Payroll Services

Net Promoter Score

Below 0 - Low | 0-19 - Marginal | 20-49 - Good | 50 & above - Excellent

The Customer Satisfaction Survey includes the question “How likely is it that you would share a positive impression of Payroll Services with others? (10 being extremely likely and 0 being not at all likely)” answered on a scale from 0 to 10. The Net Promoter Score is calculated as follows: the percent falling in the lowest segment (red section below) is subtracted from the percent falling in the highest segment (blue section below) to determine the Net Promoter (NPS) score.

2018	2019	2022
50 NPS	50 NPS	49 NPS
60.6% - 11.0% = 50	60.9% - 10.5% = 50	63.9% - 14.8% = 49

About NPS

The Net Promoter Score (NPS) is widely used in business to determine growth potential [1]. Different types of customers can have positive or negative effects on the success of the survey unit. The NPS identifies them as follows:

Detractors

Score 0-6 on the Recommend question. These are dissatisfied customers who will not promote or recommend the survey unit at all and may provide negative information to others.

Passives

Score in the neutral sections of the Recommend question (7-8). These are passive, neutral customers, who, while perhaps satisfied, are likely to do nothing to actively contribute to the success of the survey unit.

Promoters

Score 9-10 on the Recommend question. These are satisfied and enthusiastic customers.

The NPS score can potentially range from +100, where all customers are Promoters, to -100, where all customers are Detractors. Evaluation of the NPS is based on the following scale:

- Below 0 – LOW
- 0 to 19 – MARGINAL
- 20 to 49 – GOOD
- 50 & above - EXCELLENT

The cut-off points were developed by examining the distribution of NPS scores from over 300 survey departments rated by over 24,000 total customers from seven Universities (CSU Cal Poly, CSU Chancellor's Office, CSU Fullerton, CSU San Marcos, UC Davis, UC Riverside, and UC San Diego) participating in customer surveys. Along with Overall Satisfaction and unit Strengths and Opportunities, the NPS provides an externally-validated benchmark to help track progress over the course of future evaluations.
