This includes a biennial property verification program, the maintenance of accurate records, property identification (tagging) and guidelines for proper handling of property and related record keeping.

The Property Control Policy described below establishes a system used to identify and track property owned by or donated to CSUSM Corporation including but not limited to gifts of art/real estate, equipment used on research grants, computer/office equipment and furniture.

Property with a cost of \$2,500 or more that benefit or provide services of one year or more will be tagged and tracked but not capitalized. Property cost includes the purchase price plus all costs to acquire, install, and prepare the property for the intended use.

Property owned by CSUSM Corporation through the Office of Sponsored Projects (OSP) and Campus Programs require Principal Investigators (PI)/Project Directors (PD) be responsible for all property purchased for their project(s) and must report the location, transfer, trade-in, loss (theft), or non-use/obsolescence of the property to CSUSM Corporation using the Property Transfer Form. PI's/PD's will be required to follow the property control policy.

The PI/PD is responsible for the security and control of any property or equipment less than \$2,500 (including theft sensitive items) in regard to recordkeeping, inventory, and safekeeping. Property and equipment with a cost of \$2,500 or less will not be tagged.

PROPERTY CONTROL POLICY AND PROCEDURES

Auxiliary Accounting will maintain records of property including acquisition costs, useful life, depreciation schedules, disposals, and reporting for Financials. Reconciliations shall be reviewed with CSUSM Corporation annually.

Donated property will be listed as “donated” in the property control database along with an estimated value and useful life.

BIENNIAL PROPERTY VERIFICATION PROGRAM:

As a part of the Biennial (every two years) Property Verification Program, Materials Management and the PI/PD will perform a physical count of all property tagged and tracked in the property control database. A Property Report will be issued to the appropriate PI/PD prior to the physical count at which time any corrections will be submitted to CSUSM Corporation.
