

## PART 1 - GENERAL

### 1.1 SUMMARY

- A. This Section includes the following:
  - 1. Concrete pavers.
  - 2. Aggregate sub-base.
  - 3. Sand bed under sand-set pavers.
  - 4. Mortar set pavers on slab.
  - 5. Geo-textile fabric.
  - 6. Joint sand.
  - 7. Sealant.
  - 8. Edge restraints.

### 1.2 SUBMITTALS

- A. Samples: Submit the following:
  - 1. Two samples, for selection and approval, of each type of paver unit to show the full range of color and texture.
- B. Sample Panels: At site, prepare as many 48" square sample areas as required for approval. Include an edge and end condition in each sample. Installations shall conform to the approved samples. Approved samples may be part of the Work, if they are approved and conform to all other requirements indicated and specified.

## PART 2 - PRODUCTS

### 2.1 HERBICIDE

- A. As recommended and applied by licensed pest control consultant.

## PART 3 - EXECUTION

### 3.1

- A. Provide compaction of sub-grade per Geotechnical Engineer's recommendations.
- B. Where appropriate, design for fire truck traffic.
