

## CRIME LOG DISPOSITION CODES

The following disposition codes and explanations are commonly used in the crime log. Please note that dispositions often change as investigations are completed and older crime logs may not reflect the most updated status of a case.

**Open** – The case is still open or under active investigation.

**Unfounded** – The original, reported incident was determined to be unfounded following an investigation by officers.

**Referred to District Attorney** – Typically criminal cases, or arrests, are forwarded to the District Attorney (DA) for consideration of prosecution. The DA review process can take an extended period of time, and the final disposition of a case may change or the case may be dismissed entirely.

**Turned over to Outside Agency** – Cases with this disposition have been handed over to another agency. This could be for a variety of reasons, including: original incident happened in a different jurisdiction, multiple criminal offense occurred and the most serious is investigated by another agency, or offenses may be Federal.

**Outside Agency Assist** – Law enforcement agencies often work together investigating incidents. This disposition indicates that officers of this agency assisted another agency in their investigation.

**Referred for Discipline** – This disposition is typically used when a student is referred to the campus judicial system.

### Outside Agency Report

**Reprimand/Release** – The involved part(ies) were released from the incident scene with a verbal or written reprimand.

**Cited/Released** – The involved part(ies) were issued a citation, or Notice to Appear, and were released.

**Arrested/Booked** – The involved part(ies) were arrested, taken into physical custody, and booked into jail

**Arrested/Cited Released** – The involved part(ies) were arrested, taken into physical custody, but then issued a citation and released in lieu of being booked into jail.

**Closed/Pending Further Leads** – These incidents have been fully investigated and there are no further workable leads, but will be re-opened if new leads or information is received.

**Closed/Recovered** – The case has been closed and any missing or stolen property has been recovered.

**Referred to Housing** – The incident has been referred to campus Housing Staff for adjudication.

**ACTIVE Pending Further Leads** – The case or incident is still being actively investigated, but officers are awaiting further leads.

**Log Entry Only** – The incident is being documented in the “log,” or Computer Aided Dispatch (CAD) system for information only. This may be done to preserve a piece of information that may be needed at a later date, or documenting an incident that may not be criminal in nature.

**Closed/Cleared** – The incident has been fully investigated, any arrests have been made, and the case requires no further investigative action.

**Closed/Info Only** – The incident has been fully investigated and does not rise to the level of a criminal offense or does not require additional investigation.

**Disciplinary Referral** – Similar to “Referred for Discipline,” this disposition is typically used when a student is referred to the campus judicial system.

**ACTIVE Information Only** – This disposition is for incidents that are still active, but are for informational purposes. Generally, no further criminal investigation is needed.
