PROBLEM SOLVING VALUE RUBRIC

for more information, please contact value@aacu.org

Definition

Problem solving is the process of designing, evaluating, and implementing a strategy to answer an open-ended question or achieve a desired goal.

Evaluators are encouraged to assign a zero to any work sample or collection of work that does not meet benchmark (cell one) level performance.

	Capstone	Milestones		Benchmark
	4	3 2		1
Define Problem	Demonstrates the ability to construct a clear and insightful problem statement with evidence of all relevant contextual factors.	Demonstrates the ability to construct a problem statement with evidence of most relevant contextual factors, and problem statement is adequately detailed.	Begins to demonstrate the ability to construct a problem statement with evidence of most relevant contextual factors, but problem statement is superficial.	Demonstrates a limited ability in identifying a problem statement or related contextual factors.
Identify Strategies	Identifies multiple approaches for solving	Identifies multiple approaches for solving	Identifies only a single approach for solving	Identifies one or more approaches for
	the problem that apply within a specific	the problem, only some of which apply	the problem that does apply within a	solving the problem that do not apply
	context.	within a specific context.	specific context.	within a specific context.
Propose Solutions/Hypotheses	Proposes one or more solutions/hypotheses that indicates a deep comprehension of the problem. Solution/hypotheses are sensitive to contextual factors as well as all of the following: ethical, logical, and cultural dimensions of the problem.	Proposes one or more solutions/hypotheses that indicates comprehension of the problem. Solutions/hypotheses are sensitive to contextual factors as well as the one of the following: ethical, logical, or cultural dimensions of the problem.	Proposes one solution/hypothesis that is "off the shelf" rather than individually designed to address the specific contextual factors of the problem.	Proposes a solution/hypothesis that is difficult to evaluate because it is vague or only indirectly addresses the problem statement.
Evaluate Potential Solutions	E valuation of solutions is deep and elegant (for example, contains thorough and insightful explanation) and includes, deeply and thoroughly, all of the following: considers history of problem, reviews logic/ reasoning, examines feasibility of solution, and weighs impacts of solution.	Evaluation of solutions is adequate (for example, contains thorough explanation) and includes the following: considers history of problem, reviews logic/reasoning, examines feasibility of solution, and weighs impacts of solution.	Evaluation of solutions is brief (for example, explanation lacks depth) and includes the following: considers history of problem, reviews logic/reasoning, examines feasibility of solution, and weighs impacts of solution.	E valuation of solutions is superficial (for example, contains cursory, surface level explanation) and includes the following: considers history of problem, reviews logic/reasoning, examines feasibility of solution, and weighs impacts of solution.
Implement Solution	Implements the solution in a manner that	Implements the solution in a manner that	Implements the solution in a manner that	Implements the solution in a manner that
	addresses thoroughly and deeply multiple	addresses multiple contextual factors of the	addresses the problem statement but ignores	does not directly address the problem
	contextual factors of the problem.	problem in a surface manner.	relevant contextual factors.	statement.
Evaluate Outcomes	Reviews results relative to the problem	Reviews results relative to the problem	Reviews results in terms of the problem	Reviews results superficially in terms of the
	defined with thorough, specific	defined with some consideration of need	defined with little, if any, consideration of	problem defined with no consideration of
	considerations of need for further work.	for further work.	need for further work.	need for further work
