IV. Finance and Investment Update – Taylor Sutherland
   A. Endowment Spending Allocation Fiscal Year 2020/21– (attachment)
      The Finance & Investment Committee recommends a fiscal year 2020/21 endowment spending allocation of 3.5% based on a three year (12 quarter) moving average market value.
      Following the Finance and Investment Committee’s recommendation to approve a 3.5% endowment spending allocation for fiscal year 2020/21, Mr. Sutherland shared the following with the Executive Committee:
      o While this is a .25% reduction in the 3.75% spending rate from FY 19/20, it is actually flat in terms of dollars spent given the growth of the portfolio over the year. Specifically, the proposed 3.5% rate would be $754,808 vs. $754,676 approved for last year.
      o Supporting this decision is the notion that expected returns continue to decline (recent pullbacks in equity markets notwithstanding). Per Canterbury's attached CSUSM_Asset Allocation report, the overall portfolio's real return (the return after taking out their 1.8% inflation estimate) is expected to be ~2.05%. Our charge for the Foundation is to grow the portfolio at or above the rate of inflation plus our spend rate over a full market cycle. Our “current” hurdle rate is ~5.55% (1.8% + 3.75%), exceeding the 2.05% forecast. While we do not have to meet this growth objective every year, we are expected to do so over time. While we have handily achieved this result in hindsight, the ongoing reductions in expected returns suggest we should likewise reduce our planned spending objectives.
      Following this report, the Executive Committee approved recommending a fiscal year 2020/21 endowment spending allocation of 3.5% based on a three year (12 quarter) moving average market value.

ACTION ITEM: Board Directors, a motion to approve an endowment spending allocation of 3.5% for fiscal year 2020/21 was made by the Finance and Investment Committee and seconded by the Executive Committee. Your approval of the spending rate is available on AGB OnBoard (spending allocation).

RESULTS: 3.5% spending rate is approved.
   • 78%: A “Yes” vote meant the Director approved the 3.5% spending rate.
• 0%: A "No" vote meant the Director did not approve the 3.5% spending rate.
• 0%: "Abstain"
• 22%: "Did not vote"
