Dear Students,

We know that the announcement to move to virtual instruction for the remainder of spring semester has been met with concern and anxiety by many of our students – particularly for those who may not have the appropriate technology resources at home.

In order to support our students through this crisis, we are hoping to get a sense of how many students might need additional technology support during the ongoing COVID-19 situation.

Students who do not have access to a computer or tablet with a recent Windows or Mac operating system, or who do not have access to the Internet, or rely on the campus library for the textbook should fill out this brief online form by Tuesday, March 15 at 5 p.m.:

https://csusm.co1.qualtrics.com/jfe/form/SV_bK7dlz4hM6rhU4B

Students who have access to a computer and the Internet, please **do not** fill out the form.

While the University Library will continue to be open to provide students with access to computer labs, local circumstances outside of our control could require the library to fully close. Thus, we want to be sure we can assist as many students as possible who are relying on campus being open to access technology and textbooks to complete their virtual courses.

If you have questions about technology and resources to assist you with your virtual/online classes, please contact Technology Support Services at helpdesk@csusm.edu or (760) 750-4790.
