Career Development Workshop

Facilitated by
David Grooms

Career Planning and Development

Career planning and development provides students with opportunities to learn about strategies designed to enhance individual career success in 21st Century organizations. Subject matter includes:

- a. changing nature of careers, finding the right career(s)
- b. interviewing and recruiting strategies
- c. skills development, mentoring and networking
- d. other career development strategies. Career planning involves in-class discussions, group activities, personal assessment and analysis.
