Android Email Set-up

Go to the Mail app → Go to Settings and Add Account

Select the account “Corporate”

Input your @csusm.edu campus email address and password then click “Sign In”

Click “Apply” or “Activate” to use the security settings required to add email. You should now have email setup.

Important note: For Android devices, it is required to have a lock on the phone such as a PIN, passcode, or fingerprint.

Troubleshooting: Check Exchange Server Settings to confirm it says “outlook.office365.com”
