In its teaching and student services, CSUSM will combine the academic strengths of a large university with the personal interaction characteristic of smaller institutions. Students will select from a growing array of specialized programs responsive to state and regional needs. Our curriculum will emphasize a strong foundation in the liberal arts and sciences while it provides the knowledge, skills, competencies and experiences needed in a global society experiencing accelerated technological, social, and environmental change. A faculty of active scholars and artists will foster student learning through teaching that reflects ongoing discovery and experimentation, and that makes a difference in the life of our communities. CSUSM will celebrate and capitalize on its diversity to form a learning community committed to this shared vision.
