EDUCATION

2001	Ph. D.	University of California, Berkeley	Integrative Biology
		(Emphasis on comparative biomechanics and physiology).	
1993	B.A.	University of California, Berkeley	Integrative Biology

HONORS

2002	World Congress of Biomechanics Calgary Award finalist.
1996	National Science Foundation Graduate Research Fellowship awardee.
1996	Department of Defense Graduate Fellowship Honorable Mention.
1995	Acceptance to the Santa Fe Institute's Complex Systems Summer School, full funding (attended).
1990	Pacific Rim Scholarship to attend the University of California's Education Abroad field biology course in Monteverde, Costa Rica.

PROFESSIONAL POSITIONS

06/16-present	Associate Professor, Kinesiology	California State University, San Marcos
01/16 – 05/16	Interim Chair, Kinesiology	California State University, San Marcos
01/12-05/16	Assistant Professor, Kinesiology	California State University, San Marcos
05/10-01/12	Assistant Professor, School of Life Sciences	Arizona State University
	Graduate faculty in Mechanical Engineering	Arizona State University
01/07-05/10	Assistant Professor, Kinesiology	Arizona State University

* **Director, The Laboratory for Integrative Motor Behavior.** Discovering fundamental principles of biomechanics and motor control, interpreting these principles in the context of the physical and occupational environment, and applying basic research discoveries to problems in biomedicine and public health.

04/04-12/06 **Assistant Researcher** **UCLA**

* **Understanding neuromuscular plasticity towards restoring function after spinal cord injury.** Research in musculoskeletal biomechanics, motor control, and neural plasticity towards improving rehabilitation treatments and developing neural prostheses for improved function after spinal cord injury. V. Reggie Edgerton, P.I.

06/01-10/03 **Research Fellow** **Harvard School of Public Health**

* **Finger mechanics during typing: towards improved keyboard and workstation design to prevent musculoskeletal disorders.** Conducted experiments to measure forces of tendons, muscles and bones in the hand as a function of computer keyswitch design and posture to estimate musculoskeletal exposure during computer keyboard and workstation use. Funded by the Whitaker foundation, Jack Dennerlein, P.I.

8/95-05/01 **Graduate Research Assistant** **University of California at Berkeley**

* **Locomotion biomechanics and biological inspiration of robot design.** Initiated, designed, implemented and published original research on the stability, maneuverability and control of rapid running in insects. Worked with team of scientists and engineers on a multidisciplinary computational neuromechanics project sponsored by the Defense Advanced Research Project Agency (DARPA) Controlled Biological Systems Program and the Office of Naval Research

(ONR). Developed two experimental techniques new to biology that allowed measurements previously impossible using existing methods. These experiments developed and verified of new analytical and mathematical models of stability and maneuverability during rapid locomotion. Worked with engineers to apply these findings to robot design (prototypes were built at McGill University and Stanford University, and subjects of current study at more than six research laboratories).

- * **Dynamic computer simulation.** With engineers at M.I.T. and The University of Michigan, and mathematicians at Princeton and Cornell, developed 2-D mathematical models of animal locomotion and 3-D, dynamic computer simulations using MATLAB, ADAMS and Boston Dynamics (implemented in C using SD-FAST) packages.

8/95-8/97

Representative

UCB Instructional Technologies

- * **Instructional technology.** Represented graduate students from the biological sciences to the U.C. Berkeley Instructional Technologies Program. Designed and implemented websites for poly-pedal lab and several courses in the Integrative Biology department. Initiated a project to develop a 'Virtual Classroom Kit', and contributed to the development of a 'Shared Discoveries' program to facilitate the use of current research in instruction.
- * **Scientific visualization.** Contributed to structuring the Department of Integrative Biology's Scientific Visualization Center. Advised purchase of over \$1.3 million in equipment and software. Set up and maintained the center six months before permanent staff were hired. Sought collaboration with companies interested in biological data through presentation and booth at 1996 ACM SIGGRAPH.

6/93-7/95

Research Assistant

University of California at Berkeley

- * **Experimental design.** Contributed to the development of a novel technique using photoelastic gelatin to make the first simultaneous measurements of single-leg ground-reaction forces in arthropods.
- * **Physiological ecology.** Tested hypothesis that nocturnal lizards exhibit lower metabolic cost of transport (energy per unit distance) than diurnal lizards.
- * **Technology support.** Maintained a heterogeneous computing environment of Apple Macintoshes, Windows 98 and NT machines, and Silicon Graphics workstations.

7/91-8/92

Research Assistant

InfoUse, Emeryville, CA

- * **Public health research.** Research on nutrition and cancer for Phase I interactive computer program. Implemented a pilot Expert System using the Level V language to assist vocational rehabilitation case workers.

TEACHING EXPERIENCE

Pedagogy/Andragogy training

2011 Representative from ASU's School of Life Sciences to the [HHMI and National Academies' Summer Institute](#) (undergraduate instruction)

COURSE HISTORY

Course Title Legend:

KINE 202: Introduction to Kinesiology
KINE 301: Motor Control and Learning
KINE 303: Statistics and Research Methods
KINE 495: Kinesiology Internship
KINE 500: Advanced Biomechanics (Graduate)
KINE 501: Advanced Motor Control (Graduate)
KINE 506, 507: Seminar (Graduate)
KINE 595: Practicum (Graduate)
BIO 181: Introduction to Biology
KIN 345: Motor Control, Development and Learning
KIN 494/598: Comparative Biomechanics (Undergraduate/Graduate)

Year	Term	Course	Section	Units	# students	Other Info
2021	Spring	KINE 301	Lecture	3	40	Adapt KINE 301 course to be accessible via in-person and synchronous/asynchronous online formats
2021	Spring	KINE 301	Lab 1	1	21	Adapt KINE 301 labs to be accessible via in-person and synchronous/asynchronous online formats
2021	Spring	KINE 301	Lab 2	1	19	
2021	Spring	KINE 303	Lecture	3	21	
2020	Fall	KINE 495	Internship	3	49	Adapted to provide alternative assignments for internships
2020	Fall	KINE 202	Lecture	3	59	Adapted for asynchronous or synchronous participation
2020	Fall	KINE 303	Lecture	3	32	New Preparation: change from lecture to active learning for asynchronous or synchronous participation
2020	Spring	KINE 301	Lecture	3	36	Emergency transition to online instruction
2020	Spring	KINE 301	Lab 2	1	18	
2020	Spring	KINE 301	Lab 1	1	18	
2020	Spring	KINE 495	Internship	3	34	
2019	Fall	KINE 495	Internship	3	59	New Preparation
2019	Fall	KINE 501	Lecture	1	22	New Preparation
2019	Fall	KINE 501	Lab	1	22	New Preparation
2019	Spring	KINE 507	Seminar	3	14	
2019	Spring	KINE 301	Lecture	3	50	(Covered for faculty member on leave)
2019	Spring	KINE 301	Lecture	3	36	
2019	Spring	KINE 301	Lab 2	1	18	
2019	Spring	KINE 301	Lab 1	1	18	
2018	Fall	SABBATICAL				Developed Research infrastructure
2018	Fall	SABBATICAL				Created Reasoned Writing Website
2018	Spring	KINE 202	Lecture	4	32	New Preparation
2018	Spring	KINE 301	Lab 2	1	18	
2018	Spring	KINE 301	Lab 1	1	18	
2018	Spring	KINE 301	Lecture	3	36	
2017	Fall	KINE 595	Practicum	3	10	
2017	Fall	KINE 301	Lecture	3	36	
2017	Fall	KINE 301	Lab 1	1	18	
2017	Fall	KINE 301	Lab 2	1	18	
2017	Summer	KINE 301	Lecture	3	19	Re-structured course to use written case-studies.
2017	Summer	KINE 301	Lab	1	19	
2017	Spring	KINE 506	Seminar	3	10	New Preparation
2017	Spring	KINE 301	Lecture	3	35	
2017	Spring	KINE 301	Lab 1	1	17	
2017	Spring	KINE 301	Lab 2	1	18	
2016	Fall	KINE 500	Lecture	3	12	New preparation
2016	Fall	KINE 500	Lab	1	12	New preparation
2016	Fall	KINE 301	Lecture	3	35	
2016	Fall	KINE 301	Lab 1	1	16	
2016	Fall	KINE 301	Lab 2	1	19	
2016	Summer	KINE 301	Lecture	3	18	
2016	Summer	KINE 301	Lab	1	18	
2015	Fall	KINE 301	Lecture	3	36	
2015	Fall	KINE 301	Lab 1	1	18	
2015	Fall	KINE 301	Lab 2	1	18	
2015	Spring	KINE 301	Lecture	3	36	

2015	Spring	KINE 301	Lab 1	1	20	Scientific writing online lectures recorded (10 sections)
2015	Spring	KINE 301	Lab 2	1	16	
2014	Fall	KINE 301	Lecture	3	36	
2014	Fall	KINE 301	Lab 1	1	20	New Prep: troubleshoot lab equipment, developed, tested and implemented new lab activities
2014	Fall	KINE 301	Lab 2	1	16	
2014	Summer	KINE 301	Lecture	3	28	
2014	Spring	KINE 301	Lecture 1	3	32	My online lectures used as content for 2 Temecula sections
2014	Spring	KINE 301	Lecture 1	3	32	
2013	Fall	KINE 301	Lecture 1	3	35	Lectures split into 82 question-based segments and online lectures re-recorded
2013	Fall	KINE 301	Lecture 2	3	35	
2013	Summer	KINE 301	Lecture	3	15	
2013	Spring	KINE 301	Lecture 1	3	35	Case studies, Scientific Writing Detailed course evaluations implemented
2013	Spring	KINE 301	Lecture 2	3	35	
2012	Fall	KINE 301	Lecture 1	3	36	Full (1+ hour) online lectures recorded and employed
2012	Fall	KINE 301	Lecture 2	3	35	
2012	Summer	KINE 301	Lecture	3	15	
2012	Spring	KINE 301	Lecture 1	3	35	Start at CSUSM
2012	Spring	KINE 301	Lecture 2	3	35	
2011	Fall	BIO 181	Lecture	4	378	ASU (Intro. Biology., New prep.)
2010	Fall	KIN 345	Lecture	3	157	ASU (Motor Control)
2010	Spring	KIN 345	Lecture	3	154	ASU (Motor Control)
2009	Fall	KIN 494/598	Lecture	3	25	ASU (Comparative Biomechanics, Ugrad+ Grad)
2009	Spring	KIN 345	Lecture	3	168	ASU (Motor Control)
2008	Fall	KIN 494/598	Lecture	3	31	ASU (Comparative Biomechanics, Ugrad+ Grad, New Prep.)
2008	Spring	KIN 345	Lecture	3	150	ASU (Motor Control, New prep.)

ADDITIONAL TEACHING EXPERIENCE

Integrative Biology 150 (Berkeley) – *Physiological Ecology*. GSI with Professor Robert J. Full.
 Integrative Biology 150L (Berkeley) – *Physiological Ecology Laboratory*. GSI with Professor Robert J. Full.
 Integrative Biology 160 (Berkeley) – *Evolution*. GSI with Professor David Wake.

LANGUAGES SPOKEN

English (primary), Spanish (Conversational)

SERVICE

PROFESSIONAL SERVICE

Journal Referee

Ad-Hoc reviewer for: *Journal of Experimental Biology*, *Journal of Biomechanics*, *Journal of Neuroscience*, *Exercise and Sport Sciences Reviews*, *Integrative and Comparative Biology*, *Journal of Neurophysiology*, *Medical Engineering and Physics*, *Transactions on Neural Systems & Rehabilitation Engineering*, *IEEE Transactions on Biomedical Engineering*, *Journal of Experimental Zoology*, *Journal of Theoretical Biology*, *Journal of Mathematical Biology*, *Journal of Applied Biomechanics*, *Biological Cybernetics*, *Chaos*, *Neuroscience*, *Journal of Biomechanical Engineering*, *PLoS Computational Biology*, *Ergonomics*, *Journal of Human Evolution*, *American Journal of Physical Anthropology*, *PLoS One*, *Proceedings of the Royal Society B*, *Journal of the Royal Society Interface*, *Physical Biology*, *SpringerPLUS*, *Biology Letters*, *Bioinspiration and Biomimetics*

Grant Reviewer

- 2020 Scientist reviewer for Congressionally Directed Medical Research Programs Spinal Cord Injury Research Program (SCIRP) (Department of Defense)
- 2017 Scientist reviewer for Congressionally Directed Medical Research Programs Spinal Cord Injury Research Program (SCIRP) (Department of Defense)
- 2016 Scientist reviewer for Joint Warfighters Medical Research Program (Department of Defense)
- 2015 Ad-Hoc reviewer for Congressionally Directed Medical Research Programs Spinal Cord Injury Research Program (SCIRP; Department of Defense)
- 2014 Ad-Hoc reviewer for Joint Warfighters MRP (Department of Defense)
- 2014 Scientist reviewer for Joint Warfighters Medical Research Program (Department of Defense)
- 2012 Scientist reviewer for Congressionally Directed Medical Research Programs Spinal Cord Injury Research Program (SCIRP) (Department of Defense)
- 2012 Scientist reviewer for Congressionally Directed Medical Research Programs Spinal Cord Injury Research Program (SCIRP; Department of Defense)
- Ad-Hoc reviewer for: National Science Foundation, Craig H. Neilsen Foundation.

UNIVERSITY SERVICE

- 2012-2013 CEHHS Representative, Long-term Academic Master Plan (LAMP) committee (CSUSM)
- 2015-2016 Selection for and participation in CSUSM Campus Connect

COLLEGE SERVICE

- 2013-2014 Kinesiology Representative, Budget and Academic Planning (BAPC) committee (CSUSM)
- 2012-2013 Kinesiology Representative, Dean's Advisory committee (CSUSM)

DEPARTMENT SERVICE

- 2012-2015 Faculty Advisor, Pre-Physical Therapy option (~70 students) (CSUSM)
- 2010-11 Member, Curriculum Reform Committee, School of Life Sciences, Arizona State University
- 2009-10 Director, Graduate Studies, Dept. of Kinesiology, Arizona State University

SCIENTIFIC COMMUNITY SERVICE

- 2018 Organized the 7th annual SICB Southwest Regional Conference (with Diego Sustaita: <https://swobmeetings.wordpress.com/>).

EDUCATIONAL MATERIALS

1. 2020 **D.L. Jindrich**. [Statistics and Research Methods using Spreadsheets](#). A set of 22 active-learning activities that guide students through both empirical (using spreadsheets) and theoretical (using mathematics) approaches to statistics and research methods.
2. 2018 **D.L. Jindrich**. [Reasoned Writing / A Framework For Scientific Papers](#). An online resource for instructors and students to support courses that require scientific reasoning and writing. To access the site, visit: <http://www.reasonedwriting.com>.

(educational materials can also be accessed all together in a ["Book" format](#).)

PEER-REVIWED PUBLICATIONS

1. 2017 D.S. Asakawa#, G.H. Crocker#, A. Schmaltz* and **D.L. Jindrich**. Fingertip forces and completion time for index finger and thumb touchscreen gestures. *J Electromyogr Kinesiol.* **34**:6-13
2. 2017 M. Qiao†, J.J. Abbas and **D. L. Jindrich**. A model for differential leg joint function during human running. *Bioinspir Biomim.* **12**(1):016015
3. 2017 D.S. Asakawa#, J.T. Dennerlein and **D.L. Jindrich**. Index Finger and Thumb Kinematics and Performance For Common Touchscreen Gestures. *Applied Ergonomics*, **58**:176-181

INVITED PRESENTATIONS

1. 2018 **Jindrich, D.L.** Simple mechanical models can help to understand upper-extremity function. Southwest American College of Sports Medicine. (26-27 October, 2018. Costa Mesa, CA).
2. 2015 **Jindrich, D.L.** Comparative studies to understand body- and joint- level mechanics and control of unsteady locomotion. Dynamic Walking. (20-24 July, 2015. Columbus, OH).
3. 2014 **Jindrich, D.L.** and Qiao, M. Terrestrial Dynamics and Control of Unsteady Locomotion. World Congress of Biomechanics. (06-11 July, 2014. Boston, MA).
4. 2014 **Jindrich, D.L.** and Qiao, M. Compensations during unsteady locomotion. Society for Integrative and Comparative Biology Annual Meeting, Terrestrial Locomotion Symposium. (03-07 January 2014. Austin, TX).
5. 2013 **Jindrich, D.L.** The LIMB Lab at CSUSM: Comparative Neuromechanics with Applications to Ergonomics and Rehabilitation. *CSU San Marcos presentation to KPBS* (18 April 2013)
6. 2013 **Jindrich, D.L.** From invertebrates to iPads: applying basic neuromechanics research to biomedicine and public health. *San Diego State University* (11 March 2013)
7. 2012 **Jindrich, D.L.** From invertebrates to iPads: applying basic neuromechanics research to biomedicine and public health. *U.C. Irvine Ecology and Evolutionary Biology Department Seminar* (28 September 2012)
8. 2012 **Jindrich, D.L.** Are constraints the mother of invention? Northeastern University (Boston, MA 07 June 2012)
9. 2011 **Jindrich, D.L.** **The LIMB Lab: Comparative Neuromechanics, with Applications to Ergonomics and Rehabilitation.** Northern Arizona University (Flagstaff, AZ, October 2011)
10. 2011 **Jindrich, D.L.** **Task-Level Control of Unsteady Locomotion in Humans.** Progress in Motor Control VIII (Cincinnati, OH, July 2011).
11. 2008 **Jindrich, D. L.** **Biomechanics and Motor Control of Unsteady Locomotion, with Applications.** Johns Hopkins University. (Baltimore, MD. 19 November 2008).
12. 2006 **Jindrich, D. L.** **Functional recovery following spinal cord injury in Rhesus Monkeys.** UCLA Neural Repair Seminar Series. (Los Angeles, CA. 28 April 2006).
13. 2005 **Jindrich, D. L.** **Strategies for restoring function following spinal cord injury.** Institute for Neuromorphic Engineering Workshop. (Zurich, Switzerland, 21-25 August 2005).
14. 2005 **Jindrich, D. L.** **Unsteady Locomotion.** Society for Experimental Biology Annual Meeting Symposium. (Barcelona, Spain, 11-15 July 2005).
15. 2004 **Jindrich, D. L.** **Stability and maneuverability of locomotion, with applications.** Harvey Mudd College Biology Department seminar. (Claremont, CA., 17 November 2004).
16. 2004 **Jindrich, D. L.** **Stability and maneuverability.** University of Southern California seminar series. (Los Angeles, CA., 7,11 October 2004).
17. 2004 **Jindrich, D. L.** **Unsteady locomotion in bipeds and polypeds.** Royal Veterinary College seminar series. (Brookman's Park, U.K. 19 July 2004).
18. 2003 **Jindrich, D. L.** **Running Roaches and Repetitive Motions: Studying the Mechanics of Movement.** Stanford University Biomechanical Engineering Seminar. (Palo Alto, CA. 02 May 2003).
19. 2002 **Jindrich, D. L.** **Stability, maneuverability, and control of rapid cockroach locomotion.** M.I.T. Computational Motor Control seminar. (Boston, MA. 28 August 2002).

20. 2002 **Jindrich, D. L. Stability, maneuverability, and control of rapid cockroach locomotion.** Harvard School of Public Health Work in Progress seminar. (Boston, MA. 05 March 2002).
 21. 1998 **Jindrich, D. L. and Full, R. J. Stability and maneuverability: theoretical models and empirical correlates.** 1998 DARPA Michigan Site Visit. (Ann Arbor, MI. 9 December 1998).
 22. 1997 **Jindrich, D.L. Control strategies for dynamic locomotion.** Workshop on Modeling and Simulation of Biomechanical Systems. (Bielefeld, Germany. 5-6 June, 1997).
 23. 1997 **Jindrich, D. L. Reflexes and stability during rapid locomotion.** Office of Naval Research Legged Locomotion Workshop. (Cambridge, MA. 28-31 May, 1997).
 24. 1997 **Jindrich, D.L. Using internet information servers to provide resources for research, instruction, and community outreach programs.** Colloquium on Using the Internet for Instruction and Outreach. (Berkeley, CA. 1997).
 25. 1996 **Jindrich, D. L. The AAPE center at U. C. Berkeley: using data acquisition, analysis, presentation, and exchange to address biological complexity.** ACM SIGGRAPH. (New Orleans, LA, 1996).
 26. 1995 **Jindrich, D. L. Locomotor behavior of the cockroach: mechanics and nervous organization.** Santa Fe Institute's Complex Systems Summer Program. (Santa Fe, NM. 1995).

GRANTS AND CONTRACTS

A. Current (funded)

B. Submitted (pending)

C. In Revision

TITLE: Determining how music-based activity reduces fall risk in older adults		
SOURCE: NIH (NINDS)	PERIOD: 2019-2023	STATUS: Submitted 02/2019. Not funded.
TYPE: R15	BUDGET: \$1,775,129.00	ROLE: Co-PI (with H. Kang)
DESCRIPTION: Proposal to understand how music can be used to improve fall-prevention strategies in the elderly.		

TITLE: How music-cued multitasking modifies dynamic balance recovery to reduce falls in the elderly		
SOURCE: NIH (NINDS)	PERIOD: 2019-2021	STATUS: Submitted 02/2018. Impact Score: 44 (36%). Not funded.
TYPE: R15	BUDGET: \$447,000	ROLE: Co-PI (with H. Kang)
DESCRIPTION: Revision of proposal to understand and improve fall-prevention strategies in the elderly.		

TITLE: How music-cued multitasking modifies dynamic balance recovery to reduce falls in the elderly		
SOURCE: NIH (NINDS)	PERIOD: 20018-2020	STATUS: Submitted to NIH, Not Funded.
TYPE: R15	BUDGET: \$447,000	ROLE: PI
DESCRIPTION: Proposal to understand and improve fall-prevention strategies in the elderly.		

TITLE: Neuomotor Control of Unsteady Locomotion		
SOURCE: NIH (NINDS)	PERIOD: 2014-2017	STATUS: Submitted 06/2013. Not funded.
TYPE: R15	BUDGET: \$370,000.00	ROLE: PI
DESCRIPTION: Proposal to understand the relationship between the control of stability and maneuverability during human locomotion.		

TITLE: A Biomechanics-Based Neuoprosthetic Controller for Locomotion		
SOURCE: NIH (NINDS)	PERIOD: TBD	STATUS: Submitted to NIH, Not Funded.
TYPE: R21	BUDGET: \$275,000	ROLE: PI
DESCRIPTION: Proposal to develop a neuroprosthetic control system for locomotion that takes advantage of the energy-saving and intrinsically-stabilizing mechanical mechanisms used by animals during locomotion.		

TITLE: Using Ultrasound to Stimulate Spinal and Peripheral Neurons

SOURCE: NIH (NINDS), NSF (RAPD) **PERIOD:** TBD **STATUS:** Submitted to DoD CDMRP, Selected as Alternate
TYPE: HDA **BUDGET:** \$136,000 **ROLE:** PI
DESCRIPTION: Proposal to evaluate the potential for non-invasive ultrasound to modulate spinal and peripheral neural circuitry.

TITLE: A Meta-Analysis of Spinal Cord Injury Therapies
SOURCE: NSF (RAPD), Neilsen Foundation, CDRF **PERIOD:** TBD **STATUS:** Submitted to DoD CDMRP, Not Funded
TYPE: HDA **BUDGET:** \$136,000 **ROLE:** PI
DESCRIPTION: Proposal to perform a meta-analysis of treatments for spinal cord injury.

D. In Preparation

TITLE: Morphological and Physiological Interactions Underlying Unsteady Locomotion.
SOURCE: NSF (IOS) **PERIOD:** TBD **STATUS:** In Preparation.
TYPE: TBD **BUDGET:** TBD **ROLE:** PI
DESCRIPTION: Proposal to better understand the interactions among size, phylogeny, and morphology that underlie the performance and control of stability and maneuverability.

E. Completed

TITLE: HCC Medium: A toolkit to evaluate the effect of multitouch interaction on musculoskeletal system and design safe multitouch systems
SOURCE: NSF (IIS/HCC) **PERIOD:** 2010-2016 **STATUS:** Funded: NSF 0964220
TYPE: MEDIUM **BUDGET:** \$1,200,000 **ROLE:** PI (with Jack Dennerlein)
DESCRIPTION: Proposal to develop a toolkit to aid in the design of multitouch interfaces to prevent injuries.

TITLE: Plasticity and Regeneration in the Primate Spinal Cord
SOURCE: National Institutes of Health **PERIOD:** 2006-2011 **STATUS:** Approved
TYPE: R01 **ROLE:** Researcher
DESCRIPTION: Continuation of a project to understand the functional and anatomical consequences of spinal cord injury in primates, and evaluate therapeutic strategies. I managed the UCLA contribution of this successful collaborative proposal between UCLA, UCSD, and UCD.

TITLE: Combined OEG transplantation and step training promote regeneration in adult SCI
SOURCE: National Institutes of Health **PERIOD:** 2006-2010 **STATUS:** Approved
TYPE: R01 **ROLE:** Researcher
DESCRIPTION: Proposal to evaluate the effectiveness of olfactory ensheathing glial cells and step training in improving locomotion following spinal cord injury. This project will also use neurophysiological studies to investigate the mechanisms of improved function following treatment with OEG cells. I contributed to the overall design of the study, oversaw the functional analysis of the data, and contributed to writing the proposal.

SOURCE: National Science Foundation **PERIOD:** 1996-1998 **STATUS:** Completed
TYPE: Graduate Research Fellowship **COSTS:** Stipend: \$15,000 / year
DESCRIPTION: Fellowship granted for graduate study in Integrative Biology at the University of California, Berkeley.
