Definition: Standards governing RTP process for faculty in the Public Health Program (PH).

Authority: The Collective Bargaining Agreement between the California State University and the California Faculty Association.

Scope: Eligible PH faculty at California State University San Marcos. It applies to faculty through their next level of review (e.g. Assistant to Associate, probationary to tenured).

Approval Date

Revision One: (temporary addition of COVID-19 Related Addendum) 08/20/2021
Implemented: 05/04/2018
I. PUBLIC HEALTH PROGRAM RTP STANDARDS

A. Preamble
   1. This document sets forth general standards and criteria for retention, tenure, and promotion of tenure-track full-time faculty in the Public Health Program.

   2. The provisions of this document are to be implemented in conformity with University RTP Policies and Procedures and the CSU / CFA Collective Bargaining Agreement (CBA).

B. Definitions of Terms and Abbreviations
   1. The Public Health Program uses the same definitions, terms, and abbreviations as defined in the University RTP document, as described in no. 2 above. For clarity, the use of "is" is informative, "shall" is mandatory, "may" is permissive, "should" is conditional, and "will" is intentional.

   2. A “standard” is a reference point or formalized expectation against which progress can be measured for retention, tenure, and promotion.

   3. Faculty have a right to clearly articulated performance expectations. Department and College RTP Standards provide consistency in guiding tenure-track faculty in the preparation of their working personnel action files (WPAFs).

   4. Department and College RTP Standards educate others outside of the discipline, including deans, university committees, and the provost, with respect to the practice, standards, and guidance to faculty of a particular Department/discipline/field.

   5. Departments and Colleges must respect the intellectual freedom of their faculty by avoiding standards that are too restrictive. Department and College standards should be as brief as possible with emphasis on the unique nature of the Department.

   6. All Department and College RTP Standards shall conform to the CBA and University and College RTP documents. The MPH RTP Standards document shall contain the elements of College RTP standards described below.

   7. All Department or College RTP Standards must be approved by a simple majority of all tenure-track faculty within a Department or college and then be approved by college/school/library and the Academic Senate, before any use in RTP decisions.
II. ELEMENTS OF THE PUBLIC HEALTH RTP DOCUMENT

A. Introduction and Overview

1. All standards and criteria reflect the University and College Mission and Vision Statements and advance the goals embodied in those statements. Specifically, this document builds on the ‘CSUSM Faculty Personnel Policies and Procedures for Retention, Tenure, and Promotion’ and the ‘CEHHS Standards and Procedures for Retention, Tenure, and Promotion’ documents. It provides detailed guidance to full-time tenure-track faculty members concerning the Public Health Program’s expectations related to retention, promotion, and tenure.

2. The performance areas that shall be evaluated include scholarly teaching, scholarly research/creative activities, and scholarly service. While there will be diversity in the contributions of faculty members to the University, the College affirms the university requirement of sustained high-quality performance and encourages flexibility in the relative emphasis placed on each performance area. Candidates must submit a curriculum vita (CV) and narrative statements describing the summary of teaching, research/creative activity, and service for the review period. The faculty member must meet the minimum standards in each of the three areas.

3. Items assessed in one area of performance shall not be duplicated in any other area of performance evaluation. Items shall be cross-referenced in the CV, narrative statements, and WPAF to demonstrate connections across all three documents. Candidates who integrate their teaching, research/creative activities, and/or service may explain how their work meets given standards/criteria for each area.

4. Retention, tenure, and promotion decisions are made on the basis of the evaluation of individual performance. Ultimate responsibility for understanding, meeting, and effectively communicating how they have met the standards rests with the candidate. In addition to this document, the candidate should refer to and follow the University RTP Policies and Procedures. Candidates should also note available opportunities that provide guidance on the WPAF and describe the responsibilities of the candidate in the review process (e.g., Provost’s RTP meetings; Faculty Center Professional Development, and advice and counsel by tenured faculty). Candidates are encouraged to avail themselves of such opportunities.

5. Candidates for retention will show effectiveness in each area of performance and demonstrate progress toward meeting the tenure requirements in the areas of scholarly teaching, scholarly research/creative activities, and scholarly service.
6. Candidates for the rank of associate professor require an established record of effectiveness in scholarly teaching, scholarly research/creative activities, and scholarly service to the College and University.

7. Candidates for the rank of professor require, in addition to continued effectiveness, an established record of initiative and leadership in scholarly teaching, scholarly research/creative activities, and scholarly service to the College, University, community, and profession. Promotion to the rank of professor will be based on the record of the individual since promotion to the rank of associate professor.

8. The granting of tenure at any rank recognizes accomplishments and services performed by the candidate during the individual’s career. The record must show sustained and continuous effectiveness in the areas of scholarly teaching, research/creative activities, and service. The granting of tenure is an expression of confidence that the faculty member has both the commitment to and the potential for continued development and accomplishment throughout his/her career. Tenure will be granted only to individuals whose record meets the standards required to earn promotion to the rank at which the tenure will be granted.

9. If service credit was granted at the time of employment at CSUSM, the candidate's teaching, research, and service activities completed at a university for which service credit was awarded at the time of hire will also be evaluated for the purpose of granting tenure and/or promotion.

III. GENERAL COLLEGE/UNIVERSITY STANDARDS

For retention, tenure, promotion, and early tenure/promotion see the applicable sections of the College and University RTP documents.

IV. STANDARDS AND CRITERIA FOR SCHOLARLY TEACHING

A. Department Priorities and Values in Teaching and Learning

1. In the Public Health Program, “effective Teaching” is defined as activity that promotes student learning, reflection, and professional growth in support of the College Mission and will be demonstrated by evidence included in the WPAF. Effective teaching is multifaceted and may include instructional activity that takes place at off-site locations.
2. The most important teaching activities may include, but are not limited to:
   - Classroom modality, face-to-face, hybrid, online, on-campus, off-site, distance learning teaching
   - Supervision of master’s thesis or projects and doctoral dissertations and research
   - Supervision of student research and research assistants at all levels (undergraduate/graduate)
   - Supervision of student independent study
   - Training and/or supervision of lecturers/colleagues
   - Laboratory teaching
   - Clinical teaching/practice
   - Seminar courses
   - Undergraduate and graduate courses
   - Supervision of field work and independent research
   - Supervision of teaching and graduate assistants

3. Faculty members who demonstrate effective scholarly teaching will set clear student learning outcomes for their students, employ a range of instructional strategies, and teach in ways that effectively engage all students in the learning process. To advance these objectives, the Council on Education for Public Health (CEPH) has developed a set of competencies, outcomes, and learning objectives for schools and programs of public health. CEPH is an independent agency recognized by the United States Department of Education to accredit schools of public health and public health programs offered in settings other than schools of public health.

4. Evaluations of scholarly teaching will focus on determining a profile of the candidate's teaching effectiveness. To determine such a profile, scholarly teaching will be examined through assessment of candidates’ reflective statement on teaching, student evaluations, and selected items that the candidates believe best represent their teaching, as described in the University RTP document and further illustrated below in sections B and C. Candidates are strongly encouraged to include selected items listed below, under the heading of “recommended” evidence that illustrate and strengthen the evidence provided by “required” items, as listed below.

B. The Following Evidence of Scholarly Teaching is Required:
   1. Scholarly Teaching Reflective Statement
      A reflective narrative must be provided, discussing representative selected activities from section IV. A .2. (p. 4 above), and addressing all items of scholarly teaching evidence included in the file. This narrative should reflect continued success and/ or improvement in teaching. In this statement, candidates shall provide a clear and concise reflective self-assessment of their teaching philosophy, experience, and
performance. The reflective statement may include the candidates’ philosophy of teaching and learning, pedagogical connections between the techniques they employ when teaching and their philosophy of teaching and learning, impact of any notable teaching accomplishments or awards, improvements made as a result of lessons learned from their teaching and/or student evaluations, impact of course innovation or development, their approach to supervision of students (if applicable), supervision of laboratory-based instruction (if applicable), supervision of field-based instruction (if applicable), and internships. As part of the reflective statement, candidates shall provide a brief summary of student and evaluations of faculty instruction and supervision ratings exemplifying scholarly teaching supported by a brief discussion of these evaluations. Student evaluations and narrative should reflect evidence of improvement or sustained performance in teaching.

2. Teaching and/or Supervision Assignments

   Evidence: In the comprehensive Curriculum Vitae included in the WPAF, candidates shall list all courses and/or all student teaching supervision assignments for the period under review in their reflective narrative, as illustrated below.

<table>
<thead>
<tr>
<th>Semester &amp; Year</th>
<th>Course Number</th>
<th>Course Title</th>
<th>Section</th>
<th>Units</th>
<th>Number of Students Enrolled</th>
<th>Comments (optional)</th>
<th>Evaluation Ratings (include range of low-high and avg. across all categories)</th>
</tr>
</thead>
</table>

3. Student Evaluations from Teaching and/or Supervision Assignments

   Evidence: Provide complete sets (as specified by CBA) of university-prepared student evaluation reports from courses taught since last promotion.

4. Representative Syllabi from Courses Taught

   Evidence: Provide a representative sample of syllabi from a selection of courses that best illustrate diverse areas of teaching activities since hire or last promotion that illustrate course objectives, student learning outcomes, and sample assignments (may include examples of student work with names completely obscured).

C. The Following Evidence of Scholarly Teaching is Recommended:

1. Use of Exemplary Teaching Practices

   Evidence: Provide evidence that illustrates the use of exemplary teaching practices. Candidates might provide evidence that demonstrates the effective use of
such things as technology, teaching strategies for diverse learners, student projects, student learning outcomes, or facilitating student research presentations beyond the classroom.

2. Curriculum, Department, and/or Course Development and/or Revision

**Evidence:** Provide evidence that illustrates any new developments or improvements in curriculum, curricular programs, and/or courses. Evidence might include a brief description of improvements, curriculum forms, syllabi changes, links to online materials, etc.

3. Other Selected Items that Best Represent Candidate’s Teaching

**Evidence:** Additional evidence of scholarly teaching activities not listed above, including but not limited to:
- Assessment of student learning outcomes for individual courses taught by faculty under review
- Letters from former students addressed to reviewers or if addressed to the faculty member with student permission granted for use in the file
- Teaching awards
- Other activities to promote teaching excellence (e.g., self-evaluation, peer evaluation, in-service education of incumbent educators in the field)

### D. Assessment of Scholarly Teaching

1. General Standards

Candidates will be assessed on the quality of the evidence provided on the set of indicators they select, rather than on the quantity of indicators selected. In all cases, candidates will be assessed on the quality and the totality of the evidence provided. When judged as a group, no one indicator may be used to determine the overall rating of teaching effectiveness.

2. Tenure and/or Promotion from Assistant Professor to Associate Professor

At the Assistant Professor level, scholarly teaching that *meets standards* is expected to demonstrate classroom effectiveness for the types of courses taught. Evidence of classroom effectiveness may include, but is not limited to student evaluations, syllabi that clearly articulate course objectives and requirements, effective instructional practices, engaging assignments directed at meeting the course objectives, documentation that illustrates clear connections throughout an entire teaching event, and assessments that effectively measure and align with student learning outcomes.

3. Tenure and/or Promotion from Associate Professor to Professor

Associate Professors being considered for promotion to Professor are held to a higher standard. Accordingly, to be rated “meets standards,” a candidate is
expected to demonstrate leadership and initiative in teaching and curriculum related activities. This is in addition to documentation of continued teaching effectiveness (Section IV).

4. Retention
Candidates for retention shall include in the WPAF the required items for courses taught, as listed above in IV.B1-4, plus any recommended materials also selected, to show evidence of efforts and effectiveness in teaching. Because this is an evaluation intended to provide guidance, candidates will be assessed on their current teaching performance as well as on efforts that have been made to address prior performance feedback.

V. STANDARDS AND CRITERIA FOR SCHOLARLY RESEARCH AND CREATIVE ACTIVITIES

A. Department Priorities and Values in Research and Creative Activity
It is essential to the University's mission that each faculty member demonstrates continued commitment, dedication, and growth as a scholar. Research/creative activity results in an original contribution to knowledge or understanding in the field and includes the dissemination of that knowledge beyond the classroom (including capstone & thesis projects). Research/creative activity may be basic, applied, integrative, and/or related to teaching.

B. Faculty Description of Contributions when Multiple Authors are Present
When multiple authors are present on scholarly research and creative activities, candidates shall specify their specific role on item (e.g., role: first author; second author; mentoring author; etc.).

C. Evidence of Scholarly Research and Creative Activities
Evaluations of scholarly research/creative activities will focus on understanding the contribution, benefit, and impact of the candidate’s work on the field. To determine this, the candidate’s research productivity in relation to their stated short- and long-term goals and overall trajectory will be evaluated according to the categories below.

1. Scholarly Research/Creative Activities Reflective Statement
Candidates shall provide a clear reflective assessment of scholarly research/creative activities including short-term and long-term goals for research/creative activities, connections between research/creative activities and courses taught, and the impact of research/creative activities. Evidence includes:
   a. **Category A Evidence** must include external peer review:
1) Primary author on papers published or accepted for publication in peer reviewed/refereed journals recognized as reputable and of high quality
2) Primary author on peer or editor reviewed published book chapters of original material and original monographs
3) Primary author on peer or editor reviewed books
4) Final author on peer reviewed published papers behind students who contributed to the completion of the manuscript as part of their education and training
5) Editor or associate editor of book
6) Significant department development including applied scholarship, curriculum writing/revision, or accreditation work, which requires outside agency approval and/or peer review.
7) PI or co-PI on funded peer reviewed national-level external grants for scholarly research/creative activity work, in progress or completed
8) Secondary or later listed author on peer reviewed published papers, where the authorial activity is comparable or on par with that of primary authorship

b. **Category B Evidence** may include, but is not limited to:

1) Papers published in refereed proceedings
2) Refereed presentations at professional meetings
3) Invited presentations at professional meetings
4) Editor reviewed articles published in journals
5) Co-investigator/consultant/collaborator on funded peer reviewed national-level external grant for scholarly research/creative activity work, in progress or completed
6) Published case studies
7) Applied scholarly research/creative activity that is published, presented at a conference or meeting, or applied in an educational setting
8) Special recognition and awards for research/creative activities
9) Funded regional or internal grants for scholarly research/creative activity work (e.g., local organizations, University Professional Development, etc.)
10) Unfunded national-level peer reviewed external grants for scholarly research/creative activity work
11) Submitted papers (reviewed and in revision) **only at the time of RTP submission**
12) Sponsored or contract research (whether results published or unpublished)
13) Later author on peer reviewed published papers where the authorial activity is not comparable or on par with that of primary authorship

**D. Assessment of Scholarly Research/ Creative Activities**

1. General Standards
Candidates will be assessed on the quality of the evidence provided, the evidence of sustained scholarship, and the totality of their work. A variety of types of work must be provided, including peer reviewed publications. When judged as a group, no one indicator of scholarly research/creative activities may be used to determine the overall rating of quality of scholarly research/creative activities. In all cases, the scholarly reputation of the publication and/or meeting will be considered when evaluating the contribution. With respect to the required numbers of items stated below in F2-F4, candidates may request that reviewers confer additional weight on items that represent greater scholarly accomplishment, impact, or significance; however, it is up to the candidate to make the case that a particular accomplishment merits additional recognition and weight in the review. (For example, a candidate may reasonably argue that a book-length publication should be weighted as equivalent to two or three “Category A” items, as outlined above.)

2. Requirement for Tenure and/or Promotion from Assistant Professor to Associate Professor:
   a. At least three items from Category A.
   b. At least three items from Category B.

3. Requirement for Tenure and/or Promotion from Associate Professor to Professor:
   a. At least three items from Category A.
   b. At least three items from Category B.

4. Retention
Candidates for retention shall include documentation from the period under review that demonstrates satisfactory progress toward meeting the tenure requirements in the area of scholarship. This documentation may include more items in Category B than A.

VI. STANDARDS AND CRITERIA FOR SCHOLARLY SERVICE

A. Department Priorities and Values regarding Service Contributions
Consistent with our Mission Statement, the Public Health Program places a high value on scholarly service as an essential component of faculty work. PH views activities that enhance the institution and advance the profession at the local, state, national and international levels as integral components of faculty service. In PH, scholarly service is defined as involvement in activities that contribute to the life of the university, college, department, school districts and/or activities that contribute to professional agencies and organizations. Service activities are expected to advance the department, college and university mission statements. In addition, particular consideration should
be given to the service necessary to develop courses/department/majors on a growing campus.

1. Scholarly Service Reflective Statement  
   Candidates are to provide a clear and concise reflective self-assessment of their scholarly service activities and the impact of this work. Candidates may include statements regarding any short-term and long-term goals for scholarly service activities, connection to the University, College, and/or Department’s Mission, reasons for their involvement, and the impact of their service activities.

2. Internal Scholarly Service Activities  
   a. **Evidence of Scholarly Service to the Department/College** may include, but is not limited to:
      1) Leadership/membership in Department/college governance and/or groups that carry on the business of the Department/college (e.g., committees [elected or appointed], ad hoc committees, task forces, etc.)
      2) Leadership/membership in Department/college accreditation efforts
      3) Development of new courses or curricular programs for the Department/college
      4) Graduate/Self-Support program coordination and/or service
      5) Mentoring of students, tenure-line faculty, lecturers
      6) Collaboration with colleagues within the college and across colleges
      7) Service as a member of thesis committees/oversee undergraduate research
      8) Advising students
   
   b. **Evidence of Scholarly Service to the CSU System and/or University** may include, but is not limited to:
      1) Innovative leadership for initiatives at the university or CSU system level
      2) Leadership/membership in groups that carry on the business of the university (e.g., committees [elected or appointed], ad hoc committees, task forces, etc.)
      3) University professional activities (e.g., service toward university accreditation, etc.)
      4) Acting as an advisor for a student organization
      5) Commencement marshal
      6) Mentoring of students, tenure-line faculty, lecturers outside of the College

3. External Scholarly Service Activities  
   a. **Evidence of Service to the Profession** may include, but is not limited to:
      1) Service as peer reviewer for journal, conference proposals, and/or external grant agencies or colleagues
      2) Service as external reviewer for tenure/promotion of colleagues
3) Membership on Editorial Board for peer reviewed/refereed journal or publication/textbook
4) Leadership in professional organizations as an officer, on a committee or task force, etc.
5) Consultation and expert services, consulting (paid or unpaid) with schools (e.g., presenting professional development sessions, conducting research for the school or district, etc.), or other public or private entities
6) Providing continuing education for community
7) Assisting schools, districts, or community organizations/agencies in occasional tasks (e.g., advisory boards, committees, etc.)
8) Service as chair, as member of thesis or capstone committee

4. Service Awards and Special Recognition

B. Assessment of Scholarly Service
1. General Standards
   Candidates will be assessed on the quality of evidence provided, the evidence of sustained service, and the totality of their work.

2. Tenure and/or Promotion from Assistant Professor to Associate Professor
   Candidates for promotion from Assistant to Associate Professor must provide evidence of effective sustained internal and external service activities as specified in VI.B. above.

3. Tenure and/or Promotion from Associate Professor to Professor
   Candidates for promotion from Associate Professor to Professor must provide evidence of leadership in one or more service activities in addition to demonstrating sustained active participation in both internal and external service activities.

4. Retention
   Candidates for retention must provide clear and convincing evidence of internal service. While not required, external service contributions will be considered in the evaluation.
ADDENDUM

Rationale:

This addendum aims to address inequities in the RTP process exacerbated by the COVID-19 pandemic, as outlined in the CSUSM ACADEMIC SENATE RESOLUTION, “Calling on Deans to task faculty with reviewing and possibly revising College/Department Retention, Tenure, and Promotion (RTP) Standards to reflect impacts from the COVID-19 pandemic”, dated 12/2/20.

VII. POLICY ADDENDUM TO PUBLIC HEALTH PROGRAM RTP STANDARDS

This appendix shall be part of the evaluation process while the Chancellor’s orders of May 12, 2020 and September 10, 2020, any future orders from the Chancellor, and/or other public health or similar orders are in place for the COVID-19 pandemic that impact faculty work.

For Candidates:

If candidates choose to address the effects of the COVID-19 pandemic in their narrative, they are encouraged to articulate, provide evidence of, and reflect upon how the COVID-19 pandemic impacted their professional performance in the areas of teaching, research/creative activity, and service, and may have resulted in shifting the balance of their work. Candidates are encouraged to articulate the extent to which the COVID-19 pandemic impacted their performance in terms of progress in relevance of submitted items in the narrative. Candidates may also discuss an action plan to adapt to the current circumstances and limitations in order to maintain the momentum of their work in teaching, research/creative activity, and service due to the current and possible adverse evolution of the pandemic.

- Under Scholarly Research and Creative Activity (Category A), the standard shall be reduced to two (2) required items, instead of three (3).
  - Should there be a reduction in the number of items a candidate presents in any other category, the candidate will explain how the pandemic contributed to the reduction.
