

California State University  
SAN MARCOS

OFFICE OF THE  
VICE PRESIDENT

**Monday, March 16, 2020**

Dear Cougars,

Another day has brought more news and information about the ongoing COVID-19 crisis. We know these are stressful times and I want to assure you that our campus' student support services will continue to remain available to support your academic success.

As we have moved to ensure that you will be able to continue your coursework through virtual instruction, we have also been transitioning our advising, counseling, and academic support services online so that you can access them remotely while you are away from campus.

We have created a [webpage](#) that consolidates information about student support services that are available remotely. Content will be updated as new virtual support services are developed to ensure that we continue to meet the needs of our students and support your academic success.

Throughout this challenging time, I want to assure you that Cal State San Marcos is here to support you and I encourage you to review the resource page and [CSUSM's COVID-19 FAQ](#) regularly for new updates and additional services. If you have questions, you are welcome to email [covid@csusm.edu](mailto:covid@csusm.edu).

In Cougar solidarity,  
Lorena Checa  
Vice President, Student Affairs
