**I. Distribution and Archiving of Syllabi**

- A. The course syllabus must be made available to students no later than the first class meeting. The syllabus may be distributed either in hard-copy format or posted online.
  - a. Instructors are encouraged to post syllabi in Cougar Courses (or equivalent Learning Management System if another is used in place of Cougar Courses) instead of printing hard-copy syllabi as this is less resource-intensive, and it is harder for students to lose the syllabus if they have electronic access to it.
  - b. It is recommended that a copy of the syllabus be sent to the appropriate subject librarian at the start of the semester.
- B. A copy of the course syllabus must be placed on file in the program/department office and/or the Dean's office by the fourth week of classes.
  - a. The program/department office or Dean's office is responsible for forwarding a copy of the course syllabus to Academic Programs (electronic format preferred).
  - b. Academic Programs will maintain an electronic archive of all course syllabi.

**II. Syllabus Elements Required for All Courses**

- 2. **Course Name** (as it appears in the catalog)
- 3. **Semester or Term in which the course is being offered**

**7. Official Course Description**

At a minimum, this must include the official course description taken directly from the General Catalog. Instructors are encouraged but not required to supplement the official catalog statement by following the official course description with an "Expanded Description" that provides greater detail about what will be covered in the course. While such an "Expanded Description" may be useful for any course, it is especially recommended for courses where the catalog description is sufficiently broad that there may be significant differences in coverage from offering to offering.

**8. Course Learning Outcomes**

The Course Learning Outcomes (CLOs) are intended to communicate to the students what they are able to do upon completion of the course. These are often stated in a greater level of detail than Program Student Learning Outcomes. CLOs should be presented using the following construction:

Upon successful completion of this course, students will (be able to):  
[List of Course Learning Outcomes follows.]

At their own discretion, instructors may choose additionally to indicate how the CLOs are addressed in the course and how students will be expected to achieve them.

**9. Required/recommended materials/services**

Any required/recommended materials or services that students would have to purchase in order to complete the course. Include required texts, any required software and (for courses with an online component) minimum computer requirements. As applicable, include information about any Department, College or University resources available for students unable to purchase these materials or services.

**10. Schedule**

Tentative Schedule, including topics, and types and sequences of activities (e.g., readings, labs, field trips, etc.).

**12. Credit Hour Policy Statement**

Per the University Credit Hour Policy:

- Courses with face-to-face instruction (including activity and laboratory modes of instruction) must include a statement to the effect that students are expected to spend a minimum of two hours outside of the classroom each week for each unit of credit engaged in learning. (Note that for courses with a “lecture” mode of instruction over an entire semester, each unit of credit corresponds to an ‘hour’ of class-time and two hours of student learning outside of class. For activity and laboratory modes of instruction, depending on the particular instructional mode, each unit of credit corresponds to two or three ‘hours’ of class-time, and two hours of student learning outside of class.)
- Courses that are entirely on-line must describe the activities that the student will be required to complete as part of the course and indicate the expected minimum time (at least 45 hours for each unit of credit) that students will need to devote to each of these.
- Hybrid courses must describe to students how the combination of face-to-face time, out-of-class time associated with the face-to-face sessions, and on-line work will total at least 45 hours per unit of credit.

**13. Final Exam Statement**

Syllabi must include either the date and time of the final exam, or a statement that there will be no final exam. If this information is integrated with the tentative schedule (item 10) or the course grading standards (item 11), then it is not necessary to make this a separate syllabus item.

**14. ADA Statement**

A sample statement follows:

Students with disabilities who require reasonable accommodations must be approved for services by providing appropriate and recent documentation to the Office of Disabled Student Services (DSS). This office is located in Craven Hall 4300, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909, and by email sent to [dss@csusm.edu](mailto:dss@csusm.edu).
