

CHABSS CAMP 2023-2024								
Program Name	Degree	Current Status	Department	Current Faculty Contacts	Projected Launch	Modality	Stateside/EL	Brief Narrative
Proposed Programs--A-Form has been approved and not yet reached the five year expiration; P-form is in progress or under curricular review; anticipated resource implications								
Chicano/a & Latino/a Studies	BA; Minor	P-Form in process	Interdisciplinary	Cynthia Melendrez, Marcelo Garzo Montalvo	Fall 2025		Stateside	Second one-year extension requested from Chancellor's Office
Clinical/Counseling Psychology (LPCC)	M.A.	P-Form in process	Psychology	Allison Jobin, Aleks Perez Grabow, Lisa Graves	Fall 2026	Face-to-face	Extended Learning	The Master's Program in Clinical/Counseling Psychology will prepare students for eligibility as Licensed Professional Clinical Counselors (LPCC). It is responsive to student interest in practice-oriented graduate training opportunities in behavioral and developmental health and well-being. There is a shortage of programs within our region. This program also addresses a staggering shortage in the behavioral health workforce
Philosophy	BA	Subprogram proposal to CAPC pending	Philosophy	Michael McDuffie			Stateside	P-Form approved by UCC 2017
Planned Programs--A-Form will be submitted within the next two years								
Dance Studies	BA	A-Form submission anticipated in next 2 years	School of Arts	Karen Schaffman, Cherie Hill, Dava Hernandez (Lecturer), Nhu Nguyen (Lecturer), Cuauhtémoc Peranda (Lecturer)	2026-2027	Face-to-face	Stateside	The major will meet student needs by providing them pathways to multiple careers, that include educators, choreographers, performers, physical therapists, somatic practitioners, dance therapists, grant writers, art administrators, producers/curators, and community advocates/activists. The major will address CHABSS strategic objectives and student success by engaging in “Academic Excellence,” recruiting and retaining a “Diversity of Faculty and Staff,” creating and maintaining a “Supportive Community,” and engaging with community for “Career Readiness.”
Environmental Art and Social Practice	Minor	A-Form submission anticipated in next 2 years	Art, Media, and Design	Lucy HG Solomon, Judit Hersko	Spring 2025	Face-to-face	Stateside	The Minor will allows students from across CSUSM to focus on topics that range from human and nonhuman interactions, climate justice and civic engagement through the creative arts. Environmental art and social practice involve interdisciplinary practices while intersecting with important topics of our time, including climate justice, border politics and citizenship. The minor is especially suited to those students within the School of Arts who want to pursue interdisciplinary practices, and to students majoring in adjacent fields such as Environmental Studies and Sociology.
Food Studies	Minor or BS	A-Form submission anticipated in next 2 years	Department of Environment and Geography	Gabriel Valle, Greig Guthey	2026	Face-to-face	Stateside	The minor will provide students experiential learning opportunities to improve academic success and career readiness. The minor will increase community partnerships by engaging with local farms, farmers, and regional food councils, and will promote academic excellence by using The Food Lab to engage with DEI.
Geographic Information Systems & Technologies (GIST)	Minor	A-Form submission anticipated in next 2 years	Department of Environment & Geography	Elizabeth Ridder	Fall 2025	Face-to-face	Stateside	The minor directly addresses CHABSS Strategic Objective #4 Career Readiness. Acquiring GIS-related skills and identifying the completion of courses as a minor on a transcript will directly influence career readiness and competitiveness, particularly in San Diego County, which has numerous career pathways related to GIS. The minor will include an internship requirement, increasing the number of community partners. The program will also strengthen pathways to CSUSM from our partner community colleges, like Palomar and Mesa Colleges.
Ocean and Coastal Systems	Minor	A-Form submission anticipated in next 2 years	Department of Environment and Geography	Shannon Switzer Swanson, Tihomir Kostadinov	2027	Face-to-face	Stateside	The minor will promote career readiness by providing opportunities to develop quantitative skills using cutting edge technologies as well as build partnerships with SD coastal communities and government agencies, and will engage students in high impact practices such as internships, self-initiated projects, and experiential learning opportunities.

Potential Programs--Faculty interest/commitment to develop a program; timeline for A-Form submission is uncertain

1	Applied Medical Anthropology and Applied Archaeology	MA		Anthropology	Laurette McGuire, Jon Spenard, Konane Martinez	2027-28	Hybrid	Stateside	The MA will meet student needs and support CHABSS strategic objectives 1) Academic excellence and 4) Career readiness by promoting interdisciplinary approaches and emphasizing ethical and inclusive practices. By providing practical experience, global perspectives, and professional development support, the MA program will engage with diverse communities, giving students a more comprehensive understanding of cultural nuances. This diversity of perspectives enhances academic excellence by fostering a more inclusive and well-rounded learning environment.
2	Asian American and Pacific Islander Studies	Minor		Interdisciplinary	Susie Lan Cassel, Theresa Suarez				
3	Bachelor of Science in Anthropology	BS		Anthropology	Laurette McGuire, Jon Spenard, Konane Martinez	2026-27	Face-to-face	Stateside	The program will meet student needs and support the CHABSS's strategic objective 4) Career readiness by offering a BA and BS in anthropology. The program can better align with students' academic and career goals while allowing students to explore their interests within the discipline. Anthropology is scientific and humanistic because it incorporates elements of both approaches in studying human beings and societies. The field is broadly divided into four subfields. Each of these subfields contributes to anthropology's scientific and humanistic aspects in different ways.
4	Creative Writing	MFA		LTWR Studies	Sandra Doller, Francesco Levato, Mark Wallace, Heidi Breuer		Online	Stateside	The program will be an online MFA that will serve students in North County San Diego and beyond. The program will help prepare students for careers in multiple fields, including writing, editing, publishing, teaching, and digital work in these and related fields. It aligns with university strategic objectives 3.5 and 4.1 and CHABSS strategic objective 3: Support a human-centered and inclusive community by cultivating a collaborative, innovative, and respectful working and learning environment.
5	Cognitive Science	BS		Psychology	Carrick Williams, Dustin Calvillo	8/2028	Face-to-face	Stateside	The program will be a cross-college major that will give students opportunities to learn both marketable skills (Strategic Plan 4) as well as asking deep theoretical questions (Strategic Plan 1). Students participating in this major will take courses in several CHABSS departments as well as those in CSTEM providing them with a well-rounded understanding of the ways to study the mind.
6	Digital Rhetorics	Minor		LTWR	Rebecca Lush, Susie Lan Cassel, Francesco Levato, Mary Stewart				Seeking additional information about students and employment need before moving forward with program
7	Economics	MA		Economics	Roger Arnold, Ranjeeta Basu, Robert Brown, Quinn Keefer				
8	French	BA		MLS	Michael Hughes, Marion Geiger				
9	Film & Literature Concentration	CONC		LTWR	Rebecca Lush, Sandra Doller				LTWR has added a Film/Lit requirement to the Major; this takes effect in Fall 2016 and will allow the dept. to collect data before taking next steps in curricular development.
10	German	BA		MLS	Michael Hughes, Marion Geiger				
11	Middle East/Islamic Studies	Minor		Interdisciplinary	Salah Moukhil, Elizabeth Matthews, Scott Greenwood, Cyrus Masroori, Ibrahim Al-Marashi				Suggestion to delete the program by Scott Greenwood
12	Neuroscience	BS		Interdisciplinary	Nancy Caine				There is increasing national interest in offering undergraduate degrees in neuroscience. We would like to join that trend by offering a minor at some point. Need for critical mass of neuroscience faculty; cross-college interdisciplinarity may complicate things.
13	Religious Studies	BA		Interdisciplinary	Suzanna Krivuslkaya, Antonio Zaldivar				
14	Sexuality Studies	Minor		Interdisciplinary	Jodie Lawston, Rodger D'Andreas-Wahl, Robert Aiello-Hauser				
15	Women's Gender and Sexuality Studies	MA		Women's Studies	Jodie Lawston
