

**Petition to Approve Alternative Health Insurance Policy***Please read all information before filling out the petition.**Do NOT purchase outside health insurance before approval from the Office of Global Education.*

The Office of Global Education requires students to have a current health insurance policy that meets the requirements listed below. Since many policies for international students in the U.S. do not meet the minimum requirements, beginning with the Fall 2016 semester only the following policies are acceptable and will be approved:

- Policies for students sponsored by their home government or the U.S. government
- Students covered with a U.S. policy through their own employment or a family member's employment (additional medical evacuation/repatriation policy might be needed)
- Policies issued in your home country that meet our requirements
