

Communications Tools - 3.2 – Installing Zoom

Why Do This?

Zoom is the campus standard for web conferencing, allowing real-time communications with other people almost anywhere in the world. Zoom can be used in the classroom, a conference room, your office, at home, even on the road. Some potential uses include online office hours, tutorials, group projects, and screen sharing.

1. To install Zoom on your computer, open a browser and go to: <https://zoom.csusm.us>.
2. In the upper right corner of the screen, click on **Login to Host a Meeting**.

LOGIN to HOST A MEETING

3. Use your usual campus credentials to login. Zoom will be installed on your computer, and the interface for controlling your Zoom sessions will open.
