With the implementation of the new CSUSM strategic plan, the Office of Global Programs and Services in conjunction with the Office of Sustainability and University Global Affairs Committee have launched a brief survey of faculty engagement in the UNSDGs. We encourage all faculty to complete this survey so that we can inventory those courses that represent these goals. Further details are found

CSUSM International Engagement: Road to Recovery:

Early indications are that CSUSM outbound study abroad student participation is on an increase. With several faculty-led programs scheduled for Summer 2022 for Spain and Italy along with a generous donation from the French government for 5 CSUSM students to participate in a "Women in Science:" program to participate in a summer program in Paris, CSUSM looks to be heading back to an increase in outbound students in a variety of programs. Similarly, both ALCI and international degree-seeking student enrollments are on an upward trajectory. This is in large part to the commitment of CSUSM faculty, students, and staff to stay the course and support our students throughout the pandemic.

curricula that allows students and faculty from both countries to engage virtually. We hope to have a presentation upon completion of their activities.

Testimonials Needed: In an effort to share the wonderful successes here at CSUSM of faculty and students having an impact on the world, the Office of Global Programs and Services is seeking volunteers to showcase their work/students who have demonstrated what it means to be a "Global Citizen." If you have ideas for stories, videos, please share them with us via the contact below.

Fulbright Advisor Initiative: Robert Carolin, Associate Dean for Global Programs and Services has been selected to participate in a new effort by Fulbright to broaden its reach across university campuses.
