Sabbatical leaves are to provide a benefit to CSUSM through research, creative activity, or training. CSUSM benefits by an improved competency and enthusiasm of its faculty being up-to-date in their fields and by creating new ideas and concepts to share with students and faculty across the campus. Sabbatical activities also benefit society and improve the reputation of the university by allowing faculty to refine ideas developed at CSUSM and spread them to national and international creative, scholarly, and educational communities.

Tuesday, April 18, 2022
12:00PM - 1:00PM
