

Why Do This

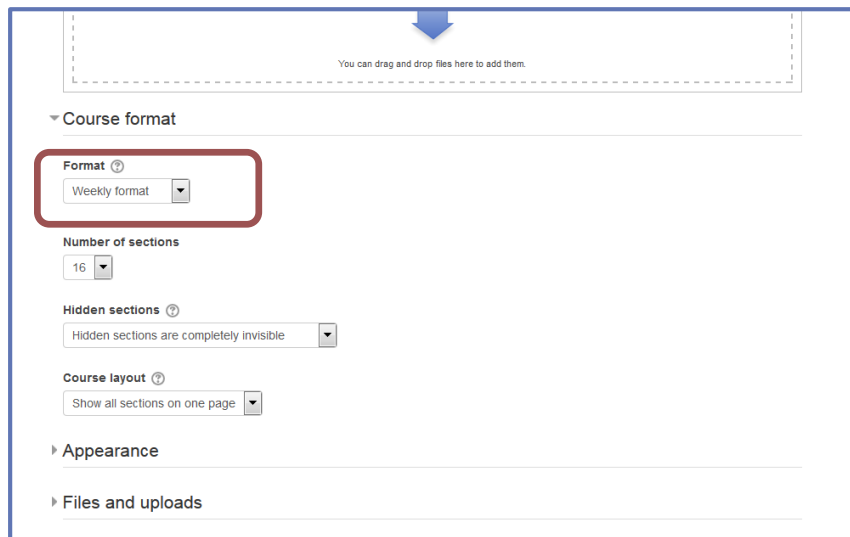

By default the course center content area is divided into sections by topics. You can change this to a weekly format so that each section displays the week and dates. The start date can be set to any day of the week, which will determine how the weeks are displayed when using the weekly format.

1. Log onto Cougar Courses and go to the main page of your course.

2. In the Administration block, click **Edit settings**.

3. Scroll down to the **Course format** section and change the Format dropdown to **Weekly format**.

4. The screen will pop up to the top of the page.
5. Change **course start date** to display first day of class.

Edit course settings

▶ Expand all

▼ General

Course full name* ⓘ

Course short name* ⓘ

Course category ⓘ

Visible ⓘ

Course start date ⓘ

Course ID number ⓘ

6. Scroll to the bottom of the page and **Save changes**. Your course content can now be organized by weeks.
