VALUES

California State University San Marcos is an academic community dedicated to the values of:

**Intellectual Engagement**
Learning, teaching, discovery, and application of knowledge

**Community**
Shared commitments to service, teamwork, and partnership

**Integrity**
Respect, honesty, trust, fairness, academic freedom, and responsibility

**Innovation**
Creativity, openness to change, flexibility, responsiveness, and future focus

**Inclusiveness**
Individual and cultural diversity, and multiple perspectives

MISSION

California State University San Marcos focuses on the student as an active participant in the learning process. Students work closely with a faculty of active scholars and artists, whose commitment to sustained excellence in teaching, research, and community partnership enhances student learning. The university offers rigorous undergraduate and graduate programs distinguished by exemplary teaching, innovative curricula, and the application of new technologies. Cal State San Marcos provides a range of services that respond to the needs of a student body with diverse backgrounds, expanding student access to an excellent and affordable education. As a public university, Cal State San Marcos grounds its mission in the public trust, alignment with regional needs, and sustained enrichment of the intellectual, civic, economic, and cultural life of our region and state.

VISION

In its second decade, California State University San Marcos will become a distinctive public university known for academic excellence, service to the community, and improving learning through creative uses of technology. In its teaching and student services, Cal State San Marcos will combine the academic strengths of a large university with the close personal interactions characteristic of smaller institutions. Our curriculum will build upon its strong foundation in the liberal arts and sciences to increase student achievement of the knowledge, skills, and competencies needed in a global society experiencing accelerated technological, social, and environmental change. Students also will select from a growing array of specialized programs responsive to state and regional needs. All members of the campus will work to provide an environment that supports the work of students and faculty. Cal State San Marcos will celebrate and capitalize on its diversity to form a learning community committed to this shared vision.

This catalog may be purchased for $14.50 plus tax from the University Store. To order this catalog by mail, please contact the University Store at (760) 750-4730.
Welcome to Cal State San Marcos!

Perhaps this catalogue is the first reference you’ve checked about Cal State San Marcos. If you are a student here, or about to become one, let me assure you—it will not be your last reference! This university offers a quality education, and our faculty will push you to succeed in your studies. But it is you who will provide the commitment and hard work that it takes to succeed.

It is not all hard work, however! Student life and student spirit is alive and flourishing through student government, clubs, and activities.

Who are you? If you are a student at Cal State San Marcos, you are both an individual on a path of educational attainment and also a part of the rich mixture of students we attract: fresh from high school, community college, or returning to the classroom after years of work or raising a family. You represent many ethnic and cultural groups and a wide spectrum of economic backgrounds. You are politically conservative, liberal, in-between, or politically indifferent. You want to become a teacher, run a business, continue with graduate studies, and spend your time in a laboratory or a studio. You come from the neighborhood around us, from San Diego County, from around the state, and beyond. But when you graduate, you become Cal State San Marcos alumni. We are proud of our graduates and of their ability to make professional dreams come true and, perhaps, to change our world.

This is a special place. A catalogue can only assist you in making decisions about your academic future. Come to campus to see for yourself why we say we’ve built a place for you.

Karen S. Haynes, Ph.D.
President
Harry Brakebill Distinguished Professor Award, 2005-2006

"We die. That may be the meaning of life. But we do language. That may be the measure of our lives."

–Toni Morrison, "Nobel Lecture in Literature"

I remember the day in high school that I told myself, "If there's one thing I want to be able to do in life, I want to be able to write." When I spoke those words, I had heard of Toni Morrison, but I had yet to read her words. I may have had an inkling of what rhetoricians and linguists had done and do, but I doubt that I had read their work. Still I knew what I meant by my words: I simply wanted my prose to work.

Unwittingly, that little chat with myself guided me to the work that enriches my life in so many ways—teaching writing and literature. And yet I have wondered what drew me to words.

**Family:** Was it the influence of my mom, a farm girl from rural Minnesota, who shared stories of studying English so as not to sound too country? Was it the privilege of nightly dinner around the table where we read books together and engaged in lively discussions about theology, politics, race, and sexuality?

**Friends:** Was it friends who generously responded to my writing with honest feedback by asking, "What do you mean here? Just tell me with your words" and then kindly wrote them down?

**Teachers:** What about my public school education, particularly my first/second grade teacher who encouraged inquisitiveness by creating a word-filled room replete with books and a tree house for reading? Or was it that high school teacher who offered her lunch-break to discuss my writing one-on-one with me?

**Professors:** Or was it the professor who encouraged me to speak more during class discussions or the one who recommended that I serve as a writing tutor? Or the one who suggested grad school by confidently asking, "So where will you be going to school next year?"

I don't know precisely what prompted and kept alive those words, "I want to be able to write," but I do know that I have had the privilege of being supported by people who have immersed me in words and encouraged me to play, think, and challenge ideas with words. For that, I extend a heartfelt "thank you!"

I am humbled by this honor, for I know that I am surrounded by innovative colleagues who enrich the CSUSM community in myriad ways. And to my students, thank you for demanding an engaging learning environment. I hope I offer you the kind of mentorship I have experienced, one that encourages you to "do language" as you follow your dreams with knowledge, confidence, and enthusiasm.
Being named the Harry E. Brakebill Distinguished Professor is without a doubt the biggest honor of my professional career. I am truly thankful to the Brakebill family for supporting the Award and my colleagues for finding me worthy to win it. This award has become synonymous with quality teaching, research, and service at CSUSM. It is particularly significant to me, since the process was initiated and carried forward by my former students.

Whenever you get an honor such as this, it is natural to reflect on how you arrived at this point in your life. In looking back at my education, I was not one of those people who always wanted to study science. No one in my family had ever taken chemistry before, or even gone to college. Although, I entered college as a declared chemistry major, I seriously considered switching my major to mathematics or philosophy for the first two years. The only thing that I was sure of was that learning was hard work, but enjoyable and extremely rewarding.

So why did I remain in chemistry? It came down to the fact that I had a number of excellent chemistry professors, people who cared about me as a student and as an individual. They encouraged me to learn and to get involved in undergraduate research. These professors did not have grants or do cutting edge research, but it didn’t matter. They were there to teach undergraduate students both formally in the classroom and informally in the lab and their office. Throughout my career, I have tried to emulate these individuals and just hope that I can pass on to my students some of the enthusiasm for learning that my professors gave to me.

One of my goals in teaching has always been to demonstrate to all students how Chemistry is relevant to their lives. We live in an ever-increasing technical world and having some knowledge of basic scientific principles can take some of the mystery out of the world around us. Another important aspect in my teaching is to get students involved in the classroom. Learning Chemistry is not a spectator sport. You need to be an active participant in the learning process. Struggling with difficult material is normal, but mastering this material is a great accomplishment.

An important factor in accomplishing any goal is to have support from the people around you. This has been as true for me as a faculty member, as when I was a student. I have been lucky enough to receive tremendous support from colleagues in the Departments of Chemistry and Physics. These people have supported my classroom innovations and experimentation and have helped me become a better teacher and researcher. The opportunity to try innovative approaches in my teaching is one of the things that encouraged me to originally come to CSUSM. Another was the environment that supports the interaction with students in teaching and research.

Professional achievements are only one measure of success. Personal relationships are a more important aspect in measuring one’s fortune. Luckily, I have been blessed with the support of my parents, my wife, and my children - who have helped me to see what is truly important in life.
About the University

HISTORY OF CAL STATE SAN MARCOS

As far back as 1968, business and civic leaders in North San Diego County were working to interest state legislators and educational leaders to develop a state university in their region. The efforts were unsuccessful until 1978, when then-Assemblyman William A. Craven obtained state funds to begin a satellite facility for San Diego State University. The North County satellite began offering classes out of a portable classroom in Vista in 1979, and grew steadily through the 1980s in rented office facilities in San Marcos.

Legislative, educational, and business leaders continued to plan for a permanent state university in the region. The site of an old chicken ranch was chosen for the future campus. In 1989, two decades after local citizens had begun the process, a new state university — CSU San Marcos — was approved through legislation (SB360) and signed into law by then-Governor George Deukmejian. Initial academic planning and the first two years of classes took place at "Cal State Jerome's," as students nicknamed the shopping mall campus while the initial buildings were under construction.

Cal State San Marcos is a fully accredited state university, recognized for quality in undergraduate and graduate academic offerings, and appreciated for its small campus atmosphere. Built with an eye towards the needs of the 21st Century, Cal State San Marcos gives its students the benefits of access to the newest science labs, cutting-edge multimedia computer technology, and the energy of some of the brightest and most enthusiastic faculty in the country.

These faculty members enforce a rigorous writing requirement across the curriculum, as well as computer and second language competencies that give students an advantage with graduate school training or the job market. The emphasis at Cal State San Marcos is on community-based learning opportunities that integrate the classroom with the real world classroom.

The campus is rapidly growing to meet the future. The University Village student housing project brings 469 full-time residents to the campus. The M. Gordon Clarke Field House/University Student Union provides the first on-campus recreation and meeting space for students. The Kellogg Library signals a new era in academic support for students, with more than five times the space available in the previous facility. Classes were held for the first time in Markstein Hall, which houses the College of Business Administration and several other departments, in spring 2006.

Along with the construction of new buildings, the campus has been aggressively adding new majors, including kinesiology, criminology, biotechnology, border and regional studies, nursing and mass media. Other majors are planned to follow as the campus adds to its academic offerings in order to meet the needs of the region.

But whether it's in the middle of a great building boom or occupying the humble space rented next to a furniture store, Cal State San Marcos has always been a place where students, as the founding faculty wrote, "realize their potentialities as enlightened individuals and productive members of society in a world of change."

HISTORY OF TUKWUT AT CAL STATE SAN MARCOS

In 1990 the first class of students at Cal State San Marcos decided they would like to honor the indigenous people on whose ancestral lands the new university was soon to be built. They approached librarian Bonnie Biggs, who was doing work with the local Indian community. The students wanted to learn the Luiseño words for "mountain lion" and "pioneer."

Ms. Biggs contacted the Rincon Tribal Library, which was involved in collecting oral histories from Luiseño elders. Villiana Hyde, one of the remaining tribal elders still fluent in the language, provided the word "tukwut", which means "mountain lion" in Luiseño.

And so the first class of students at Cal State San Marcos named their first yearbook Tukwut, and the name was unofficially adopted as the mascot of our campus.

THE CALIFORNIA STATE UNIVERSITY

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and, in 1982, the system became the California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus — San Jose State University — was founded in 1857 and became the first institution of public higher education in California. The newest, CSU Channel Islands, opened in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop system-wide policy, with implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as a broad liberal education. All the campuses require for graduation a basic program of "General Education Requirements," regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,800 bachelor's and master's degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper-division and graduation requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 2005 totaled 405,000 students, who were taught by some 22,000 faculty. The system awards more than half of the bachelor's degrees and a third of the master's degrees granted in California. Nearly 2 million persons have been graduated from CSU campuses since 1960.

# 2007-2008 Academic Calendar

## Summer 2007 Term
- **June 2 (Sat)**: First day of classes for 10-week Summer classes and 5-week classes in first Summer block
- **July 4 (Wed)**: Independence Day holiday - campus closed
- **July 6 (Fri)**: Last day of classes for 5-week classes in first Summer block
- **July 7 (Sat)**: First day of classes for 5-week classes in second Summer block
- **August 1 (Tue)**: Initial Period for filing applications for Spring 2008 begins
- **August 10 (Fri)**: Last day of classes for all 10-week Summer classes and 5-week classes in second Summer block
- **August 16 (Thur)**: Grades due from instructors; last day of Summer term

## Fall 2007 Semester
- **August 20-22 (Mon-Wed)**: Faculty pre-instruction activities
- **August 22 (Wed)**: Convocation for faculty and staff
- **August 23 (Thur)**: First day of classes
- **September 3 (Mon)**: Labor Day holiday - campus closed
- **October 1 (Mon)**: Initial period for filing applications for Fall 2008 begins
- **October 17 (Wed)**: Last day of class for first session of Fall half-semester classes
- **October 18 (Thur)**: First day of class for second session of Fall half-semester classes
- **November 12 (Mon)**: Veteran's Day (observed) - campus closed
- **November 22-24 (Thur-Sat)**: Thanksgiving holiday - campus closed
- **December 7 (Fri)**: Last day of classes
- **December 8-14 (Sat-Fri)**: Final examinations
- **December 20 (Thur)**: Grades due from instructors; last day of Fall semester

## Spring 2008 Semester
- **January 16-18 (Wed-Fri)**: Faculty pre-instruction activities
- **January 19 (Sat)**: First day of classes
- **January 21 (Mon)**: Martin Luther King Jr. Day - campus closed
- **March 14 (Fri)**: Last day of class for first session of Spring half-semester classes
- **March 15 (Sat)**: First day of class for second session of Spring half-semester classes
- **March 31-April 5 (Mon-Sat)**: Spring break - campus closed March 31 (César Chávez Day)
- **May 9 (Fri)**: Last day of classes
- **May 10-16 (Sat-Fri)**: Final examinations
- **May 17-18 (Sat-Sun)**: Commencement weekend
- **May 22 (Thur)**: Grades due from instructors; last day of Spring semester

*Note: This calendar is not intended to be construed as an employee work calendar.*

*Some Fall and Spring semester classes meet in a half-semester term.*
ACADEMIC PROGRAMS

California State University San Marcos offers academic programs in the College of Arts and Sciences, College of Business Administration, College of Education, and Health and Human Services Programs.

Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) degree programs, as well as minors, are offered in the College of Arts and Sciences and the College of Business Administration.

Teacher credentialing programs are offered in the College of Education, with teacher preparation programs available in the College of Arts and Sciences.

Graduate programs leading to either a Master of Arts (M.A.), Master of Business Administration (M.B.A.), Master of Science (M.S.), or Doctor of Education (Ed.D.) are offered in all three colleges.

Liberal Studies, B.A.
- Elementary Subject Matter Preparation Option
- Integrated Credential Program Option

Literature and Writing Studies, B.A.
- Literature Concentration
- Single-Subject Preparation Option
- Writing Concentration

Mass Media, B.A.**
- Art History
- Biology
- Business Administration
- Chemistry
- Cognitive Science
- Communication
- Computer Science
- Criminology and Criminal Justice
- Dance
- Economics
- Ethnic Studies

- Integrated Bachelor of Arts and Multiple-Subject/English Learner Authorization
- Multiple-Subject/Middle Level Certificate/English Learner Authorization
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple-Subject/English Learner Authorization*
- Single-Subject Credential Program/English Learner Authorization (Secondary)
- Part-time Single-Subject/English Learner Authorization (Secondary)
- Multiple Subject/BCLAD (Bilingual/Cross-Cultural Language and Academic Development): Spanish Emphasis
- Part-time Multiple-Subject/BCLAD: Spanish Emphasis
- Part-time Single-Subject/BCLAD: Spanish Emphasis
- Integrated Bachelor of Arts and Multiple-Subject/BCLAD: Spanish Emphasis
- Multiple-Subject/Middle Level/Spanish BCLAD: Spanish Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple-Subject/BCLAD: Spanish Emphasis*

Master of Arts

- Master of Arts in Education, Options:
  — Critical Studies of Schooling Culture and Language
  — Education Administration
  — Teaching, Learning, and Leadership
  — Literacy Education
  — Science, Mathematics and Educational Technology for Diverse Populations
  — Special Education

Doctor of Education, E.d.D.

- Doctorate in Education, Educational Leadership
  - Joint program offered by Cal State San Marcos, San Diego State University, and University of California San Diego.

HEALTH AND HUMAN SERVICES

- Kinesiology, B.S.
- Nursing, B.S.

*Internships offered with San Diego Unified School and Capistrano Unified School District.

Applications may be obtained online at www.csumentor.edu. Electronic versions of the CSU undergraduate and graduate applications are accessible on the Web at www.csumentor.edu/. The CSUMentor system allows students to browse through general information about CSU’s twenty-three campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

Application Documents

Accurate, and Authentic

Importance of Filing Complete, Correct, Accurate, and Authentic Application Documents

Cal State San Marcos advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Admissions and Recruitment

The Office of Admissions and Recruitment offers a full array of services from the time of first contact until students register for their first semester.

All pre-enrollment services are housed in the Enrollment Services Information Center. Admissions is responsible for processing admission applications and for the evaluation of high school and transfer credits, but also offers a wide variety of services to prospective students who have not yet applied. Admissions information sessions, and campus tours are available to students seeking information about the University. Questions about majors offered, support services available, or the future development of the campus can also be addressed. In addition to the professional staff, the Ambassadors are a group of continuing Cal State San Marcos students who are available for these services.

Registration and Records

The Office of Registration and Records is responsible for registration, grade reporting, maintenance of the official academic record, name, address, and major changes, outgoing transcripts, incoming transcript evaluation, class rosters, enrollment verification, registration status, leaves of absence, and graduation processing. Application for services related to the above may be obtained from the Enrollment Services Information Center in Craven Hall. The official name, address, and major changes for a student must be requested in the Enrollment Services Information Center. All official academic records for students are maintained in Registration and Records, including academic transcripts, academic status, degree information, grade changes, and petitions for exceptions to academic regulations.

Undergraduate Admission Requirements

Freshman Admission Requirements

Generally, first-time freshman applicants will qualify for regular admission if they:

1. have graduated from high school,
2. have a qualifying minimum eligibility index (see Eligibility Index), and
3. have completed, with grades of C or better, each of the courses in the comprehensive pattern of college preparatory subject requirements (see “Subject Requirements”).

Eligibility Index

The eligibility index is the combination of a high school grade point average and a score on either the ACT or the SAT. Beginning with admission for Fall 2004, your grade point average is based on grades earned in courses taken during your final three years of high school that satisfy the college preparatory “a-g” subject requirements, and bonus points for approved honors courses.

Up to eight semesters of honor courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU Eligibility Index (EI) can be calculated by multiplying a grade point average by 800 and adding a total score on the SAT I, the mathematics and critical reading scores of the SAT. Students who took the ACT, multiply the mathematics and critical reading scores of the SAT grade point average by 200 and add ten times the ACT composite score. California high school graduates (or a resident of California for tuition purposes) need a minimum index of 2900 using the SAT I or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages.

Persons who neither graduated from a California high school or are residents of California for tuition purposes, need a minimum index of 3502 (SAT I) or 842 (ACT). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

When the grade point average is 3.00 or above (3.61 for nonresidents), applicants are not required to submit test scores. However, all applicants for admission are urged to take the SAT I or ACT because campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted
CSU campuses usually require SAT I or ACT scores of all applicants for freshman admissions.

All freshman applicants are required to submit ACT or SAT I Scores. Fall applicants must take an ACT or SAT examination by December of their senior year.

Applicants will qualify for regular admission when the university verifies that they have graduated and received a diploma from high school, have a qualifying minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects, and, if applying to an impacted program, have met all supplementary criteria.

Provisional Admission First-Time Freshman
Cal State San Marcos may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the senior year of study to ensure that those so admitted complete their senior year of studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all course work has been satisfactorily completed. Official high school transcripts must be received prior to deadline set by the university. In no case may documentation of high school be received at any later than the census date for a student’s first term of CSU enrollment. A campus may rescind admission decisions for students who are found not to be eligible after the final transcript has been evaluated.

The CSU uses only the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing score is not currently used by CSU campuses.

Subject Requirements
The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government.
- 4 years of English.
- 3 years of math (algebra, geometry and intermediate algebra).
- 2 years of laboratory science (1 biological and 1 physical, both with labs).
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence).
- 1 year of visual and performing arts: art, dance, drama/theater, or music.
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, and visual and performing arts.

Foreign Language Subject Requirement
The Foreign Language Subject Requirement may be satisfied by applicants who demonstrate competence in a language, other than English, equivalent to or higher than expected of students who complete two years of foreign language study. Consult with your school counselor or any CSU campus’ Admissions for further information.
Subject Requirement Substitution for Students with Disabilities

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant’s academic advisor or guidance counselor in consultation with the Director of Disabled Student Services. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. Further information and substitution forms can be obtained from the Director of Disabled Student Services.

Undergraduate Transfer Applicants

Transfer Requirements

Students who have completed fewer than 60 transferable college units (fewer than 90 quarter units) are considered lower division transfer students. Students who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper division transfer students. Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements.

Transferable courses are those designated for baccalaureate credit by the college or university offering the courses.

Making Up Missing College Preparatory Subject Requirements

Lower-division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways.

1. Complete appropriate courses with a C (2.0) or better in adult school or high school summer sessions.

2. Complete appropriate college courses with a C (2.0) or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.

3. Earn acceptable scores on specified examinations. Please consult with any CSU Admissions Office for further information about alternative ways to satisfy the subject requirements.

Due to enrollment pressures, many CSU campuses do not admit or enroll lower-division transfer students.

Upper-Division Transfer Requirements

Generally, applicants will qualify for admission as upper-division transfer students if:

1. they have a grade point average of at least 2.0 (C or better) in all transferable units attempted; and

2. they are in good standing at the last college or university attended; and

3. they have completed at least 60 semester units of college coursework with a grade of C or better in each course, to be selected from courses in English, arts and humanities, social science, science and mathematics, at a level at least equivalent to courses that meet general education requirements. The 60 units must include all of the general education requirements in communication in the English language both oral and writing and critical thinking (at least 9 semester units) and the requirement in mathematics/quantitative reasoning* (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Provisional Admission Transfer Applicants

Cal State San Marcos may provisionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses will rescind admission for all students who are found not to be eligible after the final transcript has been evaluated. In no case may such documents be received and validated by the university at any later than a student’s registration for their second term of CSU enrollment.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student, if he or she meets all of the following conditions:

1. possesses a high school diploma or has established equivalency through either the tests of General Educational Development (GED) or the California High School Proficiency Examination;

2. has not been enrolled in college as a full-time student for more than one term during the past five years, and

3. if there has been any college attendance in the last five years, has earned a C average or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is likely to succeed, as a regularly admitted freshman or transfer student, and will include an assessment of basic skills in the English language and mathematical computation.

Other Applicants

An applicant not admitted under the provisions cited in this catalog should consider enrollment at another appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll in the University. Permission is granted only by special action of the University.

* CSUSM currently recognizes a statistics course taken outside of the CSU system and the California Community Colleges as satisfying the requirement in mathematics/quantitative reasoning only if the course is certified by a California community college.
International (Foreign) Student Admission Requirements

The California State University must assess the academic preparation of international students. For this purpose, “foreign students” include those who hold U.S. visas as students or exchange visitors, or are in other non-immigrant classifications.

The CSU uses separate requirements and application filing dates for the admission of foreign students. Verification of the student’s English proficiency (see the section on TOEFL requirement for undergraduate and graduate applicants), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least four weeks before registration for the first term and, if not in English, must be accompanied by certified English translations. Complete information can be found at www.csusm.edu/UGA/.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those majors or classifications.

Insurance Requirement

Effective August 1, 1995, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and for continued enrollment in the CSU. Such insurance must be in amounts as specified by the U.S. Department of State and NAFSA: Association of International Educators. Information about required coverage and which insurance policies meet these criteria may be obtained from the Office of University Global Affairs.

Intrastate and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees.

Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of Registration and Records.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is automatically reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is automatically reported at the student’s request to the host campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll for one course per term (on a space-available basis) at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Admission to Teaching Credential Programs

Admission to the University as a student does not constitute admission to a teaching credential program, and vice versa. Students must be admitted to both in order to enroll in classes. Students who intend to work toward the Multiple or Single Subject Credential must also apply for admission to the credential program. For details regarding the admission requirements, please refer to the College of Education section.

Postbaccalaureate students must file official transcripts with both the Office of Admissions and the College of Education if they plan to enter a credential program. Students must include transcripts from each college attended (including extension, correspondence, summer session, or evening courses).

Second Bachelor's Degree Admission Requirements

Students who have a previous bachelor’s degree from a regionally accredited institution of higher education may apply to receive a second bachelor’s degree (on a space-available basis). Applicants must have a 2.5 grade point average in the last 60 units attempted for prior work, and must meet graduation requirements as specified in the Second Bachelor’s Degree Requirements section. Due to campus enrollment demands, enrollment of students seeking a second bachelor’s degree may be limited to majors designated as “areas of critical need” by the CSU Chancellor’s Office. Please note that students may not receive a second bachelor’s degree by taking a second concentration within a previous degree program.

Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees.

Although courses taken on any CSU campus will transfer to the student’s home CSU campus as at least elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Additional information about these programs is available from the Office of Registration and Records.

CSU Concurrent Enrollment

Matriculated students in good standing may enroll at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is automatically reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is automatically reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment

Matriculated CSU, UC, or community college students may enroll for one course per term (on a space-available basis) at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Admission to Teaching Credential Programs

Admission to the University as a student does not constitute admission to a teaching credential program, and vice versa. Students must be admitted to both in order to enroll in classes. Students who intend to work toward the Multiple or Single Subject Credential must also apply for admission to the credential program. For details regarding the admission requirements, please refer to the College of Education section.

Postbaccalaureate students must file official transcripts with both the Office of Admissions and the College of Education if they plan to enter a credential program. Students must include transcripts from each college attended (including extension, correspondence, summer session, or evening courses).

Second Bachelor's Degree Admission Requirements

Students who have a previous bachelor’s degree from a regionally accredited institution of higher education may apply to receive a second bachelor’s degree (on a space-available basis). Applicants must have a 2.5 grade point average in the last 60 units attempted for prior work, and must meet graduation requirements as specified in the Second Bachelor’s Degree Requirements section. Due to campus enrollment demands, enrollment of students seeking a second bachelor’s degree may be limited to majors designated as “areas of critical need” by the CSU Chancellor’s Office. Please note that students may not receive a second bachelor’s degree by taking a second concentration within a previous degree program.
Undergraduate Application Procedures

Prospective students applying for part-time or full-time undergraduate programs of study in day or evening classes must file a complete undergraduate application. The $55 nonrefundable application fee should be in the form of a check or money order payable to "The California State University" or by credit card if submitting the online application, and may not be transferred or used to apply to another term. The applications of persons denied admission to an impacted campus may be re-routed to another campus, but only if the applicant is CSU eligible.

Application Filing Periods

Filing Period Duration: Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category because of overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information. Similar information is conveniently available at http://www.csumentor.edu/filing_status/Default.asp. Undergraduates are encouraged to apply during the initial filing period to facilitate the campus' early review and response. If applying after the initial filing period, the student should consult with the Office of Admissions for current information.

Application Acknowledgement

On-time applicants may expect to receive an acknowledgment from their first choice campus within two to four weeks of filing the application. The notice may also include a request that additional records be submitted necessary for the campus to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements and campus requirements for admission to an impacted program. An offer of admission is not transferable to another term or to another campus.

Notification of Admission

Applicants who have received an application acknowledgment and have submitted all required admission materials will begin to receive of admission's decision by U.S. mail. If the processing schedule permits, some applicants may be notified in advance of these dates.

Cancellation of Admission

Admission will be cancelled automatically if a student who received a notice of admission for a given semester does not register for that semester. If the student wishes to undertake studies at the University at a later date, the student must file a new application, pay a new application fee, and meet the current admission requirements.

Materials supporting the application for admission, such as transcripts and entrance examination scores, are retained for one year only. Additional documentation will be required of studies done in the interim to complete the student's application file.

Filing Official Transcripts

Applicants must file the following official transcripts with the Office of Admissions:

1. Freshmen — May be required to submit seventh semester high school transcripts prior to graduation but must send final transcripts with graduation date listed by July 15 for Fall admission.

2. Transfers — Request official transcripts be sent directly from all colleges or universities previously attended (even if no coursework was completed at the time of application). Transcripts must be received in sealed envelopes from each institution attended. Applicants should keep personal copies of all transcripts and test scores to complete the admission application and for academic advising sessions. Applicants may be asked to submit high school transcripts if admissibility cannot be determined on the basis of college or university transcripts.

3. Photocopy of the military separation form DD-214, evaluation of military training form DD-295, or SMART transcript, if applicant wants transfer credit for active military service. A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to Cal State San Marcos by the institution attended, or if delivered to the Office of Admissions, in an original sealed, official envelope. Transcripts or documents labeled “Unofficial” are not accepted. All records or transcripts received by the University become the property of the University and will not be released to a third party.

Student Identification Numbers

Students enrolled at CSUSM will be issued a unique student identification number. This number will be used on all forms, identification cards, petitions, class rosters, and University records. It will be utilized for all student services and campus transactions.
Use of Social Security Number
Applicants are required to include their correct Social Security Number in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the Social Security Number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s Social Security Number and other information, such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

High School Students
Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair, and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a specific program and does not constitute the right to continued enrollment.

Hardship Petitions
Qualified applicants who would be faced with extreme hardship if they are not admitted should communicate in writing the details of their hardship to the Office of Admissions and request hardship admission consideration.

Test Requirements
Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit scores, unless exempt (see “Eligibility Index” on page 20), from either the ACT or the SAT I of the College Board. If you are applying to an impacted program on campus and are required to submit test scores, you should take the test no later than October or November. Test scores also are used for advising and placement purposes. Registration forms and dates for the SAT I or ACT are available from school or college counselors or from a CSU campus testing office. Or students may write to or call:

The College Board (SAT I)
Registration Unit, Box 6200
Princeton, New Jersey 08541-6200
(609) 771-7588
www.collegeboard.org

ACT Registration Unit
P.O. Box 414
Iowa City, Iowa 52240
(319) 337-1270
www.act.org

TOEFL Requirement
All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 550 or above on the Test of English as a Foreign Language. Some majors may require a score higher than 550. Applicants taking the Computer Based Test of English as a Foreign Language must present a score of 213 or above. Some majors may require a higher score. Some campuses may also use alternative methods of assessing English fluency.

CSU minimum TOEFL standards are:

<table>

<td>500</td>
<td>550</td>
</tr>
</tbody>
</table>

Systemwide Placement Test Requirements
The California State University requires each entering undergraduate, except those who qualify for an exemption, to take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. They are designed to identify entering students who may need additional support in acquiring basic English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the second semester may result in denial of enrollment for future terms.

Students register for the EPT and/or ELM tests at their local CSU campus. Questions about test dates and registration materials may be addressed to Testing Center, 333 S. Twin Oaks Valley Rd., San Marcos, CA 92096-0001.
**English Placement Test (EPT)**

The CSU English Placement Test (EPT) is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of "Exempt" on the augmented English CST, i.e., the CSU Early Assessment Program (EAP), taken in grade 11.
- A score of 550 or above on the verbal section of the College Board SAT I Reasoning Test taken April 1996 or later.
- A score of 24 or above on the enhanced ACT English Test taken October 1989 or later.
- A score of 680 or above on the re-centered and adjusted College Board SAT II: Writing Test taken May 1998 or later.
- A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Scholastic Advanced Placement program.
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) writing communication requirement, provided such course was completed with a grade of C or better.

**Entry Level Mathematics (ELM) Placement Examination**

The Entry Level Mathematics (ELM) Placement Examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory mathematics courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

- A score of "Exempt" on the augmented mathematics CST, i.e., the CSU Early Assessment Program (EAP), taken in grade 11.
- A score of "conditionally exempt" on the augmented CST, i.e., the CSU Early Assessment Program (EAP) plus successful completion of a Senior-Year Mathematics Experience (SYME).
- A score of 3, 4, or 5 on either the American College Testing Mathematics examination (AB or BC) or Statistics examination.
- Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement, provided such course was completed with a grade of C or better.

**Health Screening**

California State University of higher education system has mandated that new students born on or after January 1, 1957 must demonstrate proof of full immunization to measles and rubella.

Students have one semester to comply or they will not be permitted to register for a second semester. Registration holds are placed if proof of immunization has not been submitted to Student Health and Counseling Services (SHCS) prior to priority registration date. Any one of the following options will be accepted to fulfill this requirement:

- Submit proof that the student has been immunized against measles and rubella with two (2) doses of MMR to SHCS during regular business hours or submit proof and complete a clearance form during the Orientation Marketplace.
- Submit a physician’s verification that the student has had measles and rubella or a copy of a laboratory blood test proving you are immune to measles and rubella to SHCS.
- Make an appointment to receive the measles/rubella or MMR vaccination free of charge
- Provisions for exemptions in fulfilling this requirement are available based on medical considerations, religious or personal beliefs.

Beginning Fall 2000, all first time enrolled students who are 18 years of age or younger, on August 1st of their entering academic year, are required to present proof of full immunization against Hepatitis B. Full immunization consists of three (3) injections for Hepatitis B that are given over an 4-6 month period. CSU students who have not submitted proof of receiving the full series of three injections will be unable to register for their second semester. If you need to start or finish the Hepatitis B series, please call us to schedule an appointment.

**English and Mathematics Proficiency Requirements**

All new undergraduate students must establish their college-level proficiency in English and mathematics within their first two regular semesters of enrollment. Those who are exempt from, or achieve passing scores on the ELM or EPT examinations, are considered proficient.

Those who are not exempt from and do not achieve a passing score on the ELM must demonstrate proof of full immunization against Hepatitis B. Full immunization consists of three (3) injections for Hepatitis B that are given over an 4-6 month period. CSU students who have not submitted proof of receiving the full series of three injections will be unable to register for their second semester. If you need to start or finish the Hepatitis B series, please call us to schedule an appointment.

Those who are exempt from and do not achieve a passing score on the EPT must establish their proficiency in English and mathematics within their first two regular semesters of enrollment at Cal State San Marcos.

Those who do not establish proficiency within their first two regular semesters will be subject to disenrollment and advised to strengthen their academic skills before reapplying for admission to the University.
Each incoming freshman who will be residing on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease and whether or not he or she has chosen to receive the vaccination. These are not admission requirements, but shall be required of students as conditions of enrollment in California State University.

**Immunization Holds**

Enrollment Services has the task of placing registration holds on students' records if documentation of full immunity has not been presented to Student Health Services. Holds are placed if proof has not been submitted approximately four weeks prior to the start of priority registration. If a hold is placed on registration, this hold will be lifted if proof of immunity is presented to the clinic, or by receiving the injection. Holds will be temporarily lifted, for one semester, for those students who have signed the waiver for exemptions. Students who sign the waiver for exemption, must sign the waiver each semester that they are enrolled. Questions can be directed to Student Health Services at (760) 750-4915.

**Veterans and Veterans' Dependents**

Many veterans, dependents of deceased or disabled veterans, and reservists are eligible for Department of Veterans Affairs’ education benefits. Additionally, many dependents of deceased or disabled veterans are eligible for a complete waiver of application and most mandatory registration fees through the California Department of Veterans Affairs.

The programs administered by the Department of Veterans Affairs are:

- **VEAP** For veterans who entered active duty between January 1, 1977, and June 30, 1985, and who contributed to the program while on active duty.
- **Montgomery G.I. Bill (Active Duty)** For veterans who entered active duty beginning July 1, 1985, and who participated in the twelfth-month pay reduction while on active duty.
- **Montgomery G.R. Bill (Selected Reserve Program)** For undergraduates and graduates enlisted in the reserves who have made a six-year commitment to the selected reserves.
- **Dependents**: For spouses or children of veterans who died on active duty, whose death was caused by a service-connected disability, or who are rated 100% permanently disabled by the Department of Veterans Affairs.

Students wishing to apply for the programs administered by the Department of Veterans Affairs can obtain an application. Veterans who enroll at Cal State San Marcos are encouraged to call or visit the veterans representative in the Office of Registration and Records for instructions prior to signing up for benefits.

Dependents of deceased or disabled veterans who wish to apply for the fee waiver program may contact the County of San Diego Veterans Service Office, 7151 El Cajon Blvd., Suite C, San Diego, CA 92115-1819 or the veterans representative in the Office of Registration and Records.

**Determination of Residence for Nonresident Tuition Purposes**

The law governing residence for tuition purposes at the California State University is California Education Code sections 68800-68909, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University’s website at www.calstate.edu/GC/resources.shtml.
Each campus’ Admissions Office is responsible for determining the residence status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residence for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least one full year prior to the residence determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residence for tuition purposes. A minor normally derives residence from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Adult noncitizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. Unmarried minor noncitizens derive their residence in the same manner as unmarried minor citizens except that both parent and minor must have an immigration status consistent with establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68084 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.5, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three years of high school in California and graduated or attained the equivalent. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence, which will be considered along with physical presence and intent in determining reclassification.

Residence determination dates are set each term. They are:

Semester Term Campuses
Fall September 20
Spring January 25
Summer June 1

The residence determination dates for the four stages of CalStateTEACH are as follows:

<table>
<thead>
<tr>
<th>Stage</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stage 1</td>
<td>September 20</td>
</tr>
<tr>
<td>Stage 2</td>
<td>January 5</td>
</tr>
<tr>
<td>Stage 3</td>
<td>June 1</td>
</tr>
<tr>
<td>Stage 4</td>
<td>September 20</td>
</tr>
</tbody>
</table>

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residence classification appeal must be in writing and submitted to:

The California State University
Office of General Counsel
401 Golden Shore, 4th Floor
Long Beach, CA 90802-4210

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.
Assembly Bill (AB) 540

Allows undocumented students to pay in-state tuition at California State Universities if:

- Attended high school in California for 3 years or more; and
- Graduated from a California high school or attained the equivalent; and
- Is an entering or current student as of 2001/2002 school year or later; and
- Undocumented student has filed an affidavit with the college or university stating that the student has filed an application to legalize as he or she is eligible to do so.

Impacted Programs

Office of Admissions
(760) 750-4848
www.csusm.edu/admissions

The California State University designates programs as impacted when more applications are received in the initial filing period (October and November for fall terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at some campuses. Candidates for admission must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce during the Fall filing period those programs that are impacted and the supplementary criteria campuses will use. That announcement is published in the CSU Review and made available online at www.calstate.edu/AR/csureview/. Information about the supplementary criteria also is sent to program applicants. Detailed impaction information is also available at http://www.calstate.edu/AR/impaction-info.shtml.

Evaluation of Academic Records

Transfer Credits

Credit for work completed at regionally accredited institutions, other than coursework identified by such institutions as remedial or in other ways as being nontransferable, will be accepted toward the satisfaction of baccalaureate degree and credential requirements at Cal State San Marcos within limitations of residence requirements, community college transfer maximums, and in accordance with directives from Executive Orders and Title 5 of the California Code of Regulations, the CSUSM Academic Senate and the appropriate academic discipline.

Undergraduate Tests and Examinations

Cal State San Marcos grants up to a maximum of thirty (30) semester units of credit to those students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement, and some CLEP examinations. The total credit earned in external examinations (excluding Advanced Placement) that may be applied to a baccalaureate shall not exceed 30 units. No credit for any examination will be forwarded to a student who has either 1) taken the examination previously within the past year; 2) earned equivalent credit through regular coursework credit by another examination, or other instructional processes, such as correspondence study or military training; or 3) earned credit previously in a course or by examination more advanced than the level represented by the examination in question.
Credit for Advanced Placement
Cal State San Marcos grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three (3) or better will be granted up to six (6) semester units of University credit with the following provision: Acceptance of Advanced Placement units for purposes other than lower-division electives is determined by the appropriate academic or discipline division. For information on which Advanced Placement tests are accepted for credit at Cal State San Marcos, contact Admissions at (760) 750-4848, or www.csusm.edu/admissions.

Credit for College Level Examination Program (CLEP)
Credit is awarded for successful performance in certain examinations of the College Level Examination Program. Students may earn up to six (6) units per examination passed. Passing scores for the CLEP exams are established by the participating academic disciplines and the California university and college system. Credit for one examination in mathematics may be applied to the mathematics requirement of the General Education Program. Credit for additional examinations is allocated to lower-division electives; acceptance for major, minor, or prerequisite use is granted on the approval of the appropriate academic or discipline division.

Credit for International Baccalaureate Certificates or Diplomas
Cal State San Marcos normally grants six (6) units of credit for each International Baccalaureate Higher Level Subject Examination passed with a score of 4 or better. To receive credit, students must request that their International Baccalaureate transcript of grades be sent to CSU San Marcos’ Office of Admissions for evaluation and determination of appropriate credit to be awarded.

Credit for Noncollegiate Instruction
Cal State San Marcos grants undergraduate degree credit, appropriate to the baccalaureate degree, for successful completion of noncollegiate instruction, either military or civilian, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs. The Office of Admissions provides students with specific details about individual military credit after evaluation of the documents submitted for admission purposes.

Community College Credit
A maximum of seventy (70) semester units earned in a community college may be applied toward the degree, with the following limitations: (a) no upper-division credit may be allowed for courses taken in a community college; (b) no credit may be allowed for professional courses in education taken in a community college, other than introduction to education courses.

Open University/Special Session Credit
The maximum amount of transferable credit earned through Open University or Special Session programs which may be applied toward the minimum requirements for the bachelor’s degree is twenty-four (24) semester units. This credit does apply toward the 30 units of residence credit required for all undergraduate degree.

Catalog Rights for Degree Requirements
If a student does not graduate within ten (10) years from the beginning of his/her catalog rights, the major advisor may review all upper-division major courses for applicability.

^ Subject to change

The total fee paid per term will be determined by the number of units taken, including those in excess of fifteen.

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers, page 35).

The total nonresident tuition paid per term will be determined by the number of units taken. The maximum nonresident tuition per academic year (as of 2005-06) is $10,170.
**Student Health Insurance**

A health insurance policy is available and recommended to students who have no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased semestertly or yearly. An open enrollment period is available the first 30 days of each semester. Forms to enroll for the student health insurance policy are available in the Associated Students Office and in Student Health Services.

All international students are required to have health insurance coverage. International students desiring additional information should contact the Office of Admissions.

**Refund of Fees Including Non-resident Tuition**

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those system-wide fees and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-support programs at the California State University (courses offered through extended education) are governed by a separate policy established by the University.

In order to receive a full refund of mandatory fees, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available in the Class Schedule.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university’s established procedures will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

For state-supported semesters, quarters, and non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the university’s established procedures and deadlines.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and mandatory fees were assessed or collected in error;
- The course for which the tuition and mandatory fees were assessed or collected was cancelled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the Student Financial Services, Craven Hall 3108.
Fees and Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, the institution may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. If a person believes he or she does not owe all or part of an asserted unpaid obligation that person may contact the University Cashier’s Office. The Cashier’s Office, or another office on campus to which the Cashier’s Office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Procedure for the Establishment or Abolishment of a Student Body Fee

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). A student body center fee may be established only after a fee referendum is held which approves, by a two-thirds favorable vote, the establishment of the fee (Education Code, Section 89304). The student body fee was established at CSU San Marcos by student referendum on October 8, 1991. The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including but not limited to, Education Code, sections 90012, 90027, and 90068. Student body association fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may also request the Chancellor to establish the mandatory fee.

Student Financial Aid

The Financial Aid and Scholarship Office administers several programs which are designed to assist students whose financial resources are insufficient to meet their educational costs, including fees, books, transportation, and living expenses. Financial assistance programs consist of gift aid (grants and scholarships), loans, and employment opportunities. The funds for these programs come from the State of California, the federal government, and private sources.

If a financial aid recipient withdraws or reduces units, all or a portion of financial aid which was received may need to be repaid. The amount of the required payment will be determined by the date the student officially withdraws. Because federal regulations require half-time enrollment for certain federal aid programs, any student who drops to less than half-time may lose all financial aid.

Details on refund requirements for students who completely withdraw within a semester are available on the Financial Aid and Scholarship web site.

Both federal and state financial aid and any outstanding debts to Cal State San Marcos must be repaid before any refund is given to the student.
Application Procedures

Students should complete a Free Application for Federal Student Aid (FAFSA) each year between January 1 and March 2 to be considered for aid the following Fall semester through the following Summer term. A FAFSA may be completed on-line at www.fafsa.ed.gov. A paper FAFSA may be obtained from any California college financial aid office or high school counseling office. The FAFSA must be used to apply for California and federal financial aid, including loans.

In addition to filing the FAFSA by March 2, to meet the priority filing, financial aid applicants should submit supporting documents to the Cal State San Marcos Financial Aid and Scholarship Office no later than May 1. Required supporting documents vary from student to student and will be requested by the Financial Aid and Scholarship Office following receipt of the FAFSA. Applicants who do not meet the priority filing dates will be awarded aid as funds are available.

All California residents who are applying for undergraduate programs, and who file a FAFSA by the Cal Grant deadline of March 2, are encouraged to apply for Cal Grants. Details are available through high school counseling offices or the Cal State San Marcos Financial Aid and Scholarship Office.

Eligibility

Most financial aid is based on financial need, which is the difference between the full cost of attending Cal State San Marcos and an expected contribution from the student, the student’s spouse (if married), and parents (if the student is required to provide parental information on the FAFSA). The expected family contribution is determined by standards which are set by the federal government and the State of California.

Students must be U.S. citizens or “eligible non-citizens” in order to be considered for federal aid. Students holding “F” visas or other non-resident visas are not eligible for state or federal financial aid funds.

Recipients of federal, state and institutional funds must be admitted to a program leading to a degree or certificate to be eligible for disbursement of funds.

Federal and state regulations require the Financial Aid and Scholarship Office to ensure that financial aid recipients are making satisfactory progress toward their degree as well as remaining in good academic standing. The Cal State San Marcos Financial Aid Satisfactory Academic Progress Policy Statement is available from the Financial Aid and Scholarship Office.

For additional information, please write the Financial Aid and Scholarship Office, Cal State San Marcos, San Marcos, CA 92096-0001, or for a financial aid brochure, students may access all of their Cal State San Marcos financial aid records or obtain general information by calling the SMART system at (760) 750-4850, or accessing SMART WEB through the website www.csusm.edu/financial_aid. Inquiries may also be made by e-mail or fax. The fax number is (760) 750-3047. The e-mail address is: fnaid@csusm.edu

Financial Aid Programs

Financial aid programs provide support for students to help meet the costs of obtaining a college education. Funding for financial aid programs is provided by the federal government, state governments, colleges and schools, and a variety of other public and private sources.

Financial aid is available in four basic types of programs.

• Scholarships are “gift aid” which do not have to be repaid. Scholarships typically include criteria such as academic performance or special talents.

• Grants are “gift aid” and generally do not include criteria other than financial need.

• Work-study is a “self-help” program in the form of part-time employment during the student’s college career.

• Loans are a form of “self-help” since they represent borrowed money that must to be paid back over a period of time, typically after the student leaves school.

Federal Grants

FEDERAL PELL GRANT

Provides the foundation in the undergraduate’s financial aid “package” to which other financial aid may be added based upon the total amount a student is eligible to receive. Grant award amounts vary based on the student’s enrollment status and the calculated eligibility based on the federal methodology. Students admitted to postbaccalaureate teacher credential programs and enrolled at least half time in courses required to obtain a teaching credential may be eligible to receive a Federal Pell Grant.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (FSEOG)

Provides grant assistance for undergraduates who are eligible for a Pell Grant and who demonstrate the greatest financial need.

State Grants

The California Student Aid Commission (CSAC) administers a number of student financial aid programs designed to assist California students.

CAL GRANT A ENTITLEMENT AWARDS

Provides need-based grant assistance to low- and middle-income students to offset tuition/fee costs for high school graduates with at least a 3.0 grade point average. Recipients must also meet financial requirements. The maximum award amount is equal to the total amount of the systemwide State University Fee charged to full-time students.

CAL GRANT B ENTITLEMENT AWARDS

Provides need-based grant assistance to high-potential students from low-income, disadvantaged families to help offset tuition/fee and other costs for high school graduates with at least a 2.0 grade point average. Recipients must also meet financial requirements.
CAL GRANT COMMUNITY COLLEGE TRANSFER ENTITLEMENT AWARDS

Community college students who do not already have a Cal Grant may be eligible to receive a Cal Grant A or B Transfer Entitlement award if they have at least 2.4 grade point average when transferring to a baccalaureate degree granting institution. Eligible applicants must meet financial criteria, have graduated from high school in 2000-01 or later, and be under the age of 24.

COMPETITIVE CAL GRANT A & B AWARDS

A limited number of Cal Grant awards are currently made available each year on a competitive basis for students who do not qualify for one of the entitlement programs.

GRANT PROGRAMS ADMINISTERED BY THE CALIFORNIA STATE UNIVERSITY

The CSU maintains efforts to ensure educational opportunity for all students. The CSU is committed to redirecting a portion of fee revenue to providing eligible students with need-based grants. These grant programs are:

STATE UNIVERSITY GRANT (SUG)

Provides need-based awards to cover a portion of the State University Fee for eligible undergraduate, graduate, and postbaccalaureate students who are California residents. Priority is to award a SUG at least equal to the amount of the State University Fee to eligible students who apply for financial aid by March 2, who have an expected family contribution (EFC) of $4,000 or less, and who are not receiving a Cal Grant or other award designated to cover fees. Each campus has established local awarding policies and priorities for these funds.

EDUCATIONAL OPPORTUNITY PROGRAM (EOP) GRANT

Provides assistance to economically and educationally disadvantaged undergraduates. Recipients must be California residents who are admitted to a CSU campus through the Educational Opportunity Program.

Loans

FEDERAL PERKINS LOAN

Provides low-interest loans for eligible undergraduate and graduate students with preference to students with exceptional financial need. The annual loan limit is $3,000 for undergraduate students and $5,000 for graduate students. The aggregate loan limits are $15,000 for undergraduate students pursuing a bachelor’s degree and $30,000 combined for graduate or professional study.

WILLIAM D. FORD FEDERAL DIRECT STUDENT LOAN PROGRAM*

FEDERAL DIRECT SUBSIDIZED LOAN

Provides government insured, long-term, low-interest loans for eligible undergraduate and graduate students. Interest on this loan is paid by the federal government while the student is enrolled at least half-time. Students must demonstrate financial need through the standard financial aid application process to be eligible for this loan. An undergraduate student may borrow up to $2,625 for the first year of study, up to $3,500 for the second year, and up to $5,500 for the third and fifth years. Graduate students may borrow up to $8,500 per year. Aggregate undergraduate/borrowing may not exceed $23,000. The combined aggregate undergraduate/graduate limit may not exceed $65,500.

FEDERAL DIRECT UNSUBSIDIZED LOAN

Provides long-term, low-interest loans for eligible undergraduate and graduate students who generally do not qualify for other need-based financial assistance or students who need loan assistance beyond the maximums provided by the subsidized loan program. The student pays all interest charges on the loan while enrolled in college. The combined total of the Stafford Loan and Unsubsidized Stafford loan may not exceed regular Stafford loan limits ($23,000 for undergraduates and $65,500 for combined undergraduate/graduates).

FEDERAL PARENT LOAN FOR UNDERGRADUATE STUDENTS

Provides government-insured, long-term, low-interest loans for eligible parents of dependent, undergraduate students who generally do not qualify for other financial assistance. Parents may borrow up to the total cost of their dependent student’s education minus any other aid for which the students are eligible.

Employment

FEDERAL WORK-STUDY PROGRAM (FWS)

Provides both on- and off-campus jobs for eligible undergraduate and graduate students through private or public non-profit organizations, local school districts, and other local, state, or federal agencies. A portion of FWS funds are also dedicated to promoting community service on the part of students.

STUDENT EMERGENCY LOAN

FEDERAL AID ACCOUNTING OFFICE

(760) 750-4482

As a result of gifts from the Spicer Loan Fund, Bank of America, and the Cal State San Marcos Associated Students, Inc., a short-term emergency loan is available to enrolled students. Up to $500 may be borrowed by students who have unexpected short-term needs. A service charge of $2 is assessed. No interest is charged for loans which are repaid on time. All loans unpaid by the due date will be assessed a $40 late fee.

Fee Waivers

The California Education Code includes provisions for the waiver of mandatory system-wide fees as follows:

Section 68120 - Children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships);
Section 66025.3 — Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war period veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not married of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet age and income restrictions; and

Section 68121 — Students enrolled in an undergraduate program who are the surviving dependent of any individual who was an employee or member of the California National Guard or United States armed forces at the time of death or was killed in action in the line of duty and in active service of the state are eligible to apply for Cal Grant A awards. These students must also meet additional requirements set forth in Section 68121.2 for Cal Grant A and Cal Grant B awards.

Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

Scholarships

Scholarship Office
(760) 750-4855

The following scholarships are available to students attending Cal State San Marcos. Some scholarships do not require financial need. Cal State San Marcos has a general scholarship application which is available from the Financial Aid and Scholarship Office. Students who complete this application, which includes an essay, will be automatically considered for several of the scholarships. Students are also urged to regularly check the scholarship bulletin board in the Financial Aid Scholarship Office.

Information on all scholarships that are listed below is available through the Cal State San Marcos Financial Aid and Scholarship Office and on the web page.

A free scholarship search service, is available in the financial aid section of the Cal State San Marcos Web site. The site is free of charge and contains information on national scholarships.

Scholarships that are administered by Cal State San Marcos Financial Aid and Scholarship Office:

AFRICAN AMERICAN SCHOLARSHIP

A $1,000 scholarship to an African-American student with a GPA of 3.0 or higher and is financially needy as determined by the Financial Aid and Scholarship Office.

ALUMNI ASSOCIATION SCHOLARSHIP

Funded by Cal State San Marcos Alumni Association, two $250 awards to be given to a Cal State San Marcos Alumnus who is pursuing another Cal State San Marcos degree or certificate. Recipients are required to be enrolled in at least six (6) units per semester.

ANNE KAY ENDOWED SCHOLARSHIP

Established by gift from Anne Kay, for financially needy U.S. citizens who are highly motivated to learn and achieve and who are new transfer students from community colleges, with at least a 3.0 transfer GPA,

ASI AMERICAN INDIAN SCHOLARSHIP IN HONOR OF LEE DIXON

Funded by numerous sources, including Associated Students, Inc., Cal State San Marcos employees and North San Diego County American Indians, for a tribally enrolled American Indian student who is financially needy. Preference will be given to an incoming freshman. One $1,000 scholarship is available.

BREE TINNEY ENDOWED WOMEN’S STUDIES SCHOLARSHIP

Established by friends and family of Bree Tinney in her memory, for a financially needy Cal State San Marcos student who is a Women’s Studies major or minor.

BREE TINNEY RE-ENTRY SCHOLARSHIP

One $150 scholarship is awarded to a female undergraduate student who is a single parent resuming her studies after an extended break. Must have a 3.0 transfer GPA and demonstrated financial need as determined by the Cal State San Marcos Financial Aid and Scholarship Office.

CAL STATE SAN MARCOS AVID SCHOLARSHIP

Funded by an anonymous donor, a $1,000 scholarship to a former AVID student who has overcome past obstacles.

36 CALIFORNIA STATE UNIVERSITY SAN MARCOS
CAROL COX ENDOWED RE-ENTRY SCHOLARSHIP
The Carol Cox Re-entry Scholarship has been established for the purpose of providing financial assistance to re-entry women attending Cal State San Marcos. Awards will be based on the applicant's financial need and academic achievement.

CAROLYN R. MAHONEY ENDOWED SCHOLARSHIP
Endowed in honor of Dr. Carolyn R. Mahoney, former Cal State San Marcos mathematics professor, to a full-time Cal State San Marcos mathematics major with a GPA of 3.0 or higher.

COMMUNITY SERVICE SCHOLARSHIP
Ten awards are given, five to students who have financial aid need, as determined by the Cal State San Marcos Financial Aid and Scholarship Office and five to non-financial aid students. Awards are for students enrolled full-time (9 units or more to include registration in HD 499C); 3.0 GPA, 3.3 high school GPA if a freshman; students must be willing to volunteer for at least 170 hours during the award year and register for the course "Service in the Community" HD 499C. Awards are given after the Community Service requirement has been met.

CSU GRADUATE EQUITY FELLOWSHIP
Awarded to Cal State San Marcos students who are in a Master's program, have a high financial need, are California residents, have a minimum Cal State San Marcos GPA of 3.0, and are from an under-represented group in the student's academic area.

JOHN DURKEE SCHOLARSHIP FOR DISABLED STUDENTS
Funded by John Durkee, a $1,000 award to a financially needy undergraduate student who has completed at least 24 units at Cal State San Marcos with a GPA of 3.0 or higher, and who has a verified disability.

ELISABETH CROUCH SCHOLARSHIP FUND
Four $2,000 scholarships are awarded to College of Business majors who have a minimum 2.5 GPA. Must be enrolled full-time and have demonstrated financial need. This scholarship is renewable up to four years.

ELLIA J. THEDINGA MEMORIAL SCHOLARSHIP ENDOWMENT
Established by Elia J. Thedinga, priority is given to entering first-year Cal State San Marcos students with financial need and academic merit, and returning students who received one of these scholarships the prior year.

EMANUEL BRONNER ENDOWED SCHOLARSHIP
Established by a gift from Jim and Trudy Bronner, for Cal State San Marcos students who are studying abroad.

FENSTERMAKER FOUNDATION SCHOLARSHIP
Funded by an annual gift, awards up to $7,000 a year renewable, are made to Cal State San Marcos students who are majoring in biology, chemistry, or computer science. Selection is based on high academic achievement.

EDMOND KWAN MEMORIAL SCHOLARSHIP
One award for $460 will be offered to a Finance major with a 3.0 or better GPA, must be enrolled as a Senior who is of Asian or Pacific Islander descent, and must have financial need as determined by the Financial Aid and/or Scholarship Office.

GEICO DIRECT INTERNSHIP/SCHOLARSHIP PROGRAM
One scholarship for $5,000 and a paid part-time internship at Geico Direct is available to a junior or senior who is majoring in Business Administration and has a minimum 3.5 GPA. Students must be registered in at least 3 units during the Fall and Spring semesters. And have demonstrated abilities in Accounting, Math and Statistics per their transcript. Financial need is not a criterion. A letter of recommendation from a faculty member, Dean or an Associate Dean and a complete academic transcript is required.

GRICE, LUND & TARKINGTON
Established by the Escondido firm of Grice, Lund & Tarkington, this scholarship is awarded to a Cal State San Marcos accountancy student for fees and books for up to $1,000 a semester. Students need not apply; all accountancy students will be considered for the scholarship.

HEARST/CSU TRUSTEES' AWARD FOR OUTSTANDING ACHIEVEMENT
Four non-renewable awards in the amount of $3,000 each are awarded annually to currently enrolled full-time students of The CSU. The selection is based on financial need and merit.

GREGORY, LUND & TARKINGTON
Established by the Escondido firm of Grice, Lund & Tarkington, this scholarship is awarded to a Cal State San Marcos accountancy student for fees and books for up to $1,000 a semester. Students need not apply; all accountancy students will be considered for the scholarship.
INSTITUTE OF MANAGEMENT ACCOUNTANTS SCHOLARSHIP

Funded by the IMA, this scholarship is for a junior or senior business major with a 3.0 GPA, who has a financial need, and an interest in the management accounting field.

IRENE MILLER SCHOLARSHIP

Two scholarships at $600 each are awarded to Liberal Studies majors who desire to teach elementary-age children.

JANE LYNCH ENDOWED SCHOLARSHIP

Funded by Ann Hunter-Weborn in honor of Jane Lynch, former Cal State San Marcos Executive Director of University Development. One $500 award is made available to a non-U.S. Citizen, who is in the U.S. progressing toward permanent residency, has overcome adversity and is financially needy.

JEREMY MANCILLA MEMORIAL SCHOLARSHIP

Established by friends and family of Jeremy Mancilla in his memory, for a financially needy Latino(a) student from the San Marcos Unified School District.

KELLOGG ENDOWED SCHOLARSHIPS

Established by a gift from Jean and W. Keith Kellogg II, for financially needy and academically meritorious undergraduate Cal State San Marcos students with a minimum 3.35 GPA.

LAURA E. SETTLE SCHOLARSHIP

The California Retired Teachers Association sponsors the $2,000 Laura E. Settle Scholarship. For a California resident who has average to high scholastic standing, is a senior or in the teacher credential program, has financial need, and has a record of exemplary character and citizenship.

Established by Leonard Evers, a retired businessman and former North County resident, 40 computers are made available to entering freshmen with high financial need and a minimum 3.0 high school GPA.

LILIAN C. SHERMAN SCHOLARSHIP

One $1,500 scholarship is awarded to a Native American Indian student who has demonstrated service or involvement in a tribe or American Indian community. Demonstrated financial need and enrolled at least half-time.

LOUIS V. MESSNER MEMORIAL SCHOLARSHIP IN ACCOUNTING

Established by the family of Louis V. Messner in his memory. Louis V. Messner served as a state employee for over 35 years. His last position was Vice Chancellor of Business Affairs for the California State University System. The scholarship will be awarded to a Cal State San Marcos student majoring in Accounting. The student must be a junior with financial need and have a GPA of 3.0 or above. Preference is given to a student involved in community service. The scholarship may be renewable.

PEGGY ADAMS MEMORIAL SCHOLARSHIP

Three awards at $500 each will be selected for someone who is a re-entry student who has experienced an interruption in their education. Has overcome obstacles such as, but not limited to, single parenthood, a debilitating illness, divorce, and/or loss of employment. Financial need as determined by the Cal State San Marcos Financial Aid and Scholarship Office.

PRESIDENT’S CIRCLE SCHOLARSHIP

Funded by the President’s Circle, a $1,000 scholarship to an outstanding student with a 3.5 or greater GPA and financial need.

RETIREMENT DNA SCHOLARSHIP IN BIOTECHNOLOGY

One $1,500 scholarship awarded to a Biotechnology major enrolled full-time, with financial need as determined by the Financial Aid and Scholarship Office, and must have a 3.2 or higher GPA. Two letters of recommendation are required.

ROBERT H. AND CATHERINE H. GOLDSMITH ENDOWED SCHOLARSHIP

Endowed by a gift from Robert H. and Catherine H. Goldsmith, a $1,000 award to a financially needy student with academic merit who has the potential to be a contributing professional likely to bring credit to Cal State San Marcos. Priority is given to a Cal State San Marcos MBA student who has completed undergraduate work in the Cal State San Marcos College of Business Administration.

SAN DIEGO KIWANIS SCHOLARSHIP

Funded by the San Diego Kiwanis Club for Cal State San Marcos undergraduate students of outstanding character who have a 3.3 college GPA or higher and who have financial need.
The Aufmann Scholarship

One $1,000 scholarship will be offered to a San Diego County resident, who is a senior or junior, the year the scholarship is offered. This scholarship is for a re-entry student who is majoring in Math, Chemistry, Science, or Physics. Preference will be given to a Math major. This scholarship requires a 3.0 GPA.

The Burnham Foundation Scholarship

Established by the Burnham Foundation, two $1,000 scholarships are awarded each year to Cal State San Marcos students who are interested in a career in business. The recipients are selected from applicants who have at least a 2.75 GPA, are enrolled in at least six (6) units, and demonstrate financial need. Preference is given to students who have strong communication skills, demonstrate academic ability, and are involved in community service and school activities.

The Clare and Wally Taibleson Presidential Scholarship

One scholarship will be awarded to an incoming freshman. The selected recipient must have a minimum GPA of 3.75 or be in the top five percent of their high school graduating class; must be eligible for CSU admission and CSU proficient in mathematics and English. The selected recipient will be awarded a residential life scholarship in the amount equal to cost of housing at University Village; a fee payment scholarship in an amount equal to a full in-state fee; and a fully configured lap top computer. Students must complete the Cal State San Marcos Clare and Wally Taibleson Presidential Scholarship Application, essay and provide two letters of recommendation.

The Copley Scholarship

A gift from the James S. Copley Foundation, the Copley Scholarship is awarded annually to Cal State San Marcos women students who are single parents with financial need who have demonstrated academic achievement, and have a clearly defined sense of purpose.

The Ottawa Foundation Scholarship

Eight awards to be paid over the course of four consecutive years starting at $2,000 each the first year, $2,500 the second year, $3,000 the third year and $3,500 the fourth year. There is also a possible $500 bonus per year for students who achieve and maintain a 3.5 GPA. Award is based on a cumulative GPA of 3.5 or higher and high financial need as determined by the Cal State San Marcos Financial Aid and Scholarship Office.

University Ball - Science Scholarship

One $400 scholarship is awarded to a Science major with a 3.0 GPA or better GPA. Demonstrated financial need and enrolled at least half- time.

William A. Craven Endowed Scholarship

Endowed by the late Senator William A. Craven and his family, awards are to financially needy intercollegiate athletes. Senator Craven was instrumental in developing the California legislation that authorized the establishment of Cal State San Marcos.

Scholarships that are administered outside of the Cal State San Marcos Financial Aid and Scholarship Office:

AAUW, Rancho Bernardo Branch Scholarship

Funded by an annual gift from the Rancho Bernardo Branch of American Association of University Women (AAUW), for a financially needy re-entry undergraduate woman student at the college junior level or above, with a GPA of 2.8 or higher.

BECa/LAFS Scholarship

Funded by the Cal State San Marcos Latino Association of Faculty and Staff (LAFS) and administered by the BECa Foundation, two $500 scholarships are awarded to deserving Cal State San Marcos Latino students.

Lillian C. Sherman Scholarship Fund

One $1,500 scholarship is awarded to a Native American Indian student who has demonstrated service or involvement in a tribe or American Indian community. Demonstrated financial need and enrolled at least half- time.

North County Women in Networking Scholarship

Funded by an annual gift from the North County Women in Networking, for financially needy women business majors.

Arts and Lectures
(760) 750-4366

The Cal State San Marcos Arts and Lectures series is coordinated through Center ARTES. The series features a variety of concerts, lectures, and theatrical performances designed to invoke, provoke, and support learning for our students and the community. There are venues throughout campus and in the Arts Building. The University Library serves as the campus art gallery by hosting several art exhibits each semester, featuring installation, mixed-media, and mainstream artists.

The Purpose
The objectives of the intercollegiate athletic programs at Cal State San Marcos include:

• Community linkages. To establish new linkages and strengthen existing linkages with all members of the surrounding communities.

• Student recruitment. To enhance the student component of student-athlete, seeking not only successful teams for the university but also 100% graduation rates of team members.

• Lifetime sports. To develop athletic programs in lifelong sports that students can take with them after graduation, providing benefits throughout a lifetime.

• Academic enrichment. To augment the academic programs of the university with experiential learning that takes place through sports, striving to develop confidence, discipline, perseverance, and teamwork in student-athletes.

• Student recruitment. To enhance the effectiveness of student recruitment, blending the appeal of quality athletic programs with the appeal of quality academic programs for the benefit and enrichment of the whole university community.

The Teams
Despite their relatively short history, the Cal State San Marcos men’s and women’s teams in cross-country, golf, and track and field have amassed an impressive record of success: 50 NAIA All-Americans, 8 Far West Regional Championships, and 1 National Championship.

Cross Country
Endurance, sure-footedness and a desire to run hard — these are just a few traits found among the men’s and women’s cross-country teams at Cal State San Marcos. With the program up and running since 1999, Coach Steve Scott trains an average of 30 young athletes each fall season and has taken teams to the NAIA (National Association of Intercollegiate Athletics) National Championships in Kenosha, Wisconsin, every year.

Each season, the cross-country teams compete in meets throughout California, with the women usually running 5-kilometer races and the men running 8-kilometers.

Competing as a Cougar cross-country runner provides student-athletes with an opportunity to learn from one of the top runners in U.S. history. Scott, a three-time Olympian, has held the national record for the indoor and outdoor mile for more than 20 years. In 2002, he was inducted into the National Track and Field Hall of Fame.

Track and Field
Each year since 2000, Cal State San Marcos has been represented at the NAIA National Track and Field Championships in Olathe, Kansas. Thirty-two athletes (14 women and 18 men) have returned from nationals as NAIA All-Americans.

As of 2005, the roster included approximately 50 student-athletes competing in a wide range of track and field events. Young students come to Cal State San Marcos from across the state to be Cougar track and field athletes. They compete each spring in approximately a dozen meets throughout Southern California.
Training on campus takes place at the state-of-the-art Mangrum Track. Specialty training, for events such as pole vault, take place at facilities off-campus. Since fall 2003, additional conditioning is now possible for all of the Cougar teams at the new M. Gordon Clarke Field House/University Student Union. There, student-athletes have access to a fully appointed fitness center, showers and changing rooms.

GOLF

With access to some of the top golf courses in Northern San Diego County, the men’s and women’s golf teams at Cal State San Marcos have ample opportunity to sharpen their playing skills. Coaches Cory Scoggin and Stephanie Segura – both graduates of Cal State San Marcos, and All-American golfers when they played here – oversee approximately 20 athletes each season.

Along with traveling to tournaments throughout the west during the fall and spring, the Cougar golf teams host collegiate tournaments each spring.

The women’s team has qualified for nationals each year since first being eligible in 2000. In 2003, they tied for tenth in the nation. The men’s team has qualified for nationals three of the four seasons, and in 2003 they finished fifth in the nation.

SOFTBALL, BASEBALL, AND SOCCER

The 2006-07 academic year will see tremendous growth in the university’s athletics offerings. In the Spring of 2005, the CSUSM student body, turning out to vote in record numbers, approved the Athletics Fee by a three-to-one margin. As a result of this vote, the Cougars will soon add intercollegiate teams in soccer, baseball, softball.

It is an exciting time to be a Cal State San Marcos Cougar!

Conveniences

ATM Services
A full range of ATM services are available to the campus community via the ATM machine located in the University Commons. The ATM offers 24-hour access to cash withdrawals, and is a member of the STAR and PLUS system ATM networks.

Food Services
(760) 750-4757 — Starbucks
(760) 750-4751 — Dome Cafe
(760) 750-4755 — Cougar Corner
(760) 750-4750 — Cougar’s Den

The University Food Services are operated by Cal State San Marcos Foundation, a non-profit corporation, with proceeds being used to further the educational aims of the University. Located in the University Commons Building is the dining food court, convenience store, catering services and vending machines. Starbucks is located on the third floor of the Kellogg Library and the Cougar’s Den is in the Clark Fieldhouse. Vending machines are located in the University Commons, Academic Hall, Arts Building, University Hall, Science II, Kellogg Library, Clark Fieldhouse, University Village and the Foundation Classroom Building. Hours vary throughout the year, so please call stores for hours.

University Store
(760) 750-4730

Cal State San Marcos University Store provides a range of products and services, including textbooks for classes, special class orders, reference books, class-related office supplies, imprinted Cal State San Marcos clothing and gifts, Dell computers and selected software. The University Store is operated by Cal State San Marcos Foundation, a non-profit corporation, with proceeds being used to further the educational aims of the University. Services include:

- Textbooks—over 1300 titles are requested by the faculty each semester;
- At the beginning of each term, students can access their personalized booklist inside the store;
- Year-round buyback of textbooks is done inside the store; and
- Classroom supplies, University Catalogs and Catalog Addenda, clothing and gifts.

CRA 5205
(760) 750-4905 (TDD 750-4909)
www.csusm.edu/dss/

The Office of Disabled Student Services (DSS) determines reasonable accommodations for students with disabilities. All students with disabilities who request reasonable accommodations are required to provide appropriate and recent documentation to the Office of Disabled Student Services before support services can be approved.

Support services are available through DSS for those students who qualify, noting that the appropriate accommodations for each student will be approved based on the documented disability. Services available include:

- readers;
- notetakers;
- interpreters or captioners (for the hearing impaired);
- testing accommodations;
- access to specially adapted equipment;
- application assistance;
- supplemental academic advising;
- psychoeducational screening and assessment;
- disability-related counseling, and
- priority registration.

For further information on accommodations and appropriate forms, please contact the Office of Disabled Student Services.
**Instructional Computing Laboratories**

(760) 750-6505

The University has both instructional computer facilities and open access computing labs. All computing labs are accessible to students, staff, and faculty whenever the University is in session, the buildings are open, and labs are not being used for instruction. Both Macintosh and PC computers are available in the labs with the latest software packages for word processing, spreadsheets, database, statistical packages, presentation software, graphics programs, multimedia software, educational packages, and access to the Internet. In addition, Linux workstations are available for the special needs of the computer science, mathematics, and other technical majors. A wide assortment of software is available in each lab, depending on the hardware, and consistent with requirements for classes. Assisted access programs are also available in each lab. Most instructional labs, with a few exceptions, are open access to students when not being used for instructional purposes or for special events.

Use of the labs is restricted to students, faculty, staff, and alumni of Cal State San Marcos. Information about the labs can be obtained from the web site www.csusm.edu/lits/labs.

**International Student Services**

(760) 750-4090
Fax (760) 750-3284

International Student Services are provided by the Office of University Global Affairs. International student services include initial orientation, and advising on matters such as housing, registration, visa regulations, work authorization, taxes, health insurance requirements, health services, safety issues, and other campus services.

Upon admission to the University, international students will receive information as to the date and time of their orientation session. When they arrive in San Marcos, international students should report to the international student advisor and remain in regular contact with the office as long as they are students.

International students should notify the international student advisor of their address and telephone number, their plans to work on- and off-campus, and their intention to travel outside the United States, including return trips to their home country. Upon request, the Office of University Global Affairs will serve as a contact point for international students in the event of personal or family emergencies.

**Library**

(760) 750-4340

The 200,000 square foot Kellogg Library has over 300 computers, nearly 30 group study rooms, thousands of journals, and a quarter million books. Kellogg Library is the primary learning resource outside the classroom. You can enter the Library by either the main entrance on the 3rd level or at the 2nd level. To reach the 1st floor classrooms, use the stairwell or elevator in the Starbucks Tower.

**Web Access**

http://library.csusm.edu

The web site provides access to the Library catalog and over 100 research databases. It also provides information on the library’s services, hours, and people. You may make requests directly online for such things as InterLibrary Loan materials or research appointments.

**Hours**

Monday - Thursday - 7:00 a.m. - 9:00 p.m.
Friday - 8:00 a.m. - 5:00 p.m.
Saturday - 10:00 a.m. - 5:00 p.m.
Sunday - 1:00 p.m. - 8:00 p.m.

Media Library Hours
Monday - Thursday - 8:00 a.m. - 9:00 p.m.
Friday - 8:00 a.m. - 5:00 p.m.
Saturday & Sunday - 1 p.m. - 5 p.m.

Any exceptions for Library hours will be posted in advance on the Library web site:
http://library.csusm.edu/about/hours.asp
Library Card and Borrowing Policy

The student ID card issued by the University serves as a Library card for checking out books and other materials. Cards must have a current semester sticker to be valid. Validation stickers are issued during registration. The loss or theft of a student ID, as well as any change in address, should be reported to the Library Check Out Desk immediately.

Library users are responsible for the return of all materials charged out on their ID cards. All Library materials are subject to recall after two weeks. With a current CSUSM ID card, faculty, staff, and students may borrow books directly from other California State University libraries, or through the Circuit. An agreement with MiraCosta and Palomar Colleges allows Cal State San Marcos students, faculty and staff to check out materials at these libraries as well.

Reserves
(760) 750-8363

Reserve materials, both print and electronic, are placed in the Library by your instructor. They can be obtained at the Check Out Desk on the third floor of the Library, at the Media Library, and via the Library web site.

Resource Sharing
(760) 750-4345

Resource Sharing is a service through which Cal State San Marcos faculty, staff, and students can obtain research materials not held in our library from other libraries. Resource Sharing is done through two different programs: 1) The Circuit, a local San Diego Consortium; and 2) Interlibrary Loan, a worldwide resource sharing system.

San Diego Circuit

The Circuit is a consortium of four university libraries (SDSU, USD, UCSD and CSUSM) that share books. The Circuit catalog is available on the web. While searching the catalog, researchers can request specific items using their library barcode. Most books are delivered to the Library within 24 hours.

Interlibrary Loan

Interlibrary Loan is a system through which libraries worldwide can share research materials of any kind. Materials cited anywhere can be requested through Interlibrary Loan. Interlibrary Loan request forms are available on the web. Materials requested through this service generally arrive within 5-10 business days and are either delivered electronically, mailed, or held at the Library Check Out Desk for pickup.

Research Assistance
(760) 750-4391

Research assistance and instruction are two of the primary missions of the Kellogg Library. Research services promotes student learning by providing awareness of and instruction in using diverse information resources. Research assistance in the Kellogg Library is available to you through several access points. These include a Research Help Desk (3rd floor) for research questions; an Information Desk (4th floor) to assist with locating periodicals, microforms and books; and Information Assistants to provide help with computerized resources and directional questions. For in-depth help with your research, individual research appointments with a Librarian subject specialist may be made through any of the above access points. You may also ask a question via e-mail libref@csusm.edu, or get an answer immediately through real time chat.

Information Literacy
(760) 750-4356

Obtaining the skills, knowledge and attitudes necessary to thrive in an information-rich environment is a necessary part of your education. The goals of the Information Literacy Program (ILP) are to assist students in developing information literacy skills and to ensure that all students become successful lifelong learners. The ILP provides course-integrated instruction in information literacy within the General Education courses and major courses. ILP provides outreach to target student groups on campus and in the community, through the Context: Library Series and other programs.

Collections

The Cal State San Marcos Library makes available to you over 250,000 books as well as thousands of journals in print or electronic formats. You will find research materials to support all areas of the Cal State San Marcos curriculum, from Accounting to World Languages. Whether you need resources for a term paper, background materials to support a thesis, or guidance on field research methods, the Library collections are available to you.

The Library catalog provides access to books, journals, government documents, and media (including video and DVD) collections. The catalog also lists materials instructors have put on reserve for short-term loan to their classes.

Subject access to periodicals and newspapers is provided by indexes, abstracts, and full-text databases available over the Web and from the computers in the library. The "Get It!" system helps users locate the full text of an article, whether online or in print.

The Library is a selective depository for United States and California State documents. Housed within the library is the specialized collection of the Barahona Center for the Study of Books in Spanish for Children and Adolescents. In addition, the Library houses a small collection of curriculum materials and the University Archives.
Media Library
(760) 750-4370

The Media Library is located on the second floor of the Kellogg Library and provides access to the collection of non-print materials including video tapes, DVDs, spoken and musical audio tapes, CDs, and slides. A complete listing is available through the Library catalog. Individual listening and viewing facilities are located in the Media Library. Some audiovisual equipment can be borrowed for use in class projects.

Off Campus Access
(760) 750-4342

Many of the Library’s resources are available to anyone on the Web. Other materials, such as full-text journals, are only available to Cal State San Marcos students, faculty, and staff. Any registered student can access Library resources from their home computer. For off-campus access, simply go to the catalog or research databases as you would on campus. When you click on a link, the proxy server will ask you for your campus username and password. More detailed information about the Library and its services is available at the Research Help Desk on the 3rd floor of the Kellogg Library.

Lifelong Learning and Development
Alumni and Parent Relations
(760) 750-4405
alumni@csusm.edu

The Office of Alumni and Parent Relations is dedicated to identifying and serving the needs of Cal State San Marcos alumni and parents. Alumni and Parent Relations works to encourage a life-long relationship with alumni and parents through their continued connection with the University through job fairs, special events, alumni-based benefits, or electronic and print communications.

Alumni Association

The Cal State San Marcos Alumni Association provides alumni with opportunities to enhance their cultural, personal, and professional development through their continued involvement with the University. For more information or to join the Cal State San Marcos Alumni Association, please call (760) 750-4405 or check out the association’s web site at www.csusmalumni.org

Career Center
(760) 750-4900
www.csusm.edu/Careers

The University maintains a centralized Career Center as a part of the Division of Student Affairs. This office, located on the First Floor of Craven Hall provides services and programs on career development and planning, job-related services in business, community organizations, government, and educational fields, as well as standardized testing services to all students and alumni.

Career Services

The Career Center works in cooperation with academic departments to assist students in choosing educational paths, assessing life direction, and establishing career goals. Experienced staff members are available to provide general as well as specific career information which will assist students in obtaining career positions that best utilize their professional preparation, experience, and abilities, while providing personal satisfaction. Students are encouraged to utilize these services early in their college experience.

The Career Center focuses on the following student-centered objectives:

- assist students in development of life direction and decision-making skills;
- provide “user friendly” computer guidance programs which explore interests, values, and skills in relation to career choices;
- conduct a wide range of workshops and seminars such as résumé writing, effective interviewing, and professional etiquette, which will prepare the students for the transition from school to work;
- maintain a library of career information, including audio tapes, video presentations, labor-market information, annual reports from individual employers, graduate and international school programs, and brochures;
- provide job listing services which include career-related positions for Cal State San Marcos seniors and graduates, along with part-time and temporary positions to assist all students who must earn part of their college expenses;
- provide opportunities for students to “connect” and interview with prospective employers on-campus;
- provide graduate and professional school information and advising; and
- provide CSU Alumni career services for a small fee.

Disclosure of Career Information

The Career Center may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all the campuses in the California State University system.
Outreach
The Office of Admissions and Recruitment promotes higher educational opportunities that support the success of K-12 students, families and schools through programs and activities. The Office of Admissions and Recruitment accomplishes this by providing services in the areas of parent education, community collaboration, student tutoring, and faculty involvement. The Office of Admissions and Recruitment includes CAPI/EAP, Early Outreach, GEAR UP, and Upward Bound. For more information about outreach programs, call (760) 750-4870, or visit the staff at SMACC, 120 Craven Drive, Suite 108.

Early Outreach
(760) 750-4870
The Early Outreach Office seeks to prepare and increase the number of economically, educationally, physically, and environmentally disadvantaged students entering and graduating from post secondary education. Committed to providing academic outreach and retention services to students, parents, and the community, Early Outreach cultivates a responsive, supportive relationship by promoting the value of higher education. As educational advocates, Early Outreach empowers students by providing them with academic skills enrichment, facilitating the college entrance and admissions process, developing leadership skills and opportunities, and establishing collaborative partnerships with private and public sectors.

Early Outreach activities include short and long-term efforts concentrating on K-12 students. Activities range from student leadership conferences, tutoring, pre-college advising, skills and self-esteem workshops, and school site visits. In addition, SASOP maintains a Student/Community Academic Center with IBM computers, open to students and the community from 8 a.m. to 5 p.m. Monday through Friday on a first-come, first-served basis. Early Outreach also works with community-based organizations in building positive and collaborative relationships. For more information about Early Outreach, phone or visit the office at SMACC, 120 Craven Drive, Suite 106.

GEAR UP
(760) 489-4117
Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) is a federally funded program. In cooperation with local schools, agencies and corporations, the GEAR UP program provides services, activities and opportunities for sixth- through tenth-grade students in North County. The program offers intensive educational components through in-class, after-school, Saturday, summer classes and workshops. Programs include college-going experiences, such as structured leadership development opportunities, community service activities, career internships and job shadowing programs, and cultural and educational field trips with an infusion of role models, community/campus professionals, and business executives. The program encourages the development of well-rounded youth, academic excellence, and provides the foundation needed to enter postsecondary education.

Upward Bound
(760) 750-4013
The Upward Bound Program (a federally funded TRIO program) provides academic counseling and guidance services to 60 high school students in North County. Through an application and interview process, whereby eligibility requirements and a student’s academic needs are assessed, participants are selected. With a strong commitment from the student, the program has three components (fall, spring, and summer) per year for four years. During the year, there are Saturday classes and activities, after-school tutoring, field trips, leadership opportunities and counseling sessions. All of this and more is included in a summer residential program that lasts one month. Upward Bound assists high-potential students as they pursue graduation from high school, admission to the campus of their choice, and graduation from college.

Collaborative Academic Preparation Initiative
The Collaborative Academic Preparation Initiative (CAPI) is a partnership between Cal State San Marcos and area high schools, the purpose of which is to strengthen the mathematics and English preparation of college-bound high school students.

Early Assessment Program (EAP)
The CSU has worked with the State Board of Education (SBE) and the California Department of Education (CDE) to develop the Early Assessment Program (EAP). EAP incorporates the CSU’s placement standards into existing high school standards tests in English and mathematics. The goal of the Early Assessment Program is to have California high school graduates enter the CSU fully prepared to begin college-level study.
Parking and Transportation Services
(760) 750-7500 - FCB 107
www.csusm.edu/parking

All faculty, staff, and students who park their vehicles on campus are required to purchase a parking permit. The parking permit must be properly displayed at all times while on campus. Parking regulations are posted in parking lots and roadways; these areas will be closely monitored. The following reminders will assist users of the Cal State San Marcos parking facilities:

- Display a valid Cal State San Marcos permit before parking your vehicle;
- Daily permits can be obtained in all general parking lots (B, C, F, J, N, O and Y);
- Park only in lots where the permit is valid;
- Do not park in disabled parking spaces, unless a current validated DMV plate/placard is displayed along with a Cal State San Marcos permit.
- Park only in clearly marked parking spaces, not along fences, red curbs, reserved spaces, and/or undeveloped areas.

Other Parking and Transportation Services include bike lockers, on-campus shuttle, carpool information, including AlterNetRides, and bus passes through the North County Transit District. The parking information booth (located in General Lot C) assists our University community and our public with directions, questions and parking matters on campus.

Pre-Printed information may be subject to change. Please call Parking and Transportation Services at (760) 750-7500, Monday through Friday 8:00 am – 5:00 pm, to inquire about current parking information.

Parking Refunds
Parking refund forms are available in Parking and Transportation Services, FCB 107. Refunds will not be processed until after the fifth week of instruction. Refunds must be filed by the refund deadline listed in the Class Schedule.

For more parking information, contact Parking and Transportation Services, Monday through Friday between the hours of 8:00 a.m. to 5:00 p.m.

Public Safety

Emergency Procedures
(760) 750-4567

To ensure everyone’s safety in an emergency, please take the time to review the emergency evacuation plans posted throughout all University buildings. In the event of a fire, dial 9-1-1 to report the fire, activate the emergency alarm, and evacuate the building immediately. When outside of the building, move upwind and away from the building. In any emergency, elevators are not to be used as part of an emergency evacuation route plan. Pre-plan your emergency evacuation by being familiar with at least two emergency evacuation routes from wherever you are in the University. You may also obtain information about emergency procedures by contacting University Police. For more information on emergency or safety tips and procedure, visit the University Police Department’s web site at: http://www.csusm.edu/police/

Injury and Illness Prevention Program
(760) 750-4502

Cal State San Marcos has an Injury and Illness Prevention Program (IIPP) intended to provide a carefully controlled, safe, and healthy work environment for all employees and students. The IIPP is based on the concept that safety is a grass-roots program and required per the California Code of Regulations. The IIPP policy assures that any student or employee may refuse to participate in any activity that the person, in good conscious, believes could cause harm to his/her well-being. Mandatory IIPP training is offered by Risk Management and Safety for all employees of Cal State San Marcos. A schedule of training opportunities is published each semester. Please call 750-4502, or visit the web site at http://www.csusm.edu/rms/ for a listing of training events or further information.
University Police Department
Emergency-call
(760) 750-4567

The University Police Department is located in the University Services Building at 441 La Moree Road. The main telephone number is (760) 750-4567. The University Police is a 24-hour full service police department. Its responsibilities include crime prevention, law enforcement, criminal investigation, traffic enforcement, and emergency disaster coordination. If you are a victim of a crime or witness suspicious activity, report the incident immediately to the University Police. You can remain anonymous, if you desire. The University Police Department maintains the confidentiality of contacts as required by State law. To report an emergency, call 9-1-1 from any campus telephone.

Photo Identification Cards
(760) 750-4562

Student identification cards are issued by the University Police Department. The identification cards, which have the student's photo imprinted on them, are required to check out library books, to receive health services, write checks on campus, gain access to secure areas, and for identification purposes if requested by a University representative acting in an official capacity. A computer based photo ID system is used to take individual photographs and print the cards. To obtain a Cal State San Marcos ID card, students must present proof of registration and payment of fees.

Photo IDs can be obtained during student orientation and registration at the Parking Services office in FCB 107B, Monday through Friday, 8:00 a.m. to 5:00 p.m. For additional information, call the University Police Department at (760) 750-4567.

The University Police Department provides the following campus community services:

- issuance of photo ID cards for Cal State San Marcos students, faculty, and staff;
- escort service from dusk to dawn;
- university lost and found service;
- crime prevention/awareness presentations;
- Rape Aggression Defense (RAD) self-defense program for women.

Testing Services

The Career Center provides the University with information and registration materials on a wide range of tests such as:

- ACT Assessment
- California Basic Educational Skills Test (CBEST)
- California Subject Examination for Teachers (CSET)
- College Level Examination Program (CLEP)
- Dental Admission Test (DAT)
- English Placement Test (EPT)
- Entry Level Mathematics Exam (ELM)
- Graduate Management Admission Test (GMAT)
- Graduate Record Exam (GRE)
- Law School Admission Test (LSAT)
- Medical College Admission (MCAT)
- Miller Analogies Test (MAT)
- Optometry Admission Test (OAT)
- Pharmacy College Admission Test (PCAT)
- The PRAXIS Series for Teachers
- Reading Instruction Competence Assessment (RICA)
- SAT I: Reasoning Test
- SAT II: Subject Tests
- Test of Essential Academic Skills (TEAS-NURSING)
- Test of English as a Foreign Language (TOEFL)
- Veterinary College Admission Test (VCAT)

The Career Center administers the CSU English Placement Test, Entry Level Math Test, and Test of Essential Academic Skills (NURSING). For more information about these tests go to www.csusm.edu/careers.

For a current schedule of all tests offered at Cal State San Marcos, check the testing web site at: www.csusm.edu/careers.

Retention and Academic Assistance

Accountancy/Statistics Laboratory
(760) 750-4214

The Accountancy/Statistics Laboratory aids students in their study in these and related areas. The laboratory, which is supported by the College of Business Administration, provides individual and group tutoring and has resource materials. All Cal State San Marcos students are welcome to use this facility as a supplement to other study and learning activities.

Advising

Advising for a major or minor is done by individual faculty in the respective discipline and/or by academic staff advisors. Faculty or professional staff advisors are available to assist students in planning their academic program. Students are encouraged to refer to the following advising web sites for faculty major advising and staff advising services information at:

http://www.csusm.edu/Academic_Advising/faculty_advisers.htm
http://www.csusm.edu/Academic_Advising/

The university also provides specialized counseling in vocational and personal matters, student orientation programs and information, and general problem solving.
The mission of Student Support Services is to provide low-income, first-generation, and/or traditionally underrepresented college students with comprehensive support services in their pursuit of a university degree. SSS is a federally funded grant and is committed to student success. SSS is an integral part of the mission of the University as it seeks to embrace and enhance cultural pluralism and academic excellence. SSS students follow a comprehensive plan that helps them stay focused on academic success.

Academic support services offered through SSS include:

• Academic advising
• Personal counseling
• Peer mentoring
• Learning communities
• Leadership opportunities (tutor, intern, and peer mentor positions)
• Academic and personal growth workshops
• Specialized advising for skill-building and academic guidance
• Group tutoring
• Supplemental instruction
• Summer bridge

The mission of the Educational Opportunity Program is to serve historically low-income, first-generation college students, particularly those who are underrepresented in the CSU. An array of support services are available to EOP students to assist them in making the most of their educational opportunities. EOP grants are also available to those students who are eligible through financial aid and in good academic standing with EOP.

Support services offered through EOP include:

• Academic advising
• Personal counseling
• Financial aid (assistance)
• Priority registration
• Summer Bridge
• Supplemental instruction
• Leadership opportunities (tutor, intern, and peer mentor positions)
• Leadership workshops and conferences
• Learning Communities

Applications are taken for Fall Admittance only.

Summer Bridge

Summer Bridge is a program that is available through the collaboration of SSS and EOP Programs.

Summer Bridge prepares first-year students to succeed in CSUSM’s academic, social and cultural environment through an intensive six-week program that provides first-year SSS/EOP students with rigorous instruction in writing, math, study skills, college success strategies, and community building activities.

The Center

The Center provides opportunities for SSS and EOP students to build community, form study groups and/or conduct research. Other services offered through the Center include:

• Laptop loan program
• Access to computers
• Free limited copies and printing

SSS and EOP admissions information, applications, and deadlines may be obtained by visiting the department’s website at: http://www.csusm.edu/SSS_EOP/ or in CRA 4107.

Faculty Mentoring Program

Kellogg Library, 2400
(760) 750-4017

Established in 1991, the mission of the Faculty Mentoring Program is to increase the retention of upper-division students who are at risk of failing to graduate from Cal State San Marcos. The core of the Faculty Mentoring Program is the one-on-one mentoring relationship that matches a student with a volunteer faculty member, based on shared academic interests. The most important objective of the mentoring relationship is to assist the student in meeting graduation requirements. Mentors also provide guidance about graduate degrees and the graduate application process.

While the Faculty Mentoring Program is best known for the one-on-one mentoring relationships, the Faculty Mentoring Program also presents a program of group activities that gathers individual student protégés together into an annual cohort. Through individual mentoring and group activities, the Faculty Mentoring Program serves at-risk students by involving them in a process of creating strong professional relationships, establishing a shared culture, practicing constructive academic and professional behavior, and embracing a positive attitude about collaboration and academic success.
The Faculty Mentoring Program is administered by the Director of the Faculty Center, in collaboration with a Faculty Fellow. Faculty mentors are recruited and supported by the Faculty Center as part of its mission to support faculty development, and specifically, to enhance faculty success in promoting student learning and academic achievement among at-risk upper-division students (e.g., retention, timely degree-completion, advising about careers, application to advanced degree programs, etc.).

Students may submit an application if they are first-generation college students and/or can demonstrate financial need, and must be at the junior or senior level. All faculty (part-time and full-time) are welcome to participate.

**Computer Consulting Center**

SCI 2, Room 241  
(760) 750-3668  
www.csusm.edu/CCC  
Coordinator: Dr. Ahmad Hadaegh  
ahadaegh@csusm.edu

The Computer Consulting Center provides services to students in the areas of tutoring, consultation, workshops and “on-call” troubleshooting. The center is devoted to helping students with most aspects of computer/software troubleshooting, and provides a forum for learning on computers.

**Language Learning Center**

UH, Room 240  
(760) 750-8058  
www.csusm.edu/languages/LLCPage.html  
Acting Coordinator: Lucy Higuera  
lhiguera@csusm.edu

The Language Learning Center is designed to support the learning and teaching of languages. Foreign language reference, audio tapes, videos, tutoring, and software can be used either independently or in groups. Information about the Language-Other-Than-English Graduation Requirement, Language-Other-Than-English proficiency testing is also available. For more information, stop by University Hall 240 for a tour.

**Math Lab**

Kellogg Library, Room 1104  
(760) 750-4101  
Director: Maureen DuPont  
mdupont@csusm.edu

The Math Lab provides academic support, tutoring, and assistance to undergraduate Cal State San Marcos students taking math courses, fulfilling General Education requirements in mathematics, or preparing for the CBEST or ELM exams. The Math Lab also offers computers and resources on math for students and faculty use.

**Writing Center**

Kellogg Library, 1103  
(760) 750-4168  
www.csusm.edu/writing_center  
Director: Erin Goldin  
egoldin@csusm.edu

The Writing Center offers one-on-one and group tutoring for students at all stages of the writing process: brainstorming, drafting, revising, editing. The Writing Center focuses on helping students advance their abilities to analyze and evaluate ideas and texts in well-written prose. The Center is staffed by trained peer tutors familiar with the varied demands of CSU San Marcos’s writing requirement. The Center is not an editing service; rather, it seeks to work with all students in developing and improving their critical thinking and writing abilities. The Center also offers computers and resources on writing for student and faculty use.
Student Health and Counseling Services
(760) 750-4915 Health Appointments
(760) 750-4910 Counseling Appointments
(760) 750-4924 TDD
(760) 750-3181 Fax
www.csusm.edu/shs

Student Health and Counseling Services provides complete primary health care, health education and counseling to enrolled Cal State San Marcos students. The Student Health and Counseling Services staff includes medical and administrative professionals who are trained to assist students who have medical, mental and/or health related problems. Visits with a doctor, nurse practitioner, health educator, nurse or counselor are absolutely free with an appointment. Visits may include routine preventive health screenings, such as PAP exams, physical or treatment for colds, respiratory infections and other general health.

Also available are laboratory, radiology and immunization services. Students will have access to pharmacy services for low cost prescription and over the counter medications. Students may seek counseling with a health educator for nutritional counseling, family planning discussion, weight management or HIV testing. Counseling services to help students cope with issues that can affect them personally and academically are available for short-term individual, couple, family and group counseling.

All services provided are strictly confidential. For more information, please contact Student Health and Counseling Services or visit us at SMACC, 120 Craven Road, Suite 100.

Peer Health Education
(760) 750-4917

Peer health education opportunities are available for students to give presentations on campus about HIV/AIDS prevention as well as a variety of other health-related issues. These students receive formal, direct training from the staff of Student Health Services as well as ongoing education and support. For information about these and other volunteer opportunities, contact Student Health Services.

Student Health Advisory Council
(760) 750-4917

A Student Health Advisory Council works closely with Student Health Services. It is a voluntary policy advisory council whose mission is to insure high quality, confidential, and professional primary and preventive health care for Cal State San Marcos students. They are also involved with campus-wide health programs for students. Membership is established through application and approval by ASI, and new students are welcome to apply at the beginning of each semester. For further information, contact the staff advisor at (760) 750-4917.

Patient’s Bill of Rights

All patients have the right:
• to be treated with respect, consideration, and dignity;
• to be given privacy during discussion, examination, and treatment;
• to have all communications and records pertaining to your health care treated as confidential;
• to be provided information concerning your diagnosis, treatment, and prognosis in language you understand;
• to approve or refuse the release of information regarding your health care;
• to receive reasonable continuity of care and know the names and titles of those participating in your health care;
• to refuse treatment at any time;
• to be informed of Student Health Services’ policies regarding your rights and responsibilities and availability of services; and
• to use Student Health Services channels to effectively express concerns and suggestions about the clinic.
Student Health Insurance
To supplement your health care at Student Health Services, students have the option of purchasing student health insurance through Sommerton Student Insurance Services. Student health insurance forms are available in Student Health Services and ASI Office. Students are encouraged to maintain some form of health insurance.

www.csusm.edu/asi

Mission Statement
The mission of Associated Students, Inc. is to provide an official voice to express student opinions, to foster awareness of student issues, to protect the rights and interests of the students, and to create programs that encourage a campus climate that meets the educational, social, and cultural well-being of the students.

ASI Motto
ASI Powered by the Students

Background
Associated Students Inc. (ASI) is a nonprofit auxiliary organization that exists to provide services to students. This organization’s goal is to participate in shared governance of the university, provide programs, club sports, student life, enrichment and childcare. ASI is governed by a student Board of Directors that is elected each spring and serves for one year beginning in May.

Services
Each student pays fifty dollars per semester to Associated Students, Inc. This money is allocated to provide a quality outside-the-classroom experience for Cal State San Marcos students. Therefore, ASI offers co-curricular enrichment programs that include: leadership opportunities, student development, child care services (ELC), intramural sports, fitness classes, concerts, comedy shows, cultural awareness, lectures, films, discount tickets, student employment opportunities, a game room (Student Lounge), scholarships, and student health insurance.

The Associated Students, Inc. Cal State San Marcos Early Learning Center enrolls children between the ages of two and five years old. The Early Learning Center provides and creates an environment that simulates a variety of learning experiences in all areas of cognitive, physical, social, and emotional development. These experiences enable children to build self-esteem, learn acceptable methods of cooperation, and become competent individuals within a preschool setting. The center is open to Cal State San Marcos parents, faculty, staff and community families at an affordable cost.

Get Involved!
Associated Students, Inc. offers many opportunities for students to get involved, gain personal awareness, learn the relationship of self to others (differences and commonalities) and learn the uniqueness of Cal State San Marcos’ environment, its local community, and the global community. Students are encouraged to participate by serving on the ASI Board of Directors, ASI committees, University committees, ASI Program Board, ASI Adventure Center, and/or seek ASI employment. For more information on programs, leadership opportunities, and/or volunteer opportunities, stop by the office located in Commons 207, or call (760)750-4990.

Student Life & Leadership
(760) 750-4970
Craven Hall 4116
www.csusm.edu/SLL

Mission
The Student Life and Leadership Team will provide intentional learning experiences to promote the development of students and a dynamic campus community that supports each individual on their own journey to become an effective citizen in a diverse global community.

Who We Are and What We Do
Student Life & Leadership staff members plan, implement and evaluate programs, services and activities in collaboration with students, student organizations, faculty and staff from all areas of the campus community. SLL partners with members of the campus and surrounding community in the following ways:

- student organization development, recognition and advising;
- leadership development programs for the campus;
- orientation programs for new students and their families;
- Orientation Team - students working for and with new students on campus;
- multicultural programs and support;
- Greek Life (Fraternity and Sorority Advising);
- the Tukwut Transcript (a co-curricular involvement record for students);
- student activities resources and advising;
- off-campus housing referral resources;
- development of the residential education program for University Village;
- collaboration with Associated Students, Inc. to develop a dynamic campus life;
- advising students on their rights and responsibilities related to university policies and procedures; and
- campus posting procedures (bulletin boards, banners, A-frames, etc.).
**Student Organizations**

Students are encouraged to join any of the more than 60 currently recognized student organizations to develop their leadership skills and enhance the quality of living and learning at Cal State San Marcos. Come visit our office to get a complete list of organizations or learn how to start your own!

**Multicultural Programs**

Inclusiveness is one of Cal State San Marcos’ core values. SLL encourages a community inclusive and affirming of all cultural perspectives, including, but not limited to, worldviews framed by race, ethnicity, gender, national origin, abilities, sexual orientation and religion. Stop by SLL to learn how you can be a part of the multicultural programs going on at Cal State San Marcos.

**Orientation and the O-Team**

SLL provides Orientation to all new students attending Cal State San Marcos and relies on an outstanding group of student leaders to make the day all it can be. Being a member of the diverse Orientation Team (O-Team) adds fun and excitement to your college experience. The O-Team provides an excellent way to meet new friends and get acquainted with staff members and faculty who assist with the orientation process. These relationships benefit you in all areas of your college experience. Stop by SLL to find out how to get involved in the outstanding O-Team!

**Greek Life**

Cal State San Marcos students can find sisterhood and brotherhood by getting involved in either a sorority or a fraternity. Greek Life at Cal State San Marcos is growing and provides lifetime membership, scholarship, service, and leadership. Membership recruitment is scheduled at the beginning of both the spring and fall semesters. Contact SLL for details.

**Leadership**

Are you interested in developing your leadership skills and becoming an active student leader at Cal State San Marcos? The Emerging Leader Program (ELP) is a unique opportunity for lower division students to engage in leadership activities that will enhance their academic, social and personal leadership ability.

**On-Campus Housing**

SLL is proud to partner with Allen & O’Hara Educational Services to make on-campus housing a success at Cal State San Marcos. Living at University Village will add to your educational experience by offering you the opportunity to live in a community with other students and attend educational, cultural and social programs. Faculty interaction is highly valued at University Village. A Faculty-In-Residence lives with students and coordinates other Cal State San Marcos faculty members volunteering their time to offer programs and attend events with student residents. To find out more about living the college experience, call University Village at 750-3711.

**Off-Campus Housing**

Student Life & Leadership is here to offer information about off-campus housing opportunities available to Cal State San Marcos students, faculty and staff. You can place ads for a variety of living arrangements, including those seeking roommates, apartments and rooms in private homes on the SLL web site, or by contacting the office. Take the time to check out all of the information we have collected for you by visiting our web site at www.csusm.edu/SLL/housing.

SPECIAL ACADEMIC OPPORTUNITIES

The Office of Community Service Learning

Telephone: (760) 750-4055
Fax: (760) 750-3550
www.csusm.edu/ocsl/

The Office of Community Service Learning (OCSL) facilitates the integration of academic learning with service to the community. Community service learning engages students in active learning experiences that enhance classroom instructional activities, while addressing social, economic, political, health, and environmental needs of people in the community. Students learn while doing and while reflecting on what they are doing.

The list of Cal State San Marcos courses that offer a service learning component is continuously updated and is available on the OCSL web page. In recent years, an estimated 1,400 students had the opportunity to participate in service learning through 59 courses.

The OCSL serves as the principal liaison between the community, the students, and the faculty, working to strengthen campus/community partnerships and linking service placements with the academic goals of instructors and students. The OCSL maintains and continually upgrades a database of over 150 placement sites and access to placement information is available to faculty and students on the OCSL web page.

The OCSL works with community agencies and schools to insure a safe service environment for both students and service recipients and follows policies for risk management. The OCSL publishes the Guide to Community Service Learning which explains the responsibility of all parties involved in a service experience. OCSL offers scholarships to students for volunteer service. OCSL also acts as a resource center on service learning pedagogy and sponsors recognition ceremonies for volunteers.

Office of Extended Studies

(760) 750-4020
(800) 500-9377
Fax (760) 750-3138
www.csusm-es.org

Extended Studies implements self-supporting learning opportunities for individuals, businesses, and government agencies in North County. These activities may be for either academic credit or non-credit professional development, and are offered at times and locations convenient to participants. Some courses are also available through our Distance Learning Program. Information on course offerings, fees, times, dates, locations can be found at the Extended Studies web site or in the course bulletins published by Extended Studies. Specific program areas include:

Open University

Open University offers community access to Cal State San Marcos courses each fall, spring, and summer. High school students and adults have the opportunity to enroll in state-supported courses on a space-available basis without going through the formal admission process. Nearly all classes listed in this catalog are available to Open University enrollment. It is recommended that individuals wanting to participate in the program attend the first meeting(s) of the desired class. The Extended Studies Open University registration form must be completed by the student and signed by the instructor. Registration dates, Open University fees, drop/refund policies, and other information are attached to the form.

Students receive academic credit for courses taken through Open University and are subject to the same conditions, requirements, and standards as regular Cal State San Marcos students. Students cannot earn a degree through Open University. A maximum of 24 semester units of credit earned through Open University may be applied to a Cal State San Marcos undergraduate degree. The number of credits applicable toward a master’s degree is determined by the appropriate college and department. A maximum of six (6) semester units of credit can be applied toward a graduate degree. Grades earned through this program will affect a student’s GPA. Students are subject to University, College, and Extension services regulations governing fees, refunds, transfers, change of program and the use of University facilities. Open University students pay the same fee whether they are residents or non-residents of California. Refunds are calculated according to the provisions established in Title 5 of the California Code of Regulations.

Open University forms are available in Extended Studies, Enrollment Services Information Center, or the Extended Studies web site under “Academic Credit.” Call (760) 750-4020 for information.

Special Sessions

Special Sessions provides a means to offer University courses at times other than the regular semesters. University courses may be offered by Extended Studies concurrently with the regular semesters, but these special sections are designed primarily for non-matriculated students. For a free bulletin with information on the courses offered, registration, fees, and services, call (760) 750-4020.

Professional and Continuing Education

These programs are targeted to individuals seeking to improve their skills, or in the case of an organization, the skills of its employees. These programs often lead to a certification of participation, but can provide academic credit under certain circumstances. Courses and programs are currently offered for professionals in education, nursing and allied health, management, supervision, human resource management, and for individuals in such areas as career development, test prep, health awareness, and financial planning. Courses and programs are offered during the day, evening, and weekends, both in the classroom and through our Distance Learning Program.
Extension Credit
Extended Studies professional development courses, (those numbered 1000 or above), are developed to meet special needs of groups or communities, particularly teachers. These classes confer extension credit, denoting an investment of time and accomplishment comparable to that required in established University courses. This credit is generally honored by school districts as evidence of professional advancement for salary increments/increases on the pay scale. Credits earned in these professional level courses do appear on a transcript but are not typically applicable to credential or degree programs.

CEUs/CECHs
The Continuing Education Unit (CEU) is a nationally recognized unit of measurement for a variety of noncredit programs applying toward re-licensure, promotion or career advancement. CEU credit is not applicable toward degrees, credentials or credential renewal, nor does it appear on official university transcripts. Some re-licensing boards may require that renewal information be expressed in Continuing Education Contact Hours (CECH). Ten Continuing Education Contact Hours are equivalent to one Continuing Education Unit. Each hour of instruction equals one CECH or .1CEU.

Program for Adult College Education (PACE)

Advisor:
Shelli Douglas
(760) 750-8111
PACE@csusm.edu

PACE at Cal State San Marcos is an upper-division, transfer program for full-time working students and those who cannot take weekday courses. It is for students who have completed their lower-division requirements and seek a four-year degree. Through flexible scheduling (which features courses offered on Saturdays, early morning, evenings, and the Internet), students can complete the upper-division requirements for a B.A. in Liberal Studies, Social Sciences, History or Sociology in four to six semesters. Students, however, move through the program at their own pace, and there is no set minimum number of courses to take each semester.

PACE students have the same fee requirements, opportunities for financial aid, and other student services available to all Cal State San Marcos students.

Majors Offered
PACE offers four different majors: Liberal Studies, Social Sciences, History or Sociology. Additional majors may be available; please contact the PACE Advisor to find out which majors may have been added to the PACE Program.

Social Sciences majors select one primary field (history and sociology will be available in PACE) and two secondary fields from the following five areas: economics, history, political science, and psychology, or sociology. Graduates in Social Sciences prepare for careers in counseling, consulting, social services, public administration, criminal justice and business.

Students should review the Sociology and History major requirements in the Catalog, as well as the Liberal Studies and Social Science Major requirements.

In addition, students in all majors need to complete all Cal State San Marcos graduation requirements.

Entry to PACE
To be admitted to PACE, students must first complete the regular application materials for Cal State San Marcos, and, in addition, the special PACE application. To receive the special PACE application form and other supplemental materials, contact the PACE Advisor by visiting the PACE web site at www.csusm.edu/PACE or e-mail the advisor at PACE@csusm.edu.

Reserve Officer Training Corps

Air Force ROTC
(619) 594-5545
www.rohan.sdsu.edu/dept/afrotc/HTML/index.html

Air Force Reserve Officer Training Corps (AFROTC) provides students in all majors an excellent management and leadership training program. AFROTC offers a two- and a four-year program designed to develop officers who have broad understanding and high growth potential. Cadets participate in dialogues, problem-solving, and other activities designed to develop leaders and managers. All coursework is done at San Diego State University with the exception of field trips and one field training encampment conducted at military bases.
Two- to four-year scholarships are available on a competitive basis, but it is not mandatory to have a scholarship to participate in Air Force ROTC. Scholarships may be applied toward tuition, various laboratory, textbook and incidental fees plus a monthly nontaxable $150 allowance during the school year.

As a freshman and sophomore, an AFROTC student takes one academic class and leadership laboratory once a week. In the freshman course, students receive an introduction to AFROTC and to the Air Force. The leadership laboratory includes physical activity.

Students must attend a four-week field training (officer boot camp) in the summer between the sophomore and junior year. (Those students who have not completed all lower-division AFROTC courses with a grade of “C” or better in each course must attend a 5-week encampment.) Field training sharpens students’ leadership and followership abilities along with communication, organization, and time management skills.

The last two years of AFROTC lead to a commission in the Air Force. At the beginning of their junior year, students not already on contract must decide whether to leave the program or sign a contract to serve in the Air Force. Those signing contracts receive AFROTC scholarships (if they had not been already receiving them). Junior year academic requirements include a Leadership and Management course that meets for 2.5 hours per week and leadership laboratory. Senior year academic requirements include a Preparation for Active Duty course that meets for 2.5 hours per week and leadership laboratory.

In addition to academic classes and leadership laboratory, cadets receive officer training through a variety of other sources. Each semester cadets visit an Air Force base to learn about life as an officer. Cadets are given a tour of the base, briefings on different careers, and are housed on Visiting Officer Quarters. Other extra-curricular training event include shadowing officers at an Air Force Base for two weeks in the summertime (stateside and overseas, parachuting, and combat survival training).

Upon completion of the AFROTC program and all requirements for a bachelor’s degree, cadets are commissioned as Second Lieutenants in the Air Force with a four-year service commitment (10 for pilots, 6 for navigators).

**Army ROTC**

Military science courses are taken at San Diego State University. For information about the agreement between Cal State San Marcos and San Diego State University, contact the Veterans’ Affairs Representative at (760) 750-4808.

**Navy ROTC**

Naval science courses are taken at San Diego State University. For information about the agreement between Cal State San Marcos and San Diego State University, contact the Veterans’ Affairs Representative at (760) 750-4808.

Southwest Riverside County Programs

(951) 676-9254
www.csusm.edu/swrc

Southwest Riverside County (SWRC) is an off-campus instructional facility providing Riverside county residents with convenient access to select upper-division and post-baccalaureate course offerings of CSUSM. Undergraduate courses are offered towards completion of the Social Science major and/or Liberal Studies major. Both majors also allow for the completion of the undergraduate Elementary Subject Matter (ESM) requirements for future elementary school teachers. For those who have completed a Bachelor’s degree, the College of Education offers full-time and part-time programs for the multiple subject teaching credential at SWRC.

Additional courses, including courses meeting upper-division General Education requirements and CSUSM Credential prerequisites, are offered on a limited basis at SWRC.

SWRC courses are scheduled so that Liberal Studies, Social Science, and credential students can complete the degree requirements on time by following a day or evening schedule. All SWRC courses are taught by CSUSM faculty in approved educational facilities in the Temecula area, and are open to any CSUSM student.

The SWRC administrative center in Temecula offers enrollment, registration, advising and other student services on a pre-defined schedule to all Riverside County CSUSM students. Electronic access to CSUSM library sources is also provided for enrolled students.

SWRC is a part of CSUSM, thus no special application is required to take courses at SWRC or to use the services provided at SWRC. For more information on SWRC services, or for a schedule of SWRC classes, see the SWRC web site or call the administrative office.
The mission of the Office of University Global Affairs is to internationalize the Cal State San Marcos campus. To achieve this goal, Global Affairs works with faculty, students, and staff to encourage international exchanges, study abroad programs, and international student enrollment. The Office of University Global Affairs is responsible for study abroad program development and advising; international student and scholar support; and the English language program of the American Language and Culture Institute.

International Students and Scholars

The Office of Global Affairs provides support services for international students (i.e., students on a non-immigrant student visa such as F-1 or J-1). The international student services provided by the Office of University Global Affairs include advising on housing, registration, enrollment, visa regulations, health insurance requirements, health services, and other campus support services. All newly admitted international students should report to the international student advisor in Craven 5211 and should then attend the international student orientation session at the beginning of the semester in which they first enroll.

Study Abroad

Students can choose from among many study abroad options around the world, programs ranging in duration from a few weeks to an entire academic year. Programs are available to qualified students in every field of study. Options include campus summer programs, semester exchanges with university partner institutions abroad, summer and semester-long programs operated by other universities, and the CSU system-wide International Programs (see description below).

All students considering study abroad as part of their educational experience should visit the Study Abroad Resource Center in the Office of University Global Affairs and consult with the study abroad advisor. Students must complete the “Cal State San Marcos Credit Approval for Study Abroad” form, including signatures from their academic advisor, before embarking on any study abroad program, to guarantee the acceptance of study abroad credit. These forms are available from the Office of University Global Affairs.

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 18 countries, International Programs also offers a wide selection of study locales and learning environments.

International Programs participants who attend universities in the following countries may pursue study abroad credit at their CSU campuses:

**AUSTRALIA**

- Griffith University
- Macquarie University
- Queensland University of Technology
- University of Queensland
- University of Western Sydney
- Victoria University

**CANADA**

The universities of the Province of Quebec including:
- Bishop’s University
- Concordia University
- McGill University
- Université Laval
- Université de Montréal
- Université du Québec system

**CHILE**

- Pontificia Universidad Católica de Chile (Santiago)

**CHINA**

- Peking University (Beijing)

**DENMARK**

- Denmark’s International Study Program (the international education affiliate of the University of Copenhagen)

**FRANCE**

- Institut des Etudes Françaises pour Étudiants Étrangers

**GERMANY**

- Universität Tübingen and a number of institutions of higher education in the Federal state of Baden-Württemberg

**ISRAEL**

- Tel Aviv University
- The Hebrew University of Jerusalem
- University of Haifa
International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, students must have upper-division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California community college transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Additional information and application materials may be obtained on campus in the Office of University Global Affairs, or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit the web site at www.gateway.calstate.edu/csuienet/.

American Language and Culture Institute (ALCI)
(760) 750-3200
Fax (760) 750-3779
www.csusm.edu/alci

The American Language and Culture Institute (ALCI) offers intensive English Language Programs for international students who want to improve their English language proficiency. The Intensive Academic Preparation Program provides students with the language skills and study skills necessary to succeed in American colleges and universities. This program is offered on a year-round basis. The ALCI also offers short-term programs such as TEFL Intensive for International Teachers of English and American Culture and Communication. In all of the ALCI programs, students have the opportunity to gain an understanding of American culture while meeting people from many other countries.

University Honors

The University Honors Program is currently being revised. At the time of this catalog’s printing, the new guidelines have not been completed, and no new students are being admitted to the Honors Program.

Further information about the Honors Program may be obtained from the Office of Academic Programs at (760) 750-4326.

CENTERS AND INSTITUTES

Center ARTES
(Art, Research, Teaching, Education, Schools)
Arts Building, 306
Telephone: (760) 750-4431
http://www.csusm.edu/centerartes
Director: Meryl Goldberg, Ed.D.

Center ARTES was established in 2003 to partner with local schools and communities to promote and support arts education. The major activities of Center ARTES are:

• Professional development for teachers and student teachers
• Access to the arts for children and their families
• Advocacy and strategic planning with school districts

Professional Development for Teachers and Student Teachers
Center ARTES conducts hands-on arts education and arts integrated workshops with local arts and cultural institutions including:

California Center for the Arts Escondido
SUAVE
San Diego Chamber Orchestra
Lux Art Institute
Escondido Children’s Museum
Quail Botanical Gardens
Playwrights Project
San Diego Puppetry Guild
Oaxacan Community and the Mexican Consulate UCSD PAL (Partners and Learning) Program
San Diego Museum of Art

Access to the Arts for Children and their Families
Working with our many partners Center ARTES provides access to the arts for children and their families such as:

• Performances by San Diego Chamber Orchestra at a minimum cost to children and their families
• Family Day at Cal State San Marcos featuring artists, musicians, dancers, puppetry and hands-on art activities for children free of charge
• Madres Program-Bilingual moms are taught to bring arts to their children’s classrooms

Advocacy and Strategic Planning with School Districts
Center ARTES offers direction for strategic planning to all school districts throughout San Diego County. Working with our partners, Center ARTES connects San Diego County School Districts with artists and art programs to serve the needs of students at all grade levels. Center ARTES provides Arts Education Fact Sheets to districts to provide teachers, administrators, parents, and school boards with important information related to arts education and research.

Center ARTES is supported through the generous donations of individuals, memberships and grants. For information concerning membership, planned giving, and endowments please contact The Office of External Affairs (760) 750-4400.

Barahona Center for the Study of Books in Spanish for Children and Adolescents
Kellogg Library, 5000
Telephone: (760) 750-4070
Fax: (760) 750-4073
www.csusm.edu/vcb/
Director: Isabel Schon, Ph.D.

Established in 1989, the Barahona Center for the Study of Books in Spanish for Children and Adolescents/Centro para el Estudio de Libros Infantiles y Juveniles en Español is an academic center that promotes literacy in English and Spanish. The Center endeavors to inform current and future educational decision-makers (e.g., university faculty and students, school administrators, curriculum specialists, teachers) about books centered around Latino people and culture and about books in Spanish and their value in the education of English-speaking and Spanish-speaking children and adolescents. The purposes of the center are:

• to serve as a resource center of books in Spanish and books in English about Hispanics/Latinos for children and adolescents;
• to assist librarians, teachers, parents, and other adults in the selection, acquisition, and use of books in Spanish for children and adolescents, and to provide information about the book publishing industry;
• to encourage/support research on books in Spanish for young readers;
• to assist in the development of programs to encourage Spanish-speaking children and adolescents to read for enjoyment, education, and/or information;
• to inform and guide educational and community institutions in providing authoritative and useful courses on books in Spanish for young readers; and
• to assist in improving the effectiveness of seminars, forums, and/or workshops on books in Spanish for children and adolescents.

Further information about the Barahona Center may be obtained by writing to: Isabel Schon, Ph.D., Director, Cal State San Marcos, San Marcos, CA 92096-0001.

Directora: Dra. Isabel Schon, Ph.D.

Establecido en 1989, el Centro Barahona para el Estudio de Libros Infantiles y Juveniles es un centro académico de la California State University San Marcos, que promueve el aprendizaje de la lectura en inglés y en español. El Centro tiene como interés principal informar a los educadores, actuales y futuros, sobre los libros que tratan sobre los latinos y su cultura, así como los libros en español y su valor en la educación de los niños y adolescentes de habla inglesa y española.

• servir como un centro de investigación de libros infantiles y juveniles en español y de libros para niños y adolescentes sobre temas hispanos/latinoamericanos en inglés;
• guiar a bibliotecarios, maestros, padres y otros adultos en la selección, adquisición y empleo de libros infantiles y juveniles en español y proporcionar información sobre la industria editorial;
• promover la investigación sobre libros en español para lectores jóvenes;
• contribuir en el desarrollo de programas que promuevan la lectura recreativa, educativa e informativa en el niño y adolescente hispano/latinoamericano;
• informar y guiar a instituciones educativas y de la comunidad proporcionando cursos útiles sobre libros infantiles y juveniles en español para lectores jóvenes; y
• mejorar la eficiencia de seminarios, conferencias y/o talleres sobre libros para niños y adolescentes en español.

Para recibir más información acerca de este centro, por favor diríjase a: Dra. Isabel Schon, Directora, Cal State San Marcos, San Marcos, CA 92096-0001.

Center for Border and Regional Affairs

cbra@csusm.edu

The Center for Border and Regional Affairs (CBRA) is a faculty-coordinated unit at Cal State San Marcos whose aim is to help this public university fulfill its mission of identifying and meeting the needs of the San Diego/Tijuana region, and of North County San Diego in particular, through the facilitation of community-based research, creative activity, teaching and service.

CBRA’s main goals are:
• to coordinate collaborative research, creative activities, teaching, and service at Cal State Marcos related to the San Diego/Tijuana region and the U.S.-Mexico border;
• to link the interests and expertise of the Cal State San Marcos community with funding and policy initiatives;
• to provide a vehicle for the Cal State San Marcos community to support regional policy; and
• to serve as a point for contact for collaboration between Cal State San Marcos and U.S. and Mexican institutions and agencies concerned with regional research, creative activity, teaching and service in the San Diego/Tijuana region.

For further information, please contact:

Director, Center for Border and Regional Affairs
Cal State San Marcos
San Marcos, CA 92096-0001

Center for Leadership Innovation and Mentorship Building (CLIMB)

Craven 4234
(760) 750-4234: (760) 750-4237
E-mail: climb@csusm.edu;
Website: www.csusm.edu/climb

Executive Director: Dr. Rajnandini (Raj) Pillai
Area Directors: Jeffrey C. Kohles and David Bennett

CLIMB was established in the College of Business in 2004 to foster the development of effective leaders at all levels - individual, team, organization, and community and to serve as a resource for leadership and mentoring to the university and the business community. This mission is achieved by promoting innovative leadership research and by offering educational programs and mentoring opportunities to current and aspiring leaders through some of the following programs and activities.

Speaker Series

The goal of this series is to bring practitioners and academic scholars to our campus to share their ideas on specific topics related to leadership. The series provides an opportunity for students, faculty, and the general public to come together to discuss and debate important leadership and mentoring issues.
In the Executive's Chair
CLIMB hosts one of the most popular courses in the College of Business. This course brings in top business leaders to talk about their careers, their companies, and the critical business decisions with which they are commonly faced. The primary purpose of this course is to expose students to these successful executives to better prepare them for their own business careers.

Outstanding Business Leader Awards
In an effort to recognize effective role models in the business community, each year one local business leader is presented with the Climb Outstanding Business Leader Award. The individual selected for this honor is someone who has demonstrated exceptional leadership within the context of his or her business. He or she is also someone who has championed important causes within the community.

The James R. Meindl Student Leadership Award
This award, which is also given out every year, is designed to honor a graduating senior from the College of Business Administration for demonstrating outstanding leadership/mentorship in school, at work, and in the community. The winner must exemplify the Center’s mission. The award is given in memory of Professor James R. Meindl of the State University of New York at Buffalo.

CLIMB Distinguished Fellows Program
This program provides students who show a great deal of promise and are interested in interning with the Center, an opportunity to work on leadership projects with the Executive Director and Directors under their guidance.

Leadership Development and Research
The Center has a dedicated group of business faculty and practitioners who conduct workshops on important workplace issues related to leadership and management. The Center also supports innovative research projects on leadership and mentoring.

Faculty Center
Kellogg Library, 2400
(760) 750-4019

The Faculty Center provides faculty development services to all Cal State San Marcos faculty. The Faculty Center presents consultation, workshops, colloquia, and small grant opportunities that allow faculty to develop and improve their expertise as teachers, scholars, artists, intellectuals, and as members of the University and wider community. Programming is designed to serve the needs of faculty at any career stage and to encourage collegiality.

The Faculty Center offers programs and resources that promote effective teaching, successful scholarly and creative activity, and effective service and leadership activities. Faculty Center programs and resources support the University mission and serve the needs of our diverse faculty and students.
Faculty Center Goals

Effective Teaching:

- To support the continuous development of excellent and innovative teaching and learning throughout the University.
- To use Faculty Center meeting space, Library, staff support, and other resources to create a teaching and learning resource center tailored to faculty needs and responsibilities.
- To provide faculty with workshops, colloquia, one-on-one consultation and/or video feedback that inspire active reflection and action to improve teaching and learning.
- To create a dynamic forum for faculty to share and discuss teaching and learning through meetings, workshops, newsletters, and outreach.

Successful Research and Creative Activities:

- To support faculty research and creative activity (both individual and collaborative) throughout the University.
- To assist faculty in defining research and creative activity goals and agendas and help them seek funding, including sabbatical, university grants, and external grants.
- To facilitate faculty networking with scholar and artists who share goals and interests at Cal State San Marcos and in the CSU.
- To provide small grants, depending on budget resources.

Effective Service and Leadership Activities:

- To support faculty service and leadership in the department, college, University, and the wider community.
- To increase the volume and improve the quality of faculty service, which in turn supports faculty in the evaluation process, strengthens the university’s curriculum and programs, and fosters collegiality.
- To provide workshops and consultations that focus on developing skills, plans, and reflection in the area of service.
- To use rigorous discussion, collaboration, mentoring, and recognition to promote the goal that faculty make service and leadership a productive and fulfilling aspect of their professional work.

National Latino Research Center (NLRC)

Kellogg Library, 4416
(760) 750-3500
www.csusm.edu/nlrc
Director: Gerardo Gonzalez, Ph.D.

The mission of the NLRC is to promote research, training, and greater awareness on the unique needs and dynamics of Latino communities.

The NLRC organizational structure and activities are guided by the following major objectives:

Research:
- To promote the awareness, expansion and enhancement of culturally sensitive, culturally relevant and scientifically focused research on Latino populations.

Clearinghouse:
- To offer training, specialized workshops and to facilitate and organize conferences on substantive topics of critical importance to researchers, students, community organizations and government agencies involved with Latino populations.

Training:
- To serve as a repository for empirically based publications, databases and reports pertaining to substantive issues for Latino populations.

Services:
- Data collection, translation, focus groups, technical assistance, and all other services increase our understanding of this numerically significant population.
- The Center is building a library of outcomes from methodological studies conducted through our services to others.
- Providing services has a larger purpose. What we learn as we provide our services will be shared with others in the field through reports and publications.
DATA COLLECTION

The National Latino Research Center provides culturally sensitive data collection services regarding diverse Latino and non-Latino populations throughout the United States.

NEEDS ASSESSMENT

We conduct state-of-the-art needs assessments which consider the social and cultural context of targeted populations, especially diverse Latino populations throughout the United States.

PROGRAM EVALUATION

NLRC specializes in theory-driven program evaluations focused on programs serving Latino populations and tailored to fit diverse client needs.

SURVEYS

Specialists conduct moderate to large studies using optional sampling strategies.

TECHNICAL ASSISTANCE AND DATA ANALYSIS

Data analysis and interpretation of findings are two critical services the NLRC supplies. The NLRC can clarify research designs and offer options when results call for new approaches. Data analysis can range from simple descriptive analysis to multivariate analyses.

If you are interested in any of the Center’s services, please contact us at:

Social and Behavioral Research Institute

(760) 750-3288

Established in 1993, the Social and Behavioral Research Institute (SBRI) is a multi-disciplinary and multicultural instructional and research environment designed to provide students with state-of-the-art knowledge of the social scientific enterprise. The SBRI is organized as a resource for projects that respond to community-based questions and/or faculty sponsored initiatives. In the research lab, students have “hands-on/real-world” experiences in how research is conducted. Central to this process is the use of technology for the access and retrieval of information, data collection, and analysis.

The institute views issues of diversity within our communities as a fundamental element in obtaining quality data. Therefore, students learn to consider issues of culture and language as part of the puzzle that must be addressed within the research design.

Students involved with the SBRI:

• learn to use the Internet to gain access to information and data;
• learn to work with the institute’s computer assisted telephone interviewing system to collect social scientific data with the latest methods of sampling and questionnaire design;
• are exposed to multidisciplinary quantitative and qualitative analysis techniques using the latest software to model social theory by using
  — video, voice, and digital qualitative data
  — statistical analysis techniques; and
• gain the knowledge and skills necessary to make a contribution to the quality of life of our rapidly changing environment and community.

ACADEMIC REGULATIONS AND CATALOG RIGHTS

Students are held individually responsible for meeting the requirements outlined in this catalog. Cal State San Marcos will make every effort to adhere to these requirements for students subject to this catalog; particularly important is the "Graduation Requirements" section. All parts of the catalog are subject to change from year to year as University rules, policies, and curricula change. Failure to keep informed of such changes will not exempt students from whatever penalties they may incur.

Catalog Rights for Degree Requirements

If a student does not graduate within ten (10) years from the beginning of his/her catalog rights, the major advisor may review all upper-division major courses for applicability.

Election of Regulations

An undergraduate student remaining in continuous attendance (defined below) in regular sessions at any California State University campus, at any California community college, or at any combination of California community colleges and campuses of The California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at Cal State San Marcos either:

A. at the time the student begins attendance at a California public community college or California State University campus, or
B. at the time the student begins attendance at Cal State San Marcos, or
C. at the time the student graduates from Cal State San Marcos.

The campus may require a student changing his or her major or any minor field of study to complete the major or minor requirements in effect at the time of the change.

Continuous Attendance

Continuous attendance/enrollment, as it refers to attendance by a student at any campus of The California State University, means enrollment in at least one course for at least one regular semester in each calendar year.

Out-One Term

An "out-one term" for an undergraduate student is a regular semester (either spring or fall) of any calendar year in which s/he does not enroll in any course or drops from all courses by the end of the add/drop period, and which immediately follows a semester in which s/he was enrolled in at least one course beyond the add/drop period. A student maintains catalog rights during the out-one term. After exhausting the "out-one" allowance, if a student does not enroll and attend the subsequent term, the student must reapply for admission and may forfeit catalog rights, unless the student is granted an Educational Leave of Absence (see page 71). There is no automatic "out-one" allowance for graduate students; see page 92 for the Continuous Enrollment Requirement and Time-Limit to Degree, and page 92 for Graduate Student Leave of Absence.

Absence due to an approved educational leave shall not be considered an interruption in attendance if the absence does not exceed two years (12 months for graduate students).

ENROLLMENT

All students who register at Cal State San Marcos for the Fall, Spring, or Summer semesters must first be admitted to the University by the Office of Admissions.

Student Class Level

Students who have complied with all the admissions requirements and who have received an official notice of admission will be admitted to the University under one of the following classifications.

Freshman. A student who has earned a total of zero to twenty-nine (0 to 29) semester units inclusive.

Sophomore. A student who has earned a total of thirty to fifty-nine (30 to 59) semester units inclusive.

Junior. A student who has earned a total of sixty to eighty-nine (60 to 89) semester units inclusive.

Senior. A student who has earned a total of ninety (90) or more semester units.

Graduate/Postbaccalaureate. A student who has earned a bachelor's degree from a regionally accredited institution.

Declaring (or Changing) a Major

Work in a major field of study is designed to afford students the opportunity to engage in intensive study of a discipline. Students may declare a major at the time of admission, or students may enter the University with an "undecided" major. Students entering the University as "undeclared" or those changing their majors must process a Change of Major Form through the Enrollment Services Information Center. Undeclared major students with bachelor degrees, who are completing credential requirements or preparing to enter credential programs, receive their advising in the College of Education. All other undeclared students receive advising in the College of Arts and Sciences.

Priority Registration

Continuing students are granted access to course registration each semester on a priority basis. The individual’s priority is based on criteria established by the University, including, but not limited to, class and special consideration status. Students who have been in out-one or on-leave status revert to the lowest priority for their returning semester.

Student Course Load

Since every undergraduate degree requires a minimum of 120 units, a student who intends to graduate after eight semesters of study will need to average at least fifteen (15) units every semester. For this reason, a normal course load in a semester is fifteen (15) units. Undergraduates who are taking at least 80% of the normal load, that is, at least twelve (12) units in a regular fall or spring semester, are classified as full-time students. Students enrolled in nine (9) units or more in a summer term are classified as full-time. Undergraduates who are enrolled in fewer units are classified as part-time students.
Note that classification as a full-time or part-time student is different from the two levels of State University Fees: up to 6.0 units, and above 6.0 units (see page 31). For questions about course load requirements related to student financial aid, contact the Financial Aid and Scholarship Office, (760) 750-4855. For questions about course load requirements related to Veterans Benefits, contact the veterans representative in the Office of Registration and Records, (760) 750-4808.

Undergraduate international students on non-immigrant visas must carry and complete a minimum of twelve (12) units per semester unless a reduced load is authorized by the University. Reduced unit loads may be granted for substantial academic or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

Maximum Number of Units
Each unit of credit represents approximately 45 hours of student effort per academic term (both inside the classroom/laboratory and in work outside of class). In a traditional semester-length lecture course, students are expected to devote two additional hours outside of class for each hour of lecture, for a total of three hours per unit in every week of the semester.

Fall and Spring Semester
A student whose academic record justifies a study program in excess of nineteen (19) units in a Fall or Spring semester may be allowed to enroll for extra units. Undergraduates who request to enroll for more than nineteen (19) units must obtain the approval of their academic advisor. If such requests are denied, appeals may be made to the appropriate college dean. In general, only students with superior academic records and a demonstrated need for such excess enrollment will be allowed to enroll beyond the nineteen (19) unit limit. Note that a 19-unit course load carries with it a commitment of 57 hours each week. Students unable to devote this much time to their classes and study should register for fewer units.

Summer Overload Worksheet for Undergraduates
Complete for each six-week block in which you are taking courses.

(1) Total units of five-week courses taken during the block: ______ x 2 = ______ (a)
(2) Total units of ten-week courses taken: ______ x 1 = ______ (b)
(3) Add the numbers in (a) and (b): ______ = ______ (c)

If the number in (c) is 13 or less in each five week block, then no approval is required to enroll for courses. If the number in (c) is larger than 13, then you must obtain the approval of your academic advisor. If such requests are denied, appeals may be made to your college dean. In general, only students with superior academic records and an demonstrated need for such excess enrollment will be allowed to enroll for course loads that make the number in (c) more than 13.

Note that if the number in (c) is 13, then the course load carries with it a commitment of 58 hours each week. Students unable to devote this much time to their classes and study should enroll for fewer units.

Summer Session
Summer session classes are offering in six-week and twelve-week formats. Undergraduates taking classes only in the six-week format may enroll in up to seven (7) units in each six-week block without needing approval for a higher course load. Undergraduates taking classes only in the twelve-week format may enroll in up to fifteen (15) units without needing approval. Students taking courses in both formats must complete the following Summer Overload Worksheet to determine whether they need approval for the overload. In Summer Session, students obtain approval from the dean of the college (or designee) of their major. Undeclared majors obtain approval from the Dean of the College of Arts and Sciences (or designee).

Student Attendance and Administrative Withdrawal
Students registered in a class must be present at the first class session to guarantee a place in the class. Administrative Withdrawal is a procedure that offers instructors the option of making enrollment in a course contingent upon the student’s attendance at the first meeting. Students absent from the first meeting may be administratively dropped from the class at the instructor’s request. In addition, instructors may stipulate that attendance at other specified class meetings on or before the add/drop deadline is required for students to remain enrolled in the class.

Summer Overload Worksheet for Undergraduates
Complete for each six-week block in which you are taking courses.

(1) Total units of five-week courses taken during the block: ______ x 2 = ______ (a)
(2) Total units of ten-week courses taken: ______ x 1 = ______ (b)
(3) Add the numbers in (a) and (b): ______ = ______ (c)

If the number in (c) is 13 or less in each five week block, then no approval is required to enroll for courses. If the number in (c) is larger than 13, then you must obtain the approval of your academic advisor. If such requests are denied, appeals may be made to your college dean. In general, only students with superior academic records and demonstrated need for such excess enrollment will be allowed to enroll for course loads that make the number in (c) more than 13.

Note that if the number in (c) is 13, then the course load carries with it a commitment of 58 hours each week. Students unable to devote this much time to their classes and study should enroll for fewer units.

* The number in (c) is your number of Summer Schedule Units (SSU). SSU multiplied by 4.5 is approximately the number of hours per week that you should commit to classes and study during the summer session.
(For example, in some science laboratory courses, student attendance at safety instruction sessions is mandated by state law.) Students who are unable to attend the first class meeting, or class meetings where attendance is required for enrollment, must contact the instructor in advance to make sure the instructor is aware that the student wishes to remain enrolled in the course. Notification of the instructor may not be sufficient to ensure enrollment in the course; students may be administratively dropped from courses for failure to attend first class meetings or other mandatory meetings, even when the instructor is given prior notification.

Where students have been administratively dropped from a class, and where the absence or inability to contact the instructor was caused by mitigating circumstances, students should appeal to the instructor in seeking to regain enrollment in a class. Students who have been administratively dropped from a class may be reinstated, upon consent of the instructor, by filing a Schedule Adjustment Form in the Enrollment Services Information Center.

**PROCEDURES FOR DROPPING OR WITHDRAWING FROM COURSES**

Students should consult with advisors, the Office of Registration and Records, or the Class Schedule for current course withdrawal procedures.

<table>
<thead>
<tr>
<th>Deadlines*</th>
<th>Requirements and Procedures</th>
</tr>
</thead>
<tbody>
<tr>
<td>On or before the Add/Drop deadline: end of the second week of semester (end of approximately 10% of the academic term).</td>
<td>• Student may use the SMART system or submit a Schedule Adjustment Form to the Enrollment Services Information Center.</td>
</tr>
<tr>
<td>After the Add/Drop deadline, and on or before the last day of the twelfth week of the semester (end of approximately 80% of instruction).</td>
<td>• No record of the course appears on student records.</td>
</tr>
<tr>
<td>Beyond the last day of the twelfth week of the semester (beyond the end of approximately 80% of instruction), until the deadline for instructor submission of grades.</td>
<td>• Student must present serious and compelling reasons* for withdrawing from the course.</td>
</tr>
<tr>
<td>Up to one year after the end of the term.</td>
<td>• Course Instructor and Dean of the College offering the course (or designee) must sign the Course Withdrawal Form.</td>
</tr>
<tr>
<td></td>
<td>• After obtaining signature approval, student must submit the completed Course Withdrawal Form according to the instructions on the form.</td>
</tr>
<tr>
<td></td>
<td>• Given approval, a grade of “W” appears on student records.</td>
</tr>
</tbody>
</table>

*Instructors may consider inadequate preparation to be a serious and compelling reason through the first half of the term.

In addition, students may petition for retroactive withdrawing from single courses by following the procedures outlined in the preceding section of this chart. Students may petition for retroactive withdrawal of all courses attempted during the term by submitting a written request to the Dean of Students. In this petition, the student must present serious and compelling reasons for the retroactive withdrawals.

The petition is reviewed by a committee consisting of the Dean of Students (or designee), the Dean of the College of the student’s major (or designee; Arts and Sciences in the case of undeclared majors), and a faculty member from the Student Affairs Committee (SAC). (When this faculty member is unavailable, a replacement may be appointed on an ad hoc basis by the Dean of the College, from among the College faculty.) Given approval by the review committee, the Dean of Students will sign the petition; grades of “W” will appear on student records for all courses attempted during the term.

*Deadlines are strictly enforced. Students wishing to petition for an exception to a deadline based on circumstances beyond their control may do so in writing on a petition form available in the Office of Registration and Records.
Add/Drop and Withdrawal Policy

Adding Courses
Students who wish to add classes may do so, using a Schedule Adjustment Form, beginning the second day of the term until the published add/drop deadline. The Schedule Adjustment Form, with the instructor’s signature (or that of the instructor’s designee), must be submitted to the Enrollment Services Information Center (where blank forms are available). Beyond the add/drop deadline, students may add courses only with signature approval of the course instructor and the Dean of the College offering the course (or designee); a late fee will be assessed. Adds beyond the University census date are normally not considered.

Dropping or Withdrawing Courses
Students who wish to drop classes may do so by following the procedures outlined in the table on page 69. (Students who wish to drop or withdraw from all their classes should also follow the procedures for cancelling of registration or withdrawing from the institution, below.) Students should consult with advisors, the Office of Registration and Records, Dean of Students, or the Class Schedule for current course drop and withdrawal procedures. Failure to follow formal withdrawal procedures will result in the assignment of a grade other than a "W." Signature approval is required for withdrawing from classes, according to a series of deadlines staggered throughout the academic term, as detailed below. To gain approval, students must present sufficient reason(s) for withdrawing from the class. Given approval, the grade of "W" ("Withdrawal") appears for the class on the student's transcript. Grades of "W" are not included in the calculation of the student's GPA. Where such approval is not granted, students who withdraw from a class will receive a grade other than "W."

Retroactive Course Withdrawals
Up to one year after the end of the academic term, under extraordinary circumstances students may petition for retroactive withdrawal of any or all courses attempted during the academic term, as detailed below. Given approval, the grade of "W" will appear on the student's transcript for the course(s) addressed by the petition.

Cancelling of Registration or Withdrawing from the Institution
Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university's procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. During the academic term, permission to withdraw all classes must be sought according to the deadlines, requirements and procedures detailed below. Where such permission is not granted, students who withdraw from the University will receive grades other than "W" for all classes attempted during the term. Grades will be determined on the basis of coursework completed during the term. Information on cancelling registration and withdrawal procedures is available from Office of Registration and Records at (760) 750-4584.

In addition, students must submit a completed Semester Drop or Complete Semester Withdrawal Form to Enrollment Services Information Center. (Forms are available at the Enrollment Services Information Center and the Office of the Vice President for Student Affairs and Dean of Students.) To obtain approval, students must obtain a series of clearances from various University offices, independent of permission to drop all classes.

Details of the drop and withdrawal process are outlined on the Semester Drop and Withdrawal Form, which may be obtained from the Enrollment Services Information Center and designated college locations.
Students who receive financial aid funds must consult with the Financial Aid and Scholarships Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

In extraordinary circumstances (including but not limited to serious illness, family emergency, call-up for military service, and other circumstances beyond the student’s control), students may petition for retroactive complete semester withdrawal.

Permission to withdraw from all classes retroactively must be obtained according to the procedures outlined in the final row of the chart across, and a completed form must also be submitted. Details of the retroactive withdrawal process are outlined on the Withdrawal Form.

**Educational Leave of Absence**

An undergraduate student who has exhausted his or her “out-one term” in the prior semester and who needs to remain un-enrolled for an additional semester may, under some circumstances and subject to certain restrictions, apply for an educational leave of absence. An undergraduate leave of absence may be granted for the following documented reasons:

1. attendance at another accredited institution of higher learning, or
2. the health condition of the student prohibits attendance, or
3. military duty/deployment.

Requests for leave of absence must be documented and submitted to the Enrollment Services Information Center [replace with new name as soon as it is available] prior to the first day of classes for the semester requested.

Graduate students should refer to Graduate Student Leave of Absence on page 92.

**Application for Graduation**

Graduation is not automatic upon the completion of requirements. Students who intend to graduate must take the initiative to apply. Upon completion of 85 units, the student is eligible to file an application for graduation in the Enrollment Services Information Center. The Class Schedule each semester specifies the filing date.

The degree is granted upon completion of all requirements by the graduation date. Candidates for graduation are eligible to register for terms subsequent to the graduation date only if an application for readmission as a post-baccalaureate or graduate student has been filed with the Office of Admissions. Students not completing the requirements must reapply for graduation. Graduation requirements will be determined by the continuous enrollment regulations defined in this catalog. After the degree is granted, no changes can be made to the undergraduate record.

**Special Enrollment Situations**

### Concurrent Enrollment

Cal State San Marcos provides opportunities for students to enroll concurrently at other colleges and universities. This privilege has some limitations, and students interested in concurrent enrollment should keep in mind that their study load in the proposed combined program of study may not exceed the maximum number of units authorized by this University for each term. Interested students should consult with their academic advisor before initiating concurrent enrollment procedures.

### Enrollment Within the CSU System

Students enrolled at Cal State San Marcos may enroll concurrently at other CSU campuses. Such enrollment is at the discretion of authorities from both campuses. Applicants should satisfy the following requirements: (1) have completed at least one semester at Cal State San Marcos as a matriculated student and earned at least twelve [12] semester units, and (2) maintained a grade point average of 2.0 [C] in all work completed at the University, and be in good academic standing.

### Enrollment Outside The CSU System

Students enrolled at Cal State San Marcos may enroll concurrently for additional courses at another institution outside The CSU system with advance approval from the student’s advisor. However, the study load in the proposed combined program of study may not exceed the maximum number of units authorized by this University.

Further information regarding concurrent enrollment and deadlines may be obtained from the Office of Registration and Records.

### Enrollment as a Visitor

Cal State San Marcos encourages its students to experience a wide variety of teaching and learning environments. As a part of this emphasis, the University provides opportunities for students to visit other campuses in the CSU system. While on visitor status, Cal State San Marcos students are fully enrolled at the host campus. Since programs and courses may vary within the system, students are required to review their proposed course of study with their academic advisor.
GRADING SYSTEM AND POLICIES

Grades are assigned in accordance with the following policies.

Definitions of Letter Grades

A (Excellent): Performance of the student has been at the highest level, showing sustained excellence in meeting all course objectives and exhibiting an unusual degree of intellectual initiative.

B (Good): Performance of the student has been at a high level, showing consistent and effective achievement in meeting course objectives.

C (Satisfactory): Performance of the student has been at an adequate level, meeting the basic objectives of the course.

D (Passing): Performance of the student has been less than adequate, meeting only the minimum course requirements.

F (Failing): Performance of the student has been such that minimum course requirements have not been met.

Plus/Minus Grading

The use of plus/minus grading is not required. It is used at the discretion of the individual instructor. The following decimal values of plus/minus grades are used in the calculation of grade point averages:

\[
\begin{align*}
A &= 4.0 & C &= 2.0 \\
A- &= 3.7 & C- &= 1.7 \\
B+ &= 3.3 & D+ &= 1.3 \\
B &= 3.0 & D &= 1.0 \\
B- &= 2.7 & D- &= 0.7 \\
C+ &= 2.3 & F &= 0
\end{align*}
\]

Nontraditional Grading

Courses are graded on an A through F basis, as described above, except those specifically designated as follows:

CR/NC (Credit/No Credit): Credit (CR) is awarded for grades equivalent to C or better. No credit (NC) is awarded for grades equivalent to C- or less. Grades of CR and NC are not included in the calculation of grade point averages.

Courses graded Credit/No Credit, whether taken at this or at another institution, may not be used to satisfy requirements for the major, except for specific courses designated by the discipline (refer to the course section of this catalog). General Education courses may not be taken at Cal State San Marcos with a Credit/No Credit option. A maximum of nine (9) semester units may be taken at CSUSM with a Credit/No Credit option and applied toward an undergraduate degree.

When a student does not complete a course, and does not officially withdraw from it, the following grading symbols may be assigned by the faculty:

\[
\begin{align*}
I &= \text{Incomplete Authorized} \\
RP &= \text{Report in Progress} \\
WU &= \text{Withdrawal Unauthorized}
\end{align*}
\]

I (Incomplete Authorized): An incomplete grade indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated.

An Incomplete must normally be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment (see definition under Definition of Terms section). Failure to complete the assigned work will result in an Incomplete being changed to an IC symbol, unless:

- the course was taken for Credit/No Credit (in which case the I is replaced by an NC), or
- the faculty member assigns a specific letter grade at the time the Incomplete is assigned (in which case that letter grade replaces the I in the student’s record at the end of the calendar year deadline), or
- the student graduates prior to the end of the calendar year deadline (in which case the I grade becomes permanent).
RP (Report in Progress): The RP symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Except for graduate degree theses and projects, work is to be completed within one calendar year immediately following the end of the term in which the RP was assigned. Failure to complete the coursework within the prescribed time period will result in the RP being changed to an F (or NC, if the class was taken for Credit/No Credit). In graduate thesis and project courses, the RP grade will not change to an F or NC until the student has exceeded the time-to-degree limit of the graduate program.

WU (Withdrawal Unauthorized): The symbol WU indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation this symbol is equivalent to an F.

The following administrative grading symbols are assigned by the Office of Registration and Records:

- **AU** Audit
- **IC** Incomplete Charged
- **RD** Report Delayed
- **W** Withdrawal
- **RP** Report in Progress
- **ICU** Incomplete Charged Unauthorized
- **AU** Audit
- **RD** Report Delayed
- **W** Withdrawal
- **SP** Satisfactory Progress
- **U** Unauthorized Incomplete

Before the 2002-2003 academic year, the following grading symbols were in use at Cal State San Marcos:

- **SP** Satisfactory Progress
- **U** Unauthorized Incomplete

These symbols are no longer in use, but will still appear on transcripts indicating coursework completed prior to the start of the fall 2002 semester.

SP (Satisfactory Progress): The SP symbol is used in connection with courses whose work extends beyond one academic term. It indicates that work is in progress and that has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Except for graduate degree theses and projects, work is to be completed within one calendar year immediately following the end of the term in which it was assigned. Failure to complete the additional work within the prescribed time period will result in the SP being changed to an F (or NC, if the class was taken for Credit/No Credit). In graduate thesis and project courses, the SP grade will not change to an F or NC until the student has exceeded the time-to-degree limit of the graduate program.

U (Unauthorized Incomplete): The symbol U indicates that an enrolled student did not officially withdraw from the course and failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities, or both, were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average, this symbol is equivalent to an F.
Grade Point Average

The grade point average (GPA) is a measure of academic scholarship and performance. The grade point average is computed by multiplying the number of units earned by the quality-point value of the grade assigned. The total quality points are then divided by the number of units attempted, subject to application of the Repeat of Undergraduate Courses policy described in this catalog.

A student’s overall GPA is based on the record of all baccalaureate-level or postbaccalaureate-level courses attempted by that student. A student’s institutional (or Cal State San Marcos) GPA is based on the record of all baccalaureate-level or postbaccalaureate-level courses attempted by that student at Cal State San Marcos. Some degree programs may require students to achieve a minimum GPA in courses applied toward major requirements, or a minimum grade in each of these courses.

Dean’s List Policy

To qualify for the undergraduate Dean’s List at the conclusion of a semester, the student must have completed a minimum of 12 units of graded Cal State San Marcos coursework (A, B, C, D, F) during that semester with at least a 3.50 grade point average.

Grade Changes

The University recognizes the prerogative of the faculty to set standards of performance and to apply them to individual students. The University will seek to correct injustices to students, but at the same time, believes that the instructor’s judgment at the time the original grade is assigned is better than a later reconsideration of an individual case. Equity to all students is of fundamental concern. The following policies apply to changes of grades, except for changes of Incomplete Authorized and Unauthorized Incomplete symbols.

1. In general, all course grades are final when filed by the instructor in the end-of-term course grade report. Students may obtain their grades through the SMART system. These grades become a part of the official record.
2. A change of grade may occur only in cases of clerical error or where the instructor reevaluates the original course assignments of a student and discovers an error in the original evaluation. A clerical error is an error made by the instructor or an assistant in calculating or recording the grade. A change of grade shall not occur as a consequence of the acceptance of additional work or re-examination beyond the specified course requirements.
3. A request for a change of grade shall be initiated by the student affected and shall be directed to the instructor. A student must initiate contact with the instructor during the first couple of weeks of classes of the regular semester following the award of the grade. If the instructor determines that there is a valid basis for the change, a Change of Grade form shall be used to notify the Office of Registration and Records. Forms are not to be handled by the student. If the instructor determines that there is not a valid basis for the change, and denies the student’s request, the instructor’s decision can be appealed to the instructor's Department Chair and then the appropriate College Dean. Meetings with the instructor of record, Department Chair and College Dean are considered a part of the informal resolution process in a grade appeal. If resolution is not met through these channels, the decision can be appealed to the Student Grade Appeal Committee in cases where the student believes a grade was issued on the basis of capricious or prejudicial treatment by the instructor. If a student decides to file a formal grade appeal, the grade appeal must be postmarked or stamped as received by the university no later than March 15 (for courses taken during the previous Fall semester) or October 15 (for Spring and Summer semesters).

Repeat of Courses and GPA Adjustment Policy for Undergraduates

When students repeat a course for the sake of improving upon an earlier unsatisfactory performance, they may, under certain circumstances, request to have their earlier grade ignored in the computation of their grade point average (GPA). The following policy, applying only to coursework completed at Cal State San Marcos, outlines the circumstances under which undergraduate students may request adjustment of the GPA.

1. If an undergraduate student has received a grade of C- (1.7) or less in a course, has repeated the course in a subsequent term, and has earned a better grade, then an Undergraduate Student GPA Adjustment Request Form may be submitted to the Enrollment Services Information Center. Any request confirmed as complying with this policy will be granted.
2. When a request is granted, one prior grade earned in the course is ignored for the purpose of calculating the GPA. However, all grades for a given course will be maintained as a part of the student record and will appear on the student’s transcripts.
3. A maximum of five (5) different requests may be filed by a student over the course of the undergraduate career. Only one request may be filed for any single course.
4. Since CR/NC grades do not enter into the GPA calculation, it is not necessary to submit this form when repeating a course in which a grade of NC was earned. If a course previously taken for a grade is repeated CR/NC, the original grade(s) will continue to be calculated in the GPA.
5. Unless the student submits an Undergraduate Student GPA Adjustment Request Form to the Enrollment Services Information Center before applying for graduation, all grades earned in repeated enrollments in the course will be used to calculate the student’s GPA.
6. A request may not be filed until the student has completed the repeat, and may not be filed if the student received a grade of CR, NC, F, I, RD, SP or U the last time that the course was repeated.
7. If a student wishes to repeat a course for the sake of filing a request, and the course is not scheduled to be offered during the student’s expected time to degree, then the program director (or designee) of the program offering the original course may approve substitution of a similar course to be repeated instead. If a course with variable topics is repeated, then with the pair of exceptions stated immediately below, the same topic (identified by specific course number and suffix) must be repeated in order to omit the earlier grade from the GPA calculation. If the topic has been converted to a new course, and is identified as such in the catalog description of the new course, then the new course may be taken to repeat the topic. If the same topic is not scheduled to be offered again within the term of the student’s expected time to degree, the program director (or designee) of the program offering the course may approve substitution of a similar topic offered under the same course number. The substitute course (or topic) must be taken after completion of the original course.

Disqualification
1. Undergraduate students on academic probation shall be subject to academic disqualification if:
   a. As a freshman (fewer than 30 semester units completed) they have an overall GPA or a cumulative Cal State San Marcos GPA below 2.0;
   b. As a sophomore (30-59 semester units completed) they have an overall GPA or a cumulative Cal State San Marcos GPA below 1.95.
   c. As a junior (60-89 semester units completed) they have an overall GPA or a cumulative Cal State San Marcos GPA below 1.70.
   d. As a senior (90 or more semester units completed) they have an overall GPA or a cumulative Cal State San Marcos GPA below 1.95.

2. Undergraduate students not on probation shall be subject to disqualification if at any time their cumulative grade point average falls below 1.00 (a grade of D) and if it is unlikely, in light of their overall education record, that the deficiency will be removed in a reasonable period.

Reinstatement
Students who have been disqualified, either academically or administratively, may petition their college for reinstatement. Reinstatement must be based upon evidence that the causes of previous low achievement have been removed. Reinstatement will be approved only if compelling evidence is provided, indicating their ability to complete the degree program.
Credit by Challenge Examination

A student may elect to receive credit for a course by challenge examination for any course approved by the academic discipline as a course eligible for challenge. The following restrictions and procedures apply:

- Students must register for a Credit-by-Challenge Examination by printing a form available on the Registration and Records website (http://www.csusm.edu/enroll/records.htm) and taking this to the Department Office of the department offering the course (COBA advisors for Business Administration courses) by the end of the fifth day of classes in the semester.
- Credit is recorded on the student transcript as awarded in the semester following the successful challenge of a course. Students challenging courses in the Spring Semester have the option of having the credit reported in either the Summer Session or the Fall Semester, but must specify on the form requesting the examination whether they want to have the credit recorded during the Summer session or the Fall semester. Students must pay all applicable University fees for the term in which the credit is reported on the transcript. The successfully challenged course is included in determining all fees, including the State University Fee.
- Examinations are scheduled to take place early each semester. Students will receive their results prior to the beginning of the Priority Registration period for the next term.
- Successful challenge of a course will result in a grade of Credit. Successfully challenged courses do not count against the limit on the number of courses that may be taken for a grade of Credit/No Credit and can be applied to major requirements with the approval of the major department.
- Credit by examination may not be used to fulfill the residency requirement. (Title 5, §40403)
- A student must demonstrate competency in writing skills as part of the challenge examination.
- Students may not challenge courses under the following circumstances:
  - Students may not challenge courses in which they are currently enrolled.
  - A student may not elect to challenge a course for which any grade (including “U”, “F”, “WU”, “IC”, “NC”, or “AU”) was received in a previous semester, for which academic renewal has been granted, or for which a prior challenge has been unsuccessful.
  - A student may not challenge a course that is listed in the catalog as a prerequisite for a course in which academic credit has already been granted.
  - Students who successfully complete the challenge exam for a course for which the challenge was prohibited (as detailed above) will not receive credit.
- Courses cannot be challenged to fulfill upper-division General Education requirements.

The following courses are approved for credit by challenge examination at the time of the catalog printing:
- ECON 201
- JAPN 102
- ECON 202
- JAPN 201
- GBM 425
- MKTG 302
- GRMN 101
- SPAN 101
- GRMN 102
- SPAN 102
- GRMN 201
- SPAN 201
- GRMN 202
- SPAN 301A
- JAPN 101
- SPAN 301B

Check http://www.csusm.edu/academic_programs/credit_by_challenge for any additions to this list.

Academic Renewal Policy

According to California State University policy, a student whose graduation will be delayed by a grade point average deficiency may petition to have up to two semesters or three quarters of previous college study (at any collegiate-level institution) disregarded from all considerations associated with requirements for the baccalaureate degree. All coursework attempted during the term(s) approved for academic renewal will be disregarded in computing the student’s cumulative GPA. In addition, any coursework successfully completed during term(s) approved for academic renewal will no longer count toward fulfillment of any degree requirements. Students may not selectively eliminate coursework. When such action is taken, the student’s permanent academic record is annotated to show the adjusted grade point average, but all coursework will remain legible on transcripts.

Academic renewal is intended only to facilitate graduation from Cal State San Marcos. It does not apply to individuals who already possess a baccalaureate degree or who are able to meet graduation requirements in a timely manner without the approval of a petition for academic renewal.

To qualify for academic renewal, a student must meet all of the following conditions:

- At least five years must have elapsed since the term or terms to be disregarded.
- Since the most recent work to be disregarded, the student must have achieved the following academic record at Cal State San Marcos:
  - at least 15 semester units with a GPA of 3.00 or higher
  - at least 30 semester units with a GPA of 2.50 or higher
  - at least 45 semester units with a GPA of 2.00 or higher
• The student must present an academic record that clearly indicates the coursework to be disregarded is not representative of the student’s current academic ability and achievement.

• The student must present evidence that if the petition is not approved the student will be required to enroll in additional coursework involving one or more additional terms to qualify for the degree.

Petitions for academic renewal may be obtained in the Office of Registration and Records. Final decisions on petitions are made by a review committee, consisting of two faculty representatives and the Assistant Vice President of Enrollment Management.

Administer Academic Disqualification

An undergraduate or graduate student may also be placed on probation or may be disqualified by the Associate Vice President for Enrollment Management Services for unsatisfactory scholastic progress, regardless of cumulative grade point average or progress points. Such actions shall be limited to unsatisfactory scholastic progress arising from repeated withdrawal, failure to progress toward an educational objective, and noncompliance with an academic requirement, and shall be consistent with guidelines issued by the Chancellor of The California State University.

Graduation with Honors

Undergraduate students who complete their first undergraduate degree requirements at Cal State San Marcos with exceptional scholastic averages will be eligible for bachelor’s degrees with Latin Honors. The following criteria are required for graduation with honors:

- Cum laude 3.50 – 3.69
- Magna cum laude 3.70 – 3.89
- Summa cum laude 3.90 – 4.00

The University transcript includes two grade point averages. The overall GPA is based on all coursework attempted, including transferable courses from other institutions. The institutional GPA is based on Cal State San Marcos courses only. The grade point average used to determine graduation with honors is the lower of the two. Recognition at commencement is based on coursework completed before the semester of the commencement ceremony. If a student’s record qualifies for graduation with honors based on grades earned during the semester of commencement, the honors designation will be included on the student’s diploma and official University transcripts.

Incomplete Grades for Graduating Students

If it is possible for a student to graduate with an “I” grade in a course because that course is not required for graduation, and if the student has sufficient credit units to graduate without the course, the “I” grade becomes permanent. No further action will be taken to alter the student’s record for purposes of that degree.

Sealed Academic Record

After a student has graduated, the academic record is sealed and no further changes, additions, adjustments, or deletions will be considered other than corrections of data-entry errors. Students are advised to verify all appropriate grade changes, g.p.a. adjustments, and academic renewal petitions, have been filed and processed prior to applying for graduation.

Other Academic Policies

Academic Freedom

Education depends upon the free expression and exchange of ideas in the search for truth. Academic freedom is the freedom to express any view, popular or unpopular, and to defend that point of view in open exchange. The University supports freedom of speech, inquiry, and expression for all members of its faculty, students, and staff in both curricular and co-curricular activities. All members of the Cal State San Marcos faculty shall have full academic freedom, and the University endorses the general principles of academic freedom outlined in the AAUP Statement (1940) of Principles of Academic Freedom and Tenure.

The principles of academic freedom require their application to both teaching and research. Research cannot fulfill its fundamental purpose of advancing knowledge unless it is done in an environment supportive of academic freedom. Academic freedom is essential to the classroom, as a protection of the rights of the teacher and of the student. All those engaged in research are entitled to full freedom in research and in the publication of results, legal requirements, and recognized standards of their profession. Teachers are entitled to freedom in the classroom in presenting material related to the content of the course, but shall refrain from insisting that students or others accept any controversial point of view as authoritative.

Cal State San Marcos members have the right to speak and write as citizens in any forum, free from institutional censorship or discipline. However, they should apply the best standards of their profession and make every effort to indicate that they are speaking as individuals and not as representatives of the University. As members of the academic community, they should also remember that freedom of expression and thought equally carry with them certain duties and obligations. Academic freedom does not extend, for example, to any kind of abuse or infringement of the rights of others. Academic freedom focuses on the obligation to ask difficult and meaningful questions and to pursue the truths of those inquiries wherever the pursuit of truth leads. Academic freedom must not be trivialized nor equated with other freedoms of expression important and constitutionally guaranteed.

Academic Honesty

Each student shall maintain academic honesty in the conduct of his or her studies and other learning activities at CSUSM. The integrity of this academic institution, and the quality of the education provided in its degree programs, are based on the principle of academic honesty.
The maintenance of academic integrity and quality education is the responsibility of each student within this university and the California State University System. Cheating and plagiarism in connection with an academic program at a campus is listed in Section 41301, Title 5, California Code of Regulations, as an offense for which a student may be expelled, suspended, put on probation, or given a less severe disciplinary sanction.

I. Student Responsibilities

A. Students are responsible for knowing and understanding the rules of Academic Honesty as outlined in the university catalog, to include fabricating information and data, cheating, facilitating academic dishonesty, and plagiarizing.

B. Students are responsible for communicating with the professor if they do not understand how the policy applies to a particular class or assignment. Students are responsible for utilizing the library resources (e.g., the plagiarism tutorial, consulting a librarian, or referring to a style guide) on academic honesty and plagiarism to fully understand the differences between a citation, giving credit, original writing, and plagiarism.

II. Student Sanctions

Student sanctions, imposed by the Dean of Students, for violations to the academic honesty policy can include any of the following:

(a) Warning
(b) Probation of Student
(c) Suspension
(d) Expulsion

III. Definitions

Academic dishonesty is an especially serious offense. It diminishes the quality of scholarship and defrauds those who depend upon the integrity of the campus programs. Such dishonesty includes the following

A. Cheating: Using or attempting to use unauthorized materials, information, or study aids in any academic exercise.

Guidelines:

1. Faculty members are strongly encouraged to make every reasonable effort to foster honest academic conduct. This includes adequate communication of expectations about what kinds of collaboration are acceptable within the course. Instructors should state in course syllabi their policies and procedures concerning examinations and other academic exercises as well as the use before examinations of shared study aids, examination files, and other related materials and forms of assistance.

2. Students completing any examination should assume that external assistance (e.g., books, notes, calculators, conversation with others) is prohibited unless specifically authorized by the instructor.

3. Students must not allow others to conduct research or prepare any work for them without advance authorization from the instructor. This comment includes, but is not limited to, the services of commercial term paper companies.

4. Students who are required to do a paper in a course should assume that submitting the same or similar paper to different courses (regardless of whether it is in the same semester or in different semesters) is not permitted without the explicit permission of the instructors of both courses.

B. Fabrication: Falsification or invention of any information or citation in an academic exercise.

Guidelines:

1. “Invented” information may not be used in any laboratory experiment or other academic exercise without notice to and authorization from the instructor. It would be improper, for example, to analyze one sample in an experiment and covertly “invent” data based on the single experiment for several more required analyses.

2. One must use/acknowledge the actual source from which cited information was obtained. For example, a student may not reproduce sections from a book review and indicate that the section was obtained from the book itself.

3. Students who attempt to alter and resubmit returned academic work with intent to defraud the faculty member will be in violation of this section. For example, a student may not change an answer on a returned exam and then claim that they deserve additional credit.

C. Facilitating Academic Dishonesty: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.

Guidelines:

1. For example, a student who knowingly allowed copying from his or her paper during an examination would be in violation of this section.

2. Providing information about the contents of an examination to a student who will later take the examination, or taking an examination on behalf of another student, are violations of academic honesty.

D. Plagiarism: Intentionally or knowingly representing the words, ideas, or work of another as one’s own in any academic exercise, including:

(a) the act of incorporating the ideas, words, sentences, paragraphs, or parts thereof, or the specific substance of another’s work, without giving appropriate credit, and representing the product as one’s own work;

(b) the act of putting one’s name as an author on a group project to which no contribution was actually made; and

(c) representing another’s artistic/scholarly works such as musical compositions, computer programs, photographs, paintings, drawings, sculptures, or similar works as one’s own.

Guidelines:

1. Direct Quotation: Every direct quote must be identified by quotation marks, or by appropriate indentation or by other means of identification, and must be properly cited with author(s) name(s), year of publication, page number(s), footnotes and/or endnotes, depending on the citation style used. Proper citation style for academic writing is outlined by such manuals as the MLA handbook for writers of research papers, APA: Publication manual of the American Psychological...
paraphrase: Prompt acknowledgment is required when material from another source is paraphrased or summarized in whole or in part in one’s own words. To acknowledge a paraphrase properly, one might state: “to paraphrase Locke’s comment…” and conclude with a citation identifying the exact reference. A citation acknowledging only a directly quoted statement does not suffice to notify the reader of any preceding or succeeding paraphrased material.

3. Borrowed Facts or Information: Information obtained in one’s reading or research which is not common knowledge among students in the course must be acknowledged. Examples of common knowledge might include the names of leaders of prominent nations, basic scientific laws, etc.

4. Material which contributes only to the student’s general understanding of the subject may be acknowledged in the bibliography and need not be immediately cited. One citation is usually sufficient to acknowledge indebtedness when a number of connected sentences in the paper draw their special information from one source. When direct quotations are used, however, quotation format must be used and prompt acknowledgment is required. Inquiries and assistance in reporting student misconduct is available through the Office of the Dean of Students, Coordinator, University Student Conduct.

Course Syllabi
Course expectations and requirements will be communicated in the course syllabus, which will be made available to students no later than the first class meeting, and which will be placed on file in the program/department office and/or the Dean’s office, by the fourth week of classes. Each syllabus will also contain a statement on the instructor’s scheduled office hours.

Final Examinations
Student achievement shall be evaluated in all courses. Students shall be fully informed of the manner of their evaluations as well as the requirements and major assignments within the first three weeks of each semester. One method of summative evaluation is a final examination. If a final is given, it must be held at the time scheduled by the University, unless it is a take-home exam, in which case it shall be due no earlier than the day and time scheduled for the final exam for the class. Once established, the scheduled day and time for a final exam may not be changed unless approved by the dean of the college. No make-up final examination will be given except for reason of illness or other verified emergency. An instructor may not shorten the academic semester by scheduling an in-class final exam in lieu of a final exam before the week scheduled for the final. The dean of each college shall be responsible for ensuring that this policy is followed.

Privacy Rights of Students in Education Records (FERPA)
The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus, and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student.

CSUSM defines the following items as directory information:

- Student’s name
- Assigned university e-mail address
- Major field of study
- Dates of attendance
- Full-time or part-time status
- Degrees, awards, and honors received
- Dates degrees conferred

Unless a student objects in writing, directory information as defined above, is subject to release at any time. Written objections should be sent to the Office of the Vice President for Student Affairs, Craven 5306, Cal State San Marcos, San Marcos, CA 92096-0001.
The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus' academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring). When information from a student's education record is disclosed, the recipient is obliged to maintain the confidentiality of the information received.

Student Conduct
§ 41301. Standards for Student Conduct
The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community must choose behaviors that contribute toward this end. Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

(a) STUDENT RESPONSIBILITIES
Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

(b) UNACCEPTABLE STUDENT BEHAVIORS
The following behavior is subject to disciplinary sanctions:

(1) Dishonesty, including:
(A) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
(B) Furnishing false information to a University official, faculty member, or campus office.
(C) Forgery, alteration, or misuse of a University document, key, or identification instrument.
(D) Misrepresenting oneself to be an authorized agent of the University or one of its auxiliaries.
(2) Unauthorized entry into, presence in, use of, or misuse of University property.
(3) Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.
(4) Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.
(5) Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.
(6) Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.
(7) Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
(8) Hazing, or conspiracy to haze, as defined in Education Code Sections 32050 and 32051:
“Hazing” includes any method of initiation or pre-initiation into a student organization, or any pastime or amusement engaged in with respect to such an organization which causes, or is likely to cause, bodily danger, physical harm, or personal degradation or disgrace resulting in physical or mental harm, to any student or other person attending any school, community college, college, university or other educational institution in this state; but the term “hazing” does not include customary athletic events or other similar contests or competitions.
(9) Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.
(10) Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.
(11) Theft of property or services from the University community, or misappropriation of University resources.
(12) Unauthorized destruction, or damage to University property or other property in the University community.
(13) Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.
(14) Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
(15) Misuse of computer facilities or resources, including:
(A) Unauthorized entry into a file, for any purpose.
(B) Unauthorized transfer of a file.
(C) Use of another's identification or password.
(D) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.
(E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.
(F) Use of computing facilities and resources to interfere with normal University operations.
(G) Use of computing facilities and resources in violation of copyright laws.
(H) Violation of a campus computer use policy.

(16) Violation of any published University policy, rule, regulation or presidential order.

(17) Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.

(18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.

(19) Violation of the Student Conduct Procedures, including:
  (A) Falsification, distortion, or misrepresentation of information related to a student discipline matter.
  (B) Disruption or interference with the orderly progress of a student discipline proceeding.
  (C) Initiation of a student discipline proceeding in bad faith.
  (D) Attempting to discourage another from participating in the student discipline matter.
  (E) Attempting to influence the impartiality of any participant in a student discipline matter.
  (F) Verbal or physical harassment or intimidation of any participant in a student discipline matter.
  (G) Failure to comply with the sanction(s) imposed under a student discipline proceeding.
  (20) Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

(c) PROCEDURES FOR ENFORCING THIS CODE

The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

GRADUATION REQUIREMENTS

Cal State San Marcos will make every effort to preserve the following graduation requirements for students subject to this catalog.

Degree Characteristics
California State University San Marcos offers two baccalaureate, or bachelor’s, degrees:

The Bachelor of Arts (B.A.) degree is designed to provide a balanced liberal arts education and general knowledge in a recognized discipline, interdisciplinary field, or in areas of professional study.

The Bachelor of Science (B.S.) degree is designed to provide a balanced liberal arts education and general knowledge in a recognized discipline, interdisciplinary field, or in areas of professional study.

Degree Requirements
To earn a bachelor’s degree, a student must:

- Complete enough units of coursework, the Unit Requirement (see immediately below);
- Complete the requirements for a major, Major Requirements (see below; a list of majors offered can be found on page 16 and 17);
- Complete all General Education Requirements (see page 85);
- Complete enough units at Cal State San Marcos, the Residence Requirements (see page 84),
- Maintain a sufficiently high grade point average, the Grade Point Average Requirements (see page 84),
- Complete the American Institutions and Ideals Requirements (see page 84),
- Complete the Graduation Writing Assessment Requirement and All-University Writing Requirement (see page 84),
- Complete the Language Other Than English Requirement (see page 84), and
- Complete the Computer Competency Requirement (see page 85).

Unit Requirement
Every baccalaureate degree requires completion of a minimum of 120 semester units. Some choices of majors will require more than 120 semester units; the descriptions of each major specify how many units are required.

At least forty (40) units shall be in upper-division credit and no more than seventy (70) units may be transferred from a community college.

Major Requirements
Every baccalaureate degree must include an approved major; see page 20 for a list of majors and whether they lead to a Bachelor of Arts or a Bachelor of Science degree. A major for a Bachelor of Arts degree must include at least twenty-four (24) units exclusive of units used to meet the General Education requirement and a major for a Bachelor of Science degree must include at least thirty-six (36) units exclusive of units used to meet the General Education requirement. For a Bachelor of Arts degree, at least twelve (12) units required in the major shall be upper-division courses, and for a Bachelor of Science degree, at least eighteen (18) units required for the major shall be upper-division. Most majors require more than these minima. Please refer to the descriptions of the majors in this catalog for specific major requirements.

Multiple Majors
It is possible for a student to complete more than one major within one degree (for example, a B.A.). Each major must consist of at least 24 semester units that are completely separate and distinct from the other majors’ requirements and General Education. To be recognized as graduating with multiple majors, a student must declare the additional major(s) with the appropriate discipline or program no later than the beginning of the student’s final year of study. The completion of additional majors within one degree will be noted at the time of graduation by appropriate entries on the student’s transcript and on the diploma.

It is also possible for a student to complete a major in one degree concurrently with additional majors from a different degree (for example, a major in a B.S. concurrently with an additional major from a B.A.). Each major must consist of at least 24 semester units that are completely separate and distinct from the other majors’ requirements and General Education. By declaring which major is the primary major (for example, Biochemistry) the student also declares which degree he or she will receive (in this case, a B.S.). Students must make this declaration no later than the beginning of the student’s final year of study, and that degree’s major will be noted at the time of graduation by appropriate entries on the student’s transcript and on the diploma. Majors within the other degree will be noted only on the student’s transcript.

The University does not award two degrees for multiple majors that are completed concurrently.

Minors
An undergraduate student may elect to complete one or more minors; this is not a degree requirement. Each subsequent minor must contain twelve units beyond those used for major requirements and other minors. Students may not declare or receive a minor in the same subject as the major, and the major and the minor may not have the same title. Unless the description of the major(s) and minor contain additional stated restrictions, there is no restriction on double-counting units in the major(s) and the first minor that a student declares. Minors are awarded only as part of a baccalaureate degree. The completion of a minor will be noted on the student transcript, but not on the diploma.

Certificates
Colleges and academic programs within Cal State San Marcos grant certificates to individuals who complete courses that enhance major requirements or credential programs. Students who complete the requirements for a special certificate are granted a certificate by the issuing college or department. The completion of a certificate is noted on a diploma; the university acknowledges the completion of a certificate by recording it on a student’s transcript.
Residence Requirements
A minimum of thirty (30) units must be completed in residence at Cal State San Marcos, of which twenty-four (24) units must be upper-division and twelve (12) of these must be in the major. Credit by examination and transfer credit do not fulfill the residency requirement.

Grade Point Average Requirements
The following three grade point averages, each 2.0 (C average) or higher, are required for graduation:

A. A cumulative grade point average, which includes both transferred and Cal State San Marcos coursework;
B. A Cal State San Marcos grade point average;
C. A grade point average in the major, at Cal State San Marcos and in coursework accepted as transfer credit for the major from other institutions.

U.S. History, Constitution, and American Ideals Requirement (GV)
California law (Section 40404 of Title 5, Education, of the California Code of Regulations) establishes as a graduation requirement that students demonstrate competence in the fields of American history and government, the Constitution of the United States, and the processes of state and local government as established in California. This requirement is embedded in the General Education Area, Area D requirement (See page 88).

Graduation Writing Assessment and All-University Writing Requirements
All CSU students must demonstrate competency in writing skills as a requirement for graduation. At Cal State San Marcos, students complete the graduation writing assessment through the All-University Writing Requirement. This requirement mandates that every course at the University must have a writing component of at least 2,500 words (approximately 10 pages). The All-University Writing Requirement can be achieved in a variety of ways, depending on the course.

Language Other Than English Requirement
Before graduating, Cal State San Marcos students must demonstrate proficiency in a language other than English in any one of the following ways:

• having completed the equivalent of an intermediate-level course in a language other than English at the college level, with a C grade or better;
• successfully challenging the equivalent of an intermediate-level courses in a language other than English at the college level;
• having successfully received a score of 3 or better on the Advanced Placement Foreign Language Examination.
• having been required to take the TOEFL as a condition for admission into the University;
• demonstrating Stage 3 proficiency level according to the latest American Council on the Teaching of Foreign Languages (ACTFL) guidelines.

Notice to Transfer Students.
Transfer students who have subject-area certification for the lower-division Area D CSU General Education-Breadth Requirement in Area D (Social Sciences) and who have completed the American Institutions and Ideals Requirement, must complete all Area D (Social Sciences) and the Upper-Division Social Sciences (DD) requirement.

Transfer students who have subject-area certification for the lower-division Area D CSU General Education-Breadth Requirement in Area D (Social Sciences) but who have not completed the American Institutions and Ideals Requirement, only need to complete the Upper-Division Social Sciences (DD) requirement.

Transfer students who do not have subject-area certification for the lower-division Area D CSU General Education-Breadth Requirement in Area D (Social Sciences) but who have completed the American Institutions and Ideals Requirement with the equivalent of less than six semester units of coursework, must complete the Interdisciplinary Social Sciences Requirement (D7) and the Upper-Division Social Sciences (DD). These students must take two courses to satisfy the Discipline-Specific or Second Interdisciplinary Social Sciences Course Requirement (D). See an advisor to determine whether the D7 and/or D requirements are met by any courses taken at another institution.

Transfer students who do not have subject-area certification for the lower-division Area D CSU General Education-Breadth Requirement in Area D (Social Sciences) and who have not completed the American Institutions and Ideals Requirement, must complete all Area D requirements described below. See an advisor to determine whether any of these requirements are met by any courses taken at another institution.

Certain courses used to meet this requirement may be used to partially satisfy three (3) units of the lower-division General Education requirement in the Arts and Humanities area.

CSUSM accepts American Sign Language (ASL) in fulfillment of this requirement, but does not accept computer languages.

Students are encouraged to contact the Language Proficiency Assessor at (760) 750-4197 regarding any questions about the requirement or to arrange for proficiency testing. Some of your questions about testing might also be answered by viewing our web site: http://www.csusm/iits/CCR/

A fee is required for proficiency testing. Please see page 31 for fee information.
Computer Competency Requirement (CCR)
The purpose of this requirement is to ensure that students are competent in the basics of computer use early in their studies. The "basics" comprise the following areas:

- browsing the internet and e-mail,
- basic word processing skills,
- basic spreadsheet skills, and
- virus detection and computer ethics.

The Computer Competency Requirement must be fulfilled in the first or second semester of attendance as a matriculated student at Cal State San Marcos. After the second semester, registering for any further classes at Cal State San Marcos will be restricted until the Computer Competency Requirement is fulfilled.

Students fulfill the Computer Competency Requirement by passing the CCR exam. There is no cost for taking the exam, and study materials are available on-line. The CCR exam tests students’ competencies in the four areas listed above. Students pass the CCR exam and fulfill the Computer Competency Requirement by achieving a passing score in each area. Students may take the CCR exam multiple times until all of the modules are passed. Students only need to retake the failed modules; once a module is passed, a student need not retake it. The CCR exam is offered throughout the year. The exam takes approximately two-to-three hours to complete. Exam schedules and meeting places will be posted on the CCR web site: www.csusm.edu/iits/CCR.

Students who are certain that they cannot pass the CCR exam may register for CS 100. This 1 unit, CR/NC course will provide instruction for each of the modules on the CCR exam. Students who have already passed the CCR exam may not register and receive credit for CS 100.

Any questions regarding the CCR should be directed to the Computer Competency Requirement Coordinator at (760) 750-4788.

GENERAL EDUCATION REQUIREMENT
The General Education requirement is composed of fifty-one (51) units distributed in five areas of study. The required disciplinary and interdisciplinary courses reflect the values embodied in the University’s Mission Statement. The program provides education and training in the basic skills, information, knowledge, and attitudes that citizens require to make wise, informed, just, critical and moral decisions throughout their lives.

The General Education Program emphasizes:

- Effective skills in written and oral communication
- Practice in critical thinking
- Close contact with faculty
- Information literacy
- Use of technology
- Active learning

The program is supported by comprehensive advising services and learning assistance services.

The nine (9) required units of upper-division General Education provide an opportunity for students to learn about areas of study outside their academic major. Upper-division General Education courses assume satisfaction of lower-division General Education requirements and develop upper-division skills. Designed for non-majors, these courses make explicit the basic assumptions, principles and methods of the disciplinary or interdisciplinary area of study. These courses help students understand how disciplines, ideas, issues and knowledge are often interrelated, intersecting and interconnected. They also provide students with a classroom environment that fosters independent, active, engaged learning and a genuine curiosity about the subject matter. The nine units of upper-division General Education must be completed at Cal State San Marcos and may not be applied toward major requirements (except for Liberal Studies majors, who may include these units in their major program).
Area A: Basic Skills

Nine (9) units in basic skills distributed as follows.

A1 ORAL COMMUNICATION.

Students will gain an understanding of the psychological bases and the social significance of communication, with special emphasis on the roles of public communication in a free society. They will develop proficiency in composing and delivering extemporaneous public presentations on socially significant and intellectually challenging topics, and in critical and analytical listening. Students will understand and appreciate a range of public speaking styles and forms of eloquence representative of diverse cultural gender, and ethnic groups. Each student will develop a sense of the ethical responsibilities of the public speaker, will learn to respect the freedom of expression of all members of the community, and will develop a sense of his or her own voice—which means speaking with confidence in public forums in ways that reflect her or his unique perspective and identity.

- GEO 102 (3 units)

A2 WRITTEN COMMUNICATION.

Each student will develop a writing style that is clear and correct, and will be able to give form and coherence to complex ideas and feelings. Students will gain an understanding of the writing process and the goals, dynamics, and genres of written communication, with special attention to the nature of writing at the university. They will understand and appreciate a range of writing styles and forms of eloquence. They will develop their rhetorical sophistication, their analytical and imaginative faculties, and college-level reading abilities.

- GEW 101 (3 units)

A3 CRITICAL THINKING.

Students will learn logic and reasoning, understand sound argument, and appreciate the value of applying these skills. They will know how language is related to logic, how to analyze the validity of a statement or argument, and how valid arguments can be constructed. Students will develop the critical habits of being open-minded and impartial, suspending judgment or taking a stance when warranted, and questioning their own views. They will recognize that real world problems are complex and not solved with one simple answer. They will be able to transfer their critical thinking skills to new situations in other courses and in their everyday lives.

- Three (3) units. Select among:
  - MATH 110
  - PHIL 110
  - PSYC 110

Area B: Mathematics and Natural Sciences

A minimum of twelve (12) units in mathematics and science, distributed as follows.

B1 PHYSICAL SCIENCE.

This requirement, together with the B2 requirement below, provides students with a coherent and broad-based coverage of the fundamental principles governing the natural world. Students will use experimentation, logical reasoning and mathematics to extend these principles to new situations and applications. They will learn the ways in which science influences and is influenced by societies in both the past and the present, and they will become empowered to communicate effectively to others about scientific principles and their application to real-world problems.

- One course (3-5 units). Select from the courses below:
  - GES 100
  - GES 101
  - GES 105

The following B1 courses are intended primarily for non-science majors:

GES 102
GES 103

The following B1 courses are intended primarily for science majors:

CHEM 150*
PHYS 201*

B2 LIFE SCIENCE.

This requirement, together with the B1 requirement above, provides students with a coherent and broad-based coverage of the fundamental principles governing the natural world. Students will use experimentation, logical reasoning and mathematics to extend these principles to new situations and applications. They will learn the ways in which science influences and is influenced by societies in both the past and the present, and they will become empowered to communicate effectively to others about scientific principles and their application to real-world problems.

- One course (3-5 units). Select from among:
  - BIOL 211*

*Biological sciences, biochemistry and biotechnology majors must take CHEM 150 and BIOL 211; computer science, chemistry, and mathematics majors must take PHYS 201.

**Biological sciences, biochemistry, biotechnology, business administration, chemistry, computer science, mathematics, and students with appropriate background in mathematics are encouraged to select from these courses. Students should consult with their advisor to determine which courses are appropriate for their degree program.
B3 Laboratory.

All students must take at least one General Education science course with a laboratory. The following courses satisfy either the B1 (Physical Science) or B2 (Life Science) requirements, and contain a laboratory experience that satisfies the B3 requirement:

- BIOL 211
- CHEM 150
- GES 101
- GES 102
- PHYS 201

B4 Mathematics/Quantitative Reasoning.

Students will learn a variety of methods, such as the use of abstract symbols, numeric techniques, logical reasoning, and geometry. They will learn to use mathematical language and formal reasoning in a variety of diverse disciplines, using a broad range of examples. Students will gain historical perspective on the role which the mathematical approach has played in the development of human knowledge and of our understanding of the world. Students must clear the ELM requirement prior to enrollment in these classes.

- One course (3-5 units). Select from among:
  - CS 111**
  - GEM 100
  - MATH 115, 125, 132**, 160**, 162**, 212, 260**

** Biology and chemistry majors must take CHEM 150 and BIOL 211; computer science and chemistry majors must take PHYS 201.

** Biological sciences, business administration, chemistry, computer science, mathematics, and students with appropriate background in mathematics are encouraged to select from these courses. Students should consult with their advisor to determine which courses are appropriate for their degree program.

BB Upper-Division Science and/or Mathematics.

Students will use reasoning skills characteristic of common scientific and mathematical practice to do one or more of the following: to solve problems, to interpret observations, to make predictions, to design experiments for the testing of hypotheses, or to prove theorems. Through a balanced picture of past successes and current uncertainties in science or mathematics, they will come to understand the cumulative, historical nature of the development of science and mathematics. The specific scientific or mathematical content of these courses can be useful to students, not only as "examples" of scientific or mathematical methods, but as knowledge which can enhance their lives outside the classroom or their studies in other subjects.

Courses satisfying this requirement will be identified in the Class Schedule.

To count toward satisfaction of the BB requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program and may not be double-counted in the student's major.

Area C: Arts and Humanities

Twelve (12) units in the arts and humanities, distributed as follows.

Students will be expected both to analyze and to create. Within these courses, they will develop habits of analytical rigor, and they will explore their own creativity in an active fashion. Students will appreciate the interrelationship of the intellect and the emotions, of mind and heart, and will explore the aesthetic, metaphysical and ethical linkages, as well as differences, among individuals and among cultures. By perceiving, understanding and valuing the ideas, works of arts, philosophies and approaches to spirituality that represent the broad spectrum of men and women across the ages and in diverse cultures, students will explore the meaning of community from a personal and a global perspective, grow towards an understanding of global justice, develop the foundation for making wise personal choices and for transforming one's world, and nurture personal freedom, expression and responsibility. They will integrate their knowledge and make connections across disciplines.

All Students must take one course in each of the four areas: C1, C2, C and CC.
C1: ARTS
- Select one course from:
  AH 111
  DNCE 101
  FMST 100
  MUSC 120
  TA 120
  VPA 101
  VSAR 102, 110, 120, 222

C2: HUMANITIES
- Select one course from:
  AH 111
  HIST 201, 202
  LTWR 100, 105, 107, 206, 208A, 208B, 210
  VSAR 130

C: ARTS AND/OR HUMANITIES
Select an additional course from C1 or C2 above, or select one from the following disciplines:
DNCE, MUSC, TA, VPA, VSAR, HIST, HUM, FREN, GRMN, JAPN, SPAN, LTWR, PHIL or any approved upper-division arts and/or humanities (CC) course. Exceptions: Courses in the same subject area as the courses taken to satisfy the C1 and C2 requirements, independent study courses, internship courses, approved American history D6 courses, approved upper-division science and/or mathematics (BB) courses, and approved upper-division social sciences (DD) courses.

Note that completion of a single course can be counted toward only one of the requirements (C1, C2, C and CC), but AH 111 may be repeated to satisfy both the C1 and C2 requirements.

CC UPPER-DIVISION ARTS AND/OR HUMANITIES
Students will examine aesthetic, metaphysical, or ethical manifestations of the human intellect and imagination in diverse historical and cultural contexts. They will cultivate the cognitive and affective aspects of their minds through critical analysis or creative activity. Through a balanced picture of past and present approaches to spirituality, the arts, philosophy, or intellectual thought, these courses will enhance studies in other areas or the student’s life outside of the classroom.

Courses satisfying this requirement will be identified in the Class Schedule.

To count toward satisfaction of the CC requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program and may not be double-counted in the student’s major.

Area D: Social Sciences
Fifteen (15) units of social sciences distributed as follows:
American Institutions and Ideals
- Dh U.S. HISTORY
- Dc U.S. CONSTITUTION
- Dg CALIFORNIA GOVERNMENT

Through a comprehensive study of American history and the development of American institutions and ideals, students will acquire knowledge and skills that will help them comprehend the workings of American democracy and the society in which they live. Students will engage in comprehensive study of American government including the historical development of American institutions and ideals, the Constitution of the United States and the operation of representative democratic government under that Constitution, and the processes of state and local government. The knowledge and skills they acquire will enable them to contribute to society as responsible and constructive citizens.

Two courses (6 units)
HIST 130 (Dh) or HIST 131 (Dh)
PSCI 100* (Dc, Dg)

*Students transferring from other accredited institutions who have completed a course on United States government and the Constitution of the United States may replace PSCI 100 with a course on California state and local government: PSCI 415 (Dg) or HIST 347 (Dg).
D7 Interdisciplinary Social Sciences

Students will be able to identify the methods of inquiry for more than one social science discipline, summarize how the social science disciplines examined in these courses are inextricably interwoven, and explain the usefulness of an interdisciplinary approach for studying social phenomena and issues. They will be able to describe historical and contemporary perspectives of social issues and problems, and acknowledge both western and non-western contributions to current social issues and problems. Students will be able to demonstrate how and why race, class and gender are among the most important categories of social scientific analysis.

One course (3 units)
Select from among:
ANTH 200  PSYC 210
GESS 101  SOC 205
GESS 102  WMST 101
PSYC 140

D Discipline-Specific or Second Interdisciplinary Social Sciences Course

Students will be able to identify the prevailing principles and methods of social science in at least one discipline, and explain the usefulness of a disciplinary or interdisciplinary perspective and field of knowledge for social issues and problems. They will be able to describe historical and contemporary perspectives of social issues and problems, and acknowledge both western and non-western contributions to current social issues and problems. Students will be able to demonstrate how and why race, class and gender are among the most important categories of social scientific analysis.

One course (3 units)^
Select from among:
ANTH 200  PSCI 100
ECON 202  PSYC 100
GEOG 201  PSYC 140
GESS 101  PSYC 210
GESS 102  SOC 101
HIST 130  SOC 205
HIST 131  WMST 101

Courses used to satisfy this requirement may not be double-counted in any other category of the GE program.

^ Certain transfer students may be required to take two courses from this category. Check the Notice to Transfer Students at the beginning of Area D.

DD Upper-Division Social Sciences

Students will be able to analyze problems using social scientific reasoning, and/or understand the historical or social context of major political, intellectual, economic, scientific, technological, or cultural developments. They will explore how gender, ethnicity, class, regional identities, and global identities affect society and culture. The material in these courses helps students to recognize the value of multidisciplinary explorations.

To count toward satisfaction of the DD requirement, a course cannot be taken before the term in which a student attains upper-division status (completion of 60 semester units). Courses used to satisfy this requirement may not be double-counted in any other category of the GE program and may not be double-counted in the student’s major.

Area E: Lifelong Learning and Information Literacy

Students will be equipped for lifelong understanding and development of themselves as integrated physiological and psychological entities, in courses taught within the context of the modern library.

• One course (3-4 units). Select from among:
  GEL 101, 200
  PSYC 104, 356
  SOC 203, 204, 303, 307, 309, 315, 317
  WMST 201, 330
GRADUATE STUDIES
Office of Research and Graduate Studies
Craven Hall 5210
(760) 750-4066
www.csusm.edu/graduate_studies

General Information
Graduate education is advanced study that goes substantially beyond the baccalaureate level in terms of specific content and academic rigor. Graduate study involves both greater independence and closer intellectual interaction with faculty mentors as the student develops focused knowledge and expertise in a subject area. The graduate student is expected to master advanced coursework as well as engage in independent study and research, scholarship, or creative activity.

The faculty who teach in graduate programs at Cal State San Marcos possess the appropriate terminal degree and experience needed to provide the advanced mentoring involved in graduate research, scholarship, and creative activity. In addition to the core graduate curriculum in each program, students are required to complete an appropriate culminating experience (thesis, project, or comprehensive examination).

A master’s degree from Cal State San Marcos prepares students for academic careers in higher education, including continued study at the doctoral level; or for advanced positions in business, industry, and the public sector.

Graduate Programs at Cal State San Marcos

Master Degrees:

- Biological Sciences, M.S.
- Business Administration, M.B.A.
- Computer Science, M.S.
- Education, M.A.
- Literacy Education Option
- Science, Mathematics and Educational Technology for Diverse Populations Option
- Teaching, Learning, and Leadership Option
- Special Education Option
- Literature and Writing Studies, M.A.
- Mathematics, M.S.
- Psychology, M.A.
- Sociological Practice, M.A.
- Spanish, M.A.

Admission Requirements for Graduate and Postbaccalaureate Students

Admission to the University
Graduate and post baccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:

General Requirements — The minimum requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with University regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations. In order to be admitted to Cal State San Marcos as either a Postbaccalaureate student or as a Graduate student, students must meet the following requirements:

1. have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
2. be in good academic standing at the last college or university attended;
3. have attained a grade point average of at least 2.5 (A = 4.0) in the last 60 semester (90 quarter) units attempted; and
4. satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as determined by each graduate program.

TOEFL Graduate and Postbaccalaureate Requirement
All graduate and postbaccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some programs require a higher score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Some programs may require a higher score.

Some CSU campuses may use alternative methods for assessing fluency in English.

Admission to the Department or Program
The applications of students meeting University requirements for admission and desiring admission to a master’s program must also be reviewed in the appropriate department, to determine whether the student meets requirements for admission to its particular program. Some programs may require a separate application in addition to the university application. Students who meet both departmental/program and university requirements for a master’s program will be admitted as either Graduate Conditionally Classified or Graduate Classified. Students seeking a teaching credential who meet both college and university requirements will be admitted as Classified Postbaccalaureate.

Students who meet the minimum requirements for graduate and postbaccalaureate studies will be considered for admission in one of the four following categories:

Postbaccalaureate Unclassified — To enroll in graduate courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the general requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments may restrict enrollment of unclassified students because of heavy enrollment pressure. Admission in this status does not constitute admission...
to, or assurance of consideration for admission to, any graduate degree or credential program; or

Postbaccalaureate Classified — If you wish to enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or

Graduate Conditionally Classified — You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation; or

Graduate Classified — To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

Graduate and Postbaccalaureate Application Procedures

All graduate and postbaccalaureate applicants (e.g., joint Ph.D. and Ed.D. applicants, master’s degree applicants, those seeking credentials, and those interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and postbaccalaureate admission materials at www.csumentor.edu. Applicants seeking a second bachelor’s degree should submit the undergraduate application for admission. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. To be assured of initial consideration by more than one campus, official transcripts (with certified English translations) must be submitted both to the Office of Admissions and the program office.

Graduate and postbaccalaureate applicants are encouraged to submit applications to the university during the initial filing periods (November for fall semester admission and August for spring semester admission). Graduate applicants to masters and credential programs must apply to both the University and the program intended. Individual masters and credential programs may have specific deadlines for program applications; check the relevant departmental catalog section for program deadlines. Official transcripts from each college or university attended must be filed with both the Office of Admissions and the program office.

Graduate and postbaccalaureate applicants are encouraged to submit applications to the university during the initial filing periods (November for fall semester admission and August for spring semester admission). Graduate applicants to masters and credential programs must apply to both the University and the program intended. Individual masters and credential programs may have specific deadlines for program applications; check the relevant departmental catalog section for program deadlines. Official transcripts from each college or university attended must be filed with both the Office of Admissions and the program office.

International Students

All applicants who wish to enter the United States on a student visa or who are in the U.S. on a non-immigrant, student visa must file a completed “International Student Application” accompanied by a financial affidavit with the Office of Admissions. An electronic version of this form is available on the Web at www.csusm.edu/uga/requestapp.htm. In addition, a department application form must be submitted directly to the graduate program. Official transcripts (with certified English translations) must be submitted both to the department and the Office of Admissions. For more information regarding International (Foreign) Student Admission Requirements, see page 22.

Special Regulations and Requirements for Graduate Students

Repeat of Graduate Courses and GPA Adjustment Policy

When students repeat a course for the sake of improving upon an earlier, unsatisfactory performance, they may, under certain circumstances, request to have the earlier grade ignored in the computation of their grade point average (GPA). The following policies, applying only to coursework completed at Cal State San Marcos, outline the circumstances under which undergraduate and graduate students may request adjustment of the GPA.

Graduate Student GPA Adjustment Policy

1. If a graduate student has received a grade of B- (2.7) or less (or NC) in a non-thesis course, then the course may be repeated once for purposes of satisfying requirements and/or having the GPA adjusted. Once the student has repeated the course in a subsequent term and earned a better grade, then a Graduate Student GPA Adjustment Request Form may be submitted to the Enrollment Services Information Center. All requests should be submitted in consultation with the graduate program advisor. Any request confirmed as complying with this policy will be granted.

2. When a request is granted, the prior grade earned in the course is ignored for the purpose of calculating the GPA. However, all grades for a given course will be maintained as a part of the student record and will appear on the student’s transcripts.

3. A maximum of two (2) different courses may be repeated; and a maximum of two (2) requests may be filed within an approved graduate plan of study at Cal State San Marcos. Only one request may be filed for any single course.
4. Since CR/NC grades do not enter into the GPA calculation, it is not necessary to submit this form when repeating a course in which a grade of NC was earned, even when the course was repeated to satisfy degree requirements. If a course previously taken for a grade is repeated CR/NC, the original grade will continue to be calculated in the GPA.

5. Unless the student submits a Graduate Student GPA Adjustment Request Form to the Enrollment Services Information Center, both grades earned in any repeated course will be used to calculate the student’s GPA.

6. A request may not be filed until the student has completed the repeat, and may not be filed if the student received a grade of CR, NC, F, I, RD, SP or U when the course was repeated.

7. The program director (or designee) of the graduate program offering the degree is authorized to approve substitute graduate-level courses that may be taken in lieu of a graduate-level course that the student wishes to repeat, when the original course is not scheduled to be offered again within the term of the student’s expected time to degree. The substitute course must be taken after completion of the original course.

Continuous Enrollment Requirement and Time-Limit To Degree

Conditionally Classified or Classified graduate students must be continuously enrolled unless an authorized Request for Graduate Student Leave of Absence has been filed with the Enrollment Services Information Center. No more than 12 months total can be excused through authorized leaves of absence. Students who do not maintain continuous enrollment are dropped from the graduate program and must reapply.

Requirements for the Master’s degree are to be finished within five years after the beginning of course work as a Conditionally Classified or Classified graduate student at Cal State San Marcos. Authorized leaves of absence do not extend the time limit for completion of the degree.

Graduate Student Leave of Absence

Graduate degree students may take an authorized leave of absence for a period of up to 12 consecutive months. Multiple leaves of absence may be taken, altogether totaling no more than twelve months. Leaves of absence will be authorized for conditionally classified or classified graduate students if they are in good academic standing (as defined by the program’s requirements), if they have completed at least six credit hours of CSUSM coursework toward the graduate degree in the program, and if they file a completed Graduate Student Request for Leave of Absence form. The completed form, including signature of the student’s faculty advisor (where applicable) and the graduate program coordinator, must be filed with the Enrollment Services Information Center before the beginning of the term for which the leave has been requested. Unauthorized leaves and failures to return from an authorized leave of absence will result in the student being dropped from the graduate program.

An authorized leave of absence preserves the election of curriculum rights regarding catalog requirements. However, authorized leaves of absence do not extend the time limit for completion of the degree. A student on a leave of absence does not qualify for supervision from faculty nor for the use of university resources such as the library, computer labs, parking, or student health services. Students submitting the completed thesis or final project must be regularly enrolled when enrolled in six (6) units during an academic term. Students submitting the completed thesis or final project must be regularly enrolled when enrolled in six (6) units during an academic term.

Use of Undergraduate Courses in Master's Degree Programs

Master’s students may not count any course at the 300-level or lower toward fulfillment of Master’s degree requirements, nor may courses which bear General Education credit be counted toward Master’s degree requirements.

Only with prior, case-by-case approval of the graduate program offering the degree may Master’s students, on an individual basis, count a 400-level, non-General Education course toward the Master’s degree requirements.

Under no circumstances may a Master’s student apply more than nine (9) units of 400-level coursework toward fulfillment of Master’s degree requirements.
Probation, Disqualification, and Reinstatement for Graduate Students

The following policies govern students enrolled with Graduate Standing: Conditionally Classified; Postbaccalaureate Standing: Classified; and Graduate Standing: Classified. Students enrolled with Postbaccalaureate Standing: Unclassified will be governed by the undergraduate policy on Academic Probation and Disqualification.

Probation

1. A student will be placed on academic probation if, during any academic term, the cumulative GPA in all course work in the master’s program falls below 3.0.

2. A student may also be placed on administrative probation by the Dean of Graduate Studies for any of the following reasons:
   a. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. (Note: A student whose withdrawal is directly associated with a chronic or recurring medical condition or its treatment is not to be subject to administrative probation for such withdrawal.)
   b. Repeated failure to progress toward an educational objective, when such failure appears to be due to circumstances within the control of the student.
   c. Failure to comply, after due notice, with an academic requirement or regulation, as defined by campus policy, which is routine for all students or a defined group of students (examples: failure to complete a required examination, failure to complete a required practicum, failure to comply with professional standards appropriate to the field of study, failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program).

3. A student who is placed on academic or administrative probation, must work with the program coordinator to develop a plan for remediation, including a timeline for completion.

4. A student on either academic or administrative probation cannot be advanced to candidacy or continue in candidate status.

Disqualification

1. A student who has been placed on probation may be disqualified from further attendance by the Dean of Graduate Studies if:
   a. The conditions in the remediation plan are not met within the period specified.
   b. The student becomes subject to academic probation while on administrative probation.
   c. The student becomes subject to administrative probation for the same or similar reason for which he/she has been placed on administrative probation previously, although not currently in such status.

2. Disqualification may be either from further registration in a particular program or from further enrollment at the campus, as determined by the Dean of Graduate Studies. A student disqualified for academic deficiency may not enroll in any regular session of the campus without permission from the appropriate campus authority, and may be denied admission to other educational programs operated or sponsored by the campus.

3. In the event that a student fails the thesis/project defense, the student may repeat the thesis/project defense once. Failure at the second thesis/project defense will result in disqualification from a program. The thesis/project committee will specify the time period and/or conditions of the repeated defense.

4. A student may repeat a comprehensive examination once. Failure of the second comprehensive examination results in disqualification from a program. The comprehensive exam committee will specify the time period and/or conditions of the repeated examination.

Reinstatement

A student who has been disqualified, either academically or administratively, may petition for reinstatement. Reinstatement must be based upon evidence that the causes of previous low achievement have been removed. Reinstatement will be approved only if the student is able to provide compelling evidence of the ability to complete the degree. If the candidate is disqualified a second time, reinstatement will normally not be considered.
MISSION STATEMENT

The College of Arts and Sciences is a scholarly community committed to providing comprehensive, high-quality education for students in a rapidly changing world. We provide a supportive teaching and learning environment where diversity is fundamental to the achievement of excellence. Integral to the College instructional mission is the generation of new knowledge through research and creative activity. We value disciplinary and interdisciplinary instruction that employs new technologies and integrates ideas across intellectual boundaries. The College is committed to mutually beneficial partnerships with local and global communities.

ABOUT THE COLLEGE

The College of Arts and Sciences at Cal State San Marcos is home to both traditional and contemporary academic disciplines in the liberal arts and sciences.

Complementing its strong academic discipline offerings, the College also offers students a General Education Program designed to broaden basic knowledge and skills.

In addition to undergraduate coursework, the College offers graduate studies in several disciplines. The curriculum of the College is crafted to weave its commitment to diversity, interdisciplinary study, international perspectives, technology, and community partnerships into the fabric of all of its academic programs.

The College faculty and staff are dedicated to excellence in teaching, research/creative efforts, and service.

Students can expect a supportive learning atmosphere to pursue their studies, often in small classes, which provides rich opportunities for interaction, discovery, and cooperative learning. The College encourages student learning across traditional academic disciplinary boundaries and active exploration of new teaching and learning strategies.

Graduates of the College are well-prepared for a variety of careers, or for graduate study leading to advanced academic and professional degrees. Our courses teach students how to write, to analyze, and to think creatively and critically. The College offers students the opportunity to master new technologies for application to a range of challenges. In addition, students develop language skills and cultural sensitivity designed to prepare them for life in a globally interdependent society.

**Note 1:** Courses for the BA in Criminology and Justice Studies, Minor in Criminology and Criminal Justice, and the MA in Sociological Practice are offered by the Sociology Department, and use the SOC course prefix.

**Note 2:** General Education courses are offered under several different course prefixes. See the description of the General Education Program, pages 85-89.

**Note 3:** An interdisciplinary degree program in which coursework for the major is taken in at least two different disciplines.

**Note 4:** See the BA degree program and the Minor in Visual and Performing Arts.

**Note 5:** An Interdisciplinary Minor in which coursework is taken in other areas.

**Note 6:** An option in the B.S. in Computer Science.
Academic Major Advising

Advising in the College of Arts and Sciences is provided by faculty who teach in each discipline. Each academic major may vary in how students are assigned to faculty advisors. Students should consult their Department/Program Chair regarding their particular field of study or refer to the following web site for faculty advising assignments:

http://www.csusm.edu/Academic_Advising/faculty_advisers.htm

Liberal Studies students are advised by professional staff advisors located in the General Advising Services Office. Liberal Studies students are encouraged to refer to the Liberal Studies advising web sites for major and advising services information at:

http://www.csusm.edu/liberalstudies/
http://www.csusm.edu/Academic_Advising/liberalstudies.htm

PRE-PROFESSIONAL PREPARATION

Pre-professional Planning

Careers in Health

Cal State San Marcos offers prerequisite courses for a variety of health careers including medicine, dentistry, chiropractic, nursing, physical therapy, pharmacy and other health professions.

Appropriate majors for students interested in health careers are available in both the College of Arts and Sciences and the College of Health and Human Services. Regardless of major, all pre-health students will need to complete a range of prerequisite courses in sciences and mathematics. Also, it is highly recommended that pre-health students complete courses in the humanities and behavioral sciences (e.g. sociology, psychology). Professional schools do vary with respect to the specific courses they expect applicants to have completed. It is the responsibility of the student to carefully check in advance the requirements of the specific professional schools to which you will be submitting an application. Students planning careers in other health professions may also use this list as a guide for selecting science and mathematics courses.

Recommended Science and Mathematics Courses for Pre-health Students

Biology (BIOL) 210, 211, 351, 352, 353
Chemistry (CHEM) 150, 201, 201L, 202, 202L, 250
Mathematics* (MATH) 160
Physics (PHYS) 101, 102 or PHYS 205, 206

The following is a menu of lower-division Cal State San Marcos science and mathematics courses recommended for pre-chiropractic, pre-dental, pre-medical, pre-optometry, pre-osteopathic, pre-pharmacy and pre-veterinary students. It may not be necessary to take all of the recommended courses listed below. Other courses not listed may also be required. Which courses you do complete will depend upon the health profession you have chosen and the prerequisites of the specific professional schools to which you will be submitting an application. Students planning careers in other health professions may also use this list as a guide for selecting science and mathematics courses.

Pre-law Advising

Cal State San Marcos offers various undergraduate courses to help students prepare for careers in law. Students interested in applying to law school should note that law schools do not require any particular majors or prerequisites. However, several departments at Cal State San Marcos offer undergraduate courses related to law. Students seeking advice on preparation for law schools should consult with their major faculty advisor. For more specific information on pre-law advising contact the Office of the Dean, College of Arts and Sciences at (760) 750-4200.

Teacher Preparation

Cal State San Marcos offers several state-approved Subject Matter Preparation Programs. Completion of a Subject Matter Preparation Program is, in some cases, one way to demonstrate the subject matter competency necessary for admission to a Teacher Credential Program. Single-Subject Matter Preparation Programs for potential junior high school and high school teachers are available in English (in Literature and Writing Studies), Mathematics, Social Science (in History) and Spanish. Students seeking to become elementary or middle school teachers may complete the Elementary Subject Matter Preparation Program with a Liberal Studies major, or may combine the Elementary Subject Matter Preparation Certificate with any other academic major. These programs explicitly address the various subject matters included in curricula of grades kindergarten through eight, and therefore, they provide excellent pathways to a career in teaching. Please see the Liberal Studies section of this catalog for more information, or visit the Liberal Studies web site at http://www.csusm.edu/liberalstudies/

*Students lacking the prerequisite for MATH 160 should consult an academic advisor as soon as possible to determine which prerequisite math courses they need to complete before enrolling in MATH 160.
MINOR IN ANTHROPOLOGY

Office:  
Craven Hall, Room 6125

Telephone:  
(760) 750-4124

Faculty:  
Bonnie Bade, Ph.D.

Program Offered:  
• Minor in Anthropology

The Anthropology Minor at Cal State San Marcos provides students with opportunities to engage in interdisciplinary and integrated studies of human nature, society, and culture. Employing the comparative, holistic, and evolutionary frameworks that are the hallmark of the anthropological perspective, the minor aims to provide students with theoretical and methodological perspectives that enable integrated understanding of human cultural achievements such as medicine, religion, mythology, migration, environmental adaptation, and technology. Rather than duplicating anthropology programs offered at other regional institutions that emphasize the four traditional subfields of anthropology – social/cultural anthropology, archeology, biological anthropology, and linguistic anthropology – the Anthropology Minor at Cal State San Marcos is unique in that it draws upon areas of specialization, such as medical anthropology, cultural ecology, Latin-American Studies, women’s studies, art, ethnic studies, and border studies, that reflect the strengths of Cal State San Marcos scholars. Emphasis is placed on achieving an understanding of human behavior as influenced by the social, political, economic, and cultural contexts in which it occurs. A fundamental goal of the minor is to provide students with opportunities to engage in active, community-based ethnographic research that stimulates self-reflection and critical analysis of their own world view assumptions and cultural belief systems.

A Bachelor of Arts degree with a major in Anthropology is under consideration at the time that this catalog is being printed. If approved, the requirements for this degree will be printed in the Catalog Addendum.

The minor prepares students for careers that require multicultural and culture-sensitive perspectives such as social services, health and medical services, education, and civil services, and provides a balanced foundation in anthropological concepts for students wishing to attend graduate school.

The Minor requires completion of twenty-one (21) units of credit, eighteen (18) of which must be at the upper-division level. Twelve (12) units must be completed at Cal State San Marcos, three (3) of which must be at the 400 level. Each course counted toward the minor must be completed with a grade of C (2.0) or better.

Preparation
High school graduates or equivalent are encouraged to seek diverse and broad exposure to all natural and behavioral sciences, social sciences, humanities, and interdisciplinary courses.

Transfer Students
Transfer students may transfer a maximum of nine (9) units, three (3) of which may be at the lower-division level.

Requirements

Lower-division (3) Units
Choose one of the following: 3
ANTH 200  ANTH 215

Upper-division (19) Units

ANTH 470  4

Fifteen (15) units selected from:

ANTH 301  3
ANTH 310  3
ANTH 325  3
ANTH 330  3
ANTH 370  3
ANTH 498  3
ANTH 499  3

Total Units 21
MINOR IN ART HISTORY

Office:
Arts Building, Third Floor

Telephone:
(760) 750-4137

VPA Department Chair:
William Bradbury, D.M.A.

Faculty:
David Avalos, M.F.A.
Kristine Diekman, M.F.A.
Judit Hersko, M.F.A.
Andrea Liss, Ph.D.
Deborah Small, M.F.A.

Program Offered:
• Minor in Art History
The Minor in Art History offers students a program of integrated study in modern and contemporary art history, visual culture and cultural theory. Students will become versed in approaches to art history and visual culture through perspectives that focus on the contributions of peoples whose art has not received the recognition and critical study that it deserves. Students will be introduced to the study of art history and visual culture through engaged viewing and critical study of visual art in class and outside of the classroom: in museums, artists’ studios and within the landscape and the everyday world (site-specific environmental artwork, and artists’ billboards, for example). The Art History Minor expands the traditional notion of art, and allows students to approach art actively as a form of social, political and personal expression, and as a catalyst for rethinking the traditions of art history itself.

Requirements
The Art History Minor consists of twenty-one (21) units of credit. All courses submitted for the Minor must be completed with a grade of C or better. Courses submitted for the Minor may also be used to fulfill General Education requirements. At least twelve (12) units of coursework submitted for the Minor must be completed at CSUSM. Visual and Performing Arts (VPA) majors may pursue this Minor if nine (9) units are mutually exclusive, i.e., not double-counted for the major and minor.

Units
Four courses from the following: 12
VSAR 120  VSAR 326
VSAR 222  VSAR 327
VSAR 307  VSAR 328
VSAR 320  VSAR 405
VSAR 322  VSAR 422
VSAR 323  VSAR 423

Two studio art courses from the following: 6
VSAR 293  VSAR 308
VSAR 302  VSAR 309
VSAR 303

One course in Dance, Music, or Theater Arts (studio or critical theory): 3

Total Units 21
MINOR IN ARTS AND TECHNOLOGY

Office:
Arts Building, Third Floor

Telephone:
(760) 750-4137

VPA Department Chair:
William Bradbury, D.M.A.

Faculty:
David Avalos, M.F.A.
William Bradbury, D.M.A.
Kristine Diekman, M.F.A.
Judit Hersko, M.F.A.
Andrea Liss, Ph.D.
Karen Schaffman, Ph.D.
Deborah Small, M.F.A.

Program Offered:
- Minor in Arts and Technology

The Minor in Arts and Technology combines practice and theory in digital art, internet art, web design, video, audio, multimedia and new media. It offers the student an introduction to computer-based art, design, sound and music through research and lab-based courses. The Minor encourages students to be experimental in their approach to computers and the arts.

Requirements

Note: Courses used to satisfy requirements of the Minor may also be used to fulfill General Education requirements. Students may apply up to nine units of transfer credit toward the Minor. Students must earn a grade of C or better in each course for the Minor. At least twelve (12) units of coursework submitted for the Minor must be completed at CSUSM. Visual and Performing Arts (VPA) majors may pursue this Minor if their VPA track is different from Arts and Technology and nine (9) units are mutually exclusive, i.e., not double-counted for the major and minor.

Units

Cultural, Historical, and Theoretical Studies 6
Choose two:
- VPA 101
- VSAR 405
- VSAR 102
- VSAR 422
- VSAR 222
- VSAR 423
- VSAR 328

Studio (introductory level) 6
Choose two:
- MUSC 302
- VSAR 303
- VSAR 302
- VSAR 305

Studio (Intermediate and Advanced) 9
Choose three:
- MUSC 304
- VSAR 312
- MUSC 402
- VSAR 403
- VSAR 304
- VSAR 404
- VSAR 306
- VSAR 406
- VSAR 309
- VSAR 440
- VSAR 311

Total Units 21
Programs Offered:

- Bachelor of Science in Biochemistry

CSU San Marcos offers a program of courses leading to a Bachelor of Science in Biochemistry. Biochemistry focuses on the atomic and molecular level principles of chemical reactions in living systems. It is involved with elucidating the structure and function of biological molecules that control the basic processes in living organisms. It therefore plays an important role in understanding the chemical causes of disease, the development of medicines to control and cure illnesses, and the development of safe food supplies. Biochemistry majors are needed to help solve some of society’s most difficult technological problems through research, development, and teaching.

Career Opportunities

The degree in Biochemistry prepares students to go into a variety of careers. Students are prepared for industrial careers in both the biotechnology and traditional drug development sector. In addition, the courses required for the degree meet the requirements for almost all medical, dental, optometry, pharmacy, veterinary, and other health-profession schools. The degree is also excellent preparation for graduate work in biochemistry or the biomedical sciences. Therefore, the completion of this degree program leaves the student with many possible career options. (Students wishing to pursue a career in a health profession should meet with the CSUSM pre-health advisor for specific requirements for professional schools in their area).

Since chemical principles are the basis for understanding biochemistry, each student will study the areas of organic, analytical, inorganic, and physical chemistry as well as biochemistry. In addition, students will learn to use the most recent technology in instrumentation. As an integral part of the program, each student is required to do a senior research project, thesis, and scientific presentation. This gives the individual student additional valuable first-hand experience in laboratory techniques that are useful to his/her career. An atmosphere of small class size, close faculty-student interaction, and new facilities and equipment are some other advantages of the biochemistry degree at CSU San Marcos.

Preparation

Up to five (5) units of chemistry credit can be applied toward a B.S. degree in Biochemistry at Cal State San Marcos for students who have successfully completed the Advanced Placement Test in chemistry with a score of 4 or 5. It is recommended that students with a score of 4 or 5 on the AP Test in chemistry consider auditing CHEM 150 during the fall semester in preparation for CHEM 201/201L. Students with a score of 3 on the AP Test in chemistry must consult with the CHEM 150 instructor to determine the appropriate beginning course or take CHEM 150.

Special Conditions for the Bachelor of Science in Biochemistry

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. Transfer students must complete a minimum of 24 hours counted toward the biochemistry major at CSUSM.
**BACHELOR OF SCIENCE IN BIOCHEMISTRY**

**Units**
- General Education* 51
- Preparation for the Major* 46
- Major Requirements 34-35
- The minimum number of units Required for this degree is 122

*Some (9) lower-division General Education units in area B are automatically satisfied by courses taken in Preparation for the Major.

- CHEM 201 & 202 6
- CHEM 201L & 202L 4
- CHEM 250 3
- CHEM 275 3

**Major Requirements**

Upper-division Biology (4-5 units)
- Choose one of the following courses:
  - BIOL 351 5
  - BIOL 355 4
  - BIOL 356 4

Upper-division Chemistry (27 units)
- CHEM 300 3
- CHEM 351 3
- CHEM 351L 2
- CHEM 352 3
- CHEM 401 3
- CHEM 404 3
- CHEM 404L 1
- CHEM 416 5
- CHEM 498 or 499 4

Upper-division Science elective (3 units)
- CHEM 398 1-2
- CHEM 399 1-2
- CHEM 402 3
- CHEM 405 1
- CHEM 490 3
- CHEM 491 3
- CHEM 492 3
- CHEM 493 3
- CHEM 494 3
- BIOL 351 5
- BIOL 352 4
- BIOL 353 4
- BIOL 355 4
- BIOL 356 4
- BIOL 367 4
- BIOL 398 3
- BIOL 370 4
- BIOL 374 3
- BIOL 375 3
- BIOL 376 3
- BIOL 377 3
- BIOL 497 4

Or another science course with written approval from a Chemistry or Biochemistry faculty member.

*Nine (9) lower-division General Education units in area B are automatically satisfied by courses taken in Preparation for the Major.

Programs Offered:  
- Bachelor of Science in Biological Sciences, Concentrations in:
  - Molecular Cell Biology and Biotechnology  
  - Ecology  
  - Physiology  
  - General Biology  
- Minor in Biological Sciences  
- Master of Science in Biological Sciences  
- Bachelor of Science in Biotechnology

Biology is the study of living processes from the interaction of species with each other and their environment to the operant molecular mechanisms. The Cal State San Marcos Biological Sciences Department presents a broad program of courses that deal with life on the ecosystem, population, organismal, and molecular levels. One common principle that extends throughout our curriculum is that biological processes should ultimately be biochemically explainable and mathematically describable. Life is a complicated series of chemical reactions and interactions, and we seek to understand the relationship of organisms to each other, to their environment, and within themselves in biochemical terms. Biological Sciences majors may choose between: 1) a general concentration, 2) a molecular cell biology and biotechnology concentration, or 3) an ecology concentration. The general concentration provides wide exposure to the range of biological sciences while the cell/molecular and ecology concentrations offer majors the opportunity to focus their studies. With appropriate choice of biological sciences electives and General Education electives, graduates can meet the requirements of admission to graduate, medical, dental, optometry, veterinary, and other professional schools.

Modern biological science has progressed from the purely analytical to now include manipulative capability. Recombinant DNA techniques enable the investigator to generate specified changes in components of organisms for the purpose of better understanding some process, and in some cases to introduce new traits that will be of practical usefulness to society. The Cal State San Marcos program in biological sciences exposes students to cloning techniques, illustrates the techniques involved as part of the student’s general education, and trains students for research positions.

Society is the beneficiary of modern technology and is also at its mercy. Products of the industrial process and of our use of natural resources can perturb the dynamic balance in the environment, and by leading to the extinction of species, reduce the diversity of living forms. The Cal State San Marcos Biological Sciences Department addresses fundamental problems in the ecological and environmental sciences.

The Biological Sciences Department has well-equipped, modern laboratories. The academic atmosphere is enriched by a close faculty/student interaction (reminiscent of prestigious, small liberal arts colleges), and by numerous field trips to research facilities and sites in the area. Students receive training that will enable them to gain rewarding employment in a number of areas, including teaching, research, the health sciences, biotechnology, ecology, and environmental science.

Career Opportunities

The laboratory-intensive curriculum in the Biological Sciences prepares graduates for a wide variety of career paths. Biological Science majors can pursue a career in the teaching of biology at the college, high school or middle school levels. Graduates of our program are also extremely qualified to pursue advanced degrees in the fields of allied health, environmental and patent law, and all areas of biology. Employers in fields such as biotechnology, natural resources management, environmental monitoring, and research branches of the U.S. Government also seek graduates in biological sciences. The biological sciences degree program at Cal State San Marcos prepares its graduates to successfully pursue any of these opportunities and more.

Preparation

First-time freshman applicants must complete, with a grade of C or better, a comprehensive pattern of college preparatory study totaling 15 units. For more details, see the section on Admission Policies.

Transfer students entering the program at the junior and senior levels will be expected to have completed the equivalent of lower-division requirements elsewhere during their first two years, including four semesters of chemistry, two semesters of physics, and two semesters of college-level calculus or one semester of calculus and one semester of statistics.

Pre-health professions students (pre-chiropractic, dental, medical, optometry, osteopathic, pharmacy, and veterinary) are recommended to take BIOL 210, 211, 351, 352, 353, two semesters of physics, and several chemistry courses.
Special Conditions for the Bachelor of Science and the Minor in Biological Sciences

All courses counted toward the major and the minor, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. No more than a total of eight (8) units of any combination of BIOL 487, BIOL 488, BIOL 489, BIOL 495 (3 units only), BIOL 496, BIOL 498, and BIOL 499 may be applied toward the major. A minimum of eighteen (18) units in biology must be completed at Cal State San Marcos. All courses counted toward the major and the minor, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better.

MASTER OF SCIENCE IN BIOLOGICAL SCIENCES

Graduate Advisor:
Tracey K. Brown, Ph.D.

The graduate program in biological sciences leads to a research-based Master of Science degree. The program provides the opportunity for participants to receive advanced training in biological sciences and to pursue independent research investigations in specialized areas of interest. Laboratory and/or field research is an integral component of the program, which emphasizes a "hands-on" approach with close faculty mentoring. The research experience also enables students to hone investigative skills relating to experimental design, implementation, data analysis, and interpretation. Another important feature of the program is the Teaching Assistantship requirement, which is designed to give students the opportunity to discuss and implement pedagogical strategies employed in science education.

Graduates with an M.S. in Biological Sciences will be prepared to continue study at the Ph.D. level, to successfully pursue careers in private industry or government affiliated labs, and to teach at the elementary, secondary, or community college level.

Our program fosters the integration of many disciplines. The wide range of faculty expertise and research interests enables the department to offer a curriculum that spans the fields of molecular genetics and development, aquatic biology, evolution, ecology, physiology, biotechnology, microbiology, immunology, and molecular cell biology. Students may develop a program of courses and research tailored to their individual needs within the areas of faculty expertise. In addition, students may choose a research supervisor outside of the Biological Sciences Program, allowing them to pursue interdisciplinary studies, special field research, or industrial projects. Seminar courses focus on the primary literature and are presented as a forum for open interchange and dissemination of scientific knowledge.

Available programs in this degree cover a wide spectrum of biology and include both laboratory and field study. The department has sophisticated research laboratories equipped with state-of-the-art instrumentation. Facilities include a vivarium, greenhouse, tissue culture laboratory, scanning electron microscope, environmental growth chambers, a 21 foot boat, numerous aquaria, and equipment for radioisotope and modern molecular biology work. Excellent computer facilities are also available. The close proximity of the campus to marine, chaparral, and desert environments provides many opportunities for field studies.

This degree requires a thesis based on original scientific research. A list of research areas with the names of faculty specializing in these areas can be obtained from the Program Director.

Admission Requirements and Application

The Program in Biological Sciences will consider applicants having the following qualifications:

1. The applicant must meet the general requirements for admission to graduate studies at Cal State San Marcos. These are described in this catalog under Graduate Admission Requirements.
2. The applicant must have maintained an average of at least 3.0 in the last 35 semester units of science and math, with all completed science and math courses, with minimum course-work and grade point requirements equivalent to the Minor in Biological Sciences at Cal State San Marcos.
3. The applicant must have maintained an undergraduate grade point average in all completed science and math courses of at least 3.0, or a grade point average of at least 3.0 in the last 35 semester units of science and math.

The Graduate Record Examination (GRE) Subject Test in Biology, or the Subject Test in Biochemistry, Cell, and Molecular Biology must be taken prior to applying to the program.

All applicants, regardless of citizenship, who do not possess a bachelor’s degree from a post-secondary institution where English is the principal language must take the combined Test of English as a Foreign Language (TOEFL) and the Test of Written English (TWE) examination. A minimum score of 550 on the TOEFL and a minimum of 4.5 on the TWE are required.

Two applications are necessary for admittance:

1. Application Materials sent directly to the Admission Office of Cal State San Marcos
   • A completed application form for admission to Cal State San Marcos
   • Application fee
   • One set of official transcripts from all colleges and universities attended, with indication of graduation
2. Application Materials sent directly to the Biological Sciences Department (see address below)
   • A completed Biological Sciences Application Form, available from the Biological Sciences Department office, or on-line. In addition to other information, this form requires a statement of educational and career goals.
   • Official transcripts of all college level academic work, including that done at Cal State San Marcos (separate from the transcripts sent to the Admissions Office).
   • Official score reports of the GRE Subject Test in Biology or the GRE Subject Test in Biochemistry, Cell, and Molecular Biology, if taken. If applicable, scores for the TOEFL/TWE must be included.
   • Two letters of recommendation from persons familiar with the applicant’s academic performance and potential for independent research.

Application Materials sent directly to the Biological Sciences Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.
Application Deadlines:
- March 15th for admission in the Fall semester. There is no Spring admission.

Review and Acceptance
The Graduate Studies Committee will review all files received by the deadline, and either accept the applicant as a classified or conditionally classified graduate student or deny admission. All accepted students who expect to enroll in the following fall semester must schedule an interview before the beginning of the semester with the faculty member identified in the acceptance letter. This interview will focus on counseling and orienting the applicant with special attention to any academic deficiencies.

Admission as a Classified Graduate Student
The Graduate Studies Committee will admit as a classified graduate student any applicant who has:

1. met all Cal State San Marcos and Biological Sciences Program prerequisites;
2. submitted all required documents; and
3. obtained agreement of a Biological Sciences faculty member to serve as the chair of the student’s thesis committee.

Graduate students admitted to classified status should meet with their thesis committee chairs to set up a program of study (see next page).

Admission as a Conditionally Classified Graduate Student
Applicants who fail to meet the criteria above for classified admission to the Program in Biological Sciences and who fall into one of the following four categories may be considered by the Graduate Studies Committee for admission as conditionally classified graduate students. These would include:

1. Applicants with course and/or unit deficiencies. The Graduate Studies Committee will determine the deficiencies of each applicant relative to the courses required for the Cal State San Marcos minor in Biological Sciences. The Committee will indicate which course(s) the applicant must take to make up those deficiencies. These courses are taken in addition to the minimum 30 units required for the Master of Science degree and may be included in the student’s program of study. The thesis committee may determine additional course deficiencies. The applicant must make up all such deficiencies before attaining classified status.
2. Applicants with GPA deficiencies. An applicant with an undergraduate GPA in science and mathematics between 2.5 and 2.75 and a GPA in the last 35 semester units of science and mathematics courses between 2.75 and 3.0 may be admitted as a Conditionally Classified Graduate Student. The applicant must first obtain sponsorship from a faculty member in the Program in Biological Sciences who must indicate, in writing, to the Graduate Studies Committee a willingness to serve as the chair of the applicant’s thesis committee and the reasons why the Graduate Studies Committee should admit the applicant. In addition, an applicant receiving Conditional classification must complete, with a grade of B (3.0) or better, three approved courses totaling at least nine units acceptable to the Graduate Studies Committee. These approved courses may appear on the student’s graduate program of study. If the conditionally classified student receives less than a B (3.0) in any of the three courses, he or she will be disqualified from the Master of Science program.
3. Applicants who meet all prerequisites but who do not yet have chairs for their thesis committee. Each student must obtain a thesis committee chair and set up a graduate program of study by the end of the second semester in residence following admission to the Master of Science program. Students without a thesis committee chair and program of study cannot be advanced to candidacy and will be dropped from the program.

Degree Requirements
The Master of Science degree requires a minimum of 30 semester units of study at the advanced level (500-698 courses). At least 15 and preferably 21 of these units must be in courses organized for graduate students (courses numbered 600-698). A maximum of six (6) units of Directed Studies (BIOL 697) and six (6) units of Thesis (BIOL 698) may be included in the 30 units required for the degree.

All of the following requirements must be met within five years to earn the degree of Master of Science in Biological Sciences at Cal State San Marcos:

1. Advancement to candidacy. In order to be considered for advancement, graduate students must have obtained approval of their program of study, have developed a thesis proposal, and have presented the proposal to their thesis committee. On approval of their thesis proposal, classified graduate students will be advanced to candidacy for the Master of Science degree.
2. A completed program of study. This program is composed of at least 30 units of graduate-level work including seven required courses and research, all of which must have been approved by the student’s thesis committee and must have been completed with a GPA of at least 3.0.
3. Completion of a written thesis based on original field or laboratory research. This thesis must be approved by the student’s thesis committee and defended in an oral presentation to the faculty and students of the Biological Sciences Program.
4. Completion of at least one semester as a teaching assistant. Because effective communication is important to success at the Master’s level, the Program in Biological Sciences requires that a graduate student serve as a Teaching Assistant. Candidates who can demonstrate that this requirement would pose an undue hardship may petition the Graduate Studies Committee to waive this requirement.
Program of Study

Each graduate student must establish a specific plan (program of study) that will lead to fulfillment of requirements for the Master of Science degree. It must be approved before the student advances to candidacy. This program must contain at least 30 units of courses at the graduate level, of which at least 15 units (and preferably 21 units) are in 600-level courses, and the remaining 9-15 units are in 500-level courses. Additional courses for the area of study may be required. The program of study should be developed in consultation with the chair of the student’s thesis committee with a focus on gaining depth of knowledge in a particular subdiscipline of biological science. Required courses are: Research Methods I and II (BIOL 610 and BIOL 611), Internship in Biology Instruction (BIOL 685), two seminars chosen from BIOL 560-566, Directed Studies (BIOL 697), and Thesis (BIOL 698). This plan should include a minimum of six (6) units of Directed Studies (BIOL 697) and at least six (6) units of Thesis research (BIOL 698). The program of study may include additional courses needed to satisfy prerequisites for classified status. The formal program of study must be submitted for approval to the student’s thesis committee before the end of the second semester after admission to the program.

A typical full-time student, enrolled in nine (9) units per semester (see Academic Regulations/Student Course Load), is expected to complete his or her program of study after four semesters in residence. Units earned not in residence at Cal State San Marcos may not exceed six (6) and they must be approved by the student’s thesis committee. Part-time students must complete their program of study within ten semesters in residence. All students must be enrolled continuously and complete degree requirements within five (5) years. Leaves of absence may be granted for no more than two (2) semesters and do not extend the five year limit. Students not enrolled or not an official leave of absence will be dropped from the program by the University.

Advancement to Candidacy

To be eligible for advancement to candidacy for the Master of Science degree, a graduate student must have attained classified status and have constituted a thesis committee. Each student must obtain the permission of a tenured or tenure-track Biological Sciences faculty member to serve as the chair of his or her thesis committee. The thesis committee chair and student then recommend two additional members for the thesis committee. A student’s research supervisor need not be a member of the Cal State San Marcos Biological Sciences faculty, but must be a member of the thesis committee. The Graduate Studies Committee must approve the composition of the student’s committee. The thesis committee chair will assist the student in establishing a program of study and in developing a thesis research proposal. A formal written thesis proposal will be orally presented to the thesis committee no later than the beginning of the second year of full-time study, or after twelve (12) units of graduate coursework have been completed. The student will be advanced to candidacy after the official program of study has been approved by the thesis committee, the written thesis proposal has been presented, and the thesis committee has approved the proposal.

Continuation

Graduate students must maintain an overall GPA of 3.0 and earn at least a C (2.0) in each course, except those graded credit/no credit (see Academic Regulations/Definition of Terms). Students who are conditionally classified because of GPA deficiencies may not earn less than a B (3.0) in the courses on their approved list. Any student whose overall GPA falls below 3.0 for two semesters, or who receives more than three grades of C (2.0) or lower, will be dropped from the program. A full-time graduate student should be enrolled in at least nine (9) units per semester. Full-time students serving as teaching assistants or graduate assistants should be enrolled in at least six (6) units during the semester of service. In addition, except in unusual circumstances, a completed thesis must be submitted and defended not later than eight semesters following advancement to candidacy, and not later than five years after entry into the program. The student must be registered in BIOL 698, BIOL 699 or GRAD E699 when the completed thesis is granted final approval.

Financial Aid

Several sources of financial aid are available to graduate students. Students are responsible for identifying other sources of aid, and may wish to consult with the Office of Financial Aid and Scholarship.
BIOTECHNOLOGY

Office:
SCI 2, Room 117

Telephone:
(760) 750-8038

Director of Biotechnology Programs:
Al Kern, Ph.D.

The Biotechnology major is housed in the Biological Sciences Department. Biotechnology refers to the long practiced skill of applying our knowledge of the molecular basis of life processes for the benefit of society. While classic examples of biotechnology include using bacteria and enzymes to produce cheeses and yeast to make bread and beer, modern applications exploit DNA based technologies such as immunology, biochemistry and microbiology to make new products or provide services to improve health care, agriculture, food and the environment.

Over the past 20 years biotechnology has caused a profound revolution in science having significant technological and social implications.

Today, pharmaceuticals and vaccines are being designed through biotechnology to treat various cancers, heart disease, diabetes, multiple sclerosis, Alzheimer’s, AIDS, obesity and other conditions. Biotechnology is responsible for hundreds of medical diagnostic tests that keep the blood supply safe from the AIDS virus and detect other conditions early enough to be successfully treated. Home pregnancy tests are also biotechnology diagnostic products. Food and agriculture biotechnology has resulted in the development of crops that are naturally resistant to pests and viruses; more tolerant of environmental stresses such as drought, salinity, and extreme cold; and more nutritious and longer lasting than their conventional counterparts. Environmental biotechnology products make it possible to more efficiently clean up hazardous waste without the use of caustic chemicals. Bioremediation products use living cells or byproducts of living materials to clean up oil spills and other environmental problems. DNA fingerprinting is a biotechnology process that has dramatically improved criminal investigation and forensic medicine, and has afforded significant advances in anthropology and wildlife management. Biotechnology is a promising young field that is expected to be one of the pivotal forces in the 21st century, helping us to lead longer, healthier lives, provide more plentiful and nutritious food, and keep our environment cleaner.

The Biotechnology curriculum is comprised of courses selected from the curricula of the departments of Biological Sciences, Chemistry & Biochemistry, Mathematics, Physics and the College of Business Administration. The core curriculum provides students with a solid foundation in molecular biology, immunology, microbiology and biochemistry. It also introduces students to the applied technologies of fields such as molecular genetics/recombinant DNA technology, immunology/ cell culture-hybridoma technology, biochemistry/protein purification methods and DNA sequencing/computational biology. Students are also exposed to fundamental business management and marketing theory as part of the core, and will develop skills and aptitudes important for success in the business arena. These include written and oral communication, problem solving, teamwork, leadership, flexibility, negotiation, and regulatory documentation. Since biotechnology-related industries are varied, the degree provides technical background and experience that can be applied across the diverse disciplines within the field, enabling students to adapt to their employment situation as it evolves or to move between the various biotechnology-related industries. The curriculum is meant to provide graduates with the knowledge and training needed to earn entry-level positions not only in research and development but also in areas such as technical services, sales, marketing, management, operations, regulatory affairs, technical writing, quality control and quality assurance.

Students in the Biotechnology degree program will have access to modern well-equipped laboratories and will gain experience using state-of-the-art instrumentation. The academic environment is enriched by a close faculty/student interaction and by the availability of internship positions with biotechnology companies and federal agencies. Internship employment with a biotechnology company provides a valuable, real world, career-sampling experience. Student and faculty research opportunities are also available and provide valuable training that will enable students to gain rewarding employment thereafter.

Career Opportunities

A Bachelor of Science degree in Biotechnology from CSU San Marcos prepares students to succeed in entry level positions in a number of market sectors, including pharmaceuticals, clinical diagnostics, environmental protection, food and agriculture, medical therapeutics, veterinary, scientific services and scientific equipment and supplies. The degree will also enable graduates to pursue higher degrees in areas as diverse as Biochemistry, Microbiology, Pharmacology, Environmental Science, Molecular Biology, and Plant Science.

Preparation

Freshman applicants must complete a comprehensive pattern of college preparatory study totaling 15 units with a grade of C (2.0) or better. Transfer students entering at the junior and senior level will be expected to have completed the equivalent of lower-division requirements elsewhere, including two semesters of biology, four semesters of chemistry, two semesters of physics, one semester of college level calculus, and one semester of statistics.

...
**Special Conditions for the Bachelor of Science in Biotechnology**

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units in biotechnology must be completed at CSUSM.

*Nine (9) lower-division GE units in Area B (Math and Science) are automatically satisfied by combinations of CHEM 150, MATH 160, and BIOL 211 when taken in preparation for the major. Three (3) lower-division GE units in Area D (Social Sciences) are automatically satisfied by either PSYC 100 or SOC 101, which are also required as preparation for the major. Three (3) upper-division GE units in Area CC (Arts and/or Humanities) are satisfied by students taking either PHIL 315, PHIL 340 or PHIL 345 as preparation for the major when taken no earlier than the term in which the student attains upper-division status by completing 60 semester units.

All Biotechnology majors are required to attend a series of four (4) seminars during their enrollment period at CSUSM before graduation. The seminar series focuses on Quality Control/Assurance, Regulatory Affairs, Clinical Testing/Animal Care and Scale-up Procedures delivered by industry or topic experts.

Biotechnology majors are permitted to earn the Minor in Biology. Biotechnology majors also pursuing the Minor in Biology may use either Genetics (BIOL 352) or Comparative Animal Physiology (BIOL 353), but not both, to fulfill part of the 5 elective units required for the Biotechnology degree requirement. These students must also take 12 additional units in Biology, exclusive of coursework applied to the Major in order to earn the Minor. Departmental advisors will provide information on recommended additional coursework.

Craven Hall, Room 6140

Telephone:
(760) 750-4104

Department Chair:
Kimberley Knowles-Yáñez, Ph.D.

Faculty:

Anthropology
Bonnie Bade, Ph.D.

Latin American Studies
Vivienne Bennett, Ph.D.
Aníbal Yáñez-Chávez, Ph.D.

Linguistics
Jocelyn Ahlers, Ph.D.
Jule Gómez de García, Ph.D.

Sociology (Migration Studies)
Jorge Riquelme, ABD

Sociology (Science and Society Studies)
Robert C. Yamashita, Ph.D.

Urban and Regional Planning
Kimberley Knowles-Yáñez, Ph.D.

Program Offered:

- Bachelor of Arts in Border and Regional Studies*

The Bachelor of Arts degree in Border and Regional Studies (BRS) offers an interdisciplinary exploration of the communities and spaces that emerge in border regions worldwide. The major systematically examines the results of human interactions across the conceptual and spatial borders that divide people and places. From an examination of the U.S./Mexico border (as a local example of how an international boundary shapes a region), through the study of multiple regions and border areas across the globe, and the exploration of conceptual borders such as language, culture, and gender, the goal of the BRS curriculum is to provide an understanding of how communities take shape by exploring the interrelationship of diverse groups across the boundaries that delimit them.

Building on the strengths and areas of specialization of an interdisciplinary departmental faculty, the B.A. in Border and Regional Studies serves as preparation for careers in the public sector, private sector, education and a wide range of other fields, or for post-graduate studies in urban and regional planning, demography, linguistics, area studies, public policy, and other social sciences.

Students interested in this degree program should contact the Border and Regional Studies Administrative Coordinator, Nersa Niksirat, at (760) 750-4104.

* The B.A. in Border and Regional Studies has received campus approval for implementation in Academic Year 2005-06, but is pending official authorization by the Office of the Chancellor of the California State University. Border and Regional Studies courses may be found beginning on page 230.

Programs Offered:
• Bachelor of Science in Chemistry
  Options in:
  - Chemistry
  - Science Education
• Minor in Chemistry
• Bachelor of Science in Biochemistry

Cal State San Marcos offers a program of courses leading to a Bachelor of Science in Chemistry with options in Chemistry and Science Education, and to a Bachelor of Science in Biochemistry. Chemistry is the study of matter and its changes. This includes everything in the universe from a simple hydrogen atom to very large replicating molecules in life processes. Chemistry is involved with the development of medicines that control and cure diseases; food through specific and safe agricultural chemicals; consumer products such as cleaners, plastics, and clothing; new methods of energy production, transfer and storage; new materials for electronic components; and new methods for protection and cleanup of the environment. Chemistry majors are needed to help solve some of society’s most difficult technological problems through research, development, and teaching.

The goal of the Chemistry and Biochemistry Department is to provide chemistry majors with the best education within the guidelines of the American Chemical Society. Each student will learn the basics of analytical, inorganic, organic, physical, and biochemistry, including the most recent technology in instrumentation. An atmosphere of small class size, close faculty/student interaction, and new facilities/equipment are some of the advantages of the Chemistry Program at Cal State San Marcos.

Preparation

Up to five (5) units of chemistry credit can be applied toward a B.S. degree in Chemistry at Cal State San Marcos for students who have successfully completed the Advanced Placement Test in chemistry with a score of 4 or 5. It is recommended that students with a score of 4 or 5 on the AP Test in chemistry consider auditing CHEM 150 during the fall semester in preparation for CHEM 201/201L. Students with a score of 3 on the AP Test in chemistry must consult with the CHEM 150 instructor to determine the appropriate beginning course or take CHEM 150.

Special Conditions for the Bachelor of Science in Chemistry

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better.
BACHELOR OF SCIENCE IN CHEMISTRY

Chemistry Option

This option is for students wishing a broad training in the traditional areas of chemistry. This option is recommended for students wishing to enter a chemistry graduate program or seek a position in industrial chemistry.

Program Coordinator:
Jocelyn Ahlers, Ph.D.

Faculty:
Jocelyn Ahlers, Ph.D. (Linguistics)
Katherine Brown, Ph.D. (Communication)
Jule Gómez de García, Ph.D. (Linguistics)
Gina Grimshaw, Ph.D. (Psychology)
Rocio Guillen-Castrillo, Ph.D. (Computer Science)
Mtafiti Imara, Ph.D. (Visual and Performing Arts)
Alicia Muñoz Sanchez, Ph.D. (World Languages and Hispanic Literatures)
Barry Saferstein, Ph.D. (Communication)
Miriam Schustack, Ph.D. (Psychology)
Shaun-inn Wu, Ph.D. (Computer Science)
Robert Yamashita, Ph.D. (Liberal Studies)
Rika Yoshii, Ph.D. (Computer Science)
Lorna Zorman, Ph.D. (Computer Science)

Program Offered:
Minor in Cognitive Science

The Minor in Cognitive Science at Cal State San Marcos offers students the opportunity to broaden their academic experience through systematic study of the interdisciplinary field of Cognitive Science. Cognitive science has a variety of definitions, but one simple one is that it is the interdisciplinary scientific study of the mind. The field involves contributions from the disciplines of psychology, computer science, linguistics, communication, biology, neuroscience, philosophy, anthropology, music, mathematics, and social science. The minor in Cognitive Science allows students to focus on the domain of Cognitive Science from multiple perspectives, and to customize their course selections in accordance with their individual interests within the field. The program requires courses from at least four different disciplines, and allows courses from several more. Students choosing to pursue the minor in Cognitive Science will get exposure to some of the breadth of this emerging field of study. The minor is appropriate for students in any major, but may be especially of interest to students majoring in one of the disciplines that are related to the cognitive sciences. This minor helps to prepare students for graduate study in related fields, as well as for a variety of careers in both the public and private sectors.

Requirements for a Minor in Cognitive Science

Completion of twenty-two (22) units, at least twelve (12) of which must be at the upper-division level. Students are advised that some optional courses have prerequisites, and should plan accordingly.

Core Courses
CS 111 4
PSYC 100 3
PSYC 362 3

Brain and Mind
Select at least one course:

Communication and Distributed Cognition
Select at least one course:
COMM 355 3
COMM 400 3

Electives
Select at least one course:
ANTH 215 3
CS 571 3
CS 574 3
CS 575 3
LBST 361 3
LBST 361B 3
PHIL 210 3
PSYC 392 3
PSYC 393 3
The Bachelor of Arts in Communication teaches analytical, critical, and practical skills that will help students to understand and improve communication practices and systems in all types of social settings. Students learn to recognize and understand communication issues and systems in order to make decisions effectively, to solve problems.

**Student Learning Outcomes**

The Bachelor of Arts in Communication teaches analytical, critical, and practical skills that will help students to understand and improve communication practices and systems in all types of social settings. More specifically, students who graduate with a B.A. in Communication should be able to:

- Critically evaluate forms of communication, recognize and synthesize points of view, develop and support one’s position through clear and sound argumentation;
- Describe and explain issues, problems or conflicts in the theoretical or empirical contexts within which they occur and work toward effective solutions;
- Understand selves as sustained through language and communicative interaction and, reflecting their cultures, understand and communicate the fundamentals of interpersonal group organizational or community life;
- Acknowledge and reflect upon one’s role as a communicative being within a range of communication contexts; analyze rules or patterns at work in a variety of communication events;
- Confront challenging situations in ways that develop understanding of the interests of multiple parties; contribute to viable responses;
- Understand how various forms of communication are produced, interpreted and affect different audiences;
- Construct and analyze clear, well-supported, well-organized, cohesive arguments to understand the communicative practices of people living in a multicultural society;
- Understand the contribution of communication to creating and sustaining a variety of power relations; and
- Selectively employ communication research methods to investigate social, political, legal and cultural arrangements.

*See page 161.*

**Career Opportunities**

Communication is increasingly recognized as an extremely significant, multifaceted phenomenon that deserves our focused attention. Increasingly, both private and public sectors are emphasizing the importance of communication skills in their hiring decisions and assessments of potential for career success. Consistently, business leaders have identified that potential employees must have effective communication skills and be able to work collaboratively with people of diverse backgrounds.

The growing telecommunications and digital information industries are very receptive to communication majors, as are private and public organizations and agencies, which often hire communication majors as specialists and consultants to improve organizational communication. A communication degree offers interesting career opportunities in the areas of business management, public health communication, community relations, government, public affairs, international trade, conflict mediation, advertising and market research, foreign service, teaching, and law.

**Preparation**

High school students should take four years of English, including composition. Social Science and civics courses, including History and Economics, are encouraged. A familiarity with computers is also desirable.

**Transfer Students**

Community college transfer students may transfer a maximum of six (6) lower-division units in Communication. Students must have earned a grade of C (2.0) or higher in the coursework to be counted for credit toward the major.

**Special Conditions for the Bachelor of Arts in Communication**

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units of upper-division credits must be earned at CSUSM.
No more than six (6) hours of independent study may be applied toward the major. Independent study may be applied to field distribution requirements at the discretion of the instructor under whose supervision the student is doing the study.

Communication majors must complete nine (9) upper-division units selected from at least two of the social sciences.

## BACHELOR OF ARTS IN COMMUNICATION

</tr>
<tr>
<td>COMM 390</td>
<td>3</td>
</tr>
</tbody>
</table>

Six (6) units of upper-division communication electives. MASS courses may be used to fulfill this requirement.

**Total Units** 18

Upper-division Communication courses are grouped into three categories. These categories are: Communication Theory and Methods (CTM), Communication, Culture and Social Context (CCSC), and Mass Communication (MC). Specific courses under these designations are given below and described within the Communication course listings.

**Some courses in preparation for the major may satisfy the Mathematics/Quantitative Reasoning (B4) requirement and the Discipline-Specific or Second Interdisciplinary Social Sciences (D) requirement of General Education. The courses satisfying these requirements are denoted by **.

COMPUTER SCIENCE

Office:
Science 2 Hall, Second Floor

Telephone:
(760) 750-4118

Department Chair:
John H. Chang, Ph.D.

Faculty:
Rochelle L. Bohning, Ph.D.
Rocio Guillén-Castrillo, Ph.D.
Ahmad Hadaeagh, Ph.D.
Youwen Ouyang, Ph.D.
Shaun-inn Wu, Ph.D.
Xiaoyu Zhang, Ph.D.
Lorna Zorman, Ph.D.
Rika Yoshii, Ph.D.

Programs Offered:
- Bachelor of Science in Computer Science Options in:
  - Computer Science
  - Computer Information Systems
- Minor in Computer Science
- Master of Science in Computer Science

Computer Science is basically the study of problem solving on computers. We utilize the power of computers in the problem solving process while dealing with the constraints of computers. We offer to the undergraduate and graduate student a rich mix of modern computer science courses. Common to these offerings are the power, beauty, and utility of computational thought.

Applications of Computer Science knowledge include almost every field from business to education, from humanities to social sciences, or from natural sciences to engineering. Therefore, the study of Computer Science contains many fields such as computer architecture, programming languages, computer networking, database systems, information management, artificial intelligence and numerical analysis.

The Cal State San Marcos undergraduate study in Computer Science emphasizes both theoretical foundations and practical applications. Students will learn algorithms, data structures, software design, the concepts of programming languages, computer organization, and computer architecture. The program stresses analysis and design experiences with substantial laboratory work, including software development. The Computer Science major prepares students for careers in applications programming, systems analysis, and software engineering, as well as for entrance into graduate and professional schools. The Option in Computer Information Systems prepares students for positions of responsibility in the commercial environment by combining the appropriate computer courses with substantial coursework in the foundations of business. The Computer Information Systems option emphasizes data processing and programming to solve business-related problems. Being housed in the Computer Science Department, this option emphasizes solid technical knowledge of software and hardware.

Student Learning Outcomes

Every student who graduates with a Bachelor of Science in Computer Science should have experienced the seven common subject areas of the discipline defined in the ACM/IEEE recommendations:

- Algorithms and Data Structures;
- Architecture;
- Database and Information Retrieval;
- Networking;
- Human-Computer Communications;
- Operating Systems; and
- Software Methodology and Engineering as well as Social, Ethical and Professional Issues. With the knowledge gained in the above areas, graduates should have a theoretical foundation in computation and software that will enable them to continue learning throughout their careers.

Upon completion of the Computer Science program, students should have not only acquired fundamental knowledge, but also the developed the following fundamental skills:

- Problem solving skills required in developing a program or a system;
- Debugging skills to find and correct errors in their programs;
- Skills in the use of operating systems;
- Skills in the use of text editors;
- Skills in the use of compilers; and
- Skills in documenting their programs.

Students who graduate with a Bachelor of Science in Computer Science should have gained:

- The ability to transfer their knowledge onto new languages and systems;
- The ability to use their knowledge and skills in realistic projects, including team projects;
- The ability to analyze the effects of different choices of algorithms and data structures;
- The ability to choose the right language or hardware system for the task at hand;
- The ability to design, implement and test software to meet specified requirements; and
- The understanding of the organizational, social and global impact of computational solutions.
Career Opportunities

Hundreds of job advertisements looking for Computer Science professionals appear in newspapers, professional magazines and newsletters. Due to the enormous demand, degree holders in Computer Science have multiple paths to reach their career goals. They can easily find jobs with excellent pay in many business and industries and their job titles include positions such as: programmers, system analyst/engineer/managers, software analyst/engineer/managers, database managers, network/telecommunications administrators, customer service representative/managers, computer instructors, technical trainers, technical support, management information system managers, and sales representatives.

Preparation

High school students are encouraged to take four (4) years of English, four years of mathematics including trigonometry, one year of biological science, and one year of physical science. Courses in calculus, physics, and computer programming are recommended. Experience in clear, concise, and careful writing is valuable for success in all courses.

Transfer Credits

A maximum of thirty-two (32) lower-division units including courses in Computer Science, mathematics, and physics may be applied toward the preparation for the major requirements. Of the thirty-two (32) units, twelve (12) units must appropriately match the description for CS 111, 211, and 231 (depending on the articulation agreement between Cal State San Marcos and other institutions; transfer students are also advised to consult with their articulation officer to determine if they need to take CS 112, 212, and 232); twelve (12) units must appropriately match the description for MATH 160*, 162, and 264; and eight (8) units must appropriately match the description for PHYS 201* and 202 for the Computer Science Option.

- MATH 440

Choose one of the following courses:
- MATH 264
- MATH 374

Special Conditions for the Bachelor of Science in Computer Science

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. No more than a total of three (3) units of either CS 498 or CS 499 may be applied to the major. A minimum of fifteen (15) upper-division units counted toward the major must be completed at Cal State San Marcos.

*Six (6) lower-division General Education units in Area B (Math and Science) are automatically satisfied by courses taken in Preparation for the Major.

At least twelve (12) units from any CS courses numbered 200 or higher; at least nine (9) units must be numbered 300 or higher.

MATH 464 and MATH 480 may be applied toward this requirement.

**Total Units** 23

---

*Six (6) lower-division General Education units are automatically satisfied by courses taken in Preparation for the Major.*

*Some courses in preparation for the major may satisfy the Mathematics/Quantitative Reasoning (B4) requirement and the Discipline-Specific or Second Interdisciplinary Social Sciences (D) requirement of General Education. The courses satisfying these requirements are denoted by **.*
MASTERCScIENCE IN
COMPUTER SCIENCE

The mission of the graduate program in Computer Science at Cal State San Marcos is to provide graduate education of the highest caliber to qualified students from the local community and beyond, leading to the Master of Science degree. Its objective is to prepare students for a variety of positions in business, industry, and the public sector; for continued study at the doctoral level; or for academic careers at the two-year college level. We believe that excellent graduate education is best accomplished in an atmosphere in which graduate students are closely mentored by the faculty. The faculty in Computer Science is committed to the study of Computer Science as a scientific enterprise, and the Master of Science in Computer Science will encourage the development of critical thinking and quantitative reasoning skills. In keeping with the mission of the University, we offer a curriculum that includes opportunities for applied experiences to enhance the professional development of our students and to contribute to the community around us. In addition, our program seeks to recognize the global awareness of the computing world and to build links with higher education institutions in the world.

The Master of Science Program in Computer Science provides breadth in several areas and depth in a specialized area in the rapidly advancing theoretical and practical aspects of Computer Science. Common to these offerings are the intelligent challenges and analytical skills of computational problem-solving methodologies.

Preparation and Training Offered by the Program

The Master of Science degree is traditionally seen either as a preparatory or terminal degree. Our program is designed to accommodate students with different goals. The active research programs of our faculty, and our recognition of Computer Science as a scientific enterprise, shall provide graduate students with the intensive research training and course work in primary content areas that are central to preparation for more advanced graduate or professional work. Students who have in mind careers in business, industry, community college teaching and computing services, will benefit from our program’s emphasis on critical thinking, research methods, and advanced course work. Individual career goals will be served by allowing choices in the content of the research work of thesis or project and by providing a curriculum that provides flexibility in content areas. Students with interests in many areas in Computer Science will find opportunities to pursue course work and thesis topics at Cal State San Marcos that are related to their interests.

The Master of Science degree in Computer Science emphasizes both theoretical foundations and practical applications. Many students undertake graduate work in Computer Science in order to pursue careers in computer networking and information communications, algorithms, parallel processing, artificial intelligence, neural networks, programming languages concepts, and multimedia applications. Graduates of the program will be prepared for a wide range of career opportunities, since the skills and attitudes fostered in the program are in demand in business, industry, government and academia. In particular, graduates will be well prepared for careers in applications programming, systems analysis, and software engineering.

The program also prepares students to compete for admission to doctoral programs in Computer Science. There are several universities near Cal State San Marcos, including UCSD, UC Riverside, and UC Irvine, which offer such Ph.D. programs.

Admission Requirements and Application

In general, students should have equivalent of the basic core knowledge in Computer Science. Experience in clear, concise, careful writing is valuable for success in all courses.

People with undergraduate degrees in non-computing fields may want to enroll in this program for career advancement. Those with undergraduate degrees in Computer Science can take more advanced courses to specialize in a particular area.

Admission to the program requires an undergraduate degree including the courses as required for the Bachelor’s Degree in Computer Science at Cal State San Marcos, or their equivalents. Admission also requires a 3.0 grade point average in the upper-division Computer Science courses and at least a 2.5 GPA in the last 60 semester units (or last 90 quarter units) attempted. Students who have some deficiencies in the above admission requirements may be admitted with conditional graduate status. They may remove these academic deficiencies by either taking specific undergraduate courses for no credit toward the Master’s degree, or passing appropriate proficiency examinations.

The general test of the Graduate Record Examination (GRE) is required of all applicants and the advanced test in Computer Science is encouraged.

All applicants who do not possess a bachelor’s or graduate degree from a post-secondary institution in a country where English is a principal language must take the Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 off-line or 213 on-line.
An application consists of the following:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Computer Science Department (see address below)

- a completed application for the Master's program in Computer Science,
- one set of official transcripts from all colleges and universities attended and official indication of graduation (if not in English, certified English translations must be included),
- official transcripts of GRE, and TOEFL if applicable, and
- three letters of recommendation.

Application materials sent directly to the Computer Sciences Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:

Complete applications, including test scores and recommendation letters, should be received in the program office by:

- March 15th for Fall applicants.
- November 15th for Spring applicants.

However, applications will be accepted as long as space allows.

**Graduation Requirements**

The Master of Science degree in Computer Science requires a minimum of 30 units of graduate courses with at least an overall 3.0 grade point average. Students must do exactly one of the following: pass a comprehensive written exam, complete a Master's thesis, or complete a research project. At least nine (9) units must be numbered 600 or above. Only courses numbered 500 or higher can be counted towards the Master’s degree requirement with the exceptions of CS 421, CS 433, and CS 441 which must be taken if these courses were not taken prior to admission to the program. No course or equivalent which was taken as a requirement for the completion of a Bachelor of Science in Computer Science or related fields can be used to satisfy these requirements. Not more than nine (9) units in approved extension and transfer courses may be used to satisfy the minimum units required for the degree; any such units must be approved by the Computer Science Department Chair or faculty advisor. Given the nature of rapid development in Computer Science, all requirements should be satisfied within five years of initial acceptance into the program or course work must be repeated.

Students are required to take the following graduate-level core courses:

- CS 537
- CS 542
- CS 551
- CS 571

Consent of instructor is needed to enroll in these core courses. Students are advised to complete the core courses before selecting their electives.

**Continuation**

A student must earn a 3.0 overall average in graduate coursework in order to graduate. No course in which a final grade below C (2.0) was earned can satisfy the degree requirement. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program.

**Financial Aid**

Several sources of financial aid are available to graduate students. Applicants who choose to apply for Graduate Assistantships offered by the University should so indicate on the appropriate space in the Master's Program in Computer Science application form. Students are responsible for identifying other sources of aid, and may wish to consult with the University’s Office of Financial Aid and Scholarship.
Advancement to Candidacy

Upon the completion of at least nine (9) units toward the degree, but prior to the completion of 18 units toward the degree, the student should obtain the permission of a tenured or tenure-track Computer Science faculty member to act as the student’s advisor and as chair of the student’s academic committee. The student and the advisor should recommend to the Computer Science Department Chair the names of two other tenured or tenure-track Computer Science faculty to fill the advisory committee. The third member is allowed to be a faculty member from another department or an individual from a related industry if that member has expertise in the area of student research.

The plan of study should include courses remaining to be taken and the names of the three faculty composing the committee. A copy of the study plan shall be submitted to the Computer Science Department Chair. The student is advanced to candidacy for the Master of Science degree upon submission of the study plan and completion of 18 units toward the degree with at least a 3.0 grade point average. Changes in the study plan must be approved by the student’s advisor and the Computer Science Department Chair.

Thesis, Project, or Comprehensive Written Exam

Each student will be assigned an advisor at the time of acceptance to the program. It is expected that the student and her/his advisor will work together closely to identify elective courses and either choose possible research topics for the thesis or research project, or prepare for the comprehensive written examination.

A thesis is the written result of a systematic study of a significant Computer Science problem. It defines, develops, and executes an investigation into a chosen problem area. The motivation, approach, and results of the investigation are communicated in a clear and logical fashion; it is grammatically correct, logically organized and technically sound. The finished product should evidence originality, and critical and independent thinking through documentation. The thesis must be planned, organized, executed, and completed while the student is enrolled in the Master’s program. Guidelines on the preparation and official submission of the thesis can be obtained from the Department Chair’s office. The final copies of the thesis are to be delivered to the committee members at least two (2) weeks prior to the oral defense of the thesis which must be held at least two weeks prior to the end of a regular semester.

A project is the written result of a comprehensive implementation or analysis of a particular computer system or problem encountered in the literature. The composite elements of the project are the same as for a thesis, but the scope is more narrow. The project must be completed while the student is enrolled in the Master’s program. Project submission forms can be obtained from the Department Chair’s office. The final copies of the project are to be delivered to the committee members at least two (2) weeks before an oral presentation, which must be held at least two weeks prior to the end of a regular semester.

A comprehensive written examination is administered during the student’s final semester. It is intended as a culminating experience for the Master’s degree, and it is used to assess the student’s ability to integrate his/her knowledge of Computer Science, to think critically and independently, and to demonstrate mastery of their coursework. The problems will reflect the coursework of the student, and the student’s responses will be evaluated both on the basis of logical correctness and on that of written presentation. The examination will be offered, as needed, at most once each regular semester, at least two (2) weeks prior to the end of the semester. Students intending to take the exam during a given semester must notify the Department Chair before the end of the fourth week of that semester.

Graduation

A student planning to graduate at the end of a given regular semester must meet with the academic advisor by the end of the student’s previous regular semester in order to evaluate those plans. All pertinent requirements described above concerning courses and the thesis, the project, or the comprehensive exam must be evaluated during this meeting.
MINOR IN CRIMINOLOGY
AND CRIMINAL JUSTICE

Office:
Craven Hall, Sixth Floor

Telephone:
(760) 750-4117

Sociology Department Chair:
Robert E.L. Roberts, Ph.D.

Faculty:
Donald Barrett, Ph.D.
Kristin Bates, Ph.D.
Valerie J. Callanan, Ph.D.
Marisol Clark-Ibañez, Ph.D.
Sharon Elise, Ph.D.
Alicia M. Gonzáles, Ph.D.
Darlene Piña, Ph.D.
Robert E.L. Roberts, Ph.D.
Garry Rolison, Ph.D.
Linda Shaw, Ph.D.
Richelle S. Swan, Ph.D.
Jill M. Weigt, Ph.D.

Program Offered:

- Minor in Criminology and Criminal Justice

The major purpose of the Minor in Criminology is to provide an expanded and more focused concentration on the study of criminology and the criminal justice system regarding 1) the study of deviance and the incidence and explanations for delinquency and crime; 2) methods of prevention and control of delinquency and crime; 3) characteristics and practices of the criminal justice system. Moreover, students will select a set of courses that add on to parts of this core, such as the study of women and crime, and the comparative study of crime in different societies. Students will broadly analyze the origins, causes, and consequences of crime and the structure of the criminal justice system in order to gain greater mastery of this socially important and very timely topic.

Special Conditions for a Minor in Criminology and Criminal Justice

Students wishing to combine the Minor in Criminology and Criminal Justice with a bachelor’s degree in Sociology should consult their advisor. See page 177 for bachelor’s degree in Sociology.

Each course counted towards the minor must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units in sociology must be completed at Cal State San Marcos. Twelve (12) units completed for the Minor may be applied to electives in a major.

Program Offered:
• Bachelor of Arts in Criminology and Justice Studies

The Criminology and Justice Studies major is offered through the Sociology Department. This major draws on the intellectual traditions of sociology and critical criminology to understand the social correlates of crime and justice. The major provides students with a theoretical and practical foundation for building a lifelong understanding of crime and social justice, and the myriad social processes surrounding both. Students majoring in Criminology and Justice Studies will be able to evaluate critically issues of crime and justice and to pursue solutions for positive social change. The degree also provides students with the requisite skills for graduate study and/or entry-level practice in the areas of social justice, administration of justice, and criminal justice systems.

Learning Objectives
Our primary aim is to help students acquire the knowledge and analytic skills necessary to make sense of issues of criminology and social justice in an increasingly complex world. We want our graduates to be able to use the key insights and analytic methods of criminology, justice studies, and sociology to improve the social conditions in which they and others coexist. We expect holders of this degree to be able to address large- and small-scale social problems through constructive empirical inquiry, critical analysis, and strategic action. The Criminology and Justice Studies major curriculum cultivates the theoretical, methodological, and advocacy skills integral to meeting these goals. The list below summarizes the primary knowledge and skills Criminology and Justice Studies majors possess at graduation.

1. Understanding of the key theoretical approaches and insights that inform criminology and justice studies.
2. Ability to develop informed theories of social behavior from systematic observation of social life.
3. Awareness of the diversity of social experiences and perspectives related to criminology and social justice issues, especially those connected to race, class, gender, age, sexual orientation, religion, and nationality.
4. Ability to use criminological and/or justice studies theory to craft researchable questions about criminology and justice studies.
5. Ability to locate, understand, and review criminological and social justice scholarship.
6. Proficiency in the research methods used in the study of criminology and social justice.
7. Ability to identify and utilize research methods most appropriate to any specific research question, theoretical orientation, and/or social context.
8. Understanding of the limits of the information produced by specific research methods.
9. Ability to write a literature review and research report that conforms to the professional norms of criminology and justice studies scholarship.
10. Ability to apply criminological and/or justice studies theories and research in service of positive social change.

Core Coursework
All students majoring in criminology and justice studies complete a series of required preparatory and core courses that build proficiency in each of the learning objectives listed above. The required courses include:

• an introduction to justice studies (SOC 105: Addressing learning objectives 1, 2, 3, and 5);
• an introduction to statistics for the social sciences (SOC 201, or its equivalent: Addressing learning objectives 2, 4, 6, 7, and 8);
• a survey of the social correlates of inequality (SOC 311: Addressing learning objectives 1, 3, 5, and 9);
• a foundational survey of criminological theory and research (SOC 325: Addressing learning objectives 1, 2, 3, 4, 5, and 9); a survey of the social correlates of inequality (SOC 311: Addressing learning objectives 1, 3, 5, and 9);
• an upper division course on quantitative sociological research methods (SOC 360: Addressing learning objectives 2, 3, 4, 5, 6, 7, 8, 9, and 10);
• an upper-division survey of criminal justice systems and criminal law (SOC 442: Addressing learning objectives 1, 3, 4, 5, 8, and 9);• a senior-level capstone experience in community service (SOC 495: Addressing learning objectives 2, 4, 5, and 10).
Opportunities for Concentrated Study

Each student majoring in criminology and justice studies must choose a concentration area in which to pursue more focused instruction around a key thematic area. While gaining a depth of understanding in a particular content area, students also further develop the key skills and knowledge encompassed by our general learning objectives. We currently offer two areas of concentrated study:

- Crime and Justice
- Communities, Inequalities, and Justice

The requirements for each area of concentrated study are described in detail below.

Career Opportunities

The degree prepares students to pursue careers in criminal justice and social service agencies, as well as graduate studies in such fields as criminology, criminal justice, and justice studies. Students with a bachelor’s degree in Criminology and Justice Studies can pursue a wide variety of jobs. These job opportunities might include government as well as community service agencies geared towards youth and families, law enforcement and correctional agencies and non-profit organizations that examine social and legal justice practices both at home and abroad.

Students interested in these careers should consult with advisors in appropriate areas as they plan their studies.

Double Major Requirements

Students wishing to combine studies in Criminology and Justice Studies with Sociology should be aware that it is possible to graduate with a Bachelor of Arts with double majors in these two fields. Please see Double Major Requirements under Academic Regulations and Graduation Requirements for more details.

Special Conditions for the Bachelor of Arts in Criminology and Justice Studies

Each course counted toward the major must be completed with a grade of C (2.0) or better. A minimum of 18 units of the major must be completed at Cal State San Marcos.

**MINOR IN DANCE**

**Office:**
Arts Building, Third Floor

**Telephone:**
(760) 750-4137

**VPA Department Chair:**
William Bradbury, D.M.A.

**Faculty:**
Karen Schaffman, Ph.D.

**Program Offered:**
• Minor in Dance

The Minor in Dance offers students the opportunity to pursue integrated studies in dance and performance. Studio courses emphasize contemporary dance techniques, choreography and performance. Critical courses discuss the historical, cultural, and political significance of dance and bodily movement as both a social institution and an art form. Students are required to take one course from other art disciplines in order to explore linkages between dance and other art forms.

**Special Conditions for a Minor in Dance**

All courses submitted for the Minor must be completed with a grade of C or better. Twelve (12) units of study must be completed at CSUSM. Courses submitted for the Minor may also be used to satisfy General Education requirements. Visual and Performing Arts (VPA) majors may pursue this Minor if nine (9) units are mutually exclusive, i.e., not double-counted for the major and minor.

**Requirements**

ECONOMICS

Office: SCI II, Room 135

Telephone: (760) 750-4103

Department Chair: Roger A. Arnold, Ph.D.

Faculty: Roger A. Arnold, Ph.D.  Robert Brown, Ph.D.  Ranjita Ghiara, Ph.D.  Robert Rider, Ph.D.

Programs Offered:
• Bachelor of Arts in Economics
• Minor in Economics

The student majoring in economics will acquire a set of analytical tools and a way of thinking that will help him or her to better understand and predict the behavior of individuals, groups, and societies. Learning economics does for the undergraduate student what corrective lenses do for the person with impaired eyesight: it brings the world into focus. Things that were invisible become visible, the complex and hard-to-understand become simple and easily understood.

Economics is the study of human behavior as it relates to the condition of scarcity: that is, the condition where resources are limited in relation to human wants. An important part of economics is the study of how individuals, groups, and societies deal with scarcity through markets or exchange-like institutions. Economic theory is sufficiently powerful to explain many varieties of exchange relationships. This is evident in the number of fields in which economic analysis is currently utilized, such as business, history, law, psychology, political science, and sociology.

Economics has always been a highly respected field of study, but in the past three decades its reputation has soared. There are perhaps three major reasons for this change. First, many people have come to realize that economics plays an important role in their everyday lives. Recession, inflation, the exchange value of the dollar, the savings rate, interest rates, taxes, mergers, government expenditures, and economic growth all matter. These economic factors touch lives; they affect dreams. Second, economists have developed better tools and more refined methods of analysis: they have successfully extended their analytical apparatus and the economic way of thinking beyond the traditional confines of the science.

Third, the one language that is becoming increasingly more universal is the language of economics. The American business person may not speak Japanese, and the Japanese business person may not speak English, but both of them know the language of supply and demand, profits, production, costs, international trade, and competition. Both of them know the language of economics.

Educational and Career Opportunities

The economics major provides the undergraduate student with a solid academic background for graduate study in a wide variety of areas. The most relevant areas include economics, business, and law. Career opportunities include positions in business, banking, journalism, government, law, and teaching. Economists are well-represented in occupations in both the private and public sectors. Students interested in knowing more about educational and career opportunities in economics are invited to speak with economics faculty members.

Preparation

High school students are encouraged to take four years of English, three to four years of mathematics, and an economics course (if available).

Transfer Students

Students may transfer a maximum of six (6) lower-division semester units in economics and a maximum of (6) upper-division semester units in economics, which may be applied toward the economics major or minor. Three (3) of the six (6) lower-division semester units must be in a course that clearly fits the course description in this catalog for ECON 201; three (3) must be in a course that clearly fits the course description for ECON 202. Upper-division semester units must be in courses that clearly fit the course description in this catalog for an upper-division level course and satisfy any conditions or prerequisites. However, all of the five required upper-division theory courses (ECON 301, 302, 303, 441 and 471) must be completed at Cal State San Marcos. All transfer courses must at least be equal in scope, content, and level to the equivalent Cal State San Marcos course.

Recommended Course of Study

For those students who are required to take ECON 201 and 202, it is recommended that ECON 201 be taken first. Students are required to complete their mathematics requirement (MATH 132 or 160) prior to taking the core theory courses. Students are required to complete MATH 242 before taking ECON 471. Students who expect to apply to do graduate work in economics are advised to speak to the department chair in economics at their earliest convenience for a suggested course of study.

Special Conditions for the Bachelor of Arts and the Minor in Economics

All courses counted toward the major and the minor, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. No more than two (2) units of ECON 497 may be counted toward the major. Students who have already received credit for ECON 250 at CSUSM may consult with the Economics Department Chair to gain permission to count ECON 250 as replacing either ECON 201 or ECON 202 (but not both courses) for purposes of satisfying the Preparation for the Major requirements, lower-division Minor requirements, and certain upper-division economics course prerequisites.

ELEMENTARY SUBJECT MATTER PREPARATION CERTIFICATE

The Elementary Subject Matter Preparation Certificate (ESMPC) provides prospective K-8 teachers another academic pathway to a career. This certificate allows these students to choose a Major other than Liberal Studies, and still demonstrate subject matter coverage in their undergraduate training. Students may select and complete any Major offered at CSUSM, and concurrently complete the coursework for the certificate.

The ESMPC prescribes a particular pathway through most of the General Education requirements of the bachelor’s degree, and it prescribes additional coursework to ensure breadth of study across disciplines. In many cases, depending upon the Major selected by the student, the ESMPC and Major may be completed within the normal total of 120 units for the Bachelor of Arts degree. (Students should consult a Liberal Studies Advisor for specific guidance on how to combine the certificate with various Majors.)

Students who complete the ESMPC, like all prospective elementary level teachers, will still have to pass a state approved test. The ESMPC helps students to strengthen their grasp of the core subject matter areas of the K-8 curriculum and prepare themselves for passage of a state approved test. The certificate confers formal recognition that the student has completed the full breadth of ESM coursework needed for effective elementary-level instruction. The certificate demonstrates that the student’s exposure in the subject matter areas extends beyond the minimum standard indicated by passage of a standardized test.

The ESMPC is awarded at time of graduation to students who have completed all certificate coursework along with any Major degree program. All courses applied to the certificate must be completed with a grade C (2.0) or better. Coursework applied to the certificate may also be applied to fulfill Major, Minor, and GE requirements. Prospective elementary level teachers will still have to demonstrate subject matter competence by passing a state approved test before admission to a credential program.

Program Offered:
• Minor in Ethnic Studies

The Minor in Ethnic Studies at Cal State San Marcos offers students majoring in another discipline the opportunity to study critically and systematically the experiences of racial/ethnic groups that have been economically, educationally, politically, legally, and/or socially disadvantaged. It analyzes how these groups have been integrated or not into society(ies) and how race/ethnicity has shaped identity. Offering global and U.S. perspectives, the minor supports the founding Mission Statement of the University by helping to prepare students “to live cooperatively and competitively in a world of cultural and ethnic diversity.” Since the minor helps students better understand the multi-ethnic cultures of which many modern nations are comprised, it enhances courses of study leading to career fields in both public and private sectors, such as business, education, law, medicine, public health, corrections, social work, journalism, public relations, politics, psychology, international relations, and creative writing. It also helps to prepare students for graduate study in related fields.

Advising
Information and advising will be provided by the Coordinator for the Minor in Ethnic Studies. Interested students should meet with the Coordinator as soon as possible to declare the minor and to develop an appropriate, personalized theme of study that complements a student’s interests and career goals (e.g., African-American, Borderlands, Comparative Multicultural Studies). Petitions for lower-division course credit, and petitions to apply to the minor courses not listed on the next page, must be submitted to the Coordinator.

Special Conditions for a Minor in Ethnic Studies
Each course counted towards the Minor must be completed with a grade of C (2.0) or higher. At least nine (9) units of study must be unique to the Minor (i.e., may not be counted towards other major, minor, or general education requirements).

Recommended Course of Study
In the Minor, coursework is arranged in five (5) areas: Introduction to Comparative Ethnic Studies, Historical Approaches, Identity and Culture, Power and Social Justice, and Voices. The first two areas represent foundations, and these courses should be taken first. The next three areas are explorations, and these courses may be taken in any order.
Requirements for a Minor in Ethnic Studies

Completion of twenty-one (21) units of credit, eighteen (18) of which must be at the upper-division level. Students must take at least three (3) units in each of the five areas indicated below.

a. Introduction to Comparative Ethnic Studies is an introduction to the struggles of racial and ethnic groups, their relationships to each other, and to the organization of society. This course includes issues such as immigration, slavery, confinement, institutional inequality, and resistance. Interdisciplinary approaches and examination of critical race/ethnic theory provide a foundation for the minor.
Select one course: 3
ID 340
SOC 313

b. Historical Approaches is an intensive study of the history of groups and issues over time. It provides students with in-depth understanding of the dynamics of racial/ethnic struggles.

Two (2) elective courses: 6
selected from any of the five categories. A course may also be petitioned through the Coordinator for acceptance, providing at least half the course is devoted to studies of race/ethnicity.

Total Units 21
Program Offered:
- Minor in Film Studies
  Film is an art form that defines our time, offering penetrating insights into human behavior, cultural and social change, and the relationship between past and present. The Minor in Film Studies enables students to examine film and filmmaking through a series of courses covering the history, aesthetics, social and cultural impact, and criticism of the motion picture. Student experience in film and video production is a significant element of the program.

The primary purpose of the Minor in Film Studies is to enhance student learning regarding: 1) the production of film, 2) global history of film, 3) interpretation of film, 4) the uses of film, and 5) the art of filmmaking. The unique aspect of the minor is its combination of production and interpretation format. Students at CSUSM will better understand the art of filmmaking. They will do so not only by analyzing films with the help of theories, but also by having the collaborative experience of making at least one short film.

The secondary purposes of the Minor in Film Studies are numerous. They loosely fit under three categories: educating an existing public, supporting the University Mission Statement, and building long-term community linkages.

Requirements for a Minor in Film Studies

Completion of eighteen (18) units of credit, twelve (12) units of which must be at the upper-division level.

MINOR IN FRENCH

Office:
University Hall, Second Floor

Telephone:
(760) 750-4208

Faculty:
Veronica Anover, Ph.D.

Foreign Language Proficiency Assessor:
Vacant

Program Offered:
• Minor in French

French is a global language and there are over 169 million francophones (French speakers) throughout the world. French is an official language of many international organizations such as: the United Nations, UNESCO, NATO, Organization for Economic Cooperation and Development (OECD), the International Labor Bureau, the International Olympic Committee, the 31-member Council of Europe, the European Community, the Universal Postal Union, the International Red Cross, the Union of International Associations (UIA), Doctors Without Borders (Médecins sans Frontières), and the PeaceCorp.

The Minor in French provides a more intense development of skills and knowledge of the French language, and of French and Francophone cultures and literatures, giving the students an opportunity to follow a course of study that will be supplementary or complementary to their majors. Not only does it give students a way to demonstrate global engagement and knowledge, but it also aims to make them more marketable in our global economy by providing them with insights and understanding of the French and Francophone world at large.

The program is designed to develop advanced-high communicative proficiency in all four language skills: listening, reading, speaking, and writing. Advanced grammar and composition courses will provide the level of proficiency mentioned above.

Students choosing to pursue a Minor in French will be introduced to the French and Francophone world and its cultural, economical, political and social issues of today through readings from the press, French TV news, movies and documentaries. The French Minor gives students a comprehensive understanding of the French and francophone culture, literature, and language developing at the same time a sense of awareness, understanding and analysis.

Requirements for a Minor in French

To fulfill the Minor in French, students must complete the following curriculum, at minimum (15) units. Students may apply up to six (6) units of transfer credit toward the minor. Students must earn a grade of a C or higher in each course for the minor.

**Units**

I. Lower-division (6-12)
   - Proficiency through FREN 102 0-6
   - FREN 201 or equivalent 3
   - FREN 202 or equivalent 3

   To determine equivalent, consult with French Program advisor. Students must successfully pass the French Challenge Exam to be granted equivalency on the desired courses. Upper-division courses cannot be challenged.

II. Upper-division (8)
   - FREN 311 3
   - FREN 312 3

III. French Electives
   - 3 (3 units of one of the following upper-division French courses and/or 3 units of one upper-division Literature and Writing course):
     - FREN 314
     - FREN 315
     - FREN 350
     - FREN 380
     - FREN 390
     - LTWR 410

Total Units 15-21
MINOR IN GERMAN

Office:
University Hall 205

Telephone:
750-8076

Faculty:
Michael Hughes, Ph.D.

Program Offered:
• Minor in German

The Minor in German provides a focused development of German language skills and knowledge of the cultures and literatures of German speaking peoples. The Minor offers students a course of study that provides an important supplement or complement to their majors. It aims to provide more tools for understanding globalization while providing students with insights and understanding of the German and Germanic cultures.

The program is designed to develop a high level of communicative competence in all four language skills-listening, reading, speaking, and writing-through a focused collection of advanced grammar and composition courses.

Students pursuing the Minor in German will be introduced to the German-speaking world through important cultural, economic, political, and social issues presented via readings from the press, German TV, movies, and documentaries, and a variety of literary works from different genres. The Minor in German gives students a comprehensive understanding of German-speaking cultures, literatures, and language, while developing enhanced awareness, understanding, and analysis of cultural and social phenomena rooted in a shared language.

Requirements for a Minor in German

To fulfill the requirements for the German Minor, students must complete the following curriculum, at minimum twelve (12) upper-division units. Entry into the upper-division courses is contingent upon completion of GRMN 202 or demonstration of equivalent proficiency through examination. Students may apply up to six (6) units of upper-division transfer credits toward the Minor. A grade of C (2.0) or better must be earned in each course applied to the Minor.

Units

I. Lower-Division Preparation for the Minor:
   Demonstrated Proficiency through GRMN 202
   GRMN 101 4
   GRMN 102 4
   GRMN 201 3
   GRMN 202 3

   Total Lower-Division Coursework 0-14

II. Required Upper-Division Coursework:
   GRMN 311 3
   GRMN 312 3
   GRMN 350 3

   Total Upper-Division Coursework 9

III. Upper-Division Elective
   GRMN 315

Program Offered:

• Minor in Global Studies

The Minor in Global Studies provides students with the opportunity to study international affairs from a variety of disciplinary perspectives. Students can choose from an approved list of courses from Economics, History, Liberal Studies, Literature and Writing Studies, Philosophy, Political Science, Visual and Performing Arts, World Languages and Literatures, and Women Studies. The Minor allows students to specialize in one of five geographic regions: the Americas, Asia, Europe, the Middle East and North Africa, or Sub-Saharan Africa, and one of four global issue areas: Global Security, Global Political Economy and Development, Comparative Global Issues, or Gender in the International System. The Global Studies Minor will be useful to students pursuing careers in education, international business, international development, international organizations (e.g., United Nations), law, non-governmental organizations focusing on international affairs (e.g., Amnesty International and "think tanks" such as the Heritage Foundation), public service, and graduate study in related fields.

Requirements for a Minor in Global Studies

The minor requires eighteen (18) units of credit, fifteen (15) of which must be at the upper-division level. Political Science majors may count either PSCI 331 or PSCI 350 as well as one other upper-division PSCI elective toward both their major and the Global Studies minor for a total of six (6) double-counted units. All other majors may double-count up to a maximum of nine (9) units of upper-division coursework toward their major and the Global Studies minor.

Units

a. World History/World Geography 3
One of the following courses:
HIST 202 or GEOG 201

b. Comparative Politics/International Relations 3
One of the following courses:
PSCI 331 or PSCI 350

HIST 202 and PSCI 331 are recommended for students interested in studying a specific region of the world while PSCI 350 and GEOG 201 are recommended for students interested in studying the international system. Political Science majors may “double count” PSCI 331 or PSCI 350 for both their major and the Global Studies Minor.

c. Upper-Division Geographic Area Electives 6

Select at least two courses for a total of at least six (6) units from different disciplines in one geographic area:

The Americas
Asia
Europe
Middle East and North Africa
Sub-Saharan Africa

Courses used to satisfy the geographic area requirement cannot also be used to satisfy the global issues requirement below.
d. Upper-Division Global Issue Electives 6

Select at least two courses for a total of at least six (6) units from different disciplines in one global issue area:

- Global Security
- Global Political Economy and Development
- Comparative Global Issues
- Gender in the International System

Courses used to satisfy the global issues requirement cannot also be used to satisfy the geographic area requirement above.

Total Units 18

Courses that may be used in the geographic and global issues areas are listed below.

**The Americas**
- GEOG 305
- GEOG 305S
- GEOG 340C
- HIST 352
- HIST 355
- HIST 356
- HIST 359
- ID 301
- ID 306
- MUSC 390
- MUSC 423
- PSCI 338
- PSCI 341
- PSCI 348*
- PSCI 449*
- PSCI 357*
- PSCI 361
- PSCI 362*
- SPAN 350B
- TA 421*
- WLAN 370*

*Where course content is appropriate to the Americas

**Europe**
- FREN 315
- FREN 350
- GEOG 340D
- GRMN 315
- GRMN 350
- HIST 307
- HIST 308
- HIST 322
- HIST 323
- HIST 324
- HIST 325
- HIST 326
- HIST 327
- HIST 381
- HIST 382*
- HIST 388
- LTWR 308A
- LTWR 308B
- LTWR 402
- PSCI 335
- PSCI 348*
- PSCI 357*
- PSCI 362*
- PSCI 390*
- PSCI 397
- SPAN 350A
- VSAR 307
- WLAN 370*

*Where course content is appropriate to Europe

**Asia**
- GEOG 340B
- HIST 363
- HIST 364
- HIST 365
- MUSC 395
- PHIL 318
- PSCI 348*
- PSCI 449*
- PSCI 357*
- PSCI 358
- PSCI 362*
- VPA 320

*Where course content is appropriate to Asia

**Middle East and North Africa**
- HIST 384
- HIST 385
- PSCI 339
- PSCI 348*
- PSCI 364A
- PSCI 364B
- PSCI 449*
- PSCI 357*
- PSCI 362*

*Where course content is appropriate to the Middle East and North Africa

**Sub-Saharan Africa**
- GEOG 340A
- HIST 371
- HIST 374
- MUSC 391
- MUSC 424
- PSCI 337
- PSCI 348*
- PSCI 449*
- PSCI 357*
- PSCI 362*

*Where course content is appropriate to Sub-Saharan Africa
Variable Content Courses
For each of the geographic areas listed above students may petition to have the following variable content courses approved for geographic area credit when the course syllabus is appropriate to one specific geographic area of the world:

- LTWR 302
- LTWR 320
- LTWR 330
- LTWR 331
- LTWR 332
- LTWR 333
- LTWR 410
- LTWR 420
- LTWR 430
- LTWR 503
- LTWR 504
- WLAN 331

Global Security
- HIST 306
- HIST 349
- HIST 381
- HIST 388
- PSCI 355
- PSCI 357
- PSCI 358
- PSCI 361
- PSCI 362
- PSCI 364A
- PSCI 364B
- PSCI 365
- PSCI 390*
- PSCI 450
- PSCI 455
- PSCI 461
- PSCI 469

Global Political Economy and Development
- ECON 441
- ECON 442
- ECON 443
- ECON/PSCI/WMST 445
- HIST 389/PSCI 363
- PSCI 390*
- PSCI 396
- PSCI 431
- PSCI 460
- WMST 375

Comparative Global Issues
- BRS 400
- DNCE 320
- DNCE 321
- ECON 311
- ECON/PSCI/WMST 445
- HIST 381
- HIST 382
- HIST 383
- LTWR 310
- LTWR 320
- LTWR 410
- LTWR 420
- MUSC 392
- MUSC 421
- PSCI 390*
- PSCI 396
- PSCI 399
- PSCI 431
- PSCI 460
- VPA 311
- SPAN 315

*Where course content is appropriate to Global Security

*Where course content is appropriate to Comparative Global Issues

Gender in the International System
- ECON/PSCI/WMST 445
- HIST 316
- HIST 327
- HIST 355
- HIST 383
- HIST 384
- SOC 315*
- VSAR 322
- VSAR 326
- WMST 375
- WMST 416
- WMST 490

*Where course content is appropriate to Gender in the International System

Additional courses may be approved to satisfy these requirements as additional courses are added to the University curriculum. Students may obtain the most current list of approved courses from the Program Coordinator, a Staff Advisor, or at the Political Science Department office.
History interprets the past for the present by exploring the institutions, ideas, cultures, and creations of men and women in the context of time and place. It is focused on change over time; both change of the subjects of study and of historians’ attempts to make sense of those subjects. History ranges over all of recorded human experience, naturally interfacing with the arts, sciences, social sciences, and other humanities.

The student of history will learn to evaluate evidence critically, to sift and organize evidence fairly and persuasively, to analyze the evidence for its patterns and meanings, and to integrate this into a broad context of human experience.

Historical study provides perspective, helping individuals to place their own lives, values, and world events in context, and to recognize the processes of change that have brought them to the present.

History majors find careers in a great variety of fields. History is a traditional preparation for law, foreign service, teaching, public affairs, journalism, and work in museums or historical societies. History majors hold such diverse positions as presidents of banks, personnel officers, senators, network news anchors, purchasing agents, city managers, judges, small business owners, and public safety officers. In addition, there is a growing arena of careers directly related to history — museum directors, curators, historical consultants, archivists, historical site administrators, and historic preservation officers. Both government agencies and private corporations hire historians to research, analyze, and organize their records. Many of these latter careers require some graduate work in history.

Preparation for the Major

Completion of twelve (12) units of lower-division history study, which must include exposure to two world areas in sequence is required. Completion of a writing composition course is required. Completion of nine (9) units of work in related fields comprised of six (6) units of coursework in one of the following: literature, religion, political science, economics, sociology, fine arts or in a single interdisciplinary field is required. One course (3 units) in a second and distinct subject from those listed above. Competency in a foreign language, equivalent to three semesters (an intermediate level) of study at the university or college level, is also required.

Major Requirements

In addition to the lower-division courses completed as preparation, the major requires thirty-three (33) upper-division units including nine (9) units in a primary thematic field, six (6) units in a secondary thematic field, successful completion of HIST 301 and a 400-level history seminar course, and twelve units of electives in history. One upper-division course must have the majority of its content before 1800. Courses in the major must be taken from at least three different world areas that include: Africa, Asia, Europe, Latin America, Middle East, United States and Comparative/Transnational History.

One course must have considerable content on Women’s History/Gender. All majors must complete and submit a portfolio of their coursework including a written narrative for evaluation by the department during their final semester before graduation.

All HIST courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. No more than three (3) units of internship may be counted toward the major.

Preparation for the Major

Units

Lower-division (24)
Lower-division History courses including:
Two sequences in two different world areas 12
Related breadth courses including:
Two courses in Literature, Religion, Political Science, Economics, Philosophy, Sociology, Anthropology, the Arts or a single interdisciplinary field 6
One course in a second and distinct subject from those listed above 3
GEW 101 or equivalent* 3

Total Units 24

Major Requirements

Units

Upper-division History courses are to be distributed as follows:
Primary theme to include: 300 level History courses 9
400 level History seminar course 3
Secondary theme distinct from the primary theme (courses may not be the same courses as used for the primary theme) 6
Upper-division History Electives 12

Total Units 33

Of the 33 units:
a. One course must have the majority of its content before 1800.
b. Courses must be taken from at least three areas that include: Africa, Asia, Europe, Latin America, Middle East, United States and Comparative/Transnational History.
c. Note: One course must have considerable content on Women's History/Gender.

Note: requirements a, b, c may be fulfilled simultaneously with other upper-division History requirements.

Supplemental requirement:
Students must complete and submit a portfolio of their coursework including a written narrative.

SINGLE-SUBJECT PREPARATION IN SOCIAL SCIENCE, HISTORY MAJOR OPTION

Students interested in majoring in History and teaching at the secondary level may elect the Single-Subject option in Social Science. For certification of this option, students must maintain a 2.7 GPA both in overall work and in all courses used to complete the major and option.

Summary of Requirements

Lower-division Preparation (27)

Lower-division History Courses including:
United States History Survey 6
HIST 130*** and 131*** or equivalent 6
World History 6
HIST 201 and 202 or equivalent 6

Related breadth courses including:
United States Government 3
Choose one of the following:
PSCI 100***
PSCI 300
PSCI 415 or equivalent

Political Science Electives (may be taken at the lower- or upper-division level) 3
Economics 6
ECON 201 and 202
GEW 101 or equivalent** 3
Total Units 27
Supporting requirements:
Lower- or upper-division electives in Psychology and/or Sociology 6
**Strongly recommend before taking History courses numbered higher than 299.

Upper-division History Electives 9

MINOR IN HISTORY
A Minor in History shall consist of twenty-one (21) units of study in History. Twelve (12) units must be in upper-division courses. Students must include in their program courses in at least two world areas, and one six-unit sequence of course work, either at lower or upper-division. A six-unit (6-unit) sequence may consist of either two courses at the same level in which the content of the second continues chronologically the content of the first or a 300-level course and a 400-level seminar which builds on a theme covered in the 300-level course. Students must complete all courses counted toward the minor with a grade of C (2.0) or better, and may include no more than three (3) units of internship toward the minor.

Primary Theme distributed as follows:

- 300 level History courses 9
- 400 level History seminar course# 3
- Secondary Theme distributed as follows (courses may not be the same courses as used for the primary theme): 6
  - California History
  - HIST 347 3

Minor in History

Note: This major was under review at the time this catalog went to print.

Upper-division History

Excluding HIST 494, 495, 499

Students must complete and submit a portfolio of their coursework including a written narrative.

Total Units 30

***Also satisfies a lower-division General Education requirement.

***Strongly recommended to be taken at the beginning of the junior year.

Prerequisite for 400-level seminar.

Programs Offered:
• Bachelor of Arts in Human Development
  Areas of emphasis:
    - Adult and Gerontology Services
    - Children’s Services
    - Counseling Services
    - Health Services

The human development major is an interdisciplinary program that focuses on human growth and development throughout the life span, and on the familial, social, cultural, and political networks in which individuals develop. Course offerings are drawn primarily from psychology, sociology, and biology, with electives available from other programs offered by the college. The human development major is designed to prepare undergraduates to succeed in an increasingly diverse cultural, ethnic, economic, and political environment. Respect for those differences in the context of social services settings is an integral part of our program.

Special Conditions for the Bachelor of Arts in Human Development

All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units counted toward the human development major must have been completed at Cal State San Marcos.

Advising

Students may consult their faculty advisor to work on selecting an appropriate choice of elective courses to complement their area of emphasis and career goals. Examples from which students might choose are listed below under upper-division free electives.

Career Opportunities

Students with a bachelor’s degree in human development are qualified to work in a variety of settings related to providing services for others. These might include health care; child and adult daycare centers; community projects providing outreach to youth and adults; sales; service-related government agencies such as housing, law enforcement, and criminal justice; and assisting with community development, both in the United States and around the world. A bachelor’s degree in human development may also prepare students for graduate studies in marriage, family, and child counseling; social work; teaching; public administration; business; or the law. Students interested in these career opportunities should consult with advisors in appropriate areas before planning their programs. Finally, the human development major will prepare students for master’s and doctoral level training in fields such as sociology, anthropology, ethnic studies, clinical psychology, women’s studies, and human development.
**Bachelor of Arts in Human Development**

**General Education**
- Units: 51

Kimberley Knowles-Yáñez, Ph.D.

Programs Offered:

- Bachelor of Arts in Liberal Studies - Elementary Subject Matter Preparation Option (ESMP)
- Integrated Credential Program Option (ICP); also awards the multiple subject teaching credential/Authorization to Teach English Learners
- Bachelor of Arts in Border and Regional Studies*
- Elementary Subject Matter Preparation Certificate**

From the very founding of the modern university centuries ago, liberal arts education has featured the deliberate study of a range of academic disciplines. An educated person, according to this tradition, is one conversant not merely in the sciences, the arts, the social sciences, or the humanities, but across these fields. Liberal arts curricula have long sought to ensure in students a considerable breadth of intellectual development and practical training, even as specialized knowledge and skills have become more important in recent times. In today’s undergraduate curriculum, the combination of General Education requirements across disciplines, with the requirement to fulfill a specialized program of study in a single discipline, represents the compromise between these values of intellectual breadth and depth.

The programs offered under the heading of Liberal Studies provide an alternative to the recent trend toward intellectual specialization. Liberal Studies programs emphasize the traditional value of breadth in a liberal arts education. The Liberal Studies Major allows students to sustain their exposure to a variety of intellectual disciplines and explore a broad range of fields. Students select a particular field in which to pursue greater depth of study, but that depth is explored against a richer background of broad exposure to the arts, humanities, and sciences. As a result, students are better prepared to understand interdisciplinary and multidisciplinary connections and appreciate the cross-fertilization of concepts, methods, and values among fields of academic endeavor. The goal of Liberal Studies programs is to produce graduates who are intellectually well-rounded, competent in a broad range of skills, and experienced in a variety of educational settings.

* Also housed in the Liberal Studies Department. This degree is pending official authorization from the Office of the Chancellor of the California State University. See page 112 for the Bachelor of Arts in Border and Regional Studies major.

** See page 131 for the Elementary Subject Matter Preparation Certificate. Please note: When this catalog was prepared, the Elementary Subject Matter Preparation Certificate was still under review, awaiting final faculty approval. Please visit the Liberal Studies web site for up-to-date information on this and other programs: http://www.csusm.edu/liberalstudies/
For these reasons, Liberal Studies programs offer excellent curricular pathways to students interested in a career in elementary school teaching, self-contained classrooms most commonly found in grades K-8. Effective teaching in the K-8 setting reaches across the arts and sciences, incorporating multiple ways of knowing and methods of study. Elementary teachers must be conversant in a variety of fields, in order to present the range of basic knowledge included in the K-8 curriculum. Liberal Studies programs, which are based on state-wide standards for teacher training in the core areas of elementary-school subject matter, are explicitly geared to prepare students to demonstrate their competency in the subject matter areas of K-8 teaching. Coursework is selected to address the seven core subject matter areas comprised by the K-8 curriculum: Reading, Language & Literature; History & Social Science; Mathematics; Science; Visual and Performing Arts; Human Development; and Physical Education. In addition, students in the Liberal Studies Major choose a Depth of Study module that explores one of these areas in greater depth.

By this design, Liberal Studies programs prepare students for passage of the California Subject Examination for Teachers (CSET). The CSET is a test of the future teacher’s mastery of the subject matter delivered in K-8 curricula; passage of the CSET is a prerequisite for entry into most post-baccalaureate credential programs (including CSUSM’s) and is currently required for recommendation of a California credential. Liberal Studies programs aim to prepare graduates for smooth entry into the next stages of teacher training, and to ensure that, as future teachers, they attain rich command of the subjects that they will teach to students. Liberal Studies offers various programs suited to different student interests and goals. The Liberal Studies Major is a complete undergraduate program leading to the Bachelor of Arts degree. The Major takes two different forms, or options: Both options are suitable for “native” CSUSM students and transfer students; coursework at California community colleges can be applied to Liberal Studies requirements.

1) The Elementary Subject Matter Preparation option (ESMP) provides focused preparation for entry into post-baccalaureate, multiple subject teaching credential programs.

2) The Integrated Credential Program (ICP) option combines undergraduate coursework with the curriculum of a fifth-year multiple subject teacher credential program/ Authorization to Teach English Learners.

Both options share the same coursework to meet certain first- and second-year (lower-division) General Education requirements, as well as a number of upper-division breadth-of-study requirements. Both options also require students to select a Depth of Study module of coursework linked to one of the seven subject matter areas.

A different pathway to careers in elementary teaching is provided by the Elementary Subject Matter Preparation Certificate (ESMPC). This is a “stand-alone” certificate program that can be combined with any major in the College of Arts and Sciences. See page 131 for more information. The ESMPC, when combined with any Major in the College of Arts and Sciences, likewise provides preparation for graduate-level, multiple subject credential programs. Like the Liberal Studies Major, the ESMPC prescribes a particular pathway through the General Education requirements of the baccalaureate degree; completion of the certificate curriculum ensures the student’s preparedness in the subject areas of the K-8 curriculum. The ESMPC is a package of coursework that the student combines with the required curriculum of an undergraduate Major, leading to a Bachelor’s degree. (Students interested in the Certificate should consult the Liberal Studies Program for advising help; some Majors are less suitable for combination with the Certificate, leading to additional units of study beyond the 120 typically required for the Bachelor of Arts degree.)

Career Opportunities

Graduates of Liberal Studies programs are well-positioned for entry into CSUSM’s Multiple Subject Credential Program. For complete and up-to-date information, please contact the College of Education or visit their web site.

Special Conditions for the Bachelor of Arts in Liberal Studies

Students must complete a minimum of 30 units in residence at Cal State San Marcos. A minimum of 40 upper-division units is required for graduation. All courses counted toward the major, including Preparation for the Major, must be completed with a grade of C (2.0) or better. No course used for Preparation for the Major, Breadth of Study, or Depth of Study may be taken for a grade of Credit/No Credit.
BACHELOR OF ARTS IN LIBERAL STUDIES

Preparation for the Major  42
Breadth Requirements   15
Depth Requirements   15-17

Liberal Studies Total Units  72 - 73
Additional GE requirements  12-21

Students must take a sufficient number of elective units to bring the total number of units to a minimum of 120

Please consult a Liberal Studies Advisor for recommended teacher preparation electives.

Preparation for the Major
(Lower-Division: 42 units)

All options have the same lower-division requirements. These requirements address the seven core subject matter areas of the K-8 curriculum. Because of the considerable curricular breadth required by the State-specified ESM content preparation standards, many of the required lower-division courses also meet CSUSM’s General Education requirements. However, because of state specifications, there are very limited substitution options in the curriculum. Courses are clustered around the seven subject matter areas specified by State accreditation agencies.

Breadth Requirements

History and Social Science (HSS)
HIST 201 (LDGE C2)  3
HIST 130 (LDGE D6)  3
GEOG 201 (LDGE D)  3
or GEOG 302

Mathematics (MATH)
MATH 210  3
MATH 212 (LDGE B4)  3

Science (SCI)
GES 105* (LDGE B1)  3
GES 102 (LDGE B2 & B3)  3
ES 100  3

Depth Requirements

Reading, Language, and Literature (RLL)
LING 100  3
One of the following:  3
LTWR 100 (LDGE C2)
LTWR 208A (LDGE C2)
LTWR 208B (LDGE C2)
LTWR 210 (LDGE C2)

Visual and Performing Arts (VPA)
One of the following:  3
VPA 101 (LDGE C1)
DNCE 101 (LDGE C1)
MUSC 120 (LDGE C1)
TA 120 (LDGE C1)
VSAR 120 (LDGE C1)
Any VPA Studio Course**  3

Human Development (HD)
PSYC 210 (LDGE D7)  3

Physical Education (PE)
PE 201*** (LDGE E)  3

In addition, students must complete coursework approved to fulfill the following Lower-Division General Education requirements:

US and CA government (Dc and Dg)  3
Oral Communication (LDGE A1)  3
Written Communication (LDGE A2)  3
Critical Thinking (LDGE A3)  3
PHIL 110 recommended

Total Additional Lower-Division Units  12

Option 1: Elementary Subject Matter Preparation (ESMP)

This option of the Liberal Studies Major builds upon the broad-ranging, basic coursework completed in preparation for the major, taking students into more advanced territory across a number of fields. In addition, this continuing breadth of study is complemented by a more focused, intensive set of courses providing students with deeper study of a chosen subject matter area. The breadth requirement is designed to give prospective K-8 teachers additional subject matter knowledge to enhance their effectiveness in the classroom. The depth requirement provides exposure to higher order thinking and more advanced skills development in one of the core subject matter areas of the K-8 curriculum. Students select one of many depth-of-study modules designed to provide an integrated, focused continuation of studies in that area.

Finally, these requirements are further supplemented by the completion of general elective courses sufficient to accumulate a total of 120 units of study. In selecting these electives, students are advised to remember that a minimum of 40 upper-division units are required for graduation.

**Must be taken in a different subject area than the LDGE C1 course. See an advisor for recommended studio courses. Examples include:
DNCE 201, 301, 320, 390;
MUSC 302, 390, 391, 392, 394, 395, 480;
TA 301, 401, 480, 489;
VPA 321;
VSAR 301, 302, 303, 480

***Students must also complete a health unit. PE 201 is expected to be replaced by a new course (tentatively numbered PE 203) which will include such a unit.

* Students selecting a Science Depth of Study Module must take CHEM 150 and either PHYS 101 or PHYS 205, instead of GES 105.
**Breadth of Study Requirement**

(Upper-Division: 15 units)

Courses must be taken in the following areas, in order to fulfill the Breadth of Study requirement. In some areas, only a single course can fulfill this requirement, as listed; in others, a variety of courses is suitable. Additional courses may be approved to satisfy these requirements, as additional courses are added to the College curriculum. Students should consult a Liberal Studies advisor in order to obtain an up-to-date list of approved courses.

- **Mathematics**
  - MATH 311 3

- **Linguistics**
  - LING 300 3

- **California History**
  - HIST 347 3

- **Interdisciplinary Studies**
  - One from the following list* 3
    - ANTH 301, 325, 370, 470
    - BRS 300
    - GEOG GEOG, 305, 305S, 320, 325, 3403
    - ID 301, 304, 305, 306, 350, 410
    - LBST 301, 307, 361, 362, 375
    - LING 304, 305, 341, 371, 381
    - TA 323, 325
    - VSR 323
    - WMST 424

- **Multicultural Studies**
  - One of the following*: 3
    - ID 340
    - SOC 311
    - SOC 313
    - WMST 301

* See advisors for updated lists.

**Total Breadth of Study Units** 15

In addition, students must take courses that fulfill the following Upper-Division General Education requirements, unless already fulfilled by a course taken to satisfy the Liberal Studies degree:

- **Area BB**
  - Natural Sciences and Mathematics
- **Area CC**
  - Humanities and the Arts
  - A Literature and Writing Studies course is recommended.
- **Area DD**
  - Social Sciences

**Depth of Study Requirement**

(15-17 units)

All students must fulfill the Depth of Study requirement by selecting and completing a 15-16 unit module of coursework clustered around one of the seven K-8 subject areas. Various modules are developed and offered by faculty in related academic fields. Each module is designed to provide the student with a more focused and sustained study of a particular subject matter area. Depth of study allows students to gain appreciation of the full development of a given academic field, from basic concepts and methods to more advanced applications and theoretical horizons. Prospective teachers may select a module in a given subject area in order to develop a particular classroom specialty, or just to pursue an intellectual or creative interest. Each module includes an overall assessment of the student’s grasp of the field. As a final graduation requirement, each module includes an overall assessment of the student’s grasp of the field.

Depth of Study coursework may also be applied toward completion of a Minor. (An official declaration of the Minor must be filed with Registration and Records.)

The following modules are available. Complete descriptions, including current course requirements, are available from the Liberal Studies Advisors and are posted on the Liberal Studies web-site.
Option 2: Integrated Credential Program (ICP)

The second option of the Liberal Studies Major actually combines two programs, leading to the baccalaureate degree and also the multiple subject teaching credential. The Integrated Credential Program (ICP), offered by faculty in both the CSUSM College of Arts and Sciences (COAS) and the CSUSM College of Education (COE), enables prospective teachers to complete these programs at an accelerated pace. The ICP meets SB2042 teacher preparation requirements, and conforms to the CSU Academic Senate framework for Integrated Teacher Preparation Programs (AS-2622-03/AA/TEKR).

ICP includes the ESM preparation for the major, all general education requirements, the breadth of study requirements, the depth of study requirement, COE pre-requisite courses, and COE multiple subjects credential program.

ICP is an upper-division curricular pathway. In the ICP, students concurrently complete the upper-division coursework of the Liberal Studies Major and the multiple subject credential program. When combined with the four semesters of lower-division preparation for the Major, the ICP provides an opportunity for the full-time student to earn the bachelor’s degree and the teaching credential in nine semesters of full-time study, rather than the ten normally needed to complete these programs.

In order to ensure this accelerated pace of study, coursework in the program follows a highly-structured pathway. After four semesters of lower-division study in preparation for the major, ICP students complete five semesters of upper-division and credential coursework as members of a cohort group in a block-schedule format. The lower-division requirements in preparation for the ICP option are the same as those for Option 1 of the Liberal Studies Major.

Course delivery in the five upper-division and credential-program semesters is clustered around themed semesters: Literacy, Mathematics, Natural Science, Social Science, and Student Teaching. Each semester, students take undergraduate-level courses to expand their knowledge of a basic subject area in the K-8 curriculum, and they take credential-program courses focused on teaching methods appropriate to that content area. As students advance through the program, they learn to harness their mastery of subject matter content to appropriate classroom teaching methods.

(Note: Students considering which Major Option to select should be aware that the choice could affect their starting teaching salary, upon completion of the bachelor’s degree and teaching credential. Before making a choice, students are urged to consult a Liberal Studies or ICP Advisor for further information.)

At the time of preparation of this catalog, the ICP curriculum was undergoing revision. Please consult the on-line catalog webpage (www.csusm.edu/academic_programs/catalog), the printed Catalog Addendum (to be printed in November 2006), a Liberal Studies Advisor, or visit the ICP webpage on the College of Education and Liberal Studies web sites for further information.
LITERATURE AND WRITING STUDIES

Office:
Markstein Hall, Room 137

Telephone:
(760) 750-4147

Department Chair:
Dawn M. Formo, Ph.D.

Faculty:
Oliver Berghof, Ph.D.
Susie Lan Cassel, Ph.D.
Dawn M. Formo, Ph.D.
Kenneth P. Mendosa, Ph.D.
Salah Moukhlis, Ph.D.
Lance Newman, Ph.D.
Martha Stoddard Holmes, Ph.D.
Mark Wallace, Ph.D.
Yuan Yuan, Ph.D.

Programs Offered:
- Bachelor of Arts in Literature and Writing Studies
- Single-Subject Preparation Option
- Minor in Literature and Writing Studies
- Master of Arts in Literature and Writing Studies

The Literature and Writing Studies Program replaces the former English major and provides three emphases: literature, writing, and a single-subject option for students who wish to apply for a secondary teaching credential or who prefer a major that more equally balances literature and writing than the first two options. Students continuing in prior catalogs may pick up a list of old and new course equivalencies at the Department Chair’s office or in the Department’s Administrative Coordinator’s office. In all major options, the LTWR 300A and 300B sequence is required and students are urged to enroll in LTWR 300A the semester they begin work on their major. Three- and four-hundred level courses may be taken with junior standing (or with consent of the instructor) and in any order, although higher-numbered courses may presume more background than those with lower numbers. Five-hundred level courses are graduate level that may also be taken by advanced undergraduates.

Department Mission Statement

The Literature and Writing Studies Department is a scholarly community of students and faculty committed to innovative teaching and learning. Critical reading, writing, and thinking occur in and serve a range of communities: local, regional, global, and historical. Therefore, we value the following principles:

- Cultural Studies and Diversity Studies: Cultural studies and diversity studies are central to our community. These two interdisciplinary approaches to the study of texts include consideration of perspectives such as gender, class, sexuality, disability, nationalism, ethnicity, and race. Cultural studies and diversity studies are fundamental to literary and writing studies and provide intellectual tools that enrich our analysis of texts within and across cultures.

- Canon Formation: Cultures, local and international, contemporary and historical, create canons. Canons are a significant result of each culture’s literary community. Therefore, comprehending canons, canon formation, and non-canonical texts is essential to understanding and contributing to literary and writing traditions.

- Theory and History: Theory and history serve as tools to help us explore and demonstrate our understanding of texts within and across cultures. A range of theoretical approaches and historical knowledge provide us with necessary thinking tools.

- Reading: Meaningful analysis requires careful reading. Engaging in close reading makes it possible to take account of rhetorical, prosodic, and other formal features. It also provides a careful grounding in the ideological, cultural, and institutional contexts in which meaning is produced and enriches our understanding of texts and the cultures from which they come.

- Writing: Creating and presenting texts and related media in a variety of genres enriches our understanding of the constructed nature of literary materials. The ability to produce clear and compelling communication in writing is fundamental to literary and writing studies.

Translations and Changing Meanings:
Understanding that the translation of texts across languages changes the meanings of these texts is crucial to interpretive skill-building. A reading knowledge of at least one language other than English is desirable for an advanced understanding of literature and writing in a global context.

Student Learning Outcomes

Students in the Department of Literature and Writing Studies develop critical reading and writing skills and learn to recognize that effective thinking and writing about texts must be informed by knowledge about relevant local, global, and disciplinary contexts. We have designed our departmental curriculum to help students develop and demonstrate the following abilities:

1) Clear and compelling communication in writing, speech, and other media;
2) Close textual analysis informed by a range of critical and theoretical approaches;
3) Knowledge of canons, alternative traditions, and their formation; and
4) Interpretation of multicultural and international texts in their local and global contexts.

We recognize that good reading knowledge of at least one language other than English is necessary for an advanced understanding of literature and writing, especially since the translation of texts from other languages changes their meaning.

Assessment of these learning outcomes occurs in a variety of ways: students are asked in our classes to complete many different kinds of writing assignments, including short essay exams, in-class responses, reading journals, research papers, thesis-driven essays, oral reports, and collaborative writing projects.
Literature Concentration

The design of the literature concentration reflects many recent movements in literary criticism and research. Our approach is not a method of teaching or scholarship so much as an attitude towards literari-ness such that writer, text, and audience are linked in a dynamic, on-going dialogue. Studying literature within cultural studies means going outside of the traditional canon, drawing upon research in related fields of history, sociology, visual arts, ethno-musicology, media theory and political science. At the same time, the major encourages greater concern for the material and formal nature of artifacts that, until recently, were thought to be transparent vehicles for self-evident ideas. To study a literary text implies that we address the “cultural text” as well.

Writing Concentration

The writing concentration provides direct-ed experience in writing expository prose, fiction, poetry for various media or professional audiences, as well as intensive work in practical criticism. An integral feature of the program places emphasis on student interaction through peer groups. Students who are developing themselves as writers will find courses regularly offered in various genres to develop their own style and breadth of experience in composing and criticism. Those interested in the teaching of writing will find the major a context both for writing extensive-ly and for dealing critically with the act of written composition.

Special Conditions for the Bachelor of Arts in Literature and Writing Studies

1. Courses taken to satisfy General Education requirements may not be used to satisfy the requirements in the major.
2. Credit/No Credit grading may be count-ed toward the major only for LTWR 495 and 499.
3. Elective units in literature and writing studies may be used toward a minor in another discipline. Consult the appro-priate program coordinator or faculty advisor for further information.
4. Course substitutions must be approved by petition to the Literature and Writing Studies Curriculum Committee.
5. All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better.
6. All five-hundred level courses have the prerequisite of either LTWR 300A or LTWR 300B.

*Three (3) lower-division GE units in Area C2 (Humanities) are automatically satisfied by courses taken in Preparation for the Major.

Educational and Career Opportunities

The Literature and Writing Studies major is prepared to think, speak, and write effec-tively. These skills are essential for many occupations including marketing, editing, reporting, creative and technical writing, business management, library science, medicine, public relations, teaching, social work, banking, government work, and law. LTWR students pursue a range of advanced degrees. We encourage majors to consider an internship during their senior year. For more information about internships and career opportunities visit our website at www.csusm.edu/ltwr. For more information about educational and career opportunities in literature and writing, students are invited to speak with LTWR faculty members.

### SINGLE-SUBJECT PREPARATION OPTION

The Single-Subject Preparation Option is designed for students who want to teach English in secondary schools in California. Students following this option obtain a Bachelor of Arts in Literature and Writing Studies and also complete a Single-Subject Preparation Program in English (formerly called a “waiver” program). Upon completion of the option, students may apply to a Single-Subject Credential Program (through a College of Education) where they complete a fifth year of professional training to be certified as a high school or middle high school teacher in English in California.

Students in this option must maintain a 2.7 GPA in all waiver courses, and a portfolio of work is required.

The Single-Subject Preparation Program in English is also available to students who have already graduated from Cal State San Marcos. In such a case, a student should make an appointment with the staff advisor in general advising services for a transcript evaluation.

MINOR IN LITERATURE AND WRITING STUDIES

Students in many vocational fields often find that special skills in reading or analysis as well as writing are useful in their future work. The minor is intended to develop those skills. The minor consists of fifteen (15) units of upper-division course work and three (3) units of lower, preparatory course work. Courses taken for Credit/No Credit grading may not apply to the minor. All courses counted toward the minor must be completed with a grade of C (2.0) or better.

Lower-division (3 units)

MASTER OF ARTS IN LITERATURE AND WRITING STUDIES

The Cal State San Marcos Literature and Writing Studies Department offers graduate study leading to the Master of Arts degree. Our mission is to prepare students for study at the doctoral level, for teaching at the community college level, and for occupations in the private and the public sectors that require a high degree of literacy. Rather than offering an emphasis in literature or writing studies at the master’s level, our program aims to balance and integrate these activities. Since we read writing and write reading, we see no purpose in studying one without the other. To do so would deny the integrity of our discipline.

Because most of our students are, or eventually will be, teachers, our intention is to provide a graduate teaching apprenticeship within the program that begins with classes, seminars, and close faculty mentoring, leading to internships, tutoring, and teaching assistantships. Qualified students may work in the University Writing Center or teach general education writing courses. Internships may also be arranged at community colleges or the California Center for the Arts.

Admission Requirements and Application

All applicants, including international students, must meet all the general requirements for admission to graduate studies at CSUSM. These university requirements are described in this catalog under Graduate Studies.

Admission to the program requires a bachelor’s degree, preferably in English, literature and writing studies, comparative literature, rhetoric, linguistics, or a comparable program.

Applicants with these and any other bachelor’s degree must have taken at least five upper-division courses of 3-4 units each in literature or writing from an accredited university. Admission decisions will be influenced by the breadth, appropriateness and grades of undergraduate course work. Applicants must have maintained a grade-point average of not less than 3.0 in the last 60 units of undergraduate study, and a 3.3 average in upper-division literature and writing courses.

All applicants must take the Graduate Record Examination (GRE). It is unlikely that students will be admitted with a verbal score of less than 500, and an analytical writing score below 2.

All applicants, regardless of citizenship, whose preparatory education was principally in a language other than English, must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of the following:

Application Materials sent directly to the Admission Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation
- GRE (and TOEFL/TWE, if appropriate) score reports.
- Three letters of recommendation (except undergraduate Literature and Writing Studies majors at Cal State San Marcos, who should indicate on the application form with whom they have taken courses as undergraduates).
- Application Materials (consisting of a Departmental Application Form, a California State University Admissions booklet and a leaflet describing the program) are available upon request from the Literature and Writing Studies Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001

Application Deadlines:

- November 15th for admission in Spring Semester.
- March 15th for admission in Fall Semester.
- The application fee must be submitted to the Admissions Office by these deadlines.
- Applicants will be notified of their status of application by January 1 for Spring admission and by June 1 for Fall admission.

Application may be made for Fall or Spring admission, but class and seminar scheduling (as well as available spaces) favor Fall applicants.

- A writing sample. This should be an analytical essay of no less than five pages on a literary topic. The essay should not be written for the purpose of admission, but instead provide a sample of the applicant’s best undergraduate work.
- A 750-1000 word “statement of purpose.” This statement should address educational and career goals, relevant educational background and research experience.
**Degree Requirements**

The program requires 30 semester hours (10 courses, one of which is thesis work) of studies, at least 18 units must be at 600 level. No more than six (6) units may be taken at the 400 level. Required courses are LTWR 600, 601, and 602, which should be taken as early as possible. A substantial thesis, approved and directed by the student’s thesis committee, is also required of all students. The grade-point average must be at least 3.0 to graduate.

The typical full-time student will complete the program in four semesters. Units earned not in residence at Cal State San Marcos are limited to six, and must be approved by the Graduate Studies Advisor. A maximum of nine units of courses graded credit/no credit (usually internships, independent study, and thesis work will be accepted in the program).

Finally, students must satisfy a foreign language requirement. Each candidate, with the approval of the graduate advisor, may fulfill the foreign language requirement in one of several ways: (1) by passing the Modern Language Association Reading Examination, (2) by passing a local examination administered by the university’s foreign language assessment process, (3) by completing one three-unit upper-division foreign language literature course with readings in the original language with a grade of C (2.0) or better, (4) by passing an examination to be determined by the Literature and Writing graduate advisor if the chosen language is not one taught in the program at Cal State San Marcos, (5) by successfully completing LTWR 511.

**Academic Continuation**

To continue in the graduate program, students must maintain a minimum cumulative grade point average (GPA) of 3.0 (A=4). A student whose cumulative grade GPA falls below 3.0 at any time is placed on academic probation. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program. Each student must present a formal thesis proposal to the thesis committee no later than the beginning of the third semester of study for full-time students, or after eighteen units have completed for part-time students. In addition, each student has to defend the completed thesis in front of his/her committee no later than four semesters following the approval of the thesis proposal. The overall time-to-degree limit for full and part-time students is five years after the beginning of coursework as conditionally classified or classified graduate student. No more than six units taken before admission to the graduate program may be applied to the degree.

**Thesis Proposal**

The thesis proposal consists of two parts: (1) the Literature and Writing Studies Program Thesis Committee Membership Form, (2) a thesis proposal (1000-1500 words), which includes proposed areas of research or topics of research, a bibliography, an outline of each chapter, a working plan of completion. The thesis proposal has to make a case for the validity of the project. By the second week of either fall or spring semester, the student has to have filled out a Thesis Membership Form and filed it, accompanied by a thesis proposal, with the Department’s Graduate Studies Advisor, the members of the thesis committee, and the Department’s Administrative Coordinator.

**Advancement to Candidacy**

To be advanced to candidacy, the student must do the following:

1. Be classified and in good standing;
2. Have completed fifteen (15) credits;
3. Have completed all required courses for the program;
4. Have a 3.00 GPA or above; and
5. Have a thesis committee formed and a thesis proposal approved.

**Thesis Requirements**

Research leading to the thesis will be the culminating experience for each student enrolled in the Master’s program. Each thesis committee will have a minimum of two members. LTWR graduate students may only choose among LTWR tenure-track faculty members for their thesis committee chair. The Chair of the committee ensures that the thesis conforms to program and university standards. S/he must have knowledge and expertise in the field of study and is responsible for the intellectual integrity, rigor, and quality of the research. The thesis chair and the coordinator of the graduate program must approve the composition of the committee. The student must submit the final thesis to the thesis committee at least two weeks prior to the oral defense and orally defend the final thesis at least two weeks prior to the end of a regular semester. In exceptional cases, thesis work can be completed in a thesis extension course, LTWR 699X.

**M.A. Thesis Options**

Students have three options:

- a thesis of 50-80 pages that represents a carefully developed argument
- in exceptional cases: three 30-page publishable papers
- a “creative writing thesis,” consisting of a 2-5 page abstract and either a complete manuscript of fiction (minimum 150 pages), a play or screenplay (90-120 pages), or a collection of poems (minimum 60 pages).
The third option is open to students based on completed coursework in consultation with the creative writing faculty and the Department’s Graduate Studies Advisor. It involves at least six units of creative writing coursework at the 500-level and assembling a portfolio.

To get credit for work on their theses, students have to sign up for LTWR 690 (Graduate Research) while conducting research and writing drafts on their theses, and for LTWR 699 (Graduate Thesis) in the semester, at the end of which they expect to turn in the revised and completed theses. LTWR 690 can be repeated only once. The prerequisite for enrolling in LTWR 699 is the completion of 24 units in the graduate program, or the consent of the chair of the thesis committee.

**Appeals**

A graduate student who is aggrieved about a course grade, candidacy decision, or degree requirement should first discuss the matter with the relevant faculty member or the Department Graduate Studies Advisor. If the matter cannot be resolved informally, then the student may file a formal grievance in accordance with Cal State San Marcos policy, first with the Department Graduate Studies Committee, then, if not resolved at this level, with the Chair of the Literature and Writing Studies Department, then with the Dean of Arts and Sciences.

**Failure to Complete the Thesis**

The student will be dropped from the program if the student fails to complete his/her thesis four semesters after the approval of his/her thesis proposal. The student may petition the Department’s Graduate Studies Committee for special consideration to extend the limit at one-year intervals. The petition must state the reason for the extension and a specific plan to complete all the requirements. The Department’s Graduate Studies Committee will act on the petition in writing.

**Failed Thesis Proposal**

The student will be put on probation if the student fails to come up with the thesis proposal by the fifth week of the semester prior to the expected semester of graduation, or if the student fails to get approval of his/her thesis proposal from his/her committee. Upon petition to the Department’s Graduate Studies Committee, the student may be given one more chance to develop an acceptable proposal three weeks prior to the end of the semester. The student will be dropped from the program if the student fails to get his/her thesis proposal approved by his/her committee the second time.

**Failed Thesis Defense**

The student will be put on probation if the student fails the oral defense of the thesis prior to the time limit for the degree. The student will be dropped from the program if the student fails the oral defense of the thesis after having reached the time for the degree. The student may petition the Department’s Graduate Studies Committee for specific consideration to repeat the oral defense. The petition must give reasons why the defense ought to be repeated and a specific time line to prepare for an oral defense in the following semester. The Department’s Graduate Studies Committee will act on the petition in writing.
The program requirements for a degree in Mass Media include core courses which form the foundation of study and electives that allow the student to develop their interests according to their intellectual and career goals. As all coursework is aligned with the four cornerstones of the degree – Theory, History, Criticism, and Production – the core program provides a theoretical and methodological foundation for critically analyzing and creating media. Students in the Mass Media major will develop a general understanding of the relation between media texts and production processes, power, and culture through breadth and depth course requirements. Students will focus broadly by completing courses across the following three concentration areas as well as completing more in-depth study in the concentration of their choice: Media Uses and Effects (MUE), Mass Media Production (MMP), and Media Organizations and Systems (MOS).

**MUE: Media Uses and Effects**

Courses in this area emphasize research and theory about:

- The ways that individuals, groups, enterprises, and institutions use mass media as part of routine activity; and
- The ways that information distributed by mass media and practices associated with the use of mass media affect individuals, groups, cultures, and societies.

**MOS: Media Organizations and Systems**

Courses in this area emphasize research and theory about:

- Mass media distribution and regulatory systems (national and international);
- The development and functioning of media organizations;
- The development and functioning of media industries;
- The effects of governmental regulatory bodies on mass media development and distribution.

**MMP: Mass Media Production**

Courses in this area emphasize:

- Training in the production of video, television, film, recorded music, digital multimedia, news, and radio;
- Understanding of the communication processes that shape routine production activities and the resulting products;
- Understanding of the conventions guiding media production;
- Understanding the influence and application of media technologies; and
- Understanding politics and ethics related to use of, and access to, media technologies.

Students’ required senior Capstone Projects must demonstrate proficiency in the selected concentration (MUE, MOS, or MMP). The Capstone Projects provide the faculty an opportunity to assess learning outcomes. The Capstone Projects will demonstrate understanding of:

- The development, production, distribution, and effects of telecommunications, film, print, and digital media;
- The relations between mass media, professional expertise, technological change, social structure, and culture;
- The local and global natures and effects of mass media;
- The complexities of building and managing careers in media industries and occupations; and
- Production or analytical skills relevant to each student’s selected concentration and media concentration.

---

* The B.A. in Mass Media has received campus approval for implementation in Academic Year 2006-07, and is currently undergoing review at the Office of the Chancellor’s of the California State University. Students interested in this degree program should contact the Communication Department at (760) 750-8048.

Programs Offered:
• Bachelor of Science in Mathematics
• Single-Subject Preparation Program in Mathematics
• Minor in Mathematics
• Master of Science in Mathematics

Mathematics offers to the undergraduate and graduate students a rich mix of pure and modern applied courses. Common to these offerings are the power, beauty, and utility of mathematical thought. Mathematics is a living, vital subject with a long, distinguished tradition. A student who selects the mathematics major will develop the ability to explore, to conjecture, and to reason logically, as well as the ability to use effectively a variety of mathematical methods to solve problems.

Career Opportunities
Opportunities for graduates in mathematics are as diverse as they are plentiful. Mathematicians are sought by universities, governmental agencies, and private industry and they contribute in direct and fundamental ways to human activity. Mathematics majors can pursue a career in the teaching of mathematics at the college, high school, or middle school levels. Medical schools, law schools, graduate schools, and employers in fields such as economics, accounting, management sciences, mathematics, natural sciences, social sciences, computer science, statistics, and communication seek graduates in mathematics. The degree program at Cal State San Marcos prepares its mathematics majors to meet any of these challenges.

Preparation
High school students are encouraged to take four years of English, four years of mathematics including trigonometry, one year of biological science, and one year of physical science. Courses in calculus, physics, and computer programming are recommended. Experience in clear, concise, careful writing is valuable for success in all courses.

Transfer Credits
A maximum of thirteen (13) lower-division units in mathematics may be applied toward the lower-division calculus requirement for the mathematics major. These units must be for courses which appropriately match the description of this catalog for MATH 160, 162, and 260.

A maximum of seventeen (17) lower-division units may be transferred towards the non-mathematics supporting courses for the major in mathematics. Up to eight (8) of these units may be for courses which appropriately match the description of this catalog for CS 111 and PHYS 201.

Total Units 24-25

+MATH 260 (4 units) may be substituted for an upper-division elective if MATH 260 is not substituted for MATH 374.

^MATH 260 (4 units) may be substituted for MATH 374 if MATH 260 is not used as an upper-division elective.

SINGLE-SUBJECT PREPARATION PROGRAM IN MATHEMATICS

Students interested in teaching mathematics at the secondary level may wish to complete the Single-Subject Preparation Program (SSPP) in Mathematics. A prospective teacher qualifies for the Single Subject Teaching Credential in Mathematics by completing the SSPP and earning a Bachelor’s degree. Students interested in the SSPP should consult either their mathematics advisor or the mathematics SSPP Coordinator as soon as possible to obtain detailed information on GPA requirements and the portfolio of work which must be compiled, as well as advice on how to best coordinate completion of the SSPP and the Bachelor of Science in Mathematics. Note: The SSPP is not a major. Students must also satisfy the requirements of their major.

MASTER OF SCIENCE IN MATHEMATICS

Graduate Program Coordinator: Wayne Aitken, Ph.D.

The Master of Science Program in Mathematics at Cal State San Marcos is designed to provide breadth of exposure in the mathematics and to enhance the intellectual attitudes and the analytic skills needed for comprehension, appreciation, creation, and application of mathematics. There is a deliberate, applicable emphasis in the courses in the program, and many courses are delivered in a computerized environment. The program will provide students opportunity for computer enhancement of many mathematical concepts, for learning connections between various areas of mathematics, for developing good mathematical skills, for developing independent learning skills, and for cooperative group problem solving.

Graduates will be prepared for a wide range of career opportunities, as the skills and attitudes fostered in the program are in demand in academe, business, government, and industry. In particular, graduates will be well-prepared to teach in secondary schools, community colleges, and some four-year colleges. They will be prepared to enter a doctoral program in mathematics or mathematics education. The computational and applicable orientation of the program will offer graduates significant training for careers as mathematical scientists in business, government, and industry. There will be opportunity, on a limited scale, for students to serve as student assistants for the undergraduate mathematics program or to assist faculty in their scholarly activity.

Admission Requirements and Application

Admission to the program requires an undergraduate major in mathematics or related field (such as computer science), which includes the equivalent of MATH 430 and MATH 470. Admission also requires a 2.5 grade point average in the last sixty (60) units attempted at the undergraduate level, and a 3.0 grade point average in the last thirty (30) units of the undergraduate major. Students who have deficiencies in admission requirements that can be removed by specified additional preparation may be admitted with conditionally classified graduate status, but the units earned to remove these deficiencies may not be used towards the Cal State San Marcos Master of Science.

All applicants, regardless of citizenship, who do not possess a Bachelor’s Degree from a post-secondary institution or a country where English is the principal language, must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of:

- Application Materials sent directly to the Admission Office of Cal State San Marcos
- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the Mathematics Department (see address below)

- A request for entry to the M.S. program via letter, which also includes an expository description of the student’s educational preparation and career aspirations;
- One set of official transcripts from all colleges and universities attended and official indication of graduation (if not in English, certified English translations must be included); and
- At least two letters of recommendation from individuals who can comment on the mathematical capabilities of the applicant.

Application materials sent directly to the Mathematics Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:

Applications, including verification of English proficiency, should be received in the department by:

- March 15th

However, applications will be accepted as long as space allows.

Degree Requirements

The Master of Science in Mathematics requires thirty-six (36) units of coursework with an overall of at least 3.0 grade point average. At least twenty-seven (27) of these units must be at the 500-level or above, and any 400-level courses must be approved by the department. No course, or equivalent, which is required for a Bachelor of Science in Mathematics at Cal State San Marcos can be used to satisfy these requirements. At least thirty (30) units towards the degree must be earned at Cal State San Marcos; any units not earned in residence at Cal State San Marcos must be approved by the department. All requirements must be satisfied within five years of initial acceptance into the program.

Two options are available:

- Thirty (30) units of non-thesis coursework, six (6) units of MATH 699, and a Masters Thesis,
- Thirty-six (36) units of non-thesis coursework (at least fifteen (15) units of which comprise a concentration in some specialty within mathematics), a masters project, and a comprehensive examination.

Continuation

Students must earn a 3.0 overall average in graduate coursework in order to graduate. Student are limited to a total of three (3) C’s in their graduate coursework. Any student earning four (4) or more C’s will be dropped from the program.

Advancement to Candidacy

To advance to candidacy a student must complete at least 18 units of the 36 required for the Master’s degree. (These 18 cannot include units required for conditional acceptance. Units for MATH 470 or 430 cannot be counted, since they are entry requirements for the Master’s program. All other 400 level courses must be approved by the Graduate Coordinator to count as part of these 18 units.)
In addition, a student must have a GPA of 3.0 in the Master's program, be classified (that is, have all terms of conditional acceptance satisfied), and be in good standing (not on probation).

A student must also complete the departmental advancement to candidacy form with attached study plan listing the courses he/she will complete to finish the degree, and the courses that he/she has completed to date. The study plan must include the proposed date of graduation.

A student pursuing the thesis option must find a thesis advisor, and two other faculty members for the thesis committee. He/she must give an oral presentation to the thesis committee proposing a thesis topic, and attach a short description of the thesis proposal to the advancement to candidacy form (up to 3 pages). The student must obtain the signatures of the thesis committee and the departmental graduate coordinator on the advancement to candidacy form. (A thesis committee member’s signature indicates that the proposed work, if completed properly, is sufficient for a Master’s degree. The graduate coordinator’s signature indicates that (i) the student has met the requirements for advancement to candidacy, (ii) the student’s study plan will, if completed properly, satisfy the requirements for the Master’s degree, and (iii) that the composition of the thesis committee is consistent with departmental and university policy. Any departures from, or changes to the study plan must be approved by the student’s thesis advisor and the graduate coordinator.

A student pursuing the comprehensive exam option must include a target date for the comprehensive exam in his/her study plan. The student must obtain the signature of the departmental graduate coordinator on the advancement to candidacy form. (The graduate coordinator’s signature indicates that (i) the student has met the requirements for advancement to candidacy, and (ii) the student’s study plan will, if completed properly, satisfy the requirements for the Master’s degree. Any departures from, or changes to the study plan must be approved by the graduate coordinator.

A student should advance to candidacy before the end of the the fourth full week of the student’s final semester. If a student wishes to graduate during the summer semester, he/she should advance to candidacy before the tenth week of the preceding Spring semester. Only students pursuing the thesis option can graduate in the summer semester.

**Thesis or Project Requirements**

A thesis is the written result of a systematic study of a significant mathematical problem. It defines, develops, and executes an investigation into a chosen problem area. The motivation, approach, and results of the investigation are communicated in a clear and logical fashion; it is grammatically correct, logically organized, and mathematically sound. The finished product evidences originality, critical and independent thinking, and thorough documentation. The thesis must be planned, organized, executed, and completed while enrolled in the masters program. It must be a coherent, substantial document, appropriate for six (6) units of graduate coursework. Midway during the thesis work, the student shall make an oral presentation to the departmental graduate coordinator on the advancement to candidacy committee on progress to date.

Guidelines for preparing and officially submitting the thesis can be obtained from the Graduate Program Coordinators. The final copies of the thesis are to be in the hands of the members of the thesis committee at least two weeks prior to a required oral, public defense of the thesis which must be held at least one week prior to the end of a regular semester.

A project is the written result of a comprehensive analysis of a particular mathematical problem encountered during the coursework of the student. The composite elements are as for a thesis, but the scope is more narrow; much like a term paper. The faculty member in the course in which the problem arose will act as the project advisor, and the project must be approved by the program advisor. Examples of projects are expository reports on one or more existing papers in the literature on some topic, the design and implementation of a solution algorithm for a specific problem, or modest research efforts on a suitable topic. A project must be completed at least four weeks prior to the end of a regular semester. An oral presentation of the project to the graduate council is required. The presentation should summarize the analysis in a clear and concise manner.

Both the thesis and the project must demonstrate mathematical skills and general scholarship at a level expected of a professional mathematician. Mathematical skills can be demonstrated by the development of new mathematics, critical evaluation of existing mathematics, application of existing mathematics to non-mathematical contexts, or development of mathematical models. General scholarship refers to understanding, organizing, and communicating knowledge relevant to the undertaking in a conventionally acceptable format.

**Comprehensive Exam**

A comprehensive examination is a written examination administered during the final semester of the student. It is intended as a culminating experience for the masters degree, and it is used to assess the student’s ability to integrate his or her knowledge of mathematics, to think critically and independently, and to demonstrate mastery of the coursework. The problems will reflect the coursework of the student, and the student’s responses will be evaluated both on the basis of logical correctness as well as on written presentation. The examination will be offered as needed at most once each regular semester, at least four weeks prior to the end of the semester. Students intending to write the exam during a given semester must notify the program advisor before the end of the fourth week of that semester.

**Graduation**

A student planning to graduate at the end of a given regular semester must meet with the program advisor by the end of the student’s previous regular semester in order to evaluate those plans. All pertinent requirements described above concerning courses, the thesis, the project, and the comprehensive exam must be evaluated during this meeting. Candidates for the degree who attain a grade point average (calculated on work at Cal State San Marcos only) of 3.75 or greater may, upon recommendation of the mathematics faculty, graduate with distinction.
MINOR IN MUSIC

Office:
Arts Building, Third Floor

Telephone:
(760) 750-4137

VPA Department Chair:
William Bradbury, D.M.A.

Faculty:
William Bradbury, D.M.A.
Merryl Goldberg, Ed.D.
Mtafiti Imara, Ph.D.

Program Offered:
• Minor in Music

The Minor in Music is designed specifically for those students with a strong interest in the study of music who are not able to make the full commitment to the major (see the Music Track in the Visual and Performing Arts Major). The Minor has been designed to give the student a strong background in music including music theory, history, performance and technology. The student will complete a select series of courses that will give him/her exposure to various genres of world music, intermediate level skills in music theory/performance, and basic skills in the application of music technology.

Requirements For a Minor in Music

Note: Courses used to satisfy requirements of the Minor may also be used to fulfill General Education requirements. Students may apply up to nine units of transfer credit toward the Minor. Students must earn a grade of C or better in each course for the Minor. At least twelve (12) units of coursework submitted for the Minor must be completed at CSUSM. Visual and Performing Arts (VPA) majors may pursue this Minor if their VPA track is different from music and nine (9) units are mutually exclusive, i.e., not double-counted for the major and minor.

MINOR IN NATIVE STUDIES

Office:
Craven Hall, First Floor

Telephone:
(760) 750-4152

Program Coordinator:
E.A. Schwartz, Ph.D.

Faculty:
Jocelyn Ahlers, Ph.D.
Bonnie Bade, Ph.D.
Jule Gómez de García, Ph.D.
E.A. Schwartz, Ph.D.

Program Offered:

- Native Studies Minor

Earning this broadly interdisciplinary minor reflects an awareness of the indigenous heritage as well as the issues which contemporary native communities and peoples confront. Students will focus on native peoples in the United States and Mexico but will have opportunities to consider the experience of native peoples in a global context. The native studies minor demands a range of knowledge focused in four areas: indigenous cultures, history, and the social and environmental contexts of native life. It makes use of the strengths of university faculty members in anthropology, communication, history, music, visual arts, biology, and economics.

The minor prepares students who expect to work with native communities to understand those communities in a broad cultural, historical, social, and environmental context. Students who earn the minor should have the particular knowledge and sensitivity necessary to work successfully as educators, administrators of businesses and tribal and other governmental bodies, and members of other professions serving native communities.

Eighteen reservations are located all or in part in San Diego County, and the California and urban American Indian population is upwards of thirty thousand (not including members of indigenous communities based in Mexico). Much of that population is in the area served by the university. This minor serves as an essential link between the university and the diverse Indian communities within its area of responsibility; a central goal of the program is to strengthen relationships between the university and these communities.

Requirements For a Minor in Native Studies

Completion of the minor requires twenty-one units of credit, fifteen of which must be upper-division courses, and twelve of which must be completed at CSUSM. Courses must be completed with a grade of C or better to count toward the minor. One course must be an internship (NATV 498 or a relevant internship in any other discipline), approved by the native studies coordinator, which brings the student into direct contact with a native community.

In addition, at least one course must be chosen from each of the four areas below, plus two electives taken from any of the areas below: NATV 380 may also be used as an elective. With consent of the program coordinator, as many as six units of Independent Study (NATV 390) may be counted toward the Minor.

I. History courses provide a knowledge of the broad issues and problems of native history as well as an understanding of the specific periods discussed.

Select one course

- HIST 337
- HIST 338A
- HIST 338B

III. Cultural Context courses provide a framework that allows students to understand relationships between native peoples and the larger societies in which they live, and should help students understand the meanings of native identity. Students need to recognize that the content of these courses might not address native populations specifically. However, they need to hold in mind the examples of native communities they know in terms of both their own experience and in examples provided in other courses.

Select one course

- ANTH 302
- MUSC 390
- ANTH 325
- MUSC 422
- MUSC 322

III. Social Context courses provide a framework that allows students to understand the relationships between native peoples in the United States and the larger societies in which they live, and should help students understand the meanings of native identity. Students need to recognize that the content of these courses might not address native populations specifically. However, they need to hold in mind the examples of native communities they know in terms of both their own experience and in examples provided in other courses.

Select one course

- ANTH 200
- COMM 330
- HIST 356

IV. Environmental Context courses provide a framework that allows students to understand environmental changes as they affect native communities, especially those located in rural areas such as the reservations, which are the homes and/or homelands of most native populations in the United States. Students need to recognize that the content of these courses might not specifically address native populations. However, they need to hold in mind the examples of native communities they know in terms of both their own experience and in examples provided in other courses.

Select one course

- ANTH 370
- BIOL 339
- BIOL 338
- ECON 325

V. Internship in Native Studies

NATV 498 or equivalent

Internship approved by Native Studies Coordinator

Total Units 20-21
## Minor in Philosophy

**Office:**  
Craven Hall, Sixth Floor

**Telephone:**  
(760) 750-8092

**Program Director:**  
Manuel Arriaga, Ph.D.

**Faculty:**  
Manuel Arriaga, Ph.D.  
Michael McDuffie, Ph.D.

**Program Offered:**
- Philosophy Minor

The Philosophy Minor provides a brief but comprehensive introduction to the study of philosophy. A sequence of courses in the history of philosophy serves as the core of the program. Students trace the emergence of Western philosophy from its origins in ancient Greece, examine the role of philosophy in shaping the modern world view, and study traditional Western and non-Western approaches to ethics.

The aim of these courses is to offer an integrative approach to the study of philosophy. The basic areas of philosophy, such as ethics, metaphysics, and theory of knowledge, are presented as interconnected fields of inquiry, related to wider cultural and historical contexts. Elective courses may be chosen to extend and complete this survey of the history of philosophy or to offer a more focused and specialized study of some area of philosophy. The minor begins with a course in logic or critical thinking, and also requires a course in theory applied to a discipline outside of philosophy, in order to demonstrate the force of philosophical thought in other academic fields.

As a complement to the student’s major field of study, the Philosophy Minor serves the following objectives:
- to introduce the student to the basic thematic areas of philosophic study (logic, metaphysics, epistemology, ethics, etc.);
- to introduce the student to a variety of philosophical traditions, Western and non-Western;
- to foster the student’s understanding of philosophical issues related specifically to the academic disciplines, including the student’s major field of study;
- to help the student achieve greater understanding of the relations between academic fields and the importance of interdisciplinary inquiry;
- to help the student appreciate the practical applications of philosophical investigation in matters of social and personal concern;
- and overall, to enrich and broaden the student’s intellectual life.

As core values, the Philosophy Minor emphasizes the importance of critical and creative thinking, clear and coherent use of language, openness to plural approaches to problems, and the importance of multiple cultural traditions within the field of philosophy.

### Requirements For a Minor in Philosophy

Note: Courses used to satisfy requirements of the minor may also be used to fulfill GE requirements. Students may apply up to nine units of transfer credit toward the minor. Students must earn a grade of C (2.0) or better in each course for the minor.

MINOR IN PHYSICS

Office:
Science 2 Hall, Third Floor

Telephone:
(760) 750-8063

Department Chair:
Graham Oberem, Ph.D.

Faculty:
Charles De Leone, Ph.D.
Graham Oberem, Ph.D.
Edward P. Price, Ph.D.

Program Offered:
- Minor in Physics

The Minor in Physics offers students majoring in another discipline the opportunity to gain a deeper understanding of digital electronic circuits, particularly as applied to the design and construction of computer hardware. In the high technology industry, it is important to understand the function of electronic sensors, and controllers, and how such devices are used in data capture, transmission and storage. At the lower-division, the Minor in Physics builds a broad foundation of physical concepts that are needed to understand the operation of electronic circuits, semiconductor devices, and data transmission networks. At the upper-division, the program emphasizes digital electronic hardware design, with significant hands-on experience in building and testing computer-related circuits, while at the same time providing opportunity for specialization and deeper understanding of some aspects of physics.

A Bachelor of Science degree with a major in Applied Physics is under consideration at the time that this catalog is being printed. If approved, the requirements for this degree will be printed in the catalog addendum. Please see the departmental web pages at http://physics.csusm.edu for additional information about the courses and programs in Physics.

Requirements For a Minor in Physics

Completion of twenty-three (23) units, eleven (11) of which must be at the upper-division. Students must earn a grade of C (2.0) or better in each class in the minor.

Recommended Course of Study:

POLITICAL SCIENCE

Office: Craven Hall, Sixth Floor
Telephone: (760) 750-4108
Department Chair: Cynthia Chavez Metoyer, Ph.D.

Faculty:
- Shana Bass, Ph.D.
- Staci Beavers, Ph.D.
- M. Kent Bolton, Ph.D.
- Vicki L. Golich, Ph.D.
- Scott Greenwood, Ph.D.
- Cynthia Chavez Metoyer, Ph.D.
- Cyrus Masroori, Ph.D.
- Stephen Nichols, Ph.D.
- Pamela Stricker, Ph.D.
- Peter R. Zwick, Ph.D.

Programs Offered:
- Bachelor of Arts in Political Science
  - General Concentration
  - Global Concentration
- Minor in Political Science

Political science is the study of government, individual, and institutional behavior in the public sector; relations among nation-states; and theories of politics. Political science addresses the fundamental issues confronting modern society — war, inequality, poverty, the environment — and seeks to evaluate the processes, policies, and theories that have been devised to deal with them.

Typically, the discipline of political science is subdivided into topical fields: U.S. government and politics, including the subfields of public law, public administration, and public policy; comparative politics, which deals with government and politics within nations other than the United States; international relations, which is the analysis of politics among nations, including foreign policy, war and peace, and political economy; and political theory, which encompasses political thought throughout the ages as well as contemporary approaches.

The Political Science Program at Cal State San Marcos offers courses in each of these areas and invites students to explore a broad spectrum of topics. Political science majors may choose between a general concentration, which provides wide exposure to the fields of political science, and a global concentration, which offers majors an opportunity to focus on foreign political systems and international relations. Majors and non-majors alike are encouraged to think critically, independently, and objectively about government and politics. The goal of the program is to produce informed, empowered citizens who will contribute to their national and global communities.

Student Learning Outcomes

Students graduating with a Bachelor of Arts in Political Science will have acquired:

1. a solid understanding of government and politics within the United States;
2. a solid understanding of government and politics within nations other than the United States;
3. an understanding of enduring political thought and ideas throughout history as well as contemporaneously;
4. an awareness of the role played by race, ethnicity, gender, religion in historic and contemporary political debate;
5. strong writing skills that allow them to articulate a clear understanding of government and politics;
6. strong research methods, quantitative and qualitative skills that allow them to engage in the critical analysis of political phenomena; and
7. an appreciation for the role played by non-state actors, as well as the relationship between non-state and other actors (state and non-state) in the formulation of public policy.

Career Opportunities

A political science major opens the door to a broad spectrum of career opportunities. Many political science majors eventually pursue careers in law, and a number of political science courses focus on legal issues and processes. A political science major is also excellent preparation for those contemplating careers in government service and public administration, either at the federal or state level. Possibilities include working on the staff of an elected official or legislative body, working for a government agency, or serving as an elected public official. Political science is an excellent major for those planning careers in the foreign service agencies of the U.S. government, international political organizations, and international corporations. Teaching in the public schools, or at the college and university level after doing graduate work, is another popular career option for political science majors. Finally, many political science majors choose to pursue careers in business and industry.

Preparation

High school students should take four years of English, including composition, and social science and civics courses, including history and economics. A familiarity with computers is also desirable. Community college transfer students should take a basic course in U.S. political institutions, which will fulfill the state code requirements for U.S. History, Constitution and American Ideals. An introductory statistics or elementary political analysis course are also helpful. Other lower-division political science and social science courses are highly recommended.

A maximum of three (3) lower-division units in political science may be transferred for credit toward the major.

Advising

All students are assigned to, or may select, a discipline advisor when they declare a major in political science. This faculty advisor should be consulted for any determinations of transfer course equivalents, approved electives, and other requirements.
Special Conditions for the Bachelor of Arts and Minor in Political Science

All courses counted toward the major and the minor, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units counted toward the major and nine (9) units counted toward the minor must be earned in residence at Cal State San Marcos.

No more than nine (9) units of internship (PSCI 495), independent study (PSCI 498) and/or independent research (PSCI 499) may be applied toward the major. Internship, independent study and independent research may be applied to field distribution depending on content of the course of study. No more than six (6) units of PSCI 495, PSCI 498 and/or PSCI 499 may be counted toward the minor.

Majors in the Global Concentration must complete three (3) upper-division units outside political science in courses that deal with global issues. This course must be approved by an advisor. Political science majors are strongly encouraged to take PSCI 100 and 301 prior to taking upper-division political science courses.

Upper-division political science courses are grouped into four fields: U.S. Government and Politics, Comparative Politics, International Politics, and Political Theory. Courses designated as “General” Political Science courses can be utilized to fulfill field requirements, but students must consult with their advisors to determine how these courses can be used. In addition, LTWR 337 may be used as an elective for three (3) units of upper-division credit within the U.S. Government and Politics field.

Programs Offered:
• Bachelor of Arts in Psychology
• Minor in Psychology
• Master of Arts in Psychology

Psychology is the scientific study of behavior. In order to discover more about behavior, psychologists study both humans and animals. Psychology covers a wide range of topics, from the inner workings of our brains and bodies to the ways our social environment and culture influence us. This breadth is reflected in the psychology curriculum. Given that psychology is an empirical science, our program gives considerable emphasis to research design, data analysis, and interpretation.

The psychology undergraduate major is designed to provide each student with a comprehensive overview of the major fields of psychology and methods used in psychological research. The major also provides elective courses that allow the student to focus upon an area of special interest. These specialty areas might include social, developmental, cognitive, clinical, or biological psychology.

Students majoring in other disciplines such as the computer, health or clinical sciences, communication, business administration, or education will find that a minor or electives in psychology will provide them with knowledge of direct relevance to their chosen professions. Additionally, psychology has rich ties with other fields such as philosophy, history, literature, the arts, sociology, anthropology, linguistics, communication, and biology.

Career Opportunities
The psychology undergraduate major provides an excellent preparation for careers in a variety of psychology-related business and public organizations, social service agencies, and teaching institutions. Our undergraduate program provides the appropriate background for graduate training in experimental or clinical psychology. Coursework in psychology is also relevant to graduate training in counseling, teaching, medicine, law, business and management, and public administration.

The Master of Arts program prepares students for careers in research, teaching in community colleges, and for further graduate study at the doctoral level. Training specifically geared for those seeking licensure in marriage, family, and child counseling is not currently available within the Master of Arts program.

Preparation
High school students are encouraged to take four years of English and three years of mathematics (including algebra). Courses in biology and psychology and the other social and behavioral sciences are recommended. Knowledge of computers is helpful for many courses.

Community College Transfer Students
A maximum of nine (9) lower-division semester (13.5 quarter) units of psychology courses may be applied toward the forty (40) semester units required for the psychology major. The nine (9) lower-division units must be articulated with PSYC 100, 220, and 230, or be approved as equivalent by the student’s advisor.

Special Conditions for the Bachelor of Arts and Minor in Psychology

All courses counted toward the major, including Preparation for the Major courses, and the minor must be completed with a grade of C (2.0) or better. No more than a total of three (3) units of either PSYC 498 or PSYC 499 may be applied toward the major. No more than three (3) units of PSYC 485 may be applied toward the major. A minimum of eighteen (18) units counted toward the psychology major must have been completed at Cal State San Marcos. For the minor, nine (9) units must have been completed at Cal State San Marcos. Courses taken at other universities for which we do not have articulation agreements will not be counted toward the major at Cal State San Marcos without the written permission of any member of the Psychology faculty listed above.
BACHELOR OF ARTS IN PSYCHOLOGY

Units
General Education* 51

PSYC 390  PSYC 394
PSYC 391  PSYC 395
PSYC 392  PSYC 396
PSYC 393

Six (6) units of 300/400/500 level psychology electives 6

Total Units 21

*Three (3) units in lower-division General Education Area D (Discipline-Specific or Second Interdisciplinary Social Science Course) are automatically satisfied in Preparation for the Major.
MASTER OF ARTS IN PSYCHOLOGY

Graduate Coordinator:
Nancy G. Caine, Ph.D.

The mission of the graduate program in psychology at Cal State San Marcos is to provide graduate education of the highest caliber to qualified students, leading to the Master of Arts degree. Our objective is to prepare students for continued study at the doctoral level, for a variety of positions in business, industry, and the public sector, or for academic careers at the two-year college level. It is our belief that excellent graduate education is best accomplished in an atmosphere in which graduate students are treated collegially, and are closely mentored by the faculty. We are committed to the study of psychology as a scientific enterprise, and our program encourages the development of skills that are consonant with the scientific spirit of inquiry in particular, and graduate-level study in general: critical thinking, articulate verbal expression, quantitative reasoning, and healthy skepticism.

In keeping with the mission of the University, we offer a curriculum that includes opportunities to enhance the professional development of our students and to contribute to the community around us. In addition, our program seeks to recognize the value of multicultural perspectives and to be sensitive to diversity concerns.

Preparation and Training Offered by the Program

The Master of Arts degree is traditionally seen either as a preparatory or terminal degree. Our program is designed to accommodate students with different goals. The active research programs of our faculty, and our recognition of psychology as a scientific enterprise, will provide graduate students with the intensive research training and coursework in primary content areas that are central to preparation for more advanced graduate work. Likewise, students who have in mind careers in community college teaching, community service, or business and industry, will benefit from our program's emphasis on critical thinking, research methods, and advanced coursework. Individual career goals will be served by allowing choice in the content of the thesis research.

Many students undertake graduate work in psychology in order to pursue careers in clinical psychology or psychological counseling. Training specifically geared to those seeking licensure in marriage and family therapy is not currently available within the program. However, the program will prepare students to better compete for admission to doctoral programs in clinical or counseling psychology. Students with interests in clinical or counseling psychology will find opportunities to pursue coursework and thesis topics at Cal State San Marcos that are related to their interests.

Admission Requirements and Application

Admission to the program requires a bachelor's degree in psychology, or a bachelor's degree plus at least one course in statistics and at least four upper-division courses of three to four (3-4) units each in psychology from an accredited university. Among the upper-division courses there must be one or more laboratory courses in psychology. Applicants should have computing skills relevant to graduate coursework in psychology, including word processing and statistics software experience. Admission to the program will be influenced by the breadth and appropriateness of undergraduate coursework and research experience in psychology. In addition, applicants should have a grade point average of not less than 3.0 in the last sixty (60) units of undergraduate study, plus a 3.0 average in upper-division psychology courses.

The general Graduate Record Examination (GRE) is required of all applicants. The advanced test in psychology is recommended. Although the minimum cut-off scores may vary from year to year, we strongly prefer students with combined verbal and quantitative scores above 1000. The advanced test score should be above the 50th percentile.

All applicants, regardless of citizenship, who do not possess a bachelor's degree from a post-secondary institution where English is the principal language must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL or on the writing portion of the computer-based TOEFL.

A complete application consists of:

Application Materials sent directly to the Admissions Office of Cal State San Marcos

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation
Application Materials sent directly to the Psychology Department (see address below)

- A completed application form for admission to the Master’s Program in Psychology;
- One set of official transcripts from all colleges and universities attended, with indication of graduation;
- GRE (and TOEFL/TWE, if applicable) score reports; and
- Three letters of recommendation.

Application materials sent directly to the Psychology Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA  92096-0001.

Application Deadlines:

- Review of applications will begin on February 1 and will continue until all of the openings for the following Fall semester have been filled. However, applications will be accepted for review as long as space is available in the program. There are no Spring admissions.

**Degree Requirements**

The program requires thirty-three (33) semester units (11 courses) of study, at least 27 of which are from the graduate level (500 or 600 series). Courses below the 400-level or those which bear General Education credit may not be counted toward the program. All students will do a substantial piece of empirical research leading to a thesis. The thesis will be planned and executed while the student is enrolled in the Master’s program, and must be approved by the student’s thesis committee. The grade point average must be at least 3.0 to graduate. The typical full-time student will complete the coursework in four semesters. Units earned not in residence at Cal State San Marcos may not exceed six, and must be approved by the advisor. Graduate students may not elect credit/no credit for any course counted toward the degree that is also offered on a regular graded basis (PSYC 680 and 699 are graded only credit/no credit). Students must be continuously enrolled unless they apply for a leave of absence. All requirements for the degree must be completed within five years.

**Course of Study**

Students will proceed with the graduate coursework in the following sequence:

First Year, First Semester
PSYC 600
One Proseminar
PSYC 520 or PSYC 424

First Year, Second Semester
PSYC 530
One Proseminar
PSYC 690 or an elective

Second Year, First Semester
PSYC 680
PSYC 520 (If PSYC 520 was previously completed, PSYC 690 or an elective may be substituted.) One Proseminar

Second Year, Second Semester
One Proseminar
PSYC 699

It is important to note that the curriculum is designed for full-time students. Students who hope to study part-time should consult with the graduate coordinator prior to applying.

**Continuation**

Students must maintain a GPA of 3.0. A grade of C or better must be earned in all classes. If the GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program. Each student must present a formal thesis proposal to the entire Psychology faculty, usually in the third semester of study. In addition, each student will orally defend the completed thesis to her/his committee no later than six (6) semesters following the thesis proposal presentation.

**Financial Aid**

Several sources of financial aid are available to graduate students. Applicants who choose to apply for graduate assistantships offered by the University should so indicate on the appropriate space in the Master’s Program in Psychology application form. Students are responsible for identifying other sources of financial aid, and may wish to consult with the Office of Financial Aid and Scholarship.

**Advancement to Candidacy**

Students will be assigned an advisor at the time of acceptance to the program. It is expected that the student and her/his advisor will work together closely to identify elective courses and possible research topics for the thesis. Together the advisor and student will select and ask two additional members of the faculty to serve on the thesis committee. The thesis committee will assist the student in the development of a thesis proposal. The formal, written thesis proposal will be orally presented to the faculty. To advance to candidacy, a student must:

1. Be in good standing with an overall GPA of at least 3.0;
2. Have completed at least twelve (12) units toward the graduate degree; and
3. Have successfully proposed her/his thesis to the faculty.
In the major, the student chooses a primary field and two secondary fields. The primary field is chosen from six disciplines: communication, economics, history, political science, psychology, and sociology. Secondary fields are chosen from these six disciplines and other fields in the social sciences.

Students may also participate in the Program for Adult Education (PACE), a program that assists students who are working full-time.

Students interested in the Social Science Major are encouraged to discuss their education and career objectives with an appropriate Disciplinary Coordinator.

**Career Opportunities**

The Social Sciences Major is appropriate for students with career interests in human services and social work, education, counseling, business, and government. Students interested in the Social Science Major are encouraged to discuss their education and career objectives with an appropriate Disciplinary Coordinator.

**Student Learning Outcomes**

The Social Science major is a multidisciplinary program which aims to provide students with a broad understanding and appreciation of the social sciences. By following a major in which a number of social sciences disciplines are studied, students will appreciate the varied approaches and methodologies of these fields, as well as the interrelatedness of the social sciences disciplines.

The Social Sciences Major is appropriate for students with career interests in human services and social work, education, counseling, business, and government.

1) Advanced knowledge of the conceptual framework, substantive topics, and either methods or theories of one Social Science discipline;
2) Knowledge of the basic conceptual framework and of the breadth of substantive topics of a second Social Science discipline;
3) Knowledge of the basic conceptual framework and of the breadth of substantive topics of a third Social Science discipline, or knowledge of the contribution of multiple Social Science disciplines to a specified topical area of study (e.g., racism);
4) The ability to identify the interrelatedness of multiple social science disciplines and to determine when the approach of one social science discipline is preferable to that of another;
5) An appreciation of the value of multidisciplinary explorations and an ability to analyze problems integrating multiple social scientific perspectives; and
6) An understanding of the ways in which society and culture are affected by two or more of the following: gender, ethnicity, class, regional identities, and global identities.

**Special Conditions for the Bachelor of Arts and Minor in Social Sciences**

All courses counted toward the major and the minor, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better.

**BACHELOR OF ARTS IN SOCIAL SCIENCES**

Students must take a sufficient number of elective units to bring the total number of units to a minimum of 120

**Requirements for the Major**

The Social Sciences Major requires a minimum of forty-eight (48) units specified as follows:

- Twenty-one (21) units in one primary field 21
- Twelve (12) units in each of two secondary fields (different from the primary field) 24
- Three (3) units of elementary statistics 3

**Total Units** 48
Currently, there are six options for primary fields: communication, economics, history, political science, psychology, or sociology. There are seven options for secondary fields: communication, economics, history, political science, psychology, sociology, and individualized secondary field.

Specific course descriptions can be found within the course section of this catalog.

### Preparation for the Major

Introductory Statistics (3 units)

Choose from:

- PSYC 220 (must be taken if primary field is psychology)
- SOC 201

(Other introductory statistics courses may be accepted upon approval of the Disciplinary Coordinator of the student’s primary field.)

### Primary Field Requirements

Students must complete all the requirements for ONE Primary Field.

### Communication

A primary field in Communication shall be distributed as follows:

- **Lower-division (3 units)**
  - COMM 100

- **Upper-division (18 units)**
  - Two of the following courses: COMM 300, COMM 330, COMM 380
  - Twelve (12) units of upper-division Communication electives

  **Total Units**: 21

### Economics

A primary field in Economics shall be distributed as follows:

- **Lower-division (6 units)**
  - ECON 201
  - ECON 202*

- **Upper-division (15 units)**
  - One of the following courses: ECON 301, ECON 331, ECON 302, ECON 431, ECON 303, ECON 441
  - Twelve (12) units of upper-division Economics electives

  **Total Units**: 21

### History

A primary field in History shall be distributed as follows and must include work in two world areas, and must include three (3) units of study in history of women, gender, or U.S. ethnic (minority) studies.

- **Lower-division (6 units)**
  - An sequential two-semester survey course in history

- **Upper-division (15 units)**
  - HIST 301
  - Twelve (12) units of upper-division History electives including one 400-level course

  **Total Units**: 21

### Political Science

A primary field in Political Science shall be distributed as follows:

- **Lower-division (3 units)**
  - PSCI 100* or equivalent

- **Upper-division (18 units)**
  - Six (6) units chosen from: PSCI 331, PSCI 370, PSCI 350
  - Twelve (12) units of upper-division Political Science courses

  **Total Units**: 21

### Psychology

A primary field in Psychology shall be distributed as follows:

- **Lower-division (6 units)**
  - PSYC 100*
  - PSYC 230

  **Units**
  - PSYC 390
  - PSYC 394
  - PSYC 395
  - PSYC 392
  - PSYC 396
  - PSYC 393

  **Upper-division (15 units)**
  - One of the following courses:

  **Total Units**: 21

### Sociology

A primary field in Sociology shall be distributed as follows:

- **Lower-division (4 units)**
  - SOC 101*

- **Upper-division (17 units)**
  - One of the following courses:

  **Total Units**: 21

*Several lower-division courses in the different primary and secondary fields also fulfill General Education requirements.

**Social Sciences**

*Also satisfies a lower-division General Education requirement.
Secondary Field Requirements

Students must complete the requirements for TWO Secondary Fields.

Communication

A secondary field in Communication shall be distributed as follows:

Lower-division (3 units)

Comm 100 3

Upper-division (9 units)
Three (3) upper-division Communication courses: 9

Total Units 12

Economics

A secondary field in Economics shall be distributed as follows:

Lower-division (6 units)

ECON 201 3
ECON 202* 3

Upper-division (6 units)
Economics courses: 6

Total Units 12

History

A secondary field in History shall be distributed as follows and must include three (3) units of study in history on women, gender, or U.S. ethnic (minority) studies within the twelve (12) units in this secondary field.

Lower-division (3 units)

One lower-division course 3

Upper-division (9 units)
History courses from two world areas 9

Total Units 12

Political Science

A secondary field in Political Science shall be distributed as follows:

Lower-division (3 units)

Upper-division (9 units)
Three (3) Political Science courses in at least two fields 9

Total Units 12

Psychology

A secondary field in Psychology shall be distributed as follows:

Lower-division (3 units)

PSYC 100* 3

Upper-division (9 units)
Three (3) units chosen from: 3
PSYC 330  PSYC 360
PSYC 332  PSYC 362

Six (6) units of upper-division Psychology courses 6

Total Units 12

Sociology

A secondary field in Sociology shall be distributed as follows:

Lower-division (4 units)

SOC 101* 4

Upper-division (8 units)
Four (4) units chosen from: 4
SOC 311
SOC 411

At least four (4) units of upper-division Sociology courses 4

Total Units 12

*Also satisfies a lower-division General Education requirement.

Individualized Secondary Field

The Individualized Secondary Field allows for a customized exploration of the theoretical and methodological approaches from several social science disciplines. Students may select courses from anthropology, communication, economics, geography, history, linguistics, political science, psychology, or sociology. Courses from other areas that are certified as meeting upper-division General Education social science (DD) requirements may also be selected, although courses selected for this secondary may not be counted toward both the major and General Education requirements.

The courses must be taken from at least three different disciplines. Courses selected for the Individualized secondary field may not be from the same disciplines as those used in the primary and other secondary field.

The courses taken in an Individualized secondary field must form a coherent unit. The courses must be approved in writing by the Disciplinary Coordinator of the student's primary field before the start of the last semester in which one of these courses is taken.

Upper-division (12 units)

Approved courses from at least three different disciplines 12

Total Units 12

MINOR IN SOCIAL SCIENCES

The Minor in Social Sciences can be completed by fulfilling the requirements for two secondary fields. Students may select from any secondary field, except the Individualized secondary field. Students intending to Minor in Social Sciences should consult with a Disciplinary Coordinator of one of the two selected secondary fields.

First Secondary Field 12
Second Secondary Field 12
Total Units 24
To study the broad subject of sociology, a student needs to acquire information (what we know), methodology (how we know), and theory (how we explain). A major in sociology will require students to develop background and strength in each of these domains. Students may choose to concentrate more fully in a particular content area of sociology, such as health, welfare and education; crime and deviance; socialization, aging, and the life course; social structure, mobility, inequality; or gender and ethnicity by selecting a set of courses which focus in related fields.

Learning Objectives

The primary aim of our curriculum is to provide students with the knowledge and analytic skills necessary to understand social life in an increasingly complex world. We want our graduates to be able to use the key insights and analytic methods of sociology to improve the social conditions in which they and others coexist. We expect holders of a Cal State San Marcos bachelor’s degree in sociology to be able to address large- and small-scale social problems through constructive empirical inquiry, critical analysis, and strategic action. The Sociology Department’s curriculum cultivates the theoretical, methodological, and advocacy skills integral to meeting these goals. The list below summarizes the primary knowledge and skills students graduating with a Bachelor of Arts degree in Sociology will possess.

1. An understanding of the key theoretical approaches and insights that inform sociology.
2. The ability to develop informed theories of social behavior from systematic observation of social life.
3. Comprehension of the diversity of social experience and perspectives, especially as they relate to race, class, gender, age, sexual orientation, religion, and nationality.
4. Can apply sociological theories to develop empirically researchable questions about social life.
5. Can locate, understand, summarize, and synthesize sociological scholarship.
6. Understands the central research methods-quantitative, qualitative, and hybrid-used to study social life.
7. Can identify and apply research methods appropriate to any particular research question, theoretical orientation, and social context.
8. Understands the limits of the information produced by each research method.
9. Can write a literature review and research report that conforms to the professional norms of sociological scholarship.
10. Can apply sociological theory and research in service of positive social change.

Core Coursework

All students majoring in sociology complete a series of required preparatory and core courses that build proficiency in each of the learning objectives listed above. The required courses include:

- a basic introduction to sociology (SOC 101, or its equivalent: Addressing learning objectives 1, 3, and 5);
- an introduction to statistics for the social sciences (SOC 201, or its equivalent: Addressing learning objectives 2, 4, 6, 7, and 8);
- a survey of the social correlates of inequality (SOC 311, or SOC 313, or SOC 315: Addressing learning objectives 1, 3, 5, and 9);
- a foundational survey of sociological theory (SOC 320: Addressing learning objectives 1, 2, 3, 4, 5, and 9);
- two courses in sociological research methods, one focusing on quantitative techniques and one focusing on qualitative methods (SOC 360 and SOC 361, respectively: Addressing learning objectives 2, 3, 4, 5, 6, 7, 8, 9, and 10); and
- one senior-level capstone experience (SOC 480 or SOC 495: Addressing learning objectives 4, 5, 6, 9, and 10)
Opportunities for Concentrated Study

Each student majoring in sociology must also choose a concentration area in which to pursue more focused instruction around a key social issue or set of issues. While gaining a depth of understanding in a particular content area, students also further develop the key skills and knowledge encompassed by our general learning objectives. We currently offer five areas of concentrated study:

- Standard Concentration
- Aging and the Life Course
- Children, Youth, and Families
- Critical Race Studies
- Health, Education, and Welfare

The requirements for each concentration are described in detail below.

Career Opportunities

An undergraduate degree in sociology may lead to careers in advertising and market research, public-opinion polling, law enforcement and criminal justice, city planning, real estate, social work, community relations, and a variety of other occupations in the public and private sectors. In order to facilitate the understanding of how sociology can be applied in real social organizations, students are encouraged to take an internship in an organization or agency serving the community or in a social research setting. Our graduates are also prepared to continue the study of sociology at the graduate level for careers in human service, research, or teaching.

Students who wish to learn more about the Sociology Department are invited to speak with the sociology faculty.

Preparation

Two lower-division courses, each consisting of 3-4 semester units, are required as preparation for the sociology major. The first course is an introduction to the field of sociology. The second course is an introduction to statistics used in quantitative sociological research methods.

Special Conditions for the Bachelor of Arts and Minor in Sociology

Each course counted toward the major or the minor must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units in sociology must be completed at Cal State San Marcos.

For those majoring in Criminology and Justice Studies and minor in Sociology, twelve (12) units of the minor may be used for the major.

The Sociology Department also offers a minor in Criminal Justice. Please see the separate catalog entry for this minor.

** Students choosing a concentration in Critical Race Studies must take SOC 313.
Concentrations

The Sociology major offers four different area concentrations: (1) Aging and Life Course, (2) Children, Youth and Families, (3) Health and Mental Health, and (4) Critical Race Studies. Concentrations require 15-16 units. Additionally, students may choose to follow a general sociology course of study, which is designated as the "Standard Concentration".

Requirements for Standard Concentration

**Units**
Students will select fifteen to sixteen (15-16) units of upper-division elective courses in sociology (including eight units at the 400-level).

Total Units 15-16

Requirements for Aging and the Life Course Concentration

**Units**

SOC 309 3

Select twelve to thirteen (12-13) units from the following courses:

SOC 204 400-level course
SOC 413 400-level course
SOC 427

Total Units 15-16

Requirements for Children, Youth and Families Concentration

**Units**

SOC 303 3

Select twelve to thirteen (12-13) units from the following courses:

SOC 203 400-level course
SOC 317 400-level course
SOC 331 400-level course
SOC 413 400-level course

Total Units 15-16

Requirements for Critical Race Studies Concentration

**Units**

Select fifteen to sixteen (15-16) units [including two 400-level courses] from the following courses: 15-16

SOC 339 400-level course
SOC 345 400-level course
SOC 347 400-level course
SOC 373 400-level course
SOC 375 400-level course
SOC 463 400-level course
SOC 465 400-level course
SOC 467 400-level course
SOC 469 400-level course
SOC 489 400-level course

Total Units 15-16

Requirements for Health, Education, and Welfare Concentration

**Units**

SOC 314 or SOC 316 4

SOC 331 4

SOC 413 4

Select four (4) units from the following courses: 4

SOC 314* 400-level course
SOC 316* 400-level course
SOC 324 400-level course
SOC 420 400-level course
SOC 424 400-level course
SOC 488 400-level course

Total Units 16

MINOR IN SOCIOLOGY

**Units**

Lower-division (3-4 units)

One of the following 4
SOC 311
SOC 313
SOC 315

Twelve (12) units of upper-division sociology electives 12

Total Units 23-24

* If not used to satisfy the requirement above.
**MASTER OF ARTS IN SOCIOLOGICAL PRACTICE**

The mission of the Master of Arts in Sociological Practice at Cal State San Marcos is to provide a superior academic and professionally useful graduate education for students interested in working in the human services and criminal justice agencies, those who plan for teaching careers at the community college level, or those who plan to pursue a Ph.D. degree.

The MA in Sociological Practice includes theory and methods, field experience in human service and criminal justice environments, and applied research. Solidly grounded in social scientific theory and methods, the program prepares students for a range of careers in which professionals are required to provide needed services to clients and to administer and evaluate programs in human services and criminal justice agencies.

Applied work is sufficiently central to the discipline of sociology that we would also be able to accept students with intentions to continue on to a Ph.D. program in sociology. The faculty represent the major sectors of the human service – aging and gerontology, the sociology of health and mental health, criminology and juvenile delinquency, and family and community studies. They are engaged in and committed to teaching and research in these fields and to having students gain field experience in these areas. In addition, the program is uniquely prepared to offer courses in the study of differences in ethnicity, race, gender, and age and how these qualities may affect values and practices in the human services and criminal justice sectors.

The focus of the program on sociological practice – applying sociologically informed policies to current social problems confronting the community with developing sensitivity to multicultural, gender, and age differences – places this program at the heart of the founding Mission Statement of Cal State San Marcos which states: “The goal is to enable students to realize their potentialities as enlightened individuals and productive members of society in a world of change.”

**Preparation and Training Offered by the Department**

The Master of Arts degree in Sociological Practice has been designed primarily as a terminal degree for students seeking careers in the human services or criminal justice sectors. The emphases in the program include:

1. developing critical reasoning in the area of the delivery of human and criminal justice services;
2. practically applying social theory to the development and appraisal of social policies and programs;
3. learning effective communication skills to become strong advocates for sociologically informed decision-making;
4. acquiring advanced research skills in applied and evaluation research, using both quantitative and qualitative methods; and
5. appreciating the varying perspectives, experiences, and value differences of those from different gender, race, ethnic, class, and age groups.

These educational emphases will provide students with a very strong background, thus enabling them to contribute to community-based organizations and agencies in the human services and criminal justice sectors. In addition, students with strong academic records and ambitions to complete the Ph.D. degree will be admitted to the program, as preparation for entry to a Ph.D. program.

**Admission and Application Requirements**

Successful applicants to this program will have an undergraduate major in sociology, at least four upper-division courses in sociology, including courses in both sociological theory and research methods and at least one undergraduate course in statistics, or an extremely strong academic record in a field that is closely related to sociology. Applicants should have computing skills sufficient to completing graduate work in sociology. Admission decisions will be affected by the appropriateness of the undergraduate training to the dimensions of the program as well as by the educational and career intentions of the applicants. Applicants must have an undergraduate academic record with a grade point average of at least 3.0 in the last 60 units of undergraduate study. In addition, an average of 3.0 is expected in upper-division sociology (or related major) courses.

A complete application consists of:

**University Application Materials**

- A completed application form for admission to Cal State San Marcos
- Application fee
- One set of official transcripts from all colleges and universities attended, with indication of graduation

**Department Application Materials**

- a completed application form;
- one set of official transcripts of the undergraduate record from all institutions to which the candidate attended, with indication of an undergraduate degree;
- a statement describing the applicant’s (1) educational, research, and work experiences relevant to this program, and (2) educational and career aspirations and goals;
- one formal writing sample that met an academic requirement;
- GRE test scores (optional); and
- three letters of evaluation sent with letter of evaluation waiver form.
Department application materials should be sent directly to the Sociology Department Administrative Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:
- March 15th for admission in the Fall Semester (no spring admission).
However, applications will be accepted for review as long as space is available in the program.

Degree Requirements
The program is based on 38 semester units (12 courses) of study, of which at least 34 units are at the graduate level (500-600). Students will complete an eight-unit (2-course) thesis sequence. The thesis will be supervised by a committee and defended at a final oral examination. A full-time student taking three courses in each semester would be able to complete the degree in two years. The GPA in the graduate program must be at least 3.0 to graduate. Units earned not in residence at Cal State San Marcos may not exceed six, and must be approved by the student’s advisor and the graduate program coordinator.

Seminar courses include graduate Sociology courses described as seminars. Three units at the 400-level may be substituted for a seminar, with approval by the graduate program committee. An independent study (600-level) course may also substitute for seminar(s), with approval by the graduate program committee.

Part-time students can select two courses per semester to complete the program in three years.

Course of Study
Students in full-time attendance will proceed with the graduate coursework in the following manner:

First Year, First Semester:
SOC 501
SOC 515
SOC 610

First Year, Second Semester:
SOC 620
SOC 630
Seminar

Second Year, First Semester:
SOC 575
SOC 640
SOC 670 or SOC 690
Seminar

Second Year, Second Semester:
SOC 675 or SOC 695
Seminar

Students in part-time attendance will proceed with the graduate coursework in the following manner:

Option 1
- First Year, First Semester:
  SOC 501
  SOC 515
  SOC 610

- First Year, Second Semester:
  SOC 620 or SOC 630
  Seminar

Option 2
- First Year, First Semester:
  SOC 501
  SOC 515
  SOC 610
- First Year, Second Semester:
  SOC 620 or SOC 630
  Seminar

- Second Year, First Semester:
  SOC 610 or SOC 640
- Second Year, Second Semester:
  SOC 630 or SOC 640
  Seminar

- Third Year, First Semester:
  SOC 575
  SOC 670 or SOC 690
- Third Year, Second Semester:
  SOC 675 or SOC 695
  Seminar

Continuation
Students must maintain a 3.0 GPA and a grade of at least C in all classes; if the cumulative GPA falls below 3.0 for two consecutive semesters, the student will be dropped from the program. Students must be continuously enrolled unless they apply for a leave of absence. Students who are not continuously enrolled, or who have a leave of absence of longer than two semesters, must petition the program for continuation. All requirements for the degree must be finished within five years after the beginning of any coursework in the graduate program.

Students will have the graduate coordinator as their graduate program advisor until they form their thesis committee. Their thesis committee will be comprised of two tenure-track Sociology faculty and the faculty member offering SOC 670. If students so desire they may add a fourth member from the wider University or general community. Students will work closely with their advisors in the selection of courses and research topics.

Advancement to Candidacy
A thesis proposal is required to complete SOC 670 or 690 and the thesis is required to complete SOC 675 or 695; the proposal and thesis must be approved by three sociology faculty members. SOC 675 or 695 is typically completed at the end of the second year for full-time students and must be completed by the end of the fifth year; students who have completed all coursework except SOC 675 or 695 will enroll in SOC 699 to maintain continuous enrollment.

Students will have been advanced to candidacy once they have successfully passed an oral defense of their research proposal. The thesis committee will assist the student in the development of the thesis proposal and research for the thesis and will serve as the committee for the oral examination once the thesis is completed.

Foreign Language Proficiency Assessor:
Vacant

Programs Offered:
• Bachelor of Arts in Spanish
• Minor in Spanish
• Master of Arts in Spanish

As its primary objective, the Spanish Major promotes the study of the language and culture of Spanish-speaking people. It is designed to provide the background and appreciation of Hispanic literatures and cultures, and linguistic and analytic skills, so students can pursue careers in a variety of fields. The program seeks to contribute support to and articulate with other areas of study at the University. It aims to serve the immediate region and its needs, while providing students with insight and understanding of the Hispanic world at large.

The Spanish Major addresses cultural and linguistic connections between the United States and its Spanish-speaking neighbors. It promotes the concept that Spanish is not a foreign language, but rather one to be cultivated and appreciated alongside English in Southern California.

The availability of multiple concentrations within characteristic of the Cal State San Marcos Spanish Major gives students flexibility and diversity while providing a strong core in all basic linguistic, analytic, and cultural skills. The program takes into account the unique nature of the Cal State San Marcos student body and the University’s Mission Statement.

The program addresses the need for trained language specialists in a variety of fields. At the same time, it considers the location of Cal State San Marcos, in North San Diego County, an area characterized by a strong Spanish-speaking population. The bi-national interaction that stems from our proximity to the Mexican border establishes the need for a multidimensional major which incorporates practical and academic components. The University’s commitment to interdisciplinary and multicultural issues guides the cultural and literary elements of the major. All of these principles are prevalent in the curriculum and the faculty, both of which are complemented by those of other programs.

Student Learning Outcomes

Students who graduate with a Bachelor of Arts in Spanish will:

• Recognize Spanish as a global language with regional and social varieties and registers that both unify and differentiate the Spanish-speaking world; in particular, they will recognize the cultural and linguistic roots and features of the Spanish language as spoken in California, elsewhere in the U.S., and throughout the world;
• Be able to carry out a range of communicative functions in Spanish, such as engaging in oral conversation modes with sufficient accuracy so as to be easily understood by a native Spanish speaker, reading and listening to authentic texts and materials, producing written discourse and composing academic texts, and giving public oral presentations and readings;
• Have the demonstrated ability to carry out several aspects of collaborative learning tasks, including group communication, and peer review;
• Use technological tools and Spanish language resources available through electronic means, such as chat rooms, email, and the Internet for research and classroom purposes; they are able to compare information available only in Spanish with information on the same topics available in English to analyze the different perspectives and/or biases shown in the sources;
• Have confronted and considered issues of social justice relevant to local and global Hispanic communities;
• Formulate research questions and identify and use appropriate methodology to answer them, applying appropriate guidelines for the ethical treatment of human and non-human research participants to the various phases of research;
• Appreciate the diversity and richness of the Hispanic world’s multiple forms of literary and artistic expression, and relate the patterns of behavior and values integral to Hispanic cultures to their own culture, aspirations, and identity;
• Identify, critically analyze and interpret language data and literary texts in Spanish;
• Identify the distinguishing characteristics and aesthetic registers of the major literary genres and periods of Hispanic literature;
• Recognize the existence of a variety of literary, linguistic, and cultural perspectives and meanings; and
• Identify the grammatical and discursive functions of Spanish language structures in a variety of social and cultural contexts.

Career Opportunities

The world is tied together by many bonds - economic, diplomatic and human - and because of technological advances in transportation and communication, an increasing number of Americans rely on the knowledge of a second language. Concentrated study of the languages and cultures of other nations contributes significantly to the improvement of international relations.
Employment possibilities for Spanish majors include the many positions available to humanities students in any field. For bilinguals there are openings in foreign countries as well as in the United States. Graduates have found jobs in teaching, translating, foreign diplomacy, foreign correspondence, travel agencies, international airlines, import-export work, international corporations, and in agencies of the federal government. Spanish language competence is an asset to urban workers in social work, public health, and law enforcement. While graduates with skills and backgrounds only in the Spanish language may encounter keen competition for jobs, as a supplement to other skills the knowledge of a foreign language is a valuable professional commodity.

Special Conditions for the Bachelor of Arts in Spanish

1. The major consists of 48 semester units, with 36 units of upper-division coursework.
2. The 12 units of lower-division, or any portion thereof, may be met by demonstrating equivalent proficiency. In such a case, the units in lower-division would be reduced proportionately.
3. Upper-division requirements are divided between a core and a concentration. The core requires 21 units and each of the four concentrations is 15 units, for a total of 36 units.
4. Appropriate courses taken for lower-division General Education credit may be counted toward the preparation of the major.
5. Credit/No Credit grading is not allowed in the upper-division courses required for the major, except in the case of students who pass course-specific challenge exams administered by the Program.
6. A grade of C (2.0) or better must be earned in all upper-division courses applied to the major.
7. In no case may more than two courses conducted in English be applied to the Spanish major.

MASTER OF ARTS IN SPANISH

The mission of the Master of Arts in Spanish is to provide qualified students with a structured yet flexible program of study in the literature, linguistics, culture, and civilization of the Spanish-speaking world, and in the art of foreign language teaching. This program is designed to prepare students for further study at the doctoral level; for careers in teaching at the elementary, secondary, or community college level; or for positions in business, social services, international relations, government agencies, and other organizations in need of trained language specialists. The Master of Arts in Spanish degree program allows students the choice of three areas of emphasis: Option A – Hispanic Literature and Linguistics, Option B – Hispanic Civilization and Language, and Option C – Foreign Language Teaching. Regardless of the option selected, the student’s academic experience will be characterized by classes of the highest quality, which encourage the development of critical thinking, an appreciation of multicultural perspectives, and articulate use of the Spanish language. All students will receive ongoing faculty mentoring. Opportunities for guided and independent research, community involvement, and study abroad in a Spanish-speaking country are central to the graduate student experience in this program.

Our campus’ close proximity to the Mexican border, together with the large Spanish-speaking population in North San Diego County, makes our area a “living language laboratory” in which students can engage in first-hand study of the many linguistic and cultural aspects of native Spanish speakers. Students who wish to pursue teaching careers will benefit from the Barahona Center for the Study of Books in Spanish for Children and Adolescents, a special collection in the Cal State San Marcos library which houses over 80,000 books, periodicals, and other materials pertinent to teaching Spanish and Hispanic culture to young people. The University’s commitment to multicultural and global awareness, together with the presence of an international group of faculty in the World Languages and Hispanic Literature Department, will contribute to the student’s process of learning, in this unique academic setting.

Admission and Application Requirements

Admission to the program requires a Bachelor’s degree from an accredited university. It is expected that students will have received a major in Spanish, or a degree in a closely related field plus at least four (4) upper-division courses in Spanish.

A grade-point average of not less than 2.5, plus an average of not less than 3.0 in upper-division Spanish courses, is required for admission.

All applicants must take the Graduate Record Examination (the general test only). While the test scores will be viewed in combination with other factors pertinent to the applicant’s ability to succeed in a graduate program, it is unlikely that students will be admitted with combined verbal and quantitative scores of less than 1000. However, no specific cutoff will be used.

Graduates of universities where English is not the principal language must take the combined Test of English as a Foreign Language (TOEFL) and receive a minimum score of 550 on the TOEFL and a minimum of 4.5 on the Test of Written English (TWE) portion of the paper-based TOEFL, or on the writing portion of the computer-based TOEFL.

A complete application consists of:

Application Materials sent directly to the Admission Office of Cal State San Marcos

• Application fee
• One set of official transcripts from all colleges and universities attended, with indication of graduation

Application Materials sent directly to the World Languages and Hispanic Literatures Department (see address below)

– One set of official transcripts from all colleges and universities attended, with indication of graduation
– Two letters of recommendation
– A one to two (1-2) page statement of purpose, describing educational experience and career goals
– A writing sample of at least seven (7) pages. The writing must be in Spanish, and should deal with some aspect of Hispanic literature, culture, or linguistics
– A (video, audio, or digital format) speech sample, in which the applicant speaks in Spanish for at least five (5) minutes, on the topic of his/her choice; and
– GRE (and TOEFL/TWE, if applicable) score reports

These application materials must be sent directly to the World Languages and Hispanic Literatures Department Administrator Coordinator at: California State University, San Marcos, San Marcos, CA 92096-0001.

Application Deadlines:
• March 15th for Fall Semester admission
• November 15th for Spring Semester admission

Note: A limited number of Teaching Assistantships may be available.
Degree Requirements

The program requires thirty (30) semester units of study, at least twenty-four (24) of which must be at the graduate level (500 and 600 series). None of the thirty (30) units of coursework applied to the Master of Art’s degree in Spanish may have been applied toward a previous academic degree. A grade of B or higher is required in each course applied to the Master of Art’s degree. Students whose grade point average drops below 3.0 will be placed on academic probation. Students must demonstrate intermediate-level knowledge of a language other than Spanish and English (by completing a 201-level language course with a final grade of C or better at Cal State San Marcos or an equivalent institution, or by passing a Proficiency Examination given by the Cal State San Marcos World Languages and Hispanic Literature Department), prior to graduation. Students must successfully pass the Comprehensive Master’s Examinations in Spanish in order to graduate.

Students enrolled full-time will typically complete the program in four semesters and must take the Comprehensive Master’s Examinations no later than the sixth semester following enrollment. Students enrolled on a part-time basis must take the Comprehensive Master’s Examinations no later than the tenth semester following enrollment. Students who do not pass the Comprehensive Master’s Examinations the first time may retake them a maximum of one additional time, no later than two years after the first attempt.

Students must complete the required 30 semester units in accordance with the specific requirements for the chosen Option.

Option A: Hispanic Literature and Linguistics
(30 Units)

This option is designed for students who wish to pursue in-depth study of Spanish, Latin American, and U.S. Latino literatures and Spanish linguistics, and will prepare students for further study at the Ph.D. level.

Option C: Foreign Language Teaching

This option is designed for students who plan to teach Spanish at the elementary, secondary, or community college level. It provides students with a strong background in applied linguistics and pedagogical theory, as well as advanced-level exposure to the literatures, cultures, and language of the Spanish-speaking world.

Elective courses taken in Education at the 500 or 600 level (to be selected in consultation with student’s faculty advisor) 9

Elective graduate-level courses (SPAN) in literature, culture/civilization, and/or linguistics* 12

In order to become well-prepared teachers, students are strongly advised to select courses representing all areas of the Spanish-speaking world (including the Spanish-speaking U.S., Latin America, and Spain).

Students will be expected to choose the Option which most clearly meets their career goals, and will receive faculty mentoring prior to their first semester of enrollment, to assist them in choosing the appropriate Option and in designing their individual course of study.

Study Abroad

In order to fully understand and appreciate the nuances of the Spanish language and Hispanic culture, all students are strongly encouraged to spend at least one summer or semester abroad, in a Spanish-speaking country. Students will be permitted to transfer up to nine (9) units of credit toward the Master of Arts in Spanish from approved study-abroad courses. Spanish faculty will work closely with each student to assist him/her in identifying an appropriate study-abroad program, and in structuring his/her course of study to accommodate this important experience.

Financial Aid

Teaching Assistantships may be available to qualified students who wish to teach introductory- and intermediate-level Spanish language courses at Cal State San Marcos. Other forms of financial support may also be available, and interested students should contact the University’s Office of Financial Aid and Scholarship for further information.

Advancement to Candidacy

1. Be in good academic standing, holding a GPA of 3.0 or higher.
2. Have completed all required course work.
3. Have fulfilled the Foreign Language Requirement.
4. Have filed a Declaration of Intent to take Comprehensive Examinations.
5. Have procured all necessary signatures from testing faculty that will constitute his or her M.A. Exam Committee.
6. Have filed Reading List Approval form with pertinent signatures.
7. Have turned in all information and records of the items stated above to the Graduate Coordinator.

Comprehensive Master’s Exams

One semester before students propose to take their Comprehensive Master’s Examinations, they must present to the graduate committee (made up of three faculty members) a reading list that must adequately represent both their readings for individual courses and readings undertaken independently to complement coursework. The reading list must be approved by the graduate committee, which has the right to prescribe authors and works not included in the list. The approved list then becomes the basis for the Master’s Examinations, which consists of two three-hour examinations, and a follow-up oral defense. These examinations will be evaluated by a committee of three faculty members, and will be graded on a pass/no pass basis.

*In order to become well-prepared teachers, students are strongly advised to select courses representing all areas of the Spanish-speaking world (including the Spanish-speaking U.S., Latin America, and Spain).
**SPECIAL MAJOR**

**Office:**
Craven Hall, Sixth Floor

**Telephone:**
(760) 750-4105

**Programs Offered:**
- Bachelor of Arts in Special Major

The Special Major allows highly motivated students the opportunity to develop an individualized program of study that cannot be realized within a single academic discipline or available major. The special major consists of a closely monitored program of study in two or more disciplines. The program is developed in consultation with a Faculty Guidance Committee specifically formed of members of respective academic areas in the student’s program and is supervised by a faculty advisor, who serves as chair of the committee. The program must be approved by the Dean of a College in coordination with the student’s Faculty Guidance Committee.

**Special Conditions for the Bachelor of Arts in Special Major**

1. The student must have completed the equivalent of one full-time semester of academic work at Cal State San Marcos and have a grade point average of 2.5 or higher in all work completed at this University.
2. At least thirty (30) semester units must remain to be completed to meet the minimum degree requirements for a Bachelor’s Degree.
3. The Special Major Program consists of forty (40) semester units. A minimum of twenty-four (24) units must be completed at the upper-division level [with nine to twelve (9-12) upper-division units in each area of study selected].
4. Courses taken for lower-division or upper-division General Education credit may not be counted toward the special major.
5. Up to six (6) units may be satisfied in field-based coursework such as independent study, internships, community work, and supervised work experience.
6. Each student must complete a capstone project.
7. The Faculty Guidance Committee and the Dean will review all proposals.

**Application to the Major**

Students interested in the Special Major must contact the Office of Undergraduate Advising Services for more information about applying for the Special Major. With the aid of the faculty advisor, students must select a Faculty Guidance Committee formed of two or more faculty members. The student’s individualized program plan is then developed in consultation with the Faculty Guidance Committee and is submitted to the appropriate college dean for approval. The Dean, in consultation with the student’s Faculty Guidance Committee, reviews and decides on the student’s program plan.

MINOR IN THEATRE

Office:
Arts Building, Third Floor

Telephone:
(760) 750-4137

VPA Department Chair:
William Bradbury, D.M.A.

Faculty:
Marcos Martinez, M.A.
Karen Schaffman, Ph.D.

Program Offered:
• Minor in Theatre

The Minor in Theatre provides a brief yet comprehensive introduction to the study and practice of theatre. Through an approach that combines theoretical and studio courses, students receive a broad orientation to multiple aspects of theatre. Acting, theatre history, design, production, and theatrical literature courses offer a diverse range of experiences and encourage various modes of learning. Students gain exposure to theatre as it has emerged in multiple cultural and historical contexts and develop a broad understanding of the meaning of theatre in society. The Minor stresses the importance of theatre as a social art and emphasizes its transformative historical role in society.

The Minor complements the student’s major field of study by serving the following objectives:
• to introduce the student to other personal and world views that may resonate or diverge radically from the student’s experience;
• to lead the student to appreciate the relationship between the written and spoken word, the text and its performance;
• to help the student understand how aesthetic issues and cultural productions affect everyday life;
• to foster the student’s personal development by providing opportunities for performance, aesthetic expression, and critical reflection through individual and ensemble work;
• to sharpen the student’s critical eye as a consumer of cultural productions and performances, including those of television and film;
• to engage the student’s imaginative and critical faculties in new and challenging ways, thereby enriching the student’s overall academic experience.

Above all, the Minor in Theatre is geared toward understanding and creating meaningful communication between theatre and its public, in order to carry forward the best traditions of theatre as an art of personal and social enrichment.

Requirements for a Minor in Theatre

Courses used to satisfy requirements of the Minor may also be used to fulfill General Education requirements. Students may apply up to nine units of transfer credit toward the Minor. Students must earn a grade of C or better in each course for the Minor. At least twelve (12) units of coursework submitted for the Minor must be completed at CSUSM. Visual and Performing Arts (VPA) majors may pursue this Minor if their VPA track is different from Theatre Arts and nine (9) units are mutually exclusive, i.e., not double-counted for the major and minor.

  -Theatre Arts Option
  -Visual Arts Option
• Minor in Art History*
• Minor in Arts and Technology**
• Minor in Dance***
• Minor in Music^
• Minor in Theatre^^
• Minor in Visual and Performing Arts+
  The Visual and Performing Arts Department at CSUSM provides an exciting multidisciplinary approach to the arts. A B.A. degree in Visual and Performing Arts consists of a sequence of courses presented in the framework of a dynamic experiential, theoretical and technological environment. The curriculum encourages interdisciplinary work, and collaborative as well as individual projects.

Students specialize in one area by following an “Option,” which provides a series of appropriate courses, selected in consultation with a VPA advisor. The department also offers courses in dance, art history, and service learning.

ARTS AND TECHNOLOGY OPTION
Designed for students who wish to work with digital arts, multimedia, video, and/or web design. This interdisciplinary track emphasizes various digital media including music, video and the visual arts.

MUSIC OPTION
Provides course offerings in theory, composition, music technology, performance and survey courses of diverse musical cultures. Music track students are encouraged to explore their own creativity and musical voice.

THEATRE ARTS OPTION
Provides courses in acting, theater production, and research to performance. Survey courses include European, Latin American and American Theatre, with a strong focus on African American and Latino Theatre.

VISUAL ARTS OPTION
Designed to nurture students’ innovation and creativity in drawing, painting, and sculpture, as well as with digital media. It allows the student flexibility in choosing among the program’s offerings in both studio and contemporary art history.

Career Opportunities
The Department prepares students for careers in multimedia design, video and/or music production, web design, art history, arts management and publishing. Graduates pursue careers as actors, artists, composers, directors, web designers, and musicians. Other students go on to complete a credential program in education and assume teaching positions in primary and secondary schools.

Capstone Project
The Senior Capstone Project is a culmination of a student’s work, designed with the input of the student’s advisor. Possible Capstone Projects are: a multimedia CD-ROM, a full-length video, an art exhibit, a collection of music compositions, a recital, or directing, writing, or taking a lead role in a theater production.

About the Department
The VPA Department is housed in the Arts Building which includes two large performance spaces for dance, music and theater with state-of-the-art sound, lighting and video equipment. The Department also maintains two music and sound recording and mixing studios with Digidesign Prototools suites and A/V sync. We offer a 24-seat multimedia lab. The video editing lab consists of 15 Final Cut Pro suites, two Media 100 suites, and a streaming server. A suite of music practice rooms is available for music students. Four large art studios are designed for digital arts, painting, drawing, sculpture, and set design. An art gallery is prominently situated at the entrance of the building.

Since its inception, the Visual and Performing Arts Department has been committed to several innovative educational objectives:
  • Global arts — The VPA Department celebrates the arts of the world with the Indonesian Gamelan, African, Andean and jazz ensembles, Caribbean carnival performances, theatre in Spanish, and many survey courses in global arts.
  • Commitment to the latest technology — The VPA Department offers cutting-edge courses in digital art and music, web design, video, and interactive multimedia.

+ See page 193 for Minor in Visual and Performing Arts.

190 | CALIFORNIA STATE UNIVERSITY SAN MARCOS
Interdisciplinary approach — The VPA Department includes courses in art, arts and education, arts and technology, dance, music, theatre, art history, and visual arts. Collaboration across disciplines is encouraged among our students and faculty.

Building community through the arts — The VPA Department builds community through outreach to schools, art research and exhibits, theatre, dance, music performances and video productions.

Support of teaching through the arts — The VPA Department sponsors many outreach programs for teachers throughout San Diego and North Counties, including SUAVE and TAP. The Center ARTES is a new initiative that will create partnerships with art institutions (see page 61). Workshops for teachers on integrating the arts are also offered through Extended Studies.

The Goals of the Visual and Performing Arts Department are:

• To help students develop a multi-disciplinary and global perspective in the arts.
• To provide a curriculum that teaches the skills of critical analysis using works of art from a broad range of cultures and styles.
• To assist students to become fluent in the theory and practice of new digital technologies.
• To provide the tools for students to create their own art as composers, visual artists or performers.
• To help students discover their own cultural histories and ethnic identities.

Special Conditions for the Bachelor of Arts in Visual and Performing Arts

The junior-level student seeking admission to this program normally must have completed the required number of units of lower-division work in his/her selected track (see the Preparation for the Major requirements in each track below for details). Transfer students entering with fewer than the required number of units should complete the deficiencies within the first year of instruction at Cal State San Marcos.

1. Credit/No Credit grading is not permitted in courses required for the major with the exception of up to three (3) units of internship.
2. All courses counted toward the major, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better.
3. At present a number of lower-division courses are offered, but some community college courses might be needed to complete the lower-division requirements.
4. All students enrolled in private or group music lessons are required to be enrolled concurrently in one of Cal State San Marcos’ music ensembles.
5. All VPA majors must complete a Capstone project in the final semester of residency (in consultation with an advisor).
6. Courses in the arts which satisfy an upper-division general education requirement may not be used for the major.

MINOR IN VISUAL AND PERFORMING ARTS

The Minor in Visual and Performing Arts offers the student the opportunity to pursue studies in music, theatre, visual arts, dance, art history, or any combination of the above. With the help of an advisor, students create a discipline-specific or multidisciplinary minor by choosing courses from two areas: Critical/Theoretical Courses and Studio Courses. All courses submitted for the minor must be completed with a grade of C or better. Independent Studies, research, or internships cannot be counted toward the minor.

Units
Introductory Critical/Theoretical
One of the following:
VPA 311

Programs Offered:
• Bachelor of Arts in Women’s Studies
• Minor in Women’s Studies

The field of Women’s Studies has become an important part of university education in the last three decades. Women’s Studies focuses on the social construction of gender and explores the roles and contributions of women and men in societies around the world, past and present. Women’s Studies also seeks to understand how gender is related to other aspects of social identity and stratification, including race, ethnicity, culture, social class, sexuality, nationality, religion, ability, and other factors that have dramatically shaped women’s and men’s lives.

Women’s Studies majors include both male and female students. Students in our courses receive a quality, liberal arts education. They learn about a wide range of academic approaches that have arisen from such diverse areas as literature, psychology, economics, the sciences, sociology, history, anthropology, the arts, communication, and many others.

Women’s Studies students develop important skills in:
• Leadership
• Analytical thinking and problem-solving
• Writing proficiency and expertise
• Applied learning
• Community involvement
• Public speaking
• Collaborative work with others
• A deeper understanding of diverse perspectives and cultural backgrounds

Women’s Studies majors pursue careers or graduate education in many different fields, including the law, education, social services, business, counseling, the arts, public administration, and medicine.

Preparation for the Major
(Lower-division (3 units)
WMST 101* 3

Major Requirements
Core (9 units)

Units
WMST 301 3
WMST 490 3
WMST 401 or WMST 499 3

Disciplinary Perspectives (15-17 units)
Choose one course from each area. At most three (3) units of the Disciplinary Perspectives and three (3) units of Electives requirement may be completed at the lower-division level.

a. Women and Tradition 3
Select one course:
HIST 316 HIST 384
HIST 327 MATH 304
HIST 383 WMST 350

b. Women and the Arts 3
Select one course:
LTWR 330** LTWR 430**
LTWR 334** VSAR 322
LTWR 400** VSAR 326
LTWR 410** WMST 450
LTWR 420**

*Also satisfies a lower-division General Education requirement.
**The course must focus on women, and written approval from the Women’s Studies Program Director is required.
c. Women and Modern Issues 3-4

Select one course:
- ECON 341
- PSOL 391
- PSOL 472
- PSYC 350
- PSYC 356
- SOC 303
- SOC 305
- SOC 306

d. Women and the Body 3

Select one course:
- BIOL 327
- PSYC 350
- PSYC 352

e. Women and International Perspectives 3-4

Select one course:
- SOC 315
- HIST 327
- HIST 355
- HIST 367

Electives (12 units)

At most three (3) units of the Disciplinary Perspectives or Electives requirement may be completed at the lower-division level. Choose from approved disciplinary perspective courses listed above in areas “a” through “e.”

Units

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

*Transfer students may substitute WMST 301 for this requirement.

Breadth requirements (15 units)

Three (3) units in each of the following three areas:

a. Women and Tradition 3

Select one course:
- HIST 316
- HIST 327
- HIST 383

b. Women and the Arts 3

Select one course:
- LTWR 330**
- LTWR 334**
- LTWR 400**
- LTWR 410**
- LTWR 420**

Total Units 18

Two (2) elective courses approved for Women’s Studies credit including one course at the 400-level 6

The selection may include independent research or internships. Work done under other disciplines and not listed above will require prior approval by the Women’s Studies Co-chair(s).

Total Units 39
VISION

California State University San Marcos’ College of Business Administration utilizes its excellent teaching faculty, innovative pedagogy, and business community partnerships to develop future business and community leaders.

MISSION

The College of Business Administration at Cal State San Marcos uses interdisciplinary programs to provide a quality business education that addresses issues of concern to current and future managers. Consistent with the needs of a rapidly growing and increasingly diverse regional population, the College’s primary focus is undergraduate education.

The College of Business Administration also offers an MBA program designed for working professionals. An important component of the curriculum, at both the undergraduate and graduate level, is outreach to the regional business community through projects that provide an experiential laboratory for student learning.

The primary mission of the College is teaching with equal secondary emphases on scholarship and service. The portfolio of faculty research activities reflects the College’s main emphasis on applied research that contributes to the understanding of modern business theory and practice. Basic research and research activities that enhance student instruction are equally weighted but emphasized less than applied research.

In addition to teaching and research activities, service on university committees as well as professional and academic organizations, is necessary to support the continued academic development of this rapidly growing university.

**BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION**

**Program of Study**

The Bachelor of Science in Business Administration degree offers the following options:

- Accountancy
- Finance Option
- Global Business Management Option
  - Management Track
  - Marketing Track
  - Supply Chain Management Track
- High Technology Management Option
- Management Option
- Marketing Option

After successful completion of the Lower-Division Pre-Business Core, students take an associated set of Foundation of Business and Core courses for their selected option/track. Each option/track has numerous elective courses from which a student can tailor a program to satisfy individual career goals.

Students in the College of Business Administration (CoBA) will find that their program of study is both rigorous and relevant to real world business problems. The curriculum is designed to help students develop a wide range of skills and abilities applicable to both for-profit and not-for-profit sectors of the economy. The program's focus on problem identification and problem-solving allows students to develop analytical and critical thinking skills that gives Cal State San Marcos business graduates a distinctive advantage in today's job market.

Senior Experience is a one-semester two-course, 5-unit sequence. During the first 1-unit course (BUS 492), students form four to five member teams to prepare for Senior Experience. Students examine topics such as problem identification, problem solving, critical thinking, consultation, project management and strategies for team effectiveness.

In the second 4-unit course (BUS 493), each team functions together as consultants to analyze the problem, develop recommendations, and then implement the best solution in the sponsoring organization. Senior Experience is offered each semester, Fall and Spring.

For information please contact Keith Butler, Director, Senior Experience (760) 750-4251 or e-mail kbutler@csusm.edu.

Throughout the curriculum the program emphasizes intellectual, ethical, and social issues likely to affect business in the 21st century. Global issues and the realities of demographic diversity in the workplace are an integral part of the coursework. In summary, the goal of the program is to help students apply their critical thinking skills to solve problems encountered in the business world in innovative ways using team-based approaches.

**Program Requirements**

The undergraduate program in Business Administration leads to a Bachelor of Science in Business Administration. Careful planning is the key to efficiently meeting program requirements. There are General Education and University-wide graduation requirements, lower-division pre-business core, and upper-division requirements for the Business Administration major. A student majoring in Business Administration will need to be proficient in word processing, spreadsheet, and database applications.

All students applying for admission to the CoBA are initially classified as Pre-Business status. Students need to submit a Business Status Application (available at www.csusm.edu/cba) to the CoBA Office of Undergraduate Programs either in person or via U.S. mail along with official transcripts or grade reports. This is in addition to the official transcripts that are required by the Office of Admissions.

Completion of the Pre-Business Core (Business Status) is a prerequisite for all upper-division CoBA business courses. Students should, to the extent possible, complete the lower-division General Education requirements (with the University required minimum GPA of 2.0) before enrolling in upper-division Business courses.

The CoBA requires that at least 50% of the upper-division major coursework required for each of its options be earned at Cal State San Marcos. Completion of the Senior Experience at Cal State San Marcos is required of all students.

**Transfer Credit**

Lower-division courses clearly equivalent in scope, content, and level will be accepted for transfer credit (if taken from a regionally accredited U.S. institution or from a foreign institution recognized by Cal State San Marcos and the CoBA).

Transfer credit will be granted for upper-division courses only in those cases where the course content and level are equivalent to Cal State San Marcos courses and where the courses were taken in a program accredited by AACSB International – The Association to Advance Collegiate Schools of Business. Exceptions will be made on an individual basis only where a review of the proposed transfer credit course indicates a content and depth at least equal to the equivalent Cal State San Marcos course. An Upper-division Transfer Credit Approval Form is available on the CoBA Web site. A student requesting such a review will be required to provide supporting documentation, such as course syllabi and required texts along with unofficial copies of transcripts or grade reports. This is in addition to the official transcripts that are required by the Office of Admissions.

Impaction

Please be aware that the College of Business Administration (CoBA) may receive more applicants than can be accommodated. To maintain the academic quality of CoBA’s academic programs and services, impaction criteria may be applied to determine which students will be able to register for upper-division business courses (Business Status). Refer to the following web site for current impaction guidelines www.csusm.edu/impactioncoba.

See page 201 for the Accountancy and Finance Option requirements.

See page 202 for the Global Business Management Option requirements.

See page 204 for the High Technology Management Option requirements.

See page 204 for the Service Sector Management Option requirements.

See page 205 for the Marketing Option requirements.
ACCOUNTANCY OPTION
(55 Units)
Accounting has often been called “the language of business.” Through its accounting system an organization records its transactions and communicates its performance. The accountancy curriculum at CSUSM is designed, in part, to prepare students for careers in public accounting, including qualification to sit for the CPA examination. It also has the flexibility and provides sufficient electives to prepare students for careers in managerial accounting or governmental accounting, not-for-profit accounting, and other business-related areas.

Foundations of Business Courses
(12 units)
BUS 302 2
BUS 304 4

Senior Experience (5 units)
BUS 492 1
BUS 493 4

FINANCE OPTION
(55 Units)
Finance is the study of the interaction of firms and financial markets. Financial managers attempt to identify and undertake projects that increase firm value and determine the best means by which to finance the projects they undertake.
Investors, the source of financing for these projects, are free to choose from many types of securities issued by different types of firms. The risk-return profiles of these individual securities, and the impact of portfolio design on the attainment of an optimal risk-return profile, are major topic areas of finance. CSUSM students who choose the finance track are able to specialize in the study of corporate finance, investment analysis, and international finance. Students are provided an education that permits them to enjoy careers as stockbrokers, financial analysts, investment advisers, and the like.

*Recommended for:
F = Financial/Public Accounting
M = Management Accounting
N = Not-for profit/Governmental Accounting
T = Tax Accounting

*HTM 304 can be substituted
## GLOBAL BUSINESS MANAGEMENT OPTION

### Management Track

This track is primarily for two types of students: those with several years of professional work experience in a functional area (e.g., marketing, finance, accounting, etc.) and who are more interested in preparation for management positions in a firm with global operations, or who are planning to continue on with graduate studies in business, management, international development, or related areas. This track has two types of courses that are available: management courses and a broader set of courses from business as well as arts and sciences. The management course “concentration” is best for those who have, from work experience, a good understanding of a specific functional area and who are interested in taking on management responsibilities in that functional area. Students who aspire to an academic or consulting career who wish to pursue graduate studies could also benefit from this type of management course concentration. The broader set of courses, including business and arts and science courses, is best for those who are potentially interested in pursuing graduate studies and possibly interested in an academic career in some area of international business, relations or development.

### Marketing Track

The Marketing track is primarily for those who want to become involved in global sales and marketing. This can include account management, global marketing campaign and strategy development and delivery, and related areas such as advertising. In all but very small firms, a career in global marketing and sales normally requires several years experience at a domestic site and a good familiarity with the firm’s products and services. As a result, the specialized courses for this track are focused primarily on fundamental marketing principles and knowledge that are important for domestic and global operations.

Global Business Management Option

Supply Chain Management Track (55 units)
The Supply Chain Management track is primarily for those who are interested in working in the materials sourcing and distribution of goods area. There are three primary career outlets for this track:

1) working in the logistics department of a global firm,
2) working in an independent supply chain management firm, and
3) working in or running a small import-export business.

The principal objective of all three areas is to manage optimally manage the distribution of goods and the sourcing of supplies to manufacture those goods at the lowest cost. This involves a knowledge of transportation systems, customs and tariffs, distribution methods within the exporting and importing countries and also the payment methods for the goods being distributed. An interest in and understanding of other countries’ culture and customs requirements, a good quantitative orientation and skill set, as well as a penchant for detail are all important to be successful in this area.

MGMT 461  4
MKTG 448  4

Supply Chain Management Track Requirement (4 units)
HTM 305  4
HIGH TECHNOLOGY MANAGEMENT OPTION
(55 Units)

Success in business is associated with firms that strategically use and develop sophisticated operations and information technologies. The High Technology Management (HTM) option is dedicated to the advancement of organizations through the use of state-of-the-art technologies, strategies, systems, tools and techniques. Students graduating with an Option in HTM are expected to have strong skills in a subset of information technology and operations management. Typical abilities of an HTM graduate should include proficiency areas such as systems analysis and design, database management, multimedia, information technology, e-commerce, telecommunications management, management science modeling, quality management, supply-chain management, and inventory management and control. Knowledge gained in HTM coursework can be applied to industries such as biotechnology, computer hardware, software and peripherals, telecommunications, manufacturing, defense and aerospace. However, nearly every organization, no matter how traditional or simple the product or service, can benefit from strategic, prudent use of technology.

Foundations of Business Courses (14 units)

Senior Experience (5 units)
- BUS 492 1
- BUS 493 4

MANAGEMENT OPTION
(55 Units)

The Management Option courses concentrate primarily on relationships among members of organizations as well as organization decision-making behavior and cultures. The courses draw on many facets of the social and behavioral sciences to guide students in their intellectual development. A common theme is the use of people skills.

Students learn how to manage employees through courses such as Leadership in Organizations (MGMT 452) and Human Resource Management (MGMT 415). Marketing courses are also taken by students to enhance their understanding of how firms develop mutually beneficial exchanges with consumers and other businesses.

Foundations of Business Courses (12 units)

A minimum of 10 units must be selected from the list of electives below. The remaining 4 units can be taken from electives in ACCT, FIN, GBM, HTM, MGMT, or MKTG. No more than 4 units from the ACCT, FIN, or HTM option core can be counted as elective credit. Students in this Option cannot take ACCT 308 for credit. A maximum of 4 units may be taken outside the College with prior approval from CoBA.  

GBM 430 2  
MGMT 315 2  
MKTG 415 4  
MGMT 432 2  
MGMT 445 2  
MGMT 452 4  
MGMT 461 4  
MGMT 465 4  
MKTG 481-5 1-4  
MKTG 498 1-4  
MKTG 315 4  
MKTG 446 4  
MKTG 449 4  
MKTG 481-5 1-4  
MKTG 498 1-4  

Capstone (4 units)  
BUS 444 4  
Senior Experience (5 units)  
BUS 492 1  
BUS 493 4  

MINOR IN BUSINESS ADMINISTRATION  
The Minor in Business Administration is designed to be supportive of a variety of arts, humanities, and science majors. All students interested in the minor should meet with an advisor in the College of Business Administration. To graduate with a Minor in Business Administration, students will be required to complete the requirements in effect at the time of declaration. The CoBA requires that at least 50% of the upper-division minor coursework be earned at Cal State San Marcos. The requirements are as follows:  

Lower-Division Pre-Business Core (Please see page 200 for details on the Pre-business Core)  

Four 2-Unit Foundation of Business Courses (8 units) selected from:  
BUS 302 2  
FIN 302 2  
MGMT 302 2  
MIS 302 2  
MKTG 302 2  
HTM 302 2  

An approved 4-unit upper-division Business Course 4  

Students must meet all prerequisites for the selected 4-unit course.  

Minimum Total Units 36

MASTER OF BUSINESS ADMINISTRATION

Philosophy

The fundamental mission of the College of Business Administration is to educate the leaders of tomorrow’s business and non-profit organizations by concentrating on the management skills needed in the complex, multicultural and technological environments of the future. The design philosophy for the graduate program is to integrate rigor with relevance and theory with practice.

The program has been influenced by the writings of premier educators, commissions, and managers, as well as by the talents of our faculty and by the needs of our constituencies. It is modern in structure and pedagogy as well as content. It recognizes the sea-changes such as diversity, a global economy, technology, the cooperative nature of decision making, and accelerating rates of change that are occurring in business, government and society, and in higher education.

The program emphasizes a commitment to values: ethics, respect for the individual and the environment, intellectual curiosity, commitment to lifelong learning, and self-direction. It makes use of information technologies in the delivery of the program and requires that students develop a significant level of proficiency in the application of technology. The curriculum stresses the importance of good communication skills for successful management; thus, written and oral presentations are a part of every course.

Description of the Program

The Master of Business Administration is designed for the employed student who has several years of work experience as a professional and is either preparing to enter management or has moderate management experience.

The program requires 36 units of coursework beyond a 12-unit “foundation.” There are three types of courses: Foundation, Program, and Master’s Project.

1. Foundation Courses [12 units] provide the background knowledge and skills essential to virtually all management activity. The foundation is organized as two courses. Typically, students who have completed an undergraduate program in business within the last seven years will be able to waive the foundation courses. Also see the requirements for the Minor in Business Administration.

2. Program Courses [33 units] contain more advanced material. Courses in the program are all variable (2-4) unit courses.

3. The Master’s Project [3-6 units] involves the investigation of a government or business entity’s operations to achieve a significant cost reduction, service enhancement, etc. Each project is proposed, researched and reported, and culminates in a written report that includes problem identification, evaluation of potential solutions, discussion of the selected implementation, and evaluation of the results.

Program Schedule

The program is designed for working professionals. Groups of 25-40 students take courses in a predetermined sequence. The full program, including the foundation and Master’s Project, can be completed in 20 months of courses. Students attend regular semesters (fall and spring).

Admission Requirements

The admissions policy assesses the applicant’s competencies in five primary areas essential to success in the Master’s program and to success as a manager:

- Problem recognition and analysis.
- Basic skills in computer applications and quantitative methods.
- Effective communication, both written and oral.
- Intellectual curiosity, managerial point of view, respect for the individual and for the value of diversity, self-awareness and self-direction, and concern for the consequences of one’s actions.
- General academic proficiency in areas relevant to management.

In addition, we also evaluate the candidate’s “commitment” to the program — the probability that the candidate has the time and resources essential to the successful completion of the degree.
The primary data for assessment includes the following required items:

- Transcripts of university-level coursework. GPA will be computed from the most recent 60 semester units of academic coursework taken at the graduate or upper-division level.
- The Graduate Management Aptitude Test (GMAT), taken within the last 5 years.
- Two essays covering career achievements plus expected challenges and rewards from the MBA Program.
- Three completed Recommendation for MBA Applicant forms.

The admissions committee will also evaluate the applicant’s skills in quantitative methods, communication, and computer applications. Where deficiencies are identified, the applicant may be required to complete additional courses or attend workshops. In addition, the assessment will also determine whether the 12-unit Foundation may be waived.

**Graduation Requirements**

Completion of the MBA degree requires: (1) an overall GPA of at least 3.0 (B average) in all coursework within the program, and (2) a grade of C or better in each course.

**Foundation Courses (12 units)**

There are two 6-unit foundation courses. Typically, students who have completed an undergraduate program in business within the past seven years will be able to waive the foundation.

BGA 501  BGA 502

**BUSINESS MANAGEMENT OPTION**

(33 Units)

All program courses are variable, 2- to 4-unit courses.

MISSION STATEMENT

The mission of the College of Education community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism, and shared governance.

Programs Offered:
The College of Education offers the following credential programs, which are approved by the California Commission on Teacher Credentialing:

Credential and Certificate Programs
- Multiple-Subject/English Learner Authorization (Elementary)
- Part-time Multiple-Subject/English Learner Authorization
- Integrated Bachelor of Arts and Multiple-Subject/English Learner Authorization
- Multiple-Subject/Middle Level Certificate/English Learner Authorization
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple-Subject/English Learner Authorization*
- Single-Subject Credential Program/English Learner Authorization (Secondary)
- Part-time Single-Subject/English Learner Authorization (Secondary)
- Multiple-Subject/BCLAD (Bilingual/Cross-Cultural Language and Academic Development): Spanish Emphasis
- Part-time Multiple-Subject/BCLAD: Spanish Emphasis
- Part-time Single-Subject/BCLAD: Spanish Emphasis
- Integrated Bachelor of Arts and Multiple-Subject/BCLAD: Spanish Emphasis
- Multiple-Subject/Middle Level/Spanish BCLAD: Spanish Emphasis
- Concurrent Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist with Multiple-Subject/BCLAD: Spanish Emphasis*
- Single-Subject/BCLAD: Spanish Emphasis
- Preliminary Administrative Services Credential Tier I
- Preliminary Level I Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Professional Level II Mild/Moderate and Moderate/Severe Disabilities Education Specialist
- Reading Specialist Credential
- CLAD Certificate
- Reading Certificate

Master of Arts
- Master of Arts in Education, Options:
  - Critical Studies of Schooling Culture and Language
  - Education Administration
  - Teaching, Learning, and Leadership
  - Literacy Education
  - Science, Mathematics and Educational Technology for Diverse Populations
  - Special Education

Doctor of Education
- Doctorate in Education, Educational Leadership
  - Joint program offered by Cal State San Marcos, San Diego State University, and University of California San Diego

The College of Education also offers:
- Courses required for the Professional Clear Teaching Credential
- Prerequisite courses required for entry into credential programs
- Elective courses of interest to both area educators and undergraduate students who intend to enter the teaching profession

*Internships offered with San Diego Unified School and Capistrano Unified School District
GRADE REQUIREMENTS AND ACADEMIC PROBATION

For all students in the Multiple-Subject, Integrated Credential Program, Special Education, Concurrent Special Education, BCLAD, Middle Level Certificate, and Single-Subject programs, the following grade requirements must be met:

- Grading. All courses except student teaching are graded A, B, C, D, F. Credit/No Credit (CR/NC) is given for student teaching/Intern teaching. The minimum acceptable final grade for the courses in the professional education sequence, including prerequisite courses, is C+ (2.9), but a B (3.0) average must be maintained.

For all College of Education programs (teaching credential, specialist credential, and master's program) the following academic probation policy is in effect:

- Academic Probation, Disqualification and Disenrollment. A candidate will be placed on academic probation if, during any academic term:
  1. The cumulative GPA in all coursework in the professional education sequence (prerequisite courses, credential program, or clear credential courses) falls below 3.0; or
  2. The student has been assigned grades of No Credit, Incomplete, or a letter grade below C+ in any two or more professional courses;
  3. Further, a student will not be allowed to enter the advanced student teaching experience if the student is (1) on academic probation, or (2) has not successfully completed all methods coursework, or (3) has a grade of "incomplete" for beginning student teaching, or (4) has not completed subject matter competency, or (5) has not been issued a Commission on Teacher Credentialing (CCTC) Certificate of Clearance and TB clearance.

Disqualification

A student in a credential program may be disqualified for any of the following:

- A Certificate of Clearance is not obtained.
- Teaching Performance Expectations (TPEs) are not met.
- If, during the probation period, the candidate fails to achieve a 3.0 GPA, and a minimum letter grade of C+ or better in all professional coursework.
- Other Considerations. Postbaccalaureate students may repeat a course in which a grade of lower than C+ was received. Courses may be repeated only once.

Policy on Length of Time to Complete Teacher Credential Program

Due to the dynamic nature of changes in all academic disciplines, the College of Education requires students in full-time teacher credential programs to complete their coursework and student teaching within a three-year time limit, commencing from the beginning of coursework in that program. There is a four-year time limit for students in part-time teacher credential programs, commencing at the beginning of coursework in that program. At that point, students will be terminated from the program and will have to reapply to the program to be reinstated. Students can appeal to College of Education, Student Appeals Committee. Please note: Students enrolled in credential programs before Fall 2002 are under the Ryan Standards and must both complete the program and be recommended for credential within the time limits listed above and before 12/31/05. Ryan credentials cannot be issued after 12/31/05.

Disenrollment

A student may be disenrolled from a credential program if it is determined that the student will not likely achieve minimum academic requirements for the credential.

Admission Requirements for the Multiple-Subject Teaching Credential Programs

The following are admission requirements for the Multiple-Subject Teaching Credential Programs.

1. Two (2) Applications. Application to both the University and College of Education.
2. Application Fees. A $25 credential application fee is due upon application to a credential program. A university application fee is also required.
3. Bachelor’s Degree. A bachelor’s degree or all undergraduate academic subjects must be satisfied before entering a teacher education program. Students may enter the credential program as an undergraduate and use the units in the credential program as electives to obtain a bachelor’s degree. A bachelor’s degree is a requirement for teacher certification. A student may petition for 12 units concurrent postbaccalaureate credit the first week of instruction during the last semester before graduation ONLY. Petitions are available in the Office of Registration and Records. Please note: Completion of a bachelor’s degree from Cal State San Marcos requires submission of a graduate application to enroll in postbaccalaureate or graduate coursework.

4. CBEST Examination. Students must take the California Basic Educational Skills Test (CBEST) prior to admission to the Multiple Subject Teaching Credential program. Students are urged to take this examination at the earliest possible time after deciding to pursue a teaching credential. CBEST must be passed before advanced student teaching.

5. Subject Matter Competency. Teacher candidates in California are required to demonstrate competence in the subject matter they will be authorized to teach. Subject matter competency must be completed prior to admission to the program. Please note: Conditional admission will be considered on a limited basis; however, state program standards prohibit advanced student teaching until CSET: Multiple Subjects is passed. The examination consists of three (3) subtests:

Subtest I: Reading Language and Literature; History and Social Sciences, Test Code 101
Subtest II: Science; Mathematics, Test Code 102

Information, test preparation, and registration is available online at: www.cset.nesinc.com

*MSAT scores are acceptable for certification if passed within five (5) years of the individual test date. The last date to pass one part of MSAT was January 11, 2003. The date to pass the entire MSAT examination and last California administration was June, 2003.
6. Prerequisite Courses in Education. If taken at Cal State San Marcos, the course must be completed within seven (7) years prior to beginning the program. If an equivalent course at another college or university has been taken, it must have been completed within five (5) years prior to beginning the program.

a) EDUC 350 – This required course serves as an orientation to careers in elementary/middle/high school, and special education. During this course, students participate in forty-five (45) hours of supervised fieldwork assignments in classroom settings. Applicants must submit a field experience form with teacher recommendation verifying the classroom field experience. A Certificate of Clearance must be obtained as a requirement of this course.

b) EDUC 364 – This required course covers the principles of first and second language acquisition and issues related to notions of culture, interaction and communication in school and community contexts within a theoretical and applied context.

c) EDUC 422 – Before admission to program, students must have completed a basic computer course or passed an assessment. In addition, students must obtain competency in using a set of education specific electronic tools by completing EDUC 422 or portfolio to the specifications found at www.ca公章.edu/COE/academics/PoliciesForms.TCPasp.

7. Two Sets of Official Transcripts. One official set of transcripts from each of the colleges or universities attended must be mailed directly to the Cal State San Marcos Office of Admissions, and one official set of transcripts must be submitted to the College of Education Student Services Center with the program application.

8. Grade-Point Average. A student must have a cumulative grade point average (GPA) of 2.67 to be accepted into any credential program offered at Cal State San Marcos. If you do not have the required 2.67 GPA, conditional admission is available on a limited basis.

9. Field Experience Recommendation Form. This form is a recommendation from a public school classroom teacher. You have received this form in EDUC 350, or it is available online as part of the COE application. This form must be completed by a public school classroom teacher and submitted with your application or before your interview. If you are unable to submit this form, you may substitute a letter of recommendation on letterhead from a public school classroom teacher.

10. Two Letters of Recommendation. Two letters of recommendation from faculty and/or others who are knowledgeable about the student’s personal qualities and potential must be submitted with the program application. This is in addition to the field experience form from the classroom teacher.

11. Personal Interview for Qualified Candidates Conducted by Education Faculty Committee. The candidate will be notified by mail to make arrangements for the interview after the application deadline.

12. Writing Samples. Writing samples are required and are program-specific.

Please note: The California Commission on Teacher Credentialing requires passing the Reading Instruction Competence Assessment (RICA). Passing one of two components of RICA, either a comprehensive examination or a performance assessment, is a requirement for the initial issuance of a Multiple Subject or Special Education Credential. Students cannot take the RICA until they have successfully completed the Language and Literacy courses which are part of the credential program. The CSU San Marcos College of Education RICA pass rate for 2003-2005 is 100%.

Co-Requisites

Completed before or during program and is required before recommendation of initial credential.

1. U.S. Constitution. Knowledge of the U.S. Constitution demonstrated by completion of a two-semester unit college-level course or a college-level examination.

2. Health Education Requirement. Prior to issuance of an initial credential, a health course must be completed which covers, nutrition, psychological and sociological effects of abuse of alcohol, narcotics and drugs, use of tobacco. Infant, child and adult CPR is required to satisfy the health requirement.

Student Teaching Requirements

Eligibility for Student Teaching Includes:

1. Certificate of Clearance. Students must possess or apply for a valid Certificate of Clearance as part of the admission to the Teaching Credential program. A copy of a valid emergency credential satisfies the clearance requirement. This requirement must be completed prior to entering any classroom for observation and/or student teaching.

2. Tuberculin Clearance. The tuberculin clearance is valid for four (4) years and must be valid throughout the student teaching. The tuberculin clearance may be completed at a private physician’s office, the County Health Department, or the Cal State San Marcos Student Health Center.

3. CBEST must be passed before advanced student teaching.

4. CSET must be passed before advanced student teaching.

5. Successful progress in professional program coursework and Teaching Performance Expectations (TPEs).

Eligibility for Intern Teaching Includes:

2. Bachelor’s Degree. Official transcripts verifying bachelor’s degree required.

3. U.S. Constitution requirement must be completed.

4. CBEST must be passed before intern teaching.

5. CSET must be passed.

6. Successful progress in program and Teaching Performance Expectations (TPEs).

7. Turberculin Clearance. Admission to: Bilingual Crosscultural Language and Academic Development (BCLAD): Spanish Emphasis BCLAD Emphasis: Spanish should sign up for the language assessment prior to admission. Please call (760) 750-4020 to arrange for an appointment and refer to the BCLAD section of the catalog for all BCLAD requirements. There will be a $50 fee for the written assessment and an additional $50 fee for the oral assessment.

CALIFORNIA STATE UNIVERSITY SAN MARCOS
MULTIPLE-SUBJECT CREDENTIAL PROGRAM/ENGLISH LEARNER AUTHORIZATION

The Multiple-Subject Credential Program is designed to prepare teachers to work with students in grades K-12 with responsibility for all subject areas in a self-contained and core classroom. Teachers holding a Multiple-Subject Credential are most often assigned to preschool and elementary school classrooms.

This program has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English learners is met through the infusion of content and experiences within the Multiple Subject Program, as well as additional coursework. Students successfully completing this program receive the Preliminary Multiple-Subject Credential with authorization to teach English learners.

A two semester program, the Multiple-Subject Program provides coursework in learning and instruction, content area methodology correlated with field experiences and student teaching in conjunction with the authorization to teach English learners. The College of Education is specifically committed to providing students with opportunities to learn innovative teaching practices and put these methods to work with children.

PART-TIME MULTIPLE-SUBJECT CREDENTIAL PROGRAM ENGLISH LEARNER AUTHORIZATION

A fast-track revision of the part-time program is being considered for Spring 2006.

The Part-time Multiple-Subject Credential Program is intended for those students who are unable to pursue a full-time program. The curriculum is the same as the full-time program, except that two courses are offered per semester. The Multiple-Subject part-time is delivered in 5 consecutive semesters. Please note summer is considered one of the semesters. The part-time program is offered as an evening program. Summer is considered one of the semesters.

First Semester Units

Total 14**

Program Total 38

* Full-time fees are required.

Successful completion of the program results in issuance of a Preliminary 5-year credential. New 2042 Standards require employment as a full-time teacher and completion of an induction program to qualify for the Professional Clear Credential.
CONCURRENT PRELIMINARY LEVEL I EDUCATION SPECIALIST MILD/MODERATE AND/OR MODERATE/SEVERE DISABILITIES PROGRAM WITH THE MULTIPLE-SUBJECT/ENGLISH LEARNER AUTHORIZATION

Admission requirements same as Multiple Subject Credential

The concurrent students receive the Multiple-Subject and the Preliminary Level I Mild/Moderate credentials with the option to complete the Preliminary Level I Moderate/Severe credential the second summer. The authorization to teach English Learners is met through infusion of content and experiences. Cal State San Marcos College of Education offers a bilingual emphasis and certificate program.

The Preliminary Mild/Moderate Disabilities Education Specialist and Preliminary Moderate/Severe Disabilities Education Specialist credentials together encompass competencies to address the full range of student differences. Both the Mild/Moderate and Moderate/Severe credentials authorize the provision of services to individuals in grades K through 12, including adults. The Mild/Moderate Education Specialist credential requires candidates to receive both the Mild/Moderate and Moderate/Severe credentials.

Level II preparation is required of all initial (Level I) credential holders. This Professional Level II preparation is intended to be a support mechanism for the successful induction of newly credentialed special educators into the professional level. All candidates completing Preliminary Level I preparation must begin a Level II program within 120 calendar days after employment as a specialist and complete a Professional Clear Level II Education Specialist Credential Program within 5 years of the date of issuance of the Preliminary Level I Credential. Professional Level II Credential requirements include possession of a Preliminary Level I Specialist Credential, and 2 years of experience as a specialist educator while holding a Level I credential. The Professional Level II Credential requirements can be found on page 225, 226.

INTERNERSHIP PARTNERSHIP WITH SAN DIEGO UNIFIED SCHOOL DISTRICT AND CAPISTRANO UNIFIED SCHOOL DISTRICT FOR PRELIMINARY LEVEL I EDUCATION SPECIALIST MILD/MODERATE AND/OR MODERATE/SEVERE DISABILITIES PROGRAM WITH OPTIONS FOR MULTIPLE-SUBJECT/ENGLISH LEARNER AUTHORIZATION

Intern Requirements

1. Bachelor’s Degree. Official transcript verifying bachelor’s degree is required.
2. U.S. Constitution requirement must be completed.
3. CBEST must be passed before intern teaching.
4. CSET must be passed before intern teaching.
5. Fingerprint Clearance. Students must possess or apply for a Certificate of Clearance during the admission process to the Multiple Subject Teaching Credential program. The appropriate internship paperwork will be provided by the College of Education Student Services Center. Current intern credential fees are between $55 - $120. An internship credential must be issued before beginning intern teaching.
6. Tuberculin Clearance. The tuberculin clearance is valid for four years and must remain valid throughout all intern teaching experiences. The clearance may be obtained at a private physician’s office, the County Health Department, or the Cal State San Marcos Student Health Center.

Please note: If you are applying for the Internship Credential Program in partnership with San Diego Unified School District, you must also apply online with the school district at http://prod031.sandi.net/specialedp/

Professional Level II credential requirements include possession of a Preliminary Level I Specialist Credential and 2 years of experience as a special educator while holding a Level I credential. See Special Education Professional Level II Credential Requirements on page 225, 226.

MULTIPLE-SUBJECT CREDENTIAL PROGRAM/ENGLISH LEARNER AUTHORIZATION WITH MIDDLE LEVEL CERTIFICATE

The Multiple Subject with Middle Level Certificate Teacher Education Program Middle Level Program is designed to prepare teachers to work with young adolescents in grades 5-9. Graduates of the program will hold a Multiple Subject Credential with Authorization to Teach English Learners as well as a Certificate of Advanced Study in Middle Level Education. The Middle Level Program provides the candidate with the flexibility to teach in elementary and middle schools.

The Middle Level Program provides focused preparation in teaching, learning and schooling for youngsters in the middle grades. Coursework is taught at a middle school site with class sessions and assignments geared to the particular needs of middle school teachers and learners. Field experiences are planned and coordinated with a small number of partner middle schools. Supervision of the student teachers is the shared responsibility of a university faculty advisor (a teaching team member assigned to one school) and an on-site supervisor at the middle school (a full-time teacher at the site).

Admission Requirements same as Multiple Subject.

It is recommended students obtain certification to teach departmentally in a subject area. There are three options currently available:

1. State-approved examination in a single subject content area. Refer to www.cset.nesine.com, or call (760) 750-4277 for further information.

2. Subject Matter Programs. Cal State San Marcos offers Single-Subject Subject Matter Programs in Social Science, Mathematics, English and Spanish. Please contact the College of Arts and Sciences for eligibility.

3. Subject Matter Authorizations. The California Commission on Teacher Credentialing (CCTC) approved requirements for Subject Matter Authorizations as an alternative method of demonstrating single subject content knowledge based on specific coursework. Detailed information is available in the COE Student Services Center and workshops are conducted throughout the academic year. Please call (760) 750-4277 to sign for a Subject Matter Authorization workshop.

Please note supplementary authorities may be added to Multiple-Subject Credentials. Options 1 and 2 qualify students for the Single-Subject Credential upon successful completion of the Multiple-Subject Credential Program with Middle Level Certificate.
Middle Level Certificate Program

EDMI 572 7
Total 19

Successful completion of the program, and state required assessments, results in issuance of a Preliminary 5-year credential. New 2042 Standards require employment as a full-time teacher and completion of an induction program to qualify for the Professional Clear Credential.

SINGLE-SUBJECT CREDENTIAL PROGRAM/ENGLISH LEARNER AUTHORIZATION

Admission Requirements for the Single Subject (Secondary) Credential Program

Same as Multiple-Subject Admission Requirements with the following exception:

Subject Matter Competency. Teacher candidates in California are required to demonstrate competence in the subject matter they will be authorized to teach. Subject matter competency must be completed before beginning the program.

Candidates have two options available for satisfying this requirement:

1) Complete a commission-accredited subject matter preparation program in the subject they wish to teach, such as English, Mathematics, Biological Science, Chemistry, Geoscience, Physics, Social Science, Spanish.

2) Pass the appropriate commission-adopted subject matter examination. Please refer to Table 1 in the program brochure for information on CSET Single-Subject examinations. Please call (760) 750-4277 for further information.

Information, test preparation, and registration are available online at: www.scet.nesine.com

Program Description

Single-Subject (high school) teacher education candidates enroll in a program designed to prepare them to teach students in grades nine through twelve. Upon completion of the program, candidates receive a Preliminary Single Subject Credential. In the full-time two-semester curriculum, candidates take courses in teaching and learning in high schools, discipline and interdisciplinary specific methods, and multilingual/multicultural education. Coursework is taught by a team of instructors with class sessions and assignments geared to the particular needs of high school teachers and learners. The teaching team consists of faculty from both the Colleges of Education and Arts and Sciences, and they are assisted by educators from North County High Schools who share expertise and experiences and model exemplary practices for high schools.

North County high schools serve as sites for field experiences. Supervision of the student teachers is a shared responsibility of a University faculty advisor and an on-site supervisor (a full-time teacher at the high school level). Two different opportunities constitute the field experience—one at the ninth/tenth grade level and one at the eleventh/twelfth grade level. Within these experiences there will be opportunities to practice-teach a variety of subjects to diverse student populations with varying ability levels. In addition, student teachers will be encouraged to participate in school faculty activities outside of the classroom in order to gain both experience and expertise in the organization and decision making characteristic of the high school culture.

Another important aspect of the Single-Subject Credential Program is the acquisition of and Authorization to Teach English Learners. Requirements are met through the infusion of content and experience not only through the specific courses, but also during the student teaching experience in order to better serve the needs of students from diverse language and cultural backgrounds often encountered in classrooms.

It is recommended that perspective students have a second area of strength in a subject area. The California Commission on Teacher Credentialing (CCTC) has adopted Subject Matter Authorizations as an alternative method of obtaining an additional subject area. Please attend a Supplementary Authorization/Subject Matter Authorization workshop as indicated on our website: www.csusm.edu/coe.

Successful completion of the program results in issuance of a Preliminary 5-year credential. New 2042 Standards require employment as a full-time teacher and completion of an induction program to qualify for the Professional Clear Credential.

**BILINGUAL EMPHASIS AND CERTIFICATE OF ADVANCED STUDY IN BILITERACY EDUCATION: SPANISH**

The Certificate in Advanced Study in Biliteracy Education is a program offered in conjunction with the Multiple Subject, Middle Level, Intern, Single-Subject Credential and Integrated Credential Program options. The advanced certification is for those individuals wishing to provide primary language instruction to second language learners. This program is designed to provide credential candidates with primary and second language theory, curricula, instructional strategies and methodology and is specially designed to instruct students in both their native language and in English language development across the content core curricula. The College of Education offers coursework and field experiences which will qualify candidates with the requisite skills, knowledge and disposition to design, implement, and teach in biliteracy and other primary language programs.

There are three (3) requirements to be recommended for the BCLAD: Spanish emphasis:

1. Certificate of Advanced Study in Biliteracy Education candidates must demonstrate the equivalent to a Foreign Service Institute level of at least three (3) in the language and culture of emphasis no more than three years prior to entering the credential program. The Assessment will be scheduled after application to the program.
2. At least one student teaching placement will be in a biliteracy or other primary language program. Students must register for EDMS, EDMI, or EDSS 573 - Student Teaching in a Bilingual Setting.
3. The following additional courses must be successfully completed:
   - EDML 553 3 units
   - EDML 554 3 units

*PLEASE NOTE: These three requirements MUST be fulfilled during the program or no more than one (1) year after recommendation for initial credential. Past the one year state rule, a candidate must pass the state BCLAD examinations to qualify for the BCLAD Certificate.*

Note: Students must be successful in meeting the Teaching Performance Expectations (TPEs) to progress to student teaching and to be recommended for credential. Please refer to the details of the TPEs in the Student Teaching Handbook on the COE web site at www.csusm.edu/COE.
INTEGRATED BACHELOR OF ARTS AND MULTIPLE SUBJECT CREDENTIAL PROGRAM/ENGLISH LEARNER AUTHORIZATION

(For admission requirements to the Integrated Bachelor of Arts, see College of Education and College of Arts and Sciences advising staff.)

This program provides students with a Bachelor of Arts Degree with a major in Liberal Studies from the College of Arts and Sciences and a Multiple-Subject Credential English Learner Authorization from the College of Education. The Integrated Curriculum Option consists of six-themed semesters of courses which are taken in both colleges.

The Integrated Bachelor of Arts and Multiple-Subject Emphasis Credential English Learner Authorization Program appears as Option 2 in the Liberal Studies major under the College of Arts and Sciences, see page 151.)

At the time of the preparation of this catalog, the ICP curriculum was undergoing revisions. Please consult the on-line catalog, a Liberal Studies Advisor, or visit the ICP web-page on the College of Education and Liberal Studies web site for further information.

PROFESSIONAL CLEAR CREDENTIAL

There are three options available to clear a Ryan Preliminary Credential

University Recommendation

Applicants may receive a Cal State San Marcos recommendation of a five-year Professional Clear Multiple or Single Subject Ryan Credential if, in addition to completing program requirements for the Preliminary Ryan Credential, the applicant also satisfies:

(a) Fifth Year of Study

Completion of a fifth year of study (thirty (30) units of upper-division or graduate work). Applicants entering a professional teacher preparation program with a bachelor’s degree may use the preparation program as appropriate for the fifth year.

(b) Health Education

Completion of a course in Health Education including information on alcohol, narcotics, drugs, tobacco, and nutrition (EDUC 571 or PE 201 or PE 203). The requirement includes training in infant, child, and adult cardiopulmonary resuscitation.

(c) Computer Education

Completion of an advanced Computer Education course which includes general and specialized skills in the use of computers in the support of teaching and learning, integrated into the curriculum (EDUC 422 or 500).

(d) Special Education

Completion of a requirement in the needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming) (EDUC 501).

Complete a Beginning Teacher Support and Assessment (BTSA)

and health education, CPR, special education, and computer technology. This option requires employment in a school district and participation in the BTSA program. Contact your school district directly for details.

Complete an SB 2042 Professional Clear Teacher Induction Program

and CPR. Contact your school district directly for details. Option three is the only option available to qualify for a Professional Clear SB 2042 Credential. This option requires employment in a school district and participation in that program.
CERTIFICATE OF ADVANCED STUDY IN BILITERACY EDUCATION: SPANISH

Courses Required:
Multiple Subject Students:
EDMS 522
EDMS 555
EDML 553
EDML 554

Program Total: 12 units

Single Subject Students:
EDSS 521
EDSS 555
EDML 553
EDML 554

Program Total: 12 units

CERTIFICATE OF ADVANCED STUDY IN MIDDLE LEVEL EDUCATION

Courses Required:
EDMI 511
EDMI 512
EDMI 521
EDMI 522
EDMI 543
EDMI 544
EDMI 545
EDMI 555

Program Total: 24 units

CROSS-CULTURAL LANGUAGE AND ACADEMIC DEVELOPMENT (CLAD) CERTIFICATE

Cross-Cultural Language and Academic Development (CLAD) Certificate requires:

1. An appropriate prerequisite credential or permit is required in order to qualify for the CLAD Certificate. Examples include, but are not limited to:
   Ryan Preliminary or Professional Clear Multiple-Subject or Single-Subject Credentials
   Designated Subjects Adult Education Teaching Credential: Regular or Full-time
   Standard Elementary or Secondary Teaching Credentials
   General Elementary, General Junior High or General Secondary Teaching Credentials

2. The second language requirement is fulfilled by completion of a bachelor’s degree from an accredited college or university CLAD Certificate coursework has several options listed below.

3. There are three domains of knowledge and skill required to be eligible for the CLAD Certificate. Coursework listed is state-approved to meet the three domains.

   Domain 1. Language Structure and First and Second Language Development.
   EDML 550 3

   Domain 2. Methodology of Bilingual English Language Development and Content Instruction. Two courses are required to meet the requirements of domain 2.
   EDML 552 3
   or
   EDMS 555 3
   or
   EDUC 612 3
   or
   EDUC 613 3
   and
   EDML 563 3

   Domain 3. Culture and Cultural Diversity.
   EDUC 364 3
   or
   EDUC 602 3
   or
   EDAD 602 3
   or
   EDUC 627 3

   Additional courses pending approval by the California Commission on Teacher Credentialing. Approval of these is expected by Spring 2006 and will appear in the Catalog Addendum.

READING CERTIFICATE

The College of Education offers a Reading Certificate Program. Refer to page 231.
PRELIMINARY
ADMINISTRATIVE SERVICES
CREDENTIAL - TIER I

This option prepares site and district administrators for leadership positions in elementary, middle and secondary schools. Students develop administrative and leadership knowledge, skills and dispositions through a progression of courses addressing school culture, supervision of instruction, student achievement, assessment, personnel practices, educational law and finance. Candidates qualify for the Preliminary Administrative Services Credential upon completion of the first four semesters of programming. Student progress is assessed based on the California Professional Standards for Educational Leaders (CPSELS). Continuation in the program leads to the Master’s degree. The Administrative Services Credential requires a valid, basic CA credential, a minimum of three years full-time teaching experience and the passing of CBEST.

Admission and Pre-Professional Qualifications

The following are requirements for admission to the Preliminary Administrative Services Credential:

1. Baccalaureate or higher degree. Candidate must have a baccalaureate (or higher) degree from an accredited post-secondary institution.

2. Valid Teaching or Services Credential. Candidate possesses a valid teaching or services credential as defined by California Commission on Teaching Credentialing.

3. Experience. Candidate must verify a minimum of three years of successful full-time classroom teaching or service in public or WASC-accredited private school before being recommended for the Preliminary Administrative Services Credential.

4. CBEST. Candidate must have successfully passed the California Basic Educational Skills Test (CBEST).

5. Prerequisite/Corequisite Coursework. Candidate must successfully complete the following courses or approved equivalent:
   - EDUC 422 (or EDUC 500)
   - EDUC 501

6. Admission to the University. Candidates must satisfy all University admission requirements appropriate to the educational objective.

7. Letters of Recommendation. Candidates must have at least two letters of recommendation from educational, community, or business professionals (including at least one from a school administrator, preferably the most current employer) which indicate the candidate’s qualifications, evidence of collaborative or cooperative abilities, capacity for problem-solving, oral and written communication skills, and potential to succeed in a graduate educational administration credential program.

8. Admission Interview. Candidates will be individually interviewed by a College of Education admissions committee.

9. Statement of Purpose. A statement that tells about the candidate and why the candidate wishes to pursue this credential.

10. Official transcripts for both the university and the college of education.

Program Total 24

Please note: Candidates for the Preliminary Administrative Services Credential must maintain a grade point average of 3.0 and not receive a grade of less than B- in any program course. Students completing the course sequence and meeting these criteria will be recommended to the California Commission on Teacher Credentialing for the Preliminary Administrative Services Credential.
PRELIMINARY LEVEL I EDUCATION SPECIALIST MILD/MODERATE AND/OR MODERATE/SEVERE DISABILITIES CREDENTIAL PROGRAM

Special Education Level I Credential and/or Master of Arts Options

Designed for teachers who have completed a basic credential program and have satisfied California subject matter competency. (An emergency or substitute permit is not a basic credential.)

This credential program prepares teachers in advanced leadership skills for the delivery of special education services to children and youth with identified disabilities. This path is for teachers who hold a valid basic teaching credential (or equivalent) and are seeking both the Level I Mild/Moderate and/or Moderate/Severe Disability Education Specialist Credential(s) and who may wish to obtain a Master of Arts in Special Education.

Application Requirements for Preliminary Level I with basic credential:

1. Credential. A copy of the applicant’s valid basic teaching credential is required.
2. Graduate Application. Complete a Graduate application, and declare an MA in Special Education as your objective. Apply online at www.csumentor.edu. Official transcripts from each college or university attended must be mailed directly to the Office of Admissions.
3. College of Education Application, $25.00 Fee, and Transcripts: Official transcripts, including a bachelor’s degree posted from a regionally accredited institution and each college or university attended must also be submitted to the College of Education with the College of Education application.
4. Recommendations. Three letters of recommendation must be submitted from individuals who are knowledgeable about the applicant’s teaching competence, and personal qualities and potential for success.
5. Personal Interview: Interview with the appropriate College of Education Admission Committee.

6. English Language Learner Authorization: Current holders of a CLAD/BCLAD certificate or emphasis or the new SB 2042 credential must submit a copy or evidence of certification prior to M.A. degree conferral. CLAD certificate courses are available during the program.
7. Statement of Purpose. A statement is required that tells about you and why you wish to pursue this credential. Your goals, ideals, experiences, special skills, and community service may be included.
8. Subject Matter Competency and Individual Requirements. On an individual basis, out-of-state trained teachers may be required to complete appropriate subject matter competency and other very specific requirements. Contact Student Services Center for details (760) 750-4277.

Prerequisite courses (required if equivalence has not been determined):

- EDUC 422 or 500 or completion of SB 2042 program 3
- EDUC 501 or completion of SB 2042 program 3
- Required Courses for Level I:
  - EDMX 631 3
  - EDMX 627 3
  - EDMX 622 3
  - EDMX 572 7
  - EDMX 632 3
  - EDMX 633 3
  Total 22-28

- Additional Required Courses for Single-Subject Credential Holders:
  - EDMX 521 3
  - EDMS 543 3
- Option for Moderate/Severe Certification
  - EDMX 634 4
- Total 26-30

Level II preparation is required of all initial (Level I) credential holders. This Professional Level II preparation is intended to be a support mechanism for the successful induction of newly credentialed special educators into the professional level. All candidates completing Preliminary Level I preparation must begin a Level II program within 120 calendar days after employment as a specialist, and complete a Professional Clear Level II Education Specialist credential program within 5 years of the date of issuance of the Preliminary Level I Credential. Professional Level II credential requirements include possession of a Preliminary Level I Specialist Credential and 2 years of experience as a special educator while holding a Level I credential. See Special Education Professional Level II Credential Requirements on page 225, 226.

Preliminary Level I Mild/Moderate and/or
Moderate/Severe Credential Program

Designed for teachers who have complet-
ed a basic credential program and have
satisfied California subject matter compe-
tency for Multiple or Single Subject. (An
emergency or substitute permit is not a
basic credential.)

Intern Requirements

1. Bachelor’s Degree. Official transcript
verifying bachelor’s degree required.
2. U.S. Constitution requirement must be
completed.
3. CBEST must be passed before intern
teaching.
4. CSET must be passed before intern
teaching.
5. Fingerprint Clearance. Students must
possess or apply for a Certificate of
Clearance during the admission
process to the Multiple Subject
Teaching Credential program. The
appropriate internship paperwork will
be provided by the College of
Education Student Services Center.
Current intern credential fees are
between $55 - $120. An intern-
ship credential must be issued before
beginning intern teaching.
6. Tuberculin Clearance. The tuberculin
clearance is valid for four years and
must remain valid throughout all intern
teaching experiences. The clearance
may be obtained at a private physi-
cian’s office, the County Health
Department or the Cal State San
Marcos Student Health Center.

SPECIAL EDUCATION
PROFESSIONAL LEVEL II
CREDENTIAL

The Special Education Professional Level
II Credential Program prepares teachers in
advanced leadership skills for the delivery
of special education services to children
and youth with identified disabilities. This
option is for teachers who already hold
the Preliminary Level I Mild/Moderate
and/or Moderate/Severe Disability
Education Specialist Credential(s) and
who need to complete the Professional
Clear Level II coursework in order to retain
their education specialist credential and
who may also wish to obtain a Master of
Arts in Special Education. This path also
is appropriate for special educators who
hold a Learning Handicapped or equiva-
 lent credential and wish only to obtain a
Master of Arts in Special Education.

Application Requirements for Professional
Level II Specialist Credential
Mild/Moderate and/or Moderate/Severe

Same Application Requirements for Level I
with the following additions:

1. Valid Preliminary Level I Credential
2. An offer of employment as a special
educator

Corequisite requirements which are to be
completed before recommendation for
Level II Credential:

1. Advanced Computer Technology
Requirement: EDUC 422 or 500 in
addition to successful completion of
required Level II coursework.
2. Health Education: A health course
must be completed which covers
nutrition, physiological and sociological
effects of abuse of alcohol, narcotics
and drugs, and use of tobacco. You
must also have CPR training that cov-
ers infant, child and adult.
3. Verification of Employment: Verification
of 2 years of successful employment in
a full-time special education position
from the school district personnel
office while holding a Preliminary Level
I Education Specialist Credential.
Possible Requirements for Out-of-State Trained Teachers

1. CBEST
2. English Language Skills
3. U.S. Constitution
4. Subject Matter Competence
5. Non-Special Education Pedagogy
6. Field Experience in Non-Special Education

Master of Arts information can be found on page 227.

READING SPECIALIST CREDENTIAL

The purpose of the Reading Specialist Credential is to prepare teachers to assume leadership positions in the areas of language arts — reading, writing, listening, speaking — and understand how they fit within the curriculum. Students will become knowledgeable of current reading and writing theory, research and pedagogy, literacy learning, children and adolescent literature, assessment, and curriculum development. All courses contain information regarding the issues of special populations, multilingual/multicultural, and biliteracy strands, as well as projects that connect academic work to school contexts and address K–12 literacy issues.

In addition, research methodology and the utilization of technology as it relates to literacy instruction are infused throughout the courses. Applicants must hold a CTC-approved valid basic teaching credential (or equivalent), currently be teaching, and have three years of experience (or equivalent).

Please note: Candidates for the Reading Specialist Credential must maintain a GPA of 3.0 and not receive a grade of less than B- in any program course. Students completing the course sequence and meeting these criteria will be recommended to the Commission on Teacher Credentialing for the Reading Special Credential.
MASTER OF ARTS IN EDUCATION

Philosophy
The Master’s Program at Cal State San Marcos is characterized by its emphasis on critical pedagogy and reflective practice. Its view of the classroom teacher and administrator as an instructional, ethical, and curricular leader places high value on individual empowerment, on multiple ways of knowing, on the construction of meaning and the production (vs. reproduction) of knowledge.

Objective
The Master of Arts in Education is designed for classroom teachers, administrators, and other educators who wish to extend or refine their knowledge and skills beyond the level attained in their previous studies. For some, master’s level study is a way to improve their performance in the classroom; others seek preparation for leadership roles at the school or district level; still others may wish to use master’s studies as the basis for graduate work at the doctoral level.

CLAD Competency
All options of the Master of Arts in Education require students to achieve competence in instructing English learners. Students who do not currently possess the Bilingual/Cross-cultural Language and Academic Development (B/CLAD) certificate or have not completed an SB 2042 or CLAD emphasis program, must take the following sequence of courses in order to apply for State approved B/CLAD certification.

The CLAD Certificate

New CLAD Certificate classes are pending CCTC approval.

Schooling in a Multicultural Society
In a course on Schooling in a Multicultural Society, all master’s candidates are imbued with the principles and philosophy of teaching in a pluralistic society, the cornerstone of the College of Education. Depending on the option, the required course may have a general education focus (EDUC 602), an administrative focus (EDAD 602), or a literacy focus (EDUC 627).

The Options
The options allow students to pursue their particular areas of interest according to their individual needs and goals. Students may choose from the following options:

• Critical Studies of Schooling Culture and Language
• Educational Administration
• Teaching, Learning, and Leadership
• Literacy Education
• Science, Mathematics and Educational Technology for Diverse Populations
• Special Education

In addition to the content specific to its particular area, each option:

1. contains a component tailored to that specialty area covering topics of research, design, and methodology, measurement, assessment, and program evaluation, as these topics pertain to that option;
2. addresses aspects of multiculturalism/bilingualism; and
3. uses technology relevant to that option.

The Culminating Experience
The culminating experience completes the requirements for master’s study. Master’s candidates are encouraged to work collaboratively and may choose, from a variety of forms to present their work.

Admission Requirements
General requirements are listed below. Different or additional requirements for specific options are found in the description for that option.

Required:
1. Basic credential.
2. At least one (1) year full-time teaching experience or currently teaching for all options except the Education Administration and Literacy Education options which require at least three (3) years full-time teaching experience.
3. Application for the Master of Arts in Education in the College of Education and $25 fee.
4. Interview with appropriate College of Education Admissions Committee.
5. Two (2) letters of recommendation from individuals familiar with the candidate’s work in the field of education.
6. Statement of Purpose describing the candidate’s interest in pursuing the degree.
7. GPA according to the University admission policy.
8. Completion of the Graduate/Postbaccalaureate Application to the University.
9. Official transcripts for both the university and the College of Education.

All materials will be evaluated to assess an applicant’s qualifications for admission; however, no one indicator shall determine acceptance of an applicant.
Other Master of Arts in Education Requirements

The following information applies to all master’s students in the College of Education.

Required of all master’s students: planning, preparation, and completion of a thesis or project under the direction of a faculty committee. Collaboration among master’s students and school districts is encouraged. Prerequisite: Successful completion of an option and advancement to candidacy. Note: students must continually enroll in EDUC 698 until successful completion of thesis project.

Upon faculty approval, up to nine (9) units of graduate-level course work in education or a related field may be transferred into the program.

Grading

All coursework will earn a letter grade. A grade-point average of 3.0 must be maintained and any grade of less than B- will be subject to review.

Option in Education Administration (30 units)

Candidates must have three or more years of professional experience. They must also complete the prerequisite/corequisite courses mentioned below.

The Option in Education Administration within the Master of Arts in Education prepares site and district administrators for positions of leadership in the elementary and secondary schools of the 21st Century. The option emphasizes the development of administrative expertise through a sound knowledge base, a student-centered pedagogy, the appropriate integration of theory and practice, capacity for research and critical analysis, collaborative practice, evaluation in school administration and management, and the development of professional and ethical models of leadership.

Candidates also qualify for the Preliminary Administrative Services Tier I Credential. For specific information on the Administrative Services Credential, please refer to page 223.

Option in Critical Studies of Schooling, Culture, and Language (16 - 42)

Multiculturalist Specialist Certificate - 18 units Certificate and Master’s 36 - 42 units*

This option prepares educators to take on leadership roles for social change. Areas of focus may include but are not limited to:

- Multicultural curriculum development
- Differentiated instruction for English learners
- Culturally and linguistically diverse students
- Students with special needs
- Working collaboratively with families and communities

The option emphasizes the development of multilingual and multicultural expertise. It stresses reflective practice in a collaborative environment through innovative research in order to facilitate transformative education for all students. The option further emphasizes an integration of theory and practice, incorporating a student-centered curriculum for diverse students and communities. With the guidance of a faculty academic advisor, students may also earn an optional Multicultural Specialist Certificate.

Program Total 18
Upon completion of the Multicultural Specialist Certificate, if candidates wish to continue towards a Master’s degree, ONE option area from the following list must be chosen. (The Multicultural/Multilingual offering is described immediately following the list. All other options are described within their respective Master’s degree offering.)

- Multicultural/Multilingual Education
- Education Administration
- Literacy Education
- Science, Mathematics & Educational Technology for Diverse Populations
- Teaching, Learning, and Leadership
- Special Education

Students who choose Multicultural/Multilingual as their area of emphasis, may choose from the following elective courses:

Required courses for a Multicultural/Multilingual option; to be taken in addition to the above certificate courses.
- EDUC 641 3
- EDUC 643 3
- EDUC 650 3
- EDUC 694 3
- *EDML 553 3
- *EDML 554 3

*These courses are currently part of the Bilingual Emphasis Teacher Credential Program. They can also be applied towards the Certificate of Advanced Study in Bilingual Education.

Required courses for a Master’s degree; in addition to all above coursework.
- EDUC 622 3
- EDUC 698 3

Choose 3 courses
- EDML 553 3
- EDML 554 3
- EDUC 642 3
- EDUC 644 3
- EDUC 649 3

Program Total 36

Option in Literacy Education
(33-42 units without Certificate or Credential)

The Option in Literacy Education in the Master of Arts in Education is intended for individuals interested in classroom, school, and district leadership positions in the areas of reading, writing, and curriculum. It prepares teachers to assist other teachers and administrators in creating literacy programs that promote not only the learning of reading and writing, but also the learning of subject matter across the curriculum. Graduates of this program will be knowledgeable about current reading and writing theory, literacy research and pedagogy, literacy development and learning, children’s and adolescent literature (taught in Spanish as well as English), and curriculum development. A graduate of this area will also have the ability to assist in the development of assessment instruments and procedures at the school district level. The Literacy Program offers a Reading Certificate, a Reading/Language Arts Specialist Credential, and a Master’s degree. The Reading Certificate and the Reading, Language Arts Specialist Credential requires a valid teaching credential and three (3) years of successful full-time teaching experience.

Option in Science, Mathematics and Educational Technology for Diverse Populations
(33 units)

The Option in Science, Mathematics and Educational Technology for Diverse Populations, within the Master of Arts in Education, prepares teachers for positions of leadership at the school or district level in the areas of science, mathematics and educational technology. This option is designed for teachers who wish to strengthen their knowledge and performance in K-8 classrooms or to become educational leaders in science, mathematics and/or educational technology. The program models effective strategies for engaging diverse populations in these fields and for increasing their opportunities for success.

Electives

400 level or graduate courses in the College of Education or College of Arts and Sciences in the areas of science, mathematics and educational technology, as approved by College of Education program adviser.

Option in Teaching, Learning, and Leadership
(33 units)

This option is designed for K-12 teachers in any subject area who wish to enhance their expertise as educators, to grow as professionals, and to develop leadership "from the classroom" skills. Coursework in this option focuses upon examining who we teach and how they learn; exploring teaching strategies that increase our student’s learning; engaging in critical reflection and reflective practice; facilitating teacher voice in decisions around practice, programs and policy. Central to this option is commitment to improving student learning regardless of ability, culture, or economics through systematic and recursive examination of teaching practice. Critical reflection on the professionalization of teachers and teaching, including examination of the National Board for Professional Teaching Standards and the certification process is embedded in this option.

Option in Special Education

The Option in Special Education in the Master of Arts in Education prepares teachers in advanced leadership skills for the delivery of special education services. Candidates may earn Level I and/or Level II Education Specialist credentials in the areas of Mild/Moderate Disability and/or Moderate/Severe Disability. The Special Education Option is designed to provide an advanced career path in special education to two different categories of teachers. One Master’s path is for teachers who already hold the Level I Mild/Moderate and/or Moderate/Severe Disability Education Specialist Credential(s) and who need to complete the Professional Level II coursework in order to retain their Education Specialist credential. This path also is appropriate for special educators who hold a Learning Handicapped or equivalent credential and who wish to obtain a Master’s in Special Education. Another Master’s path is for teachers who hold a CTC-approved valid basic teaching credential (or equivalent) and who are seeking both a Master’s and the Level I Mild/Moderate and/or Moderate/Severe Disability Education Specialist Credential(s).

For this Master’s degree option, evidence of English Language certification or emphasis (e.g. CLAD certificate, or SB2042 credential) is required before the Master’s degree is awarded. Applicants who are English Learner certified must submit a copy of the certification with their college application. Applicants who do not possess English Learner certification prior to acceptance into the Master’s program will be expected to earn a CLAD Certificate prior to program completion.

OPTION #1 - Preliminary Level I

Mild/Moderate and/or Moderate/Severe and Master of Arts

Prerequisite courses to be completed prior to program (not part of the sequence):

Level II Preparation

Level II preparation is required of all initial (Level I) credential holders. This Professional Level II preparation is intended to be a support mechanism for the successful induction of newly credentialed special educators into the professional level. All candidates completing Preliminary Level I preparation must begin a Level II program within 120 calendar days after employment as a specialist and complete a Professional Clear Level II Education Specialist credential program within 5 years of the date of issuance of the Preliminary Level I Credential.

OPTION #2 - Level II only or Level II and Master of Arts

Required Courses for Level II:
EDEX 638  3
EDEX 639  3
EDEX 651  3
EDEX 652  2
EDEX 660  2
EDEX 661  2

DOCTORATE IN EDUCATIONAL LEADERSHIP

The Joint Ed.D. in Educational Leadership Graduate Group includes core and affiliated faculty from three universities, California State University San Marcos (CSUSM), University of California, San Diego (UCSD), and San Diego State University (SDSU).

Core Faculty:

Affiliated Faculty:

SDSU: Nancy Farnan, Ph.D.; Douglas Fisher, Ph.D.; Robert Hoffman, Ph.D.; Eleanor W. Lynch, Ph.D.; Alberto Ochoa, Ph.D.; Cynthia Park, Ph.D.; Dorn Ritchie, Ph.D.; Carol Robinson-Zaftariu, Ph.D.; Pamela Ross, Ph.D.

Program Description

The Joint Ed.D. in Educational Leadership is designed to address the needs of outstanding individuals who seek doctoral preparation in research on educational practice and who aspire to leadership positions within the PreK-12 and postsecondary educational communities. The program is designed to increase the knowledge and abilities of PreK-12 and postsecondary administrators in response to the educational settings of the twenty-first century. The coursework highlights the importance of educational equity for all segments of the community. It is expected that graduates of this program will demonstrate a high quality of leadership skill and bring about significant improvement in public schools.

The program is designed for candidates who are creative thinkers, who have superior problem solving abilities, and who demonstrate an interest in using research to bring about improvements to educational policy and practice. We will seek professionals who have a desire to deepen their understanding of the educational reform process from both theoretical and practical perspectives. Candidates are expected to have a desire to promote effective practice informed by developments in research and theory.

Students will primarily be practicing PreK-12 and postsecondary administrators in San Diego, Imperial, South Riverside, and South Orange Counties. Their full-time employment is viewed as an asset in that it will provide important opportunities to apply and evaluate theoretical and empirical material covered in coursework. Students will matriculate through the program as a cohort group.

Application and Admission Requirements

In addition to meeting the general admissions requirements and being accepted by the Graduate Divisions of UCSD, CSUSM, and SDSU, students must be recommended for admission by the program’s Graduate Admissions Committee on the basis of standards of excellence as evidenced by:

(a) Completion of master’s degree
(b) A professional résumé
(c) Statement of purpose that describes:
   • Demonstrated leadership experience (examples include: completion of work for the Preliminary or Professional Administrative Services Credential (Tier 1 or Tier 2) for PreK-12; program director at a school, district, or regional institution; community college project director; postsecondary administration; in-region professional education experience);
   • Knowledge of educational research and application to practice;
   • Plan for how participation in program will shape candidate’s future in leadership practice;
   • Potential areas of interest for dissertation research;
(d) A total of three letters of support, two of which speak to leadership skills, and one of which speaks to the candidate’s ability to engage doctoral-level work.
(e) A writing sample, which might include a published article, thesis, or paper written for graduate course.
(f) Transcripts of previous academic coursework taken during completion of baccalaureate and master’s degree work, in addition to other post-baccalaureate work, will be considered in determining the candidate’s academic standing.
(g) Results from all three sections of the Graduate Record Examination (GRE) aptitude test.

No foreign language is required for this degree program.
The program can be completed in three calendar years (4 quarters/year including summers; 12 course units per quarter) and will consist of 108 quarter units of study. Classes will be held during the late weekday afternoons, weekday evenings, on weekends, and during the summer to accommodate the schedules of working school administrators. Although this is a Joint Doctoral program through UCSD, CSUSM, and SDSU, all candidates will be required to be enrolled through UCSD. In order to meet residency requirements, students will need to be enrolled for a total of 36 quarter units (or semester equivalent) for one year (four quarters) at UCSD and at least one CSU campus (CSUSM and/or SDSU). Candidates will be admitted in the fall term only.

Students will normally require three (3) calendar years (four quarters per year) to complete the degree requirements. Total time to qualifying may not exceed three (3) years, total time on support is limited to four (4) years, and total registered time may not exceed five (5) years.

### Degree Requirements
The program requires a series of core courses that address fundamental subject areas in educational leadership, such as leadership in curriculum design and delivery, instructional leadership and research, equity and diversity, change theory and human motivation, and current issues and policy analysis; broad training in research methods; and the application of this training in the preparation of doctoral dissertation research.

Leadership research practicum requires students to demonstrate the integration of coursework and practice. Students will be expected to initiate field-based research projects that are consistent with the objective of the particular course. Candidates in the program will typically select a practice-based research topic for their dissertation. Integrating theory, research, and practice is a distinctive characteristic of the program.

By the completion of the summer session of the first year, all candidates will be required to submit the Qualifying Paper (which serves as the Comprehensive Examination). This is a substantial written report consisting of a comprehensive literature review on a significant topic in educational leadership. This will provide an opportunity to assess the candidate's substantive knowledge, analytical reasoning, and writing proficiency. It is expected to be of publishable quality.

During the second year, students will select and develop a research proposal for the dissertation. Candidates will submit the dissertation proposal and defend it before the dissertation committee by the end of the second year of the program. When this requirement is satisfactorily completed, the student will advance to candidacy.

The focus of the third year of study will be conducting dissertation research, completion of writing of the dissertation, and defending the dissertation. The dissertation will present the results of the candidate's independent investigation in a manner that contributes to professional knowledge in education and enables the improvement of school practice.

### Course of Study

#### First Year Program (36 Quarter Units)
- Re-thinking Leadership (4)
- Leadership for Learning (4)
- Leadership for a Diverse Society (4)
- Advanced Topics in Leadership A or B (4)
- Educational Research and Evaluation Design A, B, C (4, 4, 4)
- Leadership Research Practicum A, B, C (2, 2, 2)
- Qualifying Paper Preparation (2)

#### Second Year Program (36 Quarter Units)
- Leadership for Organizational Change (4)
- Leadership for Organizational Development (4)
- Leadership for the Future (4)
- Advanced Topics in Leadership A or B (4)
- Advanced Research and Evaluation Methods A, B, C (4, 4, 4)
- Dissertation Research (2)
- Advanced Leadership Research Practicum A, B, C (2, 2, 2)

#### Third Year Program (36 Quarter Units)
- Dissertation Research (4, 4, 4, 4)
- Dissertation Writing Seminar A, B, C, D (4, 4, 4, 4)
- Colloquium on Educational Leadership A, B (2, 2)

For further information contact Dr. Jennifer Jeffries at: jjeffrie@csusm.edu, or visit: www-tep.ucsd.edu for additional program details.
MISSION STATEMENT
The mission of Health and Human Services is to shape practices and policies that enhance quality of life and reduce health disparities amongst children, adults, families, and communities. This is accomplished through transformational teaching, discipline-specific practice, creative scholarship, and service. The collaboration of faculty, students, and community partners across disciplines promotes the development of effective leaders, practitioners, and citizens to advance healthy living within our multi-cultural society.

ABOUT HEALTH AND HUMAN SERVICES
Health and Human Services at California State University San Marcos will become the university’s fourth college by 2007. The new college will bring several new professional degrees to the campus, including baccalaureate degrees in Kinesiology and Nursing and, starting in 2007, a Master’s in Social Work. New programs in Health Science, Health Care Management, and Physical/Occupational Therapy will be available to students within four years.

Not only do Health and Human Services faculty and staff make superior contributions to teaching, scholarship, professional activity, and service in their disciplines, but they also work collaboratively with students, faculty across disciplines, and health care professionals in the surrounding region. They engage in health assessment, education, and promotion activities geared to improve our community members’ health and well-being. Students in every discipline will have the opportunity to work alongside faculty on these outreach efforts, contributing directly toward healthier living while also becoming involved in program evaluation and health policy research.

Faculty, staff, and students in Health and Human Services are committed to reducing health disparities in the region. They are charting new directions in the education of health care professionals who have the knowledge, flexibility, critical thinking, language skills, and cultural sensitivity to work successfully with the wide variety of individuals, families, and groups who make up contemporary society.

**Programs Offered:**
- B.S. in Kinesiology*
- B.S. in Nursing
  - Generic Track
  - RN-to-BSN Track

---

*The Kinesiology program was originally approved as a major for a Bachelor of Arts degree, but the campus has requested authorization from the Chancellor’s Office of the California State University to offer this as a major for a Bachelor of Science degree.*
KINESIOLOGY

Kinesiology, the science of movement, integrates the biological, physical, behavioral and social sciences in the study of physical activity and sport, and their effect on the fitness and quality of life of people across the lifespan. The Kinesiology program at Cal State San Marcos is a comprehensive program of study offered in support of the Surgeon General's "Call to Action to Prevent and Decrease Overweight and Obesity," and Healthy People 2010.

Career and Educational Opportunities

The Bachelor Of Science in Kinesiology is intended to prepare students for careers in areas such as physical education, exercise physiology, physical therapy, athletic training, corporate wellness, cardiac rehabilitation, coaching, and personal training. With an emphasis on the study of movement, exercise physiology, nutrition and health, the major is also excellent preparation for those wishing to pursue advanced degrees in physical education, kinesiology, exercise science, sports medicine, physical therapy and rehabilitation, and more.

Advising

Students should consult the Health and Human Services Advisor regarding the appropriate sequencing of courses and selection of electives to advance their career and educational objectives.

Special Conditions for the Bachelor of Science in Kinesiology

All courses counted toward major requirements, including Preparation for the Major courses, must be completed with a grade of C (2.0) or better. A minimum of eighteen (18) units of upper-division course work counted toward the Kinesiology degree must be completed at California State University San Marcos.

Additional concentrations are under development in Applied Exercise Science and Pre-Physical Therapy. Consult the Catalog Addendum for their requirements.

Preparation for the Major

(36-39 Units)

Supporting Courses (28-30 units):

- BIOL 175*
- BIOL 176
- BIOL 210
- BIOL 211*
- CHEM 312**
- KINE 202
- PSYC 100*
- MATH 115
- MATH 125
- MATH 132
- MATH 160

Choose one of the following*^:

- 3-5 units
- DNCE 101
- KINE 205
- KINE 206
- KINE 207
- KINE 208
- KINE 209

Lower-division Techniques and Analysis Courses (8-9 units)

These courses are for Kinesiology majors only, and must be chosen in consultation with an advisor. Students interested in activity courses in these areas should take 100-level KINE courses.

- KINE 204
- Choose three from the following:
  - DNCE 101
  - KINE 205
  - KINE 206
  - KINE 207
  - KINE 208
  - KINE 209

Major Requirements

(37 Units)

Upper-division Required Courses (28)

Upper-division Major Electives (9 units), to be chosen in consultation with an advisor:

Choose two of the following:

- HIST 300D
- KINE 400
- KINE 401
- KINE 402

Additional concentrations are under development in Applied Exercise Science and Pre-Physical Therapy. Consult the Catalog Addendum for their requirements.

*Twelve (12) lower-division General Education units in Areas B (Mathematics and Science) and D (Social Sciences) are automatically satisfied by courses taken in Preparation for the Major.

** Fulfills the Upper Division General Education requirement in Science and/or Mathematics (BB) if at least 60 units of coursework have been completed by the end of the semester in which this course is taken.

^ Statistics courses, which have been certified as meeting the Lower-Division General Education (B4) requirement in Mathematics/Quantitative Reasoning at other institutions, may be used to satisfy this requirement.

*The Kinesiology program was originally approved as a major for a Bachelor of Arts degree, but the campus has requested authorization from the Chancellor’s Office of the California State University to offer this as a major for a Bachelor of Science degree.
The purpose of the nursing profession is to help patients/clients achieve health goals. Nurses provide health care for individuals, families and communities by performing supportive, preventive, therapeutic, and restorative interventions. Nurses are employed in institutional and community-based health care settings. They can provide health related interventions through independent action or as a collaborating member of a health care team.

The nursing curriculum at CSUSM is built on a self-care model. This model assumes that persons are usually capable of providing their own needs related to health. Sometimes persons cannot take care of themselves because of injury, disease, or insufficient health-related knowledge. Nursing care helps such people recover their self-care abilities through health promotion, health maintenance and health restoration.

The Nursing Program at Cal State San Marcos prepares students for multiple career tracks within the profession. Students who complete the undergraduate program will have knowledge and skills for general nursing practice, will be well prepared for entry into graduate level nursing programs, and will be qualified to assume leadership roles in health care organizations, clinics, and community agencies.

The baccalaureate degree program is designed for two groups of students with different options. Students who have had no previous nursing education follow the generic or basic program/option. Students who have completed an associate degree program in nursing (ADN) at a community college and seek completion of their baccalaureate degree follow the RN-to-BSN option. The generic program is a full-time program designed to be completed in four years (including the three intervening summers). The RN-to-BSN program is also a full-time program and is designed to be completed in three years (including three summers).

The School of Nursing is an impacted program and more qualified applicants apply than can be accepted into the major. All students desiring to enter the generic BSN program must submit a supplemental application to the School of Nursing between October 1 and November 30 for the subsequent academic year beginning each fall semester. In order to meet admission eligibility, students must complete and document all supplemental criteria by the end of the spring semester prior to the fall semester in which they are seeking admission. Students will then be rank ordered according to a 40 item point system and selected for admission to the major based on the following supplemental criteria:

- GPA in pre-nursing core requisites (10 points)
- Overall GPA (6 points)
- English language proficiency as determined as the score on the TEAS standardized exam (6 points)
- Proficiency in a second language (6 points)
- Previous education or work experience (8 points)
- Residency in preferred geographic area (4 points)

Preparation

High schools students are encouraged to take Algebra or college preparatory math, Spanish, Chemistry and Biology. A familiarity with computers is also encouraged.

Transfer Students

For the returning RN student, it is anticipated that many of the required general education courses may have been completed at a community college. These students will be required to meet the same mandatory standards either by transferable course work, certification of general education requirements by previous academic institutions, or by completion of general education requirements at CSUSM. These courses will be included in the maximum transfer credit of 70 lower-division units from a community college. Imbedded in these 70 units are 32 units, which will be articulated for lower-division units from a community college. Registered Nursing (BRN) approved, and regionally accredited, community college nursing program. Some prerequisite and required preparatory courses for the nursing major are also imbedded in the 51 units of required general education courses.

Special Requirements for the Bachelor of Science in Nursing

Completion of all courses in the Pre-Nursing Core (or the equivalents of these courses) with an overall GPA of 2.75 in the Core and with no grade lower than a C (2.0) is a prerequisite for all NURS courses.

Students in the nursing program must carry their own malpractice insurance, health insurance, pass a physical health examination, and demonstrate a sufficient immunization record consistent with that required of clinical placement in local health care agencies.
Students may be required to verify a negative background check including statewide, county and federal screening before placement in a healthcare agency for clinical assignments. Background checks are also required for persons seeking a nursing license in the State of California. Students who have reason to believe that a background check would reveal a prior misdemeanor or felony conviction should seek to have these matters expunged from their record if possible and/or seek another career path.

Students will be expected to perform or with reasonable accommodations, demonstrate proficiency in specific core performance standards in the following five categories:

a. Critical thinking ability sufficient for clinical judgment
b. Interpersonal abilities sufficient to interact with individuals, families and groups
c. Communication abilities sufficient for verbal and written interaction.
d. Physical ability to move from place to place, demonstrated manual dexterity and eye-hand coordination
e. Demonstrated auditory, visual, tactile, and olfactory ability sufficient to assess and monitor patients safely.

The academic advisor for Health and Human Services, working with the Office of Disabled Student Services, will assist students to determine what accommodations will be needed to enable students to meet these standards.

In order to remain in the Nursing program:

1) Students in the nursing major must attain grades of C (2.0) or better in all required nursing and preparatory to the major courses. Nursing courses and Pre-Nursing Core courses for which the student earns less than a grade of C (2.0) may be repeated once with consent of instructor, but only on a space-available basis.

2) Students in the nursing major must maintain good academic standing. Students on academic probation are not permitted to enroll in a nursing course until the probation has been removed.

3) The same core performance standards required for admission to the nursing major will be required for continuation.

#### Pre-Nursing Core

- BIOL 160 4
- BIOL 175* 4
- BIOL 17B 4
- CHEM 100* 3
- CHEM 100L* 2
- GEO 102* 3
- GEW 101* 3
- MATH 115+ * 3

**Critical Thinking (A3) course 3**

#### Other Supporting Coursework (26 Units)

- ANTH 200* 3
- ANTH 301** 3
- BIOL 215 3
- BIOL 215L 1
- BIOL 323** 3
- PHIL 345** 3
- PSYC 100* 3
- SOC 303* 4

**Growth and Development (Choose one of the following): 3**

- PSYC 210
- SOC 204

### Major Requirements

<table>

<tr>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>65</td>
<td>Major Requirements</td>
</tr>
</tbody>
</table>

#### Lower-division Nursing Requirements

- NURS 200 4
- NURS 201 2
- NURS 210 2
- NURS 211 1
- NURS 212A 2
- NURS 212B 2
- NURS 220 2
- NURS 221 3
- NURS 222 2
- NURS 223 3
- NURS 230 2
- NURS 231 2
- NURS 232 2
- NURS 233 2
- NURS 260 2
- NURS 261 2

#### Upper-division Nursing Requirements

- NURS 320 2
- NURS 321 2
- NURS 352 3
- NURS 370 3
- NURS 440 3
- NURS 441 3
- NURS 442 3

**Choose one of the following: 3**

- NURS 443
- NURS 445
- NURS 450 3
- NURS 451 2
- NURS 490 1
- NURS 491 2

**Completions:**

- NURS 443
- NURS 445
- NURS 450 3
- NURS 451 2
- NURS 490 1
- NURS 491 2

---

*MATH 125, 132, or 160 may be substituted.

*Up to 36 units of courses taken as Preparation for the Major also may be counted toward General Education requirements.

^Clears an UDGE requirement if students have earned at least 60 units of baccalaureate-level coursework at time of completion.
### RN-to-BSN Program Track

#### Preparation for the Major

**Pre-Nursing Core** 29
- BIOL 160 4
- BIOL 175* 4
- BIOL 176 4
- CHEM 100* 3
- CHEM 100L* 2
- GEO 102* 3
- GEW 101* 3
- MATH 115+* 3

**Lower-Division General Education Critical Thinking (A3) course** 3

+ MATH 125, 132 or 160 may be substituted. This requirement may also be satisfied by any Lower-Division General Education Mathematics/Quantitative Reasoning (B4) course taken before matriculation at CSUSM if students have already completed the equivalent of CHEM 100/100L.

**Other Supporting Coursework** 24-26
- ANTH 200@* 3
- ANTH 301^^ 3
- BIOL 215 and 215L or equivalent% 3-4
- BIOL 323^#* 3
- PHIL 345%^ 3
- PSYC 100&* 3
- SOC 303$* 3-4

Growth and Development (Choose one of the following): 3
- PSYC 210
- SOC 204 or equivalent

#### Major Requirements

**65 Units**

#### Lower-Division Nursing Requirements**

**32 Units**
- NURS 200 4
- NURS 201 2
- NURS 220 2
- NURS 221 3
- NURS 222 2
- NURS 223 3
- NURS 230 2
- NURS 231 2
- NURS 232 2
- NURS 233 2
- NURS 260 2
- NURS 261 2
- Lower-division equivalent of NURS 320 2
- Lower-division equivalent of NURS 321 2

**Upper-Division Nursing Requirements (33 Units)**
- NURS 310 2
- NURS 311 1
- NURS 312 4
- NURS 350 2
- NURS 351 1
- NURS 352 3
- NURS 370 3
- NURS 440 3
- NURS 441 3

- Choose one of the following: 3
  - NURS 443
  - NURS 445
- NURS 450 3
- NURS 451 2

---

@ Students who have already met the General Education Discipline-Specific or Second Interdisciplinary Social Sciences Course (D) requirement with a course taken at another institution may substitute that course for PSYC 100.

^ Clears an UDGE requirement if students have earned at least 60 units of baccalaureate-level coursework at a time of completion.

% Students who have met this requirement with a course that fulfills the Lower-Division General Education Mathematics/Quantitative Reasoning (B4) requirement may substitute a course from the RN-to-BSN Recommended Upper-Division Elective list.

# Students who have taken a lower-division nutrition course may substitute another Upper-Division General Education Science and/or Mathematics (BB) course for BIOL 323.

& Students who have already met the General Education Interdisciplinary Social Sciences (D7) requirement with a course taken at another institution may substitute that course for ANTH 200.

$ Students who have met the General Education Lifelong Learning (E) requirement at another institution may substitute a course from the RN-to-BSN Recommended Upper-Division Elective list.

**The lower-division nursing course requirement is met by the nursing coursework required for a RN licensure program completed at a BRN-approved nursing program.**
RN-to-BSN students who are directed above to substitute a General Education requirement already met at their preceding institution should select courses from the following list of Recommended Upper-Division Electives:

- ANTH 370
- ANTH 440
- COMM 330
- COMM 380
- ECON 323
- PSYC 341
- PSYC 352
- PSYC 356
- SOC 307
- SOC 309
- SOC 314
- SOC 316
- SOC 324
- SOC 427
- SOC 429
- NURS 452
- NURS 472
- NURS 496
- NURS 499
- SOC 309
### COURSE DESCRIPTIONS

Below is a list of all course subject abbreviations. Course descriptions begin on page 245.

Note that while the course subject abbreviations are arranged on this page by college, the course descriptions are alphabetically listed by the course subject abbreviation regardless of the college in which they are offered. For instance, the order of course subjects abbreviations beginning with the letter F is FIN (Finance), FMST (Film Studies), FREN (French).

### Course Numbering System

The first digit in each course designation is intended to indicate the level of the course. In addition, the first digit also roughly indexes the student's year of study at the University.

Courses numbered 001 to 099 are non-baccalaureate developmental courses.

Courses numbered 100 to 299 are lower-division. Courses numbered 300 to 499 are upper-division.

Courses numbered 500 to 599 are graduate-level courses. Courses numbered 600 to 699 are graduate courses for undergraduate or graduate credit.

Courses numbered 700 to 799 are graduate-level courses for postbaccalaureate, or graduate students only on an individual basis, and only with prior, case-by-case approval of the program director of the program offering the course (or his/her designee).

Courses numbered 700 to 799 are doctoral level.

Students should consult relevant sections of this catalog, as well as college and program advising staff, in order to determine which courses are appropriate for their level of study, and which courses satisfy degree requirements for various programs of study.

### Course Information

The course descriptions, found beginning on page 245 of this catalog have the following format.

- **Line 1 (Bold, capital letters and in color):** The course subject abbreviation, the course number, and the number of credit units.
  - See page 243 for course subject abbreviations.
  - A course number sometimes has a letter suffix (e.g., SPAN 350A). Common conventions are that an "L" suffix indicates a laboratory course, and an "S" suffix indicates a course offered in Spanish. For a "topics course" such as LTWR 301, a letter suffix is added to identify different offerings.
  - Generally courses meet for one hour of lecture or discussion per week for each credit unit. Courses meeting for less than a full semester require an equivalent number of hours on a pro-rated basis. When courses meet for additional hours for an activity or laboratory, this is noted in italics at the end of the course description (see DNCE 301). For a variable-unit course (credit units given in a range like LTWR 301), the number of units for the particular offering will appear in the Class Schedule.

- **Line 2 (Bold):** Course Title.
  - Long titles are abbreviated in the Class Schedule and on transcripts.

- **Line 3 (Plain text):** The official course description.
  - A brief description of the content or subject matter covered in the course. For a "topics course" such as LTWR 301, a title for each individual topic appears in the Class Schedule.

### Examples

#### BUS 493 (4)
**Problem Analysis and Implementation**

Implementation of the project portion of the senior experience. Team members complete their project, and submit a final project report and present their results. Open only to COBA students with senior status. Corequisite: BUS 492.

Prerequisite: Corequisite: BUS 492. Combination Credit/No Credit.

#### DNCE 301 (3)
**Contemporary Dance Technique II**

Studio course that focuses on technical precision, dynamic variation, alignment, and performance. One hour lecture and three hours studio work.

---

#### KINE 106 (1)
**Soccer**
Development of skills, rules and strategy of soccer. May be repeated for credit (1) units. Graduated Credit/No Credit.

#### LTWR 301 (1-3)
**Topics in Writing**
Selected topics in the writing field. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

#### SPAN 350A (3)
**Spanish Civilization**
Analysis of the character and personality of the Spanish people as revealed through literary and artistic works. Conducted in Spanish. Prerequisites: SPAN 301A or 301B, and 302 or equivalent. Prerequisite or corequisite: SPAN 303 or equivalent.
ACCOUNTING (ACCT)

College of Business Administration

ACCT 201 (3)
Introduction to Financial Accounting
Introduction to the accounting information reported to external users, including the accounting cycle, valuation of assets, liabilities and owners’ equity, measurement of net income, and reporting of cash flows. Emphasis is on creation and interpretation of financial statements including required disclosures. Introduction to the business environment and vocabulary; introduction to ethics and related areas of accounting such as managerial accounting, taxation, auditing, and attestation. May not be taken for credit by students who have received credit for ACCT 203.

ACCT 202 (3)
Introduction to Managerial Accounting
Introduction to the accounting information created for internal decision makers. Includes product costing, cost-volume-profit analysis, budgetary control, and incremental analysis. Focus on strategic cost management to support efficient use of company resources. May not be taken for credit by students who have received credit for ACCT 203. Prerequisite: Completion of ACCT 201 with a C (2.0) or better.

ACCT 301 (4)
Intermediate Accounting I
In-depth discussions of accounting theory and practice. Examination of issues related to asset valuation and income determination based on generally accepted accounting principles. May not be taken for credit by students who have received credit for ACCT 305. Prerequisites: All lower-division pre-business core, all Foundation of Business courses, and the GBM Core courses.

ACCT 302 (2)
Intermediate Accounting II
In-depth study of financial accounting theory related to long-term liabilities, owners’ equity, and cash flows. A continuation of material covered in ACCT 301. May not be taken for credit by students who have received credit for ACCT 305. Prerequisites: All lower-division pre-business core and ACCT 301.

ACCT 306 (4)
Cost Accounting
Review of the cost measurement process and its role in management and control. Includes cost-volume-profit relationships, budgeting, variance analysis, and cost systems for product, process, job and responsibility costing. Prerequisites: All lower-division pre-business core.

ACCT 307 (4)
Tax Accounting
Introduction to federal tax concepts with emphasis on individual taxpayers; includes an overview of the statutory construction and methods for accessing tax information. Prerequisite: All lower-division pre-business core.

ACCT 308 (4)
Accounting Information and Systems
Basic principles underlying the accounting process and concepts necessary for the preparation of financial statements, both manually and electronically. Includes the design, integrity, and effectiveness of accounting information systems emphasizing the integration of financial information, internal control, and computer technology in decision making and operational support. Students will be exposed to a variety of accounting software applications. Three hours of lecture and two hours of laboratory. May not be taken for credit by students who have received credit for ACCT 303, 315, 415 or 491A. Prerequisites: All lower-division pre-business core, and ACCT 305, and University computer competency requirement.

ACCT 406 (2)
Cost Management, Measurement, and Control
In-depth study of the application of activity based cost accounting to the problems of management control in manufacturing, service, and government organizations. Prerequisites: All lower-division pre-business core, ACCT 306, or HTM 304 and HTM 305, or SSMM 304 and SSMM 305, or MKTG 305, or MGMT 305.

ACCT 407 (4)
Advanced Tax Accounting
Federal tax concepts as they apply to corporations, partnerships and fiduciaries; includes federal estate and gift taxation. Prerequisites: All lower-division pre-business core and ACCT 307.

ACCT 416 (4)
Auditing
A comprehensive examination of auditing theory, standards and procedures used by CPAs, with integration of Generally Accepted Auditing Standards. The ethical and legal environments of the independent auditor are also discussed. Should be taken last year of enrollment, preferably last semester. Prerequisites: All lower-division pre-business core and ACCT 305.

ACCT 420 (2)
Managerial Accounting in Government and Non-Profit Organizations
Managerial accounting in Government and non-profit organizations will be the focus of this course. Subjects such as reinventing government, the national performance review, changes in government management accounting, and auditing’s role in government management will be explored. May not be taken by students who have received credit for ACCT 417. Prerequisites: All lower-division pre-business core and ACCT 306.

ACCT 421 (2)
Financial Accounting in Government and Non-Profit Organizations
Focuses on financial accounting in government and non-profit organizations. Includes an introduction to cash-based accounting as well as principles of fund accounting, budgeting, accounting and analysis of financial statements. The general fund and special funds will be covered. May not be taken for credit by students who have received credit for ACCT 417. Prerequisites: All lower-division pre-business core and ACCT 305.

ACCT 422 (2)
Advanced Accounting
Covers business combinations, including consolidated financial statements, including wholly owned and partially owned subsidiaries. Covers the cost method as well as the equity method of accounting for investments in common stocks. Also included is the purchase and pooling methods of accounting. In addition, inter-company transfers are presented. Prerequisites: All lower-division pre-business core, ACCT 305 and ACCT 405 or consent of instructor. May not be taken for credit by students who have received credit for ACCT 418 or ACCT 490C.
ACCT 423 (2)
International Accounting
Examines and discusses, in-depth, the issues in international accounting that affect today's global business world. Subject matter includes accounting for charging prices, foreign currency translation, and transactions, and specific reporting issues, e.g., intangible assets, research and development, leases, pensions, post-retirement benefits. Managerial accounting issues covered are: strategic planning and control, budgeting product costing and foreign costing, foreign exchange-risk management, transfer pricing, international taxation, international financial statement analysis, and auditing issues for global operations. The challenges and opportunities in developing countries (as well as eastern European countries), along with financial statement practices and trends also will be included. Prerequisites: All lower-division pre-business core. May not be taken for credit by students who have received credit for ACCT 418 or ACCT 490D.

ACCT 481 (1)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 482 (2)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 483 (3)
Selected Topics in Accountancy
A survey course of selected topics in accounting in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 484 (4)
Selected Topics in Accountancy
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 485 (4)
Selected Topics in Accountancy with Lab
A survey course of selected topics in accounting (in order to supplement available offerings). Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

ACCT 486 (4)
Independent Study in Accountancy
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

ANTH 215 (3)
Human Origins
Offers an introduction to human origins from the perspective of biological anthropology. A premise of the course is that human form and human behavior have evolved together and neither can be fully understood or appreciated without a full understanding of the other. Subject matter to be covered includes the geological time frame, evolutionary theory, and the evolution of primates, hominids, and modern humans as evidenced by fossil remains, specific sites, genetic research, and artifacts. May not be taken for credit by students who have received credit for ANTH 315.
the origins of states. Through cross-cultural trade, the development of agriculture and Diaspora, plant and animal domestication, specific behavior, the hunter and gatherer Pacific. Explores human evolution, adaptation, linguistic, and anthropological sources, the course covers the preclassic, classic, and postclassic periods, focusing on several cultural areas including the Olmec, Teotihuacan, Monte Alban and the Zapotec and Mixtec of Oaxaca, the Toltecs, the Maya, and the Aztec, or Mexico. Among other topics to be examined are the calendar, writing, concepts of space and time, the ball game, tribute, human sacrifice and bloodletting, sacred plants, and specific Mesoamerican deities.

ANTH 330 (3) Ritual and Religion Ritual and religion have historically been powerful shapers of society. Every society that has existed has asked universal questions like the following: Where do we come from? Why are we here? What are we supposed to do? How are we supposed to act? What happens to us when we die? Provides a cross-cultural and comparative examination of the social, political, economic, cultural, and ideological constructs that people have generated in seeking to answer to these questions. Examines the role of religion as an integral component of world view and social institutions, anthropological theories and findings about comparative religion, and emphasizes the explanatory concepts of religion in its social, environmental, and economic contexts rather than focusing on the specific attributes of differing religions.

ANTH 370 (3) Environment, Population, and Culture Focuses on contemporary world problems from interdisciplinary and anthropological perspectives. Employing the cross-cultural, evolutionary, and multidisciplinary research methods of anthropology and cultural ecology, examines the environmental crisis, rain forest destruction, resource management, consumption culture, world hunger, food systems, population pressure, poverty, energy distribution, the future of the global free market, and the role of ideology in environmental adaptation with the objective to foster crisis awareness and informed response. May not be taken for credit by students who have received credit for ID 370C.
ASTRONOMY (ASTR)

College of Arts and Sciences

ASTR 101 (3)
Introduction to Astronomy
Provides an introduction to solar system and stellar astronomy. The historical development of astronomy is presented as well as modern theories, observations, and ideas concerning the nature and evolution of planets, stars, and galaxies. May not be taken for credit by students who have received credit for ASTR 342 or PHYS 342. Satisfies the Liberal Studies requirement for Earth Science.

ASTR 342 (3)
Elements of Astronomy
Provides a practical and historical introduction to astronomy. The course includes solar system astronomy, stellar astronomy, galaxies, and cosmology, with an emphasis on comparative planetology and the historical and cultural development of our knowledge of the solar system. May not be taken for credit by students who have received credit for PHYS 342.

BUSINESS ADMINISTRATION (BA)

College of Business Administration

BA courses open to MBA students only.

BA 620 (1-4)
Information Systems
Analyzes information systems and their role in organizations. Focuses on the management of information resources and surveys the various types of business information systems, including transaction processing systems, management information systems (MIS), decision support systems (DSS), executive support systems (ESS), and expert systems. Hardware, software, data storage, and telecommunication technologies are reviewed. Considers the issues of emerging technologies, social and ethical concerns, and security and control.
Prerequisites: BGA 501 and 502 or equivalent.

BA 622 (2-4)
Effective Leadership
Focuses on aspects of leader-follower interaction including effective use of power, politics, and influence; understanding what motivates followers both individually and in teams; and managing diversity.
Prerequisites: BGA 501 and BGA 502 or equivalent.

BA 623 (1-4)
Competing Advantage Through Human Resources
An expansive inquiry into human resources issues from both Organizational Behavior HR perspectives. Incorporates many practical applications, as well as an understanding of employment practices and policies from a strategic point of view. May not be taken for credit by students who have received credit for BA 690C. Prerequisites: BGA 501 and 502 or equivalent.

BA 624 (2-4)
Managerial Accounting and Productivity Measurement
Emphasizes the use of accounting information to measure productivity. Presents and applies concepts and techniques of managerial accounting. Examines accounting measurement techniques used to provide relevant information for management decision making and operational control.
Prerequisites: BGA 501 and 502 or equivalent.

BA 628 (3)
Business Research Methods
Designed to introduce students to a variety of methodological techniques used in business. A key goal is to help students select research methods and tools that are appropriate for addressing different types of business research questions. Student learning will focus on: 1) How to efficiently and effectively conduct secondary research using databases and electronic resources. 2) When, why and how of conducting primary research using both qualitative and quantitative methods. May not be taken for credit by students who have received credit for BA 690F.

BA 640 (2-4)
Market Analysis for New Opportunities
All organizations must be aware of the changing market environment. This single, simple idea is so central to the self-concept of marketing that it is called “the marketing concept.” Nowhere is the marketing concept more important than in pioneering new market opportunities. Course explores the marketing process, from marketing analysis, to market segmentation, to identifying market targets, to formulating and controlling marketing strategies.
Prerequisites: BGA 501 and BGA 502 or equivalent.

BA 641 (3)
Global Business Strategy from a Marketing Perspective
Successful firms realize that exchange of goods and services occurs within a global context. The global context includes the domestic market and is not limited simply to “doing business overseas.” Acquaints students with the challenges, constraints, and opportunities for entering new segments of the global marketplace, adapting strategies to those new markets and developing strategies for competing effectively on a global scale. May not be taken for credit by students who have received credit for BA 690E.
Prerequisite: BA 640.

BA 644 (2-4)
Financial Decision Making and Financial Markets
Describes the theory and practice of corporate finance. Presents concepts and information on which sound financial decisions are based. Also examines the various financial markets and the investment vehicles traded in those markets.
Prerequisites: BGA 501 and 502 or equivalent.

BA 662 (2-4)
Operations Management
Examines opportunities and obstacles of a global competitive environment. Focuses on the efficient and effective deployment of capital, material, information, technology, and human resources. Examines the relationship of operations to functional areas and topics such as capacity and inventory planning, technology, managing change, and quality management.
Prerequisites: BGA 501 and 502 or equivalent.

BA 664 (2-4)
Quality Management and Process Innovation
Provides insight into the philosophies, theories, and tools for management of quality and change. Focuses on leading technologies for process improvement in manufacturing, service, and operations to continuously enhance an organization’s competitiveness. May not be taken for credit by students who have received credit for BA 642.
Prerequisites: BGA 501 and BGA 502 or equivalent.
BA 667 (3)
Supply Chain Management
Supply Chain Management is about management of the entire flow of materials and information in multi-stage production-distribution networks. Focus will be on four areas: (1) strategic role of the supply chain and its drivers and obstacles (2) analytical decision support tools (both models and applications) that successfully allow companies to develop, implement and sustain supply management and collaborative strategies (3) role of information technology and E-commerce on supply chain (4) coordination of supply chain players and strategic partnerships. May not be taken for credit by students who have received credit for BA 690G. Prerequisites: BGA 501, 502 or equivalents.

BA 669 (3)
Managerial Model Building
Introduces the art of mathematical modeling and fundamental techniques of management science. Provides the necessary tools to make informed management decisions and enhances decision-making skills. May not be taken for credit by students who have received credit for BA 690H. Prerequisite: BGA 501, 502 or equivalents.

BA 670 (2-4)
Strategic Planning and Management
Capstone course taught from a global strategic manager's perspective. Focuses on the diagnosis of problems and the implementation of solutions. Prerequisite: Consent of MBA Program Director.

BA 680 (3-6)
Master's Project
Practical application of advanced management theories and methods to investigate a wide range of organizational issues. Subject matter may include development of a new venture or product or process, or improvement of an existing organization's operations with the intent of achieving a significant cost reduction, service enhancement, etc. Each project is proposed, researched and reported, culminating in a written report that includes problem identification, evaluation of potential solution, discussion of the selected implementation, and evaluation of the results. Prerequisite: Consent of MBA Program Director.

BA 681 (1)
Master's Project Extension
Intended for students who have previously enrolled in BA 680, Master's Project, to complete their project requirements in a subsequent term. Students who did not complete BA 680 during the term in which they were registered in BA 680 must take BA 681 in the term they intend to complete their Master's Project. May be repeated for a total of two (2) units. Graded Credit/No Credit. Prerequisite: Course must be taken only after student has been registered in BA 680.

BA 690 (1-4)
Selected Topics in Business Management
A course of selected topics in business management. May be repeated for credit as topics change for a total of six (6) units. Prerequisites: BGA 501 and 502 or equivalent.

BA 698 (1-4)
Independent Study
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of Instructor.

BUSINESS AND GOVERNMENT ADMINISTRATION (BGA)

College of Business Administration

BGA 501 (4-8)
Management Decision Making and Analysis
An interdisciplinary course emphasizing analytical approaches for problem formulation, solution, and implementation. Concepts, tools, and techniques of financial analysis, management accounting, statistics, production, operations, and selected computer applications are studied and applied in realistic organizational settings. BGA courses are open only to pre-MBA students who hold a baccalaureate degree in a field other than Business Administration.

BGA 502 (4-8)
Management of Complex Organizations
Presents in an interdisciplinary format the principles of organizational behavior, theory and development, leadership, ethics, environmental analysis, marketing, and economics, applied to complex organizations operating in the global marketplace. Focuses on integrating theory and practice for developing problem-solving competencies. BGA courses are open only to pre-MBA students who hold a baccalaureate degree in a field other than Business Administration.

BIOLOGICAL SCIENCES (BIOL)

College of Arts and Sciences

BIOL 160 (4)
Microbiology for Health Sciences
Basic concepts of microbiology, including classification, metabolic activity and the effect of physical and chemical agents on microbial populations. Host parasite interactions, infectious agents, methods of transmission and control are also discussed. Three hours of lecture and three hours of laboratory. Course is designed for students in Health and Human Services, including Nursing Programs.

BIOL 175 (4)
Introduction to Human Anatomy and Physiology I
The first in a two course series designed to introduce the principles of human anatomy and physiology for students in health and human services, including Kinesiology and Nursing. Taught from a systems perspective where students will learn basic physiological principles and mechanisms along with their associated anatomical basis. Material includes anatomical terminology, cell and tissue structure and function, basic biochemical and metabolic pathways and the integumentary, skeletal, muscular, digestive and excretory systems. Three hours of lecture and three hours of laboratory. Prerequisite: Consent of Director/Chair-HHS Advisor.

BIOL 176 (4)
Introduction to Human Anatomy and Physiology II
The second in a two course series designed to introduce the principles of human anatomy and physiology for students in health and human services, including Kinesiology and Nursing. Taught from a systems perspective where students will learn basic physiological principles and mechanisms along with their associated anatomical basis. Material includes nervous system and the senses, and the endocrine, reproductive, cardiovascular and respiratory systems. Three hours lecture and three hours of laboratory. Prerequisites: BIOL 175, and consent of Director/Chair-HHS Advisor.
**BIOL 210 (4)**
Introduction to Cellular and Molecular Biology
The first of a two-semester core sequence that provides the student with basic knowledge in biology, including specific experimental techniques and familiarity with the scientific method. Emphasizes cellular structure and physiology, molecular evolution, classical and molecular genetics, and biochemistry. May not be taken for credit by students who have received credit for BIOL 202. Three hours lecture and three hours laboratory. Corequisite or Prerequisite: CHEM 150.

**BIOL 211 (4)**
Introduction to Organismal and Population Biology
The second of a two-semester core sequence that provides the student with basic knowledge in biology, including specific experimental techniques and familiarity with the scientific method. Emphasizes physiology, development, diversity of life, evolution, and ecology. May not be taken for credit by students who have received credit for BIOL 201. Counts toward the fulfillment of the Lower-division General Education Requirement in Physical Universe and Its Life Forms. Three hours lecture and three hours laboratory. Prerequisite: BIOL 210.

**BIOL 215 (3)**
Laboratory in Experimental Design and Statistical Analysis
Design and analysis of biological surveys and experiments. Includes hypothesis formation, experimental design, statistical analysis, and presentation of results. May not be taken for credit by students who have received credit for BIOL 315 or BIOL 360. Corequisite: BIOL 215L.

**BIOL 215L (1)**
Laboratory in Experimental Design and Statistical Analysis
Hands-on experience in design of surveys and experiments in biological sciences and their subsequent statistical analysis. Involves extensive use of computers for statistical simulation and analysis. May not be taken for credit by students who have received credit for BIOL 360. Prerequisite or corequisite: BIOL 215.

**BIOL 305 (3)**
Biological Engineering and Society
Explores anticipated technological advances and products in pharmaceuticals, medicine and agribusiness; laboratory procedures including bio-safety restrictions to protect researchers and the environment; and the costs, benefits, and ethical implications for society of these rapidly changing new technologies.

**BIOL 309 (3)**
The Biology of Emerging Diseases
Defines and discriminates between emerging and other diseases, agent characteristics and risk factors, improper use of antibiotics, multi-drug resistant infectious agents as factors of emerging diseases. Selected emerging food-borne, bacterial, protozoal and viral diseases of humans will be described and analyzed. A special emphasis will be placed on HIV and bioterror agents. Not open to Biological Sciences majors except by consent of advisor.

**BIOL 316 (3)**
The Biology of Cancer
Considers the chemistry, cell biology, and etiology of human cancer. Includes characteristics of tumor cells, malignant transformation of cells, tumor viruses, chemical and environmental carcinogens, effects of radiation, oncogenes, and the genetics of cancer. Prerequisite: A college-level course in biology, or consent of instructor.

**BIOL 321 (3)**
Human Physiology
A survey of body systems, how they function, and how they can malfunction leading to disease. Includes respiration, nutrition, waste removal, reproduction (including birth), embryonic development, muscular movement, and exercise.

**BIOL 323 (3)**
The Physiology of Nutrition and Disease
Study of the anatomy and physiology of human nutrition and functional relationships to disease. Includes metabolism, cellular metabolism, digestive physiology, nutrients, enzymes, vitamins, weight management, stress, diet, the role of exercise in nutrition, and the role of nutrition in development. Also covered will be symptoms and effects of disease associated with inadequate nutrition, nutritional contributions to diseases not associated with inadequate diet, and contributions of nutrition to health. Special attention will be given to health concerns of women and the differences in nutritional needs between genders. Prerequisite: Consent of Director/Chair-HHS Advisor.

**BIOL 325 (3)**
The Physiology of Exercise and Health
Concepts in functional anatomy and physiology will be integrated with current concepts in health and medicine. Includes anatomy of musculature associated with physical exertion; physiology of muscle systems, cardiovascular system, and nervous system pertaining to the physical movement of exercise. Emphasis on preventative health care, exercise and health of women, and gender differences in physiology and health.

**BIOL 327 (3)**
Biology of Human Reproduction
Physiology and anatomy of human reproduction. Covers the form, function, and mechanism and sex development, puberty, sexual abnormalities, venereal diseases, menstrual cycle, sexual behavior and contraception, pregnancy, embryonic development, birth, lactation, and the sexuality of aging (including menopause). May not be taken for credit by students who have received credit for BIOL 347.

**BIOL 328 (3)**
Human Heredity
Review of genetics from a human perspective. Includes DNA structure and replication, chromosomes and cytogenetics; Mendelian inheritance; dominant and recessive alleles, the genetics of sex, mutations and mutagenesis; inherited traits, pedigrees, genetic diseases including inborn errors of metabolism; and genetic therapy.

**BIOL 329 (3)**
Biology of Aging
A study of why and how animals and people age. Includes an evaluation of the causes and consequences of biological changes that occur during aging from the cellular to the whole animal level. Topics of discussion include evolutionary and mechanistic theories of aging, demography and age structure of populations, the use of modern methods to test mechanistic theories of aging, and the use of long-lived versus short-lived animal models to inform us about basic aging processes. Not open to Biological Sciences majors except by consent of advisor.
BIOL 336 (3)
Coastal Environments
Considers the biological and physical processes that structure coastal environments and examines the application of marine science to the management of coastal resources. Investigates the impacts of the often conflicting uses of the coastal zone including fisheries, oil production and transportation, ocean dumping and coastal development. Coastal zone management tools and applications at local, state, federal, and international levels are discussed. Not open to Biological Sciences majors except by consent of advisor. Field trips outside the classroom may be required.

BIOL 338 (3)
Human Impact on the Environment
Considers the major areas where human use of resources and subsequent waste production (chemical, industrial, and biological) have had a negative impact on specific environments and on the species that inhabit them. An attempt will be made to identify areas of future adverse human impact and to evolve remedial solutions.

BIOL 339 (3)
Conservation Biology
Study of the principles of ecology applied to plant and animal populations considered endangered, threatened, or at risk. Investigates the complex factors contributing to the dynamics, decline, extinction, and perhaps recovery of species. Develops a stewardship perspective rooted in biological principles and considers the associated cultural, historical, economic, and political issues. Local, regional, and global conservation strategies are discussed.

BIOL 346 (3)
Brain and Mind
Examines the relationship between the brain, and how the brain produces behavior. Intended for non-majors, this course will review basic neuroanatomy and physiology, and consider mind/brain relations in the context of psychoactive drugs, brain development, neurological disorders, sexual behavior, and cognitive abilities such as language, memory, thinking, and consciousness. Also offered as PSYC 361. Students may not receive credit for both.
Prerequisite: Completion of the lower-division General Education requirement in Life Science (B2).

BIOL 351 (5)
Molecular Cell Biology
An integrated view of contemporary molecular biology, biochemistry, and cell biology. The fundamental principles of molecular biology including DNA replication, mechanisms and regulation of transcription and translation, and nucleic acid and protein structure and function will be presented and interwoven with some of the more traditional topics in cell biology and biochemistry. Examines the molecular basis of membrane structure and transport, cytoplasmic structure, and energy metabolism, organelle structure and function, cell motility, and cell-cell interaction and signal transduction. Three hours of lecture, one hour seminar, three hours laboratory. Prerequisites: BIOL 210 and 211.

BIOL 352 (4)
Genetics
Detailed study of classical transmission, molecular quantitative and population genetics. Included will be current observations and concepts of the nature, organization, function and regulation of the expression of genetic material. Subject matter covered includes mechanisms of genetic conveyance, recombination, mapping, mutation and repair, RNA and DNA viruses, karyotyping, human genetics, and genetics of organelles. Three hours lecture and three hours laboratory. Prerequisites: BIOL 210 and 211.

BIOL 353 (4)
Comparative Animal Physiology
A comparative survey of physiological adaptations including gas transport, metabolism, temperature and dehydration tolerance, and locomotion. Three hours of lecture and three hours of laboratory. Recommended, but not required: BIOL 360; can be taken concurrently. Prerequisites: BIOL 210 and 211.

BIOL 354 (4)
Principles of Ecology
Discussion of major concepts in population, community, and evolutionary ecology including population growth and regulation, competition, predation, energetics, adaptations, and diversity. Weekend field trips may be required. Three hours of lecture and three hours of laboratory. Highly recommended: BIOL 215 and 215L. Prerequisites: BIOL 210 and 211.

BIOL 355 (4)
Molecular Biotechnology
In-depth treatment of the fundamental molecular techniques in use in the field of biotechnology. Designed to give hands-on experience as well as conceptual background in biotechnological methods. Subjects covered will include: nucleic acid isolations, vectors, cloning, library screening, hybridizations, PCR, sequencing, sequence analysis and bioinformatics, and transgenic organisms. Other subjects will vary to reflect current practice and developments in biotechnology. Three hours lecture and three hours laboratory. Prerequisites: BIOL 210 and 211.

BIOL 356 (4)
Cellular Biotechnology
In-depth treatment of the fundamental cellular techniques in use in the field of biotechnology. An overview of the drug discovery process is presented together with theoretical and practical aspects of specific technologies. Included in lecture and laboratory instruction are the physiology of prokaryotic and eukaryotic cells, culture of bacterial, plant, insect and mammalian cells, genetic engineering and expression systems, hybridomas, fermentation and scale-up technology, separation technology, protein, purification, and immunochemistry. Three hours lecture and three hours laboratory. Prerequisite: BIOL 210 and 211.

BIOL 357 (2)
Foundations of Biotechnology
A review of biotechnology applications and product development in the life science industry. Topics will include: 1) the process of bringing a product to market from concept to sales; 2) laws, regulations, ethics, and social issues pertaining to the discovery, development, testing, manufacturing and commercial distribution; 3) skills of technical writing, Standard Operating Procedures and documentation for regulatory, quality assurance, and intellectual property; and 4) employment opportunities. Prerequisites: BIOL 210 and 211.
BIOL 358 (3)
Computer Skills for Biotechnology
Designed to introduce and explain the application of computational and analytical methods to solve problems in biotechnology. Many of the popular software tools employed in biotechnology and informatics research will be covered. The theoretical basis governing the use and importance of these tools will also be explored.
Prerequisites: BIOL 210 and 211.
Prerequisite or Corequisite: CS 111.

BIOL 362 (3)
Evolution
A consideration of evolution as the unifying concept in biology. Diversity and adaptation of form, function, and behavior of living organisms. Biological, geological, anthropological, and chemical evidence for and mechanisms of evolutionary change, including global pattern of distribution and specialization, mass extinctions, the evolution of race and sex, and the origin of species. Prerequisites: BIOL 210 and 211.

BIOL 363 (3)
Principles of Conservation Biology
An in-depth focus on the principles and practices of conservation and restoration ecology. Factors that affect the creation, destruction, and distribution of biological diversity are examined. Class discussions and assignments will focus on human destruction and degradation of habitats, invasive species introductions, accelerated species extinctions, pollution, global climate change, and species over-exploitation. The selection and maintenance of conservation areas will be explored, as well as the theory and methodology for restoring degraded habitats. May not be taken for credit by students who have received credit for BIOL 366J. Field trip(s) outside of class may be required. Prerequisites: BIOL 210 and 211.

BIOL 367 (4)
Biology of Microorganisms
Presents a comprehensive selection of subjects from the field of microbiology. Students will study prokaryotic structure and function; growth and control of microorganisms; ecology, physiology, and diversity of bacteria; basic microbial and viral genetics, microorganisms of medical and economic significance, and biotechnology and its human applications and societal implications. The laboratory component will employ research-oriented group activities, in addition to individual projects and assignments, and will engage students in the latest techniques utilized in the field of microbiology. Three hours of lecture and three hours of laboratory. Prerequisites: BIOL 210 and 211.

BIOL 368 (3)
Developmental Biology
An in-depth consideration of the processes involved in the development of multicellular organisms. Subjects covered include gametogenesis, fertilization, embryogenesis, cell-cell interactions, morphogenesis, differentiation, and developmental genetics. Recommended: BIOL 351 and 352.
Prerequisites: BIOL 210 and 211.

BIOL 368L (1)
Developmental Biology Laboratory
Provides hands-on experience in techniques currently in use in developmental biology research. Techniques included may vary from year to year as changes in the field warrant. Model organisms are used such as sponges, slime mold, sea urchin, C. Elegans, chucks, zebrafish, arabadopsis, and the fruit fly. Some techniques currently covered include cell-cell adhesion, in vitro fertilization, northern blotting, western blotting, and antibody based histochemical staining. Three hours laboratory. Recommended: BIOL 351 and 352. Corequisite or Prerequisite: BIOL 368.
Prerequisites: BIOL 210 and 211.

BIOL 370 (4)
Plant Physiology and Biochemistry
An examination of the physiological processes that contribute to plant growth, including consideration of the underlying biochemical and biophysical principles. Areas covered also include cell growth and differentiation and photo and hormonal control. Three hours of lecture and three hours of laboratory. Recommended: BIOL 351. Prerequisites: BIOL 210 and 211.

BIOL 374 (3)
Exercise Physiology and Bioenergetics
Examines the functional responses and adaptations that accompany acute and chronic exercise, particularly involving cardiovascular, metabolic, respiratory, endocrine, and muscular systems. Subject matter will include energy for physical activity, systems for energy delivery and utilization, training and enhancement of energy capacities; skeletal muscle energy balance, and health related aspects of exercise. Discussion of the instrumentation and techniques fundamental to exercise physiology and biochemistry will also be covered. May not be taken for credit by students who have received credit for BIOL 396A and BIOL 397A. Prerequisite: BIOL 210 and 211.

BIOL 375 (3)
Endocrinology
A survey of hormone types with emphasis on vertebrate examples, their biochemical composition, and physiological interrelationships. A considerable part of the course will consider the molecular mechanisms of action. Normally offered Spring semester of odd numbered years.
Prerequisites: BIOL 210, 211 and CHEM 201.

BIOL 376 (3)
Neurobiology
Introduction to invertebrate and vertebrate nervous systems, including anatomical organization. Focus on cellular/biochemical approaches to understanding neuronal development and functioning, synaptic transmission, the specificity of neuronal action and the complexity of nerve system functioning. Normally offered Spring semester of odd numbered years. Prerequisites: BIOL 210, 211 and CHEM 201.

BIOL 377 (3)
Immunology
Study of the mammalian immune system at the molecular and cellular level. Mechanisms of immunity, such as generation of unique receptor specificities, transduction of signals through T and B cell receptors, programmed cell death and lymphocyte selection, regulation of responses by growth factors and cytokines, and cell-cell interactions, are explored. The course perspectives includes historical and technological aspects of modern immunobiology. Prerequisites: BIOL 210 and 211.

BIOL 378 (3)
Vertebrate Biology
Introduction to vertebrate animals, including overview of their evolution, systematics, anatomy, physiology, ecology and behavior. Major subjects will include, water-to-land transition, origins of amniotic egg, flight and endothermy, patters of social organization and mating systems, and general life-history strategies. Courses will emphasize terrestrial vertebrates of the San Diego area. Field trip(s) outside of class may be required. Prerequisites: BIOL 210 and 211.
BIOL 378L (1)
Vertebrate Biology Laboratory
Provides hands-on experience in identifying terrestrial vertebrates of Southern California. Using preserved specimens and computer programs, students will learn to identify vertebrates by sight and sound. Students will design and conduct independent field projects. Course may be repeated for credit as topics change. Prerequisites: BIOL 210 and 211. Corequisite or Prerequisite: BIOL 378. Recommended: BIOL 210 and 211.

BIOL 379 (4)
Invertebrate Biology
Introduction to the invertebrate phyla, with emphasis on structure, function, adaptations, life histories, evolution and the interdependence of form, physiology, and ecology. Laboratory study will emphasize marine invertebrates of the San Diego area; one Saturday field trip may be required. Three hours of laboratory. Prerequisites: BIOL 210 and 211.

BIOL 380 (3)
Comparative Animal Behavior
Experimental and theoretical investigations in animal behavior, including humans. Interspecies comparisons of sensory, motor, neural, and endocrine structures and functions. Influence of genetic, biochemical/hormonal, and neurological factors on animal behavior. One or more field trips may be required. Prerequisites: BIOL 210 and 211.

BIOL 385 (4)
Natural History of Southern California
Introduction to the natural history and community ecology of southern California. Major topics include the climate, geology, and ecological factors that influence the local chaparral, coastal sage scrub, grassland, forest, desert, riparian, marsh, and estuarine communities of southern California. Field trips outside of class may be required. Prerequisites: BIOL 210 and 211.

BIOL 386 (3)
Terrestrial Ecology
A survey of terrestrial ecosystems and the biotic (living) and abiotic (non-living) factors that affect ecosystem structure and function. Emphasis will be on the important mass (C, H2O nutrient) and energy (production and consumption) fluxes that flow into, out of, and through terrestrial ecosystems, and the plant-animal interactions that regulate the rates and magnitudes of these mass and energy flows. Weekend field trips may be required. Prerequisites: BIOL 210 and 211.

BIOL 388 (3)
Marine Communities
Examines the environmental characteristics, patterns of species distribution and abundance, and adaptations of organisms in marine benthic communities. Community structure and biological interactions including predation, competition, and symbiosis will be investigated in specific communities such as the rocky intertidal zone, lagoons, coral reefs, hydrothermal vents, and shallow polar seas. Human impacts on specific marine communities will be explored. Field trips outside of class may be required. Prerequisites: BIOL 210 and 211.

BIOL 387 (3)
Aquatic Ecology Lab
Provides students with experience in laboratory and field methods used by oceanographers and limnologists to sample populations, measure rate processes, and quantify the aquatic environment. Prerequisites: BIOL 210 and 211. Corequisite or Prerequisite: BIOL 387.

BIOL 390 (3)
Terrestrial Plant Ecology
Survey of the factors that influence the distribution and abundance of land (terrestrial) plants. Focuses on plant population dynamics (e.g., dispersal, germination, and recruitment), plant-plant and plant-animal interactions, and the effect of abiotic factors (e.g., climate, water, and nutrients) on the structure and function of terrestrial plant communities. Weekend field trips may be required. Prerequisites: BIOL 210 and 211.

BIOL 396 (1-3)
Topics in Biology
Seminar reviewing current literature in a subject area of importance in biology. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: BIOL 210 and 211.

BIOL 397 (1)
Topics in Biology Lab
Laboratory experience that explores phenomena and techniques in the biological sciences. May be repeated for credit as topics change for a total of three (3) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: BIOL 210 and 211.
BIOL 487 (2)
Tutorial Methods of Instruction
A course for juniors and seniors who are group tutor-facilitators in biology courses where problem-based learning (PBL) is used as the mode of instruction. Focuses on inquiry and group-based methods of teaching and learning. Students learn how to assist the learning of other students through questioning methods that promote thinking and discussion, through establishing and maintaining positive group dynamics, and by introducing students to new resources. Group tutor-facilitators gain practical experience by serving concurrently as peer tutors in a biology course that is taught using PBL methods. Prerequisite: BIOL 211 and consent of instructor.

BIOL 488 (2)
Seminar in Biomedical Research
Provides a foundation in biomedical research and effective communication practices for students preparing for biomedical research careers. Integrates disciplinary approaches to biomedical research around fundamental principles and practices of scientific method, research ethics and responsible conduct, and the organization of scientific inquiry in institutions of higher learning. Subject matter will change each semester. May not be taken for credit by students who have received credit for BIOL 396F. May be repeated for a total of eight (8) units. Prerequisite: Consent of instructor.

BIOL 489 (2)
Introduction to Laboratory/Field Research
A research project in the laboratory or field, generated in collaboration with a faculty member. May be repeated once for credit, or the project may be continued for an additional semester as part of BIOL 499. Prerequisite: Consent of instructor.

BIOL 495 (3)
Internship in Biology
Career-related laboratory and/or field experience in private industry and public agencies. All participants utilize learning agreements. A final written report is required. Students will be supervised both on site and by the course instructor. Includes participation in a one-hour seminar each week. The learning agreement form must be completed and signed prior to enrollment. May be repeated for a maximum of six (6) units, but only three (3) units can be applied toward the major. Prerequisite: Consent of instructor prior to registration.

BIOL 496A (1) 496B (2)
Supervised Laboratory Instruction
Experience for senior biology majors in the organization of and techniques for teaching a laboratory in biology. Includes individual supervision of directed teaching. A written report is required. May be repeated for a maximum of two (2) units (one hour conference and three hours lab per unit). Prerequisites: BIOL 210 and 211, and consent of instructor.

BIOL 497 (4)
Internship in Biotechnology
Career-related experience in private industry, government agency, and/or public sector. All participants utilize learning agreements. A final written report is required. Students will be supervised both on site and by the course instructor. The learning agreement must be completed and signed prior to enrollment. May be repeated for a maximum of eight (8) units, but only four (4) units may be applied toward the major. Prerequisites: Consent of instructor.

BIOL 498 (2)
Senior Library Thesis
In-depth reading and researching of the literature on current issues in biology. The student must consult with a biology faculty member to decide on the topic and then produce a (approximately) 30-page paper with supporting citations that summarizes the current state of knowledge on the topic. Prerequisite: Consent of instructor.

BIOL 499 (2)
Senior Laboratory Thesis
Research project in the laboratory or field, generated in collaboration with a biology faculty member. Prerequisites: At least one course related to the subject area completed with a B or better, BIOL 498 or equivalent experience, and consent of instructor.

BIOL 502 (3)
Population Genetics
Patterns of the distribution of genes in populations with emphasis on quantitative genetics, gene frequency, selection of the effects of mutation on populations. Genetic mechanisms in evolution are considered. Prerequisite: BIOL 352.

BIOL 504 (3)
Virology
A comparative survey of bacterial, animal and plant virus variations, including retroviruses and prions. Emphasis is placed upon the variations in structure, nucleic acid composition, and replication patterns. The relationship of viruses to disease is given serious consideration. Prerequisite or Corequisite: BIOL 352.

BIOL 505 (3)
Physiological Ecology
Advanced exploration of the interactions between animals and their environment. Focuses on major life processes such as respiration, endothermy versus ectothermy, torpor, hibernation, and the physiological trade-offs between growth, storage, reproduction and survival. Physiological features of animals that permit them to live in extreme environments including the deep sea, deserts, boreal/polar regions, and caves will be discussed. Prerequisites: BIOL 210, 211 and 554.

BIOL 512 (3)
Physiology of Aging
Examines changes in animal physiology that occur during aging. Subjects include evolutionary and proximate causes of aging, physiological mechanisms proposed to explain aging, and methods to study and to manipulate rate of aging (e.g. caloric restriction). Both theoretical concepts and empirical examples will be addressed. Prerequisites: BIOL 353 or consent of instructor.

BIOL 512L (1)
Physiology of Aging Laboratory
Provides hands-on experience in techniques currently used to study physiological changes during aging. Students will design and perform experiments that demonstrate central topics of the biology of aging. Exact labs will change as the field of biogerontology develops, but may include experiments to test effects of caloric restriction, trade-offs between reproduction and longevity, declines in physiological systems with age, and cellular resistance to oxidative stress. Model organisms will typically include small rodents, insects, and nematode worms. Three hours laboratory. Prerequisite or Corequisite: BIOL 512.

BIOL 514 (3)
Physiology of Parasitism
Examines the physiology of hosts and parasites including how host physiology affects its susceptibility to parasites and subsequent host response to infection. Explores how parasite physiology influences their ability to infect hosts. Subjects will range from whole animal metabolism and immune response to specific biochemical pathways that change during parasitism. Both theoretical concepts and empirical examples will be addressed. Prerequisites: BIOL 353 or consent of instructor.
BIOL 514L (1)
Physiology/Parasitism Lab
Provides hands-on experience in techniques currently used to study host-parasite physiology. Students will design and perform experiments that illustrate central topics of host-parasite associations. Subject matter change as the field develops, but may include studies of susceptibility, infection intensity, time to clear parasites and physiological effects of parasites on host life history. Focuses mainly on macroparasites and their vertebrate and invertebrate hosts. Three hours laboratory. Prerequisite or Corequisite: BIOL 514.

BIOL 515 (3)
Medical Physiology
An advanced study of human physiology, particularly as it relates to disease. Examine physiological systems at the molecular, cellular and organ levels. Course consists of lectures, student reviews of current articles from the New England Journal of Medicine, group presentations, and class discussions designed as an in-depth examination of a particular disease, its causes and current treatments. Subjects will be organized around physiological systems and their defects. The section on the immune system might conclude with a discussion of AIDS, while the section on the respiratory system might conclude with a discussion of asthma. May not be taken for credit by students who have received credit for BIOL 596A. Prerequisite: BIOL 353 or equivalent.

BIOL 535 (3)
Ecological Modeling
An introduction to the use and development of mathematical models for simulating dynamics of ecological systems. Modeling theory and techniques will be demonstrated to provide a background on how models are developed and used in ecology. Models developed for simulating the effects of abiotic and biotic controls on ecological processes include continuous- and discrete-time population models, "gap" models, cellular automata, fisheries, and biogeochemical and biogeographical models. Prerequisites: BIOL 210, 211, and 354.

BIOL 536 (3)
Biogeochemical Cycles and Global Change
Biological, chemical, and physical processes controlling the transport and transformation of carbon, nitrogen, phosphorus, sulfur, and trace metals in natural ecosystems and at the global level. Global models of the major elemental and hydrologic cycles are discussed, with emphasis on the linkages between cycles and the effects of human perturbations. Prerequisite: BIOL 210, 211, and 354.

BIOL 537 (3)
Microbial Physiology
Current concepts and research involving the interactions of microorganisms with their environment, particularly those environments affecting human health. Demonstrates the interrelatedness of microbial ecology and medical microbiology. The course will (1) present modern experimental techniques used in conducting these interdisciplinary studies; (2) emphasize unusual bacteria pathways and cell signaling mechanisms found across the Bacteria, Archea and Eukarya, and (3) discuss the roles of microbial physiology in pathogenesis and the biotechnology industry. Prerequisites: BIOL 351 or 367 or consent of instructor.

BIOL 540 (3)
Molecular Methods in Ecology and Evolution
Theory and practical application of modern molecular tools to identify and study ecological and evolutionary relationships. Two hours lecture and three hours laboratory. Prerequisite: BIOL 352.

BIOL 560 (2)
Seminar in Molecular Cell Biology
Readings from the original literature, discussions, and writing on selected current subjects in cell and molecular biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 561 (2)
Seminar in Genetics
Readings from the original literature, discussions, and writing on selected current subjects in genetics. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 562 (2)
Seminar in Development
Readings from the original literature, discussions, and writing on selected current subjects in developmental biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 563 (2)
Seminar in Physiology
Readings from the original literature, discussions, and writing on selected current subjects in physiology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 564 (2)
Seminar in Evolution
Readings from the original literature, discussions, and writing on selected current subjects in evolution. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 565 (2)
Seminar in Ecology
Readings from the original literature, discussions, and writing on selected current subjects in ecology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 566 (2)
Seminar in Aquatic Biology
Readings from the original literature, discussions, and writing on selected current subjects in aquatic biology. May be repeated with new content for a maximum of four (4) units toward the Master's degree.

BIOL 576 (1)
Laboratory Experience in Neurobiology
Provides hands-on experience using the latest techniques in neuropysiology. Students will record intracellular signals in neurons using an invertebrate model nervous system. Students will gain experience in physiological and anatomical techniques. Open to Graduate students and undergraduates. Three hours of laboratory. May not be taken for credit by students who have received credit for BIOL 597A. Prerequisite or Corequisite: Biology 576.

BIOL 596 (1-3)
Advanced Topics in Biology
Advanced study of selected biological topics based on current problems or advances, and as demand warrants. Students should check the Class Schedule for listing of actual topics.

BIOL 597 (1)
Advanced Topics in Biology Lab
Laboratory in selected advanced topics in biology. Topics based on current problems or advances, and as demand warrants. Students should check the Class Schedule for listing of actual topics. Three hours laboratory.

BIOL 610 (3)
Research Methods I
Practical experience in the preparation of written and oral research proposals in the biological sciences. Students will actively take part in the peer review process commonly used to evaluate the scientific and technical merits of research proposals. Final product will be a formal written and oral, preferably the student's thesis proposal. Prerequisites: Graduate classification or consent of instructor.
BRS 300 (3) Borders and Regions: Interdisciplinary Perspectives
Introduces concepts, theories, and issues central to the study of regions and borders. Examples will be drawn from local borders such as between tribal and non-tribal areas, from international border regions across the world, and from conceptual borders such as language and culture.

BRS 301 (3) Research Methods in Border and Regional Studies
Introduces students to a variety of methodologies used in collecting and analyzing data in border and regional studies. Students will use case material drawn from a variety of contemporary local, regional, national, and international settings on different continents, as well as from conceptual borders such as language, culture, class, and gender.

BRS 330 (3) Introduction to Migration Studies
Introduces concepts and theoretical interpretations about the causes of international migration. Provides an historical overview of the main flows of immigration to the U.S. and compares immigration and immigrant policies. Identifies areas of conflict and cooperation that affect the relationship between newcomers and established residents in local communities, with a focus on California and San Diego County.

BRS 400 (3) Independent Study
Intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved and supervised by a faculty member in the Border and Regional Studies unit. May be repeated for a total of six (6) units.

BRS 430 (3) Immigration and Education
Explores issues of education and social justice in the United States. Reviews the historical and current context of education and immigration, and the role of the educational system in shaping immigration policies. Analyzes the relationship between educational attainment and immigration, and the impact of educational policies on immigrant populations.

BRS 490 (3) Applied Methodologies for Border and Regional Studies
Provides students with the opportunity to apply a variety of methodologies used in collecting and analyzing data in contemporary border and regional studies. Students will select a research question for a semester-long project with three components: literature review, fieldwork, and analysis. Students may choose their topics from any region worldwide, any international border area, or any conceptual border issue.

BRS 495A (1) 495B (2) 495C (3) Internship for Border and Regional Studies
Faculty-sponsored academic internship in community service. May be repeated for a total of nine (9) units. Prerequisite: Consent of instructor.

BRS 498A (1) 498B (2) 498C (3) Independent Research
Designed for students with demonstrated capacity for independent research in collaboration with a faculty member in the Border and Regional Studies unit. May be repeated for a total of six (6) units.

BRS 611 (3) Research Methods II
Practical experience in the skills necessary for the publication and presentation of biological research, including writing, speaking, and preparing figures and tables. Final product will be a formal oral presentation and a scientific poster. Prerequisites: Graduate classification or consent of instructor.

BRS 685 (2) Internship in Biology Instruction
Supervised instruction in a laboratory course in the biological sciences. May be repeated, but no more than two (2) units may be applied toward the 30 units in the Master's degree.

BRS 686 (1-3) Graduate Topics in Biology
Lecture and discussion of selected topics with emphasis on current problems and advances in subdisciplines of biological science. Students should check the Class Schedule for listing of actual topics. Prerequisites: Graduate classification or consent of instructor.

BRS 687 (1-2) Advanced Methods in Biology
Graduate-level field or laboratory techniques in a specialized area of contemporary biology. Students should check the Class Schedule for listing of actual topics. Prerequisites: Graduate classification or consent of instructor.

BRS 697B (2) 697C (3) 697D (4) 697E (5) 697F (6) Directed Studies
Laboratory or field research directed or sponsored by Biological Sciences faculty. May be repeated for a maximum of six (6) units toward the Master's degree. Prerequisites: Graduate classification and consent of instructor.

BRS 698B (2) 698C (3) 698D (4) 698E (5) 698F (6) Thesis
Design, implementation, and analysis of a formal research project in the biological sciences. May be repeated for a maximum of six (6) units toward the Master's degree. Graded Credit/No Credit. Prerequisite: Advancement to candidacy and consent of instructor.

BRS 699B (2) 699C (3) 699D (4) 699E (5) 699F (6) Thesis Extension
Registration is limited to students who have received a grade of Satisfactory Progress (SP) in BIOL 698 and who expect to use the facilities and resources of the University to work on or complete the thesis. May be repeated. Graded Credit/No Credit. Prerequisite: Consent of instructor, and prior registration in BIOL 698 with an assigned grade of Satisfactory Progress (SP). Units may not be applied to the required units for the Master's degree.
BUSINESS (BUS)

College of Business Administration

BUS 202 (3)
Introduction to Business Law
Legal principles of basic business transactions. Coverage includes contracts, agency, partnerships, corporations, property, government agencies and regulations, and Uniform Commercial Code.

BUS 203 (3)
Business Writing
Effective written communication applied to business letters, memos, and long reports. Includes the organization, writing, and presentation of business documents using word processing software. Incorporates basic principles of speaking effectively for business. Prerequisite: GEW 101.

BUS 290 (2)
Selected Topics in Business
A survey course in a selected topic that supplements available business administration offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: Vary depending on topic.

BUS 291 (4)
Selected Topics in Business Administration
A survey course in a selected topic that supplements available business administration offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: Vary depending on topic.

BUS 295 (4)
Selected Topics in Business Administration with Lab
A survey course with lab in a selected topic that supplements available business administration offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: Vary depending on topic.

BUS 302 (2)
Foundations of Business Environments
Examines the complex environment in which business decisions are made. Uncontrollable factors affecting an organization’s performance include the political, social, legal and regulatory, environmental, and technological issues. The competitive market structure and the impact of demographic diversity on organizations are an important part of an environmental analysis. Prerequisite: All lower-division pre-business core.

BUS 304 (4)
Data Analysis
Introduction to statistical concepts and methods relevant to business problems. Model building and analysis; case studies and intensive use of statistical software. Should be taken first semester of junior year. Prerequisites: All lower-division pre-business core and successful completion of University computer competency requirement.

BUS 444 (4)
Strategic Management in Global Environments
Applies functional area knowledge to strategic decision situations in global, political, social, legal, regulatory, and competitive environments. Open only to CCBA students with senior status. Must be taken in the last year of enrollment. Prerequisites: All lower-division pre-business core, all Foundations of Business courses, Option Core.

BUS 492 (1)
Problem Assessment and Critical Thinking
Review of problem identification, problem solving, critical thinking, consultation, project management, and strategies for team effectiveness. Following formation of teams and project assignment, members prepare a Letter of Engagement for their senior experience project. Corequisite: BUS 493. Prerequisites: All lower-division pre-business core and all Foundations of Business courses.

BUS 493 (4)
Problem Analysis and Implementation
Implementation of the project portion of the senior experience. Team members complete their project, and submit a final project report and present their results. Open only to CCBA students with senior status. Corequisite: BUS 492. Prerequisite: Consent of instructor.

CHEMISTRY (CHEM)

College of Arts and Sciences

CHEM 100 (3)
Organic and Biochemistry for Life
Covers the basic principles of general, organic, and biochemistry as applied to the biochemistry, pathophysiology, pharmacology, and nutrition of human body systems. Intended for students pursuing a degree in a variety of health-related areas such as Nursing. Prerequisite: Completion of the Entry Level Mathematics (ELM) requirement. Corequisite or Prerequisite: MATH 115.

CHEM 100L (2)
Organic and Biochemistry for Life Laboratory
Covers the basic principles of weight and volume measurements, solutions, suspensions, colloids, osmosis, energy of biochemical transformations, buffered solutions the properties of acids and bases and pH balance in the biochemistry of human body systems. Intended for students pursuing a degree in Nursing. Prerequisite: Completion of the Entry Level Mathematics (ELM) requirement. Corequisite or Prerequisite: MATH 115. Recommended: High School Chemistry.

CHEM 201 (3)
Organic Chemistry
First course of a sequence designed to introduce the student majoring in science to the properties of organic compounds. The entire sequence covers bonding, structure, stereochemistry, nomenclature, chemical and physical properties of each functional group, acid/base phenomena, reaction mechanisms and kinetics, organic synthesis, and an introduction to spectroscopic structure determination. Prerequisite: CHEM 150 with a minimum grade of C (2.0).
CHEM 201L (2)  
Organic Chemistry Laboratory  
The laboratory experiments are designed to illustrate the basic techniques of organic chemistry and to complement the lecture material covered in CHEM 201. Six hours of laboratory. Corequisite or prerequisite: CHEM 201. Prerequisite: CHEM 150 with a minimum grade of C (2.0).

CHEM 202 (3)  
Organic Chemistry  
Second course of a sequence designed to introduce the student majoring in science to the properties of organic compounds. The entire sequence covers bonding structure, stereochemistry, nomenclature, chemical and physical properties of each functional group, acid-base phenomena, reaction mechanisms and kinetics, organic synthesis, and an introduction to spectroscopic structure determination. Prerequisites: CHEM 201 and 201L with minimum grades of C (2.0) in each.

CHEM 202L (2)  
Organic Chemistry Laboratory  
The laboratory experiments are designed to illustrate the basic techniques of organic chemistry and to complement the lecture material covered in CHEM 202. Six hours of laboratory. Corequisite or prerequisite: CHEM 202. Prerequisite: CHEM 201/201L with a minimum grade of C (2.0).

CHEM 250 (3)  
Quantitative Chemistry  
Introduces quantitative approaches to chemical equilibria and kinetics. Fundamental principles of thermodynamics introduced in CHEM 150 are explored in greater depth. Topics include solubility, acids and bases, oxidation and reduction, and nuclear chemistry. Applications of these topics to practical chemical analysis are discussed. Corequisite for chemistry and biochemistry majors only: CHEM 275. Prerequisite: MATH 160, CHEM 202, or consent of instructor.

CHEM 275 (3)  
Quantitative Investigations in Chemistry  
A laboratory designed to give chemistry majors practical experience in standard methods of separation and quantitative analysis. These are applied to investigations of such fundamental topics presented in CHEM 250, and to analyses with industrial, environmental, or medical relevance. Volumetric, gravimetric, spectrophotometric, chromatographic, and electrochemical methods of analysis may be included. One hour of lecture and six hours of laboratory. Corequisite: CHEM 250 or consent of instructor. Prerequisite: MATH 150.

CHEM 300 (3)  
Literature of Chemistry  
Introduces the student to techniques of finding, reading, and writing chemical and other scientific literature for upper-division work in the natural sciences. Includes standard reference works in Chemistry, journals and monographs, Chemical Abstracts, Science Citation Index, and other print and online resources. Students write research proposals and journal-quality scientific papers, including figures and graphs using up-to-date computer tools. Students learn strategies for reading difficult scientific papers and give oral presentations of research. Prerequisite: CHEM 201.

CHEM 311 (3)  
Chemicals and the Environment  
A survey on chemicals of natural and industrial origin found in the environment, with emphasis on the chemical reactions of these substances and the effect on the quality of life on planet Earth. The areas covered are: chemical structures, inorganic and organic chemicals of natural and synthetic origins and the reactions of these chemicals, the effects of these chemicals on the environment (the atmosphere, soil, water ways, plants, and animals, especially human nutrition and health). Satisfies the Liberal Studies requirement for Earth Science. Intended for the non-chemistry major.

CHEM 312 (3)  
Chemistry of Life  
Structure, function, and properties of bioorganic/biochemical molecules important to life, health and nutrition. The areas covered are: atomic and molecular structure, chemical and physical properties of bio-organic functional groups, carbohydrates, fats, amino acids, proteins, enzymes, hormones, nucleic acids, digestion, nutrition. Also discusses the aesthetic, humanistic and practical aspects of science, where applicable, related to economic, health, historical (including contributions made by women and minorities), and/or political issues influenced by chemistry. Intended for the non-chemistry major.

CHEM 313 (3)  
Energy and Society  
An introduction to the scientific principles involved in the production of energy, with emphasis on the processes that influence world-wide energy policy. The subjects covered may include: energy from fossil fuels, alternative energy sources (e.g. solar, biomass, hydrogen, fuel cells, etc.), nuclear energy, and energy production in living organisms. Also discussed are the economic, environmental, political, and social issues surrounding energy production. This course is intended for the non-chemistry major.

CHEM 351 (3)  
Biochemistry  
A one-semester introduction to Biochemistry designed for students majoring in science. The areas covered are: the structure and biosynthesis of carbohydrates, lipids, peptides, and nucleotides as well as biomolecular conformation and dynamics. May not be taken for credit by students who have received credit for CHEM 303. Prerequisites: CHEM 202 with a minimum grade of C (2.0).

CHEM 351L (2)  
Biochemistry Laboratory  
Designed to complement the lecture material and illustrate the basic techniques of biochemistry. Six hours of laboratory. Corequisite or prerequisite: CHEM 351.

CHEM 352 (3)  
Biochemistry  
Designed to introduce the student majoring in science to principle areas in biochemistry. Areas which may be covered but are not limited to include: enzyme kinetics and regulation; generation and storage of metabolic energy; basic crystallography and structure of proteins, molecular modeling, membrane structure and pharmaceutical biochemistry. May not be taken for credit by students who have received credit for CHEM 304. Prerequisites: CHEM 351 with a minimum grade of C (2.0) or consent of instructor.

CHEM 399A (1) 399B (2)  
Special Problems in Chemistry — Library  
Individual investigation that involves reading and researching the literature on an issue/topic in chemistry. The project must be performed in consultation with a faculty member in a related sub-discipline and a contract stating the proposed goals will be signed by both the student and the instructor. A written report or exam demonstrating an in-depth understanding of the issue/topic will be completed at the end of each semester of work. May be repeated for a total of four (4) units but may not be substituted for CHEM 498. Prerequisite: Consent of Instructor.

CHEM 399A (1) 399B (2)  
Special Problems in Chemistry — Laboratory  
Individual investigation that involves a research project in the laboratory in collaboration with a faculty member in a related subdiscipline. A contract stating the proposed goals of the project will be signed by both the student and the instructor. A written report summarizing the research findings must be submitted to the instructor at the end of each semester of work. May be repeated for a total of four (4) units of credit, but may not be substituted for CHEM 499. Prerequisite: Consent of Instructor.
CHEM 400 (3)  
Physical Sciences for Elementary School Teachers  
Designed to educate K-6 elementary school teachers in the basic principles of physical sciences. The areas covered are: the nature of matter, reactions and interactions of molecules, force and motion of particles, sources and transformations of energy, heat, electricity, magnetism, light, and sound. An elective course recommended for those students declaring a special field in science or any liberal studies majors intending to enroll in credential programs upon graduation; however, it does not fulfill the Physical Sciences requirement of the liberal studies major. Two hours of lecture and two hours of activities in a discovery/thematic approach to learning the basic principles of chemistry and physics.

CHEM 401 (3)  
Physical Chemistry – Classical  
Designed to introduce the student majoring in science to the basic principles of Chemical Thermodynamics and Kinetics. The areas covered include: Basic laws of thermodynamics, chemical and physical equilibria, electrochemistry, transport processes, and theories and experimental determination of chemical reaction rates. Prerequisites: CHEM 250, MATH 162, and PHYS 202 or PHYS 206.

CHEM 402 (3)  
Physical Chemistry – Quantum  
Designed to introduce the student majoring in science to the basic principles of Quantum Mechanics and Spectroscopy as applied to chemical problems. The areas covered include: quantum mechanics of model systems, electronic structure of atoms and molecules, and atomic and molecular spectroscopic principles. Prerequisites: CHEM 250, MATH 162 and PHYS 202 or PHYS 206.

CHEM 404 (3)  
Inorganic Chemistry  
Designed to introduce the student majoring in science to inorganic chemistry. The areas covered are: atomic structure, the periodic table theories of chemical bonding, structure, acid/base chemistry and non-aqueous solvents, coordination chemistry of the transition metals, spectroscopy of transition metal complexes, oxidation/reduction chemistry, mechanisms of inorganic reactions, and brief introductions to applications of inorganic chemistry such as biorganic chemistry or organometallic chemistry. Corequisite: CHEM 404L. Prerequisite: CHEM 250, or consent of instructor.

CHEM 404L (1)  
Inorganic Chemistry Laboratory  
Designed to introduce the students majoring in science to laboratory techniques for the manipulation, synthesis, and characterization of inorganic compounds. Principles of structure and bonding, spectroscopy, magnetic characterization, thermodynamics and kinetics of inorganic compounds introduced in CHEM 404 are demonstrated in laboratory experiments. Three hours of laboratory per week. Corequisite or prerequisite: CHEM 404.

CHEM 405 (1)  
Physical Chemistry Laboratory  
Designed to introduce the student to experimental and computational techniques in physical chemistry. The laboratory experiments will cover topics in chemical thermodynamics, molecular spectroscopy, chemical kinetics, and computational chemistry. Emphasizes the application of theoretical principles in the interpretation of the experimental and computational results. Three hours of laboratory per week. May be repeated with consent of instructor. Corequisite or prerequisite: CHEM 401.

CHEM 416 (5)  
Instrumental Methods of Analysis — Separations and Structure  
Designed to introduce the student majoring in science to basic theory and practical application of instrumental methods of chemical separation and structure determination. The areas covered are: chromatography (GC/HPLC), spectrometry (atomic absorption, mass, infrared, ultraviolet, and proton and carbon-13 nuclear magnetic resonance). The laboratory experiments are designed to complement the lecture material and illustrate the basics techniques of chemical separation and structure determination. Three hours of lecture and six hours of laboratory. Prerequisites: CHEM 202, 275, and MATH 160 with a minimum grade of C (2.0).

CHEM 490 (3)  
Selected Topics in Analytical Chemistry  
A survey course of selected topics from the current chemical literature in analytical chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: CHEM 416 with a minimum grade of C (2.0).

CHEM 491 (3)  
Selected Topics in Biochemistry  
A survey of selected topics from the current chemical literature in biochemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 351 and 352 with a minimum grade of C (2.0).

CHEM 492 (3)  
Selected Topics in Inorganic Chemistry  
A survey of selected topics from the current chemical literature in inorganic chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: CHEM 404 with a minimum grade of C (2.0).

CHEM 493 (3)  
Selected Topics in Organic Chemistry  
A survey of selected topics from the current chemical literature in organic chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 202, and MATH 160 with a minimum grade of C (2.0).

CHEM 494 (3)  
Selected Topics in Physical Chemistry  
A survey of selected topics from the current chemical literature in physical chemistry. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: CHEM 401 and 402 with a minimum grade of C (2.0).

CHEM 497 (1)  
Chemistry in the Community  
Designed to introduce the student majoring in science to laboratory techniques for a total of four (4) units of credit. Students should check the Class Schedule for listing of actual topics. Prerequisite: Completion of three (3) units of upper-division chemistry courses, and consent of instructor prior to registration.

CHEM 498 (1)  
Senior Library Thesis and Seminar  
An in-depth reading and researching of the literature on current issues in chemistry. The student must consult with a faculty member in the discipline to decide on the subject and then produce a research paper (approximately 10-20 pages) with a list of literature citations in American Chemical Society style. The research paper (thesis) must summarize the current state of knowledge on the subject. The project will involve an average of two hours of consultation with the faculty supervisor and four (4) hours of library work each week. The student will defend the thesis in a seminar to the faculty and students of the Department of Chemistry. May be repeated for a total of four (4) units of credit. Prerequisite: Consent of instructor.
CHEM 499 (2)
Senior Laboratory Thesis and Seminar
An original research project in the laboratory or in collaboration with a faculty member in the discipline. The student must consult with a faculty member in the discipline to decide on the research problem and then produce a research paper (approximately 10-20 pages) with a list of literature citations in American Chemical Society style. The research paper (thesis) must summarize the current state of knowledge on the research problem as well as the progress in the laboratory experiments aimed at the completion of the research project. The student will defend the thesis in a seminar to the faculty and students of the Department of Chemistry. The project will involve an average of six hours of supervised laboratory work each week. May be repeated for a total of four (4) units of credit. Prerequisites: One course in the subject area with a grade of B (3.0) or better and consent of instructor.

COMPUTER INFORMATION SYSTEMS (CIS)

CIS 341 (3)
Computer System Analysis and Design
Covers the systems development life cycle, compares traditional methods of systems development to newer, emerging methods, process and data models for an information system, user interface for an information system, feasibility study and cost benefit analysis. Prerequisite: CS 111.

CIS 444 (3)
Web Programming
Methods, software architecture, and standards for Internet-scale software infrastructure (services and applications). Includes foundations of the Web; distributed systems; client server architectures from 2-tier to n-tier and through Web Applications Design; and distributed object-based systems and associated technologies. Prerequisite: CS 443.

CIS 490 (3)
Project Management and Practice
Advanced CIS majors operating as a high-performance team will engage in and complete the design and implementation of a significant information system. Project management, management of the CIS function, and systems integration will be components of the project experience. Prerequisites: CIS 444, CS 433, 436, and 441.

COMMUNICATION (COMM)

College of Arts and Sciences

COMM 100 (3)
Introduction to Communication
Introduction to fundamental concepts of communication with emphasis on the centrality of communication across a wide variety of contexts and its relevance in society. Focuses on the structures and processes of communication, including how messages are produced and received in interpersonal and intercultural relations, institutional life, and the world of mediated culture and politics.

COMM 150 (2)
Introduction to Leadership and Social Change
Introduces the concept of leadership and communication with an emphasis on the values, skills, and knowledge that will initiate the process of life-long leadership and social change. Familiarizes students with traditional and non-traditional leadership models, assists students in the development of their personal leadership vision, strategies, and potentials, and increases understanding and appreciation for multiculturalism and difference in the context of leading and working with others. May not be taken for credit by students who have received credit for ID 170A. Prerequisites: Students must be freshmen or sophomore, and consent of instructor.

COMM 200 (3)
Principles of Argument and Persuasion
Study of and practice in the methods of critical thinking and argumentation. Involves using inductive and deductive reasoning to advance persuasive theses; recognizing and avoiding fallacies in reasoning; learning to advance propositions of value and of policy; understanding how various audiences respond to persuasive appeals.

COMM 300 (3)
Communication Theory
Introduces students to the major 20th Century frameworks for understanding the field of communication and their respective influences in the areas of social and political practice as well as cultural understanding. May include semiotic, phenomenological, cybernetic, socio-psychological, socio-cultural, and critical traditions. (CTM)

COMM 310 (3)
Group Interaction and Problem Solving Methods
Examines how groups work as they conduct inquiry, solve problems, and make decisions; procedures for organizing group interaction, processes of symbolic convergence, and influences over group success. Special emphasis is placed on reflective thinking, teamwork/collaboration, leadership, creativity, and intergroup conflict. Methods for facilitating small group discussion; use of group methods in instruction, and use of new media to augment group discussion practices are also addressed. (CCSC)

COMM 320 (3)
Conflict and Communication
Conflicts are situations in which individuals and groups with differing assumptions about reality (both facts and values), clash with one another about right and wrong. Discusses the nature of communication in such situations, the strengths and weaknesses of the various types of discourse employed in dealing with them, and visions for transcending conflicts. Three general types of responses to conflict will be explored: rhetorical attempts to persuade (rhetorical eloquence), hostile resistance (lost eloquence), and transcendence (transcendent eloquence). Prerequisites: Junior or Senior status or consent of instructor. (CCSC)

COMM 330 (3)
Intercultural Communication
Introduction to traditional and critical theories, concepts, and principles regarding communication between and about people of different racial, ethnic, and cultural backgrounds. Takes a culture-general approach to examining the relationships among culture, communication, context (social, historical, political), and power. Emphasizes domestic issues with attention given to how they impact, and are impacted by, international communities. (CCSC)

COMM 333 (3)
Language and Social Interaction
Introduction to theories of language and interaction. Addresses how language is used within social and institutional interaction. Special emphasis will be given to problematic situations and their resolution. Fosters cultural awareness through a concentration on the interactions in which culture is constructed and the cultural institutions by which interaction is governed. (CCSC)
COMM 340 (3)  
Interviewing Principles and Practices  
Examines interviewing as a method for eliciting information, resolving problems, and building personal communities. Principles of effective interviewing in a variety of contexts are examined. Students learn about interviewing practices that will be useful to their everyday lives and careers. Requires students to conduct various types of interviews and self-appraisals of interviewing performance. (CTM)

COMM 350 (3)  
Topics in Communication  
Explores topics in Communication. Students should check the Class Schedule for listing of actual topics. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units.

COMM 355 (3)  
Communication and Collaboration  
Explores how individuals, group dynamics and technologies affect collaboration in a variety of professional settings. Readings and lectures draw upon international and interdisciplinary research on Computer Supported Cooperative Work, usability design theory and distributed cognition. Students apply course concepts in group projects including usability testing, and multimedia product evaluation and redesign. Strongly recommended: Prior completion of COMM 360 or 440, or junior or senior status. May not be taken for credit by students who have received credit for COMM 350D. (MC)

COMM 360 (3)  
Mass Media and Society  
Introduction to theories, research methods, and empirical research findings related to the production and effects of mass communication on individuals and society. Surveys various forms of media, provides an overview of the historical formation of various media channels, and analyzes the impact of mass communication upon popular culture. (MC)

COMM 370 (3)  
World Wide Web as Mass Medium  
Examines the development of the World Wide Web and multimedia computing, as textual, graphic, video, and audio mass media. Students examine the personal, commercial, educational, and entertainment uses of the World Wide Web. They also examine the social and cultural contexts of the World Wide Web—particularly how the information it distributes reflects social, economic, and political power related to gender, race, social class, ethnicity, education, and other social groupings. Students will have the opportunity to develop their own web pages and to create audio and video segments for those pages. May not be taken for credit by students who have received credit for COMM 480C. (MC)

COMM 380 (3)  
Health Communication  
Explores health communication in various personal and public contexts. Emphasizes the role of communication theory and research in the development of effective health campaigns, understanding physician-patient interaction, assessing inequality in patient access and treatment, negotiating health care systems, and healthcare advocacy. Special emphasis is placed on assessing health problems, both globally and locally, and the communicative efforts to address those problems. May not be taken for credit by students who have received credit for COMM 350G. (CCSC)

COMM 390 (3)  
Research Methods and Design  
Introduction to qualitative research methods. Students will learn procedures for conducting various kinds of research (i.e., participant observation, interviewing, focus groups, ethnography, textual analysis, etc.) useful for understanding human problems and media texts and processes. Emphasis is on the implementation of a research project which encourages students to consider the usefulness of various ways of knowing and to apply the selected method(s) in a systematic way. Also considers the theoretical, practical, and ethical issues that arise in conducting research. Prerequisite: COMM 200. (CTM)

COMM 400 (3)  
Discourse Analysis  
Various approaches to the study of discourse, including ethnotheory of communication, ethnography of human communication, culturally focused approaches, speech act theory, and conversation analysis. Students are expected to acquire competency in analyzing recorded and transcribed data from various social settings. (CTM)

COMM 401 (3)  
Rhetorical Theory  
Introduction to rhetorical theory and criticism. Issues explored include the relation of rhetoric to: scientific, philosophical and practical knowledge; public life including public (mediated) and private discourse; the constitution and reconstructions of identity and community; and the criteria that guide our personal and social judgments. (CTM)

COMM 420 (3)  
Topics in Communication Theory  
Focused study of a specific communication theory or theoretical approach. Topics vary by instructor. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. (CTM)

COMM 425 (3)  
Communication and Mediation  
Examines the conceptualization of conflict and of mediation as an area of teaching, training and research in communication. Designed to guide students through a specific academic view of conflict and its relationship to communication as a point of departure. We will continue by studying dispute mediation as one way to approach conflict. Case studies as well as dispute mediation simulations will help in understanding the powers and limitations of the process. Demythifies conflict and dispute mediation and shows how to use “the tools” of dispute mediation ethically. Prerequisite: COMM 320, Junior or Senior status, or consent of instructor. (CCSC)

COMM 430 (3)  
Power, Discourse and Social Identity  
Examines notions of identity in public discourse. Introduction to theories of discourse, identity, and power in public discourse (i.e., legal, mediated, policy, etc.) on current social issues. Focuses on the politics of identity, the ways in which identity politics play out in public debate, and in the formation of economic, political, and social policies and realities. Recommended: Completion of COMM 330 or equivalent. (CCSC)

COMM 435 (3)  
Communication and Gender  
Introduction to a number of conceptual and theoretical problematics that have a bearing on the study of communication and its relevance to questions of gender. Explores differences between males and females with respect to communication styles, the cultural motivations for these differences, how they are reproduced in ongoing socialization experiences, their social and political implications, and the stratagems speakers deploy in the course of exploiting, bridging, negotiating, or overcoming such differences. (CCSC)
COMM 437 (3) Interpersonal Communication
Introduction to the theory and research focused on interpersonal communication. Emphasis is on experientially acquired insights into the initiation and maintenance of interpersonal relationships across a wide range of socialization institutions (e.g., family, peer group, and workplace). (CCSC)

COMM 440 (3) Organizational Communication
Examination of theoretical and research literature on the interaction within organizations and its bearing on individuals and groups in society at large. Some of the themes stressed are: the function of organizations within complex technological, market and sociopolitical environments; the communicative challenges of organizing; social responsibility and responsiveness; conflict mediation between organizational groups and actors; corporate wrongdoing; issues management; corporate political activity; institutional ethics; and whistle blowing. (CCSC)

COMM 445 (3) Communication Portfolio
Students will learn to craft professional documents: resumes, reports, and proposals. Students learn how, as colleagues, to evaluate, revise, and edit as well as how to give and respond to criticism of oral and written work. Informed by case studies, students also learn how to highlight and articulate their skills, abilities and interests as Communication majors as part of a job search or in preparation for graduate or professional study. (CTM)

COMM 450 (3) Topics in Intercultural Communication
Focused study of a specific aspect of intercultural communication. Topics vary by instructor. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. (CCSC)

COMM 454 (3) The Communication of Whiteness
Introduction to basic theories, concepts, and principles regarding the idea of whiteness as a discursive (communicative) construct, and the key role that communication plays in the construction of whiteness. Particular attention will be given to the important role of communication (face-to-face, mediated, discursive), context (social, cultural, and historical), and power as they relate to whiteness. Recommended: Completion of COMM 330 or related course. Students who have completed COMM 450D may not take this course for credit. (CCSC)

COMM 455 (3) Television and Culture
Analyzes television programs in the context of communication and other social science research in order to examine representations of race, ethnicity, social class, gender, and sexual preference. Examines how television contributes resources of interpretation, discussion, and social activities that affect the ways people view society and social groups. Subjects will include: types of representation; how representations have changed over time; multiple interpretations of television representations; how viewers use them; the production practices and conventions that shape them; the relationship between representations and structured inequality. Prerequisites: COMM 330 or 360. (MC)

COMM 465 (3) Communication and Popular Culture
Popular culture is so much a part of our daily lives that it is all but invisible. To a great extent, popular culture defines the texture of our lives. Popular images not only mediate and define reality, but they also implicitly assert a set of values. Introduces students to a number of concepts and challenges that arise in the study of U.S. popular culture. Drawing on a variety of theories and perspectives, students will critically examine the role of popular culture within the context of current social, political, and economic realities in the United States. (MC)

COMM 470 (3) Political Communication
A survey of theories and research in the area of political communication which covers such issues and themes as political image, symbolic constructions of political reality, agenda setting, political and campaign rhetoric. Special emphasis is placed upon how such issues and themes are related to the modern mass media. (MC)

COMM 480 (3) Topics in Mass Communication
Focused study of a specific aspect of mass communication. Topics vary by instructor. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. (MC)

COMM 495A (1) 495B (2) 495C (3)
Communication Internship
Provides students with opportunities to examine, organizational, intercultural, mediated and other modes of communication during routine work activities in private and public enterprises outside of a classroom setting. May be taken once for credit. COMM 495 and 499 may total no more than six (6) units applied toward the major. Prerequisite: Consent of instructor.

COMM 499A (1) 499B (2) 499C (3)
Independent Study
May be used by students who desire to do special individualized projects with an instructor. Number of units to be decided between the student and the instructor. May be repeated for a total of six (6) units. Prerequisite: Consent of Instructor.

COMPUTER SCIENCE (CS)

College of Arts and Sciences

CS 100 (1)
Computer Basics
Serves as an introduction to the potential of microcomputers, societal, historical perspectives, word processing, spreadsheets, communications, operating systems, editors, and networking. Credit may not be counted toward the Computer Science major. May not be taken by students who have passed the Computer Competency Requirement exam.

CS 111 (4)
Computer Science I
Emphasizes programming methodology and problem-solving. A block-structured, high-level language such as C will be used for the specification and implementation of algorithms. Includes principles and applications of software engineering, numerical computing, artificial intelligence, database and user interface. Three hours lecture and three hours laboratory. Prerequisites: MATH 125 or equivalent.

CS 112 (1)
Introduction to Computing I
Includes principles and applications of software engineering, numerical computing, artificial intelligence, database, and user interface. Credit may not be counted in conjunction with CS 111. Prerequisite: Completion of an entry-level programming course.
CS 200 (1-3)  
Selected Topics in Computing  
Selected topics in computing and information technology. May be repeated for a total of twelve (12) units as topics change. Credit may not be counted toward the Computer Science major. Students should check the Class Schedule for listing of actual topics. Prerequisite: Consent of instructor.

CS 211 (4)  
Computer Science II  
A continuation of program design and development. Introduction to data structures: stacks, queues, linear lists, trees, and sets. Includes pointers recursion, and implementation and analysis of sorting and searching algorithms. Extensive programming is required. Includes introduction to parallel models and algorithms, problem state space, relational database, and numerical approximation methods. Three hours of lecture and three hours of laboratory. Prerequisite: CS 111 or equivalent.

CS 212 (1)  
Introduction to Computing II  
Includes introduction to parallel models and algorithms, problem state space, relational database and numerical approximation methods. Credit may not be counted in conjunction with CS 211. Prerequisite: Completion of an intermediate-level programming course.

CS 231 (4)  
Assembly Language and Digital Circuits  
The structure of computers, number and character representation, word and instruction formats, and flowcharting. Machine and assembly language programming, address modification, indexing, indirect addressing, subroutines, and mnemonic interpreting systems. Includes digital logic, analysis and synthesis of circuits, and circuits of commonly used computer components. Three hours lecture and three hours laboratory. Prerequisite: CS 111 or equivalent.

CS 232 (1)  
Introduction to Digital Circuits  
Includes digital logic, analysis and synthesis of circuits, and circuits of commonly used computer components. Credit may not be counted in conjunction with CS 231. Prerequisite: Completion of an assembly programming course.

CS 301 (3)  
Computer Mastery  
An introduction to the applications of computers, such as word processing, spreadsheet, database management, networking communications, operating systems, editors, societal issues and historical perspectives of computer usage, algorithmic and critical thinking and computer programming in:  
A. ASP (recommended to future teachers)  
B. C++  
C. Java  
P. Pascal

CS 301(A) May not be taken for credit by students who have received credit for EDUC 422A and EDUC 422C. A grade of C+ or above in CS 301(A) can be used to fulfill EDUC 422A and EDUC 422C. May not be repeated. Credit may not be counted toward the Computer Science Major. Prerequisite: completion of Entry Level Mathematics (ELM) requirement.

CS 305 (3)  
Problem Solving with Java Programming  
An introduction to algorithmic and critical thinking through problem solving and Java programming. Various problems are solved throughout case studies and computer solutions are produced to solve these problems through the platform of web programming on the Internet. Prerequisite: Completion of the Entry Level Mathematics (ELM) requirement.

CS 306 (3)  
Introduction to Computer Animation  
Introduction to the design and implementation of computer animation. The technical and creative aspects of both linear and interactive animation are investigated. Special attention is paid to the design of and production of 2-D and 3-D animations for the Internet. May not be taken for credit by students who have received credit for CS 497E. Prerequisites: Completion of the Computer Competency Requirement (CCR) and the Entry Level Mathematics (ELM) requirement.

CS 307 (3)  
Useful Computer Algorithms for Problem Solving  
An introduction to computer algorithms that can be used by humans to solve real-world problems. Covers algorithms for problems such as searching, sorting, shortest path, minimal network cost, articulation points, 01-knapsack. Application to airlines, railroads, police, military, and other professions will be demonstrated. No programming is required. Prerequisites: Completion of the CCR requirement and completion of the Entry-Level (ELM) Mathematics requirement.

CS 311 (3)  
Data Structures  
A thorough understanding of several advanced methods for implementing the abstract data types and the time used by each method. Includes abstract data types such as dictionary, priority queues, matrices, and relations, foundation of recursive algorithms, complexity analysis, complexity classes, sorting and searching, computability and undecidability, problem-solving strategies, heuristic search, modeling and components of database systems, and graphics software systems. Corequisite or Prerequisite: MATH 370 or equivalent. Prerequisite: CS 211 or equivalent.

CS 331 (3)  
Computer Architecture  
A study of the functional organization and sequential operation of digital computers. The major components of a computer will be discussed. Introduction to machine instruction architecture and design. The study of the internal operations during program execution. Several computer architectures will be studied. Corequisite or Prerequisite: MATH 370. Prerequisite: PHYS 301 or equivalent.

CS 351 (3)  
Programming Languages  
Important features and concerns of implementation design on programming languages in common use today will be studied and analyzed. Includes data and control structures, run-time storage management, context-free grammars, language translation systems, programming paradigms, distributed and parallel programming constructs. Corequisite or Prerequisite: CS 311 or equivalent.

CS 403 (3)  
Social and Organizational Impacts of Computing  
Analyzes the social opportunities and problems raised by new information technologies. Emphasizes the dangers of incorrectly implemented software and hardware systems and relates them to the responsibilities of computing professionals. Effects of personal safety, quality of life, education, employment, personal privacy, organizational productivity, organizational structure, ethical values and regulations will be discussed. May not be taken for credit by students who have received credit for CS 303. Prerequisite: CS 311.
CS 421 (3)
Theory of Computing
Regular and context-free languages, and other formal languages, push down and finite-state automata, and other finite machines. Turning machine computability, halting problems. May not be taken for credit by students who have received credit for CS 521. Prerequisites: CS 311 or equivalent and MATH 370.

CS 433 (3)
Operating Systems
Operating system design and implementation, process coordination and scheduling, deadlock, interface devices, memory and device management, networks and security, distributed and real-time systems. May not be taken for credit by students who have received credit for CS 533. Prerequisites: CS 231 and 311.

CS 436 (3)
Introduction to Networking
Covers the fundamentals of networking concept and technology, which includes data communication, OSI 7-layer model, TCP/IP protocol stacks and the Internet, the features of LAN, MAN and WAN, network security, and basic CGI programming and web applications. May not be taken for credit by students who have received credit for CS 497D. Prerequisite: CS 311.

CS 441 (3)
Software Engineering
Principles, techniques, and tools used to effect the orderly production of medium- and large-scale computer software will be studied. Includes review of problem-solving concepts, software development process, software requirements and specifications, verification, and validation. These techniques will be applied to programming projects with students working in teams and managing all phases of a programming project. Social, professional, and ethical issues will be discussed. May not be taken for credit by students who have received credit for CS 541. Prerequisites: CS 311 and MATH 370.

CS 443 (3)
Database Management Systems
Study of the concepts and structures necessary to design and implement database management systems. File organization, index organization, security, data integrity and reliability, data description and query languages will be studied within hierarchical, network, and relational models. A commercially available relational database management system will be used. May not be taken for credit by students who have received credit for CS 543. Prerequisite: CS 311.

CS 455 (3)
Logic Programming
Declarative programming techniques: formal specification of the problem itself rather than of a solution algorithm. Survey of logic programming languages such as Prolog, applications, theoretical foundations propositional logic, predicate calculus, resolution, theorem proving, non-determinism, meta-programming. May not be taken for credit by students who have received credit for CS 555. Prerequisites: CS 351 and MATH 370.

CS 464 (3)
Numerical Analysis and Computing
Computer arithmetic, solution of a single algebraic equation, solution of systems of equations interpolating polynomials, numerical integration, numerical solution of ordinary differential equations; error analysis and computational effort of numerical algorithms. Combines theoretical ideas with hands-on laboratory experience. Also offered as MATH 464. Students may not receive credit for both. Prerequisites: CS 111 or equivalent and MATH 162.

CS 471 (3)
Introduction to Artificial Intelligence
An introduction to the objectives and techniques used by practitioners and researchers in artificial intelligence. Explores a number of aspects of computational models of intelligence including problem solving (uninformed and informed strategies), game playing, knowledge representation, reasoning, planning, natural language processing (text and speech), and learning. There will be a number of hands-on assignments that will allow the student to become familiar with the practice of building intelligent systems. Prerequisite: CS 311.

CS 473 (3)
Artificial Neural Networks
Theory, algorithms and applications of artificial neural networks, their applications including pattern and speech recognition, system identification, signal processing, time series prediction, financial analysis and trading. May not be taken for credit by students who have received credit for CS 573. Prerequisite: CS 311.

CS 475 (3)
Machine Learning
Machine learning algorithms and theory, decision-tree learning, neural networks, Bayesian approaches, genetic algorithms, reinforcement learning, computational learning theory. May not be taken for credit by students who have received credit for CS 575. Prerequisite: CS 311.

CS 480 (3)
Introduction to Optimization
Study of Linear Programming, Goal Programming and Integer Programming. Programming methods include the simplex method and the Big M method. Theoretical aspects include optimality conditions, sensitivity analysis and duality. Also offered as MATH 480. Students may not receive credit for both. Prerequisites: CS 211 and MATH 374.

CS 495 (3)
Internship in Computer Science
Faculty-sponsored academic internship in business, industrial, government, or research firm. Prerequisite: Consent of the faculty sponsor.

CS 497 (3)
Topics in Computer Science
Introductory or advanced topics in Computer Science for undergraduate students. May be repeated as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: Consent of instructor.

CS 499A (1) 499B (2) 499C (3)
Individual Study in Computer Science
Individually directed reading and study in Computer Science literature. May be repeated for a maximum of three (3) units. Prerequisites: Senior standing in Computer Science and consent of supervising instructor.

CS 499A (1) 499B (2) 499C (3)
Independent Research in Computer Science
Designed for students capable of independent and original research. May be repeated for a maximum of three (3) units. Prerequisites: Senior standing in Computer Science and consent of research supervising instructor.

CS 513 (3)
Analysis of Algorithms
Study of algorithms; efficient, optimal algorithms and analysis for best, worst, and average performance; computational complexity theory; algorithmic time and space bounds; levels of intractability; applications. May not be taken for credit by students who have received credit for CS 413. Prerequisites: CS 311 and MATH 370.

CS 514 (3)
Algorithms for Parallel Processing
Techniques for writing programs for multiple-processors. Includes data partitioning and functional partitioning for algorithms to be used on Single Instruction-Multiple Data Computers and on Multiple Instruction-Multiple Data Computers. May not be taken for credit by students who have received credit for CS 414. Prerequisite: CS 311.
CS 531 (3)  
Advanced Computer Architectures  
Comparative studies of computer system components: CPU, memory, and I/O devices; analytical modeling techniques to allow comparative evaluation of different computer architectures; multiprocessors, and array processors, vector processes, superpipelines, superpipelined processors, supercomputers, dataflow machines; parallelism, scalability, and programmability. Prerequisite: CS 331.

CS 535 (3)  
Introduction to Computer Graphics  
Display memory, geometric transformations, theory of domain transformations, windowing and clipping, mathematics of three-dimensional graphics involving rotation, scaling, transformation and perspective of 3-D images, hidden line algorithms, pattern recognition, and digital storage. May not be taken for credit by students who have received credit for CS 435. Prerequisites: CS 231 or equivalent, CS 311 and MATH 264 or 374.

CS 536 (3)  
Introduction to 3D Game Graphics  
Introduction to graphics algorithms and skills related to 3D game programming. The emphasis is on developing 3D graphics engines. Subjects covered include graphics hardware, rendering pipeline, OpenGL programming, geometric transformations, lighting and shading, texture mapping, shadowing, collision detection, animation, and other interactive computer graphics techniques. May not be taken for credit by students who have received credit for CS 597C. Prerequisites: CS 311 and MATH 264 or 374.

CS 537 (3)  
Data Communication and Computer Networks  
Introduces TCP/IP network architecture with emphasis on upper-layer protocols and a detailed investigation into TCP and IP. It also covers local area networks, internetworking, and network programming. A core course in the Computer Science M.S. program. Prerequisites: CS 433 or 436.

CS 538 (3)  
Cryptography and Network Security  
Basic number theory, computational complexity, and network architecture, in-depth discussion on cryptography and its network applications; security threats, requirements, protocols, applications for secure networks, and legal and ethical issues. Prerequisite: CS 433.
CS 633 (3)  
Advanced Operating Systems  
Current research and methodology in operating systems for operating system designers. Advance study includes topics of synchronization, deadlock, virtual memory, security, distributed systems and control, and modeling and analysis. Prerequisite: CS 433.

CS 637 (3)  
Advanced Computer Networks  
Broadband integrated services digital networks, high-speed networks, radio and satellite networks, lightweight networks; multimedia communications, wireless communications, high-speed communications; network design, network architectures, traffic and admission control, routing and flow control, performance issues, traffic characteristics. Prerequisite: CS 433 and 537.

CS 643 (3)  
Advanced Database Management Systems  
Advanced data models such as object-oriented databases, distributed databases, deductive databases, and multimedia databases; abstracts, dependencies, normalizations, query optimizations, implementations, languages, database machines, and other advanced topics. Prerequisite: CS 443.

CS 671 (3)  
Advanced Artificial Intelligence  
In-depth discussion on selected subdisciplines of Artificial Intelligence. Use of formal techniques and well-known systems for these subdisciplines. Discussion of current research and programming in Lisp, Prolog or an expert system shell to develop or modify certain systems in these areas. Prerequisite: CS 571.

CS 673 (3)  
Artificial Neural Networks and Forecasting  
The subjects to be studied first include forecasting using statistical methods such as Box-Jenkins ARIMA models for time-series analysis and forecasting with artificial neural networks. The applications include financial forecasting for stock prices, commodity trading volumes or currency exchange rates and other forecasting such as electric load, ocean temperature, river flow volume, and traffic flow. Then the current state-of-the-art forecasting methodologies from journals, conference proceedings, and books will be discussed. May not be taken for credit by students who have received credit for CS 697A. Prerequisite: MATH 242 or 440, and CS 573 or 575.

CS 690 (1)  
Graduate Seminar  
Presentation and discussion of advanced research topics and results in computer science. Prerequisites: Graduate standing in Computer Science and consent of Department Chair.

CS 696A (1) 696B (2) 696C (3)  
Graduate Individual Study in Computer Science  
Individually directed reading and study in Computer Science literature for graduate students, focusing on advanced topics. Prerequisite: Consent of instructor.

CS 697 (3)  
Graduate Topics in Computer Science  
Advanced topics of current interest in computer science for graduate students. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: Consent of instructor.

CS 698 (3)  
Master’s Research Project  
Faculty-supervised investigation, to culminate in a written report for the master’s degree. Prerequisite: An officially appointed advisory committee with a project advisor and advancement to candidacy.

CS 699A (1) 699B (2) 699C (3)  
Master’s Thesis  
Preparation of a thesis for the master’s degree. May be repeated for a total of six (6) units of credit. Graded Credit/No Credit. Prerequisites: An officially appointed thesis committee with a thesis advisor as the chair of the committee and advancement to candidacy.

CS 700A (1) 700B (2) 700C (3)  
Thesis Extension  
Registration is limited to students who have received a grade of Satisfactory Progress (SP) in CS 699 and who expect to use the facilities and resources of the University to complete the thesis. Also, students must be registered in CS 700 when the completed thesis is granted final approval. Graded Credit/No Credit. May be repeated for a total of three (3) units, but credit will not be counted toward the Master of Science in Computer Science.

DANCE (DNCE)  
College of Arts and Sciences  

DNCE 101 (3)  
Introduction to Dance  
Survey of dance on the stage and off, in the studio as well as in the club, and performed by everyday and famous people. Focusing primarily on movement in the United States, investigates dance as a cultural and historical phenomenon. Course includes: lectures, demonstrations, dance performances, research papers, and collaborative presentations.

DNCE 201 (3)  
Contemporary Dance Technique I  
Studio course focusing on alignment and dance phrases alongside composition and improvisation. Students will practice various movement approaches to increase strength, flexibility, and body awareness, and also investigate choreographic theories of dance based on diverse approaches to modern/postmodern dance. Includes guest artists, live performances, and research papers/projects. One hour lecture and three hours studio work.

DNCE 301 (3)  
Contemporary Dance Technique II  
Studio course that focuses on technical precision, dynamic variation, alignment, and performance. One hour lecture and three hours studio work.

DNCE 320 (3)  
Global Modern Dance  
Introduces students to the body in motion by examining the interaction between creative expression, daily life, and performative representations of cultural identity and difference. A multidisciplinary approach to understanding the body as socially and politically defined with attention to gender, race, class, and national identity. Includes lectures, video and film screenings, live performances and practice. May not be taken for credit by students who have received credit for DNCE 392B.

DNCE 321 (3)  
Cultures in Motion  
A variety of world dance forms will be examined in terms of their power to heal, celebrate, tell stories and resolve conflict through one-upmanship dance competitions. Students will explore ways in which dance is an expression of a culture’s way of life, historical roots, religious beliefs, sex roles, politics, and values. The multicultural influences found in fusion dances will be traced. Students will gain an insight into individual cultural identity by examining the elements that shape the dance of that culture.
DNCE 322 (3)
History and Theory of Postmodern Dance
Examines the development of Western theatrical dance across the 20th Century with attention to the shifting assumptions regarding bodily representation. Examines dance on the stage and off to understand the moving body in relation to arts, politics, education, technology, and social issues.

DNCE 323 (3)
Women in Performance: Choreographics of Resistance
Examines issues of power, representation, and access in relation to the female body in dance, performance art, body art and the staging of political empowerment. Examines crucial historical figures and moments when the body-in-motion ruptures or destabilizes normalized expectations. Also offered as WMST 323. Students may not receive credit for both.

DNCE 324 (3)
Dance and Visual Media
Examines dance as it intersects with popular, experimental, and documentary forms of film, video and computer technologies. Students will explore various representations of the body in relation to Hollywood, the impact of MTV, and multimedia performance. Course includes lectures, viewings, research papers, collaborative projects, and hands-on training in video production and post-production equipment. Two hours lecture and two hours lab.

DNCE 390 (3)
Choreography Workshop
Focuses on the development and performance of choreography. Emphasizing a diversity of dance-making techniques, assignments revolve around inventing, organizing, and evaluating movement in both solo and ensemble formats. Observational skills and theoretical issues discussed through ongoing work-in-progress showings, readings, and viewings of video and live performance. Students participate in various aspects of production culminating in performance. Two hours of lecture, two hours of studio, and one hour rehearsal activity. May be repeated for a total of six (6) units.

DNCE 392 (3)
World Dance Topics
Studio dance course that explores the techniques and repertory of a specific dance tradition. The topic and style is variable. Students will spend two hours in lecture and two hours per week in dance activities. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

ECONOMICS (ECON)
College of Arts and Sciences

ECON 201 (3)
Principles of Microeconomics
Introduction to the tools economists use to analyze a wide variety of issues and to gain an understanding of the economic way of thinking. Includes supply and demand, market exchanges, opportunity cost, production possibilities frontier, marginal analysis, consumer choice, firms and markets, externalities, public goods, and cost and production theory. Subject matter also may include issues commonly believed to be outside the economic domain. Illustrates the wide and diverse applicability of economic analysis.

ECON 202 (3)
Principles of Macroeconomics
The economy is the subject of study in this course. Includes gross domestic product, inflation, unemployment, interest rates, monetary policy, fiscal policy, budget deficits, trade deficits, international trade, exchange rates, business cycles, expectations, and a comparison of different macroeconomic schools of thought.

ECON 250 (3)
Introduction to Economics
Introduction to economic thinking. Subjects are chosen from ECON 201 and ECON 202. Not open to students who have obtained credit for, or are required to take, either ECON 201 or 202. This course is no longer being offered at Cal State San Marcos.

ECON 301 (3)
Intermediate Microeconomic Theory I
Examines the economic decisions made by individuals as consumers. Subject matter includes consumer behavior, demand theory, choice under uncertainty, game theory, welfare economics, general equilibrium analysis, public goods, and externalities. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 302 (3)
Intermediate Macroeconomic Theory
Examines the overall performance of an economy. Includes inflation, unemployment, interest rates, government taxes and expenditures, money and financial institutions, budget and trade deficits, business cycles, and more. Special attention is paid to contending macroeconomic views (e.g., Keynesian, New Keynesian, New Classical, and Monetarist). Prerequisites: ECON 201 and 202. Prerequisite or Corequisite: MATH 132 or 160.

ECON 303 (3)
Intermediate Microeconomic Theory II
Examines the economic decisions made by business firms. Subject matter includes production and cost theory, theory of the firm, market structures and factor market analysis. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 305 (3)
Economic Approach to Politics and Sociology
Applies the economic approach to the study of human behavior in non-market settings. Specifically, it applies economic reasoning, analysis, and tools to the study of the family, marriages, crime, learning, religion, charity, voting, politics, war, and more. Prerequisites: ECON 201 and 202.

ECON 306 (3)
Economics, Philosophy, and Politics
Basic economic concepts for the student such as supply and demand, opportunity cost, market exchange, and costs and benefits. Unusual and current applications of these basic concepts are explored. Examines the philosophical basis for a just society and how social rules evolve. The works of a number of political philosophers are examined. Discusses issues that fall within the intersection of economics and politics. Includes political behavior, special-interest politics, and the effects of both on the competitive nature of the economy.

ECON 311 (3)
Comparative Economic Systems: Historical, Theoretical, and Evolutionary Aspects
Examines the economic decisions made by individuals as consumers. Subject matter includes consumer behavior, demand theory, choice under uncertainty, game theory, welfare economics, general equilibrium analysis, public goods, and externalities. Unusual and current applications of these basic concepts are explored. Examines the philosophical basis for a just society and how social rules evolve. The works of a number of political philosophers are examined. Discusses issues that fall within the intersection of economics and politics. Includes political behavior, special-interest politics, and the effects of both on the competitive nature of the economy.

ECON 323 (3)
Health Economics
Applies economic methods to study the health-related choices of individuals as well as the functioning of health care markets. The general objectives are to understand the U.S. health care system within economic, cultural, and political contexts. Focuses on the changing nature of health, health-care systems, and implications for public policy in health-care systems, and implications for public policy in health and medical care. May not be taken for credit by students who have received credit for ECON 481E. Prerequisites: ECON 301 and 303.
ECON 325 (3) Economics of the Environment and Natural Resources
Applies economic policy analysis to environmental and natural resource issues. Develops an understanding of the requirements of efficient markets, and the conditions under which markets fail. Subjects include the economics of externalities, optimal management of renewable and non-renewable natural resources, property rights, techniques for measuring the value of non-market environmental amenities, benefit/cost analysis, and the politics of environmental regulation and natural resources management. May not be taken for credit by students who have received credit for ECON 481H. Prerequisites: ECON 201 and 202.

ECON 327 (3) Economics, the Arts, and Entertainment Industries
Examines how art and entertainment mediums serve as a narrative to convey economic content. Focuses on the exchange between the rhetorical power of economics and the narrative power of the arts, such as film, song writing, and musical genres. Considers how economic forces in these industries shape entertainment or art products. May not be taken for credit by students who have received credit for ECON 481G. Prerequisites: ECON 201 and 202.

ECON 331 (3) Money, Banking, and the Economy
Discussion of the Federal Reserve System, money supply, and money demand. Analysis of money's effects on the price level, interest rates, employment, output, and exchange rates is analyzed. Examines how money evolved out of a barter economy. Banking and financial institutions are examined, with emphasis on innovations in financial markets. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 341 (3) The Economics of Women and Men
Examines the economic role of women and men in two main areas — the workplace and the family. Includes the family as an economic unit, family formation and dissolution, allocation of time between family and work; and workplace issues including earnings and occupational differentials, discrimination, and changing roles in a changing economy. Prerequisites or Corequisite: ECON 301.

ECON 345 (3) Great Economic Thinkers
What are the major ideas and classic works in economics? Who are the economists who have had the greatest impact on shaping modern economics? What are the ideas that have revolutionized economics? Focuses on the detailed answers to these three questions. Students will read the original writings of economists. May not be taken for credit by students who have received credit for ECON 321. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 411 (3) Public Choice
Public Choice is the economic approach to political decision-making. The behavior of voters, politicians, bureaucrats, judges, and members of special interest groups are examined. Includes voting paradoxes, political competition, analysis of public goods, economic theory of constitutions, using government for private purposes, the theory of the state, and an economic theory of the courts. Prerequisite: MATH 132 or 160, ECON 201 and 202.

ECON 416 (3) Law and Economics
Presents the insights that economists have brought to the study of the law since 1960, particularly as they relate to the property rights-Coasian approach to the law. This approach is then consistently applied to legal issues found in the areas of contract law, torts law, family law, criminal law, and more. May not be taken for credit by students who have received credit for ECON 415. Prerequisite: ECON 201 and 202.

ECON 417 (3) Property, Transactions Costs and Information
Property rights, rights of individuals over resources, have significant implications for the power relationships, the socio-economic roles that individuals assume, the opportunities, responsibilities and privileges individuals possess, and the production and distribution of wealth and income in all societies. A theoretical exploration of the concept of property rights broadly defined to include rules, formal and informal, which govern economic and social exchanges. Examines related topics in information economics, transactions costs and current policy issues, such as intellectual property and environmental policy. Prerequisites: ECON 301 and 303.

ECON 421 (3) The Public Economy
The economic justification for government is usually based on the inability of markets to achieve certain economic and social objectives. This is often referred to as market failure. Issues connected with market failure include public goods provision, externalities, the income distribution, and more. Examines the ways in which government deals with market failure. Discusses government taxation, transfer payments, and expenditure policies and the effects of these policies on incentives and behavior. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 422 (3) Economics of Taxation
Develops an economic framework to evaluate the effects of taxation on individual behavior and the distribution of income. Addresses subjects such as efficient and equitable taxation, distribution of tax burdens, personal income taxation, the corporate income tax, consumption taxes, the politics of taxation, and state lotteries. Provides students with the necessary skills to objectively evaluate tax policies. May not be taken for credit by students who have received credit for ECON 481F. Prerequisites: ECON 301.

ECON 425 (3) Welfare Economics
A course in applied welfare analysis that introduces students to a set of techniques used to analyze policy. Benefit-cost analysis enables the economist to evaluate the social desirability (efficiency) of different policies. In addition to focusing on efficiency, the student will also be introduced to concepts of fairness. The course combines economic theory, in particular microeconomic theory, policy analysis, and distributive ethics. May not be taken for credit by students who have received credit for ECON 481C. Prerequisites: ECON 301 and 303.

ECON 426 (3) Economics of Cities and Regions: Within and Beyond Borders
Discusses economic issues relevant to cities and regions. Includes labor migration, pollution, trade, zoning, education, economic environment as it relates to business location, crime, poverty, state and local expenditures and taxes, and the effects of immigration. Some issues will be discussed within a U.S. context (i.e., zoning in Houston). Other issues will be examined within the context of emerging regional economies that transcend borders — for example, the topics of trade, immigration, and pollution may be discussed within the southern California-Mexican economy. Prerequisites: MATH 132 or 160, ECON 201 and 202.
ECON 431 (3)
Labor Economics
Study of the labor market. Includes an analysis of labor demand, supply, and wage rates; the measurement, type, and causes of unemployment; the effect of labor unions on wage rates and resource allocation. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 441 (3)
International Economics: Trade
International economics can be divided into two broad sub-fields: international trade and international money. Study of international trade which focuses on real exchange of goods and services between sovereign states. Subjects will include theories of international trade and how they help us understand emerging trade patterns, trade policies and the implications of using alternative trade policies for growth and distribution of income. Prerequisites: ECON 201 and 202. Prerequisite or Corequisite: MATH 132 or 160.

ECON 442 (3)
Economics of Development
Examines the processes of economic, social, and institutional change in the developing world. Presents alternative definitions, theories, and strategies of development. The strengths and weaknesses of different approaches to economic development are identified and compared in the context of case studies (e.g., China, Brazil, Chile, North Korea, South Korea, and West Africa). Prerequisites: ECON 201 and 202.

ECON 443 (3)
International Economics: Money
International economics can be divided into two broad sub-fields: international trade and international money. Study of international money which focuses on the monetary side of the international economy, that is, on financial transactions between sovereign states. Subjects will include exchange rate regimes, balance of payments, international capital and financial markets, national income determination in an open economy and emerging international economic arrangements. May not be taken for credit by students who have received credit for ECON 481J. Prerequisites: ECON 201 and 202. Prerequisite or Corequisite: MATH 132 or 160.

ECON 445 (3)
Gender and Development
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that “modernization” results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as PSCI 445 and WMST 445. Students may only receive credit for one of the courses. May not be taken for credit by students who have received credit for ECON 481B.

ECON 451 (3)
Business and Government
Examination of the complex interactions between business firms and government. Specifically, the impact of numerous regulatory and deregulatory policies are examined in terms of their effects on business firms. Also, the impact that businesses have on influencing government policy is examined. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 453 (3)
Economic History
The overall theme is the rise of representative government in the western world. Explores in detail the causes and consequences of the emergence of representative government and its relationship to economic growth, specifically in America. Introduces students to some of the core issues surrounding the study of American and European economic history. May not be taken for credit by students who have received credit for ECON 481K. Prerequisites: ECON 201 and 202.

ECON 455 (3)
Public Policy Issues
When markets fail to be competitive, or the market outcome is viewed as “inequitable,” public policies are often justified to “improve” upon the market outcome. Applies economic methods to evaluate the justification for policy intervention and the policy-induced effects on economic behavior and distribution of welfare among individuals. Subject matter includes current policy issues such as poverty and income inequality, income redistribution programs, discrimination, immigration, crime and drug abuse, and health care. May not be taken for credit by students who have received credit for ECON 481D. Prerequisites: ECON 301 and 303.

ECON 471 (4)
Econometrics
Provides skills that are necessary to formulate, estimate and interpret testable relationships between variables specified by economic theory. Focuses primarily on linear regression analysis. Assumptions of the model and the consequences of violating these assumptions will be examined. The limitations of regression analysis as a tool of analysis will also be stressed. Emphasis will be on real world examples and practical exercises. Three hours of lecture and two hours laboratory. Prerequisites: MATH 242 and ECON 301, and 303.

ECON 481 (3)
Topics in Economics
Emphasizes new areas and new theoretical developments in economics and current high-interest topics in any of the subdisciplines of economics. Students can apply up to six (6) units of different topics courses toward the major. Recommended: ECON 301, 302 and 303. Prerequisites: MATH 132 or 160, ECON 201 and 202.

ECON 497A (1) 497B (2)
Independent Study
Individual research and study under the direction of a faculty member in economics. The student must prepare and present a detailed study plan and justification statement to the faculty member by the first week of classes. Study plan must be approved by the second week of classes. May be repeated, but no more than (2) credit units may be counted toward the major. Prerequisites: Economics major, senior standing, and consent of instructor.

ECON 610 (2-4)
Global Managerial Economics
Provides the theory and tools that are necessary for managers to analyze and solve the problems they face in their enterprises in the most efficient manner. Particular emphasis placed on applications of economic theory and policy within a global context. Prerequisites: BGA 501 and BGA 502.
EDUATION: ADMINISTRATION/ ADMINISTRATIVE SERVICES (EDAD)

College of Education

EDAD 610 (3) Leading School Communities in a Pluralistic Society
Candidates learn how to: work effectively with families, caregivers, community members and staff; recognize the goals and aspirations of diverse families; respond to diverse community interests and needs; and mobilize community resources in the service of student achievement. Offers the candidate an opportunity to examine and evaluate their attitudes about diversity in order to be an effective leader in diverse settings. May not be taken for credit by students who have received credit for EDAD 602. Prerequisite: Consent of Program Coordinator.

EDAD 612 (3) Elementary, Middle, and Secondary School Organization and Management
Candidates learn how to ensure the management of the organization, operations and resources for a safe, efficient, and effective learning environment. Effective leadership, management concepts, and strategies that contribute to student achievement are addressed. The professional participation of all personnel in the school community is emphasized. May not be taken for credit by students who have received credit for EDAD 630. Prerequisite: Consent of Program Coordinator.

EDAD 614 (3) Culture of Teaching and Learning: Leading Instruction
Candidates learn to facilitate the development, articulation, and implementation of a shared vision of teaching and learning supported by the school community. Coursework focuses on pedagogical approaches, implementation of state adopted academic content standards, frameworks and instructional materials. May not be taken for credit by students who have received credit for EDAD 632. Prerequisite: Consent of Program Coordinator.

EDAD 616A (2) Education Law and Personnel Administration
Candidates learn the basic principles of parent, student and employee due process, personnel practices relative to hiring, evaluation and discipline of employees, content of collective bargaining agreements and principles of supervision. May not be taken for credit by students who have received credit for EDAD 634A. Prerequisite: Consent of Program Coordinator.

EDAD 616B (2) Resource Allocation
Candidates learn basic elements of school finance and responsibilities of administrators for allocating financial and other resources in an equitable manner. Candidates will have the opportunity to discuss budgeting principles that are based on distribution of resources in support of all students’ learning. May not be taken for credit by students who have received credit for EDAD 634B. Prerequisite: EDAD 616A and consent of Program Coordinator.

EDAD 618 (4) Culture of Teaching and Learning: Leading for Assessment and Accountability
Candidates learn how to identify, generate and use data to make decisions about pedagogy and adjustment of instructional policies and procedures. The effective use of assessment data from the classroom, as well as from system-wide sources, in establishing and using accountability systems is addressed. May not be taken for credit by students who have received credit for EDAD 636. Prerequisite: Consent of Program Coordinator.

EDAD 620 (3) Leadership Applied to Educational Issues
Analyzes and evaluates leadership strategies applied to school site and district issues involving staff, students, parents, district level colleagues and the larger community. May not be taken for credit by students who have received credit for EDAD 638. Prerequisite: Consent of Program Coordinator.

EDAD 624A (1) Professional Field Studies Beginning
Provides the student with basic on-site experiences appropriate to an entry-level administrator. Students will work closely with an on-site administrator and University instructional supervisor in the development and implementation of a plan for field experiences including application of basic preliminary administrative services functions. Students will develop a paper, project, or other product, collaboratively agreed upon with the supervisory team, which integrates learning from the field work and which will be used by the cooperating site. Course may be repeated for credit, but only two units may be applied to the program of study. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDAD 640A. Prerequisite: Consent of Program Coordinator.

EDAD 624A (1) Professional Field Studies Beginning
Provides the student with basic on-site experiences appropriate to an entry-level administrator. Students will work closely with an on-site administrator and University instructional supervisor in the development and implementation of a plan for field experiences including application of basic preliminary administrative services functions. Students will develop a paper, project, or other product, collaboratively agreed upon with the supervisory team, which integrates learning from the field work and which will be used by the cooperating site. Course may be repeated for credit, but only two units may be applied to the program of study. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDAD 640A. Prerequisite: Consent of Program Coordinator.

EDAD 626A (1) Professional Field Studies Beginning
Provides the student with basic on-site experiences appropriate to an entry-level administrator. Students will work closely with an on-site administrator and University instructional supervisor in the development and implementation of a plan for field experiences including application of basic preliminary administrative services functions. Students will develop a paper, project, or other product, collaboratively agreed upon with the supervisory team, which integrates learning from the field work and which will be used by the cooperating site. Course may be repeated for credit, but only two units may be applied to the program of study. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDAD 640A. Prerequisite: Consent of Program Coordinator.
EDAD 626B (1)  
Professional Field Studies Advanced  
Provides the student with basic on-site experiences appropriate to an entry-level administrator. Students will work closely with an on-site administrator and University instructional supervisor in the development and implementation of a plan for field experiences including application of basic preliminary administrative services functions. Students will develop a paper, project or other product, collaboratively agreed upon with the supervisory team, which integrates learning from the fieldwork and which will be used by the cooperating site. May be repeated for credit, but only two units may be applied to the program of study. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDAD 640B. Prerequisite: Consent of Program Coordinator.

EDAD 642A (2)  
Professional Field Studies and Practicum — Advanced  
Provides the student with in-depth, on-site experiences appropriate to an entry-level administrator. Students will develop and implement an advanced plan for field experiences which includes application of comprehensive administrative services functions. Students will develop a paper, project or other capstone product, collaboratively agreed upon with the supervisory team, which integrates learning from the fieldwork and which will be used by the cooperating site. Students will engage in actual performance of nearly all the major duties and responsibilities authorized by the credential, while under the supervision of a credentialed administrator and a University instructional faculty member. Graded Credit/No Credit. Prerequisite: Consent of Program Coordinator.

EDAD 642B (2)  
Professional Field Studies and Practicum — Advanced  
Provides the student with in-depth, on-site experiences appropriate to an entry-level administrator. Students will develop and implement an advanced plan for field experiences which includes application of comprehensive administrative services functions. Students will develop a paper, project or other capstone product, collaboratively agreed upon with the supervisory team, which integrates learning from the fieldwork and which will be used by the cooperating site. Students will engage in actual performance of nearly all the major duties and responsibilities authorized by the credential, while under the supervision of a credentialed administrator and a University instructional faculty member. Graded Credit/No Credit. Prerequisite: Consent of Program Coordinator.

EDAD 650 (1)  
San Diego Summer Leadership Institute in Special Education  
This intensive 3-day institute brings international, national and local speakers together to address current educational issues related to the education of all students. It is designed to provide San Diego and other southern California county school districts personnel, families, and human service with knowledge and skills to improve educational opportunities for students at risk. Students must attend all days, keynotes, and breakout sessions, and must produce a significant reflection paper. May not be taken for credit by students who have received credit for EDUC 591E. Appropriate as a professional development experience. Up to three (3) units may be applied toward the Master’s program with consent of advisor.

EDAD 636 (1-3)  
Contemporary Professional Issues: Research and Best Practice Seminar  
Examines current issues, concepts, and emerging best practices and research findings related to the education of learners with mild, moderate, and severe disabilities and other dimensions of language and learning difference. Enables Professional Level II Education Specialist candidates to develop a specific area of emphasis. May be repeated for a total of nine (9) units.

EDAD 639 (3)  
Using Data-Based Instruction to Improve the Learning Outcomes of Students Who are Difficult to Teach  
Using Data-Based Instruction to Improve the Learning Outcomes of Students Who are Difficult to Teach Enables practicing general and special educators at all levels (preschool-grade 12) to apply principles of data-based decision-making to implement “best practices” to improve the performance of students with learning disabilities; cognitive, emotional, and behavioral challenges; gifts and talents; multiple disabilities; and language difference. Fulfills the Data-Based Decision Making and Current and Emerging Research and Practice Standards for the Professional Level II Education Specialist Credential. Taught on the World Wide Web. May not be taken for credit by students who have received credit for EDUC 596K.

EDAD 640A (3)  
Beginning Process Communication: Reaching All Students  
Introduces the six personality types (i.e., reactor, workaholic, persister, dreamer, rebel, and promoter), the associated perceptions and communication preferences, and methods for communicating and motivating in classroom, work, and community situations. Designed for educators and others concerned with communicating with youth at risk and instructional teams wishing to improve team functioning. May be repeated once, but can only be applied as an elective in the Master’s or credential program with consent of advisor.

EDAD 640B (1)  
Advanced Process Communication: Reaching All Students  
Participants learn advanced skills in motivating others and resolving conflict by learning key early warning indicators of student and adult distress. Participants practice prevention and intervention strategies that can ward negative behaviors and facilitate crisp communication and effective relationships. May be repeated once, but can only be applied as an elective in the Master’s or credential program with consent of advisor. Prerequisite: EDAD 640A.
EDEX 651 (3)
Advanced Technology, Transition, and Inclusive Education
Focuses upon acquisition of skills for advanced application of technologies supporting inclusion and practical applications in the classroom, grant writing, and professional presentations. Meets Professional Level II Education Specialist credential standards for supporting transition across the K-12 continuum and development of a specific area of emphasis in inclusive education, assistive technology, and reflective practice. Prerequisites: Completion of the Special Education Specialist in Mild-Moderate-Severe Disabilities Level I.

EDEX 652 (3)
Crisis Prevention and Management
Students develop advanced crisis prevention management techniques and become proficient in positive behavior support planning and Behavior Intervention Plan development.

EDEX 660 (2)
Induction Plan Development
Development of a Professional Credential Induction Plan for Professional Level II Mild/Moderate and Moderate/Severe Education Specialist candidates. Graded Credit/No Credit. Prerequisite: Acceptance into the Professional Level II Education Specialist Program.

EDEX 661 (2)
Portfolio Review and Site Visitation
Structures the assessment of Professional Level II Education Specialist candidates’ completion of the professional credential Induction Plan. Through a portfolio review process and site visitation, candidates demonstrate performance of Level II Mild/Moderate and/or Moderate/Severe Education Specialist standards. Graded Credit/No Credit. Prerequisite: Successful completion of EDEX 660, and more than one year of full-time experience as a special educator, or the equivalent.

EDUCATIONAL LEADERSHIP (EDLD)
College of Education

EDLD 705 (4 quarter units)
Re-Thinking Leadership
Presents the evolution of leadership thought and theory, with an emphasis on the distinction between, and inter-relatedness of, effective management and leadership. The ethics of leadership practice and epistemological perspectives of emerging leadership styles will be explored, and students will have opportunities to reflect on the nature of leadership as it is practiced in educational settings. Applying critical, self-reflective leadership practice through structured activities is also an element of this course. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 710 (4 quarter units)
Leadership for Learning
Explores various models of curriculum and instruction in response to student learning needs. It also will examine models of school organization and the leader’s role and responsibility in developing a school culture that promotes student achievement, using evidence-based decision-making. A major emphasis will be on evaluating research upon which theories and practice are based. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 715 (4 quarter units)
Leadership for a Diverse Society
Addresses theories and practices for achieving schools and classrooms that are informed by and built around the participation of diverse communities and cultures. Emphasis on how leadership intersects with sociohistorical and sociocultural theories that suggest the organization of schools and instruction is critical to student inclusion and outcomes. A basic premise of this course is that a socially just learning theory begins with using all of the resources and knowledge of families, communities, and cultures in formulating policy and practice. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 720 (4 quarter units)
Leadership for Organizational Change
Addresses multiple theories of organizational change, explore group processes and identify models of decision-making, and analyze human motivation theories. Establishing and nurturing a purpose-driven organization, while dealing with competing demands, will be discussed. A major emphasis on people as agents of change and creating high quality ethical and productive workplaces where employees can achieve success and satisfaction, while advancing the mission of the educational organization. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 725 (4 quarter units)
Leadership for Organizational Development
Investigates the skills and dispositions needed for students to lead the development of learning organizations. Faculty will teach and model concepts of working with people within educational organizations and programs. Emphasis will be placed on individual’s team development and facilitation, organizational communications, adult learning, and professional development. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 730 (4 quarter units)
Leadership for the Future
Addresses interdisciplinary influences on leadership practice within learning organizations. Contributions from scholars in future studies will be used to explore topics such as long-range planning, demographic trends, technology, and brain theory. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 740A (4 quarter units)
Advanced Topics in Leadership
Explores topical issues in the field of leadership. It focuses on recent developments that have broad implications for research and practice in educational leadership. Course subjects will vary each time the course is offered. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 740B (4 quarter units)
Advanced Topics in Leadership
Explores topical issues in the field of leadership. It focuses on recent developments that have broad implications for research and practice in educational leadership. Course subjects will vary each time the course is offered. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.
EDLD 750A (4 quarter units)
Educational Research and Evaluation Design
Integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational research questions on a variety of methodologies including: experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 750B (4 quarter units)
Educational Research and Evaluation Design
Integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational research questions on a variety of methodologies including: experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 750C (4 quarter units)
Educational Research and Evaluation Design
Integrates a variety of social and behavioral science perspectives and research methodologies in examining topics of central relevance to education. Students have opportunities to design and apply to educational research questions on a variety of methodologies including: experimental and quasi-experimental survey, interview, ethnographic, case study, video data analysis, and discourse analysis methods. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 760A (4 quarter units)
Advanced Research and Evaluation Methods
Addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 760B (4 quarter units)
Advanced Research and Evaluation Methods
Addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 760C (4 quarter units)
Advanced Research and Evaluation Methods
Addresses more advanced topics in research design and methodology. Students hone the requisite research skills to conduct dissertation research. Students gain varied hands-on experiences in collecting and analyzing data relevant to schooling, as well as learn how to develop, manage, and analyze large data files. Students create a research agenda and develop skills needed in proposal writing: development, organization and coherence, conceptualization of research design, and attention to audience and writing style. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 770A (2 quarter units)
Leadership Research Practicum
Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design courses. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.

EDLD 770B (2 quarter units)
Leadership Research Practicum
Students use their placements in local schools and educational settings to examine leadership research and practice topics raised in the Leadership core courses and Research and Evaluation Design courses. Prerequisite: Admission to the joint doctoral program and consent of Program Coordinator.
EDLD 794 (4 quarter units)
Dissertation Research
Directed research on dissertation topic for students who have been admitted to candidacy for the Ed.D. degree. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 796A (4 quarter units)
Dissertation Writing Seminar
Provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed also will include writing for professional publications and presenting research findings to varied audiences. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 796B (4 quarter units)
Dissertation Writing Seminar
Provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed also will include writing for professional publications and presenting research findings to varied audiences. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 796C (4 quarter units)
Dissertation Writing Seminar
Provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed also will include writing for professional publications and presenting research findings to varied audiences. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 796D (4 quarter units)
Dissertation Writing Seminar
Provides an opportunity for doctoral candidates to present and critique in-progress dissertation research and writing. Topics addressed also will include writing for professional publications and presenting research findings to varied audiences. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 798A (2 quarter units)
Colloquium on Educational Leadership
Program faculty and visiting lecturers present leadership research in progress. The colloquium series serves as a forum to discuss current research in educational leadership. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDLD 798B (2 quarter units)
Colloquium on Educational Leadership
Program faculty and visiting lecturers present leadership research in progress. The colloquium series serves as a forum to discuss current research in educational leadership. Prerequisite: Admittance to the joint doctoral program and consent of Program Coordinator.

EDM 511 (3)
Middle Level Teaching and Learning I
Focuses on developing a preliminary understanding of learning theory and instructional practice in integrated and inclusive middle level classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDMI 511.

EDM 512 (3)
Middle Level Teaching and Learning II
Focuses on developing an advanced understanding of learning theory and instructional practice in integrated and inclusive middle level classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDMI 511.

EDM 521 (3)
Middle Level Literacy I
Focuses on developing a preliminary understanding of theory, methodology, and assessment of English Language Arts and second language Learning in integrated and inclusive middle level classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDM 522 (3)
Middle Level Literacy II
Focuses on developing an advanced understanding of theory, methodology, and assessment of English Language Arts and second language Learning in integrated and inclusive middle level classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDMI 521.

EDM 543 (3)
Middle Level Mathematics Education
Focuses on developing an understanding of theory, methodology, and assessment of mathematics in integrated and inclusive elementary and middle level classrooms. This course is aligned with the California’s SB 2042 Standards.
EDUCATION: MULTILINGUAL/MULTICULTURAL (EDML)

College of Education

EDML 550 (3)
First and Second Language Acquisition Theory and Methods
Language structure and use, language acquisition theories, the structure of English, the role of primary language literacy in second language acquisition, second language instruction in bilingual and multilingual settings and methods for teaching English as a Second Language (ESL) and content area instruction through English language development (ELD) techniques.

EDML 552B (3)
Theories and Methods of Bilingual/Multicultural Education
Focuses on bilingual and multicultural education to include: sociolinguistics, sociocultural context, models of bilingual education, and multilingual instructional techniques, with consideration of the needs of exceptional learners. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDML 553 (3)
Biliteracy Education BCLAD I
Focuses on developing background knowledge, theory, and pedagogy for primary language instruction for Spanish speaking children. Emphasizes reading and writing, content instruction, and issues surrounding Latino culture. Conducted in Spanish.

EDML 554 (3)
Biliteracy Education BCLAD II
Conducted primarily in Spanish and will focus on developing the theory, pedagogy, and skills for biliteracy (English-Spanish) instruction in dual-language immersion or bilingual programs.

EDML 563 (3)
Application of Mainstream and English Language Development (ELD) Curriculum Practicum in Second Language and Content Area Instruction
Various curricular and instructional programs designed for LMI/LEP students (e.g., placement of LEP students in mainstream classes, heterogeneous language groups in single classroom settings) methods of language and content assessment, role and utilization of primary language in ELD content instruction, grouping configurations and application to the classroom. All aspects of second language program development will be covered, including needs analysis, curriculum planning and development. Examination and application of theoretical and methodological issues in designing programs for LM/LEP students in classroom settings through reflective, critical analyses of practice.

EDML 603 (3)
Assessment and Evaluation of Students in Multilingual/Multicultural Contexts
Investigates a variety of theories and approaches (formal, informal, individual/group, holistic and analytical) for identifying student learning needs, assessing the development of primary and second languages, and assessing achievement in content areas in the primary and second language. The following principles are the focus of this course: (1) the nature and purpose of primary- and second-language assessment measures; (2) the nature and purpose of assessment measures in content areas; (3) limitations of test instruments and procedures (e.g., issues and problems of test equivalence, cultural, and linguistic bias); and (4) various approaches to assessment (e.g., performance-based assessment traditional measures, such as norm-referenced and standardized tests, authentic assessment and portfolio assessment). Prerequisite: Consent of Program Coordinator.

EDMS 511B (3)
Elementary Teaching and Learning I
Focuses on developing a preliminary understanding of learning theory and instructional practice in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDMS 512 (3)
Elementary Teaching and Learning II
Focuses on developing an advanced understanding of learning theory and instructional practice in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDMS 511.

EDMS 512B (3)
Elementary Teaching and Learning II
Focuses on developing an advanced understanding of learning theory and instructional practice in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDMS 521 (3)
Elementary Literacy I
Focuses on developing a preliminary understanding of theory, methodology, and assessment of English Language Arts and second language learning in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards.

EDMS 521B (3)
Elementary Literacy I
Focuses on developing a preliminary understanding of theory, methodology, and assessment of English Language Arts and second language learning in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDMS 522 (3)
Elementary Literacy II
Focuses on developing an advanced understanding of theory, methodology, and assessment of English Language Arts and second language learning in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDMS 521.

EDUCATION: MULTIPLE SUBJECT (EDMS)

College of Education

Prerequisite for all EDMS courses is admission to the Multiple Subject/CLAD Teacher Credential Program.

EDMS 511 (3)
Elementary Teaching and Learning I
Focuses on developing a preliminary understanding of learning theory and instructional practice in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards.
EDMS 522B (3)  
Elementary Literacy II  
Focuses on developing an advanced understanding of theory, methodology, and assessment of English Language Arts and second language learning in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDMS 543 (3)  
Elementary Mathematics Education  
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in various elementary school curricula, and curriculum integration. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-3 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 544 (3)  
Social Studies Education in Elementary Schools  
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in social studies. The integration of curricular areas is addressed. Methods of cross-cultural language and academic development will be integrated into the course. Requires participation/observation in the public schools.

EDMS 544B (3)  
Social Studies Education in Elementary Schools  
Focuses on curriculum development, methods, techniques, materials, planning, organization and assessment in social studies. Emphasis is placed on using community-based resources and on the integration of curricular areas. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-8 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 545 (3)  
Elementary Science Education  
Focuses on developing an understanding of theory, methodology, and assessment of second language acquisition in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. 

EDMS 545B (3)  
Science Education in Elementary Schools  
Focuses on inquiry teaching to include: the Learning Cycle model, science process skills, science themes, scientific attitudes and habits of mind, and methods to involve all children in hands-on lessons. Emphasis is placed on instructional strategies, authentic assessments, exemplary science kits and curricula, as well as the use of technology in science teaching. Methods of cross-cultural language and academic development are integrated into the course. Prerequisites: Semesters 1-3 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDMS 555 (3)  
Elementary Multilingual Education  
Focuses on developing an understanding of theory, methodology, and assessment of second language acquisition in integrated and inclusive elementary classrooms. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit for EDMS 552.

EDMS 571 (7)  
Beginning Elementary Student Teaching  
Observation and teaching in selected schools under supervision of classroom teacher and University supervisor, with a student teaching seminar. This course is aligned with California’s SB 2042 Standards. Prerequisite: Consent of Program Coordinator.

EDMS 571A (I) (7)  
Beginning Elementary Intern Teaching  
Observation and teaching in selected elementary schools under the supervision of a supervisor and intern support provider, with a concurrent student teaching seminar. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit for EDMS 561. Prerequisites: Admission to the Multiple Subject Internship Credential Program.

EDMS 572 (7)  
Advanced Elementary Student Teaching  
Teaching in selected elementary schools under the supervision of a classroom and University supervisor, with a concurrent student teaching seminar. Graded Credit/No Credit. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit for EDMS 562. Prerequisite: Admission to the Multiple Subject Internship Credential Program.

EDMS 572A (I) (7)  
Education Specialist Beginning Student Teaching  
Teaching in selected elementary schools under the supervision of a supervisor and intern support provider, with a concurrent student teaching seminar. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit for EDMS 561. Prerequisite: Admission to the Multiple Subject Internship Credential Program.

EDMS 573 (7)  
Student Teaching in a Bilingual/English Language Development Setting - Elementary School  
Observation and teaching in a bilingual setting in selected school under the supervision of a classroom teacher and university supervisor and participating in a student teaching seminar. May be repeated once.

EDMS 575B (I)  
Integrated Program Capstone Seminar  
Students demonstrate mastery of the integration of content and pedagogy. Accompanies the required nine (9) units of student teaching during the final semester of the Integrated Bachelor of Arts and Multiple Subject Credential Program. Provides an academic framework for guiding the integration of content and pedagogy that students will be implementing in their classrooms as student teachers. Also offered as LBST 575. Students may not receive credit for both. Graded Credit/No Credit. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.
EDUCATION: MULTIPLE SUBJECT/EXCEPTIONAL LEARNERS (EDMX)

College of Education

Prerequisite for all EDMX courses is Admission to the Multiple Subject/BCLAD with Special Education Specialist Credential: Learning Handicapped Teacher Credential Program.

EDMX 543 (3)
Mathematics Education in Inclusive Classrooms
Focuses on the scope and sequence of mathematics in the K-12 curriculum, mathematics instructional methods, materials, and assessment. Additional emphasis is provided on assessing student mathematical thinking and developmentally appropriate instructional practices. Methods of cross-cultural language and academic development and strategies for accommodating learners with special educational needs in assessment and instruction are integrated into the course. Requires participation and observation in public school programs.

EDMX 571 (7)
Education Specialist Multiple Subject Student Teaching
Observation and teaching in a general education setting in selected K-12 schools under the supervision of a classroom teacher and University supervisor and includes participation in student teaching seminars. This course is aligned with California's SB 2042 Standards. May not be taken for credit by students who have received credit for EDMX 562 or EDMX 571. Graded Credit/No Credit.

EDMX 572 (7)
Education Specialist - Special Education Student Teaching
Observation and teaching in special education setting in selected schools under the supervision of a credentialed special education teacher and university supervisor. Includes participation in a student teaching seminar. This course is aligned with California's SB 2042 Standards. May not be taken for credit by students who have received credit for EDMX 562 or EDMX 571. Graded Credit/No Credit.

EDMX 622 (3)
Literacy for Education Specialists
Focuses on developing an advanced understanding of theory, methodology, and assessment of K-12 English Language Arts and second language learning in integrated and inclusive classrooms. This course is aligned with California's SB 2042 Standards. May not be taken for credit by students who have received credit for EDMX 641. Prerequisite: EDMX 521 or equivalent.

EDMX 627 (3)
Assessment for Planning and Instruction
Focuses on methods for assessing and planning so students with disabilities, language, and other learning differences have access to the general education curriculum. Students administer and interpret formal and informal assessments for Individual Education Program planning, implementation, and evaluation. Requires participation/observation in the public schools.

EDMX 631 (3)
Foundations in Law, Ethics, and Procedures of Special Education
Introduction to state and federal special laws regarding special education; ethical issues in special education; concepts of assessment of learners and learning environments; non-biased, nondiscriminatory approaches to assessment; procedures and forms used in California schools to identify and support children and youth eligible for special education; and the Individual Education Program planning, implementation, and evaluation process. Students practice principles of effective collaborative and interdisciplinary teaming and focus on best practices for inclusive educational programming.

EDMX 632 (3)
Technology and Communication for Special Populations
Terms, trends, history, and current information bases on applications of technology and assistive and adaptive devices for working with children. Use of technologies for learners with mild, moderate, and severe disabilities for education programs in schools and agencies. Identification of interventions for effective learner communication and needed augmentative communication devices. Knowledge of system components and configuration of special and adaptive devices. Competency-based, requiring laboratory work. Prerequisite: EDUC 500 or equivalent.

EDMX 633 (3)
Community Access through Supported Environments
Focuses on methods and strategies for facilitating learner access and growth in academic, social relationships, communication, vocational, personal, recreational, community, and functional life skill domains. Emphasizes the development and implementation of positive behavioral support plans and interventions that address students' behavioral, social, and motivational needs as well as transition planning, family-centered assessment, student empowerment, conflict resolution, and friendship development.

EDMX 634 (4)
Work with Students with Severe Disabilities: Meeting Educational, Communication, Mobility, Sensory and Specialized Health Care Needs
Focuses on developing skills in working effectively for and with children with moderate and severe cognitive, communication, social/emotional, and physical health challenges through practical, hands-on experiences. Emphasis is on interdisciplinary teaming in IEP development and delivery and methods for procuring and managing resources to enable students with specialized health care, mobility, sensory, behavioral, and communication needs to participate in school and community experiences. Field experience requires instruction of students with moderate and severe disabilities.

EDMX 671 (7)
Education Specialist Special Education Student Teaching I
Intern teaching in a special education setting in selected K-12 schools under the supervision of a credential special education teacher and University supervisor. Includes participation in student teaching seminars. This course is aligned with California's SB 2042 Standards. May not be taken for credit by students who have received credit for EDMX 572. Graded Credit/No Credit.

EDMX 672 (7)
Education Specialist Special Education Student Teaching II
Intern teaching in a special education setting in selected K-12 schools under the supervision of a credential special education teacher and University supervisor. Includes participation in student teaching seminars. This course is aligned with California's SB 2042 Standards. May not be taken for credit by students who have received credit for EDMX 664. Graded Credit/No Credit.
EDUCATION:
SINGLE SUBJECT (EDSS)

College of Education
Prerequisite for all EDSS courses is admission to the Single Subject/CLAD Teacher Credential Program.

EDSS 511 (4)
Secondary Teaching and Learning
Focuses on developing a preliminary understanding of learning Theory and Instructional practice in integrated and inclusive secondary classrooms. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit for EDSS 520.

EDSS 521 (3)
Secondary Literacy
Focuses on developing a preliminary understanding of theory, methodology and assessment of English Language Arts and secondary language learning in integrated and inclusive secondary classrooms. This course is aligned with California’s SB 2042 Standards. May not be taken for credit by students who have received credit EDSS 550.

EDSS 530 (3)
Schools for the 21st Century
Focuses on the concept of the newly evolving model of the secondary school in the 21st Century. Explores issues of professional perspectives, conduct and obligations; school climate; special needs and equity for students; interdisciplinary teaming and interpersonal communication skills. This course is aligned with California’s SB 2042 Standards.

EDSS 531 (2)
The Reflective Practitioner
Seminar approach to the art of reflective professionalism. Teacher site-based curriculum meetings add to blend necessary for communication in multicultural settings. Development of electronic portfolio; assessment of student outcomes. This course is aligned with California’s SB 2042 Standards.

EDSS 541 (2)
Interdisciplinary Methods
Methodology course which provides training in interdisciplinary learning methods. Utilizes pedagogical and practical experiences to train students in a variety of appropriate strategies to utilize with secondary students. This course is aligned with California’s SB 2042 Standards.

EDSS 543A (2)
Secondary Mathematics Education A
Focuses on developing an understanding of theory, methodology, and assessment of Mathematics in integrated and inclusive secondary classrooms: Part A. This course is aligned with California’s SB 2042 Standards.

EDSS 543B (2)
Secondary Mathematics Education B
Focuses on developing an understanding of theory, methodology, and assessment of Mathematics in integrated and inclusive secondary classrooms: Part B. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 543A

EDSS 544A (2)
Secondary Social Studies Education A
Focuses on developing an understanding of theory, methodology, and assessment of Social Studies in integrated and inclusive secondary classrooms: Part A. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 544A.

EDSS 544B (2)
Secondary Social Studies Education B
Focuses on developing an understanding of theory, methodology, and assessment of Social Studies in integrated and inclusive secondary classrooms. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 544A.

EDSS 545A (2)
Secondary Science Education A
Focuses on developing and understanding of theory, methodology, and assessment of science in integrated and inclusive secondary classrooms: Part A. This course is aligned with California’s SB 2042 Standards.

EDSS 545B (2)
Secondary Science Education B
Focuses on developing an understanding of theory, methodology, and assessment of Science in integrated and inclusive secondary classrooms: Part B. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 545A.

EDSS 546A (2)
Secondary English Education A
Focuses on developing an understanding of theory, methodology, and assessment of English in integrated and inclusive secondary classrooms: Part A. This course is aligned with California’s SB 2042 Standards.

EDSS 546B (2)
Secondary English Education B
Focuses on developing and understanding of theory, methodology, and assessment of English in integrated and inclusive secondary classrooms: Part B. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 546A.

EDSS 547A (2)
Secondary World Languages Education A
Focuses on developing and understanding of theory, methodology, and assessment of World Languages in integrated and inclusive secondary classrooms: Part A. This course is aligned with California’s SB 2042 Standards.

EDSS 547B (2)
Secondary World Languages Education B
Focuses on developing and understanding of theory, methodology, and assessment of World Languages in integrated and inclusive secondary classrooms: Part B. This course is aligned with California’s SB 2042 Standards. Prerequisite: EDSS 547A.

EDSS 555 (3)
Secondary Multilingual Education
Focuses on developing an understanding of theory, methodology, and assessment of second language acquisition in integrated and inclusive secondary classrooms. This course is aligned with California’s SB 2042 Standards.

EDSS 571 (6)
Beginning Student Teaching in Secondary Schools
Observation and teaching in selected secondary schools under the supervision of a classroom teacher and University supervisor. This course is aligned with California’s SB 2042 Standards. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDSS 560.

EDSS 572 (6)
Advanced Student Teaching in Secondary Schools
Advanced observation and teaching in selected secondary schools under the supervision of a classroom teacher and University supervisor. This course is aligned with California’s SB 2042 Standards. Graded Credit/No Credit. May not be taken for credit by students who have received credit for EDSS 561.
EDST 619 (3)
Topics in Science Education
Prerequisites: Enrollment in the Master's Program and/or hold credential.

EDST 620 (3)
Current Issues and Research in Mathematics Education
Prerequisites: Enrollment in the Master's Program and/or hold credential.

EDST 621 (3)
Students’ Thinking in Mathematics Education
Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 622 (3)
Instructional Practices in Mathematics Education
Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 623 (3)
Topics in Mathematics Education
Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 630 (3)
Teacher Leadership: Current Issues and Research in Educational Technology
Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.

EDST 631 (3)
Impact of Technology on Teaching and Learning
Prerequisites: Enrollment in the Master's in Education Program and/or hold credential.
EDST 632 (3)  
Using Emerging Technologies to Customize Learning  
Helps educators develop skills to use emerging technologies and multi-media applications to customize learning and instruction. It includes the study of visual principles, pedagogical concepts, and instructional strategies as they pertain to the development of instructional delivery systems. Students work in teams to develop instructional projects for classroom implementation. Prerequisites: Enrollment in the Education Master’s Program and/or hold credential.

EDST 633 (3)  
Topics in Educational Technology  
Critically examines one or more selected issues in educational technology. Current topics such as distance and distributed learning, video conferencing, and technology initiatives will be highlighted. May be repeated for credit as topics change, but only three (3) units may be counted toward the Master’s in Education. Prerequisites: Enrollment in the Master’s in Education Program and/or hold credential.

EDST 634 (3)  
Supporting Service Learning in K-12 Settings  
Designed for educators who want to apply service learning to a K-12 classroom setting. Covers the fundamental elements of the Cal Serve K-12 Service Learning Initiative and will feature ways to utilize technology to support meaningful service learning projects. Participants will develop and implement a standards-based service-learning project integrating the use of technology. Students will submit a portfolio documenting their experiences in the process.

EDUC (EDUC)  
College of Education  
EDUC 199 (1-3)  
Independent Study  
Individual library study or research under the direction of a faculty member. Study plan must be approved by the fourth week of classes. Prerequisite: Consent of instructor.

EDUC 350 (3)  
Foundations of Teaching as a Profession  
Required for all credential candidates. An orientation to careers in K-12 education. Participation in forty-five (45) hours of supervised fieldwork assignments in K-12 classroom settings.

EDUC 360B (3)  
Foundations of Teaching as a Profession  
Focuses on teaching and schooling from multiple perspectives, with an emphasis on current thinking and practices in public education in the U.S. Subjects from the sociological, philosophical and historical foundations of education are addressed. Readings from the lives of teachers and interactions with local educators will assist students to understand the richness and the complexities of teaching as a career. Emphasizes the importance of education for all children in a diverse society. Intended for individuals interested in becoming teachers, to understand the nature of formal education in the United States, and to assess teaching as a career. Prerequisites: Admission to the Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDUC 364 (3)  
The Role of Cultural Diversity in Schooling  
Required of all credential candidates. Principles of first and second language acquisition (e.g., historical and current theories, psychology, sociocultural, political, and pedagogical factors) and issues related to notions of culture, interaction, and communication in school and community contexts (e.g., the nature of culture, manifestations of, cultural contact and cultural diversity in the United States and in California) within a theoretical and applied context.

EDUC 364B (3)  
The Role of Cultural Diversity in Schooling  
Focuses on principles of first and second language acquisition (e.g., historical and current theories, psychology, sociocultural, political, and pedagogical factors) and issues related to notions of culture, interaction, and communication in school and community contexts (e.g., the nature of culture, manifestations of, cultural contact and cultural diversity in the United States and in California) within a theoretical and applied context. Prerequisite: Admission to the Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Program Coordinator.

EDUC 400 (3)  
Children’s Literature  
Selecting, analyzing, and using modern and classic literature with young readers. Requires forty-five (45) hours of participation in a public school or related setting.

EDUC 422 (3)  
Technology Tools for Teaching and Learning  
Focuses on knowledge and skills necessary to apply education-oriented productivity tools, graphic organizers, database and spreadsheets, presentation tools, school-appropriate multimedia tools, and communication tools. The course meets the technology prerequisite skill requirement for entering the credential program.

EDUC 422A (1)  
Technology Tools for Teaching and Learning - Part A  
Equivalent to the first third of EDUC 422. Includes the productivity and professional practice skills and concepts in using technology in the classroom. Topics include educational uses of word processing, databases, spreadsheets. May not be taken for credit by students who have received credit for EDUC 422 and E494J. Prerequisite: Completion of the Computer Competency Requirement.

EDUC 422B (1)  
Technology Tools for Teaching and Learning - Part B  
Equivalent to the second third of EDUC 422. Focuses on using technology in the classroom through examination of educational software and familiarization with specific software titles supported in the College of Education credential program. May not be taken for credit by students who have received credit for EDUC 422 and E494K. Prerequisite: Completion of the Computer Competency Requirement.

EDUC 422C (1)  
Technology Tools for Teaching and Learning - Part C  
Equivalent to the third third of EDUC 422. Focuses on development of the electronic portfolio, the culminating requirement for the credential program. Students will begin the process of developing their portfolio, which is continued in the credential program. Graded credit/no credit. May not be taken for credit by students who have received credit for EDUC 422. Prerequisite: Completion of Computer Competency Requirement, EDUC 422A and EDUC 422B or EDUC 422.

EDUC 494 (1)  
Topics in Education  
Study of current issues in education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 494, 495, and 496. Students should check the Class Schedule for listing of actual topics.
EDUC 495 (2)  
Topics in Education  
Study of current issues in education.  
May be repeated for credit as topics change for a total of six (3) units in any combination of units from EDUC 494, 495, and 496.  
Students should check the Class Schedule for listing of actual topics.

EDUC 496 (3)  
Topics in Education  
Study of current issues in education.  
May be repeated for credit as topics change for a total of six (3) units in any combination of units from EDUC 494, 495, and 496.  
Students should check the Class Schedule for listing of actual topics.

EDUC 500 (3)  
Computer-Based Technologies in Education  
Examine the use of a variety of computer-based technologies as a tool in developing problem-solving and critical thinking skills in the teaching/learning process.  
Prerequisite: Successful completion of the University computer competency requirement.

EDUC 501 (3)  
Mainstream Instruction For Students With Special Learning Needs  
Rationale, techniques, strategies for successfully teaching students with special learning characteristics needs in the general education classroom. Issues in learning diversity and mainstreaming as they relate to the classroom teacher's role in teaching all students.

EDUC 508 (1-3)  
Bilingual Books and Books in English about Latinos  
An introduction to bilingual books, a genre of literature where two languages (specifically English and Spanish are used in the same work), as well as to the principal works and figures of the literature in English about Latino children and adolescents in the United States and abroad.  
May be repeated for a total of six (6) units.

EDUC 509 (1-3)  
Books and Reading Strategies for English Language Learners  
Focuses on reading, selecting and using appropriate literature to teach reading strategies for English language learners in grades K-8.  
Activities in the course will include: selecting appropriate literature for language proficiency, cultural learning style and reading ability, using literature to teach reading strategies such as reciprocal teaching, SQ3R and the directed reading thinking activity, and designing other activities for the English language learner using quality literature.  
May be repeated for a total of six (6) units.

EDUC 517 (1-6)  
Current Issues: Books in Spanish for Young Readers  
Introduction to and analysis of current practices and problems in selecting and using books in Spanish for children and adolescents.  
May be repeated.  
May not be taken for credit by students who have taken EDUC 496B.

EDUC 521 (1)  
Literature for Spanish-Speaking Students  
Study of what is literature for Spanish-speaking audience.  
Examines character and plot, themes, settings, point view, style, and tone.

EDUC 522 (2)  
Literature for Spanish-Speaking Students  
In addition to material from EDUC 521, subject matter includes analysis of illustrated books, traditional literature, fantasy, and poetry.

EDUC 523 (3)  
Literature for Spanish-Speaking Students  
In addition to material from EDUC 521 and EDUC 522, subject matter includes analysis of illustrated books, traditional literature, fantasy, poetry, realism, historical fiction, bilingual books and non-fiction.

EDUC 571 (3)  
Health Education for Teachers  
Designed to raise teacher awareness and examine the current health issues confronting today’s educators.  
Introduces educators to resource links within the community as well as within the public school system.  
Participants will reflect on how this information connects to their own practice within their own classrooms and schools.  
Subjects include chemical dependency, nutrition, fitness, HIV/AIDS, conflict resolution/mental health and maintaining a healthy school environment.

Cardiopulmonary resuscitation (CPR) training for certification needed for the clear credential will also be provided.  
May not be taken for credit by students who have received credit for EDUC 595E.

EDUC 593 (3)  
Topics in Education  
Study of current issues in education.  
May be repeated for credit as topics change for a total of six (6) units in any combination from EDUC 591, 592, and 593.  
Students should check the Class Schedule for listing of actual topics.

EDUC 599 (1-3)  
Independent Study  
Individual library study or research under direction of a faculty member.  
Study plan must be approved by the fourth week of classes.  
May be repeated, but no more than three (3) units of credit may be counted toward the major.  
Prerequisites: Completion of at least three (3) upper-division courses in Education and consent of instructor.

EDUC 602 (3)  
Schooling in a Multicultural Society  
An introduction to issues and uses of schooling in a multicultural society.  
Includes an overview of multicultural education and address areas of study such as: culture and cognition, diversity and exceptionality, intercultural communication, cross-cultural competence, the psychology of personal prejudice, and curriculum and teaching in multicultural contexts.

EDUC 604 (3)  
Knowledge Construction and Accomplished Teaching  
Provides an overview of a selection of educational philosophies, leads teachers through an examination of their personal philosophy of teaching and learning, and considers how it/they shape educational practice.

EDUC 606 (3)  
Foundations of Reading and Writing Instruction  
An overview of theories and practices that affect reading and writing instruction and assessment for the English-speaking and LEP student.

EDUC 607 (3)  
Writing instruction and Technology  
Teachers who participate in the San Marcos Writing Project summer institute spend five weeks sharing best practice in the teaching of writing, reading and discussing relevant literature and becoming more competent writers themselves.  
They also write daily on the computer, learn how to present using software like power point, establish web sites and use additional technologies that assist them in the teaching of writing.  
May not be taken for credit by students who have received credit for EDUC 593S.  
Prerequisite: EDUC 618 and consent of instructor.
EDUC 610 (3) Reading and Writing Theory and Research
Examination of the reading and writing processes and their interrelationships; linguistic, cognitive, sociocultural, and developmental aspects of literacy; examination of current reading and writing research.

EDUC 612 (3) Literacy Development of Speakers of English as a Second Language
Theoretical, empirical, pedagogical and sociocultural issues of initial literacy learning; parallels between oral and written language development; effects of culture and home environment; developmental patterns and strategies; issues of bilingualism.

EDUC 613 (3) Reading and Writing Strategies for Monolingual and Bilingual Learners
Examination of the theory, research and practice that affect reading and writing for monolingual and bilingual students. May not be taken for credit by students who have received credit for EDUC 619A.
Prerequisites: EDUC 602, 610, and 612.

EDUC 614A (3) Reading and Writing Assessment
Explores current strategies and techniques for evaluating reading and writing development in classroom settings; theoretical conceptual frameworks for evaluation; process and product procedures for evaluation; formal and informal assessment techniques.
Prerequisites: EDUC 610 and 613.

EDUC 614B (3) Reading Certificate Field Experience
It explores multiple assessments in a balanced comprehensive literacy program and the research basis for the provisions of effective assessment of literacy teaching and learning relevant to students from varied cultural and linguistic background. Students will be required to administer a battery of appropriate assessments, make recommendations, and communicate that information through professional reports.
Graded Credit/No Credit. Prerequisite EDUC 610 and 613.

EDUC 615 (3) Advanced Studies in Writing Instruction K-12
Teachers who participate in the San Marcos Writing Project summer institute spend five weeks sharing best practice in teaching of writing, reading and discussing relevant literature and becoming more competent writers themselves.
Prerequisite: EDUC 618 and consent of instructor.

EDUC 616 (3) Advanced Literature for Young Readers
An in-depth and extensive survey of children’s and adolescent literature, K-12. Examination of current issues, theory and research on literature and its use in the classroom as well as reader-response theory and research will be included.

EDUC 617 (3) Literatura Infantil y Juvenil en Español
(Literature in Spanish for Young Readers)
A survey course dealing with the utilization of literary materials both contemporary and classic, in Spanish, for young readers from pre-school through high school (3-18 years of age). It is expected that students read literary selections in Spanish for young readers in this age range, although a certain extent of specialization within an age range is permitted. All lectures, exams as well as reading and writing assignments will be in Spanish. Prerequisite: SPAN 311, or equivalent, or consent of instructor.

EDUC 618 (3) Teaching Writing in Diverse Settings
An advanced study of writing with emphasis on reading and discussing current theory and research, exploring writing as a writer and developing appropriate writing instruction and curriculum. Explores a wide range of subjects including current theory, research and practice in writing, writing development, teaching different written forms, writing and the second language learner, the relationship between reading and writing, the conventions of writing, including spelling and assessment of writing. Prerequisites: EDUC 606, 610, 614A, 614B, 615, and 616.

EDUC 619 (3) Developments and Issues in Literacy
An exploration of developing issues in the field of literacy and its instruction. Prepares students for the master thesis/project.

EDUC 620 (3) Curricular Innovations and Applications
Critically examines innovations in curriculum, and studies some impacts that result from implementation of said innovations.

EDUC 621 (3) Literacy Program Leadership
Examination and practical experience of the role and responsibility of the literacy specialist in the public schools and the community.

EDUC 622 (3) Research Methods in Education
A core course designed to introduce educational practitioners to the fields of educational research and evaluation. Explores quantitative and qualitative methods of designing and conducting research and evaluation in the context of classroom settings. Further examines measurement, assessment, common statistical techniques and methods for critiquing research and program evaluation studies.

EDUC 623 (6) Advanced Clinical Experience
Designed to provide candidates with advanced clinical experience in the area of severe reading difficulties. Focuses on the integration of program theory and content with a supportive environment that includes self-assessment, supervision from a university advisor and a field supervisor. Promotes reflection and decision-making that is aligned with being specialists in the area of literacy and language arts. Graded Credit/No Credit. Prerequisite: Admission in the Reading Specialist Credential Program.

EDUC 624 (3) Knowledge Construction and Individual Difference
Examines strategies for learning that include problem solving, thinking, and meta-cognition. Also considers the role of attitudes, beliefs and feelings on learning, and addresses the need of a diverse population.

EDUC 625 (3) Learning in the Wilderness
Allows teachers or teacher candidates to explore methods to use the outdoors as an interdisciplinary teaching strategy. Students will have opportunities to visit regional wilderness sites and use this setting to study the history, anthropology, literature, natural history and other disciplines that can be associated with the region. Using this modeling technique, students will develop their own curricula that integrates natural settings and incorporates interdisciplinary learning. May not be taken by students who have received credit for EDUC 496E or EDUC 496H.

EDUC 626 (3) Creating Communities of Learners
Addresses theory and application of learning in social contexts. Critically examines movements such as cooperative and collaborative learning, the role of peer interaction, the influences of peer diversity, the effects of scaffolded instruction.
EDUC 627 (3)  
**Literacy in a Multicultural Society**
Addresses the literacy instructional needs of California’s diverse student population to include students receiving special education, as well as students with handicapping conditions in light of multicultural classrooms. The implementation of multicultural education will explore the establishment of a democratic classroom along with the value of student work as expressed through their own voices in unique cultural contexts. The influence of culture and language will also be explored as critical factors that affect the literacy achievement of each student. **Prerequisite: Consent of Program Coordinator.**

EDUC 628 (3)  
**Applied Research Methods**
Involves intensive study of current issues and concepts in education.

EDUC 641 (3)  
**Sociocultural Contexts of Language and Learning**
Explores the theoretical, empirical, pedagogical and sociocultural issues inherent in schooling contexts where multiple languages and cultures exist. Subjects include the examination of home, community and school cultures; issues of bilingualism; and instructional contexts which relate to literacy and learning. Explores the relationships between the school context and the implicit and explicit theoretical foundations that support instruction for students who are first and second language learners, and the implications of such instruction. **Prerequisite: Consent of Program Coordinator.**

EDUC 642 (3)  
**Voices of the Community: Cultures in Action**
Examines the concept of voice in the multiple contexts that forms a student’s overall schooling experience. Explores subjects which allow students to understand the inter- and intra-ethnic relations within and across cultural communities as they relate to students’ schooling experiences. Investigates the relationship between schools and the multiple communities to which students and families belong, and considers how educators can work collaboratively with communities to provide equitable instruction for all students.

EDUC 643 (3)  
**Critical Ethnography of Education**
Examines the nature of ethnography as a standard tool of investigation in describing, understanding, and explaining the behavior of individuals. Uses ethnography as a tool to examine and explore public school classrooms and teaching practice from a critical pedagogy perspective. Students will understand the complexity of human learning by making familiar the activities of “other” people and thus, make “strange” our own familiar teaching/learning practices when placed against the “eyes” of other people. **Prerequisite: Consent of Program Coordinator.**

EDUC 644 (3)  
**Multicultural Students and Families in Public Schools**
Examines subjects which allow students to increase their level of awareness, knowledge, and skills that will rendered them effective teachers with culturally diverse students and families. Students will understand how families function and interact with schools. Students will consider how mainstream society defines/describes families and the ways families define and describe themselves. Finally, students will consider specific ethnic groups as well as inter-racial families, and inter-ethnic and intra-ethnic relations. **Prerequisite: Consent of Program Coordinator.**

EDUC 646 (3)  
**Second Language Acquisition: Research and Practice**
Examines theoretical, developmental, social, and instructional issues related to second language acquisition in the context of a multicultural/multilingual society. Subjects include identity development of second language learners; parallels between first and second language development; second language acquisition theories; approaches in second language instruction; survey of program models and research outcomes; implications for effective instruction and assessment (including the role of the first and second language); and the home/school/college in fostering second language acquisition.

EDUC 647 (3)  
**Multicultural Curriculum and Application**
Examines issues relevant to multicultural curriculum and its application in creating equitable communities of learners in multilingual/multicultural settings. Students will review current theory as it relates to the design, implementation, and evaluation of multicultural curriculum given the sociocultural contexts which exist in classrooms, schools, and communities. Students will critically evaluate multicultural curriculum and application, with specific focus on promoting equal and effective instruction for students from culturally and linguistically diverse backgrounds. **Prerequisite: Consent of Program Coordinator.**

EDUC 649 (3)  
**Practicum in Social Action**
Explores current research, theories, applications, issues and perspectives in the fields of multicultural and multilingual education. Students will examine their commitment to social justice and educational equity in their classrooms and schools. Students will consider how they can engage themselves and their students in social action by designing, implementing and reflecting upon social action projects and curriculum for themselves and/or their students in their classrooms, their schools, and their communities. **Prerequisite: Consent of Program Coordinator.**

EDUC 650 (3)  
**Proposal Development**
Guides students through the planning, preparation and completion of the research or project proposal. With the guidance of the instructor, students will work collaboratively to plan and prepare each component of their proposals; an introduction to the study, well-developed research questions, a review of the literature, and proposal methodology. Students will be required to complete their research or project proposals by the end of the course.

EDUC 694 (1)  
**Topics in Education**
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.

EDUC 695 (2)  
**Topics in Education**
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.
EDUC 698 (3)
Topics in Education
Study of current issues and concepts in Education. May be repeated for credit as topics change for a total of six (6) units in any combination of units from EDUC 694, 695, and 696. Students should check the Class Schedule for listing of actual topics.

EDUC 699 (3)
Master’s Thesis/Project Seminar
Planning, preparation, and completion of a research or curricular project within a schooling context under the guidance of a faculty committee. Collaboration among master students and school districts is encouraged. Note: Students must continually enroll in this course until successful completion of the thesis project. Prerequisites: Successful completion of the master’s option coursework and advancement to candidacy. Graded Credit/No Credit.

EARTH SCIENCE (ES)
College of Arts and Sciences
ES 100 (3)
The Earth and Its Place in the Universe
Provides an introduction to the various areas of earth science including our place in the universe, structure and composition of the earth, earth’s atmosphere, and earth’s water systems. Subjects to be covered include: astronomy, geology, seismology, plate tectonics, the seasons, climate, weather, tides, oceans, and the characteristics of rivers, lakes, and estuaries. This course satisfies the earth science content requirement for candidates in the Multiple Subject Teaching Credential Program.

ES 101 (3)
Introduction to Earth Science I
Introductory course which presents the basic theories of the formation and composition of the earth from a geologic perspective. Discusses the theory of the origin of the earth and the solar system, the role of plate tectonics in the formation of the current global landscape, and the distribution of rocks and minerals on our planet. Prerequisite: Completion of Entry-level Mathematics (ELM) requirement. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

ES 102 (3)
Introduction to Earth Science II
Introductory course which presents a number of the current ideas related to the functioning of the earth’s global ecosystem and its place in the universe. Subject matter includes the development of weather systems and climatic cycles, the structure and function of the oceans and their interaction with other earth systems, or the evolution and structure of the universe. Prerequisite: Completion of Entry-level Mathematics (ELM) requirement. This course is not currently offered at CSU San Marcos. It is listed only for transfer-credit and course equivalency purposes.

ES 314 (3)
The Geosphere in Context
Explains geological materials, landforms and phenomena in the context of modern understandings of matter and the universe. Includes the synthesis and distribution of the elements, the structure of matter, the history of the solar system, the structure of Earth, plate tectonics, the properties and reactions of minerals, and the rock cycle. Focuses on the empirical evidence for current models of Earth’s origin and development. May not be taken for credit by students who have received credit for CHEM 314.

FINANCE (FIN)
College of Business Administration
FIN 302 (2)
Foundations of Finance
Examines basic aspects of the financing and investment decisions made by financial managers. Subjects include financial mathematics, net present value, capital budgeting, valuation of financial securities, risk and return, cost of capital, capital structure, and dividend policy. FIN 302 is designed for the GBM, HTM and SSM Options. FIN 304 is designed for ACCT and FIN Options. Students may not apply units from both FIN 302 and FIN 304 toward the major. Students need to refer to their option checklist for the appropriate introductory finance requirement. Prerequisite: All lower-division pre-business core.

FIN 321 (4)
Investment Analysis
Examines the investment characteristics of the many types of securities traded in today’s financial markets. In-depth coverage of the micro-structure of equity markets is also provided. Specific subjects to be discussed include: yield-curve analysis, trading rules, government bond pricing, corporate bond pricing, stock valuation models, market-microstructure, CAPM, APT, mutual fund investing, and an introduction to derivative products. May not be taken for credit by students who have received credit for FIN 431 and SSM 431. Prerequisite: All lower-division pre-business core and FIN 302 or 304.

FIN 331 (4)
Financial Markets and Institutions
Examines the markets in which the prices of financial assets are determined as well as the participants in these markets. Introduces students to the various types of financial assets that are traded in financial markets by market participants. Specific subjects to be discussed include depository institutions, government debt markets, corporate debt markets, equity markets, mutual funds, investment banking firms, mortgage markets, swaps and derivative markets. May not be taken for credit by students who have received credit for SSM 491P and FIN 430. Prerequisites: All lower-division pre-business core and FIN 302 or 304.
FIN 341 (4)  
International Financial Management  
Examines various aspects of financial planning and management for enterprises with overseas operations. Major subjects include evaluation of direct foreign investment projects, financial structure and global cost capital, foreign currency exposure management, management of political risk, working capital management, export-import financing, and multinational tax planning. May not be taken for credit by students who have received credit for HTM 421 and FIN 421. Prerequisite: All lower-division pre-business core and FIN 302 or 304.

FIN 404 (2)  
Advanced Corporate Finance  
Concentrates on advanced subjects in corporate finance. Provides a rigorous examination of capital budgeting, capital structure, and dividend policy. Other subjects discussed include mergers and acquisitions, leasing, working capital management, long-term financing, and financial distress. Case studies may be included. Prerequisite: All lower-division pre-business core and FIN 302 or 304.

FIN 422 (2)  
Advanced Investment Analysis  
Deepens the student’s understanding of investment analysis by providing a detailed examination of many of the issues introduced in FIN 321. Emphasis is placed on the characteristics, pricing and uses of options and futures contracts. Specific subjects to be discussed include the statistical underpinnings of modern portfolio theory, risk aversion, bond portfolio management, arbitrage, the Black-Scholes option pricing model, market-making in stock options, and mortgage derivative products. Prerequisite: All lower-division pre-business core and FIN 302 or 304 and 321.

FIN 481 (1)  
Selected Topics in Finance  
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 482 (2)  
Selected Topics in Finance  
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 483 (3)  
Selected Topics in Finance  
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 484 (4)  
Selected Topics in Finance  
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisite: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 485 (4)  
Selected Topics in Finance with Lab  
A survey course of selected topics in finance in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. Three hours of lecture and two hours laboratory. May be repeated for credit as topics change. Prerequisite: All lower-division pre-business core. Additional prerequisites may vary depending on topic.

FIN 498 (1-4)  
Independent Study in Finance  
The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

FIN 499 (3)  
Independent Research in Film Studies  
Students develop an extended research project (either film or paper) using sources in consultation with a faculty advisor. Prerequisite: Consent of supervising faculty member and Film Studies Advisor.

FILM STUDIES (FMST)  
College of Arts and Sciences  

FMST 100 (3)  
Introduction to Cinema  
An introduction to four elements of cinema: 1) defining by categories such as “genre,” “foreign,” “s silent,” “mainstream,” and “abstract;” 2) organizing structures of film such as narration, composition, sound, editing, dramatization; 3) theories used to “read” films such as psychoanalysis, semiotics, and cultural studies; 4) production issues such as storyboarding, shooting, lighting, editing, and sound mixing. Production of a short video required.

FMST 300 (3)  
Elements of Cinema  
This survey analyzes the elements of cinema including photography, mise-en-scene, editing, sound, acting and ideology. Because film is a collaborative endeavor, students will participate in collaborative learning projects in this class: some production, but mostly analytical projects. Students will examine the ways that cinema must synthesize all of its elements to function as a singular work of art. As well, students will analyze cultural implications inherent in the production of film, in the marketing of films, and in the “reading” of cinema as text.

FMST 390 (3)  
Topics in Cinema Studies  
Topics may take the focus of a theme, director, historical period, or genre, to name a few possibilities. Students should check the class schedule for listing of actual topics. May be repeated for a total of six (6) units as topics change.

FMST 398 (3)  
Independent Study  
Directed readings of films and of film scholarship under the guidance of an instructor.

FMST 495 (3)  
Internship in Film Studies  
Combines readings with work experience in an appropriate film studies organization.

FMST 499 (3)  
Independent Research in Film Studies  
Students develop an extended research project (either film or paper) using sources in consultation with a faculty advisor. Prerequisite: Consent of supervising faculty member and Film Studies Advisor.
FRENCH (FREN)

College of Arts and Sciences

FREN 101 (4)
Beginning French I
Fundamentals of French language and culture, designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures.

FREN 102 (4)
Beginning French II
Continuation of FREN 101. Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. Prerequisite: FREN 101 or equivalent.

FREN 201 (3)
Intermediate French I
Continuation of French language fundamentals. Emphasis on the development of the skills of reading, comprehension, speaking, and writing, and study of French culture. Conducted in French. Prerequisite: FREN 102 or equivalent.

FREN 202 (3)
Intermediate French II
Continuation of FREN 201. Further development of the four skills, with an emphasis on reading, composition, communication, culture, and review of grammatical structures. Conducted in French. Prerequisite: FREN 201 or equivalent.

FREN 311 (3)
Advanced French
Focuses on further development and refinement of the four primary skills in French (speaking, writing, reading, and listening comprehension), in addition to a study of cultural factors which affect communication. Conducted in French. Prerequisite: FREN 202 or equivalent.

FREN 312 (3)
French Composition and Advanced Oral Practice
Advanced-level practice of French through oral and written exercises. Conducted in French. Prerequisite: FREN 202 or equivalent.

FREN 314 (3)
Advanced French for Business
Intensive oral and written practice at the advanced level. Focuses on vocabulary, simulation, and discourse strategies specific to the needs of the business professional. Conducted in French. Recommended FREN 311. Prerequisite: FREN 202 or equivalent.

FREN 315 (3)
Reading and Analysis of French and Francophone Literary Texts
Introduction to the principles of literary analysis, based on readings and discussion of French literature. Literary genres include fiction, theatre, essay, and poetry from France and the Francophone world. Conducted in French. Prerequisite: FREN 311.

FREN 350 (3)
Civilization and Culture of France and Francophone World
Study of the culture and civilization of the French-speaking world. Analysis of literature, art, history, geography, and contemporary social structures. Conducted in French. Prerequisite: FREN 202 or equivalent.

FREN 380 (3)
Narrative to Film
Designed to explore similarities and differences between the narrative mode and film. Analyzes a series of novels that have been made into films. Includes theoretical aspects of writing and film. Conducted in French. Recommended FREN 311. Prerequisite: FREN 202 or equivalent.

FREN 395A (1) 395B (2) 395C (3)
Independent Study
Students may enroll in this course with the consent of the instructor only. The purpose of this course is to allow students to study their own field of interest within French and Francophone literature and culture. Readings, written papers and oral discussions will be guided by the instructor. A minimum of three analytical papers will be required. Students must meet with the instructor weekly. May be repeated for a total of nine (9) units.

GLOBAL BUSINESS MANAGEMENT (GBM)

College of Business Administration

GBM 351 (1)
Ethics of Management in Global Environments
Focuses on everyday ethical dilemmas faced by students, workers and managers. Legal and social norms of different cultures provide a framework for examining ethical decision-making in the global environment. Practical approaches to action-oriented business ethics are stressed based on ethical principles, discussions of personal ethical perspectives and cultural context. Prerequisites: All lower-division pre-business core, and BUS 302.

GBM 425 (4)
International Business Management
Survey course to familiarize with what international business is, why it is important and how it affects business practice. Covers subjects such as the global environment, international trade, global marketing, global business strategy, foreign exchange and monetary policy issues, and international human resource management. This course is strongly recommended prior to or concurrent with FREN 341, ECON 441 or SSM 448. May not be taken for credit by students who have received credit for GBM 482A. Corequisite: BUS 302. Prerequisite: Completion of all lower-division pre-business core and Business 302.

GBM 426 (2)
Global Management Competencies
Examines global management competencies most necessary to be effective in the current global business environment. Several competency sets will be introduced and students will examine their personal strengths and weaknesses against these competency sets, including a self-development plan to help strengthen their ability to manage successfully in a global environment. Prerequisites: BUS 302 and MGMT 305 or MGMT 306, and MKTG 302 or 305 or SSM 305.

GBM 427 (2)
Cross-cultural Negotiating and Global Business
Utilizes skill-building exercises and assessment tools to improve students’ negotiating and conflict management skills when negotiating globally. Emphasizes achieving win-win solutions to individual, team, and organizational problems. Subjects include: distributive and integrative bargaining, power and influence, communication and persuasion, ethics in negotiation, breakdowns and difficult negotiations, mediating conflicts, and international negotiations. Pedagogical techniques include cross-national negotiation videos, surveys identifying each student’s negotiation style, negotiating in dyads, one two-hour negotiating exercise, and business case studies involving many different nations. May not be taken for credit by students who have received credit for GBM 482C. Prerequisites: Lower division pre-business core.
GBM 430 (2)
Import and Export Operations
Examines importing and exporting related activities of an organization. Focuses mainly on the practical aspects of importing and exporting to familiarize students with the documentation, activities and types of issues facing import/export firms or departments within firms. Prerequisites: All lower-division pre-business core and the GBM core.

GBM 440 (4)
International Travel Study
A field-based study of business management methods and issues in a particular country. The course focuses on understanding how environmental factors (e.g., political and economic systems, etc.) affect the management, marketing and overall business practices in selected countries. Visits to various government, business and educational institutions will be made. Graded Credit/No Credit. Prerequisites: All lower-division pre-business core and the GBM core. Regions of focus will include:
A. Asia
B. Latin America
C. Europe

GBM 481 (1)
Selected Topics in Global Business Management
A survey course of selected topics in global business management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. Three hours of lecture and two hours of laboratory. May be repeated for credit as topics change. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

GBM 483 (3)
Selected Topics in Global Business Management with Lab
A survey course of selected topics in global business management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. Three hours of lecture and two hours of laboratory. May be repeated for credit as topics change. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

GBM 485 (4)
Selected Topics in Global Business Management with Lab
A survey course of selected topics in global business management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. Three hours of lecture and two hours of laboratory. May be repeated for credit as topics change. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

GBM 486 (4)
Selected Topics in Global Business Management
A survey course of selected topics in global business management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. Three hours of lecture and two hours of laboratory. May be repeated for credit as topics change. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

GBM 487 (5)
Global Management Experience
This internship provides students a significant personal and cultural experience in an international business setting to gain job-related knowledge for the student’s career. To accomplish these purposes, the student, in conjunction with advisement from the GBM Option Director, must select a country to maximize the objectives of the course. Prerequisite: All lower-division pre-business core, all Foundations of Business courses and the GBM core courses.

GBM 498 (1 - 4)
Independent Study in Global Business Management
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of Instructor.

GENERAL EDUCATION – LIFE LONG LEARNING AND INFORMATION LITERACY (GEL)

College of Arts and Sciences

GEL 101 (3)
The Student, The University, The Community
Designed to equip students with the basic skills, concepts, and knowledge necessary to become a lifelong learner. Examination of current theory and research regarding the information age, health and wellness, career development, and psychological assessment. Practical application of the theory and research. Includes information literacy and technology skills, group and teamwork, and learning styles. Prerequisite: Freshman standing or consent of instructor.

GEL 200 (3)
The Student in an Information Society
Teaches the student how to become information-literate by exploring individual well-being in this information age. Using the library as a learning laboratory, the student will explore the various aspects of the Information Age as it is changing American and global societies. Familiarizes students with the technologies and systems that are shaping this age. By researching selected topics dealing with social, psychological and physiological well-being, students will come to understand how information is generated, acquired, preserved and transmitted; learning how to write a successful research paper while developing the skills required of lifelong learners.

GENERAL EDUCATION – MATHEMATICS (GEM)

College of Arts and Sciences

GEM 100 (3)
Mathematical Ideas
Basic mathematical concepts such as logic, number theory, number systems, algebra, geometry, functions, graphs, counting methods, probability, and statistics together with related cultural and historical perspectives. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.
GENERAL EDUCATION – ORAL COMMUNICATION (GEO)

College of Arts and Sciences

GEO 102 (3)
Oral Communication
Introduction to the form and content of communication. Includes: the linguistic, psychological, and cultural bases of communication; various types of communication ranging from basic speech acts to forms of persuasion and conflict resolution; the social and political significance of communication; how communication operates within and across a wide range of social contexts. Students become actively acquainted with some of the potential proficiencies that may be brought into various social contexts. Requires active participation in classroom exercises, collaborating on a group research project which is presented orally to the class, and practicing public speaking.

GEOGRAPHY (GEOG)

College of Arts and Sciences

GEO 201 (3)
World Regional Geography
Survey of major world regions and their major countries. Study of specific geographical circumstances and geographical concepts, including an emphasis on physical geography. Focuses on processes and issues such as development and underdevelopment; population and migration; race, class, and gender; technology and economic growth; natural resources and the environment, and conflict and cooperation within a world regional framework. May not be taken for credit by students who have received credit for GEOG 301 or 302.

GEO 302 (3)
World Regional Geography: Geographic Information Systems (GIS) Enhanced
Enhanced survey of major world regions and their major countries using Geographic Information Systems (GIS) technology. Study of specific geographical circumstances and geographical concepts, including an emphasis on physical geography. Focuses on processes and issues such as development and underdevelopment; population and migration; race, class, and gender; technology and economic growth; natural resources and the environment, and conflict and cooperation within a world regional framework. Fulfills the world regional geography requirement of the Elementary Subject Matter Preparation Program. May not be taken for credit by students who have received credit for GEOG 201 or 301.

GEO 305 (3)
The U.S.-Mexico Border
Focuses on the economic, social, and cultural geography of the border region between the United States and Mexico. Overview of the U.S.-Mexico border as a whole as well as examination of selected border cities, industry and agriculture, the environment, labor, immigration, politics, and other issues. May not be taken for credit by students who received credit for GEOG 450. GEOG 305 (taught in English) or GEOG 305S (taught in Spanish) is a core course of the Border and Regional Studies major, and is required of all students in the major.

GEO 305S (3)
La Frontera Mexico – Estados Unidos
Focuses on the economic, social, and cultural geography of the border region between the United States and Mexico. Overview of the U.S.-Mexico border as a whole as well as examination of selected border cities, industry and agriculture, the environment, labor, immigration, politics, and other issues. May not be taken for credit by students who received credit for GEOG 450S. Taught in Spanish. GEOG 305S may be taken for credit in the Spanish Major’s Language and Culture Concentration.

GEO 320 (3)
Patterns of San Diego County
Conducts an interdisciplinary exploration of the geographic, historic, political, and socio-economic factors that make up San Diego County. Geographic Information Systems (GIS) software and Internet resources will be used to amplify this exploration. Students will gain in-depth understanding of how San Diego County has been shaped and continues to function, as well as knowledge of how to use technological tools for a deeper understanding of the world around them. May not be taken for credit by students who have received credit for ID 370F.

GEO 340 (3)
Regional Geography
Offers students the opportunity to examine population and migration factors, spatial configurations, alternative theories, and special issues regarding regional development. The specific region or subregion discussed is reflected in its subtitle. Each area will be analyzed in-depth allowing a deeper understanding and discussion than is possible in a broader survey course.

A. Africa
B. Asia
C. Latin America
D. Europe
E. North America
F. China
G. United States

GENERAL EDUCATION – SCIENCE (GES)

College of Arts and Sciences

GES 100 (3)
The Physical Science Around Us
Introduces some of the basic concepts and ideas covered in a course consisting of integrated modules covering the areas of matter/energy, molecules, living systems, and environment. These modules will cover major concepts in the physical and biological sciences, emphasizing their application to real-world problems. Concepts covered will include the interactions of matter and energy, laws of motion, atomic structure of matter, structure and properties of molecules, principles of genetics, structure and function of living organisms, evolution, and interactions of organisms with each other and their environment. Includes practical experience in the application of the scientific method through laboratory activities. Four hours per week of lecture/discussion/laboratory. A field trip outside of regular course hours may be required. Prerequisite: Entry Level Mathematics (ELM) certification.

GES 101 (3)
Matter, Molecules, Life, and the Environment I [Physical Science]
The first semester of a two-semester course covering the areas of matter/energy, molecules, living systems, and environment. These modules will cover major concepts in the physical and biological sciences, emphasizing their application to real-world problems. Concepts covered will include the interactions of matter and energy, laws of motion, atomic structure of matter, structure and properties of molecules, principles of genetics, structure and function of living organisms, evolution, and interactions of organisms with each other and their environment. Includes practical experience in the application of the scientific method through laboratory activities. Four hours per week of lecture/discussion/laboratory. A field trip outside of regular course hours may be required. Prerequisite: Entry Level Mathematics (ELM) certification.
GES 102 (3)
Matter, Molecules, Life, and the Environment II [Life Science]
The second of a two-semester course consisting of integrated modules covering the areas of matter/energy, molecules, living systems, and environment. These modules will cover major concepts in the physical and biological sciences, emphasizing their application to real-world problems. Concepts covered will include the interactions of matter and energy, laws of motion, atomic structure of matter, structure and properties of molecules, principles of genetics, structure and function of living organisms, evolution, and interactions of organisms with each other and their environment. Includes practical experience in the application of the scientific method through laboratory activities. Four hours per week of lecture/discussion/laboratory. A field trip outside of regular course hours may be required. Prerequisite: Completion of the Entry-Level mathematics (ELM) Requirement.

GES 103 (3)
The Life and Environmental Sciences Around Us
Introduces some of the basic concepts and ideas of life and environmental sciences and demonstrates how they are applicable to the world around us. Fundamental ideas to be introduced include evolution, biological molecules, genetics, physiology, and ecology. The scientific principles will be covered from a conceptual viewpoint at a level suitable for non-science majors. Prerequisite: Completion of the Entry-Level mathematics (ELM) Requirement.

GES 105 (3)
Introduction to Physical Science
Introduces some basic concepts of physics and chemistry. Subjects to be covered are: Forces and Motion, Energy, Waves, Light, Properties of Matter, Chemical Reactions, the Atomic Theory and Chemical Bonding. Although the subjects will require some mathematical knowledge, the scientific principles will be covered from a conceptual viewpoint. Intended for the non-science major and fulfills the lower-division Physical Science requirement. This course also fulfills the Elementary Subject Matter preparation in physical science for Liberal Studies majors. Prerequisite: Entry Level Mathematics (ELM) certification.

GES 110 (1)
Activities in Physical Science
A laboratory course intended to demonstrate some of the basic ideas of physical science. Emphasizes the scientific method, collection and interpretation of data, graphical representations of data and their significance, and the principles of good experimental design, as related to physical science. Experiment subjects will focus on the larger overriding principles of physical science, such as the Law of Conservation of Mass, the Law of Conservation of Energy, Newton’s Laws of Motion, Properties of Light, etc. This course fulfills the B3 requirement. May not be taken for credit by students who have received credit for GES 101. Prerequisite: Completion of B1 requirement.

GENERAL EDUCATION – SOCIAL SCIENCE (GESS)

College of Arts and Sciences

GES 101 (3)
Order and Change: Multiple Perspectives I
Through the interdisciplinary analysis of one social issue in depth, students learn the components of the scientific method (variables, hypothesis formation and testing), explore methods and objectives of at least four social science disciplines, and examine multiple perspectives such as gender, race, and class. Students learn about the social construction of community, regional, national and/or global problems, the interconnections between those levels, and how social change occurs over time.

GES 102 (3)
Order and Change: Multiple Perspectives II
The second of a two-semester sequence continues student’s exploration of social issues which have captured the imagination of social scientists and others involved in social inquiry. Subject matter includes topics such as social justice, human rights, inequality, oppression, conflict and cooperation, diasporas, and development. Students will apply and further develop the analytical skills introduced in the first semester by investigating their own social world. May include field experience. Prerequisite: GESS 101 or consent of instructor.

GENERAL EDUCATION – WRITING (GEW)

College of Arts and Sciences

GEW 050 (3)
Basic Writing Skills
Instruction and supervised practice in the fundamentals of writing. Intended primarily for students who receive a RP in GEW 101 and who need more practice in basic composition. Note: GEW 050 does not count toward any graduation requirement to be completed at CSUSM. It is counted in determining financial aid and VA benefits. This course is not applicable to the requirements of a baccalaureate degree. All students enrolling in GEW 050 must have taken the CSU English Placement Test. May not be taken for credit by students who have received credit for LTWR 050. Prerequisite: GEW 101 with final grade of RP.

GEW 101 (3)
Principles of Written Communication
Focuses on writing as critical inquiry through readings of cultural texts. Students are expected to reflect critically on their processes of writing and reading, and to interrogate the ways in which texts reproduce particular social constructions and power relations, such as those around gender, race, nationality, class, disability, and sexuality. Students learn to question, explore, explain, analyze, develop, and critique ideas effectively; undertake writing projects that have depth and complexity; and make appropriate decisions about argument, structure, and rhetorical conventions. Fulfills the lower-division general education requirement in written communication.

GERMAN (GRMN)

College of Arts and Sciences

Note: The World Languages and Hispanic Literatures Department currently offers lower-division courses in German on a regular basis, and will offer upper-division courses on a modified basis. Students are urged to consult the Class Schedule for offerings.

GRMN 101 (4)
Beginning German I
Designed to develop basic ability in pronunciation, reading, writing, and listening comprehension in German. Assumes no prior knowledge of German.
GRMN 102 (4)  
Beginning German II  
Further study of the basic concepts of German. Designed to develop basic ability in pronunciation, reading, writing, and listening comprehension in German. Prerequisite: GRMN 101 or equivalent.

GRMN 201 (3)  
Intermediate German I  
Continuation of the development of communicative competence in German at the intermediate level. Includes structured practice of writing, speaking, reading, and listening comprehension in German. Conducted in German. Prerequisites: GRMN 101 and 102 or equivalent.

GRMN 202 (3)  
Intermediate German II  
Continuation of the development of communicative competence in German at the intermediate level. Emphasis on oral production, composition, reading and listening comprehension. Includes an introduction to German culture. Conducted in German. Prerequisites: GRMN 101, 102, and 201 or equivalent.

GRMN 311 (3)  
Advanced German  
Focuses on further development and refinement of the four primary skills in German (speaking, writing, reading, and listening comprehension), in addition to a study of cultural factors which affect communication. Conducted in German. Prerequisite: GRMN 202 or equivalent.

GRMN 312 (3)  
German Composition and Advanced Oral Practice  
Advanced-level practice of German through oral and written exercises. Conducted in German. Prerequisite: GRMN 202 or equivalent.

GRMN 315 (3)  
Introduction to Literature in German  
Designed to help students read, understand, and enjoy a representative selection of masterpieces of German literature. It will survey the development of German literature from the age of Enlightenment to the present. Readings in fiction, poetry, and drama will introduce the students to a critical approach to literature. Conducted in German. Recommended GRMN 311. Prerequisite: GRMN 202 or equivalent.

GRMN 318 (3)  
Business German  
German language and culture within the context of German business and economics. Extensive reading, listening comprehension, and speaking exercise about up-to-date issues related to business and political matters. Course conducted in German. Prerequisite: GRMN 202 or equivalent.

GRMN 331 (3)  
Introduction to German Linguistics  
Introduction to the linguistic analysis and scientific study of the German language. Examines a number of topics in German linguistics, including historical development and the relationship of German to other Germanic languages, German phonetics and phonology, morphology and word formation, and syntax. Looks at German sociolinguistics and dialectology, as well as varieties of German spoken in Eastern Europe and the Americas. Course is taught in German and English. Prerequisite: GRMN 202 or equivalent.

GRMN 350 (3)  
Civilization and Culture of German Speaking Countries  
Study of the culture and civilization of the German people and the Germanic world. Analysis of literature, art, history, geography, and contemporary social structures. Conducted in German. Prerequisite: GRMN 202 or equivalent.

GRMN 390 (3)  
Topics in German Literature  
Selected topics of study drawn from German Literature. Topics will vary according to the instructor, and the semester offered. Students should check the class schedule for listing of actual topics. May be repeated for credit as topics change for a total of six (6) units. Conducted in German. Prerequisite: GRMN 311 or 312, or consent of instructor.

GRMN 395A (1) 397B (2) 395C (3)  
Independent Study  
Students will study their own field of interest within German, Austrian, and Swiss literature and culture. Readings, written papers, and oral discussions will be guided by the instructor. A minimum of three analytical papers will be required. Students must meet weekly with the instructor. May be repeated for a total of nine (9) units. Conducted in German. Prerequisite: Consent of instructor.

HUMAN DEVELOPMENT (HD)  

College of Arts and Sciences  

HD 300 (3)  
Administration in Social Service Settings  
Theory and research in the effective management and administration of social services. Subject matter includes funding and grant-writing, licensure, decision making and leadership, personnel management, public relations, and program evaluation. May not be taken for credit by students who have received credit for MGMT 302 and HD 302. Prerequisite: Consent of instructor.

HD 301 (3)  
Theories of Human Development  
A survey of theories and research strategies in human development. Through drawing on foundational work in the fields of biology, psychology, and sociology, the course will focus on developing interdisciplinary frameworks for understanding human development from birth to death.

HD 361 (3)  
Introduction to Interpersonal, Interviewing, and Interaction Skills  
Provides basic training in the interpersonal skills integral to counseling-related careers. Prerequisite: Consent of instructor.

HD 490 (3)  
Human Development in Perspective  
A socially relevant “real world” problem or situation in human development will be considered from the perspective of several disciplines. Capstone course designed to be taken during the final year of undergraduate study. Prerequisites: All lower-division requirements, nine (9) units of upper-division courses applied toward the major, and consent of instructor.

HD 495 (3)  
Field Experience in Human Development  
Supervised experience providing service in a developmental setting. Students will spend approximately six (6) hours a week in a child and/or adult day or residential care placement in observation, participation, and service, attend weekly class meetings, read related material and prepare written reports. May be repeated for a total of six (6) units, but no more than three (3) units of credit may be applied towards the major. Prerequisites: All lower-division requirements, and department Chair after completion of pre-course orientation.
HD 497 (3)  
**Applied Research in Human Development**  
Reviews the importance of theory, research objectives and various quantitative and qualitative methods. Students will be expected to participate in the development and implementation of an applied research study that they either initiate or is part of an ongoing research study. Through the class students will be exposed to data collection, data coding, data analysis and manuscript preparation. Prerequisites: PSYC 220 and 230.

HD 499A (1) 499B (2) 499C (3)  
**Supervised Independent Study**  
Independent study deals with a special interest not covered in a regular course or with exploration in greater depth of a subject introduced in a regular course. Discussion in individual conferences. May be repeated for a total of six (6) units of credit. Prerequisite: Consent of instructor.

HISTORY (HIST)  
**College of Arts and Sciences**

HIST 130 (3)  
**U.S. History 1500-1877**  
Survey of the development and changing historical interpretation of American institutions and society from the colonial period through Reconstruction. Special attention to the interplay of European, American Indian, and African cultures in this development. Themes include immigration, colonial formation, Indian-white contact, constitutional development, economic change, religion, slavery, race relations, status of women, westward expansion, reform and political parties. May not be taken for credit by students who have received credit for HST 230.

HIST 131 (3)  
**U.S. History 1877-Present**  
A survey of the development and the changing historical interpretation of institutions and society in the United States from the end of Reconstruction to the present. Special attention to the interplay between races and cultural diversity and conflict. Themes include immigration, constitutional development, politics, economics, religion, reform, the growth of the U.S. as a world power, status of women, westward expansion and urbanization. May not be taken for credit by students who have received credit for HST 231.

HIST 201 (3)  
**World Civilizations to 1500**  
Surveys the history of the world from the early river-valley civilizations to the year 1500. Emphasis upon Afro-Eurasia and the Americas. Subject matter includes politics, society, religion, and global interactions.

HIST 202 (3)  
**World Civilizations from 1500 to the Present**  
Surveys the history of the world from the commercial empires of the 16th Century to the present. Examines global convergences, colonialism, imperialism, and the modern world system.

HIST 300 (3)  
**Thematic Topics in History**  
Thematic topics in History. Topics may come from any world area or be comparative. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

HIST 301 (3)  
**Historical Methods and Writing**  
Explores the various approaches historians take to their study and a variety of styles of historical writing including analytical reviews, abstracts, and the research paper. May not be taken for credit by students who have received credit for HST 395.

HIST 306 (3)  
**History of Internationalism and Human Rights**  
A course in intellectual history that considers the history behind the idea of human rights in the modern world. Explores how historical ideas about universalism and human nature from the 18th century forward led to challenges to the nation-state system as the dominant model of international society. Subjects include abolitionist movements, anti-imperialism, self-determination and humanitarian agencies, with special emphasis on the League of Nations, United Nations and the challenges that human rights pose to questions of national sovereignty. May not be taken for credit by students who have received credit for HST 300G.

HIST 307 (3)  
**The Politics of Irish Nationalism**  
Presents Irish History both as case study in European nationalist movements and as model for British colonial/imperial relations. Examines impact of nationalism and colonialism on state-building, economic development and cultural/intellectual life. Particular emphasis on relationship between nationalist movements, colonial policy, and political violence. May not be taken for credit by students who have received credit for HST 300G.

HIST 308 (3)  
**National Cinema and National History in 20th Century Europe**  
Explores the history of how European national identities were created, defined and sustained in the 20th Century through the new medium of motion pictures. Examines the creation of national cinemas in several countries including Germany, France and the Soviet Union. Considers films and filmmakers as manufacturers of national identities and myths both in support of and in opposition to European states in the 20th Century as a way of understanding a nation’s history.

HIST 309 (3)  
**Ancient Middle East**  
An overview of the social, political, and cultural developments of the civilizations of the ancient Middle East, including Mesopotamia (Sumer, Akkad, and Babylonia), Egypt, Israel, Phoenicia, Asia Minor, Assyria, and Persia, and the interactions among them.

HIST 310 (3)  
**Ancient Greece**  
An overview of the development of the social political, and cultural institutions of ancient Greek civilization from the Bronze Age kingdoms of the Minoan and Mycenaean periods, through the independent cities-states of the Archaic and Classical periods (particularly Sparta and Athens), to the conquests of Alexander the Great, which unified the Greeks and Middle Eastern worlds during the Hellenistic period.

HIST 311 (3)  
**The Mediterranean in the Age of Rome**  
The political, social, and economic development of the Roman empire from the founding of Rome to the end of the Western Empire.

HIST 312 (3)  
**The Ancient World in Film**  
An examination of modern cinematic and television depictions of the mythology, drama, and history of ancient Greece and Rome, including the Trojan War, Alexander the Great, Cleopatra, gladiators, and early Christianity. Special emphasis is placed on understanding why the ancient world is such a popular setting for modern films, how accurately such films portray the ancient world, and how they serve as vehicles to express modern concerns and ideologies. May not be taken for credit by students who have received credit for HST 300M.
HIST 313 (3) Church and Society in Medieval Europe
Explores the relationship of religion to other aspects of medieval society. Includes exploration of religious orders, class, the arts, witchcraft, church-state relations, and feudal structures.

HIST 316 (3) Gender and Authority in Medieval and Early Modern Europe
An exploration of gender ideologies and practices in traditional European society. Examines literacy and printing, scientific and economic transformation as well as the beginnings of European expansion. Focuses on women's roles in medieval and early modern Europe. Subjects considered include: sexual ideologies, labor and domestic roles, the regulation of sexual practices by church and state, and the use of gendered imagery in the construction of political authority. Meets major requirements in women's history.

HIST 317 (3) Renaissance and Reformation of Europe
Europe in the era of the Renaissance and Reformation. Explores the rise of nation states in an era of profound religious change. Examines demographic and economic transformation as well as the beginnings of European expansion.

HIST 318 (3) Society and Culture in Early Modern Europe
Changes in European thought, art, and society from the Renaissance to the Enlightenment. Treats the development of two European cultures — elite and popular — in response to religious change. Examines literacy and printing, scientific thinking, and developments in political theory.

HIST 322 (3) Interwar Europe 1918-1939
Political, economic and cultural/artistic responses to WWI in Europe. Explores the attraction of totalitarian political ideologies, the aftermath of the Paris Peace Conference, economic upheaval in the Great Depression and the coming of WWII. Subjects include rise of Nazism, Spanish Civil War, Modernist movements in thought and the arts, rise of Stalinism, peace and appeasement.

HIST 323 (3) Society and Culture in Modern Europe
Changes in European thought, art, and society from the rise of romanticism to post-modernism.

HIST 324 (3) The Enlightenment and European Society
Examines the tumultuous and world-changing ideas of the Enlightenment of 18th Century Europe. Looks at challenges to traditional views of religion, knowledge, politics, gender and peoples on other continents.

HIST 325 (3) Revolutionary Europe
Political, social, and cultural responses to revolutionary movements in Europe from 1789 to the present. Explores the role of class, gender, ideology, as well as political and economic structures in both “successful” and “failed” revolutions from the French Revolution through recent struggles in eastern Europe.

HIST 326 (3) Europe Since 1945
Political, economic, and social developments in contemporary western Europe since the end of World War II. Themes include European relations with the United States and issues of “Americanization”, political and economic integration and rivalry: terrorist, radical and youth movements since the 1960s; demographic trends and issues of immigration/multiculturalism.

HIST 327 (3) Women in Modern Europe
The experience of women in Europe from the 17th Century to the present. Themes include changes in the definition of women’s roles, legal and political status, education, with attention to the impact of industrialization, the cult of womanhood, war, state family and welfare policies on women’s lives. Meets major requirements in women’s history.

HIST 330 (3) The Constitution and American Society
Origins and writing of the U.S. Constitution and the political and social issues that have arisen as the Supreme Court and others have interpreted, amended, and implemented the basic law of the United States.

HIST 331 (3) Law, Women, Family, and American History
Explores the ways law has shaped women’s lives and the family from the colonial period to the present in the United States. Includes questions of inheritance, regulation of marriage and custody, regulation of sexuality, legal definitions and control of abuse, employment legislation, legal and civil rights. Special attention paid to the differential impacts of race and class. Meets major requirements in women’s history.

HIST 332 (3) Women in the United States
The changing roles and status of women from the colonial period to the present. Explores the way women and society have continuously redefined work, family, law, education, and political activity. Meets major requirements in women’s history.

HIST 334 (3) Foundations of the African-American Experience
The experience of African-Americans in American society from the colonial period to 1865. Includes an investigation into African heritage, the middle passage, ante-bellum African-American culture, enslavement, the struggle against slavery, the position of free blacks, and emancipation.

HIST 335 (3) The African American Struggle for Equality
A survey of the development of traditional and legal segregation, the challenge provided by civil rights movements and related themes such as black separatism and nationalisms.

HIST 336 (3) The U.S. Historical Experience: United States Colonial Experience
The development of cultural and political institutions of work, family, and society in the British colonies, including interactions between American Indians, Europeans, and Africans. May not be taken for credit by students who have received credit for HIST 333.

HIST 336A (3) The U.S. Historical Experience: United States Early Republic
An intensive consideration of the crucial first 50 years of the United States, with particular attention to the development of key political institutions and the dramatic expansion of the national economy. Subjects include the consolidation of the two party system, the growth and limits of the federal government, developing sectionalism, early industrialization, the elaboration of the Southern slave system, and the rise of gender-based, religiously inspired reform movements.
HIST 336C (3)  The U.S. Historical Experience: U.S. Civil War Era, 1845-1877
Focuses on the process of division, war, and reunion from 1845 to 1877. Examines the social and economic structures of the United States in the antebellum period and the evolution of the political crisis that led to the South's secession and to civil war. Treats the Union and Confederate home fronts during the war and analyzes major military strategies and battles. Devotes a high priority to the experience of African-Americans throughout this period. Finally, it looks at the successes and failures of the efforts to reunify and reconstruct the nation in the post-Civil War years. May not be taken for credit by students who have received credit for HIST 300A.

Focuses on the "Progressive Era" in American life. A time of enormous change and development and a period that saw numerous reforms at the local, state, and national levels. Examines the major forces changing American life, such as industrialization, finance capitalism, urban growth, business immigration, trade unionism, the urban poor, and the plight of laborers, women, and minorities. Looks at the perceived loss of traditional values and the sharp conflicts between urban and rural areas. Finally, analyzes the nation’s rise to become an international, military, economic, and financial power. May not be taken for credit by students who have received credit for HIST 300B.

HIST 336E (3)  The U.S. Historical Experience: Prosperity, Depression, and War: The United States from 1920-1945
An exploration of society in the United States from 1920 to 1945. Between these years the United States moved from seemingly widespread prosperity through the Great Depression and into WWII. All of these phases induced profound changes in American society which will be monitored by examining how Americans from diverse backgrounds responded to the challenges of these eras. Covers such issues as the intolerance of the 1920s which included the "Red Scare" and a renewal of racism; the class divisions of the 1920s which became so apparent during the depression, and the impact that WWII not only had on American society as a whole, but specifically on women and minorities. May not be taken for credit by students who have received credit for HIST 342.
HIST 348 (3)
**United States Film History**
Introduction to the history of film in the United States from its inception at the turn of the 20th Century to the present. Explores the many facets of U.S. film and looks at the manner in which the film industry developed during the course of the 20th Century. Looks at the evolution of film making and the manner in which film reflects American society's tensions over race, class, and gender. **May not be taken for credit by students who have received credit for HIST 300W.**

HIST 349 (3)
**Foreign Policy of the United States**
Foreign policy of the United States from the American revolution to the present.

HIST 350 (3)
**Chicana/o Experience in the Borderlands**
Examines the experience of people of Mexican descent (1840s-1980s) in the “borderlands” including territory in Mexico and the southwestern United States. Emphasizes the Chicano Movement as a socio-political process that generated a distinctive interdisciplinary interpretation of history, “Chicano Studies.” A Chicano Studies approach will be used to examine three borderlands topics: labor, migration, and gender relations. Students will use historical methods to analyze a variety of historical sources. **May not be taken for credit by students who have received credit for HIST 300X.**

HIST 352 (3)
**Mexico, Past and Present**
Starting with the indigenous civilizations in the 16th Century, through the period of Spain's imperial rule, the 19th Century wars of independence, the Revolution of 1910, and up to the present day, students are introduced to one of the most important and fascinating nations in the region. The evolution of economic, political, and social systems are traced with an emphasis on themes of identity, ideology, and resistance. Students practice basic historical methods in the required assignments.

HIST 355 (3)
**Women in Latin America**
Focuses on women and gender in 19th- and 20th-Century Latin America. Students will explore the evolution of the historiography, recent research and first-hand testimonial sources. Connections between gender, race, and class will guide the discussion. **May not be taken for credit by students who have received credit for HIST 300T.**

HIST 356 (3)
**Culture and Identity in Latin America**
Exploring indigenous, European, and African elements, this course encompasses Latin American nations which trace their origins to the Spanish and Portuguese empires. The theme of identity guides the discussion of cultural expressions in the aural, literary, plastic, and visual genres. The goal of national cultural unity contrasts with alternative notions of diversity, and the nation-state is the terrain where this cultural debate takes place. The time period will be limited to the 19th and 20th centuries, allowing students to study contemporary cultural expressions as well as current historical analysis.

HIST 359 (3)
**A History of Brazil**
Starting with the arrival of the Portuguese in the early 16th Century through the long colonial period, independence, the Brazilian Empire, and, in the 20th Century, periods of alternating republican and military rule, this course introduces students to the fascinating experience of the other Latin America. Themes of race and economic modernization surmise the political and cultural evolution of this nation. Syncretism in Brazilian culture and society emerges as a central theme.

HIST 360 (3)
**Classical Asia**
Introduces students to a selected body of classical texts from Asia, which include philosophical treatises, religious tracts and literary masterpieces that have become the intellectual foundation of Asian civilization. Focuses on culture and ideas, and helps students understand the historical and intellectual roots of contemporary Asia.

HIST 362 (3)
**China and the West**
An exploration of the relations between China and Europe since the 16th Century. Special attention to internal change, religion, and economics as well as diplomacy and politics.

HIST 363 (3)
**China in Revolution**
China since the revolution of 1911. Themes include the rise of Chinese nationalism, civil war, the Japanese invasion, rise of communism, and the cultural revolution.

HIST 364 (3)
**Image and Reality — Film and Modern Chinese History**
Examines modern Chinese history by looking at a group of selected popular films produced in that country during the last 70 years. By analyzing the images and motifs of these selected films, students will discuss the recurring themes and concerns as expressed by the Chinese filmmakers and seek connection between these visual manifestations and the nation’s modern history.

HIST 365 (3)
**Tradition and Change in Japan**
Japanese History from the mid 19th Century to the present with special attention to the interplay between traditional institutions and modernization, and on the expansion of Japan.

HIST 367 (3)
**Women in China**
Survey of women’s history in traditional China with an emphasis on the late imperial period (16th to 18th centuries). Students will read Western feminist theories together with historical records on Chinese women. The objectives of the class are: (1) to critically evaluate the universalistic claims of Western theories; (2) to learn how to ask new questions about Chinese women; (3) to gain an understanding of the ways Chinese women actually experienced their lives; and (4) to examine issues related to feminism and women’s studies from a comparative perspective.

HIST 370 (3)
**Early African History**
Part I survey of African history discusses the culture expressed through the lives of the elite and the ordinary people, art and literature, and the ritual and belief systems of the African civilizations from the earliest times to 1800. Specific issues include the invention of agriculture, art and oral literature as historical records, centralization of state and urbanization and commerce, observance of religious and ritual ceremonies, and the impact of all these developments. **May not be taken for credit by students who have received credit for HIST 270 and HIST 300Y.**
HIST 371 (3)  
Modern African History  
Part II survey of African history examines the political, socio-economic, and cultural issues in Africa (particularly in Sub-Saharan Africa), from 1800 to the present. Issues considered include Africa’s increasing economic and political transformation before European intrusion, colonial occupation, and African resistance, African response to colonial overrule, and the coming of independence and Africa’s challenges in world affairs. May not be taken for credit by students who have received credit for HIST 271 and 300V.

HIST 374 (3)  
Africa Under European Imperialism 1000-1975  
Studies European imperialism in Africa and its political economic, and socio-cultural impact. Emphasizes the various theories about imperialism, including Marxist, dependency and modernist theories, especially pertaining to the motives, policies, and legacies of the colonial imperialist activities.

HIST 375 (3)  
African Nationalism and Independence  
Explores the rise of African nationalism since the 1940s, and the course of Africa’s regaining of independence. Pays specific attention to the leading personalities in the struggle for independence and their nationalist philosophies. The political, economic and cultural challenges of African nationalism today such as electoral and conflicts, and the poor state of the economy and education, will also be examined.

HIST 379 (3)  
Africa and the World in the 20th Century  
Thematic rather than a chronological study of Africa and the world in the 20th Century. Focuses on select global themes such as Pan-Africanism, communism, the Cold War and the United Nations organization, and explores how they have variously influenced the course of African history.

HIST 380 (3)  
The Middle East, 600 to 1700 C.E.  
Explores the history of the region from the rise of Islam to the eighteenth century. Emphasizes the social, cultural and political and circumstances of the rise of Islam; the formation and development of the early caliphate; the rise of Islamic successor states; the age of Ottoman and Safavid “gunpowder” empires; forms of cultural expression, such as art and literature; the role of women and ethnic and religious minorities, and the integration of the Middle East into an emerging world system.

HIST 381 (3)  
Comparative French Colonialism: From the Caribbean to Indochina  
Compares French colonialism in a variety of contexts, such as Haiti, Algeria and Vietnam. Examines the perspective of the colonizers and the colonized, and will bring together works of colonial theory, history, literature, and film. Explores the economic, cultural, political, and social aspects of colonialism French-style, from the eighteenth century to the present.

HIST 382 (3)  
Travel and Contact in the Early Modern World  
Examines encounters between people from different cultures in the early modern period (Approximately 1500-1800). Students will read travel and captivity narratives, along with scholarly analyses of travel and of intercultural contact. Focuses on how cultural differences were regarded and managed by different peoples and different states.

HIST 383 (3)  
Women and Jewish History  
What was it like to be both a woman and a member of a minority group, in the diverse locales where Jews have lived? Examines the experiences of Jews in various parts of the world by focusing on the lives of women, using several historical case studies. Also covers important themes and changes affecting Jewish history, such as religious tradition, emancipation, assimilation, anti-Semitism, immigration, Zionism, the Holocaust and feminism.

HIST 384 (3)  
Women and Gender in the Middle East  
Examines the history of women and gender in the region from the rise of Islam to the present. Emphasizes historiographical approaches; the roles of women in early Islamic societies and later empires; issues concerning class, ethnicity, and religion; work, marriage and family; colonialism, nationalism, and modernity; and women’s participation in twentieth-century social and political movements. May not be taken for credit by students who have received credit for HIST 300F. Meets major requirements in women’s history.

HIST 385 (3)  
Middle East, 1700-Present  
Explores the history of the region from the eighteenth century to the present. Begins with the question of imperial decline and investigates the cultural and political responses of Middle Eastern societies to the challenges of European colonialism and imperialism; the emergence of nationalism and nation-state building; and modern social, political, intellectual, and religious movements. Emphasis on the historical background and development of contemporary issues, such as revolution, Islamism, women’s rights, and globalization.

HIST 388 (3)  
History of War in Modern Society  
Explores the history of war from the sixteenth century to the realities of both “total” wars and “world” wars; considers the role of war in modern state-building, in social movements and institutions, and in intellectual and artistic expression. An important aspect involves a consideration of the intellectual, philosophical and cultural history of war, including the development of the ethics of war in an international context. This is not a course in military history.

HIST 389 (3)  
Historical Transformation of Money and Power  
Reviews the development of the global political economy (GPE) beginning in the 6th Century B.C. with a particular focus on the history of Western forms of industrialization and economic activity over the past two centuries. Explores how political, historical, economic, technological and cultural factors shaped the evolution of the GPE and how to use them to analyze the transformation of the ideas about and operation of the world political economy. Analysis will be at a system, rather than a state, level and will examine how the convergence of various factors have created an interdependent global political economy. Lectures, case studies, group activities and discussion formats will all be used throughout the course. Also offered as PSCI 363. Students may not receive credit for both. May not be taken for credit by students who have received credit for HIST 300N.
HIST 390 (3)  
Science and Technology in U.S. History  
Considers the interaction of science and technology with the historical development of the United States, from Franklin’s experiments with electricity to the computer revolution in Silicon Valley, including discussions of the impact of Darwinism, the influence of electrical, communication, and transportation systems on our society, and the innovations in physics, biochemistry and earth science that shape our weaponry, our medicine, and our interaction with the environment.

HIST 391 (1)  
Foreign Language Practicum in History  
Requires a student to do historical readings and research in a foreign language on a regular basis. Students must be concurrently enrolled in a three (3) unit History course where such foreign language study is appropriate. Readings may either be substitutions or additions to the standard reading list for that class, but shall constitute at least twenty percent (20%) of the total. May be repeated for a maximum of three (3) units. Credit may not be counted toward the thirty (30) unit upper-division major requirements. Prerequisite: Consent of instructor and completion of the CSUSM History major’s language requirement.

HIST 392 (1)  
Experiential Learning in History  
Opportunity to provide needed community services through experiential learning. Requires a minimum of 35 hours on-site and a journal reflecting on activities. May not be counted toward the History major. Prerequisite: Consent of instructor.

HIST 398 (3)  
Independent Study  
Directed readings under the guidance of an instructor. Several short analytical papers required. Prerequisites: Consent of instructor and discipline advisor.

HIST 400 (3)  
Seminar in European History  
An intensive look at selected areas of European History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 440 (3)  
Seminar in Latin American History  
An intensive look at selected areas of Latin American History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 450 (3)  
Seminar in African History  
An intensive look at selected areas of African History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 460 (3)  
Seminar in World History  
An intensive look at selected areas of World History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 470 (3)  
Seminar in Asian History  
An intensive look at selected areas of Asian History. A capstone course for history majors in which they draw from their previous work and write a paper focusing on their primary theme. Prerequisites: HIST 301 or consent of instructor.

HIST 490A (1) 495B (2) 495C (3)  
Internship  
On-site work for a historical agency such as an archive or museum, or providing historical research for a business or public agency. Requires assigned readings in theory and historical background, and a sustained project. May be repeated for a total of three (3) units. Arranged upon request through the History discipline. Prerequisites: Fifteen (15) units of upper-division History work, and consent of supervising faculty and discipline advisor. Prerequisites: All lower-division pre-business core and BUS 304.

HIST 499 (3)  
Independent Research  
Development of an extended research paper using primary and secondary sources in consultation with a faculty advisor. Prerequisites: Fifteen (15) units of upper-division History work including HIST 301 and consent of instructor and discipline advisor.

HIGH TECHNOLOGY MANAGEMENT (HTM)

College of Business Administration

HTM 302 (2)  
Foundations of Operations Management  
Introduces the elements associated with the design and operation of a service organization and the integration of these elements within the overall corporate strategy. Contemporary issues covered include operations in global markets, designing and controlling the service process and planning for operations. HTM 302 is designed for the ACCT, FIN, GBM, and SSM Options. HTM 305 is required for the HTM Option. Students need to refer to their option checklist for the appropriate introductory production and operations management requirement. May not be taken for credit by students who have received credit for HTM 305 and POM 302. Prerequisites: All lower-division pre-business core and BUS 304.

HTM 304 (4)  
Management Information Systems  
Introduction to subjects in management information systems. Includes computer hardware and software, databases, information systems development, and the role of information systems in the organization. Three hours of lecture and two hours of laboratory. First day attendance is required or student may be dropped from the course at the instructor’s discretion. MIS 302 is designed for the GBM and SSM Options. HTM 304 is required for the HTM Option and may be substituted for ACCT 308 for the FIN Option. Students may not apply units from both MIS 302 and HTM 304 toward the major. Students need to refer to their option checklist for the appropriate introductory information systems requirement. Prerequisites: All lower-division pre-business core and successful completion of University computer competency requirement.
BUS 304.

All lower-division pre-business core, University lecture and two hours of lab. Prerequisites: usage of software packages. Three hours of with an added lab component to enhance the

PREREQUISITES: All lower-division pre-business core and BUS 304.
HTM 482 (2)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 483 (3)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 484 (4)
Selected Topics in High Technology Management
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HTM 485 (4)
Selected Topics in High Technology Management with Lab
A survey course of selected topics in high technology management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

HUMANITIES (HUM)

College of Arts and Sciences

HUM 101 (3)
Introduction to Humanities, I
An introductory survey of culture from a humanistic perspective, with particular emphasis on the Greco-Roman, Judeo-Christian, and West African cultures. Historically structured from earliest times to the Renaissance, the course presents highlights from history, science, philosophy, literature, drama, dance, art, architecture, and music. Appropriate readings and written analysis. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

HUM 102 (3)
Introduction to Humanities, II
An introductory survey of culture from the Renaissance to the present with particular emphasis on Europe, Africa, Asia, and the Americas. Historically structured, the course presents highlights from history, science, philosophy, literature, drama, dance, art, architecture, and music. Appropriate readings and written analysis. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

HUM 300 (3)
The Individual and Community
An exploration through the lens of the humanities of the relationship in European culture between the individual and the various communities — social, political, religious, and cultural — of which the individual was a part. Class materials for analysis will integrate examples from literature, religion, philosophy, history, and the arts.

HUM 301 (3)
The Individual and the State
An exploration through the lens of the humanities of the relationship in European culture between the individual and the state from the Enlightenment to the present. Themes may include patronage of the arts, the relationship of romanticism to nationalism, theories of dissent and individualism, and fascism. Materials for analysis will integrate examples from literature, religion, philosophy, history, and the arts.

INTERDISCIPLINARY STUDIES (ID)

College of Arts and Sciences

ID 170 (3)
Introductory Special Topics in Interdisciplinary Perspectives in the Social Sciences
Explores an introductory interdisciplinary topic in the social sciences. May be repeated for credit as topics change. Students should check the Class Schedule for listing of actual topics.

ID 202 (1)
Pre-Health Service Learning
Designed for the lower-division student planning a career in one of the health professions (e.g., medicine, dentistry, chiropractic, optometry, pharmacy, veterinary medicine). Students will attend regular classroom meetings (one-hour per week) and spend a minimum of two hours per week at a Service-Learning placement. Students will carefully choose a Service-Learning placement that matches their career interests and will enhance the process of developing a career path.

ID 301 (3)
Latin America in the 21st Century
Interdisciplinary overview of salient issues facing Latin America as we approach the end of the 20th Century. Issues are illustrated with case material from different countries. Draws from social science perspectives, as well as history and Latin American literature. May not be taken for credit by students who have received credit for ID 370D.

ID 306 (3)
Dilemmas of Modern Mexico
Explores Mexico’s economic and political development during the 20th Century. In-depth analysis of the economic and political crisis of the 1980s and responses to the crisis in the 1990s.
May be repeated for credit as topics change.

Class Schedule for listing of actual topics. May be repeated for credit as topics change.

Explores an interdisciplinary topic in the humanities, social sciences, and humanities. Case studies may be drawn from the boundaries of sciences, social sciences, and humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

Explores an interdisciplinary topic in the humanities, social sciences, and humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

Explores an interdisciplinary topic in the social sciences. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 340B (3)
Diversity and Discrimination in the U.S.
Analyzes the impacts of gender, race, ethnicity, socio-economic status, religion, sexual orientation, and disability on diversity, discrimination, and social mobility in the U.S. Evaluates the challenges and opportunities for making democracy and social justice possible for all the people in the United States, including the impact of egalitarian values and the mechanisms that attempt to institutionalize them. This course includes applications for border and regional contexts.

ID 350 (3)
Topics in Interdisciplinary Perspectives in the Humanities, Social Sciences and/or Sciences
Explores an interdisciplinary topic from the perspective of at least two disciplines across the boundaries of sciences, social sciences, and humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 360 (3)
Topics in Interdisciplinary Perspectives in the Humanities
Explores an interdisciplinary topic in the humanities. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 370 (3)
Topics in Interdisciplinary Perspectives in the Social Sciences
Explores an interdisciplinary topic in the social sciences. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 371 (3)
Ethnic Identity in America
Explores ethnicity and ethnic identity in American society, focusing on the social factors that help explain its persistence in the face of social science predictions that ethnic distinctions, identity, and distinctiveness would disappear with an increasing urbanization and post-industrial economic order. Four major areas are explored: American Indians, Latinos, Blacks, and Asians (specific groups will be selected).

ID 380 (3)
Topics in Interdisciplinary Perspectives in the Sciences
Explores an interdisciplinary topic in the sciences. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change.

ID 381 (3)
Natural Science for Teachers
Provides the prospective K-6 teacher with some background in the nature of scientific inquiry, data interpretation, and fundamental concepts in both physical and life sciences. Based on an inquiry-oriented approach to learning. The content will be equally divided between life and physical science. This course meets four (4) hours per week. Two hours of lecture and two hours of activity. Prerequisites: The Entry-Level Mathematics requirement, Lower-division General Education, and participation in science semester of the Integrated Credential Program.

ID 410 (3)
Militants and Activists: Movements for Social Change
Interdisciplinary exploration of how ordinary citizens create social change by organizing and participating in collective action. When, why, and how do ordinary citizens become activists and militants? Why and how do social movements succeed or fail? Presents theories of collective action and social change, and explores case studies of social movements and other social protests through the lenses of multiple disciplines. Case studies may be drawn from any region in the world.

ID 498A (1) 498B (2) 498C (3)
Interdisciplinary Library Research in the Natural Sciences
In-depth reading and researching of the literature on current interdisciplinary issues in the sciences. The student must develop an independent study project in consultation with a primary research advisor from biology, chemistry, physics, or psychology and a secondary research advisor from a second discipline. The student must write a research paper (approximately 10-20 pages) summarizing the current knowledge of the subject. The paper should include a list of literature citations in the accepted format for the primary field. An independent study contract must be completed and signed by both primary and secondary research advisors by the end of the second week of classes. Prerequisite: At least one course in the primary subject area with a grade of B or better and consent of both instructors.

ID 499A (1) 499B (2) 499C (3)
Interdisciplinary Laboratory Research in the Natural Sciences
An original research project involving interdisciplinary research in the sciences. The student must develop an independent research project in consultation with a primary research advisor from biology, chemistry, physics, or psychology and a secondary research advisor from a second discipline. The student must write research paper (approximately 10-12 pages) summarizing the current knowledge of the research problem, the goal of the research project, the experimental methods used, the results, and how the results forward the current state of knowledge in the field. The paper should include a list of literature citations in the accepted format for the primary field. An independent study contract must be completed and signed by both primary and secondary research advisors by the end of the second week of classes. Prerequisite: At least one laboratory course in the primary subject area with a B or better and consent of both instructors.
INTERNATIONAL PROGRAM (IP)

University-wide

IP 250 (1-12)
International Program Study Abroad
Open to students enrolled in California State University International Programs. Study undertaken in a university abroad under the auspices of The California State University. Prerequisite: Admission to CSU International Programs.

IP 270 (1-12)
International Exchange Program
Open to students enrolled in CSUSM Exchange Programs. Study undertaken in a university abroad. Prerequisite: Acceptance in Cal State San Marcos Exchange Program.

IP 450 (1-12)
International Program Study Abroad
Open to students enrolled in California State University International Programs. Study undertaken in a university abroad under the auspices of The California State University. Prerequisite: Admission to CSU International Programs.

IP 470 (1-12)
International Exchange Program
Open to students enrolled in CSUSM Exchange Programs. Study undertaken in a university abroad. Prerequisite: Acceptance in Cal State San Marcos Exchange Program.

IP 550 (1-12)
International Program Study Abroad
Open to students enrolled in California State University International Programs. Study undertaken in a university abroad under the auspices of The California State University. Prerequisite: Admission to CSU International Programs.

IP 570 (1-12)
International Exchange Program
Open to students enrolled in CSUSM Exchange Programs. Study undertaken in a university abroad. Prerequisite: Acceptance in Cal State San Marcos Exchange Program.

JAPANESE (JAPN)

College of Arts and Sciences

Note: The World Languages and Hispanic Literatures Department currently offers lower-division courses in Japanese on a regular basis, and will offer upper-division courses on a modified basis. Students are urged to consult the Class Schedule for offerings.

JAPN 101A (4)
Beginning Japanese I (Traditional)
A traditionally taught class focusing on fundamentals of Japanese. Designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures. Assumes no prior knowledge of Japanese. May not be taken for credit by students who have received credit for JAPN 101B. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

JAPN 101B (4)
Beginning Japanese I (Multimedia)
Focuses on the fundamentals of Japanese. Designed to develop basic ability in pronunciation, reading, conversation, and grammatical structures. Students will receive instruction both through lectures and through self-paced language laboratory activities utilizing multimedia. Assumes no prior knowledge of Japanese. May not be taken for credit by students who have received credit for JAPN 101A.

JAPN 102A (4)
Beginning Japanese II (Traditional)
A traditionally taught course which serves as the continuation of JAPN 101 (A or B). Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. May not be taken by students who have received credit for JAPN 102B. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes. Prerequisite: JAPN 101A or 101B, or equivalent.

JAPN 102B (4)
Beginning Japanese II (Multimedia)
Continuation of JAPN 101A or 101B. Further development of basic ability in pronunciation, reading, conversation, and grammatical structures. Students will receive instruction both through lectures and through self-paced language laboratory activities using multimedia. May not be taken for credit by students who have received credit for JAPN 102A. Prerequisite: JAPN 101A or 101B, or equivalent.

JAPN 201 (4)
Intermediate Japanese I
Continuation of Japanese language fundamentals. Emphasis on the development of the skills of reading, comprehension, speaking, and writing and study of Japanese culture. Conducted in Japanese. Prerequisite: JAPN 102A or 102B or equivalent.

JAPN 202 (4)
Intermediate Japanese II
Continuation of JAPN 201. Further development of the four skills, with an emphasis on reading, composition, communication, culture, and review of grammatical structures. Conducted in Japanese. Prerequisite: JAPN 201 or equivalent. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

JAPN 295A (1) 295B (2) 295C (3) 295D (4)
Independent Study in Japanese
Students will study in their own field of interest within Japanese language and/or culture. Readings, written assignments, and oral conversations will be guided by the instructor. Students must meet at least weekly with the instructor. May be repeated for a total of four (4) units. Prerequisite: JAPN 102 or equivalent and of consent instructor.

JAPN 301 (3)
Advanced Japanese I

JAPN 302 (3)
Advanced Japanese II
Further development of increased mastery of modern spoken and written Japanese. Emphasis on vocabulary building, comprehension, grammatical patterns, and idiomatic usage. Conducted in Japanese. Prerequisite: JAPN 301 or equivalent.

JAPN 400 (3)
The Structure of Japanese
Study of grammatical, phonetic and linguistic patterns and structures in modern Japanese, based on advanced proficiency. Conducted in Japanese. Prerequisite: JAPN 302 or equivalent.
JAPN 409  [1-3]
Selected Topics in Japanese
Selected topics related to advanced study of Japanese language, literature or culture. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisites: Consent of instructor and advanced proficiency equal to that attained in JAPN 400.

KINESIOLOGY (KINE)

College of Arts and Sciences

KINE 101 (1)
Aerobics
Aerobic fitness through dance; may include step aerobics. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 102 (1)
Badminton
Development of skill in badminton, including knowledge of rules, strategy and etiquette. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 103 (1)
Basketball
Development of understanding of rules, strategies, and basic skills in competitive basketball. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 104 (1)
Golf
Development of basic skill in playing golf, including rules, etiquette, and background. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 105 (1)
Running
Development of skill and training techniques for intermediate and distance running. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 106 (1)
Soccer
Development of skills, rules and strategy of soccer. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 107 (1)
Tae Kwon Do
Introduction to and exploration of the fundamental concepts, culture, discipline, and basic movements of Tae Kwon Do. May not be taken for credit by students who have received credit for PE 182A and PE 210. Graded Credit/No Credit. May be repeated for a total of four (4) units.

KINE 108 (1)
Volleyball
Development of skills, rules, and strategies of volleyball. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 109 (1)
Weight Training
Instruction in techniques of weight training, with an emphasis on strength, endurance, and flexibility. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 110 (1)
Yoga
The history, philosophy, and modern practice of yoga, with an emphasis on hatha yoga (physical yoga postures). May not be taken for credit by students who have received credit for PE 211. This class meets the physical education requirement for Liberal Studies majors. May be repeated for a total of four (4) units. Graded Credit/No Credit.

KINE 111 (1)
Adapted Physical Education
A physical education course for students with physical disabilities, who require modified forms of physical activity. May be repeated to a total of four (4) units. Graded Credit/No Credit. Prerequisite: Consent of the instructor, who may request a physician’s recommendation for admission into the course.

KINE 202 (3)
Introduction to Physical Education and Kinesiology
Designed for first year and transfer students interested in the physical education profession. The goals of this course are to aid in the prospective majors in their career choices, to introduce students into fields closely related to exercise and nutritional sciences, to introduce students to current issues in exercise sciences, and to introduce students to key events and concepts in the evolution of exercise science as a discipline and as a profession.

KINE 204 (2)
Techniques and Analysis of Fitness and Weight Training
Knowledge and understanding needed to plan and implement fitness and weight training programs. Analysis of the development, maintenance, implementation, and self-evaluation of physical fitness. Implementation of methods, techniques, instructional strategies, safety factors, motivation and necessary equipment for teaching physical fitness and weight training. Instruction and techniques in individual skills and strategies in weight training; also includes instruction on stretching for flexibility and injury prevention. (Open to Kinesiology majors only.)

KINE 205 (2)
Techniques and Analysis of Team Court Sports
Instruction in individual and team skills and techniques utilized in team court sports, with a focus on basketball and volleyball, for successful performance. Knowledge and the understanding needed to plan and implement basketball and volleyball programs. (Open to Kinesiology majors only.)

KINE 206 (2)
Techniques and Analysis of Field Sports
Instruction in individual and team skills and techniques utilized in field sports, with a focus on soccer and field hockey, for successful performance. Knowledge and understanding needed to plan and implement a soccer and field hockey program. (Open to Kinesiology majors only.)

KINE 207 (2)
Techniques and Analysis of Baseball and Softball
Instruction in practice in catching, throwing, hitting, sliding, base running and bunting. Comprehensive teaching of skills and techniques in baseball and softball. Knowledge and understanding needed to plan and implement baseball and softball programs. (Open to Kinesiology majors only.)

KINE 208 (2)
Techniques & Analysis of Track and Field
Instruction and techniques in individual skills and strategies in track and field events. Knowledge and understanding needed to plan and implement a track and field program. (Open to Kinesiology majors only.)

KINE 209 (2)
Techniques and Analysis of Golf
Instruction and techniques in individual skills and strategies for successful performance in golf. Knowledge and understanding needed to plan and implement a golf program. (Open to Kinesiology majors only.)

KINE 300 (3)
Biomechanics of Human Movement
Principles of mechanics applied to anatomical structure, function and gross motor movements. The mechanics of selected implements and mechanical systems. The analysis of selected motor skills and application.
KINE 301 (3)
Motor Control and Learning
Study of the principles, models and theories of human movement, with an emphasis on the relevance to sport, physical education, human factors and human performance. Instruction is directed toward understanding the research methods used to evaluate motor control, fundamental principles of motor control, theoretical propositions of human movement control, and applications to movement-intense settings.

KINE 302 (3)
Sports Medicine
Examines the recognition, evaluation, and care of athletic injuries, including techniques in taping, prevention and rehabilitation of injuries.

KINE 304 (3)
Adapted Physical Education
Designed to prepare Kinesiology majors to meet the physical activity program needs of persons with disabilities. Designed to understand the etiology and characteristics of persons with mental, physical, emotional, sensory, health, learning and/or multiple impairments. Understand when it is appropriate to successfully integrate the disabled individual into the physical education mainstream.

KINE 306 (3)
Exercise Fitness and Health
Develops knowledge and understanding of the science of exercise programming and/or physical activity for apparently healthy persons and persons with clinical conditions.

KINE 320 (4)
Introduction to Exercise Physiology
An introduction to the physiology of exercise. A description of cardiovascular, pulmonary, muscular, endocrine, neural, and metabolic responses to acute and chronic exercise. Addresses body composition and clinical exercise physiology. Three hours of lecture and three hours of laboratory. Prerequisites: A grade of C (2.0) or better in BIOL 175 and 176 or consent of instructor.

KINE 336 (3)
Nutrition for Health and Exercise Performance
Applies fundamental biological and nutritional concepts to use nutritional intervention to enhance wellness and athletic performance via nutritional intervention. Students will review current literature and examine products designed to increase performance. Body image, the link between diet and obesity, and other maladies including eating disorders will also be examined. Activity and dietary recalls will serve as the basis for individualizing nutritional programs.

KINE 390 (3)
Topics in Kinesiology
Selected Topics in the field of Kinesiology. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

KINE 400 (3)
Movement Theory and Practice of Elementary Physical Education for Children
Provides a comprehensive overview of physical education activities for elementary school children. Includes the study of child development, personality development, analysis and practice of fundamental skills, selection of activities, organizational materials, and the evaluation of teaching ability.

KINE 401 (3)
Principles, Organization and Management of Secondary School Physical Education
Focuses on the principles of curricular development and administrative practices of physical education in the public schools, with an emphasis on secondary school physical education administrative practices.

KINE 402 (3)
Applied Theory of Teaching Team, Individual, and Dual Sports
Focuses on knowledge and skill development related to planning, informing (lecturing, demonstrating), managing learners and the environment, and assessing instructional processes and outcomes for team, individual, and dual sports. A comprehensive analysis of the principles of movement and organizational strategies utilized in soccer, baseball, basketball, volleyball, badminton, tennis, pickle ball, racquetball, and track and field.

KINE 403 (3)
Measurement and Evaluation in Kinesiology
Principles and techniques of construction, organization, administration, interpretation and evaluation of measuring devices used in kinesiology.

KINE 426 (3)
Exercise Physiology and Special Populations
An in-depth study of changes that occur due to acute and chronic exercise and the influence of aging, youth, gender, disease state, and exposure to extreme environments on these processes. Examines human bioenergetics, fuel metabolism, body composition, and neuromuscular, endocrine, and cardiorespiratory physiology with an emphasis on differences across individuals. Prerequisites: Completion of KINE 326 with a C (2.0) or better.

KINE 495 (3)
Practical Application
Practical application of principles related to Kinesiology, as the student will intern at a site approved by the Program Director/Chair. Provides the student intern with a forum to discuss policies, career options, and practices within Kinesiology and solve potential challenges associated with the transition from student to professional. Includes resumes, cover letters, certifications, and interview techniques will also be covered. May be repeated once for credit. Graded Credit/No Credit. Prerequisites: Senior standing in last year of Program and consent of instructor/Program Chair.

KINE 499A (1) 499B (2) 499C (3) 499D (4) 499E (5) 499F (6)
Independent Study in Kinesiology
Students participate in a faculty-driven and/or independent research projects in Kinesiology, culminating in a final Project submitted by the student after consulting with the Kinesiology Faculty member. Prerequisites: Junior or senior standing and consent of instructor.
LIBERAL STUDIES (LBST)
College of Arts and Sciences

LBST 300 (3)
Perspectives in Liberal Studies
Exploration of specific topics in Liberal Studies from diverse interdisciplinary perspectives. Analysis of topics/issues is described in specific course titles. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

LBST 301 (3)
Connecting Disciplines and Crossing Borders
Examines the relation between and among branches of knowledge in the social sciences, humanities, and sciences. Students will understand how disciplines overlap at their margins. Designed to help students increase their awareness of contemporary issues and scientific discoveries, while increasing their ability to communicate clearly and think critically. Provides a rationale for an interdisciplinary understanding of knowledge and its practical applications across disciplines. Scholarly and everyday concepts will be understood as they are derived from social process. The process of development and emergence of new scientific paradigms will be examined. May not be taken for credit by students who have received credit for LBST 300F.

LBST 307 (3)
Children and the Environment
Provides an interdisciplinary exploration of the environment and children. Students will engage in cross-disciplinary exploration of children’s rights, the development of children, childhood and socioeconomic conditions in developed and developing countries, the particular environmental health issues facing children, planning and sustainability, and children’s relation to wild and urban areas. Particularly useful for students who are parents, or who plan to be parents, and for those who wish to work as teachers, or with children in other professions. May not be taken for credit by students who have received credit for ID 370FH.

LBST 361 (3)
The Social Construction of Science
Explores the field of social construction of science, a true interdisciplinary area of investigation, historically built from existing perspectives in the social sciences (predominantly sociology, but also anthropology, social-linguistics, history, and philosophy). Introduces students to the basic theoretical concepts required for the analysis of science as a social phenomenon, its internal and external constructions, and its practice. The application of the basic tools and key concepts in the course will be accomplished through a focused exercise that explores one specific area of science such as the human genome project or distributed information systems. May not be taken for credit by students who have received credit for ID 370A.

LBST 361B (3)
The Social Construction of Science
Explores the field of social construction of science, an interdisciplinary area of investigation, built from existing perspectives in the social sciences (predominantly sociology, but also anthropology, social-linguistics, history, and philosophy). Introduces students to the basic theoretical concepts required for understanding the social situation of science and its contributions to the social world. Introduces students to the analysis of science as a social phenomenon, its internal and external constructions, and its practices. It will also show the ideas in science are reflected in the development of social policy. The application of the basic tools and key concepts in the course will be accomplished through a focused exercise that explores one specific area of science such as information technologies. Corequisites: EDMS 545B and ID 381. Prerequisite: Consent of Department Chair.

LBST 362 (3)
Technology and Social Change
Explores the impact technology has on our everyday life. The goal is to understand the complex, hidden relationships between science, technology, and culture. Examines how perceived problems in the world are viewed by particular disciplines. Each perspective provides a particular characterization of the problem, which (a) shapes the kinds of solutions, and (b) directs the kinds of technology that can be used to solve the problem. The application of technology then alters how the problem is viewed and re-interpreted. May not be taken for credit by students who have received credit for ID 370B.

LBST 375 (3)
Urban Change and Ethnicity
Focuses on key immigrant-receiving metropolitan areas in the U.S. Discusses relationships between the restructuring of those urban economies and employment/settlement patterns of immigrants. Focuses on urbanization during two waves of immigration to America since the 1880s: 1) first wave dominated by Europeans from southern, eastern, and central Europe who arrived between 1880 and 1920, and 2) second wave dating from 1965, comprised largely of immigrants from the Western Hemisphere and Asia. A further concern is comparative urban studies: 1) how urban development was differentially shaped over time by the two waves of immigration, and 2) how the urban economies themselves shaped immigrant adaptation.

LBST 395A (1) 395B (2) 395C (3)
Internship for Liberal Studies
Faculty-sponsored academic internship in community service or education. Prerequisite: Consent of instructor. May be repeated for a maximum of nine (9) units.

LBST 498A (1) 498B (2) 498C (3)
Independent Study
Intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved and supervised by a faculty member in the Liberal Studies program. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

LBST 499A (1) 499B (2) 499C (3)
Independent Research
Designed for students with demonstrated capacity for independent research in collaboration with a faculty member in the Liberal Studies program. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

LBST 575B (1)
Integrated Program Capstone Seminar
Students demonstrate mastery of the integration of content and pedagogy. Accompanies the required nine (9) units of student teaching during the final semester of the Integrated Bachelor of Arts and Multiple Subject Credential Program. Provides an academic framework for guiding the integration of content and pedagogy that students will be implementing in their classrooms as student teachers. Also offered as EDMS 575. Students may not receive credit for both. Graded Credit/No Credit. Prerequisites: Semesters 1-5 of Integrated Bachelor of Arts and Multiple Subject Credential Program and consent of Department Chair.
LINGUISTICS (LING)

College of Arts and Sciences

LING 100 (3)
English Grammar and Syntax
Presents fundamentals of the English grammatical system using traditional terminology for parts of speech and phrase and sentence types. Emphasis on how structures pattern together to form the complex but orderly system that is English grammar. Attention to integrating sentences into their logical and rhetorical contexts. Identifying and understanding source of sentence-level writing problems.

LING 201 (3)
English Linguistics for Non-native Speakers of English
A linguistic examination of the sounds, grammar, use, and acquisition of language for non-native speakers of English. Course content focuses on problem areas in the acquisition of English as a second language and is directed toward students understanding their own patterns of English usage. Prerequisite: Consent of instructor.

LING 300 (3)
Introduction to Linguistics
An introduction to linguistic analysis of the languages of the world, the production and organization of natural sound systems, word and sentence formation patterns, and the linguistic organization of meaning. Included are introductions to language acquisition, dialect variations according to culture, region, social group, gender, and age, language history and change, animal communication, language and the brain. Prerequisite: LING 100.

LING 300B (3)
Introduction to Linguistics
An introduction to linguistic analysis of the languages of the world, the production and organization of natural sound systems, word and sentence formation patterns, and the linguistic organization of meaning. Included are introductions to language acquisition, dialect variations according to culture, region, social group, gender, and age, language history and change, animal communication, language and the brain. Prerequisite: LING 100, and consent of the ICP Advisor, or consent of instructor.

LING 304 (3)
Language and Culture in the American Deaf Community
A sociolinguistic introduction to the history, culture, and language of deaf people in the United States. Examines the language, education, social and political aspects, and literary forms of Deaf people, with attention to their struggle for recognition and respect as an American linguistic and cultural minority. May not be taken for credit by students who have received credit for LING 351B.

LING 305 (3)
Border and Regional Linguistics
An exploration of the language phenomena that occurs in regions where two or more language communities live and work together. Introduces bilingualism, dialects, codeswitching and mixed languages. Language data representing examples of these contact phenomena are used to study the linguistic subsystems of phonology, morphology, syntax and semantics. May not be counted toward the Elementary Subject Matter, or substituted for EDUC 364.

LING 340 (3)
Interdisciplinary Topics in Linguistics
Explores a topic from the point of view of linguistics and at least one other discipline. Students should check the Class Schedule for listing of actual topics. Recommended: LING 300. May be repeated for credit as topics change for a total of six (6) units.

LING 341 (3)
Language Issues in the United States
Introduces students to a number of issues surrounding language use in the United States today, including bilingual education, bilingualism, English only legislation, endangered languages, ebonics, and hate speech. Each issue will be considered in its historical context and in terms of its effect on the school-age population of the United States. Class discussion, rather than lecture, will be the main venue for this exploration and each section will involve a project considering the issue in its current, real-world context.

LING 350 (3)
Language Structures
The study of the sound, meaning, and syntax of a selected language other than English. The relationship between the social structure and culture of the speech community and the use of the language. May be repeated for credit as language changes. Prerequisite: LING 300.

LING 351 (3)
Language Acquisition
Examination of the linguistic theories of language acquisition including the study of child language development as related to cognitive and cultural development; and the study of second-language acquisition in children, adolescents, and adults. May not be taken for credit by students who have received credit for LING 450. Prerequisite: LING 300 or 305.

LING 360 (3)
Introduction to Cognitive Linguistics
Introduces students to the range of studies within the field of cognitive linguistics. Discusses what we can learn from language use and structure about how the mind stores information, processes data, builds and extends categories. Data from the meaning systems of different languages will be used to introduce students to different ways of perceiving and expressing thoughts about how the world works.

LING 371 (3)
Language and Culture
An exploration of the way language shapes and is shaped by culture. Investigates different aspects of language structure which exhibit cultural variation: patterns of cognition and language acquisition; and the socio-linguistic and psycho-linguistic dimensions of cultural variation. It highlights data from English, Spanish, and immigrant and indigenous languages of California. Course may include community field work. May not be taken for credit by students who have received credit for LING 305.

LING 371B (3)
Language Culture
An exploration of the way language shapes and is shaped by culture. Investigates different aspects of language structure which exhibit cultural variation: patterns of cognition and language acquisition; and the socio-linguistic and psycho-linguistic dimensions of cultural variation. It highlights data from English, Spanish, and immigrant and indigenous languages of California. Corequisite: EDMC 526B and 540B. Prerequisite: Consent of Department Chair.
LING 381 (3)  
Language and Gender  
Gender roles are dynamic, yet culturally bound. They are determined as a group, yet performed by individuals. These roles are products of historical, sociological, geographic, economic, and linguistic phenomena. All of these contribute to the development of a culture, and all are encoded and reflected in the language used. Students will discover how these phenomena work together in the social contexts of various cultures; with a particular focus on the role language plays in creating and reporting gender roles. May not be taken for credit by students who have received credit for ID 370M or WMST 300B.

LING 400 (3)  
Interdisciplinary Perspectives on Literacy  
Focuses on the multi-dimensional nature of literacy: linguistic (systems of language and their interaction in written discourse); cognitive (psychological strategies and processes used to make meaning through written discourse); sociocultural (ways individuals use literacy to mediate their interactions with their society, culture, and discipline); developmental (the manner in which the linguistic, cognitive, and sociocultural aspects of literacy are learned); and educational (issues related to the teaching of literacy in school settings). Also offered as ID 300. Students may not receive credit for both. Prerequisites: LING 300 or 305.

LING 451 (3)  
Bilingualism  
Multi-dimensional study of bilingualism including: bilingual language and cognitive development, transgenerational patterns, effects of cultural patterns, and political policies toward bilingualism. Prerequisite: LING 351.

LING 480 (3)  
Field Methods for Linguistics  
Introduces the process of discovering structure of a language from data obtained directly from its speakers. Emphasizes effectiveness in the field context, the ethics of linguistic field work, rapid recognition of structural features, and preliminary formulation of a descriptive grammar using computational tools. Prerequisites: LING 300 or 305.

LITERATURE AND WRITING STUDIES (LTWR)

College of Arts and Sciences

LTWR 100 (3)  
Introduction to Literature  
An inquiry into the basic nature of literature. Questions raised in this course may include: What prompts the creation of imaginative literature? What purpose does literature serve in the cultural life of a community? What are its social philosophical, spiritual, and aesthetic values? Some consideration may be given to techniques and major critical theories, but the focus will be on critical reading for the non-specialist. Specific works studied will be representative of several genres, cultures, and periods of literature.

LTWR 105 (3)  
Texts That Have Changed the World  
Examines the cultural role of literature by studying the way texts respond to ethical and moral questions affecting the past and present while also shaping the future. Special attention given to how texts react to each other and how they promote and respond to economic, political, social, and scientific changes. Students will participate in and learn about the human condition and searches for meaning, understanding, spirituality, artistic expression, communication, national identity, ethnic roots, gender identity, and new worlds. Incorporates activities and materials such as films, music, multimedia presentations and applications, field trips, and guest speakers. Stresses critical thinking, reading, and writing as well as cooperative, interactive, and technological learning. The course does not count towards the LTWR major or minor.

LTWR 115 (3)  
Critical Reading and Writing  
Critical thinking through reading and written analysis of various genres of writing. Special attention to the use of metaphoric language, the function and meaning of symbols, the structure of arguments, the use of logic, and value of imaginative writing particularly in relationship to ethical and moral questions. Prerequisite: GEW 101 or equivalent.

LTWR 200 (3)  
Research Methods in English  
Introduction to research methods, documentation, biographical research, questions of authorship, problems of establishing accurate texts, historical bibliography, editing of texts, and the general profession of literary studies. Research assignments, reports, written examinations. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

LTWR 203 (3)  
Literature and Health  
Explores how literature and film articulate the personal and social dimensions of illness, pain and suffering, and human bodily variations and changes (race, class, sexualities, age, and disability). Interrogates ethical conflicts in the philosophies, technology, and practice of medicine as represented by literature and film. Genres include poetry, fiction, drama, and non-fiction. Texts range from the Bible, Greek drama, Shakespeare through contemporary literature and film, including writing by doctors and nurses. Introduces basic modes of literary and film analysis.

LTWR 206 (3)  
Fantastic Journeys and Other Worlds  
Explores the theme of the journey in world literature. Examines the powerful metaphors of travel, quest, passage, voyaging, pilgrimage, exile, homelessness, homecoming, wandering, and sojourning as they have played out in both classics and selected modern works. The works offer a variety of types of literary and cultural texts and a variety of literary styles and cultural strategies. Incorporates activities and materials such as texts, films, music, lectures, multimedia presentations and applications, field trips, and guest speakers. Stresses critical thinking, reading, and writing as well as cooperative, interactive, and technological learning. This course does not count towards the LTWR major or minor.
LTWR 208A (3)
World Literature: Antiquity to the 16th Century
An introduction to world literatures from antiquity to the 16th Century. Critical analyses of literary works from multiple areas of the globe. Studies of selected texts to include novels, poetry, or plays. Survey of the literature to examine various writers and their influence on the cultural/intellectual life of a particular country, together with their contributions to the advancement of literature and/or important literary movements.

May be repeated as issues/themes change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

May not be taken for credit by students who have received credit for LTWR 300. It is recommended that students complete LTWR 300A before enrolling in LTWR 300B.

LTWR 208B (3)
World Literature: 17th Century to the Present
An introduction to world literatures from the 17th Century to the present. Critical analyses of literary works from multiple areas of the globe. Studies of selected texts to include novels, poetry, or plays. Survey of the literature to examine various writers and their influence on the cultural/intellectual life of a particular country, together with their contributions to the advancement of literature and/or important literary movements.

May not be taken for credit by students who have received credit for LTWR 300. It is recommended that students complete LTWR 300A before enrolling in LTWR 300B.

LTWR 210 (3)
Introduction to Global Literature
Survey examining literatures from various parts and cultures of the globe, such as Europe, Asia, North and South America, Africa, and the like. Introduction to literary analysis of global texts.

LTWR 225 (3)
Introduction to Creative Writing
Beginner’s workshop for students interested in writing fiction, poetry, and drama. Students will engage in both creative and analytical writing.

LTWR 300A (3)
History and Practice of Literary Commentary I
Survey of literary criticism from the Classical Period to New Criticism. Student writing will be based on critical practices; methods of reading; modes of interdisciplinary analysis and argumentation; debates on questions of theory, history, and textual scholarship. May not be taken for credit by students who received credit for LTWR 300. Students should take 300B following 300A.

LTWR 300B (3)
History and Practice of Literary Commentary II
Survey of current trends in critical theory; Feminism, Marxism, Poststructuralism, Psychoanalysis, and Cultural Studies. Student writing will be based on critical practices; methods of reading, modes of interdisciplinary analysis and argumentation; recent debates on questions of theory, history, and textual scholarship. May not be taken for credit by students who have received credit for LTWR 300. It is recommended that students complete LTWR 300A before enrolling in LTWR 300B.

LTWR 301 (1-3)
Topics in Writing
Selected topics in the writing field. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

LTWR 302 (3)
Topics in Literature
Selected topics in literature. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

LTWR 303 (3)
Masterworks in Literature
An introduction to masterpieces of the literary tradition, emphasizing historical, cultural, generic, and thematic connections. Interrogates the conditions under which these works are considered “masterpieces,” and examines the social, philosophical, spiritual, and aesthetic values embedded within the works and the cultures that produce them. Intended for the non-major, but LTWR majors may petition their advisors to accept this course toward the major on a case-by-case basis. The content of each course is reflected by its sub-title. May be repeated as issues/themes change for a total of six (6) units.

A. U.S. War Literature
B. Nobel Laureates

LTWR 305 (3)
Forms of Written Discourse
A review of current rhetorical and discourse theories. The course will also examine recent developments in text linguistics. Students will write several discourse types and explore differences among the types, with special attention to differences for the writing process and for the structure of the written discourse itself.

LTWR 308A (3)
English Literature I
Survey of literature and culture of England from the Fall of Rome to 1660. May not be taken by students who have received credit for LTWR 410C.

LTWR 308B (3)
English Literature II
Survey of literature and culture of England from the Restoration to the present. May not be taken for credit by students who have received credit for LTWR 410D. It is recommended that students complete LTWR 308A before enrolling in LTWR 308B.

LTWR 309A (3)
United States Literature I
Survey of literature and culture of the United States from the Colonial Period to American Romanticism. May not be taken for credit by students who have received credit for LTWR 410A.

LTWR 309B (3)
United States Literature II
Survey of literature and culture of the United States from Realism to the present. May not be taken for credit by students who have received credit for LTWR 410B. It is recommended that students complete LTWR 309A before enrolling in LTWR 309B.

LTWR 310 (3)
Folklore and Mythology
Study of folk traditions and mythology as reflections and expressions of distinctive cultures as well as the general human condition. Subject matter may deal with issues such as mythic theory, the uses of myth in various literary genres, or the themes and forms of orally transmitted literature. Only six (6) units of credit may be applied toward the major.

LTWR 315 (3)
Nonfiction Prose Workshops
A workshop for students interested in practicing writing in the professions, reportage, critical or general nonfiction prose. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 316 (3)
Student Newspaper
A workshop for students interested in practicing writing and reportage. Students will meet for one (1) hour of classroom lecture and participate in four (4) hours of journalism activities, including but not limited to, the school newspaper. May be repeated for a total of nine (9) units, but no more than six units may be applied toward the LTWR major. Students may not receive credit for both. Prerequisite: GEW 101.

LTWR 317 (3)
Technical Writing
A workshop for students interested in practicing writing in the professions.
LTWR 318 (3)  
Small Press Publishing  
Practical training in manuscript soliciting, editing, publishing, and distributing. Critical examination of various small presses. May not be taken for credit by students who received credit for LTWR 301A.

LTWR 320 (3)  
Sacred Texts  
Study of selected texts drawn from the world’s religious traditions — Christian, Jewish, Buddhist, Hindu, Taoist, Confucian, and Muslim. Emphasis will be on the intrinsic literary interest of these texts as well as their thematic impact on other genres. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 325 (3)  
Creative Writing Workshop  
A workshop for students interested in writing fiction, poetry, drama, and the like. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 330 (3)  
Poetry  
Studies various genres and/or forms of poetry such as modern American women’s poetry, lyric poetry, epic poetry and more. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 331 (3)  
Fiction  
Studies various genres and/or forms of fiction such as short stories, novels, detective fiction and more. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 332 (3)  
Non-Fiction  
Studies various genres and/or forms of non-fiction such as biography, autobiography, essays, travel writing, and more. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 333 (3)  
Drama  
Studies various genres and/or forms of drama such as tragedy, comedy, theater of the absurd, and more. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 334 (3)  
Film  
Studies various genres, forms and/or directors of film. The content of each course is reflected by its sub-title. May be repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 335 (3)  
Film and Other Genres  
Studies various genres and/or films in relationship to other arts or texts. The content of each course is reflected by its sub-title. Together with LTWR 335, may be repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

A. The Western  
B. Women Before and Behind the Camera  
C. Asian Film  
D. European Cinema

LTWR 336 (3)  
Film and Fiction  
Studies various genres and/or films in relationship to other arts or texts. The content of each course is reflected by its sub-title. Together with LTWR 335, may be repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

A. Hitchcock and the Masters of Suspense  
B. Detective Films and Novels  
C. The American Gilded Age in Film and Fiction  
D. European Cinema

LTWR 337 (3)  
American Film and Politics  
A cross-disciplinary examination of the integral role of politics in both the making and messages of American film. Explores the impact of politics on American filmmaking through such issues as censorship, the Hollywood “backlist,” and the significance of independent filmmaking. Also studies the use of film to convey political messages and influence public opinion such matters as patriotism, pacifism, and racial/ethnic relations. Both mainstream and independent films will be addressed; and literature from the humanities and the social sciences will be incorporated. May be taken for credit by students who have received credit for LTWR 336 and PSCI 419B. May be taken for credit as an elective course for the PSCI major (within the U.S. Government and Politics field) and the PSCI Minor.

LTWR 339 (3)  
Advanced Expository Writing  
Explores the complexities of producing sophisticated written analysis and argument characteristic of intellectual work in the academy, professional writing, and other sites of cultural discourse. Addresses the politics of writing by preparing students for various writing situations, with attention given to critical reading, rhetorical analysis, responding to and making use of the work of others, substantive revision, and engaging with a variety of rhetorical conventions. Prerequisite: GEW 101 or equivalent.

LTWR 340 (3)  
The Monstrous, the Grotesque, and the Occult  
Surveys discourses of the monstrous - from psychological theories of the grotesque to ancient folklore about the occult to postmodern ghost stories like the X-Files - which try to explain the incomprehensibility of our world. Examination of various texts will reveal how culture has asked, and answered, such questions as who we are and how we’ve come to be ourselves. Stresses critical thinking, reading, and writing as well as cooperative, interactive, and technological learning.

LTWR 350 (3)  
Reclaiming the Humanities  
Introduces students to origins of the “Humanities” in the Western tradition and places works of that tradition within a global historical context. Issues include: specific contribution of religious and philosophical systems to a definition of the humanities, how artists have shaped changing notions of what constitutes the humanities, and how non-Western systems of evaluating human and social endeavors have challenged Western notions of the humanities.

LTWR 400 (3)  
Author Studies  
Critical analysis of the major works of one or two authors in any historical period or geographical location, with attention to biography, culture, and literary background. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 402 (3)  
Studies in Shakespeare  
Study of the writings of Shakespeare. Critical analysis of Shakespeare’s major plays, which might include emphasis on Shakespeare and the Human Condition; Shakespeare’s Comic Vision; the Tragic Vision of Shakespeare; the Historical Plays — or a combination of plays, poems and variant themes. Students should refer to the Class Schedule for specific course content.
LTWR 405 (3)
History of Writing and Literacy
A review of the history of the development of alphabets and writing systems. Survey of the rise of literacy since the fifteenth century and analysis of the continuing literacy problem in developed and developing countries.

LTWR 410 (3)
Global Literature I
Survey to examine the literature(s) from a particular culture or area of the globe. Analysis of ways in which literature reflects and expresses culture. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 420 (3)
Global Literature II
Survey to compare literatures from various parts of the globe. Analysis of ways in which literatures reflect and express similarities and differences among cultures. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 430 (3)
Major Periods and Movements
Approaches to literature or literary ideas by locating them within a specific historical context or a literary background. May be repeated; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

LTWR 431 (3)
U.S. Environmental Literature
Explores the U.S. literary and cultural history of the idea of nature. Focuses on the characteristic rhetorical strategies of environmental literature or nature writing - such as claims of spiritual connection and recreation, blending of description and celebration, and direct and indirect political argument. Interprets the texts we read in the context of the long development from agrarian colony to industrial capitalist nation, with the goal of understanding how the way we think about nature. Prerequisite: LTWR 300A or 300B. Graduate students are exempt from this prerequisite.

LTWR 441 (3)
Literature and Other Arts and Disciplines
Comparative study of literature and other arts or other academic disciplines such as anthropology, science, philosophy, or psychology. The content of each course is reflected by its sub-title. Together with LTWR 440, may be repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) units may be applied toward major requirements in Literature and Writing Studies.

A. The Modern Subject in Literature, Art, Film and Psychoanalysis

LTWR 450 (3)
Comparative American Ethnic Literature
Comparison of various ethnic American discourses such as African American, Chinese American, Jewish American, Latino/a American, Japanese American, Native American, Italian American, and Vietnamese American. Includes analysis of a variety of different genres ranging from autobiography to novel to poetry, and examines texts through thematic and/or historical frameworks in order to view them as products of varying cultural and historical circumstances. Questions notions of “American identity” and the “American canon.”

LTWR 460 (3)
Theories, Methods, and Themes in Cultural Studies
Readings in some of the major conceptual texts that have framed work in cultural studies, with particular emphasis on those drawn from critical theory, studies in colonialism, cultural anthropology, feminism, semiotics, gay/lesbian studies, and historical/cultural anthropology. Examination of literature among other cultural artifacts in a variety of social contexts and from a number of theoretical and historical perspectives. May not be taken for credit by students who have received credit for LTWR 510. Prerequisite: LTWR 300A or 300B.

LTWR 465 (3)
Theory and Practice of K-12 Writing Instruction
Introduction to current theory and practice of teaching writing in K-12. Special attention to advanced critical reading and writing skills. May not be taken for credit by students who have received credit for LTWR 505. Prerequisite: Consent of instructor.

LTWR 475 (3)
The Writing Process
A workshop in advanced expository writing as a creative process. Current research on creativity and the writing process will also be discussed. May be repeated for a total of six (6) units. May not be taken for credit by students who have received credit for LTWR 515.

LTWR 485 (3)
Collaborative Writing and Theory
Critical examination of the theory and practice of writing texts with other people. May include special training in feminist collaborative theory, collaborative software, business applications, and the like. May not be taken for credit by students who have received credit for LTWR 535.

LTWR 490 (3)
Senior Seminar
Research and writing for a variety of special topics, including the works of single authors, genre studies, problems of literary history, relations between literature and the history of ideas, literary criticism, literature and society, and the like. Intended for students wishing to pursue graduate study. May not be taken for credit by students who have received credit for LTWR 500.

LTWR 495A (1) 495B (3) 495C (3) 495D (4) 495E (5) 495F (6)
Internship
Supervised experience teaching writing at the K-12 or college level or work experience in public agencies and private industries that provide opportunities to develop professional writing skills. Students working in CSUSM’s Writing Center should enroll for credit. No more than three (3) units may be applied toward the major. May be repeated for a total of six (6) units of credit. All internships are graded Credit/No Credit except CSUSM’s Writing Center. Prerequisite: Consent of instructor.

LTWR 499A (1) 499B (3) 499C (3) 499D (4) 499E (5) 499F (6)
Supervised Independent Study
Independent study deals with a special interest not covered in a regular course or with exploration in greater depth of a subject introduced in a regular course. Discussion in individual conferences. May be repeated once for a total of up to six (6) units of credit. Graded Credit/No Credit. Prerequisite: Consent of instructor. Note: This course cannot be substituted for other courses in the major without petition approval by the Literature and Writing Studies Curriculum Committee.

LTWR 501 (3)
Advanced Topics in Writing Studies
Selected Topics in Writing Studies. May be repeated for a total of six (6) units with new course content. Students should check the Class Schedule for listing of actual topics. Prerequisite: LTWR 300A or 300B. Graduate students are exempt from this prerequisite.
LTWR 502 (3) 
Advanced Topics in Literature  
Selected topics in literature. May be repeated for a total of 6 units with new course content. Students should check the Class Schedule for listing of actual topics. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 503 
Literary Period or Movement (3)  
Advanced, historically oriented study of a literary period such as the Renaissance, or a movement such as Post Modernism. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite. The content of each course is reflected by its subtitle. Togethert with LTWR 603, maybe repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) may be applied toward major requirements or the Master’s degree in Literature and Writing Studies. 
A. Renaissance to Romanticism 
B. Postmodern Narratives Identity

LTWR 504 
Advanced Author Studies (3)  
Advanced critical studies of a major author or authors. Special attention will be given to the cultural production of the text(s) as well as the historical reception of the author. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite. The content of each course is reflected by its subtitle. Together with LTWR 604, may be repeated as issues/themes change; up to nine (9) units may be applied to graduation requirements, but only six (6) may be applied toward major requirements or the Master’s degree in Literature and Writing Studies. 
A. Colin/Victorian Novel

LTWR 509 (3) 
Classical Rhetoric  
A close study of Classical Rhetoric. Examines the relationships between discourse and knowledge, communication and its effects, language and experience. Explores the possibilities for understanding the nature of persuasive discourse: purpose, audience, composition, argumentation, organization, and style. Selected major works on rhetoric, from antiquity to the 19th Century. Relationship between the rhetorical tradition and modern approaches to the teaching of writing and literature. May not be taken for credit by students who have received credit for LTWR 609. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 511 (3) 
Literature in Translation  
Study of select literary texts and literary criticism written in languages other than English. Students will study texts in their original language and compare them to their English translation(s) with a focus on idiom, style, grammar and argumentative detail. Includes a survey of translation theory. Requires good (i.e., equivalent of third-year instruction) reading knowledge of a foreign language. Completion with a grade of B or better satisfies the Language Other than English Requirement for graduate students in Literature and Writing Studies. May be repeated for a maximum of six (6) units. 
Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 512 (3) 
Modern Rhetoric  
A close study of 20th Century rhetoric: composition, theory, reading theory, psycho-linguistics, sociolinguistics, language philosophy, and literary theory. Relationship between rhetorical theory and modern approaches to the study and pedagogy of writing and literature. May not be taken for credit by students who have received credit for LTWR 610. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 525 (3) 
Theory and Practice of College Writing Instruction  
Wide reading in current theory and practice of teaching writing at the university level. Exploration of the implications for writing instruction of current discourse theory and linguistics (sentence-level and text-level). Review research on writing and instruction and examination of models of classroom and individual conferencing. Students will also tutor in the University Writing Center. Prerequisite: LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 545 (3) 
Advanced Creative Writing  
For students who wish to increase their skills in the writing of fiction and poetry. The content of each semester will be determined by the instructor and may include short stories, poetry, novel, play or screenwriting. May be repeated for a total of six (6) units of credit with new course content. Prerequisite: LTWR 325 or equivalent experience in creative writing and consent of instructor. LTWR 300A or 300B; graduate students exempt from this prerequisite.

LTWR 600 (3) 
Research and Critical Methodology  
Introduction to research methods and the critical and theoretical approaches common to the graduate study of literature and expository writing, with attention to basic reference works, bibliographical techniques, analytical strategies, scholarly frames of reference, and pedagogy. Recommended for the first semester of graduate study.

LTWR 601 (3) 
Literary Study in a Multicultural World  
Relationship of literature to gender, race, class, and nationality. Changing conceptions of literary canons. Exploration, through literary texts, of values in literature and the constituents of literary value.

LTWR 602 (3) 
Composition Theories and Practices I  
An introduction to current debates and crucial issues in rhetoric and composition, with special attention to the relationships between theories and practices of writing, between rhetoric and culture, between ideology and pedagogy, and between composition studies and other disciplines. Prepares students to teach composition at the post-secondary level, such as the CSUSM GEW program. Prerequisites: Open only to students accepted into the LTWR Master’s program; serves as a prerequisite for applying for Teaching Assistantships in the GEW program.

LTWR 605 (3) 
Seminar in Thematic Studies  
Study of a thematic motif over time or across cultures, for example alienation and exile, cultural taboo, colonial discourse, or the representation of criminality. May also address studies such as the nature of the hero and aspects of love or death. May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree.

LTWR 606 (3) 
Seminar in Genre Studies  
An examination of one or more genres, for example satire, utopian fiction, autobiography, travel narrative, landscape poetry, the essay, film. May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree.

LTWR 607 (3) 
Seminar in Comparative Studies  
Comparison of theoretical and literary representations across cultures (e.g., East/West studies), across modes of discourse (e.g., oral/written), or across media (e.g., literature/art or literature/music). May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree.
Students who wish credit for work in mass media and communicate ideas should enroll in CSUSM’s Writing Center should enroll.

**LTWR 608 (3)**
Seminar in Critical and Theoretical Studies
Close study of one or several bodies of critical theory currently applied to literary studies: psychoanalytic, feminist, Marxist, new-historical, post-structuralist. Emphasis will be on terminology; methods of reading; modes of interdisciplinary analysis and interpretation; and recent debates on questions of theory, history, and culture. May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree.

**LTWR 612 (3)**
Seminar in Rhetorical Theories and Cultures
Close study of one or several bodies of rhetorical theory in relation to cultures, for example gender and rhetoric, adolescence and rhetoric, black English and rhetoric, and popular culture and rhetoric. May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree.

**LTWR 613 (3)**
Seminar in Creative Writing
For students who wish to continue refining their skills in poetry, short stories, novels and/or screen writing. Content to be decided by collaboration between the student and the instructor. May be repeated with new course content, but only six (6) units may be applied toward the Master’s degree. Prerequisite: LTWR 325, 545 or equivalent experience in creative writing.

**LTWR 615 (3)**
Scholarly Publishing in Literature and Writing Studies
Close study of one or several bodies of scholarly publishing in relation to cultures, for example developments in the field of scholarly communication and the design and production processes of academic journals with goal of submitting work to journals. Possible work on composition publishing. Prerequisite: Consent of instructor. May be repeated, but credit will not be applied toward the Master of Arts in Literature and Writing Studies degree. Prerequisite: Prior registration in LTWR 699 with a satisfactory grade.

**MMA MASS MEDIA (MASS)**

MMP = Media Production
MOS = Media Organizations and Systems
MUE = Media Uses and Experts

**LTWR 699 (3)**
Graduate Thesis
Prerequisite: Completion of twenty-four (24) units in the graduate program prior to enrollment, or consent of thesis advisor. Graded Credit/No Credit. Prerequisite: Consent of instructor.

**LTWR 699X (1) 699Y (2) 699Z (3)**
Thesis Extension
Registration in this course is limited to students who have received a satisfactory grade in LTWR 699 and who expect to use the facilities and resources of the University to work on or complete the thesis. Students who have not completed their thesis in LTWR 699 must register for LTWR 699X, 699Y, or 699Z. Graded Credit/No Credit. May be repeated, but credit will not be applied toward the Master of Arts in Literature and Writing Studies degree. Prerequisite: Prior registration in LTWR 699 with a satisfactory grade.

**MASS 302 (3)**
Media Content: Production and Meaning
Operating as both a lecture and production course, this introductory class provides a technical foundation and theoretical/conceptual context for all subsequent production-oriented courses in the Mass Media degree program. Examines the relationship between production processes, the design of media products, and their meanings. Considers the role in shaping content played by various participants in production processes. May include work in multimedia labor production studios in order to familiarize students with multimedia equipment and production processes. (IMMP, MOS, MUE)

**MASS 303 (3)**
Mass Media and Technology
A critical and historical examination of 19th, 20th, and 21st century analog and digital mass media/communication technologies. Introduces the role of media technology in human creative activity and examines the contexts in which new technologies come into use. Students will examine economic and political issues that have (and do) influence the selection of some technologies and standards over others. Students may have the opportunity to create media projects applying course concepts. (COMM 480B may be substituted for this course) (IMMP, MOS, MUE)

**MASS 304 (3)**
Media and Commerce
Examines uses of mass media to inform people about products, services, and organizations. Students also consider the uses of telecommunications and computer technologies within businesses and industries to develop, produce, and distribute products and services. Subjects of study may include: advertisements, commercials, fairs, trade shows, trade magazines, organizational-professional newsletters, websites, email lists. Students have the opportunity to create media projects applying course concepts. (MOS, MUE)

**MASS 306 (3)**
Media Distribution: National and International
Examines the distribution of media products (films, TV programs, books, etc.) after the production process. Reviews related organizations and occupations. Considers how the convergence of technologies affects global media distribution. (MOS)

**MASS 315A (3)**
The News: Print Journalism
Introduces students to print journalism, specifically news writing and reporting. The fundamentals of journalism (e.g., accuracy, objectivity and fairness, interviewing, etc.), basic news writing skills (e.g., AP style), and reporting skills (e.g., database research) are presented. May also examine the development, technologies, professions, and conventions of print journalism. Students will have the opportunity to submit stories related to a campus or local beat to The Pride, the university newspaper. May be repeated for up to nine (9) units of credit, with six (6) of which may be applied toward the Mass Media major as major electives. (IMMP, MOS)

**MASS 315B (3)**
The News: Electronic Journalism
Examines the development, technologies, professions, and conventions of news in regard to film, radio, TV, Internet, and the WWW. Explains the processing of information during the creation of broadcast news. Considers various influences on electronic journalism. Compares electronic and print journalism. Students have the opportunity to create media projects applying course concepts, and to submit stories related to a campus or local beat to the university newspaper’s web news site. Prerequisite: MASS 315A or consent of instructor. (2nd of 2 semester sequence) (IMMP, MOS)
MASS 322 (3)
Media Power
Illustrates how media power operates in culture through discourse in local and global contexts. Students examine the power dynamics among producers, subjects and audiences in and around mass media: who makes what for whom and how. Readings and discussions will explore power-inflected relations in mass media, along with discovering possibilities in how to reclaim media power. What happens when historical others make work about themselves, their cultures and communities? (MUE, MOS)

MASS 324 (3)
Media Effects
Explores theories and methods used in scholarly and commercial industrial research on media uses, interpretations and effects. Focus on communication structures, contexts and processes that influence the connections between receiving information, constructing meaning and attitudes and individual and social behavior. Students may have the opportunity to create media projects applying course concepts. (MUE)

MASS 405 (1-4)
Special Topics in Film
Topics vary by semester. Students have the opportunity to create media projects applying course concepts. (MMP, MUE, MOS) and technological contexts. (MMP, MOS)

MASS 424 (3)
Genres and Production Conventions
Examines how media production participants develop products that fit common formats (e.g., sitcoms, soaps, heavy metal, rap, action films, comedies); how production participants and audiences develop recognition and understandings of genres and their conventions; and how production processes differ for various formats. Students consider the persistence and change of common cultural forms. Students have the opportunity to create media projects applying course concepts. Prerequisite: MASS 302 or consent of instructor. (MMP)

MASS 430 (1-4)
Topics in Mass Media Production
Focused study on a specific aspect of mass media production. Students should check the Class Schedule for listing of actual topics. Topics vary by semester. May be repeated for credit as topics change for a total of six (6) units. (MMP)

MASS 450 (1-4)
Topics in Media Organizations and Systems
Focused study on a specific aspect of media organizations and systems. Students should check the Class Schedule for listing of actual topics. Topics vary by semester. May be repeated for credit as topics change for a total of six (6) units. (MMP)

MASS 456 (3)
Film Style Production
Presents conventions and practices of the production approach called “single camera” or “film style” production. Considers consequences regarding time, costs, sound, editing, and aesthetics. Includes work in multimedia labs and production studios. The projects familiarize students with multimedia equipment and production processes. Students plan, develop, and complete a project which involves mass media production, with a focus on the technical means and creative encouragement to make alternative studio productions. All work will be produced in the studio and transmitted to on and off-campus audiences while encouraging dialogue about difference and power, media representation and reception. Prerequisite: MASS 302 or consent of instructor. (MMP)

MASS 457 (3)
Community Trans-Media
Focuses on integrating political and social analysis with studio production. Discussions of community-based media and independent media makers will be used in creating alternatives to corporate commercial media. The course provides the technical means and creative encouragement to make alternative studio productions. All work will be produced in the studio and transmitted to on and off-campus audiences while encouraging dialogue about difference and power, media representation and reception. Prerequisite: MASS 302 or consent of instructor. (MMP)

MASS 460 (3)
Political Economy of Mass Media
Theories and problems concerning systems of support and control of the mass media, with special reference to the role of special interest groups and the political state. Emphasis on allocations of spectrum, time, money, energy, materials, and human resources among agencies of mass communication systems. Consideration is given to questions of access to media institutions and the operations of such institutions in light of governmental regulations and policies. Some focus on the significance of mass communication in conducting foreign affairs, as well as the role of mass communication in developing nations. (MUC)

MASS 463 (3)
Political Economy of Mass Media
Theories and problems concerning systems of support and control of the mass media, with special reference to the role of special interest groups and the political state. Emphasis on allocations of spectrum, time, money, energy, materials, and human resources among agencies of mass communication systems. Consideration is given to questions of access to media institutions and the operations of such institutions in light of governmental regulations and policies. Some focus on the significance of mass communication in conducting foreign affairs, as well as the role of mass communication in developing nations. (MUC)

MASS 470 (1-4)
Topic in Mass Media
Focusses on a specific aspect of mass media which involves mass media production and/or media organization and systems and/or media uses and effects. Topics vary by semester. Students should check the Class Schedule for listing of individual topics and the areas (MMP, MOS and/or MUE). May be repeated for credit as topics change for a total of six (6) units. (MMP)

MASS 490 (3)
Capstone Project
Students plan, develop, and complete a mass media production (MMP) or research project that includes multimedia materials (MOS, MUE). Capstone Projects will integrate the particular areas of study that students have emphasized during their respective upper-division careers. Prerequisites: Senior status and completion of all Mass Media required courses. (MMP, MOS, MUE)

MASS 495A (1) 495B (2) 495C (3)
Mass Media Internship
May be used by students who have found opportunities for practical work experience in mass media enterprises. Students will write a paper analyzing their work experience in the context of concepts studied in other Mass Media courses. MASS 495 and MASS 491 may total no more than six (6) units applied toward the major. Prerequisite: Consent of Instructor.

MASS 499A (1) 499B (2) 499C (3)
Independent Study
May be used by students who desire to do individualized projects with a professor. May be repeated for a total of six (6) units. MASS 495 and MASS 499 may total no more than six (6) units applied toward the major. Prerequisite: Consent of Instructor.
MATH 022 (1)  
Supplemental Instruction in MATH 051  
Peer-facilitated learning session focused on development of skills needed to succeed in MATH 051 and subsequent math courses. Intended to provide a collaborative learning environment where students can work on problem solving, general study skills, and MATH 051 course content. May be repeated for a total of two (2) units. Graded Credit/No Credit. Prerequisite: Consent of instructor.

MATH 051 (4)  
Entry Level Mathematics  
Algebra: Operations with numbers, polynomials, rational expressions, powers and roots; solutions of equations and inequalities; graphs and functions. Geometry: perimeter and area; circles; volume; angles in the plane; special triangles; congruence and similarity; coordinate geometry; midpoint and distance formulas. Finite mathematics: data interpretation; counting principles; probability; statistics. Note: MATH 051 does not count toward any graduation requirement to be completed at CSUSM, but it is counted in determining financial aid and VA benefits. A grade of C or better fulfills the Entry Level Mathematics (ELM) requirement. Prerequisites: Highest ELM score between 40 and 48 inclusive, or a highest ELM score below 40 and completion of a college beginning algebra class with a minimum grade of C. Students that have satisfied the ELM requirement may not enroll.

MATH 051C (4)  
Computer Aided Entry Level Mathematics  
Algebra: Operations with numbers, polynomials, rational expressions, powers and roots; solutions of equations and inequalities; graphs and functions. Geometry: perimeter and area; circles; volume; angles in the plane; special triangles; congruence and similarity; coordinate geometry; midpoint and distance formulas. Finite mathematics: data interpretation; simple statistics. Note: MATH 051C does not count towards any graduation requirement to be completed at CSUSM, but is counted in determining financial aid and VA benefits. A grade of C or better fulfills the Entry Level Mathematics (ELM) requirement. Prerequisites: Highest ELM score between 40 and 48 inclusive, or highest ELM score below 40 and completion of a college beginning algebra course with a grade of C or better. Students that have satisfied the ELM requirement may not enroll.

MATH 100 (3)  
Critical Thinking  
Critical thinking in decision-making. Formal and informal fallacies of language and thought; the often unreliable guide of common-sense reasoning; analysis and criticism of ideas; distinction between fact and judgment, belief and knowledge; inductive and deductive arguments, effective techniques of decision-making. Students will learn critical thinking skills to apply to common issues of everyday life.

MATH 110 (3)  
College Algebra  
Equations and inequalities, functions, graphs, polynomials, exponential and logarithmic functions, conics, sequences and series, counting principles, binomial theorem, and systems of linear equations. Students preparing to take MATH 160 should take MATH 125 instead of this course. May not be taken for credit by students who have received credit for MATH 120. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 125 (4)  
Pre-Calculus  
Designed for students preparing to take MATH 160. Equations and inequalities, functions, graphs, polynomial and rational functions, trigonometric functions, exponential and logarithmic functions, systems of linear equations, conics, sequences and series, and the binomial theorem. May not be taken for credit by students who have received credit for MATH 115. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement.

MATH 132 (3)  
Survey of Calculus  
Basic calculus concepts with applications to business, economics and the social sciences. Includes limits, continuity, derivatives, analysis of curves, integrals, applications; algebraic, trigonometric, logarithmic, and exponential functions, historical perspectives. Includes a laboratory experience using either computers or graphing calculators. Prerequisite: MATH 110 with a grade of C (2.0) or better.

MATH 160 (5)  
Calculus with Applications, I  
Differential and integral calculus of functions of one variable: analytic geometry, limits, continuity, derivatives, analysis of curves, integrals, applications; algebraic, trigonometric, logarithmic, and exponential functions, historical perspectives. Includes a laboratory experience using either computers or graphing calculators. Prerequisite: A strong background in high school mathematics (Algebra I and II, Geometry, and Trigonometry) or MATH 125 with a grade of C (2.0) or better.
### MATH 260 (4)
**Calculus with Applications, III**
Differential and integral calculus of functions of several variables: three-dimensional analytic geometry, vector calculus, partial derivatives, multiple integrals, line integrals, applications, historical perspectives. Includes a computer laboratory experience. Prerequisite: MATH 162 (or equivalent) with a grade of C (2.0) or better.

### MATH 262 (3)
**Introduction to Differential Equations**
Models involving first-order equations, higher-order linear equations, systems of equations, numerical methods and applications. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Prerequisite: MATH 162 with a grade of C (2.0) or better. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

### MATH 264 (3)
**Introduction to Linear Algebra**
Matrix algebra, systems of linear equations, vector spaces, independence, linear transformations, eigenvalues and eigenvectors, applications. Prerequisite: MATH 115. This course is not currently offered at Cal State San Marcos. It is listed only for transfer credit and course equivalency purposes.

### MATH 303 (3)
**Themes for Society**
Descriptive overviews of selected areas of mathematics which play a visible role in the modern world. Topics include management science and operations research, political science, statistics, computer science, biology, and some late 20th Century advancements in pure mathematics. Credit may not be counted toward the mathematics major. Prerequisite: Completion of the lower-division General Education requirement in Mathematics/Quantitative Reasoning.

### MATH 304 (3)
**Women and Mathematics**
Examination of the social phenomena that have led to the small number of women in the mathematical profession. Exploration of the controversy concerning research on the comparative mathematical ability of boys and girls. Study of the lives, times, and works of women mathematicians. Prerequisite: Completion of the lower-division General Education requirement in Mathematics/Quantitative Reasoning.

### MATH 308 (3)
**Non-Statistical Mathematics in the Social Sciences**
Themes involving applications of mathematics in the social sciences such as: proportional representation, voting rules and aggregation of individual preferences, spatial models of elections, competition, power in weighted voting systems, power indices in politics, balance theory and social inequalities, measurement theory, game theory, static models of animal dominance, rumor and information networks. May not be taken for credit by students who have received credit for MATH 404. Prerequisite: Completion of the lower-division General Education requirement in Mathematics/Quantitative Reasoning (B4).

### MATH 311 (3)
**Mathematics for K-8 Teachers, III: Algebra**
Probability, Statistics, and Data Analysis
Designed to reinforce mathematical concepts for those teaching grades K-8. Emphasis on linear and quadratic equations and inequalities; collection, organization, and representation of data; inferences, predictions, and arguments based on data; basic notions of chance and probability; appropriate use of technology; historical/cultural perspectives. Credit may not be counted toward the mathematics major. Prerequisite: MATH 212 with a grade of C (2.0) or better.

### MATH 315 (3)
**Finite Mathematics**
Sets, permutations, combinations, probability, linear equations and inequalities, matrices, linear programming, finance. Credit may not be counted toward the mathematics major. May not be taken for credit by students who have received credit for MATH 130. Prerequisite: Completion of the B4 Lower-Division General Education requirement.

### MATH 330 (3)
**Introduction to the History of Mathematics**
Major currents in the evolution of mathematical thought from early civilization to modern times. Prerequisite: MATH 160.

### MATH 350 (3)
**Foundations of Theoretical Mathematics**
A bridge course between computation-driven mathematics and theoretical mathematics. Designed to familiarize the students with the language and process of rigorous mathematical thought, speech, and writing through the introduction of typical and important examples from algebra, analysis, and combinatorics as well as a careful development of the natural, rational, real and complex numbers. In the process, this course will cover: elementary logic, methods of proof, mathematical induction, sets, relations, functions, binary operations, equivalence classes, modular arithmetic, groups, matrices, and limits. Prerequisite: MATH 160 with a minimum grade of C (2.0).

### MATH 362 (3)
**Differential Equations**
Analysis and application of ordinary differential equations: linear and nonlinear equations, existence and uniqueness theorems, analytic methods, qualitative analysis of solutions, numerical methods. Combines theoretical ideas along with hands-on experience using appropriate computer software. Prerequisite: MATH 162 with a grade of C (2.0) or better.

### MATH 370 (3)
**Discrete Mathematics**
The terminology, concepts, and techniques of some areas of discrete mathematics applicable in computer science. Logic, proof techniques, recursion, set theory and counting, relations and functions, groups and codes, graphs. Prerequisite: MATH 160 with a grade of C (2.0) or better.

### MATH 374 (3)
**Linear Algebra**
Systems of linear equations, vector spaces, independence, bases, dimension, orthogonality, least squares, determinants, eigenvalues and eigenvectors, positive definiteness, computation, linear programming. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Prerequisite: MATH 160 with a grade of C (2.0) or better.
MATH 378 (3)
Number Systems
Courses in number systems, including natural, rational, real, complex, algebraic laws: commutative, associative, distributive. Brief introduction to groups, rings and fields. Divisibility and unique factorization for integers and polynomials. Integers modulo n as finite rings and fields. The rational numbers as a non-complete countable ordered field. The real numbers as a complete uncountable ordered field. Sequences and limits including Cauchy sequences, lim inf and lim sup, Complex numbers including De Moivre’s theorem and related trigonometric identities. Factoring polynomials over the various number systems. The Fundamental Theorem of Algebra. Prerequisites: MATH 350 or MATH 370 with a grade of C (2.0) or better.

MATH 390 (1)
Mathematics Colloquium
Guest lectures present seminars on mathematical topics, e.g., recent advances in mathematics research, interesting applications of mathematics, or fun and challenging math problems. Students must attend each seminar, prepare a journal summarizing the content of each presentation, and write a follow up paper on one of the topics that they found particularly interesting. May be repeated for credit a total of three (3) units. Graded Credit/No Credit. MATH 162 with a grade of C (2.0) or better.

MATH 401 (3)
Number Concepts for Teachers
Designed to reinforce mathematical concepts for those teaching in middle school. Properties, relations, and extensions of the natural numbers, integers, rational, irrational, real, and complex numbers. Subjects include number sequences, patterns, functional relationships, some number theory, meaning of infinity, applications, historical-cultural perspectives. Will use appropriate technology and physical materials. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C (2.0) or better or consent of instructor.

MATH 403 (3)
Geometry for Teachers
Designed to reinforce mathematical concepts for those teaching in middle school. Geometry and measurement. Properties and relationships of shape, size, and symmetry in two- and three-dimensional space: points, lines, planes, curves, triangles, convex figures, parallelism, congruence, similarity, symmetry, rotations, reflections, translations, perimeter, area, volume. Historical development of Euclidean and non-Euclidean geometries. Will use the appropriate technology and physical materials. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Credit may not be counted toward the mathematics major. May not be taken for credit by students who have received credit for EDUC E596S. Prerequisite: MATH 210 and 212 with a grade of C (2.0) or better, or consent of instructor.

MATH 405 (3)
Statistics and Probability for Teachers
Designed to reinforce mathematical concepts for those teaching in middle school. Data collection, random experiments, data organization and interpretation, formulation of convincing arguments; inferences and informed decisions based on statistical methods; experimental probabilities; counting techniques; analysis of correct and incorrect uses of statistics. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C (2.0) or better, or consent of instructor.

MATH 407 (3)
Problem Solving for Teachers
Designed to reinforce mathematical concepts for those teaching in middle school. Problem strategies and approaches, in the context of problems from various fields in mathematics. Four step method; noticing patterns; reformulating the problem; decomposing and recombinating; examine related problems; logic, valid arguments, and proof techniques; induction. Historical-cultural perspectives. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C (2.0) or better, or consent of instructor.

MATH 409 (1-3)
Topics in Mathematics for Teachers
Designed to reinforce mathematical concepts for those teaching in elementary, middle, or high school. May be repeated for credit as topics change for a total of six (6) units. Credit may not be counted toward the mathematics major. Prerequisite: MATH 210 and 212 with a grade of C (2.0) or better, or consent of instructor.

MATH 410 (3)
Modern Geometry
Critical review of the foundations and basic structure of plane and solid Euclidean geometry, non-Euclidean geometries, incidence and affine geometries; convexity and applications. Prerequisite: MATH 350 or 370 with a grade of C (2.0) or better, or consent of instructor.

MATH 422 (3)
Introduction to Number Theory
Divisibility, Euclidean algorithm, unique factorization, congruences, and quadratic reciprocity. May also cover some of the following: included primitive roots and indices, continued fractions, sum of squares, introduction to Diophantine equations, prime numbers, pseudo-primes, the prime number theorem, and factorization and primality-testing algorithms. May not be taken for credit by students who have received credit for MATH 372. Prerequisites: MATH 378 with a grade of C (2.0) or better, or consent of instructor.

MATH 430 (3)
Foundations of Analysis
A classical treatment of the basic concepts of calculus of one variable: the real number system, limits, continuity, differentiability, the Riemann integral, sequences and series of numbers and functions. May not be taken for credit by students who have received credit for MATH 360. Prerequisites: MATH 378 with a grade of C (2.0) or better, or consent of instructor.

MATH 440 (4)
Introduction to Mathematical Probability and Statistics
Basic concepts of probability: axiomatic formulation, combinatorics, conditional probability, independence, standard discrete and continuous random variables, expectation, variance, joint distributions, limit theorems. Statistical inference: tests of significance, point estimation methods, confidence intervals, simple linear regression. Combines theoretical ideas with hands-on experience using appropriate computer software packages. Prerequisite: MATH 260 with a grade of C (2.0) or better.
MATH 441 (3)
Introduction to Probability
Discrete and continuous probability spaces, axiomatic formulation, combinatorics, conditional probability and independence, standard discrete and continuous probability distributions (including uniform, Bernoulli, binomial, Poisson, geometric, normal, and exponential), random variables, expectation and variance, joint distributions, limit theorems. Emphasis on modeling. Simple proofs required. Additional topics may include random walks, branching processes, and generating functions. Prerequisite: MATH 162 with a grade of C (2.0) or better. Prerequisite or Corequisite: MATH 260.

MATH 442 (3)
Introduction to Mathematical Statistics
Data analysis and inferential statistics: random samples, estimation, sufficient statistics, confidence intervals, hypothesis tests, curve fitting, linear regression, least squares, goodness of fit. Covers both theory and applications, with emphasis on applications. Simple proofs required. Prerequisite: MATH 441 with a grade of C (2.0) or better.

MATH 446 (3)
Numerical Analysis and Computing
Computer arithmetic, solution of a single algebraic equation, solution of systems of equations interpolating polynomials, numerical integration, numerical solution of ordinary differential equations, error analysis and computational effort of numerical algorithms. Combines theoretical ideas with hands-on laboratory experience. Also offered as CS 464. Students may not receive credit for both. Prerequisites: CS 111 or equivalent and MATH 162.

MATH 470 (3)
Introduction to Abstract Algebra
An introduction to the theory of groups, rings, and fields, with abstract ideas reinforced by concrete and important examples, such as permutation groups, polynomial rings, and finite fields. The power of the axiomatic systems introduced will be illustrated via several applications to concrete and classical problems. Prerequisites: MATH 378 with a grade of C (2.0) or better, or consent of instructor.

MATH 472 (3)
Introduction to Graph Theory
Fundamental concepts of undirected and directed graphs, trees, connectivity and traversability, planarity, colorability, networks, matchings, emphasis on modern applications. Prerequisites: MATH 350 or 370 with a grade of C (2.0) or better, or consent of instructor.

MATH 474 (3)
Introduction to Combinatorics
Introduction of the basic tools of combinatorics and their applications. Permutations, combinations, occupancy problems, generating functions, recurrences, inclusion/exclusion, graph theory, pigeonhole principle, experimental design, coding theory. Prerequisites: MATH 350 or 370 with a grade of C (2.0) or better, or consent of instructor.

MATH 480 (3)
Introduction to Optimization
Modern study of linear programming with an emphasis on model formulation, solution, and interpretation of software output. Applications in work-scheduling, diet, capital budgeting, blending, production process, transportation, assignment, transshipment, and flow problems. Programming methods include the simplex method and its specialized variations, Big M Method, goal programming, and integer programming. Theoretical aspects include optimality conditions, sensitivity analysis, and duality. Requires using industry-standard software to strengthen the ideas and concepts. Also offered as CS 480. Students may not receive credit for both. Prerequisite: MATH 374 or consent of instructor.

MATH 490 (3)
Senior Seminar
Presentation and discussion of selected areas of mathematics in order to supplement available offerings. Sample areas include differential forms, complex variables, partial differential equations, a second course in analysis, abstract algebra, or discrete math. May be repeated twice as course content changes, with consent of the program, for a maximum of nine (9) units of credit from MATH 490 and 491. Prerequisites: Twelve (12) units of upper-division mathematics. Other prerequisites to be determined by instructor.

MATH 491 (3)
Senior Seminar with Lab
Presentation and discussion of selected areas of mathematics in order to supplement available offerings. Sample areas include mathematical modeling and a second course in numerical analysis, optimization or statistics. This course meets for four hours per week. May be repeated for a maximum of nine (9) units of credit for MATH 490 and 491. Prerequisites: Twelve (12) units of upper-division mathematics. Other prerequisites to be determined by instructor.

MATH 495 (1-3)
Internship in Mathematics
Faculty-sponsored academic internship in business, industrial, government, research firm, or university labs and centers. Prerequisite: Consent of instructor.

MATH 498A (1) 498B (2) 498C (3)
Individual Study in Mathematics
Individually directed reading and study in mathematical sciences literature. May be repeated for a maximum of three (3) units. Prerequisites: Twelve (12) units of upper-division in Mathematics and consent of instructor.

MATH 499A (1) 499B (2) 499C (3)
Independent Research in Mathematics
Designed for students capable of independent and original research. May be repeated for a maximum of three (3) units. Prerequisites: Twelve (12) units of upper-division mathematics and consent of instructor.

MATH 505 (3)
Readings from Original Sources
Mathematics studied through the reading, analysis and discussion of original papers. May be repeated once for credit with consent of instructor. Prerequisite: To be determined by instructor.

MATH 510 (3)
Mathematical Communication
Selected topics in advanced mathematics chosen to demonstrate appropriate use of technology and effective organization and presentation of mathematics in oral and written form. Includes three aspects of mathematical writing: writing expository mathematics, writing formal mathematics, and writing as a tool to learn; preparation of mathematical lectures; development software modules/notebooks. Prerequisites: MATH 350 and at least nine (9) other units of upper-division mathematics, or consent of instructor.

MATH 520 (3)
Algebra
Review and continuation of the study of algebra begun in MATH 470. Covers some of the following: the theory of finite group theory including the Sylow Theorems, polynomial ring, unique factorization, number fields, and finite fields. The latter half of the course will cover field extensions and Galois Theory, including the classic theorems on the unsolvability of the general quintic and the impossibility of certain ruler and compass constructions, such as trisecting an angle. Prerequisite: MATH 470 or consent of instructor.

MATH 521 (3)
Computational and Applied Algebra
Introduction to algebraic tools and ideas that have applications in such fields as cryptography, coding theory, number theory, algebraic geometry, integer programming, computing modeling, and robotics. Includes some of the following: finite fields, Groebner bases, resultants, algebraic curves and their codes. Prerequisite: MATH 470 or consent of instructor.
COURSE DESCRIPTIONS

MATH 522 (3)
Number Theory
Introduction to number theory from the algebraic and/or analytic point of view. Includes some of the following: congruences, finite fields and rings, and quadratic reciprocity; quadratic forms and Diophantine equations; elliptic curves; the Gaussian integers, the Eisenstein integers, and unique factorization in these rings; other quadratic and cyclotomic fields and ideal factorization; introduction to analytic number theory, primes in arithmetic progressions, and the prime number theorem. Prerequisite: MATH 470 or consent of instructor.

MATH 523 (3)
Cryptography and Computational Number Theory
Algorithms for factorization and primality testing: pseudo-primes, quadratic sieve, Lucas Test, continued fractions, factorization using elliptic curves, public key cryptography systems such as RSA, which is widely used for secure transfer of data on the internet. Additional background material (such as the rudiments of elliptic curves) will be introduced as needed. Combines theoretical ideas with computer laboratory experimentation and implementation. Some familiarity with a computer language is useful but not required. Prerequisite: MATH 350 or 370 or consent of instructor.

MATH 528 (3)
Advanced Linear Algebra
Vector spaces; dual spaces; linear transformations, bilinear forms and their matrix representations; Jordan and other canonical forms; finite-dimensional spectral theory; connections to other branches of mathematics. Prerequisite: MATH 374 or consent of instructor.

MATH 530 (3)
Measure Theory
Lebesgue measure, measurable functions, the Lebesgue integral, Fubini’s Theorem, Lp-spaces, and differentiation. Prerequisite: MATH 430 or consent of instructor.

MATH 532 (3)
Ordinary Differential Equations

MATH 534 (3)
Partial Differential Equations
Theory and applications of partial differential equations. Cauchy problems, boundary problems, the Cauchy-Kovalevsky Theorem, Fourier Series, harmonic functions, elliptic equations, hyperbolic equations. Prerequisites: MATH 260, 374 and 430, or consent of instructor.

MATH 535 (3)
Multivariable Advanced Calculus
Analysis in several variables including multivariable derivatives and integrals, inverse function theorem, implicit function theorem, generalized the fundamental theorem of calculus (e.g., Stokes’ Theorem). Some of these topics may be presented from the point of view of differential forms. Prerequisites: MATH 260, 374 and 430, or consent of instructor.

MATH 536 (3)
Complex Analysis
Study of functions of a complex variable, including analytic functions, contour integrals, Cauchy’s Theorem, poles and residues, Liouville’s Theorem, Laurent Series, the Residue Theorem, analytic continuation, conformal mappings. Prerequisite: MATH 430 or consent of instructor.

MATH 538 (3)
Applicable Analysis
Foundations of functional analysis; linear and metric spaces; different modes of convergence; Hilbert Space; applications. May include topics such as calculus of variations, fixed point theorems, and operator theory. Prerequisites: MATH 374 and 430, or consent of instructor.

MATH 540 (3)
Concrete Mathematics
Blend of continuous and discrete topics including sums, recurrences, elementary number theory, binomial coefficients, generating functions, discrete probability, and asymptotic methods. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 542 (3)
Algorithmic Graph Theory
Introduction to graphs: algorithmic complexity; depth-first and breadth-first search; trees; paths and distance; network flows; matchings and factorizations; Eulerian and Hamiltonian Graphs; traveling salesman problem; planarity; vertex and edge colorings. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 544 (3)
Applied Combinatorics
Counting; Ramsey Theory; experimental designs; finite projective planes; combinatorial optimization; combinatorial set systems; matroids; axiomatic social choice; scheduling theory; location of facilities on networks. Prerequisites: MATH 350 or 370 or 470 or 472 or 474 or consent of instructor.

MATH 550 (3)
Geometry
Geometric ideas selected from the following fields: Euclidean geometry, hyperbolic geometry, projective geometry, introductory algebraic geometry, and computational geometry. Combines theoretical ideas with hands-on laboratory experience. Prerequisites: MATH 374 and 430, or consent of instructor.

MATH 552 (3)
Introduction to Topological and Geometry
Introduction to curves, surfaces, and possibly higher dimensional manifolds from the point of view of differential topology and/or differential geometry. Includes some of the following: Curves (e.g., Frenet-Serret Theorem and its consequences, isoparametric inequality, four-vertex theorem, line integrals, Fenchel’s Theorem), the topological classification of surfaces, vector fields, curvature on surfaces (leading up to some of the following: geodesics, minimal surfaces, Gauss’s Theorema Egregium, and the Gauss-Bonnet Theorem), introduction to higher dimensional manifolds, differential forms and integration (possibly including Stokes’ Theorem and global invariants such as the Euler Characteristic and De Rham Cohomology), Prerequisites: MATH 260, 374, and 430, or consent of instructor.

MATH 555 (3)
General Topology
Topological spaces, open and closed sets, metric spaces, continuity, compactness, connectedness. Other subjects may include separation axioms, fundamental groups, classification of surfaces, completion of metric spaces. Prerequisites: MATH 374 or consent of instructor.

MATH 561 (3)
Computational Linear Algebra
Provides a thorough background in the formulation and analysis of algorithms for numerical linear algebra. Includes fundamentals of scientific computation, subspaces, rank-revealing matrix factorizations, numerical solutions of linear systems, linear least squares, regularization, perturbation theory, and iterative methods. Combines theoretical ideas with laboratory experience. Knowledge of computer language is required. Prerequisites: MATH 374 or consent of instructor.
MATH 584 (3)  
Nonlinear Programming  
Theory and techniques for solving constrained and unconstrained nonlinear programming problems. Techniques include Quasi-Newton Secant Methods, Broyden’s Method, conjugate gradient methods, and line search methods. Theoretical aspects include convexity, Lagrangian Multipliers, optimality conditions, convergence, primal problem, duality, saddle points, and line searches. This course meets for four hours per week. Prerequisites: MATH 374 or MATH/CS 480 or consent of instructor.

MATH 570 (3)  
Introduction to Stochastic Processes  

MATH 571 (3)  
Probability and Random Processes  
Framework for probability theory: probability spaces as measure spaces, random variables, expectation and conditional probability. Major results such as limit theorems for sums of random variables, zero-one laws, and ergodic theorems. Applications may include branching processes, Markov Chains, Markov Random Fields, martingales, percolation, Poisson Processes, queuing theory, random walks, and renewal processes. Combines theoretical ideas with hands-on laboratory experience using appropriate computer software packages. Prerequisite: MATH 430 or 440 or consent of instructor.

MATH 620 (3)  
Seminar in Advanced Mathematics  
Advanced mathematics chosen from areas represented in the program faculty and intended to build on 500-level material. Covers the following: algebra and number theory, analysis, combinatorics and graph theory, computational mathematics, geometry, and probability. May be repeated for a maximum of twelve (12) units of credit for MATH 620 and 621. Prerequisite: Consent of instructor.

MATH 621 (3)  
Seminar in Advanced Mathematics with Lab  
Advanced mathematics chosen from areas represented in the program faculty and intended to build on 500-level material. Covers the following: algebra and number theory, analysis, combinatorics and graph theory, computational mathematics, geometry, and probability. May be repeated for a maximum of twelve (12) units of credit for MATH 620 and 621. This course meets for four hours per week. Prerequisite: Consent of instructor.

MATH 697 (1)  
Workshop in the Teaching of Mathematics  
Discussion of syllabus construction, lecture preparation, assignment and grading of homework, construction and grading of exams, and resolution of classroom problems. May be repeated, but credit will not be counted toward the Master of Science degree. Graded Credit/No Credit. Prerequisite: Graduate standing in mathematics.

MATH 699 (3)  
Thesis  
Preparation of a thesis for the master’s degree. Graded Credit/No Credit. Students may enroll in one one section per semester. Prerequisites: An officially appointed thesis committee and advancement to candidacy.

MANAGEMENT (MGMT)  
College of Business Administration  

MGMT 302 (2)  
Foundations of Management  
Important concepts and applications in management including motivation, leadership, group dynamics, organization design, decision-making, communication, and organization change. MGMT 302 is designed for the ACC2, FIN, GBM and HTM options. SSM 304 is required for the SSM option. MGMT 302 may not be taken for credit by students who have received credit for SSM 304. Students need to refer to their option checklists for the appropriate introductory management requirement. Prerequisite: All lower-division pre-business core.

MGMT 305 (4)  
Organizational Behavior  
Theoretical and applied behavioral aspects involved in the effective management of organizations. Includes individual differences, motivation, communication, group dynamics, power, conflict, decision-making, and leadership. May not be taken for credit by students who have received credit for MGMT 302 or SSM 304. Prerequisites: All lower-division pre-business core.

MGMT 315 (3)  
Services Management  
An overview of major organizational behavior concepts and their relationship to the management of complexities and challenges faced by service organizations. Concepts include understanding the role of services in the modern economy, managing conditions for excellent service delivery, creating value through service, and integrating management with marketing and operations in the service environment. May not be taken for credit by students who have received credit for SSM 304. Prerequisites: All lower-division pre-business core and either MGMT 302 or 305.

MGMT 415 (4)  
Human Resource Management  
Effective management of employees in the service sector such as recruitment and interviewing, training and development, performance appraisal, compensation and benefits, employee relations, workforce demographics, and employment law. May not be taken for credit by students who have received credit for SSM 415. Prerequisites: All lower-division pre-business core and either MGMT 302 or 305, or SSM 304.

MGMT 432 (2)  
In The Executive’s Chair  
A unique course that provides students opportunities to learn from and network with 10-12 business executives each semester in an interview format. The guest executives share insights about their careers, their companies and industries, diverse functional areas and business concepts, and critical business decisions they have made. Course emphasis is on learning from the successes and failures of these effective business leaders. Will count as elective credit for FIN, GBM, HTM and SSM options. May not be taken for credit by students who have received credit for SSM 432 or SSM 482D. Prerequisites: All lower-division pre-business core and BUS 302.
MGMT 445 (2)
Career Development
Provides students with opportunities to learn about and practice strategies designed to enhance individual career success in the 21st Century organizations. Subject matter includes: Changing nature of careers, finding the right career(s), interviewing and recruiting strategies, skills development, mentoring and networking, and other career development strategies. The course will involve guest speakers, in-class discussions and group activities, personal assessment and analysis, and video illustrations. May not be taken for credit by students who have received credit for SSM 445. Prerequisites: All lower-division pre-business core and MGMT 302 or 305, or SSM 304.

MGMT 452 (4)
Leadership in Organizations
In-depth analysis of the process of leadership in organizations with a focus on the development of personal leadership skills. Emphasis on students’ ability to conceptualize, integrate, and apply diverse approaches to the leadership and motivation of people in organizations. May not be taken for credit by students who have received credit for SSM 452. Prerequisites: All lower-division pre-business core and either MGMT 302 or 305, or SSM 304.

MGMT 461 (4)
Management in Different Cultures
Examination of the impact of culture on managerial decisions. Key management decisions in a number of industries and countries are examined to highlight the complexities of management in a global environment. Prerequisites: All lower-division pre-business core, and either MGMT 302 or SSM 304.

MGMT 465 (4)
Developing Management Skills
Globalization, increased workforce diversity, and technological change require managerial skills that are effective in a changing workplace environment. This advanced organizational behavior course integrates theory and practice with understanding and application. Management skills at the personal level include personal awareness, management of stress and creative problem solving. At the interpersonal level, the focus is on communicating effectively, gaining power and influence, motivating others, and managing conflict. At the group level, the emphasis is on empowerment skills and effective team building. May not be taken for credit by students who have received credit for SSM 465 or SSM 494A. Prerequisites: All lower-division pre-business core and either MGMT 302 or 305, or SSM 304.

MGMT 491 (1)
Selected Topics in Management
A survey course of selected topics in management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MGMT 492 (2)
Selected Topics in Management
A survey course of selected topics in management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MGMT 493 (3)
Selected Topics in Management
A survey course of selected topics in management in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MGMT 494 (4)
Selected Topics in Management
A survey course of selected topics in management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MGMT 495 (4)
Selected Topics in Management with Lab
A survey course of selected topics in management designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MGMT 496 (1-4)
Independent Study in Management
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.

MANAGEMENT
INFORMATION SYSTEMS (MIS)

College of Business Administration

MIS 302 (2)
Foundations of Management Information Systems
Survey of management information systems topics with an emphasis on service applications. Includes computer hardware and software, databases, information systems development, and the role of information systems in the organization. MIS 302 is designed for the GBM and SSM Options. HTM 304 is required for the HTM Option and may be substituted for ACCT 308 for the FIN Option. MIS 302 may not be taken for credit by students who have received credit for HTM 304. Students need to refer to their option checklist for the appropriate introductory information systems requirement. Prerequisites: All lower-division pre-business core, and completion of the University computer competency requirement.

MARKETING (MKTG)

College of Business Administration

MKTG 302 (2)
Foundations of Marketing
Marketing is the process of identifying and satisfying customers' needs for products, services and ideas, and simultaneously creating and delivering a standard of living to society. Examines the components of the marketing process, sources and uses of marketing intelligence, consumer behavior and international marketing. MKTG 302 is designed for the ACCT, FIN, GBM, and HTM Options. SSM 305 is required for the SSM Option. MKTG 302 may not be taken for credit by students who have received credit for SSM 305. Students need to refer to their option checklist for the appropriate introductory marketing requirement. Prerequisite: All lower-division pre-business core.
MKTG 302 (4)
Principles of Marketing
Foundation course providing an overview of the role and process of marketing as a system of exchanges within society, the economy, and business organizations. Includes strategic planning, market segmentation, environmental scanning, marketing strategies, marketing mix elements, consumer and business buying behaviors and marketing research. May not be taken for credit by students who have received credit for MKTG 302, or SSM 305. Prerequisites: All lower-division pre-business core.

MKTG 315 (4)
Services Marketing
An overview of service quality with marketing frameworks and strategies used by manufacturing and service firms to compete effectively through service. Includes: gap analysis of service quality, services marketing triangle, marketing mix for services, service blueprinting, consumer behavior, service encounter analysis, services research methods and demand management. May not be taken for credit by students who have received credit for SSM 305. Prerequisites: All lower-division pre-business core and either MKTG 302 or 305.

MKTG 433 (4)
Marketing Communication
Marketing communication — including advertising, personal selling and other forms of promotion — is glue that binds organizations with their customers. Course examines the determinants of communication effectiveness and efficiency; the components of marketing communication; and the process of designing, implementing, controlling, and evaluating marketing communication strategies. May not be taken for credit by students who have received credit for SSM 333. Prerequisites: All lower-division pre-business core and BUS 302, and either MKTG 302 or 305, or SSM 305.

MKTG 442 (4)
Customer Analysis
Examines selected aspects of environmental, social, and psychological influences on customer behavior. In-depth study of alternative methods for acquiring customer information using secondary and primary sources. Emphasizes techniques appropriate for performing customer analyses for different types of organizations. Students apply course material through a required customer analysis project. May not be taken for credit by students who have received credit for SSM 442. Prerequisites: All lower-division pre-business core and BUS 302 and BUS 304, and either MKTG 302 or 305, or SSM 305.

MKTG 444 (4)
Sales Management
A key component of a firm’s business-to-business marketing effort is the sales force. Focuses on the management of sales forces by examining how to plan, implement and evaluate the sales effort. Key responsibilities of sales managers are examined. These include planning, recruiting, training, motivating and evaluating the sales force. Attention is also given to sales forecasting, territory design and quota setting methods. May not be taken for credit by students who have received credit for SSM 446 or SSM 484C. Prerequisites: All lower-division pre-business core, BUS 302, and either MKTG 302 or 305, or SSM 305.

MKTG 448 (4)
Global and Cross Cultural Marketing
Successful firms realize that exchange of goods and services occurs within a global context. The global context includes the domestic market and is not limited simply to “doing business overseas.” Students study the challenges, constraints, and opportunities presented by the global environment. Emphasis will be placed on the types of marketing strategies that can be used to exploit opportunities and overcome challenges in the global marketplace. Focuses not simply on how to successfully enter markets overseas, but on how strategies in the domestic market can be integrated into a firm’s overall global marketing strategy. May not be taken for credit by students who have received credit for SSM 448. Prerequisites: All lower-division pre-business core and BUS 302, and either MKTG 302 or 305, or SSM 305.

MKTG 449 (4)
Database Marketing
Database Marketing involves systematic collection, analysis, and application of customer information to build long-term customer relationships. Draws upon database management, statistics, finance, and marketing skills. Discussion focuses on what critical customer information should be collected and how to maintain it in relational databases. Students learn to analyze databases to predict customer behaviors, retention rates, and levels of spending. Students use these databases to make informed choices concerning which customers to target and how to develop long-term relationships with them. May not be taken for credit by students who have received credit for SSM 449 or SSM 485A or HTM 485A. Prerequisites: All lower-division pre-business core and BUS 304, and either HTM 304 or MRS 302, and either MKTG 302 or 305, or SSM 305.

MKTG 481 (1)
Selected Topics in Marketing
A survey course of selected topics in marketing in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MKTG 482 (2)
Selected Topics in Marketing
A survey course of selected topics in marketing designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MKTG 483 (3)
Selected Topics in Management
A survey course of selected topics in marketing in order to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MKTG 484 (4)
Selected Topics in Management
A survey course of selected topics in marketing designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MKTG 485 (4)
Selected Topics in Management with Lab
A survey course of selected topics in marketing designed to supplement available offerings. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change. Three hours of lecture and two hours of laboratory. Prerequisites: All lower-division pre-business core, additional prerequisites may vary depending on topic.

MKTG 498 (1-4)
Independent Study in Management
Independent study under the direction of a faculty member. The student must prepare a study proposal approved by the appropriate faculty member prior to registration. Prerequisite: Consent of instructor.
MUSIC (MUSC)

College of Arts and Sciences

There is a Music Track in the Visual and Performing Arts major.

MUSC 120 (3)
Introduction to Music
Comparative study of various musical styles and cultures. Emphasis on basic musical materials such as melody, rhythm, harmony, and form. Includes an overview of historical periods and styles, and an introduction to the history of music from ancient to modern times. Lecture and discussion.

MUSC 203 (3)
Elements of Music I
Development of aural skills (sight singing, dictation, transcription), scale/cord theory, and part-writing.

MUSC 205 (3)
Elements of Music II
Development of aural skills (sight singing, dictation, transcription), diatonic harmony, modal systems, chromaticism, and elementary composition. Highly recommended: MUSC 203, or passing score on Theory Diagnostic Exam.

MUSC 293 (2)
Vocal and Instrumental Instruction
Private or small group music lessons. Prerequisites: Normally open only to Visual and Performing Arts Music Option students with less than one year of lower-division studio music study or who are placed at this level through audition. Students approved for MUSC 293 must be enrolled in appropriate ensembles at CSUSM. May be repeated for a maximum of eight (8) units. Prerequisite: Consent of instructor.

MUSC 302 (3)
Computers and Music
Introduction to computers and their use in a musical context. Includes an historical overview of the field and an in-depth investigation of the use of computers and synthesizers in creating musical compositions (both printed and recorded). Students will learn the basics of synthesis, MIDI (Musical Instrument Digital Interface), the language by which computers and synthesizers can “talk” to each other, sequencing, computer music notation, and random computer-generated compositional processes. Computer ethics and word processing will also be covered. Projects will be completed in Microsoft Word and/or other software.

MUSC 303 (3)
Materials and Structure of Music
Advanced work in the analysis of music and the application of current and historical theories. A study of the elements, genre and structures using examples drawn from a broad historical and cultural spectrum to be taken concurrently with Process of Art I. Prerequisite: MUSC 205 or equivalent.

MUSC 304 (3)
Recording Techniques
A technical review of the art of studio and field recording techniques. Students will learn basic and advanced microphone techniques, the uses of analog and digital recording devices, special signal processing, and digital and analog mixing. Prerequisite: Consent of instructor.

MUSC 320 (3)
Critical Listening
Helps the student develop highly honed listening skills. Music from many cultures including Euro-American concert music, music from India, Japan, Africa, South America, Eastern Europe, and the United States form the core of the examples studied. No single historical period or national style dominates. The emphasis is placed on perception of musical elements that are common to all music of the world, the acoustical foundations of music, and aesthetics. Music is viewed within a social and cultural context. Attendance of concerts is a required part of the course.

MUSC 321 (3)
Survey of World Folk Songs
Study of selected folk songs from the Americas, Europe, Africa and Asia. Explores issues associated with the context of the songs, their social function, gender, status, and age differences of the performer/composer. Requires students to learn to sing songs in their original language, complete group research projects that focus on a single cultural group, learn the techniques of song analysis, and complete an ethnographic case study with a local folk musician.

MUSC 323 (3)
Music in Ritual and Religion
Cross-cultural studies of the music identified with worship. Examples drawn from Africa, Europe, United States, the Caribbean, South America, Islam, East Asia, and India.

MUSC 324 (3)
Survey of World Popular Music
An introduction both to the great diversity of the world’s popular musics, and to some of the issues involved in the production of popular music worldwide. Issues addressed will cover a broad geographic area, including parts of Africa, the Americas, Europe, the Middle-East, and South, East, and Southeast Asia. Issues of religion, gender, politics, ethnic or regional identity, cultural property, appropriation, and mass-media will be examined as influential factors informing popular music practices across geographic and cultural boundaries.

MUSC 390 (2)
Andean Ensemble
A performance ensemble specializing in the music of Bolivia, Peru, Ecuador, and Chile. Students learn to play bamboo flutes, pre-Columbian instruments, and panpipes. Guitarists and vocalists are welcome. Music is sung in Spanish, Quechua, and Aymara. May be repeated; a total of eight (8) units may be counted toward graduation requirements.

MUSC 391 (2)
African Ensemble
Exploration of performance practice in traditional African music through organized performances of selected musical types and forms. Students will be introduced to various techniques as a basis for the integration of music, dance, and drama in traditional African societies. May be repeated; a total of eight (8) units may be counted toward graduation requirements.
MUSC 392 (2)
World Music Ensemble
Systematical study of the literature, instruments, and techniques of a selected style of music. Includes research and performance. The topic and style of music is variable. May be repeated; a total of eight (8) units may be counted toward graduation requirements.

MUSC 393 (2)
Advanced Vocal and Instrumental Instruction
Private or small group music lessons. Students approved for MUSC 393 must be enrolled in appropriate ensembles at CSUSM. May be repeated; a total of eight (8) units may be counted toward graduation requirements. Prerequisites: Normally open only to Visual and Performing Arts Music Option students with at least one year of lower-division studio study.

MUSC 394 (2)
Vocal Ensemble
A vocal ensemble specializing in many different musical styles. Performances will include works from jazz, traditional, popular, and classical repertoires. Emphasis will be placed on correct vocal and performance techniques and improvement of musical skills. May be repeated; a total of eight (8) units may be counted toward graduation requirements.

MUSC 395 (2)
Javanese Gamelan Ensemble
Exploration of performance practice in traditional Javanese Gamelan music through organized performances of selected musical types and forms. Students will be introduced to various techniques as a basis for the integration of music, dance, and drama in traditional Indonesian societies. May be repeated; a total of eight (8) units may be counted toward graduation requirements.

MUSC 396 (3)
Jazz Orchestra
A performance group consisting of both traditional to contemporary instrumentation and “jazz” literature, e.g. Ellington, Gillespie, Néstor, Monk, and Davis. Organized performances on CSUSM campus and the broader San Diego County. Study of “jazz” theory and improvisation, transcriptions, and listening assignments. Students must be able to read music. Highly recommended: MUSC 203. May be repeated; a total of twelve (12) units may be counted toward graduation requirements.

MUSC 402 (3)
Advanced Composition With Computers
A study of the advanced techniques of digital music technology. Includes digital audio recording and editing, signal processing, alternative MIDI controllers, live performance with electronics, advanced synthesis, sampling, and sequencing techniques. Students will compose works in several styles with a final project to be presented in concert. Two hours of lecture and two hours of composition activity are required. May be repeated for a total of six (6) units. Prerequisite: MUSC 302 or 304 or consent of instructor.

MUSC 421 (3)
Survey of World Music I
Explores the music of Native Americans, Black music in America, West African music, European folk music, and the music of India. Students will be required to complete an anthropological/ethnomusicological field work study in one of the indigenous music styles in Southern California. The project will include interviews with native informants, field recordings, and other appropriate research.

MUSC 422 (3)
Andean Music and Culture
An introduction to Andean culture through music performance, listening, and research. Students will learn to play authentic Andean instruments from Peru, Chile, Ecuador, and Bolivia. Extensive reading and analytical listening are a part of this course. May not be taken for credit by students who have received credit for MUSC 422S.

MUSC 423 (3)
Roots to Reggae: African Music in Dispersion
Students will explore and trace the influences of African culture in the new world. Exploration of the dispersion of music, religion, social structure, and culture.

MUSC 424 (3)
African Music and Culture
A survey of traditional and modern cultures on the African continent. Special attention is given to the development of an understanding of African religious systems, social structures, and the arts as a manifestation of the African world view.

MUSC 425 (3)
Latin American Music and Society
An in-depth survey of the music and culture of Latin America as seen through the lens of history. The materials will be organized in the following historical periods: the Pre-Columbian Era, the Colonial Era, the Republican Era, and modern trends in Latin American music. Folkloric, concert, and popular music will be examined in relation to class strata in Latin America. Special emphasis will be placed on the music of Mexico, Brazil, the Andean region, and Cuba. May not be taken for credit by students who have received credit for MUSC 425S.

MUSC 426 (3)
Japanese Music and Culture
An introduction to Japan through the senses, with an emphasis on musical and visual arts. The fine arts are studied through historical and cultural perspective. Students will view films, videos, and photos of famous places in Japan, as well as important works of art. Numerous recordings of Japanese music, together with live music, will be provided for study in the class. Class sessions will be devoted to geography, history, language, literature, society, and religion, in themselves and in relation to music and the visual arts. The aim is to promote a deeper understanding among Americans for the distinctive values of Japanese culture.

MUSC 427 (3)
Music and Culture in the United States
A survey of the music and culture of the United States through study of the various social strata and ethnic groups which make up the fabric of American life. Music will be studied in the historical, social, and cultural context of the time in which it was created with special attention paid to historical periods such as the Civil War, the turn of the century, the Great Depression through World War II, the 1960s, and the present. Additional emphasis will be placed on the role of women in American musical culture and issues of class and race as they influence (and are influenced by) the development of musical styles.

MUSC 480 (3)
Music Activities for Children and Adults
Explores various modes of musical expression within a multicultural context. No background in music is required. An emphasis will be placed on performance, composition, and listening activities that can be applied to the K-12 classroom. Two hours of lecture and two hours of laboratory. This course satisfies the Liberal Studies requirement for work in Studio Arts.
MUSC 495A (1) 495B (2) 495C (3)
Internship
Intended to provide students with the opportunity to work directly with selected and approved individual artist or group of artists as field, creative, or studio experience. May be repeated for a total of six (6) units. Graded Credit/No Credit. Prerequisite: Consent of instructor.

MUSC 498A (1) 498B (2) 498C (3)
Independent Study
Intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved by the Visual and Performing Arts Independent Study Committee and supervised by a faculty member or academic advisor. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

NATIVE STUDIES (NATV)
College of Arts and Sciences

NATV 380 (3)
Topics in Native Studies
Examination of a topic of study of interest to students in Native Studies. Please see the current course schedule for posting of particular topics offered in a given term. May be repeated for credit three times as topics change.

NATV 390 (3)
Independent Study in Native Themes
Allows students to explore historical, cultural, social, and environmental questions significant to native communities under the supervision of a faculty member in the appropriate discipline. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor and the Native Studies Coordinator.

NATV 498 (3)
Internship in a Native Community
Capstone of the Native Studies minor. Designed to equip students for service to native communities. Students will be expected to provide faculty-monitored service with institutions serving reservation or urban native communities, such as (but not limited to) schools, libraries, clinics, urban service centers, youth programs, and study projects supervised by native entities (such as environmental studies). Students will turn in a portfolio reporting on all their activities during their internship. Prerequisite: Consent of Native Studies Coordinator.

NURSING (NURS)

NURS 200 (4)
Introduction to Nursing Practice
An overview of nursing, including the philosophy and organizing theory of the nursing program. Introduces the core concepts and clinical skills common to all levels of nursing practice. Familiarizes the student with the use of the nursing process and of nursing care based on the Orem Self-Care Model. Describes the dimensions of the professional role as provider of care, teacher, advocate, coordinator of care, and member of the profession. Corequisites: NURS 201, 210, and 211. Prerequisites: All Pre-Nursing Core courses, and PSYC 210 or SOC 204, and consent of Program Director.

NURS 201 (2)
Introduction to Nursing Practice Laboratory
Application of basic therapeutic nursing interventions in the clinical setting within the context of Orem’s Self-Care Theory. Includes clinical experiences in the ambulatory and/or acute or long-term health care settings, as well as simulated experiences in the Nursing Skills Laboratory. Nine hours of laboratory. Corequisites: NURS 200, 210, and 211. Prerequisites: All Pre-Nursing Core courses, and PSYC 210 or SOC 204, and consent of Program Director.

NURS 210 (2)
Nursing Communication and Assessment
Introduction to the components of health assessment, therapeutic communication, and interview techniques with an emphasis on cultural and community variables. Introduces the student to the role of the nurse as teacher and health promoter. Corequisites: NURS 200, 201, and 211. Prerequisites: All Pre-Nursing Core courses, and PSYC 210 or SOC 204, and consent of Program Director.

NURS 211 (1)
Nursing Communication and Assessment Laboratory
Practice of health assessment techniques and basic therapeutic communication skills in the Nursing Skills Laboratory and community settings. Includes practice in patient education and health promotion. Three hours of laboratory. Corequisites: NURS 200, 201, and 210. Prerequisites: All Pre-Nursing Core courses, and PSYC 210 or SOC 204, and consent of Program Director.

NURS 212A (2)
Pathophysiology and Pharmacology of Nursing Practice I
Introduction to the basics of pharmacology with a focus on specific pharmacological agents in relation to pharmacokinetic effects on the integumentary, sensory, musculoskeletal, gastrointestinal and cardiovascular body systems. Examines related pathophysiological disruptions to normal system functioning and the impact of these alterations on the individual throughout the life span. Provides rationale for nursing interventions. Corequisites: NURS 220 and 221. Prerequisites: NURS 230, 231, 260, and 261, and consent of Program Director.

NURS 212B (2)
Pathophysiology and Pharmacology of Nursing Practice II
Introduction to the basics of pharmacology with a focus on specific pharmacological agents in relation to pharmacokinetic effects on the endocrine, respiratory, hemato logical, renal/genitourinary, and neurological body systems. Examines related pathophysiological disruptions to normal system functioning and the impact of these alterations on the individual throughout the life span. Provides rationale for nursing interventions. Corequisites: NURS 222 and 223. Prerequisites: NURS 212A, 220, 221, and consent of Program Director.

NURS 220 (2)
Nursing Care of Adults I
Principles of nursing care delivery for patients and families experiencing medical-surgical health care problems and mild to moderate self-care deficits involving disorders of the integumentary, sensory, musculoskeletal, gastrointestinal, cardiovascular, and immune systems. Uses the nursing process as the foundation for standard therapeutic interventions. Corequisites: NURS 212A and 221. Prerequisites: NURS 230, 231, 260, 261, and consent of Program Director.
NURS 221 [3]
Nursing Care of Adults I Laboratory
Application of nursing theory and concepts in the delivery of health care to adult medical-surgical patients in an acute care clinical setting. Nursing care is provided through use of the nursing process and the Orem Self-Care model. Uses an increasing emphasis on the professional roles of the nurse. Nine hours of laboratory. Corequisites: NURS 212A and 220. Prerequisites: NURS 230, 231, 260, 261, and consent of Program Director.

NURS 222 [2]
Nursing Care of Adults II
Continuation of the study of principles of nursing care delivery for patients and families experiencing medical-surgical health care problems and moderate self-care deficits involving disorders of the endocrine, respiratory, hematological, renal/genturinourine, and neurological body systems and those with acute cardiac and oncological conditions. Uses the nursing process as the foundation for standard therapeutic interventions. Corequisites: NURS 212B and NURS 223. Prerequisites: NURS 212A, 220, 221, and consent of Program Director.

NURS 223 [3]
Nursing Care of Adults II Laboratory
Application of nursing theory and concepts in the delivery of health care to adult medical-surgical patients in an acute care clinical setting. Nursing care is provided through use of the nursing process and the Orem Self-Care model. Uses an increasing emphasis on the professional roles of the nurse. Nine hours of laboratory. Corequisites: NURS 212B and 222. Prerequisites: NURS 212A, 220, 221, and consent of Program Director.

NURS 230 [2]
Nursing Care of the Childrearing Family
Nursing concepts and theory related to the dynamics of the growing family. Focuses on the care of families during childrearing years and includes both normal and high-risk conditions. Nursing process is stressed in addressing both self-care requisites and deficits. Delivered in an eight-week term. Corequisites: BIOL 323, NURS 230, and PSYC 210 or SOC 204. Prerequisites: NURS 200, 201, 210, 211, PSYC 210, and consent of Program Director.

NURS 231 [2]
Nursing Care of the Childrearing Family Laboratory
Application of the nursing process in the direct care of the normal and high-risk childrearing population. Emphasis is placed on teaching and health promotion in varied clinical settings. Delivered in an eight-week term. Twelve hours of laboratory. Corequisites: BIOL 323, NURS 230, and PSYC 210 or SOC 204. Prerequisites: NURS 200, 201, 210, 211, PSYC 210, and consent of Program Director.

NURS 233 [2]
Nursing Care of the Childbearing Lab
Application of nursing process in the direct care of infant, toddler, pre-school, school-age, and adolescent. Focuses on care of children within the family, emphasizing acute illness, health promotion, and growth and development. The nursing process is stressed in addressing both self-care requisites and deficits. Delivered in an eight-week term. Corequisites: NURS 233 and SOC 303. Prerequisites: NURS 212B, 221, 222, and consent of Program Director.

NURS 234 [2]
Nursing Care of Children
Nursing concepts and theory related to health care of the infant, toddler, school-age, and adolescent. Focuses on care of children within the family, emphasizing acute illness, health promotion, and growth and development. The nursing process is stressed in addressing both self-care requisites and deficits. Delivered in an eight-week term. Corequisites: NURS 234 and SOC 303. Prerequisites: NURS 212B, 221, 222, and consent of Program Director.

NURS 260 [2]
Psychiatric and Mental Health Nursing
Theories and concepts related to the dynamics of individuals undergoing acute and chronic psychosocial self-care deficits. Focuses on use of self, therapeutic communication, and nursing process. Delivered in an eight-week term. Corequisites: BIOL 323, NURS 260, PSYC 210 or SOC 204. Prerequisites: NURS 200, 201, 210, 211, PSYC 210, and consent of Program Director.

NURS 261 [2]
Psychiatric and Mental Health Nursing Laboratory
Therapeutic interventions for individuals exhibiting self-care deficits related to psychiatric disorders. Focuses on promotion of mental health in diverse clinical settings. Delivered in an eight-week term. Twelve hours of laboratory. Corequisites: BIOL 323, NURS 260, and PSYC 210 or SOC 204. Prerequisites: NURS 200, 201, 210, 211, PSYC 210, and consent of Program Director.

NURS 310 [2]
Nursing Assessment for the RN
Health assessment including history taking, physical examination and documentation of findings, interpretation of diagnostic testing, psychosocial assessment techniques and health promotion across the life span for the RN-to-BSN student. Corequisites: NURS 311. Prerequisites: NURS 350, 351, and consent of Program Director.

NURS 311 [1]
Nursing Assessment for the RN Laboratory
Clinical practice of health assessment including history taking, physical examination and documentation of findings, interpretation of diagnostic testing, psychosocial assessment techniques and health promotion across the life span for the RN-to-BSN student. Three hours of laboratory. Corequisites: NURS 310. Prerequisites: NURS 350, 351, and consent of Program Director.

NURS 312 [4]
Pathophysiology and Pharmacology
Systematic review of the principles of pharmacology with a focus on specific pharmacological agents in relation to pharmacokinetic effects on all body systems. Reviews related pathophysiological disruptions to normal system functioning, provides pathophysiological rationale for nursing interventions and the impact of these alterations on the individual throughout the life span. Corequisites: BIOL 160, 175, 176, CHEM 100, 100L, and consent of Program Director.

NURS 320 [2]
Nursing Care of Adults III
Continues the study of principles of nursing care delivery for patients and families experiencing more complex medical-surgical health care problems and severe self-care deficits. Uses the nursing process as the foundation for standard therapeutic interventions. Delivered in an eight-week term. Corequisite: NURS 321. Prerequisites: NURS 212B, 222, 223, and consent of Program Director.

NURS 321 [2]
Nursing Care of Adults III Laboratory
Application of nursing theory and concepts in the delivery of health care to acutely ill adults with increasingly complex medical-surgical problems using the nursing process and the Orem Self-Care model. Employs an increasing emphasis on the professional roles of the nurse. Delivered in an eight-week term. Twelve hours of laboratory. Corequisite: NURS 320. Prerequisites: NURS 212B, 222, 223, and consent of Program Director.
NURS 350 (2)
Role Transition for the RN
Provides the Registered Nurse with the conceptual base for the practice of nursing, built around a core of theories and related concepts, which will facilitate transition of the Registered Nurse to the baccalaureate nursing curriculum. Focus is on the roles of the professional nurse as advocate, educator, provider, and coordinator of care. Corequisite: NURS 351. Prerequisite: RN license, admission to the RN-to-BSN nursing major, and consent of Program Director.

NURS 351 (1)
Role Transition Seminar for the RN
Returning Registered Nurses will apply, review, and validate concepts and theories related to medical-surgical, mental health, pediatrics and obstetrical nursing practice that are the basis for the upper-division baccalaureate nursing major courses. Seminar discussions of the application of these concepts to patient care in clinical settings. Corequisite: NURS 350. Prerequisites: RN license, admission to the RN-to-BSN nursing major, and consent of Program Director.

NURS 352 (3)
Nursing Research
An understanding of the research process and research utilization in clinical practice. Students develop skills in reading, analyzing and critiquing research related to nursing. Prerequisites: BIOL 215 or equivalent, NURS 222 and 223 (generic nursing students only) or NURS 350 and 351 (RN-to-BSN students only), and consent of Program Director.

NURS 370 (3)
Health Promotion and Patient Education Strategies
Integration, application and evaluation of specific information regarding health education and health promotion theory, research, and practice, which is essential to the professional nursing role, and critical to improving the health of individuals and the population at large. Explores the effects of developmental, motivational, and sociocultural factors on patient teaching, health education, and health promotion. Corequisites: NURS 222 and 223 (generic nursing students) or NURS 350 and 351 (RN-to-BSN students). Prerequisites: NURS 220 and 221 (generic nursing students only) or admission to RN-to-BSN nursing major, and consent of Program Director.

NURS 395 (3)
Special Topics in Nursing
Introductory topics of interest to nursing and/or health science majors. Prerequisite: Upper-division standing or consent of instructor.

NURS 440 (3)
Community Health Nursing Laboratory
Clinical experience within an official local governmental agency illustrative of the public health system. Students work as a member of an interdisciplinary team, applying the frameworks that guide community-based and population-focused public health nursing practice to help identify populations within the community maintain their optimum level of health. Focuses on care management of clients receiving services from community agencies, allied clinical experiences and community assessment and planning. Nine hours of laboratory. Corequisite: NURS 440, NURS 441, and consent of Program Director.

NURS 441 (3)
Community Health Nursing Laboratory
Clinical experience within an official local governmental agency illustrative of the public health system. Students work as a member of an interdisciplinary team, applying the frameworks that guide community-based and population-focused public health nursing practice to help identify populations within the community maintain their optimum level of health. Focuses on care management of clients receiving services from community agencies, allied clinical experiences and community assessment and planning. Nine hours of laboratory. Corequisite: NURS 440, NURS 441, and consent of Program Director.

NURS 442 (3)
Nursing Case Management of Vulnerable Populations Laboratory: Acute Care
Application of skills to manage the chronically ill or patients identified as members of a high-risk or vulnerable population in the acute care setting from admission through discharge. Focuses on maintenance of maximum levels of function and self-care ability, to reduce hospitalization, manage symptoms, and increase quality of life for persons at risk. Implementation of nursing case management strategies and intervention will be used for managing high-risk client populations and for providing cost effective and comprehensive care coordination, brokerage, monitoring, discharge planning. Nine hours of laboratory. Corequisites: NURS 442. Prerequisites: NURS 440, 441, and consent of Program Director.

NURS 443 (3)
Nursing Case Management of Vulnerable Populations Laboratory: Community-Based
Application of skills to manage the chronically ill or patients identified as members of a high-risk or vulnerable population in the community setting. Focuses on the maintenance of maximum levels of function and self-care ability, to reduce the need for hospitalization, manage symptoms, and increase quality of life for persons at risk. Implementation of nursing case management strategies and intervention will be used for managing high-risk or vulnerable client populations and for providing cost effective and comprehensive care coordination, brokerage, monitoring, and patient education. Nine hours of laboratory. Corequisites: NURS 442. Prerequisites: NURS 440, 441, and consent of Program Director.

NURS 450 (3)
Nursing Leadership and Professional Issues
Organizational theory and management practices applied to health care systems. The role of the nurse manager as leader and change agent in the delivery of care to patient groups and communities within complex and diverse health care settings. Contemporary issues affecting the delivery of health care and discipline and professional practice of nursing. Corequisite: NURS 451. Prerequisites: NURS 440, 441, and consent of Program Director.
NURS 451 (2)
Nursing Leadership and Management Laboratory
Application of organizational theory and management practices in health care settings. Development of skills and competencies for the frontline nurse manager within and beyond the walls of the acute care setting. Operationalizes the role of the nurse manager as leader and change agent in the delivery of care to patient groups and communities within complex and diverse health care settings. Six hours of laboratory. Corequisite: NURS 450. Prerequisites: NURS 440, 441, and consent of Program Director.

NURS 482 (3)
Legal Aspects of Health Care Delivery
Explores the legal issues related to health care delivery and health care providers, includes negligence, malpractice, liability, informed consent, confidentiality, treatment of vulnerable persons, ethical dilemmas, advanced health directives, and licensure and practice acts. Open to non-nursing majors. Prerequisites: Upper-division standing or consent of instructor.

NURS 472 (3)
Complementary Approaches to Health and Healing
Explores complementary approaches to health and healing including acupuncture and therapeutic touch, homeopathic remedies, holistic, chiropractic and osteopathic approaches, nutrition, mind/body interactions and herbal/botanical products. Examines various culturally based health practices such as Latin American, Native American, Mexican, and traditional Oriental practices and healers. Prerequisites: Upper-division standing or consent of instructor.

NURS 490 (1)
Transition to Nursing Practice Seminar
Clinical decision making in a variety of patient care situations and case scenarios with emphasis on utilization of the steps of the nursing care process. Reviews the essentials of assessment, nursing diagnosis, goal setting, implementation and evaluation in multiple health deviations and across the life span. Assessment of the student’s basic nursing knowledge will be performed using a standardized nursing examination. Corequisite: NURS 442. Prerequisite: Consent of Program Director.

NURS 491 (2)
Transition to Nursing Practice Internship
Enhancement of clinical skills in acute care settings. Designed for the generic nursing student to work in a clinical setting under the supervision of a clinical preceptor and to reinforce clinical skills. Graded Credit/No Credit. Prerequisites: NURS 320, 321, and consent of Program Director.

NURS 493 (2)
Senior Nursing Internship
Designed for generic nursing students to work in a clinical setting and strengthen their professional nurse identity by working under the supervision of a clinical preceptor as a role model. Additional clinical practice in a real work setting. May be repeated for a total of four (4) units. Graded Credit/No Credit. Prerequisite: NURS 491, and consent of Program Director.

NURS 496 (3)
Special Topics in Nursing
Advanced topics of interest to nursing and/or health science majors. Prerequisite: Upper-division standing or consent of instructor.

NURS 499 (3)
Independent Study in Nursing
Independent study in nursing. Project must be approved by the faculty sponsor/instructor prior to registration. Prerequisite: Upper-division standing and consent of instructor.

PHILOSOPHY (PHIL)

PHIL 110 (3)
Critical Thinking
A survey of concepts and methods geared to the advancement of skills in critical thinking. Subject matter includes the nature of critical thinking; the relations between logic and language; the relations between rhetorical persuasion and rational argumentation; the nature of word definition; the practical functions of language; the structure of arguments, deductive and inductive; the difference between valid and invalid, or strong and weak reasoning; methods for analyzing and evaluating arguments; common argumentative fallacies; basic symbolic logic.

PHIL 210 (3)
Symbolic Logic
Use of symbolic notation to understand the structure of logical arguments. Translation of sentences from ordinary language into logical notation, construction of truth tables, and the use of formal deduction rules to prove the validity of arguments. Prerequisite: Completion of the Entry-Level Mathematics (ELM) requirement or completion of the Critical Thinking General Education requirement.

PHIL 203 (3)
Physical Education for Elementary School Children
Survey of physical education programs for elementary school children. Addresses the role of, and need for, physical education programs in the elementary school level; examines the California content standards for physical education instruction; and develops skills in applying that content in the elementary school setting. Specific attention is given to motor skill and movement concepts; fitness, wellness, exercise physiology and disease prevention; drugs/narcotics, alcohol, tobacco, and nutrition; and to the social, historical, and cultural significance of physical education. May not be taken for credit by students who have received credit for PE 201.
PHIL 310 (3)
Western Philosophy: Ancient Greece and Rome
Surveys the development of Western philosophy in ancient Greece and Rome, from 700 BCE to 300 CE. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life. May not be taken for credit by students who have received credit for PHIL 320.

PHIL 311 (3)
Western Philosophy: The Middle Ages and the Renaissance
Surveys the development of Western philosophy in the Middle Ages and the Renaissance. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, religion, and sciences, and the context of political, social, and economic life.

PHIL 312 (3)
Western Philosophy: The Early Modern Period
Surveys the development of Western philosophy in the early modern age, 1600-1800. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life.

PHIL 314 (3)
Western Philosophy: Late Modern and Post-Modem
Surveys the development of Western philosophy in the late modern age, 1800-2000. Study of philosophy is set against background consideration of broader historical and cultural developments in the arts, sciences, and technology, and the context of political, social, and economic life.

PHIL 315 (3)
Ethics: Theory and Application
An introduction to ethical theory and applied ethics. Surveys the major ethical theories developed in Western philosophy, and examines the ways in which theoretical approaches are applied to contemporary personal and social issues. Study of philosophy is complemented by discussion of intellectual history and exploration of a range of related disciplines such as bioethics, environmental ethics, business ethics, and public policy.

PHIL 318 (3)
Non-Western Philosophy: Theories of Value and Action
A survey of ethical traditions from non-Western cultures. Emphasis is on the religious and philosophical traditions of Asia, but African and Native American traditions are also discussed. Subjects include Hinduism and the Vedic traditions, Buddhism, Taoism, Confucianism, and others.

PHIL 335 (3)
Social and Political Philosophy
A survey of classical social and political thinkers of Western world. Intends to heighten critical awareness of the basic conceptual presuppositions of life in political society, the fundamental issues and problems that arise from political life, and the values underpinning democratic political traditions. Theories include: the basic nature of social existence, the purposes of government, the role of the state, and the dissemination of political power.

PHIL 340 (3)
Ethics and the Environment
A survey of environmental ethics. Theoretics to think through issues such as: the proper place of human beings in nature, the extent of our moral and ethical obligations to the natural world, the ethical foundations of public environmental policy, the principles that govern environmental use and protection, and the legitimacy of various approaches to environmental advocacy. A survey of classical ethical theories will provide context for discussion of environmental ethics, and examination of current environmental issues (i.e., the Endangered Species Act, the debate over use of public lands) will serve as a “testing ground” for the practical application of environmental ethical theories.

PHIL 345 (3)
Bioethics and Medical Ethics
A survey of ethical issues in biological and medical research and practice. Offers and introductory survey of ethical and moral theory, and investigates the application of moral and ethical theory to issues such as animal and human research, the doctor-patient relationship, reproductive technologies, and biotechnology.

PHIL 355 (3)
Philosophy of Religion
A philosophical investigation of the religious dimension of human experience. Explores the standard, classic texts in the philosophy of religion, discussing a range of viewpoints regarding the significance of religious experience. Subjects include phenomenology of religious experience, the intelligibility of religious belief and disbelief, and various approaches to the nature of divinity and its meaning for human life.

PHIL 390 (3)
Topics in Philosophy
Selected topics of study drawn from the sub-disciplines of philosophy. Topics will vary according to the instructor and semester offered. Students should check the Class Schedule for listing of actual topics. May be repeated for a total of six (6) units of credit as topics change.

PHIL 490 (1)
Exit Seminar for the Minor
The Exit Seminar allows students and faculty to reflect on the learning experience of the Philosophy Minor. Students construct a brief portfolio of essays written for coursework in the Minor, and complete a reflective essay discussing their overall experience of the Minor. Students are interviewed by faculty regarding their progress through the Minor, and share their experiences with one another in guided discussions of the Minor curriculum. To be taken in the final semester of coursework for the Minor.

Graded Credit/No Credit. Prerequisite: Consent of Program Director.

PHIL 499 (3)
Supervised Independent Study
Addresses a special interest not covered in a regular course or provides an opportunity to explore in greater depth a subject introduced in a regular course. Discussion in individual conferences. May be repeated for a total of six (6) units of credit. Prerequisite: Consent of instructor.
PHYSICS (PHYS)

College of Arts and Sciences

PHYS 101 (4)
Introduction to Physics I
An overview of the principles of mechanics, thermodynamics and waves. The areas covered include: observation and measurement, kinematics, dynamics, work and energy, impulse, and momentum, fluids, heat and temperature, oscillations, and waves in mechanical media. Three hours of lecture and three hours of laboratory. Prerequisites: Two years of high school algebra or equivalent, trigonometry, and completion of the Entry-Level Mathematics (ELM) requirement. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

PHYS 102 (4)
Introduction to Physics II
An overview of the principles of electricity and magnetism, light and optics, and modern physics. The areas covered include: electric charge, electric fields, electric potential, DC circuits, magnetism, magnetic fields, geometrical and physical optics, and atomic and nuclear physics. Three hours of lecture and three hours of laboratory. Prerequisite: PHYS 101. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

PHYS 201 (4)
Physics of Mechanics and Sound
A broad coverage of the principles of mechanics and wave motion. The areas covered include: observation and measurement, kinematics, dynamics, work and energy, impulse and momentum, equilibrium of rigid bodies, rotational motion, oscillations, and waves in mechanical media. Required for students whose field of study is physics, chemistry or computer science. Counts toward the fulfillment of the lower-division General Education requirement in Physical Universe and Its Life Forms. Three hours of lecture and three hours of laboratory. Recommended: High school physics. Prerequisite: Completion of MATH 160 with a minimum grade of C (2.0).

PHYS 202 (4)
Physics of Electromagnetism and Optics
A broad coverage of classical electromagnetism and optics. The areas covered include: electric charge, electric fields, electric potential, capacitors and dielectrics, DC circuits, magnetic fields, magnetic properties of matter, AC circuits, Maxwell’s equations, electromagnetic waves, the nature and propagation of light, geometrical optics, and wave optics. Three hours of lecture and three hours of laboratory. Prerequisites: PHYS 201 or 205, and MATH 162 with a minimum grade of C (2.0) in each.

PHYS 203 (4)
Modern Physics
An overview of the fundamental ideas of modern physics and coverage of the principles of fluids and thermodynamics. The areas covered include: fluids, temperature, heat, the kinetic theory of gases, entropy, and the laws of thermodynamics, along with the theory of special relativity, wave-particle duality, an introduction to quantum mechanics and atomic physics, the electronic properties of solids, nuclear physics, and a descriptive introduction to the standard model and cosmology. Three hours of lecture and three hours of laboratory. Prerequisites: PHYS 202 or 206.

PHYS 205 (4)
Physics for the Biological Sciences I
A broad coverage of the principles of mechanics, properties of matter and wave motion. The subjects covered include: Observation and measurement, kinematics, dynamics, energy, momentum, equilibrium, fluids and solids, thermodynamics, oscillations, and waves. Required for students whose field of study is biology. Three hours of lecture and three hours of laboratory. Recommended: High school physics or an introductory college level physics course. Prerequisite or Corequisite: MATH 160.

PHYS 206 (4)
Physics for the Biological Sciences II
A broad coverage of electromagnetism, optics, and nuclear physics. The areas covered include: Electrostatics, electric fields, magnetism, magnetic fields, electric circuits, geometrical optics, optical instruments, nuclear physics, radiation, and spectroscopy. Required for students whose field of study is biology. Three hours of lecture and three hours of laboratory. Prerequisites: Completion of PHYS 201 or 205, and MATH 160 with a minimum grade of C (2.0) in both courses.

PHYS 301 (4)
Digital Electronics
Introduction to digital computer hardware design including: gates, flip-flops, registers, and memory to perform logical and arithmetic operations on numeric and other data represented in binary form. The laboratory uses digital logic integrated circuitry for experiments with combinational and sequential networks, and simple digital systems. Prerequisite: CS 231 or MATH 370, and PHYS 202 or 206.

PHYS 322 (3)
Solid State Physics
Provides an introduction to solid state physics. Subjects to be covered include: crystal structure, thermal, electrical, and magnetic properties of solids, elementary band theory, semiconductors, and solid state devices. Prerequisite: PHYS 203

PHYS 350 (3)
Revolutions in Science: Ideas That Shook The World
Explores the ideas of conservation of energy, the second law of thermodynamics, the theory of relativity and quantum mechanics from both a scientific and humanistic perspective. Together, these concepts form the foundation on which the industrial and technological revolutions of the past two centuries were based. The influence of these four landmark ideas has extended far beyond the natural sciences. Intended for non-science majors.

PHYS 351 (3)
How Things Work
An examination of the everyday objects and technologies that surround us. Familiar objects are used as a context for exploring basic physical principles. Among other topics, the course will explore how microwave ovens, cameras, hard drives, and photocopiers work. No previous coursework in science or technology is assumed; intended for science and non-science majors.

PHYS 356 (3)
The Science of Sound and Music
An introduction to the physics of sound. Various aspects of the science of sound are covered including the nature of sound waves, their production, recording, and reproduction. The physics of musical instruments, digital synthesis, sounds, and the basics of room and auditorium acoustics are also studied. Prerequisite: Entry Level Mathematics (ELM) Requirement.
PHYS 402 (4)
Computer Interfacing and Control
Introduction to the design and use of digital computer interfaces, including serial, parallel, USB, and synchronous and asynchronous interfaces. The laboratory provides hands-on experience in computer interfacing through integrated circuits, sensors, and microcontrollers. Three hours of lecture and three hours of laboratory. May not be taken for credit by students who have received credit for PHYS 302. Prerequisites: Completion of PHYS 301 with a minimum grade of C (2.0).

PHYS 403 (3)
Signals and Systems Processing
Introduction to signals and digital processing including: fundamentals of signals, signal processing, filter synthesis, discrete-time systems, discrete fourier transforms and FFT, Z-transforms, sampling quantization, and image processing. Prerequisites: PHYS 203 with a minimum grade of C (2.0).

PHYS 407 (2)
Investigations in Physical Science for Teachers
Designed to teach some of the basic principles in Physical Science. Content will vary but will include one or more of the following: properties of matter, heat and temperature, chemical energy, light and optics, electricity and magnetism, electric circuits, kinematics, dynamics, introductory astronomy, chemical bonding, or chemical reactions. Taught in a guided inquiry/discovery format with a significant hands-on experimental component. May be repeated for credit for a total of six (6) units with consent of instructor. One hour of lecture and two hours of activities. Also offered as CHEM 407. Students may not receive credit for both. Prerequisites: MATH 115 and completion of a lower-division physical science course.

PHYS 408 (3)
Investigations in Physical Science for Teachers
Designed to teach some of the basic principles in Physical Science. Content will vary but will include one or more of the following: properties of matter, heat and temperature, chemical energy, light and optics, electricity and magnetism, electric circuits, kinematics, dynamics, introductory astronomy, chemical bonding, or chemical reactions. Taught in a guided inquiry/discovery format with a significant hands-on experimental component. May be repeated for credit for a total of nine (9) units with consent of instructor. Two hours of lecture and two hours of activities. Also offered as CHEM 408. Students may not receive credit for both. Prerequisite: MATH 115 and completion of a lower-division physical science course.

PHYS 490 (3)
Topics Seminar
Selected advanced topics in physics. Focuses on one or more current issues in the physics literature. A course description will be available before registration in the semester offered. May be repeated for credit as topics change. Students should check the Class Schedule for listing of actual topics. Prerequisite: At least nine (9) units of upper-division Physics.

PHYS 490A (1) 499B (2) 499C (3)
Senior Library Thesis
Library or theoretical physics research project. The student must consult with a physics faculty member to decide on the topic and then produce a 10-20 page paper. The paper must summarize the current state of knowledge on the subject and include an appropriate bibliography. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

PHYS 490A (1) 499B (2) 499C (3)
Senior Laboratory Thesis (1-3)
Experimental or laboratory physics research project. The student must consult with a physics faculty member to decide on the research problem and then work collaboratively under the guidance of the laboratory faculty member in the laboratory. The student will produce a 10-20 page paper summarizing the research and the results obtained. An appropriate bibliography must be included. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

POLITICAL SCIENCE (PSCI)

College of Arts and Sciences

PSCI 100 (3)
U.S. Government and Politics
The principles of the U.S. Constitution, and a survey of political institutions and processes that developed under it, including the legislature, the executive, the courts, state and local government, federalism, and civil liberties.

PSCI 301 (3)
The Practice of Political Research
Introduction to methods of inquiry and analysis in political research. A variety of qualitative and quantitative approaches will be explored, including case studies, field researches, archival studies, elite interviewing, surveys, and experimentation.

PSCI 305 (3)
Race, Ethnicity, Power and Politics in the U.S.
Processes and policies that have and have not incorporated racial and ethnic groups into the U.S. political system. Focuses on African-Americans, Latinos, and Asians. (USGP)

PSCI 321 (3)
Making Public Policy
Analysis of the process of policy making in the United States from problem identification through policy formulation, adoption, implementation, and evaluation of impact. Analysis applied to such areas as welfare, environment, crime, taxation, and government spending. (USGP)

PSCI 331 (3)
World Political Systems
Comparative analysis of political behavior and institutions in political systems of different types. May not be taken for credit by students who have received credit for PSCI 330. (CP)

PSCI 335 (3)
European Politics
Study of the political systems of selected European nations that represent the various forms of government in the region. (CP)

PSCI 337 (3)
African Politics
Focus on the political systems of Africa. Problems of political development in the region; relations among selected African states, and relations with non-African systems. Together with PSCI 449D, may be repeated for a total of six (6) units with consent of instructor (CP)

PSCI 338 (3)
Government and Politics of Selected Latin America Nation-State(s)
Detailed analysis of the government and politics of a particular Latin American nation-states. The content of each course is reflected by its title. Students should check the Class Schedule for listing of actual topics. May be repeated as countries change for a total of six (6) units. (CP)

PSCI 339 (3)
Middle East Politics
Analysis of selected contemporary issues affecting the processes of political and economic development in the Middle East, including similarities and differences in the experiences of various Middle Eastern states. The content of each course is reflected by its title. May be repeated as issues/themes change for a total of six (6) units. (CP)

POLITICAL SCIENCE (PSCI)

College of Arts and Sciences

CP = Comparative Politics
gp = General Political Science
INP = International Politics
PT = Political Theory
USGP = U.S. Government and Politics

PSCI 100 (3)
U.S. Government and Politics
The principles of the U.S. Constitution, and a survey of political institutions and processes that developed under it, including the legislature, the executive, the courts, state and local government, federalism, and civil liberties.

PSCI 301 (3)
The Practice of Political Research
Introduction to methods of inquiry and analysis in political research. A variety of qualitative and quantitative approaches will be explored, including case studies, field researches, archival studies, elite interviewing, surveys, and experimentation.

PSCI 305 (3)
Race, Ethnicity, Power and Politics in the U.S.
Processes and policies that have and have not incorporated racial and ethnic groups into the U.S. political system. Focuses on African-Americans, Latinos, and Asians. (USGP)

PSCI 321 (3)
Making Public Policy
Analysis of the process of policy making in the United States from problem identification through policy formulation, adoption, implementation, and evaluation of impact. Analysis applied to such areas as welfare, environment, crime, taxation, and government spending. (USGP)

PSCI 331 (3)
World Political Systems
Comparative analysis of political behavior and institutions in political systems of different types. May not be taken for credit by students who have received credit for PSCI 330. (CP)

PSCI 335 (3)
European Politics
Study of the political systems of selected European nations that represent the various forms of government in the region. (CP)

PSCI 337 (3)
African Politics
Focus on the political systems of Africa. Problems of political development in the region; relations among selected African states, and relations with non-African systems. Together with PSCI 449D, may be repeated for a total of six (6) units with consent of instructor (CP)

PSCI 338 (3)
Government and Politics of Selected Latin America Nation-State(s)
Detailed analysis of the government and politics of a particular Latin American nation-states. The content of each course is reflected by its title. Students should check the Class Schedule for listing of actual topics. May be repeated as countries change for a total of six (6) units. (CP)

PSCI 339 (3)
Middle East Politics
Analysis of selected contemporary issues affecting the processes of political and economic development in the Middle East, including similarities and differences in the experiences of various Middle Eastern states. The content of each course is reflected by its title. May be repeated as issues/themes change for a total of six (6) units. (CP)
PSCI 341 (3)  
**Latin American Politics Through Film**  
Through a series of films, documentaries, readings, and group discussion, the course is designed to bring to life a startling diverse region that encompasses great wealth and desperate poverty, countries as tiny as Cuba and as enormous as Brazil, with democratic and authoritarian governments and a complex, multicultural heritage. Together with PSCI 449C, may be repeated for a total of six (6) units with consent of instructor. (CP)

PSCI 342 (3)  
**Issues in Latin American Politics**  
Analysis of selected contemporary issues affecting the processes of political and economic development in Latin America, including similarities and differences in the experiences of various Latin American states. The content of each course is reflected by its title. May be repeated as issues/themes change for a total of six (6) units. (CP)  
A. Democratization  
B. Economic Development  
C. Environmental Politics of Latin America

PSCI 348 (3)  
**Government and Politics of a Selected Nation-State**  
Detailed analysis of a particular political system. May be repeated for credit as topics change for a total of six (6) units. (CP)

PSCI 350 (3)  
**Global Governance**  
Basic international political principles and practices, including characteristics of the international system, foreign policy making, security and defense, alliances, law and organization, and international conflict. (INP)

PSCI 355 (3)  
**U.S. Foreign Policy**  
Formulation and execution of foreign policy in the United States, including an analysis of competing ideological concepts, the role of the President and Congress, and the influence of public opinion. Prerequisite: PSCI 350. (INP)

PSCI 357 (3)  
**Foreign Policy of a Selected Nation-State**  
Detailed analysis of the foreign policy of a selected nation-state. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. (INP)

PSCI 358 (3)  
**America in Vietnam – The Vietnam War**  
Examines the literature on the Vietnam War: what were its causes; how did America get involved; what were the U.S. decision-making processes involved. It does this in two fundamental ways. First, examines the history of Vietnam, its origins, its relations with its neighbors, etc. Second, examines literature concerning the causes of U.S. involvement; presumed “lessons” therefrom; and the actual decision-making processes. Prerequisite: PSCI 350. May not be taken for credit by students who received credit for PSCI 469A. (INP)

PSCI 361 (3)  
**U.S.-Latin American Relations**  
Relations among Latin American states, U.S.-Canadian-Latin American relations, and Latin American role in global affairs. (INP)

PSCI 362 (3)  
**International Relations in a Selected Region**  
Detailed analysis of international interactions within a selected global region. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. (INP)

PSCI 363 (3)  
**Historical Transformation of Money and Power**  
Students will review the development of the Global Political Economy (GPE) beginning in the 6th Century B.C. with a particular focus on the history of Western forms of industrialization and economic activity over the past two centuries. They will explore how political, historical, economic, technological, and cultural factors shaped the evolution of the GPE and how to use them to analyze the transformation of the ideas about and operation of the world political economy. Analysis will be at a system, rather than a state level, and will examine how the convergence of various factors have created an interdependent global political economy. Lectures, case studies, group activities, and discussion formats will all be used throughout the course. Also offered as HIST 389. Students may not receive credit for both. (INP)

PSCI 364A (3)  
**Arab-Israeli Conflict: Origins to 1948**  
Detailed study of relations between Jews, Muslims, and Christians in the Middle East from ancient times to the establishment of the State of Israel in 1948. May not be taken for credit by students who have received credit for PSCI 362A. (CP)

PSCI 364B (3)  
**Arab-Israeli Conflict: 1948 to the Present**  
Detailed study of relations between Israelis and Palestinians, Israel and the Arab countries, and United States policy towards the Middle East, from the establishment of the State of Israel in 1948 to the present day. May not be taken for credit by students who have received credit for PSCI 362B. (CP)

PSCI 365 (3)  
**International Organization and Law**  
Historical development and contemporary structure of international organizations, such as the United Nations, NATO, and regional economic associations. Development of international law and settlement of international disputes. (INP)

PSCI 370 (3)  
**Foundations of Political Thought**  
Analysis of basic concepts and principal political theorists from the Greeks to the present, including Plato, Aristotle, Machiavelli, Locke, and Marx. (PT)

PSCI 371 (3)  
**Ancient and Medieval Political Theory**  
Detailed analysis of political thought from Plato to Aquinas. Major themes include citizenship, justice, equality, and democracy. (PT)

PSCI 390 (3)  
**Topics in Political Science**  
Selected topics in the field of Political Science. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. (INP)

PSCI 391 (3)  
**Gender and Public Policy**  
Using gender as our lens, examines how public policy has impacted women as mothers, students, employees and political participants in the U.S. To better understand the social, political, and economic progress women have made following the recent waves of feminist mobilizations in 1960s-90s, students will analyze Title IX, Equal Rights Amendment, reproductive issues, along with issues of education and economic equity. (USGP)

PSCI 392 (3)  
**Religion and Politics**  
Analysis of religion as a political force; religion as a shaper of culture and ideology; religion as a force of stability and change; religion as an influence on political behavior and public policy. Analysis is cross-national, but focus is on U.S. society. (CP)
PSCI 394 (3)  
Political Corruption and Ethics  
Critical examination of ethical challenges facing those in politics and public service. Includes attention to forms, causes, and consequences of misconduct by public officials and candidates as well as potential means for controlling corrupt behavior. (GP)

PSCI 396 (3)  
Green Planet Politics  
Environmental problems respect no political boundaries; their resolution depends on successful collaboration among political players at many levels. Analyzes how these political players - ranging from world leaders to grassroots activists - struggle to solve global environmental problems within both formal and informal political structures. It uses case studies and other active learning methods to examine the controversial nature of protecting and managing natural resources on a global scale. (GP)

PSCI 397 (3)  
Comparative Social Policy: U.S. and Europe  
Compares social welfare policies in the U.S. and Western Europe, including an historical survey of the development of the social welfare state, as well as an examination on how ethnicity, gender, socioeconomic status, and levels of political efficacy, power, and alienation affect the social welfare policy process and how policy solutions have had different consequences for affected groups. Explores how the concept of welfare changes when focused on the individual or on other entities, such as corporations. (USGP or CP; see advisor.)

PSCI 401 (3)  
Campaigns and Elections  
Analysis of factors influencing voting choices: campaign strategies and techniques; changes and trends in U.S. elections, and methods of predicting and interpreting election results. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 402 (3)  
Public Opinion and U.S. Politics  
Analysis of the major concepts, theories, methodological approaches, and substantive findings in the field of U.S. political opinion. Includes the formation of political attitudes and beliefs; political tolerance and racial attitudes; attitudes toward the political system and its leaders; foreign and domestic policy attitudes; the media and political opinion; and the effects of public opinion on policy. Prerequisite: PSCI 100. (USGP)

PSCI 406 (3)  
Party Politics in the U.S.  
Role, organization, and behavior of political parties in the United States. Analysis of the functions of political parties in government, their relationship to interest groups, and their electoral role. Emphasis on the importance of the two-party system. Prerequisite: PSCI 100 or equivalent. (USGP)

PSCI 412 (3)  
Constitutional Law: Powers of Government  
Examination of the development of the constitutional system and the Supreme Court in the United States. Emphasis on the power of judicial review and interpretation of separation of powers, federalism, the police power, and the commerce clause through an analysis of leading Supreme Court decisions. Prerequisite: PSCI 100. (USGP)

PSCI 413 (3)  
Constitutional Law: Individual Rights  
Study of fundamental rights protected by the U.S. Constitution. The role of the courts in interpreting freedoms under the Bill of Rights, due process, and equal protection of the laws. Prerequisite: Completion of the lower-division General Education requirement in U.S. Constitution (DC). (USGP)

PSCI 414 (3)  
U.S. Judicial Process  
Politics of U.S. federal and state judiciaries, including judicial behavior and judicial policy development. Also addresses debates over judicial philosophy and the selection of judges. Prerequisite: Completion of the lower-division General Education requirement in U.S. Constitution (DC). (USGP)

PSCI 415 (3)  
State Politics  
Politics and policy making at the state level, relations between federal and state governments. Emphasis on California government and politics. Prerequisite: Completion of the lower-division General Education requirement in California Government (DG). (USGP)

PSCI 416 (3)  
Urban Politics  
The political process and policy making in urban areas of the United States. Evaluation of the policy choices facing urban governments including housing, environment, growth, and crime. Prerequisite: Completion of the lower-division General Education requirement in United States and California Government (DG). (USGP)

PSCI 417 (3)  
Presidency in the U.S.  
Examines the U.S. Presidency, including roles, public expectations, powers and institutions of the federal executive. Includes attention to executive relations with the legislative and judicial branches and presidential decision-making. May not be taken for credit by students who have received credit for PSCI 411. (USGP). Prerequisites: Completion of the lower-division General Education requirement in California Government (DG).

PSCI 419 (3)  
Topics in U.S. Politics  
Selected topics in U.S. politics. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: One upper-division U.S. government course or consent of instructor. Students should check the Class Schedule for listing of actual topics. (USGP)

PSCI 420 (3)  
U.S. Environmental Policy  
Examination of the development and evolution of environmental policy in the United States. Emphasis on the various institutions, political leaders and social movements active in the creation and evolution of environmental policy. Examines the impact of such policies of various stakeholder groups, especially across racial and ethnic and class lines. Uses case studies to examine controversial nature of protecting and managing natural resources in US. May not be taken for credit by students who have received credit for PSCI 390F. Prerequisite: Completion of lower-division General Education requirement in United States and California Government (DB). (USGP)

PSCI 431 (3)  
Global Development  
Analysis of the process and problems of political development in the Third World. Influence of economic problems, international relations, and cultural factors. Recommended: PSCI 331 (CP)

PSCI 432 (3)  
Comparative Public Policy  
Cross-national analysis of public policies, such as welfare, housing, and health care in different types of political systems. Prerequisite: PSCI 331 or equivalent. (CP)
PSCI 445 (3)  
**Gender and Development**  
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that “modernization” results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as ECON 445 and WMST 445. Students may only receive credit for one of the courses. May not be taken for credit by students who received credit for ECON 481B or PSCI 449B. (CP)

PSCI 449 (3)  
Topics in Comparative Politics  
Selected topics in comparative politics. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: One upper-division comparative politics course or consent of instructor. (GP)

PSCI 450 (3)  
Theories of International Relations  
Classical and modern version of the “balance of power,” bipolarity, multipolarity, international systems theory, deterrence and game theory, decision-making theory, and conflict resolution theory. (INP)  
Recommended: PSCI 350 or equivalent.

PSCI 455 (3)  
National Security Institutions and Policy  
Analysis of the national security institutions and the objectives of national security policy. Focuses on military structure and power, strategic doctrine, alliance management, and nonmilitary components of security. Prerequisite: PSCI 350 or equivalent. (INP)

PSCI 460 (3)  
Global Money and Power  
Theories of dependence and integration, politics of international finance; protectionism in trade; role of multinational corporations and cartels in the world economy; North-South relations. (INP)

PSCI 461 (3)  
International Conflict, War, and Peace  
Sources of international conflict and war. Analysis of different types and levels of conflict, such as guerrilla warfare, low-intensity conflict, and regional war. Means of conflict resolution and maintenance of peace. Prerequisite: PSCI 350 or equivalent. (INP)

PSCI 469 (3)  
Topics in International Relations  
Selected topics in international relations. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: One (1) upper-division international relations course or consent of instructor. (INP)

PSCI 470 (3)  
American Political Thought  
Analysis of the political ideas that have emerged in the United States, including the colonial period. Major themes include constitutionalism, republican government, civil liberties, and social justice in industrial society. (PT)

PSCI 479 (3)  
Topics in Political Theory  
Selected topics in political theory. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics. Prerequisite: One (1) upper-division political theory course or consent of instructor. (PT)

PSCI 495A (1)  495B (2)  495C (3)  495D (4)  495E (5)  495F (6)  
Internship  
Program of study, research, and work in connection with a government agency or private group concerned with public policy. May be repeated for credit for a total of nine (9) units in any combination of units from PSCI 495A-F, 495A-C, and 495A-C. Prerequisite: Consent of instructor. (GP)

PSCI 498A (1)  498B (2)  498C (3)  
Independent Study  
Individual study or special project under the direction of a faculty member in political science. May be repeated for credit for a total of six (6) units in any combination of units from PSCI 498A-F, 498A-C, and 498A-C. Prerequisite: Consent of instructor. (GP)

PSCI 499A (1)  499B (2)  499C (3)  
Independent Research  
Individual research under the direction of a faculty member in political science. May be repeated for credit for a total of six (6) units in any combination of units from PSCI 499A-F, 499A-C, and 499A-C. Prerequisites: Political Science major, senior status, and consent of instructor. (GP)

PSYCHOLOGY (PSYC)  
College of Arts and Sciences  

PSYC 100 (3)  
Introduction to Psychology  
Introduction to basic concepts, problems, and research methods in the science of psychology. Includes perception, cognitive processes, learning, motivation, measurement, development, personality, abnormal behavior, and biological and social bases of behavior, including cross-cultural issues. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 104 (3)  
Psychology for Living  
Psychological principles, theory, and research are discussed in the context of applied situations and self-improvement. Areas covered include stress and anger management, sexuality and relationship issues, drugs of abuse, choosing a career, improving study and test-taking skills, changing unwanted behaviors, parenting concerns, and selecting mental health services.

PSYC 110 (3)  
Critical Thinking in Psychology  
An introduction to critical thinking skills as they are applied in the science of psychology. Basic critical thinking skills covered include logical inferences and fallacies, distinguishing fact from opinion, scientific reasoning and interpreting research findings. Emphasis will be on using critical thinking skills to examine a number of contemporary issues involving human behavior, such as hypnosis, ESP, subliminal perception, persuasion and propaganda, drug legalization, AIDS prevention, and the effects of television. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 140 (3)  
The Individual in Society: Multiple Perspectives  
An interdisciplinary approach to the study of the impact of contemporary social issues on individuals in a societal context. Emphasizes the links between Psychology’s perspective and other social science disciplines such as Sociology, History, and Communication. Social issues in both western and non-western societies will be addressed. Specific subjects will vary by semester, but may include the impact of the media on individuals, the interface between work and family life, school violence, discrimination, and sexual harassment.
PSYC 210 (3)  
Introduction to Developmental Psychology  
An introductory survey course that utilizes a chronological approach to examine human development from birth through adolescence. Includes a study of physical development and health; developmental issues of children with special needs; cognitive and moral development; social and personality development; and genetic, sociocultural, and other influences on development.

PSYC 220 (3)  
Introductory Statistics in Psychology  
Basic statistical methods for analysis of data in psychology; descriptive and inferential statistics; hypothesis testing; parametric tests of significance. Introduction to linear regression and correlation; analysis of variance; nonparametric techniques. The requirements will include participation in low-risk psychological experiments or completion of additional short papers.

PSYC 230 (3)  
Research Methods in Psychology  
The fundamentals of research methods in psychology. Focus will be on issues of reliability, validity, and ethical considerations in conducting research with humans and animals. Participation in designing and conducting experiments, data analysis and interpretation, and preparation of research reports. The requirements will include participation in low-risk psychological experiments or completion of additional short papers. Two hours lecture and three hours laboratory. Prerequisites: PSYC 100 and 220.

PSYC 300 (3)  
Computer Applications in Psychology  
Introduction to computer systems, data input, use of software packages, computer ethics, and the role of computers in the study of human behavior. Introduction to various software applications including operating systems, word processing, statistical packages, and spreadsheets. Also covered are aspects of technical report writing in psychology and other common uses of computers in psychology. Two hours of lecture and two hours of activities. Prerequisite: PSYC 220.

PSYC 330 (3)  
Developmental Psychology: Infancy and Childhood  
Theories, methods and research on development from conception through childhood. Includes biological, genetic, and physical development; social-emotional development; cognitive and language development; perception and brain development. Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).

PSYC 332 (3)  
Social Psychology  
Study of individuals and groups as they are affected by social interactions. Subjects include social influence (compliance, obedience, attitudes and attitude change, attraction, altruism, aggression, social perception and cognition, interpersonal influence, and group processes. Prerequisite: PSYC 100.

PSYC 334 (3)  
Psychology of Personality  
Theory and assessment techniques in personality research. Subject matter includes study of personality structure, development, personality dynamics, and determinants of personality. Prerequisite: PSYC 100.

PSYC 336 (3)  
Abnormal Psychology  
Causes, symptoms, prevention, and treatment of mental disorders. Regular visits to local psychiatric facilities may be required. Prerequisite: PSYC 100.

PSYC 338 (3)  
Environmental Psychology  
Examines human behaviors associated with environmental problems, including global warming, ozone depletion, acid rain, destruction of the rainforests, and depletion of natural resources. Covers such subjects as the commons dilemma, public transport, and the destruction of the rainforests, and depletion of natural resources. Covers such subjects as the commons dilemma, public transport, and the commons dilemma, public transport, and the commons dilemma, public transport.

PSYC 340 (3)  
Survey of Clinical Psychology  
Introduction to the field of clinical psychology with an emphasis on the application and evaluation of techniques of individual and group counseling and therapy. Includes methods, diagnosis, research, therapeutic techniques, educational and professional requirements, ethics. Prerequisites: PSYC 100 and 336.

PSYC 341 (3)  
Multicultural Perspectives in Psychology  
Theory and research in the study of psychosocial issues of racial, ethnic, and cultural groups, both in the U.S. and elsewhere. Subject matter includes examining the relationship of race, culture, and social class in psychological development and discussing the research implications for the multicultural study of psychology. Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).

PSYC 342 (3)  
Group Dynamics  
Study of small group behavior and team effectiveness. Examines subjects such as group membership, systems theory, communication, group decision-making, group development and performance, and conflict management. Focuses on diverse perspectives in organizations and work groups. Cross-cultural work settings, and gender differences in leadership and group behavior. Theory and research about group dynamics will be applied to organizational, educational, and counseling settings. Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).

PSYC 348 (3)  
Developmental Psychology: Adolescence  
Addresses the theories, methods, and research on the development of adolescence (ages 10-22). It emphasizes empirical research on physical, cognitive, and social development and considers the gender, ethnic and socioeconomic differences found in such development. Subjects include the timing of pubertal development, teen pregnancy, parent-adolescent relations, identity development, peer relations, the transition to adulthood, and adolescent psychopathology (suicide, depression, eating disorders). Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).

PSYC 350 (3)  
Psychology of Women  
Theories and research in the study of the psychological characteristics of women in the social contexts of culture, class, and race, including sex and gender similarities and differences, the construction of gender roles, stereotypes, intimacy, work and achievement, motherhood, violence against women, mental and emotional adjustment, and aging. This is not an introductory course and is appropriate only for students who are familiar with basic women’s studies issues. Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).
PSYC 362 (3) 
Cognitive Processes 
Theoretical and research approaches to the study of thinking, problem-solving, language, concept learning, decision making and judgment, cognitive development, and cognitive structure. Prerequisites: PSYC 100 or consent of instructor.

PSYC 363 (3) 
Drugs, Brain, Behavior and Society 
An introduction to the use of drugs in modern society. Emphasizes psychoactive drugs, including psychotherapeutic drugs and drugs of abuse. Explores the effects of drugs on the brain and behavior, psychological and biological factors responsible for their use and misuse, as well as social, cultural, historical and legal aspects of drug use. The content will range from general principles of drug action to focused information on specific classes of drugs. Prerequisites: Completion of the lower-division General Education requirement in Life Science (B2). Also offered as BIOL 348.

PSYC 364 (3) 
Educational Psychology: Psychological Perspectives 
An introduction to psychological research and theory on how instruction affects student learning. Learning, motivation, development, individual differences, psychological aspects of the classroom, and evaluation as related to the educative process. Credit may not be counted toward programs in the College of Education. Prerequisite: PSYC 100.

PSYC 365 (3) 
Developmental Psychology: Adulthood and Aging 
Theories and research in adult development and aging. Includes cognitive, social, psychological, and physical development; vocational and family changes, retirement, successful and unsuccessful adjustment patterns. Issues of gender, social class, and racial/ethnic factors, and their impact on aging will be covered extensively. Prerequisite: Completion of the lower-division General Education requirement in Discipline-specific or Interdisciplinary Social Sciences (D).

PSYC 366 (3) 
Biopsychology 
Introduction to the biological bases of behavior, including material central to physiological psychology, comparative psychology, behavioral genetics, and sensory psychology. Issues to be addressed include but are not limited to neuroanatomy, behavioral endocrinology, evolutionary theory, socioculture, and sensory systems. Prerequisite: PSYC 100 or BIOL 211.
PSYC 418 (3)
Industrial/Organizational Psychology
Current psychological principles and traditional theories in industry and work organizations. Selection, placement, training, and motivation of people in work situations. Environmental and human influences, system safety, and organizational development. Prerequisite: PSYC 100.

PSYC 424 (3)
Advanced Psychological Statistics
Advanced statistical methods for analysis of data in psychology. Sampling distributions, hypothesis testing, analysis of variance techniques. Applications to research design and evaluation of data in psychology. Two hours of lecture and two hours of activities. Prerequisites: PSYC 100, 220, and 300.

PSYC 428 (3)
Community Psychology
Study of theory, research, and the application of psychological principles in community settings. Examines community development issues such as mental health, service delivery, problem-solving, and program evaluation. May include a service-learning experience. Prerequisites: PSYC 100 and three (3) units of upper-division psychology courses.

PSYC 432 (3)
Health Psychology
Examines areas of health, illness, treatment, and delivery of treatment that may be elucidated by an understanding of psychological concepts and research. Explores the psychological perspective on these areas and considers how the psychological perspective might be enlarged and extended in the health care area. Prerequisites: PSYC 100, 220, 250, and three (3) units of upper-division psychology courses.

PSYC 440 (3)
Topics in Psychology
An intensive look at selected areas of psychology. Course description available before registration in the semester offered. May be repeated for credit as topics change, but only three (3) units may be counted toward the major. Students should check the Class Schedule for listing of actual topics. Prerequisites: PSYC 100, 220 and 250, or consent of the instructor.

PSYC 461 (3)
Neuropsychopharmacology
An examination of the ways that drugs affect the brain and behavior. Emphasis on psychoactive drugs, including antidepressants, mood stabilizers, anxiolytics and drugs of abuse. Although social, cultural and political aspects of drug use will be briefly touched upon when appropriate, the primary focus of the course will be neuropsychological and behavioral effects of the drugs. Prerequisite: PSYC 360 or consent of instructor.

PSYC 465 (3)
Human Neuropsychology
Principles and practice of human neuropsychology. Material will focus upon basic topics, theory and empirical research concerning human neuroanatomy, brain-behavior relationships, and the clinical application of this knowledge base. Major emphasis will be placed upon these disorders of the central nervous system which affect cognitive and emotional processes. Prerequisites: PSYC 360 or 362, or consent of instructor.

PSYC 490 (3)
History of Psychology
Historical, philosophical, and scientific background of Psychology, major traditions and conceptual issues. This is the capstone course and should be taken by psychology majors in their final semester at CSUSM. Prerequisite: Completion of nine (9) units of upper-division psychology courses, including at least one upper-division laboratory class.

PSYC 495 (3)
Field Experience in Psychological Settings
Supervised field experience in on- and off-campus settings which provide psychological services, such as medical settings, mental health clinics, schools, and industry. Students will spend approximately six hours per week in a field placement for observation and participation, attend weekly class meetings, read related material, and prepare written reports. Application forms must be completed prior to enrollment. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Nine (9) units of upper-division psychology courses and consent of instructor. Specific sections of this course may carry additional prerequisites.

PSYC 498A (1) 498B (2) 498C (3) 498D (4)
Independent Study
Study plan must be approved by the fourth week of classes. Individual library study (e.g., review of literature) under direction of a faculty member. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Consent of instructor.

PSYC 499A (1) 499B (2) 499C (3) 499D (4)
Independent Research
Study plan must be approved by the fourth week of classes. Independent research investigation (e.g., empirical laboratory or field research) in collaboration with a faculty member. May be repeated, but no more than three (3) units of credit may be applied toward the major. Prerequisites: Completion of at least one upper-division laboratory course in psychology and consent of instructor.

PSYC 520 (3)
Graduate Statistics
Introduction to theory and application of some of the more advanced parametric and nonparametric statistical techniques employed in psychological research. Topics will include but are not limited to multiple regression, analysis of covariance, factorial analysis, causal modeling, and discriminant function analysis. Two hours of lecture and two hours of activities. Prerequisites: PSYC 424 or its equivalent and consent of instructor.

PSYC 530 (3)
Advanced Research Methods
Advanced study of research design, including experimental, quasi-experimental, and non-experimental designs, assessment of reliability and validity, and ethical use of human and animal subjects in research. Prerequisites: PSYC 424 or 520 and consent of instructor.

PSYC 550 (3)
Proseminar in Social/ Personality Psychology
An exploration of research and theory in social and personality psychology. Advanced study of theories of personality and individual differences, social perception, group processes, attitudes, and the application of personality and social psychological theories across a variety of social, institutional, and cultural settings. A substantial portion of class time is devoted to the critical examination of current research articles and theoretical models in social/personality psychology. Students will make formal oral and written presentations of individual or group projects/assignments. Prerequisite: Enroll in the graduate program or consent of instructor.
PSYC 552 (3)
Proseminar in Developmental Psychology
Advanced study of current research and theory in developmental psychology. Issues such as temperament, attachment, gender-identity, cognition, and emotion will be considered from a developmental perspective as well as the influences of family relationships, social interactions, cultural values, education, and social policy on development. Class discussions and assignments will encourage critical and analytic thinking as well as active learning approaches. Students will make formal oral and written presentations of individual and/or group projects. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 554 (3)
Proseminar in Cognitive Psychology
Advanced study of human cognition. Focuses on theory and research in areas such as attention, categorization, memory, knowledge representation, learning and skill acquisition, psychology of language, thinking, reasoning, problem-solving, and judgment. Relevant issues in neuropsychology, cognitive development, and cognitive disorders will be included to complement the focus on normal adult performance. The role of culture in cognitive activity will be discussed. Discussions and assignments will center around a critical examination of current literature in these areas, including both integrative and interdisciplinary (cognitive science) perspectives. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 556 (3)
Proseminar in Comparative/Physiological Psychology
Advanced study of the biological bases of behavior. Critical examination of current research articles and theoretical models in one or more areas of biological psychology such as psychoanatomy and physiology, psychopharmacology, endocrinology, evolutionary theory, and the adaptive significance of behavior. Students will make formal oral and written presentations of individual and/or group projects. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 558 (3)
Proseminar in Counseling/ Clinical Psychology
In-depth seminar designed to investigate and discuss current topics in counseling/clinical psychology, including assessment and intervention techniques, professional ethics, multicultural issues, and outcome research. Students will present formal written and oral presentations and lead class discussions of advanced issues relevant to counseling/clinical theory, research, or practice. Prerequisite: Enrollment in the graduate program or consent of instructor.

PSYC 600 (3)
Contemporary Issues in Psychology
Students will receive exposure to theoretical background, current research, and contemporary issues in counseling/clinical, cognitive, comparative/physiological, developmental, and social/personality psychology. Presentations will be given by faculty, second year graduate students, and guest speakers in their fields of expertise. Professional issues including ethics in psychological research and practice, the dissemination of scholarly discourse, the status and coherence of the discipline, and its role in a multicultural, global society will also be explored. Prerequisite: Admission to the graduate program.

PSYC 680 (3)
Teaching of Psychology
An introduction to pedagogical theories, styles, and strategies as they apply to college teaching of psychology. Students will explore a range of options available to a college instructor in the presentation of course material, learning assessment tools, test construction, and grading. Different styles of learning, especially as they may apply to a multicultural student population, will be explored. Students will have the opportunity to write and practice giving lectures, lead mock discussion groups, and construct mock exams. Students must enroll in PSYC 680 in the first semester of their second year of study. Graded Credit/No Credit. Prerequisites: Completion of fifteen (15) units in the graduate program and consent of instructor.

PSYC 681 (3)
Field Placement
Students will spend a minimum of ten hours per week working within a social service, mental health, educational or business/industry setting, with the goal of applying psychological knowledge to and learning about the delivery of services in that setting. Students will be supervised both on site, and by the course instructor. Students enrolled in the course will meet three hours per week as a group to discuss issues and readings relevant to their experiences. Graded Credit/No Credit. Prerequisites: Completion of nine (9) units in the graduate program and consent of instructor.

PSYC 690 (3)
Graduate Research
Faculty-supervised research. May be repeated, but no more than six (6) units of credit may be applied toward the Master’s degree. Prerequisite: Admission to the graduate program and consent of instructor.

PSYC 699 (3)
Graduate Thesis
Preparation of the thesis. Graded Credit/No Credit. Prerequisite: Approved thesis proposal, completion of twenty-seven (27) units in the graduate program, and consent of thesis advisor.

PSYC 700A (1) 700B (2) 700C (3)
Thesis Extension
Registration in this course is limited to students who have received a grade of Report in Progress (RP) in PSYC 699. Also, students must be registered in PSYC 700 when the completed thesis is granted final approval. May be repeated. Graded Credit/No Credit. Prerequisite: Prior registration in PSYC 699 with an assigned grade of Report in Progress (RP).

SOCIOLOGY (SOC)

College of Arts and Sciences

SOC 101 (4)
Introduction to Sociology
Analysis and description of the structure and dynamics of human society. The application of scientific methods to the observation and analysis of social groups and processes. Students learn the language, tools, findings, and theories of the sociologist at work.
SOC 105 (4)
Introduction to Justice Studies
An introduction to the interdisciplinary field of Justice Studies. Explores economic, social, and criminal justice issues by means of sociological, philosophical, and legal perspectives and methodologies. Students will critically assess the obstacles and opportunities central to the pursuit of justice in the United States and abroad. Topics of analysis may include formal legal systems, institutionalization of injustice, environmental justice, and genocide.

SOC 201 (3)
Introductory Statistics for the Social Sciences
Presentation and description of data, contingency table construction and interpretation, introduction to multivariate analysis, correlation and hypothesis testing.

SOC 202 (3)
Critical Thinking in Sociology
An introduction to critical thinking skills using the logic and reasoning of the social sciences and how these skills can be transferred to other fields. Emphasis on learning the criteria for analyzing and evaluating the validity of complex arguments. Includes causal reasoning, logical inferences and fallacies, distinction between knowledge and belief and ways in which different cultures reason from different assumptions with identifications and comparisons of these assumptions. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

SOC 203 (3)
The Child in Society
The social position of children in today’s society: comparisons with the past and other cultures. Special focus on children’s peer cultures, social problems confronting youth, institutions which socialize and control children.

SOC 204 (3)
Human Relationships Across the Life Course
A comparative analysis of a variety of human relationships across the life course, including processes of relationship development and change within areas of kinship, friendship, sexual intimacy, employment, and social organizations.

SOC 205 (3)
Exploring Social Problems
A critical examination of various social problems from global and multicultural perspectives, their causes and possible solutions (crime, unemployment, poverty, literacy, immigration, family disruptions, substance abuse, and environmental destruction). Discussions of race, ethnicity, class, and gender in relation to these problems in contemporary America and other countries.

SOC 300 (3)
American Society and Institutions
The development, structure, and organization of social institutions in American Society. Explores a central dilemma in sociology: why society needs social institutions and how social problems develop out of those same social institutions.

SOC 301 (4)
Social Psychology: Sociological Perspective
A sociological approach to the study of the influence of group life on behavior and personality. Themes may include attitude change, self-concept, identity, conformity, role theory, symbolic interaction. Credit may not be counted toward a Psychology major.

SOC 303 (3)
Families and Intimate Relationships
A comparative analysis of the changing structure of families across various cultures and historical time periods. Interconnections between family life and broader economic and political forces are examined. Emphasis on mate selection, reproduction, child rearing, marital dissolution, remarriage, and the wide diversity of family forms in current U.S. society.

SOC 305 (4)
Sociology of Women
Cross-cultural analysis of women's roles. How various social institutions (the media, work, the family, education, religion) treat sex-role distinctions, and how the women's movement has confronted them.

SOC 306 (4)
Women and Crime
A critical analysis of women as offenders and victims of crime. How the social construction of gender impacts the processing of women in different stages of the criminal justice system.

SOC 307 (3)
Human Sexuality
Sexuality viewed as a normative and institutional pattern of human behavior. Analysis of research on contemporary attitudes and practices.

SOC 308 (4)
Morality and the Law
An analysis of the complex relationships between law and morality. Includes a consideration of contemporary controversies related to the use of law to regulate morality in the United States.

SOC 309 (3)
Aging and Society
Examines the social correlates of human aging, with a concentration on adulthood and old age. Presents multiple perspectives on the myriad interrelationships between aging and society, drawing on studies in biology, psychology, history, anthropology, political sciences, economics, and sociology. Particular attention will be given to comparisons on aging experiences across race/ethnic, sex, socio-economic, cultural, and national lines. In addition, students may pursue a service-learning activity benefiting elder members of the local community.

SOC 310 (3)
Sociology of Mass Communication
Multidisciplinary examination of the complex interplay between mass communication and social life. Explores the diverse ways that flows of information shape and are shaped by various levels of social organization — encompassing individuals, families, communities, corporations, nations, and world systems. Students will critically engage all forms of mass media, ranging from traditional print, radio, and television media to the new information technologies.

SOC 311 (4)
Inequality
An interdisciplinary examination of inequality in opportunity, educational and occupational attainment, wealth and power, and its effects on individuals, groups, and societies. Will be analyzed by interdisciplinary readings from historical and contemporary sources and analyses of computerized data comparing social indicators by gender, race, and class. Diverse perspectives on the quest for equality of different social groups.

SOC 313 (4)
Race/Ethnic Relations
An examination of the origins and character of contemporary relations among ethnic and racial groups in the United States. Applications of sociological concepts and theories to contemporary issues such as affirmative action, immigration, and racial/ethnic stratification.
SOC 314 (4)  
**Health and Society**  
An analysis of health and sickness in American society, with comparison to other cultures. Overview of how behavior is defined as disease, rates of disease, responsibility for health, health care training, health care systems and access. May not be taken by students who have received credit for SOC 421.

SOC 315 (4)  
**Gender in Society**  
A consideration of the development of gender identity and gender socialization in a social context; how notions of femininity and masculinity are shaped within various social institutions — family, work, media, education — and how these social definitions change across the life course. Emphasis on how gender relations vary across communities — race and ethnicity, sexuality, age, socioeconomic class, and nationality.

SOC 316 (4)  
**Mental Health and Society**  
Focuses on a sociological understanding of the definition, recognition, treatment and causes of mental illness. Particular emphasis will be placed on the social factors associated with mental health and illness, especially those related to social class, race and ethnicity, and gender. Examines the processes through which the family, community, and mental health care institutions respond to problems in living and the historical interpersonal processes that shape these responses. May not be taken for credit by students who have received credit for SOC 422.

SOC 317 (3)  
**Youth and Society**  
The social position of youth in today’s society: comparisons with the past and other cultures. Special focus on youth subcultures, social problems confronting youth, institutions which socialize and control youth.

SOC 318 (3)  
**Sociology of Sport**  
Assessment of the most central and controversial topics in the institution of sport. Subject matter addresses the intersection of sport with politics, gender, ethnicity, and education, both in North America and other countries.

SOC 319 (3)  
**Socialization and Personal Change**  
The effects of social institutions on the development of attitudes and behavior. Processes of childhood socialization, adult socialization, political socialization, and re-socialization will be examined with consideration of how institutions (schools, jails, families) and social groups (peers) can shape roles and behavior.

SOC 320 (4)  
**Sociological Theory**  
Exploration of the nature of theory in sociology, and an analysis of selected social theorists. Prerequisite: SOC 101 or equivalent approved by the discipline.

SOC 321 (4)  
**Sociology of Deviance**  
An analysis of sociological theories of deviance, conformity, and social control.

SOC 322 (4)  
**Youth Gangs**  
A sociological examination of youth gangs. Factors related to formation and maintenance of youth deviant culture at different periods of time. Gang resistance to social control, variations by race, class, gender. Community and neighborhood influences.

SOC 323 (3)  
**Juvenile Delinquency**  
An examination through multicultural and interdisciplinary perspectives of the nature of juvenile delinquency and its causes. Choices in treatment, prevention, and control of delinquents in different historical and cultural contexts, and variations in policies affecting juvenile justice systems across nations.

SOC 324 (2)  
**Drugs and Alcohol in Society**  
Examines the role of legal and illegal drugs and alcohol in building and maintaining U.S. culture and subcultures. Investigates reasons for use, social justifications for use, criminalization and enforcement, treatment, and domestic and international implications.

SOC 325 (4)  
**Criminology**  
The nature and extent of crime in American society, theories of factors and influences that are related to criminal behavior, and the impact of crime on society.

SOC 327 (4)  
**Law Enforcement**  
Sociological analysis of law enforcement systems and the role of police. Problems affecting the control of crime, and the relation of police to the community.

SOC 328 (4)  
**Sociology of Violence**  
An in-depth examination of the most central issues pertaining to violence in American society. Interpersonal violence and institutional violence are the major focal points, with topic areas including domestic violence, rape, child abuse, terrorism, youth violence, police brutality, workplace violence, and violence in the mass media. Attention is devoted to both “cause” and “intervention” for each module under study. May not be taken for credit by students who received credit for SOC 395D.

SOC 329 (4)  
**Victims and Criminals**  
Sociological analysis of victim roles and relations between criminals and victims with special attention to differences in gender, race, and social class. Examinations of different perspectives on victimization and societal efforts to assist victims including crisis intervention, victim/witness services, compensation and restitution.

SOC 331 (4)  
**Social Welfare Policies and Services**  
The nature and development of the social welfare system and its policies in the United States. Examination of the delivery of human services through governmental and private agencies, social work and other human service careers, the role of volunteerism, and comparisons with social welfare systems in other countries.

SOC 333B (3) 333C (3)  
**Human Service Field Work**  
Course combines field work experience in community service organizations in San Marcos and other North County communities with a seminar examining social issues raised in these programs. Course will not fulfill internship requirements for the major. Prerequisite: Consent of instructor.

SOC 336 (3)  
**Sociology of Work and Occupations**  
The impact of work on individuals; the nature of different types of work, including professions and jobs in bureaucracies; the changing composition of the labor force.

SOC 339 (4)  
**Social Inequality and Civil Rights**  
Examines the struggle for civil rights, equality, and justice. It discusses the differential treatment of people on the basis of race, class, gender, and sexual orientation. Using the Civil Rights Movement in the United States as a touchstone, this course will compare various struggles for human rights such as slavery, abolitionism, territorial expansion, immigration, segregation, the anti-imperialist struggles of Gandhi, and affirmative action.

SOC 337 (4)  
**Women and Organizations**  
An examination of women’s changing roles in organizations including patterns of occupational mobility. Special consideration of tokenism, dual-careers, and changing organizational practices and policies related to women.

SOC 345 (4)  
**Latino Communities**  
Comparative analysis of selected Hispanic communities, with a special emphasis on Chicano communities in California. Formation and change; new immigrants; adaptation and response.
SOC 347 (3)
African American Communities
Historical, demographic, and cultural examination of the social communities of African-Americans.

SOC 351 (3)
Sociology of Religion
Analysis of the interplay of society and religion; the clergy as an occupational group; the relationship of religious ideology to social change.

SOC 353 (4)
Social Change and Social Movements
Forms and processes of social change (modernization, industrialization, urbanization, revolution) in the United States and other countries. The relationship of social change to collective behavior. Development of social conflict, ideologies, and mass organizations; consequences of the success and failure of social movements.

SOC 360 (4)
Quantitative Research Methods
The logic of procedures of social science methodology. Range of types of methods available for various types of quantitative social research. Problem formulation, design, data collection, and analysis of a research project. Prerequisite: SOC 201, or its equivalent.

SOC 361 (4)
Qualitative Methods in Sociology
Provides an introduction to qualitative research methods. Readings and course activities focus on the procedures for conducting participant observation and intensive interviewing as well as the theoretical, ethical, and practical issues that arise in conducting qualitative research. Students will engage in qualitative research and will entail intensive writing of field and interview notes as well as an in-depth analysis of the data that students collect.

SOC 373 (4)
Race, Gender and Work
The impact of race and gender as dimensions of social structure and personal experience is explored in the world of work. Sociological theories are presented for analyses of race and gender consequences for economic location, occupational race and gender segregation, workplace discrimination in hiring, promotion, and severance, experiences of workplace culture and social policy to address inequalities.

SOC 375 (3)
Race and Identity
Examines the impact of race upon the social construction of the self through sociological theory and a series of narratives and studies of racial identity, asking: How does race matter in the perennial questions of "who am I?" How does racial identity get constructed externally and internally through social interactions and in social institutions? How is racial identity attached to other categories of self (e.g., woman, student, and worker) and how do people negotiate conflicted valuations of racial identity?

SOC 395 (4)
Current Issues in Sociology
In-depth examination of selected topics and timely social issues. May be repeated for credit as topics change for a total of six (6) units.

SOC 401 (4)
History of Social Theory
European and American foundations associated with the development of modern sociological theory, with emphases on theorists who have had a strong impact on modern sociology.

SOC 411 (4)
Social Stratification and Classes
Nature and systems of differentiation and ranking in societies, emphasis on changes in class structure in the United States; comparative analysis of life chances and social mobility in the United States and other societies.

SOC 413 (4)
Sociology of Education
The relationship of the educational system to the social structure in the United States and other societies. The school or university as a social organization. Class, ethnic, gender, and other social factors affecting educational opportunity and outcome. Roles of teachers, students, and administrators.

SOC 415 (4)
Divorce and Remarriage
Examines the interpersonal and social consequences of separation and divorce among intimate partners. The prevalence and causes of divorce, as well as the consequences of separation and divorce for couples, children, and extended family members will be explored. Models and evidence of successful responses to separation and divorce will also be considered. Remarriage and blended families will be examined with respect to the types of relationship challenges and successes that occur.

SOC 416 (4)
Families in Poverty
Considers the contemporary intersections of poverty and families in the U.S. Explores definitions of poverty, prevalent theoretical understandings of poverty, the impact of poverty on families and the strategies they use to cope, demographics, existing and proposed policies designed to mitigate poverty and their relationships to families. Pays particular attention to systems of race, class, and gender, to questions of causes vs. symptoms of poverty, and to political economic issues. May not be taken for credit by students who have received credit for SOC 486A. Prerequisites: SOC 303.

SOC 417 (4)
Family Violence
Examines the prevalence, causes, and consequences of the various types of violence that occur within family and intimate relationships. Historical trends and proposed solutions to ending such violence will be explored. The nature of specific forms of violence within families — children abuse, domestic violence, and elder abuse — will be considered with emphasis on both the interpersonal dynamics and broader sociopolitical forces involved.

SOC 419 (4)
Inequalities and Health
A sociological understanding of social class, race, and gender differences in health and health care utilization. Historical and international comparisons of the organization and access to health care contribute to an understanding of the social and personal consequences of inequalities in care delivery.

SOC 420 (4)
Public Health and Disease Prevention
Examines social and individual efforts to control disease and maintain health. Investigates public health efforts historically and cross-culturally, current U.S. public health efforts, public health as social control, self-responsibility and health, health economics and prevention, community-activism and alternative-medicine approaches to health.

SOC 423 (4)
Sociology of Emotions
Examines how emotions like pain, anger, love, envy, jealousy, shame, joy, anxiety, and happiness motivate human behavior. Emphasis on social aspects of emotions that are shaped by social interaction and social structure. Social construction of emotions and the interchange between social rules and affect is examined.
SOC 424 (3)  
Women and Health  
An exploration of women and health. Analysis of women’s health maintenance and disease prevention; gender bias in medical treatment; medicalization of “natural” processes; women and the health system, medical/legal system, and bio-medical research. Subject matter may include, but is not limited to: eating disorders, contraception, sexually transmitted diseases, fertility from pregnancy to birthing, stress and mental illness, menopause, breast cancer, alternative and traditional healing systems. Issues of social class, nationality, race, culture and sexual preference are emphasized throughout. Recommended but not required: previous coursework in the area of health and illness. Also offered as WMST 424. Students may not receive credit for both.

SOC 427 (4)  
Social Gerontology  
Demographic trends, economic status, family relationships, physical and social needs of the elderly.

SOC 429 (4)  
Death and Dying  
Comparative analysis of the social, psychological, and organizational study of dying; ethical issues, cultural practices.

SOC 433 (4)  
Urban Sociology  
Study of urban growth and its impact. Themes explored include metropolitan, suburban, and urban regional development and change; population density; diversity and migration; urban/suburban lifestyles; urban/suburban institutions and important societal trends. Local, national, and cross-national cases are examined.

SOC 437 (4)  
Feminism and Justice  
Through the lens of feminist theories of Marxism, Socialism, Critical Race Theory, and Post-Modernism, this class will explore issues of justice related to social, legal, ideological, and material conditions. More specifically, issues of education, health, public policy, children, labor and a critique of the feminist movement by women of color may be discussed.

SOC 439 (4)  
Social Justice and the Environment  
Explores some of the predominant contemporary issues in society raised by environmental activists and scholars. Upon completion of the course, students will recognize the importance of the environment and environmental issues for our understanding of issues of justice in society.

SOC 442 (4)  
Analysis of the Justice System and Criminal Law  
Sociological examination of the juvenile and adult justice systems in the United States within the context of race, gender and social inequality. Overview of the processes of “the justice system from the commission of crimes and offenses through sentencing and appeal procedures, with special consideration of the role and applications of criminal law.

SOC 443 (4)  
Sociology of Law  
The origin and development of legal norms in various social settings; special attention to the difference between sociological and legal reasoning; law as an instrument of social change; law as a profession.

SOC 444 (4)  
Perspectives on Corrections and Penology  
Critical analysis and evaluation of different institutional and community-based punishment and correction models, examined both historically and in contemporary American society.

SOC 445 (4)  
White Collar Crime  
Critical examination of the history, causes, consequences and prevention of economic crime and the abuse of power in corporations, businesses, unions, and government. How society responds to this costly form of deviance.

SOC 449 (4)  
Comparative Analysis of Criminal Justice Systems  
Global examination of selected criminal justice systems comparing differences in the delivery of legal, correctional and political/cultural objectives across different nations.

SOC 465 (2)  
Critical Race Theory  
Critically assesses racial theory from essentialist constructions to social constructionist and finally, post-structural and post-modern perspectives. In addition, class, gender and social movement factors are also discussed in reference to the “racializing” process. Prerequisites: SOC 313 or consent of instructor.

SOC 467 (3)  
Media, Race and Representations  
Critically assesses the discourse of race as it concerns the representation of race in the media. Students will complete work at the following signal points of the course. Racial history, stereotypes, “authentic” colonized cultural products and their appropriations by the colonizer; and, the later representations of these products for global consumer consumption. May not be taken for credit by students who have received credit for SOC 485H. Prerequisites: SOC 313 or consent of instructor.

SOC 469 (3)  
Colonial and Post-Colonial Theory  
Explores the colonial process from the classical period through neo-colonialism to post-colonialism. Places this theory within the context of Neo-Marxist, feminist and poststructuralist theory. In addition, the course introduces the student to World Systems and race theories that have marked the colonial moments of transformation. Prerequisites: SOC 313 or consent of instructor.

SOC 470 (1-4)  
Topics in Advanced Research Methods  
In-depth examination of selected research methods used in the social sciences. Emphasis is on in-depth understanding of methodologies not covered in SOC 360 or SOC 361. Course may not be substituted for SOC 360 or 361. May be repeated for credit as topics change for a total of eight (8) units. Prerequisite: SOC 360 and 361 or consent of instructor.

SOC 471 (4)  
Advanced Topics in Sociological Theory  
Seminar in in-depth study of advanced topics in sociological theory. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.
SOC 480 (4)  
Capstone Seminar in Sociological Scholarship  
A capstone course for majors, in which students review sociological scholarship on a topic that varies across semesters. Students will produce a written report demonstrating their mastery of key learning objectives in the major. Prerequisites: SOC 320, 360, 361, and SOC 311 or 313 or 315.

SOC 485 (4)  
Seminar on Sociological Topics  
Selected topics for the basis of an in-depth consideration. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

SOC 486 (2-4)  
Topics in Children, Youth, and Families  
A seminar on selected topics for the basis of an in-depth concentration in children, youth, and families. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

SOC 487 (2-4)  
Topics in Aging and the Life Course  
A seminar on selected topics for the basis of an in-depth consideration in sociology of aging and the life course. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

SOC 488 (4)  
Topics in Health, Education and Welfare  
In-depth consideration of special topics in health, education, and welfare in a seminar format. Topics will depend on student interest and contemporary health, education, and welfare issues. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

SOC 489 (2-4)  
Topics in Critical Race Studies  
A seminar on selected topics for in-depth consideration in critical race studies. May be repeated for credit as topics change for a total of eight (8) units. Students should check the Class Schedule for listing of actual topics.

SOC 495 (4)  
Capstone Seminar in Community Service  
Selective placement of students in work-study situations in organizations which provide service to the local community. Includes participation in a coordinating seminar and producing a written analysis of the organization that demonstrates mastery of learning objectives for the major. Prerequisites: Consent of instructor and completion of core course requirements: SOC 320, 360, 361, and SOC 311 or 313 or 315.

SOC 496 (3)  
Internship in Research  
Selective placement of students in work-study situations in social research settings. Includes participation in a coordinating seminar, Prerequisites: SOC 201, or equivalent, SOC 360, and consent of instructor.

SOC 498A (1)  498B (2)  498C (3)  498D (4)  
Independent Study  
Selected studies for the basis of an in-depth consideration. Prerequisites: Senior standing and consent of instructor.

SOC 499A (1)  499B (2)  499C (3)  499D (4)  
Independent Research  
Selected research for the basis of an in-depth consideration. Prerequisites: Senior standing and consent of instructor.

SOC 501 (2)  
Pro-Seminar in Sociological Practice  
Introduces students to the range of approaches to the field of sociological practice that include evaluation/needs assessment research, clinical sociology, community organizing, and program development in social service agencies. Examines the contributions of classic studies in these areas as well as the theoretical, methodological, and political challenges posed to traditional approaches by feminist theory and methods, critical race theory, and participatory action research. Prerequisites: Enrollment in the Master of Arts in Sociological Practice Program and consent of instructor.

SOC 515 (4)  
Social Research Process  
Focuses on applied and evaluation social research. Addresses actual problems of conducting social research in diverse communities. Special consideration is given to methods for tailoring research strategies to different environments, setting up diagnostic procedures, monitoring programs, determining accountability and designing impact assessments. Incorporates practice in the methods of applied social research: sampling, question wording, data collection, techniques of interviewing, mail questionnaire design, telephone surveys, focus groups, and group interviewing. Sensitivity to ethnicity, gender, class, and age will be emphasized. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 517 (2)  
Seminar in Sociology of the Life Course I  
Provides advanced training in the sociological study of childhood, adolescence, and young adulthood. Interconnections between social processes and individual development during the first three decades of life will be addressed from a number of theoretical and methodological perspectives. The importance of social contextual factors such as intergenerational relationships, gender, socioeconomic conditions, race/ethnicity, laws, and demographics for shaping one’s early life course will be explored in detail. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 519 (2)  
Seminar in Sociology of the Life Course II  
Focuses on the sociological study of adulthood and old age. Elucidates reciprocal linkages between the aging self and society over the life course. Considerable attention will be paid to exploring historical and current influences of political, legal, and economic policies on individual lives. In addition, more micro-level issues related to parenting adult children, changes in health, work and retirement, widowhood, and death/dying will be explored. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.
SOC 521 (3)  
Seminar in Health Institutions and Policies  
Examines health care institutions and policies in the United States and abroad, focusing on the cultural and socioeconomic environments that shape them. Focuses on the underlying antecedents to the historical development of social welfare systems and policies in the United States. Examines diverse communities in terms of the resources/services available in relation to the conditions and needs of families. Addresses the role of informal support networks, crisis intervention and hospital and non-hospital alternatives; the role of prevention and chronic mental illness as a lifestyle; patient rights and the ethics of mental health treatment. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 522 (2)  
Seminar in Community Mental Health  
Examines community based mental health treatment. Addresses the following issues: 1) history of community mental health; 2) community treatment and deinstitutionalization; 3) models of community mental health; 4) the role of psychiatrists and other mental health professionals; 5) case management and the role of informal support networks; 6) crisis intervention and hospital and non-hospital alternatives; 7) the role of prevention and chronic mental illness as a lifestyle; and 8) patient rights and the ethics of mental health treatment. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 525 (3)  
Seminar in the Community and the Family  
Families play a central role in the development of individuals and communities, and communities can play an equivalent role in supporting families. Examines diverse communities in terms of the resources/services available in relation to the conditions and needs of families. Addresses family structure, composition, and well-being in relation to governmental policy and programs (e.g., AFDC, WIC, etc.), and the significance of differences in race, ethnicity, and class on family patterns and values. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 527 (4)  
Seminar in Social Welfare and Social Policies  
Provides the student with an understanding of social welfare policies and processes. The underlying antecedents to the historical development of social welfare systems and policies in the United States will be examined, and comparisons will be made to welfare systems in other countries. The development of social policies applied to families, children, and the aging will be analyzed with a special focus on the impact of social welfare and policies on diverse populations. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 528 (2)  
Seminar in Criminological Theories and Policies  
Provides a systematic examination of classical and contemporary theories of crime and delinquency. The conceptual development, historical and cultural background, critical assessment of policies, and scientific efficacy of different theories will be studied. The prominence and success of criminal justice policies developed on the basis of different theories of the etiology and prevention of crime will be examined. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 575 (4)  
Qualitative Research Methods  
Students will learn the theory and practice of approaches to qualitative research, emphasizing field research methods and qualitative interviewing. Subjects covered will include: Observing and conducting interviews, maintaining relations in the field, pursuing members’ meanings, and the impact of gender, race and class in field research. Centers on the processes entailed in writing and analyzing field notes and interview transcripts that will lead to a finished ethnography. Prerequisite: Consent of instructor.

SOC 610 (4)  
Social Theory and Public Policy  
Provides students with training in the practical application of social theory to understanding and acting on social problems. Coursework will emphasize methods for realizing an integration between theory and practice in the conduct of one’s professional activities across a broad range of potential careers. Particular emphasis is placed on theoretically guided analyses of the creation, maintenance, and change of social policy. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.
SOC 650 (3)
Seminar in Current Issues in Criminal Justice and Juvenile Justice
Reviews the American criminal justice system for adults and for juveniles. Trends in law enforcement, practices in the juvenile justice system, the organization of the court and the correctional system, and the interaction of these systems with individuals varying in gender, race, ethnicity, and social class will be examined. There will be a special emphasis on the measurement of system effectiveness. Factors related to crime such as drugs and youth gangs will also be emphasized. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 652 (2)
Seminar in the Evaluation of Crime Prevention and Delinquency Programs
Provides an overview of current developments in the study of crime and delinquency, with an emphasis on evidence from the most recent evaluations of innovative preventive and corrective programs implemented in the United States and in other countries. Sensitivity to issues of race, ethnicity, gender, and social class in the evaluation of criminal justice programs will be addressed. Discussions will center on program designs, evaluation methods, and current efforts to redress problems in criminal justice. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 660 (2)
Teaching Sociology
Focuses on pedagogical concerns and strategies for teaching sociology at the college level. Designed as a workshop to enable students to actively participate in creating and cultivating a teaching self. The professional role is a dual one involving both the creation of knowledge through research and the dissemination of that knowledge through teaching. Designed to acquaint students with some of the major educational and professional issues associated with college and university teaching. May not be taken for credit by students who have received credit for SOC 655B.

SOC 670 (4)
Field Placement Preparation
In preparation for the field placement research project, develops an in-depth understanding of the work of social service agencies. Students will meet in class sessions to discuss their experiences and plan research activities. Prerequisites: SOC 501, 515, 610, 620, and 630.

SOC 675 (4)
Thesis Research
Continuation of the efforts initiated in SOC 670 and completion of a thesis. Theses may include qualitative and quantitative analyses, evaluation studies, design of educational or training materials, and grant proposal writing. Prerequisites: SOC 501, 515, 620, 630, 670, and advancement to candidacy.

SOC 685 (2-4)
Seminar in Topics
Seminars on topics supportive of the concentration areas in this program will be offered on an occasional basis. May be repeated for credit as topics change for a total of six (6) units. Prerequisite: Enrollment in the Master of Arts in Sociological Practice Program or consent of instructor.

SOC 690A (1) 690B (2) 690C (3) 690D (4)
Independent Thesis Proposal Preparation
Independent research in preparation for the thesis, develops an in-depth understanding of the thesis proposal. Students will work closely with their thesis chair to plan research activities and complete thesis proposal. Prerequisites: SOC 501, 515, 610, 620, 630.

SOC 695A (1) 695B (2) 695C (3) 695D (4)
Independent Thesis Research
Continuation of the efforts in SOC 690 and completion of a thesis. Research may include qualitative or quantitative analysis. Prerequisites: SOC 501, 515, 610, 620, 630, 690 and advancement to candidacy.

SOC 698A (1) 698B (2) 698C (3) 698D (4)
Independent Research
Selected research experiences for the basis of in-depth consideration. Research projects supportive of student’s primary concentration interests may be pursued. Prerequisites: SOC 515, 610, 620, 630, and consent of faculty advisor.

SOC 699A (1) 699B (2) 699C (3) 699D (4)
Thesis Extension
Registration in this course is required for students who have received a grade of Report in Progress (RP) in SOC 675. Graded Credit/No Credit. Prerequisite: Prior registration in SOC 675 with an assigned grade of Report in Progress (RP). May not be taken for credit by students who have received credit for SOC 700.

SPANISH (SPAN)

College of Arts and Sciences

SPAN 101 (4)
Beginning Spanish I
An introduction to the Spanish language and Spanish-speaking cultures, with emphasis on the development of communicative skills and grammatical structures. Language laboratory practice is a mandatory component of the course. Though no prior knowledge of Spanish is assumed, to promote language acquisition this course is conducted in Spanish.

SPAN 102 (4)
Beginning Spanish II
Continuation of SPAN 101. Further study of the Spanish language and Spanish-speaking cultures, with emphasis on the development of communicative skills and basic structures. Language laboratory practice is a mandatory component of the course. At time of enrollment in course, basic knowledge of Spanish (equivalent to that demonstrated upon successful completion of SPAN 101), is mandatory. Conducted in Spanish. Prerequisite: SPAN 101 or equivalent.

SPAN 150 (5)
Accelerated Beginning Spanish
A beginning-level Spanish course taught at an accelerated pace. Emphasis on the development of communicative skills, basic structures, and cultural competence. Covers the equivalent of Spanish 101 and 102 in one semester. Attendance in a language laboratory is a mandatory component of this course. Intended for students who have had significant exposure to beginning Spanish but are not ready to begin intermediate Spanish at CSUSM. Recommended: At least two years of high school Spanish, or equivalent. Prerequisites: Requires consent of Foreign Language Proficiency Assessor to enroll.

SPAN 199 (1)
Intensive Spanish Practice
This non-traditional course requires that students live in an off-campus group setting, typically for a weekend period (Friday through Sunday). During this time, students are permitted to speak only Spanish. Structured activities include: workshops on grammar, literature, composition, accent use, group discussions, student participation in skits and songs, and community excursions. Note: This course does not fulfill the graduation requirement for a Language Other than English. Students are required to attend a mandatory orientation session prior to the scheduled intensive weekend, and should contact the instructor for further details. Conducted in Spanish. Prerequisite: SPAN 102 or equivalent and consent of instructor.
SPAN 201 (3)  
Intermediate Spanish I  
Continuation of Spanish language fundamentals. Emphasis on the development of the skills of reading, listening comprehension, speaking, writing, and on culture. Language laboratory practice is a mandatory component of the course. At time of enrollment in course, basic communicative skills (reading, writing, speaking, listening) in Spanish, equivalent to those demonstrated upon completion of Spanish 102, are mandatory. Conducted in Spanish. Prerequisite: SPAN 102 or equivalent.

SPAN 202 (3)  
Intermediate Spanish II  
Continuation of SPAN 201. Further development of the four skills, with an emphasis on reading, composition, and grammar review. Requires practice in a self-paced language laboratory. Conducted in Spanish. Prerequisite: SPAN 201 or equivalent.

SPAN 210 (3)  
Intermediate Reading and Composition  
Students will be guided through structured activities to increase their competence in reading and writing in Spanish. Readings will focus on topics from a variety of written sources (literature, print media, etc.). Students will be introduced to the process of writing in Spanish, and will complete compositions and written activities based on the readings studied. Intended for students who may need more work in these areas prior to attempting upper-division Spanish courses. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent.

SPAN 250 (3)  
Spanish for Spanish Speakers  
Designed for students who come from a Spanish-speaking background, yet who have completed little or no formal study of Spanish. Through intensive review of grammar, along with writing and speaking exercises aimed at strengthening proficiency in these areas, the course will emphasize the development and refinement of communication skills. Special attention will be focused on the problems particular to bilingual students, such as orthography, the use of “Spanglish,” and the idea of “standard Spanish” vs. regional variations. Conducted in Spanish.

SPAN 266 (1-6)  
Intermediate Spanish in a Study Abroad Setting  
Study of Spanish language and/or Hispanic culture, at an intermediate level. Course completed in a study abroad setting, where students complement their in-class lessons with real-life opportunities to use Spanish in practical, everyday situations. Conducted in Spanish. May fulfill the graduation requirement for a Language Other than English only with prior consent of Spanish faculty advisor. May be repeated for credit. Prerequisite: SPAN 102 or equivalent.

SPAN 301A (3)  
Advanced Spanish for Non-Native Spanish Speakers  
Designed to assist non-native Spanish speakers in their continued development of Spanish language skills necessary for upper-division study. Intensive review of grammar with emphasis on contrastive features, interference from English and other specific areas of Spanish typically problematic for non-native speakers. Through reading and viewing of modern texts and media, special attention is paid to oral and written language development across a number of Spanish language registers. May not be taken for credit by students who have received credit for SPAN 311A. Conducted in Spanish. This course should be taken concurrently with SPAN 302. Prerequisite: SPAN 202 or equivalent.

SPAN 301B (3)  
Advanced Spanish for Native Spanish Speakers  
Designed to assist native speakers of Spanish in the refinement of Spanish language skills necessary for upper-division study. Intensive review of grammar with specific emphasis on areas typically problematic for native speakers. Through reading and viewing of modern texts and media, special attention is paid to oral and written language development across a number of Spanish language registers. May not be taken for credit by students who have received credit for SPAN 311B. Conducted in Spanish. This course should be taken concurrently with SPAN 302. Prerequisite: SPAN 202 or 250 or equivalent.

SPAN 302 (3)  
Basic Theory and Practice of Composition  
Focuses on the principles of writing and the development of basic composition skills. Through analysis of a variety of literary genres (such as academic and literary essays, journalistic prose, and short prose narratives) students will learn of Spanish grammatical, rhetorical, and literary devices essential to developing a written voice and writing with coherence and clarity in Spanish. Extensive writing assignments will also focus on expansion of vocabulary and syntax, and learning techniques for revision. Course conducted in Spanish. Should be taken concurrently with SPAN 301A or SPAN 301B. Prerequisite: SPAN 202 or equivalent.

SPAN 303 (3)  
Advanced Theory and Practice of Written Composition  
Develops advanced skills in composition specifically for academic writing. Through analysis of a variety of literary genres (such as argumentative and critical essays, research papers, journalistic prose and short fiction) students will sharpen critical thinking skills, develop a further understanding of Spanish grammatical, rhetorical and literary devices essential to developing a written voice and writing with coherence and clarity in Spanish. Extensive writing assignments will focus on further developing and refining vocabulary and syntax, as well as revision skills. Course conducted in Spanish. Prerequisite: SPAN 302 or equivalent.

SPAN 305 (3)  
Advanced Theory and Practice of Written Composition  
Focuses on the principles of writing and the development of basic composition skills. Through analysis of a variety of literary genres (such as academic and literary essays, journalistic prose, and short prose narratives) students will learn of Spanish grammatical, rhetorical, and literary devices essential to developing a written voice and writing with coherence and clarity in Spanish. Extensive writing assignments will also focus on expansion of vocabulary and syntax, and learning techniques for revision. Course conducted in Spanish. Should be taken concurrently with SPAN 301A or SPAN 301B. Prerequisite: SPAN 202 or equivalent.

SPAN 306 (1-6)  
Advanced Theory and Practice of Written Composition  
Focuses on the principles of writing and the development of basic composition skills. Through analysis of a variety of literary genres (such as academic and literary essays, journalistic prose, and short prose narratives) students will learn of Spanish grammatical, rhetorical, and literary devices essential to developing a written voice and writing with coherence and clarity in Spanish. Extensive writing assignments will also focus on expansion of vocabulary and syntax, and learning techniques for revision. Course conducted in Spanish. Should be taken concurrently with SPAN 301A or SPAN 301B. Prerequisite: SPAN 202 or equivalent.

SPAN 415 (3)
Hispanic Women Authors
Exposes students to the literary works of Hispanic women authors such as María de Zayas, Sor Juana Inés de la Cruz, Carmen Martín Gaité, Elena Poniatowska, Rosario Ferré, and others. Includes an introduction to feminist literary criticism. Conducted in Spanish. Prerequisite: SPAN 301A or 301B, 302, and 303, and 315 or equivalent.

SPAN 421 (3)
Viva el Teatro — Spanish Theatre in Performance
An active interdisciplinary approach to the study of theatre. Following the presentation of a historical and theoretical background, students will approach and analyze a variety of Spanish and Latin American plays both as works of literature and as theatre in performance. Students will acquire basic acting techniques as well as develop skill in literary analysis. Issues of gender, class, community, and sexuality contained in the plays will be explored within an aesthetic context. Conducted in Spanish. Also offered as TA 421. Students may not receive credit for both. Two hours of lecture and two hours of theatre activities.

SPAN 4225 (3)
Literatura Chicana/a
Designed to offer a window to the growing space produced by Chicano/a literature. Approaches texts focusing on the construction of identity and representation. Concentrates on contemporary Chicano/a literature beginning with the 1950’s and extending to the present. Major contemporary works being published during these decades. Conducted in Spanish. Prerequisite: SPAN 301A or 301B, 302, and 303, and 315 or equivalent.

SPAN 450A (3)
Seminar in Language
Seminar in a specialized topic dealing with the Spanish language as it has developed, changed, and reached its present form in Spain and Latin America. Concentration on a specific element in the historical, phonetic or semantic evolution of Spanish, or on pedagogical ramifications/applications. May be repeated for a total of six (6) units. Conducted in Spanish. Prerequisites: SPAN 301A or 301B, 302, 303, and one-upper-division Spanish linguistics course.

SPAN 450B (3)
Seminar in Literature
Seminar in a specialized topic in the literature of Spain or Latin America. Focuses on a single author, period, genre, or critical approach in Hispanic literature. May be repeated for a total of six (6) units. Conducted in Spanish. Prerequisites: SPAN 301A or 301B, 302, and 303, and one-upper-division Spanish linguistics course.

SPAN 450C (3)
Seminar in Civilization
Seminar in a specialized area pertaining to the civilization of Spain or Latin America. Focuses on a particular aspect of the culture, history, politics, or arts of the Hispanic world within a specific regional or chronological framework. May be repeated for a total of six (6) units. Conducted in Spanish. Prerequisite: SPAN 350A or SPAN 350B.

SPAN 460 (3)
Advanced Spanish for Teachers
Intensive, individualized oral and written practice at the advanced level. Focuses on linguistic skills and cultural knowledge specific to the needs of future teachers of Spanish. Intended for students preparing for the Single Subject Waiver in Spanish and/or the Spanish Special Field. No more than (3) units may be applied toward the major. May be repeated for a total of (6) units. Prerequisite: Consent of instructor.

SPAN 466 (1-6)
Advanced Seminar in Spanish in a Study Abroad Setting
Seminar in Spanish language and/or Hispanic literature, linguistics, or culture, at an advanced level. Course completed in a study abroad setting, where students complete their in-class lessons with real-life opportunities to use Spanish in practical, everyday situations. Conducted in Spanish. May be repeated for credit. Prerequisites: SPAN 301A or 301B or equivalent and consent of instructor.

SPAN 510 (3)
History of the Spanish Language
Intensive diachronic study of the development of the Spanish language, from its origin in spoken Latin, to Old Spanish to Modern Spanish. Includes analysis of morphological changes. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 511 (3)
Spanish Dialectology
Phonological, morphological, and syntactic variations in Spanish as spoken in the Hispanic world, from synchronic and diachronic points of view. Includes the study of Spanish as spoken in various regions of the United States. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 512 (3)
Spanish in the United States
Sociolinguistic functions of the various social and stylistic varieties of Spanish in the US in spoken and written forms. Study of morphological, phonological, lexical, and syntactical differences and similarities with the standard Latin American and peninsular Spanish. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 513 (3)
Acquisition of Spanish as a First and Second Language
Survey of theories of first- and second-language acquisition, with emphasis on the acquisition of Spanish. Includes a study of the various dimensions of bilingualism, with emphasis on Spanish-English bilingualism. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.
SPAN 514 (3)  
The Teaching of Spanish to Child and Adolescent Learners  
Study of theories of child and adolescent second-language acquisition. Survey of techniques and methods of teaching Spanish to child and adolescent learners. Emphasis on practical classroom applications consistent with theoretical research in this field. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 515 (3)  
The Teaching of Spanish to Adult Learners  
Study of the theories of adult second-language acquisition. Survey of techniques and methods of teaching Spanish to adult learners. Emphasis on practical classroom applications, consistent with theoretical research in this field. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 520 (3)  
Theory and Practice of Literary Criticism in Spanish  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 521 (3)  
Pre-Columbian Spanish American Literature  
In-depth examination of pre-Hispanic texts such as the Popol Vuh, Nahuatl poetry and other Aztec, Mayan, Quiché, Quechuan, and Incan religious, legal, and literary texts. Exploration of theories of oral literature. Study of cultural factors affecting literary manifestations in pre-Columbian societies. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 522 (3)  
Colonial Latin American Literature  
In-depth examination of Spanish-American texts produced during the colonial period (1520-1810) in Spanish America. Study of major genres including the chronicles of the conquistadores and major literary figures such as Sor Juana Inés de la Cruz and major movements such as the colonial Baroque. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 523 (3)  
19th and 20th Century Latin American Literature  
In-depth examination of texts produced in Spanish America from the independence period to the present. Study of major genres, literary figures and movements, with an emphasis on the development of national consciousness and the themes of nationality vs. universality. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 524 (3)  
Latin American Literature of the “Boom”  
In-depth examination of Spanish American authors such as Borges, Rulfo, Fuentes, Vargas Llosa, García Márquez, and Carpentier. Emphasis on the innovative structure and language brought to Hispanic literature by this movement. Study of cultural, social, political, and literary factors that contributed to the emergence of this movement. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 525 (3)  
Contemporary Latin American Literature  
In-depth examination of post-“boom” Spanish American authors to the turn of the century. Emphasis on the contributions of women authors. Study of representative works in all genres. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 526 (3)  
Chicano/Latino Literature in Spanish  
In-depth examination of U.S. authors who write in Spanish and/or who are of Hispanic descent. Discussion of issues such as otherness, decanonicalization, and ethnicity. Exploration of social, political, economic, and other factors that affect literary production and dissemination. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 531 (3)  
Medieval Spanish Literature  
Survey of Medieval Spanish literary manifestations, including analysis of both written and oral literature. Study of masterpieces such as the Poema del Mio Cid, El Libro de Buen Amor and La Celestina, as well as non-canonical literature of the Medieval period. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 532 (3)  
Golden Age Spanish Literature  
Study of literature in Spain during the Renaissance and Baroque (Golden Age) periods. Survey of canonical and non-canonical works of poetry, narrative, and theatre. Exploration of social and political factors affecting literary production during this time period. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 533 (3)  
18th and 19th Century Spanish Literature  
Study of the principal literary works representing the following literary movements/periods in Spain: Enlightenment, Romanticism, Realism, and Naturalism. Includes canonical and non-canonical works in all major genres. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 534 (3)  
20th Century Spanish Literature  
In-depth study of literary currents and representative works of poetry, narrative, theatre, and essay from the early 20th Century to modern day Spain. Emphasis on the Generations of 1898 and 1927, the effects of the Spanish Civil War on literary production, and the changes in literary production in post-Franco Spain. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 540 (3)  
Contemporary Mexican Society  
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in modern-day Mexico. Includes discussion of Mexican-U.S. relations. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 541 (3)  
Contemporary Spanish Society  
Study of the social, political, economic, religious, and artistic factors that contribute to life in modern-day Spain. Includes discussion of Spanish-U.S. relations. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 542 (3)  
Contemporary Central-American Society  
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in modern-day Central America. Includes discussion of Central American-U.S. relations. Conducted in Spanish.  
Prerequisite: Graduate standing in Spanish or consent of instructor.
SPAN 543 (3)  Contemporary Caribbean Society
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Caribbean nations. Includes discussion of Caribbean-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 544 (3)  Contemporary Andean Society
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Andean nations. Includes discussion of Andean-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 545 (3)  Contemporary Southern Cone Society
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day Spanish-speaking Southern Cone (Cono Sur) nations. Includes discussion of Southern Cone-U.S. relations. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 546 (3)  Contemporary U.S. Latino Society
In-depth study of the social, political, economic, religious, and artistic factors that contribute to life in the modern-day United States for Latinos. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 551 (3)  Cinema of the Spanish-Speaking World
Study of Spanish, Spanish-American, or Latin cinema from historical and stylistic perspectives. Emphasis on the study of narration in film and fiction, and the formal links between the two media. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 552 (3)  The Hispanic Image in U.S. Film, Television, and Advertising
Exploration of the portrayal of the Hispanic individual and Hispanic groups in print and film media in the United States, by both Hispanic and non-Hispanic film-makers, writers, and companies. Discussion of theoretical and popular culture, as well as psychological, sociological, political, and economic factors contributing to these images. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 556 (1-6)  Graduate-Level Spanish in a Study Abroad Setting
Graduate-level work in Spanish language and/or Hispanic literature, linguistics, or culture, at a graduate level. Course completed in a study abroad setting, where students complement their in-class lessons with real-life opportunities to use Spanish in a practical, everyday situations. Conducted in Spanish. May be repeated for credit. Prerequisites: Graduate standing or consent of Spanish graduate advisor.

SPAN 599 (3)  Internship in Community Service
Intensive study of a particular aspect of the local Hispanic community, through placement as an intern at a location where the needs of this community are served. Internships may include placement at sites devoted to education, health care, commerce, social services, and international relations. May be repeated for a total of six (6) units. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 601 (3)  Seminar in Hispanic Civilization
Intensive study of a particular aspect of Spanish, Spanish-American, or U.S. Latino culture and civilization. Subject matter may emphasize historical, sociological, political, or economic issues related to the Spanish-speaking world. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 602 (3)  Seminar in Applied Linguistics
In-depth analysis of one or more methodologies of second language acquisition and instruction. Linguistic research and classroom applications of selected methodologies. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 603 (3)  Seminar in Author Studies
Critical study of a major author or authors of the Spanish-speaking world. Special attention to biography, culture, and literary background. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 604 (3)  Seminar in Genre Studies
Examination of Hispanic literature with an emphasis on a particular genre or sub-genre; for example: poetry, narrative, theatre, autobiography, and essay. Includes a discussion of literary theory pertinent to the genre studied. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 605 (3)  Seminar in Regional Studies
Examination of the literature, culture, or linguistic patterns of a specific area of the Spanish-speaking world, for example: Mexico, Spain, Central America, the Caribbean, the Andean region, the Southern Cone region, and the Spanish-speaking United States. May be repeated for a total of six (6) units with new course content. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 606 (3)  Seminar in Gender Studies
Examination of “otherness” in Hispanic literature through the study of works written by individuals who explicitly or implicitly identify themselves as part of a group defined by its gender or sexuality. Works of female, gay, and lesbian authors will be studied in conjunction with pertinent theoretical frameworks. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 610 (3)  Multimedia in Spanish Instruction
Theory and applications of teaching Spanish through multimedia and interactive technologies. Research and development of interactive multimedia programs for use in the classroom and in the language laboratory. Conducted in Spanish. Prerequisite: Graduate standing in Spanish or consent of instructor.

SPAN 695 (3)  Supervised Teaching of Spanish at the University Level
A practicum course devoted to the teaching of lower-division Spanish language courses at CSUSM. Requires attendance at various meetings and workshops throughout the semester. All Teaching Assistants must enroll in this course. May be repeated. Units earned in SPAN 695 may not be counted toward the 30-unit requirement for the Master’s Degree. Prerequisite: Graduate standing in Spanish or consent of instructor.
commonalities among the cultures studied. And search for relationships between and through watching plays and analysis, students will do substantial research on a chosen topic or issue and then use that information to write and perform a play. Students will be encouraged to be creative; to experiment with non-traditional formats of stage production. Not all students will perform in the play. However, all students will be involved in mounting the production by way of design, dramaturgy, stage management or technical design. The final goal of the course is to have the play performed for the community. A post-play discussion will follow each performance. Two hours of lecture and two hours of laboratory.

TA 301 (3) Acting
A studio class centered around the student’s practice of basic acting techniques. Each student will be required to prepare a monologue and a scene to be performed in class. Basic approaches to theatrical movement and voice will be explored.

TA 302 (1) Movement for Actors
Through Western and non-Western approaches, student will work on developing a physical awareness for stage work, including spatial awareness, directing energy, and ensemble development.

TA 303 (3) Materials and Structures of Theatre
Advanced work in the analysis of dramatic works and the application of current and historical theories. A study of the elements, genre and structures using examples drawn from a broad historical and cultural spectrum to be taken concurrently with VPA 302. Prerequisites: Completion of twenty-one (21) units of lower-division theatre courses or consent of instructor.

TA 305 (4) Design and Production for Theatre
An introduction through lecture, demonstration, and practical hands-on experience of all four areas of theatrical design: scenic, costume, lighting, and sound. Students will serve as designers and technical crew for this semester’s CSUSM theatre. May repeated for a total of twelve (12), including any previous enrollment in VPA 380F.

TA 320 (3) Modern World Theatre in Europe and Latin America
Through individual and group readings, students will study European and Latin American dramatic works. Focuses on the relationship between theatre in both form and content, and the society giving rise to a particular work. Works drawn from both the traditional and emerging canon will be examined in terms of acting style, content, imagery, and motive. Students will examine plays from other countries considering their perspectives, relevance and meaning to our own multicultural society in light of prevailing world conditions. Issues such as identity, gender, sexuality, race, class, community, and ethnicity will be analyzed through in-class discussions and library research.

TA 323 (3) Power and Popular Culture
Through critical analysis of advertising, popular film, theatre, and television, this course offers an active interdisciplinary approach for exploring the way women, gays, ethnic minorities, and individuals of different classes are portrayed, allowed access, and share power within these mediums as both cultural expressions and fields of employment. The analysis of popular culture and the meaning it reflects in light of prevailing world conditions poses an awareness of the subsequent choices confronting individuals and communities in U.S. society. Issues of identity, gender, sexuality, race, class, community, and ethnicity will be considered not only for their cultural expression but as the mechanisms of larger world systems. Through individual and group readings, in-class discussions, and film showings, this course will provide ample opportunities for the development of in-depth research projects.

TA 325 (3) Latino/Chicano Theatre in the United States
Through individual and group readings of specific works of theatre, this course will examine the role of Latino/Chicano Theatre as a part of American Theatre and a distinct voice in World Theatre. Students will examine social, political, and aesthetic elements which have given rise to the development of Latino/Chicano theatre, including the struggle for justice, cultural and community integrity, biculturalism, bilingualism, identity, race, and cultural chauvinism. The perspectives and works of other Latino populations will be included as part of an examination of comparative and competing Latino world views within the United States. The course will include a performance aspect.
TA 326 (3)
African-American Theatre
Examines some of the major works by African-American playwrights. Significant attention will be given to etiology of the "Stage Negro," beginning with Uncle Tom's Cabin and blackface minstrelsy. Taught from an African-American perspective, where all aspects of the world are referenced in African-American culture.

TA 327 (3)
The Caribbean Carnival
The Caribbean island of Trinidad is known world-wide for its Carnival Mas'. Brazil's Carnival and Mardi Gras in New Orleans are examples of similar festivals held at the same time of the year. Looks at the Trinidadian Carnival Mas' as a form of theatre. Students will study the history of Carnival as well as the preparation and execution of the various components of this annual event. This course should be of particular value to those interested in the link between Caribbean performance traditions and the African Diaspora. Students will have the opportunity to investigate Carnival from a wide range of academic perspectives: pan music (steel drums), costume design and construction, and various acting and dance styles.

TA 328 (3)
Stage to Film
Through play readings, viewing selected films of plays and occasional attendance at performances, students will analyze and examine distinctions between theatre and film as they pertain to film adaptation. Students will compare and contrast aesthetic, economic, social, and political issues involved in the translation and adaptation of stage plays to film. Addresses the relevance of theatre as a medium focused on the delivery of human energy in relationship to film as a mechanized counterpart in an increasingly technologically focused society.

TA 401 (3)
Play and Screenwriting I
Introduces students to techniques used in the process of writing for the stage and the screen (film and television). Readings and guest lectures will complement the writing process in which students will be engaged. Issues of responsibility of the writer to his/her community will be addressed in relationship to the play/screen scripts viewed and read for class. Methods of analysis of the text and development of critical thought on the social issues surrounding the work will be discussed. Much emphasis will be placed on the fact that writing for the stage, screen or radio has little to do with written text on a page. Students will examine scripts and follow them from page to stage by attending live performances and movies available locally. May be repeated once for credit with a different instructor.

TA 410 (3)
Contemporary American Theatre — Society's Taboos
Through individual and group readings, this course presents theatre written and performed as a document of society's concerns. Analysis of representative dramatic pieces from different cultures and/or ethnic groups in the United States. Considers relevant historical, cultural, and philosophical perspectives and the meaning each work offers within the context of our multicultural society. Explores the relationship between art and politics through issues including identity, gender, sexuality, race, class, community, and ethnicity. This exploration will include in-class discussions, library research, and attendance at theatre events.

TA 420 (3)
Bilingual Theatre — Spanish/English
Through study and performance of bilingual texts, students will acquire practical and critical skills that will enable them to understand and employ techniques for working with a Mexican/American bilingual population. The phenomenon of bilingualism (English/Spanish) in the American Southwest will serve as the foreground for this interdisciplinary approach to theatre and performance. Plays will be examined within a historical context accounting for factors and perspectives that have shaped the use of language in our society including colonialism, migration, assimilation, acculturation, and cross-cultural interaction. Two hours lecture and two hours theater activities. Prerequisite: SPAN 202 or equivalent.

TA 421 (3)
Viva El Teatro — Spanish Theatre in Performance
An active interdisciplinary approach to the study of theatre. Following the presentation of a historical and theoretical background, students will approach and analyze a variety of Spanish and Latin American plays both as works of literature and as theatre in performance. Students will acquire basic acting techniques as well as develop skill in literary analysis. Issues of gender, class, community, and sexuality contained in the plays will be explored within an aesthetic context. Conducted primarily in Spanish. Also offered as SPAN 421. Students may not receive credit for both. Two hours of lecture and two hours of theatre activities. Recommended: TA 301.

TA 480 (3)
Theatre Activities for Children and Adults
Explores various modes of expression in the theatre arts through active in-class learning based on independent and group work. Students will gather material through library research, then analyze and synthesize material into texts for performances in the classroom and in the community. The material used in class provides for the examination and comparison of different cultural perspectives as seen through dramatic texts and theatrical exercises. These different cultural perspectives include an awareness of the changing conditions in our world and the role of theatre/art work as a voice and tool of understanding within this context. Provides students with a platform for self-examination and challenges within an aesthetic and cultural environment geared towards the non-professional. An emphasis will be placed on theatre activities that can be applied to the K-12 classroom. This course satisfies the Liberal Studies requirement for work in Studio Arts. Two hours lecture and two hours theatre activities.

TA 489 (4)
Production and Performance
Provides students with an engaging and practical experience essential for understanding and synthesizing theoretical and textual work in theatre arts. Students will participate in various aspects of play production including analysis acting, play development, library research, technical theatre, and audience development. Stage work includes rigorous interaction between student, professor, and the text. May be repeated for a total of twelve (12) units. May not be taken for credit by students who have received credit for TA 489S.
TA 489S (4)
Theater Production in Spanish
Provides students with an engaging and practical experience essential for understanding and synthesizing theoretical and textual work in theatre arts. Students will participate in various aspects of play production including analysis acting, play development, library research, technical theatre, and audience development. Stage work includes rigorous interaction between student, professor, and the text. May be repeated for a total of twelve (12) units. May not be taken for credit by students who have received credit for TA 489S.

TA 495A (1) 495B (2) 495C (3)
Independent Research
Designed to link the student directly with a selected and approved theatre or individual for the purpose of providing additional creative and/or studio skills as well as a practical understanding of the discipline. Graded Credit/No Credit. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

TA 498A (1) 498B (2) 498C (3)
Independent Study
This course is intended for students with advanced standing in respective areas of study. Selected topic(s) must be approved by the Visual and Performing Arts Independent Study Committee and supervised by a faculty member or academic advisor. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

TA 499A (1) 499B (2) 499C (3)
Independent Research
Designed for students with demonstrated capacity for independent research, field, creative and studio work. Research topic must be approved by Visual and Performing Arts Independent Study Committee and supervised by faculty advisor. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

VISUAL AND PERFORMING ARTS (VPA)

College of Arts and Sciences

VPA 101 (3)
Introduction to Interdisciplinary Arts
Introduction to the visual and performing arts: visual art, arts and technology, music, theatre, and dance. Attention is given to the aesthetic and formal issues of art-making alongside historical, cultural, political, and social issues. Discussions focus on race, class, gender, and sexuality in order to contextualize the historical and cultural significance of each artist and their work. Students experience creating art directed towards self and cultural expression. Taught through a variety of artistic mediums in dialogue with one another.

VPA 180 (3)
Topics in the Arts
Selected topics in the introduction to the visual and performing arts (dance, music, theatre, visual arts); for example, a basic survey of the history of music, theatre, art, and others. May be repeated for credit as topics change for a total of six (6) units.

VPA 181 (3)
Studio Work in the Arts
Introduction to studio experience in the visual and performing arts. Exploration of fundamental concepts of dance, music, theatre, and the visual arts through basic studio processes such as acting fundamentals, music fundamentals, drawing, basic movement, and dance. May be repeated for credit as topics change for a total of six (6) units.

VPA 302 (3)
The Process of Multidisciplinary Art
Exploration of the elements, forms, functions, and meaning of the visual and performing arts in their sociocultural context. Examines how artistic forms interact with each other and with other cultural elements to contribute to the shaping of a society’s development. Case studies will utilize classical art traditions and traditional and folk art forms representing many different cultures from throughout the world. Students will be exposed to a comparative view of the various ways that cultures around the globe (including the United States) express the meaning and value of life. Prerequisites: Completion lower-division VPA track requirements and consent of instructor. This course is for VPA majors only.

VPA 311 (3)
Arts of World Cultures
Explores contemporary world cultural practices ranging from indigenous expressions to new electronic forms in a global and multi-disciplinary context. Encompasses the arts from regional cultures throughout the world, including Africa, the Americas, Asia, and Europe examined through the multiple viewpoints of gender, race, class, and sexuality. Explores diverse cultural practices shaped by memories and aspirations as well as by personal, collective, and mythic histories. These cultural practices offer transformative paradigms for social engagement and creativity. The exploration of global art theories and practices will assist students in developing their analytical, perceptual, and creative skills. This exploration, in turn, will encourage students to expand the power, clarity, and range of their own voices and visions.

VPA 320 (3)
Culture of India through Dance, Music, and Film
Designed to give an insight into the understanding of the culture of India through the appreciation of dance, music, and film. The subcontinent of India is diverse with different languages, customs and traditions, dress, and values which is reflected in the different art forms present therein. The uniqueness of the various performing arts is shown in the subtle yet clear distinctiveness found in the music and dance forms of the north, south, east, and west of India. The course is divided into several sections and will be taught with the help of videos, films, audio tapes, and also guest artists, who will perform lecture-demonstrations.

VPA 321 (3)
Learning Through the Arts
Seeks to develop the student both personally and professionally, recognizing the inter-relationship between these two elements in art instruction. Three areas of focus include introducing arts experiences to children, integrating arts into classroom content, and providing a framework for the (elementary) student to experience the process of art. May not be taken for credit by students who have received credit for VPA 380D. This course satisfies the Liberal Studies requirement for work in Studio Arts.
VPA 380 (3)  
Topics in the Arts  
Selected topics in the visual and performing arts (dance, music, theatre, visual arts), for example, theories of the visual arts, urban aesthetics, African-American music, images of women in the arts, and others. May be repeated for credit as topics change for a total of six (6) units. Students should check the Class Schedule for listing of actual topics.

VPA 381 (3)  
Studio Work in the Arts  
Studio experience in the visual and performing arts. Exploration of basic concepts of dance, music, theatre, or the visual arts through various studio processes such as drawing, group instrumental lessons, dance movement, or acting. May be repeated for credit as topics change for a total of six (6) units.

VPA 402 (3)  
Multidisciplinary Collaborative Projects  
Students will be guided through a series of structural, problem-solving exercises designed to equip them to complete collaborative projects in the arts. The projects will be idea- or theme-centered and require a high level of cooperation from the involved students. The primary disciplines included in the project will be music, the visual arts, and theatre; may also include film, video, and movement. Special emphasis will be placed on the notion of “inclusion” and therefore materials can be drawn from traditional classical cultures, pop materials, electronic sounds and or images, text, and folk art forms.

VPA 403 (3)  
Art in the Community  
Provides the student an opportunity to demonstrate his/her ability to integrate the principles, practices, and other experiences acquired in the program beyond individual coursework. Students will learn and apply field research techniques, theory, and appropriate methodologies as well as the operation of field equipment. Emphasis will be placed on the immediate communities of North County as an area of field activity. As a field research experience, the course is designed to enhance the student’s understanding of the ethnography of our communities and the role of the arts in the lives of the people. It also will encourage individual and collective creativity in the synthesis of the arts.

VPA 498A (1) 498B (2) 498C (3)  
Internship  
Special projects in the arts that focus on work experience with arts organizations, schools, and other community institutions. May be repeated for a total of three (3) units. Prerequisite: Consent of instructor.

VPA 499A (1) 499B (2) 499C (3)  
Special Projects in the Arts  
Special independent projects in the arts. May be in research or studio area. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

VISUAL ARTS (VSAR)  

VSAR 102 (3)  
The Computer and the Visual Arts  
Introduces the student to the computer as a tool for making art. Includes elementary two-dimensional design principles. Students will learn to use the Fundamentals of Design. Students will create work utilizing text and image in a number of art projects. Two hours of lecture and two hours of laboratory.

VSAR 110 (3)  
Introduction to Sculpture  
Introduction to the fundamental principles of three-dimensional design. Includes a brief survey of traditional and contemporary media, ideas, history and sculpture as a means of cultural expression. A variety of techniques and materials are used. Includes training with basic tools and equipment in a wood and metal shop. Emphasis on development of the ideas and methods of art expression. Two hours of lecture and three hours of laboratory.

VSAR 120 (3)  
Introduction to Visual Arts  
Introduction to the language of the visual arts through a comparative study of various artistic styles, cultures and ways of seeing. Emphasis on sculpture, painting, installation art, photography, architecture, film and multimedia, and their cultural contexts. Explores art from across the globe, including Europe, Asia, Africa and the Americas. Through various participatory visual and written exercises in class and visits to art sites, students will learn the fundamentals of the visual arts and how the arts relate to their lives.

VSAR 130 (3)  
Visual Arts Fundamentals  
Introduction to the fundamentals of design in the visual arts with a focus on two-dimensional design. Students create projects that allow first-hand exploration of basic elements of design, such as line, shape, balance, texture, scale, and proportion. While intended to build basic skills and develop problem solving strategies, this course will also emphasize the way in which the fundamentals of design contribute to the overall content and meaning of visual works. Through slide lectures, readings, and field-trips students will be exposed to historical and contemporary examples of how the principles of design play out in a wide variety of art including film, video, and new media. Fieldtrips outside of class may be required.

VSAR 131 (3)  
Drawing I  
Focuses on developing drawing skills and the application of these skills to conceptually more complex projects. The first part of the course will emphasize practicing the ability to see and to render observations with the help of line, value, and other visual elements. As students develop these skills, they will be encouraged to reach beyond traditional drawing methods into areas of collage, mixed media and narrative media. It is recommended that students complete VSAR 130 before enrolling in VSAR 131. Course meets four hours per week.

VSAR 222 (3)  
Survey of World Cinema  
Introduces the student to a diverse selection of film, video and digital media from around the world. Covers such subjects as indigenous aesthetics, the political and social force of Third Cinema within revolutionary societies, changing ethnographic cinematic practice, and various approaches to narrative structures within particular cultures. Questions the ethical implications of a Hollywood-dominated film industry. Addresses how particular countries undertake production and distribution within their economies.

VSAR 293 (3)  
Studio Art Instruction  
Private or small group instruction in studio art. Prerequisites: Normally open only to Visual and Performing Arts Art Track students with less than one year of lower-division studio art study or who are placed at this level through a portfolio review. Students approved for VSAR 293 must be enrolled in appropriate lower-division art courses. May be repeated for a maximum of eight (8) units.
VSAR 301 (3)
Materials and Structure of Art
Advanced work in the analysis and production of the visual arts and the application of current and historical theories of art to the process of art making. A study of materials, elements, genre and structures using examples drawn from a broad historical and cultural spectrum. Prerequisite: Completion of twenty-one (21) units of lower-division art courses or consent of instructor.

VSAR 302 (3)
The Computer and the Visual Arts
Designed to allow the student to explore the computer as a tool for making art. Includes information about contemporary artists and their use of the computer in the creation of artists’ books, wall pieces, sculptural and installation works, socially interactive networks, and other art forms. Students will create work utilizing text and image in a number of individual and collaborative projects. Includes a segment on computer ethics, and utilizes word processing and two other applications pertinent to the arts. Two hours of lecture and two hours of laboratory.

VSAR 303 (3)
Introduction to Video Arts
Introduction to video art practice and theory. All phases of videotape production from conception to finished product utilizing experimental, narrative and documentary techniques. Includes digital and electronic time-based video production, video installation art, field production, non-linear computer based editing, lighting and sound design. Lectures, demonstrations, hands-on projects, video screenings, discussions, research and field trips. Public screening of work. Two hours of lecture and three hours laboratory.

VSAR 304 (3)
Advanced Video Production
Offers students the opportunity to continue to develop and hone skills in video production and post-production including narrative, experimental, documentary and installation utilizing digital audio and video tools and software. Includes lectures, screening, and lab. Development of practical and critical skills through the study and analysis of current issues surrounding the production, interpretation and dissemination of video in relation to visual arts. Public screening of work. Two hours of lecture and three hours of laboratory. May be repeated for a total of six (6) units. Prerequisite: VSAR 303, 305 or 306 or consent of instructor.

VSAR 305 (3)
Art and Virtual Video for the Web
Designed for those interested in experimenting with streaming media including video, audio and other moving images on the web within theoretical and practical contexts of artmaking. Covers basic desktop digital video and audio applications, video and audio streaming and basic web design. Integrates reading and writing on various aspects of new media within the context of art and society, including self-publishing, game theory, gender and cyberspace, copyright issues, narrative, and interactivity. Final production results in public presentation of live internet video or radio performance, and public web site. Two hours of lecture and three hours of laboratory. Recommended, but not required: COMM 370, VSAR 302, 303, 304, 405.

VSAR 306 (3)
Video in the Community
Explores video, art, activism and community service. Students learn the latest in video production technology while using video within the community as a tool for social or political change, indigenous expression, cultural understanding, community organization, or advancement of social causes. Video projects relevant to communities will be identified, developed, and produced by the students in collaboration with members of that community and faculty. Public screening or broadcast of work. Two hours of lecture and three hours of laboratory. May be repeated for a total of six (6) units.

VSAR 307 (3)
Holocaust Art, Photography and Film
Interdisciplinary course confronts the problems and promises involved in artistic, photographic and filmic attempts to represent the European Holocaust during WWII. Investigates artworks and artifacts (i.e., family photos and museum displays) from the 1940s to contemporary work, focusing on aesthetic, documentary, memorial and political approaches to representing the history and memories of the Holocaust. Offers a theoretical and visual foundation to approaching and researching the representation of other traumatic historical events. May not be taken for credit by students who have received credit for ID 360A.

VSAR 308 (3)
Audio Art and Sound Design
An introductory studio course in sound art from the 19th century to present day computer-based experiments in audio. Investigates audio art and sound design as it relates to public space and performance arts, and integrates sculpture, audio electronics, video and sound design software. Hands-on projects may include audio for sculptural installations, sound design for theater or performance, surround sound design for video or film, and computer/electronic interactive audio art. No musical experience necessary. Public exhibition, screening or performance of work. Two hours of lecture and three hours laboratory. May be repeated for a total of six (6) units.

VSAR 309 (3)
Generating Narrative in Video and New Media
A studio course explores narrative or storytelling structures in video and new media through hands-on research and writing projects. Projects may include creating a narrative video, rich media web project, an interactive CD or DVD, an Internet radio show, or an interactive 3-D art installation. Sound, video, web or multimedia applications and technologies will be covered, as well as methods and theories of story structures across cultures. Results in public presentation of student work. Two hours of lecture and three hours laboratory.

VSAR 310 (3)
Performance Art
An introductory studio course in performance art. Emphasis will be placed on, the body as the primary medium of performance, improvisational structures, site-specific performances, and creating performances from a cross disciplinary perspective. This theory and practice course will consist of intensive practical experience, critiques of student work, and lectures and class discussions on contemporary and historical practices in performance art. The structure of the course is assignment-based with one public performance planned at the end of the semester. Two hours of lecture and two hours laboratory.
VSAR 311 (3)
Drawing II
An in-depth exploration of drawing as a medium of observation, expression and narrative. Provides exposure to historical and contemporary examples of drawing. Students will enhance their drawing skills and learn to experiment with the medium through hands-on studio practice. Development of conceptually strong and layered work is emphasized.
Recommended: VSAR 130 and/or VSAR 131. Fieldtrips outside of class may be required. Course meets four hours per week.

VSAR 312 (3)
Sculpture II
Provides exposure to historical and contemporary examples of sculpture and an understanding of three-dimensional language as a medium of communication and expression. Students will expand their knowledge of sculptural techniques and engage in experimentation in order to explore the vocabulary of materials, space, and time. Students will be challenged to develop conceptually layered work and encouraged to try mixed media.
Recommended: VSAR 110 and/or VSAR 131. Fieldtrips outside of class may be required. Course meets four hours per week.

VSAR 320 (3)
Public Expression in the Arts
Examines public art, government funding for the arts, the First Amendment, and censorship. Subject matter will be explored in both a historical and a social context through various case studies.

VSAR 322 (3)
Women Artists in the 20th Century
Examines issues crucial to women as visual artists. Subject matter includes: How women use art as a means of self-expression and as a strategy for examining cultural values; the relationship between artistic production and women’s traditional acts of reproduction; society’s perception of women as artists; and provocative debates introduced into feminist thinking and art by reconsiderations of the charged arena of sexual difference.

VSAR 323 (3)
Chicano Art in the Border Region
Survey of Chicano and Chicano-inspired art along the U.S.-Mexico border. Examines recent art forms and practices as represented in the work of individual artists, as well as, cultural groups and organizations. Looks at the influences which have inspired the invention of Chicano art within a community context.

VSAR 324 (3)
Critical History of Twentieth Century Art and Theory
Examines crucial artistic production and debates that developed in the 20th Century in areas including the United States, Europe and Mexico through a re-examination of the traditional concept of the static “art object.” Explores the provocative intersections between supposed high art and other visual forms of culture including cartoons, film, design, advertising and museum display. Focused consideration of gender, cultural, political and artistic issues that involve the relationship of the avant-garde to everyday life, changing concepts of modernism in contest with developing technologies, and the interconnections between dominant “art movements.” Little-studied examples of artistic production, developments in the larger visual culture and which peoples’ histories are left out of the frame of art history. Course is based on discussions, lectures, on-site critical viewing, research papers and collaborative projects.

VSAR 325 (3)
Pre-Columbian Mesoamerican Art and Society
Examines Pre-Columbian Mesoamerican art as it reflects social, structure, religion, social roles, ideology, economic and political organization, world view, and the family. The course will cover the preclassic, classic, and postclassic periods, focusing on four main cultural areas: the Olmec, the Maya, the Zapotec, Teotihuacan and Classic central Mexico, and the Aztec and Mixteca-Puebla style of highland Mexico.

VSAR 326 (3)
Feminist Art and Motherhood
Critically examines what has been the taboo relationship of motherhood to feminist art and theory as they have developed during the late 20th Century. This interdisciplinary course focuses on the various ways feminist artists, writers, philosophers and other cultural theorists are addressing the dilemmas of representing feminist motherhood and how these approaches are interpreted in contemporary visual culture. Previous historical limitations and mutual exclusivities for women as mothers will be analyzed in relation to new revisions of motherhood by women and men who have different ethnicities, classes and other varied life experiences.

VSAR 327 (3)
Modern and Contemporary Art Movements
Covers the modern and contemporary movements in visual, performance, time-based and audio art, including Russian Futurism, European Dada and Surrealism, International Fluxus, Experimental Cinema and video and performance art globally. Fosters understanding of these art movements within their social, political, historical, and cultural contexts. Emphasis is on the experimental, revolutionary and transformative effects of these movements. Students will attend performances, film and art events.

VSAR 328 (3)
Video Art History and Theory
Examines the history and theory of video as a global art form while linking it to other significant art movements in painting, sculpture, music and performance art. Includes understanding video genres such as narrative, experimental, documentary, installation, web-based and commercial. Analyzes the relation of counter-culture media to television and mainstream film. Screenings, discussion, research and hands-on projects.

VSAR 393 (2)
Advanced Studio Art Instruction
Private or small group instruction in studio art. May be repeated for maximum of eight (8) units. Prerequisites: Open only to Visual and Performing Arts Art Track students with at least one year of lower-division studio art study, and consent of instructor.

VSAR 403 (3)
Interactive Multimedia
Studio-oriented discussions offering advanced skills development in the use of interactive multimedia production tools, utilizing audio, video, and computer technologies. Covers the theory and practice of integrated audio, video and computer media production, including all phases of multimedia production from conception to finished product. Course includes: lectures, demonstrations, hands-on skills training, multimedia presentations, discussions, research papers, and field trips. Two hours of lecture and two hours laboratory. Prerequisites: MUSC 302 or VSAR 302 or VSAR 303.
VSAR 404 (3)
Art and Web Design
Designed to allow the student to explore the Internet and to use the Internet as a resource — graphic, audio, video, and textual — for the production of art projects. Students will create on-line sites for their work which will be available to other university students, and they will be involved in curating virtual exhibitions. Explores the ethical and social implications of the information on the web and examines the impact of the Internet on the arts. Includes lectures, demonstrations, hands-on training, discussions, and research papers.
Two hours lecture and two hours laboratory.

VSAR 405 (3)
Critical Theories of the Arts in Cyberspace
Explores the impact of the rapidly developing information technologies of the arts — film, video, literature, music, performance, and visual art. Examines the breakdown of disciplinary boundaries as the interactive multimedia technologies combine video, text, audio, and graphic images. Also explores the social and ethical implications of the new technologies and their relationship to the arts. Students will study artists whose work has been shaped by information technologies and who are helping to define the electronic interfaces and virtual worlds of the future. Includes lectures, demonstrations, hands-on training, discussions, and research papers.

VSAR 406 (3)
Installation Art
Installation art creates meaning through the interaction of various elements (objects, images, projections, etc.) with each other and their surrounding place. This hands-on studio course serves as an introduction to the history of installation and site-specific art. Students will be encouraged to experiment with multimedia approaches often employed in contemporary installations. At least one lower-division and one upper-division course in studio art and/or art and technology is recommended. Fieldtrips outside of class may be required. Course meets for four hours per week.

VSAR 420 (3)
Contemporary Artists
A survey examining the multiple worlds of the contemporary art world. Current issues, ideas, and intuitions which contribute to the shaping of today’s art are analyzed through the individual and collaborative works of Afro-Americans, Asian-Americans, Chicano/a, feminists, gays and lesbians, "the mainstream," and other artists. Cross-influences, dialogue and debates of the last 40 years will be emphasized. Lectures and discussions will be supplemented with field trips to museum exhibitions, public art sites, private collections, and artists’ studios.

VSAR 422 (3)
Art and Technology of the Moving Image
Hands-on survey of the history and theory of filmmaking, video production, new media, and the moving image. The parallel developments of projected imagery and animation from the 18th Century through contemporary practices utilizing computer technologies will be covered. Students will acquire practical and critical skills through studying and analyzing the development of theoretical discourses that frame past and current issues surrounding the production and interpretation of the moving image. Films and videotapes addressing diverse cultural, ethnic, and social concerns throughout the world will be screened, analyzed, compared, and contrasted.

VSAR 423 (3)
Critical History of Photography
Designed to allow students to critically examine the early modern development of photography and the medium’s contemporary usages, cultural meanings and contested histories. Focuses on the intersections between the photograph as an object, historical record, advertising image and cultural artifact through an examination of the representations of various peoples’ cultural histories and identities. Also considers new artistic approaches to redefining the documentary tradition, especially in light of the relationships between photography and new media technologies. Course is based on discussions, lectures, on-site critical viewing, research papers and collaborative projects.

VSAR 440 (3)
Advanced Computer Art
Presentation of projects that are characterized by the combination of traditionally discrete artistic disciplines in combination with computer-generated texts and images. Emphasis on manifestation of ideas through class discussion and critique of presented work. Two hours of lecture and two hours of laboratory. Prerequisite: VSAR 302 or consent of instructor.

VSAR 480 (3)
Art Activities for Children and Adults
Explores various media in the visual arts. No background in the visual arts is required. Emphasis will be placed on arts activities that require few materials and that can be applied to the K-12 classroom. Satisfies the Liberal Studies requirement for work in the Fine Arts, and Humanities (Studio Arts). Two hours of lecture and two hours of laboratory.

VSAR 495A (1) 495B (2) 495 (3)
Internship
Intended to enable eligible students to work directly with selected and approved individual artist or group of artists in creative and/or studio environment. May be repeated for a total of six (6) units. Graded Credit/No Credit. Prerequisite: Consent of supervising faculty member or faculty advisor.

VSAR 498A (1) 498B (2) 498 (3)
Independent Study
Designed for students who have completed upper-division courses in this major area of study. Special topic(s) must be approved by the Visual and Performing Arts Independent Study Committee. May be repeated for a total of six (6) units. Prerequisite: Consent of faculty advisor.

VSAR 499A (1) 499B (2) 499 (3)
Independent Research
Designed for students with demonstrated capacity for independent research, field, creative and studio work. May be repeated for a total of six (6) units. Prerequisites: Consent of faculty committee and academic advisor.

WORLD LANGUAGES AND HISPANIC LITERATURES (WLAN)

College of Arts and Sciences

WLAN 101 (4)
Beginning Study of a Second Language
Basic concepts of a language other than English, Spanish, French, German, or Japanese. Designed to develop oral and written communication skills and enhance cultural knowledge. May be repeated for credit as language changes.
WLAN 102 (4)
Beginning Study of a Second Language
Continuation of WLAN 101. Further study of basic concepts of a language other than English, Spanish, French, German, or Japanese. Designed to develop oral and written communication skills and enhance cultural knowledge. May be repeated for credit as language changes. Prerequisite: WLAN 101 (in the same language) or equivalent.

WLAN 201 (3)
Intermediate Study of a Foreign Language I
Further study of a language other than English, Spanish, French, German, or Japanese. Emphasis on development of the skills of reading, listening, comprehension, speaking, and writing. Conducted in the appropriate language other than English. May be repeated for credit as language changes. Prerequisite: WLAN 102 (in the same language) or equivalent.

WLAN 202 (3)
Intermediate Study of a Foreign Language II
Continuation of WLAN 201. Further development of the four skills in a language other than English, Spanish, French, German, or Japanese. Emphasis on oral and written composition, communication, and review of grammatical structures. Conducted in the appropriate language other than English. May be repeated for credit as language changes. Prerequisite: WLAN 201 (in the same language) or equivalent. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

WLAN 216 (1-6)
Intermediate Second Language for Special Purpose
Intermediate study of a language other than English, Spanish, French, German, or Japanese.. Designed to develop oral and written communication skills, with special emphasis on vocabulary, conversational practice, and cultural background necessary for successful communication within a specialized context. This course does not fulfill the graduation requirement for a language other than English. Course maybe repeated for credit as language and/or subject matter changes. Prerequisite: WLAN 102 or equivalent, in same language.

WLAN 316 (1-6)
Advanced Second Language for Special Purpose
Advanced-level study of a language other than English, Spanish, French, German, or Japanese. Designed to develop oral and written communication skills, with special emphasis on vocabulary, conversational practice, and cultural background necessary for successful communication within a specialized context. Course may be repeated for credit as language and/or subject matter changes. Prerequisite: WLAN 216 or equivalent, in the same language.

WLAN 331 (3)
World Languages and Their Speakers
Designed to introduce students to the variety of language and linguistic phenomena in the world today. This course examines the history, pronunciation, alphabets, and speakers of languages greater and lesser known that have helped to shape the contemporary sociopolitical context. This course requires no knowledge of any language other than English and can be a great introduction to future second language study. Recommended but not required: a course in Introductory Linguistics.

WLAN 350 (3)
The Origins and Contemporary Aspects of Latino Culture
Influences and results of mixed background are examined in the literature, the arts and the ideas of major figures throughout the centuries. The course seeks to allow students to make connections, examine and question theories, and draw conclusions about heritage and the meaning of self. It also seeks to educate Latinos and non-Latinos as to major artistic and literary movements, and important historical developments as manifested in writings, arts and music so they can reach their own conclusions about what it means to be Latino.

WLAN 370 (3)
Literature of the Spanish and Portuguese-Speaking World
A survey, in English, of literary works originally written in Spanish or Portuguese. Works selected for their cultural, historical, and/or literary significance. Includes exploration of how literature can reflect (or distort) culture. Special emphasis on the works of marginalized authors (women, indigenous writers, etc.). May not be taken for credit by students who received credit for SPAN 370. Conducted in English. Knowledge of Spanish/Portuguese not required.

WOMEN’S STUDIES (WMST)

WMST 101 (3)
Introduction to Women’s Studies
An introduction to the scholarship on women, both disciplinary and interdisciplinary, with an emphasis on critical thinking. Explores works by and about women, gender roles, and contemporary issues around the world, and analyzes arguments surrounding women’s status.

WMST 180 (3)
Introductory Topics in Women’s Studies
Introductory special topics in Women’s Studies. The course title and description will vary by offering. Students should check the Class Schedule for listing of actual topics. May be repeated for credit as topics change, for a total of six (6) units.

WMST 201 (3)
Women: Contemporary Issues
Surveys contemporary issues in women’s lives from the standpoints of diverse groups of women. Subject matter includes, but is not limited to images of women, reproductive rights, sexuality, economic justice, political empowerment, family relations, and cultural practices. Subject matter is introduced in a variety of ways, including case studies, narratives, novels, film, and music. Students may do cross-cultural research on the Internet and Lexis/Nexis for their final project. This course is not currently offered at Cal State San Marcos. It is listed only for transfer-credit and course equivalency purposes.

WMST 205 (3)
Gender and Identity in Pop Culture and the Media
Examines the ways in which gender and social identity have been portrayed in popular culture and the media, as well as the economic, political, and historical conditions that affect and inform these images. Focuses special attention on the economic, political, and historical conditions that have shaped representations of gender, race, class, and sexual identity in popular culture.

WMST 300 (3)
Topics in Women Studies
Special topics in Women’s Studies. The course title and description will vary by offering. May be repeated for credit as topics change for a total of six (6) units.
WMST 301 (3) Gender and Race in Contemporary Society
Explores the intersection of gender and race in the modern world. Themes include the expression of gender and race in arts and humanities, the structures of discrimination, theories about race and gender, the lively debate across cultural and ethnic lines concerning these issues.

WMST 303 (3) Education, Gender and Race
Explores the relationships between education, gender, and race/ethnicity. Course content will include such issues as identity development in girls and boys, controversies about gender, race, and education, feminist theories about learning and teaching, social stratification in schools, and pedagogical methods designed to empower all students through education. Using contemporary case studies, students will examine multiple dimensions of school life—such as formal and informal curricula, student-teacher relationships, and the social construction of teaching—for their gendered and racialized components. May not be taken for credit by students who have received credit for WMST 300K.

WMST 320 (3) Introduction to Feminist Pedagogies
Focuses on the study of feminist approaches to university learning. Special emphasis on feminist theories of student-centered learning, innovative teaching methods in higher education, and social change through higher education. Designed for students who are preparing to serve as Peer Discussion Leaders in WMST 101. Prerequisites: WMST 101, or other introductory Women’s Studies course.

WMST 321 (4) Feminist Pedagogies in Practice
Feminist theory is used to reflect upon classroom leadership and experience. Designed for students who are serving as Peer Discussion Leaders in WMST 101, under faculty supervision. May be repeated for a total of eight (8) units. Prerequisite: WMST 101 (or other introductory Women’s Studies course) and consent of instructor.

WMST 323 (3) Women in Performance: Choreographies of Resistance
Explores issues of power, representation, and access in relation to the female body in dance, performance art, body art and the staging of political empowerment. Examines crucial historical figures and moments when the body in a motion ruptures or destabilizes normalized expectations. Also offered as DNCE 323. Students may not receive credit for both.

WMST 330 (4) Women as Leaders
Internationally, women contribute to a growing share of public activity, the labor market, and civic leadership. Based on recent feminist research on leadership development, this course will address the challenges of and opportunities for leadership as they affect women from different cultural backgrounds. Subjects include cultural perceptions of leadership, traditional stereotypes of femininity, and the evaluation of leadership and coaching skills. Biographies of women leaders will be used to explore some of the key factors that have shaped women’s success. Three hours of lecture plus required off-campus Service Learning activities. May not be taken for credit by students who have received credit for WMST 300G.

WMST 341 (3) Men and Masculinity
Focuses on various meanings of male identity and the effects that notions of masculinity have had on both men and women. Examines cultural beliefs, values, and representations of masculinity and male identities. Explores distinct perspectives on the meanings of masculinity—past, present, and future—in relation to socialization, work, family, race and ethnicity, class culture, sexuality, and technological change. Focuses primarily on the United States, with cross-cultural comparisons to the construction of masculinity in other countries. May not be taken for credit by students who have received credit for WMST 300H.

WMST 350 (4) Chicana and Latina Feminist Thought
Introduction to the foundational writings in Chicana and Latina feminist theory with close attention to how race, class, gender and sexuality affect Chicana and Latina lives. Includes triple oppressions theory, identity politics, mestiza consciousness, Chicana subjectivity (agency), lesbian identities, and media analysis.

WMST 375 (3) Women Changing Our World
Explores women’s international movement, giving attention to the relationship between U.S. women’s movements for social change and global feminist struggles. Interdisciplinary readings, including fiction and feminist theory, focus on women’s activism in various countries and regions of the world.

WMST 398 (3) Independent Study
Directed readings and research under the guidance of an instructor. Semester project, paper, or performance required. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.

WMST 401 (3) Seminar in Women's Studies
Topic announced each semester prior to registration. Explores readings in feminist theory and scholarship. Includes a cross-cultural or cross-national perspective. May be repeated for a total of six (6) units as topics change.

WMST 416 (3) Sex Work
Examines a variety of issues related to sex work such as prostitution, trafficking in women and children, pornography, sex tourism, and erotic shows. Material will include material from communications, economics, feminism, health, socio-political, and other perspectives with an emphasis on the global nature of the sex industry.

WMST 424 (3) Women and Health
An exploration of women and health. Analysis of women’s health maintenance and disease prevention; gender bias in medical treatment; medicalization of “natural” processes; women and the health system, medical-legal system, and bio-medical research. Subject matter may include, but is not limited to: eating disorders, contraception, sexually transmitted diseases, fertility from pregnancy to birth, stress and mental illness, menopause, breast cancer, alternative and traditional healing systems, issues of social class, nationality, race, culture and sexual preference are emphasized throughout. Recommended but not required: previous coursework in the area of health and illness. Also offered as SOC 424. Students may not receive credit for both.

WMST 445 (3) Gender and Development
Gender analysis remains in the peripheries of development theory and practice despite evidence which suggests that “modernization” results in disparate outcomes for similarly situated women and men. To bridge this analytical gap in development studies, the course explores the gender dimensions of the dramatic structural changes taking place in the world economy. Also offered as ECON 445 and PS100. Students may only receive credit for one of the courses. May not be taken for credit by students who received credit for ECON 481B or PSCI 449B.
WMST 450 (3)
Cinema and Gender
Investigates the power of film and the film industry in representing and shaping gendered positions in a variety of cultural settings. Explores dominant and alternative practices of gendering cinematic characters and viewers. May employ particular thematic frameworks (e.g., mothers and daughters, gender and European cinema, women in the silents, or gender and documentary film).

WMST 490 (3)
Feminist Perspectives: Theories and Research
Examines major schools of feminist theory and feminist approaches to research on women and gender across an array of academic disciplines. The application of feminist perspectives and reassessments of social theory in the humanities, social sciences, and sciences may be included. Student research projects may include bibliographies, archival research, ethnographic, survey, literary analysis or other formats.

WMST 495 (3)
Internship in Women’s Studies
Combines readings with placement in an appropriate women’s advocacy organization. May be repeated for a total of nine (9) units.

WMST 499 (3)
Independent Research in Women’s Studies
In consultation with a faculty advisor, students develop an extended research project using primary and/or secondary sources. May be repeated for a total of six (6) units. Prerequisite: Consent of instructor.
ACADEMIC AND ADMINISTRATIVE LISTING

Abboolian, Robert (2002)
Assistant Professor, Operations Management
B.S., Iran University of Science and Technology
M.S., Iran University of Science and Technology
Ph.D., University of Toronto

Ahlers, Jocelyn (2001)
Assistant Professor, Liberal Studies (Linguistics)
B.A., Occidental College, Los Angeles
M.A., University of California, Berkeley
Ph.D., University of California Berkeley

Aitken, Wayne (1994)
Professor, Mathematics
B.S., Brigham Young University
Ph.D., Harvard University

Allison, Terry L. (1991)
Professor, Women’s Studies
B.A., University of California, Berkeley
M.A., University of California, San Diego
Ph.D., University of California, San Diego

Anderson, Beverlee B. (1992)
Director, MBA Program
B.S., Admin., The Ohio State University
B.S., Ed., The Ohio State University
M.B.A., The Ohio State University
Ph.D., The Ohio State University

Añover, Verónica (1999)
Associate Professor, World Languages and Hispanic Literatures
B.A., Universidad Complutense de Madrid, Spain
M.A., Florida State University
Ph.D., Florida State University

Arciniega, Carmen (1993)
Executive Assistant, President’s Office
B.A., California State University, San Marcos

Arnade, Peter (1992)
Professor, History
B.A., New College of Florida
M.A., New York University
Ph.D., State University of New York at Binghamton

Arnold, Roger A. (1990)
Professor, Economics
B.S., University of Birmingham, England
M.A., Virginia Polytechnic Institute
Ph.D., Virginia Polytechnic Institute

Arriaga, Manuel (2001)
Assistant Professor, Philosophy
B.A., Anteneo de Davao University, Philippines
M.A., Anteneo de Manila University, Philippines
Ph.D., Duquesne University, Pittsburgh

Astorino, Todd (2004)
Associate Professor, Kinesiology
B.A., California State University, Sacramento
M.S., Arizona State University
Ph.D., University of New Mexico, Albuquerque

Avalos, David (1991)
Professor, Visual and Performing Arts
B.A., University of California, San Diego
M.F.A., University of California, San Diego

Bade, Bonnie L. (1994)
Associate Professor, Liberal Studies (Anthropology)
B.A., University of California, Riverside
Ph.D., University of California, Riverside

Professor Emerita, Sociology Founding Faculty
B.A., Cornell University
Ph.D., University of Chicago

Baldwin, Mark D. (1995)
Dean, College of Education
B.A., University of California, Irvine
M.S., San Diego State University
Ed.D., Northern Arizona University

Barrett, Donald C. (1996)
Associate Professor, Sociology
B.A., University of West Florida, Pensacola
M.S., State University of New York, Binghamton
Ph.D., Indiana University, Bloomington

Barsky, David J. (1995)
Assistant Vice President for Academic Programs
Associate Professor, Mathematics
B.S., University of Delaware
Ph.D., Rutgers University

Bass, Shana (2005)
Assistant Professor, Political Science
B.A., University of California, Berkeley
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Associate Professor, Sociology
B.A., Pacific Lutheran University
M.A., University of Washington
Ph.D., University of Washington

Associate Professor, Political Science
B.A., Washburn University of Topeka (Kansas)
M.A., University of Nebraska-Lincoln
Ph.D., University of Nebraska-Lincoln

Bell, Tina (1992)
Assistant Vice President/Chief of Staff, External Affairs
B.A., University of California, San Diego

Bennett, David M. (1999)
Executive Director, Development and Business Outreach
B.B.A., California Lutheran University
A.M.P., Harvard Graduate School of Business Administration

Bennett, Tom R. (1998)
Associate Vice President for Strategic Planning and Assessment
Professor, Education
B.A., San Diego State University
M.A., United States International University, San Diego
Ph.D., University of California, Los Angeles

Berghof, Oliver (1998)
Associate Professor, Literature and Writing Studies
B.A., Oxford University
M.A., University of Konstanz
M.A., University of California, Irvine
Ph.D., University of California, Irvine

Berman, Jonathan (2005)
Assistant Professor, Communication
B.A., McGill University
M.F.A., Bard College

Biggs, Bonnie (1990)
Librarian Emerita
B.A., San Diego State University
M.L.S., University of Southern California

Bills, Timothy A. (1996)
Assistant Facilities Manager
B.S., Slippery Rock University of Pennsylvania
M.A., Bowling Green State University
Ph.D., Bowling Green State University

Blanshan, Bridget K. (2001)
Director, Student Life and Leadership
B.A., Iowa State University, Ames
M.Ed., University of San Diego

Boehning, Rochelle L. (1990)
Professor, Computer Science
B.S., Pittsburg State University
M.S., Pittsburg State University
M.S., University of Missouri-Rolla
Ph.D., University of Missouri-Rolla

Bolton, M. Kent (1994)
Associate Professor, Political Science
B.A., Brigham Young University
M.A., Brigham Young University
Ph.D., The Ohio State University

Bonomo, Carol J. (1989)
Professor, Liberal Arts
Special Assistant to the President
B.M., Barrington College, Rhode Island
M.A., San Diego State University

Borin, Jacqueline (1990)
Librarian
Chartered Librarian, Hammersmith and West London College

Bradbury, William (1994)
Professor, Visual and Performing Arts
B.A., Hamilton College
M.A., Miami University
D.M.A., Cornell University

Interim Associate Vice President, Finance and Business Services
B.S., Arizona State University, Phoenix

Bray, Richard N. (1994)
Professor, Biological Sciences
B.S., San Diego State University
M.A., University of California, Santa Barbara
Ph.D., University of California, Santa Barbara

B.S., Texas A&M University
Ph.D., Texas A&M University

Garcia, Maribel (2002)
Assistant Professor, Women’s Studies
B.A., Bryn Mawr College
M.A., University of Texas at Austin
Ph.D., University of Texas at Austin

Garza, Elizabeth (2003)
Assistant Professor, Education
B.A., California State University, San Marcos
Ed.D., The Fielding Institute

Ghiara, Ranjeeta (1994)
Associate Professor, Economics
B.A., St. Xavier College, Bombay
M.A., University of Bombay
Ph.D., University of California, Riverside

Goldberg, Merry R. (1993)
Professor, Visual and Performing Arts
B.M.E., New England Conservatory of Music
Ed.M., Harvard University
Ed.D., Harvard University

Götzl, Vicki L. (1992)
Dean, College of Arts and Sciences
Professor, Political Science
B.A., Occidental College
M.A., California State University, Fullerton
Ph.D., University of Southern California

Gómez de García, Julie (2001)
Assistant Professor, Liberal Studies (Linguistics)
B.A., Pomona College
M.A., University of Colorado, Denver
Ph.D., University of Colorado

Gonzales, Alicia (1998)
Associate Professor, Sociology
B.A., Arizona State University
M.A., Arizona State University
Ph.D., Arizona State University

González, Gerardo M. (1991)
Interim Dean, Graduate Studies
Director, National Latino Research Center
Professor, Psychology
B.A., California State University, Fresno
M.A., California School of Professional Psychology, Fresno
Ph.D., California School of Professional Psychology, Fresno

Grant-Vallone, Elisa (1998)
Associate Professor, Psychology
B.S., St. Mary’s College
M.A., Claremont Graduate University
Ph.D., Claremont Graduate University

Executive Director, CSUSM Foundation
B.A., Southern Oregon State College
M.B.A., San Diego State University

Greenwood, Scott (2002)
Assistant Professor, Political Science
B.A., University of San Diego
M.A., University of Michigan
Ph.D., University of Michigan

Grimsaw, Gina (1997)
Associate Professor, Psychology
B.S., University of Toronto
M.A., University of Waterloo
Ph.D., University of Waterloo

Guillén-Castroillo, Rocío (1997)
Professor, Computer Science
B.S., Universidad Nacional Autónoma de México
M.S., New Mexico State University
Ph.D., New Mexico State University

Gundersen, Joan R. (1989)
Professor Emerita, History
Founding Faculty
B.A., Morrin College
M.A., The College of William and Mary
Ph.D., University of Notre Dame

Guseman, Dennis (2002)
Dean, College of Business Administration
B.B.A., Wichita State University
M.S.B.A., Wichita State University
D.B.A., University of Colorado, Boulder

Hadaegh, Ahmad (2002)
Assistant Professor, Computer Science
B.S., University of Lethbridge
M.S., University of Manitoba
Ph.D., University of Manitoba

Halcon, John J. (2002)
Professor, Education
B.A., Loyola Marymount
M.A., Loyola Marymount
Ph.D., University of California, Santa Barbara

Hamill, Sharon B. (1996)
Professor, Psychology
B.A., California State University, Long Beach
M.A., University of California, Irvine
Ph.D., University of California at Irvine

Haney, Martha Ann (2001)
Director of Registration and Records
B.A., University of Florida, Gainesville
M.A., University of Phoenix, San Diego

Hano, Joan (1995)
Associate Professor, Education
B.F.A., Massachusetts College of Art
M.A., University of Iowa
Ph.D., University of Wisconsin-Madison

Hansen, Olaf (2003)
Assistant Professor, Mathematics
Diploma in Mathematics, Johannes Gutenberg Universität
Ph.D., Johannes Gutenberg Universität

Hawk, Linda L. (2001)
Associate Vice President, Resource Management, Finance and Business Services
B.A., Buffalo State University
M.A., United States International University

Hayden, Katherine (2002)
Assistant Professor, Education
B.A., Woodbury University
M.A., Pepperdine University
Ed.D., Pepperdine University

President
B.A., Goucher College
M.S.W., McGill University
Ph.D., University of Texas

He, Shaoyi (2003)
Associate Professor, Information Science
B.A., Hunan Normal University
People’s Republic of China
M.S., Clarion University of Pennsylvania
Ph.D., University of North Carolina

Heil, Jeffrey A. (2005)
Distinguished Teacher in Residence
B.A., University of California, San Diego
M.A., Liberal Arts and Sciences, San Diego State University
Herlihy, Catherine S. (1991)
Librarian
B.A., Lake Erie College
A.M.L.S., University of Michigan

Hersko, Judit (2003)
Assistant Professor, Visual and Performing Arts
B.A., University of Michigan
M.F.A., The School of the Art Institute of Chicago

Hinchman, Mary (1993)
Director, University Budget Office
B.B.A., National University

Professor Emeritus, Management
Founding Faculty
B.S., Wayne State University
M.B.A. Wayne State University
Ph.D., Stanford University

Holt, Linda (1991)
Professor, Mathematics
B.S., Syracuse University
Ph.D., Rutgers University

Hood, Antonette (2001)
Assistant Professor, Education
B.A., Bridgewater State College
M.S., Simmons College
Ed.D., University of Sarasota

Hoss, Neal R. (2005)
Vice President, Finance and Administrative Services
B.A., University of Montana
M.B.A., University of San Diego

Hughes, Michael (2002)
Assistant Professor, World Languages and Literatures
B.A., Lewis and Clark College
M.A., University of California, Davis
Ph.D., University of California, San Diego

Hurst, Anthony (2002)
Assistant Professor, Communication
B.A., University of Northern Iowa
M.A., University of Montana
Ph.D., University of Iowa

Huspek, Michael (1994)
Professor, Communication
B.A., University of Minnesota
M.A., University of Washington
Ph.D., University of Washington

Hwang, Nan-Chen (1991)
Professor, Accounting
B.B.A., National Cheng-Kung University, Tainan, Taiwan
M.S., University of Missouri, Kansas City
Ph.D., St. Louis University, St. Louis
C.P.A., Missouri and California
C.M.A. (Certified Management Accountant)

Imara, Mtafiti, (2001)
Associate Professor, Visual and Performing Arts
B.A., San Francisco State University
M.A., Mills College
Ph.D., Michigan State University

Jackson, Jan (2003)
Dean, Extended Studies
B.A., Duke University
M.S., Syracuse University
Ph.D., Claremont Graduate University

Jasien, Paul G. (1991)
Professor, Chemistry and Biochemistry
B.S., DePaul University
Ph.D., University of Illinois, Urbana

Jayasingue, Saiith (2005)
Assistant Professor, Chemistry and Biochemistry
B.S., Ohio Wesleyan University
Ph.D., University of Virginia

Jeffries, Jennifer (2001)
Assistant Professor, Education
B.A., San Diego State University
M.A., San Diego State University
Ph.D., University of San Diego

Assistant Director, Engineering and Energy Services, Facilities Services
B.A., UC Santa Barbara

Jorjani, Soheila (1992)
Professor, Production and Operations Management
B.S., University of Texas at Dallas
M.S., University of Texas at Dallas
Ph.D., University of California, Irvine

Kang, Eun C. (1991)
Associate Professor, Finance
B.L., Sungkyunkwan University
M.B.A., University of Michigan
Ph.D., University of Pennsylvania

Keating, Joseph F. (1993)
Associate Professor, Education
B.S., State University of New York at Albany
M.S.T., Union College
Ph.D., University of New Mexico

Keim, Mary T. (1999)
Assistant Professor, Accounting
B.S., Hastings College
M.Phil., Carnegie-Mellon University
Ph.D., Carnegie-Mellon University

Keith, Rick D. (2005)
Vice President, External Affairs
B.A., Hardin-Simmons University

Kelly, M. G. “Peggy” (1991)
Associate Dean, College of Education
B.A., San Diego State University
M.A., San Diego State University
Ed.D., Utah State University

King, Alison (1990)
Professor, Education
B.A., California State University, Fullerton
M.A., California State University, Long Beach
Ph.D., University of California, Riverside

Kirby, Scott (2003)
Assistant Facilities Manager
Field House/University Student Union
B.S., Rocky Mountain College, Billings, Montana

Knoblock, Dora R. (1990)
Director, Campus Enterprises
B.A., San Diego State University

Knowles-Yáñez, Kimberley (1998)
Associate Professor, Liberal Studies (Urban and Regional Planning)
B.A., University of Washington
M.R.P., Washington State University
Ph.D., University of Illinois, Urbana

Kohles, Jeffrey C. (2000)
Assistant Professor, Management
B.A., Pomona College
M.S., University of New York, Buffalo
Ph.D., University of New York, Buffalo

Assistant Professor, Biology
B.A., Bucknell University
M.S., Humboldt State University
Ph.D., University of California, Riverside

Kritzer, Brenda (1994)
Development Operations/Annual Giving
B.A., Wartburg College, Iowa

Kumar, Chetan (2005)
Assistant Professor, Management
M.B.A., Indian Institute of Management
Ph.D., Purdue University

Kundgen, Andre (2001)
Assistant Professor, Mathematics
M.S., University of South Carolina
Ph.D., University of Illinois

Leiter, Linda (1990)
Associate Vice President, Human Resources and Campus Enterprises
B.A., University of California, Santa Barbara

Leu, Jack Y. (1991)
Professor, Operations and Information Technology
B.A., The National Taiwan University
Ph.D., Virginia Polytechnic Institute and State University

Lilly, Steve (1990)
Dean Emeritus, College of Education
Professor, Education
B.S., Bellarmine College
M.A., Peabody College
Ed.D., Peabody College

Assistant Professor, Education
B.S., Mississippi College
M.S., Southern University
Ph.D., Claremont Graduate University

Liss, Andrea (1996)
Associate Professor, Visual and Performing Arts
B.A., University of California, Santa Cruz
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Lombard, Anne S. (2000)
Assistant Professor, History
B.A., Harvard University
M.A., Columbia University
Ph.D., University of California, Los Angeles

Lopez, Margo (1993)
Director, Systems Development and Software Engineering, Campus CMS Project Director
B.A., University of California San Diego
M.S., California State University, San Marcos

Professor, Production and Operations Management
B.S.E.E., Quig-hua University, Beijing
M.S., Massachusetts Institute of Technology
Ph.D., Massachusetts Institute of Technology

Macklin, Teresa (1992)
Director, Academic Technology Services
B.S., San Diego State University

**CALIFORNIA STATE UNIVERSITY SAN MARCOS**
Physician/Director of Student Health Services
B.S., University of Missouri, Kansas City
M.P.H., San Diego State University
Ph.D., University of Missouri, Kansas City

Norris, Brian J. (1995)
Associate Professor, Biological Sciences
B.S., Bemidji State University
M.S., Texas Tech University
Ph.D., Harvard University

O’Boyle, Cherie G. (1992)
Professor Emerita, Psychology
B.A., California State University, Sacramento
M.S., University of Oregon
Ph.D., University of Oregon

Oberem, Graham E. (1996)
Professor, Physics
B.Sc., Rhodes University
M.Sc., Rhodes University
Ph.D., Rhodes University

Assistant Professor, Education
B.S., Kenya University
M.Ed., Kenya University
Ph.D., Syracuse University, New York

Oddou, Gary (2001)
Professor, Organizational Behavior
B.A., Brigham Young University
M.A., Brigham Young University
Ph.D., Brigham Young University

Omens, Alan (1992)
Director, Senior Experience Program, College of Business Administration
B.A., Southern Illinois University
M.A., University of Kansas
M.B.A., University of Washington
Ph.D., University of Kansas

Ossoorouchi, Mohammad (2002)
Assistant Professor, Operations Management
B.S., Shiraz University, Iran
M.S., Sharif University of Technology, Iran
Ph.D., McGill University, Canada

Ouyang, Youwen (1997)
Associate Professor, Computer Science
B.S., Peking University, Beijing
M.S., Xiamen University, People’s Republic of China
M.S., Louisiana State University, Baton Rouge
Ph.D., Louisiana State University, Baton Rouge

Papenhausen, Judith L. (2005)
Professor and Director of Nursing Program
B.S., California State University, Los Angeles
M.S., California State University, Los Angeles
Ph.D., University of Texas, Austin

Parsons, A. Sandy (1992)
Professor, Education
B.S., California Polytechnic State University, San Luis Obispo
M.S., California State University, Los Angeles
Ph.D., University of Texas, Austin

Pass, Michael (2000)
Assistant Professor, Marketing
B.A., University of Georgia
M.B.A., Georgia State University
Ph.D., Arizona State University

Pelletier, Jill L. (1998)
Associate Professor, World Languages and Hispanic Literatures
B.A., University of California, Davis
M.A., University of California, Davis
Ph.D., University of California, Davis

Pershing, Linda (2001)
Associate Professor, Women’s Studies
B.A., Occidental College, Los Angeles
M.Div., Princeton Theological Seminary
Ph.D., University of Texas

Pillai, Rajanandini “Raj” (1998)
Associate Professor, Organizational Behavior
B.S., Bombay University, Bombay, India
M.B.A., Bombay University, Bombay, India
Ph.D., State University of New York, at Buffalo

Associate Professor, Sociology
B.A., California State University, Fullerton
M.S., University of Southern California
M.A., University of Southern California
Ph.D., University of Southern California

Powell, Janet L. (1990)
Professor, Education
B.S., Indiana University
M.S., Indiana University
Ed.D., Indiana University

Prado-Olmos, Patricia (1997)
Academic Director, Southwest Riverside County Programs
Associate Professor, Education
B.A., Pomona College
Ph.D., University of California, Santa Barbara

Price Edward (2005)
Assistant Professor, Physics
B.S., Brown University
M.S., University of California, San Diego
Ph.D., University of California, San Diego

Puha, Amber L. (1999)
Associate Professor, Mathematics
B.S., University of California, Los Angeles
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Punch, Sandra L. (1990)
Director, Career and Transfer Student Services
B.A., San Diego State University
M.S., San Diego State University

Quinn, Sara (2002)
Interim Director, Social and Behavioral Research Institute
B.S., University of Washington

Quiocho, Alice (1996)
Associate Professor, Education
B.A., Holy Names College
M.A., Azusa Pacific University
Ed.D., University of Washington

Rallin, Anell (2001)
Assistant Professor, Literature and Writing Studies
B.A., St. Xavier’s College, Bombay, India
M.A., The University of Bombay, India
Ph.D., Ohio State University

Ramamurthi, Radhika (2002)
Assistant Professor, Mathematics
B.A., University of Delhi, New Delhi, India
M.A., University of Delhi, New Delhi, India
Ph.D., University of Illinois, Urbana - Champaign

Read, Betsy (1993)
Professor, Biological Sciences
B.A., University of Redlands
M.S., Springfield College
Ed.D., Ball State University

Reid, K. Brooks (1989)
Professor, Mathematics
Founding Faculty
B.A., University of California, Berkeley
M.A., University of Illinois, Urbana
Ph.D., University of Illinois, Urbana

Reid, Marion T. (1989)
Dean, Library
B.S., University of Illinois, Urbana
M.S., University of Illinois, Urbana

Richardson, James (2006)
Senior Director of Development, University Advancement
B.S., University of Texas, Arlington

Rider, Robert L. (1992)
Professor, Economics
B.A., University of California, Berkeley
M.A., University of Southern California
Ph.D., University of Southern California

Riquelme, Jorge (2002)
Assistant Professor, Liberal Studies (Migration Studies)
B.A., University of California, San Diego
M.A., State University of New York, Binghamton
Ph.D., (Candidate) State University of New York, Binghamton

Risley, Allen (1994)
Interim Director, Social and Behavioral Research Institute
B.S., Florida State
M.S., Florida State
ABD, Florida State

Ritchie, Susan (2005)
Professor, Sociology
B.A., California State University, Northridge
M.A., National University

Professor, Sociology
B.A., San Diego State University
Ph.D., University of Southern California

Rocha, Victor (1991)
Professor, Biological Sciences
B.A., California State University, Los Angeles
M.A., California State University, Los Angeles
Ph.D., University of California, Riverside

Rolfson, Garry L. (1996)
Professor, Sociology
B.A., University of California, San Diego
M.A., University of California, Santa Cruz
Ph.D., University of California, Santa Cruz

Rolle-Rissetto, Silvia (1996)
Associate Professor, World Languages and Hispanic Literatures
B.A., California State University, Long Beach
M.A., California State University, Long Beach
Ph.D., University of California, Riverside
Rosmann, Liliana Castañeda (1998)
Associate Professor, Communication
B.A., University of Missouri
M.A., University of Notre Dame
Ph.D., University of Massachusetts

Rostam-Kolayi, Jasamin (2003)
Assistant Professor, History
B.A., Wellesley College
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Ruiz, Sonia Y. (2000)
Assistant Professor, Psychology
B.S., Arizona State University
M.A., Arizona State University
Ph.D., Stanford University

Saforstein, Barry (1995)
Professor, Communication
B.A., University of California, Berkeley
M.A., San Francisco State University
M.A., University of California, San Diego
Ph.D., University of California, San Diego

Santamaria, J. Lorri (2002)
Assistant Professor, Education
B.A., University of Arizona
M.A., University of Arizona
Ph.D., University of Arizona

Schaffman, Karen (2001)
Associate Professor, Visual and Performing Arts
B.A., University of Massachusetts
Ph.D., University of California, Riverside

Schmidt, Michael (1992)
Associate Professor, Chemistry and Biochemistry
B.A., Princeton University
Ph.D., Stanford University

Schon, Isabel (1989)
Director, Barahona Center for the Study of Books in Spanish for Children and Adolescents
Professor, Education
Founding Faculty
B.S., Mankato State University
M.S., Michigan State University
Ph.D., University of Colorado

Schultz, P. Wesley (1997)
Professor, Psychology
B.A., University of California, Irvine
M.A., University of Maine, Orono
Ph.D., The Claremont Graduate School

Professor, Psychology
B.A., Princeton University
M.S., Yale University
Ph.D., Carnegie-Mellon University

Associate Professor, History
B.A., University of the State of New York
M.A., University of Missouri, Columbia
Ph.D., University of Missouri, Columbia

Segoria, John V. (1990)
Director, Disabled Student Services
B.A., San Diego State University
M.S., San Diego State University

Seleski, Patricia S. (1990)
Professor, History
B.A., Georgetown University
B.A., Oxford University
M.A., Stanford University
Ph.D., Stanford University

Selinwall, Alyssa (1998)
Associate Professor, History
B.A., University of Pennsylvania
M.A., Stanford University
Ph.D., Stanford University

Shaw, Linda (1993)
Professor, Sociology
B.A., California State University, Long Beach
M.A., University of California, Los Angeles
Ph.D., University of California, Los Angeles

Sheath, Robert G. (2001)
Provost
B.S.C., University of Toronto
Ph.D., University of Toronto

Shuster, Camille (2000)
Professor, Marketing
B.A., Arizona State University
Ph.D., Ohio State University

Shyidian, Joanne (2003)
Assistant Vice President, Human Resources and Equal Opportunity
B.A., University of Montana

Small, Deborah (1992)
Professor, Visual and Performing Arts
B.A., University of California, Irvine
M.F.A., University of California, San Diego

Sonntag, Gabriela (1991)
Librarian
B.A., University of Arizona
M.L.S., University of Texas

Soriano, Fernando (1999)
Associate Professor, Human Development
B.A., University of California, Riverside
M.S., University of Colorado, Boulder
Ph.D., University of Colorado, Boulder

Stall, Patricia H. (2002)
Assistant Professor, Education
B.A., North Western Oklahoma State University
M.A., University of New Mexico
M.A., University of New Mexico
Ph.D., University of New Mexico

Stengel, Mark (2001)
Associate Dean, Library
Associate Librarian
B.A., Luther College
M.A., Washington State University , Pullman
M.S., University of Illinois, Urbana Champagne

Stivers, Mary Elizabeth (1998)
Associate Vice President for Academic Resources
B.S., Morehead State University
M.S., University of Tennessee
Ph.D., University of Tennessee

Stoddard Holmes, Martha (2000)
Associate Professor, Literature and Writing Studies
B.A., Cornell University
M.A., University of Colorado, Boulder
Ph.D., University of Colorado, Boulder

Stowell, Laurie P. (1992)
Professor, Education
B.A., Capital University
M.A., The Ohio State University
Ph.D., The Ohio State University

Stricker, Pamela (2002)
Assistant Professor, Political Science
B.A., California State University Northridge
M.A., University of California Riverside
Ph.D., University of California Riverside

Strouther, Darci L. (1993)
Professor, World Languages and Hispanic Literatures
B.A., University of Pennsylvania
M.A., University of California, Irvine
Ph.D., University of California, Irvine

Suarez, Nancy (2000)
Interim Director
Student Financial Services
B.S., California State University, San Bernardino
M.B.A., California State University, San Marcos

Sun, Yi (2003)
Assistant Professor, Decision and Information Sciences
B.A., Foreign Affairs College, China
M.A., University of Florida
Ph.D., University of Florida

Svatora, Greg (1994)
Business Manager, Foundation
B.S., San Diego State University

Swan, Richelle (2003)
Assistant Professor, Sociology
B.A., University of California, Los Angeles
M.S., Arizona State University
Ph.D., University of California, Irvine

Thomas, Marie (1995)
Professor, Psychology
B.A., College of Mount St. Vincent
M.A., Fordham University
Ph.D., Fordham University

Thompson, Susan M. (1998)
Associate Librarian
B.A., University of Denver
M.A., University of Denver
M.L.I.S., University of Denver

Professor, Education
B.A., University of Wisconsin
M.S., University of Vermont
Ph.D., University of Vermont

Associate Professor, Chemistry and Biochemistry
B.S., Virginia Polytechnic Institute State University
Ph.D., University of California, San Diego

Trujillo, Keith A. (1994)
Professor, Psychology
B.A., California State University, Chico
Ph.D., University of California, Irvine

Tsay, Wenyuh (1998)
Associate Professor, Finance
B.B.A., National Chiao Tung University, Hsinchu, Taiwan
M.B.A., University of Oregon
Ph.D., University of Pittsburg

Valadez, Gilbert (2001)
Associate Professor, Education
B.A., Pitzer College
M.A., Brown University
Ph.D., University of San Francisco
Ed.D., University of San Francisco

CALIFORNIA STATE UNIVERSITY SAN MARCOS

ACADEMIC AND ADMINISTRATIVE LISTING

2006–2008
Veres, Wayne (1992)  
Dean, Instructional and Information Technology Services and Chief Information Officer

Professor, Political Science  
B.A., Grinnell College  
M.A., Duke University  
Ph.D., Duke University
Academic Senate
(760) 750-4058

The Academic Senate acts as the representative body within the faculty through which the responsibilities of the faculty to share in the governance of the University are exercised. The Academic Senate formulates, evaluates, and recommends to the President the University policies and procedures which pertain to the development, maintenance, and improvement of the University program in academic matters. The Constitution and By-laws of the University Faculty and the Academic Senate establish the basis upon which the Academic Senate participates in the governance of Cal State San Marcos.

University Council

The Cal State San Marcos University Council is a citizen advisory board consisting of community leaders interested in the development and welfare of the University. The Council advises the President on a number of matters, particularly those affecting University and community relations, and meeting the needs of the service area of the University.

Official Notices & Policies
OFFICIAL NOTICES AND POLICIES

Availability of Institutional and Financial Assistance Information

To obtain information regarding institutional and/or financial assistance contact the administrator(s) and/or department(s) listed below:

Athletic Coordinator
(760) 750-7100

• Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Cal State San Marcos dedicates to its men’s and women’s teams.

Cashier’s Office
(760) 750-4491

• Information concerning the cost of attending
• If requested, additional costs for specific programs.
• Fees and tuition (where applicable).
• Information concerning the refund policies of Cal State San Marcos for the return of unearned tuition and fees or other refundable portions of institutional charges.

Chief of Police
(760) 750-4564

• Information concerning Cal State San Marcos policies, procedures, and facilities for students and others to report criminal actions or other emergencies on campus.
• The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act requires the distribution of an annual security report to all current faculty, staff, and students and notice of its availability to prospective students, faculty, and staff. The annual security report includes statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the California State University, and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters. You can obtain a copy of this report by contacting the Police Department of each campus, or by accessing the following web site: www.calstate.edu/clery/.

Dean of Students
(760) 750-4935
(TDD 750-4909)

The Office of the Associate Vice-President for Student Affairs and Dean of Students provides general information concerning campus policies, procedures, and regulations and offers help to students seeking to resolve campus problems. Students needing assistance with any University matter are invited to begin with this office. Specific policies regarding student grievances and discipline are administered by this office.
• Students at Cal State San Marcos are subject to the same federal, state, and local laws as other citizens. Of particular importance are regulations established by the State of California through its Education Code. In addition, regulations from the Board of Trustees and the local University directly affect student life on campus. Students are responsible for their behavior on campus and are expected to know and comply with all policies and regulations printed in this Catalog and the Student Guidebook. Information on all policies that affect students is available in the Dean of Students’ office. Policies most referenced by students can be accessed at: www.csusm.edu/student_affairs/consumerinfo.html.

Counseling Services
(760) 750-4910

• Information concerning the prevention of drug and alcohol abuse and rehabilitation programs.

Director of Disabled Student Services
(760) 750-4905 (TDD 750-4909)

• Information regarding special facilities and services available to students with disabilities.

Director of Financial Aid and Scholarship
(760) 750-4850

• A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at CSUSM;
• For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student’s award; A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
• The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
• The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
• The terms of any loan received as part of the student’s financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
• The general conditions and terms applicable to any employment provided as part of the student’s financial aid package;
• The responsibility of CSUSM for providing and collecting exit counseling information for all student borrowers under the federal student loan programs;
• The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service; and
• Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation.
• The Federal Military Selective Service Act. The Federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.

### Financial Aid Business Office
(760) 750-4492

- Disbursement of any financial aid funds.
- Information concerning Cal State San Marcos’ policies regarding the return of federal Title IV student assistance funds as required by regulation.

### Provost
(760) 750-4050
www.csusm.edu/asa/

The Provost’s Office provides leadership for the university in the areas of teaching and learning, scholarship and creative activities, academic service, and, in consultation with the Vice President for Student Affairs, student services. The Provost is responsible for overseeing the Colleges of Arts and Science, Business Administration and Education as well as Academic Programs, Academic Resources, Extended Studies, Graduate Studies, Research, and International Programs, Instructional and Information Technology, and the Library. The Provost functions as the President’s designee in such matters as retention, tenure and promotion of faculty, and also acts as the administrator in charge of the campus in the absence of the President.

- Information regarding student retention and graduation rates and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest.

### Average Support Cost per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of full-time equivalent students (FTEs). The total CSU 2005/06 final budget amounts were $2,615,120,000 from state General Fund appropriations (not including capital outlay funding), $1,003,659,000 from State University Fee Revenue, $893,418 from other fee revenues, and reimbursements for a total of $4,012,095,000. The number of projected 2005/06 full-time equivalent students (FTEs) is 332,223. The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student’s academic load).

The 2005/06 average support cost per full-time equivalent student based on General Fund appropriation and University Fee revenue only is $10,884 and when including all sources as indicated below is $12,077. Of this amount, the average student fee support per FTE is $3,021, which includes all fee revenue in the state higher education fund (e.g. State University Fee, nonresident tuition, application fees, miscellaneous course fees).

</table>

1Student fee support represents fee revenue deposited in the State Treasury/state higher education fund. The average CSU 2004/05 academic year, resident, undergraduate student fees required to apply to, enroll in, or attend the university is $2,916. However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or nonresident.

### Vice President for Student Affairs
(760) 750-4056
www.csusm.edu/student_affairs/

The Office of the Vice President for Student Affairs serves as a central administrative and student information resource for the University including management and oversight of the Associate Vice President for Student Affairs and Dean of Students, Associate Vice President for Student Academic Support Services, Associate Vice-President for Enrollment Management Services, and Associated Students, Inc. Staff can be most helpful as initial points of inquiry on specific areas, policy information and general student information.

- Information concerning grievance procedures for students who feel aggrieved in their relationships with the University, its policies, practices, and procedures, or its faculty and staff.
- Estimates of typical student room and board costs.
- Transportation costs.
University San Marcos

Act and regulations are available for 1308.11 through 1308.15. Copies of the further defined by regulations 21 CFR Substances Act (21 U.S.C. 812), and are Schedules I through V of the Controlled to be controlled substances are listed in Department. Scheduled drugs considered available from the University Police statutes, which may change over time, is Detailed information regarding these tions of applicable laws and ordinances. Legal Sanctions

There are numerous Federal, State, and local statutes and ordinances relating to the manufacture, distribution, dispensation, possession, or use of a controlled substance or alcohol. These statutes impose legal sanctions for both felony and misdemeanor convictions related to violations of applicable laws and ordinances. Detailed information regarding these statutes, which may change over time, is available from the University Police Department. Scheduled drugs considered to be controlled substances are listed in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812), and are further defined by regulations 21 CFR 1308.11 through 1308.15. Copies of the Act and regulations are available for review via the internet at leginfo.ca.gov.

According to Federal and/or State Laws:

1. The manufacture, sale, or distribution of all scheduled drugs is a felony, which could result in serving time in prison; simple possession of controlled subst- nces can be punished by civil fines of up to $10,000 per violation and a jail sentence.

2. Distribution or possession with the intent to distribute a controlled sub- stance on University property requires a sentence up to twice the prescribed sentence for the original offense, and twice the prescribed parole time.

3. The cultivation, possession for sale, or sale of marijuana is a felony.

4. Possession of one ounce or more of marijuana for personal use is a misde- meanor, which could include payment of a fine or serving time in jail; possess- sion of less than one ounce for person- al use is a misdemeanor, which could include a fine up to $100.00.

5. It is a misdemeanor to sell, furnish, give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under 21 or any obviously intox- i- cated person, and no one under 21 or any obviously intox- i- cated person, and no one under 21 may purchase alcoholic beverages.

6. It is unlawful for any person under 21 to possess alcoholic beverages on any street or highway or in any place open to public view.

Alcohol and Other Drug Programs

A variety of services have been designed to help prevent or treat substance abuse. Students are encouraged to seek assistance for substance abuse or dependency problems voluntarily (self-referral). These services include workshops regarding substance abuse; individual case evaluation, counseling, referral to outside counseling and treatment providers, treatment follow-up, and assistance in dealing with health care providers.

On-site and/or referral services are available through Student Health and Counseling Services. Counseling and Psychological Services staff members are available for consultation with University employees regarding students with possible substance abuse problems.

Information disclosed by a student participating in counseling services is considered confidential, in accordance with Federal and State laws and University policies.

Health Risks Associated with Substance Abuse

Substance abuse dependence may result in a wide spectrum of extremely serious health and behavioral problems. Substance abuse results in both short-term and long-term effects upon the body and mind.

Acute health problems may include heart attack, stroke, and sudden death -- which, in the case of some drugs such as cocaine, can occur after first-time use. Long-lasting health effects of drugs and alcohol may include disruption of normal heart rhythm, high blood pressure, leaks of blood vessels in the brain, bleeding and destruction of brain cells and permanent memory loss, infertility, impotency, immune system impairment, kidney failure, cirrhosis of the liver, and pulmonary damage. Drug use during pregnancy may result in fetal damage and birth defects causing hyperactivity, neurological abnormalities, and developmental difficulties. In addition to the problem of toxicity, contaminant poisoning often occurs with illegal drug use. HIV infection associated with intravenous drug use is a prevalent hazard.

Information and literature about the health risks associated with substance abuse are available from the Office of Human Resources and Equal Opportunity, Counseling and Psychological Services, and Student Health Services. The Student Health Services website contains more detailed information regarding health risks associated with substance abuse at http://csusm.edu/shs/AOD.html.

Legal Sanctions

According to Federal and/or State Laws:

1. The manufacture, sale, or distribution of all scheduled drugs is a felony, which could result in serving time in prison; simple possession of controlled substances can be punished by civil fines of up to $10,000 per violation and a jail sentence.

2. Distribution or possession with the intent to distribute a controlled substance on University property requires a sentence up to twice the prescribed sentence for the original offense, and twice the prescribed parole time.

3. The cultivation, possession for sale, or sale of marijuana is a felony.

4. Possession of one ounce or more of marijuana for personal use is a misdemeanor, which could include payment of a fine or serving time in jail; possession of less than one ounce for personal use is a misdemeanor, which could include a fine up to $100.00.

5. It is a misdemeanor to sell, furnish, give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under 21 or any obviously intoxicated person, and no one under 21 may purchase alcoholic beverages.

6. It is unlawful for any person under 21 to possess alcoholic beverages on any street or highway or in any place open to public view.

2. Distribution or possession with the intent to distribute a controlled substance on University property requires a sentence up to twice the prescribed sentence for the original offense, and twice the prescribed parole time.

3. The cultivation, possession for sale, or sale of marijuana is a felony.

4. Possession of one ounce or more of marijuana for personal use is a misdemeanor, which could include payment of a fine or serving time in jail; possession of less than one ounce for personal use is a misdemeanor, which could include a fine up to $100.00.

5. It is a misdemeanor to sell, furnish, give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under 21 or any obviously intoxicated person, and no one under 21 may purchase alcoholic beverages.

6. It is unlawful for any person under 21 to possess alcoholic beverages on any street or highway or in any place open to public view.

Health Risks Associated with Substance Abuse

Substance abuse dependence may result in a wide spectrum of extremely serious health and behavioral problems. Substance abuse results in both short-term and long-term effects upon the body and mind.

Acute health problems may include heart attack, stroke, and sudden death -- which, in the case of some drugs such as cocaine, can occur after first-time use. Long-lasting health effects of drugs and alcohol may include disruption of normal heart rhythm, high blood pressure, leaks of blood vessels in the brain, bleeding and destruction of brain cells and permanent memory loss, infertility, impotency, immune system impairment, kidney failure, cirrhosis of the liver, and pulmonary damage. Drug use during pregnancy may result in fetal damage and birth defects causing hyperactivity, neurological abnormalities, and developmental difficulties. In addition to the problem of toxicity, contaminant poisoning often occurs with illegal drug use. HIV infection associated with intravenous drug use is a prevalent hazard.

Information and literature about the health risks associated with substance abuse are available from the Office of Human Resources and Equal Opportunity, Counseling and Psychological Services, and Student Health Services. The Student Health Services website contains more detailed information regarding health risks associated with substance abuse at http://csusm.edu/shs/AOD.html.

Alcohol and Other Drug Programs

A variety of services have been designed to help prevent or treat substance abuse. Students are encouraged to seek assistance for substance abuse or dependency problems voluntarily (self-referral). These services include workshops regarding substance abuse; individual case evaluation, counseling, referral to outside counseling and treatment providers, treatment follow-up, and assistance in dealing with health care providers.

On-site and/or referral services are available through Student Health and Counseling Services. Counseling and Psychological Services staff members are available for consultation with University employees regarding students with possible substance abuse problems.

Information disclosed by a student participating in counseling services is considered confidential, in accordance with Federal and State laws and University policies.
Disciplinary Sanctions
Consistent with procedures established pursuant to Section 41304 of Title V of the California Code of Regulations, any student at Cal State San Marcos may be expelled, suspended, placed on probation or given a lesser sanction for violating University policies and campus regulations. Students found to be in violation of this program may be required to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency.

Policy Distribution Requirement
The publication of this Drug-Free Campus Information in the catalog is a partial fulfillment of a U.S. Department of Education requirement of institutions of higher learning. For more information regarding this policy, please visit:
http://lynx.csusm.edu/policies.

HIV/AIDS Policy and Guidelines
For information regarding this policy and guidelines, visit the following web sites:
http://www.csusm.edu/student_affairs/consumerinfo.htm
http://www.csusm.edu/student_affairs/Policies/index.html

Immigration Requirements For Licensure
The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning these requirements is available from the Associate Vice President of Enrollment Management Services, Cal State San Marcos, San Marcos, CA 92096-0001, (760) 750-4809.

Nondiscrimination Policy
Sex/Gender
The California State University does not discriminate on the basis of sex or gender in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972 and certain other federal and state laws prohibit discrimination (including harassment) on the basis of sex in education programs and activities operated by CSUSM. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of CSUSM may be referred to:
• The Office of the Dean of Students, (760) 750-4416; or
• The Human Resources and Equal Opportunity Office, (760) 750-4416.

Age, Ethnicity, Religion, Sexual Orientation, Pregnancy, Marital or Veteran Status
The California State University does not discriminate on the basis of age, ethnicity, religion, sexual orientation, pregnancy, marital or veteran status in any of its programs or activities. Cal State San Marcos complies with all applicable federal and state laws and regulations and Trustee policies in this area. Inquiries concerning compliance may be referred to the Human Resources and Equal Opportunity Office, (760) 750-4416.

Race, Color, and National Origin
The California State University complies with the requirements of Title VI and Title VII of the Civil Rights Act of 1964, as well as other applicable federal and state laws prohibiting discrimination. No person shall, on the basis of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination (including harassment) under any program of the University.

Disability
The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, and various state laws prohibit such discrimination. Questions regarding forms of reasonable accommodation and/or prohibited discrimination may be referred to:
• The Office of the Dean of Students, (760) 750-4935, or
• The Human Resources and Equal Opportunity Office, (760) 750-4416, or
• The Office of the Dean of Students, (760) 750-4935.
Sexual Assault Policy

Philosophy
Concern for others is the standard for personal interaction in the University. Cal State San Marcos takes seriously its obligation to uphold the laws of the larger community of which it is a part. The University’s Mission Statement values fairness and respect for all persons in the University community. Association with the University imposes the additional obligation on every person to abide by all the rules and regulations of The California State University as well as all local, state, and federal laws.

Policy
Cal State San Marcos will not tolerate sexual assault in any form. Where there is evidence that sexual assault has been committed, on campus or at a University-related event, severe disciplinary action will be initiated, including the possibility of suspension or dismissal for employees and suspension or expulsion for students. In addition, criminal remedies may be sought by the victim through appropriate legal channels. Due process in all University proceedings will be ensured.

Definition and Legal Background
The California Penal Code Sections 261 and 243.4 and Assembly Concurrent Resolution No. 46 (September 14, 1987) define sexual assault as follows:

Sexual Assault is any involuntary sexual act in which a person is threatened, coerced, or forced to comply against her/his will;

Rape is forced sexual intercourse perpetrated against the will of the victim or when she/he is unable to give consent (i.e., unconscious, asleep, or under the influence of alcohol or drugs) and may involve physical violence, coercion, or the threat of harm to the victim;

Acquaintance Rape is rape by a non-stranger which could include a friend, acquaintance, family member, neighbor, co-worker;

Date Rape is rape by someone the victim has been or is dating;

Sexual Battery is unwanted touching of intimate body parts.

Education
A variety of educational literature, brochures, pamphlets, and videos about sexual assault and rape are available in the library, Counseling and Psychological Services, and Student Health Services. Programs targeted for students and other University personnel are scheduled during the academic year. These programs provide factual information about sexual assault, promote open discussion, encourage reporting, and provide information about prevention to faculty, staff, and both male and female students. The programs focus on prevention and awareness including critical factual information about the prevalence of stranger and acquaintance rape, how and where it happens, its impact, and the relationship between alcohol and drug use and sexual assault. Student Affairs professional staff and campus police participate in annual sexual assault seminars in an effort to enable these personnel to provide appropriate information and counseling to sexual assault victims.

Sexual Assault Reporting Procedures
Persons involved in, or a witness to a campus-related sexual assault should:

A. Call 911 to notify the San Diego County Sheriff’s Department.
B. Notify University Police, 750-3111. This office will be responsible for notifying appropriate University offices. University Police will be responsible for documentation and reporting, and will ensure records are maintained and distributed to appropriate offices.

Persons possessing knowledge of a campus-related sexual assault should report their information to University Police. Assistance and support in reporting sexual assault incidents is available through:

• Office of the Dean of Students (760) 750-4935.
• Counseling and Psychological Services, (760) 750-4910
• Human Resources and Equal Opportunity Office, (760) 750-4416

Support Services
Sexual assault violations often result in physical harm, psychological harm, or both. Victims are urged to seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

Counseling and Psychological Services (760) 750-4910
University Student Health Services (760) 750-4915

http://www.csusm.edu/hr

Philosophy
Concern for others is the standard for personal interaction in the University. The University's Mission Statement values fairness and respect for all persons in the University community. Cal State San Marcos takes seriously its obligation to uphold the laws of the larger community of which it is a part. In addition to local, state, and federal laws, association with the University imposes the obligation on every person to abide by all the rules and regulations of the California State University.

Policy
Cal State San Marcos will not tolerate sexual harassment in any form. When there is a complaint that sexual harassment has occurred, on campus or at a University event, the University will take steps to investigate the allegations. Where there is evidence of sexual harassment, the University will initiate disciplinary procedures, which may include the possibility of dismissal or suspension of employees and students. Due process in all University proceedings will be ensured. The complainant may also seek prosecution through legal channels.

Definition
Sexual harassment includes behavior such as sexual advances, request for sexual favors and other objectionable verbal, visual or physical conduct of a sexual nature that adversely affects and intimidates the victim. Sexual harassment occurs when:

- submission to or tolerance of such conduct is an explicit or implicit term or condition of appointment, employment, admission, or academic evaluation;
- submission to or rejection of, such conduct is used as a basis for a personnel or academic evaluation;
- the conduct has the purpose or effect of interfering with an employee's work or a student's academic performance; and
- the conduct has the purpose or effect of creating an intimidating, hostile, offensive, or otherwise adverse working or learning environment.
- submission to or rejection of the conduct of the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs or activities available at or through the educational institution.

The following examples illustrate some forms of sexual harassment. This list is not intended to be exhaustive:

- unwanted sexual advances or propositions;
- offering employment benefits in exchange for sexual favors;
- making or threatening reprisals after a negative response to sexual advances;
- intentional unwanted physical conduct (touching, patting, hugging, or brushing against a person's body, impeding or blocking movement, assault);
- visual conduct – leering, making sexual gestures, displaying sexually suggestive objects or pictures, cartoons or posters;
- verbal conduct – making or using derogatory comments, epithets, slurs, jokes, verbal abuse of a sexual nature, graphic verbal commentaries about an individual's body, sexually degrading words used to describe an individual, suggestive or obscene letters/notes or invitations, sexually explicit statements, questions, or anecdotes.

Complaint Process
The University will ensure due process in all sexual harassment proceedings. University policies and procedures related to sexual harassment protect the rights of all members of the University community.

Any student, faculty member, administrator, or staff employee of the University who suspects that he/she has been subjected to sexual harassment as defined in University policy is encouraged to discuss the incident with a recognized University contact.

Formal Process
As part of their official responsibilities within the University, the following individuals are available for initial contact:

- Managers
- Vice Presidents, Deans, Directors, or Department Administrators
- Director, Human Resources and Equal Opportunity, (760) 750-4416
- Counselor, Counseling and Psychological Services
- Student Health Services professionals

Individuals believing that they have either witnessed or been subjected to discrimination and/or sexual harassment may choose to attempt an informal resolution of the matter.

Satisfactory informal resolution of the matter may result from such consultation. However, informal resolution may not be appropriate even on a voluntary basis in some cases, such as sexual assaults.

The individuals listed above will provide complainants with suggestions for resolving the matter. Options may include:

- Referral to University administrators who will assist the complainant through an informal procedure. The informal procedure may include confronting the alleged harasser, writing a letter outlining concerns, or sitting down with a facilitator to air concerns and seek solutions. The informal procedures require responsible investigation and the confidentiality of involved individuals cannot be guaranteed.
- Referral for personal counseling to Counseling and Psychological Services, local counseling services, or the Employee Assistance Program.

University administrators responsible for informal resolution are:

- Dean of Students, (760) 750-4935
- Associate Vice President for Academic Resources, (760) 750-4052
- Human Resources and Equal Opportunity, (760) 750-4416

Formal Procedures
When an allegation of sexual harassment cannot be resolved through the informal process, the University will implement formal procedures.
Formal procedures appropriate to the situation must be followed. Such procedures are governed by law, labor agreements and University policy, which may include affirmative action grievance procedures, faculty and staff disciplinary procedures, CSU Executive Orders and applicable criminal and civil codes.

The complaint form and copies of all procedures relating to this policy can be obtained from Human Resources and Equal Opportunity, (760) 750-4416, or from the following individuals:

1. Faculty, Staff and Administrators
   • Faculty: Associate Vice President for Academic Resources, (760) 750-4052
   • Staff Administrator: Assistant Vice President, Human Resources and Legal Compliance, (760) 750-4416

2. Students
   • Student Dean of Students and Assistant Dean of Students, (760) 750-4935

**Filing a Complaint**

If an individual chooses to file a formal complaint he or she shall complete the university complaint form obtained from Human Resources and Equal Opportunity which:

1. States the applicable federal/state law/regulation or the term(s) of the California State University (CSU) system-wide policy, and, when applicable, the appropriate collective bargaining agreement provision that has been violated;

2. Contains a detailed description, including the date(s) and time(s) of the factual events giving rise to the complaint, including all identified witnesses and other evidence for consideration in connection with an investigation. The complainant shall include all issues and evidence known, or which could reasonably have been known, related to the complaint;

3. The name of an employee representative (representative of the appropriate collective bargaining unit) or another individual (not an attorney) who may serve as a representative at the complainant’s request to be present during interviews with the complainant; and,

4. The name and classification of the complainant, his/her signature, and date of the complaint submission.

The completed complaint form shall be submitted to Academic Resources, Student Development Services and Dean of Students, or to Human Resources and Equal Opportunity. The office receiving the complaint shall immediately, but no later than five (5) working days from receipt, forward it to the Human Resources and Equal Opportunity.

**Smoking Policy**

The National Institute for Occupational Safety and Health (NIOSH) has determined that environmental tobacco smoke and sidestream smoke is potentially carcinogenic to occupationally exposed workers. Secondary tobacco smoke can also lead to an increased risk of heart disease in non-smokers. Because tobacco smoke is also a major contributor to indoor air pollution and a significant health hazard for several populations, smoking is prohibited in all state buildings and vehicles where California State University San Marcos employees work or ride. To diminish possible health effects and indoor air quality issues from second-hand smoke, Cal State San Marcos chooses to limit smoking on campus to specific, designated official smoking areas. These locations comply with State of California law effective 01/01/04, requiring a minimum of 20 ft. distance from any public building entrances, exits, and all operable windows. The locations are also based upon recognized current smoking gathering areas and areas that will limit smoke-filled airstreams from entering campus buildings. Changes to designated smoking areas will only be made after careful review and to support the campus’ efforts to mitigate second-hand smoke. Consideration will be given to reasonableness of smoking gathering areas in proximity to non-smoking areas and to allow for proximity, in support of operations, of break areas for employees who smoke. Additionally, Cal State San Marcos will collaborate with any property owners or managers who are in a formally recognized agreement with the institution. Any University student or employee smoking in non-smoking areas will be subject to appropriate discipline and/or other personnel action in accordance with the relevant collective bargaining agreement and the Education Code. Additionally, any person willfully violating this policy may receive a misdemeanor citation as authorized by Education Code section 89031.

**Use of Cameras to Deter Theft of Property**

Closed circuit video cameras may be used on campus to deter the theft of property and to assist the further investigation of crimes occurring on campus. A copy of the University Policy and Procedure regarding video cameras is available from http://www.csusm.edu/fas/Policies&Proc/

ACCREDITATION

Cal State San Marcos is fully accredited by the Western Association of Schools and Colleges (WASC). WASC is the official accrediting body for institutions of higher learning in the west. The Western Association of Schools and Colleges may be reached at:

985 Atlantic Avenue, Suite 100, Alameda, CA 94501
Phone: (510) 748-9001
Fax: (510) 748-9797
E-mail: wascsr@wascsenior.org
Internet: www.wascweb.org

CHANGES IN RULES AND POLICIES

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

CATALOG IN ALTERNATE FORMAT

This catalog can be made available in alternate format upon request. Please contact the Office of Disabled Student Services for further information at (760) 750-4905 or TDD (760) 750-4909.

Catalog Updates

Because this catalog was printed in the Spring of 2006, students are encouraged to consult with advisors and to visit the Cal State San Marcos web site www.csusm.edu for the most current information.

The Class Addenda will include: updated information about new and modified curricula, regulations, policies, procedures, dates, fees and deadlines.

Catalog rights for 2006-2008 refer to the curricula, policies and procedures as updated in the Catalog Addenda.

Campus Image and Student/Visitor Awareness Notice

Students attending California State University San Marcos may be filmed, videotaped or photographed by University employees or contract service personnel. The resulting images may be used in printed or electronic form in publications or promotional materials produced for the campus or for the California State University system. Students grant permission for use of their image for noncommercial purposes by California State University San Marcos and the California State University system.
