nexis for their final project. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

**WMST 300 (3)**
Topics in Women Studies
Special topics in Women's Studies. The course title and description will vary by offering. May be repeated for credit as topics change for a total of six (6) units.

**WMST 301 (3)**
Gender and Race in Contemporary Society
Explores the intersection of gender and race in the modern world. Themes include the expression of gender and race in arts and humanities, the structures of discrimination, theories about race and gender, the lively debate across cultural and ethnic lines concerning these issues.

**WMST 323 (3)**
Women in Performance: Choreographies of Resistance
Explores issues of power, representation, and access in relation to the female body in dance, performance art, body art and the staging of political empowerment. Examines crucial historical figures and moments when the body in a motion ruptures or destabilizes normalized expectations. Also offered as DNCE 323. Students may not receive credit for both.

**WMST 398 (3)**
Independent Study
Directed readings under the guidance of an instructor. Several short analytical papers required. Prerequisites: Consent of instructor and Coordinator of Women's Studies.

**WMST 401 (3)**
Seminar in Women's Studies
Topic announced each semester prior to registration. Explores readings in feminist theory and scholarship. Includes a cross-cultural or cross-national perspective.

**WMST 407 (3)**
Women United, Women Divided
Examines the social construction of categories of sexual orientation (like heterosexual, lesbian, or bisexual), the resulting social coercion of behavior, and the role that coercion plays in dividing and disempowering women cross-culturally. Subject matter includes the history of romantic relationships between women, contributions made to culture and social institutions, the development of sexual identity in a social context, related political movements, and the psycho-social impact of heterosexism in society.

**WMST 424 (3)**
Women and Health
An exploration of women and health. Analysis of women's health maintenance and disease prevention; gender bias in medical treatment; medicalization of "natural" processes; women and the health system, medical-legal system, and bio-medical research. Subject matter may include, but is not limited to: eating disorders, contraception, sexually transmitted diseases, fertility from pregnancy to birthing, stress and mental illness, menopause, breast cancer, alternative and traditional healing systems. Issues of social class, nationality, race, culture and sexual preference are emphasized throughout. Recommended but not required: previous coursework in the area of health and illness. Also offered as SOC 424. Students may not receive credit for both.

**WMST 445 (3)**
Gender and Development
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that "modernization" results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as ECON 445 and PSCI 445. Students may only receive credit for one of the courses. May not be taken for credit by students who received credit for ECON 481B or PSCI 449B.

**WMST 490 (3)**
Feminist Perspectives: Theories and Research
Examines the major schools of feminist theory and feminist approaches to carrying out research on women and feminism using an interdisciplinary approach. Feminist revisions for humanistic and social science theory development and research implementation are included. Students examine the application of feminist perspectives to topics in the humanities and social sciences. Students research projects may include bibliographies, archival research, ethnographic, survey, and literary analysis. May not be taken for credit by students who have received credit for WMST 390.

**WMST 495 (3)**
Internship in Women's Studies
Combines readings with placement in an appropriate women's advocacy organization. Prerequisites: Consent of instructor and Director of Women's Studies.

**WMST 499 (3)**
Independent Research in Women's Studies
Students develop an extended research paper using primary and secondary sources in consultation with a faculty advisor. Prerequisites: Consent of instructor and Director of Women's Studies.

Assistant Professor, Education  
B.A., Holy Names College  
M.A., Azusa Pacific University  
Ed.D., University of Washington

Rallin, Anell (2001)  
Associate Director University Budget Office  
B.S.W., University of Illinois

Read, Betsy (1993)  
Associate Professor, Biological Sciences  
B.A., University of Redlands  
M.S., Springfield College  
Ed.D., Ball State University

Reid, K. Brooks (1989)  
Professor, Mathematics  
Founding Faculty  
B.A., University of California, Berkeley  
M.A., University of Illinois, Urbana  
Ph.D., University of Illinois, Urbana

Reynolds, Dave (2001)  
Distinguished Teacher in Residence  
B.A., San Diego State University  
M.A., California State University, Los Angeles
Reid, Marion T. (1989)
Dean, Library and Information Services
Librarian
B.S., University of Illinois, Urbana
M.S., University of Illinois, Urbana

Richardson-Hayton, Heather (2000)
Assistant Professor, Literature and Writing Studies
B.A., University of California, Davis
M.A., Pennsylvania State University
Ph.D., Pennsylvania State University

Rider, Robert L. (1992)
Interim Associate Dean for Budget and Operations,
College of Arts and Sciences
Associate Professor, Economics
B.A., University of California, Berkeley
M.A., University of Southern California
Ph.D., University of Southern California

Executive Director, Enrollment Services
M.A., St. Martin's College
M.A., University of Washington

Rizvi, Syed (2002)
Director, Financial Aid and Scholarship
B.S., University of Karachi, Pakistan
M.S.Ed., National University

Professor, Sociology
B.A., San Diego State University
Ph.D., University of Southern California

Rocha, Victor (1991)
Professor, Biological Sciences
B.A., California State University, Los Angeles
M.A., California State University, Los Angeles
Ph.D., University of California, Riverside

Relison, Garry L. (1996)
Associate Professor, Sociology
B.A., University of California, San Diego
M.A., University of California, Santa Cruz
Ph.D., University of California, Santa Cruz

Rello, Silvia (1996)
Associate Professor, World Languages and Hispanic Literatures
B.A., California State University, Long Beach
M.A., California State University, Long Beach
Ph.D., University of California, Riverside

Rosenmann, Liliana Castañeda (1990)
Assistant Professor, Communication
B.A., University of Missouri
M.A., University of Notre Dame
Ph.D., University of Massachusetts

Ruiz, Sonia Y. (2000)
Assistant Professor, Psychology
B.S., Arizona State University
M.A., Arizona State University
A.B.D., Arizona State University

Saferstein, Barry (1995)
Associate Professor, Communication
B.A., University of California, Berkeley
M.A., San Francisco State University
M.A., University of California, San Diego
Ph.D., University of California, San Diego

Sanderson, Doreen (2001)
PeopleSoft HRIS Project Manager
B.A., National University
M.A., National University

Associate Professor, Liberal Studies (African American History)
B.A., Anderson College
M.A., Indiana University
Ph.D., Michigan State University

Schaftman, Karen (2001)
Associate Professor, Visual and Performing Arts
B.A., University of Massachusetts
Ph.D., University of California, Riverside

Schmidt, Michael (1992)
Associate Professor, Chemistry and Biochemistry
B.A., Princeton University
Ph.D., Stanford University

Schon, Isabel (1989)
Director, Barancik Center for the Study of Books in Spanish for Children and Adolescents
Professor, Education
Founding Faculty
B.S., Mankato State University
M.S., Michigan State University
Ph.D., University of Colorado

Schultheis, Thomas (1999)
Chief of Police
University Police Department

Schultz, Mary Lou (2001)
Distinguished Teacher in Residence
B.A., Stanford University
M.A., Claremont Graduate School

Schultz, P. Wesley (1997)
Associate Professor, Psychology
B.A., University of California, Irvine
M.A., University of Maine, Orono
Ph.D., The Claremont Graduate School

Schultz, Dean (2000)
Distinguished Teacher in Residence
B.A., San Diego State University
M.A., National University

Associate Professor, Psychology
B.A., Princeton University
M.S., Yale University
Ph.D., Carnegie-Mellon University

Associate Professor, History
B.A., University of the State of New York
M.A., University of Missouri, Columbia
Ph.D., University of Missouri, Columbia

Segoria, John V. (1990)
Director, Disabled Student Services
B.A., San Diego State University
M.S., San Diego State University

Slesak, Patricia S. (1990)
Professor, History
B.A., Georgetown University
B.A., Oxford University
M.A., Stanford University
Ph.D., Stanford University

Senter, Gail W. (1990)
Lecturer, Education
B.A., Colorado State University, Ft Collins
M.A., Colorado State University, Ft Collins
Ed.D., University of Southern California

Sepinwall, Alyssa (1998)
Assistant Professor, History
B.A., University of Pennsylvania
M.A., Stanford University
Ph.D., Stanford University

Director, Social and Behavioral Research Institute
Professor, Sociology
B.A., California State University, Fullerton
M.A., California State University, Fullerton
Ph.D., Indiana University, Bloomington

Shaw, Linda (1993)
Associate Professor, Sociology
B.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Sheath, Robert (2001)
Provost and Vice President for Academic Affairs
B.S., University of Toronto
Ph.D., University of Toronto

Small, Deborah (1992)
Professor, Visual and Performing Arts
B.A., University of California, Irvine
B.S., University of Pennsylvania
M.F.A., University of California, San Diego

Sonntag, Gabriela (1991)
Assistant Librarian
B.A., University of Arizona
M.L.S., University of Texas

Soriano, Fernando (1999)
Assistant Professor, Human Development
B.A., University of California, Riverside
M.S., University of Colorado, Boulder
Ph.D., University of Colorado, Boulder

Stakes, Robert L. (2001)
Dean of Extended Studies
B.A., Lamar University
M.B.A., Lamar University

Stivers, Mary Elizabeth (1998)
Associate Vice President for Academic Affairs – Academic Resources
B.S., Morehead State University
M.S., University of Tennessee
Ph.D., University of Tennessee

Stoddard Holmes, Martha (2000)
Assistant Professor, Literature and Writing Studies
B.A., Cornell University
M.A., University of Colorado, Boulder
Ph.D., University of Colorado, Boulder

Stowell, Laurie P. (1992)
Associate Professor, Education
B.A., Capital University
M.A., The Ohio State University
Ph.D., The Ohio State University

Strother, Daryl L. (1993)
Associate Professor, World Languages and Hispanic Literatures
B.A., University of Pennsylvania
M.A., University of California, Irvine
Ph.D., University of California, Irvine
Svatora, Greg (1994)
Business Manager, Foundation
B.S., San Diego State University

Tan, J. Justin (1994)
Associate Professor, Management
B.B.A., Tianjin University, China
M.A., Kansas State University
Ph.D., Virginia Polytechnic Institute and State University

Thomas, Marie (1995)
Associate Professor, Psychology
B.A., College of Mount St. Vincent
M.A., Fordham University
Ph.D., Fordham University

Thompson, Edward III (1991)
Assistant Vice President for Academic Affairs
Professor, Political Science
B.A., University of Arizona
Ph.D., Howard University

Thompson, Susan M. (1998)
Assistant Librarian
B.A., University of Denver
M.A., University of Denver
M.L.I.S., University of Denver

Professor, Education
B.A., University of Wisconsin
M.S., University of Vermont
Ph.D., University of Vermont

Townsend, Rene (1998)
Lecturer, Education
B.S., University of Washington
M.Ed., San Diego State University
Ed.D., Northern Arizona University

Associate Professor, Chemistry and Biochemistry
B.S., Virginia Polytechnic Institute and State University
Ph.D., University of California, San Diego

Trujillo, Keith A. (1994)
Professor, Psychology
B.A., California State University, Chico
Ph.D., University of California, Irvine

Tuay, Wenyuh (1998)
Assistant Professor, Finance
B.B.A., National Chiao Tung University, Hsinchu, Taiwan
M.B.A., University of Oregon
Ph.D., University of Utah

Valadez, Gilbert (2001)
Assistant Professor, Education
B.A., Pitzer College
M.A., San Francisco State University
Ed.D., University of San Francisco

Veres, Wayne (1992)
Director, Systems Development and Software Engineering
B.S., National University
M.S., Cal State San Marcos

von Son, Carlos (1997)
Assistant Professor, World Languages and Hispanic Literatures
B.A., University of California, Irvine
M.A., University of California, Irvine
Ph.D., University of California, Irvine

Vourlis, George Luís (1998)
Assistant Professor, Biological Sciences
B.A., University of California, Santa Barbara
M.S., San Diego State University
Ph.D., University of California, Davis

Wahlund, Thomas M. (1997)
Assistant Professor, Biological Sciences
B.S., Southern Illinois University at Carbondale
M.S., Southern Illinois University at Carbondale
Ph.D., Southern Illinois University at Carbondale

Interim Director, Facility Services
B.A. San Diego State University

Ward, Bill (1990)
Director, Telecommunications and Network Operations
B.S., Utah State University

Watson, Kathleen (1992)
Professor, Management
B.S., University of Utah
M.B.A., University of Utah
Ph.D., University of Utah

Watts, Jill (1992)
Associate Professor, History
B.A., University of California, San Diego
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Welch, Steven C. (1990)
Professor, Chemistry and Biochemistry
B.S., University of California, Los Angeles
Ph.D., University of Southern California

Wendling, Laura M. (1995)
Associate Professor, Education
B.A., San Diego State University
M.Ed., University of Washington
Ph.D., University of Washington

Whittlesey, Marshall (2001)
Assistant Professor, Mathematics
B.S., Trinity College, Connecticut
Sc.M., Brown University, Rhode Island
Ph.D., Brown University, Rhode Island

Woeckener, Brenda (2001)
Director, Internal Management
B.A., Northern Arizona University

Woo, Kimberly (2001)
Assistant Professor, Education
B.A., University of California
M.A., San Francisco State University
Ed.D., Teachers College, Columbia University

Woodard, Aaron (2001)
Lieutenant
University Police Department

Worden, Patricia E. (1989)
Interim Associate Vice President for Research and Dean of Graduate Studies
Professor, Psychology
Founding Faculty
B.A., University of Colorado, Boulder
Ph.D., University of California, San Diego

Wu, Shau-Ing (1991)
Professor, Computer Science
B.S., Soochow University
M.S., New Mexico State University
M.S., University of Texas, El Paso
Ph.D., New Mexico State University

Xiao, Zhiwei (1998)
Associate Professor, History
B.A., University of Dallas
M.A., College of Saint Rose
Ph.D., University of California, San Diego

Assistant Professor, Liberal Studies (Interdisciplinary Studies)
B.A., University of Massachusetts, Amherst
M.A., University of California, Berkeley
Ph.D., University of California, Berkeley

Yáñez-Chávez, Aníbal (1992)
Associate Professor, Geography (Liberal Studies)
B.A., University of Wisconsin, Milwaukee
M.A.T., Wayne State University
Ph.D., University of California, Berkeley

Ye, Hua (1999)
Assistant Librarian
B.A., Shanghai Foreign Language Institute
M.A., Vanderbilt University, Nashville
M.L.S., University of Kentucky

Yoshii, Rika (1993)
Associate Professor, Computer Science
B.S., University of California, Irvine
M.S., University of California, Irvine
Ph.D., University of California, Irvine

Yuan, Yuan (1991)
Associate Professor, Literature and Writing Studies
B.A., Shandong University
M.A., Shandong University
Ph.D., University of Wisconsin-Milwaukee

Zera, Stephen P. (1996)
Assistant Professor, Finance
B.S.B.A., Shippensburg University of Pennsylvania
Ph.D., Florida Atlantic University

Zhang, Sheldon X. (1993)
Associate Professor, Sociology
B.A., Sichuan University
M.A., University of Southern California
Ph.D., University of Southern California

Zorn, Daniel (2001)
Peoplesoft Finance Project Manager, Fiscal Operations
B.S., University of Santa Clara

Zwick, Peter R. (1990)
Assistant to the Vice President for Academic Affairs, Global Affairs; Director of Global Affairs; and Presidential liaison for Global Affairs
Professor, Political Science
B.S., Grinnell College
M.A., Duke University
Ph.D., Duke University
The Academic Senate acts as the representative body within the faculty through which the responsibilities of the faculty to share in the governance of the University are exercised. The Academic Senate formulates, evaluates, and recommends to the President the University policies and procedures which pertain to the development, maintenance, and improvement of the University program in academic matters. The Constitution and By-laws of the University Faculty and the Academic Senate establish the basis upon which the Academic Senate participates in the governance of Cal State San Marcos.

University Council

The Cal State San Marcos University Council is a citizen advisory board consisting of community leaders interested in the development and welfare of the University. The Council advises the President on a number of matters, particularly those affecting University and community relations, and meeting the needs of the service area of the University.

University Council Members

OFFICIAL NOTICES AND POLICIES

Academic Honesty

The maintenance of academic integrity and quality education is the responsibility of each student within this University and The CSU system. Cheating and plagiarism in connection with an academic program at a campus is listed in Section 41301, Title 5, California Code of Regulations, as an offense for which a student may be expelled, suspended, put on probation, or given a less severe disciplinary sanction.

Academic dishonesty is an especially serious offense. It diminishes the quality of scholarship and defrauds those who depend upon the integrity of the campus programs. Such dishonesty includes:

A. Cheating

Using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

Comments:
1. Faculty members are strongly encouraged to make every reasonable effort to foster honest academic conduct. This includes adequate communication of expectations about what kinds of collaboration are acceptable within the course. Instructors should state in course syllabi their policies and procedures concerning examinations and other academic exercises, as well as the use before examinations of shared study aids, examination files, and other related materials and forms of assistance.
2. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversation with others) is prohibited unless specifically authorized by the instructor.
3. Students must not allow others to conduct research or prepare any work for them without advance authorization from the instructor. This comment includes, but is not limited to, the services of commercial term paper companies.
4. Students who are required to do a paper in a course should assume that submitting the same or similar paper to different courses (regardless of whether it is in the same semester or in different semesters) is not permitted without the explicit permission of the instructors of both courses.

B. Fabrication

Falsification or invention of any information or citation in an academic exercise.

Comments:
1. "Invented" information may not be used in any laboratory experiment or other academic exercise without notice to and authorization from the instructor. It would be improper, for example, to analyze one sample in an experiment and covertly "invent" data based on the single experiment for several more required analyses.
2. One must use/acknowledge the actual source from which cited information was obtained. For example, a student may not reproduce sections from a book review and indicate that the section was obtained from the book itself.
3. Students who attempt to alter and resubmit returned academic work with intent to defraud the faculty member will be in violation of this section. For example, a student may not change an answer on a returned exam and then claim that he/she deserves additional credit.

C. Facilitating Academic Dishonesty

Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

Comments:
1. For example, a student who knowingly allowed copying from his or her paper during an examination would be in violation of this section.
2. Providing information about the contents of an examination to a student who will later take the examination, or taking an examination on behalf of another student are violations of academic honesty.

D. Plagiarism

Intentionally or knowingly representing the words, ideas, or work of another as one's own in any academic exercise.

- The act of incorporating the ideas, words, sentences, paragraphs, or parts thereof, or the specific substance of another's work, without giving appropriate credit, and representing the product as one's own work.
- The act of putting one's name as an author on a group project to which no contribution was actually made; and
- Representing another's artistic/scholarly works such as musical compositions, computer programs, photographs, paintings, drawings, sculptures, or similar works as one's own.

Comments:
1. Direct Quotation: Every direct quote must be identified by quotation marks, or by appropriate indentation or by other means of identification, and must be promptly cited in a footnote. Proper footnote style for academic departments is outlined by such manuals as the MLA Style Sheet, APA Publication Manual, or K. L. Turabian's A Manual for Writers of Term Papers, Theses and Dissertations.
2. Paraphrase: Prompt acknowledgment is required when material from another source is paraphrased or summarized in whole or in part in your own words. To acknowledge a paraphrase properly, one might state: "to paraphrase Locke's comment... and conclude with a footnote identifying the exact reference. A footnote acknowledging only a directly quoted statement does not suffice to notify the reader of any preceding or succeeding paraphrased material.
3. Borrowed Facts or Information:
Information obtained in one’s reading or research which is not common knowledge among students in the course must be acknowledged. Examples of common knowledge might include the names of leaders of prominent nations or basic scientific laws.

Material which contributes only to the student’s general understanding of the subject may be acknowledged in the bibliography and need not be immediately footnoted. One footnote is usually sufficient to acknowledge indebtedness when a number of connected sentences in the paper draw their special information from one source. When direct quotations are used, however, quotation format must be used and prompt acknowledgment is required.

Inquiries and assistance in reporting student misconduct is available through the Office of the Dean of Students, Coordinator, University Student Conduct.

Office of the Vice President for Student Affairs and Dean of Students
(760) 750-4056
www.csusm.edu/student_affairs/

The Office of the Vice President for Student Affairs and Dean of Students serves as a central administrative and student information resource for the University including management and oversight of College Success Services, Health Counseling and Disability Services, Lifelong Learning Services, Financial Aid and Scholarship Office, and Associated Students Inc. Staff can be most helpful as initial points of inquiry on specific areas, policy information and general student information.

Dean of Students
(760) 750-4935
(TDD 750-4909)

The Office of the Dean of Students provides general information concerning campus policies, procedures, and regulations and offers help to students seeking to resolve campus problems. Students needing assistance with any University matter are invited to begin with this office. Specific policies regarding student grievances and discipline are administered by this office.

Students at Cal State San Marcos are subject to the same federal, state, and local laws as other citizens. Of particular importance are regulations established by the State of California through its Education Code. In addition, regulations from the Board of Trustees and the local University directly affect student life on campus. Students are responsible for their behavior on campus and are expected to know and comply with all policies and regulations printed in this Catalog and the Student Guidebook. Information on all policies that affect students is available in the Dean of Students’ office. Specific policies can also be accessed at www.csusm.edu/student_affairs/policies/index.html.

Availability of Institutional and Financial Assistance Information

To obtain information regarding institutional and/or financial assistance contact the administrator(s) and/or department(s) listed below:

Athletic Coordinator
(760) 750-7100

- Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Cal State San Marcos dedicates to its men’s and women’s teams.

Cashier’s Office
(760) 750-4491

- Information concerning the cost of attending
- If requested, additional costs for specific programs.

- Fees and tuition (where applicable).
- Information concerning the refund policies of Cal State San Marcos for the return of unearned tuition and fees or other refundable portions of institutional charges.

Chief of Police
(760) 750-4564

- Information concerning Cal State San Marcos policies, procedures, and facilities for students and others to report criminal actions or other emergencies on campus.

- The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act requires the distribution of an annual security report to all current faculty, staff, and students and notice of its availability to prospective students, faculty, and staff. The annual security report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the California State University, and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters. You can obtain a copy of this report by contacting the Police Department of each campus, or by accessing the following website: www.calstate.edu/clery/.

Counseling and Psychological Services
(760) 750-4910

- Information concerning the prevention of drug and alcohol abuse and rehabilitation programs.

Director of Disabled Student Services
(760) 750-4905 (TDD 750-4909)

- Information regarding special facilities and services available to students with disabilities.
Scholarship Director of Financial Aid
(760) 750-4850

- Student financial assistance programs, including state grants, available to students who enroll at Cal State San Marcos.
- Procedures and forms by which application for student financial assistance is made.
- Student eligibility requirements for financial assistance and the criteria used in determining how financial assistance is distributed among eligible applicants who enroll at CSUSM.
- Rights and responsibilities of students receiving financial assistance including aid provided under federal Title IV student assistance programs.
- The Federal Military Selective Service Act. The Federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.

Financial Aid Business Office
(760) 750-4492

- Disbursement of any financial aid funds.
- Information concerning Cal State San Marcos' policies regarding the return of federal Title IV student assistance funds as required by regulation.

Provost and Vice President for Academic Affairs
(760) 750-4050

- Information regarding student retention and graduation rates and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest.

Vice President for Student Affairs
(760) 750-4056

- Information concerning grievance procedures for students who feel aggrieved in their relationships with the University, its policies, practices, and procedures, or its faculty and staff.
- Estimates of typical student room and board costs.
- Typical commuting costs.

University Store
(760) 750-4730

- Estimated costs of books and supplies.

Average Annual Cost of Education and Sources of Funds per Full-time Equivalent Student

The 23 campuses and the Chancellor's Office of the California State University are financed primarily through funding provided by the taxpayers of California. The systemwide cost of education is defined as total support expenditures (State University Fee revenue and General Fund support appropriations) divided by the number of full-time equivalent students. The total 2001/02 state General Fund appropriation to the CSU (not including capital outlay funding in the amount of $225,000,000) is $2,607,425,000 and campus budgeted State University Fee Revenue is $509,417,000 for a total of $3,116,842,000. The $3,116,842,000 total cost of education for CSU must provide support for a projected 305,854 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student's academic load).

The 2001/02 systemwide cost of education per full-time equivalent student is $10,191. Of this amount, the average student fee support per FTE is $1,876. (The State University Fee and campus fees that must be paid to apply to, enroll in, or attend the university are included in the average costs paid by the students. Individual students may pay less or more than $1,876, depending on the campus and whether student is attending part-time/full-time, or is resident/nonresident student. Also, other campus fees may be charged that are not required of all enrolled students, which include user and penalty/deposit fee types).

Drug-Free Environment

In compliance with the federal Drug-Free Schools and Communities Act Amendments of 1989, Cal State San Marcos certifies that the University will be a drug-free workplace and learning environment and that the unlawful manufacture, distribution, dispensation, possession, or use of controlled substances by employees and students of the University is prohibited. Violation of this prohibition may result in appropriate disciplinary actions up to and including termination of employment or expulsion from the University.

Employees or students with questions about the dangers of drug abuse and/or those seeking information about the availability of employee/student assistance and drug-counseling programs are urged to contact the Director of Human Resources and Equal Opportunity or the Dean of Students, as appropriate.

Federal Drug-Free Schools and Communities Act of 1989

Cal State San Marcos is committed to achieving and maintaining a campus community that fosters personal and institutional excellence and strives to provide conditions under which the work of the University can go forward freely, with the highest standard of quality and integrity. In keeping with this commitment, all faculty, staff, and students are urged to ensure that the campus is free of the problems of substance abuse and dependency. For information regarding the Federal Drug-Free Schools and Communities Act of 1989, please contact the Office of the Dean of Students, (760) 750-4935 or visit the CSUSM home page in the Campus Wide Information System.

Immigration Requirements For Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PL. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulations is available from Richard Riehl, Executive Director of Enrollment Services, Cal State San Marcos, San Marcos, CA 92096-0001, (760) 750-4809.

Nondiscrimination Policy

Gender

The CSU does not discriminate on the basis of gender in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination (including harassment) on the basis of gender in education programs and activities operated by CSUSM. Such programs and activities to include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of CSUSM may be referred to:

- Human Resources and Equal Opportunity Office, (760) 750-4416;
- The Office of the Dean of Students, (760) 750-4935; or
- The Regional Director of the Office for Civil Rights, Region IX, 50 United Nations Plaza, Room 230, San Francisco, CA 94102.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

Race, Color, National Origin, and Disability

The California State University complies with the requirements of Title VII of the Civil Rights Act of 1964 as amended by the Americans with Disabilities Act and the regulations adopted thereunder. No person shall, on the basis of race, color, national origin, or disability, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination (including harassment) under any program of the University. The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Sections 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 together with the regulations adopted thereunder prohibit such discrimination. Questions regarding forms of reasonable accommodation and/or prohibited discrimination may be referred to:

- The Office of the Dean of Students, (760) 750-4935, or
- The Human Resources and Equal Opportunity Office, (760) 750-4416.

Inquiries concerning Title VII may be referred to:

- Human Resources and Equal Opportunity Office, (760) 750-4416, or
- The Office of the Dean of Students, (760) 750-4935.

Age, Ethnicity, Religion, Sexual Orientation, Pregnancy, Marital or Veteran Status

The California State University does not discriminate on the basis of age, ethnicity, religion, sexual orientation, pregnancy, marital or veteran status in any of its programs or activities. Cal State San Marcos complies with all applicable federal and state laws and regulations and Trustee policies in this area. Inquiries concerning compliance may be referred to the Human Resources and Equal Opportunity Office, (760) 750-4416.
Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus, and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge such if the student claims they are inaccurate records on the grounds that they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student.

Cal State San Marcos has adopted a set of policies and procedures governing implementation of these statutes and regulations. Copies of these policies and procedures may be obtained at the Office of the Executive Director of Enrollment Services. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release "directory information" concerning students. "Directory information" may be defined by a campus to include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

CSUSM defines the following items as directory information:
- Student’s name
- Major field of study
- Dates of attendance
- Full-time or part-time status
- Degrees, awards, and honors received
- Dates degrees conferred

Unless a student objects in writing, directory information as defined above, is subject to release at any time. Written objections should be sent to the Office of the Vice President for Student Affairs, Cal State San Marcos, San Marcos, CA 92096-0001.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’ academic, administrative or service functions and have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; to other institutions to which the student is transferring). When information from a student’s education record is disclosed, the recipient is obliged to maintain the confidentiality of the information received.

Sexual Assault Policy

Philosophy

Concern for others is the standard for personal interaction in the University. Cal State San Marcos takes seriously its obligation to uphold the laws of the larger community of which it is a part. The University’s Mission Statement values fairness and respect for all persons in the University community. Association with the University imposes the additional obligation on every person to abide by all the rules and regulations of The California State University as well as all local, state, and federal laws.

Policy

Cal State San Marcos will not tolerate sexual assault in any form. Where there is evidence that sexual assault has been committed, on campus or at a University-related event, severe disciplinary action will be initiated, including the possibility of suspension or dismissal for employees and suspension or expulsion for students. In addition, criminal remedies may be sought by the victim through appropriate legal channels. Due process in all University proceedings will be ensured.

Definition and Legal Background

The California Penal Code Sections 261 and 243.4 and Assembly Concurrent Resolution No. 46 (September 14, 1987) define sexual assault as follows:

Sexual Assault is any involuntary sexual act in which a person is threatened, coerced, or forced to comply against her/his will;

Rape is forced sexual intercourse perpetrated against the will of the victim or when she/he is unable to give consent (i.e., unconscious, asleep, or under the influence of alcohol or drugs) and may involve physical violence, coercion, or the threat of harm to the victim;

Acquaintance Rape is rape by a non-stranger who could include a friend, acquaintance, family member, neighbor, co-worker;

Date Rape is rape by someone the victim has been or is dating;

Sexual Battery is unwanted touching of intimate body parts.

**Education**
A variety of educational literature, brochures, pamphlets, and videos about sexual assault and rape are available in the library, Counseling and Psychological Services, and Student Health Services. Programs targeted for students and other University personnel are scheduled during the academic year. These programs provide factual information about sexual assault, promote open discussion, encourage reporting, and provide information about prevention to faculty, staff, and both male and female students. The programs focus on prevention and awareness including critical factual information about the prevalence of stranger and acquaintance rape, how and where it happens, its impact, and the relationship between alcohol and drug use and sexual assault. Student Affairs professional staff and campus police participate in annual sexual assault seminars in an effort to enable these personnel to provide appropriate information and counseling to sexual assault victims.

**Sexual Assault Reporting Procedures**
Persons involved in, or a witness to a campus-related sexual assault should:

A. Call 911 to notify the San Diego County Sheriff's Department.

B. Notify University Police, 750-3111. This office will be responsible for notifying appropriate University offices. University Police will be responsible for documentation and reporting, and will ensure records are maintained and distributed to appropriate offices.

Persons possessing knowledge of a campus-related sexual assault should report their information to University Police. Assistance and support in reporting sexual assault incidents is available through:

- Office of the Dean of Students (760) 750-4935.
- Counseling and Psychological Services, (760) 750-4910
- Human Resources and Equal Opportunity Office, (760) 750-4416

**Support Services**
Sexual assault violations often result in physical harm, psychological harm, or both. Victims are urged to seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

- Counseling and Psychological Services (760) 750-4910
- University Student Health Services (760) 750-4915
- Additional community resources:
  - Woman's Resource Center
  - 24-hour Hotline, (760) 757-3500
  - Battered Women's Services Hotline (760) 234-3164
  - Crisis Response Unit (800) 833-3376
  - Lifeline Community Services (760) 728-4900
  - Rapes/Domestic Violence Hotline (760) 233-3088
  - Victims of Crime Resource Center (800) 842-8467
- Legal References:
  - California Administrative Code, Title 1, Section 41301(e); 41302.

**Sexual Harassment**

**Philosophy**
Concern for others is the standard for personal interaction in the University. The University's Mission Statement values fairness and respect for all persons in the University community. Cal State San Marcos takes seriously its obligation to uphold the laws of the larger community of which it is a part. In addition to local, state, and federal laws, association with the University imposes the obligation on every person to abide by all the rules and regulations of the California State University.

**Policy**
Cal State San Marcos will not tolerate sexual harassment in any form. When there is a complaint that sexual harassment has occurred, on campus or at a University event, the University will take steps to investigate the allegations. Where there is evidence of sexual harassment, the University will initiate disciplinary procedures, which may include the possibility of dismissal or suspension of employees and students. Due process in all University proceedings will be ensured. The complainant may also seek prosecution through legal channels.

**Definition**
Sexual harassment is unwelcomed, objectionable verbal or physical conduct of a sexual nature that adversely affects and intimidates the victim. Sexual harassment occurs when:

- submission to or tolerance of such conduct is an explicit or implicit term or condition of appointment, employment, admission, or academic evaluation;
- submission to, or rejection of, such conduct is used as a basis for a personnel or academic evaluation;
- the conduct has the purpose or effect of interfering with an employee's work or a student's academic performance; and
- the conduct has the purpose or effect of creating an intimidating, hostile, offensive, or otherwise adverse working or learning environment.
The following examples illustrate some forms of sexual harassment. This list is not intended to be exhaustive:

- blatant or subtle pressure for sexual activity;
- persistent sexually explicit or sexist statements or anecdotes;
- frequent jokes of a sexual nature;
- repeated staring at a person's body;
- a pattern of objectionable questions or remarks about sexual activities;
- unwanted hugging, patting, kissing, brushing up against someone's body, or other inappropriate sexual touching;
- suggestive or obscene notes or phone calls; and
- the display of sexually explicit pictures or cartoons.

**Complaint Process**

The University will ensure due process in all sexual harassment proceedings. University policies and procedures related to sexual harassment protect the rights of all members of the University community.

Any student, faculty member, administrator, or staff employee of the University who suspects that he/she has been subjected to sexual harassment as defined in University policy is encouraged to discuss the incident with a recognized University contact.

**INFORMAL PROCESS**

As part of their official responsibilities within the University, the following individuals are available for initial contact:

- Managers
- Vice Presidents, Deans, Directors, or Department Administrators
- Director, Human Resources and Equal Opportunity, (760) 750-4416
- Counselor, Counseling and Psychological Services
- Student Health Services professionals

The individuals listed above will provide complainants with suggestions for resolving the matter. Options may include:

- Referral to University administrators who will assist the complainant through an informal procedure. The informal procedure may include confronting the alleged harasser, writing a letter outlining concerns, or sitting down with a facilitator to air concerns and seek solutions. The informal procedures require responsible investigation and the confidentiality of involved individuals cannot be guaranteed.
- Referral for personal counseling to Counseling and Psychological Services, local counseling services, or the Employee Assistance Program.

University administrators responsible for informal resolution are:

- Dean of Students, (760) 750-4935
- Associate Vice President for Academic Affairs–Academic Resources, (760) 750-4052
- Human Resources and Equal Opportunity, (760) 750-4416

**Formal Procedures**

When an allegation of sexual harassment cannot be resolved through the informal process, the University will implement formal procedures.

Formal procedures appropriate to the situation must be followed. Such procedures are governed by law, labor agreements and University policy, which may include affirmative action grievance procedures, faculty and staff disciplinary procedures, CSU Executive Orders and applicable criminal and civil codes.

**LEGAL REFERENCES:**

- Section 703 of Title VI of the Equal Employment Opportunity Commission, Civil Rights Act of 1964
- Title IX of the Education Amendments of 1972
- Prohibited by Executive Order of the CSU Chancellor's Office in 1981

**Smoking Policy**

The National Institute for Occupational Safety and Health (NIOSH) has determined that environmental tobacco smoke and sidestream smoke is potentially carcinogenic to occupationally exposed workers. Secondary tobacco smoke can also lead to an increased risk of heart disease in non-smokers.

Because tobacco smoke is also a major contributor to indoor air pollution and a significant health hazard for several populations, and in accordance with Sections 19994.31 and 19994.32 of the California Government Code, smoking is prohibited in all buildings and state vehicles where Cal State San Marcos employees work or ride.

Smoking is limited to areas outside campus vehicles and buildings, and at least five feet from doorways and air intakes.

To aid persons desiring to stop smoking, the University will provide referral information on cessation programs for students, faculty, and staff.
Student Discipline

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

41301. Expulsion, Suspension and Probation of Students. Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

A. Cheating or plagiarism in connection with an academic program at a campus.
B. Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
C. Misrepresentation of oneself or of an organization to be an agent of the campus.
D. Obstruction or disruption, on- or off-campus property, of the campus educational process, administrative process, or other campus functions.
E. Physical abuse on or off campus property of the person or property of any member of the campus community or of a member of his or her family, or the threat of such physical abuse.
F. Theft of, or non-accidental damage to, campus property or property in the possession of, or owned by, a member of the campus community.
G. Unauthorized entry into, unauthorized use of, or misuse of campus property.
H. On campus property, the sale, or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis.
I. Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus President.
J. Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.
K. Abusive behavior directed toward, or hazing of, a member of the campus community.
L. Violation of any order of a campus President, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.
M. Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section.
N. For purposes of this Article, the following terms are defined:
1. The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.
2. The term "campus property" includes:
a) real or personal property in the possession of, or under the control of, the Board of Trustees of the California State University, and
b) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.
3. The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, slingshot, billy, sandclub, sandbag, metal knuckles, any dirk, dagger, switchblade, knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.
4. The term "behavior" includes conduct and expression.
5. The term "hazing" means any method of initiation into a student organization, or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
O. This Section is not adopted pursuant to Education Code Section 89031.

P. Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this article as in effect immediately prior to such effective date.

41302. Disposition of Fees: Campus Emergency: Interim Suspension. The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission. Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he/she enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for the California State University. The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provision of governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board actions taken under this section.

CAL STATE SAN MARCOS 331
ACCREDITATION

Cal State San Marcos is fully accredited by the Western Association of Schools and Colleges (WASC). WASC is the official accrediting body for institutions of higher learning in the West. The Western Association of Schools and Colleges may be reached at:

985 Atlantic Avenue, Suite 100, Alameda, CA 94501
Phone: (510) 748-9001
Fax: (510) 748-9797
E-mail: wascr@wascenior.org
Internet: www.wascweb.org

CHANGES IN RULES AND POLICIES

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

CATALOG IN ALTERNATE FORMAT

This catalog can be made available in alternate format upon request. Please contact the Office of Disabled Student Services for further information at (760) 750-4905 or TDD (760) 750-4909.

Catalog Updates

Because this catalog was printed in the Spring of 2002, students are encouraged to consult with advisors and to visit the Cal State San Marcos web site www.csusm.edu for the most current information.

The Class Schedules will include Catalog Addenda: updated information about new and modified curricula, regulations, policies, procedures, dates, fees and deadlines.

Catalog rights for 2002-2004 refer to the curricula, policies and procedures as updated in the Catalog Addenda published in the Class Schedules.
