

Four Ways to Lower Your Drug Costs and Start Saving Now

Here are a few strategies to help you save money and time on your prescriptions:

1. Save Time with Same Day Delivery

Starting January 1, 2026, get your prescriptions delivered to your home the same day – with no delivery fee – when you use Costco Pharmacy with Instacart. Just fill your prescription through your local Costco and use the link in the confirmation text to schedule delivery.¹ **You don't need to be a Costco member to take advantage of Costco Pharmacy savings.**

2. Explore your Pharmacy Benefit

The Navitus member portal and mobile app are easy ways to help you make the most of your pharmacy benefit. Once you are registered, you can:

- Compare drug prices at your local and mail order pharmacies
- Check coverage details
- View your member ID card

Once your benefits are active, go to navitus.com/members to register for the portal. You can also download the mobile app² for access on the go. Scan the QR code³ to download now.

3. Consider a Less Expensive Generic

Did you know that brand-name drugs can be 20x more expensive than the generic equivalent? Generics have the same active ingredients and go through the same rigorous U.S. Food and Drug Administration (FDA) testing. If you are taking a brand drug, ask your provider if a generic is appropriate.

4. Take Advantage of Convenient 90-Day Refills

Ask your prescriber if you can get a 90-day supply of your regular medicine(s) instead of a 30-day supply. This means fewer trips to the pharmacy – and you may save money, too! To learn more, check your plan details on the Navitus member portal or your plan's website.

1. To qualify for free Instacart delivery, use the link in the Costco Rx confirmation text. Instacart home delivery is available for those who live within an hour's drive of a Costco location. Other restrictions and limitations may apply.
2. The app and its features may not be available for all plans or members. Check your plan for details. Registration is quick and secure—your member ID may be needed. Available for iOS and Android. Must be 18+ and enrolled in a Navitus pharmacy benefit plan. Need help? Call Customer Care at 844-268-9789 – available 24/7.
3. The QR code may identify your IP/device information. However, your personal and health information is strictly confidential and will not be captured.
