

Reid Fall-graduating Student Achievement Award

Academic Year 2026-2027

Award Description:

The K. Brooks and Marion Reid Fall-graduate Student Achievement Award will be awarded to undergraduate students, based on academic performance (exams, presentations, papers, or final grade) in mathematics course(s) in the Fall of 2026. The awardee will be announced at the end of the Fall 2026 semester and will receive a \$600 award. The purpose of this award is to recognize an undergraduate student graduating in Fall 2026 who would normally be eligible for a 2026-27 Reid Awards (in Discrete Mathematics, Algebra, Analysis, or Probability/Statistics) but will not be eligible if they graduate in Fall 2026. A student will not receive this award in an area for which they have previously received a Reid Student Achievement Award. Students will be informed about the Reid Awards by a posting of this document on the department's website and a posting at the Mathematics Academic Coordinator's office and an email to all undergraduate students at the beginning of the academic year. Beginning December of 2026, the professor or professors that teach or have taught a course in Discrete Mathematics, Algebra, Analysis, Probability, or Statistics will form an award committee to determine the recipient of the Fall 2026 award based on the students' performance in the course components listed above. If no Fall-graduating undergraduate student showed an exceptional performance in Fall 2026 the award will not be given and will be used to fund awards in future years. The award committee will write an award letter for the awardee detailing the academic accomplishments.

Student Requirements:

- Must be enrolled at California State University San Marcos and graduate in Fall 2026.
- Must have completed or be enrolled in a Discrete Mathematics, Algebra, Analysis, Probability, or Statistics course at the 400 level or higher in Fall 2026.
- Must submit a thank you letter due no later than December 23, 2026, to donorrelations@csusm.edu.

The awardee's name together with the letter of accomplishments will be submitted by the award committee no later than December 18, 2026 to the Academic Coordinator of the Department of Mathematics. The awardee shall be included with the announcements and ceremonies in Spring 2027.

Reid Fall-graduating Student Achievement Award
