New Trends Identified:

- No new trends were identified.

Action Items / Concerns:

Common Themes - ideas noted by trend and primary theme

Integrated security <ul style="list-style-type: none"> • If different departments have access to data, they need to know how to use it right and maintain security and privacy. Meshes with training 	Accademia/Any software common practice <ul style="list-style-type: none"> • Every department should use software in the same way. When software is deployed there should be common guidelines. This facilitates use of the data for planning purposes. 	Mobile First Concerns <ul style="list-style-type: none"> • How do we collect and we use this data? Will it be too much data to make meaningful use of? How will it be standardized for use? What are the security concerns
Personalization <ul style="list-style-type: none"> • Can we let faculty know when student athletes have a game or practice? 	Face to Face Interaction <ul style="list-style-type: none"> • Everything cannot be digital. Students need to know how to speak and write and interact with people in person 	Collaboration with Businesses <ul style="list-style-type: none"> • Let's think in terms of forming alliances with local companies ... digital information -> ... start small but this might facilitate student hiring/internships
Faculty <ul style="list-style-type: none"> • How much is faculty involved in planning and discussion for classroom technology
